M E 522 Thermodynamics (3) Topics from statistical thermodynamics, including the Boltzmann, Bose-Einstein, and Fermi-Dirac statistics. Solutions of the Schrodinger wave equation and evaluation of the partition function for translation, rotation, and vibration. Prerequisite: M E 521 or permission of instructor. Instructors: Malte

M E 523 Energy and Environment Seminar (1, max. 20) Malte Student discussions of topics in combustion science and technology, alternative fuels, renewable energy, environmental consequences of energy conversion, and design for environment. Also, presentations by outside experts. May be repeated for credit. Credit/no-credit only. Offered: AWSp.
**M E 524 Combustion (3)** Chemical and physical processes of combustion with applications to design of combustors, fuel selection, and consideration of environmental effects. Prerequisite: graduate standing in mechanical engineering or permission of instructor. Instructors: Kramlich Offered: Sp, odd years.

**M E 525 Applied Acoustics I (3)** Introduces acoustics through various applications such as medical ultrasound, underwater sound, noise control and vibrations. Includes linear acoustics, wave equation, planewave solutions, acoustics scales; reflection, refraction, scattering and diffraction, acoustic sources, radiation form transmission through plates. Prerequisite: graduate standing in Engineering, allied field, or permission of instructor. Instructors: Dahl, Reinhall Offered: Sp.

**M E 526 Special Topics in Acoustics (3)** Advanced study of special topics in acoustics, such as medical ultrasound, underwater sound, noise control and vibrations. Prerequisite: ME 525, or permission of instructor. Instructors: Dahl, Reinhall Offered: A.

**M E 527 Musculoskeletal Biomechanics (4)** Engineering principles and mechanics applied to the musculoskeletal system including structure-function property relationships of musculoskeletal tissues, the biomechanics of joint systems, and applications of biomechanics in industry and research. Offered: jointly with BIOEN 520.

**M E 528 Acoustics of Environmental Noise (4)** Offered: jointly with CEWA 554.

**M E 529 Advanced Energy Conservation Systems (4)** *Kramlich* Covers advanced energy conversion systems and technologies, including high efficiency combined cycles, advanced rankine, integrated gasification combined cycle, nuclear, biomass thermal conversion, and fuels cells. Discusses environmental consequences. Offered: A.

**M E 530 Radiative Heat Transfer (3)** *Mescher* Covers black and gray body radiation, radiative material properties, radiation exchange between surfaces, radiation in participating media, and combined radiation with conduction or convection. Offered: W.

**M E 531 Conductive Heat Transfer (3)** Analysis of steady-state and transient heat conduction in single- and multidimensional systems by mathematical, graphical, numerical, and analogical methods. Prerequisite: graduate standing in mechanical engineering or permission of instructor.

**M E 532 Convective Heat Transfer (3)** Introduction to fluid flow and boundary-layer theory as applicable to forced- and natural-convection heat transfer. Condensation and boiling heat transfer. Prerequisite: graduate standing or permission of instructor. Instructors: Kramlich Offered: Sp.

**M E 534 Fluid Mechanics II (3)** Review of basic principles, some exact solutions and their interpretation, waves (water waves, sound waves, shock waves), boundary layers, jets and wakes, flow stability, turbulence, applications. Prerequisite: M E 507 or permission of instructor. Instructors: Riley Offered: W.
M E 535 Computational Techniques in Mechanical Engineering (3) Advanced heat transfer studies of interest to mechanical engineers. Subject coverage varies from year to year. Prerequisite: permission of instructor. Instructors: Emery Offered: Sp.

M E 536 Micro and Nanoscale Fluid Transport Phenomena (3) Posner, Shen Focuses on fundamental fluid transport physics at the micro/and nanometer scale for applications in micro/nanofluidic devices. Presents the core concepts of low-Reynolds number Newtonian fluid mechanics; mass transfer; charged double layers; electrokinetically driven flow and transport; and surface tension. Discusses state of the art micro and nanoscale total analytical devices. Offered: WSp.

M E 537 Topics in Fluid Mechanics (3) Selected fluid mechanics relevant to current advances in research and application. Topics selected vary with faculty and student interest, but have included flow stability, special topics in turbulence, and turbulent reacting flows.

M E 538 Advanced Fluid Mechanics (4) J. RILEY Advanced topics in fluid mechanics, including kinematics; potential theory and vortex dynamics; viscous flow; turbulence; numerical methods; and design. Offered: A.

M E 539 Renewable Energy I (4) J. Mackenzie Covers the underlying physics, manufacturing and performance of current and emerging photovoltaic solar cell and module technologies in a comparative approach. The course will also present practical aspects of the solar resource, module integration, systems and energy production. Recommended: Undergraduate physics and chemistry at the engineering or science level. Students without some previous solid state physics, electronic materials, or semiconductor device coursework may require extra reading. Offered: W.

M E 541 Fatigue of Materials (3) Ramulu Macro and micro aspects of fatigue of metals and fatigue mechanisms. Analytical methods for fatigue and life assessment in advanced materials. Offered: W.

M E 543 Fluid Turbulence (3) Methods of characterizing fluid turbulence; probability concepts; spatial and temporal velocity correlations; spectral energy transfer; turbulent diffusion; isotropic turbulence and Kolmogoroff's hypothesis; Taylor's hypothesis; hot-wire measurement techniques. Prerequisite: 3 credits of graduate level fluid mechanics or permission of instructor. Offered: W, even years.

M E 544 Advanced Turbulence Modeling Techniques (3) The Reynolds stress transport equations; plane homogeneous shear flow; modeling the pressure-strain, diffusion, and dissipation rate correlation tensors; one and two-equation turbulence models; near-wall turbulence and wall functions; limitations of length scale and eddy viscosity modeling. Prerequisite: 3 credits of turbulence-related coursework. Instructors: Riley Offered: Sp, even years.
M E 546 Micro-Scale Heat Transfer (3) Mescher Covers advanced heat conduction and radiation principles, emphasizing micro-scale applications. Offered: Sp, odd years.

M E 547 Linear Systems Theory (4) Linearity, linearization, finite dimensionality, time-varying vs. time-invariant linear systems, interconnection of linear systems, functional/structural descriptions of linear systems, system zeros and invertibility, linear system stability, system norms, state transition, matrix exponentials, controllability and observability, realization theory. Offered: jointly with A A 547/E E 547.

M E 548 Linear Multivariable Control (3) Introduction to MIMO systems, successive single loop design comparison, Lyapunov stability theorem, full state feedback controller design, observer design, LQR problem statement, design, stability analysis, and tracking design. LQG design, separation principle, stability robustness. Prerequisite: A A 547/E E 547/M E 547. Offered: jointly with A A 548/E E 548.

M E 550 Nonlinear Optimal Control (3) Calculus of variations for dynamical systems, definition of the dynamic optimization problem, constraints and Lagrange multipliers, the Pontryagin Maximum Principle, necessary conditions for optimality, the Hamilton-Jacobi-Bellman equation, singular arc problems, computational techniques for solution of the necessary conditions. Offered: jointly with A A 550/E E 550.

M E 551 Elasticity I: Elastostatics (3) Taya Elastostatics, including general formulations of 2D and 3D elastostatic problems (stress function method, complex variable method, displacement potential method). Eshelby's method is emphasized and used to solve 2D and 3D problems with special application to composite materials. Offered: W.

M E 552 Viscoelasticity and Plasticity (3) Taya Covers viscoelasticity, including the stress-strain equations in terms of convolution integral, Fourier transform, and Laplace transform modes. Plasticity focuses on generalized plastic behavior.

M E 553 Adhesion Mechanics (3) Introduction to adhesive systems and test/evaluation techniques. Stress/strain analysis methods used with adhesive joints. Examples of practical applications. Prerequisite: graduate student status or permission of instructor. Instructors: Tuttle Offered: Sp, even years.

M E 555 Thermoelasticity (3) Basic equations of thermoelasticity for isotropic elastic solids. Analysis of disks, cylinders, spheres, beams, and plates under steady temperature and sudden and slow heating and cooling. Introduction to thermoelastic stability. Prerequisite: M E 551 or permission of instructor. Instructors: Emery
M E 556 Experimental Stress Analysis I (3) Theory and practice of experimental techniques including strain gages and strain gage-based devices, thermocouples, LVDTs, and transducer design. Lecture and laboratory. Prerequisite: graduate standing or permission of instructor. Instructors: Tuttle Offered: A.

M E 557 Experimental Stress Analysis II (3) Theory and practice of optical mechanics, including interferometric techniques (moire and holographic), geometric moir methods, and photoelasticity. Lecture and laboratory. Prerequisite: graduate standing or permission of instructor. Instructors: Tuttle Offered: W, even years.

M E 559 Introduction to Fracture Mechanics (3) Ramulu Applications of linear fracture mechanics to failure analysis and fracture control based on actual case studies. Fracture toughness and fatigue testing techniques, crack initiation, and propagation fatigue life prediction of mechanical components subjected to environmental effects. Offered: W.

M E 561 Mechanics of Thin Films (3) Wang Provides an overview of the thin film deposition processes; the stress and microstructure development during film growth; the mechanisms of adhesion; delamination and fracture; and the state-of-the-art characterization techniques for the microstructure and mechanical properties of thin films, coatings, and nanomaterials. Offered: A.

M E 562 Introduction to Electronic Composites (3) Taya Fundamentals of microstructure-macro-property relation of electronic composites. This course covers applications (computers, laser packages, medical devices, MEMS, avionics), functions (mechanical, thermal, electromagnetic, and optical), microstructure-macro-property relations, processing issues, and modeling of electronic composites. Offered: jointly with MSE 562; Sp.

M E 563 Advanced Composites: Design and Manufacturing (3) Manufacturing and processing techniques of metal-, polymer-, and ceramic-matrix composites; design considerations related to manufacturing techniques; non-destructive testing of composite structures. Fiber-matrix interfacial features and interactions. Interfacial thermodynamics applied to selection of fiber-matrix combinations. Prerequisite: MSE 475 or M E 450 or equivalent by permission of instructor. Offered: jointly with MSE 563; Sp.

M E 564 Mechanical Engineering Analysis (3) Application of mathematical methods to the description and analysis of systems in mechanical engineering. Analogies in heat transfer, fluid flow, stress distribution, dynamics, and feedback control. Prerequisite: graduate standing in mechanical engineering or permission of instructor. Instructors: Storti Offered: A.

M E 565 Mechanical Engineering Analysis (3) Applications of vectors, matrices, and partial differential equations to mechanical engineering systems, including computational techniques and analogies. Prerequisite: graduate standing in mechanical engineering or permission of instructor. Instructors: Storti Offered: W.

M E 567 Micro- and Nanostructured Biosensors (3) Focuses on biosensors based on micromachining and nanotechnology. The working principles on molecular detection and analysis are introduced with the fabrication process, system integration and evaluation. Helps
students to classify biosensors detecting molecules, design the fabrication process and identify the evaluation methods. Offered: jointly with MOLENG 567; W.

**M E 568 Active and Sensing Materials (3)** Taya Fundamental knowledge of the nano-structure property relations of active and sensing materials, and their devices. Examples of the active and sensing materials include: shape memory alloys (SMAs), ferromagnetic SMAs, ferroelectric, pyroelectric and piezoelectric materials, thermoelectrics, electroactive and conducting polymers, photoactive polymers, photovoltaics, and electrochromic materials. Offered: jointly with MSE 568; Sp.

**M E 570 Manifolds and Geometry for Systems and Control (3)** Introduction to fundamentals of calculus on manifolds and group theory with applications in robotics and control theory. Topics include: manifolds, tangent spaces and bundles, Lie groups and algebras, coordinate vs. coordinate-free representations. Applications from physics, robotics, and control theory. Offered: jointly with A A 570/E E 570; W, even years.

**M E 572 Methodologies for Engineering Design: Conceptual Design (3)** Methodologies particularly useful in the conceptual or preliminary phase of a design. The design process. Impact of formulating independent functional requirements. Physical and functional coupling in design. Case studies in conceptual design of products and processes. Prerequisite: graduate standing or permission of instructor. Instructors: Kumar Offered: W, even years.

**M E 574 Introduction to Applied Parallel Computing for Engineers (3)** D. Storti Utilization of GPU-based parallel computing for engineering applications. Basics of hardware and software for GPU-based parallel computing. Introduction to GPU programming, language extensions, and interfaces. Introduction to parallel methods for numerical analysis and digital design. Applications in imaging, inspection, and computer-aided design. Hands-on experience creating GPU-powered parallel applications. Prerequisite: Introductory computing; graduate standing or permission of instructor; recommended: Some introductory computing experience and graduate standing in engineering Offered: W.

**M E 580 Geometric Methods for Non-Linear Control Systems (3)** Analysis and design of nonlinear control systems focusing on differential geometric methods. Topics include controllability, observability, feedback linearization, invariant distributions, and local coordinate transformations. Emphasis on systems evolving on Lie groups and linearly uncontrollable systems. Offered: jointly with A A 580/E E 580; Sp, even years.

Frequency response of discrete time systems and aliasing. Nyquist stability criterion and gain and phase margins. Discrete-time control law determination by direct z-plane root locus and loop shaping methods. Includes hands-on-with-hardware projects. Prerequisite: AA/EE 447 or ME 471. Offered: jointly with A A 581/E E 581; W.

M E 586 Biology Inspired Robotics (3) S. Fuller Principles and practices for converting insights from biology into functioning robotic systems. Concepts vary from year to year and can include passive dynamic stability, soft and flexure-based robotics, model-free control, mechanical intelligence, and machine learning. Term project. Prerequisite: M E 373 or equivalent Offered: A.

M E 588 Dynamics and Vibrations (3) Variational techniques, Hamilton's principle, Lagrange's equations applied to dynamics of particles and rigid bodies. Vibration analysis of multi-degree-of-freedom and continuous systems. Prerequisite: graduate standing in engineering or permission of instructor. Instructors: Shen Offered: A.

M E 589 Vibrations (3) Study of systems with nonlinear damping and restoring forces excited by deterministic or random inputs. Applications in measurement, testing, and design of mechanical systems. Nonlinear systems are emphasized. Prerequisite: M E 588 or permission of instructor. Instructors: Storti Offered: W, even years.

M E 591 Robotics and Control Systems Colloquium (1, max. 30) Colloquium on current topics in robotics and control systems analysis and design. Topics presented by invited speakers as well as on-campus speakers. Emphasis on the cross-disciplinary nature of robotics and control systems. Credit/no-credit only. Offered: jointly with A A 591/CHEM E 591/E E 591.

M E 593 Feedforward Control (3) Design feedforward controllers for precision output tracking; inversion-based control of non-minimum-phase systems; effect of plant uncertainty on feedforward control; design of feedforward controllers for applications such as vertical take off
and landing aircraft, flexible structures and piezo-actuators. Prerequisite: A A 547/E E 547/M E 547. Instructors: Devasia Offered: jointly with A A 593/E E 593; Sp, even years.

**M E 594 Robust Control (3)** Basic foundations of linear analysis and control theory, model realization and reduction, balanced realization and truncation, stabilization problem, coprime factorizations, Youla parameterization, matrix inequalities, H-infinity and H2 control, KYP lemma, uncertain systems, robust H2, integral quadratic constraints, linear parameter varying synthesis, applications of robust control. Prerequisite: A A 547/E E 547/M E 547. Offered: jointly with A A 594/E E 594; Sp, odd years.

**M E 597 Networked Dynamics Systems (3)** Provides an overview of graph-theoretic techniques that are instrumental for studying dynamic systems that coordinate their states over a signal-exchange network. Topics include network models, network properties, dynamics over networks, formation control, biological networks, observability, controllability, and performance measures over networks. Prerequisite: A A 547/E E 547/M E 547. Offered: jointly with A A 597/E E 597.

**M E 598 Graduate Projects (1-6, max. 9)** Graduate student special projects completed under the supervision of a faculty member. Maximum of 9 credits may be applied toward graduation. Prerequisite: Permission of faculty supervisor and graduate program coordinator Offered: AWSpS.

**M E 599 Special Topics (1-5, max. 18)** Topics of current interest in Mechanical Engineering. Offered: AWSpS.

**M E 600 Independent Study or Research (*)** Written report required. Offered: AWSpS.

**M E 700 Master's Thesis (*)** Offered: AWSpS.

**M E 800 Doctoral Dissertation (*)** Offered: AWSpS.
College of the Environment

College Overview

Dean  Lisa Graumlich  209 Ocean Sciences

Associate Deans  Bruce Nelson, Research  Julia Parrish, Academic Affairs and Diversity

Rapidly changing interactions between the Earth’s environment and human activities drive the research and teaching at the College of the Environment. By connecting some of the world’s leading educators and researchers with students, practitioners, and citizens, the College cultivates communities that work with and learn from each other as they tackle the environmental challenges of the twenty-first century.

For decades the UW has been recognized as home to one of the strongest constellations of environmental and intellectual talent in the world. In fulfillment of a vision for a bold, resourced, enduring, and effective environmental hub, the UW launched the College of the Environment in July 2009. The College fosters existing and new collaborations between faculty, staff, and students who are engaged in the study of the Earth’s dynamic land, water, and atmosphere systems; the development and application of engineering and technological advances; and the impact of policy and human dimensions on the environment and the management of natural resources.

Offering more than 20 degree programs, ranging from bachelor to doctoral, and granting more than 450 degrees annually, the College is comprised of the following core units:

- School of Aquatic and Fishery Sciences
- Department of Atmospheric Sciences
- Department of Earth and Space Sciences
- Program on the Environment
- School of Environmental and Forest Sciences
- School of Marine and Environmental Affairs
- School of Oceanography
- Friday Harbor Laboratories
- Joint Institute for the Study of the Atmosphere and Ocean
- Washington NASA Space Grant Consortium
- Washington Sea Grant Program

College Facilities
The College of the Environment main office is in the Ocean Sciences Building, Suite 200, located at 1492 NE Boat Street. For locations of all College of the Environment buildings, see the Academics-at-a-Glance page for links to campus maps showing the College's school and departmental buildings.

The College’s facilities and field stations include the following, among others: Center for Sustainable Forestry at Pack Forest, Friday Harbor Laboratories, Pacific Northwest Seismic Network, Research Vessel Thomas G. Thompson, and Wind River Crane Canopy Research Center.

Undergraduate Program

The College of the Environment offers the following undergraduate degree options:

Bachelor Degree Programs

Bachelor of Science:

- Aquatic and Fishery Sciences
- Atmospheric Sciences
- Bioresource Science and Engineering
- Earth and Space Sciences (degree options areas: biology, environmental, geology, and physics)
- Environmental Science and Resource Management (degree option areas: landscape ecology and conservation, restoration ecology and environmental horticulture, sustainable forest management, and wildlife conservation)
- Marine Biology
- Oceanography

Bachelor of Arts:

- Environmental Studies

Minors

- Aquatic and Fishery Sciences
- Arctic Studies
- Atmospheric Sciences
- Climate Science
- Earth and Space Sciences
- Environmental Science and Resource Management
- Environmental Studies
- Oceanography
• Restoration Ecology

**Admission**

The College does not have admission requirements beyond those required for admission to the University of Washington. Most of the majors within the College are open admission and can be declared at any time by students in good academic standing, except for the major in Bioresource Science and Engineering within the School of Environmental and Forest Sciences, which has a competitive admission process.

**General Education Requirements**

Minimum 85 credits as follows:

- **Written & Oral Communication:** One 5-credit English composition (C) course from the approved University list with a minimum 2.0 grade; 10 additional writing credits.

- **Quantitative & Symbolic Reasoning (QSR):** 10 credits. See departmental lists for specific quantitative and symbolic reasoning requirements.

- **Areas of Knowledge**
  - **Visual, Literary, & Performing Arts:** 10 credits. Includes courses such as literature, art, music, and drama which stress the essential qualities of individual forms of expression. First- and second-quarter language courses may not be counted toward the VLPA requirement. (May substitute first-year language courses for VLPA requirements by completing a third quarter of a three-course sequence. Language courses at the second-year level and beyond may be counted toward the VLPA requirement.)
  - **Individuals & Societies (I&S):** 20 credits, with at least 10 credits out of major*. Includes courses in subjects such as history, economics, psychology, and sociology which stress the social nature of mankind, and the development and analysis of societies and social institutions.
  - **Natural World (NW):** 20 credits, with at least 10 credits out of major*. See departmental list for specific Natural World requirements.
  - **Additional Areas of Knowledge:** 10 credits

* Definition of "out of major": Course must have an out-of-major prefix and may not overlap with courses required for the major. This includes cross-listed courses.

**Graduate Program**

The College of the Environment offers the following graduate degree options:

- **Master's Degree Programs**
  - **Master of Science:**
    - Aquatic and Fishery Sciences
Science for Teachers Program Overview

The Master of Science in Science for Teachers (MSST) is a graduate degree in science developed specifically for teachers and administered by the College of the Environment. Because science is moving at ever-increasing speeds, with new breakthroughs, innovations and technologies, keeping pace requires science educators to engage in hands-on, high-level, real-life science. The MSST program has three core components: practicing science through an independently-designed research project, deepened disciplinary content knowledge, and the development of an interdisciplinary skill set. These components work together to give teachers the opportunity to experience directly how the three dimensions of the Next Generation Science Standards (cross-cutting concepts, science and engineering practices, core disciplinary ideas) are integrated and realized in cutting-edge contemporary science.
Graduate Program

Master of Science (Science for Teachers)

The College of the Environment offers the Master of Science in Science for Teachers (MSST), a graduate degree in science developed specifically for teachers. The MSST program provides a unique opportunity to conduct scientific research with world-renowned UW faculty and research professionals as a mechanism to strengthen and broaden content knowledge and scientific skill sets. This degree is designed to:

- Move science teachers through the skills that are fundamental to today’s scientific practice – experimental design, data manipulation, data visualization, and science communication
- Create a flexible and personally-tailored elective set within the student’s discipline of choice
- Culminate in the design and implementation of an individualized and independent scientific research project

The flexible course structure is especially designed to fit the needs of K-12 teachers. Course work can be taken throughout the UW, and faculty research mentors range across Colleges of the Environment, Arts and Sciences, Public Health, and Medicine. MSST is intended to be completed in two years and may be compatible with part-time work or teaching. Students may take additional time to complete their degree if needed.

The Master of Science in Science for Teachers does not lead to teacher certification.

Admission Requirements

Admission to the Master of Science (Science for Teachers) degree program is based on evaluation of required application materials in competition with other applicants. Required materials include Graduate Record Examination general test scores, three letters of recommendation, official academic transcripts, minimum GPA of 3.0 required for last two years of study, a bachelor’s degree in a science field (or demonstrated equivalency), and experience working in an educational setting. Applicants must apply directly to, and be accepted by, the University’s Graduate School. Applications are accepted for Autumn Quarter only.

Degree Requirements

36 total credits as follows:

1. 18 credits at the 500-level or higher
2. Minimum 2.7 grade in 18 credits at the 400-level or higher
3. Minimum 3.00 GPA
4. Core courses based on shared skills sets, with a secondary focus on developing student cohorts:
   - SCI T 501; SCI T 502; SCI T 503; SCI T 600 (9-10 credits)
5. Statistics course (5 credits) at the 300-500 level
6. An elective pathway that the student and Graduate Program Coordinator develop based on the disciplinary needs of the student.

Financial Aid

The Master of Science (Science for Teachers) program does not provide funding to students. Applicants in need of support are encouraged to contact the UW Office of Student Financial Aid to explore options for grants, loans, scholarships, and work-study; to apply for College of the Environment Scholarships; and to investigate outside sources of funding.

Course Descriptions

College of the Environment

C ENV 190 Introductory Topics in Environment (1-5, max. 15) Covers topics related to all areas of the environment.

C ENV 410 MESA Introductory Tutor Training Workshop (1) Tutor skills and cultural competence training designed to prepare tutors to work in small groups with Seattle middle and high school students in math and science. Credit/no-credit only. Offered: ASp.

C ENV 420 MESA Introductory Tutor Training Seminar (1-2) Second course in the tutor training program. Continued development of tutoring skills and cultural competence training designed to prepare tutors to work in small groups with Seattle middle and high school students in math and science. Credit/no-credit only. Offered: AW.

C ENV 425 MESA Tutoring Practicum (1-3, max. 15) Trained MESA tutors work in small groups with Seattle middle and high school students in math and science. Develop tutoring skills, share best practices, and problem solve through online interactions with the MESA tutoring program. Credit/no-credit only. Offered: AWSp.

C ENV 430 MESA Advanced Tutor Training Seminar (1-2) Advanced tutor training program. Continued development of tutoring skills and cultural competence training designed to prepare tutors to work in small groups with Seattle middle and high school students in math and science. Credit/no-credit only. Offered: A.

C ENV 490 Special Topics in Environment (1-5, max. 15) Covers topics related to all areas of the environment depending on curricular needs and interests of students and faculty.
C ENV 500 Communicating Science to the Public Effectively (3) Teaches emerging scientists how to effectively communicate their research to the public. Uses lessons and tools such as group discussion, feedback, and practice. Credit/no-credit only. Offered: W.

C ENV 590 Special Topics in Environment (1-5, max. 15) Covers topics related to all areas of the environment depending on curricular needs and interests of students and faculty.

Friday Harbor Labs

FHL 101 Introduction to Marine Biology in the San Juan Islands (1) NW M. Dethier One-weekend, one-credit course designed to introduce students to the marine ecosystem of the San Juan Archipelago and the facilities of the Friday Harbor Laboratories, while doing basic exploration of marine biology. Students will spend two full-schedule days doing a variety of field and lab studies. Offered: Sp.

FHL 305 Biology of Fishes (5) NW Covers the morphological, physiological, behavioral, and ecological diversity of fishes worldwide; provides a basic foundation for advanced courses in all areas of aquatic sciences. Participants engage in field-based collecting, copious dissection/illustration laboratories, and delve into scientific literature on this fascinating group's biology. Recommended: 10 credits biological science. Offered: ASp.

FHL 333 Science Writing for Diverse Audiences (3/5) This course examines the effective communication of scientific ideas in writing for both scientific and public audiences. Students read, analyze, and write diverse materials, learning to identify and practice concise, effective communication about marine science for a variety of audiences. The close-knit, hands-on FHL community creates and environment where students work together both inside and outside of class to build their skills. Recommended: None. Offered: ASp.

FHL 375 Marine Mammals of the Salish Sea (5) NW D. Giles An overview of the marine mammals found in the Salish Sea: their biology, habitats and conservation. Field trips throughout the San Juan Archipelago allow observation of common species, involving identification and recording of behavior in nature. Prerequisite: BIOL 180, FISH 250, ENVIR 100, OCEAN 101, or OCEAN 200. Offered: Sp.

FHL 430 Marine Zoology (5) NW Survey of groups of invertebrate animals represented in the San Juan Archipelago; natural history, functional morphology, ecology, distribution, habitat, adaptation, trophic interrelationships, and evolution. Prerequisite: BIOL 445, which must be taken concurrently; permission of Friday Harbor director. Offered: jointly with BIOL 430.

FHL 432 Marine Invertebrate Zoology (9) NW Comparative morphology and biology of marine invertebrates with emphasis on field and laboratory studies. Representatives of all major and most minor phyla are collected, observed live, and studied in detail. Taken at Friday Harbor Laboratories. Not open for credit to students who have taken BIOL 434. Offered: jointly with BIOL 432; S.
FHL 435 Research Apprenticeship in Marine Science (15) NW Immersive quarter in research in close collaboration with one-three faculty mentors on a specific topic that varies with the apprenticeship. Students engage in laboratory or field research in marine science, involving gathering, analyzing, and communicating results as part of a research team. Offered: jointly with BIOL 435/MARBIO 435; ASpS.

FHL 440 Marine Botany (5) NW Survey of plants represented in marine environments; natural history; ecology, distribution, habitat, adaptation, and trophic interrelationships. Taken at Friday Harbor laboratories. Prerequisite: either BIOL 220, BIO 220, or TESC 140; BIOL 430, which must be taken concurrently. Offered: jointly with BIOL 445.

FHL 446 Marine Botany: Diversity and Ecology (9) NW T. MUMFORD Introduces marine plants - the diversity, life histories, physiology, and ecology of seaweeds, seagrasses, and marsh plants in the Salish Sea. Emphasizes field and laboratory work, including the application of molecular techniques to explore algal diversity and evolution. Offered: S.

FHL 450 Nearshore Ecology Research Experience (6) NW M. Dethier A hands-on introduction of "doing science" in close collaboration with a faculty member. Students engage in research around a thematic focus of ecology of nearshore marine ecosystems, with lab experiments and field work. Students gather, analyze, write up, and present their own data. Offered: jointly with MARBIO 450; ASp.

FHL 460 Aquatic Animals Research Experience (6) NW A hands-on introduction of "doing science" in close collaboration with a faculty member. Students engage in research around a thematic focus of aquatic animals, with lab experiments and field work. Students gather, analyze, write up, and present their own data. Offered: jointly with MARBIO 460; ASp.

FHL 470 Research in Marine Biology (1-15, max. 15) NW B. Swalla A hands-on introduction of "doing science" in close collaboration with a faculty member. Students engage in research in marine biology; credits vary with the scale of the project with may include lab experiments and field work. Students gather, analyze, write up, and present their own data. Offered: jointly with MARBIO 470; ASp.

FHL 490 Marine Sciences Seminar (1, max. 3) NW Students attend seminars by marine scientists each week and ask questions about their seminars. Offered: ASpS.

FHL 492 Ecology and Conservation of Marine Birds and Mammals (9/15) NW An intensive, field-based course that offers motivated students the opportunity to learn about these ecologically and culturally important marine animals and the conservation problems they face. Emphasizes first-hand learning and individual research projects. Offered: jointly with FISH 492/MARBIO 492; S.

FHL 528 Advanced Topics in Fish Biology (9, max. 27) Focuses on various aspects of fish biology, such as functional morphology, sensory biology, or swimming mechanics. Taught at Friday Harbor Laboratories. Offered: S.
FHL 536 Comparative Invertebrate Embryology (9) Studies diversity in developmental patterns in major marine taxa. Analyzes evolutionary changes in development, with emphasis on observation of live embryos and larvae. Offered: jointly with BIOL 536; S.

FHL 548 Advanced Topics in Evolution and Development (9, max. 27) Focuses on various aspects of evolution and development of marine organisms, such as larval biology or evolution and development of metazoans. Students work on individual projects during the course. Taught at Friday Harbor Laboratories. Offered: S.

FHL 568 Advanced Topics in Ecology and Biomechanics (9, max. 27) Focuses on various aspects of ecology and biomechanics of marine organisms, such as experimental ecology, ocean acidification, deep sea biodiversity, or biomechanics. Taught at Friday Harbor Laboratories. Offered: S.

FHL 578 Special Topics in Science Communication (9) NW This FHL course focuses on different aspects of linkages between scientists and the public, including multiple ways to communicate science. Offered at Friday Harbor Laboratories; see FHL website for topic for next summer.

FHL 585 Advanced Topics in Neurobiology and Physiology (9, max. 27) Focuses on various aspects of neurobiology or physiology of marine organisms, such as neurobiology, ethology, or marine chemosensory biology. Taught at Friday Harbor Laboratories. Offered: S.

Science Teaching

SCI T 501 Observational Science and Experimental Design for Teachers (2) Students consider the nature of scientific exploration; practice using observations, evidence, and explanation to make hypotheses; and explore case studies demonstrating various experimental designs. Combines on-line activities, readings, hands-on activities, presentations, and discussions. Offered: A.

SCI T 502 Data Analysis and Visualization for Teachers (2) Students gain experience analyzing and visualizing data sets, evaluate the use of common data visualization tools, and create graphs of their own data sets. Combines on-line activities, readings, hands-on activities, presentations, and discussions. Offered: W.

SCI T 503 Science Communication for Teachers (2) Students examine effective communication of scientific research. Students critically evaluate example presentation from on-campus departmental seminars, practice communicating their own scientific research to mentors and peers, and deliver a formal oral presentation. Offered: Sp.
Aquatic and Fishery Sciences

School Overview

116 Fishery Sciences

The School of Aquatic and Fishery Sciences (SAFS) encompasses multi-disciplinary programs at the interface between the traditional fields of natural history, environmental biology, and natural resource management. Primary foci are the management of sustainable fisheries of commercially important species; biocomplexity and ecosystem-based management; and sustainable aquaculture. In addition, human-induced effects on natural ecosystems (including habitat change and restoration, impacts of climate change, emerging diseases, the effects of invasive species, and processes affecting endangered species and declining populations) are major areas of research. In pursuit of these objectives, a variety of basic sciences are used, including ecology and evolution, population biology, behavior, physiology, microbiology, and genetics. The scope of aquatic systems ranges from watersheds, rivers and lakes, to estuarine and near-shore shelf, open ocean systems and culture facilities. Graduates of the School of Aquatic and Fishery Sciences are uniquely qualified for careers in universities as well as other educational settings, natural resources management agencies at the local to international levels, environmental consulting, and non-profit organizations with an environmental focus.

Undergraduate Program

Adviser  116 Fishery Sciences, Box 355020  206-543-7457  safsadv@uw.edu

The School of Aquatic and Fishery Sciences (SAFS) offers the following programs of study:

- The Bachelor of Science, with a major in aquatic and fishery sciences
- A minor in aquatic and fishery sciences
- An interdisciplinary minor in marine biology
- An interdisciplinary minor in quantitative science

The school's undergraduate program has been substantially modified in recent years to reflect student and faculty interests in ecology and conservation biology, as well as more traditional fields such as stock assessment and fishery management. Faculty dedication to teaching, substantial benefit gained in close faculty contact within a relatively small program, and significant experiential training and research have made SAFS an appealing major that has doubled in recent years. The bachelor of science degree provides an underpinning in sciences such as biology, chemistry, and mathematics/statistics, then adds a core curriculum within aquatic sciences. Students study within areas of individual interest, grouped in three primary areas: aquatic ecology, conservation and management of aquatic resources, and biology and culture of aquatic animals.
Bachelor of Science

Suggested First- and Second-Year College Courses: Recommended courses for first year students: English composition; calculus; CHEM 120 or CHEM 142, and CHEM 220; BIOL 180; and FISH 250 and/or FISH 101. Recommended courses for second year students: BIOL 200 and BIOL 220; Q SCI 381; FISH 310 and/or FISH 311; and any additional courses that meet the College general education requirements. Students should start FISH core courses as soon as they meet the appropriate prerequisites.

Department Admission Requirements

Students in good academic standing may declare this major at any time, including on their application for admission to the UW. After notification of admission and before registration, new students should visit or email the Student Services Office for help in planning their programs.

Graduation Requirements

180 credits

General Education Requirements

All majors must satisfy the College of the Environment general education requirements.

Major Requirements

1. Foundation Courses (50-55 credits)
   a. Mathematics (15 credits): either MATH 124 and MATH 125, or Q SCI 291 and Q SCI 292; Q SCI 381
   b. Chemistry (9-10 credits): either CHEM 120 or CHEM 142; either CHEM 152, CHEM 220, CHEM 223, or OCEAN 295
   c. Biology (15 credits): BIOL 180, BIOL 200; either BIOL 220 or FISH 270/OCEAN 270/MARBIO 270
   d. Physics (4-5 credits): either PHYS 114 or PHYS 121
   e. Two of the following (7-10 credits): either PHYS 115 or PHYS 122; either PHYS 116 or PHYS 123; OCEAN 210; GEOG 205; ATM S 211; OCEAN 230/ESS 230; OCEAN 285; FISH 330/ENVIR 330; ENVIR 313/ESS 315. See adviser for other acceptable courses in this category.

2. Core (minimum 29 credits)
   a. FISH 290; FISH 300/OCEAN 300/MARBIO 300; FISH 310; FISH 311/BIOL 311
   b. Minimum 15 credits from three of the following: FISH 312, FISH 323, FISH 324, and FISH 340/BIOL 340
3. Electives (minimum 16 credits, four courses): 400-level courses from within the School of Aquatic and Fishery Sciences for the major, excluding FISH 453/OCEAN 453, and FISH 477/BIOL 477/OCEAN 477
   a. Maximum 3 credits total from FISH 479/BIOL 479/OCEAN 479, FISH 492/FHL 492/MARBIO 492, FISH 498, FISH 499
   b. Maximum 5 credits from each of FISH 489 and FISH 491
4. Capstone (7-13 credits): FISH 493, FISH 494, FISH 495
5. Minimum 2.00 cumulative GPA in all core, elective, and capstone courses applied to the major.

Continuation Policy

All students must make satisfactory academic progress in the major. Failure to do so results in probation, which can lead to dismissal from the major. For the complete continuation policy, contact the departmental adviser or refer to the department website.

Minor

Aquatic and Fishery Sciences

Minor Requirements: Minimum 28 credits to include three courses (two of which must be at least at the 300 level) from FISH 101, FISH 250, FISH 310, FISH 311, FISH 312, FISH 323, and FISH 324; Q SCI 381 or Q SCI 482; minimum two upper-division FISH courses totaling at least 8 credits. Maximum 11 credits may overlap with a student's major.

Marine Biology

The minor in marine biology is sponsored jointly by the School of Aquatic and Fishery Sciences, the School of Oceanography, and the College of Arts and Sciences, and is designed to immerse students in the study of marine organisms and ecosystems, starting in the freshman year. Because the experience of marine sciences cannot be taught entirely within the classroom, the minor is structured to provide ample opportunity for fieldwork and research within the coursework. A description of the minor can be found under the Interdisciplinary Undergraduate Program section of the catalog.

Quantitative Science

Students interested in quantitative skills applied to biological and ecological fields should consider minoring in quantitative science, an interdisciplinary minor supported by the School of Aquatic and Fishery Sciences and the School of Environmental and Forest Sciences. More information may be found on the Center for Quantitative Science website.
Student Outcomes and Opportunities

- **Learning Objectives and Expected Outcomes:** Aquatic and fishery sciences is a life science major designed to provide students a broad framework of knowledge and sets of skills for employment in a variety of areas (e.g., natural resource management, environmental consulting, fish or aquatic wildlife biology, aquaculture). In addition, students receive excellent preparation for graduate study in a number of life science fields. Expected student outcomes include:

1. Skills in written and oral communication, data analysis, field and laboratory skills. Skill sets have been integrated into all core and flagship courses.

2. Exposure to career paths in the field and interaction with professionals. Skills gained allow students to obtain an entry-level aquatic scientist position or admission to graduate school.

3. Emphasis in one of three focus areas (aquatic ecology, conservation and management, aquatic biology and culture); students get a broad overview, then may specialize in one of the three areas.

4. Strong encouragement to pursue multiple internship and research experiences, including opportunities like FHL research apprenticeships and Alaska Ecological Research Program.

5. Understanding not only of the science, but also the socio-political-economic environment and its impact on the field of aquatic and fishery sciences.

6. All students participate in a capstone experience that requires them to demonstrate acquired skill sets (including public presentation in an undergraduate research symposium).

SAFS graduates pursue careers in the private sector (environmental consulting firms, private companies), the public sector (state and federal agencies, non-profit organizations, non-governmental agencies, education), and many continue into graduate programs in either research or policy. The undergraduate degree prepares students for either direct employment in a number of fields within public and private sectors, or for competitive entry into applicable graduate programs worldwide.

- **Instructional and Research Facilities:** The School of Aquatic and Fishery Sciences is housed in several buildings on the University of Washington campus. In addition, the school maintains various facilities off campus, including field research stations in Washington State and Alaska.

- **Honors Options Available:** With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major).

- **Research, Internships, and Service Learning:** SAFS scientists work closely with employers in both the public and private sectors, leading to opportunities for undergraduates to receive both internship and research experience. Scientists from area agencies (NOAA, National Marine Fisheries, Alaska Fisheries Sciences Center, National Marine Mammal Lab, the U.S. Forest Service, the Student Conservation Association, and
the Seattle Aquarium) come to the school to attend weekly SAFS departmental seminars; undergraduates are encouraged to attend. The School of Aquatic and Fishery Sciences is second only to the UW Medical School in federal research dollars brought to the UW campus, providing many paid hourly student positions within the department.

- **Department Scholarships:** Scholarships are awarded on the basis of academic merit, financial need, and other factors. The annual application process for continuing students begins in spring; check with the Office of Student Services for applications and deadlines. All undergraduates, both freshmen and transfers, are considered for recruitment scholarships if they have declared AFS as their major on their application to the University of Washington.

- **Student Organizations/Associations:** SURF (Society for Undergraduate Resources in Fisheries) organizes social, career, and educational activities for undergraduates in aquatic and fishery sciences. SURF also prints t-shirts, welcomes new students to the program, represents the program at events, and collaborates with student groups in other related departments on events.

**Of Special Note:**

- The School of Aquatic and Fishery Sciences has sent a small group of students and three faculty members to two Alaska Salmon Field Stations for a six-week course in aquatic ecology. These students receive education in ecology, limnology, population modeling, field techniques, scientific writing, and presentation skills.

**Graduate Program**

Graduate Program Coordinator  116 Fishery Sciences, Box 355020  206-616-5893  safs@uw.edu

The School of Aquatic and Fishery Sciences, established in 1919, offers courses and conducts research on the conservation, management, and effective use of natural resources. Education and research in the school include studies of aquatic ecology; ichthyology; population dynamics; management of free-ranging stocks; restoration ecology; and effects of human activities on freshwater and marine ecosystems. SAFS is recognized internationally for its graduate programs, especially in the area of quantitative fisheries management, all research programs are well respected.

Students may apply for admission into programs leading to the master of science or doctor of philosophy. Students who apply for the PhD program must hold a master's degree prior to beginning their doctoral studies. All students who receive a master's degree from the school and wish to pursue a PhD are reviewed by the Recruitment, Admissions, and Scholarship Committee before being accepted into the PhD program.
Master of Science

Admission Requirements

1. A bachelor's degree from an institution of recognized standing with a minimum 3.00 GPA in the last two years (90 quarter credits or 60 semester credits) of college work.
2. Typically at least a 500 on both the verbal and quantitative portions of the GRE and a 5 on the analytic portion (a 500 if taken before October 2002).
3. If an international student, a minimum TOEFL score of 580 on written examination or 237 on computerized examination, or 70 on Internet-based examination.

Degree Requirements

45 credits as follows:

1. *School of Aquatic and Fishery Sciences Core Courses:*
   a. Q SCI 482
   b. At least two of the following, for 2 credits each: FISH 510, FISH 511, FISH 512, FISH 513, FISH 514, FISH 578, or QERM 597
   c. FISH 521
   d. FISH 522
   e. 18 credits of thesis research: FISH 700
2. *Additional Course Requirements:* At least 12 credits of coursework at the 400 or 500 level, in addition to the SAFS core courses listed above. 4 of the 12 credits must be in 500-level courses. At least 9 of the additional 12 credits must be numerically graded.

Doctor of Philosophy

Admission Requirements

1. Minimum 3.00 GPA for last two years (90 quarter credits or 60 semester credits) of graded college work.
2. GRE scores of 500 on the verbal and quantitative sections and 5 on the analytical section (500 if before October 2002).
3. If an international student, a minimum TOEFL score of 580 on written examination or 237 on computerized examination, or 70 on Internet-based examination.

Admission to the PhD Program after Receiving an MS Degree from the School of Aquatic and Fishery Sciences

Students who wish to continue study toward the doctoral degree after receiving a master's from the School must apply to the Graduate Program Coordinator by way of the Student Services Office; the application is considered by the Recruitment, Admissions, and Scholarship Committee and a recommendation is then sent to the director for concurrence or denial.
Applications must be submitted by the sixth week of the quarter in which the master's degree is conferred. For more information, refer to the SAFS website.

**Bypassing the Master's Degree**

Students admitted to the school at the pre-master's level may, under exceptional circumstances, proceed directly to post-master's study. Application should be made to the Graduate Program Coordinator via the Student Services Office for consideration by the Recruitment, Admissions and Scholarship Committee. More information is available on the SAFS website.

Students who bypass the master's degree must complete all PhD requirements within ten years of beginning graduate study, including MS coursework if used to fulfill any PhD requirements.

**Degree Requirements**

Minimum 90 credits, as follows:

1. **SAFS Core Courses:** Same as those required of MS students. Must be taken as part of the doctoral program if they or their equivalents have not been taken during an MS program.
   a. Q SCI 482
   b. At least two of the following, for 2 credits each: FISH 510, FISH 511, FISH 512, FISH 513, FISH 514, FISH 578, or QERM 597
   c. FISH 521
   d. FISH 522
   e. 27 credits of doctoral dissertation: FISH 800 (a maximum of 10 dissertation credits may be taken in any one academic quarter)

2. **Additional Course Requirements:** At least 48 credits of coursework at the 400 level or above, including dissertation credits, are required in addition to the required core courses listed above. Of those, at least 9 credits must be numerically graded.

**Financial Aid**

General information on graduate student support is available from the Office of Student Financial Aid, 105 Schmitz. The majority of first-year graduate students are offered research assistantships by appropriate faculty members, depending on the availability of research funding. The School of Aquatic and Fishery Sciences also has a limited number of fellowship opportunities for outstanding entering students. Other students may have their studies supported by the agency for which they work or they may be international students with scholarships from their home countries.

Graduate applicants are urged to discuss their financial needs with professors in their potential major fields during the early stages of the graduate application process. The graduate applicant is automatically considered for any fellowships, research assistantships, or teaching assistantships...
available from the School of Aquatic and Fishery Sciences when the admission application is submitted.

Course Descriptions

FISH 101 Water and Society (5) I&S/NW Examines ecological and social issues associated with water resources as human populations increase and climate warms. Offered: W.

FISH 230 Economics of Fisheries and Oceans (5) I&S/NW, QSR C. ANDERSON Examines how and why people and businesses make choices that lead to over-fishing, hypoxic zones, and oil spills in aquatic environments. Applies economic principles to understand how alternative policies might change these decisions, and how distributional effects influence politically feasible solutions. Offered: jointly with ECON 230; Sp.

FISH 250 Marine Biology (3/5) I&S/NW Lecture-laboratory course in marine biology focusing on physical, biological, and social aspects of the marine environment. Topics include oceanography, ecology, physiology, behavior, conservation, fisheries, exploration, and activism. Weekend field trip. Honors section research project. Offered: jointly with BIOL 250/OCEAN 250; AS.

FISH 260 Recreational Fisheries: Science, Management, and Policy (3/5) I&S/NW Grue Provides an overview of Washington's recreational fisheries emphasizing science, management, and policy. Optional laboratory focuses on science and technology behind fishing tactics, tackle, and equipment, ways to minimize impacts and enhance conservation, and politics associated with opportunities for recreational anglers. Suitable for students with or without a strong science background. Offered: Sp.

FISH 261 Recreational Fisheries Seminar (1) C. GRUE Overview of issues and perspectives associated with management of Washington's recreational fisheries: opportunity; science and technology behind tactics, tackle and equipment; ways to minimize environmental impacts and enhance conservation of target and non-target species; etiquette; and challenges of enforcing regulations. Suitable for undergraduate students with or without a science background. Offered: S.

FISH 270 Aquatic Ecophysiology (5) NW Focuses on fundamental physiology, with an emphasis on processes relevant to living in a variety of aquatic environments. Includes a broad survey of taxa, from prokaryotes to mammals, and a variety of aquatic habitats. Prerequisite: BIOL 200. Offered: jointly with MARBIO 270/OCEAN 270.

FISH 290 Scientific Writing and Communication (3) Designed to teach undergraduate students how to gather information on scientific questions; critically read scientific writing; learn the structure and functions of scientific papers to effectively communicate; learn techniques for effective communication of science in oral and poster presentations; and understand the ethical boundaries associated with scientific communication. Offered: AW.
FISH 296 Study Abroad: Aquatic and Fishery Sciences (1-15, max. 30) NW For participants in UW study abroad program. Specific content varies and must be individually evaluated. Credit not does not apply to major requirements without approval.

FISH 300 Exploring Opportunities in Marine Science (1) Explores academic, research, and career opportunities in the field of marine science and helps prepare students for graduation. Intended for junior and transfer students studying marine science. Credit/no-credit only. Offered: jointly with MARBIO 300/OCEAN 300; W.

FISH 310 Biology of Shellfishes (5) NW Aquatic invertebrates with emphasis on taxa with economic and cultural significance. Dramatic diversity, adaptation to environment, and evolutionary forces highlighted. Laboratories, field trips. Offered: Sp.

FISH 311 Biology of Fishes (3/5) NW Covers morphological, physiological, behavioral, and ecological diversity of fishes of the world; designed to provide a basic foundation for advanced courses in all areas of aquatic sciences. 3-credit option does not include laboratory. Offered: jointly with BIOL 311; W.

FISH 312 Fisheries Ecology (3/5) NW Ecological characteristics of fishes and shellfishes in the important freshwater and marine habitats of North America. Relationship between physical aspects of the habitats and community structure. Impacts of human activities on diversity and abundance. Prerequisite: BIOL 220 or FISH 270. Offered: Sp.

FISH 323 Conservation and Management of Aquatic Resources (5) NW Topics include population dynamics, extinction risk, meta-populations, marine reserves, bioeconomics, protection of endangered species, sustainable harvesting, and management institutions. Examines case studies such as salmon, albatross, and whales as representative of conservation issues in aquatic sciences. Sampling, experimental design, computer skills, and research writing. Offered: A.

FISH 324 Aquatic Animal Physiology and Reproduction (3/5) NW Adaptations of aquatic animals to environmental challenges. Energy pathways from feeding and digestion through maintenance (metabolism, movement, repair), homeostasis (respiration, osmoregulation, thermoregulation), growth and reproduction (sex determination, manipulation, sex change). Roles of sensory, nervous, and endocrine systems in mediating environmental information. Hands-on laboratory. Prerequisite: BIOL 220 or FISH 270. Offered: W.

FISH 328 Forestry-Fisheries Interactions (4) NW Offered: jointly with ESRM 328.

FISH 330 Climate Change Impacts on Marine Ecosystems (5) NW Links physics of climate to marine ecosystem processes, exploring both observed climate impacts from the past and projected ecosystem changes due to human-caused climate change in the future. Case studies include polar, sub-arctic, temperate, tropical, and upwelling ecosystems, and ocean-acidification and its projected impacts. Recommended: Requires high school or college physics and algebra with a basic understanding of Newton's Laws and the ability to comprehend and construct vector diagrams. Offered: jointly with ENVIR 330; Sp.
FISH 340 Genetics and Molecular Ecology (5) NW Application of molecular markers to ecology, evolution, and the management of living resources. Emphasis on understanding the strengths and weaknesses of the approach based on case studies. Prerequisite: BIOL 200. Offered: jointly with BIOL 340; A.

FISH 370 Marine Evolutionary Biology (5) NW Emphasizes geobiological patterns of marine evolutionary biology environment; processes of evolution; marine prokaryote and eukaryote diversity; and applications of evolutionary principles to ocean change, and conservation and management of marine biodiversity. Prerequisite: either FISH 270/OCEAN 270/MARBIO 270 or BIOL 220. Offered: jointly with MARBIO 370/OCEAN 370; Sp.

FISH 404 Diseases of Aquatic Animals (5) NW Overview of communicable and noncommunicable diseases that affect fish and shellfish. Major pathogens of free-ranging as well as captive animals discussed. Students learn to recognize, prevent, and control economically and ecologically important disease syndromes. Offered: Sp, even years.

FISH 406 Parasite Ecology (5) NW Introduces students to disease ecology theory, with emphasis placed on the ecological processes that govern parasite transmission. Topics include parasite diversity, evolution, and taxonomy, distribution, ecology, and physiological effects of parasites on human and wildlife hosts, and parasites as players in food webs. Pre-req: BIOL 180 Prerequisite: BIOL 180; recommended: Offered: A.

FISH 423 Aquatic Invasion Ecology (4) QSR Explores the patterns, drivers, and consequences of species invasions in freshwater, estuary, and marine ecosystems. Focuses on the science and management needs for preventing, controlling, and eradicating invasive species. Topics illustrated with cases from the Pacific Northwest and the world. Prerequisite: either BIOL 462 or BIOL 180.

FISH 424 Biology and Culture of Aquatic Organisms (5) NW Explores the concept of sustainability and the interrelationship between environment, aquatic species, and culture of aquatic animal and plant species globally. Current practices, animal biology and health, near-shore ecosystem conservation, water quality, and strategies to improve the sustainability of aquaculture for food production and species conservation. Offered: Sp, odd years.

FISH 428 Stream and Watershed Restoration (5) NW Overview of restoration principles and techniques with specific application to freshwater aquatic systems. Develops knowledge and skills to assess ecosystems conditions, identify and prioritize restoration opportunities, and evaluate them from a scientific and economic perspective. Prerequisite: either BIOL 356, ESRM 304, or FISH 312. Offered: Sp, even years.

FISH 437 Fisheries Oceanography (4) Investigates how the environment influences distributions and abundances of marine vertebrate and invertebrate species. Uses studies to understand fish and zooplankton life histories, predict trends in populations, reduce uncertainty in resource management, and to decouple anthropogenic from natural effects on aquatic populations. Offered: W.
FISH 441 Integrative Environmental Physiology (3/5) NW Comparative advanced aquatic physiology focusing on the functional response of organisms to natural and human-associated environmental stress. Offered: A.

FISH 444 Conservation Genetics (5) NW Advanced genetic concepts and methods related to species' conservation and management. Includes genetic diversity and evolution, small populations and fragmentation, genetic viability, management of wild and captive populations, reintroductions, hatchery-wild interactions and forensics. Labs include molecular techniques. Offered: W.

FISH 447 Watershed Ecology and Management (3) NW G. HOLTGRIEVE Investigation of stream and river ecosystems from a watershed perspective. Emphasis on fundamental processes affecting the structure and function of flowing aquatic ecosystems and their catchments. Topics include river/stream hydrology, geomorphology, nutrient spiraling, food webs, and global change. Case studies explore human interactions with rivers and approaches to river management. Prerequisite: BIOL 180 or ESRM 201 or FISH 101. Offered: jointly with ESRM 447; Sp.

FISH 448 Watershed Ecology and Management Lab (2) Hands-on examination of river and stream ecosystems with emphasis on physical and biological processes, field methods, analysis of data, and writing scientific papers, includes field trips. Prerequisite: ESRM 447 or FISH 447 which may be taken concurrently. Offered: jointly with ESRM 448; Sp.

FISH 450 Salmonid Behavior and Life History (3/5) NW Behavior, ecology, life history, and conservation of salmon and trout, including their distribution, homing migration, reproduction, ecology of juveniles in different freshwater habitats, seaward migration, and the ecological and evolutionary factors affecting them. Offered: A.

FISH 452 Marine Geospatial Information Science (3) NW Introduces the use of Geographic Information Systems (GIS), seafloor mapping, hydrographic surveying, and spatial analysis in ocean science. Emphasizes sampling and analysis of spatially-referenced data about the coastal and marine environments, integrating these technologies in an applied research setting. Offered: jointly with OCEAN 452; A.

FISH 454 Ecological Modeling (5) NW T. ESSINGTON Examines concepts in ecological modeling focusing on the rationale, interpretation, and motivation for modeling in ecological sciences. Explores individual, population, and ecosystem-based models. Excel-based computer exercises, model building and interpretation, readings. Offered: jointly with Q SCI 454; W.

FISH 455 Fish and Wildlife Toxicology (3/5) NW Overview of fish/wildlife toxicology: history of the field; regulations; methods used to assess risks contaminants pose to fish/wildlife; classes of contaminants and their direct, sublethal and indirect effects; and contemporary threats of contaminants to fish/wildlife, their habitats and prey. Includes laboratory. Offered: jointly with ESRM 457; W.
FISH 458 Modeling and Estimation in Conservation and Resource Management (4) NW T. BRANCH Explores the use of models in the evaluation of alternative management policies for natural resources, including modeling approaches, fitting models to data, and evaluating alternative management policies. Emphasizes calculating risk of extinction, and design of biological reserves. Offered: jointly with Q SCI 458; Sp.

FISH 461 Resource Economics for Management and Policy (4) I&S, DIV Examines how and why resource users make decisions leading to over fishing and pollution. Introduces market and non-market economic tools that support the natural resource management process. Evaluates incentives presented by alternative policies, with an emphasis on regional and global fishery management case studies. Prerequisite: either FISH 230/ECON 230, ENVIR 235/ESRM 235/ECON 235, or a 300-level FISH course. Offered: A.

FISH 464 Arctic Marine Vertebrate Ecology (4) NW Explores the structure and function of Arctic ecosystems, life history, and adaptations of vertebrates, and how species are affected by climate warming. Emphasizes upper-level trophic interactions, evolutionary drivers, food chains, energy transport paths, and influence of sea ice. Case studies provide background on Arctic conservation and management. Prerequisite: BIOL 180. Offered: W, odd years.

FISH 473 Limnology (3) NW Ecology, conservation, and management of inland aquatic ecosystems. Explores interactions among biological, chemical, and physical features of lakes and other aquatic habitats. Prerequisite: BIOL 180. Offered: jointly with BIOL 473; A.

FISH 474 Limnology Laboratory (2) NW Examination of biota of fresh waters, survey of limnological methods, analysis of data, and writing of scientific papers. Prerequisite: BIOL 473/FISH 473/CEE 462, which may be taken concurrently. Offered: jointly with BIOL 474/CEE 463; A.

FISH 475 Marine Mammalogy (3/5) NW Evolution, taxonomy, physiology, life history, and behavior of marine mammals; the techniques of studying and the management and conservation of them. Offered: Sp.

FISH 477 Seminar in Marine Biology (3) NW Reviews current research in marine biology. Emphasizes critical readings and discussion of primary literature. Prerequisite: FISH 250, OCEAN 250, or BIOL 250; Q SCI 381, STAT 220, or STAT 311. Offered: jointly with BIOL 477/OCEAN 477; W.

FISH 478 Topics in Sustainable Fisheries (3, max. 9) I&S/NW Seminar series featuring local, national, and internationally known speakers in fisheries management and conservation. Conservation/restoration in practice. Pre-seminar discussion section focusing on select readings. Topics may include harvest management, whaling, by-catch, salmon, marine protected areas, introduced species, citizen action, co-management, and marine ethics. Offered: jointly with BIOL 478/ENVIR 478.

FISH 479 Research in Marine Biology (1-15, max. 15) Individual research on topics in marine biology. Research projects supervised by an individual faculty member. Projects may include
laboratory work, fieldwork, and literature surveys. Prerequisite: BIOL 250/FISH 250/OCEAN 250; Q SCI 381. Offered: jointly with BIOL 479/MARBIO 479/OCEAN 479; AWSpS.

FISH 480 Human Dimensions of Fishery Management (3) I&S/NW Techniques and philosophy for conservation, management, and development of harvested marine populations. Emphasis on integration of ecological, sociological, and economic dimensions of institutional decision making for policy formation in uncertain environments. Offered: jointly with SMEA 480.

FISH 489 Peer Teaching Assistants in Aquatic and Fishery Sciences (1-5, max. 10) Designed to prepare graduate and public school teaching by developing mentoring and communication skills through direct experience. Skills gained through attending lectures and weekly preparation sessions, directed discussions with faculty and TAs, and teaching course lab or discussion sections. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

FISH 491 Aquatic Ecological Research in Alaska (12) NW Intensive, full-time research training experience where a team of students works on focused research problems guided by a group of faculty, postdoctoral, and graduate student mentors. Examines behavioral ecology, limnology, and population dynamics. Students also choose specific research questions for their own exploration. Course location: Alaska. Offered: S, even years.

FISH 492 Ecology and Conservation of Marine Birds and Mammals (9/15) NW An intensive, field-based course that offers motivated students the opportunity to learn about these ecologically and culturally important marine animals and the conservation problems they face. Emphasizes first-hand learning and individual research projects. Offered: jointly with FHL 492/MARBIO 492; S.

FISH 493 Capstone 1: Proposal (1) Includes defining a capstone research question, conducting a literature review, preparing a project proposal and budget, reviewing peer proposals, and attending/critiquing the quarterly capstone symposium. Prerequisite: FISH 290. Offered: AWSp.

FISH 494 Capstone 2: Research (3-) Self-directed research or project under direction of a faculty member. Includes defining research question, determining methodology, data collection and analysis. Required for graduation for majors. Prerequisite: FISH 290; FISH 493; Q SCI 381. Offered: AWSpS.

FISH 495 Capstone 3: Research Synthesis (-3) Self-directed research project under direction of a faculty member. Data analysis, writing a paper, and presenting findings. Required for graduation for majors. Pre-requisite: FISH 494. Prerequisite: FISH 494 Offered: AWSpS.

FISH 496 Study Abroad: Aquatic and Fishery Sciences (1-15, max. 30) NW For participants in UW study abroad program. Specific content varies and must be individually evaluated. Credit not does not apply to major requirements without approval.

FISH 497 Special Topics in Aquatic and Fishery Sciences (1-15, max. 15) NW One-time offerings of topics in fisheries by resident or visiting faculty.
FISH 498 Internship/Experiential Learning (1-15, max. 15) Structured, practical training in the fishing industry, government agencies, and other areas utilizing fisheries, food science, or quantitative science expertise. Experiences are supervised and evaluated. Written reports required. Credit/no-credit only. Offered: AWSpS.

FISH 499 Undergraduate Research (1-15, max. 15) Individual research within the School of Aquatic and Fishery Sciences. Each project supervised by an individual faculty member. Written reports required. Offered: AWSpS.

FISH 502 Marine Geospatial Information Science (3) Introduces the use of Geographic Information Systems (GIS), seafloor mapping, hydrographic surveying, and spatial analysis in ocean science. Emphasizes sampling and analysis of spatially-referenced data about the coastal and marine environments, integrating these technologies in an applied research setting. Offered: jointly with OCEAN 502; A.

FISH 503 Geospatial Pattern Analysis and Geostatistics (3) Logsdon Focuses on the application of geospatial pattern analysis and geostatistics in earth science research. Develops understanding in detecting, describing, and estimating spatial pattern and trends. Offered: jointly with OCEAN 503; W.

FISH 507 Special Topics in Fisheries (1-15, max. 15)

FISH 510 Current Topics in Genetics and Physiology (1-5, max. 15) Contemporary problems and issues in genetics and physiology as they relate to aquatic and fisheries sciences.

FISH 511 Current Topics in Evolution, Ecology, and Behavior (1-5, max. 15) Contemporary problems and issues in evolution, ecology, and behavior as they relate to aquatic and fisheries sciences.

FISH 512 Current Topics in Quantitative Science (1-5, max. 15) Contemporary problems and issues in quantitative science as they relate to aquatic and fisheries sciences.

FISH 513 Current Topics in Management, Conservation, and Restoration (1-5, max. 15) Contemporary problems and issues in management, conservation, and restoration as they relate to aquatic and fisheries sciences.

FISH 514 Current Topics Aquaculture, Utilization, and Pathology (1-5, max. 15) Contemporary problems and issues in aquaculture, utilization, and pathology as they relate to aquatic and fisheries sciences.

FISH 520 Advanced Ecology of Marine Fishes (4) Focuses on the unique ecological challenges facing marine fishes, including individual, population, community, and ecosystem-scale processes. In-depth discussions of issues based on extensive reading of primary literature and analysis.
FISH 521 Research Proposal Writing for Graduate Students (4) Practice in reading, writing, critiquing, and evaluating research grant and contract proposals. Lecture and discussion of funding resources, structure of proposals, proposal review, evaluation criteria, and agency feedback. Examples of successful and unsuccessful grant applications. Preparing proposals and critiquing others' efforts. Offered: W.

FISH 522 Hot Topics in Aquatic and Fishery Sciences (2) Discussion of the primary literature of aquatic and fishery sciences. All readings are current, high profile papers which spark a new avenue of investigation, set out a new paradigm, or define a central problem, etc. Credit/no-credit only. Offered: A.

FISH 526 Ecology of Aquatic Ecosystems (3) Explores natural and human-driven processes regulating the structure and functioning of freshwater and marine ecosystems. Topics include biogeochemistry, energy, and material flows among habitats, evolution in ecological time, commonality of marine and freshwater habitats, and the issues of scale in understanding ecosystem dynamics.

FISH 530 Application of Bioenergetics Models to Aquatic Food Webs (4) Modeling framework quantifying bioenergetics, including consumption, growth, nutrient recycling and contaminant bioaccumulation; links physiology and behavior of individual organisms to ecological processes within populations and aquatic food webs. Common applications include estimating predation, carrying capacity, or growth potential in different habitats. Offered: Sp, odd years.

FISH 531 Aquatic Food Web Processes (4) Examines how temporal-spatial variability in environmental conditions, nutrient, food supply, predation, and competition among species and life stages regulate species in freshwater and marine food webs. Demonstrates how behavior and physiology of individuals are mechanistically linked to distribution, trophic interactions, and processes relevant to ecosystem-based management. Offered: Sp, even years.

FISH 538 Fisheries Acoustics (3-5) Horne Studies the use of sound as an aquatic sampling tool and application of acoustic technologies to resource management and aquatic research. Topics include: sonar equation, survey design, equipment use, and abundance estimates. Uses case studies in bio-acoustic predation, habitat evaluation, ocean observatories, and marine renewable energy. Offered: A.

FISH 539 U.S. Fisheries Management and Policy (3) Examination of basic laws and policies in the US that govern fisheries management and their implementation by managers at federal, tribal, state, and international levels. Includes lectures, guest speakers, and field trips. Offered: jointly with SMEA 539.

FISH 541 Integrative Environmental Physiology (3/5) Comparative advanced aquatic physiology focusing on the functional response of organisms to natural and human-associated environmental stress. Includes lecture, laboratory work, and team-based research project.
FISH 545 Applied Population Genetics (3) Collection, analysis, and interpretation of genetic data (allele frequencies, microsatellite data, DNA sequences) for detection of population structure, population assignment, estimation of population size, and phylogenography. Includes discussion of scientific papers and analysis of example data sets.

FISH 546 Bioinformatics for Environmental Sciences (3) Examines how to incorporate molecular information into environmental and conservation sciences, with an emphasis on analysis of DNA and RNA sequence information. Prerequisite: introductory biology, genetics, and statistics courses.

FISH 547 River Ecology and Watershed Management (3) Investigation of stream and river ecosystems from a watershed perspective. Emphasis on fundamental processes affecting the structure and dynamics of flowing aquatic ecosystems and the riparian zone. Case studies explore human interactions with rivers and approaches to river management.

FISH 552 Introduction to R Programming for Natural Scientists (2) Introduces R, a freely available and widely used platform for statistical analysis. Covers reading, storing, and manipulating data; introductory graphics; basic statistical analyses; and fitting linear models. Credit/no-credit only. Offered: A.

FISH 553 Advanced R Programming for Natural Scientists (2) Covers the use of maximum likelihood estimation and programming in R. Uses R functions to estimate parameters of models and to quantify uncertainty. Prerequisite: FISH 552; Q SCI 381 or Q SCI 482, or permission of instructor. Credit/no-credit only. Offered: A.

FISH 554 Beautiful Graphics in R (2) Branch Explores how to create beautiful scientific graphics in the open-source language R. Covers the theory of visualization, critically examines elements of good and bad graphics, and teaches students how to translate data in their graduate theses into publication-quality graphics. Offered: W.

FISH 556 Spatio-temporal Models for Ecologists (5) Applied skills for the understanding, interpretation, and development of new models for spatial patterns in marine, terrestrial, or human communities. Mixed-effects models will be implemented using flexible techniques in R. Statistical properties will be learned using simulation experiments, real-world data, and a class project. Prerequisite: FISH 552 and FISH 553; and either FISH 454, FISH 458, ESRM 451/Q SCI 451, FISH 558, FISH 559, SEFS 590, STAT 516 and STAT 517, or permission of instructor; recommended: Knowledge of the R programming language Knowledge of likelihood-based statistics Intermediate background in statistical analysis Offered: Sp, even years.

FISH 557 Estimation of Population Parameters (4) Statistical analysis of population data; design and analysis of mark-recapture experiments on natural populations; laboratory work on computers. Offered: W, even years.

FISH 558 Decision Analysis in Natural Resource Management (4) Focuses on age and size-structured population models; Bayesian methods; Sample Importance Resample algorithm;
Markov chain Monte Carlo algorithm; policy evaluation; and risk analysis and uncertainty in fisheries management. Offered: A, odd years.

FISH 559 Numerical Computing for the Natural Resources (5) Focuses on generalized linear and mixed effects models; numerical integration and differentiation; Bayesian and maximum likelihood parameter estimation; root finding; ADMB and WinBUGS coding; and risk analysis. Offered: A, even years.

FISH 560 Applied Multivariate Statistics for Ecologists (4) Use and interpretation of multivariate analysis, including the majority of approaches in common use by ecologists. Emphasizes the conceptual understanding and practical use of the methods, illustrated with ecological case studies. Prerequisite: Q SCI 482 or equivalent.

FISH 561 Resource Economics for Management and Policy (4) Examines how and why resource users make decisions leading to over fishing and pollution. Introduces market and non-market economic tools that support the natural resource management process. Evaluates incentives presented by alternative policies, with an emphasis on regional and global fishery management case studies. Offered: A.

FISH 562 Ecosystem Based Fisheries Management (2) Theory and practice of ecosystem based fisheries management. Areas of emphasis includes by-catch avoidance, the interaction between physical and biotic habitat and fish productivity, trophic ecosystem models, area based management and dynamics of fishing fleets. Offered: Sp, odd years.

FISH 563 Ecosystem Based Fisheries Management Laboratory (2) Laboratory covering the theory and practice of ecosystem based fisheries management. Areas of emphasis includes by-catch avoidance, the interaction between physical and biotic habitat and fish productivity, trophic ecosystem models, area based management and dynamics of fishing fleets. Recommended: either Fish 454, Fish 458, or Fish 558; R programming experience. Offered: Sp, odd years.

FISH 567 Topics in Advanced Ecology (3, max. 6) Discusses literature on active research areas or controversies in different branches of ecology. Offered: jointly with BIOL 567/SEFS 567; W.

FISH 578 Graduate Topics in Sustainable Fisheries (2, max. 6) Seminar series featuring local, national, and internationally known speakers in fisheries management and conservation. Case studies. Conservation/restoration in practice. Post-seminar discussion section led by speaker on topics covered in lecture. Topics may include harvest management, whaling, by-catch, salmon, marine protected areas, introduced species, citizen action, co-management, and marine ethics. Credit/no-credit only.

FISH 581 Case Study Research: Design and Methods (3) Provides in-depth training in case study theory, design, and methods. Designed for exploring prospectus ideas or beginning analysis of thesis research. Through readings, discussions, exercises, and lectures, students learn how to select units of analysis, control data quality, and collect, analysis, and report data. Offered: jointly with SMEA 581.
FISH 600 Independent Study or Research (*) Credit/no-credit only.

FISH 700 Master's Thesis (*) Credit/no-credit only.

FISH 800 Doctoral Dissertation (*) Credit/no-credit only.
Atmospheric Sciences

Department Overview

416 Atmospheric Sciences-Geophysics Building

Atmospheric sciences is a wide-ranging discipline that includes topics as diverse as weather forecasting, global warming, air quality, Pacific Northwest weather and climate, mountain weather, marine weather, El Nino, the ozone hole, ice ages, and the weather of Mars. It considers problems that are both scientifically challenging and critical for the welfare of modern society. These problems are addressed with theory, measurements, and computer simulations.

Undergraduate Program

Adviser 416 Atmospheric Sciences-Geophysics Building, Box 351640  206-543-4576 advise@atmos.washington.edu

The Department of Atmospheric Sciences offers the following programs of study:

- The Bachelor of Science degree with a major in atmospheric sciences
- A minor in atmospheric sciences
- The minor in Climate Science is offered jointly with the Department of Atmospheric Sciences, the Department of Earth and Space Sciences, and the School of Oceanography.

Bachelor of Science

Suggested First- and Second-Year Courses: ATM S 220; MATH 124, MATH 125, MATH 126; PHYS 121, PHYS 122, PHYS 123; CSE 142. The first upper-division core course is ATM S 301, which is offered autumn quarter only. Any lower-division atmospheric sciences courses except ATM S 220 count as electives and not as part of the major.

Department Admission Requirements

Students in good academic standing may declare this major at any time.

Major Requirements

Minimum 97-117 credits as follows:

1. Core requirements (58-59 credits): MATH 124, MATH 125, MATH 126; PHYS 121, PHYS 122, PHYS 123; either STAT 390/MATH 390, or Q SCI 381; ATM S 220, ATM S 301, ATM S 321, ATM S 340, ATM S 341, ATM S 370, ATM S 431.

2. Options (39 to 58 credits):
a. **Meteorology (42-45 credits)**
   i. **Core (33 credits):** AMATH 301; ATM S 358, ATM S 441, ATM S 442, ATM S 444, ATM S 451, ATM S 452; CSE 142
   ii. **Advanced Mathematics (9-12 credits):** MATH 324; either AMATH 351 and AMATH 353 or MATH 307, MATH 308, and MATH 309

b. **Climate (39-49 credits)**
   i. **Core (27-29 credits):** AMATH 301; ATM S 358, ATM S 380, ATM S 460, ATM S 487; CSE 142; either ESS 431 or ESS 433; either OCEAN 423 or OCEAN 450
   ii. **Electives (12-20 credits):** minimum four courses from an approved list. See adviser for approved list of electives.

c. **Chemistry (52-58 credits)**
   i. **Core (40 credits):** ATM S 451, ATM S 458, ATM S 480; CHEM 142, CHEM 152, CHEM 162, CHEM 223, CHEM 224, CHEM 321
   ii. **Electives (12-18 credits):** minimum four courses from an approved list. See adviser for approved list of electives.

3. Minimum 2.0 grade in courses applied to the major

**Pre-graduate Program for Physical Science, Mathematics, and Engineering Majors**

The following elective course sequence is suitable preparation for students interested in pursuing graduate study in atmospheric sciences: ATM S 301, ATM S 340, ATM S 441.

**Minor**

**Minor Requirements:** 25 credits to include ATM S 301 plus other approved courses. The minor may include a maximum of 6 independent study credits. Prerequisites include MATH 126 or MATH 136, and PHYS 123. Some courses may require further math or chemistry experience.

**Minor in Climate Science:** See description in the [Climate Science](#) listing in the Undergraduate Interdisciplinary Programs section of the General Catalog.

**Student Outcomes and Opportunities**

- **Learning Objectives and Expected Outcomes:** The degree program qualifies students for professional employment in weather forecasting, air-quality control and monitoring, and other areas of atmospheric sciences and related fields. The baccalaureate degree also is appropriate preparation for graduate study in atmospheric sciences.
- **Instructional and Research Facilities:** Extensive computer resources are available in the departmental computer laboratory. The department also maintains an extensive collection of weather data in graphical and numerical electronic format. A study area is provided for undergraduates. An instrument laboratory is maintained with a wide range of observing
and data collection systems. Students also have access to a machine shop and an electronics laboratory.

- **Honors Options Available:** With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.

- **Research, Internships, and Service Learning:** Internships are available either within the department or with outside organizations, providing a valuable opportunity to test a student's interests in various meteorological career paths and to extend the student's knowledge. A limited number of departmental scholarships are available each year, based on academic excellence or financial need. Employment opportunities are often available in one of the many departmental research groups, and some internships are paid.

Students majoring in atmospheric sciences may take advantage of a variety of opportunities to enhance their education. Undergraduate students are welcome at the department's many seminars and colloquia and are encouraged to join in the annual forecast contest. They may work on independent research projects under the guidance of a faculty member, or be an active participant in a field program.

- **Department Scholarships:** The Bruce Caldwell Memorial Scholarship and the Anonymous Donor Atmospheric Sciences Scholarship are both awarded annually, based on both academic excellence and financial need.

- **Student Organizations/Associations:** Student Chapter of American Meteorological Society, Puget Sound American Meteorological Society Chapter, Weekly Weather Discussion for all majors.

**Graduate Program**

Graduate Program Coordinator 416 Atmospheric Sciences-Geophysics, Box 351640 206-543-4576 advise@atmos.washington.edu

Rapid growth of research in atmospheric sciences began in the late 1940s in response to needs and opportunities in weather forecasting. Extensive research is now underway to extend the time scale over which useful forecasts can be made and to increase the amount of regional and temporal detail in short-range forecasts. In addition, the atmospheric sciences now address a broad range of other problems of fundamental interest and importance. Examples include changes in climate that could result from increases in atmospheric CO2 and other greenhouse gases, and the application of remote-sensing techniques to the monitoring and understanding of weather and climate.

Graduate students in the atmospheric sciences come from a variety of disciplines: physics, chemistry, engineering, atmospheric or geophysical sciences, and applied mathematics. Each of these backgrounds is valuable for specific subfields within the atmospheric sciences. However, students should have in common a sound background in the fundamentals of physics and applied mathematics and an interest in complex natural phenomena. The well-prepared graduate student may expect to begin research work rather quickly.
Master of Science

Admission Requirements

1. Graduate School application (a copy must be sent to the department)
2. Official copy of transcripts
3. Statement of interest(s) - one page essay, addressing reasons why the student wishes to pursue a graduate program in atmospheric sciences
4. GRE General Examination scores sent from the Educational Testing Service
5. Three letters of recommendation, either submitted online or, using the appropriate forms, sent directly to the department by evaluators
6. For international applicants: TOEFL scores, sent by the testing service
7. Deadline: December 31, for admission the following autumn. Admission is for autumn quarter only.

Degree Requirements

36 credits

1. Core classes (25-28 credits): ATM S 501, ATM S 502, ATM S 532, ATM S 535, ATM S 558. One of the following sequences: ATM S 505, ATM S 509, ATM S 542; or ATM S 503, ATM S 504
2. Two-course dynamics sequence (ATM S 503, ATM S 504), intended for those whose research specialty is outside dynamic meteorology. Most students take the three-course sequence in dynamics (ATM S 505, ATM S 509, ATM S 542).
3. Minimum 27 credits from graded courses numbered 500 or above; including at least 3 credits in approved applied mathematics courses and 24 in core atmospheric sciences courses. 9 credits for the master's thesis. Students intending to pursue a PhD should take all required courses shown above.

Doctor of Philosophy

Admission Requirements

1. Admission to the MS track
2. Application to the PhD program through one of the three following options:
   a. MS thesis in atmospheric sciences or a closely related discipline, completed before entering the department, submitted the first week of autumn quarter of the student's second academic year.
   b. MS thesis approved by the MS Supervisory Committee.
   c. Manuscript of a peer-reviewed journal article on which the student is lead author.

Degree Requirements
Minimum 90 credits

1. Coursework
   a. ATM S 501, ATM S 502
   b. ATM S 505, ATM S 509 (Students whose anticipated research has minimal connection with atmospheric dynamics, such as laboratory or fieldwork in atmospheric chemistry or cloud microphysics, may take ATM S 503 and ATM S 504 in place of ATM S 505 and ATM S 509. See Graduate Program Coordinator before enrolling in ATM S 503.)
   c. Either ATM S 532 or ATM S 558
   d. ATM S 535, ATM S 542
   e. Each of the following, every quarter coursework is taken: ATM S 520, either ATM S 521 or ATM S 524, and ATM S 600 (up to 10 credits each quarter)
   f. Electives: Courses in the student's areas of interest
   g. Applied math: Either AMATH 401, AMATH 567 or AMATH 581; either AMATH 402 or AMATH 568
   h. ATM S 700 (10 credits each quarter, beginning the second year of the program)

2. General examination

3. Dissertation

4. Final examination

Assistantships

Nearly all graduate students are supported by either research assistantships or fellowships. Students are usually a teaching assistant during at least one quarter, in the second year of study. Students are supported full-time during the summer.

Course Descriptions

ATM S 101 Weather (5) NW The earth's atmosphere, with emphasis on weather observations and forecasting. Daily weather map discussions. Highs, lows, fronts, clouds, storms, jet streams, air pollution, and other features of the atmosphere. Physical processes involved in weather phenomena. Intended for nonmajors. Offered: AWSpS.

ATM S 103 Hurricanes and Thunderstorms: Their Science and Impact (3) I&S/NW Explores the science, history, and impacts of thunderstorms and hurricanes. Includes basic processes responsible for thunderstorms and hurricanes and for the lightning, hail, high winds, and storm surges that accompany them. Presents significant historical examples, along with the impact on human activities, strategies for personal safety, and societal adaptation. Offered: Sp.

ATM S 111 Global Warming: Understanding the Issues (5) I&S/NW Ackerman, Anderson, Bitz, Fu, Jaegle, Thornton Includes a broad overview of the science of global warming.
Discusses the causes, evidence, future projections, societal and environmental impacts, and potential solutions. Introduces the debate on global warming with a focus on scientific issues. Offered: AWSp.

**ATM S 212 Air Pollution: From Urban Smog to the Ozone Hole (5) I&S/NW Alexander, Jaegle', Thornton** Introduction to air pollution on local, regional, and global scales, with focus on the sources, transformation, and dispersion of pollutants responsible for urban smog, acid rain, climate change, and the ozone hole. Health and environmental effects of air pollutants, technological solutions, and international policy regulations.

**ATM S 220 Exploring the Atmospheric Sciences (1, max. 2) NW** Focuses on current research in the atmospheric sciences and the related implications for public health, business, and environmental policy. Credit/no-credit only.

**ATM S 290 The Weather Challenge (1, max. 8) NW McMurdie** Includes participation in a national weather forecast contest; weekly discussion on forecast models, forecasting methods, and unique considerations for specific forecast locations. Prerequisite: either ATM S 101 or ATM S 301. Credit/no-credit only. Offered: AW.

**ATM S 301 Introduction to Atmospheric Sciences (5) NW** Composition and structure of the atmosphere. Clouds and weather phenomena. Thermodynamic processes. Solar and terrestrial radiation. Air motions. Daily weather discussions and forecasts. For majors and nonmajors. Prerequisite: minimum grade of 2.0 in each of MATH 124; MATH 125; MATH 126; PHYS 121; PHYS 122; and PHYS 123. Offered: A.

**ATM S 321 The Science of Climate (3) NW** Evolution and present state of earth's climate. Emphasis on physical processes determining the climate of the earth's atmosphere and surface: radiative transfer, energy balance, hydrologic cycle, and atmospheric and oceanic energy transport. Factors controlling climate change. Prerequisite: minimum of grade of 2.0 each of MATH 124; MATH 125; MATH 126; PHYS 121; PHYS 122; and PHYS 123. Offered: Sp.

**ATM S 340 Introduction to Thermodynamics and Cloud Processes (3) NW** Examines thermodynamics and hydrostatics. Studies cloud and precipitation processes with emphasis on the microphysics. Prerequisite: ATM S 301. Offered: W.

**ATM S 341 Atmospheric Radiative Transfer (3) NW** Comprehensive introduction to atmospheric radiation, including solar and infrared radiation, the earth's radiation budget, and remote sensing. Prerequisite: ATM S 301. Offered: Sp.

**ATM S 350 Ecological Climatology (3) NW** Focuses on the connections between ecosystems and climate including physical, chemical and biological interactions. Investigates global scale
implications and the expected response of a coupled earth system under past and future climate change. Recommended: MATH 120 or equivalent; and either PHYS 114; PHYS 115; PHYS 116, or PHYS 121; PHYS 122; PHYS 123 Offered: A.

ATM S 358 Fundamentals of Atmospheric Chemistry (3) NW Review of basic principles of physical chemistry; evolution and chemical composition of earth's atmosphere; half-life, residence and renewal time; sources, transformation, transport and sinks of gases in the troposphere; atmospheric aerosols; chemical cycles; air pollution; stratospheric chemistry. Offered: Sp.

ATM S 370 Atmospheric Structure and Analysis (5) NW Structure and evolution of extratropical cyclones, fronts, and convective systems. Surface and upper air analysis techniques. Radar and satellite data. Real-world applications of basic dynamical principles. Introduction to operational products and forecasting. Prerequisite: ATM S 301. Offered: W.

ATM S 380 Weather and Climate Prediction (3) NW Applies weather and climate models to solve problems in atmospheric sciences. Includes visualization of atmospheric phenomena and Earth's energy and hydrologic cycles; and basics in numerical modeling and high-performance computing. Prerequisite: MATH 126; PHYS 122; either ATMS 101, ATM S 111, ATM S 211, ATM S 301, ASTR 150, ASTR 321, or ESS 201. Offered: W.

ATM S 390 Honors Tutorial in Atmospheric Sciences (*, max. 6) Review and discussion of selected problems in atmospheric sciences. Introduction to research methods. Presentation of a research paper. Offered: AWSpS.

ATM S 431 Boundary-Layer Meteorology (3) NW Introduction to boundary-layer meteorology. Surface energy budgets, structure and evolution of boundary layers, and basic ideas of turbulence theory. Prerequisite: either ATM S 340 or PHYS 224. Offered: A.

ATM S 441 Atmospheric Motions I (3) NW Basic equations governing atmospheric motions and their elementary applications; circulation and vorticity; dynamics of midlatitude disturbances. Prerequisite: either AMATH 353 or MATH 309; MATH 324. Offered: A.

ATM S 442 Atmospheric Motions II (5) NW Wave dynamics, numerical prediction, development of midlatitude synoptic systems, and general circulation. Includes laboratory exercises. Prerequisite: ATM S 441. Offered: W.

ATM S 444 Design and Application of Ensemble Prediction Systems (4) NW Covers the fundamental of chaos theory to help compare and contrast traditional, deterministic forecasting versus ensemble forecasting. Explores the various components of an ensemble prediction system. Introduces decision science to show how to apply probabilistic weather information in optimal decision making. Prerequisite: ATM S 370; either STAT/MATH 390 or Q SCI 381; AMATH 301. Offered: Sp.

ATM S 451 Instruments and Observations (5) NW Principles of operating instruments for measuring important atmospheric parameters (e.g., temperature, humidity, aerosol...
concentration). Concepts of sensitivity, accuracy, representativeness, time response. Manipulation of output data including signal processing and statistical analysis. Experimental design and implementation of the design in actual field experiments is included. Prerequisite: ATM S 370; either STAT/MATH 390 or Q SCI 381.

ATM S 458 Air Pollution Chemistry (4) NW Global atmosphere as a chemical system emphasizing physical factors and chemical processes that give rise to elevated surface ozone, particulate matter, and air toxics; international issues of air pollution transport and changing tropospheric background composition; and regulatory control strategies and challenges. Aimed at science and engineering majors. Offered: jointly with CHEM 458; A.

ATM S 460 Water in the Environment (3) NW Discusses the unique physical and chemical properties of the water molecule in relation to the atmospheric greenhouse effect, precipitation formation, oceanic circulations, infiltration of water through soils, geyser eruptions, and glacier and sea ice thickness. Prerequisite: either ESS 310, MATH 126, or MATH 136; PHYS 123. Offered: jointly with ESS 424/PHYS 460.

ATM S 475 Current Research in Climate Science Seminar (3, max. 6) Weekly lectures focusing on a particular aspect of climate from invited speakers, complemented by class discussion, readings, and final paper. Promotes interdisciplinary understanding of climate concepts. Prerequisite: either ESS 201, ATM S 211, or ATM S 321. Offered: jointly with ESS 475/OCEAN 475; A.

ATM S 480 Air-Quality Modeling (3) NW Evaluation of air-quality models relating air pollution emissions to environmental concentrations. Emphasis on models used for air pollution permits. Emphasizes current problems. Prerequisite: MATH 125. Offered: jointly with CEE 480; W.

ATM S 487 Fundamentals of Climate Change (3) Examines Earth's climate system; distribution of temperature, precipitation, wind ice, salinity, and ocean currents; fundamental processes determining Earth's climate; energy and constituent transport mechanisms; climate sensitivity; natural climate variability on interannual to decadal time scales; global climate models; predicting future climate. Prerequisite: ATM S 321.

ATM S 490 Current Weather Analysis (1, max. 6) NW Reviews and analyzes current weather situations and forecasts. Promotes active discussion between the leader and attendees, and provides exposure to practical aspects of forecasting, the structure of synoptic and local weather phenomena, and applications of basic meteorological concepts. Credit/no-credit only. Offered: AWSp.
ATM S 492 Readings in Meteorology or Climatology (*, max. 15) Credit/no-credit only. Offered: AWSpS.

ATM S 495 EarthGames Studio (2-6, max. 15) D. FRIERSON Students will work in teams to create their own video games or interactive digital experience relating to climate change or other pressing environmental issues. Credit/no-credit only. Offered: AWSpS.

ATM S 497 Undergraduate Internship (1-5, max. 30) Internship experience with a public agency or private company, supervised and approved by a faculty member. Requires preparation of a professional report reflecting on the experience. Credit/no-credit only. Offered: AWSpS.

ATM S 498 HONORS SYNTHESIS AND COMMUNICATION (1-5, max. 6) Students synthesize prior knowledge and experience gained through hands-on, applied work with academic research or off campus internship experience under the guidance of a faculty advisor. Students refine their writing skills and practice their presentation skills by conveying information orally and visually by making a formal presentation. Prerequisite: ATM S 497 or ATM S 499; recommended: Internship or Research Experience Offered: Sp.

ATM S 499 Undergraduate Independent Research (1-5, max. 30) Individual research supervised by a faculty member. May involve laboratory work, fieldwork, or surveys. Credit/no-credit only. Offered: AWSpS.

ATM S 503 Atmospheric Motions I (3) Basic equations governing atmospheric motions and their elementary applications; circulation and vorticity; dynamics of midlatitude disturbances. Offered: A.

ATM S 504 Atmospheric Motions II (5) Wave dynamics, numerical prediction, development of midlatitude synoptic systems, and general circulation. Prerequisite: either ATM S 441 or ATM S 503. Offered: W.

ATM S 505 Introduction to Fluid Dynamics (4) Eulerian equations for mass-motion; Navier-Stokes equation for viscous fluids, Cartesian tensors, stress-strain relations; Kelvin's theorem, vortex dynamics; potential flows, flows with high-low Reynolds numbers; boundary layers, introduction to singular perturbation techniques; water waves; linear instability theory. Prerequisite: either a course in partial differential equations or permission of instructor. Offered: jointly with AMATH 505/OCEAN 511; A, odd years.
ATM S 508 Geochemical Cycles (4) Descriptive, quantitative aspects of earth as biogeochemical system. Study of equilibria, transport processes, chemical kinetics, biological processes; their application to carbon, sulfur, nitrogen, phosphorus, other elemental cycles. Stability of biogeochemical systems; nature of human perturbations of their dynamics. Prerequisite: permission of instructor. Offered: jointly with CHEM 523/OCEAN 523.

ATM S 510 Physics of Ice (3) Structure of the water molecule. Crystallographic structures of ice. Electrical, optical, thermal, and mechanical properties of ice. Growth of ice from vapor and liquid phases. Offered: jointly with ESS 531.

ATM S 512 Dynamics of Snow and Ice Masses (3) Rheology of snow and ice. Sliding and processes at glacier beds. Thermal regime and motion of seasonal snow, glaciers, and ice sheets. Avalanches and glacier surges. Deformation and drift of sea ice. Response of natural ice masses to change in climate. Prerequisite: permission of instructor. Offered: jointly with ESS 533.

ATM S 514 Ice and Climate (3) Examines the role of ice and snow in climate. Polar climate dynamics. Polar-global interactions. Modeling snow cover, sea ice, and ice-sheet balance, and flow in the climate system. Prerequisite: permission of instructor. Offered: jointly with ESS 535.

ATM S 519 Scientific Writing and Graphics (2) Waddington, Warren Covers principles of scientific writing; methods of ensuring clarity in writing for scientific journals and research proposals; principles of graph construction; and authorship, peer review, and citations. For graduate students in Earth-science related fields. Credit/no-credit only. Offered: jointly with ESS 519/OCEAN 518; Sp, odd years.

ATM S 520 Atmospheric Sciences Colloquium (1, max. 24) Seminars on current research in advanced topics related to atmospheric sciences, conducted by faculty and visiting professors/scientists. Includes presentation of doctoral dissertations by department graduate students. For Atmospheric Sciences graduate students only. Prerequisite: permission of department. Credit/no-credit only. Offered: AWSp.

ATM S 521 Seminar in Atmospheric and Climate Dynamics (*, max. 24) Directed at current research in the subject. For advanced students. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSp.
ATM S 523 Seminar in Atmospheric Physics and Chemistry (*, max. 24) Directed at current research in the subject. For advanced students. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AW.

ATM S 524 Seminar in Climate Dynamics and Energy Transfer (*, max. 24) Directed at current research in the subject. For advanced students. Prerequisite: permission of instructor. Credit/no-credit only. Offered: A.

ATM S 525 Seminar - Topics in Atmospheric Chemistry (1-3, max. 6) Seminar for atmospheric scientists, chemists, engineers in problems associated with the chemical composition of the atmosphere. Covers wide variety of topics, ranging from the natural system to urban pollution and global atmospheric change. Prerequisite: ATM S 301 or permission of instructor. Offered: jointly with CEWA 553.

ATM S 532 Atmospheric Radiation: Introductory (3) Fundamentals of radiative transfer; absorption and scattering by atmospheric gases; elementary applications to constraints on the thermal structure, photochemistry, and remote sensing. Prerequisite: PHYS 225 or permission of instructor. Offered: Sp.

ATM S 533 Atmospheric Radiation: Advanced (3) Optical properties and particle absorption and scattering; solutions of radiative transfer equation in multiple scattering atmospheres; applications to atmospheric and surface energy balance and remote sensing. Prerequisite: ATM S 532/ESS 571 or permission of instructor.

ATM S 534 Remote Sensing of the Atmosphere and Climate System (3) Satellite systems for sensing the atmosphere and climate system. Recovery of atmospheric and surface information from satellite radiance measurements. Applications to research. Prerequisite: ATM S 532 or ATM S 533.

ATM S 535 Cloud Microphysics and Dynamics (3) Basic concepts of cloud microphysics, water continuity in clouds, cloud dynamics, and cloud models. Prerequisite: ATM S 501 or permission of instructor. Offered: jointly with ESS 573; Sp.

ATM S 536 Mesoscale Storm Structure and Dynamics (3) Techniques of observing storm structure and dynamics by radar and aircraft, observed structures of precipitating cloud systems, comparison of observed structures with cloud models. Prerequisite: either ATM S 535, ATM S 504, or ATM S 509.

ATM S 542 Synoptic and Mesoscale Dynamics (3) Quasi-geostrophic theory, baroclinic instability, symmetric instability, tropical disturbances, frontogenesis, orographic disturbances, convective storms. Prerequisite: ATM S 509/OCEAN 512 and AMATH 402 or equivalents. Offered: Sp.

ATM S 544 Design and Application of Ensemble Prediction Systems (4) Covers the fundamental of chaos theory to help compare and contrast traditional, deterministic forecasting versus ensemble forecasting. Explores the various components of an ensemble prediction system.
Introduces decision science to show how to apply probabilistic weather information in optimal
decision making. Prerequisite: ATM S 501; ATM S 502; and ATM S 552 or permission of
instructor. Offered: Sp.

**ATM S 545 General Circulation of Atmosphere (3)** Requirements of the global angular
momentum, heat, mass, and energy budgets upon atmospheric motions as deduced from
observations. Study of the physical processes through which these budgets are satisfied.
Prerequisite: ATM S 509/OCEAN 512 or permission of instructor. Offered: A.

**ATM S 547 Boundary Layer Meteorology (3)** Turbulence, turbulent fluxes, averaging.
Convection and shear instability. Monin-Obukhov similarity theory, surface roughness. Wind
Convective and stably stratified boundary layers. Cloud-topped boundary layers. Remote
sensing. Boundary layer modeling and parameterization. Prerequisite: ATM S 505, AMATH
505, or OCEAN 511.

**ATM S 551 Atmospheric Structure and Analysis I: Synoptic Scale Systems (4)** Extratropical
cyclones and cyclogenesis. Jet streams. Upper waves in the westerlies. Diagnosis of vertical
motions. Fronts and frontogenesis. Prerequisite: ATM S 502 and ATM S 509/OCEAN 512.

**ATM S 552 Objective Analysis (3)** Review of objective analysis techniques commonly applied
to atmospheric problems; examples from the meteorological literature and class projects.
Superposed epoch analysis, cross-spectrum analysis, filtering, eigenvector analysis, and optimum
interpolation techniques. Offered: W.

**ATM S 554 Paleoclimate Proxies (3)** Alexander, Sachs Provides a critical evaluation of the
most commonly applied paleoclimate proxies from the ocean, land, and ice sheets. Offered:
jointly with ESS 554/OCEAN 554.

**ATM S 555 Planetary Atmospheres (3)** Problems of origin, evolution, and structure of
planetary atmospheres, emphasizing elements common to all; roles of radiation, chemistry, and
dynamical processes; new results on the atmospheres of Venus, Mars, Jupiter, and other solar
system objects in the context of comparative planetology. Offered: jointly with ASTR 555/ESS
581.

**ATM S 556 Planetary-Scale Dynamics (3)** Zonally symmetric circulations, planetary waves,
equatorial waves, dynamics of the middle atmosphere, trace constituent transport, nonlinear
aspects of atmospheric flows. Prerequisite: ATM S 542 or permission of instructor.

**ATM S 558 Atmospheric Chemistry (3)** Photochemistry of urban, rural, and marine
tropospheric air, and of the natural and perturbed ozone in the middle atmosphere. Unity of the
chemistries in these apparently different regimes. Prerequisite: ATM S 458 or ATM S 501 or
CHEM 457 or permission of instructor. Offered: Sp.

**ATM S 559 Climate Modeling (3)** Principles of Earth system modeling. Emphasis on
atmosphere, ocean sea ice, and land-surface components. Climate forcing. Appropriate use of
models. Topics of current interest including carbon cycle, atmosphere chemistry, and biogeochemistry. Prerequisite: either ATM S 587/OCEAN 587/ESS 587, ATM S 504 or ATM S 505. Instructors: Bitz, Thompson Offered: jointly with ESS 559/OCEAN 558.

ATM S 560 Atmosphere/Ocean Interactions (3) Observations and theory of phenomena of the coupled atmosphere-ocean system. El Nino/Southern Oscillation; decadal tropical variability; atmospheric teleconnections; midlatitude atmosphere-ocean variability. Overview of essential ocean and atmospheric dynamics, where appropriate. Prerequisite: ATM S 509/OCEAN 512. Credit/no-credit only. Offered: jointly with OCEAN 560.

ATM S 564 Atmospheric Aerosol and Multiphase Atmospheric Chemistry (3) Physics and chemistry of particles and droplets in the atmosphere. Statistics of size distributions, mechanics, optics, and physical chemistry of atmospheric aerosols. Brownian motion, sedimentation, impaction, condensation, and hydrospheric growth. Prerequisite: permission of instructor.

ATM S 565 Atmospheric Chemistry Modeling (3) In this course we will discuss the foundations of mathematical models for atmospheric chemistry. Our focus will be on three-dimensional numerical models that simulate transport, chemistry, emissions, and deposition of chemical species in the atmosphere. Prerequisite: ATM S 558.

ATM S 575 Large Scale Dynamics of the Tropical Atmosphere (3) Observations and underlying dynamics of large-scale tropical circulations. Factors that determine regions of large-scale persistent precipitation in the tropics, thermal forcing of atmospheric circulations by these regions, and temporal variability of the forcing and response. Prerequisite: ATM S 509/OCEAN 512, ATM S 542.

ATM S 585 Climate Impacts on the Pacific Northwest (4) Mantua, Snover Knowledge of past/future patterns of climate to improve Pacific Northwest resource management. Topics include the predictability of natural/human-caused climate changes; past societal reactions to
climate impacts on water, fish, forest, and coastal resources; how climate and public policies interact to affect ecosystems and society. Offered: jointly with ENVIR 585/ESS 585/SMEA 585; Sp.

ATM S 586 Current Research in Climate Change (2, max. 20) Weekly lectures focusing on a particular aspect of climate (topic to change each year) from invited speakers (both UW and outside), plus one or two keynote speakers, followed by class discussion. Credit/no-credit only. Offered: jointly with ESS 586/OCEAN 586.

ATM S 587 Fundamentals of Climate Change (3) Examines Earth's climate system; distribution of temperature, precipitation, wind ice, salinity, and ocean currents; fundamental processes determining Earth's climate; energy and constituent transport mechanisms; climate sensitivity; natural climate variability on interannual to decadal time scales; global climate models; predicting future climate. Offered: jointly with ESS 587/OCEAN 587.

ATM S 588 The Global Carbon Cycle and Climate (3) Emerson Oceanic and terrestrial biogeochemical processes controlling atmospheric CO2 and other greenhouse gases. Records of past changes in the earth's carbon cycle from geological, oceanographic, and terrestrial archives. Anthropogenic perturbations to cycles. Develop simple box models, discuss results of complex models. Offered: jointly with ESS 588/OCEAN 588; W.

ATM S 591 Special Topics (1-4, max. 9) Lecture series on topics of major importance in the atmospheric sciences. Prerequisite: permission of instructor.

ATM S 593 Climate Science Seminar (1) Mote Focuses on how to communicate climate science to many different audiences through careful construction of figures and through written and oral communication. Credit/no-credit only. Offered: jointly with ESS 593/OCEAN 593; W.

ATM S 596 Climate Science Capstone Project (1-5, max. 5) Mote Climate capstone directed by a mentor, may be a group effort, and may encompass curriculum development, internships, workshop organization, etc., capturing interdisciplinary aspects of climate science and effective communication of climate science. Offered: jointly with ESS 596/OCEAN 596; AWSpS.

ATM S 600 Independent Study or Research (*-) Credit/no-credit only. Offered: AWSpS.

ATM S 700 Master's Thesis (*-) Offered: AWSpS.

ATM S 800 Doctoral Dissertation (*-) Offered: AWSpS.
Earth and Space Sciences

Department Overview

070 Johnson Hall

Earth and space sciences seeks to further the understanding of the Earth, the solar system, and their histories. The scope extends from the center of Earth to the rim of the solar system, and activities cut across traditional disciplines of physics, chemistry, biology, geology, and mathematics. The discipline examines Earth's interior structure, chemistry, motion, and dynamics; geologic hazards; processes affecting the surface environment and climate; the surrounding space environment; planetary processes; and geobiology.

Undergraduate Program

Adviser 070 Johnson Hall, Box 351310  206-616-8511  advising@ess.washington.edu

The Department of Earth and Space Sciences offers the following programs of study:

- The Bachelor of Science degree with a major in earth and space sciences, with options in biology, geology, physics, and environmental earth sciences
- The Bachelor of Arts degree with a major in earth and space sciences
- A minor in earth and space sciences
- A minor in climate science (offered jointly with the Department of Atmospheric Sciences and the School of Oceanography)

The Bachelor of Science degree is designed for students interested in geology and geophysics, and a career path in graduate studies or in the private sector where field and technology experiences and problem-solving skills are an important asset. The biology option enables B.S. students interested in paleontology and paleobiology to emphasize biology courses. The physics option allows for an emphasis in physics and geophysics. The environmental earth sciences option is designed for students interested in environmentally focused courses and careers. The Bachelor of Arts degree is designed for students who wish to obtain a broad understanding of earth sciences as a background for careers such as science journalism, environmental law, K-12 teaching, or environmental policy.
Bachelor of Science

Suggested First- and Second-Year Courses: MATH 124, MATH 125, and MATH 126 or ESS 310; PHYS 121, PHYS 122, PHYS 123 or PHYS 114/PHYS 117, PHYS 115/PHYS 118, PHYS 116/PHYS 119; CHEM 142.

Department Admission Requirements

Students in good academic standing may declare this major at any time.

Major Requirements

94-104 credits

1. Science Core (35 credits):
   a. Basic Supporting Science (20 credits): MATH 124, MATH 125 or equivalent; PHYS 114/PHYS 117 or PHYS 121; CHEM 142. (Students pursuing the ESS physics option must take PHYS 121.)
   b. ESS Required 200-Level Core Courses (15 credits): ESS 211, ESS 212, ESS 213. (Students in the ESS physics option may substitute ESS 205 for one of these.)

2. One of the four ESS Options below (minimum 59-69 credits, depending on option):
   a. Biology Option (59-68 credits)
      i. Supporting Science (25 credits): CHEM 152, CHEM 162; BIOL 180, BIOL 200; and one of BIOL 220, PHYS 115/PHYS 118, PHYS 122, MATH 126 or ESS 310, STAT 311.
      ii. ESS Required 300-Level Core Courses (15 credits): three of ESS 311, ESS 312, ESS 313, ESS 314
      iii. ESS 400-Level Courses (19-28 credits): ESS 400 or ESS 449/BIOL 475; ESS 418; 12 credits from ESS 400-level courses, 400-level BIOL courses from approved list (see website for current list), or any ESS 311-ESS 314 series course not taken as a required course, above. May not include independent study or seminar courses numbered ESS 489 through ESS 499. At least 3 credits from ESS-prefix courses.

   b. Environmental Earth Sciences Option (66-69 credits)
      i. Quantitative Skills (5 credits): ESS 310, STAT 311, or Q SCI 381
      ii. Supporting Science (10 credits): CHEM 152 or CHEM 220; and one of CHEM 162, PHYS 115/PHYS 118, PHYS 122, MATH 126, or ESS 310 (if not taken for quantitative skills requirement, above).
      iii. ESS Required 300-Level Core Courses (10 credits): two of ESS 311, ESS 312, ESS 313, ESS 314
iv. *ESS Environmental Core (15-18 credits):* ESS 201, ESS 326; two additional courses from approved list. See website for current list.

v. *ESS 400-Level Courses (26 credits):* ESS 400; ESS 418; 10 credits from ESS 400-level courses, from an approved list of courses outside ESS, or any ESS 311-ESS 314 series course not taken as a required course, above. May not include independent study or seminar courses numbered ESS 489 through ESS 499.

c. *Geology Option (67-69 credits)*
   i. *Supporting Science (18-20 credits):* MATH 126 or ESS 310, PHYS 115/PHYS 118 or PHYS 122 and two of PHYS 116/PHYS 119 or PHYS 123; CHEM 152, MATH 307, MATH 308, STAT 311
   ii. *ESS Required 300-Level Core Courses (15 credits):* Three of ESS 311, ESS 312, ESS 313, ESS 314
   iii. *ESS 400-Level Courses (34 credits):* ESS 400; ESS 418; 18 credits from ESS 400-level courses or any ESS 311-ESS 314 series course not taken as a required course, above. May not include independent study or seminar courses numbered ESS 489 through ESS 499.

d. *Physics Option (59-62 credits)*
   i. *Supporting science (30-33 credits):* MATH 126, MATH 308, MATH 324 or MATH 136, MATH 324; PHYS 122, PHYS 123, PHYS 227, PHYS 228, PHYS 321, PHYS 322.
   ii. *ESS required 300-Level Core Courses (10 credits):* two of ESS 311, ESS 312, ESS 313, ESS 314
   iii. *ESS 400-Level Courses (19 credits):* ESS 418; 15 credits from ESS 400-level courses or any ESS 311-ESS 314 series course not taken as a required course, above. May not include independent study or seminar courses numbered ESS 489 through ESS 499.

3. Minimum 2.00 cumulative GPA for all ESS-prefix courses

**Bachelor of Arts**

*Suggested First- and Second-Year College Courses:* Q SCI 291, Q SCI 292 or MATH 124, MATH 125; PHYS 114/PHYS 117 or PHYS 121; CHEM 142.

**Department Admission Requirements**

Students in good academic standing may declare this major at any time.

**Major Requirements**

90 credits

1. *Supporting Science (35 credits):*
a. *Basic Supporting Science (20 credits):* CHEM 142; Q SCI 291, Q SCI 292 or MATH 124, MATH 125; PHYS 114/PHYS 117 or PHYS 121.

b. *Additional courses:* 15 credits from department's approved list of courses in science and mathematics. See adviser for current list.

2. *ESS Courses (55 credits):*
   1. *Required courses (15 credits):* Two of ESS 211, ESS 212, ESS 213. One of ESS 311, ESS 312, ESS 313, ESS 314.
   2. *Elective Courses:* 40 upper-division credits (300 and 400 level) with at least 10 credits at the 400 level (may not include independent study or seminar courses numbered ESS 489 through ESS 499.)

   2. Minimum 2.00 cumulative GPA for all ESS-prefix courses.

**Continuation Policy**

All students must make satisfactory academic progress in the major. Failure to do so results in probation, which can lead to dismissal from the major. For the complete continuation policy, contact the departmental adviser or refer to the department website.

**Minor**

*Minor Requirements:* 30 ESS credits with at least 15 at the upper-division level (300- or 400-level) of which at least 3 credits must be at the 400-level (may not include independent study or seminar courses numbered ESS 489 through ESS 499.) All courses must be completed with a minimum grade of 2.0.

*Minor in Climate Science:* See description in the Climate Science listing in the Undergraduate Interdisciplinary Programs section of the General Catalog.

**Student Outcomes and Opportunities**

- *Learning Objectives and Expected Outcomes:* Students who graduate with an undergraduate degree in Earth and Space Sciences (ESS) have achieved these learning goals:
  1. Have a general knowledge of the basic areas of solid earth geology and geophysics, geobiology, surface processes, space physics, and analogues of processes within the solar system.
  2. Be proficient in one of the core disciplines through the completion of requirements in one of four options: standard (geology), (geo)biology, (geo)physics, or environmental.
  3. Think critically and obtain quantitative predictions using skill sets that involve multiple disciplines and all core sciences.
  4. Have obtained hands-on experience from extensive fieldwork and/or laboratory experience.
5. Have the ability to communicate scientific information clearly and precisely, both orally and in writing.

6. Have the ability to read, understand, and use scientific literature.

- Instructional and Research Facilities: See below, at end of graduate program requirements.

- Honors Options Available: With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors in the major). See adviser or department website for requirements.

- State Licensing Endorsement Available: Students interested in pursuing State Licensing for Geologists can receive guidance in course selection that meets state requirements for the geologist licensing examination (see adviser for requirements or visit department website).

- Research, Internships, and Service Learning: Job and internship possibilities are posted in the department and forwarded by email to all undergraduate students.

- Department Scholarships: A limited number of departmental scholarships are available. Scholarship applications are invited from all undergraduate students in the major during spring quarter. The awards are applicable to the following academic year.

- Student Organizations/Associations: Geo Club organizes field trips and social gatherings. Information about meetings and events is forwarded to undergraduate majors by email.

**Graduate Program**

Graduate Program Coordinator 070 Johnson Hall, Box 351310 206-616-8511
advising@ess.washington.edu

The department offers graduate programs leading to the Master of Science (M.S.) degree and the Doctor of Philosophy (PhD) degree in both geological sciences and geophysics. The programs emphasize a rigorous quantitative approach in conjunction with detailed in-situ and/or laboratory observations to address significant problems that lead to a better understanding of the Earth and its environment.

Major areas of interest are the internal and surface structures and materials of the Earth and planets; dynamic processes within the earth, oceans, atmosphere, and space environments; and their history and the interaction of life with these environments. The required curriculum is flexible to facilitate interdisciplinary research approaches. Earth and Space Sciences is also one of the core departments (with the Department of Atmospheric Sciences and the School of Oceanography) in the interdisciplinary graduate program on climate change and a participant in the astrobiology program.

**Master of Science**

**Admission Requirements**

1. GRE
2. TOEFL scores for international applicants. TSE scores not required.
3. One copy of official transcripts for all colleges and universities attended, in sealed envelopes. International transcripts in the original language, accompanied by a certified English translation.
4. Three letters of recommendation
5. Departmental application form
6. Personal resume and personal statement

**Degree Requirements**

36-45 credits

The department encourages interdisciplinary courses of study tailored to each student.

1. Courses determined in consultation with the student's advisory committee
2. ESS 594, each quarter offered in the first year
3. ESS 599, every quarter (except summer)
4. Two ESS introductory breadth courses (any 50X course)
5. Experiential learning
6. Data analysis course or research project with a significant data analysis component
7. Preliminary examination (see below)
8. Draft thesis or research paper
9. Final examination

*With Thesis:* 36 credits, of which 18 must be in courses at the 400 level or above and up to 9 may be for thesis (ESS 700). Final examination

*Without Thesis:* 45 credits, of which 18 must be in courses at the 400 level or above, to include a 5-credit research paper (ESS 600). Final examination

*Preliminary Examination:* Required for every graduate student. Provides one component the department uses to evaluate admission to the PhD program. Encourages students to develop and present a research project, and get an early, structured start on graduate research. Students must show knowledge of disciplines that underlie their general area of interest (e.g., geology, geophysics, mathematics, chemistry, biology).

**Doctor of Philosophy**

**Admission Requirements**

1. GRE
2. TOEFL scores for international applicants. TSE scores not required.
3. One copy of official transcripts for all colleges and universities attended, in sealed envelopes. International transcripts in the original language and accompanied by a certified English translation.

4. Three letters of recommendation

5. Departmental application form

6. Personal resume and personal statement

**Degree Requirements**

90 credits

The department encourages interdisciplinary courses of study tailored to each student.

Departmental requirements for graduate students in both geological sciences and geophysics.

1. Courses determined in consultation with the student's advisory committee

2. ESS 594, each quarter offered in the first year

3. ESS 599, every quarter (except summer)

4. Two ESS introductory breadth courses (any 50X course)

5. Experiential learning

6. Data analysis course or research project with a significant data analysis component

7. Preliminary examination (see below)

8. General examination

9. Draft dissertation

10. Dissertation defense

*Preliminary Examination:* An ESS requirement for every graduate student. Provides one component the department uses to evaluate admission to the PhD program. Encourages students to develop and present a research project, and get an early, structured start on graduate research. Students must show knowledge of the disciplines that underlie their area of interest (e.g., geology, geophysics, physics, mathematics, chemistry, biology).

**Research Facilities**

Extensive laboratory facilities are available for a wide range of experimental/field work. These include a wet chemistry laboratory, a JEOL 733 Superprobe with EDS/WDS and a high resolution laser Raman spectrometer for mineral analysis, a thermal-ionization mass spectrometer, a multi-collector inductively-coupled-plasma mass spectrometer and associated clean laboratories for analysis of stable and radiogenic isotopes, a computer laboratory, a remote-sensing laboratory with an image-processing system with LANDSAT tape library and spectral reflectance equipment, and high temperature controlled atmosphere furnaces. Also, field
equipment for electromagnetic induction studies; a high-pressure/temperature laboratory, including a laser-induced phonon spectrometer and diamond anvil cells for studying such rock and mineral properties as compression, sound velocities, and thermal conductivity; a permanent, regional seismic network; a portable telemetered seismic network for studying volcanoes and active faults in western North America; geodetic-quality global-positioning-system receivers; a cold laboratory for studying problems in snow-cover geophysics, glaciology, and sea-ice research; a geophysical-fluids laboratory; two cloud microphysics laboratories; a space physics and aeronomy laboratory for preparing ground-based, balloon, rocket, and satellite experiments; and a laboratory for the study of advanced plasma propulsion concepts. Additional facilities are provided by the Quaternary Research Center (which houses state-of-the-art cosmogenic isotope and stable-isotope research laboratories, palynology, snow and ice research, and a periglacial laboratory) and the Burke Memorial Washington State Museum (which houses paleontological laboratories and extensive reference collections of invertebrate, vertebrate, and plant fossils, and minerals).

Financial Aid

Most graduate students receive support in the form of teaching or research assistantships, and endowed fellowships and scholarships.

Course Descriptions

ESS 100 Dinosaurs (2) NW Biology, behavior, ecology, evolution, and extinction of dinosaurs, and a history of their exploration. With dinosaurs as focal point, course also introduces the student to how hypotheses in geological and paleobiological science are formulated and tested.

ESS 101 Introduction to Geology and Societal Impacts (5) I&S/NW Introduction to the processes, materials and structures that shape Earth. Emphasizes the dynamic nature of the earth's tectonic system and its relationship to physical features, volcanism, earthquakes, minerals and rocks and geologic structures. The course emphasizes the intrinsic relationship between human societies and geologic processes, hazards and resources. Not open for credit to students who have taken ESS 210. Optional field trips. Prerequisite: No prerequisite classes required. Offered: AWSpS.

ESS 102 Space and Space Travel (5) I&S/NW Explores the sun, solar storms, observations from space and from Earth; Earth's space environment, radiation belts and hazards, plasma storms and auroras, rockets and propulsion, human exploration efforts, societal impact, planetary systems and resources, and project highlighting space and its exploration. Open to non-majors. Offered: AWSp.

ESS 103 Minerals and Gems (3) NW Introduction to the nature of minerals: composition, structure, physical properties, and origins, with emphasis on gem minerals. Focuses on topics of particular interest in gemology, such as mechanisms of color, history and lore of gems, and uses of gems. Hands-on laboratories using about one hundred representative gems and minerals.
ESS 104 Prehistoric Life (3) NW  Fossils and how they are preserved. What fossils tell us about past life and environments. How the history of life unfolded and what caused the great events in biological evolution. Open to non-science majors, but also lays a foundation for higher-level geobiology courses.

ESS 106 Living with Volcanoes (3) I&S/NW  Explores volcanoes and volcanic eruptions on Earth and in the solar system. Examines how volcanoes work and how they affect the environment, life, and human societies. Illustrates principles using local examples of recent volcanism and ancient examples of mega-eruptions. Evaluates the possibility of predicting future eruptions.

ESS 119 Introduction to Laboratories (1, max. 3)  Reviews research being performed in visited and independent research opportunities and possibilities. Includes weekly visits to labs in ESS and related fields. Credit/no-credit only.

ESS 201 Earth's Climate System (3) NW  E. Steig  Earth's dynamic environment, global energy balance, interplay of chemical, physical, and biological processes shaping the Earth's surface and climate. Emphasis on quantitative methods for measuring, evaluating, and understanding contemporary changes relative to the last several thousand years. Prerequisite: either MATH 124, MATH 134, or Q SCI 291; recommended: An introductory background in earth sciences, chemistry or physics is helpful, but not required. Offered: Sp.

ESS 202 Earthquakes (5) I&S/NW  Earthquakes of the Pacific Northwest and around the world - their cause and relationship to plate tectonics; why, where, and when they occur. How earthquakes affect human life: shaping landscape, hazards. Laboratory explores physical processes associated with earthquakes. One field trip. Open to non-science majors.

ESS 203 Glaciers and Global Change (5) I&S/NW  Explores how glaciers record climate change and human activities through bubbles of ancient air and trace impurities in the ice. Also reviews glaciers impact on societies through sea-level, coastlines, water supplies, and transportation routes. Open to non-science majors.

ESS 204 The Paleobiology and Geobiology of Mass Extinctions (3-4) NW  P. Ward  Covers the origin and diversification of life on Planet Earth, and abrupt die-offs in mass extinctions. Explores how new instrumentation and experimentation in biology and chemistry, and improved sampling of the fossil record in geology, combine with astrobiology and geobiology to revise out history of Earth and its life. Prerequisite: a minimum grade of 1.7 in ESS 100.

ESS 205 Access to Space (5) NW  Group development of student experiments to the outer rim of our atmosphere and the beginning of space; investigation of stratosphere, mesosphere,
thermosphere, magnetosphere, development of exploration packages; basic electronic fabrication, global positioning, radio tracking, expectations at high altitudes. Open to all disciplines. No previous experience of electronics required.

ESS 209 Interdisciplinary Earth Sciences Field Seminar (3-12, max. 12) NW Miscellaneous field-based and experiential learning activities in earth and space sciences.

ESS 210 Physical Geology (5) NW Introduction to the physical and chemical processes of the earth's surface and interior. Plate tectonics, earthquakes, volcanism, glaciation. Optional field trips to Cascades and Olympics. Background in geology not required but science background desirable. Not open for credit to students who have taken ESS 101. Recommended: High school or college precalculus and high school or college chemistry.

ESS 211 Physical Processes of the Earth (5) NW Overview of Earth. Deformation of soil, sediment, and rock. Erosional and depositional processes and landforms. Seismicity and plate-tectonics. Structural, geomorphic, and climatic interactions in major tectonic regimes. Use of stereonets, air photos, geologic maps, and cross sections. Two one-day field excursions. Prerequisite: a minimum grade of 2.0 in either MATH 124, MATH 134, or Q SCI 291, either of which may be taken concurrently; a minimum grade of 2.0 in either both PHYS 114 and PHYS 117 or PHYS 121. Offered: A.

ESS 212 Earth Materials and Processes (5) NW Crystallography, crystal chemistry, and characteristics of rock-forming and ore minerals. Description, phase equilibria, origin, and associations of igneous, sedimentary, and metamorphic rocks. Laboratory study of hand specimens. Two one-day field excursions. Prerequisite: minimum grade of 2.0 in either CHEM 142 or CHEM 145. Offered: W.

ESS 213 Evolution of the Earth (5) NW Introduction to paleontology, types of stratigraphy, and radiometric dating. The physical, chemical, biological, and plate tectonic evolution of the earth's crust, seawater, and atmosphere. Comparison with other planets. Climate changes and man as a geologic agent. Two one-day field excursions. Prerequisite: minimum grade of 2.0 in either ESS 210, ESS 211, or ESS 212. Offered: Sp.

ESS 230 Rivers and Beaches (3/5) NW Introduction to Earth surface environments, the processes that shape them, how humans affect them and are affected by them. Weekend field trips examine mountains, rivers, deltas/estuaries, beaches, and environments beyond. Focuses on linkages between these environments to illustrate coupling between landscapes and seascapes. Offered: jointly with OCEAN 230.

ESS 290 Special Topics (1-10, max. 20) NW Selected topics in earth and space sciences.

ESS 301 Geology of the Northwest (5) NW Geologic history of Washington, Oregon, and Idaho. Emphasis on use of geologic principles in interpreting evidence found in landscapes and rocks. Weekend field trips optional. Prerequisite: either ESS 101, ESS 105, ESS 210, ESS 211.
ESS 305 Geology of the National Parks (5) NW  Reviews a wide range of fundamental geological processes, using North American parks and monuments as examples of natural laboratories. Includes plate-tectonic history, volcanism, mountain-building, and glacial, fluviol, and a host of other geomorphic forces as preserved in geologic exposures of National Parks. Prerequisite: either ESS 101, ESS 105, ESS 210, or ESS 211.

ESS 306 Planetary Geology (5) NW  Up-to-date survey of geological features and processes on and within planets and their moons deduced from sampling, remote sensing, spacecraft imagery, and theory. Comparative discussion of volcanism, tectonics, surface processes, and thermal evolution. Examination of moon rocks and meteorites. Prerequisite: either ESS 101, ESS 105, ESS 210, ESS 211.

ESS 307 Diversity Outreach Program in Earth and Space Sciences (3-5) I&S/NW, DIV  Students will lead Earth and Space Sciences outreach events to underserved and underrepresented populations in the Northwest. Gain an understanding to the barriers to education and participate in events to remove some of these barriers. Prerequisite: either ASTR 101, ASTR 102, ASTR 150, BIOL 180, CHEM 120, CHEM 142, CHEM 143, CHEM 145, ESS 101, ESS 102, ESS 211, ESS 212, ESS 213, ESS 472, PHYS 114, or PHYS 121.

ESS 310 Mathematical Methods in the Earth Sciences (5) NW  Presents mathematical methods for Earth Sciences applications. Focuses on setting up equations and on the quality of written solutions. Prerequisite: either Q SCI 292, MATH 125 or MATH 135; either PHYS 114/PHYS 117 or PHYS 121.

ESS 311 Geomechanics (5) NW  Introduction to continuum mechanics: elasticity, fluid dynamics, diffusion, porous flow, multiphase flow, dimensional analysis, and natural convection. Example applications: earthquakes and rock mechanics, flow of glaciers, slope stability, debris flows, groundwater flow, contaminant transport, flow in rivers and channels, mantle and magma convection. Prerequisite: 2.0 in either MATH 125, MATH 135, or QSCI 292; 2.0 in either PHYS 114 and 117 or PHYS 121; and 2.0 in ESS 211; recommended: Previous experience with MATLAB. Offered: W.

ESS 312 Geochemistry (5) NW  Geochemical concepts essential to earth science studies. Crystal chemistry and elemental affinities, thermodynamics of geologic processes, trace element and isotopic fractionation, weathering, cosmochemistry, and exploration of basic global geochemical cycles. Laboratory exercises explore the dynamics of geochemical processes. Prerequisite: 2.0 in CHEM 142 or CHEM 145; 2.0 in either MATH 125, MATH 135, or QSCI 292; 2.0 in ESS 212, Offered: Sp.

ESS 313 Geobiology (5) NW  Introduction to the early record of life on earth. Environmental factors leading to life's diversification. The role of life in biomineralization. The history of biodiversity. The role of life in landform and soil formation. Laboratory exercises demonstrate specimens and techniques. Prerequisite: minimum 2.0 in either CHEM 142 or CHEM 145; minimum 2.0 in ESS 213. Offered: A.
ESS 314 Geophysics (5) NW Introduction to geophysical methods including refraction and reflection seismology, gravity, magnetics, electrical resistivity, heat flow, and geodesy. Laboratory exercises explore interpretation of geophysical data to determine elastic wave speed, density, magnetic susceptibility, and electrical conductivity at depth. Prerequisite: 2.0 in either MATH 126, MATH 136, or ESS 310; 2.0 in either PHYS 115 and PHYS 118 or PHYS 122. Offered: A.

ESS 315 Environmental Earth Science (5) NW Analysis of geologic constraints upon human activity and the environmental consequences of such activity. Topics include hillslope processes, fluvial and groundwater processes, earthquake and volcanic hazards, and environmental aspects of deforestation and atmospheric pollution. Prerequisite: either ESS 101, ESS 105, ESS 210, ESS 211. Offered: jointly with ENVIR 313.

ESS 326 Geomorphology (5) NW Introduction to landforms and surficial deposits. Emphasis on landscape-forming processes. Intended for students who wish to take additional courses in geomorphology. Prerequisite: either PHYS 114 or PHYS 121.

ESS 345 The Environment of Fuel and Mineral Deposits (3) I&S/NW Fuels and nonmetallic ores as the substrate of industrial civilization. Provides non-majors with sufficient information about these resources to allow for informed decisions of related geological, environmental, and societal issues. Prerequisite: either ESS 210 or ESS 211.

ESS 400 Field Geology (12) NW Six weeks of geologic mapping in a variety of rock types in the Western United States. Enhances students' knowledge of geologic phenomena and processes. Development of skills in mapping, field interpretation, and report writing. Students responsible for own living expenses while in the field. Prerequisite: ESS 211; ESS 212; ESS 213; one course selected from ESS 311, ESS 312, ESS 313, or ESS 314. Offered: S.

ESS 402 International Field Geology (3-12, max. 12) NW Supervised field study, international travel, and exploration. Work may include independent research projects and experiential learning in outdoor environments. Prerequisite: No prerequisites required but related experience is encouraged.

ESS 403 Global Tectonics (5) NW Introduction to large-scale plate tectonics processes and observations including motions on a sphere, polar-wander paths, plate-boundary seismicity, focal mechanisms, gravity, magnetics, and heat flow. Also includes observations and theories of plate deformation and continental dynamics with emphasis on Western North America. Prerequisite: PHYS 121; recommended: either MATH 126, MATH 136, or ESS 310; PHYS 123; either ESS 311 or 314; a background in quantitative analysis using a computer based environment like MATLAB.

ESS 408 Great Geological Issues (3) NW History and development of geological and paleontological theories and controversies; philosophy and methodology that have driven scientific inquiry in the earth sciences.
ESS 410 Marine Geology and Geophysics (4) NW Explores the geological and geophysical processes that form and shape the ocean basins and continental margins. Prerequisite: either OCEAN 310 or ESS 211 Offered: jointly with OCEAN 410; A.

ESS 411 Geophysical Continuum Mechanics (5) NW Analysis of stress and strain. Measurement and interpretation of strain in geological materials. Elasticity applied to determine stress in the Earth's lithosphere. Creep of solids and flow of geological materials. Prerequisite: either MATH 136, both MATH 307 and MATH 308, or both AMATH 351 and AMATH 352.

ESS 412 Introduction to Seismology (3) NW Examines stress and strain, the wave equation, travel times, amplitude and phase, reflection seismology, surface waves, and source theory, including moment tensors, radiation patterns, far-field wave shapes, source spectra, stress drop, and magnitude. Prerequisite: either MATH 136, both MATH 307 and MATH 308, or both AMATH 351 and AMATH 352; recommended: ESS 411 and PHYS 123.

ESS 414 Geophysics: Fluids (3) NW Introduction to geophysical fluid dynamics. An overview of fluids in geophysics with emphasis on the oceans. A nonrigorous development of the equations of motion with examples drawn from oceanography and solid earth geophysics. Prerequisite: either MATH 136, both MATH 307 and MATH 308, or both AMATH 351 and AMATH 352; and PHYS 322.

ESS 415 Space and Plasmas (3) NW Survey of various phenomena occurring in outer regions of Earth's atmosphere, ionosphere, magnetosphere, and Van Allen radiation belts. Laboratory applications include plasma thrusters and fusion. Concepts include charged particles in magnetic fields, drift motion, plasma, magnetohydrodynamic waves. Prerequisite: PHYS 321; recommended: PHYS 322.

ESS 418 Geoscience Communication (4) Covers principles of organizing, developing, and writing geoscience information including abstracts, presentations, scientific articles, correspondences, and proposals. Reviews writing conventions, use of illustrations, style, and tone. Prerequisite: Two of ESS 201, ESS 205, ESS 211, ESS 212, ESS 213, any of which may be taken concurrently.

ESS 420 Introduction to Geographic Information Systems for the Earth Sciences (5) S. WALTERS Examines principles of GIS applied to the geological sciences. Covers basics of GIS, data types, and GIS analyses. Includes hands-on analysis applied to geologic patterns and phenomena: sources geological data; geological mapping; measures of topography; hydrologic flow patterns; and topics of the students' own interests. Offered: Asp.

ESS 424 Water in the Environment (3) NW Discusses the unique physical and chemical properties of the water molecule in relation to the atmospheric greenhouse effect, precipitation
formation, oceanic circulations, infiltration of water through soils, geyser eruptions, and glacier and sea ice thickness. Prerequisite: either ESS 310, MATH 126, or MATH 136; PHYS 123. Offered: jointly with ATM S 460/PHYS 460.

**ESS 425 Tectonic Geomorphology (3)** A. Duvall Advanced-level survey of tectonic geomorphology topics, focusing on the interplay between tectonic and surface processes that shape the landscape in regions of active deformation and at time scales ranging from days to millions of years. Prerequisite: either ESS 311, ESS 326, ESS 426, or ESS 427.

**ESS 426 Fluvial Geomorphology (5)** Hydraulic and morphological characteristics of streams and valley floors. Landscape evolution by stream erosion and deposition. Field exercises emphasize quantitative analysis of fluvial processes, channel forms, acquisition of various skills, such as mapping, topographic surveying, report writing. Prerequisite: either ESS 311 or ESS 326.

**ESS 427 Hillslope Geomorphology (5) NW** Theoretical, laboratory, and field study of hillslope evolution by mass wasting and water erosion. Prerequisite: either ESS 311 or ESS 326.

**ESS 431 Principles of Glaciology (4) NW** Covers snow deposition and metamorphism, avalanches, heat and mass balance at snow and ice surfaces, glacier flow, ice sheets, sea ice, permafrost, methods of paleoclimate reconstruction, Ice Age theories. Prerequisite: PHYS 121.

**ESS 433 Environmental Change in the Glacial Ages (5) NW** Physical, biological evidence of climatic change during Quaternary Period; emphasizing stratigraphy, chronology. Impact of alternating glacial/interglacial cycles on earth's terrestrial, marine environments. Theories on causes of climatic variation.

**ESS 435 Glacial-Periglacial Geomorphology NW (3) NW** Introduces glacial processes that shape mountainous and polar regions, creating a wealth of characteristic landforms; and periglacial processes that profoundly impact nearly twenty percent of the land surface of the plant and Mars through frost action and thermal fluctuations. Prerequisite: either Q SCI 292, MATH 125, or MATH 135; either PHYS 114 and PHYS 117 or PHYS 121; ESS 211; ESS 326.

**ESS 437 Mineralogy (5) NW** Symmetry of crystals and crystal structures. Rules of crystal chemistry. Microscopic, diffraction, and spectroscopic techniques of mineral characterization. Transformation processes in minerals: order-disorder, phase transition, and exsolution. Crystal chemistry and phase relations. Reactions on mineral surfaces. Physical properties, deformation, and creep. Prerequisite: CHEM 142 or CHEM 145; ESS 212; ESS 312.

**ESS 439 Petrology of Igneous Rocks (5) NW** Systematic study of the major families of volcanic and plutonic igneous rocks with emphasis on tectonic setting, phase relations, geochemistry, and models of their origin and evolution throughout geologic time. Laboratory emphasizes thin-section study of rocks using transmitted and reflected light. Prerequisite: ESS 312.
ESS 441 Petrology and Petrography of Sedimentary Rocks (5) NW Mineralogy, textures, and origin of sedimentary rocks, using petrographic microscope. Prerequisite: ESS 312.

ESS 447 Engineering Geology: Methods and Application (4) Applies the application of geologic principles to geotechnical and environmental problems; includes investigation and characterization of soil and rock properties. Includes two weekend field trips. Prerequisite: ESS 210 or ESS 211; either ESS 311, ESS 411, ESS 463, or CEE 220.

ESS 448 Analytical Paleobiology (5) NW Introduction to the principles and analytical methods in the study of paleobiology, morphology, and systematics. Topics include paleobiogeography, morphology-based phylogenetics, evolutionary rates, biodiversity curves, functional morphology, morphometrics, and paleoecology. Emphasis on application of methods using fossil and modern specimens. Prerequisite: either BIOL 280, BIOL 354, or ESS 213. Offered: jointly with BIOL 438; A.

ESS 449 Intensive Field Experience in Biology (3-5) NW Introduces field methods and research in various areas of biology, e.g., paleontology, ecology, climate change, and mycology. Includes two or more weeks away from campus at field site. Offered: jointly with BIOL 475; S.

ESS 450 Paleobiology (3) NW Biological evolution over the past 500 million years, considering how the reciprocal interactions between environment and evolution have influenced the major episodes in life's history and providing a background for assessing the evolutionary impact of modern environmental change.

ESS 451 Vertebrate Paleontology (5) NW C. SIDOR Examines fossil vertebrate life, focusing on systematics and morphology of major lineages (fish, reptiles, bird, and early mammal relatives). Examines fossil and modern vertebrates from the Burke Museum collection in the lab. Weekend field trip. Prerequisite: either BIOL 354, BIOL 452, BIOL 453 or ESS 100. Offered: jointly with BIOL 450.

ESS 452 Vertebrate Paleontology (5) NW C. SIDOR Examines fossil vertebrate life, focusing on systematics and morphology of major lineages (fish, reptiles, bird, and early mammal relatives). Examines fossil and modern vertebrates from the Burke Museum collection in the lab. Weekend field trip. Prerequisite: either BIOL 354, BIOL 452, BIOL 453 or ESS 100. Offered: jointly with BIOL 450.

ESS 453 Fossil Mammals (5) NW Evolutionary relationships of fossil mammals, from mammal-like reptiles of late Paleozoic to diverse Cenozoic groups. Morphology, adaptations, extinctions, evolutionary patterns. Structures and relationships of most major groups. Field trip. Prerequisite: either ESS 100 or ESS 452.

ESS 454 Hydrogeology (4) NW Covers the analysis of groundwater flow systems, geologic controls, and hydrologic properties; basics of chemistry and solute transport in groundwater; and the use of numerical models. Considers local examples and groundwater resource management. Prerequisite: either ESS 311 or ESS 314; recommended: either MATH 126, MATH 136, or ESS 310; a background in quantitative analysis using spreadsheets or MATLAB
ESS 455 Stratigraphy (4) NW  
Systematic study of stratified rocks and space-time implications. Principles of stratigraphy, including biostratigraphy, magnetostratigraphy, seismic stratigraphy, subsurface analysis. Basin analysis, evolution of sedimentary basins and continental margins. Prerequisite: ESS 213.

ESS 456 Sedimentary Geology and Depositional Environments (4) NW A. Licht  
Principles of sedimentary geology, including survey of modern processes that produce sedimentary rocks and sequences. Recognition of various depositional environments represented in the geologic record, including terrestrial, marine terrigenous, and carbonate environments. Two field trips required. Prerequisite: ESS 213; recommended: ESS 311 and either ESS 326, ESS 425, ESS 426, or ESS 427.

ESS 457 Environmental Geochemistry (4) NW  
Geochemistry of natural waters, emphasizing applications in geology. Topics include groundwater composition, weathering, mineral adsorption, equilibrium computer modeling, clay minerals, organic geochemistry, and groundwater quality. Prerequisite: ESS 312, CHEM 152, or CHEM 155.

ESS 460 Cosmogenic Nuclides in Geomorphology (3) NW  
Use of cosmic-ray-produced nuclides to date rock surfaces and analyze geomorphic processes. Nuclide production by cosmic radiation above and below ground; tracer methods; exposure dating; coupling of cosmogenic nuclide data to geomorphic models. Open to undergraduate students only. Prerequisite: either ESS 311 or ESS 312.

ESS 461 Geological Time (3) NW  
Principles of radiometric dating. Methods applicable to Earth history from planetary formation to the recent past. Radiocarbon dating; geological dating with long-lived isotopes; uranium series, trapped charge and cosmogenic isotope techniques. Applications in archaeology, climate change, geomorphology, tectonics, and Earth evolution.

ESS 462 Volcanic Processes (4) NW  
Pre-eruption, eruption, and post-eruption processes. Examines triggers of magma ascent, controls on volatile build-up and loss, magma fragmentation, magma-groundwater interaction, eruption column dynamics, gravity-controlled eruptive phenomena, syn- and post-eruption lahars and other re-working of deposits. Prerequisite: either ESS 212, ESS 311, or ESS 312.

ESS 463 Structure and Tectonics (5) NW  
Geometry, kinematics, and tectonic setting of major types of structures, including those in contractional fold-and-thrust belts; extended crust; strike-slip-dominated regimes; and shear zones. Laboratory exercises develop basic tools of structural geology. Prerequisite: ESS 211; ESS 212; and ESS 213.

ESS 467 Seismic Exploration (3) NW E. Roland Saenger  
Introduction to theory and practice of seismic exploration. Application of refraction and reflection techniques to geologic investigations, tectonics and mineral exploration. Practice in the interpretation of subsurface structure. Prerequisite: ESS 311 or ESS 314, or OCEAN 285 and OCEAN 310. Offered: jointly with OCEAN 412; Sp.
ESS 471 Introduction to Space Physics (3) NW Introduces several areas of space physics, the physical principles that apply therein, and the methods by which significant observations are made. Covers electromagnetic and plasma processes from the center of the sun to the surface of the earth. Prerequisite: PHYS 123.

ESS 472 Rockets and Instrumentation (2-4, max. 12) Students launch science payloads to high altitude using high power amateur rockets, providing design, fabrication, test, integration, and management experience; covers science motivation, engineering aspects, and delivery systems. Project may vary each year.

ESS 475 Current Research in Climate Science Seminar (3, max. 6) Weekly lectures focusing on a particular aspect of climate from invited speakers, complemented by class discussion, readings, and final paper. Promotes interdisciplinary understanding of climate concepts. Prerequisite: either ESS 201, ATM S 211, or ATM S 321. Offered: jointly with ATM S 475/OCEAN 475; A.

ESS 480 Advanced Methods in Isotope Geochemistry (3, max. 18) NW Studies new developments in isotope geochemistry. Topics vary by quarter and may include clumped isotopes, triple-oxygen isotopes, rate isotopes, mass-independent fractionation, and their incorporation into Earth system models. Introduces theory, measurement, and applications to processes in Earth, ocean, atmospheric, planetary, and climate science. Prerequisite: either ESS 312, ESS 424, ESS 457, ESS 459. Instructors: Huntington, Steig

ESS 482 Environmental Geochemistry Laboratory (4) NW Laboratory techniques and experiments relevant to analyses of natural waters. Topics include alkalinity measurements, iron analyses, colorimetric analyses, heavy metal adsorption and geochemical modeling. Prerequisite: ESS 312 or ESS 457.

ESS 489 Honors Seminar (3) Covers current scientific topics in earth and space sciences; philosophy and methodology of science strategies for developing research projects; scientific education and career planning. May require colloquium or local conference attendance. Offered: A.

ESS 490 Special Topics (1-10, max. 20) NW

ESS 492 Undergraduate Teaching Experience and Outreach (1-3, max. 12) NW Designed to help undergraduate majors acquire effective teaching skills at the college and public school level. Teaching experience gained through assisting graduate student teaching assistant or K-12 public school outreach. Involves classroom teaching experience and improving communications and presentation skills.

ESS 495 NASA Science and Engineering Research Seminar (1, max. 4) NW Review of current space science-related research. Emphasis varies, but topics may include planetary geology, astronomy, global change, aeronautical engineering, and remote sensing. Credit/no-credit only.
ESS 498 Independent Study (1-5, max. 15) Independent coursework in selected Earth & Space Sciences topics supervised by a faculty member in an area of shared scholarship. Designed for advanced students seeking additional education in a specific subject. Prerequisite: Permission of instructor.

ESS 499 Undergraduate Research (*, max. 15)

ESS 501 Geochemical Systems (3) Geochemical systems through time, from solar system origin to present. Explores fundamental geochemical concepts using current research issues and discussion. Concepts include radiogenic and stable isotope systematic, thermodynamics, high and low temperature chemistry of rocks and water, geochemical cycles through Earth's history. Prerequisite: graduate student standing or permission of instructor. Instructors: Nelson

ESS 502 The Solid Earth (3) Concepts of internal earth processes: Earth as heat engine and chemical processor, style of mantle convection, origin and evolution of the Earth's magnetic field, Cascadia subduction and hazards. Introduces seismology, fluid dynamics, heat flow, gravity, and geomagnetism. Focuses on the analysis, critique, and communication of ideas from scientific literature.

ESS 503 Introduction to Solar Terrestrial Physics (3) Introduces several areas of space physics, the physical principles that apply therein, and the methods by which significant observations are made. Covers electromagnetic and plasma processes from the center of the sun to the surface of the Earth. Prerequisite: PHYS 123.

ESS 504 The Earth Surface (3) Investigates the coupled tectonic and geomorphic processes that shape the surface of the Earth, creates the surface environment that sustains humanity and other life systems, and produces natural hazards. Introduces modern tools, techniques, and theories applicable to analysis of this coupled dynamic system.

ESS 505 The Cryosphere (4) Covers snow deposition and metamorphism, avalanches, heat and mass balance at snow and ice surfaces, glacier flow, ice sheets, sea ice, permafrost, methods of paleoclimate reconstruction, and Ice Age theories. Prerequisite: PHYS 121. Instructors: Waddington, Warren Offered: A.

ESS 508 Great Geological Issues (3) History and development of geological and paleontological theories and controversies; philosophy and methodology that have driven scientific inquiry in the earth sciences. Requires a term paper analyzing primary material. Prerequisite: graduate standing in earth sciences, or in history of science, or permission of instructor.

ESS 509 Field Methods in Applied Geology I (3) Introduction to problems and techniques of applied geology. Studies the interactions among land use, infrastructure, and the dynamic landscape of the Pacific Northwest. Includes nine-day intensive, mid-September field course held near Mount Rainier. Prerequisite: strong background in field methods and geology. Instructors: Crider Offered: A.
ESS 510 Field Methods in Applied Geology II (3) Application of applied geology core curriculum to field problems. Includes nine-day intensive, mid-June field course held on the Olympic Peninsula and coastal Puget Sound. Prerequisite: ESS 509; three of ESS 420, ESS 454, ESS 526, ESS 527, or ESS 547. Instructors: Troost Offered: S.

ESS 512 Seismology (3) Examines stress and strain, the wave equation, travel times, amplitude and phase, reflection seismology, surface waves, and source theory, including moment tensors, radiation patterns, far-field wave shapes, source spectra, stress drop, and magnitude. Prerequisite: either ESS 511 or PHYS 123 and one of MATH 307 or MATH 308.

ESS 514 Geophysics: Fluids (3) Geophysical fluid dynamics. Fluids in geophysics with emphasis on the oceans. Development of the equations of motion with examples drawn from oceanography and solid earth geophysics. Includes advanced, research-oriented problems. Prerequisite: PHYS 322, MATH 307, and MATH 308 or equivalent.

ESS 515 Geophysics: Space (3) Various phenomena occurring in outer regions of Earth's atmosphere, ionosphere, magnetosphere, and Van Allen radiation belts. Laboratory applications include plasma thrusters and fusion. Concepts include charged particles in magnetic fields, drift motion, plasma, magnetohydrodynamic waves. Includes advanced, research-oriented problems. Prerequisite: PHYS 321 or equivalent; recommended: PHYS 322.

ESS 517 Early Earth Evolution (3) Geological, biological, and environmental evolution of the Earth over the first 4 billion years of its history, as an analogue for the development of other habitable planets.

ESS 518 Technical Communication in Applied Geosciences (1, max. 3) Reading, writing, and presentation of technical information in the geosciences. Topics vary by quarter Offered: AWSp.

ESS 519 Scientific Writing and Graphics (2) Waddington, Warren Covers principles of scientific writing; methods of ensuring clarity in writing for scientific journals and research proposals; principles of graph construction; and authorship, peer review, and citations. For graduate students in Earth-science related fields. Credit/no-credit only. Offered: jointly with ATM S 519/OCEAN 518; Sp, odd years.

ESS 520 Application in Geographic Information Systems for the Earth Sciences (4) S. WALTERS Covers applied uses of GIS in the applied earth sciences. Includes hands-on instruction in and discussion of analysis of geologic patterns and phenomena: terrain analysis and interpretation; riverbed modeling; floodplain analysis; rainfall patterns and effects; landslide forecasting; isostatic phenomena; and topics of the students' own interest. Also covers basic instruction in geospatial statistics. Prerequisite: ESS 420 or permission of instructor. Offered: W.
ESS 522 Geophysical Data Collection and Analysis (3) Theory and practical application of data collection and analysis applied to geophysical problems. Digital processing of signals; filtering and spectral analysis. Laboratory sessions include problem solving on computer-based processing system.

ESS 523 Geophysical Inverse Theory (3) K. CREAGER Introduction to the mathematical techniques for estimating properties of physical systems, such as the earth or atmosphere, from data that is insufficient for a precise specification of the system. Emphasis is on the concept of the resolving power of data sets. The ideas developed are quite general and have a wide range of applicability in the field of data interpretation. Offered: Sp, even years.

ESS 524 Numerical Heat and Mass Flow Modeling in the Earth Sciences (3) Numerical solution of steady and transient advective-diffusion equations describing heat and mass transport processes in earth sciences, emphasizing finite-volume methods and their relationship to finite-difference and finite-element methods. Topics include discretization methods; coordinate systems; boundary conditions; accuracy; and stability. Prerequisite: MATH 307; MATH 308 or equivalent; or permission of instructor. Instructors: Waddington Offered: Sp, even years.

ESS 525 Tectonic Geomorphology (3) A. DUVALL Advanced-level survey of tectonic geomorphology topics, focusing on the interplay between tectonic and surface processes that shape the landscape in regions of active deformation and at time scales ranging from days to millions of years. Offered: Sp.

ESS 526 Fluvial Geomorphology (5) Collins Hydraulic and morphological characteristics of streams and valley floors. Landscape evolution by stream erosion and deposition. Field exercises and independent project emphasize quantitative analysis of fluvial processes, channel forms, acquisition of various skills, such as mapping, topographic surveying, and report writing.

ESS 527 Hillslope Geomorphology (5) Duvall Theoretical and applied study of hillslope processes including erosion and deposition; mass wasting; and slope forms and evolution.

ESS 529 Principles of Fluid Dynamics, Heat, and Mass Transfer in Earth Sciences (3) Introduction to the quantitative treatment of transport phenomena with applications to mantle and magma convection, volcanic eruptions, landslides, porous flow, and reaction. Emphasis on the governing equations of fluid dynamics including porous and multiple flow, chaotic convection, mixing, heat transfer, rheology, analytical, numerical, and scaling solutions.

ESS 531 Physics of Ice (3) Structure of the water molecule. Crystallographic structures of ice. Electrical, optical, thermal, and mechanical properties of ice. Growth of ice from vapor and liquid phases. Offered: jointly with ATM S 510.

ESS 533 Dynamics of Snow and Ice Masses (3) Rheology of snow and ice. Sliding and processes at glacier beds. Thermal regime and motion of seasonal snow, glaciers, and ice sheets. Avalanches and glacier surges. Deformation and drift of sea ice. Response of natural ice masses to change in climate. Prerequisite: permission of instructor. Offered: jointly with ATM S 512.

ESS 535 Ice and Climate (3) Examines the role of ice and snow in climate. Polar climate dynamics. Polar-global interactions. Modeling snow cover, sea ice, and ice-sheet balance, and flow in the climate system. Prerequisite: permission of instructor. Offered: jointly with ATM S 514.

ESS 537 Advanced Mineralogy (3) Crystal symmetry: point groups, space groups. Mathematical description of crystal structures; group theory, irreducible representations; tensor description of physical properties: stress, strain, piezoelectricity, elasticity; structural and magnetic phase transitions, Landau theory, deformation and creep crystals; elasto-viscous properties of Earth's mantle, crystal chemistry, solid state reactions. Offered: jointly with MSE 518; A.

ESS 541 Applied Fluvial Geomorphology (4) Application of theory in fluvial geomorphology to framing and addressing questions in basic research and problems in applied contexts such as river engineering, land use planning, resource management, and river restoration. Prerequisite: either ESS 426, ESS 526, or permission of instructor.

ESS 544 Applied Tsunami Hazard Science (4) Broad introductory overview of tsunami science and physical, social, and economic impacts of tsunami hazards. Designed for scientific, engineering, earth-science professionals, and graduate students interested in tsunami hazard assessment, mitigation, or warning. Prerequisite: MATH 126; PHYS 123; AMATH 301, or equivalents. Instructors: Gonzalez

ESS 546 Continental-Margin Sedimentation (3) Detailed evaluation of recent studies into processes forming strata on continental margins, including the diverse time scales ranging from sediment transport to sequence stratigraphy. Highlights the linkages with physical oceanographic processes, the fates of geochemical components, and the relationship to biological communities. Offered: jointly with OCEAN 546.

ESS 547 Engineering Geology: Methods and Application (4) Applies the application of geologic principles to geotechnical and environmental problems; includes investigation and characterization of soil and rock properties. Includes two weekend field trips.

ESS 551 Mineral Physics (3) Applications of condensed matter physics to various geophysical problems. Topics vary, but usually include the thermal properties of relevant geophysical materials, the equation of state for the Earth's mantle and core, defects in solids and their roles in tectonophysics. Prerequisite: permission of instructor.

ESS 553 Electron Beam Microanalysis (4) Materials analysis using electron beams, including electron-target interactions, wave and energy dispersive x-ray analysis, scanning electron microscopy, and applications of these and related techniques to geological problems.
ESS 554 Paleoclimate Proxies (3) Alexander, Sachs Provides a critical evaluation of the most commonly applied paleoclimate proxies from the ocean, land, and ice sheets. Offered: jointly with ATM S 554/OCEAN 554.

ESS 555 Physics and Chemistry of the Earth's Interior (3) Emphasizes current issues in global tectonics and mantle dynamics. Examples include global seismic tomography and its bearing on geodynamics, the fate of subducted lithosphere and geochemical constraints on mantle convection. Prerequisite: permission of instructor.

ESS 557 Vertebrate Paleontology (5) Examines the biology of vertebrate animals, emphasizing their diversity, adaptations, and evolutionary history. Introduces aspects of behavior, physiology, morphology, and ecology that emerge from the comparative study of vertebrates. Laboratory includes local field trips and introduction to regional vertebrate fauna. Offered: jointly with BIOL 557.

ESS 558 Introduction to Graduate Research in Paleobiology (1) Introduction to paleobiology techniques and resources. Credit/no-credit only. Offered: jointly with BIOL 555; A.

ESS 560 Cosmogenic Nuclides in Geomorphology (3) Use of cosmic-ray-produced nuclides to date rock surfaces and analyze geomorphic processes. Nuclide production by cosmic radiation above and below ground; tracer methods; exposure dating; coupling of cosmogenic nuclide data to geomorphic models. Prerequisite: either AMATH 301, AMATH 351, or permission of instructor.

ESS 562 Observational Seismology (1, max. 18) Quarterly research themes introduce students to a variety of digital and analog seismograms and techniques for their interpretation. Students present results of short investigations in an informal seminar setting. Credit/no-credit only.

ESS 567 Environmental Geochemistry (4) NW Geochemistry of natural waters, emphasizing applications in geology. Topics include groundwater composition, weathering, mineral adsorption, equilibrium computer modeling, clay minerals, organic geochemistry, and groundwater quality. Offered: W.

ESS 568 Oceanic Lithosphere (3) Basic principles of elasticity, fluid flow, and heat transport with specific applications to the formation and evolution of the oceanic lithosphere. Includes deformation of the earth, flow in porous media, heat transport, and marine seismological and potential field techniques. Prerequisite: OCEAN 540. Offered: jointly with OCEAN 545.

ESS 573 Cloud Microphysics and Dynamics (3) Basic concepts of cloud microphysics, water continuity in clouds, cloud dynamics, and cloud models. Prerequisite: ATM S 501 or permission of instructor. Offered: jointly with ATM S 535; Sp.

ESS 575 Advanced Rockets and Instrumentation (2-4, max. 12) Students launch science payloads to high altitude using high power amateur rockets, providing design, fabrication, test, integration, and management experience; covers science motivation, engineering aspects, and delivery systems. Project may vary each year. Offered: AW.

ESS 576 Space and Laboratory Plasma Physics (3) Discussion of waves, equilibrium and stability, diffusion and resistivity, basic plasma kinetic theory, and wave-particle interactions. Prerequisite: ESS 415, or equivalent, or permission of instructor. Offered: jointly with A A 556; W, odd years.

ESS 578 Kinetic Theory and Simulation of Space Plasmas (3) Wave-particle interactions in space plasmas. Generation of different wave modes, electrostatic and electromagnetic, Langmuir waves to Alfvén waves. Beam, Weibel, and masers instabilities, heavy ion interactions. Particle simulations, electrostatic and electromagnetic, for non-linear wave evolution and particle heating.

ESS 580 Advanced Methods in Isotope Geochemistry (3, max. 18) Studies new developments in isotope geochemistry. Topics vary by quarter and may include clumped isotopes, triple-oxygen isotopes, rate isotopes, mass-independent fractionation, and their incorporation into Earth system models. Introduces theory, measurement, and applications to processes in Earth, ocean, atmospheric, planetary, and climate science. Prerequisite: one of ESS 312, ESS 424, ESS 457, ESS 459, ESS 501, ESS 554, OCEAN 583, or permission of instructor. Instructors: Huntington, Steig

ESS 581 Planetary Atmospheres (3) Problems of origin, evolution, and structure of planetary atmospheres, emphasizing elements common to all; roles of radiation, chemistry, and dynamical processes; new results on the atmospheres of Venus, Mars, Jupiter, and other solar system objects in the context of comparative planetology. Offered: jointly with ASTR 555/ATM S 555.

ESS 582 Environmental Geochemistry Laboratory (4) NW Laboratory techniques and experiments relevant to analyses of natural waters. Topics include alkalinity measurements, iron analyses, colorimetric analyses, heavy metal adsorption and geochemical modeling. Offered: Sp.
ESS 583 Origin of the Solar System (3) Nebular and nonnebular theories of the solar system origin; collapse from the interstellar medium, grain growth in the solar nebula, formation of planetesimals and planets, early evolution of the planets and other possible planetary systems; physical and chemical evidence upon which the ideas concerning the origin of the solar system are based. Offered: jointly with ASTR 557.

ESS 585 Climate Impacts on the Pacific Northwest (4) Mantua, Snover Knowledge of past/future patterns of climate to improve Pacific Northwest resource management. Topics include the predictability of natural/human-caused climate changes; past societal reactions to climate impacts on water, fish, forest, and coastal resources; how climate and public policies interact to affect ecosystems and society. Offered: jointly with ATM S 585/ENVIR 585/SMEA 585; Sp.

ESS 586 Current Research in Climate Change (2, max. 20) Weekly lectures focusing on a particular aspect of climate (topic to change each year) from invited speakers (both UW and outside), plus one or two keynote speakers, followed by class discussion. Credit/no-credit only. Offered: jointly with ATM S 586/OCEAN 586.

ESS 587 Fundamentals of Climate Change (3) Examines Earth's climate system; distribution of temperature, precipitation, wind ice, salinity, and ocean currents; fundamental processes determining Earth's climate; energy and constituent transport mechanisms; climate sensitivity; natural climate variability on interannual to decadal time scales; global climate models; predicting future climate. Offered: jointly with ATM S 587/OCEAN 587.

ESS 588 The Global Carbon Cycle and Climate (3) Emerson Oceanic and terrestrial biogeochemical processes controlling atmospheric CO2 and other greenhouse gases. Records of past changes in the earth's carbon cycle from geological, oceanographic, and terrestrial archives. Anthropogenic perturbations to cycles. Develop simple box models, discuss results of complex models. Offered: jointly with ATM S 588/OCEAN 588; W.

ESS 590 Special Topics (2-10, max. 20)

ESS 592 Professional Practice in Applied Geosciences (1, max. 3) Covers major issues and current topics in the practice of Geosciences: professional licensing, ethics, business trends, environmental regulation, emerging technologies. Includes internships and career guidance, as well as weekly guest speakers. Offered: AWSp.

ESS 593 Climate Science Seminar (1) Mote Focuses on how to communicate climate science to many different audiences through careful construction of figures and through written and oral communication. Credit/no-credit only. Offered: jointly with ATM S 593/OCEAN 593; W.
ESS 594 Introduction to Earth and Space Sciences Research (1-2, max. 4) Introduces research of faculty and advanced graduate students to first-year graduate students and provides experience for the formulation, oral presentation, and defense of research proposals and results.

ESS 595 Earth and Space Sciences Research Methods (2, max. 30) Current research methodology and results based on recent literature and on faculty and student research. Designed to develop student perspective on observational and theoretical methods and on relation of specific research to broader developments in geophysics and interdisciplinary aspects of geophysics through faculty-guided presentations and discussion by students. Credit/no-credit only.

ESS 596 Climate Science Capstone Project (1-5, max. 5) Mote Climate capstone directed by a mentor, may be a group effort, and may encompass curriculum development, internships, workshop organization, etc., capturing interdisciplinary aspects of climate science and effective communication of climate science. Offered: jointly with ATM S 596/OCEAN 596; AWSpS.

ESS 597 Applied Geoscience Investigation (1-5, max. 10) Independent investigation in applied geosciences guided by a faculty member and commonly in association with an off-campus mentor or stakeholder organization. Must complete project agreement in advance of registration. Prerequisite: ESS 592 and permission of instructor. Credit/no-credit only. Offered: AWSpS.

ESS 599 Seminar (1, max. 24) Review of current literature in geophysics and graduate student research with faculty participation. Credit/no-credit only.

ESS 600 Independent Study or Research (*) Credit/no-credit only.

ESS 601 Internship (*) Graduate internship and final exam. Prerequisite: permission of instructor. Instructors: Crider, Troost

ESS 700 Master's Thesis (*-)

ESS 800 Doctoral Dissertation (*)
Program on the Environment

Program Overview

Wallace Hall, Suite 12  3737 Brooklyn Ave NE Seatle, WA 98195-5679  poe.washington.edu  poe@uw.edu

The Program on the Environment (PoE) is the home for Environmental Studies education at the University of Washington. Environmental Studies focuses on the interactions between humans and environments, drawing on an interdisciplinary approach to understand and address complex environmental issues.

The Environmental Studies program offers a BA major in Environmental Studies, a minor in Environmental Studies, and a Graduate Certificate in Environmental Management.

Building on a foundation of natural science, social science, and humanities courses, the curriculum offers students flexibility in choosing an individual course of study. Internship, research, and study abroad opportunities develop skills and leadership for careers in environmental policy, sustainability, conservation, education, or consulting.

Undergraduate Program

Adviser 12 Wallace Hall, Box 355679 206-616-1208 poeadv@uw.edu

The Program on the Environment offers the following programs of study:

- The Bachelor of Arts degree with a major in environmental studies
- A minor in environmental studies

Bachelor of Arts

*Suggested First and Second-Year College Courses:* ENVIR 100, ENVIR 200, ENVIR 250, and all foundational courses listed below.

Program Admission Requirements

Students in good academic standing may declare this major at any time.

General Education Requirements

All majors must satisfy the College of the Environment general education requirements.
Major Requirements

82-88 credits, as follows:

1. Core Courses (20 credits): ENVIR 100, ENVIR 200, ENVIR 250, ENVIR 300

2. Foundation Courses (31-35 credits)
   a. Biology (5 credits): BIOL 180 and one course (or sequence) from among BIOL 200, BIOL 118/BIOL 119, BIOL 250/FISH 250/OCEAN 250, ENVIR 280
   b. Biological Systems (3-5 credits): on course from BIOL 200, BIOL 250/FISH 250/OCEAN 250, ENVIR 240, ENVIR 280
   c. Chemistry (5 credits): CHEM 120 or CHEM 142
   d. Earth Systems Literacy (3-5 credits): one course from ATM S 211, ATM S 212, or ESS 201, ESS 210, ESS 230/OCEAN 230, OCEAN 200, GEOG 205
   e. Statistics (5 credits): one course from Q SCI 381, STAT 220, STAT 221/CS&SS 221/SOC 221, STAT 311
   f. Economics (5 credits): one course from ENVIR 235/ESRM 235/ECON 235 or FISH 230/ECON 230
   g. Values and Cultures (5 credits): one course from ANTH 210, ANTH 211/ENVIR 211, ENVIR 239, GEOG 272, HSTAA 221/ENVIR 221, or ENVIR 243/PHIL 243

3. Analytical Methods (3-5 credits): one course from ESRM 304, ESRM 430, ESS 421, OCEAN 452/FISH 452, GEOG 360, GEOG 471, Q SCI 482

4. Environmental Perspectives and Experiences (18 credits): Minimum 18 credits from the list of approved courses (see department website or advising office for list). Minimum 3 credits in each of the six following categories: perspectives: human and social dimensions; natural sciences, and policy and decision making; experiences: bioregional; international; and fieldwork. Courses listed under both perspectives and experiences may count toward either, but not both. Environmentally related independent study courses, study abroad programs, and other courses not on the approved list may count toward this requirement if approved in advance by the Environmental Studies adviser.

5. Capstone Experience (10 credits): ENVIR 490, ENVIR 491, ENVIR 492

6. GPA Requirements: Minimum 2.00 cumulative GPA for courses within the major.

Continuation Policy

All students must make satisfactory academic progress in the major. Failure to do so results in probation, which can lead to dismissal from the major. For the complete continuation policy, contact the departmental adviser or refer to the department website.
Minor

Minor Requirement: 30 credits, including ENVIR 100; either ENVIR 200 or ENVIR 250. Five (5) credits from among ECON 235/ENVIR/235/ESRM235, HSTAA 221/ENVIR 221, and PHIL 243/ENVIR 243.

Remaining 15 credits drawn from the environmental perspectives course list (see program website adviser for list). At least one course (minimum 3 credits) in each environmental perspectives course category, i.e. natural sciences, human and social dimensions, and policy and decision making. Ten (10) of these 15 credits must be at the 300 or 400 level. Minimum 2.0 for each course presented for the minor.

Student Outcomes and Opportunities

- Learning Objectives and Expected Outcomes: The environmental studies major offers a rigorous, interdisciplinary, experiential curriculum designed to prepare future environmental leaders to respond to bioregional and global environmental opportunities and challenges. It takes advantage of the extraordinary environmental research at the UW, and makes that social, scientific, humanistic, and professional expertise accessible to students in innovative ways.

- Students completing the BA in environmental studies have developed skills in the following:

  1. Earth Systems Knowledge: Understand the structure, function, and integration of the Earth, its inhabitants, and its four major spheres: land, water, living things, and air.

  2. Interdisciplinary Approach: Apply an interdisciplinary approach to the study of the environment, integrating multiple kinds of information, tools, methods, and scholarship from a variety of disciplines, in order to analyze and construct arguments about complex environmental issues.

  3. Experiential Learning: Understand the connections between classroom and experiential learning and successfully practice multiple forms of hands-on, real world applications.

  4. Communication: Demonstrate proficiency in multiple modes of communication (writing for different audiences and purposes, using a range of disciplinary norms; oral presentations and public speaking; online publishing; and visual display of environmental information).

  5. Public Policy and Decision Making: Understand how uncertainty, risk, law, politics, ethics, economics, and culture interact with environmental public policy and decision making.

  6. Teamwork: Collaborate as members of teams, effectively working with multiple stakeholders from various backgrounds to address environmental issues.

  7. History of Environmental Inquiry: Understand and reflect critically on the intellectual and cultural history of environmental studies including the history of environmental preservation and conservation.
8. Temporal Scales: Understand various temporal scales inherent in environmental studies and situate themselves on the continuum of geologic time, evolutionary history, human environment history, and decision making for future generations.

9. Spatial Scales: Understand various spatial scales inherent in environmental studies spanning the continuum from the local/bioregional to the international/global.

10. Diversity: Understand how environmental perspectives, policies, and decisions are related to issues of diversity, privilege, and power.

11. Technical Knowledge: Be familiar with some of the technological tools commonly used to address environmental challenges.

12. Professional Development: Understand how their education will serve them as environmental professionals.

- Instructional and Research Facilities: The Program on the Environment office in Wallace Hall Suite 12 includes a commons area for student and faculty events and presentations, four study areas, and a computer lab. Because PoE is an interdisciplinary program, students access resources, laboratories, and field stations across a range of UW departments, colleges, and schools.

- Honors Options Available: With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.

- Research, Internships, and Service Learning: All environmental studies majors complete a senior capstone experience, which includes an internship with a community-based organization or government agency, an undergraduate research project, and/or international fieldwork or study abroad.

- Student Organizations/Associations: SAGE (Student Association for Green Environments) is a club to spread awareness for environmental issues on and off campus and to promote events for a greener, sustainable environment. SAGE is committed to community engagement and education and creating professional development opportunities for environmental studies students.

Course Descriptions

ENVIR 100 Introduction to Environmental Studies (5) I&S/NW T. BILLO, K. STRAUS, Y. WENG, E. WHEAT Introduces environmental studies through interdisciplinary examination of the ethical, political, social, and scientific dimensions of current and historical environmental issues. Integrates knowledge from different disciplines, and applies insights and methods to actual environmental problems and situations at scales from local to global. Offered: AWSp.

ENVIR 103 Society and the Oceans (5) I&S/NW Explores the social and policy dimensions of the ocean environment and ocean management policy. Pays attention to how human values, institutions, culture, and history shape environmental issues and policy responses. Examines case studies and influential frameworks, such as the ocean as "tragedy of the commons." Offered: jointly with JSIS B 103/SMEA 103.
ENVIR 110 Introduction to Food and the Environment (5) I&S/NW R. HILBORN Relates the production and consumption of food to the major areas of environmental science including energy use, water consumption, biodiversity loss, soil loss, pollution, nutrient cycles, and climate change. Studies the basic science and how food production impacts the key processes. Offered: A.

ENVIR 200 Communication for Environmental Studies (5) VLPA/I&S E. SCHAUMBERG Helps develop the skills necessary to engage, analyze, write, and speak about complex environmental issues in a variety of disciplinary contexts with particular values and emphases. Focuses on reading, writing, presentation, and critical analysis of written material. Prerequisite: minimum grade of 2.0 in ENVIR 100; minimum grade of 2.0 in either C LIT 240, ENGL 109 and ENGL 110; ENGL 111, ENGL 121, ENGL 131, ENGL 197, ENGL 198, ENGL 199, ENGL 281, ENGL 297, ENGL 298, or ENGL 299. Offered: AWSp.

ENVIR 211 Environmental Justice (5) I&S, DIV Examines introductory studies of environmental racism and ecological injustice in the United States and select areas of the world. Reviews environmental justice theories and methods applied to risk science, ecosystem management, biodiversity conservation, and sustainable development. Includes comparative studies of social movements for "eco-justice." Offered: jointly with AES 211/ANTH 211.

ENVIR 221 Environmental History of the U.S. (5) I&S L. NASH Surveys the relationship between nature and human history, including the impact of the non-human environment on American history and the environmental effects of colonization, urbanization, and consumerism; the cultural construction of nature in different eras and its social implications; the sources and limits of modern environmental politics. Offered: jointly with HSTAA 221; A.

ENVIR 235 Introduction to Environmental Economics (5) I&S/NW S. RABOTYAGOV Introduces environmental and natural resource economics. Discusses fundamental economic concepts, including markets and private property. Includes basic tools used in the economic assessment of environmental problems and applies these methods to key environmental issues. Offered: jointly with ECON 235/ESRM 235; SpS.

ENVIR 239 Sustainability: Personal Choices, Broad Impacts (3-5) I&S/NW K. Straus Presents frameworks of sustainability via exploration of key pillars of sustainability, the history of sustainability movements, and sustainability in action. Students examine personal and global aspects of sustainability through issues such as smart growth, environmental and natural building, green business and energy, ecotourism, and international policy. Offered: AW.

ENVIR 240 The Urban Farm (5) NW E. WHEAT Develops students' understanding the ecological connections between food production, human health, and planetary sustainability. Teaches basic skills needed for food production in urban areas and the ethics behind sustainable urban agriculture, including a hands-on component on the farm at the biology greenhouse. Offered: Sp.

ENVIR 243 Environmental Ethics (5) VLPA/I&S L. NICHOLS Focuses on some of the philosophical questions that arise in connection with environmental studies. Topics to be
considered include: the ideological roots of current issues, values and the natural world, public
policy and risk assessment, intergenerational justice, and social change. Offered: jointly with
PHIL 243.

**ENVIR 250 Research Methods in Environmental Studies (5) NW, QSR T. BILLO, K.
STRAUS, Y. WENG, E. WHEAT** Introduces the processes involved in research design, including
methods for environmental data collection, analysis, and presentation. Introduces ecological and
social research methods through case studies, followed by practical lab and field work. Offered:
AWSp.

**ENVIR 280 Natural History of the Puget Sound Region (5) NW T. BILLO** Focuses on
identification and ecology of defining organisms in major habitats of the Puget Sound region.
Geology, climate, and early human history provide a framework for understanding the
distribution and development of these habitats. Emphasizes a variety of techniques for the

**ENVIR 295 Special Topics in Environmental Studies (1-5, max. 10)** Selected topics in
environmental studies. Format may range from seminar/discussion to formal lectures to
laboratory or modeling work. Offered: AWSpS.

**ENVIR 296 Study Abroad - Environmental Studies (1-15, max. 15)** Environmental studies
course taken through an approved study abroad program, for which there are no direct UW
equivalents. Credit does not apply to major requirements without approval.

**ENVIR 300 Analysis of Environmental Cases (5) I&S/NW T. BILLO, K. STRAUS, Y. WENG,
E. WHEAT** Guides students through the analysis of environmental case studies. Encourages
synthesis of information from diverse sources and stakeholder perspectives. Frameworks are
provided to help students work through the complexities of socioecological systems in a
systematic way. Culminates with significant group project and presentation. Prerequisite:
minimum grade of 2.0 in ENVIR 200 and ENVIR 250. Offered: ASp.

**ENVIR 308 American Indians and the Environment (5) I&S, DIV J. Reid** Examines the
historical relationships American Indians have possessed with local environments, with special
attention to the ways these peoples have adapted to altered environments and new conditions,
including migrations, involvement with markets of exchange, overhunting, dispossession,
conservation, and mainstream environmentalism. Offered: jointly with AIS 308/HSTAA 308.

**ENVIR 313 Environmental Earth Science (5) NW** Analysis of geologic constraints upon
human activity and the environmental consequences of such activity. Topics include hillslope
processes, fluvial and groundwater processes, earthquake and volcanic hazards, and
environmental aspects of deforestation and atmospheric pollution. Prerequisite: either ESS 101,
ESS 105, ESS 210, ESS 211. Offered: jointly with ESS 315.

**ENVIR 330 Climate Change Impacts on Marine Ecosystems (5) NW** Links physics of
climate to marine ecosystem processes, exploring both observed climate impacts from the past
and projected ecosystem changes due to human-caused climate change in the future. Case studies
include polar, sub-arctic, temperate, tropical, and upwelling ecosystems, and ocean-acidification and its projected impacts. Recommended: Requires high school or college physics and algebra with a basic understanding of Newton's Laws and the ability to comprehend and construct vector diagrams. Offered: jointly with FISH 330; Sp.

ENVIR 341 Energy and Environment (3) NW Energy use. Fossil energy conversion. Oil, gas, coal resources. Air impacts. Nuclear energy principles, reactors, fuel cycle. Prerequisite: either MATH 112, MATH 124, or Q SCI 291; either CHEM 120, CHEM 142, CHEM 144, PHYS 114, or PHYS 121. Offered: jointly with CHEM E 341/M E 341; A.

ENVIR 350 Internship (1-5, max. 15) Fieldwork, coursework, or other learning experience conducted off-campus, but supervised by UW faculty. Credit/no-credit only.

ENVIR 360 Environmental Norms in International Politics (5) I&S Ingebritsen Surveys development of international environmental consciousness from 1960s to present. Models of "green development"; ways in which norms for resource use have entered global politics. Patterns of state compliance with international environmental agreements, and why states fall short of meeting their international obligations. Offered: jointly with JSIS B 350/SCAND 350.

ENVIR 362 Introduction to Restoration Ecology (5) NW/I&S J. BAKKER An introduction to ecological restoration of damaged ecosystems. Examines the philosophical base of restoration as well as the social, biological, and political forces that impact the success of any restoration project. Includes lectures, readings, case studies, and field trips. Offered: jointly with ESRM 362; A.

ENVIR 371 Anthropology of Development (5) I&S Development refers to social, economic, cultural, political transformations viewed as progress. Studied from anthropological perspectives. Historical, social context for emergence of ideas of development. Role of development in promoting national cultures. Impact of development on individual citizenship, families, rural-urban relations, workers, business, environment. Prerequisite: one 200-level ANTH course. Offered: jointly with ANTH 371.

ENVIR 379 Environmental Sociology (5) I&S/NW S. ASAH Social processes by which environmental conditions are transformed into environmental problems; scientific claims, popularization of science, issue-framing, problem-amplification, economic opportunism, and institutional sponsorship. Examination of social constructs such as ecosystem, community, and free-market economy. Use of human ecology to assess whether the current framing of environmental problems promotes ecological adaptability. Offered: jointly with ESRM 371/SOC 379; A.

ENVIR 384 Global Environmental Politics (5) I&S K. LITFIN Examines the globalization of environmental problems, including climate change, ozone depletion, and loss of biodiversity, as well as the globalization of political responses to these problems within the framework of globalization as set of interlinked economic, technological, cultural, and political processes. Offered: jointly with POL S 384.
ENVIR 385 Political Ecology of the World Food System (5) I&S/NW  K. Litfin  Investigates the intersection of globalization and food politics, the pivotal role of petroleum in the world food system, and the commodity chains for some foods. Includes an optional service learning component. Offered: jointly with POL S 385.

ENVIR 410 Growing Stuff: Ecology, Economy, and Culture of Resource-Production Ecosystems (5) I&S/NW  Examines the connections between ecological, economic, and cultural aspects of local ecosystems that produce natural resources, through three case studies involving reading, writing, class discussion, and three required Saturday or weekend field trips. Case studies may include forest products, seafood, dairy products, biofuels, orchard crops, or others. Offered: jointly with ANTH 410/ESRM 405; Sp.

ENVIR 415 Sustainability and Design for Environment (3) Cooper  Analysis and design of technology systems within the context of the environment, economy, and society. Applies the concepts of resource conservation, pollution prevention, life cycle assessment, and extended product responsibility. Examines the practice, opportunities, and role of engineering, management, and public policy. Offered: jointly with CEE 495/M E 415.

ENVIR 416 Ethics and Climate Change (5) I&S  S. GARDINER, L. NICHOLS  Critical examination of the ethical issues surrounding climate change. Prerequisite: either one philosophy or one environmental studies course. Offered: jointly with PHIL 416.

ENVIR 417 Advanced Topics in Environmental Philosophy (5) I&S  S. GARDINER  Critical examination of issues in environmental philosophy. Topics vary. Prerequisite: one philosophy course. Offered: jointly with PHIL 417.

ENVIR 418 Communication and the Environment (5) I&S  Examines how communication about the environment influences beliefs, values, and treatment of the natural world. Topics include new coverage of the environment; media strategies and rhetoric used by activists, government agencies, and industry to address environmental issues; representations of the environment in popular culture; and/or political argumentation about environmental policy. Offered: jointly with COM 418.

ENVIR 431 Ecopsychology (5) I&S  P. KAHN  Explores psychology of the human relationship with nature. Critically examines how ecopsychology can impact urban sustainability, human health, environmental education, and the design of new technologies. Specific topics include evolutionary psychology; human-animal interaction; biophilia; children and nature; indigenous cultures; and ecotherapy. Offered: jointly with ESRM 431/PSYCH 431; W.

ENVIR 439 Attaining a Sustainable Society (3) I&S/NW  E. WHEAT  Discusses diverse environmental issues, the importance of all areas of scholarship to evaluating environmental
challenges, and the connections between the past and the future, to reveal integrative approaches
to protect the long-term interests of human society. Offered: W.

**ENVIR 440 Environmental Pedagogy (3) I&S/NW** Introduces the art of teaching in non-
traditional settings. Designed to help students become effective environmental educators such as
park naturalists, interpretive guides, or urban garden educators. Students learn pedagogical
philosophy and gain skills to become more effective environmental educators. Offered: A.

**ENVIR 459 Culture, Ecology, and Politics (5) I&S, DIV** Critical studies of class, gender and
race differences in environmental politics. The political-economic dimensions of ecological
change. Contemporary environmental movements including the varieties of bioregionalism, deep
ecology, ecofeminism, ecosocialism, environmental justice, and social ecology. Offered: jointly
with ANTH 459.

**ENVIR 460 Power, Privilege, and Preservation (5) I&S/NW, DIV** Critically examines
strategies of resource managers to integrate local communities and cultures in protected areas
management. Explores issues of power, privilege, and injustice and their impacts on individuals,
society, and resource management decisions. Examines the potential for more socially just and
ecologically sustainable approaches to protected areas management. Offered: jointly with ESRM
460; A.

**ENVIR 476 Introduction to Environmental Law and Process (3) I&S** Bryant Use and
application of key statutes in marine living resources management. Overview of administrative
law and process. Basic legal research, reading, and briefing selected judicial opinions.
Participatory case study component. Designed for non-law graduate and advanced undergraduate
students. Offered: jointly with SMEA 476; A.

**ENVIR 478 Topics in Sustainable Fisheries (3, max. 9) I&S/NW** Seminar series featuring
local, national, and internationally known speakers in fisheries management and conservation.
Conservation/restoration in practice. Pre-seminar discussion section focusing on select readings.
Topics may include harvest management, whaling, by-catch, salmon, marine protected areas,
introduced species, citizen action, co-management, and marine ethics. Offered: jointly with
BIOL 478/FISH 478.

**ENVIR 480 Sustainability Studio (5, max. 10)** Exploration of definitions and critical concepts
of sustainability and analysis of sustainability practices on the UW campus. Student research
teams analyze specific sustainability practices related to food, water, energy, and climate, among
other topics. Sustainability project topic focus is different each quarter. Offered: AWSp.

**ENVIR 485 Environmental Planning and Permitting in Practice (5) I&S T. WILDERMUTH**
Advanced survey of environmental planning and permitting as encountered by environmental
and natural resource professionals in Washington State and beyond. Focuses on Washington
State acts (SEPA, SMA, GMA) and Federal systems (NEPA, CWA ESA) that shape
environmental land use planning and federal planning and permitting systems. Offered: jointly
with ESRM 485; W.
ENVIR 489 Peer Teaching Assistants in Environmental Studies (1-5, max. 10) Develops and enhances teaching skills through supervised direct teaching experience. Prepares students for graduate school teaching or other teaching by developing leadership, mentoring, and communication skills. Includes attending lectures and weekly preparation sessions, directed discussions with faculty and TAs, and teaching course lab, field, or discussion sections. Credit/no-credit only. Offered: AWSpS.

ENVIR 490 Capstone Preparation (2) P. MCDONALD Students engage with representatives of established projects or develop a project around their own interests. Students complete a project learning contract and proposal and take part in professional development activities. First in a series of three. Prerequisite: minimum grade of 2.0 in ENVIR 300. Offered: ASp.

ENVIR 491 Environmental Studies Capstone: Internship and Research ([1-12]-, max. 12) Projects arranged during ENVIR 490 may include internships, directed environmental research, or other experiential learning opportunities working in a professional setting either on campus or with an outside organization. Students complete assignments connecting their hand-on professional experience to scholarly research on related topics. Second in a series of three. Prerequisite: ENVIR 490. Offered: AWSpS.

ENVIR 492 Environmental Studies Capstone: Synthesis and Communication (-3) P. MCDONALD Students synthesize knowledge gained through hand-on, applied work with academic research. Students refine their writing skills, get practice conveying information orally and visually, and make formal presentations. Professional development exercises help students market their experience and expertise. Third in a series of three. Prerequisite: ENVIR 491. Offered: ASp.

ENVIR 495 Advanced Topics in Environmental Studies (1-5, max. 15) Advanced topics in environmental studies. Offered: AWSpS.

ENVIR 496 Study Abroad - Advanced Environmental Studies (1-15, max. 15) Environmental studies course taken through an approved study abroad program for which there are no direct UW equivalents. Credit does not apply to major requirements without approval.

ENVIR 497 Seminar in Environmental Studies (1-3, max. 6) Intensive and advanced reading and discussion of selected works in interdisciplinary environmental studies. Topics vary. Credit/no-credit only.

ENVIR 498 Independent Study (1-5, max. 15) Independent reading and/or research. Limited to majors and minors in Environmental Studies.

ENVIR 499 Undergraduate Research (1-15, max. 15) Undergraduate research in environmental studies. Offered: AWSpS.

ENVIR 500 Graduate Seminar in Environmental Studies (1-5, max. 15) Exploration of interdisciplinary themes in environmental science communication. Topics vary.
ENVIR 501 Graduate Seminar in Environmental Management (1-5, max. 15) Addresses a contemporary interdisciplinary issue in environmental management by integrating the perspectives and theories of science/technology, public policy, and business. Format emphasizes interactive, hands-on approaches to problem solving, with visiting lectures by academic and/or external practitioners.

ENVIR 502 Business Strategy and the Natural Environment (4) Applies economic and business principles (marketing, accounting, operations) to understand interactions between business and the natural environment and how environmental issues influence business strategy. Theory and case studies explore strategies that both respond to and seek competitive advantage from firms' interactions with the environment.

ENVIR 511 Environmental Management - Keystone Project I (4) First in a two-quarter, project-base course in which graduate students in the Environmental Management Certificate work in teams of an environmental problem for a government, business, or non-profit organization. Keystone projects address a range of issues in environmental management, and integrate aspects of science, policy, and business.

ENVIR 512 Environmental Management - Keystone Project II (4) Second in a two-quarter, project-base course in which graduate students in the Environmental Management Certificate work in teams of an environmental problem for a government, business, or non-profit organization. Keystone projects address a range of issues in environmental management, and integrate aspects of science, policy, and business. Prerequisite: ENVIR 511.

ENVIR 585 Climate Impacts on the Pacific Northwest (4) Mantua, Snover Knowledge of past/future patterns of climate to improve Pacific Northwest resource management. Topics include the predictability of natural/human-caused climate changes; past societal reactions to climate impacts on water, fish, forest, and coastal resources; how climate and public policies interact to affect ecosystems and society. Offered: jointly with ATM S 585/ESS 585/SMEA 585; Sp.

ENVIR 600 Independent Study or Research ([1-5]-) Independent reading and research. Limited to students enrolled in the Program on the Environment's graduate certificate programs.
School of Environmental and Forest Sciences

School Overview

107 Anderson

The School of Environmental and Forest Sciences, through teaching, research, and outreach, generates and disseminates knowledge for the stewardship of natural and managed environments and the sustainable use of their products and services. Its vision is to provide internationally recognized knowledge and leadership for environmental and natural resource issues.

Founded in 1907, the school holds a position of national and international leadership in instruction and research. Its location in one of the world's largest forested regions provides students access to a unique urban-to-wildland world-class laboratory in which to study. Approximately 400 undergraduate and 175 graduate students are enrolled, taught by more than 50 faculty members. Students enjoy small classes and close association with faculty, as well as the diversity and superior facilities of a large research university.

The school's programs focus on the sustainability and functionality of complex natural resource and environmental systems, using an integrated, interdisciplinary approach across multiple scales involving the urban-to-wildland gradient. Its programs serve society generally, and natural resource professions in particular, with graduates well equipped to contribute to discussions and solutions to resource problems facing the region and the world. Interdisciplinary research and outreach centers and cooperatives include the Center for International Trade in Forest Products (CINTRAFORE), the Water Center, the UW Botanic Gardens, which include the Center for Urban Horticulture and the Washington Park Arboretum, the Olympic National Resources Center (ONRC), the Stand Management Cooperative (SMC), and the Precision Forestry Cooperative. For current information on these centers and cooperatives, visit www.sefs.washington.edu/centersPrograms/.

Office of Student and Academic Services

Director, Student and Academic Services
130 Anderson
sefsadv@uw.edu

The Office of Student and Academic Services in the School of Environmental and Forest Sciences assists prospective students with admission to the school and advises current students, including interpretation of school and University requirements and assistance in course planning. At the graduate level, faculty advisers assist students in choosing a course plan to help build an appropriate academic background for their research areas.
The office also helps to sponsor a career fair winter quarter. Students are strongly urged to seek summer employment and internship positions relevant to their career goals.

Research Programs

Areas of research are closely tied to the school's graduate program research areas. These include bioresource science and engineering; forest ecology; forest soils; forest systems and bioenergy; restoration ecology and environmental horticulture; social sciences; sustainable resource management; and wildlife science.

Outreach Programs

The school, through its interdisciplinary centers and through collaboration with UW and external partners, undertakes and promotes continuing public and professional education for citizens of the state.

Facilities

The school occupies three central Seattle campus buildings: Alfred H. Anderson Hall, the Hugo Winkenwerder Forest Sciences Laboratory, and Julius H. Bloedel Hall. In addition, the Center for Urban Horticulture, a part of the UW Botanic Gardens, is located near the Union Bay natural area on the east side of the Seattle Campus. The center maintains a library that serves students, faculty, landscape professionals, and the public. The center's herbarium supports fieldwork in environmental horticulture, restoration ecology, and dendrology. Containing representative plant material from all parts of the United States, the collection includes dried, mounted specimens of shrubs, hardwood trees, and conifers. Another herbarium, complete in plants native to the Pacific Northwest and maintained by the Burke Museum and Department of Biology, is available for use by the school's students.

The school's laboratory facilities represent an extensive array of modern equipment for research, including optical equipment, electronic instrumentation for a wide variety of uses, gas chromatographs, spectrophotometers, and physical-test equipment. Specific laboratories are designed to study soil chemistry and soil physics, hydrology, polymer chemistry, tree physiology, genetics, wood and extractives chemistry, physics of fibrous composites, applied mechanics, wood process technology, silviculture, ecology, paleoecology, pathology, entomology, wildlife, landscape management systems, horticultural physiology, and horticultural plant materials.

The school computing facilities include computer systems and staff dedicated to specific research areas, a computer student laboratory, and a local area network with several servers offering access to the Internet and local printers.

Field Facilities

School field facilities include two major forested areas covering more than 4,000 acres, an arboretum, a natural area, and several cooperative research centers and stations. These lands
offer a wide variety of terrestrial and aquatic characteristics favorable to a full range of scientific investigations. They also provide a natural-science laboratory for the many disciplines in the school concerned with the research and teaching of natural resources science and management.

The 4,200-acre Charles Lathrop Pack Experimental Forest is located 65 miles south of the University, near Eatonville, Washington, and is home to the Center for Sustainable Forestry at Pack Forest. Broad forest and soil diversity in this area has led to extensive biological, management, and engineering research. A full-time resident staff manages the facility, harmonizing its public-education objectives with academic and research objectives. Rustic but comfortable facilities which provide housing and support to research programs are also used extensively for conferences both within and outside the University. The Center for Sustainable Forestry is charged with discovering, teaching, and demonstrating the concepts of sustainable forestry, with special emphasis on the school's strategic themes of sustainable forest enterprise and sustainable land and ecosystem management in an urbanizing world.

The Olympic Natural Resources Center (ONRC) is a 19,000-square-foot research and education facility located on the west side of the Olympic Peninsula. The mission of the center is to conduct research and education on natural-resources management practices that integrate ecological and economic values. Innovative management methods that integrate environmental and economic interests into pragmatic management of forest and ocean resources are demonstrated. Both a forest management program and a marine program are in place to study the relationship between the terrestrial and marine environment.

The Lee Memorial Forest, approximately 160 acres, is located about 22 miles northeast of the University, near Maltby. This forested property provides valuable academic and research opportunities near the campus. Characterized by forest types and soils common to Western Washington lowlands, Lee Forest is used extensively for short field trips and for long-term research and demonstration projects especially related to changing land uses.

The Allan E. Thompson Research Center and the Joe E. Monahan Findley Lake Reserve and Research Area in the Cedar River watershed are used by the school in cooperation with Seattle Public Utilities for studies in forest ecology and soil science in representative low and high elevation forest ecosystems.

The UW Botanic Gardens include the Center for Urban Horticulture, which has offices, laboratories, public-education resources, and field sites for teaching and research along the shore of Union Bay. Its 10-acre Union Bay Gardens emphasize unusual ornamental and native woody landscape plants. The 60-acre Union Bay Natural Area, a former landfill, now a naturalized habitat, is used by University classes and the public to study principles and practices of restoration ecology. The Douglas Research Conservatory is a modern plant-growing facility with greenhouses, growth chambers, nursery, and classrooms. The Otis Douglas Hyde Herbarium is dedicated to plants of urban and environmental horticultural significance. The Miller Seed Vault stores seeds of Washington's rare and endangered native plants in support of restoration and research projects. The Elisabeth C. Miller Library is the Northwest's foremost public horticultural library, with books, journals, and other materials available to the gardening public, students, and professional horticulturists. The Center for Urban Horticulture also conducts
courses, lectures, and special events for the public and professionals as part of the school's outreach program. Cooperative programs are in place with Washington State University/King County Cooperative Extension, whose horticulture program is housed at the center.

The UW Botanic Gardens' largest facility is the Washington Park Arboretum, a 230-acre collection of trees and shrubs in a naturalistic setting on the south shore of Lake Washington. Managed in cooperation with the City of Seattle Department of Parks and Recreation, the arboretum contains some 5,200 different kinds of woody plants that are available for research and academic study, making it the third most diverse arboretum in the United States. Displays and programs educate students and visitors about woody plants' diversity, natural ecology, and urban landscape use, as well as conserving endangered natural and cultivated plants. Classes in botany, dendrology, horticulture, wildlife, and landscape architecture make use of the collections, while the grounds are used for studies in soil science, ecology, and other research projects, including many independent student projects. The arboretum, established in 1934, offers numerous formal and informal classes for the general public and, in addition, serves the community as a public park and open space.

**Undergraduate Program**

Adviser  
116 Anderson  
206-543-3077  
sefsadv@uw.edu

The School of Environmental and Forest Sciences offers the following programs of study:

- Bachelor of Science degree with a major in environmental science and terrestrial resource management. Within this major, options in landscape ecology and conservation, restoration ecology and environmental horticulture, sustainable forest management, and wildlife conservation are offered.

- Bachelor of Science degree with a major in bioresource science and engineering. Bioresource science and engineering has ABET accreditation which is recognized by the Council on Postsecondary Accreditation and the U.S. Department of Education as the accrediting agency for engineering in the United States.

- Minors in ecological restoration (available through Bothell, Seattle, and Tacoma campuses), and environmental science and terrestrial resource management.

**Bachelor of Science**

*Suggested First- and Second-Year School Courses:*

- *Environmental Science and Terrestrial Resource Management:* ENGL 131 (or other 5-credit English composition course); COM 220; BIOL 180, BIOL 200, BIOL 220; CHEM 120, CHEM 220; any 5-credit VLPA course; MATH 120 or Q SCI 291; ESRM 210.
- **Bioresource Science and Engineering:** CHEM 142, CHEM 152, CHEM 162, CHEM 237, CHEM 238; ECON 200; ENGL 131 (or other 5-credit English composition course); HCDE 231; CHEM E 260; MATH 124, MATH 125, MATH 126, MATH 307; PHYS 121, PHYS 122, PHYS 123; Q SCI 381; BSE 150; BSE 201, BSE 202, BSE 248, and BSE 450.

**Department Admission Requirements**

- **Environmental Science and Terrestrial Resource Management:** Students in good academic standing may declare this major at any time.

- **Bioresource Science and Engineering:** Students may apply for freshman admission or upper-division admission. Applications are available by visiting the school website. Prospective upper-division BSE applicants should have most pre-engineering coursework completed before applying (see suggested sequencing at: [www.sefs.washington.edu/academicPrograms/undergrad/bse/BSEflier.pdf](http://www.sefs.washington.edu/academicPrograms/undergrad/bse/BSEflier.pdf)), especially MATH 126 and CHEM 238. See adviser for further information. Admission is competitive; completion of requirements does not guarantee admission. Students may also apply to the chemical engineering degree program through the College of Engineering advanced admission program (see College of Engineering section for advanced admission entrance and continuation requirements).

**Graduation Requirements**

*Environmental Science and Terrestrial Resource Management*

180 credits, to include:

1. **General Education Requirements (70 credits)**
   
a. **Written Communication (12 credits):** 5 credits English composition (ENGL 131 preferred); and seven additional credits.

   b. **Quantitative and Symbolic Reasoning (20 credits):** Q SCI 291, Q SCI 292, Q SCI 381; ESRM 250.

   c. **Natural World (30 credits):** BIOL 180, BIOL 200, and BIOL 220; CHEM 120 and CHEM 220, or CHEM 142 and CHEM 152; ESRM 210 or ESS 210 or ESS 230/OCEAN 230 (5 credits only) or ESS 201 or ATM S 211.

   d. **Visual, Literary, & Performing Arts (VLPA) (10 credits):** COM 202 or COM 220; five additional credits from the University VLPA list.

   e. **Individuals & Societies (I&S) (10 credits):** ENVIR 235/ECON 235 or ECON 200 or ECON 201; and five additional credits, which are satisfied by core courses shown below.

2. **Major Requirements (62 credits for the major):**

   a. **Core Courses (17 credits):** ESRM 200, ESRM 201, ESRM 300, ESRM 304.
b. **Restricted Electives (minimum 35 credits):** 300- or 400-level courses from within the School of Environmental and Forest Sciences for the major; 35 credits may come from one of the specified option course lists: 15 credits must be at the 400 level.

c. **Capstone (10 credits):** ESRM 462 and ESRM 463 and ESRM 464; or ESRM 494 and ESRM 496; or ESRM 494 and ESRM 495

d. All ESRM courses must be completed with a minimum 2.0 grade to count toward major requirements.

3. **Free electives:** As needed to bring minimum total to 180 credits.

**Environmental Science and Terrestrial Resource Management voluntary program options:**

All requirements for any of the four voluntary options are the same as for the major shown directly above.

1. **Natural Resource and Environmental Management Option (minimum 35 credits):** ESRM 323; ESRM 331, ESRM 350; ESRM 381; ESRM 400; ESRM 426; ESRM 470. Minimum one course each from two approved lists. See adviser for approved lists.

2. **Restoration Ecology and Environmental Horticulture Option (minimum 35 credits):** Courses selected from an approved list. See adviser for approved list.

3. **Sustainable Forest Management Option (minimum 35 credits):** ESRM 323; ESRM 331; ESRM 368; ESRM 430; ESRM 461; ESRM 470. Minimum one course each from three approved lists. See adviser for approved lists.

4. **Wildlife Conservation Option (minimum 36 credits):** ESRM 350; ESRM 351; ESRM 441; ESRM 450; ESRM 451/Q SCI 451; ESRM 458; Q SCI 482; and one from ESRM 452, ESRM 453, ESRM 459

**Bioresource Science and Engineering**

1. **General Education Requirements (105 credits)**
   
a. **Written Communication (12 credits total, 4 of which are satisfied by major requirements, shown below):** 5 credits English composition (ENGL 131 preferred); HCDE 231 (3 credits).

b. **Natural World (NW) (68 credits):** MATH 125, MATH 126, MATH 307 (or AMATH 351), MATH 308 (or AMATH 352); Q SCI 381 or IND E 315 or STAT 390. CHEM 152, CHEM 162; CHEM 237, CHEM 238; PHYS 121, PHYS 122, PHYS 123; A A 260; 10 credits from the University NW list (outside the major).

c. **Visual, Literary, & Performing Arts (VLPA) (10 credits),** chosen from the University VLPA list.

d. **Individuals & Societies (I&S) (20 credits, totally, 5 of which are satisfied by BSE requirements, shown below):** ECON 200; 10 credits chosen from the University I&S list (outside the major).
2. **Major Requirements (74 credits)**
   
a. **Bioresource Science (59 credits):** BSE 150, BSE 201, BSE 202, BSE 248, BSE 391, BSE 392, BSE 406, BSE 420, BSE 421, BSE 422, BSE 426, BSE 430, BSE 436, BSE 480, BSE 481, BSE 497. All required BSE courses must be completed with a minimum 2.0 grade.

b. **Engineering Electives (15 credits minimum):** Taken from a list of approved engineering electives.

c. **Business Option (additional 12 credits minimum):** ESRM 320, ESRM 321, and one course from approved list.

3. **Free Electives:** To bring minimum total to 180 credits.

**Minors**

**Ecological Restoration**

**Minor Requirements:** 25 credits as follows:

1. **Introduction to Restoration Ecology (5 credits):** Either ESRM 362/ENVIR 362, BES 362, or TESC 362.

2. **Capstone (10 credits):** One of the following sequences: ESRM 462/ENVIR 462, ESRM 463/ENVIR 463, ESRM 464/ENVIR 464; or BES 462, BES 463, BES 464; or TESC 462, TESC 463, TESC 464.

3. **Electives:** 10 credits from approved list of electives maintained by each campus.

4. Minimum 2.00 cumulative GPA for courses presented for the minor.

5. Minimum 15 credits from outside the student's major.

6. Minimum 15 credits completed through the UW.

**Environmental Science and Terrestrial Resource Management**

**Minor Requirements:** Minimum 25 ESRM credits, 20 of which must be upper division. Maximum 5 credits from BSE courses allowed.

**Student Outcomes and Opportunities**

- **Learning Objectives and Expected Outcomes:** Forest resources emphasizes interactions between biotic and human systems at landscape to regional scales. It also provides a knowledge base to answer critical questions about how individual organisms and biotic systems respond to perturbations and stresses imposed by human activities, as well as how the environment affects human behavior and institutions. This knowledge enables the design of methods for the conservation, restoration, and sustainable use of biotic systems, and is critical for environmental decision making.

The goal of the bioresource science and engineering curriculum is to provide students with the training, tools, and experiences needed to be successful professionals in the paper and allied industries. At the same time, it provides a comprehensive education so graduates can effectively work and live in the world's complex society.
The goal of the environmental science and terrestrial resource management curriculum is to present fundamental knowledge and problem-solving experiences that enable students to understand the interdisciplinary dimensions of natural resource and environmental sciences and management. The structure of this curriculum provides great flexibility for students to pursue specialized fields through the formal program options, which include: landscape ecology and conservation; restoration ecology and environmental horticulture; sustainable forest management; and wildlife conservation; or to construct individual coursework to fit their educational goals.

Career opportunities abound in the area of environmental science and terrestrial resource management in both private and public sectors. One example is the projected need in the U.S. Forest Service, where it is estimated that one-third of the workforce will be retiring within the next five years.

- **Instructional and Research Facilities:** See the main school page for details.
- **Honors Options Available:** With College Honors (Completion of Honors Core Curriculum and Departmental Honors). With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements or visit [www.sefs.washington.edu/academicPrograms/undergrad/honors.shtml](http://www.sefs.washington.edu/academicPrograms/undergrad/honors.shtml).
- **Research, Internships, and Service Learning:** The Office of Student and Academic Services regularly receives internship announcements, which are forwarded to all SEFS students via email and placed in the office's Career Corner. Students are strongly encouraged to pursue these opportunities, which include work experience with federal, state, and private organizations in environmental science, forestry, engineering, conservation, wildlife, horticulture, and other related fields.

Undergraduate research opportunities are available. Students should contact faculty members in their areas of interest. There are also foreign study and field opportunities within the College. Some are formal study with faculty members, others are through other agencies. Contact the Office of Student and Academic Services for more information.

- **Department Scholarships:** For majors, the School of Environmental and Forest Sciences has a strong scholarship program that provides in-state tuition to students, based on merit or need. Application information can be found at [www.sefs.washington.edu/academicPrograms/scholarship/index.shtml](http://www.sefs.washington.edu/academicPrograms/scholarship/index.shtml).

The Washington Pulp and Paper Foundation provides scholarships for students enrolled in the bioresource science and engineering curriculum. For information, contact Professor Rick Gustafson in Bloedel 364 or visit the foundation website at: [depts.washington.edu/wppf/](http://depts.washington.edu/wppf/).

- **Student Organizations/Associations:** The School has student organizations which organize student symposia, field trips, parties, slide shows and talks, public service projects, and other social activities. Current SEFS student organizations can be found at [www.sefs.washington.edu/people/organizations.shtml](http://www.sefs.washington.edu/people/organizations.shtml).
Of Special Note: Some classes include field trips or require laboratory supplies or material duplication at student expense.

Graduate Program

Graduate Program Adviser
130 Anderson, Box 352100
206-543-7081
sefsadv@uw.edu

Graduate programs in forest resources accommodate a wide range of education and career objectives. A student may concentrate on development of advanced professional skills and knowledge or on exploration of forest-related science.

Programs lead to the degrees of Master of Environmental Horticulture, Master of Forest Resources in forest management, master of science, and doctor of philosophy. Graduate students may center their study in one of the special fields within the school's divisions.

Master of Environmental Horticulture

Admission Requirements

1. Academic readiness for the program.
   a. Minimum 3.00 GPA in last 60 semester or last 90 quarter hours
   b. Type and level of courses completed (generally students are not admitted without sufficient course background in the intended program of study)
   c. Adequate GRE scores (156 Verbal; 148 Quantitative; 5.0 Writing recommended)
   d. International applicants only: minimum 580 TOEFL score (237 computer-based test, 92 internet-based, and 7 IELTS tests)

2. Knowledge of intended area of study
   a. Statement of objectives in pursuing further education
   b. Ideally work or field experience in planned area of study

3. References: three recommendations total
   a. Recommendations from references familiar with applicant's academic ability and potential
   b. Recommendations from employers in field related to applicant's educational goals

4. Application deadline: December 1 for admission the following autumn quarter.
Degree Requirements

45 credits

1. SEFS 500, SEFS 503, SEFS 549, SEFS 561, and ESRM 590 (14 credits); and 18 credits of restricted electives.

2. Internship/independent research: SEFS 601. Public presentation and written professional paper. (9 credits minimum)

3. Electives (4 credits)

Master of Forest Resources - Forest Management

Admission Requirements

1. Academic readiness for the program.
   a. Minimum 3.00 GPA in last 60 semester or last 90 quarter hours
   b. Type and level of courses completed (generally students are not admitted without sufficient course background in the intended program of study).
   c. Adequate GRE scores (156 Verbal; 148 Quantitative; 5.0 Writing recommended)
   d. International applicants only: Minimum 580 TOEFL score (237 computer-based test, 92 internet-based, and 7 IELTS tests)

2. Knowledge of intended area of study
   a. Statement of objectives in pursuing further education.
   b. Ideally work or field experience in planned area of study

3. References: three recommendations total
   a. Recommendations from references familiar with applicant's academic ability and potential
   b. Recommendations from employers in field related to applicant's educational goals

4. Application deadline: December 1 for admission the following autumn quarter.

Degree Requirements

48 credits

1. SEFS 500, SEFS 509, SEFS 526 (7 credits)

2. Directed electives: 36 credits distributed among the following four areas, with at least two courses in each area: forest biology/ecology, forest management, forest measurements, forest policy and administration. See adviser for list of approved courses.

3. Capstone project: SEFS 600 or SEFS 601 (5 credits)
Master of Science

Admission Requirements

1. Academic readiness for the program
   a. Minimum 3.00 GPA in last 60 semester or last 90 quarter hours
   b. Type and level of courses completed (generally students are not admitted without sufficient course background in the intended program of study)
   c. Adequate GRE Scores (153 Verbal; 144 Quantitative; 4.0 Writing recommended)
   d. International applicants only: minimum TOEFL score of 580 (237 computer-based test, 92 internet-based test)

2. Knowledge of intended area of study
   a. Statement of objectives in pursuing further education
   b. Ideally work or field experience in planned area of study

3. References: three recommendations total
   a. Recommendation from references familiar with applicant's academic ability and potential
   b. Recommendations from employers in field related to applicant's educational goals

Degree Requirements

Minimum 45 credits

1. Orientation: SEFS 500 (1 credit)
2. Analysis of Research Problems: SEFS 509 (3 credits)
3. Disciplinary Knowledge: minimum 10 credits from list of approved courses
4. Research Design and Quantitative Analysis: minimum 8 credits from list of approved courses
5. Current Topics: 2 credits (500 level), topics vary from year to year
6. Thesis Research: SEFS 700 (9 credits minimum)
7. Electives: (12 credits)

Doctor of Philosophy

Admission Requirements

1. Academic readiness for the program.
   a. Minimum 3.00 GPA in last 60 semester or last 90 quarter hours
   b. Type and level of courses completed (generally students are not admitted without sufficient course background in the intended program of study)
   c. Adequate GRE Scores(153 Verbal: 144 Quantitative; 4.0 Writing recommended)
d. *International applicants only:* Minimum 580 TOEFL score (237 computer-based test, 92 internet-based test)

2. Knowledge of intended area of study
   a. Statement of objectives in pursuing further education. PhD applicants should have earned a master's degree; most apply for the master's and then continue on to the PhD.
   b. Ideally work or field experience in planned area of study
   c. Publications written by the student related to planned area of study

3. References: three recommendations total
   a. Recommendations from references familiar with applicant's academic ability and potential
   b. Recommendations from employers in field related to applicant's educational goals

4. Application deadline: December 1 for admission the following autumn quarter.

**Degree Requirements**

90 credits

1. Same as for master of science degree (above) with one additional course in each category
   a. Disciplinary knowledge
   b. Research design and quantitative analysis
   c. Current topics

2. Qualifying examination

3. General examination

4. Dissertation research: SEFS 800 (27 credits minimum)

5. Final examination

**Financial Assistance**

A limited number of appointments for teaching and research assistantships provide a stipend, tuition waiver, and benefits. Teaching and research assistant responsibilities are half-time, allowing for a full academic load. Students may contact faculty directly about available research assistantships.

Fellowships without teaching or research obligations are also available. All applicants who meet the priority deadline are considered for fellowship funding.
Course Descriptions

Bioresource Science and Engineering

BSE 101 Biomass, Biofuels and Bioproducts (5) I&S/NW  R. Bura  Provides an introduction to the science and technology of Biofuels, Bioproducts, and Renewable Energy. In particular, the generation and properties of biofuels and specialty products from lignocellulosic sources will be emphasized. Part of this class will concentrate on the social aspects of biomass to biofuels conversion. Prerequisite: None; recommended: High school chemsitry and physics, ideally some exposure to Organic Chemsitry Offered: S.

BSE 150 Bioresource Science and Engineering Seminar (1) R. GUSTAFSON  Introduces the science and technology of bioresources, including paper. Faculty, advisers, and guest lectures present on topics throughout the quarter. Credit/no-credit only. Offered: A.

BSE 190 Special Topics (1-5, max. 10) NW  R. BURA  Introduces current topics or courses under development to address the latest issues in bioresource science and engineering.

BSE 201 Introduction to Pulp, Paper, and Bioproducts (3) NW  Broad overview of the science and technology of producing pulp and paper. Introduction of the BSE major course sequence and various career options. Examination of Pacific Northwest pulp and paper production facilities. Offered: W.

BSE 202 Pulp and Paper Lab and Field Studies (1) NW  Laboratory and field trip studies in pulp and paper technology. Visits to local forest product manufacturing facilities. Required for BSE majors. Credit/no-credit only. Offered: W.

BSE 211 Creativity and Society (5) VLPA/I&S  G. ALLAN  Explores the nature of creativity and innovation in U.S. and other societies. Investigates the processes of thinking and techniques of idea generation in fields such as art, music, science, engineering and medicine. Offered: AWS.

BSE 231 Technical Communication for Process Engineers (3) NW  S. EWANICK  Introduces technical communication skills for process engineers. Topics covered include general communication, technical writing, oral presentations and engineering ethics. Students work individually and in teams to complete oral and written assignments based on modern, industrially relevant bioresource and process engineering problems. Prerequisite: Either C LIT 240, both ENGL 109 and ENGL 110, ENGL 111, ENGL 121, ENGL 131, ENGL 182, ENGL 197, ENGL 198, ENGL 199, or ENGL 281. Offered: Sp.

BSE 248 Paper Properties (4) NW  Acquaints students with raw material characteristics, physical and mechanical concepts, nomenclature, and procedures related to evaluating paper and paperboard product properties. Emphasizes structural, optical, mechanical, and moisture related properties. Offered: A.

BSE 309 Creativity and Innovation (2) VLPA  G. ALLAN  Understanding creativity and creative thinking; its challenges and dynamics through knowledge, judgment, planning, and

**BSE 391 Engineering Principles of Biorefineries (5) NW F. PACHECO DE RESENDE**
Introduction to biofinery processes, including material and energy balances; sustainability aspects and environmental issues; and process modeling. Application of conservation laws to calculation of flow rates, chemical composition, and heat requirements of non-reactive and reactive systems typical of processes involving lignocellulosic biomass. Prerequisite: A A 260; either CHEM 237 or CHEM 223; MATH 307 Offered: A.

**BSE 392 Bioresource Transport Phenomena (5) NW F. PACHECO DE RESENDE** Focuses on transport phenomena involved in the biofinery processes, including: momentum, heat, and mass transfer; paper drying, transport in biochemical and thermochemical processes, and product separation; and computational tools. Application of conservation laws to calculations of flow rates, chemical composition, and heat requirements involving lignocellulosic biomass. Prerequisite: minimum grade of 2.0 in BSE 391. Offered: W.

**BSE 399 Undergraduate Internship (1-5, max. 15)** Internship experience with a public agency or private company, supervised and approved by a faculty member. Preparation of professional report reflecting on the experience is required. Credit/no-credit only. Offered: AWSpS.

**BSE 406 Natural Products Chemistry (5) NW R. BURA** Provides knowledge of chemistry of aqueous and solvent-rich systems, natural and synthetic polymers, and of interactions with inorganic materials and trace substances present in biomass processing systems. Covers the chemistry of lignocellulosic biomass components: cellulose, hemicellulose, lignin, and extractives. Presents the fundamental chemistry of biomass conversion process. Prerequisite: either CHEM 223, CHEM 237, or CHEM 335. Offered: A.

**BSE 420 Bioresource Engineering I (4) R. BURA** Covers chemistry and reaction kinetics of conversion of biomass into molecules and fibers for use in making fuels and high value products. Includes chemical, biological, and thermal conversion of biomass. Develops applications of reaction kinetics to design reactor configurations. Prerequisite: BSE 406. Offered: W.

**BSE 421 Bioresource Engineering II (4) R. Gustafson** Introduces basic mass transfer processes and physical basis: diffusion, convection, and mass transfer coefficients. Analyzes separation processes used in forest products and biorefineries industries: membrane separations, flow through porous media, leaching and extraction, and evaporation. Includes industrial processes: dialysis, reverse osmosis, fiber web formation, pulp washing, and black liquor evaporation. Prerequisite: minimum grade of 2.0 in both BSE 392 and BSE 420. Offered: Sp.

**BSE 422 Bioresource Engineering III (4) R. GUSTAFSON** Introduces process simulators and their application to model unit operations and large scale integrated facilities such as biorefineries and pulp and paper mills. Covers applications to optimize processes for production and environmental impact, basic control equipment, process models used in control, types of
controllers, and simple controller tuning. Prerequisite: minimum grade of 2.0 in BSE 421. Offered: A.

**BSE 426 Bioresource Laboratory (4)** R. BURA Covers bioconversion laboratory techniques, focusing on design and operation of conversion processes to produce high value biorenewable products based on chemistry of biomass. Products include ethanol, pulp, glycols, and sugar streams. Includes significant product design component, and hands-on laboratory creation of products based on design. Prerequisite: minimum grade of 2.0 in BSE 420; Q SCI 381 or STAT 311 which may be taken concurrently. Offered: Sp.

**BSE 430 Papermaking Processes (5)** Examines stock preparation operations (refining, screening, and cleaning) for papermaking and sheet forming as a unit of operations. Considers related unit operations of fluid dynamics and heat transfer as they apply to the commercial process. Covers sheet finishing operations of surface sizing, calendaring, and rewinding. Analyzes physics of fiber webs. Prerequisite: either BSE 392 or CHEM E 340. Offered: A.

**BSE 436 Pulp and Paper Laboratory II (4)** Paper testing, paper additives, flocculation, drainage, retention, heat transfer, and fluid dynamics in papermaking from virgin and recycled raw materials. Prerequisite: BSE 430. Offered: W.

**BSE 480 Bioresource Design I (4)** I&S/NW R. GUSTAFSON Design and production of biomass derived products meeting given specifications and financial constraints, integrating coursework knowledge to solve complex, open-ended design problems. Specific considerations in design include: economic, marketability, environmental, sustainability, ethical, health and safety, social, and political. Prerequisite: minimum grade of 2.0 in BSE 406; 2.0 in BSE 420; 2.0 in BSE 430. Offered: W.

**BSE 481 Bioresource Design II (5)** I&S/NW R. GUSTAFSON Comprehensive design of pulp and paper processes, including: economic feasibility studies; process equipment design, optimization, and control; and overall process integration and layout. Safety and ethics in the design process. Prerequisite: BSE 480. Offered: Sp.

**BSE 489 Foreign Study (1-5, max. 15)** Individual foreign study of topics for which there is not sufficient demand to warrant the organization of regular classes. Offered: AWSpS.

**BSE 490 Special Topics (1-5, max. 15)** Individual tutorial study of topics or courses under development to address the latest scientific developments in forest resources. Offered: AWSp.

**BSE 497 Pulp and Paper Internship (1, max. 3)** Technical and economic analysis of commercial pulp and paper installations. Structured visits to industrial operations to observe technical aspects of pulp and paper curriculum in practice. Preparation of visitation reports and analysis in seminar setting. Offered: AWSpS.

**BSE 499 Undergraduate Research (1-5, max. 15)** Individual research supervised by a faculty member. For advanced students desiring to extend their educational experience. Offered: AWSpS.
Environmental Science and Resource Management

ESRM 100 Introduction to Environmental Science (5) I&S/NW R. HARRISON Covers the importance of the environment in society with particular emphasis on worldwide distribution and uses of resources, the role of natural and man-made environments, and causes of environmental degradation. Introduces ethics of conservation and recycling. Cannot be taken for credit if ESC 110 already taken. Offered: AWSpS.

ESRM 101 Forests and Society (5) I&S/NW K. VOGT Survey course covering forest ecosystems of the world, history of forestry and forest conservation, how forest ecosystems function, wildlife in forests, environmental issues in forestry, forest management, economics and products, and new approaches to forest management. Open to majors and nonmajors. Cannot be taken for credit if CFR 101 already taken. Offered: ASp.

ESRM 150 Wildlife in the Modern World (5) I&S/NW Covers major wildlife conservation issues in North America. Some global issues are also treated. Examples of topics include the conservation of large predators, effects of toxic chemicals on wildlife, old-growth wildlife, conservation of marine wildlife, recovery of the bald eagle, and gray wolf. Offered: A.

ESRM 200 Society and Sustainable Environments (5) I&S/NW S. ASAH, P. KAHN Introduces the application of social concepts and theories to understanding and managing urban, urbanizing, and wildland landscapes in a sustainable manner. Of particular interest are factors that shape patterns on the landscape and resulting social and economic benefits. Explores landscapes across the urban to wildland gradient. Offered: WSp.

ESRM 201 Sustaining Pacific Northwest Ecosystems (5) I&S/NW D. BUTMAN, S. DOTY Introduces the principles of ecology across an urban to wildland gradient and discusses how these landscapes can be sustainably managed. Explores basic ecological theories, plant communities, soil, climate, pollution, hydrology, and wildlife in classroom, labs, and field trips. Offered: ASp.

ESRM 210 Introductory Soils (5) NW Physical, chemical, and biological properties that affect distribution and use patterns of this important ecosystem component. Includes soil morphology and genesis, plant nutrition and nutrient cycling, soil water, microbiology, and application of soil properties to environmental concerns. One Saturday field trip. Offered: A.

ESRM 235 Introduction to Environmental Economics (5) I&S/NW S. RABOTYAGOV Introduces environmental and natural resource economics. Discusses fundamental economic concepts, including markets and private property. Includes basic tools used in the economic assessment of environmental problems and applies these methods to key environmental issues. Offered: jointly with ECON 235/ENVIR 235; SpS.

ESRM 250 Introduction to Geographic Information Systems in Forest Resources (5) NW, QSR Applications of GIS technology to forest science and management. Fundamentals of GIS systems: data sources, preprocessing, map analysis, output; remote sensing as a source of GIS
data, image analysis, and classification. Emphasis on GIS as a source of management and technical information requests. Offered: AWSpS.

**ESRM 300 Principles of Sustainability (2) I&S/NW** Overview of principles of sustainability, including discussion of current literature, presentation, and discussion with practitioners, and methods for balancing social, economic, and ecological consequences of proposed policies and actions. Students develop a plan to further their studies in natural resources and environmental sustainability. Credit/no-credit only. Offered: W.

**ESRM 304 Environmental and Resource Assessment (5) NW, QSR E. TURNBLOM, D. VOGT** The processes of measuring, monitoring, and assessment; illustrated in diverse environmental and resource case studies. Explores the scientific method, hypothesis testing, sampling, and experimental designs, the role of questionnaires and polling techniques, remote sensing techniques, and population measurements. Offered: ASpS.

**ESRM 311 Soils and Land Use (3) NW** Intended for students concerned with environmental problems in the Puget Sound basin; also for those who intend to become professionally involved in land-planning decisions. Focus is on the significance of soils in understanding environmental problems and in promoting intelligent land-use decisions. Basic concepts of soil systems are presented, stressing those aspects important in making land-planning decisions.

**ESRM 320 Marketing and Management from a Sustainability Perspective (5) I&S/NW D. PAUN** Introduction to business concepts relating to marketing, human resource management, small businesses and entrepreneurship, and economics in the context of environmental resource management. Offered: AS.

**ESRM 321 Finance and Accounting from a Sustainability Perspective (5) I&S/NW D. PAUN** Introduction to business concepts relating to finance, accounting, and international business in the context of environmental resource management. Offered: WS.

**ESRM 323 Silviculture (5) NW E. TURNBLOM** Silviculture techniques, including nursery practices, clear-cutting, seed trees, shelterwood, selection cutting, site preparation, regeneration methods, thinning, fertilization, chemicals, and regional silviculture in the Northeast, Southeast, Midwest, Rocky Mountains, California, Pacific Northwest, and Alaska. Multiple-use field trips. Offered: Sp.

**ESRM 325 Environmental Applications of Plants: Bioenergy and Bioremediation (3) NW S. DOTY** Explores current topics in forest bioresources with an emphasis on bioenergy, remediation of pollutants, and carbon sequestration. Offered: A.
ESRM 328 Forestry-Fisheries Interactions (4) NW Offered: jointly with FISH 328.

ESRM 331 Landscape Plant Recognition (3) NW Field recognition of important groups of woody landscape plants, emphasizing diversity at the genus and family levels. Cultivated plant nomenclature. Plant descriptive characters evident in the field with eye and hand lens. Hardiness and landscape applications. Offered: jointly with BIOL 331; Sp.

ESRM 350 Wildlife Biology and Conservation (5) NW A. WIRSING Wildlife ecology and population biology, and interrelationships between wild animals and humans, including encouragement of wildlife population growth and productivity, control of pest populations, and preservation of endangered species with emphasis on forest environments and forest faunas. Prerequisite: either BIOL 162, BIOL 180, BIOL 220, or ESRM 162, any of which may be taken concurrently. Offered: A.

ESRM 351 Wildlife Research Techniques (5) NW Scientific approaches to the field study of wildlife populations including study design, species identification, data collection, and report writing. Emphasis on direct experience with current field techniques used in the study of vertebrate populations. Prerequisite: either BIOL 162, BIOL 180, ESRM 162, or ESRM 350. Offered: Sp.

ESRM 362 Introduction to Restoration Ecology (5) NW/I&S J. BAKKER An introduction to ecological restoration of damaged ecosystems. Examines the philosophical base of restoration as well as the social, biological, and political forces that impact the success of any restoration project. Includes lectures, readings, case studies, and field trips. Offered: jointly with ENVIR 362; A.

ESRM 368 Natural Resource Measurements (4) NW E. TURNBLOM Introduction to principles of measurement, basic field measurement skills, measurement of vegetation, including stand examination, timber cruising, size, weight, volume and biomass of trees, and stream flow. Laboratories include field exercises on sampling techniques for trees and lesser vegetation and linear regression modeling to predict quantities from basic measurements. Prerequisite: either IND E 315, Q SCI 381, STAT 220, or STAT 311. Offered: W.

ESRM 371 Environmental Sociology (5) I&S/NW S. ASAH Social processes by which environmental conditions are transformed into environmental problems; scientific claims, popularization of science, issue-framing, problem-amplification, economic opportunism, and institutional sponsorship. Examination of social constructs such as ecosystem, community, and free-market economy. Use of human ecology to assess whether the current framing of environmental problems promotes ecological adaptability. Offered: jointly with ENVIR 379/SOC 379; A.

ESRM 381 Management of Wildland Recreation and Amenities (3) NW Introduction and overview of wildland recreation and amenities management. Agency history and objectives explored along with integration of recreation with other land uses. Water, forestry, wildlife, and wilderness resources for recreational uses discussed along with role of private enterprise in recreation and amenities. Topics of current and local interest. Offered: A.
ESRM 399 Field or Teaching Internship (1-5, max. 15) Internship experience in undergraduate teaching or in the environmental field, supervised and approved by a faculty member. Preparation of professional report reflecting on the experience is required. Credit/no-credit only. Offered: AWSpS.

ESRM 400 Natural Resource Conflict Management (3) I&S/NW C. RYAN Introduction to the causes, dynamics, and consequences of natural resource conflicts as well as the range of procedural interventions used to manage conflict. Specific cases of environmental conflict and alternative dispute resolution procedures are examined. Emphasis on developing skills to effectively analyze, manage, and resolve natural resource conflicts. Offered: W.

ESRM 403 Forest and Economic Development in the Developing World (4) NW Examines the relationship between forests and economic development in tropical countries. Topics include the role of population growth, poverty, land tenure, and international trade on forest use as well as theories of economic development. Case examples of forest-based economic development in different countries and regions. Offered: A.

ESRM 404 Plant Microbiology Laboratory (5) NW S. DOTY Focuses on measuring impacts of beneficial microorganisms on plants. Assays include colonization of plants, N stress alleviation, photosynthesis, and growth enhancement. Microorganisms are characterized by phytohormone production, provision of nutrients, and growth. Microbial strains are identified using standard molecular analysis methods (PCR, cloning, sequencing). Includes short lectures. Prerequisite: Prerequisite: BIOL 180; either CHEM 120 or CHEM 142; recommended ESRM 201. Offered: WS.

ESRM 405 Growing Stuff: Ecology, Economy, and Culture of Resource-Production Ecosystems (5) I&S/NW Examines the connections between ecological, economic, and cultural aspects of local ecosystems that produce natural resources, through three case studies involving reading, writing, class discussion, and three required Saturday or weekend field trips. Case studies may include forest products, seafood, dairy products, biofuels, orchard crops, or others. Offered: jointly with ANTH 410/ENVIR 410; Sp.

ESRM 409 Soil Ecology (5) NW Soil organisms in forest and other ecosystems, decomposition, nutrient cycling. Nitrogen transformation, mycorrhizae, effects of forest management. Offered: A, even years.

ESRM 410 Forest Soils and Site Productivity (5) NW Considers unique properties and processes occurring in forest soils throughout the world with emphasis on soils of Pacific Northwest and aspects of forest soils that affect productivity. Two all-day Saturday field trips and one Saturday-Sunday field trip required. Offered: A, odd years.

ESRM 411 Plant Propagation: Principles and Practice (3) NW S. KIM Science and practice of plant propagation including sexual (seed) and asexual (cutting, layering, grafting) propagation. Includes discussion of physiological effects, methodology and laboratory exercises. Wide variety of plants covered. Intended for majors in urban horticulture and urban forestry and others interested in reproducing landscape plants. Offered: Sp.
ESRM 412 Native Plant Production (3) NW  J. BAKKER  Advanced plant propagation techniques, emphasizing native plants, propagation for restoration projects, and unique problems associated with providing appropriate plant material for restoration or conservation purposes. Emphasizes greenhouse and fieldwork, and includes lectures, field trips, and a class project. Offered: Sp.

ESRM 413 Soil Genesis and Classification (5) NW  Soil formation, morphology, classification, and relationship to the environment. Labs and weekend field trips illustrate properties and processes of forest and grassland soils in Washington. Offered: Sp, even years.

ESRM 414 Forest Soil Fertility and Chemistry (3) NW  Tree growth depends, in part, on the interaction between chemical and biological activities within a given soil: the biological and chemical parameters that influence the growth; soil solution chemistry and surface reactions; reactions and processes that control essential plant nutrient levels and forms in soil solutions. Offered: Sp, odd years.

ESRM 415 Terrestrial Invasion Ecology (5) NW  P. Tobin  Covers major principles of invasion biology and ecology as they apply to terrestrial ecosystems, from invasion pathways and the arrival stage, factors that affect non-native species establishment and spread, impacts to ecosystem function and diversity, and stage-specific management strategies. Prerequisite: either BIOL 162, BIOL 220, BIOL 333, BIOL 471, BIOL 472, ESRM 201, ESRM 401, ESRM 472, or ESRM 473. Offered: A.

ESRM 421 Role of Culture and Place in Natural Resource Stewardship: Yakama Nation Experience (3) I&S/NW, DIV  E. Alvarado-Celestin, T. Hinckley  "Anyone who has not lived in "Indian country" cannot understand just how extensively the United States government and its laws affect Native Americans and their natural resource management." Learn how history, self-determination, and sovereignty have shaped natural resource stewardship on the reservation and on the ceded lands of the Yakama Nation. Offered: A.

ESRM 423 International Trade, Marketing, and the Environment (3) I&S/NW  Introduction to international trade, marketing, and environmental business. Concepts include plan writing, exporting and importing, carbon credits, green marketing, and how global exchange rates affect environmental assets such as forests.

ESRM 425 Ecosystem Management (5) NW  J. FRANKLIN  Scientific and social basis for ecological forestry. Forest practices to achieve integrated environmental and economic goals based upon material models of disturbance and stand development including alternative harvesting methods; adaptive management and monitoring; certification and global issues. Offered: A.
ESRM 426 Wildland Hydrology (4) NW  Introduction to the hydrologic cycle and basic hydrologic methods as applied to wildlands. Effects of forest management activities on hydrologic processes. Offered: W.

ESRM 428 Principles of Silviculture and Their Application (5) NW  Focuses on the biology of major tree species in the PNW and their use in silviculture, stand development in plantation forest systems and its relationship to forest yield, the advantages and limitations of plantation silviculture relating to specific biotic, abiotic, and economic conditions, and management for objectives other than time yield. Prerequisite: ESRM 323. Offered: A.

ESRM 429 Environmental Science and Resource Management Seminar (1, max. 6) NW  Weekly presentations covering environmental topics by scientists on and off campus Credit/no-credit only. Offered: AWSp.

ESRM 430 Remote Sensing of the Environment (5) NW  Focuses on hyperspatial remote sensing fundamentals, interpretation and manipulation of aerial photography, satellite imagery, and Light Detection and Ranging (LiDAR). Uses traditional and 'state of the art' image processing techniques. Students learn to evaluate available hyperspatial remote sensing data sources and design simple projects related to environmental applications. Offered: W.

ESRM 431 Ecopsychology (5) I&S  Explores psychology of the human relationship with nature. Critically examines how ecopsychology can impact urban sustainability, human health, environmental education, and the design of new technologies. Specific topics include evolutionary psychology; human-animal interaction; biophilia; children and nature; indigenous cultures; and ecotherapy. Offered: jointly with ENVIR 431/PSYCH 431; W.

ESRM 433 Airborne Lidar for Remote Sensing of Vegetation and Geomorphology (5) L. MOSKAL  Focuses on the applications of lidar data, its interpretation, and processing. Students apply information learned from lectures and laboratory projects to a final project that analyzes vegetation structure, geomorphology, or hydrology. Prerequisite: either ESRM 250, SEFS 520, ESRM 430, FISH 452, FISH 502, FISH 552, or GEOG 360 Offered: Sp.

ESRM 435 Insect Ecology (3) NW  Covers major principles of ecology as they apply to insects, and follows a level of organization from the individual to populations to communities. Applications of insect ecology are extended to insect ecosystem services, conservation, and pest management. Prerequisite: BIOL 161, BIOL 180, BIOL 200, BIOL 220, or ESRM 161; recommended: Offered: Sp.

ESRM 436 Laboratory in Insect Ecology (2) NW  Supplements the lecture course (ESRM 435) by providing hands-on lab and field experience on ecological principles as they pertain to insects. Prerequisite: ESRM 435, which may be taken concurrently.

ESRM 441 Landscape Ecology (5) NW  Basic landscape ecology concepts, including patches, corridors, networks, spatial dynamics; island biogeographic principles; landscape analysis methods; landscape models. Applications of landscape ecology in resources
management (e.g., cumulative effects, cutting, patterns, anadromous fisheries, management of wildlife populations, and open-space planning). Offered: A.

**ESRM 447 Watershed Ecology and Management (3) NW** G. HOLTGRIEVE Investigation of stream and river ecosystems from a watershed perspective. Emphasis on fundamental processes affecting the structure and function of flowing aquatic ecosystems and their catchments. Topics include river/stream hydrology, geomorphology, nutrient spiraling, food webs, and global change. Case studies explore human interactions with rivers and approaches to river management. Prerequisite: BIOL 180 or ESRM 201 or FISH 101. Offered: jointly with FISH 447; Sp.

**ESRM 448 Watershed Ecology and Management Lab (2)** Hands-on examination of river and stream ecosystems with emphasis on physical and biological processes, field methods, analysis of data, and writing scientific papers, includes field trips. Prerequisite: ESRM 447 or FISH 447 which may be taken concurrently. Offered: jointly with FISH 448; Sp.

**ESRM 450 Wildlife Ecology and Conservation (5) NW** A. WIRSING Covers principles of wildlife ecology such as habitat use and selection, population and metapopulation dynamics, and predator-prey interactions, and illustrates how they apply to wildlife conservation problems with terrestrial, aquatic, and marine wildlife. Prerequisite: minimum grade of 2.0 in ESRM 350. Offered: W.

**ESRM 451 Analytical Methods in Wildlife Science (3) NW** B. Gardner This course provides a foundation of techniques commonly used by wildlife biologists in data collection and analysis. Predominantly focused on parameter estimation of demographic rates of animal populations. This course will explore, and discuss in detail, quantitative methods needed to address conservation and management problems in the real world. Prerequisite: ESRM 351 and QSCI 482; recommended: Prerequisite courses in Wildlife Research Techniques and Quantitative Science. Offered: jointly with Q SCI 451; W.

**ESRM 452 Field Ornithology (3) NW** J. Marzluff Students learn field identification skills and are introduced to field methodologies through required indoor labs, field trips, and field exercises. Exercises include study of survey techniques, feeding ecology, and behavior. Students are required to share field trip costs. Prerequisite: ESRM 350 or ESRM 456 which may be taken concurrently; either BIOL 162, BIOL 180, or BIOL 220, any of which may be taken concurrently. Offered: A.

**ESRM 453 Biology and Ecology of Mammals (3) NW** L. Prugh This course covers the diversity and life history of mammals, with a focus on their ecology, evolutionary relationships, identification, and distribution. Students will complete a term project. An optional field trip to learn snow tracking techniques will be offered. This is a writing intensive (W) course. Prerequisite: BIOL 220; recommended: ENGLISH Composition

**ESRM 455 Wildlife Seminar (1, max. 8) NW** Discussion of current research and application in wildlife biology and conservation. Credit/no-credit only. Offered: AWSp.
ESRM 456 Biology and Conservation of Birds (3) NW J. MARZLUFF Major principles of natural history, avian reproductive biology, population ecology, and national and international conservation strategies for both hunted and unhunted birds. Emphasis on western United States. Prerequisite: either BIOL 162, BIOL 180, or BIOL 220, ESRM 162, any of which may be taken concurrently. Offered: A.

ESRM 457 Fish and Wildlife Toxicology (3/5) NW Overview of fish/wildlife toxicology: history of the field; regulations; methods used to assess risks contaminants pose to fish/wildlife; classes of contaminants and their direct, sublethal and indirect effects; and contemporary threats of contaminants to fish/wildlife, their habitats and prey. Includes laboratory. Offered: jointly with FISH 455; W.

ESRM 458 Management of Endangered, Threatened, and Sensitive Species (5) NW J. MARZLUFF Biological underpinnings and political realities of endangered species management, including: legal issues, recovery teams, citizen rights, extinction, rarity, proactive management, captive propagation, re-introduction, species endangered in the Pacific Northwest. Students revise endangered species recovery plans. Offered: W.

ESRM 459 Wildlife Conservation in Northwest Ecosystems (3) NW J. MARZLUFF, A. WIRSING Extended field course offers wildlife science students personal interactions with wildlife managers and wildlife populations in strategic public and private lands in the northwestern United States and southern Canada. Students share costs of trip. Offered when there is sufficient student demand. Prerequisite: ESRM 350; may not be repeated. Offered: Sp.

ESRM 460 Power, Privilege, and Preservation (5) I&S/NW, DIV Critically examines strategies of resource managers to integrate local communities and cultures in protected areas management. Explores issues of power, privilege, and injustice and their impacts on individuals, society, and resource management decisions. Examines the potential for more socially just and ecologically sustainable approaches to protected areas management. Offered: jointly with ENVIR 460; A.

ESRM 461 Forest Management and Economics (5) I&S/NW Presents important contemporary decision tools, especially how they are used by forest managers to interpret, critique, and develop their basic applications in forestry. Topics include optimization techniques, including linear and nonlinear programming, concepts in interest and time evaluation of alternatives, marginal cost analysis, and computer spreadsheet assisted analysis. Prerequisite: Q SCI 381 or STAT 311; Q SCI 291 or MATH 124. Offered: Sp.

ESRM 462 Restoration Ecology Capstone: Introduction (2-) NW First of a three-course capstone sequence in restoration ecology. Students review and assess project plans and installations. Class meets with members of previous capstone classes to review their projects. Offered: jointly with BES 462/T BIOL 462.

ESRM 463 Restoration Ecology Capstone: Proposal and Plan (-3-) NW Student teams prepare proposals in response to requests for proposals (RFPs) from actual clients. Clients may
be governments, non-profit organizations, and others. Upon acceptance of the proposal, teams prepare restoration plans. Prerequisite: ESRM 462. Offered: jointly with BES 463/T BIOL 463.

**ESRM 464 Restoration Ecology Capstone: Field Site Restoration (-5) NW** Teams take a restoration plan developed in ESRM 463 and complete the installation. Team participation may include supervision of volunteers. Teams prepare management guidelines for the client and conduct a training class for their use. Prerequisite: ESRM 463. Offered: jointly with BES 464/T BIOL 464.

**ESRM 465 Economics of Conservation (3) I&S/NW** Economic principles and their use in the analysis of contemporary conservation problems. Particular emphasis directed toward the conservation of forest resources in the Pacific Northwest and related policy issues. Offered: A.

**ESRM 468 Forest Operations (5)** Examines forest land surveying, low volume road access planning, and timber harvesting concepts. Low volume road design principles and practical application of field road location. Overview of road drainage design, construction techniques and maintenance. Reviews basic harvest systems and setting design processes, including cost, production control, environmental and safety considerations. Prerequisite: ESRM 250; ESRM 368; ESRM 323 which may be taken concurrently. Offered: Sp.

**ESRM 470 Natural Resource Policy and Planning (5) I&S/NW** Introduction to and analysis of environmental policy-making processes, with a focus on forest and land policy and law. Use of policy models to examine the interaction of agencies, interest groups, Congress, and the courts in the legislative process. Policy implementation, evaluation, and change are also addressed. Offered: A.

**ESRM 473 Restoration in North America (5) NW K. EWING** Investigates the vegetation and climate of North American ecosystems. Includes an ecosystem by ecosystem review of how restoration is done in each system, including some tropical ecosystems. Offered: W.

**ESRM 474 Restoration Problem Solving: Ecological Engineering (5) J. FRIDLEY** Exposes students to real-life problem solving that involves the design and manipulation of natural systems to perform ecological function. Focuses on the analysis, design, and implementation of discrete projects. Includes projects dealing with plants, hydrology, earthwork, waste and pollution management, as well as other resources and problems. Offered: A.

**ESRM 478 Plant Ecophysiology (5) NW S. Kim** Explores physiological mechanisms that underlie ecological observations, including how above- and below-ground microclimates develop and affect plant physiological processes. Discusses acclimation to environmental change along with species differences in physiological processes and plant's occupation of heterogeneous environments. Laboratories emphasize field measurement techniques. Prerequisite: either BIOL 180, B BIO 180, TESC 120, T BIOL 120, ESRM 201, ESRM 162, or FISH 162. Offered: jointly with BIOL 424; W.

**ESRM 479 Restoration Design (5) I&S/NW K. EWING, J. FRIDLEY** Covers the design process in ecosystem restoration by presenting a series of weekly design problems that students
solve as teams. Categorizes problems by disturbance type, including restoration necessitated by agriculture, urbanization, salt-marsh filling or diking, construction of transport corridors, etc. Includes a team design portfolio. Offered: Sp.

ESRM 485 Environmental Planning and Permitting in Practice (5) I&S T. WILDERMUTH
Advanced survey of environmental planning and permitting as encountered by environmental and natural resource professionals in Washington State and beyond. Focuses on Washington State acts (SEPA, SMA, GMA) and Federal systems (NEPA, CWA ESA) that shape environmental land use planning and federal planning and permitting systems Offered: jointly with ENVIR 485; W.

ESRM 489 Foreign Study (1-5, max. 15) Individual foreign study of topics for which there is not sufficient demand to warrant the organization of regular classes. Offered: AWSpS.

ESRM 490 Special Topics (1-5, max. 15) Individual tutorial study of topics or courses under development to address the latest scientific developments in forest resources. Offered: AWSpS.

ESRM 491 Field Studies (1-5, max. 10) Independent field study or one time organized field courses with emphasis outside the traditional classroom. Offered: AWSpS.

ESRM 494 Senior Capstone Proposal (5-) Selection of a capstone topic and type, either thesis or project. Students select a faculty adviser to assist them in the proposal writing process. Regular or Honors credit. Prerequisite: ESRM 200; ESRM 201; ESRM 300; ESRM 304. Offered: AWSpS.

ESRM 495 Senior Project (-5) Individual study of an environmental science and resource management problem under direction of a faculty member. Requires a written project report. Generally taken in last year of residence. Prerequisite: ESRM 494, which may be taken concurrently. Offered: AWSpS.

ESRM 496 Senior Thesis (-5) Statistical analysis and presentation of research results and discussion of results in a thesis paper. Students work with faculty advisers to complete field or laboratory research and then prepare the senior thesis. Prerequisite: ESRM 494, which may be taken concurrently. Offered: AWSpS.

ESRM 499 Undergraduate Research (1-5, max. 15) Individual research supervised by a faculty member. For advanced students desiring to extend their educational experience. Offered: AWSpS.

School of Environmental and Forest Resources

SEFS 500 Graduate Orientation Seminar (1) Introduction to graduate study at the School, student resources and services, and current research. Required for all new graduate students in SEFS. Offered: A.
SEFS 501 Forest Ecosystems - Community Ecology (5) Community ecology of forest ecosystems. Quantitative methods of community description. Role of limiting factors, competition, and disturbance in determining community composition, structure, and stability. Introduction to forest ecosystem productivity. History and application of successional theory. Prerequisite: basic ecology course or permission of instructor. Offered: A.

SEFS 502 Analytical Techniques for Community Ecology (4) J. BAKKER Analysis of ecological data, focusing on community-level data. Topics include distance measures, group comparison methods (Mantel test, permutational MANOVA), ordinations (PCA, DCA, NMS), methods of identifying groups (cluster analysis, classification trees), as well as Indicator Species Analysis, diversity measures, and related topics. Prerequisite: Q SCI 482, which may be taken concurrently. Offered: W.

SEFS 503 Current Issues in Restoration Ecology and Environmental Horticulture (1, max. 10) Critical evaluation and discussion of published research in urban horticulture and restoration. Students and faculty present and discuss research methods and questions from current literature. Credit/no-credit only. Offered: AWSp.

SEFS 504 Research Processes in Forest Resources (4) Comprehensive survey of research processes for entering graduate students. Diagnostic and prescriptive evaluation of student research capabilities. Problem and hypothesis formulation, study design, multi-method strategies for gathering and analyzing data, and interpretation and presentation of results.

SEFS 505 Introduction to Pulp, Paper, and Bioproducts (3) R. GUSTAFSON Introduction to pulp and paper technology for BSE graduate students who do not have a prior background in pulp and paper. Broad overview of pulp and paper technology and the pulp and paper industry. Offered: A.

SEFS 506 Terrestrial Invasion Ecology (5) P. Tobin Covers major principles of invasion biology and ecology as they apply to terrestrial ecosystems, from invasion pathways and the arrival stage, factors that affect non-native species establishment and spread, impacts to ecosystem function and diversity, and stage-specific management strategies. Offered: A.

SEFS 507 Soils and Land Use Problems (4) Environmental concerns of soils; how soil properties control potential and reasonable possibilities of land use. Includes factors controlling soil stability, hydrology, fertility, and movement of pollutants. Field trip oriented with weekly activity summaries. Students also conduct field trips to soil-use problem sites.

SEFS 508 Plant Process and Systems Modeling (3) S. Kim This course explores principles and techniques of quantitative modeling used in plant biology and ecology for graduate and advanced undergraduate students. An emphasis will be given to process-based models that integrate underlying physiological and ecological processes in plant systems. Instruction methods will include lectures, discussions, hands-on computer exercises, assignments, project, and reading primary research articles in modeling. Recommended: Plant biology, Ecology, Algebra, Calculus, Scientific computing. Offered: A.
SEFS 509 Analysis of Research Problems (3) S. RABOTYAGOV Natural resource issues emerge from interactions between humans and their biophysical world. Understanding resource problems and solutions requires integration of numerous areas of knowledge and methods of discovery. Objectives include exposure to, and development of, fundamental issues and skills essential for natural resource professionals, including development of a research plan. Offered: W.

SEFS 510 Graduate Studies in Forest Soils (1-5, max. 15) Offered: AWSpS.

SEFS 512 Biogeochemical Cycling in Soils and Forest Ecosystems (3) Elemental cycles in forests and soils. Fundamentals of processes involved in cycling are addressed along with alterations resulting from environment, vegetation, and soil types. Consideration of cycles of nutrients, metals, and other elements. Weekly discussion section reviews literature on biogeochemical cycling. Prerequisite: one soils course or permission of instructor. Offered: W, even years.

SEFS 513 Advanced Soil Genesis and Classification (5) Soil formation, morphology, classification, and relationship to the environment. Labs and field trips illustrate properties and processes of forest and grassland soils in Washington. Requires two weekend field trips and a graduate project. Prerequisite: CFR 510 or permission of instructor. Offered: Sp, even years.

SEFS 514 Advanced Forest Soil Fertility and Chemistry (4) R. HARRISON Chemical properties of soil, nutrient, and toxic elements; supply, retention, and loss of nutrients in soils; utilization of geochemical and ecosystem models such as GEOCHEM, MAGIC, TRICLE-DOWN, and ILWAS in developing a quantitative understanding of the chemical function of forest ecosystems. Prerequisite: general chemistry and geology of soils. Offered: Sp, odd years.

SEFS 515 Advanced Soil and Plant Analysis (3) R. HARRISON Plants and animals must acquire nutrient elements from their environment. Quantifying the composition of samples is the first step in understanding the processes in natural and manmade systems. Sampling, handling, preparation, storage, and analysis stressed. Prerequisite: one botany or plant science course, instrumental analysis, soils. Offered: Sp, even years.

SEFS 520 Geographic Information Systems in Forest Resources (5) J. LAWLER Applications of GIS technology to forest science and management. Fundamentals of GIS systems: data sources, preprocessing, map analysis, output; remote sensing as a source of GIS data, image analysis, and classification. Emphasis on GIS as a source of management and technical information requests. Offered: AWSp.
SEFS 521 Current Topics in Forest Resources (2-5, max. 10) Critical evaluation and discussion of published research in the broad field of forest resources. Topics and requirements vary. Offered: AWSp.

SEFS 522 Plant-Microbe Interactions (1, max. 3) S. DOTY Discusses current research related to forest tree-microbe interactions. Credit/no-credit only. Offered: W, odd years.

SEFS 523 Environmental Applications of Plants: Bioenergy and Bioremediation (3) S. DOTY Covers phytoremediation (removing pollutants using plants), biofuel production, and carbon sequestration. Focuses on the biology rather than the chemistry. Emphasizes the latest research on how current practices in these areas are being improved. Offered: A.

SEFS 524 Current Topics in Phytoremediation (2) S. DOTY Discussion of current scientific research in the use of plants for remediation of pollution. One paper is student-presented per week and critiqued and discussed in class. Prerequisite: SEFS 523 Credit/no-credit only.

SEFS 525 Advanced Wildland Hydrology (4) Advanced treatment of hydrologic cycle and basic hydrologic methods as applied to wildlands. Effects of forest management activities on hydrologic processes. Graduate focus on a detailed field or modeling hydrologic analysis. Offered: W.

SEFS 526 Seminar in Advanced Silviculture (3) Seminar on current and emerging silvicultural issues and underlying biological principles. Topics include: stand management to enhance wildlife, biodiversity, and high productivity in sub-tropical and tropical regions; computer simulation of stand growth; adaptation to changes in management objectives; soil conditions and productivity during stand rotation; and minimizing effects of catastrophic disruption. Prerequisite: ESRM 428. Offered: W.

SEFS 527 Ecosystems Seminar (1) Discussion by invited speakers on current research related to ecosystems. Credit/no-credit only.

SEFS 529 School of Environmental and Forest Sciences Seminar (1, max. 6) Weekly seminars covering School of Environmental and Forest Sciences topics, with lectures from scientists on and off campus. Credit/no-credit only. Offered: AWSp.

SEFS 530 Introduction to Restoration Ecology (3/5) J. BAKKER Provides introduction to ecological restoration of damaged ecosystems. Examines the philosophical base of restoration as well as the social, biological, and political forces that impact the success of any restoration project. Includes lectures, readings, case studies and field trips. Offered: A.

SEFS 533 Airborne Lidar for Remote Sensing of Vegetation and Geomorphology (5) L. MOSKAL Focuses on the applications of lidar data, its interpretation, and processing. Students apply information learned from lectures and laboratory projects to a final project that analyzes vegetation structure, geomorphology, or hydrology. Prerequisite: either ESRM 250, SEFS 520, ESRM 430, FISH 452, FISH 502, FISH 552, or GEOG 360. Offered: Sp.
SEFS 535 Fire Ecology (4) E. ALVARADO-CELESTIN Fire regime concept as applied to fire ecology. Methodology for fire history research. History and function of forest fire in Western United States with emphasis on Pacific Northwest. One weekend field trip. Offered: A.

SEFS 540 Optimization Techniques for Natural Resources (5) S. TOTH Studies optimization techniques for natural resources managers including spatial optimization; linear, integer, and multi-objective programming; and stochastic and combinatorial optimization. Emphasizes model building rather than on algorithmic concepts. Prerequisite: MATH 308 or permission of instructor. Offered: Sp.

SEFS 541 Advanced Landscape Ecology (5) J. LAWLER Hands-on, applied, project-based research class. Students work in a team in conjunction with one or more outside partners to address real landscape-scale conservation problems. Covers scaling, landscape processes, pattern measurement, connectivity, landscape modeling, and conservation planning. Prerequisite: SEFS 501. Offered: W, odd years.

SEFS 549 Urban Horticulture Seminar (1, max. 6) Discussion by invited speakers on current topics in urban horticulture. Credit/no-credit only. Offered: A.

SEFS 550 Graduate Seminar (2-5, max. 10) Graduate seminar to evaluate and discuss current research topics. Topics and requirements vary. Offered: AWSp.

SEFS 554 Wildlife Seminar (1-2, max. 10) Discussion of current research and application in wildlife biology and conservation. Credit/no-credit only. Offered: AWSp.

SEFS 561 Public Presentation in Urban Horticulture (2) Students learn to make public presentations in scientific, professional, and popular contexts and to interpret technical information for professional and lay audiences. Support materials, such as audiovisuals and graphics, are discussed. Offered: Sp.

SEFS 564 Advanced Forest Biometry (3/5) E. TURNBLOM Classical problems in analysis of forest populations and growth theory, and principles of parametric analysis and estimation processes in forest biometry. Offered: W, even years.

SEFS 567 Topics in Advanced Ecology (3, max. 6) Discusses literature on active research areas or controversies in different branches of ecology. Offered: jointly with BIOL 567/FISH 567; W.

SEFS 570 Seminar in Environmental Sociology (3) Offered: jointly with SOC 570.

SEFS 571 Resource Policy and Administration (4) Study based on understanding of the actors, arenas, issues, and policy communities that form the context for policy development and implementation. Exploration of approaches to policy inquiry. Consideration of implications for both policy and management. Students develop a study design for course project. Offered: jointly with PUBPOL 592.
SEFS 574 Restoration Problem Solving: Ecological Engineering (5) J. FRIDLEY Exposes students to real-life problem solving that involves the design and manipulation of natural systems to perform ecological function. Focuses on the analysis, design, and implementation of discrete projects. Includes projects dealing with plants, hydrology, earthwork, waste and pollution management, as well as other resources and problems. Offered: A.

SEFS 590 Graduate Studies (1-5, max. 10) Study of emerging scientific developments in forest resources that may develop into regular course offerings. Offered: AWSpS.

SEFS 595 Graduate Teaching Practicum (1-5, max. 5) Principles of teaching and learning applied to undergraduate instruction in the School of Environmental and Forest Sciences. Development, delivery, and evaluation of lectures and homework assignments. Graduate teaching experience for SEFS students only. Credit/no-credit only. Offered: AWSp.

SEFS 600 Independent Study or Research (*) Offered: AWSpS.

SEFS 601 Internship (3-9, max. 9) Graduate internship under the supervision of a faculty member. Credit/no-credit only. Offered: AWSpS.

SEFS 700 Master's Thesis (*) Offered: AWSpS.

SEFS 800 Doctoral Dissertation (*) Offered: AWSpS.
Marine and Environmental Affairs

School Overview

3707 Brooklyn Avenue Northeast

The School offers an interdisciplinary program of study leading to the Master of Marine Affairs degree. Marine affairs concerns management and policy questions on the uses of the coastal and offshore regions of the ocean and their resources. The core curriculum includes courses in marine affairs, economics, law, marine sciences, and public affairs, with emphasis on human dimensions of the environment.

Graduate Program

Graduate Program Coordinator   3707 Brooklyn NE, Box 355685   206-543-4326, 206-543-7004   uwsmea@uw.edu

Master of Marine Affairs

Students learn creative approaches to resolving marine problems and conflicts, charting rational use of living and non-living marine resources, and managing human activities on the coasts, at sea, and in estuaries, wetlands, and large inland bodies of water.

The program prepares students for professional careers in policy making, management, teaching, and research. Students gain familiarity with relevant aspects of the social, technological, and environmental sciences.

Completion of the MMA program normally requires two academic years. In the first year, students develop a comprehensive understanding of the marine affairs field and acquire analytic skills. In the second year, students develop competence in a topical area of interest (e.g., ocean and coastal management, ports and marine transportation, marine environmental protection, marine resources management, ocean and coastal tourism and recreation), and prepare a thesis, complete a capstone project, or complete additional coursework for the courses-only option. Studies may be adjusted to accommodate prior experience and academic background.

Admission Requirements

1. Graduate Record Examination general-test scores
2. Departmental supplementary information form
3. Three letters of recommendation
4. Official academic transcripts
5. Statement of career objectives
6. Students are normally admitted for autumn quarter only.
**Degree Requirements**

59 credits as follows:

- **Core Curriculum (29 credits minimum)**
  1. Introduction to Marine Affairs: SMEA 500, SMEA 501, SMEA 502
  2. Economics: SMEA 536. If SMEA 536 is waived, students must still take at least one economics course at the 400 or 500 level.
  4. Policy Analysis: SMEA 519
  5. Policy Processes: one of SMEA 507 or SMEA 521
  6. Marine Science: SMEA 591. If SMEA 591 is waived, students must still take at least one 400- or 500-level science course
  7. Research (Quantitative) Skills: The required skill level is equivalent to intermediate statistics, including an understanding of point estimates, confidence intervals, and regression equations. Students not at this level take one appropriate course. Recommended courses include SMEA 584, Q SCI 381, or STAT 311. One additional course in research skills (minimum 3 credits) for students in the thesis track.
  8. Marine and Environmental Affairs Advising: SMEA 600 (1 credit in winter and spring required the first year.

- **Electives (Minimum number of elective credits to meet 59-credit total):** To include at least 6 credits from a minimum two SMEA courses.

- **Thesis and Thesis Presentation (15 credits minimum):** SMEA 700

- **Capstone Credits and Presentation (9 credits):** SMEA 650

**Financial Aid**

The School offers a limited number of positions for graduate student appointments as research assistants. Applicants are urged to investigate outside sources of funding.

**Course Descriptions**

**SMEA 103 Society and the Oceans (5) I&S/NW** Explores the social and policy dimensions of the ocean environment and ocean management policy. Pays attention to how human values, institutions, culture, and history shape environmental issues and policy responses. Examines case studies and influential frameworks, such as the ocean as "tragedy of the commons." Offered: jointly with ENVIR 103/JSIS B 103.

**SMEA 407 International Organizations and Ocean Management (3) I&S** Surveys the manner in which international regimes and organizations govern and manage ocean use. Primary emphasis is on the analysis of the effectiveness of regimes and of processes that support or constrain organizations in different issues or regions, such as climate change or the Arctic.
SMEA 430 Development and the Environment (3) I&S, DIV  Dolsak Critically examines policy approaches that balance economic development, natural resource use/environmental protection, and socioeconomic and political diversity. Examined policy approaches include market instruments, standards, information-based regulation, and corporate responsibility. Offered: A.

SMEA 476 Introduction to Environmental Law and Process (3) I&S  Bryant Use and application of key statutes in marine living resources management. Overview of administrative law and process. Basic legal research, reading, and briefing selected judicial opinions. Participatory case study component. Designed for non-law graduate and advanced undergraduate students. Offered: jointly with ENVIR 476; A.

SMEA 480 Human Dimensions of Fishery Management (3) I&S/NW  Bryant Techniques and philosophy for conservation, management, and development of harvested marine populations. Emphasis on integration of ecological, sociological, and economic dimensions of institutional decision making for policy formation in uncertain environments. Offered: jointly with FISH 480.

SMEA 485 Pacific Recreation and Tourism Issues (3) I&S/NW, DIV  Miller Examines how marine tourism links people to one another and to the environment. Utilizes concepts from cultural anthropology, sociology, political science, geography, ecology, conservation biology, and planning. Topics include: ecotourism, ethnic tourism, marine parks and protected area, fisheries, sustainable development, tourism ethics, and marine environmental education.

SMEA 499 Undergraduate Research (1-15, max. 15) Research on assigned topics under the supervision of faculty members.

SMEA 500 Introduction to the Human Dimensions of Global Change (3) D. FLUHARTY, T. LESCHINE Introduces students to human dimensions of global change in the marine environment. Examines how changes are physical, social, and institutional; and how global climate change affects the ability of ecosystems to provide services that support humankind. Explores changes the use of costal and ocean resources. Offered: A.

SMEA 501 Integrated Marine Affairs Practice (3) Survey of tools used in integrated assessment of contemporary problems in marine affairs explored through evaluation and comparison of theory and practical application. Prerequisite: SMEA 500 plus two of the following: SMEA 519, SMEA 536, SMEA 591, or permission of instructor. Instructors: Allison Offered: W.

SMEA 502 Decision Making and Action Taking in Marine Affairs (3) P. CHRISTIE Focuses on the dynamic interaction between human- and natural-world marine environmental systems and the policy- and decision-making, implementation, evaluation, and adjustment that must
follow for effective response to problems that emerge within the human dimensions of global change in the marine environments framework. Prerequisite: SMEA 500; SMEA 501.

SMEA 506 International Law of the Sea (3)

SMEA 507 International Organizations and Ocean Management (3) Survey of the manner in which international regimes and organizations attempt to manage and regulate the uses of the ocean. Primary emphasis is on the analysis of the effectiveness of regimes and of processes that support or constrain these organizations. Prerequisite: SMEA 500 or permission of instructor. Offered: jointly with PUBPOL 538.

SMEA 509 Integrated Coastal Management (3) Managing multiple uses of coastal waters and the adjacent land; conflicts arising from competition for space and resources; organization, scientific, and economic problems associated with coastal management; planning and management experience in the United States and Southeast Asia. Prerequisite: SMEA 500 or permission of instructor. Instructors: Christie

SMEA 510 Topics in Marine Ecology (3) Klinger Study of ecological principles as they apply to marine species, populations, and ecosystems, using current examples from the primary literature, including contemporary issues such as species declines, species additions, pollution, and global change. Offered: W.

SMEA 511 Coastal Environment Management (3) Evaluation of human uses of the coastal and upland areas in the context of coupled social-ecological systems. Concepts and techniques for evaluation and practical application.

SMEA 512 Interviewing Methods and Environmental Topics (3) Miller Focuses on qualitative techniques employed by social scientists and other researchers (e.g., sociologists, cultural anthropologists, political scientists, journalists, reporters) in interview situations. Students conduct interviews and limited participant observation with people in public, private, and activist sectors. Relevant to students with interests in marine affairs, forestry, fisheries, and environmental studies.

SMEA 514 Marine Pollution Management Issues (3) Leschine Management and policy aspects of marine environmental protection, emphasizing the two-way interaction between environmental managers and environmental and policy scientists which shapes policy.

SMEA 515 U.S. Coastal and Ocean Law (3-5) Kelly Study of the legal framework in the United States controlling allocation and use of coastal and marine resources. Topics include coastal zone management, fisheries management, protection of marine mammals and endangered species, marine pollution, offshore oil and gas development, and marine transportation.
SMEA 517 Marine Uses: Transportation and Commerce (3) Role of the oceans in the transportation of people and materials, character and trends in vessel design and terminal facilities, pattern and nature of industry organization, regulations, economics of the shipping industry, management of fleets and vessels, individuals at sea and ashore, national policies affecting the merchant marine and port facilities. Prerequisite: SMEA 500 or permission of instructor.

SMEA 519 Marine Policy Analysis (3) Dolsak Goal is appreciation for and basic working knowledge of techniques used in policy analysis. Techniques are explored in both quasi-realistic settings and in application to real world problems of marine policy.

SMEA 521 Climate Change Governance (3) Exploration of major scientific, policy, and legal issues pertaining to governance of global climate change mitigation and adaptation by a diverse set of governmental and non-governmental actors. Offered: A.

SMEA 523 International Science and Technology Policy (3) Dolsak Analyzes the relationships between research and development policy, capabilities, and national technological strategies for advanced industrial and less-developed countries. Deals with international implications as countries make policies in regional and global organizations. Examples chosen from space telecommunication, weather and climate modification, airline transportation, nuclear energy, and seabed exploration.

SMEA 525 Marine Protected Area Management and Science (3) Fluharty Examines management and scientific issues involved with the design, establishment, operation, and maintenance of MPAs. Offered: Sp.

SMEA 530 Development and the Environment (3) Dolsak Examines two intertwined concepts that are frequently in conflict, economic development and the environment. Examines sustainable development, growth management, sustainable yield, and corporate social responsibility; the emergence, effectiveness, and their relationships with democracy and equity. Offered: A.

SMEA 536 Applied Microeconomics for Marine Affairs (3) Acquaints students with microeconomic tools commonly employed in policy analysis. Emphasis is placed on mastery of basic concepts, definitions, and models useful to marine policy, including determinants of price and outputs in competitive markets, effects of other market structures, market failure, and applied welfare economics.

SMEA 537 Economic Aspects of Marine Policy (3) Development of pertinent economic concepts and their application to selected topics in marine policy decision making, including maritime policy, OCS oil and gas development, and wetlands management. Prerequisite: SMEA 500 or permission of instructor. Offered: jointly with ECON 537; W.

SMEA 538 Economics of Living Marine Resources (3) Develops pertinent economic concepts and applications for conservation, regulation, and restoration of fisheries and other living resources. Gives special attention to fishery management, including harvest regulation and
enforcement, recreational fisheries evaluation, property rights regimes, contemporary issues, and marine protected area management. Offered: jointly with ECON 538; Sp.

**SMEA 539 U.S. Fisheries Management and Policy (3)** Examination of basic laws and policies in the US that govern fisheries management and their implementation by managers at federal, tribal, state, and international levels. Includes lectures, guest speakers, and field trips. Offered: jointly with FISH 539.

**SMEA 540 International Strategic Planning for Marine Resources (3)** Marine economies are affected by declining resources, population pressure, and economic globalization. International examples and case studies are used to explore opportunities for strategic planning. Prerequisite: SMEA 500 or permission of instructor. Instructors: Kaczynski Offered: A.

**SMEA 550 Special Topics in Marine Studies (1-3, max. 18)** Examination of various aspects of marine studies. Content varies, depending upon the interests of the faculty and students. Intended for the joint participation by the faculty and advanced students in the investigation of selected topics. One or more groups are organized each quarter.

**SMEA 570 Thesis Presentation (1) Fluhraty** Completion of the thesis requirement for SMEA. Prepare a professional presentation to a peer audience. Credit/no-credit only. Offered: AWSpS.

**SMEA 571 Non-Thesis Seminar (1) Leschine** Capstone course for students enrolled in non-thesis track to synthesize and integrate their learning into concrete products. Credit/no-credit only. Offered: AWSpS.

**SMEA 581 Case Study Research: Design and Methods (3)** Provides in-depth training in case study theory, design, and methods. Designed for exploring prospectus ideas or beginning analysis of thesis research. Through readings, discussions, exercises, and lectures, students learn how to select units of analysis, control data quality, and collect, analysis, and report data. Offered: jointly with FISH 581.

**SMEA 583 Research Design (3)** N. Dolsak Examines types of evidence required to accurately describe a phenomenon, test a hypothesis, evaluate a program, and empower participants. Students learn and critically evaluate core research designs such as longitudinal, cross-sectional, experimental, case study, and activist research design. Students develop a research prospectus for an original study of their choice. Offered: W.

**SMEA 584 Statistics for Marine and Environmental Policy (3)** S. JARDINE Surveys statistical approaches to data analysis with applications to marine and environmental policy, including descriptive statistics, data visualization, and hypothesis testing. Students learn how to make and use data-based claims, critically examine properties and limitation of various datasets relevant for marine and environmental policy, and use appropriate statistical software. Offered: A.

**SMEA 585 Climate Impacts on the Pacific Northwest (4)** Mantua, Snover Knowledge of past/future patterns of climate to improve Pacific Northwest resource management. Topics
include the predictability of natural/human-caused climate changes; past societal reactions to climate impacts on water, fish, forest, and coastal resources; how climate and public policies interact to affect ecosystems and society. Offered: jointly with ATM S 585/ENVIR 585/ESS 585; Sp.

SMEA 591 Marine Science in the Coastal Zone (3) R. KELLY Presentation and analysis of the marine science of estuarine, coastal, and open ocean systems, including evaluation and interpretation of scientific information necessary for management. Lectures, discussions, and readings emphasize the relevance of natural processes to marine environmental management and decision-making. Offered: jointly with OCEAN 591; A.

SMEA 600 Independent Study or Research (*-)

SMEA 650 Marine and Environmental Affairs Capstone Project (4-5, max. 9) N. DOLSAK Student teams develop, manage, and complete an applied project relevant to marine or environmental affairs, in collaboration with an outside stakeholder and in consultation with faculty adviser.

SMEA 700 Master's Thesis (*-)

Marine Biology

Department Overview

Marine biology involves the study of life processes of organisms inhabiting the ocean's environments, drawing on courses offered by Aquatic and Fishery Sciences, Oceanography, and Friday Harbor Laboratories. The degree program integrates core material on marine aspects of biodiversity, organismal processes, and ecology and ecosystems, examining their relationship with physical processes and ocean changes. Graduates are prepared for careers in management agencies at the local to international levels, environmental consulting, non-profit organizations, and a range of educational settings.

Undergraduate Program

Adviser 116 Fishery Sciences Building, Box 355020 206-543-7426 marbiol@uw.edu

Marine Biology offers the following programs of study:

- Bachelor of Science, with a major in marine biology
- Minor in marine biology

Bachelor of Science

*Suggested First- and Second-Year College Courses:* Recommended courses for first-year students: FISH 250/OCEAN 250/BIOL 250; English composition; calculus; CHEM 120 and OCEAN 295; BIOL 180. Recommended courses for second-year students: OCEAN 210, BIOL 200, and FISH 270/OCEAN 270/MARBIO 270; Q SCI 381, MARBIO 305.

Department Admission Requirements

Students in good academic standing may declare this major at any time, including on the application for admission to the UW. After notification of admission and before registration, new students should contact the Student Services Office for help in program planning.

Major Requirements

105-113 credits

1. *Core STEM (43-50 credits)*

   a. Biology: BIOL 180, BIOL 200 (10 credits)

   b. Chemistry: CHEM 120, OCEAN 295; or CHEM 120, CHEM 220; or CHEM 142, CHEM 152, OCEAN 295; or CHEM 142, CHEM 152, CHEM 162 (10-15 credits)
c. Physics: Either PHYS 114 or PHYS 121 plus OCEAN 285 and OCEAN 286; or PHYS 114 and PHYS 115; or PHYS 121 and PHYS 122 (8-10 credits)

d. Calculus: Q SCI 291 or MATH 124; Q SCI 292 or MATH 125 (10 credits)

e. Statistics: Q SCI 381 or STAT 311 (5 credits)

2. Introduction to Marine Environment: FISH 250/OCEAN 250/BIOL 250 or OCEAN 200 and OCEAN 201; OCEAN 210; FISH 270/OCEAN 270/MARBIO 270 (14 credits)

3. Marine Biology Core: FISH 370/OCEAN 370/MARBIO 370; OCEAN 330 or OCEAN 430; FISH 323 (14-15 credits)

4. Communications: MARBIO 305 or FHL 333 (3 credits)

5. Electives: Minimum 25 credits from approved courses (see department website for list), meeting the following requirements
   a. Minimum one course each in biodiversity, ecology and ecosystems, organismal processes
   b. Minimum two courses from approved laboratory electives
   c. Minimum three courses at the 400 level
   d. Maximum 6 credits total from OCEAN 492, FHL 450, FHL 460, FHL 470, or FHL 492.

6. Integrative Field Experience: One from MARBIO 479, MARBIO 488, FHL 450, FHL 460, FHL 470, or OCEAN 492. Students who take OCEAN 492 toward elective requirements in 5.d. above may apply an additional 6 credits in OCEAN 492 to the integrative field experience requirement. (6 credits)

7. Minimum 2.00 cumulative GPA in courses presented for the major.

8. Majors must satisfy the College of the Environment general education requirements.

Minor

Minor Requirements: 35 credits

1. Introductory Courses (19 credits): FISH 250/OCEAN 250/BIOL 250; OCEAN 210; BIOL 180; Q SCI 381.

2. Integrative Experience (3 credits): See adviser for approved list of courses.

3. Electives (13 credits): Selected from an approved list available from a program adviser. Additional courses may be approved by program adviser. (A minimum of one elective course must be taken from each of the following units: Aquatic and Fishery Sciences; Oceanography; and Biology or Friday Harbor Laboratories.)

4. Up to 17 credits may overlap with credits applied to a student's major and up to 5 credits may overlap with credits applied to another minor.

5. Minimum 15 credits in upper-division courses.

6. Minimum 2.00 cumulative GPA in courses presented for the minor.
Course Descriptions

MARBIO 270 Aquatic Ecophysiology (5) NW Focuses on fundamental physiology, with an emphasis on processes relevant to living in a variety of aquatic environments. Includes a broad survey of taxa, from prokaryotes to mammals, and a variety of aquatic habitats. Prerequisite: BIOL 200. Offered: jointly with FISH 270/OCEAN 270.

MARBIO 300 Exploring Opportunities in Marine Science (1) Explores academic, research, and career opportunities in the field of marine science and helps prepare students for graduation. Intended for junior and transfer students studying marine science. Credit/no-credit only. Offered: jointly with FISH 300/OCEAN 300; W.

MARBIO 305 Scientific Writing in Marine Biology (3) Introduces the fundamentals of scientific writing about research in marine biology: content, organization, critical thinking, structure, and the mechanics of grammar, wording and formatting. Students critically evaluate scientific writing in this discipline, and practice developing, writing, and revising concise arguments supported by scientific evidence. Prerequisite: Either C LIT 240, ENGL 109 and ENGL 110, ENGL 111, ENGL 121, ENGL 131, ENGL 197, ENGL 198, ENGL 199, ENGL 281, ENGL 297, ENGL 298, or ENGL 299. Offered: A.

MARBIO 370 Marine Evolutionary Biology (5) NW Emphasizes geobiological patterns of marine evolutionary biology environment; processes of evolution; marine prokaryote and eukaryote diversity; and applications of evolutionary principles to ocean change, and conservation and management of marine biodiversity. Prerequisite: either FISH 270/OCEAN 270/MARBIO 270 or BIOL 220. Offered: jointly with FISH 370/OCEAN 370; Sp.

MARBIO 435 Research Apprenticeship in Marine Science (15) NW Immersive quarter in research in close collaboration with one-three faculty mentors on a specific topic that varies with the apprenticeship. Students engage in laboratory or field research in marine science, involving gathering, analyzing, and communicating results as part of a research team. Offered: jointly with BIOL 435/FHL 435; ASpS.

MARBIO 450 Nearshore Ecology Research Experience (6) NW M. Dethier A hands-on introduction of "doing science" in close collaboration with a faculty member. Students engage in research around a thematic focus of ecology of nearshore marine ecosystems, with lab experiments and field work. Students gather, analyze, write up, and present their own data. Offered: jointly with FHL 450; ASp.

MARBIO 460 Aquatic Animals Research Experience (6) NW A hands-on introduction of "doing science" in close collaboration with a faculty member. Students engage in research around a thematic focus of aquatic animals, with lab experiments and field work. Students gather, analyze, write up, and present their own data. Offered: jointly with FHL 460; ASp.

MARBIO 470 Research in Marine Biology (1-15, max. 15) NW B. Swalla A hands-on introduction of "doing science" in close collaboration with a faculty member. Students engage in research in marine biology; credits vary with the scale of the project with may include lab
experiments and field work. Students gather, analyze, write up, and present their own data. Offered: jointly with FHL 470; ASp.

**MARBIO 479 Research in Marine Biology (1-15, max. 15)** Individual research on topics in marine biology. Research projects supervised by an individual faculty member. Projects may include laboratory work, fieldwork, and literature surveys. Prerequisite: BIOL 250/FISH 250/OCEAN 250; Q SCI 381. Offered: jointly with BIOL 479/FISH 479/OCEAN 479; AWSpS.

**MARBIO 488 Marine Biology in the Field (4/6)** Uses extensive field work to enhance students' practical knowledge of marine organismal and habitat diversity, and oceanographic processes. Development of integrative skills in experimental design, data collection, field interpretation, and communication. Prerequisite: One 300-level class in FISH, OCEAN, FHL, or BIOL. Offered: A.

**MARBIO 492 Ecology and Conservation of Marine Birds and Mammals (9/15) NW** An intensive, field-based course that offers motivated students the opportunity to learn about these ecologically and culturally important marine animals and the conservation problems they face. Emphasizes first-hand learning and individual research projects. Offered: jointly with FHL 492/FISH 492; S.
Oceanography

School Overview

108 Oceanography Teaching Building

Oceanography - study of the marine environment and its interactions with the earth, the biosphere, and the atmosphere - is prompted both by the intellectual desire to understand how the oceans move and how life develops in a salty, cold environment, and the need to use wisely the ocean's resources for the benefit of humanity. As an interdisciplinary science, oceanography integrates the basic principles of biology, chemistry, geology, physics, geophysics, mathematics, botany, zoology, meteorology, and geography. Applications of high technology to oceanographic instrumentation and vessels, increasingly sophisticated computers, satellite remote sensing, and innovative methodologies are rapidly opening new possibilities for exploration and study. Oceanography is divided into four areas of emphasis:

*Biological Oceanography* examines the processes governing the distribution, abundances, and production of plants, animals, and nutrients in the oceanic ecosystem. Emphasis is on investigations of bacteria, phytoplankton, zooplankton, and benthic organisms.

*Chemical Oceanography* investigates the complex chemistry, distribution, and cycling of dissolved substances, nutrients, and gases in seawater, the mechanisms controlling them, and their origins and fates.

*Marine Geology and Geophysics* studies marine sediments (their formation, transport, and deposition); ocean basin formation (plate tectonics); processes governing shoreline formation; and the origin, structure, and history of the oceanic crust and upper mantle.

*Physical Oceanography* endeavors to understand and predict motions in the sea from millimeters through tidal and current scales to the great ocean gyres, the distribution of physical properties (temperature, salinity, sea ice), and air-sea interaction and its implications for climate.

Undergraduate Program

Adviser 108 Oceanography Teaching Building, Box 357940 206-543-5039 student@ocean.washington.edu

The School of Oceanography offers the following programs of study:

- Bachelor of Arts degree with a major in oceanography
- Bachelor of Science degree with a major in oceanography
- Specializations include biological, chemical, or physical oceanography, or marine geology and geophysics
- A minor in oceanography
- A minor in marine biology (offered jointly with the Departments of Biology and Aquatic and Fishery Sciences)
- A minor in climate science (offered jointly with the Departments of Atmospheric Sciences and Earth and Space Sciences)
- A minor in arctic studies (offered jointly between the Jackson School of International Studies and the School of Oceanography)

**Bachelor of Arts**

*Suggested Pre-College Courses:* Interest in natural sciences and a good record in high school science courses, particularly mathematics. One year each of biology, chemistry, physics, and earth sciences recommended.

*Suggested First- and Second-Year College Courses:* MATH 124; CHEM 120 or CHEM 142 and CHEM 152; BIOL 180, BIOL 200; ESS 210 or ESS 211; PHYS 121; either OCEAN 215 or CSE 160; OCEAN 200, OCEAN 201, OCEAN 210, OCEAN 220, OCEAN 285, OCEAN 286, and OCEAN 295; and English composition.

**Department Admission Requirements**

Students in good academic standing may declare this major at any time.

**General Education Requirements**

All majors must satisfy the College of the Environment general education requirements. University-required additional writing credits may include OCEAN 220, OCEAN 443, and OCEAN 445.

**Major Requirements**

Minimum 104 credits

1. Core requirements (79 credits): PHYS 121; MATH 124, MATH 125; CHEM 120 or CHEM 142; BIOL 180, BIOL 200; ESS 210 or ESS 211; OCEAN 200, OCEAN 201, OCEAN 210, either OCEAN 215 or CSE 160, OCEAN 220, OCEAN 285, OCEAN 286, OCEAN 295, OCEAN 310, OCEAN 320, OCEAN 330, OCEAN 351
2. Elective foundational science (5 credits): one of PHYS 122, MATH 126, CHEM 152, BIOL 220, or OCEAN 270
3. 300- or 400-level oceanography coursework that may include the senior thesis sequence, selected in the student's area of specialization, in consultation with a faculty adviser (minimum 10 credits)
4. Upper-division science, mathematics, or engineering, selected in the student's area of specialization, in consultation with a faculty adviser (10 credits)
Bachelor of Science

Suggested Pre-College and First- and Second-Year College Courses: Same as for Bachelor of Arts degree (shown above)

Department Admission Requirements

Students in good academic standing may declare this major at any time.

General Education Requirements

Same as for the Bachelor of Arts degree (shown above).

Major Requirements

Minimum 116 credits

1. Core requirements (79 credits): PHYS 121; MATH 124, MATH 125; CHEM 120 or CHEM 142; BIOL 180, BIOL 200; ESS 210 or ESS 211; OCEAN 200, OCEAN 201, OCEAN 210, either OCEAN 215 or CSE 160, OCEAN 220, OCEAN 285, OCEAN 286, OCEAN 295, OCEAN 310, OCEAN 320, OCEAN 330, OCEAN 351.

2. Senior thesis sequence (8 credits): OCEAN 443, OCEAN 444, OCEAN 445

3. Elective foundational science (5 credits): one of PHYS 122, MATH 126, CHEM 152, BIOL 220, or OCEAN 270

4. 300- or 400-level oceanography coursework selected in the student's area of specialization, in consultation with a faculty adviser (9 credits)

5. Upper-division science, mathematics, or engineering, selected in the student's area of specialization, in consultation with a faculty adviser (15 credits)

Students with introductory science and mathematics courses equivalent to those listed are encouraged to contact the Oceanography adviser.

Continuation Policy

All students must make satisfactory academic progress in the major. Failure to do so results in probation, which can lead to dismissal from the major. For the complete continuation policy, contact the departmental adviser or refer to the department website.

Minor

Minor Requirements: 26 credits

1. OCEAN 200, OCEAN 210
2. One of the following sequences: OCEAN 285, OCEAN 286, and OCEAN 320; or OCEAN 295 and OCEAN 330; or one of ESS 210 or ESS 211 and OCEAN 310

3. 9 credits of OCEAN electives, chosen from 300- and 400-level oceanography courses

Minor in Arctic Studies: See entry for Arctic Studies in the Interdisciplinary Undergraduate Programs section of the General Catalog.

Minor in Marine Biology: See entry for Marine Biology in the Interdisciplinary Undergraduate Programs section of the General Catalog.

Minor in Climate Science: See entry for Climate Science in the Interdisciplinary Undergraduate Programs section of the General Catalog.

Student Outcomes and Opportunities

- Learning Objectives and Expected Outcomes: The degree offers students a solid foundation in biological, chemical, geological, and physical oceanography, together with more specialized expertise in one of those options. Expertise is gained through team-based field and laboratory research during the sophomore and junior years, then by independent research on a thesis topic during the senior year. Emphasis is on building skills with the tools and techniques of shipboard oceanographic research and data analysis and interpretation. Students engage in fieldwork and data collection, learn to analyze and interpret that data, and prepare scientific reports. Additionally students acquire familiarity with the specialized instruments of oceanographic research.

The program prepares students to enter the profession directly or to pursue graduate studies. Oceanographers seek to produce a new understanding of an ocean system and to explore the potential consequences to the marine environment of human activities. They collect samples and data, analyze and interpret them, and prepare and disseminate the results. They work at sea, on land, in laboratories, and with computers. Most are employed in education and research institutions and federal, state and local government agencies. Other employers include environmental consulting firms and private companies extracting and harvesting marine products. A degree can also serve as a background for a career in teaching, administration, marine affairs, computing, or environmental studies.

- Instructional and Research Facilities: The school has extensive laboratory facilities equipped with highly specialized instruments and computers for teaching and research. The school operates two research vessels: the 274 foot R/V Thomas G. Thompson, used chiefly for open ocean research throughout the world, and the 65 foot R/V Clifford A. Barnes, used for research in coastal waters and estuaries of Washington. Undergraduate students have ample opportunities to gain research experience in the laboratories of faculty and to do oceanographic research in Puget Sound.

- Honors Options Available: With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
• Research, Internships, and Service Learning: Special opportunities for oceanography majors are provided by involving students in undergraduate research projects and part-time employment.

• Department Scholarships: See adviser for availability.

• Student Organizations/Associations: The Student Oceanographic Society (SOS) provides peer advice, organizes field trips, sponsors alumni career panels, and holds social gatherings.

Graduate Program

Graduate Student Services  108 Ocean Teaching, Box 357940  206-543-5039 student@ocean.washington.edu

The school provides instruction and research opportunities at the graduate level: biological, chemical, and physical oceanography, and marine geology and geophysics. The program emphasizes independent research in conjunction with basic and specialized courses. Interdisciplinary research is encouraged, and students work across scientific boundaries. Coursework during the first two years is required in each option; specialized coursework is structured to fit the student's background and objectives. Foreign-language proficiency is required only when deemed crucial to scholarly research.

Master of Science

Includes coursework in the student's area of interest and the other oceanography options, as well as completion of an approved research project and oral presentation of the results. Thesis and non-thesis programs are offered; most students select the non-thesis option.

Admission Requirements

1. One official copy of transcript(s) from all colleges or universities attended

2. Minimum 3.00 GPA or B for last 90 quarter (60 semester) credits

3. GRE scores

4. TOEFL scores for international students

5. Statement of goals and objectives, which may include any or all of the following: how or why applicant became interested in oceanography, significant accomplishments, summary of research experience, research area(s) of special interest, ultimate goals, extracurricular activities and interests.

6. Three letters of recommendation on School of Oceanography forms. Recommendations should be from faculty or scientists familiar with the applicant's academic achievements and research experience. Applicants out of school for some time may include recommendations from employer(s), should include at least one letter from academic faculty.

Degree Requirements
36 credits

2. Minimum 18 credits numbered 500 and above. (In a thesis program, 9 credits may be OCEAN 700.)

3. Numerical grades in at least 18 quarter credits taken through the UW. Minimum cumulative 3.00 GPA

4. Minimum three full-time quarters of residence credit. Part-time quarters may be accumulated to meet this requirement.

5. Final master's examination

**Biological Oceanography Option:** OCEAN 530, OCEAN 531, OCEAN 532, OCEAN 533. Minimum 3 credits of advanced biological oceanography courses.

**Chemical Oceanography Option:** OCEAN 520. Minimum three advanced chemical oceanography courses.

**Marine Geology and Geophysics Option:** OCEAN 540, OCEAN 541, OCEAN 545

**Physical Oceanography Option:** OCEAN 500, OCEAN 510, OCEAN 511, OCEAN 512, OCEAN 513, OCEAN 514, OCEAN 515, OCEAN 517. Three courses in applied mathematics.

**Out-of-Option Requirement:** Minimum one 3-credit, numerically graded, 500-level course from each option outside the student's own (9 credits). See department website for list of suitable courses.

**Doctor of Philosophy**

Strong emphasis on research following completion of course requirements and the general examination. Upon successful completion of the general examination, the student undertakes an original research investigation, described in the dissertation and defended during the final examination.

**Admission Requirements**

1. One official copy of transcript(s) from all colleges or universities attended
2. Minimum 3.00 GPA or B for last 90 quarter (60 semester) credits
3. GRE scores
4. TOEFL scores for international students
5. Statement of goals and objectives (to be defined in online application), which may include any or all of the following: how or why applicant became interested in oceanography, significant accomplishments, summary of research experience, research area(s) of special interest, ultimate goals, extracurricular activities and interests.

University of Washington General Catalog 2018-2020
Page 1668
6. Three letters of recommendation on School of Oceanography forms (available in online application). Recommendations should be from faculty or scientists familiar with the applicant's academic achievements and research experience. Applicants out of school for some time may include recommendations from employer(s), but should be made to include at least one letter from academic faculty.

**Degree Requirements**

Minimum 90 credits

1. Half the total program, including dissertation credits, in courses numbered 500 and above. Minimum 18 credits of coursework at the 500 level and above completed prior to the general examination.

2. Minimum three years (nine full-time quarters) of resident study, two through the UW. At least three full-time quarters (not necessarily continuous) taken through the UW and completed prior to the general examination. Residence requirement cannot be met solely by part-time study. Minimum two academic years of resident study completed before the general examination.

3. An appropriate master's degree from an accredited institution may be applied toward one year of resident study through the UW.

4. Numerical grades in at least 18 quarter credits of coursework taken through the UW. Minimum 3.00 cumulative GPA.

5. General examination

6. Dissertation, credit for which should be at least one-third of total credits.

7. Final examination, usually devoted to the defense of the dissertation and the field with which it is concerned

**Biological Oceanography Option:** OCEAN 530, OCEAN 531, OCEAN 532, OCEAN 533. Minimum 9 credits of advanced biological oceanography courses.

**Chemical Oceanography Option:** OCEAN 520. Minimum six advanced chemical oceanography courses.

**Marine Geology and Geophysics Option:** OCEAN 540, OCEAN 541, OCEAN 545

**Physical Oceanography Option:** OCEAN 500, OCEAN 510, OCEAN 511, OCEAN 512, OCEAN 513, OCEAN 514, OCEAN 515, OCEAN 517. Three courses in applied mathematics.

**Out-of-Option Requirement:** Minimum one 3-credit, numerically graded, 500-level course from each option outside the student's own (9 credits). See department website or adviser for list of suitable courses. Students complete this breadth requirement prior to receiving an MS degree.

**Financial Aid**
Normally all students pursuing a graduate degree are supported by research or teaching assistantships, or by fellowships and scholarships from national or private sources. Most appointments continue through the summer when students are engaged in research.

Course Descriptions

OCEAN 100 Explore Oceanography at UW (1) Explores the research and experiences of the Oceanography school's faculty, graduate students, and undergraduate students. Intended for freshmen, new transfer students, and other considering oceanography as a major. Credit/no-credit only. Offered: A.

OCEAN 101 Oceanography of the Pacific Northwest (5) NW Introduces the fundamental principles of oceanography by focusing on the waters that surround us - the Washington coast and Puget Sound. Investigates the geologic history of the Pacific Northwest, and the physics, chemistry, and biology of coastal waters using case studies. Intended for nonmajors. Offered: A.

OCEAN 102 The Changing Oceans (5) I&S/NW Historical case studies of research on the ancient oceans, deep-sea exploration, climate change and the oceans, and human impacts on marine life. Students consider societal factors affecting progress in marine science, changing popular attitudes toward the oceans, and key current policy implications of marine science. Intended for nonmajors. Offered: W.

OCEAN 121 Deep Sea Exploration: Submarine Volcanoes and Novel Life Forms (2) NW Examines the dynamic marine processes that shape the planet and cutting-edge oceanographic technologies used to explore the deepest oceans. Includes imagery of rarely seen submarine volcanic eruptions, hot springs, and novel life forms highlighting the interconnected geological-biological processes creating the most extreme environments on Earth. Offered: W.

OCEAN 200 Introduction to Oceanography (3) NW Focuses on importance of ocean processes for the functioning of our planet. Interdisciplinary case studies are used to examine relationships and interactions at macro-, meso-, and microscales in the ocean. Case studies build upon previous topics and examines human influence on these systems. Intended for science majors. Offered: Sp.

OCEAN 201 Introduction to Oceanography Lab (2) NW Provides opportunities to experiment with oceanographic concepts through laboratory and field experiences. Students apply the scientific method of inquiry as it applies to the study of geology, physics, chemistry, and biology of the ocean. Emphasizes topics that explore current challenges faced by the ocean and its ecosystem. Co-requisite: OCEAN 200. Offered: Sp.
OCEAN 210 Integrative Oceans (4) NW Presents fundamentals of ocean science through regional case studies that illustrate the relationship between interdependent physical, chemical, biological, and geological process. Students apply tools from these scientific disciplines to understand major changes predicted for future oceanic environments. Prerequisite: either OCEAN 200, or OCEAN 250/BIOL 250/FISH 250. Offered: A.

OCEAN 215 Methods of Oceanographic Data Analysis (4) Statistics, graphical representations, and analysis methods for oceanographic datasets using the PYTHON programming language. Prerequisite: Prerequisite: MATH 125. Offered: A.

OCEAN 220 Introduction to Field Oceanography (3/5) NW Design and conduct a field study in oceanography. Focuses on active learning, deployment of instruments, data collection, interpretation, and presentation. Required field trip during spring break. Prerequisite: either OCEAN 200, or OCEAN 250/BIOL 250/FISH 250. Offered: Sp.

OCEAN 230 Rivers and Beaches (3/5) NW Introduction to Earth surface environments, the processes that shape them, how humans affect them and are affected by them. Weekend field trips examine mountains, rivers, deltas/estuaries, beaches, and environments beyond. Focuses on linkages between these environments to illustrate coupling between landscapes and seascapes. Offered: jointly with ESS 230.

OCEAN 235 Arctic Change (2/3) I&S/NW Investigates the Arctic system of ocean, ice, atmosphere, and sea-floor; how human interact with it, and what the future of the Arctic means to the world. Includes sea-ice loss, climate impacts, and Arctic resource exploitation. Offered: W.

OCEAN 240 Special Topics in Oceanography (1-5, max. 9) NW Selected topics of contemporary interest in oceanography such as hydrothermal vents, planetary volcanism, biogeochemical cycling, the ecology of Puget Sound, and the ocean's role in climate.

OCEAN 250 Marine Biology (3/5) I&S/NW Lecture-laboratory course in marine biology focusing on physical, biological, and social aspects of the marine environment. Topics include oceanography, ecology, physiology, behavior, conservation, fisheries, exploration, and activism. Weekend field trip. Honors section research project. Offered: jointly with BIOL 250/FISH 250; AS.

OCEAN 261 Introduction to Ocean Technology (2) NW M. LOGSDON Introduces ocean science and technology in observational ocean science. Covers the basics of underwater sensor design, power, and data communication, and introduces the design and build process and the operational scope of the ERIS cabled observatory. Offered: S.

OCEAN 270 Aquatic Ecophysiology (5) NW Focuses on fundamental physiology, with an emphasis on processes relevant to living in a variety of aquatic environments. Includes a broad survey of taxa, from prokaryotes to mammals, and a variety of aquatic habitats. Prerequisite: BIOL 200. Offered: jointly with FISH 270/MARBIO 270.
OCEAN 285 Physics Across Oceanography: Fluid Mechanics and Waves (3) NW In the context of oceanography applications, explores fluid mechanics, waves, light, acoustics, and heat transfer. Prerequisite: either MATH 125 or Q SCI 292, which may be taken concurrently; either PHYS 114 or PHYS 121; recommended: OCEAN 210 concurrently. Offered: A.

OCEAN 286 Physics Across Oceanography: Fluid Mechanics and Waves Laboratory (2) NW Laboratory and tutorial further exploring the oceanography applications of fluid mechanics, waves, light, acoustics, and heat transfer. Prerequisite: OCEAN 285, which must be taken concurrently; either MATH 125 or Q SCI 292, either of which may be taken concurrently; either PHYS 114 or PHYS 121. Offered: A.

OCEAN 295 Chemistry of Marine Organic Carbon (5) NW Explores the movement of organic carbon through the global carbon cycle, in the context of earth sciences and marine biogeochemical cycles. Prerequisite: either CHEM 152 or CHEM 120. Offered: W.

OCEAN 300 Exploring Opportunities in Marine Science (1) Explores academic, research, and career opportunities in the field of marine science and helps prepare students for graduation. Intended for junior and transfer students studying marine science. Credit/no-credit only. Offered: jointly with FISH 300/MARBIO 300; W.

OCEAN 310 Marine Geology and Geochemistry (5) NW This course focuses on marine geologic processes including the formation and evolution of the ocean crust; marine sedimentation and diagenesis; subduction zone dynamics; the role of marine geology in seawater composition and sustaining the deep biosphere; and the relationship between marine geological processes and climate. Prerequisite: OCEAN 200; and either ESS 210 or ESS 211; and OCEAN 285 which may be taken concurrently. Offered: A.

OCEAN 320 Coastal Oceanography (5) NW The formation of, and processes within, coastal ocean systems emphasizing the geological evolution of coastal and estuarine environments and the physical dynamics within them, including waves, currents, river plumes, and sedimentary processes. Influences of physical processes on marine chemical cycling and biological productivity in the coastal ocean. Prerequisite: OCEAN 285; ESS 210. Offered: W.

OCEAN 330 Marine Biogeochemical Cycles (5) NW Covers the distribution of life and chemical elements in the ocean; the relationship between them; and the physical processes affecting these patterns. Emphasizes how marine organisms and the structure of marine ecosystems influence the fate of carbon and other elements in the ocean. Prerequisite: OCEAN 210; OCEAN 295; BIOL 200. Offered: Sp.

OCEAN 340 Interdisciplinary Topics in Oceanography (1-5) NW Special topics of an interdisciplinary nature setting ocean into a broader context.

OCEAN 351 Foundations of Ocean Sensors (3) NW, QSR Experiential learning giving students foundational knowledge of methods used to observe key quantities that characterize marine environments. Includes theory and application of sensor design and construction principles, in the context of inferences and hypothesis-testing about key physical, biological,
chemical, and geological dynamics in the oceans. Prerequisite: OCEAN 215; OCEAN 285. Offered: W.

OCEAN 355 From Big Bang to the Blue Planet (3) NW Explores the origin and evolution of the Earth, ocean, atmosphere, and life, with an emphasis on climate as the integrator of changes in the biosphere, cryosphere, hydrosphere, atmosphere, and lithosphere. Prerequisite: either CHEM 120 or CHEM 142; either PHYS 114 or PHYS 121; either BIOL 161, or BIOL 180.

OCEAN 361 Ocean Technology I: Introduction to Underwater Observational Sensor Design and Build (2) NW Combines ocean science and technology in a design and build course utilizing the ERIS cabled observatory at the UW Oceanography dock. Students apply the basics of sensor design, power, and data communication to individual underwater observatory projects. Prerequisite: OCEAN 261, which may be taken concurrently. Offered: S.

OCEAN 365 Practicing Sustainability Science (8) I&S/NW S. Veirs, V. Veirs Intensive off-campus experience. Studies sustainability science, marine policy, and "clean" technologies. Includes interaction with community stakeholders for five weeks and experimentation with sustainable technologies and practices in the marine environment during a five-week cruise aboard an energy-efficient sailing catamaran. Offered: ASp.

OCEAN 370 Marine Evolutionary Biology (5) NW Emphasizes geobiological patterns of marine evolutionary biology environment; processes of evolution; marine prokaryote and eukaryote diversity; and applications of evolutionary principles to ocean change, and conservation and management of marine biodiversity. Prerequisite: either FISH 270/OCEAN 270/MARBIO 270 or BIOL 220. Offered: jointly with FISH 370/MARBIO 370; Sp.

OCEAN 400 Chemical Oceanography (4) NW Physical and chemical properties of seawater and marine products; processes determining the chemical makeup of the oceans. Prerequisite: either CHEM 152 or CHEM 155; OCEAN 210. Offered: W.

OCEAN 401 Special Topics in Chemical Oceanography (3) NW

OCEAN 409 Marine Pollution (3) I&S/NW Explores anthropogenic impacts on the oceans and marine organisms. Examines how scientific understanding informs environmental management, thereby linking science and society. Students develop a detailed understanding of the major categories of anthropogenic pollutants on marine systems, how they impact the environment, their sources, and fates. Prerequisite: OCEAN 101, OCEAN 102, OCEAN 200, OCEAN 250, or permission of instructor Offered: A.

OCEAN 410 Marine Geology and Geophysics (4) NW Explores the geological and geophysical processes that form and shape the ocean basins and continental margins. Prerequisite: either OCEAN 310 or ESS 211 Offered: jointly with ESS 410; A.

OCEAN 411 Special Topics in Marine Geology and Geophysics (3) NW
OCEAN 412 Seismic Exploration (3) NW  *E. Roland Saenger*  Introduction to theory and practice of seismic exploration. Application of refraction and reflection techniques to geologic investigations, tectonics and mineral exploration. Practice in the interpretation of subsurface structure. Prerequisite: ESS 311 or ESS 314, or OCEAN 285 and OCEAN 310. Offered: jointly with ESS 467; Sp.

OCEAN 421 Special Topics in Physical Oceanography (3) NW

OCEAN 423 Ocean Circulation and Climate (3) NW  Quantitative treatment of ocean basin to global scale ocean circulation systems and their interaction with climate variability. Prerequisite: MATH 125; and PHYS 123 or OCEAN 285.

OCEAN 430 Biological Oceanography (4) NW  Examines marine organisms, their quantitative distribution in time and space, and their interactions with the ocean. Emphasizes dominant pelagic forms of phytoplankton, bacterioplankton, and archaeoplankton; and their predators, viruses, and zooplankton. Case studies explore extreme environments, coral reefs, influence of climate change on oceanic ecosystems, and the coastal ocean. Prerequisite: BIOL 200; OCEAN 210. Offered: A.

OCEAN 431 Special Topics in Biological Oceanography (3) NW  Reviews current research. Topics include global change effects on marine organisms, marine pathogens and emerging diseases, introduced species, marine viruses, astrobiology, hydrothermal vents, symbiosis, animal physiology, larval forms and dispersal, biogeography, and environmental ethics. Prerequisite: OCEAN 330

OCEAN 443 Undergraduate Thesis: Proposal (3) NW  Work closely with faculty mentors to conceptualize and write a proposal for independent thesis research. Prerequisite: OCEAN 220, OCEAN 310, OCEAN 320, or OCEAN 330

OCEAN 444 Undergraduate Thesis: Research (2)  Work closely with faculty mentors to conduct thesis research as designed in OCEAN 443 in a field, laboratory, or other guided research setting. Prerequisite: OCEAN 443. Offered: W.

OCEAN 445 Undergraduate Thesis: Data Analysis and Writing (3) NW  Analyze results from senior thesis experiments and present results in a series of drafts and a final paper. Results are presented at a two-day long public research symposium and on the students' individual web sites. Prerequisite: OCEAN 444. Offered: Sp.

OCEAN 450 Climatic Extremes (4) NW  Course examines Earth history for extreme climatic conditions to predict future climate changes. Numerical climate models use PC-based computer programs to identify processes and feedbacks that control climate. Offered: W.

OCEAN 452 Marine Geospatial Information Science (3) NW  Introduces the use of Geographic Information Systems (GIS), seafloor mapping, hydrographic surveying, and spatial analysis in ocean science. Emphasizes sampling and analysis of spatially-referenced data about
the coastal and marine environments, integrating these technologies in an applied research setting. Offered: jointly with FISH 452; A.

**OCEAN 454 Hydrothermal Systems: An Interdisciplinary View (3) NW** Provides a general, interdisciplinary overview of seafloor hydrothermal systems including important geological, chemical, and biological processes. Topics include tectonic and volcanic controls on hydrothermal systems, water/rock reactions, phase separation, temporal variability, fluxes to the deep sea, micro- and macro biology. Offered: W.

**OCEAN 455 Introduction to Modeling in Oceanography (3) NW, QSR** Explores roles of ocean models in understanding past, current, and future conditions in marine environments. Focuses on active learning using models to ask and answer questions about biotic and abiotic processes in marine environments. Prerequisite: either OCEAN 200, FISH 250, OCEAN 250, BIOL 250, or ATM S 211. Instructors: Grunbaum Offered: A.

**OCEAN 460 Marine Field Research (10) NW, QSR** S. Veirs, V. Veirs Intensive off-campus marine research experience. Includes five weeks designing a field experiment and a five-week cruise aboard a sailing research vessel to implement it. Offered: ASp.

**OCEAN 461 Advanced Ocean Technology - Project Design and Management (2) NW** Project management practicum in the design, build, operations, and management of observational ocean science technology. Students oversee and mentor ongoing design and build projects, with attention to design criteria and deployment timelines. Prerequisite: OCEAN 361. Offered: S.

**OCEAN 475 Current Research in Climate Science Seminar (3, max. 6)** Weekly lectures focusing on a particular aspect of climate from invited speakers, complemented by class discussion, readings, and final paper. Promotes interdisciplinary understanding of climate concepts. Prerequisite: either ESS 201, ATM S 211, or ATM S 321. Offered: jointly with ATM S 475/ESS 475; A.

**OCEAN 477 Seminar in Marine Biology (3) NW** Reviews current research in marine biology. Emphasizes critical readings and discussion of primary literature. Prerequisite: FISH 250, OCEAN 250, or BIOL 250; Q SCI 381, STAT 220, or STAT 311. Offered: jointly with BIOL 477/FISH 477; W.

**OCEAN 479 Research in Marine Biology (1-15, max. 15)** Individual research on topics in marine biology. Research projects supervised by an individual faculty member. Projects may include laboratory work, fieldwork, and literature surveys. Prerequisite: BIOL 250/FISH 250/OCEAN 250; Q SCI 381. Offered: jointly with BIOL 479/FISH 479/MARBIO 479; AWSpS.

**OCEAN 480 Global Ocean - Human Culture (3) I&S/NW** J. Delaney Theme and project-based exploration of the role of the ocean basins in human history, poetry, music and the arts related to the seas, the evolution of ships, development of trade routes, modern marine commerce and communications, living and non-living resources, hazards, projection of sea power,
entertainment and recreation, ocean science-modulation of climate, exploration of exotic submarine hydrothermal systems, and oceans beyond earth. Prerequisite: permission of instructor; recommended: Capability to conduct upper-division academic inquiry into selected themes, including an ability to conceive of, and implement an engaging project that will be presented and graded at the end of the class. Well established writing ability. Offered: W.

OCEAN 481 Puget Sound and Estuarine Oceanography (3) NW Explores fundamental physical-biological processes in estuarine systems, using Puget Sound as a primary example. Topics include effects of circulation and mixing on residence time, nutrients, phytoplankton, zooplankton, and fish. Also covers hypoxia, the estuarine turbidity maximum, the intertidal zone, harmful algal blooms, and effects of climate change. Offered: W.

OCEAN 482 The Changing Arctic Ocean (3) NW Investigates the interacting physical, chemical, and biological components of the Arctic ocean-ice-atmosphere system, including the most recent scientific advances. Considers the impacts of Arctic Change on Arctic and global climate, marine organisms and ecosystems, native communities, and future exploitation of an ice-free summer ocean. Prerequisite: OCEAN 200 or OCEAN 210 and BIOL 180, BIOL 200 or BIOL 220. Offered: Sp, even years.

OCEAN 492 Friday Harbor Apprenticeship (9/15) NW Intensive, full-time research training experience where teams of students work on focused research problems guided by a group of faculty, postdoctoral, and graduate student mentors. Research questions vary.

OCEAN 494 Field Experiences in Marine Science (1-15, max. 30) NW For participants in oceanography field work. Specific content varies and is individually evaluated. Credit does not apply to major requirements without approval.

OCEAN 496 Study Abroad: Oceanography (1-15, max. 30) NW For participants in UW study abroad program. Specific content varies and is individually evaluated. Credit does not apply to major requirements without approval.

OCEAN 497 Advanced Special Topics in Oceanography (1-15, max. 15)

OCEAN 499 Undergraduate Research (1-15, max. 24) Individual research supervised by a faculty member. May involve laboratory work, fieldwork, or literature surveys. Offered: AWSpS.

OCEAN 500 Current Problems in Oceanography (1, max. 10) Discussion of research topics that are currently being investigated within the school. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AW.

OCEAN 502 Marine Geospatial Information Science (3) Introduces the use of Geographic Information Systems (GIS), seafloor mapping, hydrographic surveying, and spatial analysis in ocean science. Emphasizes sampling and analysis of spatially-referenced data about the coastal and marine environments, integrating these technologies in an applied research setting. Offered: jointly with FISH 502; A.
OCEAN 503 Geospatial Pattern Analysis and Geostatistics (3) Logsdon Focuses on the application of geospatial pattern analysis and geostatistics in earth science research. Develops understanding in detecting, describing, and estimating spatial pattern and trends. Offered: jointly with FISH 503; W.

OCEAN 506 Interdisciplinary Seminar in Oceanography (1-3, max. 12) Lectures, discussions, and work on selected problems of an interdisciplinary nature. Prerequisite: permission of instructor.

OCEAN 507 Puget Sound and Estuarine Oceanography (3) Keister, MacCready Explores fundamental physical-biological processes in estuarine systems, using Puget Sound as a primary example. Topics include effects of circulation and mixing on residence time, nutrients, phytoplankton, zooplankton, and fish. Also covers hypoxia, the estuarine turbidity maximum, the intertidal zone, harmful algal blooms, and effects of climate change. Offered: W.

OCEAN 508 The Changing Arctic Ocean (3) Deming, Woodgate Investigates the interacting physical, chemical, and biological components of the Arctic ocean-ice-atmosphere system, including the most recent advances and considering the impacts of Arctic Change on Arctic and global climate, marine organisms and ecosystems, native communities, and future exploitation of an ice-free summer ocean. Offered: Sp.

OCEAN 509 Seminar (1, max. 30) Introduction to current research topics for beginning graduate students. Credit/no-credit only. Offered: AWSp.

OCEAN 510 Physics of Ocean Circulation (3) Structure of ocean basins; physical properties of seawater and the equation of state; heat, salt, fresh water budgets; tidal potential; Coriolis effect and geostrophic balance; major current systems and water masses; mixing, stirring in the ocean; simple waves; modern experimental methods in physical oceanography. Prerequisite: permission of instructor. Offered: A.

OCEAN 511 Introduction to Fluid Dynamics (4) Eulerian equations for mass-motion; Navier-Stokes equation for viscous fluids, Cartesian tensors, stress-strain relations; Kelvin's theorem, vortex dynamics; potential flows, flows with high-low Reynolds numbers; boundary layers, introduction to singular perturbation techniques; water waves; linear instability theory. Prerequisite: either a course in partial differential equations or permission of instructor. Offered: jointly with AMATH 505/ATM S 505; A, odd years.

potential vorticity, quasigeostrophy. Prerequisite: OCEAN 511 or ATM S 505/AMATH 505. Offered: jointly with ATM S 509; W.

OCEAN 513 Geophysical Fluid Dynamics II (3) Theories, models of large-scale dynamics of oceans, atmospheres. Potential vorticity, Q principles; Rossby waves, ray tracing, Green's function, setup of general circulation; atmospheric "channels" versus ocean "basins"; wave-mean flow interaction, mountain drag, internal momentum flux; "Lagrangian" motion of particles, tracers; cascades, eddy flux of heat, moisture, Q. Prerequisite: OCEAN 512. Offered: Sp.

OCEAN 514 Waves (3) Application of marine hydrodynamics principles to wave motion in oceans. Offered: W.

OCEAN 515 Ocean Circulation: Observations (3) Modern large- and mesoscale ocean observations, interpreted in terms of contemporary circulation theories. Spectrum of temporal variability; eddies and eddy fluxes; ventilation; advection and diffusion in the abyss; transports of heat and salt; climatic scale of variability; modern methods for determining circulation. Prerequisite: OCEAN 510 or permission of instructor. Offered: Sp.

OCEAN 517 Methods and Measurements in Physical Oceanography (3) Principal instruments and experimental methods of physical oceanography. Devices and systems that measure pressure, temperature, electrical conductivity, sea state, and velocity. Prerequisite: permission of instructor.

OCEAN 518 Scientific Writing and Graphics (2) Waddington, Warren Covers principles of scientific writing; methods of ensuring clarity in writing for scientific journals and research proposals; principles of graph construction; and authorship, peer review, and citations. For graduate students in Earth-science related fields. Credit/no-credit only. Offered: jointly with ATM S 519/ESS 519; Sp, odd years.

OCEAN 520 Marine Chemistry (3) Processes controlling the chemical composition of seawater. Chemical distributions in the ocean, marine physical chemistry, chemical equilibrium, and concepts of mass balance. Mechanisms and models used to explain distributions of stable and radioactive isotopes, gases, trace metals, and biochemicals in the world's oceans. Offered: A.

OCEAN 521 Aquatic Chemistry (3) Application of physical chemistry and thermodynamics to processes that control chemical composition of natural waters. Equilibrium approach. Acid/base chemistry, the carbonate system, dissolution and precipitation, metal ions in solution, oxidation-reduction chemistry, silicate mineral reactions. Prerequisite: OCEAN 520 or permission of instructor. Offered: A.

OCEAN 522 Marine Organic Geochemistry (3) Sources, reactions, and fates of organic molecules in the marine environment along with the stable isotope geochemistry of marine organic substances. Prerequisite: CHEM 237 and CHEM 239 or permission of instructor.

OCEAN 523 Geochemical Cycles (4) Descriptive, quantitative aspects of earth as biogeochemical system. Study of equilibria, transport processes, chemical kinetics, biological
processes; their application to carbon, sulfur, nitrogen, phosphorus, other elemental cycles. Stability of biogeochemical systems; nature of human perturbations of their dynamics. Prerequisite: permission of instructor. Offered: jointly with ATM S 508/CHEM 523.

**OCEAN 529 Seminar on Chemical Oceanography** (*, max. 30) Lectures, discussions, and readings on selected problems of current interest. Prerequisite: permission of instructor. Offered: AWSp.

**OCEAN 530 Marine Bacteria, Archaea, and Viruses** (3) Explores the role of marine microorganisms in transformations of dissolved and particulate organic matter. Covers the functional and phylogenetic diversity of bacteria, archaea, and viruses in the marine environment; the fate of organic carbon in the microbial loop; and the interrelationship of the carbon cycle with other biogeochemical cycles. Prerequisite: permission of instructor. Offered: W, odd years.

**OCEAN 531 Marine Phytoplankton and Biogeochemistry** (3) Covers phytoplankton in the marine environment: evolution, ecology, primary productivity, and physiology, emphasizing their role in the global carbon cycle; spatial and temporal distributions of phytoplankton and how these patterns may change as ocean conditions change; and methods for determining distributions and rates in different ocean ecosystems. Prerequisite: permission of instructor. Offered: W, even years.

**OCEAN 532 Marine Zooplankton Ecology** (3) Examines the roll of zooplankton in ecosystems and biogeochemical cycles. Covers the distribution and abundance of zooplankton in space and time; small-scale distributions; morphology and behavior; population dynamic, energetics, and secondary production; trophic structure and dynamics; biogeography; impacts of climate change; and models of populations and food chains.

**OCEAN 533 Marine Benthic Ecology** (3) Analyzes marine communities associated with the porous boundaries of the ocean, from sedimented seafloor and hydrothermal vents to sea ice (inverted benthos); emphasizing nutrition to these communities, including sinking organic aggregates, themselves porous habitats, and the role of symbiosis. Prerequisite: permission of instructor. Offered: W, even years.

**OCEAN 535 Biological Oceanography** (3) Examines major patterns and processes in upper ocean pelagic ecosystems, emphasizing quantitative analysis of mechanisms controlling production and abundances of organisms, from plankton to fish. Introduces interdisciplinary study of effects of anthropogenically induced changes in climate and ocean chemistry on organisms, ecosystem processes, and biogeochemical cycles. Offered: A.

**OCEAN 539 Seminar in Biological Oceanography** (*, max. 30) Lectures, discussions, and work on selected problems of current interest. Prerequisite: permission of instructor. Offered: AWSp.

**OCEAN 540 Marine Geology and Geophysics Processes** (3) Nittrouer, Solomon Synthesis of processes that form ocean basins and fill them with sediment, including: plate tectonics and the
creation, evolution, and subduction of ocean crust; accumulation of terrestrial, biogenic, and authigenic sediments; and the history of paleoceanographic events recorded in the seafloor. Offered: W.

**OCEAN 541 Marine Sedimentary Processes (3)** Investigates fundamental process of marine sedimentation, including equations characterizing boundary-shear flows, initiation of grain motion, bedload and suspended-load transport, and sediment accumulation. Applies concepts to sediment dispersal in rivers, deltas, estuaries, beaches, continental shelves, slopes, and rises, with emphasis on the relationships between active processes and resulting deposits.

**OCEAN 544 Subseafloor Hydrogeology and Geochemistry (3)** *Soloman* Introduces the occurrence, composition, and movement of groundwater in the ocean crust and its role in a wide range of geologic and biogeochemical processes. Includes basic theories of groundwater motion, heat transport, solute transport, and hydromechanics with applications to diverse subseafloor environments ranging from mid-ocean ridges to subduction zones. Offered: Sp.

**OCEAN 545 Oceanic Lithosphere (3)** Basic principles of elasticity, fluid flow, and heat transport with specific applications to the formation and evolution of the oceanic lithosphere. Includes deformation of the earth, flow in porous media, heat transport, and marine seismological and potential field techniques. Prerequisite: OCEAN 540. Offered: jointly with ESS 568.

**OCEAN 546 Continental-Margin Sedimentation (3)** Detailed evaluation of recent studies into processes forming strata on continental margins, including the diverse time scales ranging from sediment transport to sequence stratigraphy. Highlights the linkages with physical oceanographic processes, the fates of geochemical components, and the relationship to biological communities. Offered: jointly with ESS 546.

**OCEAN 549 Seminar in Geological and Geophysical Oceanography (*, max. 30)** Lectures, discussions, and field and laboratory work on selected problems of current interest. Prerequisite: permission of instructor. Offered: AWSp.

**OCEAN 550 Geochemistry and Geophysics of Melt Generation (3)** Mantle flow beneath mid-ocean ridges and hotspots, major element systematics, constraints from trace elements and isotopes on melting and mantle reservoirs, melt extraction, and crustal thickness and axial topography. Prerequisite: OCEAN 544 or permission of instructor.

**OCEAN 552 Seminar in Geophysics and Geological Data Analysis (1)** Practical geophysical data analysis, map projections, gridding multibeam bathymetry processing, gravity and magnetic anomalies, downward continuation, magnetic inversion, seismic refraction and reflection, and microearthquake locations. Prerequisite: permission of instructor.

**OCEAN 554 Paleoclimate Proxies (3)** *Alexander, Sachs* Provides a critical evaluation of the most commonly applied paleoclimate proxies from the ocean, land, and ice sheets. Offered: jointly with ATM S 554/ESS 554.

OCEAN 559 Advanced Seminar on Mid-Ocean Ridge Processes (*, max. 9) Lectures, discussions, and practical work on selected topics of current interest in mid-ocean ridge research. Prerequisite: permission of instructor.

OCEAN 560 Atmosphere/Ocean Interactions (3) Observations and theory of phenomena of the coupled atmosphere-ocean system. El Nino/Southern Oscillation; decadal tropical variability; atmospheric teleconnections; midlatitude atmosphere-ocean variability. Overview of essential ocean and atmospheric dynamics, where appropriate. Prerequisite: ATM S 509/OCEAN 512. Credit/no-credit only. Offered: jointly with ATM S 560.

OCEAN 569 Topics in Physical Oceanography (1-4, max. 30) Lecture series on topics of major importance in physical oceanography. Offered: AWP.

OCEAN 570 Marine Microbial Interactions (1-3, max. 9)

OCEAN 572 Marine Protist Ecology (1-3, max. 9) Examines the phagotrophic (protozoa) and mixotrophic (both photosynthetic and phagotropic) protists, including: interactions with predators and prey; and adaptations to changing environments, evolutionary, and ecological implications of mixotrophy. Prerequisite: OCEAN 532 or permission of instructor. Offered: Sp.

OCEAN 578 Advanced Topics in Biological Oceanography (*, max. 18) Specialized research areas. Topic varies each year. Offered at Friday Harbor Laboratories. Prerequisite: permission of director of Friday Harbor Laboratories. Offered: S.

OCEAN 580 Aquatic Kinetics (3) Reaction rates and mass transport in water. Theories of chemical kinetics; experimental results from: CO2 hydrolysis, Fe, Mn, and H2S oxidation, stable isotope fractionation, mineral dissolution; homogeneous, heterogeneous, microbial catalysis; reaction and transport at air-water, sediment-water, and O2/H2S interfaces. Prerequisite: permission of instructor.

OCEAN 582 River Basin Biogeochemistry (3) The function of rivers and river basins in transporting materials to the oceans and their importance in biogeochemical cycles. Origin of water and water routing within drainage basins, sources and modification of dissolved and particulate materials in transport, ecological theory, and estuarine mixing zone transformations. Prerequisite: permission of instructor.

OCEAN 583 Isotope Biogeochemistry (3) The use of stable isotopes to study biogeochemical cycles in the oceans and atmosphere; specifically carbon, nitrogen, and sulfur cycles. Isotopic effects during photosynthesis, respiration, organic matter degradation. CaCO3 dissolution,
methanogenesis, nitrification/denitrification, and sulfate reduction. Prerequisite: permission of instructor.

**OCEAN 584 Ocean Tracers and Mixing (3)** The applications of tracers to studies of ocean circulation and ventilation. Processes within the ocean for which tracers have provided important information include gas exchange, mixed layer dynamics, thermocline ventilation, deep water formation and spreading, and mixing. Knowledge of partial differential equations suggested.

**OCEAN 586 Current Research in Climate Change (2, max. 20)** Weekly lectures focusing on a particular aspect of climate (topic to change each year) from invited speakers (both UW and outside), plus one or two keynote speakers, followed by class discussion. Credit/no-credit only. Offered: jointly with ATM S 586/ESS 586.

**OCEAN 587 Fundamentals of Climate Change (3)** Examines Earth's climate system; distribution of temperature, precipitation, wind, ice, salinity, and ocean currents; fundamental processes determining Earth's climate; energy and constituent transport mechanisms; climate sensitivity; natural climate variability on interannual to decadal time scales; global climate models; predicting future climate. Offered: jointly with ATM S 587/ESS 587.

**OCEAN 588 The Global Carbon Cycle and Climate (3) Emerson** Oceanic and terrestrial biogeochemical processes controlling atmospheric CO2 and other greenhouse gases. Records of past changes in the earth's carbon cycle from geological, oceanographic, and terrestrial archives. Anthropogenic perturbations to cycles. Develop simple box models, discuss results of complex models. Offered: jointly with ATM S 588/ESS 588; W.

**OCEAN 590 Advanced Topics in Oceanography (9-18, max. 18)** Advanced topics examining specialized and interdisciplinary areas of oceanographic research. Offered at Friday Harbor Laboratories. Prerequisite: permission of Director of Friday Harbor Laboratories. Offered: S.

**OCEAN 591 Marine Science in the Coastal Zone (3) R. KELLY** Presentation and analysis of the marine science of estuarine, coastal, and open ocean systems, including evaluation and interpretation of scientific information necessary for management. Lectures, discussions, and readings emphasize the relevance of natural processes to marine environmental management and decision-making. Offered: jointly with SMEA 591; A.

**OCEAN 592 Communicating Ocean Sciences (4)** Explores improving communicating scientific knowledge through instruction of inquiry-based science in school classrooms. Students practice communicating science, and receive mentoring on how to improve their presentations. Prerequisite: Marine sciences studies background. Instructors: Robigou Offered: Sp.
OCEAN 593 Climate Science Seminar (1) *Mote* Focuses on how to communicate climate science to many different audiences through careful construction of figures and through written and oral communication. Credit/no-credit only. Offered: jointly with ATM S 593/ESS 593; W.

OCEAN 596 Climate Science Capstone Project (1-5, max. 5) *Mote* Climate capstone directed by a mentor, may be a group effort, and may encompass curriculum development, internships, workshop organization, etc., capturing interdisciplinary aspects of climate science and effective communication of climate science. Offered: jointly with ATM S 596/ESS 596; AWSpS.

OCEAN 600 Independent Study or Research (*-*) Offered: AWSpS.

OCEAN 700 Master's Thesis (*-*) Offered: AWSpS.

OCEAN 800 Doctoral Dissertation (*-*) Offered: AWSpS.
Quantitative Ecology and Resource Management

Program Overview

The Quantitative Ecology and Resource Management (QERM) interdisciplinary graduate program offers students a unique opportunity to apply statistics, mathematics, and decision science to a broad range of problems in terrestrial and marine ecology, natural resource management, biometrics, and mathematical biology. The program attracts mathematically trained students interested in working on these problems, and biologically or environmentally trained students wishing to develop or enhance their quantitative skills.

The QERM program is interdisciplinary, bringing together diverse faculty from a wide range of academic areas such as statistics, applied mathematics, forestry, biology, aquatic and fishery sciences, oceanography, and marine affairs. This diversity provides strength to the program.

Graduate Program

Graduate Program Coordinator 304 Loew Hall, Box 352182 206-616-9571 qerm@uw.edu depts.washington.edu/qerm

The Quantitative Ecology and Resource Management (QERM) Interdisciplinary Graduate Program offers students a unique opportunity to apply statistics, mathematics, and decision science to a broad range of problems in terrestrial and marine ecology, natural resource management, biometrics, and mathematical biology. The program attracts mathematically trained students interested in working on these problems, and biologically or environmentally trained students wishing to further enhance their quantitative skills.

The QERM program is interdisciplinary, bringing together diverse faculty from a wide range of academic areas such as statistics, sociology, anthropology, applied mathematics, forestry, biology, aquatic and fishery sciences, oceanography, and marine affairs. This diversity provides strength to the program.

Both a Master of Science and Doctor of Philosophy degree are offered; graduates are capable of continuing with the development and extension of biometrical and biomathematical modeling as they enter the educational, research, or private-sector work force.

Admission Requirements

1. Background in probability and mathematical statistics, linear algebra, and differential equations. Applicants with little or no statistical background are advised to take additional coursework prior to applying. Although not mandatory, this background makes a student's application more competitive.
2. Successful completion of the following coursework (or equivalent) prior to applying: MATH 126 (or equivalent); MATH 308 (or equivalent).
3. Strongly recommended: MATH 394-MATH 395; STAT 341-STAT 342, or STAT 481.
4. Also taken into consideration:
   a. Minimum 3.00 GPA in last 60 semester or last 90 quarter credits required.
   b. Normally, completion of college-level courses in probability and mathematical statistics, linear algebra, and differential equations.
   c. Scores on Graduate Record Examination (GRE). Competitive applicants generally score above the 75th percentile on the verbal and analytic sections, and above the 85th percentile on the quantitative section.
   d. Minimum TOEFL score of 580 (237 for computer-based tests) - for international students only.
   e. Knowledge of the intended area of study, including clearly written statement of objectives.
   f. Recommendations from persons familiar with the applicant's academic ability and potential.
   g. Admission is also dependent on program resources and fit between student interests and faculty research. Students should explore faculty research interests by reviewing the QERM website, depts.washington.edu/qerm, to determine if their area of research interest is conducted at the UW. Students are not required to enter the QERM program with a faculty adviser selected in advance. Typically students identify their research and faculty adviser during their first year of study.
5. Application deadline for autumn quarter is January 1.

**Degree Requirements (for Master of Science and Doctor of Philosophy)**

Required coursework reflects the expectation that the student already has a fundamental understanding of the principles of statistical inference and ecological modeling. Required coursework taken during the first year includes:

1. STAT 516 and STAT 517
2. IND E 513 or IND E 599 (offered alternating years)
3. AMATH 523 or AMATH 535 (offered alternating years)
4. QERM 514 and QERM 597
5. SEFS 540
6. BIOL 567/SEFS 567/FISH 567
7. Ecology elective

Following the first year of core coursework, students select elective coursework in an area of emphasis ranging from biometry, mathematical modeling, and resource management. Additional
elective coursework in basic biology and ecology gives students greater insight into the environmental systems in which they expect to apply their quantitative training.

**Master of Science**

Minimum 36 credits

Requirements for successful completion of the master of science degree include:

1. Successful completion of a minimum 36 quarter credits, including 27 course credits and 9 thesis credits, with at least 18 credits of coursework numbered 500 or above, including a thesis
2. Receipt of numerical grades in at least 18 quarter credits of coursework taken at the UW
3. Completion of a seminar on results of the research and oral defense of the thesis
4. Completion of all University requirements for graduation

**Doctor of Philosophy**

Minimum 90 credits

Requirements for successful completion of the doctoral degree, minimum of 90 credits, include:

1. Successful completion of the QERM qualifying examinations at the PhD level, following the first year of study
2. Successful completion of a minimum of 90-quarter credits, including 27 dissertation credits. Completion of an MS degree may be applied toward one year of the PhD program. The core QERM courses must be taken if the student has obtained an MS from a different program
3. A seminar on results of the research and an oral defense of the dissertation
4. Completion of all University requirements for graduation

**Financial Aid**

The QERM program offers incoming students a nine month fellowship funded by the Graduate School. Students secure their own funding starting at year two, typically in the form of a teaching or research assistantship. Tuition and health insurance are typically included as part of the financial package. Funding decisions are made annually; attempts are made to continue support for students making satisfactory progress.
Course Descriptions

QERM 514 Analysis of Ecological and Environmental Data I (4) Overview of generalized linear models (GLMs), their use in forestry, fisheries, wildlife ecology, and environmental monitoring. Analysis of the statistical tests that fall under GLMs: chi-square tests on contingency tables, t-tests, analysis of variances, etc. Statistical software S+/R used throughout. Offered: Sp.

QERM 600 Independent Study or Research (*)

QERM 700 Master's Thesis (*)

QERM 800 Doctoral Dissertation (*)
Quantitative Science

Adviser  006 Anderson Hall, Box 352100  206-543-1191  cqs@uw.edu

Students in environmental, biological, ecological, and resource management majors may wish to complete a minor in quantitative science to document their understanding of the mathematical and statistical methods used in these competitive and increasingly quantitative fields.

Undergraduate Program

The Center for Quantiataive Science offers the following program of study:

- A minor in quantitative science

Minor

Minor Requirements: A minimum of 27 credits, as follows:

1. **Core courses (24-25 credits):** Q SCI 291, Q SCI 292 (or MATH 124, MATH 125); Q SCI 381, Q SCI 482; Q SCI 483 (or Q SCI 403/STAT 403)

2. **Electives (3-5 credits):** Selected from an approved list of electives, a partial list of which includes Q SCI 210/ENVIR 210, Q SCI 403/STAT 403 (if not taken as part of core courses, above), Q SCI 454/FISH 454, Q SCI 480/STAT 480, Q SCI 483 (if not taken as part of core courses, above), Q SCI 486/STAT486. See adviser for possible additional qualifying courses.

3. A minimum 2.0 grade is required in each course taken as part of the minor.

Course Descriptions

**Q SCI 190 Quantitative Analysis for Environmental Science (5) NW, QSR S. Scherba Jr**

Covers applications of precalculus techniques and concepts to environmental, ecological, biological, and natural resource problems stressing the formulation, solution, and interpretation of mathematical procedures. Prerequisite: minimum grade of 2.0 in MATH 098 or MATH 103, a score of 151-169 on the MPT-GS test, or a score of 145-163 on the MPT-AS test. Not available for credit to students who have completed MATH 124. Or higher. Offered: A.

**Q SCI 291 Analysis for Biologists I (5) NW, QSR J. JOHNSON**

Introduction to differential calculus, emphasizing development of basic skills. Examples promote understanding of mathematics and applications to modeling and solving biological problems. Topics include optimization and curve analysis. Prerequisite: either MATH 120, Q SCI 190, a minimum score of 2 on advanced placement test, or a score of 153-163 on MPT-AS placement test. Not available for credit to students who have completed MATH 124 with a 2.0 or higher. Offered: AWS.

**Q SCI 292 Analysis for Biologists II (5) NW, QSR V. GALLUCCI, J. JOHNSON**

Introduction to integral calculus, emphasizing development of basic skills. Examples promote understanding
of mathematics and applications to modeling and solving biological problems. Topics include areas under curves, volumes, and differential equations. Prerequisite: minimum grade of 7 in either Q SCI 291 or MATH 124. Not available for credit to students who have completed MATH 125 with a 2.0 or higher. Offered: WSpS.

**Q SCI 381 Introduction to Probability and Statistics (5) NW, QSR V. GALLUCCI, G. HOLTGRIEVE, P. TOBIN** Applications to biological and natural resource problems stressing the formulation and interpretation of statistical tests. Random variables, expectations, variances, binomial, hypergeometric, Poisson, normal, chi-square, "t" and "F" distributions. Prerequisite: either MATH 120, MATH 124, MATH 125, MATH 126, Q SCI 190, or Q SCI 291, or a minimum score of 2 on advanced placement test, or a score of 153-163 on the MPT-AS placement test. Offered: AWSpS.

**Q SCI 403 Introduction to Resampling Inference (4) NW V. MININ** Introduction to computer-intensive data analysis for experimental and observational studies in empirical sciences. Students design, program, carry out, and report applications of bootstrap resampling, rerandomization, and subsampling of cases. Experience programming in R is beneficial. Credit allowed for STAT 403 or STAT 503 but not both. Prerequisite: either STAT 311/ECON 311, STAT 341, STAT 390/MATH 390, STAT 481/ECON 481, or Q SCI 381 and Q SCI 482. Offered: jointly with STAT 403; Sp.

**Q SCI 451 Analytical Methods in Wildlife Science (3) NW B. Gardner** This course provides a foundation of techniques commonly used by wildlife biologists in data collection and analysis. Predominantly focused on parameter estimation of demographic rates of animal populations. This course will explore, and discuss in detail, quantitative methods needed to address conservation and management problems in the real world. Prerequisite: ESRM 351 and QSCI 482; recommended: Prerequisite courses in Wildlife Research Techniques and Quantitative Science. Offered: jointly with ESRM 451; W.

**Q SCI 454 Ecological Modeling (5) NW T. ESSINGTON** Examines concepts in ecological modeling focusing on the rationale, interpretation, and motivation for modeling in ecological sciences. Explores individual, population, and ecosystem-based models. Excel-based computer exercises, model building and interpretation, readings. Offered: jointly with FISH 454; W.

**Q SCI 458 Modeling and Estimation in Conservation and Resource Management (4) NW T. BRANCH** Explores the use of models in the evaluation of alternative management policies for natural resources, including modeling approaches, fitting models to data, and evaluating alternative management policies. Emphasizes calculating risk of extinction, and design of biological reserves. Offered: jointly with FISH 458; Sp.

**Q SCI 480 Sampling Theory for Biologists (3) NW J. SKALSKI** Theory and applications of sampling finite populations including: simple random sampling, stratified random sampling, ratio estimates, regression estimates, systematic sampling, cluster sampling, sample size determinations, applications in fisheries and forestry. Other topics include sampling plant and animal populations, sampling distributions, estimation of parameters and statistical treatment of data. Prerequisite: Q SCI 482. Offered: jointly with STAT 480; W, odd years.
Q SCI 482 Statistical Inference in Applied Research I: Hypothesis Testing and Estimation for Ecologists and Resource Managers (5) NW I. GANGULY Analysis of variance and covariance; chi square tests; nonparametric procedures multiple and curvilinear regression; experimental design and power of tests. Application to biological problems. Use of computer programs in standard statistical problems. Prerequisite: either STAT 311 or Q SCI 381. Offered: AW.

Q SCI 486 Experimental Design (4) NW Emphasizes data modeling using structured means resulting from choice of experimental and treatment design. Examines experimental designs, including crossed, nested designs; block; split-plot designs; and covariance analysis. Also covers multiple comparisons, efficiency, power, sample size, and pseudo-replication. Prerequisite: Q SCI 482. Offered: jointly with STAT 486; W, even years.

Q SCI 497 Special Topics in Quantitative Science (1-15, max. 15) NW Topics not normally offered in regular curriculum. Format ranges from seminar/discussion, formal lectures, laboratory or modeling work. Offered: AWSpS.

Q SCI 498 Internship (1-15, max. 15) NW Internship experience with a public agency or private company, supervised and approved by a faculty member. Preparation of professional report reflecting on the experience is required. Offered: AWSpS.

Q SCI 499 Research Experience (1-15, max. 15) Special studies in quantitative ecology and resource management for which there is not sufficient demand to warrant the organization of regular courses. Credit/no-credit only.
Quaternary Research Center

Program Overview

19 Johnson

Quaternary studies focus on the processes that presently shape the natural environment and have operated over approximately the past two and a half million years (Quaternary period). A knowledge of Quaternary events facilitates an understanding of earth history in relation to the modern environment and has predictive value with regard to present-day and future environmental changes.

Quaternary research is typically interdisciplinary, and thus commonly involves related interests of two or more academic units. The Quaternary Research Center was established in 1967 to foster such interdisciplinary studies on a cooperative basis.

The center has the following goals:

1. To understand environments and climate changes of the past two and a half million years in the context of modern surface processes, which include historical changes, prehistoric postglacial environments, and Ice Age events.

2. To serve as a catalyst in fostering interdisciplinary studies in the fields of atmospheric sciences, archaeology/anthropology, botany, engineering, fisheries, forestry, geology, geophysics, oceanography, pedology, and zoology.

3. To provide a scientific perspective on the scale of modern and man-made environmental changes, including climate changes, in the context of recent earth history.

4. To conduct a curriculum jointly with other disciplines in the training of graduate students in Quaternary-oriented studies.

5. To seek applications of quaternary studies to modern environmental problems that help predict consequences of policy decisions.

Graduate Program

Students associated with the center obtain their degrees through cooperating departments. Students interested in graduate work at the center should apply to the department of their choice but plan to do their research in a Quaternary-related subject.
Research Facilities

QRC Resource Center

A specialized collection includes books, monographs, theses, journals, and maps; and a large, diverse reprint collection. Searches for library material can be conducted via the QRC web page.

Cosmogenic Nuclide Laboratory  John Stone, Director

Analyzes rare radionuclides produced by cosmic ray bombardment of the Earth's surface. These nuclides are useful for surface exposure dating and the study of geomorphic rates and processes. Current projects include work on Quaternary glaciations of Antarctica, Europe, and North America; dating of landslides and volcanic eruptions; and studies of erosion in both tectonically active and ancient, stable landscapes. The laboratory has sample preparation facilities and clean labs for extraction of Al-26, Be-10, and Cl-36. For additional information, visit the laboratory's website.

Geochemistry Library  Ronald S. Sletten, director

Analyzes of natural waters, soil, and sediment. Instrumentation includes ICP-OES, ICP-MS, laser diffraction particle size analyzer, and total organic/inorganic carbon analyzer for water samples. The library also conducts C-13 CP-MAS-NMR for natural organic and pulsed field gradient PFG-NMR for diffusion studies of water in porous media. Primary research foci are weathering, elemental cycling, and studies of permafrost soils. Current projects include investigation of biocomplexity of carbon cycling in Arctic soils in Greenland and physiochemical soil processes in Antarctica and Alaska.

Periglacial Laboratory  Bernard Hallet, Director

Research focuses on diverse processes at the interface between glaciology and geomorphology fundamental to understanding landscapes and soils in alpine and polar regions. The laboratory does experimental research on periglacial processes with special attention to complex phenomena associated with freezing soils and rocks. The laboratory also serves as a base of support for extensive field work involving electronic instrumentation to monitor surface processes in the Arctic, Antarctica, the Himalayas, southeast Tibet, and other regions across the globe.

Stable Isotope Laboratory  Eric J. Steig, Director

The main center for stable isotope studies for the QRC. Current emphasis is development of high-resolution climate records covering the last ten millennia, from ice cores in the Canadian Arctic, Greenland, and Antarctica. Facilities include off-line and online preparation systems for D/H and $^{18}O$ on water, 13C/12C on carbonates and organic materials, and $^{15}N/^{14}N$ on nitrate and organics. Additional information is available on the laboratory's website.
Course Descriptions

QUAT 501 Seminar/Conference in Quaternary Environments (1, max. 6) Interdisciplinary seminar or conference in the changing natural environments of the Quaternary Period, with emphasis on climatic changes and their effects. Speakers from the University and elsewhere present lectures on their specialties, followed by discussion. Credit/no-credit only.

QUAT 502 Interdisciplinary Quaternary Investigations (2, max. 6) Research course for interdisciplinary investigation of Quaternary problems. Student attends sessions of QUAT 501 and pursues a problem- oriented case study concurrently under faculty direction. Required paper on case study. Prerequisite: graduate standing. Credit/no-credit only.

QUAT 504 Special Topics in Quaternary Sciences (1-3, max. 3) Environments and climate changes of past two million years (Quaternary Period) in context of modern surface processes, including historical changes, prehistorical environments of postglacial period, and Ice Age events. Provides scientific perspective on scale of modern and man-made environmental changes, including those of climate, in context of recent earth history. Prerequisite: background courses in earth sciences and ecology. Credit/no-credit only.
The Information School

School Overview

370 Mary Gates Hall  Box 352840

Dean  Harry Bruce

Associate Deans  Carole Palmer, Research  Matthew Saxton, Academics

Never in our society's history has there been such a great need to manage so much information quickly and efficiently. The Information School is dedicated to preparing a rising generation of information leaders to embrace the challenges associated with the way we create, find, store, manipulate, and share information.

The School offers four degree programs, leading to the Bachelor of Science in Informatics, Master of Library and Information Science, Master of Science in Information Management, and PhD in Information Science. The School also offers certificate programs, continuing education opportunities for professionals, and service courses for undergraduates in information fluency, research strategies, and technology. Graduates of the School assume a variety of professional roles in the public, private, and non-profit sectors, with positions that span from information architects to children's librarians, from web developers to information technology (IT) managers, from network and information assurance professionals to researchers and faculty in the information field.

The community is interdisciplinary, bringing together a variety of social science traditions, including: library and information science, computer science, sociology, communication, philosophy, and engineering. Most research addresses topics in the following broad categories:

- Ethics and Information
- Personal Information Management
- Human-Computer Interaction and Design
- Information Management
- Knowledge Organization
- Information Literacy
- Access to Information
- Information in Everyday Life

The School's work remains focused on the human impact of information. The research and curriculum of the school examines information systems and technology from a user-centered perspective. By retaining a focus on the human impact of information systems and technology, the School builds on our community values of trust, transparency, and mutual respect.
History

Originally established in 1911, the Information School has the oldest library and information science program west of the Mississippi, and continues to offer the most extensive American Library Association-accredited library and information science degree in the Northwest region of the United States.

In 1998, the University set out to transform the School by charging it with a new mission, to become what it is today: a broad-based information school that meets the challenges and opportunities of the information age. With the addition of three new degree programs, a new dean, faculty, and state of the art facilities, the Information School became the University's sixteenth independently organized school/college in 2001.

The School seeks to explore the theoretical and applied cutting edges of the information field and to nurture the best of both worlds: traditional library values and ever-changing information frontiers.

Vision

The School envisions a world where more effective use of information helps everyone discover, learn, innovate, solve problems, have fun, and make a better world. Information changes lives.

Mission

The School prepares information leaders through researching the problems and opportunities of information, designing solutions to information challenges, and making information work.

Informatics students design, build, implement, and secure information systems that meet human, organizational, and societal needs.

Students have a strong people focus and they excel as user experience designers, business analysts, data managers, information architects, web developers, and information assurance professionals.

Undergraduate Program

Adviser 420 Mary Gates Hall Box 352840 206-543-1794 informatics@uw.edu

The Information School offers both a major and minor in Informatics. The Informatics major is a Bachelor of Science degree and offers students the opportunity to earn transcriptable options in human-computer interaction, information architecture, information assurance and cybersecurity, and data science.

Bachelor of Science
**Suggested First- and Second-Year College Courses:** INFO 101, INFO 200, an English composition course (selected from the University list), CSE 142, CSE 143, and STAT 221, STAT 311, STAT 390, STAT 293, or Q METH 201; courses that develop strong analytical, qualitative, and quantitative reasoning skills; courses that develop strong written and oral communication skills; courses that provide exposure to a variety of social science fields such as psychology, sociology, anthropology, or philosophy.

**Program Admission Requirements**

**Regular Admission**

1. INFO 200; CSE 142; either STAT 221, STAT 311, STAT 390, or QMETH 201; one English composition course selected from the University list, with a minimum 2.0 grade in each course. Departmentally approved transfer equivalents may be used to substitute for prerequisite courses.

2. Minimum 2.00 cumulative college GPA.

3. Admission is competitive, based on the following criteria:
   a. Overall academic performance
   b. Grades in courses required for admission to the major
   c. Personal statement reflecting an interest in and commitment to becoming a major in this field
   d. Other evidence of interest in and commitment to the field (e.g., work experience, internships).

   Meeting the above criteria does not guarantee admission.

4. Application deadline is June 15. Students apply online at [www.ischool.uw.edu](http://www.ischool.uw.edu). Admission is for autumn quarter only.

5. Admission is done annually and new students enter the program autumn quarter. Most students apply spring of their sophomore year and begin the program the following autumn quarter as a junior.

6. There is not an equivalent course to INFO 200 taught elsewhere; therefore, transfer students can apply to the program and be admitted with the provision that they complete INFO 200 with a minimum 2.0 grade before the end of their first year in the program.
Freshman Direct Admission Program (FDAP)

1. Designed to recruit top high school students to the program and to the UW. Students who indicate an interest in the Informatics program are automatically considered for FDAP participation upon application to the UW. They are evaluated based on careful review of qualitative and quantitative factors, including high school GPA, SAT scores, personal statement, and any additional information provided in their application file. Students selected for FDAP are involved in the academic and social life of the Information School, participating in courses, activities, and research opportunities as appropriate during their freshman and sophomore years.

2. The number of early admission (FDAP) students does not exceed 10 percent of the number of majors admitted each year.

Major Requirements

94-99

1. Courses required for admission to the program (18-19 credits, as shown above)
2. Core courses (46 credits): INFO 300, INFO 330, INFO 340, INFO 350, INFO 360, INFO 380, INFO 490 (4), INFO 491 (4), CSE 143, CSE 373
3. Areas of study (16-20 credits): Students may choose a transcriptable option in human-computer interaction (HCI), information architecture (IA), information assurance and cybersecurity (IAC), or data science. (See below.) Alternatively students may work with their adviser to select a minimum of four classes (16-20 credits) to create a customized program aligned with their personal interests or career goals.
4. Electives (14 credits): At least three additional 300- or 400-level INFO electives in any area, totaling at least 14 credits.

General Education and Areas of Knowledge

1. English composition (5 credits)
2. Quantitative/Symbolic Reasoning (5 credits)
3. Writing courses (10 credits)
4. Natural World (20 credits)
5. Individuals & Societies (20 credits)
6. Visual, Literary, & Performing Arts (20 credits)
7. Diversity (3 credits)

Up to 15 credits of INFO-prefix courses from the University Areas of Knowledge list may be counted toward the UW Areas of Knowledge requirement (Natural World; Individuals & Societies; Visual, Literary, & Performing Arts).
Options

Human-Computer Interaction (HCI) Option (16-20 credits): Minimum four courses from the areas listed below, with the following distribution:

1. At least one course in two of the following areas: user interface software and technology; design; usability and user research; social and ethical dimensions. See department website for approved area courses.
2. At least one course from the approved area list from a participating department outside the Information School (Art, Computer Science, or Human Centered Design & Engineering). See department website for approved area courses.
3. Special topics courses such as INFO 498, CSE 190, HCDE 490, and HCDE 496 may be approved within any of the course areas below on an individual, per-course basis, depending on subject matter.

Course areas

1. Foundations: ART 383, CSE 440, HCDE 319
2. User Interface Software and Technology: CSE 441, INFO 344, HCDE 438
3. Design: ART 483, ART 484, INFO 424, HCDE 455
4. Usability and User Research: INFO 310, HCDE 317, HCDE 318
5. Social and Ethical Dimensions: INFO 444, INFO 447

Information Architecture (IA) Option (16-20 credits). Minimum four courses from an approved list. See department website for list.

Information Assurance and Cybersecurity Option (16-20 credits). See department website for list.

1. Foundation Course: INFO 310 or equivalent
2. Minimum three additional courses from an approved list (11-15 credits). Includes courses at participating departments on all three UW campuses. See program website for list: ischool.uw.edu/academics/informatics/degree-options. No more than one of these three may be a networking course (INFO 341, T INFO 250, or CSS 432).

Data Science (20 credits): INFO 370, INFO 371, INFO 445, INFO 474

Minor

Minor Requirements: Minimum 32 credits

1. Core Courses: INFO 200, INFO 201, INFO 330, , INFO 350, INFO 360 (24 credits)
2. Electives (2 courses; minimum 8 credits)
a. Two existing INFO 300-/INFO 400-level courses (Students may substitute one technology-related course from their major.)

b. CSE 142 may fulfill one of the two electives and is recommended for all minors, as it provides additional exposure to code/programming, and helps meet prerequisites for many other INFO classes.

3. Minimum 2.00 quarterly GPA and minimum 2.0 grade in any class applied to the minor.

Continuation Policy

All students must make satisfactory academic progress in the major. Failure to do so results in probation, which can lead to dismissal from the major. For the complete continuation policy, contact the departmental adviser or refer to the department website.

Student Outcomes

- **Learning Objectives and Expected Outcomes:** The informatics program prepares students for a wide range of endeavors in the information field including information management and technology, research and information services, interactive system design, human-computer interaction, and information science.

Graduates of the informatics program are qualified for jobs in the information and technology industry and in business, public service, and other professions. Possible job titles include user experience designer, business analyst, consultant, usability engineer, data manager, information architect, web developer, network manager, project manager, and information assurance professional.

The program also provides strong preparation for graduate studies. Graduates are successfully placed in prestigious graduate schools and pursue a variety of programs, including information and management science, information science, biomedical informatics, business and accounting, and information technology.

Informatics student-learning outcomes include the ability to assess people's information needs and behavior; ability to design information systems to meet people's information needs; ability to work with information technologies (e.g., database, networks, Internet-based, interface design); ability to evaluate the impact of information technologies on people; ability to communicate effectively; ability to manage projects; ability to build working systems; ability to organize and manage information; ability to work effectively individually and as part of a team; and ability to understand the research process and its implication for information systems design and use. All informatics courses are designed to produce these outcomes through a rigorous experiential learning approach that emphasizes group work, research, writing, oral presentations, and technology.

- **Instructional and Research Facilities:** Located on the third and fourth floors of Mary Gates Hall, the School offers an extensive software collection, a state-of-the-art computer classroom, an innovative Technology Exploration (TE) laboratory, and excellent network connectivity. Students have access to software applications including titles for database
and text management, programming, graphics, multimedia production, web development, Internet exploration and collaboration, and office productivity. Students also have access to a large number of bibliographic databases and commercial information services.

The School also has a dedicated information science research facility at the Roosevelt Commons Building. The research space comprises 7,000 square feet of offices, workstations, research labs, and meeting spaces.

- **Honors Options Available:** With College Honors; With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). Distinction (Departmental Honors). See adviser for requirements.

- **Research, Internships, and Service Learning:** Internships are encouraged, but not required. Students participate in a variety of internships, paid and non-paid. A significant number of students also work part-time in Informatics or technology-related positions, and participate in public service.

Informatics students are extensively engaged in faculty research and internships. A significant percentage of informatics students participates in the University's Undergraduate Research Symposium each year. Students have co-authored publications with faculty, had their research accepted for presentation at national conference poster sessions, and been recognized with various awards, including the Mary Gates Research Training Endowment for three consecutive years (2001-03).

- **School Scholarships:** The Henry Scholarships, in the amount of approximately $1500 each, are awarded to three second-year majors in recognition for academic achievement, leadership, and service to the School and in professional/student activities. Students to be considered for the award are nominated by the Information School faculty and Undergraduate Program Committee members. The merit-based awards, named after the founder of the school and first director, William Henry, are intended to recognize and honor student achievement.

- **Student Organizations/Associations:** Undergraduates participate in a number of the School's many student organizations, including the UW Informatics Undergraduate Association (IUGA) and the student chapter of the American Society of Information Scientists and Technology (ASIST).

**Of Special Note:**

**Capstone Projects:** Students often use their capstone projects to identify interest areas, develop skills, and prepare for future pursuits. Through capstone projects, students demonstrate the skills, understanding, and competencies they can successfully use to prepare for employment and graduate studies.
Information Sessions: Prospective students are encouraged to attend an Informatics information session. For a schedule of information sessions, visit the School website at [ischool.uw.edu/events](http://ischool.uw.edu/events).

**Graduate Programs**

The School offers graduate programs leading to the Master of Library and Information Science (MLIS), the Master of Science in Information Management (MSIM), and the Doctor of Philosophy (PhD) in Information Science.

**Master of Library and Information Science**

MLIS Adviser  420 Mary Gates Hall, Box 352840  206-543-1794  [mlis@uw.edu](mailto:mlis@uw.edu)

**Admission Requirements**

Offered in two delivery modes: residential (on-campus, full-time two-year program) and online (part-time three-year program). Applicants must indicate for which program they are applying. Applications should also include:

1. Personal statement of educational and professional goals
2. Answers to supplemental questions
3. Current resume highlighting any relevant work experience; volunteer activities; and honors, awards, and presentations
4. Three letters of recommendation
5. Transcripts from each relevant institution attended
6. TOEFL score (for international students)

**Degree Requirements**

63 credits

1. *Core Curriculum (31 credits):* LIS 500, LIS 510, LIS 520, LIS 530, LIS 550, LIS 560, LIS 570, LIS 580, and one information technology core course.
2. *Electives (27 credits):* Options vary and allow students to design a problem of study specific to their interests and career goals.
3. *Capstone (5 credits):*
4. *Optional Internship:* Directed Fieldwork: LIS 590
Master of Library and Information Science, Law Librarianship

Designed to prepare lawyers with an existing JD degree to serve as law librarians in courts, federal and state units of government, law schools, corporations, and law firms.

Admission Requirements
1. Personal statement of educational and professional goals
2. Answers to supplemental questions
3. Current resume highlighting any relevant work experience; volunteer activities; and honors, awards, and presentations
4. Three letters of recommendation
5. Transcripts from each relevant institution attended
6. Earned JD prior to enrollment in the MLIS program
7. TOEFL score (for international students)

Degree Requirements

43 credits

1. Core Curriculum (23 credits): LIS 500, LIS 510, LIS 520, LIS 526, LIS 530, LIS 550, LIS 587
2. Law Librarianship Courses (16 credits): LIS 592, LIS 593, LIS 594, LIS 595. The final degree project is completed as part of LIS 595.
3. Internship (4 credits): directed fieldwork (LIS 590)

Master of Science in Information Management

MSIM Adviser 420 Mary Gates Hall, Box 352840 206-543-1794 msim@uw.edu

Admission Requirements
1. Current resume highlighting any relevant work experience; volunteer activities; and honors, awards, and presentations
2. Three letters of recommendation
3. Personal statement of educational and professional goals
4. Official transcript from each relevant institution attended
5. GRE or GMAT scores. Applicants with an earned doctorate (PhD, MD, JD) are not required to submit GRE or GMAT scores.
7. Mid-career applicants must show five years of relevant work experience in management or technology.

**Degree Requirements, Full-Time Option**

65 credits minimum

1. **Core Curriculum:** IMT 500, IMT 535, IMT 55, IMT 570
2. **Capstone (5 credits):** INFX 595, INFX 596
3. **Electives (24 credits):** Students select a specialization specific to their interests and career goals, or choose more broadly from across specializations. Specializations include data science, information architecture, information security, user experience design, and information management and consulting.
4. **Internship:** Structured around IMT 590. While not required, internships are strongly encouraged. Internship credits fall under electives.

**Degree Requirements, Mid-Career Option**

47 credits minimum

1. **Core Curriculum (16 credits):** IMT 500, IMT 535, IMT 550, IMT 570
2. **Capstone (optional 5 credits):** INFX 595, INFX 596
3. **Electives (26 credits):** Students select a specialization specific to their interests and career goals, or choose more broadly from across specializations. Specializations include data science, information architecture, information security, user experience design, and information management and consulting.

All students in the MSIM program may elect to complete one or more of the following specializations:

a. Date Science and Analytics (19-20 credit): Methods, tools, and frameworks for analyzing and deriving insight from large-scale, heterogeneous data.

b. Information Architecture and Organization (17-20 credits) Assessing existing information structures and creating new systems to effectively structure information.

c. Information Management and Consulting (18-20 credits): Developing and managing information policies, strategies, innovations, projects, and initiatives in public, private, and non-profit institutions.

d. Information Policy and Society (13-17 credits): Strategies and processes for critical analysis, development, and management of information policies and social, cultural, and policy issues.

e. Information Security (9 credits): Quality, security, and appropriate use of information assets.
f. User Experience (20-21 credits): Designing, prototyping, and formally evaluating interactive information interfaces, systems, and experiences from a user-centered perspective.

For more information visit https://ischool.uw.edu/academics/msim/curriculum/specializations

**Doctor of Philosophy in Information Science**

Adviser 420 Mary Gates Hall, Box 352840 206-543-1794 ischoolphd@uw.edu

**Admission Requirements**

1. Current curriculum vitae highlighting any academic and/or work experience, honors, publications, presentations, and research experience
2. Three letters of recommendation
3. Personal statement of educational and professional goals
4. Official transcript from each relevant institution attended
5. GRE Scores. Applicants with an earned doctorate (PhD, MD, JD) are not required to submit GRE scores.
6. TOEFL score (for international students)

**Degree Requirements**

90 credits minimum

1. *Required courses*: INSC 500, INSC 501, INSC 570, INFC 571, INSC 572; two research practica; two teaching practica
2. Additional elective coursework selected in consultation with faculty advisers
3. 18 graded credits in courses at the 500 level and above (taken prior to general examination)
4. 60 credits taken prior to general examination
5. 27 dissertation credits (INSC 800)
6. Preliminary review determined by a School-based advisory committee at the end of the required first year of full-time study
7. General examination
8. Final examination
Financial Aid

For information on submitting the FAFSA, contact the UW Financial Aid Office, 105 Schmitz Hall. Information also available online.

Graduate Assistantships and Scholarships

Financial aid options for full-time students may include graduate assistantships and scholarships. Graduate assistants generally work 220 hours per quarter, and receive a tuition waiver as well as a monthly salary and medical benefits. Prospective MLIS and MSIM students may apply during the admission process and throughout the year as other positions become available. Visit the Student Employment Opportunities page at ischool.uw.edu/jobs/students. All students admitted to the PhD program are guaranteed a minimum four years of funding.

MLIS and MSIM admission committees award a limited number of merit-based scholarships to incoming students. Continuing students also may apply for scholarships. All eligible applicants and students are encouraged to complete the FAFSA each year.

Additional scholarship and financial aid information:

MLIS, https://ischool.uw.edu/future/mlis/financial-aid

MSIM, https://ischool.uw.edu/future/msim/financial-aid

PhD, https://ischool.uw.edu/future/phd/funding

Special Research Facilities

An extensive software collection, a state-of-the-art computer classroom, an innovative Technology Exploration (TE) lab, a DataLab for Data Science and Analytics, and excellent network connectivity. Students have access to software applications including titles for database and text management, programming, graphics, multimedia, web development, Internet exploration and collaboration, and office productivity; also, access to bibliographic databases and commercial information services.

A dedicated information science research facility at the Roosevelt Commons Building.

A dedicated information science research facility in Bloedel Hall.

Continuing and Professional Education

The Information School, working with UW Professional and Continuing Education, offers classes, workshops, and certificate programs for continuing education and professional development. Current certificate programs include web technology solutions; information assurance and cybersecurity; and school library professional. Contact UW Professional and
Course Descriptions

Informatics

INFO 102 Gender and Information Technology (5) I&S, DIV Explores the social construction of gender in relation to the history and contemporary development of information technologies. Considers the importance of diversity and difference in the design and construction of innovative information technology solutions. Challenges prevailing viewpoints about who can and does work in the information technology field. Offered: A.

INFO 180 Introduction to Data Science (4) QSR Survey course introducing the essential elements of data science: data collection, management, curation, and cleaning; summarizing and visualizing data; basic ideas of statistical inference, machine learning. Students will gain hands-on experience through computing labs. Prerequisite: Either a minimum grade of 2.5 in MATH 098, a minimum grade of 3.0 in MATH 103, a score of 151-169 on the MPT-GS placement test, or score of 145-153 on the MPT-AS placement test.

INFO 198 Exploring Informatics (1-5, max. 15) Introduces a variety of Informatics and Information Science topics to pre-Informatics and non-Informatics students.

INFO 200 Intellectual Foundations of Informatics (5) I&S Information as an object of study, including theories, concepts, and principles of information, information seeking, cognitive processing, knowledge representation and restructuring, and their relationships to physical and intellectual access to information. Development of information systems for storage, organization, and retrieval. Experience in the application of theories, concepts, and principles.

INFO 201 Technical Foundations (5) QSR Introduces fundamental tools and technologies necessary to transform data into knowledge. Covers the full information lifecycle, including the collection, storage, analysis and visualization of data. Core competencies underlying this process, including functional programming, use of databases, data wrangling, version control, and command line proficiency, are acquired through real-world data-driven challenges.

INFO 240 Database Management Fundamentals I (5) Covers database overview and history, the relational model, entity-relationship diagrams, database design and normalization, and Structured Query Language (SQL). Through labs, tests, and a project, students develop both theoretical and practical knowledge of relational database systems.
INFO 245 Database Management Fundamentals II (5) Covers conceptual, logical, and physical database design: distributed databases; web technology and databases; advanced queries; and enterprise database administration. Through labs, tests, and a project, students develop both theoretical and practical knowledge of relational database systems. Prerequisite: INFO 240.

INFO 270 Data Reasoning in a Digital World (3) I&S Our world is rife with misinformation. This is a course about "calling b***s*** on" - spotting, dissecting, and publicly refuting - false claims and inferences based on quantitative, statistical, and computational analysis of data. Spotting misinformation; causal fallacies; statistical traps; data visualization; big data; interpreting scientific claims; fake news and social media; refutation techniques. Prior math/stat background unnecessary.

INFO 300 Research Methods (5) Introduction to the research methods used in informatics for understanding technology, information, and human behavior. Methods incorporate those from design, engineering, and social science. Topics include science and invention, research contribution types, research through design, theory, ethics, and qualitative/quantitative empirical methods. Prerequisite: either CS&SS 221/SOC 221/STAT 221, STAT 220, STAT 311, STAT 390/MATH 390, QMETH 201, or Q SCI 381.

INFO 310 Information Assurance and Cybersecurity (5) I&S, QSR Provides a theoretical and practical introduction to information assurance and cyber-security (IAC). Includes methods and practices for securing information and information systems. Covers how vulnerabilities arise, recognizing evolving threats, and mitigating them. Explores the role of risk analysis, information privacy, accountability, and policy.

INFO 312 Enterprise Risk Management (4) Examines the risk inherent in use of technology, and how to manage risk to information, data, and technology in organizations. Topics include risk management frameworks, risk tolerance, key risk indicators, the legislative and regulatory environment, compliance, and new avenues of risk such as social media and mobile.

INFO 314 Computer Networks and Distributed Applications (5) NW Basic concepts of local and wide-area computer networking including an overview of services provided by networks, network topologies and hardware, packet switching, client/server architectures, network protocols, and network servers and applications. Also addresses management, security, authentication, and policy issues associated with distributed systems. Prerequisite: CSE 142 or CSE 143.

INFO 320 Technical and Social Perspectives on Search (5) QSR Fundamentals of search including data acquisition and processing, index construction, query processing, ranking and display. Covers building a customized search service, search engine optimization, individual and social perspectives on search. Prerequisite: CSE 142 or CSE 143; and INFO 343 which may be taken concurrently.

INFO 330 Databases and Data Modeling (5) QSR Introduction to relational database management systems, focused on relational theory and the application of conceptual, logical, and
physical database modeling. Key topics include the relational model, SQL, entity-relationship modeling, three-tier architectures, implementation of database applications, and related topics in information systems.

INFO 331 Introduction to Information Architecture (5) Introduction to Information Architecture (IA) methodologies and tools used to design and build information spaces. Discusses IA core concepts of navigation, labeling, data modeling, taxonomy and information personas. Also discusses wireframes, sitemaps, information design and integrating IA work with a UX strategy.

INFO 340 Client-Side Development (5) QSR Introduction to client-side web development including markup, programming, protocols, libraries, frameworks, and techniques for creating effective, usable, dynamic, and responsive applications that meet user needs. Includes an introduction to web development roles within organizations, content management systems, and other tools to build and manage websites and applications. Prerequisite: CSE 142 or CSE 143; and INFO 201.

INFO 343 Client-Side Web Development (5) NW Introduction to client-side web development including markup, programming, protocols, libraries, frameworks, and techniques for creating effective, usable, dynamic, and responsive applications that meet user needs. Includes an introduction to web development roles within organizations, content management systems, and other tools to build and manage websites and applications. Prerequisite: CSE 142 or CSE 143; and INFO 201.

INFO 350 Information Ethics and Policy (5) I&S Provides a framework for analyzing the ethical, legal, economic, and socio-political issues surrounding information, information technologies, and the information industries. Explores policy and ethical issues of information access and control including; intellectual property, file sharing, free speech, privacy, and national security.

INFO 360 Design Methods (4) I&S Design methods for identifying user needs, devising new design concepts, prototyping these concepts, and evaluating utility and usability. Introduces theory and practice of user-centered design. Methods for identifying users' needs, understanding users' behaviors, envisioning and prototyping new systems, and evaluating the usability of systems. Emphasizes incorporating people in the entire design process.

INFO 362 Visual Information Design (5) VLPA Build fluency in expressing information visually as diagrams, charts, maps, and icons. Learn to solve design problems, give and receive critique, follow an iterative process of design refinement, and learn technical skills. Understand the nature of visual potential, visual design principles, and the impact of color and typography.

INFO 365 Mobile Application Design (5) Fundamentals of mobile UX & UI design through the lens of creating your own mobile OS and core mobile apps in a design studio setting. Includes creating a mobile design language and mobile patterns, app review by professional designers, and how design for mobile is unique from other mediums. Recommended: INFO 360
INFO 370 Core Methods in Data Science (5) QSR Surveys the major topics within data science, including data ingestion, cloud computing, statistical inference, machine learning, information visualization, and data ethics. Includes programming in R and Python. Prerequisite: INFO 201; and CSE 142 or CSE 143; and either CS&SS 221, SOC 221, STAT 221, STAT 311, MATH 390, STAT 390, QMETH 201, or Q SCI 381.

INFO 371 Advanced Methods in Data Science (5) QSR Introduces modern methods in applied data science. Emphasizes practical applications and analysis of real-world data through a survey of common techniques in supervised and unsupervised machine learning, and methods for experimental design and causal inference. Students learn functional, procedural, and statistical programming techniques for working with data. Prerequisite: INFO 370.

INFO 380 Information Systems Analysis and Design (5) Prepares students to participate in structured systems analysis and design efforts. Students learn how to analyze system context, behavior, and structure; identify stakeholders; gather requirements; and redesign systems to make them more beneficial to the organization.

INFO 386 Professionalism in Informatics (4) Examines professionalism, communication, teamwork, leadership, and interpersonal networking to strengthen students as they seek to excel professionally. Covers developing and presenting business cases and project plans, personal branding, conducting informational interviews, and effective written and oral communication.

INFO 402 Gender, Equity, and Information Technology (4) I&S, DIV Explores Information Technology from a feminist standpoint. Considers the intersection of difference - gender, race, class, sexuality, and ability - in technology studies and work. There is a historical overview of women in technology, an introduction to technology education, and discussion about women in the IT workforce.

INFO 415 Emerging Topics in Information Assurance and Cybersecurity (1-5, max. 15) Explores emerging topics and unique subjects in information assurance and cybersecurity (IAC) not otherwise covered in the IAC curriculum. Prerequisite: INFO 310.

INFO 431 Metadata Design (3) Explores principles of metadata schema and application profile design and implementation using XML technologies. Examines syntactic and semantic interoperability among diverse schemas and application profiles. Prerequisite: INFO 330; INFO 331.

INFO 432 Ontology Design (3) Covers concepts and technologies supporting semantic interoperability among different metadata and ontologies including topic maps, RDF, schema,
and Web Ontology Language (OWL). Includes advanced semantic modeling of complex data. Prerequisite: INFO 431.

INFO 433 Content Strategy in Information Architecture (4) I&S Introduces key concepts in understanding the content lifecycle in context of an organization's web, mobile, and other communication channels. Provides knowledge of key theories and principles in information architecture and practical application of skills including user research; information collection and analysis; and information organization and presentation.

INFO 441 Server-Side Development (5) Introduces server-side web development programming, services, tools, protocols, best practices and techniques for implementing data-driven and scalable web applications. Connects topics from human-centered design, information architecture, databases, data analytics and security to build a solution. Prerequisite: CSE 142 or CSE 143; and either INFO 340 or CSE 154; and INFO 330.

INFO 442 Cooperative Software Development (5) Introduces the theory and practice of cooperative user-centered software development, applying fundamental theories and techniques from social psychology, computer-supported collaborative work, and software engineering. Prerequisite: INFO 360; and INFO 340 or CSE 154.

INFO 447 Computer Supported Cooperative Work (5) I&S Focuses on design and use of collaboration technologies to communicate, share information, and coordinate activity. Emphasis on behavioral and social aspects of adopting and using these technologies. Topics include the history of work in this and related fields, collaboration support for teams, organizations, and communities.

INFO 448 Mobile Development: Android (5) Application development for Android devices. Covers implementation of mobile apps, including build tools, programming languages and libraries, user interfaces, application architecture, and industry practices. Focuses on harnessing communication systems and sensors specific to mobile platforms, to create interactive, user-focused systems. Programming in Java and XML. Prerequisite: CSE 143; and INFO 340 or CSE 154.

INFO 449 Mobile Development: IOS (5) Application development for iOS devices. Covers implementation of mobile apps, including build tools, programming languages and libraries, user interfaces, application architecture, and industry practices. Focuses on harnessing communication systems and sensors specific to mobile platforms, to create interactive, user-focused systems. Programming in Swift and XML. Prerequisite: CSE 143; and INFO 340 or CSE 154.

INFO 450 Information Ethics and Policy (5) I&S Provides a framework for analyzing the ethical, legal, economic, and socio-political issues surrounding information, information technologies, and the information industries. Explores policy and ethical issues of information access and control including; intellectual property, file sharing, free speech, privacy, and national security.
INFO 463 Input and Interaction (5) Introduces input and interaction techniques for desktop, mobile, and other computing environments. Combines motor and perceptual psychology, interaction design, and input devices and software in the study of human-computer systems. Emphasizes using human performance models inform the design of new interaction techniques. Prerequisite: INFO 360.

INFO 464 Value-Sensitive Design (5) Introduction to value-sensitive design (VSD), information system design that accounts for human values in a principled and comprehensive manner. Examination of existing systems from a VSD perspective. Explores VSD research methods including conceptual, technical, empirical investigations. Key values include accountability, autonomy, consent, privacy, property, trust, sustainability. Prerequisite: either INFO 360, DESIGN 383, CSE 440, or HCDE 419.

INFO 466 Immersive Information Environments (5) VLPA/I&S Introduction to immersive technologies and approaches to analyzing, designing, and building immersive worlds utilizing game theory, 3D interactive design, environments, and learning theory. Conducted exclusively in a virtual world environment through a hands-on and practical educational approach.

INFO 467 Immersive Information Environment Design (5) VLPA Design, build, and curate immersive environments in a hands-on studio. Learn tools and techniques for contributing to immersive information environments such as virtual worlds, 3D simulations, and serious games. Utilize 3D information architecture to create personalized, community based environments for education, business and entertainment. Prerequisite: INFO 466.

INFO 470 Research Methods in Informatics (5) Introduction to the research methods used in informatics for understanding technology, information, and human behavior. Methods incorporate those from design, engineering, and social science. Topics include science and invention, research contribution types, research through design, theory, ethics, and qualitative/quantitative empirical methods. Prerequisite: CS&SS 221/SOC 221/STAT 221, STAT 220, STAT 311, STAT 390/MATH 390, QMETH 201, or Q SCI 381.

INFO 474 Interactive Information Visualization (5) VLPA, QSR Techniques and theory for visualizing, analyzing, and supporting interaction with structured data like numbers, text, and relations. Provides practical experience designing and building interactive visualizations for the web. Exposes students to cognitive science, statistics, and perceptual psychology. An empirical approach will be used to design and evaluate visualizations. Prerequisite: INFO 343 or CSE 154; and CSE 143; and either Q M ETH 201, Q SCI 381, STAT 221/CS&SS 221/SOC221, STAT 311, or STAT 390/MATH 390.

INFO 481 Project Management in Informatics (4) Introduces project management principles within the context of Informatics. Provides knowledge that managers need to implement information systems on time and within budget. Concentrates on methods and issues in organizing, planning, and controlling projects, and the use of computer-based project management tools.
INFO 490 Project Capstone I (4) Student-driven team project including definition of an information problem, a method of investigation, creation of a project proposal, and completion of project deliverables. Prerequisite: INFO 300; INFO 360.

INFO 491 Project Capstone II (4) Includes design and implementation of a system or development of a research question intended to solve an information problem. Incorporates stakeholder and peer feedback, creation of project deliverables, presentation of the project in a public forum, and final assessment. Prerequisite: INFO 490.

INFO 495 Internship in Informatics (1-5, max. 12) Internship in the private or public sector, as approved by faculty member. Work jointly supervised by faculty member (or approved academic sponsor) and an on-site work supervisor.

INFO 496 Service Learning in Informatics (1-5, max. 12) Utilization of skills in service of the community, as approved by faculty member. Work to be jointly supervised by faculty member (or approved academic sponsor) and on-site service supervisor. Credit/no-credit only.

INFO 497 Informatics Study Abroad (1-8, max. 18) International seminar, led by Information School faculty or researchers. Addresses a specialized area of informatics. Topics vary. May require language proficiency.

INFO 498 Special Topics in Informatics (1-5, max. 15) Various topics in informatics.

INFO 499 Independent Study (1-5, max. 15) Readings, design projects, or research under faculty supervision.

**Information Management and Technology**

IMT 500 Foundations of Information Management (3) Examines the role and function of information and information management in individual, organizational, community, and social contexts. Topics include information and information management concepts; methods of managing information and information flows within organizations; and internal and external communication in professional settings.

IMT 501 Teamwork for Information Professionals (1) Introduces the theory and skills that support functional working groups, preparing students to work together effectively in the classroom and the workforce. Major topics include: theoretical perspectives on teams; processes and structural characteristics that influence team effectiveness; dynamics of individual behavior and interpersonal relationships in team interactions; and team leadership.

IMT 502 Effective Written Communications for Information Professionals (1) Provides the theory and skills necessary to communicate in writing in a manner that will accomplish the writer's goals. Major topics include: basic communication theory; effective organization; use of visuals; making writing accessible; managing tone; and writing online.
IMT 503 Effective Oral Communications for Information Professionals (1) Provides the theory and skills necessary to make effective oral presentations that will accomplish the presenter's goals. Major topics include: basic communication theory; preparing effective presentations; presentation best practices; and nonverbal communication cues.

IMT 510 Human Aspects of Information Systems (4) Social, organizational, cognitive, behavioral, and contextual aspects of information, including basic concepts in human information behavior; conceptual and practical frameworks used to study human-information interaction, and social responses to information technology. User-based and work-based evaluation and design of information systems. Exposure to experimental and interview methodologies.

IMT 511 Introduction to Programming for Information and Data Science (4) Introduces fundamentals of computer programming as used for data science. Covers foundational skills necessary for writing stand-alone computer scripts, including programming syntax, data structuring, and procedural definition (functions). Includes programming environments (command-line) and version control. Emphasizes skills in algorithmic thinking, abstraction, debugging, and code reuse. Assumes no previous programming background. Offered: jointly with LIS 511.

IMT 519 Information Science Study Abroad (1-8, max. 18) International seminar, led by Information School faculty or researchers. Addresses a specialized area of information studies. Topics vary. May require language proficiency. Offered: jointly with LIS 519.

IMT 520 Information Services and Resources (4) Concepts, processes, and skills of information involving creation, production, distribution, selection, collection, and services to facilitate access. Analysis of the information mediation process, including determining information needs; searching for, evaluation, and presentation of appropriate results; and modalities for delivery of services.

IMT 525 Information Management and Technology in Sports (3) Explores the information perspective, including the role and the use of information, information management, and information technologies applied to the sports context. Examines modern and emerging information management and technology systems and their design and use in administering intercollegiate athletic functions.

IMT 530 Organization of Information Resources (4) Introduction to issues in organization of information and information objects including analysis of intellectual and physical characteristics of information objects; use of metadata and metadata standards for information systems; theory of classification, including semantic relationships and facet analysis; creation of controlled vocabularies; and display and arrangement.

IMT 535 Introduction to Information Architecture (5) Introduces concepts and methods of front- and back-end information architecture. Covers back-end topics including data and content modeling, taxonomy, controlled vocabulary, SEO, search, and analytics. Covers front-end topics
including design thinking, design process, design patterns, navigation, workflow, labeling, orientation, and information scent. Unifies front- and back-end IA.

**IMT 536 Metadata for Interactive Media (3)** Explore new ideas and approaches for organizing and providing access to interactive media, particularly from a user-centered perspective. Design and conduct formative and evaluative user studies employing various qualitative and quantitative methods to determine information needs and seeking behaviors of various stakeholders in one or more interactive media domains. Offered: jointly with LIS 536.

**IMT 539 Metadata Design (3)** Design principles of metadata schemas and application profiles - implementation of interoperable application profiles using XML technology. Focuses on achieving syntactic and semantic interoperability among diverse metadata schemas and application profiles. Prerequisite: either LIS 530 or IMT 530; LIS 542 or IMT 542; or permission of instructor. Offered: jointly with LIS 539.

**IMT 540 Design Methods for Interactive Systems (4)** Introduction to the theory and practice of user-centered design. Examines design methods for identifying and describing user needs, specifying and prototyping new systems, and evaluating the usability of systems. Examines design methodologies such as contextual design and value-sensitive design, giving specific emphasis to human-information interaction. Prerequisite: permission of instructor.

**IMT 541 Enterprise Information Systems Analysis and Design (4)** Theoretical and practical examination of information systems analysis and design processes as they apply in the workplace. Explores techniques for assessing system and technology needs, defining information and work specifications, process and data modeling, and stakeholder analysis process; and input and output design, database design, test plans and implantation strategies in the design process.

**IMT 542 Information Structures Using XML (4)** Introduces the concepts and methods used to analyze, store, manage, and present information and navigation. Equal weight given to understanding structures and implementing them. Topics include information analysis and organizational methods as well as XML and metadata concepts and application. Offered: jointly with LIS 542.

**IMT 543 Relational Database Management Systems (4)** Introduces relational database design, implementation, and management, with a focus on using relational database management systems (DBMS) to manage data in an organization. Topics include: data modeling tools and techniques, conceptual and logical database design, physical implementation, SQL, data management, and database administration. Recommended: INFX 502. Offered: jointly with LIS 543.

**IMT 546 Data Communications and Networking (4)** Covers local and wide-area computer networking including topologies and hardware, packet switching, client/server architectures, network protocols, and network servers and applications. Also addresses server operating systems, management, security, authentication, and policy issues associated with distributed networks.
IMT 547 Social Media Data Mining and Analysis (4) Explores techniques for collecting and analyzing social media. Students gain direct experience with methods for collecting a social media corpus, defining features of activity that are relevant for analysis, and analyzing those features.

IMT 549 Beginning Web Development (4) Teaches students how to build custom websites/applications from scratch, manage files in a version control system, and deploy them to publicly-accessible web servers. Focus is on client-side technologies, including HTML, CSS, and JavaScript. Existing basic programming knowledge is beneficial but not required. Offered: jointly with LIS 549.

IMT 550 Policy and Ethics in Information Management (4) Explores a range of information issues in the social and organizational context of information professionals, including professional ethics, privacy, freedom of expression, and intellectual property. Gives students tools for analysis of the kinds of social and ethical issues that will arise in their future lives as information professionals.

IMT 551 Foundations of Organizational Information Assurance (3) Concepts, elements, strategies, skills related to life cycle of information assurance--involving policies, practices, mechanisms, dissemination, and validation--that ensure the confidentiality, integrity, and availability of information and information systems. Analyzes the information assurance planning process, including determination and analysis of information assurance organization goals, threat spectrum, risk, and legal and ethical issues.

IMT 552 Information Assurance Risk Assessment and Management (3) Examines the concepts, processes, and skills related to risk management in information assurance involving risk assessment, risk analysis, and mitigation planning. Analysis of the risk management process through several structured approaches that facilitate information assurance decision-making. Prerequisite: IMT 551.

IMT 553 Establishing and Managing Information Assurance Strategies (3) Applies and combines information assurance concepts, processes, and skills to solve case studies from practitioner experiences and explore the role of policy in creating a successful information assurance program. Prerequisite: IMT 551, IMT 552.

IMT 554 Information Economics (3) Theoretical and practical examination of how information economics impacts design decision in context of information systems and information organizations. How information is priced, commoditized, exchanged, preserved in economic transactions. How strategic decisions within organizations are made through information and strategic games, information signaling, information strategies, information-based network economics, and information incentives

IMT 555 Foundations of Cybersecurity (4) Examines information security challenges and solutions, which information management professionals contend with when providing technology services and applications based on premises and cloud platforms. Students will
solidify the terminology and security architecture via hands on labs using open source and cloud based tools. Covers security topics based relevant attack vectors.

**IMT 556 Information and Operational Risk (3)** Examines the information dimensions of the most common types of operational risk including: internal and external fraud, regulatory noncompliance, processing errors, information security breaches, and technology failures; practical application of operational risk frameworks where the intersection of people, information, processes, systems, and external events can lead to financial loss.

**IMT 557 Operational Risk Management in the Public and Private Sectors (3)** Learn to identify, monitor, and mitigate operational risk exposures in corporations and government agencies, analyze risk appetites, and drive risk awareness at each level of corporate or government hierarchies. Examines technology failure and information sharing in crisis management, intellectual property, and data risk in various infrastructure sectors. Prerequisite: IMT 556.

**IMT 558 Leading and Managing Enterprise Information Security (4)** Examines the elements of managing and leading enterprise information security programs from a leadership perspective. Students review real world scenarios and explore challenges facing information security leaders. Develop an information security plan and program that meets the culture and goals of a company to address the challenging threat environment.

**IMT 559 Cybersecurity Functions and Trends (4)** Presents and analyzes cybersecurity technologies from a technical leadership stance to prepare information management professionals who will lead cybersecurity technical projects and information security teams. Introduces contemporary cybersecurity topics such as data analytics, digital forensic methodologies and cybersecurity applied in IoT (Internet of Things) and SDN (Software Defined Networks).

**IMT 561 Visualization Design (4)** Students develop a human-centered visualization design practice using real-world data. This process includes applying graphic principles of visual encoding to data; conducting design explorations using sketches and prototyping; and gathering user feedback to assess output. Design workshops provide opportunities for hands-on engagement with concepts and technical skills.

**IMT 562 Interactive Information Visualization (4)** Introduces techniques for visualizing, analyzing, and supporting interaction with structured data (numbers, text, graphs). Provides experience creating interactive visualizations for the web. Exposes students to cognitive science, statistics, and perceptual psychology principles. Students design and evaluate visualizations using perceptual and statistical accuracy.

**IMT 563 Advanced Relational Database Management Systems (4)** Conducts deeper investigation into construction of high-volume, robust database systems from conception through deployment. Topics include Enhanced ERDs, explicit transaction-management (control-of-flow, error-handling), coded business rules, troubleshooting and optimization. Investigation of disaster
recovery, security, high-availability and scalability solutions as well as NoSQL and data warehousing topics. Prerequisite: IMT 543, LIS 543.

**IMT 565 Designing Information Experiences (4)** Explores experience design including user experience, customer experience, and service design. Covers the philosophical foundations of experience, how to design and evaluate experiences, and the business aspects of customer experience. The focus is on experiences of and with information.

**IMT 570 Analytic Methods for Information Professionals (4)** Sharpens critical thinking processes by studying and applying scientific methods to problem solving in the information management area. Provides a framework to resolve information management research problems, interpret research findings, and to understand the interaction among the various parts of the research process.

**IMT 571 Social Network Analysis (4)** Provide students with an understanding of the fundamental concepts, common methods, and analytical tools of social network analysis. Student will gain experience applying both exploratory and inferential methods to real-world problems with in the social network domain.

**IMT 572 Introduction to Data Science (4)** Introduces a broad, non-technical overview of key concepts, skills, and technologies used in "data science". Provides a high-level introduction to common data science pipelines, such as experimental design, data collection and storage, basic analytics, machine learning, and data visualization, focusing on analyzing in real-world datasets using industry standard statistical packages. Offered: jointly with LIS 572.

**IMT 573 Data Science I: Theoretical Foundations (4)** Introduces technically focused theoretical foundations of "Data Science." Provides an overview of key concepts, focusing on foundational concepts such as exploratory data analysis and statistical inference. Assignments are data-intensive, and require significant programming and statistical analysis. Students are expected to have college-level statistics and programming experience (R and python preferred). Prerequisite: either Q METH 201, IMT 570, or equivalent college coursework; either CSE 142, or equivalent college coursework.

**IMT 574 Data Science II: Machine Learning and Econometrics (4)** Provides theoretical and practical introduction to modern techniques for the analysis of large-scale, heterogeneous data. Covers key concepts in inferential statistics, supervised and unsupervised machine learning, and network analysis. Students will learn functional, procedural, and statistical programming techniques for working with real-world data. Prerequisite: IMT 573.

**IMT 575 Data Science III: Scaling, Applications, and Ethics (4)** Focuses on utilizing advanced skills for analyzing and deriving insights from large-scale, heterogeneous data. Provides methods, tools, and frameworks for analyzing large-scale data, with topics including scaling and distributed computing, and network analysis. Special attention will be paid to ethical considerations in modern Data Science. Prerequisite: IMT 574.
**IMT 576 Foundations of Strategic and Managerial Business Intelligence (4)** Provides a broad overview of business intelligence (BI) including foundational BI concepts, strategies, techniques, and technologies. Primary emphasis is on the strategic and managerial perspective, focusing on how one designs, implements, and leverages business intelligence systems and strategies in management and leadership roles.

**IMT 577 Business Intelligence Systems (4)** Introduces fundamentals of how to architect and develop business intelligence systems for decision making. Topics include dimensional data modeling; extracting, transforming, and loading data (ETL); online analytical processing (OLAP); data warehouse architecture; developing data visualizations to answer key business questions.

**IMT 578 Research Seminar (1-4, max. 10)** Students work in teams under the supervision of individual faculty members to engage in research or design activities and learn through hands-on participation and study. Learning activities include data collection, data analysis, building prototypes, testing or evaluation, or dissemination activities. Offered: jointly with LIS 578.

**IMT 580 Management of Information Organizations (4)** Introduction to internal and external management issues and practices in information organizations. Examines key topics drawn from the fields of organizational theory and behavior, including planning and decision-making, organizational structure, leadership, and motivation. Reviews strategic and operational issues including human and organizational issues related to technology introduction, use, and management.

**IMT 582 Strategic Information Initiatives (4)** Tools, techniques, approaches for identifying and planning entrepreneurial initiatives within organizations, including business information assessments, organizational readiness assessments, alignment with organizational priorities, information audits, processes for obtaining organizational investment in and commitment to new initiatives. Focuses on building business and economic justifications and leading strategic initiatives in organizations.

**IMT 583 Finance and Accounting Foundations for Information Professionals (3)** Introduction to financial accounting, including the principles of double-entry accounting, balance sheets, income, and cash flow statements. Covers key financial ratios and their use for various analytical purposes, along with the elements of a financial plan or budget.

**IMT 584 Marketing Foundations for Information Professionals (3)** Introduction to the principles of marketing. Looks at how to assess an environment from a marketing perspective, consumer and business behavior, market segmentation, product/service strategies, new product development processes, pricing, channels, retail/wholesale, marketing communication, and direct selling.

**IMT 585 Consulting Practices (4)** Provides an overview of Information consulting practices including consulting concepts, methodologies, approaches to consultative analysis and problem solving. Emphasizes a systems-thinking approach to practicing effective technical and interpersonal consulting behaviors as well as processes for internal and external consulting.
Interpersonal/communication skills, client relationship management and change management are strongly emphasized. Prerequisite: IMT 580.

**IMT 586 Information Dynamics I (4)** Introduction to the concepts and methods of information feedback, systems thinking, soft systems methodology (SSM), and "soft operations research," as well as the quantitative modeling of complex dynamic systems by means of differential and integral equations (system dynamics). Offered: jointly with INSC 586.

**IMT 587 Principles of Information Project Management (4)** Introduces project management principles within information-related business contexts. Provides knowledge that managers need to implement information systems on time and within budget. Concentrates on methods and issues in organizing, planning, and controlling projects, and their use of computer-based project management tools.

**IMT 588 Enterprise Project Management in Information Organizations (4)** Explores roles, responsibilities, and methods of managing enterprise projects. Analyzes critical issues such as the relationship between project management and organizational culture, structure, and processes; cross-functional and globally distributed teams; project governance, metric, and risk and performance management; communication, decision-making, and conflict resolution; and organizational learning, change, and knowledge management. Prerequisite: introductory coursework in project management or permission of instructor. Offered: jointly with INSC 588.

**IMT 589 Special Topics in Information Management (1-4, max. 12)** Special study and research in topics of current concern to faculty and students.

**IMT 590 Internship in Information Management (1-5, max. 10)** Internship in the private or public sector, jointly supervised by faculty member and an on-site work sponsor. Prerequisite: enrollment in the MSIM program. Credit/no-credit only.

**IMT 596 Capstone I - Project Planning (2)** Analysis and preliminary design of an approved individual or group research or implementation project demonstrating professional-level knowledge and skills. Cannot be taken for credit if credit received for LIS 596. Prerequisite: Completion of all MSIM core courses. Credit/no-credit only.

**IMT 597 Capstone II - Project Implementation (3)** Implementation of a project demonstrating professional-level knowledge and skills based on a project plan developed in IMT 596. Cannot be taken for credit if credit received for LIS 597. Prerequisite: IMT 596. Credit/no-credit only.

**IMT 598 Emerging Trends in Information Management and Technology (3)** Focus on emerging trends in information management and information technology. Attention given to their impact on the functions of the chief information officer and others managing the acquisition, retention, use, and disposition of information and the enabling technologies. Exploration of methods and resources for trend discovery and tracking. Prerequisite: permission of instructor.
IMT 600 Independent Study or Research in Information Management ([1-4]-) Supervised independent study or research. May be taken in as many as six consecutive quarters. Prerequisite: enrollment in the MSIM program. Credit/no-credit only.

Information School Interdisciplinary

INFX 562 Interactive Information Visualization (4) Introduces techniques for visualizing, analyzing, and supporting interaction with structured data (numbers, text, graphs). Provides experience creating interactive visualizations for the web. Exposes students to cognitive science, statistics, and perceptual psychology principles. Students design and evaluate visualizations using perceptual and statistical accuracy.

INFX 573 Data Science I: Theoretical Foundations (4) Introduces technically focused theoretical foundations of "Data Science." Provides an overview of key concepts, focusing on foundational concepts such as exploratory data analysis and statistical inference. Assignments are data-intensive, and require significant programming and statistical analysis. Students are expected to have college-level statistics and programming experience (R and python preferred). Prerequisite: either Q METH 201, IMT 570, or equivalent college coursework; either CSE 142, INFX 501, or equivalent college coursework.

Information Science

INSC 500 Faculty Seminar (2) Presentations by faculty concerning research projects in which they are involved. Credit/no-credit only.

INSC 501 Theoretical Foundations for Information Science (3) In-depth exploration of the philosophical, theoretical, methodological, and historical foundation of information science and the study of information.

INSC 508 Reading Seminar (2) Discusses theoretical works and contemporary research in areas related to information science, information management, or information technology and design. Introduces students to the intellectual traditions that underlie the field. Credit/no-credit only.

INSC 512 Community Analysis (4) Explores key concepts of community in its broadest sense, methodological approaches for analyzing information needs and available resources, how to design information services in response to identified needs, and service evaluation. Facilitating the information behavior of all groups within a community and identifying how their needs interconnect. Prerequisite: LIS 510. Offered: jointly with LIS 512.

INSC 518 Seminar in Human Information Interaction (4) Investigates conceptual frameworks, assumptions, analytical tools, concepts, models, and theories in human information interaction (HII). Topics may include theories of information behavior, information behavior in everyday life, social informatics, HII in organizations, or personal information management. Previous readings in HII preferred. Prerequisite: permission of instructor.

INSC 538 Seminar in Information Organization (4) Seminar on information organization, focusing on any area of information organization, including classification theory, metadata, document theory, information organization in information systems; social and political aspects of classification, controlled vocabularies, and cataloging history.

INSC 541 HCI Design Foundations for Interactive Systems (4) Develops knowledge and skills for design-based inquiry of interactive systems. Students practice user-centered design methods and study theories of human-computer interaction, including but not limited to: goal-based design and task analysis, scenario-based design, soft systems methodology, value sensitive design, universal design, and participatory design.

INSC 542 HCI Design Studio for Interactive Systems (4) Develops knowledge and skills for design-based inquiry of interactive systems. Includes a quarter-long project using appropriate methods and iteratively engages research, design, prototyping, and evaluation activities. Opportunity to reflect upon practice and receive critical review of work throughout the quarter.

INSC 543 Value Sensitive Design (4) Develops knowledge and skills to account for human values in design, development, and deployment of information systems. In-depth examination of value sensitive design theory, methods, and practice, including stakeholder project. Prerequisite: permission of instructor.

INSC 546 Assistive Technology and Inclusive Design (4) Examines interactive technologies for users with alternative skills or in alternative contexts. Covers universal design, inclusive design, and assistive technologies. Addresses needs of users with physical limitations, children/elders, users in developing nations, and mobile users.

INSC 547 Collaborative and Social Computing (4) Seminar on the design of collaborative and social computing systems. Introduces theories for analyzing collaborative on-line and face-to-face. Student apply a theoretical perspective through the design of a social or collaborative application. Application domains include blogging, tagging, on-line communities, social recommending, ubiquitous computing, and collaboration in domestic settings.

INSC 555 Information and Values (4, max. 12) Explores value systems within a range of different social and technological environments.

INSC 557 Cultural and Ethnic Dimensions in Information Science (4) Examines ethnic and cultural dimensions of information storage and transfer, knowledge creation and exchange, and information-related values in an increasingly global world. Readings from anthropology, cultural learning, cross-cultural communications, and ethnic traditions provide the basis for discussions.
about conducting research across culturally distinct communities. Prerequisite: permission of instructor.

**INSC 561 PhD Colloquium on Professional Issue (1, max. 12)** Covers topics relating to the professional concerns of doctoral students and their future lives as academics and researchers. Credit/no-credit only.

**INSC 565 Teaching Practicum I (3)** Doctoral student participation in teaching in a faculty-taught course. Credit/no-credit only.

**INSC 566 Teaching Practicum II (3)** Doctoral student takes primary teaching responsibility for a course under supervision of a faculty liaison. Prerequisite: INSC 565. Credit/no-credit only.

**INSC 570 Research Design (4)** Introduction to empirical research, basics of theory construction and research design, types of research, ethical issues, instruments and techniques for descriptive research, measures of association. Employs an integrated (qualitative and quantitative) and focused approach.

**INSC 571 Quantitative Methods in Information Science (5)** Describes uses, characteristics, and theoretical bases of research methods and data analysis techniques used in quantitative research, emphasizing uses in information and library science. Topics include experimental design, descriptive and inferential statistics, the normal distribution, elementary probability, nonparametric statistics, and exploratory data analysis techniques. Prerequisite: INSC 570.

**INSC 572 Qualitative Methods in Information Science (5)** Principles and approaches to conducting qualitative research in information science, including how to design a qualitative study, role of context, methods of data collection and analysis, increasing the trustworthiness of data, minimizing observer effect, how to incorporate and build theory. Exposure to field research and data analysis. Prerequisite: INSC 570.

**INSC 573 Design Inquiry and Methods in Information Science (5)** Acquire theory, methods, and skills for design-based inquiry, focusing on making artifacts - technical, informational, managerial, or organizational - and devising courses of action that enable people to mobilize. Students develop knowledge for design in Information Science through practical application of design methods and scholarly investigation of selected literatures.

**INSC 575 Research Practicum I (3)** Students work with a researcher from the Information School as an active member of a research team. Credit/no-credit only.

**INSC 576 Research Practicum II (3)** Students work with an approved researcher as an active member of a research team. Prerequisite: INSC 575 or permission of instructor. Credit/no-credit only.

**INSC 578 Research Seminar (1-2, max. 15)** Research presentations on a wide variety of topics in information science. Credit/no-credit only.
INSC 579 Research Colloquium in Information Science (2, max. 30) Research colloquium on various research topics in information science. Faculty, visitors, and students present current research. Prerequisite: permission of instructor. Credit/no-credit only.

INSC 581 Organizational Theories of Information Systems (4) Surveys major strands of management of information systems research. Covers the behavioral, economic, strategic, and technical research perspectives of MIS research.

INSC 586 Information Dynamics I (4) Introduction to the concepts and methods of information feedback, systems thinking, soft systems methodology (SSM), and "soft operations research," as well as the quantitative modeling of complex dynamic systems by means of differential and integral equations (system dynamics). Offered: jointly with IMT 586.

INSC 588 Enterprise Project Management in Information Organizations (4) Explores roles, responsibilities, and methods of managing enterprise projects. Analyzes critical issues such as the relationship between project management and organizational culture, structure, and processes; cross-functional and globally distributed teams; project governance, metric, and risk and performance management; communication, decision-making, and conflict resolution; and organizational learning, change, and knowledge management. Prerequisite: introductory coursework in project management or permission of instructor. Offered: jointly with IMT 588.

INSC 598 Special Topics in Information Science (1-5, max. 12)

INSC 599 Independent Study in Information Science (1-5, max. 15) Readings, design projects, or research under faculty supervision. Prerequisite: permission of instructor and Ph.D. program chair.

INSC 600 Independent Study or Research (*) Individual readings or study, including independent study in preparation for doctoral examinations, research, etc. Prerequisite: permission of Supervisory Committee or graduate program adviser. Credit/no-credit only.

INSC 800 Doctoral Dissertation (*) Credit/no-credit only.

Information Technology Applications

ITA 340 Introduction to Web Publishing (3) Introduction to markup languages and publishing web content. Students gain understanding of HTML coding and extensions, image manipulation, information architecture, and web site publishing. Other topics include: the Web Accessibility Initiative, survey of Graphical User Interface (GUI) HTML editors, online privacy and security, and eXtensible Markup Language (XML).

ITA 341 Client-side Scripting and Design (3) Introduction to web browser design environment, scripting languages, JavaScript, Document Object Model (DOM), and creation of dynamic HTML web pages (DHTML) in combination with Cascading Style Sheets (CSS). Other topics include: client-server architecture and web design principles in the contexts of technical feasibility, usability, and accessibility. Prerequisite: ITA 340.
ITA 342 Introduction to SQL and Data Storage Technologies (3) Fundamentals of database design in a client-server architecture useful for web applications. Subsequent topics build upon foundation by introducing the Structured Query Language (SQL), open source tools MySQL and PHP for database processing, security issues in database applications, and XML as a alternate database storage technology. Prerequisite: ITA 341

ITA 343 Server-Side Programming and Web-data Integration (3) Provides framework to integrate server-side programming concepts and techniques, database technologies, and client-side scripting to design and implement dynamic web applications. Examines techniques using PHP, design and implementation of database (MySQL) connections, web application security, and XML data publication. Prerequisite: ITA 342.

Library and Information Science

LIS 462 Skills Approach to Information, Communications, and Technology (ICT) Literacy (3) Introduction to the Big6 TM Skills approach to information, communications, and technology (ICT) literacy for personal, school, district, or higher education settings. Includes technology within the Big6 framework, connection to standards, instructional design, assessment, curriculum mapping, peer collaboration, the parent connection, program planning, and implementation.

LIS 498 Special Topics (1-5, max. 15) Library service and information science subject matter in seminars, workshops, or other appropriate formats. Topics vary and may be repeated for credit.

LIS 500 The Question of Information (2) Provides an overview of the major questions, concepts, and challenges engaging library and information science through seminar discussion. Exploration of the social context in which these questions and challenges occur, and their implications for both research and practice. Credit/no-credit only.

LIS 501 History and Foundations of Libraries and Librarianship (3) Introduces the history of libraries, major issues in contemporary library and information work, and types of libraries. Examines the role of libraries in society, the development of professional librarianship, and the role of librarians.

LIS 502 Database Concepts for Information Professionals (3) Introduces the terminology and concepts of managing data with relational database management systems. Students will gain introductory exposure to data modeling, relational database design, creation, and use. Credit/no-credit only. Credit/no-credit only.

LIS 505 Archival and Manuscript Services (3) Selection, organization, and uses of archival and manuscript collections. Emphasis on the principles and techniques; some attention to the administration of state archival and historical institutions' collections. Lecture, demonstration, and laboratory.

LIS 507 Preservation and Conservation of Library Materials (3) Consideration of the many factors contributing to the physical vulnerability of library materials of all kinds and an overview
of resources and strategies for those who determine preservation policy or manage the application of such policy. No technical background necessary.

LIS 508 History of Recorded Information (4) Exploration of the history and ongoing transformation of recorded information within three broad spheres of human life: public communication, administrative and commercial operation, and personal communication.

LIS 509 Information and Contemplation (4) Explores how contemplative practices and perspectives can offer insights into today's information-intensive culture and how they can provide guidelines and design principles for the development of new information practices and technologies. Students explore a variety of contemplative/attentional practices and use these to investigate information trends, practices, and concerns.

LIS 510 Information Behavior (3) Introduction to the user-centered approach to information behavior. Theoretical foundations of need, creation, seeking, sharing, assessment, management, and use. Synthesis of information behavior studies, performance of information behavior field research, and application of the results of information behavior studies to design information systems, services, and policy.

LIS 511 Introduction to Programming for Information and Data Science (4) Introduces fundamentals of computer programming as used for data science. Covers foundational skills necessary for writing stand-alone computer scripts, including programming syntax, data structuring, and procedural definition (functions). Includes programming environments (command-line) and version control. Emphasizes skills in algorithmic thinking, abstraction, debugging, and code reuse. Assumes no previous programming background. Offered: jointly with IMT 511.

LIS 512 Community Analysis (4) Explores key concepts of community in its broadest sense, methodological approaches for analyzing information needs and available resources, how to design information services in response to identified needs, and service evaluation. Facilitating the information behavior of all groups within a community and identifying how their needs interconnect. Prerequisite: LIS 510. Offered: jointly with INSC 512.

LIS 516 Youth Development and Information Behavior in a Digital Age (3) Introduction to major theories of human development from birth through age eighteen and application of these theories to examine youth's information behavior and digital media use at various developmental stages. Explores new research on the impact of digital media tools and practices on youth development. Prerequisite: either LIS 510 or permission of instructor.

LIS 519 Information Science Study Abroad (1-8, max. 18) International seminar, led by Information School faculty or researchers. Addresses a specialized area of information studies. Topics vary. May require language proficiency. Offered: jointly with IMT 519.

LIS 520 Information Resources, Services, and Collections (4) Concepts, processes, and skills related to information, including production, distribution, selection, collection, and services to facilitate access. Specific discussion topics include characteristics of recorded knowledge;
organizations and services devoted to managing access to recorded knowledge; and principles associated with development of recorded knowledge and collections.

LIS 521 Principles of Information Services (4) Analysis of the information mediation process, including determination and analysis of information needs; searching for, evaluation, and presentation of appropriate results; modalities for delivery of services; and current and future techniques.

LIS 522 Collection Development (3) Access to materials as context for development and management of library collections in academic, public, school libraries. Community analysis, library mission; collection development policies, criteria, levels, responsibilities; aids to selection; collection evaluation, use studies; controversial materials.

LIS 524 Adult Reader Services in the Public Library (3) Focuses on developing and performing readers' advisory services for contemporary adult fiction and non-fiction. Includes interpersonal and marketing skills necessary to promote reading including reading advocacy, readers' advisory interviewing, writing advisory annotations, presenting book talks, and conducting book discussion groups.

LIS 525 Genres for Adult Readers (3) Reviews characteristics of the most popular genres of fiction, including speculative fiction, mystery/thriller/suspense, romance, westerns, and graphic fiction/memoir. Helps to develop practice in book talking, preparing annotated booklists, and making reading suggestions to library users.

LIS 526 Government Publications (3) Introduction to government publications of the United States and their acquisition, organization, and use. Other topics covered include the public's right to know, the Federal Depository Library Program, government influences in our daily lives, and future directions in government information. Credit/no-credit only.

LIS 527 Business Information Resources (3) Survey of the extent and nature of business information and its sources, and of business information producers and consumers. Study and use of both print and on-line sources.

LIS 528 Health Sciences Information Needs, Resources, and Environment (3) S. FULLER Characteristics of users of health sciences information; health professionals, researchers, consumers and patients; environments (academic health sciences centers, hospitals, clinics, and public libraries); evaluation of information resources in health care; types and uses of health information management systems; policy issues, professional standards, education, and certification. Offered: jointly with BIME 570; Sp.

LIS 529 Digital Humanities Librarianship (3) Investigates the intersections between content and technology in humanities librarianship with a focus on information problems and resources in the fields of philosophy, religion, the arts, language, and literature. Prerequisite: LIS 520

LIS 530 Organization of Information and Resources (4) Introduction to issues in organization of information and documents including: analysis of intellectual and physical characteristics of
documents; principles and practice in surrogate creation, including standards and selection of metadata elements; theory of classification, including semantic relationships and facet analysis; creation of controlled vocabularies; and display and arrangement.

LIS 531 Catalogs, Cataloging, and Classification (4) Develops an understanding of library catalogs as information retrieval systems. Introduces library cataloging and classification. Focus on principles and standards in the creation of catalogs and cataloging records. Includes practice in descriptive and subject cataloging and classification. User perspective emphasized throughout. Prerequisite: LIS 530.

LIS 533 Advanced Cataloging and Classification (4) In-depth theory and practice in library cataloging and classification. Includes introduction to cataloging materials in a variety of formats. Prerequisite: LIS 530, and LIS 531.

LIS 534 Indigenous Systems of Knowledge (3) Conceptual foundations and comparative analysis of indigenous knowledge organization systems. Feasibility and use of contemporary knowledge organization mechanisms including thesauri and ontologies in expressing the cultures and artifacts of indigenous peoples. Prerequisite: LIS 530 or permission of instructor.

LIS 536 Metadata for Interactive Media (3) Explore new ideas and approaches for organizing and providing access to interactive media, particularly from a user-centered perspective. Design and conduct formative and evaluative user studies employing various qualitative and quantitative methods to determine information needs and seeking behaviors of various stakeholders in one or more interactive media domains. Offered: jointly with IMT 536.

LIS 537 Construction of Indexing Languages (4) Exploration of the design, construction, evaluation, and maintenance of controlled indexing languages, including studies of how users are integrated into the design process. Through completion of thesaurus construction project, prepares students to design index languages, plan and implement a design project, and evaluate indexing languages. Prerequisite: either LIS 530 or IMT 530. Credit/no-credit only.

LIS 539 Metadata Design (3) Design principles of metadata schemas and application profiles - implementation of interoperable application profiles using XML technology. Focuses on achieving syntactic and semantic interoperability among diverse metadata schemas and application profiles. Prerequisite: either LIS 530 or IMT 530; LIS 542 or IMT 542; or permission of instructor. Offered: jointly with IMT 539.

LIS 542 Information Structures Using XML (4) Introduces the concepts and methods used to analyze, store, manage, and present information and navigation. Equal weight given to understanding structures and implementing them. Topics include information analysis and
organizational methods as well as XML and metadata concepts and application. Offered: jointly with IMT 542.

LIS 543 Relational Database Management Systems (4) Introduces relational database design, implementation, and management, with a focus on using relational database management systems (DBMS) to manage data in an organization. Topics include: data modeling tools and techniques, conceptual and logical database design, physical implementation, SQL, data management, and database administration. Recommended: INFX 502. Offered: jointly with IMT 543.

LIS 544 Information Retrieval Systems (3) Introduction to theory and models in information retrieval and the systems for storage and retrieval of unstructured information. Examines information retrieval architectures, processes, retrieval models, query languages, and methods of system evaluation, methods and tools for document analysis, interfaces, and usability.

LIS 545 Fundamentals of Data Curation (4) Examines principles, practices, and trends in the curation of digital research data. Provides a foundation in data management and data services for professional in institutions involved with data intensive research, scholarship, and innovation. Emphasizes data sharing, preservation, open access, metadata, and policy for development of reusable and accessible data resources.

LIS 547 Design Methods for Librarianship (4) Focused on the human fabric of libraries - stakeholders, values, information technology, and policy - students develop theoretical knowledge and practical skills for design. Methods include futures workshops, scenarios, paper-prototyping, usability methods, among others. To conceptualize and steer design processes, the course includes an introduction to design methodologies and theory.

LIS 549 Beginning Web Development (4) Teaches students how to build custom websites/applications from scratch, manage files in a version control system, and deploy them to publicly-accessible web servers. Focus is on client-side technologies, including HTML, CSS, and JavaScript. Existing basic programming knowledge is beneficial but not required. Offered: jointly with IMT 549.

LIS 550 Information and Society (3) Covers concepts, processes, and issues related to the larger social context within which the life cycle of information and knowledge in society are investigated. Discussion topics include codes of ethics, professionalization, privacy, freedom of expression, intellectual property, social inequalities, and quality of life.

LIS 551 Intellectual Freedom in Libraries (3) Analysis of issues related to intellectual freedom, particularly to implications for libraries and librarians. Consideration of current legal climate, conformity versus freedom in modern world, librarian as censor, social responsibility and individual freedom, intellectual freedom of children, prospects for future. Credit/no-credit only.

readings in information science, history, philosophy, psychology, and anthropology, students will learn to unpack, problematize, and critique current conceptions of the role of information in society.

LIS 553 Information and Social Justice (3) Information technologies have the potential to help improve the quality of life of marginalized, underserved and impoverished communities around the world, and to promote social justice and inclusion. This course critically explores the intersection between information technologies, social change, and social justice.

LIS 556 Information Ownership and Control: Intellectual Property, Privacy, and Freedom of Speech (3) Concepts, processes, and issues related to the larger social context within which information and knowledge is owned, controlled, and accessed. Discussion topics include the ethics of copyright, patent, and trade secrets; intellectual freedom and access to information; privacy and the control of personal information; misinformation and "fake news."

LIS 560 Instructional and Training Strategies for Information Professionals (3) Develops knowledge and skills in instruction while applying theories of information literacy, teaching, and learning to instruction in an information environment. Teaches students how to design, develop, and evaluate instructional programs for specific users.

LIS 561 Storytelling in a Digital Age (3) Instruction in the art and technique of oral and digital storytelling for all ages. Addresses both traditional and contemporary modes of storytelling, including transmedia. Sources include personal and family stories, folktales, and literary stories. Also explores non-library storytelling: therapeutic storytelling, organizational storytelling, and storytelling for qualitative research.

LIS 564 Multicultural Resources for Youth (3) Facilitates development of cross-cultural competence through authentic resources for children, tweens, and teens produced by or about ethnic minorities in the United States. "Issues" focus, providing knowledge in critical examination of various genres of multicultural resources as well as in strategies to use them.

LIS 565 Resources for Digital Age Children (3) Introduces selection and evaluation of traditional, digital, and transmedia resources used by public and school libraries for children, birth to age twelve. Applies theories form human development, information behavior, and digital media research to the identification of developmentally appropriate selections and provision of readers'/users/ advisory for children. Prerequisite: LIS 516.

LIS 566 Resources for Digital Age Teens (3) Introduces selection and evaluation of traditional, digital, and transmedia resources used by public and school libraries for teens. Applies theories form human development, information behavior, and digital media research to the identification of developmentally appropriate selections and provision of readers'/users/ advisory for teens. Prerequisite: LIS 516.

LIS 567 Libraries as Learning Labs in a Digital Age (3) Application of theories and research on youth development to inform practice about programming and resources for youth. Create
programs based on current research, including programming such as story times, book talks, and maker spaces. Prerequisite: LIS 516.

LIS 568 Information Literacy in a Digital Age (3) Explores theories, process, and practical applications of information literacy. Examines the development of information literacy programs for libraries, community agencies, business, education, and other information settings. Explores the integral relationship between technology and information literacy, and assessment and evaluation of programs. Prerequisite: LIS 560.

LIS 570 Research, Assessment, and Design (4) Students recognize research and design opportunities, translate them into researchable frameworks, and conduct research in libraries and other information agencies. Covers problem definition, data collection and analysis, design and validation of alternative solutions, and reporting of results.

LIS 572 Introduction to Data Science (4) Introduces a broad, non-technical overview of key concepts, skills, and technologies used in "data science". Provides a high-level introduction to common data science pipelines, such as experimental design, data collection and storage, basic analytics, machine learning, and data visualization, focusing on analyzing in real-world datasets using industry standard statistical packages. Offered: jointly with IMT 572.

LIS 578 Research Seminar (1-4, max. 10) Students work in teams under the supervision of individual faculty members to engage in research or design activities and learn through hands-on participation and study. Learning activities include data collection, data analysis, building prototypes, testing or evaluation, or dissemination activities. Offered: jointly with IMT 578.

LIS 579 Instructional Strategies for Legal Information (2) Develops knowledge and skills in instruction suited for working in a law library environment. Includes how to create and design a legal research course syllabus, how to use appropriate classroom technology, and how to give an effective presentation.

LIS 580 Management of Information Organizations (4) Introduction to internal and external management issues and practices in information organizations. Internal issues include organizational behavior, organizational theory, personnel, budgeting, planning. External issues include organizational environments, politics, marketing, strategic planning, funding sources.

LIS 581 Marketing and Planning for Libraries (3) Approaches to planning and marketing library products/services. Examines partnerships that can be forged between elements of marketing and appropriate futures strategies for libraries. Discusses marketing and planning as integrated processes with attention to short- and long-term goals and objectives. No particular library institutional setting is assumed.

LIS 582 Community Engagement Strategies in Information Science (3) Introduces students to strategies for building and sustaining relationships with community partners and other organizations to provide innovative services possible inside and outside of libraries. Students examine case studies, consider partner resources and needs, evaluate outcomes, and develop partner-based services in order to achieve community impact.
LIS 583 Cross Cultural Approaches to Leadership (3) Explores alternative leadership models as reflected in the literatures of multiple cultures. Examines ethical dimensions of leadership in the context of complex relationships among the peoples and agencies that comprise the global environment. Uses imagination in the application of cross cultural forms of leadership. Prerequisite: permission of instructor.

LIS 584 Knowledge Management (3) Introduction to contemporary topics in management of knowledge creation and use in organizations. Discussion topics include knowledge generation, knowledge taxonomy, knowledge transfer, organizational knowledge management practice, and knowledge management systems.

LIS 585 Administration Library Programs for Youth in a Digital Age (3) Develops competency in administering library programs for children and youth in public and school libraries. Management of information and technology literacy instruction, administration of reading advocacy, and information management and services. Acquiring organizing, and managing resources for access and use, and communicating programs to young users. Prerequisite: LIS 580.

LIS 586 Public Libraries and Advocacy (3) Examines the purpose and role of public libraries in an information society. Includes governance, services, and planning with special emphasis on advocacy for the library and community.

LIS 587 Library Technology Systems (4) Developing criteria for selection and design of information technology systems for libraries and information centers. Applying criteria in evaluation of hardware and software. Examining related management challenges, such as vendor relations, financing options, personnel requirements, and design of auxiliary activities. Prerequisite: LIS 580.

LIS 588 Special Librarianship (3) Seminar in the practice of special librarianship in business and commercial firms, government agencies, other non-profits, and the independent consultant sector. Emphasis on management of non-traditional information organizations and the targeted information role.

LIS 589 Academic Librarianship (3) Academic librarianship is a complex combination of tradition and innovation. Academic libraries are redefining themselves, with changes in physical space, job titles, and the format of collections. This course examines the forces at work in academic libraries, from politics to technology, using the lens of social justice and equity.

LIS 590 Directed Fieldwork (1-5, max. 10) Minimum of 50 hours, maximum 250 hours of professional, supervised fieldwork in a library or professional information setting. Fieldwork is a one quarter experience, however, may be repeated in a different setting with different learning objectives for a subsequent quarter. Prerequisite: LIS 510 or LIS 547, LIS 520, LIS 530, and LIS 570 Credit/no-credit only.

LIS 592 Legal Research Methods (3/4) Legal tools that answer more complex legal research problems, such as federal legislative histories, sources of administrative law, specialized subject research. Federal emphasis. Builds on skills and techniques taught in LIS 591/LAW A 598. Extensive work with online resources. Offered: jointly with LAW A 599.

LIS 593 Collection Management in Law Libraries (3) Study of tools for collection development and collection development plans in law libraries. All law library technical processes, including acquisitions, budgeting, cataloging, and serials.

LIS 594 Management Skills in Law Libraries (3) Management topics in law libraries, including organizational structure, personnel, communication skills, project management, supervision and training. Credit/no-credit only.

LIS 595 Research and Writing in Law Librarianship ([1-5]-, max. 5) Students select a topic in law librarianship in collaboration with the faculty member, research it fully, write a major paper, and present their paper. Topics may include historical trends, citation reform, digital media, user studies, etc. Prerequisite: law librarianship majors or permission of instructor. Credit/no-credit only.

LIS 596 Capstone I - Project Planning (2) Analysis and preliminary design of an approved individual or group research or implementation project demonstrating professional-level knowledge and skills. Cannot be taken for credit if credit received for IMT 596. Prerequisite: Completion of 30 credit hours Credit/no-credit only.

LIS 597 Capstone II - Project Implementation (3) Implementation of a project demonstrating professional-level knowledge and skills based on a project plan developed in IMT 596. Cannot be taken for credit if credit received for IMT 597. Prerequisite: LIS 596 Credit/no-credit only.

LIS 598 Special Topics in Information and Library Science (1-6, max. 18) Seminar dealing with various topics in information and library science. Offered by visitors or resident faculty. Topics are changed from quarter to quarter. May not be offered every quarter. Prerequisite: determined by specific course.

LIS 600 Independent Study or Research (*) Credit/no-credit only.
Interdisciplinary Graduate Degree Programs

Astrobiology

Program Overview

C319 Physics-Astronomy Building

Astrobiology - the study of life in the universe - investigates the wide range of multidisciplinary factors that may influence the origin and evolution of life on Earth and beyond. Such investigation demands intense interdisciplinarity, for which the astrobiology program at the UW is creating a community of scholars, investigators, and educators.

Astrobiology at the UW builds on the strengths of traditional academic structure to transcend the limits of specialization.

The graduate certificate program offers an interdisciplinary curriculum in cooperation with the PhD programs of participating departments. Participating graduate students gain personal and professional skills necessary to successfully engage in multidisciplinary collaborations.

Graduate Program

Graduate Program Coordinator  C304 Physics-Astronomy, Box 351580  206-685-2392
office@astro.washington.edu

Graduate Certificate Program

Participating UW academic departments: Aeronautics and Astronautics; Astronomy; Atmospheric Sciences; Biochemistry; Biology; Genome Sciences; Earth and Space Sciences, History (of Science), Microbiology; Oceanography

Admission Requirements

Students must be accepted for admission by the PhD program of one of the departments listed above.

Certificate Requirements

15 credits minimum

1. ASTBIO 501, ASTBIO 502
2. Three astrobiology-only seminar series (1 credit)
3. One approved cognate course (see program website for current list of cognate courses)
4. Research rotation in an area outside the student's home discipline (one quarter, 3 to 10 credits)
5. Minimum three workshops comprising the capstone experience (non-credit)
6. Astrobiology ethics seminar (variable credits)

Additional credits may be earned through:

- Other approved cognate courses
- Astrobiology public lecture series (1 credit)

Minimum cumulative 3.00 GPA for all required courses and minimum 2.7 grade for each elective course.

**Course Descriptions**

**ASTBIO 501 Astrobiology Disciplines (4)** R. BUICK, D. CATLING, V. MEADOWS Review of research and subject matter relevant to astrobiology from within the disciplines of biology, astronomy, oceanography, atmospheric science, chemistry, planetary science, and geology. Offered: A, even years.

**ASTBIO 502 Astrobiology Topics (4)** R. BUICK, D. CATLING, V. MEADOWS Investigation in detail of research topics of current interest. Offered: A, odd years.

**ASTBIO 550 Professional Development for Astrobiology (2)** Seminar in preparation for the academic job market; writing and reviewing grant proposals; building and managing interdisciplinary research teams; understanding the multiple career paths available in astrobiology; interdisciplinary teaching; and professional ethics. Credit/no-credit only. Offered: W, odd years.

**ASTBIO 575 Seminar in Astrobiology (1, max. 10)** Discussion of recent research in astrobiology. Credit/no-credit only. Offered: W, even years.

**ASTBIO 576 Astrobiology Colloquium (1, max. 15)** Current research topics in astrobiology. Credit/no-credit only. Offered: ASp.
ASTBIO 600 Independent Study or Research (*) Study or research under the supervision of individual faculty members.
Biomolecular Structure and Design

N107 Foege, Box 355061

The department's graduate program educates doctoral students for careers involving teaching or research in the biomedical sciences. Graduates have a broad knowledge of biological structure at all levels, from the molecular to the human anatomical, with a major emphasis on the cellular level.

Students select research and teaching options. Research options provide training for a student in one or two of the following areas: cell and developmental biology, neurobiology, quantitative biology, cellular immunology, molecular biology, and macromolecular structure. Teaching options prepare the student to teach in one of the anatomical sub-disciplines: human anatomy, neuroanatomy/neurobiology, histology, embryology/developmental biology, cell biology, and macromolecular structure.

Graduate Program

Graduate Program Coordinator  G514 Health Sciences, Box 357420  206-543-5474

Master of Science

Admission Requirements

1. Minimum 3.00 GPA
2. Bachelor's degree in one of the following or a related area: chemistry, biology, physics, biochemistry, or biophysics.
3. GRE
4. Minimal course requirements for successful applicants:
   a. Chemistry: general, organic, and physical
   b. Physics: one year
   c. Mathematics: one year of calculus; multivariable calculus and/or linear algebra strongly recommended
   d. Biology and/or biochemistry: one year general biology plus one advanced course in biology or biochemistry
5. Undergraduate research experience strongly recommended
6. International students must have a minimum score on one test as follows: 7.0 IELTS; 92 TOEFL iBT; 237 TOEFLC; 580 TOEFL; 90 MLT.
7. International students planning to study with BMSD faculty in the Chemistry Department must have a minimum score on one test as follows: 26 on the speaking portion of the TOEFL iBT; 7.0 on the speaking portion of the IELTS; 70 on the Versant English Test; 55 on the TSE; 230 on the SPEAK test administered at the UW.
Degree Requirements

36 credits

1. Required courses: BIOC 530; BMSD 540, BMSD 541, BMSD 542; BMSD 520 taken every quarter

2. 12 graded elective credits covering at least three of the following four BMSD topics: biomolecular structure, techniques in biomolecular structure, molecular and cellular biology, and chemistry

3. At least one sequence of Biomedical Research Integrity workshops in the first or second year, offered summer quarter each year.

4. Teaching: serve as teaching assistant two quarters

5. Research: rotate through a minimum of two and a maximum of three participating laboratories during the first year. Students may also do an early rotation during summer quarter.

Course Descriptions

BPSD 520 Research Seminar (1, max. 30) Group conferences on graduate student research. Prerequisite: BPSD graduate student or permission of instructor.

BPSD 540 Literature Review (2) D. VEESLER Emphasizes critical evaluation of original articles in the literature. For first-year graduate students in biochemistry and students of other science departments, with permission of instructor. Offered: jointly with BIOC 540; A.

BPSD 541 Literature Review in Biomolecular Structure and Design (2) Emphasizes critical evaluation of original articles in literature from all fields relevant to biological physics, structure, and design. Emphasizes scientific writing and oral presentations. Prerequisite: first year BPSD student or permission of instructor. Offered: W.

BPSD 542 Literature Review in Biomolecular Structure and Design (2) Emphasizes critical evaluation of original articles in literature from all fields relevant to biological physics, structure, and design. Emphasizes scientific writing and oral presentations. Prerequisite: first year BPSD student or permission of instructor. Offered: W.

BPSD 599 Introduction to Research in Biomolecular Structure and Design (3-6, max. 24) Students work with one of the research groups within the Biological Physics, Structure and Design program. Minimum two rotations must be in a different laboratory. Prerequisite: BPSD student or permission of instructor. Offered: AWSpS.
Biology Teaching

Program Overview

The Biology Teaching Group offers an interdisciplinary master of science degree for teachers. Although designed specifically for biology teachers in K-12 schools and community colleges, other life science educators, such as those in environmental learning centers, may find the program especially worthwhile. Each student performs an in-depth study of a biological science problem in the context of its relevance to the teaching of biological science.

Graduate Program

Graduate Program Coordinator  222 Hitchcock, Box 355320  206-543-1689

Master of Science

Admission Requirements

1. Secondary teaching certificate or evidence of professional involvement in K-12 or public education
2. Bachelor's degree in biology or closely related field. Students in related fields must have adequate preparation in science.
3. Minimum 3.00 GPA in the most recent 90 graded quarter credits (60 semester credits)
4. GRE test scores
5. Two or three letters of recommendation
6. Statement of professional experience and objectives

Degree Requirements

36 credits

1. Minimum 18 graduate-level credits; 18 graded credits (categories are not mutually exclusive)
2. All coursework at the 400 level or above
3. Minimum one course from each of the following areas: botany, genetics, microbiology, zoology; and from the College of Education. One course in biochemistry, unless already completed in prior academic work. Courses in biomedical history, fisheries, forest resources, environmental studies, and related fields may be appropriate.
Interdisciplinary Data Science Group

Course Descriptions

DATA 501 Data Science Visualization Lab (1) The Data Science Visualization Lab class will provide students additional opportunities to practice and discuss data visualization concepts, with additional emphasis on user-centered design approaches and software development. Students will work in small groups on structured data visualization exercises and UCD methods, and implement simple visualizations.

DATA 512 Human-Centered Data Science (5) Fundamental principles of data science and its human implications. Data ethics, data privacy, differential privacy, algorithmic bias, legal frameworks and intellectual property, provenance and reproducibility, data curation and preservation, user experience design and usability testing for big data, ethics of crowdwork, data communication and societal impacts of data science.

DATA 514 Data Management for Data Science (5) Introduces database management systems and techniques that use such systems; data models, query languages, database tuning and optimization, data warehousing, and parallel processing. Intended for professional students and non-CSE-majors. Offered: jointly with CSE D 514.

DATA 515 Software Design for Data Science (5) Introduces software design and engineering practices and concepts, including version control, testing, and automatic build management. Intended for professional students and non-CSE-majors. Prerequisite: CSE D/DATA 514 or permission of instructor. Offered: jointly with CSE D 515; Sp.

DATA 516 Scalable Data Systems and Algorithms (5) Principles and algorithms for data management and analysis at scale. Designs of traditional and modern big data systems and how to use those systems. Basics of cloud computing. Prerequisite: CSE D/DATA 514 and CSE D/DATA 515 or permission of instructor. Offered: jointly with CSE D 516; A.

DATA 556 Introduction to Statistics and Probability (5) Overview of probability; conditional probability and independence; Bayes Theorem; discrete and continuous random variables including jointly distributed; key distributions including the normal and its spin offs; properties of expectation and variance; conditional expectation; covariance and correlation; Central Limit Theorem; law of large numbers; Parameter Estimation. Offered: jointly with BIOST 556/STAT 556; A.

DATA 557 Applied Statistics and Experimental Design (5) Inferential statistical methods for discrete and continuous random variables including tests for difference in means and proportions; linear and logistic regression; causation versus correlation; confounding; resampling methods; study design. Prerequisite: STAT/BIOST/DATA 556 or instructor's permission. Offered: jointly with BIOST 557/STAT 557; W.
DATA 558 Statistical Machine Learning for Data Scientists (5) Bias-variance trade-off; training versus test error; overfitting; cross-validation; subset selection methods; regularized approaches for linear/logistic regression: ridge and lasso; non-parametric regression: trees, bagging, random forests; local regression and splines; generalized additive models; support vector machines; k-means and hierarchical clustering; principal components analysis. Prerequisite: STAT/BIOST/DATA 557, or permission of instructor. Offered: jointly with BIOST 558/STAT 558; Sp.

DATA 590 Data Science Capstone I- Project Preparation (2) Part one of a two-course capstone sequence where students organize project teams, select project topics, write a project proposal and begin preparing project data sets.

DATA 591 Data Science Capstone II- Project Implementation (3) Part two of a two-course capstone sequence designed to build upon the student driven project from DATA 590. Students will synthesize and apply knowledge and techniques acquired throughout the MSDS program in working with large data sets, deriving insights from data and sharing insights with other people. Prerequisite: DATA 590

DATA 598 Special Topics in Data Science (1-5, max. 15) Introduction to innovative and specialized topics relating to the study of data science in any context.
Environmental Management

Program Overview

274 Mary Gates Hall

The graduate certificate in Environmental Management (EM) is an interdisciplinary program that prepares students to contribute to sustainable utilization and enhancement of the natural and human environment. Students acquire tools to solve real-world environmental problems via science, policy, and business. Keystone projects provide an opportunity for graduate students to gain practical experience working in an interdisciplinary team with students from a variety of disciplines, a faculty mentor, and in collaboration with a community partner. The EM program provides education and training opportunities for graduate students preparing for management careers in the non-profit, for-profit, and public sectors, as well as for those who contribute legal, scientific, and technical expertise to environmental decision making locally, nationally, and internationally. Key benefits include:

- Broadening knowledge, perspectives, and skills through core courses, keystone projects, and participation in a community of faculty and students from various departments that share the common goal of environmental stewardship and sustainability.
- Gaining practical experience crafting interdisciplinary solutions to real-world environmental issues and making connections with community partners outside the University.
- A record on the transcript from the Graduate School documenting completion of the interdisciplinary program.

The flexible curriculum is suitable for students from many backgrounds, such as engineering, physical and natural sciences, public policy, economics, geography, public health, and political science, to name a few. There is no other comparable interdisciplinary experience currently available to graduate students at the UW.

Graduate Program

Graduate Program Coordinator 274 Mary Gates Hall Box 352802 206-221-6129
envirmgt@uw.edu

Graduate Certificate

Admission Requirements

1. Enrollment in a graduate and professional degree program in any school of the UW
2. Completion of a one-quarter upper-level or graduate-level course in applied quantitative methods (e.g., microeconomics, numerical modeling, applied statistical methods) or pure quantitative methods (e.g., mathematics or statistics); or social or natural science
3. Facility with written argument and communication, demonstrated in the letter of application

Courses and projects prepare students to contribute legal, scientific, social science, and technical expertise to environmental decision making at the local, national, and international scales. Students broaden their knowledge and skills base beyond their home discipline; read material from other fields with critical facility; understand and appreciate the goals and analysis methods common to other fields; and appreciate, communicate with, and collaborate with experts from other fields, who have different perspectives and priorities.

**Certificate Requirements**

Minimum 20 credits

1. Three core courses (9+ credits): courses vary by year
2. Team-based keystone project (8 credits): ENVIR 511, ENVIR 512
3. Electives (3+ credits): selected in consultation with the Graduate Program Coordinator and approved by the EM director
Graduate School

Course Descriptions

GRDSCH 200 Preparing for Graduate Education (2) Explores graduate education and its structure and organization. Students use interactive assignments, individual reflective work, and professional portfolio development to explore their preparation for graduate education, and develop strategies for pursuing graduate school. Credit/no-credit only.

GRDSCH 501 TA Preparation (1) C. CHANCELLOR A hybrid course (in-person at the TA Conference in September and online during Autumn Quarter) to support graduate students in their work as TAs. Students will gain post-conference support, opportunities to connect with other students, and strategies and resources for their teaching and research roles. Credit/no-credit only. Credit/no-credit only. Offered: A.

GRDSCH 515 Teaching and Learning in Higher Education: Frameworks and Practices (2) Designed for graduate students seeking to build knowledge and skills in effective teaching practices as a teaching assistant or independent instructor. Students will be introduced to fundamental pedagogical frameworks and practices applicable across the disciplines in: Course design, assessment, active learning strategies, teaching inclusively, and using technology effectively in teaching. Credit/no-credit only.

GRDSCH 540 Hybrid Pedagogies: Using Technology in Teaching (2) C. CHANCELLOR, K. MALCOLM Students explore pedagogies and practices using technologies for promoting student learning through active engagement; designing and assessing online assignments; and teaching inclusively. Through a blend of face-to-face and online class meetings, students will experience and reflect on models of hybrid teaching. Credit/no-credit only.

GRDSCH 550 Teaching in Global Classrooms: Strategies for Teaching International and Multilingual Students (1) Explores teaching and learning opportunities created by the increasing enrollment of international and multilingual students in U.S. universities. Focuses on evidence-based teaching practices that leverage the diverse linguistic and cultural assets of global classrooms to enrich learning for all students. Credit/no-credit only.

GRDSCH 595 Teaching and Learning in Higher Education: From Campus to Career (2) Focuses on the development of teaching materials for academic job searches. Centers on developing engaging and comprehensive written materials that dovetail with research materials. Includes online group work, peer review, and mock interviews. Recommended for advanced graduate students, year 3 or beyond Credit/no-credit only.

GRDSCH 610 Teaching Mentorship (3, max. 6) Individualized project, under the direction of a faculty member, focused on issues of teaching and learning at the college/university level and designed to enhance the student's ability to make innovative contributions in teaching. Prerequisite: permission of faculty member, graduate program coordinator, and the Associate Dean of the Graduate School. Credit/no-credit only.
GRDSCH 615 Teaching Assistant and Research Assistant Preparation (1-6, max. 6)
Instruction and teaching, learning, research, and resources for teaching and research assistants. Credit/no-credit only.

GRDSCH 620 Teaching Mentorship Seminar (2) Credit/no-credit only.

GRDSCH 630 Special Topics in College/University Teaching (2, max. 6) Interdisciplinary discussion of topics related to college/university teaching, with an emphasis on innovative teaching and preparing for faculty careers. Designed to address topics across disciplines, as a complement to discipline-specific courses offered in departments. Credit/no-credit only.

GRDSCH 640 Seminar on Topics of Diversity and Justice (1) Interdisciplinary course which engages students as co-creators of a learning environment. Through guest presentations, facilitated discussions, small group work, and other dynamic learning, students gain critical understanding of privilege based on intersecting identities and its use. Also, students will gain skills to work across differences to address oppression. Credit/no-credit only.
Health Services Administration

Graduate Program

Graduate Program Coordinator - In-Residence and Executive Programs H660 Health Sciences, Box 357660 206-543-8778 mhap@uw.edu

Health Services Administration offers two tracks for earning a Master of Health Administration (MHA) degree: a traditional day program (MHA) and an executive program (EMHA).

The MHA provides the educational foundation for careers in management, planning, consulting, and policy-making in ambulatory care organizations, hospitals, long-term care facilities, mental health care organizations, government agencies, planning agencies, and other organizational settings in the healthcare field.

The program develops leaders prepared to transform healthcare organizations and systems at the local, regional, and national level. Interdisciplinary priority is evidenced by faculty assembled from the graduate schools of Public Health, Foster School of Business, Public Affairs, Nursing, Medicine, and Law, as well as from healthcare administration leaders in the Seattle metropolitan area.

Concurrent degree programs combining health administration with business, medicine, law, public health, or public administration are also an option for in-residence students. Many can be completed in three years of intensive academic study.

For in-residence MHA students, the two-year academic experience is augmented by a career development program with opportunities for mentorships with regional healthcare leaders, an internship experience in a health facility or agency – typically under the preceptorship of the administrator or director of that organization.

The Executive Master of Health Administration (EMHA) is primarily for mid-career physicians and other clinical practitioners, as well as experienced health services managers, who have demonstrated interest or competency in administration or management. The team-based learning model positions students for leadership roles within such an environment. Executive students build critical competencies while benefiting from the expertise already held among the working professionals in the classroom. EMHA classes convene in Bellevue, Washington, for a three-day period (Thursday through Saturday) once each month for 24 months. Additionally, once each week faculty lead students in a web-based session, ideal for practicing professionals who plan to continue their careers while gaining a graduate degree.

Both the MHA and EMHA programs are fee-based and administered in collaboration with UW Professional & Continuing Education. Complete application details are at www.mha.uw.edu and www.executivemha.edu.
Financial Aid

Students enrolled in both the MHA and EMHA programs are eligible for federal financial aid, as well as most other types of financial support not funded by state tuition revenues. When exploring financial aid options, students should emphasize they are applying for a fee-based program. Financial aid questions should be directed to the UW Office of Student Financial Aid 206-543-6101, osfa@uw.edu.
Human-Computer Interaction Design

Course Descriptions

**HCID 510 Designing Interactive Systems (3)** Covers issues relating to the design and interactive technologies, favoring design thinking in lieu of implementation concerns. Skills include design processes, design rationale, adductive reasoning, structured brainstorming, design techniques, and design critiques.

**HCID 511 Ideation Studio (5)** Introduces student to ideation: the systematic process of generating design ideas, developing idea variations, and identifying ideas that open promising design directions; with hands-on exercises that give students the skills to participate in and lead ideation processes on their own.

**HCID 520 User Interface Software and Technology (3)** Covers fundamental skills in user interface prototyping and implementation, including tools for low and high fidelity prototyping, software architectures for implementing graphical user interfaces on desktop and mobile platforms, and the toolkits that use these software architectures.

**HCID 521 Prototyping Studio (5)** Examines user-interface prototyping as a foundational skill in user-centered design. Introduces the tools and uses hands-on exercises to enable students to create and refine user-interface prototypes as part of a design process.

**HCID 530 Usability and User Research (3)** Teaches concepts on engaging with users in the context of a technology design project. Covers both empirical and analytic evaluation techniques. Methods include user interviewing, in-lab usability testing, field deployments, heuristic evaluation, and cognitive walkthrough.

**HCID 531 Evaluation Studio (5)** Teaches concepts related to conducting user research and usability evaluations. Introduces students to the methods and hands-on exercises that will enable them to determine user needs and usability and acceptability of interactive system designs.

**HCID 540 Capstone Planning (1)** Students conduct initial research on topic themes, learn to form effective project teams, and identify appropriate industry sponsors, delivering formal project proposals. HCID students only. Offered: W.

**HCID 541 Capstone Studio (8)** Team-based capstone design an interactive product relevant to industry challenges. Students apply iterative design, prototyping and research techniques in an studio format, with peer, faculty, and industry sponsor reviews of deliverables, culminating in a portfolio presentation documenting process and final solutions. Studio content supplemented by demonstrations and guest lecturers.

**HCID 590 Design, Use, Build Seminar (1, max. 10)** Covers the latest research in human-computer interaction and design, through talks by both UW and outside researchers. Credit/no-credit only. Offered: AWSpS.
**HCID 598 Special Topics (1-5, max. 6)** Studies of emerging areas and specialized topics in human-computer interaction and design.

**HCID 599 Special Projects (1-5, max. 6)** Individual graduate projects in human-computer interaction and design.
Individual PhD Program

Graduate Program Coordinator  311 Loew Hall, Box 352192  206-543-6398

The Graduate School maintains a PhD degree granting unit, the Individual PhD (IPhD) program, for exceptionally able students in high academic standing whose objectives for study are so truly interdisciplinary that they cannot be met within one of the University units authorized to grant the PhD degree. The program is intended for dissertation topics which require supervision from two or more programs through which the University offers the PhD. Each individual program is designed by a student with input and continued guidance from the student's Supervisory Committee.

The IPhD program is not intended to be:

a. a mechanism for offering the PhD degree within units which do not have their own authorized PhD programs
b. used as an alternative for students unable to gain admission to an established program
c. sufficient justification alone for admission into the program on the basis of placing faculty from more than one department on a Supervisory Committee

Because the University's primary commitment is to established disciplinary and interdisciplinary programs, the IPhD program is quite small. Unusual student ability and motivation, as well as an increased level of attention from the entire Supervisory Committee, are required for successful completion of an IPhD degree. Admission standards are intended to exceed those of established PhD programs, and applications are reviewed at several levels.

Applications are considered once a year; admission is competitive. All decisions are final with no appeal procedures available. A rejected application can be submitted in revised form another year though a second rejection is possible. Applicants are therefore encouraged to pursue their objectives within the University's established PhD programs whenever feasible.

Doctor of Philosophy

Admission Requirements

1. MA or equivalent in a discipline or field directly related to the proposed PhD work
2. Application deadline for autumn quarter admission is February 1. See application procedures at www.grad.washington.edu/students/interdisciplinary/iphd/index.shtml.

Degree Requirements

Specific coursework and areas of concentration are determined by the student's interests within the framework of the approved proposal. The Supervisory Committee functions as for any doctoral program, signs the forms ordinarily transmitted by the sponsoring academic unit, and takes responsibility for conducting an annual review of the student's progress and submitting a
report to the Standing Review Committee. IPhD students must meet all program requirements as stipulated in the IPhD Program Manual as well as Graduate School doctoral requirements as stipulated in the current UW General Catalog.

A student's PhD Supervisory Committee, which consists of at least three members of the UW's Graduate School faculty as well as a representative of the Graduate School (GSR), must include Graduate Faculty members from at least two University units which offer the PhD degree. For additional information regarding Supervisory Committees, refer to Graduate School Memo 13 or the UW General Catalog.

**Course Descriptions**

**IPHD 600 Independent Study (*/-)**

**IPHD 800 Doctoral Dissertation (*/-)**
Molecular and Cellular Biology

Program Overview

The Molecular and Cellular Biology program (MCB) applies the techniques of molecular and cellular biology to advance the understanding of basic biological sciences. The doctoral program broadly trains students to think about science in a rigorous and critical manner. Since scientific methods, equipment, and knowledge are changing rapidly, students learn to focus on important issues in an evolving research environment. The program is appropriate for students interested in future careers in research and teaching in academia as well as biotechnology and pharmaceutical companies.

Twelve departments across three schools have faculty members actively pursuing research in molecular and cellular biology. They include Biochemistry, Bioengineering, Biological Structure, Biology, Environmental Health, Genome Sciences, Immunology, Microbiology, Pathobiology, Pathology, Pharmacology, and Physiology and Biophysics.

At the Fred Hutchinson Cancer Research Center (FHCRC), the divisions of basic sciences and molecular medicine participate in the joint Molecular and Cellular Biology graduate program. Shared FHCRC facilities are available for electron microscopy, flow cytometry, tissue culture, and image analysis. A biotechnology center for DNA and protein synthesis and sequencing, animal facilities, a biological production facility that focuses on monoclonal antibody production, extensive libraries, and a biocomputing center provide further support.

MCB has relationships with the Institute for Systems Biology (ISB) as well as Seattle Biomed, thus allowing MCB students access to laboratories conducting research using a systems approach to biology or a global focus on infectious disease.

Faculty Interests

Over 250 faculty members from the UW, the FHCRC, the ISB, and Seattle Biomed research molecular and cellular biology and are skilled in training graduate students. Faculty research interests include cancer biology; genetics: genomics and evolution; microbiology, infection, and immunity; molecular structure and computational biology; and neuroscience.

Graduate Program

Graduate Program Coordinator  T466 Health Sciences, Box 357275  206-543-0253  mcb@uw.edu
Doctor of Philosophy

Admission Requirements

1. Baccalaureate or advanced degree by the time of matriculation; degrees emphasizing biology, physical or natural sciences, and mathematics preferred.

2. GRE scores. General Test. A Subject Test (e.g., biology, biochemistry, chemistry) is not required but recommended.

3. Letters of recommendation

4. Statement of purpose

5. Personal resume

Degree Requirements

90 credits

1. Credit Requirements: 21 graded credits of coursework with 9 credits of the CONJ series and 12 credits of graded elective courses. MSTP students receiving a PhD through the MCB program must have 18 graded credits, and should petition MCB directors to accept medical school courses in lieu of the remaining 3 credits.

2. First Year: Complete most course requirements, select a permanent adviser, and establish a doctoral Supervisory Committee. A typical first-year class schedule includes six five-week modules of the MCB conjoint series, three lab rotations, three quarters of literature review and one or more graded elective classes. Following the third rotation, students generally pursue research.

3. Second Year: Form doctoral Supervisory Committee by the end of December, define doctoral projects, take additional elective courses, participate as teaching assistant for a minimum of one quarter, complete either a second academic teaching assistantship or an alternative education experience, and hold first committee meeting.

4. Third Year and Beyond: Complete the general examination. Focus on dissertation research. Final examination and dissertation.

Financial Aid

The MCB Program provides a stipend plus tuition and health benefits for the first year of study. Then students choose a doctoral committee, and subsequent years of support are provided by the department of the committee chair. Students maintaining satisfactory academic progress receive funding for the duration of their graduate training.

Course Descriptions

MCB 508 Teaching College Science: Theory, Methods and Practice (2) B. Wiggins Covers the theory and methods of high-level student-centered instruction for diverse college students. Covers active learning and mentored teaching, evaluation design and implementation, fostering of instructor-student relationships, course design and foundational principles of the learning
sciences. Students will later apply this material as an Instructor of Record of their own course in an undergraduate department at UW. Credit/no-credit only. Offered: A.

**MCB 511 Cell Cycle Control (3)** *Breeden, Roberts, Edgar* Studies recent advances in understanding cell-cycle control, arising from genetics and biochemical studies of fission and budding yeast, marine invertebrates, Drosophila, amphibians, and cultured cells. Addresses the biochemical processes and molecular interactions and the rate-limiting events in the cell cycle, and the coupling of those events to physiological signals. Offered: A.

**MCB 512 Scientific Speaking Seminar (1.5)** *Biggins, Peichel* Teaches how to effectively give a scientific seminar about research. Offered: jointly with CONJ 512; W.

**MCB 513 Development Journal Seminar (1, max. 12)** *Moens, Soriano, Swalla* Examines current literature about specific topics in developmental biology. The seminar chooses current monthly topics and the group meets weekly to discuss published research papers. Topics may include: germ cell specification; cell migration and morphogenesis; axis formation; somitogenesis and stem cells. Offered: AWSp.

**MCB 514 Molecular and Cellular Biology Literature Review (2)** *Raible* Emphasizes critical evaluation of the original literature orally and in writing. Open only to first-year students in the Molecular and Cellular Biology program.

**MCB 515 Molecular and Cellular Biology Literature Review (2)** *Emerman* Emphasizes critical evaluation of the original literature orally and in writing. Open only to first-year students in the Molecular and Cellular Biology Program. Offered: W.

**MCB 516 Molecular and Cellular Biology Literature Review (2)** *Emerman* Emphasizes critical evaluation of the original literature orally and in writing. Open only to first-year students in the Molecular and Cellular Biology Program. Offered: S.

**MCB 517 Topics in Molecular and Cellular Biology (1-5, max. 40)** Advanced in-depth coverage of specific areas of molecular and cellular biology of current interest. Lectures by University of Washington faculty and invited speakers involved in research in this area. A basic knowledge of principles of molecular and cellular biology assumed.

**MCB 519 Topics in Cancer (1, max. 6)** Examination of ways to integrate basic, clinical, and public health sciences to increase understanding of human biology and disease. Seminars in introduction to cancer research as viewed by basic, clinical, and public health sciences, origins of cancer, cancer prevention, cancer progression, and therapies for cancer. Credit/no-credit only.

**MCB 520 Tutorial in Molecular and Cellular Biology (1-2, max. 40)** *M. Emerman* Special topics reading and discussion. Offered: A.

**MCB 522 Development I: The Developmental Basis of Human Disease (3)** *Moens* Uses recent discoveries in human genetics to guide student learning about animal development. Explores the normal developmental function of genes that have been identified as causal in
human developmental disorders such as skeletal dysmorphologies, ciliopathies, autism, and cancer. Offered: A, odd years.

**MCB 529 Cell Migration (1.5)** Cooper, Moens Explores mechanisms of cell migration in vivo and in cell culture. Discusses the cell biology of different forms of cell migration, the extracellular cues that direct migration, and how these cues are integrated by the migrating cell. Offered: jointly with CONJ 529; W.

**MCB 532 Human Pathogenic Viruses (3)** Emerman Replication, regulation, and pathogenesis of several groups of human viruses, including human immunodeficiency virus and papillomaviruses. Emphasis on the unique aspects of the viral-like cycles as they relate to effects on infected cells and organisms. Guest lecturers focus on viral immunology, measles, herpes simplex virus, and HHV-8. Offered: A.

**MCB 533 Evolutionary Genetics and Genomics (3)** Malik, Peichel Introduces classic concepts and approaches in evolutionary genetics. Familiarizes students with genomic approaches, tools and resources, and demonstrates how evolutionary approaches and modern genomic tools are brought to bear on important biological questions. Offered: A.

**MCB 539 Biological Basis of Neoplasia (3)** Kemp, Zarbl Introduces the major themes in research in the biology of neoplastic change. Covers principal molecular mechanisms responsible for tumor initiation and progression, with a specific emphasis on intracellular signaling, DNA repair, cell cycle checkpoints, and loss of normal tissue homeostasis. Offered: Sp.

**MCB 540 Nucleic Acid Enzymes (1.5)** Stoddard Surveys a wide variety of enzymatic processes that control the structure and modification of DNA and RNA, with particular focus on structure, function, and mechanism. Unifying features of major reaction types (such as phosphoryl transfers and base modifications) constitute core material. Offered: W.

**MCB 543 Logic Constructs and Methodologies of Biological Research (3)** Explores the logic and methods of general scientific practice, form historical, logical, and practical points of view. Covers philosophical and methodological matters upon which there is consensus, and cutting issues of ongoing controversy. Includes both theoretical and practical application of scientific method.

**MCB 560 Biotechnology Externship (2-12, max. 12)** Supervised research in a biotechnology company. Prerequisite: permission of instructor and doctoral candidacy. Instructors: Moon Offered: AWSpS.

**MCB 580 Teaching Practicum in Molecular and Cellular Biology (2, max. 4)** Supervised training in the teaching of molecular and cellular biology. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

**MCB 599 Research in Molecular and Cellular Biology (*) (*, max. 40)** The student rotates through one research laboratory involved in the Molecular and Cellular Biology Program per
quarter. Open only to first-year students in the Molecular and Cellular Biology Program. Credit/no-credit only. Offered: AWSpS.

MCB 600 Independent Study or Research (*-)

MCB 700 Master's Thesis (*) Offered: AWSpS.

MCB 800 Doctoral Dissertation (*)
Molecular Engineering

Course Descriptions

MOLENG 510 Molecular Engineering Principles (3) Covers molecular aspects of condensed organic materials, particularly molecular and collective interactions and resulting interfacial forces, entropic phenomena and condensation to systems of higher complexity. Includes the exploration of molecular system constraints and the molecular origin of resulting macroscale properties. Provides introduction into computer modeling.

MOLENG 515 Advanced Molecular Bioengineering (4) P. STAYTON Covers fundamentals of molecular recognition and design: thermodynamics, dynamics, and kinetics. Includes molecular design of macromolecules, recognition processes for current molecular engineering applications in biomedicine, and therapeutics based on cells. Offered: jointly with BIOEN 557; A.

MOLENG 520 Seminar in Molecular Engineering (1, max. 30) Weekly seminars on current topics in molecular Engineering. Credit/no-credit only. Offered: jointly with CHEM 597; AWSp.

MOLENG 525 Introduction to Synthetic Biology (3) Studies mathematical modeling of transcription, translation, regulation, and metabolism in cell; computer aided design methods for synthetic biology; implementation of information processing, Boolean logic and feedback control laws with genetic regulatory networks; modularity, impedance matching and isolation in biochemical circuits; and parameter estimation methods. Prerequisite: either MATH 136 or MATH 307, AMATH 351, or CSE 311 and MATH 308 or AMATH 352. Offered: jointly with BIOEN 523/CSE 586/E E 523.

MOLENG 530 Organic Electronic and Photonic Materials/Polymers (3) Physical and material concepts determining properties of organic electronic and photonic materials. Discusses electronic structure, physico-chemical characterization, and device application. Includes introduction of electronic band structure of polymers, electrically conducting polymers; organic nonlinear optical electroluminescent materials; polymer optical fibers; tow-photon absorption materials for 3-D microfabrication. Offered: jointly with CHEM 564/MSE 560; W.

MOLENG 567 Micro- and Nanostructured Biosensors (3) Focuses on biosensors based on micromachining and nanotechnology. The working principles on molecular detection and analysis are introduced with the fabrication process, system integration and evaluation. Helps students to classify biosensors detecting molecules, design the fabrication process and identify the evaluation methods. Offered: jointly with M E 567; W.

MOLENG 599 Current Topics in Molecular Engineering (1-5, max. 30) M. SARIKAYA Readings, lectures, and discussions on topics of current interest in the field of molecular engineering. Offered: AWSpS.

MOLENG 600 Independent Study/Research (*) Study and research under the supervision of an affiliated faculty member.
**MOLENG 601 Internship (1-10, max. 99)** Molecular Engineering graduate internship and Co-Op program. Requires written report. Prerequisite: Permission of supervisory committee chair. Credit/no-credit only. Offered: AWSpS.

**MOLENG 800 Doctoral Dissertation (*)** Study and research under the supervision of an affiliated faculty member.
Museology

Graduate Program

The two-year, full-time MA program attracts students from a wide range of backgrounds including, but not limited to, art history, technology, zoology, anthropology, international studies, education, and business administration. Coursework provides the foundational knowledge for museum work, regardless of a student's area of expertise, while also creating an opportunity for students to become subject-matter experts. Many classes are project-based and connect students with working museum professionals.

Box 359485 206-616-1437, 206-616-8280  uwmuse@uw.edu washington.edu/museology/

Master of Arts

Admission Requirements

1. Admission is for autumn quarter only. Application deadline: January 15
2. Baccalaureate degree from an accredited college or university in the U.S. or its equivalent from a foreign institution
3. Minimum 3.00 (or B) GPA in most recent two years of study
4. Applicants whose native language is not English must demonstrate English language proficiency.

Degree Requirements

Minimum 60 credits

The museology graduate program takes two years to complete, consisting of six quarters of academic study and research. During the first year, students carry on average between 10 and 15 credits each quarter; during the second year, the number of credits may vary depending on research, practicum, and internship work. Students may enroll part time with permission from the program director

1. Core: MUS 500, MUS 599, MUS 601, MUS 700 (minimum 24 credits)
2. Research and Evaluation: MUS 570 (required), MUS 574, MUS 575, MUS 576 (minimum 4 credits)
3. Organizational Development: MUS 560, MUS 562, MUS 566, MUS 568, and approved leadership courses in other academic units (minimum 8 credits)
4. Public Engagement: MUS 520, MUS 524, MUS 528, MUS 588, MUS 594 (minimum 8 credits)
5. Collections Stewardship: MUS 540, MUS 541, MUS 542 (minimum 3 credits)
6. Electives: outside museology (minimum 10 credits)
7. Additional credits from items 1 through 6, above, to reach minimum 60 credits

**Specialization in Museum Evaluation**

Optional specialization that integrates strengths of mentoring, fieldwork, academic, and client-centered experiences. See program website for additional information.

Museology also offers a graduate certificate in museum studies for graduate students in other UW degree programs. To qualify, students take a specified minimum set of key courses in areas that emphasize either collection research and management, or museum administration and interpretation, to include hands-on work experience. The certificate program is not currently accepting applications.

**Course Descriptions**

**MUSEUM 500 Introduction to Museology (5)** W. O’Donnell Museum history, philosophy, and basic operations, including organization, income, collection management, conservation, exhibition, security, education, research, and ethics.

**MUSEUM 520 Learning in Museums (3)** J. Luke Explore a range of learning theories and frameworks and their implications for museum practice. The course is organized around three key questions: What is learning? What do we know about learning in museums, specifically? How do we design for learning in museums?

**MUSEUM 524 Seminar in Museum Exhibition (5)** Theory, methodology, and fundamental principles of museum exhibition process. Exhibition elements include planning, conceptual development, interpretation, design, production, installation, evaluation, and community impact of museum exhibitions. Application of exhibition principles through term exhibit project.

**MUSEUM 528 Advocacy and Social Change (3)** K. Morrissey Explore the ways museums have engaged in representing and advocating for social change and the implications of that engagement. Readings, discussion, and assignments consider the fragile and interesting boundaries between museums and society and the changing expectation of museums to contribute to the common good of society. Offered: A.

**MUSEUM 540 Preservation and Management of Collections (3)** Focus on fundamental issues related to collections management, ranging from artifact handling and artifact storage solutions, to cataloging and photographing, as well as registration methods such as accessioning, deaccessioning, loans, and legal aspects of managing a museum collection.

**MUSEUM 541 Collections Management Lab (2)** Practical training in the fundamental areas of collections management including: artifact handling, cataloging, condition reporting, photodocumentation and various storage methods. Prerequisite: MUSEUM 540, or concurrent enrollment.
MUSEUM 542 Preservation of Collections II (5) Lecture and demonstrations in the recognition and treatment of museum conservation problems for specimens of all types. Application of basic principles to specific preventive and active conservation and restoration problems encountered by curatorial personnel.

MUSEUM 544 Philosophy and Ethics of Museum Collections (3) Explores ethics and issues related to collections housed in contemporary museums, addressing collections of many types including tangible and intangible aspects. Explores the meaning of "preserving cultural/natural significance": what museums, zoos, aquaria, and botanical gardens preserve, what they do not preserve, for whom, and how.

MUSEUM 560 Museum Administration and Leadership (3) W. O'Donnell Principles and practices of museum administration and leadership. Organizational structures and policies; management and leadership theory; board issues; organizational conflicts; planning issues; collection concerns; financial constructs; professional standards; and museum/community relations from an organizational and management perspective. Offered: W.

MUSEUM 562 Legal Issues in Museums (4) Explores the legal issues faced by art and science museums. Topics include copyright/trademark law, how the First Amendment protects controversial exhibits, repatriating Native American remains and cultural artifacts, donor rights, art appraising, wartime looting, and the ongoing debate over stewardship and ownership of the world's natural and cultural resources. Offered: jointly with LAW E 562.

MUSEUM 563 Who Owns Humanity? (3) A. Eisenberg Explores the legal and ethical questions surrounding the ownership of art, digital collections, ancient skeletons, biological data and DNA. How do changing views of history, education and science shape how ownership is defined in the 21st Century, and what ethical issues are raised for museums and libraries? Offered: W.

MUSEUM 566 Grant Writing in Museums (3) Students learn how to identify relevant grant funding opportunities for museums and determine the fit for a particular institution or project; gain familiarity with the components of a grant proposal; understand how proposals are reviewed, what funders typically look for, and the characteristics of a high quality grant proposal.

MUSEUM 570 Research Design and Museology Practice (4) J. Luke Prepares students to identify, interpret, analyze, and design research that advances the field of museology.

MUSEUM 574 Introduction to Museum Evaluation (3) A. Ong Provides an introduction to the field of evaluation as it relates to museum practice. Introduces basic types, ethics, and practices of evaluation and practices them through readings, reflective fieldwork, mentorships, and discussions.

MUSEUM 575 Museum Evaluation Project I (3) A. Ong Applies museological training in Museum Evaluation. Students participate in a quarter-long evaluation project, designed by instructors to further student skills in data collection, and provide an introduction to data
management, analysis and presentation within a variety of museum settings. Credit/no-credit only. Offered: Sp.

MUSEUM 576 Evaluation Project II (3, max. 9) A. Ong Applies museological training in museum evaluation. Includes design and implementation of a yearlong-long evaluation project, intended to further student skills in evaluation planning, outcome development, instrumentation design, data analysis, and reporting in a variety of museum settings. Prerequisite: MUSEUM 574; MUSEUM 575 Credit/no-credit only. Offered: AWSp.

MUSEUM 583 Directed Fieldwork in Museum Operations (1-5, max. 15) Application of general museological training in one or more areas of supervised operation areas, including registration, education, exhibition, development, marketing or public relations. Credit/no-credit only.

MUSEUM 584 Directed Fieldwork in Archaeological Collections (1-5, max. 15) Application of museological training in curation of archeological collections at the Burke Museum. Supervised work ranges from fundamental collection documentation and research to preventive conservation, storage, and other special curation projects. Prerequisite: MUSEUM 581.

MUSEUM 585 Directed Fieldwork in General Collections (1-5, max. 15) Application of museological training in the curation of art, historic, botanical, geological, zoological, or other collections. Supervised work ranges from fundamental collection documentation and research to preventive conservation or storage, and other special curation projects. Credit/no-credit only.

MUSEUM 588 Special Topics in Museology (1-5, max. 15) In-depth examination of selected current issues within the field of museology.

MUSEUM 594 Seminar in Museum Education (5) Focus on museums as educational institutions with consideration of the place of education in the mission of museums, the educational role of museums compared to that of other institutions, the museum's diverse audiences and their needs, and the educational methods and techniques museums may employ in pursuing their goals.

MUSEUM 597 Directed Fieldwork in Audience Research (1-5, max. 15) Applies museological training in visitor studies gained from audience research coursework. Includes implementation of audience research and evaluation projects within a variety of local museums, zoos, and aquaria. Students develop and practice skills in data collection, analysis, and reporting of results. Prerequisite: MUSEUM 596. Instructors: Morrissey, Satwicz, Visscher Credit/no-credit only. Offered: AWSp.

MUSEUM 599 Careers and Social Capital (3-5) O'Donnell Prepares students to transition from the academic community of a world-class university to a place of responsibility within a professional community that is committed to stewardship of the vast natural and created resources of our global communities and environments, including our stories, values, knowledge, mistakes, questions, and aspirations. Offered: Sp.
MUSEUM 600 Independent Study or Research ([1-10]-)

MUSEUM 601 Internship (1-15, max. 15) Faculty supervised off-campus internships in museums and allied institutions. Each internship is individually established and provides students with practical experience and the opportunity to apply and learn new professional skills. Prerequisite: permission of instructor.

MUSEUM 700 Master's Thesis ([1-10]-)

MUSEUM 710 Master's Project ([1-10]-, max. 10) Credit/no-credit only.
Near and Middle Eastern Studies

Program Overview

The interdisciplinary PhD program in Near and Middle Eastern Studies is designed for students who wish to pursue research with a comparative perspective in Near Eastern languages and literature: Arabic, Hebrew, Persian (or Dari or Tajik), Turkish and Central Asian Turkic languages; Near Eastern linguistics; Islamic topics, namely, Islamic law, history, institutions, theology, and mysticism; comparative religion: (Judaism, Christianity, and Islam); and interdisciplinary investigations of modern topics using the social sciences. The program, administered by an interdisciplinary Graduate School faculty group, includes courses offered in the Department of Near Eastern Languages and Civilization, the Jackson School of International Studies, and other departments on campus. Students must take courses in both the humanities and social sciences.

Graduate Program

Graduate Program Coordinator 311 Loew Hall, Box 352192 206-543-6398

Doctor of Philosophy

Admission Requirements

1. MA or equivalent in a discipline or field directly related to the proposed PhD work
2. Third-year competence in a regional language, and reading knowledge of a second language pertinent to PhD research
3. Application deadline for autumn quarter admission is February 1. Application procedures are at www.grad.washington.edu/students/interdisciplinary/nme/application.shtml.

Degree Requirements

Minimum 90 credits

Specific coursework and areas of concentration determined by the student's interests within the framework of the degree and satisfactory progress requirements listed below.

1. Within 18 months of admission, demonstration of a general knowledge of history and culture in one of the following general fields: Islamic civilization; Arabic, Hebrew, Persian, Turkish, or Central Asian Turkic languages and literature; the modern Middle East; or comparative religion either through previous degree work or through examination.
2. Within three years of admission, completion of two advanced courses in the humanities, one in the Department of Near Eastern Languages and Civilization (NELC), and two
advanced courses in the social sciences, one in the Department of History. These courses are in addition to work the student may have done at the BA and MA level.

3. Within three years of admission, completion of a graduate seminar. Two graduate seminars if none was taken at the MA level.

4. Study in three languages, two regional and one "Western" European other than English, such as French, German, Italian, Russian, or Spanish. The Supervisory Committee decides whether a fourth language is required and whether it is European or regional. Before the general examination (see below), the student completes the language requirements including the second-year level in a regional language different from the two languages offered at the time of admission if both were not regional languages.

5. Disciplinary method and theory requirements: ANTH 550 and POL S 491, or their equivalents in appropriate disciplines, strongly encouraged for all students conducting fieldwork or working with documents, whether social science or humanities focused, and for all social science-oriented students.

For students doing humanities-oriented research but not conducting fieldwork, two method and theory courses in the appropriate discipline or disciplines (e.g., comparative literature, philosophy).

6. Disciplinary core courses: Two disciplinary core courses in appropriate fields.

PhD Examinations and Dissertation

1. Preliminary examinations, three written and an oral.
2. General examination
3. Final examination, the PhD thesis defense

Annual Review: A subcommittee of the Near and Middle Eastern Studies program faculty meets each spring to review the progress of all students in the PhD program.

Course Descriptions

N&MES 800 Doctoral Dissertation (*)
Neuroscience

Understanding the brain represents both a major scientific challenge and a wonderful research opportunity. Investigations into the mechanisms of neural function require an interdisciplinary approach using the knowledge base and techniques of anatomy, applied mathematics, biochemistry, engineering, molecular biology, physiology, pharmacology, and the behavioral sciences, among others. Neuroscientists must use these different approaches in their research and training to make inroads toward solving major questions in neuroscience.

The UW’s interdisciplinary graduate program in neuroscience encompasses laboratories of more than 140 faculty members in over 20 departments within the School of Medicine, College of Arts and Sciences, and College of Engineering, as well as at affiliate institutions across Seattle.

The program allows students to obtain broad training in the neurosciences through mentored research and a curriculum comprising required core courses as well as electives. Students also gain supervised teaching experience. Graduates of the program are prepared for a variety of careers involving academic, research, industrial, and public policy positions.

Graduate Program

Graduate Program Coordinator  T471Health Sciences, Box 357270  206-685-1647  neurogrd@uw.edu

Doctor of Philosophy

Admission Requirements

1. Baccalaureate or advanced degree; degrees emphasizing biology, physical or natural sciences, and mathematics preferred.
2. GRE scores: general test required; subject test not required
3. Minimum three (3) letters of recommendation
4. Statement of purpose and curriculum vitae detailing research experience and commitment to graduate study in neuroscience
5. Online application submitted by December 1 deadline. Applications received after December 1 may be considered at the discretion of the directors.

Applications received after the deadline are considered at the discretion of the directors.

Students who have emphasized either biological or physical sciences in their undergraduate careers are invited to apply. Applicants are requested to send a copy of their academic record, GRE scores (including, if possible, scores on a subject test such as chemistry, physics, molecular and cellular biology, psychology, or biology), and three letters of recommendation from the persons who can best evaluate their potential for success in graduate study. New students enter the graduate program September 15. Applications received on or before the deadline are given
Applications received after the deadline are considered at the discretion of the directors.

**Degree Program Requirements**

90 credits

1. **Credit Requirements**: 18 graded credits of coursework with NEURO core curriculum and 10 credits of graded/ungraded approved elective courses

2. **First Year**: NEURO 501, NEURO 502, NEURO 503, NEURO 504, NEURO 527, NEURO 545, NEURO 559, three 10-week laboratory rotations, and three quarters of the seminar series

3. **Second Year**: Form doctoral Supervisory Committee, define doctoral projects, take additional elective courses, participate in a teaching internship for a minimum of two quarters (or equivalent), and hold first committee meeting. Complete general examination and three quarters of the seminar series.

4. **Third Year and Beyond**: Focus on dissertation research. Schedule final examination.

**Financial Aid**

The NEURO program provides funding for students in good academic standing for the duration of their graduate training.

**Course Descriptions**

**NEURO 501 Introduction to Neurobiology (3) Carlson**

Survey of molecular, cellular, and developmental neuroscience, including gene regulation, the cytoskeleton, protein sorting in the secretory pathway, growth factors, and neurotransmitter receptors. Includes lecture discussion of original literature.

**NEURO 502 Introduction to Neurobiology (5) Sherk**

Systems level survey of vertebrate system, focusing on sensory system, on motor system, and on neuroanatomy. Lectures cover topics in sensory and motor systems. Laboratory includes brain dissection and study of intact, prosected, and sectioned brain and spinal cord. Emphasis is on human nervous system.

**NEURO 503 Cognitive and Integrative Neurobiology (4) Phillips**

Survey of all aspects of neuroscience, including a discussion of higher neural processes like motivation, decision making, attention, learning, and memory. Lecture and discussion of original literature.

**NEURO 504 Biophysics of Nerve, Muscle, and Synapse (3) Sullivan**

Introduces biophysical properties of nerve and muscle cells. Topics include intrinsic electrical properties of neurons, ion channels, receptor signaling, calcium signaling, contraction of muscles, and synaptic function. Offered: jointly with P BIO 504.
NEURO 510 Seminar in Neurobiology and Behavior (0.5, max. 30) Biweekly seminar on current topics. Required for students in the graduate program in neurobiology and behavior and for students supported on Graduate Neuroscience Program Training Grant. Credit/no-credit only.

NEURO 511 Seminar in Advanced Neurobiology (1-3, max. 30) Weekly faculty lectures, student presentations, and discussions of past and current scientific literature in neurobiology and behavior.

NEURO 512 Readings in Advanced Neurobiology and Behavior (1-3, max. 30) Guided study of the primary literature of neurobiology and behavior. Emphasizes critical analysis, accuracy of expression, bibliographical technique, and other factors of good scholarship. Prerequisite: permission of instructor. Credit/no-credit only.

NEURO 515 Teaching Practicum in Neurobiology and Behavior (3-6, max. 30) Supervised training in the teaching of neuroscience and related scientific topics. Prerequisite: graduate standing in the neurobiology and behavior graduate program and permission of the instructor. Credit/no-credit only.

NEURO 526 Introduction to Laboratory Research in Neurobiology (4, max. 30) Students become familiar with, and assist in, the performance of research on ongoing projects in designated laboratories. Emphasis on employed methodology and techniques. Prerequisite: first-year graduate students in neurobiology. Credit/no-credit only.

NEURO 527 Current Topics in Neurobiology and Behavior (1, max. 30) Presentation and discussion of current research provides exposure to diverse areas of neurobiology and behavior research. Prerequisite: graduate student in neurobiology and behavior program or permission of instructor. Instructors: Rieke Credit/no-credit only.

NEURO 528 Computational Neuroscience (3) Introduction to computational methods for understanding nervous systems and the principles governing their operation. Topics include representation of information by spiking neurons, information processing in neural circuits, and algorithms for adaptation and learning. Prerequisite: elementary calculus, linear algebra, and statistics, or permission of instructor. Offered: jointly with CSE 528.

NEURO 535 Research Opportunities in Neurobiology and Behavior (1)

NEURO 541 Neuroendocrinology (3) Emphasizes the cellular and molecular aspects of several topics in neuroendocrinology, including neuropeptide genes, reproduction, steroid hormone regulation of gene expression, mechanisms of hormone action, endocrine rhythms, and neural oscillations. Prerequisite: BIOL 220; BIOC 442 or permission of instructor. Instructors: Steiner Offered: jointly with P BIO 509; W, even years.

NEURO 545 Quantitative Methods in Neuroscience (3) Discusses quantitative methods applicable to the study of the nervous system. Revolves around computer exercises/discussion of journal papers. May include linear systems theory, Fourier analysis, ordinary differential equations, stochastic processes, signal detection, and information theory. Prerequisite: NEUBEH
501, NEUBEH 502, NEUBEH 503, or permission of instructor. Instructors: Rieke Offered: jointly with P BIO 545.

**NEURO 548 Molecular Mechanisms of Synaptic Plasticity (2)** Barria Discusses recent primary literature on the molecular mechanisms underlying structural and functional changes of dendritic spines and synapses in the mammalian brain as result of synaptic activity and experience. Offered: jointly with P BIO 548; Sp, even years.

**NEURO 550 Biophysics of Calcium Signaling (1)** Introduction to cellular calcium signaling including theoretical and technical issues of calcium signal detection and biological conclusions. Prerequisite: CONJ 531. Instructors: Hille, Santana Offered: jointly with P BIO 550; Sp, odd years.

**NEURO 554 Motor Learning: Cellular and Network Mechanisms (1)** Fetz, Perlmutter Five-week mini-course reviews the current state of research on cellular and network mechanisms of motor learning. After an introductory overview of behavioral and physiological examples of motor learning in various species and systems, students choose specific topics for discussion, using the primary literature as a source. Offered: jointly with P BIO 554.

**NEURO 555 Sensory Receptors (1)** Detwiler, Rieke Five-lecture mini-course examines how different kinds of sensory receptors detect and respond to different modalities of sensory stimuli. Discussion focuses on the cellular and molecular mechanisms of the underlying transduction processes and the experimental evidence that they are based on. Offered: jointly with P BIO 555.

**NEURO 556 Axon Pathfinding Mechanisms (1)** Bothwell Examines mechanisms governing axon growth cone behavior during embryonic development and during regeneration in the injured adult. Discusses approaches employing both invertebrate and vertebrate model systems. Offered: jointly with P BIO 556.

**NEURO 557 Ion Channel Gating (1)** Zagotta Compares and contrasts mechanisms of gating in ligand-gated and voltage-gated ion channels. Covers basics of ligand gating and voltage gating, kinetic schemes, inactivation and desensitization, gating currents and partial agonists, and ion channel structure. Offered: jointly with P BIO 557.

**NEURO 559 Neurobiology of Disease (3)** Introduces medically important neurological and psychiatric diseases and experimental approaches to understanding the basis for diseases and their treatments. Covers stroke, epilepsy, autoimmune diseases of the CNS, neurodegenerative diseases, autism, psychosis, anxiety disorders, and mood disorders. Offered: jointly with NEURL 559/P BIO 559.

**NEURO 561 From Biophysics to Neural Computation (2)** Introduces the mathematics and methods of neuronal modeling. Develops, compares, and relates dynamical systems approaches and empirical characterizations of neuronal function. Includes lectures, student-led journal paper discussions, biweekly computational workshops on neuronal modeling packages, and a computations project. Offered: jointly with P BIO 561; Sp.
NEURO 600 Independent Study or Research (*-*) Credit/no-credit only.

NEURO 700 Master's Thesis (*-*)

NEURO 800 Doctoral Dissertation (*-*)
Nutritional Sciences

Undergraduate Program

Adviser 305 Raitt, Box 353410 206-221-8526 ugnutr@uw.edu

Minor in Nutrition

Provides a foundation of knowledge in nutrition, food systems, and population health. Presents a multidisciplinary perspective on the broad field of nutritional sciences, including the interplay of food and nutrition, human behavior, business, culture, and the environment.

Minor Requirements: 25 credits

1. Core (14-15 credits): NUTR 200; two courses from NUTR 302, NUTR 303, and NUTR 310; NUTR 400
2. Electives (minimum 10-11 credits) selected from an approved list (may include additional core course not already applied toward the minor). See website for approved list.
3. Minimum 13 credits from School of Public Health
4. Minimum 15 credits upper-division courses
5. Minimum 15 credits outside student's major requirements
6. Minimum 15 credits in residence through the UW
7. Minimum 2.0 cumulative GPA for courses applied toward the minor

Graduate Program

Graduate Program Coordinator 305 Raitt, Box 353410 206-543-1730 nutr@uw.edu

Nutritional Sciences, an interdisciplinary program in the School of Public Health offers Master of Science (MS), Doctor of Philosophy (PhD), and Master of Public Health (MPH) degrees. The program is designed for students with a strong science background who wish to pursue (1) advanced training in nutritional science or clinical research, (2) advanced training in nutritional epidemiology and diet-disease interactions, or (3) training in public health nutrition practice.

The Graduate Coordinated Program in Dietetics (GCPD) combines the MS, MPH, and PhD programs with a supervised practice experience (internship equivalent), which gives students eligibility to take the national registration examination to become a Registered Dietitian (RD). The GCPD includes additional coursework and a nine-month practice experience at regional community, clinical, and food service facilities.

Principal areas of study are biochemical and molecular nutrition, community or public health nutrition, food safety, nutrition and chronic disease, and clinical nutrition. Members of the core
faculty represent the School of Public Health, the Fred Hutchinson Cancer Research Center, and the School of Medicine. The program also draws on a larger group of affiliate and clinical faculty from the College of Arts and Sciences, schools of Medicine and Nursing, other units on campus, and from affiliated institutions in the Seattle area.

All students begin working on a research project under the supervision of an appropriate faculty member in the early stages of their graduate experience. Public health field placements, which follow the first year of required coursework, are an integral part of the MPH curriculum.

Students have access to faculty mentors and research facilities through the Medical Center, the South Lake Union Research Hub, and the Fred Hutchinson Cancer Research Center. Clinical facilities include UW Medical Center, Harborview Medical Center, Northwest Kidney Center, Seattle Children's hospital, Seattle Cancer Care Alliance, Northwest Hospital and Medical Center, Valley Medical Center, and the Center for Human Development and Disabilities.

Students may apply to the graduate degree program after completing a bachelor's or a master's degree. Prerequisite coursework in nutrition, chemistry, biochemistry, and human physiology is required. Students who wish to supplement their degree program with the Academy of Nutrition and Dietetics -accredited GCPD must also complete prerequisite coursework in microbiology, psychology, food science, and English. Students who have completed a didactic program in dietetics may apply to the graduate program and the GCPD.

Course Descriptions

**NUTR 141 Introduction to Foods (5) NW** Examines how foods are used by different people and cultures to deliver nutrients and energy. Explores the evolution of the global food supply, food preparation techniques, food patterns, and eating habits as they relate to diets, nutrition, and personal and public health.

**NUTR 200 Nutrition for Today (4) NW** Examines the role of nutrition in health, wellness, and prevention of chronic disease. Topics include nutrients and nutritional needs across the lifespan, food safety, food security, wellness, body weight regulation, eating disorders, sports nutrition, and prevention of chronic disease. May not be taken for credit if credit earned in NUTR 300. Offered: AWSp.

**NUTR 241 Culinary Nutrition Science (3) NW** Explores scientific principles behind modern culinary techniques that transform raw foodstuffs into prepared foods that have sensory appeal. Hands-on kitchen demonstrations show how physical and chemical forces acting on solids, liquids, and gases transform raw ingredients into foods with desirable taste, texture, and aroma. Requires access to a full kitchen to complete assignments. Cannot be taken for credit if credit earned in NUTR 441. Prerequisite: NUTR 200.

**NUTR 302 Food Systems: Harvest to Health (5) I&S/NW** Examines the many facets of the modern food supply from production and processing to distribution, marketing, and retail. Systems approach to foods studies considers geopolitical, agricultural, environmental, social, and
economic factors along the pathway from harvest to health. Prerequisite: NUTR 200 Offered: ASp.

**NUTR 303 Food Systems: Individual to Population Health (5) I&S/NW**
Examines the food environment in the local community from the public health perspective. Explores where people get their food, what influences this decision, and various aspects of the local food movement, including access to healthy food, urban agriculture, farmers markets, and other public health nutrition initiatives. Includes a weekly discussion section. Prerequisite: NUTR 200 Offered: W.

**NUTR 310 Nutrition and the Life Course (4) NW**
Explores nutrient needs from infancy through adolescence and adulthood, including the physiological basis of nutrient requirements and the genetic, social, and environmental influences on food choices and nutrition status. Uses an evidence-based approach to assess the impact of nutrition across life stages and ways to improve population health by improving nutrition. Prerequisite: NUTR 200.

**NUTR 390 Food Seminar (1, max. 3)**
Examines current food, culinary, and food system issues from production, processing, and marketing to consumption, nutrition, and health. Includes diverse perspectives from producers, processors, public health professionals, and relevant research. Credit/no-credit only.

**NUTR 400 Nutrition Seminar (1, max. 4) I&S**
Examines emerging issues in food and nutrition as they relate to personal and public health. Reviews evidence in the context of health policy. Credit/no-credit only. Offered: AW.

**NUTR 402 Food Systems Modeling and Analysis (5)**
Provides a foundation in methods of modeling and analysis used to study food systems. Production, consumption, carrying capacity, food shed analyses, life cycle assessment, system dynamics, and integrated modeling will be addressed. Learn what types of questions are best addressed through modeling approaches, the methods used to conduct food systems models, and the data required to complete the analyses. Prerequisite: NUTR 200; NUTR 302; and NUTR 303 Offered: W.

**NUTR 405 Physical Activity in Health and Disease (3) QSR**

**NUTR 406 Sports Nutrition (3) NW**
Covers the essentials of human nutrition that improve and sustain optimal performance for sport and exercise. Discusses the effect of eating disorders (in both male and female athletes), weight management, and sport nutrition resources. Prerequisite: NUTR 200. Offered: Sp.

**NUTR 411 Diet in Health and Disease (3) QSR**
Impact of diet on health and the prevention of obesity, diabetes, cardiovascular disease, and other non-communicable diseases. Examines diet-health relationships; social, environmental, and economic factors in eating behavior; and
evidence base behind dietary guidelines. Draws on seminal and recent research in nutrition science and uses examples from recent media coverage. Prerequisite: NUTR 200. Offered: Sp.

NUTR 412 United States Food Systems Policy (3) I&S Offers a broad introduction to food and nutrition policies in the United States and their impacts on population health. Real-world controversies and debates used to illustrate policy principles, research tools, and policy analysis. Includes topics on public health nutrition, food policy related to population health, and food security. Prerequisite: NUTR 302 Offered: A.

NUTR 420 Global Nutrition: Challenges and Opportunities (3) I&S Examines global dimensions of malnutrition, its assessment and classification, and global policies and programs to improve nutritional status in developing countries. Emphasizes global consequences of poor nutrition on health, cognition, and development with a focus on the first 1,000 days from conception to age two. Prerequisite: NUTR 200. Offered: A.

NUTR 446 Food Safety and Health (3) Presentation of emerging issues in food safety and toxicology, microbiology, sustainable agriculture, and biotechnology. Examines both domestic and global pressures on the food supply. Examines international and national policies that promote regional solutions for a safe food supply and access to nutritious foods. Offered: W.

NUTR 465 Nutritional Anthropology (3) I&S/NW Examines the interrelationships between biomedical, sociocultural, and ecological factors and their influence on the ability of humans to respond to variability in nutritional resources. Topics covered include diet and human evolution, and nutrition-related biobehavioral influences on human growth, development, and disease resistance. Prerequisite: BIO A 201. Offered: jointly with BIO A 465.

NUTR 490 Special Topics in Nutritional Sciences (1-5, max. 10) Examines emerging issues in nutrition. Reviews the evidence and potential policy implications.

NUTR 493 Food Systems Capstone (8) The Food Systems Capstone is a culminating academic endeavor for students majoring in Food Systems, Nutrition & Health. The capstone provides students with an opportunity to apply knowledge and skills acquired in their courses to a specific food systems problem or issue. Emphasizing systems thinking, the capstone experience will explore solutions to real world issues through focused study and under the direction of a faculty member. Prerequisite: NUTR 302; NUTR 303; and NUTR 402 Offered: Sp.

NUTR 495 Undergraduate Internship (1-5, max. 15) This is a Credit/No Credit course, taken for variable credits, in which you have the opportunity to earn credit for academic work associated with an internship experience. It is intended to be both practical and educational. Through active participation and completion of assignments, you will reflect on your internship experience and identify how it relates to your coursework, college experience, identity, career readiness, and future. Credit/no-credit only.

NUTR 499 Undergraduate Research (1-5, max. 10) Independent study and research supervised by a faculty member with appropriate academic interest. Credit/no-credit only. Offered: AWSpS.
NUTR 500 Graduate Seminar: Current Issues in Nutrition (1, max. 4) A review of current topics in nutritional science and public health nutrition. Provides a forum for student and faculty presentation, and review of current research efforts. Credit/no-credit only. Offered: AWSp.

NUTR 511 Survey of Advanced Nutrition (2-3) Advanced introduction to nutritional sciences. Topics include macronutrient and micronutrient metabolism, energy balance and obesity, nutrient utilization in physical activity, nutritional needs and recommendations throughout the lifecycle, and the relationships between nutrition and atherosclerosis, diabetes, and cancer risk. Offered: A.

NUTR 512 United States Food Systems Policy (3) Offers a broad introduction to food and nutrition policies in the United States and their impacts on population health. Real-world controversies and debates used to illustrate policy principles, research tools, and policy analysis. Includes topics on public health nutrition, food policy related to population health, and food security. Offered: A.

NUTR 513 Food and Society: Exploring Eating Behaviors in a Social, Environmental, and Policy Context (2) Socio-cultural, environmental, and policy factors interact with biological and psychological characteristics to influence the foods we eat, and when, where, and how we eat them. Uses contemporary readings, films, and critical discussion to explore these macro-scale influences on food, nutrition, and eating behavior. Offered: A.

NUTR 520 Nutrition and Metabolism I (3) Metabolic/physiologic concepts related to energy balance, carbohydrate, and protein nutrition. Addresses energy-producing pathways, as well as food sources, digestion, absorption, and utilization of carbohydrates, protein, and various micronutrients. Additional topics include low-carbohydrate diets, vegetarianism, protein deficiency, and inborn errors in carbohydrate and protein metabolism. Prerequisite: biochemistry. Offered: A.

NUTR 521 Nutrition and Metabolism II (3) Discussion of normal lipid components of animal tissues, with review of their metabolism and physiological functions. Topics include digestion, absorption, transport, and utilization of dietary fats, cholesterol, and fat-soluble vitamins. Discusses in-depth the roles played by lipids and various micronutrients in altering risk of atherosclerosis. Prerequisite: biochemistry. Offered: W.

NUTR 522 Nutrition and Metabolism III (3) Advanced study of biologically essential minerals and vitamins. To include absorption, transport, function, storage, and excretion; imbalance, deficiency, and toxicity; dietary structures; and role of these nutrients in prevention of diseases directly or indirectly. Recommended: biochemistry. Offered: Sp.
NUTR 526 Maternal and Pediatric Nutrition (4) Examines the influence of maternal, infant, and children's nourishment on growth, development, and health, including children with special healthcare needs, in both individual and population-based environments. Includes nutrition and assessment, critical evaluation of normative data, and evidence-based clinical and community nutritional care and family-centered care. Prerequisite: human nutrition and human physiology. Offered: A.

NUTR 529 Nutrition Research Design ([1-3]-, max. 3) Critical review of selected nutrition literature. Evaluation of experimental design, research protocols, data analyses, and data presentations. Prerequisite: BIOST 511. Credit/no-credit only. Offered: A.

NUTR 531 Public Health Nutrition (4) Explores the functions and essential services of public health as they apply to assuring access to a safe and nutritious food supply. Examines the practice of public health nutrition: nutrition environment, program planning, implementation, and evaluation; policy development, implementation, and evaluation; and links between basic science and public health nutrition practice. Prerequisite: introductory nutrition. Offered: W.

NUTR 532 Fieldwork in Public Health Nutrition (1-12, max. 12) Experience and service learning in organizations that plan, deliver, and promote population-based nutrition education and nutrition services. Prerequisite: nutritional sciences graduate student and permission of instructor. Credit/no-credit only. Offered: AWSpS.

NUTR 536 Nutrition Education Principles and Practice (2) Examines theory-based design and delivery of nutrition education, including conducting needs assessments and developing lesson plans, activities, visual aids, and evaluation material. Explores design features of written, oral, and technology-based nutrition education materials and initiatives. Addresses differing learning styles, cultural groups, and literacy levels. Offered: Sp.

NUTR 537 Laboratory Rotation (1-4, max. 6) Exposure to research being conducted in the laboratories of the graduate nutrition faculty. Provides hands-on experience in laboratory research. Introduces the student to ongoing research for preparation of dissertation topics. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

NUTR 538 Nutritional Epidemiology (3) Application of epidemiological methods to studies of diet, nutrition, and chronic disease. A discussion of current issues and controversies enables students to design studies and read the literature in nutritional epidemiology. Prerequisite: EPI 511 or EPI 512 or instructor permission. Offered: jointly with EPI 538.

NUTR 545 Food Safety and Health (3) Presentation of emerging issues in food safety, sustainable agriculture, and biotechnology. Examines both domestic and global pressures on the food supply. Examines international policies that promote regional solutions for a safe food supply and access to nutritious foods. Offered: jointly with ENV H 540; W.

NUTR 555 Nutrition in Developing Countries (3) Introduces issues of nutrition in developing countries, with an emphasis on the control and prevention of undernutrition and micronutrient deficiencies. Offered: jointly with G H 555; Sp, odd years.
NUTR 559 Orientation to Clinical Dietetics Practice (3) Provides an orientation to dietetics in clinical settings, including the nutrition care process and integration of evidence-based practice. Offered: A.

NUTR 560 Nutritional Counseling for Chronic Disease (1-3) Examines nutritional intervention strategies and counseling skills that pertain to chronic disease prevention and management. Builds knowledge and skills needed to create appropriate care plans and counseling strategies designed to meet individual client assessment/counseling situations. Offered: Sp.

NUTR 561 Graduate Coordinated Program in Dietetics (1-10, max. 35) Focuses on the competencies for entry-level practice in dietetics. Includes supervised practice experience in wellness, public health, food services, ambulatory care, and clinical care. Prerequisite: GCPD students only. Credit/no-credit only. Offered: AWSpS.

NUTR 562 Nutrition and Chronic Disease (4) Epidemiology/pathophysiology of chronic disease related to nutrition (e.g., obesity, cardiovascular disease, osteoporosis, hypertension, diabetes). Examines nutritional risk/protective factors in relation to public health, individual nutrition, and clinical intervention. Prerequisite: physiology, biochemistry. Offered: Sp.

NUTR 563 Nutrition in Acute Care (4) Assessment of the nutritional demands and hypermetabolic response of trauma, surgery, organ failure, burns, AIDS, and neoplastic disease. Examines specialized nutritional support and substrate requirements in the acute care setting. Prerequisite: either NUTR 562 or permission of instructor. Offered: A.

NUTR 590 Special Topics in Nutritional Science (1-4, max. 4) Examines emerging issues in nutrition. Reviews the evidence and potential policy implications. Prerequisite: permission of instructor. Credit/no-credit only.

NUTR 595 Nutritional Sciences Master's Practicum (1-12, max. 12) Supervised practice experience providing students an opportunity to learn how nutritional sciences are applied to public health settings and in the formulation and application of public health policy. Prerequisite: HSERV 511; NUTR 531; EPI 511; NUTR 520; NUTR 521; NUTR 522. Credit/no-credit only. Offered: AWSpS.

NUTR 596 Nutrition Practice Capstone (1-10) Applies and extends students' nutritional sciences, dietetics, or public health knowledge and skills to a practice-focused problem or question with the completion of a mentored capstone project and report. Credit/no-credit only. Offered: AWSpS.

NUTR 600 Independent Study or Research (*-) Credit/no-credit only. Offered: AWSpS.

NUTR 700 Master's Thesis (*-) Credit/no-credit only. Offered: AWSpS.

NUTR 800 Doctoral Dissertation (*-) Credit/no-credit only. Offered: AWSpS.
Pathobiology
Graduate Program

Graduate Program Manager  310c Harris Hydraulics, Box 357965  206-543-4338  pabio@uw.edu

Offers graduate training in the application of basic biomedical research to diseases of public health interest. The program involves core courses to develop a fundamental understanding of basic cellular and molecular processes and techniques important in the application of basic biomedical research to diseases; laboratory experience to learn how to collect, analyze, interpret, and use data for solving problems; and opportunities to develop skills in communicating research findings through oral and written presentations.

Master of Science

Develops an understanding of applications of molecular biology to public health, epidemiology, and cellular or antigenic analysis, and microbiology or immunology. Develops basic research skills and understanding scientific method. Students fulfill course requirements the first year, then propose and complete a thesis that includes an original research project.

Admission Requirements

Not currently accepting students into the master's program; however, this remains an option under specific circumstances, such as failure to pass the general examination or changes to academic goals.

Degree Requirements

Minimum 60 credits

1. **Required Courses:** PABIO 500, PABIO 551, PABIO 552, PABIO 553, EPI 511, PABIO 580, PABIO 581, PABIO 582, PABIO 590, PABIO 700

2. **Electives:** Additional courses in pathobiology or the biomedical sciences to fulfill the graded course requirement, to encompass the interests of the student, or to fulfill any additional requirements set forth by the student's committee.

**MS Thesis Research Proposal:** Completed by the end of the fourth quarter of the first year; should contain the following, in this order:

1. Brief synopsis of background relevant to the project.
2. Summary of preliminary experiments.
3. Description of experiments planned for the next year.
MS Thesis: Provided to the MS advisory committee two weeks prior to the oral presentation.

MS Oral Presentation and Defense: Formal seminar

Doctor of Philosophy

Develops skills concerning pathogenesis and infection. Also develops familiarity with the paradigms for control, prevention, and treatment; develops an understanding of epidemiology and disease processes; teaches basic methodologies used in this research including relevant areas of molecular biology, microbiology, cell biology, virology, epidemiology, and biostatistics; and develops familiarity with the major classes of pathogens.

Admission Requirements

1. Personal statement: Representation of the student's background and readiness for graduate study in pathobiology.
2. Unofficial transcripts from all collegiate institutions attended
3. Three letters of recommendation.
4. Curriculum vitae
5. Official GRE scores
6. Applicants whose native language is not English must demonstrate English language proficiency, to include a minimum 600 TOEFL score on the paper test or 250 on the computerized test, with scores not more than two years old.

Degree Requirements

90 credits minimum

1. Required Courses: PABIO 500, PABIO 551, PABIO 552, PABIO 553, , PABIO 580, PABIO 581, PABIO 582, PABIO 590, PABIO 598, PABIO 600, PABIO 800; EPI 511; either IMMUN 441 or IMMUN 532

2. PABIO 580 every winter quarter (excused while writing dissertation); PABIO 581 every autumn quarter the first three years; PABIO 582 every spring quarter till the general examination is completed; and PABIO 590 every spring quarter the first four years. Students present research at the Graduate Research Symposium annually after the first year.

3. Electives: PABIO 536 and UCONJ 510 strongly recommended

4. Recommended tracks for elective credits:
   a. Eukaryotic Pathogens: IMMUN 532, EPI 520, EPI 532, MICROM 444, CONJ 531-CONJ 548
   b. Bacterial Pathogens: IMMUN 532, MICROM 553, MICROM 555, EPI 520, EPI 529, GENOME 576, select modules from the molecular conjoint series (e.g., CONJ 548, CONJ 549, CONJ 557)
Research Facilities

Research facilities are geographically dispersed - faculty offices and laboratories at a number of locations around the Seattle area and the UW campus, to include: Health Sciences Building, Center for Infectious Disease Research, Seattle Children's Research Institute, Fred Hutchinson Cancer Research Center, Harborview Medical Center Research and Training Building, the Brotman Building (South Lake Union), Infectious Disease Research Institute, Institute for Systems, Biology, and Western Fisheries Research Center.

Financial Aid

The department provides a research assistantship that offers a competitive salary, tuition waiver, and health insurance. Students with satisfactory academic progress can anticipate funding for the duration of their studies.

Course Descriptions

PABIO 498 Undergraduate Thesis (*)

PABIO 499 Undergraduate Research (*, max. 12)

PABIO 500 Introduction to Pathobiology Research (3-9, max. 15) Rotation through research laboratory. Credit/no-credit only. Offered: AWSpS.

PABIO 536 Bioinformatics and Gene Sequence Analysis (3) T. ROSE Nature and relevance of molecular sequence information, computer-based protein, and DNA sequence analysis, molecular sequence and genomic databases, and methods for database accession and interrogation. Prerequisite: background in molecular biology and permission of instructor. Offered: jointly with PHG 536; Sp.

PABIO 548 Molecular and Cellular Parasitology (3) Molecular and cellular biology of parasites of health-related significance, emphasizing current research topics unique to parasites, particularly well-suited for study in parasites, and especially important to study in host-parasite systems. Prerequisite: familiarity with molecular and cellular biology and permission of instructor. Instructors: Feagin

PABIO 550 Diseases and Issues in Global Health (2) O. Soge Provides a broad perspective on global health issues; the biology and strategies for control of diseases of global importance; the global health landscape; and factors that influence global health. Recommended: Background in cellular and molecular biology, and microbiology recommended. This course is intended for students pursuing laboratory-based research in pathogen biology. Offered: jointly with G H 565; A.
PABIO 551 Biochemistry and Genetics of Pathogens and Their Hosts (4) Provides a strong foundation in biochemistry, molecular biology, and genetics for students interested in disease. Principles illustrated through examples focusing on pathogens, and infectious and non-infectious disease. Prerequisite: undergraduate-level coursework in molecular biology or biochemistry, or permission of instructor. Instructors: L. Campbell Offered: jointly with G H 566; A.

PABIO 552 Cell Biology of Human Pathogens and Disease (4) Cell biology and immunology explored through diseases of public health importance. Examples of pathogen interaction with host cell biology and immune systems, unique aspects of the cell biology of pathogens, perturbations of these systems in non-infectious diseases, and design of therapeutics and vaccines to combat diseases of public health importance. Prerequisite: undergraduate-level coursework in biology or molecular biology or permission of instructor. Offered: W.

PABIO 553 Survival Skills for Scientific Research (2) Focuses on skills needed for scientific career: writing abstracts, curriculum vitae, research proposals; preparing for oral presentations; lab management skills; discussion of mentorship/trainee relationships; case-based discussions of various topics in ethics and scientific misconduct. Credit/no-credit only. Offered: W.

PABIO 580 Pathobiology Seminar (1, max. 21) Research from students, faculty members, and invited speakers presented and discussed. Topics include immunochemistry, viruses, membranes, infectious diseases, immune response, and other related topics. Offered: W.

PABIO 581 Current Literature in Pathobiology (1, max. 15) Develops skills in analyzing data and assessing conclusions through an analysis of current literature in pathobiology. Focuses on breadth and analytical skills. Prerequisite: enrollment in the pathobiology graduate program.

PABIO 582 Critical Thinking and Research Design in Pathobiology (1.5, max. 12) Analysis of issues, hypothesis and experimental design and testing. Prerequisite: graduate standing in pathobiology. Instructors: Lingappa Credit/no-credit only. Offered: Sp.

PABIO 590 Selected Topics (1-20, max. 20) Individual offerings focusing on topics such as pathogenesis, immunology, virology, disease agents, bioinformatics and grant writing. Small lecture format. Prerequisite: permission of instructor.

PABIO 591 Rotating Pathobiology Minicourses (1) Individual offerings focusing on topics such as pathogenesis, immunology, virology, disease agents, bioinformatics and grant writing. Small lecture format with discussion. Offered: Sp.

PABIO 598 Didactic Pathobiology (*, max. 12) Supervised teaching experience in pathobiology courses for PhD candidates. Prerequisite: permission of instructor.

PABIO 600 Independent Study or Research (*) Prerequisite: permission of Graduate Program Adviser. Credit/no-credit only.

PABIO 700 Master's Thesis (*) Prerequisite: permission of Graduate Program Adviser. Credit/no-credit only.
PABIO 800 Doctoral Dissertation (*) Prerequisite: permission of Graduate Program Adviser. Credit/no-credit only.
Public Health Genetics

F363 Health Sciences Building

Program Overview

Health Sciences Building, H wing, room 655, office D  Box 357232

Public health genetics is an emerging field that applies advances in human genetics, genomics, and molecular biotechnology to improve public health and prevent disease.

The UW's Institute for Public Health Genetics (IPHG), alone among U.S. universities, offers graduate degrees at both the master's and PhD levels.

IPHG provides broad, interdisciplinary training for future public health professionals, facilitates research in public health genetics, and serves as a resource for continuing professional education.

Graduate Program

Graduate Program Coordinator  HSB 655, Box 357232  206-616-9286  phginfo@uw.edu

Master of Science, Genetic Epidemiology

Draws on training in epidemiology, genetics, and biostatistics and examines how genes and environmental factors interact to influence health and disease in human populations. Training focuses on methods to identify genetic influences on human diseases and interactions with environmental exposures in populations, emphasizing applied research skills.

Admission Requirements

1. Statement of purpose
2. Official sealed transcripts, including courses, grades, and degrees from all institutions attended after secondary school
3. GRE scores. Required for all applicants, except those who hold a U.S. doctorate (neither the MCAT nor ECFMG are acceptable substitutes for the GRE).
4. International applicants: official TOEFL scores
5. Three letters of recommendation from professors, supervisors, or others who know the student's work reasonably well. At least two letters should be academic references.
6. Recent copy of resume or curriculum vitae

Degree Requirements

68 credits minimum
1. **Required Courses:** PHG 511/EPI 517, PHG 519 or BIOST 551, STAT 550/BIOST 550, EPI 573/ENV H 571, EPI 512, EPI 513, BIOST 517, BIOST 518, PHG 536 or GENOME 559, WATER 552, PHG 512, PHG 527/B H 527, PHG 580 (44.5 credits)

2. **Elective Courses:** Excludes independent study and thesis credits; must be in epidemiology, biostatistics, genetics, public health genetics, or be related to the biological, physical, or social/behavioral factors which affect health, in particular ethical, legal and social issues related to genetic epidemiology.

3. **Thesis:** PHG 700 (9 credits minimum)

**Master of Public Health, Public Health Genetics**

Focuses on genomics in public health (genetic and molecular epidemiology, pharmacogenetics, clinical aspects of genomics) and implications of genetics for society (ethics and social science, law and policy, health economics, and outcomes research).

**Admission Requirements**

Same as for Master of Science, Genetic Epidemiology, shown above

**Degree Requirements**

63 credits

1. **Required Courses:** (38 credits): EPI 511, BIOST 508 or BIOST 511, HSERV 511, ENV H 511, HSERV 510 or GH 531/EPI 539, PHG 511, PHG 512, PHG 513, PHG 521 or PHG 527, PHG 523, PHG 580

2. **Electives** (13 credits): may combine approved elective courses

3. **Master's Practicum** (3 credits minimum): PHG 595

4. **Thesis** (9 credits minimum): PHG 700

**Doctor of Philosophy**

Focuses on genomics in public health (genetic and molecular epidemiology, pharmacogenetics, clinical aspects of genomics) and implications of genetics for society (ethics and social science, law and policy, health economics, and outcomes research).

**Admission Requirements**

Same as for Master of Science, Genetic Epidemiology, shown above

**Degree Requirements**

90 credits minimum

1. **Required Courses:** EPI 511 or EPI 512 and EPI 513; BIOST 508 or BIOST 511 or BIOST 517; ENV H 511 or ENV H 570; HSERV 510 or GH 531/EPI 539 or HSERV 511; PHG 511, PHG 513; PHG 551 or GENOME 565; PHG 512, PHG 521 or PHG 527; PHG 523, PHG 580 (36-40 credits)
2. **Recommended Courses:** GENOME 552, PHG 536, BOST 512/BOST 513, BOST 518 (16.5 credits)

3. **Electives:** (minimum 21 credits)

4. PHG 580: Required each quarter until preliminary examination is passed (minimum 6 quarters; minimum 6 credits)

5. **Preliminary Examination:** usually taken at end of second year

6. **Selective Courses for Core Knowledge Areas and Development of Dissertation Topic:** minimum 9 additional credits related to dissertation. Additional writing courses may be required. See list of example courses available on program website.

7. **General Examination**

8. **Dissertation:** PHG 800 (minimum 27 credits)

9. **Final examination/dissertation defense**

**Certificate in Public Health Genetics**

Available to students already enrolled in any other UW graduate degree program, the certificate provides training in three primary areas of public health genetics: Genetic Epidemiology; Pharmacogenomics; Ethical, Legal, and Social Issues in Genetics.

**Admission Requirements**

1. Completed application form
2. Typed statement of purpose (maximum one page)
3. Current UW graduate school transcripts

**Certificate Requirements**

12 credits

1. PHG 511, PHG 512, PHG 513, PHG 580 (12 credits)
2. PHG 580 taken a minimum three quarters
3. **Electives:** Students are encouraged to take other PHG courses

**JD/MPH in Public Health Genetics**

**Admission Requirements**

Acceptance into the JD program before requesting admission to the MPH degree program

**Degree Requirements**

Same courses as described above for the MPH in Public Health Genetics
Course Descriptions

PHG 200 Implications of Public Health Genomics for the Modern World (3) I&S/NW J. GOGARTEN Introduces the field of public health genomics through examples of genetic, ethical, political, and social issues emerging in the wake of the Human Genome Project. Students develop the skills to analyze and critique public health, clinical, personal, and social implications resulting from emerging genomic technologies. Offered: A.

PHG 301 Introduction to Genetic Epidemiology (5) I&S/NW J. Gogarten Explores basic approaches that are used to identify genetic and environmental factors in health and disease, and how application of this information can be used to improve population health. Discusses the relevant ethical, legal, and social implications that occur in research and translation to practice. Offered: Sp.

PHG 302 Forensic Genetics (3) I&S/NW, QSR B. WEIR Introduces the field of forensic genetics through discussion of genetic and statistical issues emerging since the introduction of DNA profiling. Students develop the skills to interpret the evidence of matching genetic profiles; to perform calculations relevant for parentage determination; the identification of remains; and to consider the implications of familial searching of DNA databases. Prerequisite: either BIOST 310, STAT 220, STAT 221/CS&SS 221/SOC 221, STAT 311, Q SCI 381, or Q METH 201. Offered: jointly with BIOST 302; W.

PHG 511 Genetic Epidemiology (3) B. WEIR Research methods for evaluating genetic influences on disease and risk factors and genetic-environmental interactions. Study designs and statistical methods include twin studies, family studies, population-based association studies, segregation analysis, and linkage analysis. Prerequisite: EPI 511, BIOST 511, and GENOME 371, or equivalent. Offered: jointly with EPI 517.

PHG 512 Legal, Ethical, and Social Issues in Public Health Genetics (3) Equips the student to anticipate and assess potential legal, ethical, and social barriers complicating the incursion of new genetic advances, information, and technologies into public and private healthcare delivery efforts. Prerequisite: GENOME 361, GENOME 371, or equivalent. Offered: jointly with B H 514/LAW H 504; A.

PHG 513 Basic Concepts in Pharmacogenetics and Toxicogenomics (3) K. THUMMEL Addresses current technologies for DNA sequencing, genotyping, RNA and epigenetic analysis and basic concepts of pharmacogenetics and toxicogenomics. Emphasis placed on applications of genomic technologies to the understanding of "gene-environment interactions" that cause variability in drug treatment responses, as well as diseases of public health importance, including cancer, chronic neurological diseases, and adverse drug reactions. Offered: jointly with ENV H 513/PCEUT 513; W.

PHG 519 Statistical Methods in Genetic Epidemiology (3) Theory and application of statistical techniques used in genetic epidemiology. Includes discussion of association studies, linkages and segregation analyses. Examples stressed with reference to assumptions and
limitations. Prerequisite: either BIOST 513 or BIOST 518; PHG 511/EPI 517; or permission of instructor. Offered: jointly with BIOST 516/EPI 535.

**PHG 521 Culture, Society, and Genomics (3)** B. MCGRATH Examines social and cultural issues of human genome sequencing and control of genetic expression. Attitudes and behaviors toward health, illness, and disability are studied using historical, contemporary, and cross-cultural case study material. Offered: jointly with ANTH 574/NURS 582; Sp.

**PHG 523 Genetics and the Law (3)** Explores and analyzes legal issues arising from genetic technologies and information. Statutes, regulations, and cases demonstrate the constitutional, contract, tort, criminal, and family law use of genetic science to determine rights, disputes, and controversies. Prerequisite: either LAW H 504/B H 514/PHG 512 or permission of instructor. Offered: jointly with LAW H 520; Sp.

**PHG 527 Social Science Research Methods (3)** D. BOWEN Introduces students to research methods in bioethics, ranging from qualitative to quantitative: interviews, focus groups, surveys, and experimental and observational designs. Students write research questions, match research methods to research questions, and conclude with a proposal that uses a social sciences empirical approach to address their research question. Offered: jointly with B H 527; Sp.

**PHG 536 Bioinformatics and Gene Sequence Analysis (3)** T. ROSE Nature and relevance of molecular sequence information, computer-based protein, and DNA sequence analysis, molecular sequence and genomic databases, and methods for database accession and interrogation. Prerequisite: background in molecular biology and permission of instructor. Offered: jointly with PABIO 536; Sp.

**PHG 544 Ethical Implications of Emerging Biotechnology (3)** S. FULLERTON Introduces students to select biotechnology innovations and invites consideration of the ethical and policy implications surrounding their development and potential use. Offered: jointly with B H 544; W.

**PHG 545 Biostatistical Methods for Big Omics Data (3)** This "hands-on" course introduces statistical methods for high-dimensional omics data, as well as the R programming language and the Bioconductor project as tools to extract, query, integrate, visualize, and analyze real world omics data sets. Prerequisite: BIOST 512, 514, or 517. Offered: jointly with BIOST 545/GENOME 545.

**PHG 580 Interactive Seminar (1, max. 30)** B. Weir Seminar series on topics related to public health genetics, including current bioethical, legal, medical, biotechnology, and public policy issues. Credit/no-credit only. Offered: jointly with LAW H 579; AWSp.

**PHG 590 Selected Topics in Public Health Genetics (1-6, max. 6)** Tutorials are arranged for a small number of students for in-depth examination of an area of public health genetics, usually of a current nature.
PHG 595 Master's Practicum (1-12, max. 12) Supervised practice experience providing students an opportunity to learn how genetics is applied in a public health setting and in the formulation and application of public health policy. Prerequisite: practicum agreement.

PHG 600 Independent Study or Research (*-) Credit/no-credit only.

PHG 700 Master's Thesis (*-) Credit/no-credit only.

PHG 800 Doctoral Dissertation (*-) Credit/no-credit only.
Science, Technology, and Society Studies

Course Descriptions

STSS 591 Science, Technology, and Society Studies in Action (2) L. CECCARELLI, P. THURTLE, M. WYLIE Provides an advanced introduction to science, technology, and society studies. Includes topics of active research interest in history and philosophy of science; social studies of science; science and technology policy; and ethics and equity issues. Credit/no-credit only. Offered: A.

STSS 602 Science, Technology, and Society Studies Capstone Portfolio (2) Students develop, document, and present their STSS portfolio projects under supervision of their STSS advisor. Credit/no-credit only.
Technology Innovation

Course Descriptions

TECHIN 510 Programming for Digital and Physical User Interfaces (4) Students will enhance their fundamental programming skills, with a focus on sensor-based signals and data to demonstrate core concepts, while providing useful tools for prototyping digital and physical user interfaces. This course will introduce students to the practices of engineering interactive systems on mobile and desktop computers and low-cost micro-controllers. Offered: A.

TECHIN 511 Fabrication and Physical Prototyping (3) Students gain fundamental fabrication and rapid prototyping skills for interactive systems, with a focus on industrial and product design, employing tools and processes with physical hardware, products, form factors, enclosures and packages. Offered: Sp.

TECHIN 512 Introduction to Sensors and Circuits (3) Students will gain the background and techniques needed to connect digital systems to the physical world by learning the fundamentals of integrating sensors and microcontrollers. Students will also gain experience in the general process of sensor selection and designing hardware systems. Offered: W.

TECHIN 513 Managing Data and Signal Processing (3) Students will gain the understanding needed to process low level sensor data, analyze and interpret that data using basic machine learning and signal processing, and then store the data in the cloud for later retrieval. Offered: W.

TECHIN 514 Hardware Software Lab 1 (4) Students will be given a real-world experience in developing hardware/software systems to gather an understanding of the entire lifecycle of building such a system from concept through requirements and through implementation, and finally testing. Offered: W.

TECHIN 515 Hardware Software Lab 2 (4) Builds on the foundation of TECHIN 514 and incorporate physical fabrication into course objectives. Students continue prototyping hardware/software systems, with the added complexity of signal processing, networking, cloud interfaces and web-based user interfaces. Prerequisite: TECHIN 514 Offered: Sp.

TECHIN 520 Design Thinking for Technology Innovation (2) Introduces students to the history, theory, methods and core concepts of design thinking as applied to the design of innovations in hardware and software technology. This course will establish exposure to methods that will be applied to projects in the corresponding studio course, Design Thinking Studio, TECHIN 521.

TECHIN 521 Design Thinking Studio (3) Involves practical application of the approach and methods learned in the corresponding lecture course, Design Thinking for Technology Innovation (TECHIN 520). Students apply their understanding to a specific problem and context that they will develop during the class. Offered: A.
TECHIN 522 The History and Future of Technology (2) Gives students an understanding of past trends in hardware and software technology to understand how technology has changed over time. This will be in combination with techniques for enabling students to think about future technology trends and develop prototypes for futuristic ideas. An exploration of technology adoption and maturation models will ground students in the analysis skills to recognize the user and business contexts. Offered: W.

TECHIN 523 User Research and Evaluation Studio (3) This project-based course focuses on the user research and evaluation components of the design process. Students learn methods to engage stakeholders and elicit their needs to provide insight for defining requirements for ethically-grounded designs and aspects of evaluation of technology designs with potential users, including usability and user experience evaluation techniques. Offered: Sp.

TECHIN 524 Visual, Industrial and Interaction Design Studio (3) Immerse students in the theory and practice of basic design concepts for the design of interactive products that are functionally, emotionally and aesthetically appealing. Offered: S.

TECHIN 530 Essentials of Entrepreneurship (3) Introduces business strategy fundamentals and an exploration of key issues and strategies involved in the process of starting up a new enterprise as well as practice in organizational strategy analysis and development.

TECHIN 531 Planning and Managing Hardware/Software Development (2) Students gain experience in creating a software/hardware product road map and an engineering/development plan. Offered: S.

TECHIN 532 Introduction to Finance and Accounting for Entrepreneurs (2) This course provides the financial tools and mindset needed to become a successful entrepreneur. This course teaches common financial vocabulary, how to read and interpret the main financial statements (Balance Sheet, Income Statement and Statement of Cash Flows), capital budgeting fundamentals and valuation fundamentals. Offered: Sp.

TECHIN 533 Corporate and IP Law for Technology Innovators (2) Introduces key areas of business law, including common organizational structures such as corporations, LLCs, and nonprofit/low-profit entities. Covers the roles of founders, directors and shareholders in each structure, as well as the basics of intellectual property and copyright law. Offered: S.

TECHIN 534 Building Effective Teams (3) This course will equip students with tools to establish strong, shared commitment to a compelling team purpose, bring about collective buy-in to concrete performance objectives, promote team member adherence to a set of suitable work rules and roles, and foster the interpersonal trust and respect crucial to mutual team member support and, ultimately, extraordinary team performance. Credit/no-credit only. Offered: S.

TECHIN 540 Pre-Launch Studio (2) Students plan and prepare for their launch project. Students will learn to present design goals and decisions as well as implementation results in both verbal presentation and written documentation. Students will work in teams to learn about coordinating such groups. Offered: S.
TECHIN 541 Launch Seminar (2) This seminar focuses on design and software/hardware industry trends and career outlook. Students develop a personal career vision and plan based on their experience, interests and skills. Offered: A.

TECHIN 542 GIX Integrated Launch Studio (10) Working in teams, students integrate everything they have learned in the program to complete a launch project around a connected device innovation. Offered: A.

TECHIN 599 Special Projects (1) Individual graduate projects for the Masters of Science in Technology Innovation. Credit/no-credit only. Offered: Sp.

TECHIN 600 Independent Study or Research (1-10, max. 10) Supervised independent study work to individual students in order to flexibly address the academic and professional development and research interests of individual students. Offered: AWSpS.
Urban Design and Planning

Program Overview

The PhD in Urban Design and Planning at the University of Washington is one of 39 PhD programs in urban and regional planning in North America, and one of the oldest, founded in 1967. This program brings together faculty from disciplines ranging from architecture to sociology to focus on the interdisciplinary study of urban problems and interventions. Covering scales from neighborhoods to metropolitan areas, the program addresses interrelationships between the physical environment, the built environment, and the social, economic, and political institutions and processes that shape urban areas. The breadth of this program permits students to pursue doctoral studies in the various aspects of urban design and planning as well as in a number of related social science, natural resource, and engineering areas.

The program seeks to prepare scholars who can advance the state of research, practice, and education related to the built environment and its relationship to society and nature in metropolitan regions throughout the world. It provides a strong interdisciplinary educational experience that draws on the resources of the entire University, and on the laboratory provided by the Seattle metropolitan region and the Pacific Northwest. The program emphasizes the educational values of interdisciplinarity, intellectual leadership and integrity, and the social values of equity, democracy, and sustainability. It seeks to promote deeper understanding of the ways in which public decisions shape and are shaped by the urban physical, social, economic, and natural environment. The program envisions its graduates becoming leaders in the international community of researchers, practitioners, and educators who focus on improving the quality of life and environment in metropolitan regions.

Graduate Program

Graduate Program Coordinator  311 Loew, Box 352192  206-543-6398

Doctor of Philosophy

Admission Requirements

Admission to the PhD program is based on evidence of promise of high scholarly achievement and research orientation. The applicant's statement of purpose, Graduate Record Examination (GRE) test results, letters of recommendation, and examples of past work constitute the basis for the admission evaluation.

Applicants typically have a master's degree in fields ranging from planning and public affairs to natural and social sciences. Students interested in a professional degree in urban design and planning should apply to the master's program in urban design and planning.

Application Deadline: All application materials are due by February 1. International applicants are encouraged to submit the Graduate School on-line application form by November 1.
For more information, see the program's [website](#).

**Degree Requirements**

90 credits, divided into three phases.

**Phase I: The Core Curriculum**

The core curriculum defines the intellectual foundation of the program. While the program retains considerable flexibility in defining a research agenda within urban and environmental planning and policy, it provides a common foundation for all students to build upon. Students enter the program with a master's degree, in fields ranging from planning and public affairs to natural and social sciences. Depending on the academic preparation of the student, the core requirements can be met within one to two years.

*Required Courses:* Five courses, normally completed during the first year unless schedule conflicts make this infeasible. Courses from Phase II requirements may also be taken in the first year.

1. **Core Sequence:** URBDP 591, URBDP 592, URBDP 593
2. **Restricted Electives (before completion of Phase I):**
   a. Qualitative Research Methods - one of the following: URBDP 598, GEOG 425, HIST 598, HSERV 526, POL S 493.
   b. Quantitative Research Methods - one of the following: CS&SS 594, CS&SS 504, CEE 584

**Phase II: Area of Study**

Students develop with their Supervisory Committee a description of their proposed areas of study. These areas of scholarship must demonstrate an interdisciplinary research approach to an application within urban and environmental planning and policy. The description should develop a curriculum proposal approved by the Supervisory Committee that addresses the following advanced study requirements:

*Curriculum Requirements:* Seven courses and a teaching seminar, in addition to advanced courses directly related to the area of study selected by the student. Some courses may be taken in the first year.

1. Urban Processes and Patterns: Three courses – For course options, see program website at [depts.washington.edu/urbdpphd/Phase_II.shtml](#)
2. Research Design and Methods: Two courses – For course options, see program Website at [depts.washington.edu/urbdpphd/Phase_II.shtml](#)
3. Urban and Environmental Design and Planning: Two courses – For course options, see program Website at [depts.washington.edu/urbdpphd/Phase_II.shtml](#)
4. Teaching Methods: One teaching seminar and experience as a TA for at least one quarter, before completion of Phase III.

*General Examination:* A critical review of the literature in the area of study, developed by the student, which integrates interdisciplinary research on that area of study and identifies areas of potential research opportunity that may subsequently form the basis for a dissertation proposal. The review should demonstrate broad familiarity with relevant research in the chosen area, and with the range of theory and methods applied within the reviewed literature.

**Phase III: Dissertation**

Once the student passes the general examination, he or she is advanced to the level of doctoral candidate, and is expected to build on the critical review of the literature to develop a dissertation proposal. The dissertation proposal should demonstrate the characteristics of interdisciplinarity, relevance to urban and environmental planning and policy, and potential for contribution to scholarship.

**Financial Aid**

The interdisciplinary PhD program in Urban Design and Planning attempts to provide funding for doctoral program applicants in a way that makes the program attractive to the strongest potential applicants, ensures their effective mentoring while in the program, and actively engages and energizes faculty to improve the program and to bring research funding to support students.
Interschool or Intercollege Programs

Bioengineering

Department Overview

N107 William H. Foege Building

Bioengineering encompasses a wide range of activities in which the disciplines of engineering and biological or medical science intersect. Such multidisciplinary endeavors are yielding new discoveries and major advances that are revolutionizing the healthcare system. The Department of Bioengineering, housed jointly in the School of Medicine and the College of Engineering, provides a comprehensive, multidisciplinary program of education and research and is recognized as a leading bioengineering program in the world. Major areas of research and education include biomaterials and regenerative medicine, molecular and cellular engineering, technology for expanding access to healthcare, instrumentation, imaging and image-guided therapy, and systems, synthetic, and quantitative biology.

Undergraduate Program

Adviser
N107 William H. Foege Building, Box 355061
206-685-2000
bioeng@uw.edu
dep.ts.washington.edu/bioe/programs/bachelors/bs.html

The Bioengineering program offers the following programs of study:

- The Bachelor of Science in Bioengineering degree
- The Bachelor of Science in Bioengineering degree with an option in nanoscience and molecular engineering
- A five-year BS/MS option (consult website or adviser for details)

Bachelor of Science in Bioengineering

Suggested First- and Second-Year College Courses: CHEM 142, CHEM 152, and CHEM 162; CSE 142, English composition, MATH 124, MATH 125, MATH 126, PHYS 121.
Department Admission Requirements

Engineering Undeclared Students

See section on College of Engineering Admission for additional details on Direct-to-College admission and placement process for Engineering Undeclared students.

1. Deadlines for requesting placement: July 1 and January 15
2. Courses completed: MATH 124, MATH 125, MATH 126; CHEM 142, CHEM 152, CHEM 162 (or CHEM 145, CHEM 155); 5 credits of English composition
3. Grade requirements: Minimum 2.5 grade in CHEM 162 and minimum 2.50 cumulative GPA in courses required for placement
4. BIOEN 215 strongly recommended

Engineering Undeclared students placed into the major winter quarter should begin the bioengineering core sequence spring quarter, and must complete all courses shown below for Upper Admission (including course requirements and additional course requirements) or wait a full year to begin the core sequence.

If the number of Engineering Undeclared students requesting the major exceeds the department capacity, a matching process is implemented. Factors considered for admission include performance in prerequisite courses, quality of overall academic record, content of personal statement, applicable work or extracurricular activities, and other special circumstances as disclosed by the applicant.

Other Current UW Students and Transfer Students

Current UW students without Engineering Undeclared status and transfer students may apply for admission. Admission is competitive.

Early Admission (Current UW Students Only)

1. Admission is for autumn quarter only. Application deadline: July 1
2. Course requirements: MATH 124, MATH 125, MATH 126; CHEM 142, CHEM 152, CHEM 162 (or CHEM 145, CHEM 155); 5 credits of English composition. All courses completed prior to application deadline.
3. Grade requirements: Minimum 2.5 grade in CHEM 162 and minimum 2.50 cumulative GPA in courses required for application
4. BIOEN 215 strongly recommended

CHEM 223, CHEM 237, PHYS 122, AMATH 301, and BIOL 180 completed prior to spring quarter. MATH 307 and BIOL 200 also strongly recommended before starting major-level bioengineering sequence, which begins spring quarter.
Upper Admission (Current UW Students and Transfer Students)

1. Admission is for spring quarter only. Application deadline: January 15
2. Course requirements: MATH 124, MATH 125, MATH 126; CHEM 142, CHEM 152, CHEM 162 (or CHEM 145, CHEM 155); PHYS 121; 5 credits English composition. All courses completed prior to application deadline
3. Additional course requirements: AMATH 301; BIOL 180; CHEM 223 or CHEM 337; PHYS 122 - all completed or in progress at time of application; all completed prior to spring quarter
4. Grade requirements: Minimum 2.5 grade in CHEM 162; minimum 2.50 cumulative GPA in courses required for application
5. Strongly recommended: BIOEN 215 completed, and MATH 307 and BIOL 200 completed or in progress at time of application

Factors evaluated for admission include performance in prerequisite courses, quality of overall academic record, demonstrated ability to take at least 12 credits per quarter, record of honors, content of personal statement, applicable work or extracurricular activities, and other special circumstances as disclosed by the applicant.

Admission to Nanoscience and Molecular Engineering Option (NME): By self-selection. Normally occurs winter quarter of the junior year, upon completion of all bioengineering prerequisites and formal admission to the bioengineering major. Students indicate interest on the major application and discuss their interests/background in the application personal statement.

Graduation Requirements

Students follow requirements in effect at time of entry into the department. 180 credits as follows:

General Education Requirements (105 credits):

1. Areas of Knowledge: 24 total credits in Visual, Literary, & Performing Arts (VLPA) and Individuals & Societies (I&S), with at least 10 credits in each area.
2. Written and Oral Communication (5 credits): 5 credits of English composition, from the approved University list. Additional writing credits are built into the major core courses.
3. Mathematics (24 credits): MATH 124, MATH 125, MATH 126; either MATH 307 or AMATH 351; either MATH 308 or AMATH 352; STAT 390 or IND E 315
4. Natural Science (44 credits): CHEM 142, CHEM 152, CHEM 162 and CHEM 223 (or CHEM 237); PHYS 121, PHYS 122; BIOL 180, BIOL 200, BIOL 220
5. General Electives (8 credits); (6 credits for the NME option)
**Major Requirements (75 credits):**

1. *Engineering Fundamentals (4 credits):* AMATH 301

2. *Bioengineering Core (37 credits):* BIOEN 215, BIOEN 315, BIOEN 316, BIOEN 317, BIOEN 325, BIOEN 326, BIOEN 327, BIOEN 335, BIOEN 336, BIOEN 337, BIOEN 345, BIOEN 400

3. *Bioengineering Capstone (7-10 credits):* One of the following options: (1) BIOEN 401 plus 9 credits of BIOEN 402; (2) BIOEN 404 and BIOEN 405; students taking BIOEN 404 and BIOEN 405 take three additional Engineering Elective credits from a departmentally approved list (see 5, below).

4. *Bioengineering Senior Electives (15 credits):* 15 credits from an approved departmental list, including completion of one of three concentration areas: 

   - *Molecular and Materials Bioengineering:* four courses from approved departmental concentration list.
   - *Cells, Tissue, and Systems Bioengineering:* four courses from approved departmental concentration list.
   - *Diagnostics and Therapeutic Instruments:* PHYS 123; four courses from approved departmental concentration list. See department for approved list.

5. *Approved Engineering Electives (9-12 credits):* Chosen from a departmentally approved list or from additional bioengineering senior elective credit. See department for approved list. Students who take BIOEN 402 need 9 approved engineering elective credits, and students who instead take BIOEN 404 and BIOEN 405 need 12.

6. *Grade Requirements:* Minimum 2.0 grade in each bioengineering course applied to the major

**Nanoscience and Molecular Engineering Option Requirements (77 credits):**

1. *Engineering Fundamentals (4 credits):* AMATH 301

2. *Bioengineering Core (37 credits):* BIOEN 215, BIOEN 315, BIOEN 316, BIOEN 317, BIOEN 325, BIOEN 326, BIOEN 327, BIOEN 335, BIOEN 336, BIOEN 337, BIOEN 345, BIOEN 400

3. *Bioengineering Capstone (10 credits):* BIOEN 401, plus 9 credits of BIOEN 402.

4. *Nanoscience and Molecular Engineering Courses (21 credits):* NME 220, NME 321, NME 421; minimum four additional approved nanoscience and molecular engineering electives, to be chosen from approved departmental list; additional senior elective credits as needed to total 15. The senior capstone (10 credits from BIOEN 401 and BIOEN 402) must be in an NME area.

5. *Approved Engineering Electives:* 5 credits

6. Minimum 2.0 grade in each bioengineering course applied to the major

**Student Outcomes and Opportunities**

- *Learning Objectives and Expected Outcomes:* Bioengineering students learn to apply engineering synthesis and analysis to biological problems and to glean design principles from nature to solve medical problems and create biomedical devices and materials. A key piece of the degree program is the senior capstone research and design project,
through which students develop their knowledge and skills by joining in the department's cutting-edge research. Bioengineering graduates are prepared to enter graduate school, medical school, or the growing biomedical industry. The department's goal is to prepare students to be leaders and innovators in improving human health and healthcare. Bioengineering graduates have the ability to apply knowledge of mathematics, science, and engineering; the ability to design and conduct experiments, as well as to analyze and interpret data; the ability to design a system, component, or process to meet desired needs; the ability to function on multi-disciplinary teams; the ability to identify, formulate, and solve engineering problems; an understanding of professional and ethical responsibility; the ability to communicate effectively; the broad education necessary to understand the impact of engineering solutions in a global and societal context; a recognition of the need for, and an ability to engage in, life-long learning; knowledge of contemporary issues; the ability to use the techniques, skills, and modern engineering tools necessary for engineering practice; an understanding of biology and physiology; the capability to apply advanced mathematics (including differential equations and statistics), science, and engineering to solve the problems at the interface of engineering and biology; the ability to make measurements on and interpret data from living systems, addressing the problems associated with the interactions between living and non-living materials and systems.

- **Instructional and Research Facilities:** The department is housed in the Foege North building. Amenities include instructional laboratories, an advanced computing laboratory for class instruction and student use, a general computer laboratory for student use, a student work room, a seminar room, and meeting space. Departmental offices are also located in this building. Other laboratories are located in the College of Engineering and the School of Medicine. The Department of Bioengineering houses UWEB (University of Washington Engineered Biomaterials), participates in the Center for Nanotechnology, and sponsors many other research centers relating to our five thrust areas in computational bioengineering, distributed diagnosis and home healthcare, engineered biomaterials, medical imaging and image-guided therapy, and molecular bioengineering and nanotechnology.

- **Honors Options Available:** College Honors (Completion of both Interdisciplinary Honors and Departmental Honors requirements). Departmental Honors (see adviser for requirements). For Interdisciplinary Honors, see University Honors Program.

- **Research, Internships, and Service Learning:** Many undergraduate bioengineers are involved in internships. The department participates in the College of Engineering Co-op Program and maintaining an internship website for majors.

- **Department Scholarships:** Several scholarships are available for majors.

- **Student Organizations/Associations:** The Biomedical Engineering Society (BMES), the campus chapter of the national professional organization, organizes social events as well as events that support student interest in medical school, graduate school, and industry.

*Of Special Note:* Courses on technology commercialization are available to seniors.
Graduate Program

Graduate Program Coordinator
N107 William H. Foege Building, Box 355061
206-685-2000
bioeng@uw.edu

The department offers the Master of Science (MS), the Master of Pharmaceutical Bioengineering (PHARBE), and Doctor of Philosophy (PhD) degrees.

Master of Science

The master of science provides breadth of knowledge of engineering, biology, and medicine, and depth of knowledge in a particular research area. The degree prepares students for careers in academic, industrial, or hospital environments.

Admission Requirements

International applications, deadline December 1; domestic applications, deadline December 15. Late and/or incomplete applications are not reviewed.

Required application items

1. Online application: www.grad.washington.edu/applForAdmiss.
2. Department of Bioengineering admission form
3. Statement of purpose
4. Resume/curriculum vitae
5. Three letters of recommendation
6. Unofficial transcripts only (official transcripts are requested once an offer has been made)
7. Official GRE scores (sent to code 4854, and must be sent before the deadline)
8. Official TOEFL scores (from international applicants only, and must be received before the deadline)

More information about the application is online at depts.washington.edu/bioe/education/prospective/educ_prospective.html. Materials sent in addition to those listed above are considered non-essential and do not enhance the application.

Required courses: ordinary differential equations, linear algebra, signal analysis, probability theory and statistics, programming, electrical engineering and physics, chemistry, materials science, rate processes and mathematics, and cell and molecular biology. Admitted students must be knowledgeable of these topics prior to entrance to the MS program.
Degree Requirements

36 credits

1. BIOEN 501, BIOEN 502, BIOEN 503 (12 credits); biostatistics; bioengineering seminar
2. BIOEN electives: (10 credits)
3. BIOEN 700
4. All core and elective courses taken for a numerical grade.
5. A single course may not count for two separate requirements.
6. One quarter teaching assistant

Master of Pharmaceutical Bioengineering

The Master of Pharmaceutical Bioengineering (PHARBE) is an evening degree program designed to enable working local engineers, scientists, researchers, and professionals in the biotechnology, pharmaceutical, and related industries to explore advanced education in the areas of molecular and cellular biology, drug discovery and design, pharmaceutics, and translational pharmaceutics. Professionals may also complete three certificate programs without applying for degree status.

Admission Requirements

1. BS degree or equivalent in a relevant science (field/research), public health (biomedical related) or engineering (field/research) related, or a BS degree or equivalent in unrelated field and two years' experience working within a scientific or engineering group for a biotechnology or pharmaceutical company or related industry. Clinical degrees are considered. Applicants who have a bachelor's degree other than a BS, professional experience, and who have completed recommended prerequisite coursework are also considered.

2. Minimum 3.00 GPA in the last 90 quarter credit hours (60 semester credit hours). Students who have a BA/BS degree with under a 3.00 GPA and have two years' work experience may be approved for graduate non-matriculated (GNM) status for basic biosciences. Students who receive a 3.0 or above in their basic biosciences courses under GNM status are considered for degree admissions.

3. Official GRE scores

4. One set of official (unopened) transcripts from each non-UW institution attended

5. Prerequisite Course Requirements: The following courses must be completed with a minimum 2.0 in each course before applying to the degree program. Students whose undergraduate degree majors are in engineering, biology, chemistry or pharmacy are exempt from the prerequisite course requirements.

   a. Calculus: Minimum one quarter (or one semester) of college calculus
   b. Chemistry: Minimum two quarters (one semester) of college general chemistry
      Additional course in organic chemistry recommended.
c. Biology: Minimum one quarter (semester) of general biology

d. Physics: one quarter (PHYS 114).

6. Applicants are evaluated on professional experience, previous degrees earned, or most recent/undergraduate GPA, basic biosciences courses GPA (if applicable), letters of recommendation, statement of intent, and GRE test scores. Admission is not guaranteed.

7. Applicants who do not qualify for admission to the PHARBE degree program may be admitted to courses and/or to Pharmaceutical Bioengineering Certificate programs.

8. English Proficiency: Non-native English speakers are expected to have adequate English language proficiency. The Graduate School requires a TOEFL score of at least 580, unless applicants are citizens of Australia, Canada, Ireland, New Zealand, or the United Kingdom; or hold a bachelor's or advanced degree from an accredited institution in any of these countries.

Degree Requirements

Minimum 40 credits

2. Advanced Tracks: 16 credits from one of two advanced tracks in translational pharmaceutics or drug discovery and design. (Students must complete all 20 credits of the basic biosciences core courses before enrolling in advanced track courses.)
   b. Drug Discovery and Design (16 credits): Molecular Biotechnology, Drug Discovery & Design, Molecular Targets & Drug Classes, Systems Biology and Bioinformatics

3. Departmental Seminar (4 credits)

4. Optional Capstone Project: Professional capstone project in either the drug discovery and design or process development courses.

5. Minimum 3.00 cumulative GPA

Doctor of Philosophy

Trains individuals for careers in bioengineering research and teaching. The program includes three major objectives: (1) breadth of knowledge about engineering, biology, medicine, and the interdisciplinary interface between these different fields; (2) depth of knowledge and expertise in a particular scientific specialty; (3) demonstrated independence as a bioengineering researcher. These objectives are fulfilled through a combination of educational and research experiences. The program is rigorous but maintains flexibility to accommodate qualified students from diverse academic backgrounds. Entrance to the PhD program may be made directly after the BS
An optional dual PhD degree in bioengineering and nanotechnology is available; see www.nano.washington.edu.

**Admission Requirements**

See application process detailed in the MS section.

While a completed MS degree is not required before beginning the PhD, every graduate student must have the following courses as part of her or his undergraduate education: ordinary differential equations, linear algebra, signal analysis, probability theory and statistics, programming, electrical engineering and physics, chemistry, materials science, processes and mathematics, and cell and molecular biology. Admitted students must be knowledgeable of these topics prior to entrance to the PhD program.

**Degree Requirements**

90 credits

1. **Required Courses**
   a. Molecular Bioengineering: BIOEN 501
   b. Cellular Bioengineering: BIOEN 502
   c. Systems Bioengineering: BIOEN 503
   d. Biostatistics
   e. Bioengineering Seminar: BIOEN 510
   f. 16 credits of bioengineering elective courses, chosen in consultation with faculty adviser
   g. 27 credits of dissertation writing (BIOEN 800)

   All core and elective courses must be taken for a numerical grade. A single course may not count for two separate requirements.

2. **One quarter teaching assistantship**

A student progressing well follows this schedule:

1. First Year: Complete one to three lab rotations and select a thesis adviser
2. Second Year: Pass the qualifying examination and form a Supervisory Committee
3. Third Year: Pass the general examination.
4. Fourth Year (and subsequent years): Make an annual progress report to, and receive feedback from, the Supervisory Committee.
5. Fifth Year: Defend the dissertation.
Medical Scientist Program

A Medical Scientist Training Program (MSTP) exists for the support of individuals interested in coordinated graduate school/medical school study leading to both the MD and PhD degrees. Students entering this highly competitive program are given an opportunity to pursue a flexible, combined course of study and research. Early inquiry is essential for this option. Contact the MSTP office at 206-685-0762.

Research Facilities

As the department is established within the College of Engineering and the School of Medicine, bioengineering students have access to all engineering and health science departments and facilities. A wide range of technologies and virtually all aspects of biomedical research tools are available.

Financial Support

Financial support is available to qualified graduate students in the form of traineeships, fellowships, and teaching and research assistantships. Funding is derived from federal research and training programs, the Graduate School Fund for Excellence and Innovation, and programs sponsored by private agencies. Questions regarding financial support may be directed to the adviser.

Course Descriptions

Bioengineering

BIOEN 215 Introduction to Bioengineering Problem Solving (3) A. Taylor Amos Introduces bioengineering through a problem solving approach. Topics include: creative problem solving techniques, self-directed inquiry, engineering ethics, social constraints, and engineering design process.

BIOEN 290 Guided Independent Studies on Transformative Science (4) NW G. POLLACK Intensive laboratory experience mixed with lectures, readings, and discussions aimed at achieving deep understanding of scientific approach, particularly the nature of paradigm shifts, role of governmental support and management of science, power of orthodoxy, role of challenger, and fate of unpopular scientific views. Offered: W.

BIOEN 299 Introduction to Bioengineering (1) G. POLLACK Lectures on the various aspects of bioengineering; orientation in bioengineering studies and practice. Credit/no-credit only. Offered: ASp.

BIOEN 315 Biochemical Molecular Engineering (3) V. Daggett, D. Ratner Introduces the requisite organic, physical, and biochemistry for incoming bioengineers to understand biological systems at the molecular level. Prerequisite: CHEM 223, CHEM 237 or CHEM 335; BIOL 200, which may be taken concurrently. Offered: Sp.
BIOEN 316 Biomedical Signals and Sensors (4) C. NEILS Introduces the sources, detection, and processing of signals in medical instrumentation. Includes analog and digital signal processing in the time and frequency domains. Emphasizes component strengths and limitations, to develop systems that improve safety, accuracy, and reliability. Prerequisite: AMATH 301 and PHYS 122; BIOEN 317, which must be taken concurrently; either MATH 307 or AMATH 351, which may be taken concurrently. Offered: Sp.

BIOEN 317 Biomedical Signals and Sensors Laboratory (2) A. Yazdan-Shahmorad Uses computational and experimental projects covering methods to acquire, process, and analyze signals from physiological and biochemical origins. Co-requisite: BIOEN 315 and BIOEN 316. Offered: Sp.

BIOEN 325 Biotransport I (4) Y. Zheng Introduces momentum and heat transport in medical and biological systems. Examines how differential and control-volume analyses produce ordinary and partial differential equations; develops analytical and computational solution methods. Prerequisite: AMATH 301; either MATH 136, MATH 307, or AMATH 351; PHYS 122. Offered: A.

BIOEN 326 Solid and Gel Mechanics (4) W. THOMAS Introduces solid mechanics and interactions of biological structures and medical materials. Emphasizes the relationships between composition, structure, properties, and performance of metals and ceramics, synthetic and natural macromolecules, cells, tissues, and self assembling systems. Prerequisite: either CHEM 162, CHEM 164, or CHEM 165; PHYS 122; minimum grade of 2.0 in BIOEN 315. Offered: A.

BIOEN 327 Fluids and Materials Laboratory (2) C. NEILS Practical exploration of the behavior of fluids and soft materials that occur in biological systems and biomedical devices; and the interaction between cells and their environment. Includes methods of measurement, analysis, and design. Co-requisite: BIOEN 325 and BIOEN 326. Offered: A.

BIOEN 335 Biotransport II (3) J. BRYERS Studies the principles of combined mass transport in homogeneous and heterogeneous reaction systems as applied to biological processes. Introduces chemical and biochemical reaction kinetics, methods of evaluating kinetic parameters for reaction rate data, and prediction of the performance of biological and biochemical processes. Prerequisite: minimum grade of 2.0 in BIOEN 325. Offered: W.

BIOEN 336 Bioengineering Systems and Control (3) H. SAURO Reviews linear and nonlinear systems analysis and control system design and biological and medical applications. Prerequisite: minimum grade of 2.0 in BIOEN 327; either MATH 136, MATH 308, or AMATH 352. Offered: W.

BIOEN 337 Mass Transport and Systems Laboratory (2) A. Taylor Amos Uses computational and experimental laboratory exercises to demonstrate time- and space-dependent linear and nonlinear systems with specific emphasis on bioengineering application. Prerequisite: BIOEN 327; BIOEN 335 and BIOEN 336, which must be taken concurrently; either MATH 390/STAT 390, Q SCI 381, BIOST 310, or IND E 315, which may be taken concurrently. Offered: W.
BIOEN 345 Failure Analysis and Human Physiology (4) S. Pun, M. Regnier, M. Scatena
 Applies engineering analysis to understand human physiology of the engineering of solutions to medical and biological problems. Includes laboratory. Prerequisite: BIOL 220; minimum grade of 2.0 in each of BIOEN 215, BIOEN 335, BIOEN 336, and BIOEN 337. Offered: Sp.

BIOEN 400 Fundamentals of Bioengineering Design (3) K. Woodrow  Preparatory project-based course that develops understanding of the engineering design process and incorporates modern tools and methodologies for developing innovative health technologies. Prerequisite: BIOEN 337; either STAT 390/MATH 390, Q SCI 381, BIOST 310, or IND E 315; BIOL 180, 200, 220; PHYS 121, 122 Offered: Sp.

BIOEN 401 Bioengineering Capstone Proposal (1) P. Yager  Teaches proposal-writing principles and guides the development and planning of individually-based senior capstone projects. Prerequisite: BIOEN 337; STAT/MATH 390 or IND E 315; BIOL 180, 200, 220; PHYS 121, 122. Co-requisites: BIOEN 400 Offered: Sp.

BIOEN 402 Bioengineering Capstone Research and Design ([2-6]-, max. 10) Independent senior design project. Prerequisite: BIOEN 401. Offered: AWSpS.

BIOEN 403 Bioengineering Capstone Research (2-, max. 4) Independent senior research project. Prerequisite: BIOEN 401. Offered: AW.

BIOEN 404 Bioengineering Team Design I (3) C. NEILS  First course in team design project course sequence. Prerequisite: BIOEN 401. Offered: W.

BIOEN 405 Bioengineering Team Design II (3) A. TAYLOR AMOS  Second course in team design project course sequence. Prerequisite: BIOEN 404. Offered: Sp.

BIOEN 410 Bioengineering Honors Seminar (1) Service-learning for departmental honors students. Credit/no-credit only. Offered: A.

BIOEN 415 Bioconjugate Engineering (4) D. Ratner  Applies bioconjugate and molecular engineering methods for use in nanotechnology, drug delivery, biomaterials, diagnostics, medical devices, and biomedical research. Students learn how to engineer molecular and macromolecular systems using versatile bioconjugate techniques applicable to both industry and academia. Prerequisite: BIOEN 315, CHEM 221, CHEM 224, CHEM 239, or CHEM 337 Offered: A.

BIOEN 420 Medical Imaging (4) C. YUAN Various medical imaging modalities (x-rays, CT, MRI, ultrasound, PET, SPECT optical imaging, etc.) and their applications in medicine and biology. Extends basic concepts of signal processing (BIOEN 303) to the two and three dimensions relevant to imaging physics, image reconstruction, image processing, and visualization. Prerequisite: either BIOEN 316 or E E 235; either MATH 136, MATH 308, or AMATH 352; either CSE 142 or AMATH 301.

BIOEN 423 Introduction to Synthetic Biology (3) Studies mathematical modeling of transcription, translation, regulation, and metabolism in cell; computer aided design methods for
synthetic biology; implementation of information processing, Boolean logic and feedback control laws with genetic regulatory networks; modularity, impedance matching and isolation in biochemical circuits; and parameter estimation methods. Prerequisite: either MATH 136, MATH 307, AMATH 351, or CSE 311 and MATH 308 or AMATH 352. Offered: jointly with CSE 486/E E 423; A.

**BIOEN 424 Advanced Systems and Synthetic Biology (3)** H. Kueh Covers advanced concepts in system and synthetic biology. Includes kinetics, modeling, stoichiometry, control theory, metabolic systems, signaling, and motifs. All topics are set against problems in synthetic biology. Prerequisite: either BIOEN 401, BIOEN 423, E E 423, or CSE 486. Offered: jointly with CSE 487/E E 424; Sp.

**BIOEN 425 Laboratory Methods in Synthetic Biology (4)** Designs and builds transgenic bacterial using promoters and genes taken from a variety of organisms. Uses construction techniques including recombination, gene synthesis, and gene extraction. Evaluates designs using sequencing, fluorescence assays, enzyme activity assays, and single cell studies using time-lapse microscopy. Prerequisite: either BIOEN 423, E E 423, or CSE 486; either CHEM 142, CHEM 144, or CHEM 145. Offered: jointly with CSE 488/E E 425; W.

**BIOEN 436 Quantitative Physiology (3)** K. Stevens Develops a foundation of human physiology by examining the homeostasis of vital parameters within the body, and the physiological properties of human cells, tissue, and organs.

**BIOEN 440 Introduction to Biomechanics (4)** J. SANDERS Presents the mechanical behavior of tissues in the body and the application to design of prostheses. Tissues studies include bone, skin, fascia, ligaments, tendons, heart valves, and blood vessels. Discussion of the structure of these tissues and their mechanical response to different loading configurations. An important part of the class is a final project. Offered: jointly with M E 445; Sp.

**BIOEN 447 Fundamentals of Magnetic Resonance and Ultrasound Imaging (4)** M. Averkiou Principles and uses of biomedical imaging with magnetic resonance imaging (MRI) and ultrasound are presented from an engineering viewpoint. Topics include the physics of MRI and ultrasound, principles of image formation, clinical applications, and the technology supporting important modes of modern imaging equipment. Prerequisite: BIOEN 316 or BIOEN 317. Offered: W.

**BIOEN 449 Therapeutic and Diagnostic Ultrasound (4)** M. AVERKIOU Fundamentals of ultrasound leading to real-time ultrasound imaging; sound beams and signals, transducers, arrays and array beamforming; ultrasound interaction with tissue; Doppler and Color-flow; nonlinear imaging and contrast agents. Ultrasound bioeffects and therapeutic ultrasound: thermal therapies, HIFU, hyperthermia and BIO heat equation; cavitation, lithotripsy; drug delivery. Elastography, photoacoustic imaging. Prerequisite: BIOEN 316 or BIOEN 317. Offered: Sp.

**BIOEN 451 Optical Coherence Tomography (4)** R. Wang Describes the basic physics and engineering principles of optical coherence tomography, and rapid development of imaging applications in medicine and biology. Extends basic concepts of signal processing and
instrumentation to imaging physics (optics), image reconstruction, image processing, and visualization. Prerequisite: BIOEN 316 or E E 235; and MATH 136, MATH 308, or AMATH 352; recommended: Contemporary Light Microscopy and Biophotonics Offered: A.

**BIOEN 454 Bioengineering Solutions to Improve the Health of Women, Adolescents and Children (1) I&S, DIV** Seminar series that engages students in interdisciplinary discussions about current challenges to the health of women, children and adolescents, and how novel bioengineering approaches may be developed to address these challenges. Students are encouraged to actively participate in discussions to foster creative problem solving and collaboration between students and researchers from clinical, epidemiology, and bioengineering departments. Credit/no-credit only. Offered: jointly with G H 454; A.

**BIOEN 455 BioMEMS (4) A. FOLCH** Introduction to BioMEMS. State-of-the-art techniques in patterning biomolecules, machining three-dimensional microstructures and building microfluidic devices. Various biomedical problems that can be addressed with microfabrication technology and the engineering challenges associated with it. Biweekly labs. Prerequisite: BIOEN 316. Offered: W.

**BIOEN 460 Neural Engineering (3) A. Yazdan-Shahmorad** Introduces the field of Neural Engineering: overview of neurobiology, recording and stimulating the nervous system, signal processing, machine learning, powering and communicating with neural devices, invasive and non-invasive brain-machine interfaces, spinal interfaces, smart prostheses, deep-brain stimulators, cochlear implants and neuroethics. Heavy emphasis on primary literature. Prerequisite: BIOL 162 or BIOL 220; and one of the following: MATH 308, AMATH 352 or AMATH 301. Offered: A.

**BIOEN 461 Neural Engineering Tech Studio (4)** Neural engineering design and translational engineering. Groups design, build and present a neural engineering prototype project to a panel of industry judges. Prerequisite: BIOEN 460. Offered: W.

**BIOEN 466 Neural Computation and Engineering Laboratory (3) NW L. Johnson Dyhr** Introduces neural recording and quantitative analysis techniques to students with a background in quantitative methods. Prerequisite: Either AMATH 342, BIOL 162, or BIOL 220; and one of the following: MATH 308, AMATH 301, or AMATH 352. Offered: jointly with NBIO 405.

**BIOEN 467 Biochemical Engineering (3) F. BANEYX** Application of basic chemical engineering principles to biochemical and biological process industries such as fermentation, enzyme technology, and biological waste treatment. Rapid overview of relevant microbiology, biochemistry, and molecular genetics. Design and analysis of biological reactors and product
recovery operations. Prerequisite: CHEM E 340; either CHEM 223, CHEM 237, or CHEM 335. Offered: jointly with CHEM E 467; W.

**BIOEN 468 Real-Time Biosignal Processing (3)**  
*C. Neils* Lab-based introduction to techniques for real-time signal acquisition, processing, and output, emphasizing software as an interface between user and electronic circuits. Students write programs for implementation both in graphical programming environments and in portable microprocessor platforms. In-depth discussion of hardware specifications and implications for circuit design. Prerequisite: Either BIOEN 316, or E E 215 and E E 235. Offered: W.

**BIOEN 474 Immunoengineering (3)**  
*K. Woodrow* Covers cell and tissues of immune system; lymphocyte activation and specificity; cell biology of antigen processing and preservation; and effector mechanisms. Includes discussion of concepts in theoretical immunology used to describe viral dynamics and the dynamics of immune responses. Students present case studies in the pathogenesis of immunologically mediated diseases. Offered: W.

**BIOEN 475 Global Health Technology: Molecular Diagnostics (4)**  
*B. Lutz* Teaches engineering principles, tools, and technologies needed to practice or develop nucleic acid (DNA/RNA) diagnostics and their context in global health. Recommended: Advanced Engineering, Chemistry or math background. Offered: W.

**BIOEN 481 Engineering Cell Biology (3)**  
*D. Kim* Introduces engineering approaches for analysis and control of cell structure and function, and application of such technologies in cell biology studies. Covers the basics of cell biology, engineering cellular microenvironments, as well as effects of external engineering stimuli on cellular processes, which have significant implications in various diseases such as cancer, neuromuscular disease, and cardiovascular disease. Prerequisite: CHEM 142 and BIOL 200; recommended: Introductory Biology, General Chemistry Offered: A.

**BIOEN 483 Vascular Biology and Engineering (3)**  
*Y. Zheng* Vascular Engineering has emerged to provide strategies for generating vascular grafts with long-term patency, and vascularized tissues for regenerative medicine and disease modeling. Focuses on understanding the structure and function of different vascular beds in vivo, and learning the cutting edge research and engineering principles in vascular biology and engineering. Recommended: Introductory Biology, General Mechanics, and Cell Biology Offered: W.

**BIOEN 485 Computational Bioengineering (4)**  
*W. THOMAS* Introduction to computational and mathematical analysis of biological systems, including control, stochastic, and transport systems. Lectures and laboratory sessions emphasize biochemical systems, but also include electrical, mechanical, and fluidic systems. Prerequisite: BIOEN 335; either AMATH 351 or MATH 307. Offered: Sp.

**BIOEN 486 Tissue Engineering (3)**  
*D. Kim* Tissue structure and function, scaffold design, applications to specialized tissues and organs. Prerequisite: BIOEN 315. Offered: W.
BIOEN 487 Bioengineering and Nanotechnology (3) X. Gao Explores basic concepts of nanoscience and the current literature, focusing on practical applications for nanotechnology in biology and medicine. Prerequisite: CHEM 142, CHEM 144, or CHEM 145; BIOL 180. Offered: W.

BIOEN 488 Computational Protein Design (4) V. Daggett Explores methods in protein engineering, emphasizing biomedical and biotechnological applications. Includes molecular visualization, homology modeling, molecular dynamics, computational protein design, and evaluation of designs. Introduces current research in subject area. Students learn to use and apply computational tools to investigate design problems. Prerequisite: BIOEN 315. Offered: W.

BIOEN 490 Engineering Materials for Biomedical Applications (3) J. Bryers Combined application of principles of physical chemistry and biochemistry, materials engineering, to biomedical problems and products. Applications include implants and medical devices, drug delivery systems, cell culture processes, diagnostics, and bioseparations. Offered: jointly with CHEM E 490; A.

BIOEN 491 Controlled-Release Systems (3) S. Pun Mechanisms for controlled release of active agents and the development of useful drug delivery systems for this purpose. Release mechanisms considered include diffusive, convective, and erosive driving forces. Delivery routes include topical, oral, and in vivo. Some special case studies covered in detail. Offered: jointly with CHEM E 491; W.

BIOEN 492 Surface Analysis (3) D. Castner Understanding of solid surfaces for research and development in microelectronics, catalysis, adhesion, biomaterials, science wear, and corrosion science. Newer methods available to study surfaces of materials. Electron emission spectroscopies (ESCA, Auger): ion scattering, ion spectroscopic, photon spectroscopic, and thermodynamic methods. Offered: jointly with CHEM E 458; Sp.

BIOEN 493 Advanced Surface Analysis (3) Covers the latest advanced in surface analysis instrumentation and methodology, including advanced methods of biorecognition AFM, surface Plasmon resonance, x-ray photoelectron spectroscopy, sum frequency generation spectroscopy, time-of-flight secondary ion mass spectrometry, and multivariate analysis. Prerequisite: either CHEM E 458 or BIOEN 492. Offered: jointly with CHEM E 493; W.

BIOEN 494 Advanced Drug Delivery (3) S. Pun Provides students with an understanding of the current state of the art for advanced drug delivery. Covers the major families of biologic drugs, major challenges associated with their delivery and specific disease applications. Prerequisite: BIOEN 491. Offered: Sp.

BIOEN 497 Bioengineering Education Outreach (1-2, max. 6) Work with K-12 schools or community organizations. Current science education research and instructional techniques. May involve presentations or instruction in hands-on activities. Credit/no-credit only.

BIOEN 498 Special Topics (1-6, max. 15) Topics of current interest in the field, offered as lectures, conferences, or laboratory. Offered: AWSpS.
BIOEN 499 Special Projects (1-6, max. 24) Individual undergraduate bioengineering projects (research or independent study) under the supervision of an instructor. Credit/no-credit only. Offered: AWSpS.

BIOEN 501 Molecular Bioengineering (4) Examines advanced topics in molecular diffusion, reaction kinetics, and convective transport modeling as applied to biological systems. Includes mathematical analysis and numerical simulation techniques applied to: Non-Fickian diffusion, rotational versus translational diffusion, immobilized enzyme kinetics, drug release, and gene delivery.

BIOEN 502 Cellular Bioengineering (4) Covers basic principles of cell biology (including cell structure, function, and signaling), recombinant RNA/DNA technology, and specific examples of cellular bioengineering applications including gene delivery, RNA silencing, and tissue engineering. Prerequisite: BIOEN 501.

BIOEN 503 Systems Bioengineering (4) Explores whole-body or organ physiology topics from an engineering perspective. Uses various model systems to elucidate engineering principles such as feedback control and homeostatic regulation. Includes real-world examples, computer modeling, and research design approaches. Prerequisite: BIOEN 502.

BIOEN 504 Introduction to Technology Commercialization (4) M. O'Donnell, B. Ratner Explores essential business, legal, engineering, and other skills necessary to take new technology from research to market. Covers intellectual property, market analysis, licensing, funding mechanisms such as venture capital, and product marketing. Offered: A.

BIOEN 505 Biomedical Entrepreneurship (4) Explores essential business, legal, engineering, and other skills necessary to take new technology from research to market. Covers intellectual property, market analysis, licensing, funding mechanisms such as venture capital, and product marketing; introduces strategic planning, management of commercialization effort. Offered: W.

BIOEN 506 Applying Technology Commercialization (1) Focuses knowledge of entrepreneurship within the spaces of medical devices, hardware/software, and energy, into a practical description of a potential start-up company. Corequisite: ENTRE 540. Credit/no-credit only.

BIOEN 509 Bioengineering Departmental Seminar (1, max. 16) Research review and discussions centered on demonstrating approaches and solving scientific problems. Seminar lectures led by faculty and visiting faculty in Bioengineering and related disciplines. Credit/no-credit only. Offered: WSp.

BIOEN 511 Biomaterials Seminar (1, max. 18) D. CASTNER, L. GAMBLE Presentation of student research results. Prerequisite: permission of instructor. Credit/no-credit only. Offered: jointly with CHEM E 511.
BIOEN 513 Current Topics in Cardiac Physiology (1, max. 3) M. REGNIER Current research in cardiac physiology. Student presentation and discussions of current research methodologies. Credit/no-credit only.

BIOEN 515 Bioconjugate Engineering (4) D. Ratner Applies bioconjugate and molecular engineering methods for use in nanotechnology, drug delivery, biomaterials, diagnostics, medical devices, and biomedical research. Students learn how to engineer molecular and macromolecular systems using versatile bioconjugate techniques applicable to both industry and academia. Recommended: Basic organic chemistry, biochemistry, molecular engineering Offered: A.

BIOEN 516 Medical Imaging Seminar (1) Weekly seminars, presented by UW faculty members, researchers and graduate students from UW, other academic institutions, and industry, on image computing and medical imaging. Topics include digital video, image processing, computer graphics, video/image compression, image analysis, algorithms and systems, pattern recognition, multimedia computer architectures, and other applications. Credit/no-credit only.

BIOEN 518 Healthcare Transformation: Forces, Directions, Implications (2) L. HUNTSMAN Introduces the history, current realities and forces driving change in healthcare and provides an opportunity to use this knowledge to evaluate contemporary attempts to innovate. Addresses implications for those involved in the science, technology, business and policy of medicine. Offered: W.

BIOEN 520 Musculoskeletal Biomechanics (4) Engineering principles and mechanics applied to the musculoskeletal system including structure-function property relationships of musculoskeletal tissues, the biomechanics of joint systems, and applications of biomechanics in industry and research. Offered: jointly with M E 527.

BIOEN 522 Biomechanics of Soft Tissue (3) J. SANDERS Applies soft tissue biomechanics to medical research. Develops specific biomechanical questions and experiments to address those aims or hypotheses.

BIOEN 523 Introduction to Synthetic Biology (3) Studies mathematical modeling of transcription, translation, regulation, and metabolism in cell; computer aided design methods for synthetic biology; implementation of information processing, Boolean logic and feedback control laws with genetic regulatory networks; modularity, impedance matching and isolation in biochemical circuits; and parameter estimation methods. Prerequisite: either MATH 136 or MATH 307, AMATH 351, or CSE 311 and MATH 308 or AMATH 352. Offered: jointly with CSE 586/E E 523/MOLENG 525.

BIOEN 524 Advanced Systems and Synthetic Biology (3) Covers advanced concepts in system and synthetic biology. Includes kinetics, modeling, stoichiometry, control theory, metabolic systems, signaling, and motifs. All topics are set against problems in synthetic biology. Prerequisite: either BIOEN 523, E E 523, or CSE 586. Offered: jointly with CSE 587/E E 524; Sp.
BIOEN 530 Bioengineering Professional Series I: Literature Analysis (2) V. DAGGETT
Skills in scientific literature analysis developed through topics in bioengineering. Credit/no-credit only. Offered: A.

BIOEN 531 Bioengineering Professional Series II: Proposal Writing (2) M. SCATENA
Covers grant and fellowship proposal writing. Offered: W.

BIOEN 532 Bioengineering Professional Series III: Professional Skills Development (1) M. Averkiou
Key areas of professional development related to the bioengineering field, including oral communication, management, networking, and interviewing. Credit/no-credit only. Offered: Sp.

BIOEN 536 Quantitative Physiology (3) H. Kueh
Develops a foundation of human physiology by examining the homeostasis of vital parameters within the body, and the physiological properties of human cells, tissue, and organs. Offered: Sp.

BIOEN 540 Bioengineering Clinical Practicum (4)
Clinical needs identification for the Master of Applied Bioengineering. Students observe diagnosis and treatment in a clinical setting to learn current practice, drivers, and constraints. Students learn to identify and communicate clinical needs not met by current technology, but with potential bioengineering design solutions. Addresses ethics, patient privacy, and medical/academic communication.

BIOEN 541 Design Skills I: Clinical Needs Evaluation (3)
First quarter of Design Skills sequence in Master of Applied Bioengineering. Student teams initiate design process through needs evaluation, market analysis, prior art research, identification of design specifications, and brainstorming of design concepts. Prerequisite: BIOEN 540. Offered: A.

BIOEN 542 Design Skills II: Clinical Needs Evaluation (4)
Second quarter of Design Skills sequence. Students conceive, evaluate, and present design options to potential clinical users, utilize feedback to revise design concepts, and prepare a formal design proposal. Prerequisite: BIOEN 541 Offered: W.

BIOEN 543 Design Skills III: Project Implementation (4)
Culmination of the three-quarter Design Skills sequence in the Master of Applied Bioengineering. Students create and test a proof-of-principle deliverables for the device or system proposed in the previous quarter, and prepare a formal business plan. Prerequisite: BIOEN 542. Offered: Sp.

BIOEN 544 Advanced Clinical Design Project (1-10)
Summer-long culminating design experience in which student teams generate and test a solution to meet desired clinical needs. Prerequisite: BIOEN 543 Offered: S.

BIOEN 546 Fundamentals of Biomedical Imaging: X-ray and Nuclear (4) P. Kinahan
Explores core principles of biomedical imaging with a focus on x-ray and nuclear imaging. Fundamental concepts common to all modalities are reviewed: Multi-dimensional Fourier transforms, the imaging equation, the inverse problem, image SNR, and contrast agents. Lectures will emphasize a systems approach that is reinforced though computational mini projects using
Matlab. Recommended: Signal and systems (linear systems), Fourier transforms and advanced linear algebra, scientific programming (e.g. Matlab or other languages). Offered: A.

**BIOEN 547 Fundamentals of Magnetic Resonance and Ultrasound Imaging (4)** *M. Averkiou*
Principles and uses of biomedical imaging with magnetic resonance imaging (MRI) and ultrasound are presented from an engineering viewpoint. Topics include the physics of MRI and ultrasound, principles of image formation, clinical applications, and the technology supporting important modes of modern imaging equipment. Offered: W.

**BIOEN 549 Therapeutic and Diagnostic Ultrasound (4)** *M. Averkiou*
Fundamentals of ultrasound leading to real-time ultrasound imaging; sound beams and signals, transducers, arrays and array beamforming; ultrasound interaction with tissue; Doppler and Color-flow; nonlinear imaging and contrast agents. Ultrasound bioeffects and therapeutic ultrasound: thermal therapies, HIFU, hyperthermia and BIO heat equation; cavitation, lithotripsy; drug delivery. Elastography, photoacoustic imaging. Offered: Sp.

**BIOEN 551 Optical Coherence Tomography (4)** *R. Wang*
Describes the basic physics and engineering principles of optical coherence tomography, and rapid development of imaging applications in medicine and biology. Extends basic concepts of signal processing and instrumentation to imaging physics (optics), image reconstruction, image processing, and visualization. Recommended: Signal processing and linear systems (at a level of BIOEN 316) Mathematical skills (at a level of AMATH352) Physics level at PHYS 122 BIOEN 498/599: Contemporary Light Microscopy and Biophotonics Offered: A.

**BIOEN 552 Microfabrication and Microfluidics (3)** *A. FOLCH, P. YAGER*
Studies the use of 2- and 3-dimensional structures in research with biomaterials, cells, and complex liquids. Focuses on micropatterning of surfaces and microfluidic chemical analytical systems. Co-requisite: BIOEN 553.

**BIOEN 553 Microfabrication and Microfluidics Laboratory (2)** *A. FOLCH, P. YAGER*
Studies the creation of 2- and 3-dimensional structures for use in research with biomaterials, cells, and complex liquids. Each student will fabricate at least one PDMS device and demonstrate its function. Co-requisite: BIOEN 552. Credit/no-credit only.

**BIOEN 554 Bioengineering Solutions to Improve the Health of Women, Adolescents and Children (1/2)**
Seminar series that engages students in interdisciplinary discussions about current challenges to the health of women, children and adolescents, and how novel bioengineering approaches may be developed to address these challenges. Students are encouraged to actively participate in discussions to foster creative problem solving and collaboration between students and researchers from clinical, epidemiology, and bioengineering departments. Credit/no-credit only. Offered: jointly with G H 554; A.

**BIOEN 555 Water, Nature, and Biological Function (3)** *G. Pollack*
Explores emerging concepts of water at interfaces as a new and simpler way to understand many features of chemistry, physics, and biology. Considers new understanding in cell function, energy
transduction, solar energy, flow, transport, weather, green science, and other basics of nature and engineering.

**BIOEN 557 Advanced Molecular Bioengineering (4)** P. Stayton Covers fundamentals of molecular recognition and design: thermodynamics, dynamics, and kinetics. Includes molecular design of macromolecules, recognition processes for current molecular engineering applications in biomedicine, and therapeutics based on cells. Offered: jointly with MOLENG 515; A.

**BIOEN 560 Neural Engineering (3)** A. Yazdan-Shahmorad Introduces the field of Neural Engineering: overview of neurobiology, recording and stimulating the nervous system, signal processing, machine learning, powering and communicating with neural devices, invasive and non-invasive brain-machine interfaces, spinal interfaces, smart prostheses, deep-brain stimulators, cochlear implants and neuroethics. Heavy emphasis on primary literature. Offered: A.

**BIOEN 561 Neural Engineering Tech Studio (4)** Neural engineering design and translational engineering. Groups design, build and present a neural engineering prototype project to a panel of industry judges. Prerequisite: BIOEN 560 Offered: W.

**BIOEN 566 Neural Computation and Engineering Laboratory (3)** Introduces neural recording and quantitative analysis techniques to students with a background in quantitative methods.

**BIOEN 568 Real-Time Biosignal Processing (3)** C. Neils Lab-based introduction to techniques for real-time signal acquisition, processing, and output, emphasizing software as an interface between user and electronic circuits. Students write programs for implementation both in graphical programming environments and in portable microprocessor platforms. In-depth discussion of hardware specifications and implications for circuit design. Recommended: Basic Electrical Engineering Offered: W.

**BIOEN 573 Biosensors and Biomedical Sensing (3)** P. Yager In-depth overview of the principal types of biosensors. Topics include: how biological molecules are used in sensing, how the sensors operate, how different sensors compare, under what circumstances sensors can be useful, and the applicability of sensors to biomedical sensing. Offered: W.

**BIOEN 574 Immunoengineering (3)** K. Woodrow Covers cell and tissues of immune system; lymphocyte activation and specificity; cell biology of antigen processing and preservation; and effector mechanisms. Includes discussion of concepts in theoretical immunology used to describe viral dynamics and the dynamics of immune responses. Students present case studies in the pathogenesis of immunologically mediated diseases. Offered: W.

**BIOEN 575 Global Health Technology: Molecular Diagnostics (4)** B. Lutz Teachers engineering principles, tools, and technologies needed to practice or develop nucleic acid (DNA/RNA) diagnostics and their context in global health. Recommended: Advanced Engineering, Chemistry or math background. Offered: W.
**BIOEN 576 Laboratory Techniques in Protein Engineering (4)** Practical introduction to fundamentals of recombinant DNA technology and protein engineering. Gene design, bacterial molecular biology, genetic engineering strategy. Laboratory project focused on making site-directed protein mutations. Techniques include the Polymerase Chain Reaction, DNA sequencing, DNA cutting/splicing, protein expression. Prerequisite: background in biochemistry or molecular biology or permission of instructor.

**BIOEN 577 Cell and Protein Reaction with Foreign Materials (3)** Study of ways in which cell and protein interactions with foreign materials affect the biocompatibility of biomaterials. Description of phenomenology and mechanisms of protein adsorption, mammalian cell adhesion, and cell receptor biology and of methods used to study these phenomena. Surface properties of materials discussed in context of the course. Prerequisite: permission of instructor.

**BIOEN 578 Biomembranes (3)** P. YAGER Develops an understanding of the molecular principles that underlie the self-assembly of surfactants into natural and model membranes; in particular, on the relationship between the chemical structure of lipid molecules and the three-dimensional aggregates that they form in water.

**BIOEN 579 Host Response to Biomaterials (3)** C. GIACHELLI Basic cell and molecular biology of the pathologies associated with biomaterial implantation that limit bioprosthetic use, including hemostasis, infection, acute and chronic inflammation, wound healing and fibrosis, and structural alterations. Major methods for histological analysis of retrieved implants. Prerequisite: general biology, BIOEN 490 (may be taken concurrently), or permission of instructor.

**BIOEN 581 Engineering Cell Biology (3)** D. Kim Introduces engineering approaches for analysis and control of cell structure and function, and application of such technologies in cell biology studies. Covers the basics of cell biology, engineering cellular microenvironments, as well as effects of external engineering stimuli on cellular processes, which have significant implications in various diseases such as cancer, neuromuscular disease, and cardiovascular disease. Recommended: Introductory Biology, General Chemistry Offered: A.

**BIOEN 583 Vascular Biology and Engineering (3)** Y. Zheng Vascular Engineering has emerged to provide strategies for generating vascular grafts with long-term patency, and vascularized tissues for regenerative medicine and disease modeling. This course focuses on understanding the structure and function of different vascular beds in vivo, and learning the cutting edge research and engineering principles in vascular biology and engineering. Recommended: Introductory Biology, General Mechanics, and Cell Biology Offered: W.

**BIOEN 585 Computational Bioengineering (4)** W. THOMAS Introduction to computational and mathematical analysis of biological systems, including control, stochastic, and transport systems. Lectures and laboratory sessions emphasize biochemical systems, but also include electrical, mechanical, and fluidic systems.

**BIOEN 586 Tissue Engineering (3)** D. Kim Tissue structure and function, scaffold design, applications to specialized tissues and organs. Offered: W.
BIOEN 587 Bioengineering and Nanotechnology (3) X. Gao Explores basic concepts of nanoscience and the current literature, focusing on practical applications for nanotechnology in biology and medicine.

BIOEN 588 Computational Protein Design (4) V. DAGGETT Explores methods in protein engineering, emphasizing biomedical and biotechnological applications. Includes molecular visualization, homology modeling, molecular dynamics, computational protein design, and evaluation of designs. Introduces current research in subject area. Students learn to use and apply computational tools to investigate design problems.

BIOEN 590 Advanced Topics in Biomaterials (3) Major, controversial issues in application of synthetic materials to medical problems. Blood compatibility, bioadhesion, intraocular lenses, contact lenses, polyurethanes, biodegradation, protein adsorption, corrosion, bone fixation, new materials, artificial heart, medical device regulation. Prerequisite: BIOEN 490 or CHEM E 490. Offered: jointly with CHEM E 590.

BIOEN 591 Controlled Release Systems (3) S. PUN Provides students with an understanding of the current state of the art for advanced drug delivery. Covers the major families of biologic drugs, major challenges associated with their delivery and specific disease applications. Offered: W.

BIOEN 592 Surface Analysis (3) D. Castner Understanding of solid surfaces for research and development in microelectronics, catalysis, adhesion, biomaterials science, wear and corrosion science. Newer methods available to study surfaces of materials. Electron emission spectroscopies (ESCA, Auger); ion scattering, ion spectroscopic, photon spectroscopic, and thermodynamic methods. Offered: jointly with CHEM E 558.

BIOEN 593 Advanced Surface Analysis (3) D. CASTNER Covers the latest advanced in surface analysis instrumentation and methodology, including advanced methods of biorecognition AFM, surface Plasmon resonance, x-ray photoelectron spectroscopy, sum frequency generation spectroscopy, time-of-flight secondary ion mass spectrometry, and multivariate analysis. Prerequisite: either CHEM E 558 or BIOEN 592. Offered: jointly with CHEM E 593; W.

BIOEN 594 Advanced Drug Delivery (3) S. PUN Provides students with an understanding of the current state of the art for advanced drug delivery. Covers the major families of biologic drugs, major challenges associated with their delivery and specific disease applications. Offered: Sp.

BIOEN 598 Research Rotation (1-10, max. 30) Research rotation in the laboratories of core or adjunct faculty in the Department of Bioengineering. Credit/no-credit only. Offered: AWSpS.

BIOEN 599 Special Topics in Bioengineering (1-6, max. 30) Offered at a graduate level periodically by faculty members within the Department of Bioengineering; concerns areas of research activities with current and topical interest to bioengineers. Prerequisite: undergraduate or graduate courses (or equivalent) determined individually for each special topic.
BIOEN 600 Independent Study or Research (*-) Offered: AWSpS.

BIOEN 601 Internship (1-10, max. 10) Bioengineering graduate internship program. Requires written report. Prerequisite: permission of supervisory committee chair. Offered: AWSpS.

BIOEN 700 Master's Thesis (*) Offered: AWSpS.

BIOEN 800 Doctoral Dissertation (*) Offered: AWSpS.

Pharmaceutical Bioengineering

PHARBE 500 Molecular and Cellular Biology for Pharmaceutical Bioengineering I (4) K. Thickman Case based examination of fundamental molecular processes that occur in organisms. Topics include structure and organization of prokaryotic and eukaryotic cells, prokaryotic and eukaryotic gene structure and regulation, signaling pathways, RNA, DNA, metagenomics, and systems biology. Integrates online literature/media resources and bioinformatics. Cultivates critical thinking approaches to latest developments. Offered: A.

PHARBE 502 Pharmaceutics I (4) Covers the drug development process for both small molecules and biological form discovery stage through the end of phase 1. Addresses the science, logistics, and regulatory environment of preclinical (pharmacology, PKDM, toxicology, CMC) and early clinical development. Offered: A.

PHARBE 503 Pharmaceutics II (4) Covers phases II and III of the drug development process. Topics include clinical study design, safety, pharmacology, and statistics. Provides an overview of the preparation and filing of the New Drug Application (NDA). Uses case studies to demonstrate key concepts. Prerequisite: PHARBE 502 or permission of instructor. Offered: W.

PHARBE 505 Pathophysiology for Pharmaceutical Bioengineering (4) R. Wong Introduction to human anatomy, physiology, molecular biology and cell biology of major organ systems. Emphasis on the structural, molecular, and cellular mechanisms of common pathological conditions (pathophysiology). Additional emphasis on pharmaceutics development for common pathologic states. Students will understand the basics of normal and aberrant human physiology. Offered: W.

PHARBE 506 Pharmaceutical Bioengineering Seminar (2) K. Thickman Provides a deeper understanding of the biotech and pharmaceutical industries through a mix of scientific talks, presentations by industry leaders, and discussions with program alumni. Students also practice professional skills, such as resume and cover letter writing and interviewing skills. Credit/no-credit only. Offered: A.

PHARBE 510 Applied Pharmacokinetics (5) E. Kelly Covers basic principle of pharmacokinetics and its impact on treatment, including: single-dose intravenous and oral kinetics, multiple dosing, nonlinear pharmacokinetics, metabolite kinetics, pharmacogenetics, the role of disease in drug clearance and dose requirements, and kinetics of drug-drug interactions. Offered: A.
PHARBE 511 Process Development (5) Laursen Examines the principles involved in designed and developing production processes for protein therapeutics. Covers technologies, methods, and unit operations used in the development and GMP manufacture of biopharmaceuticals. Includes interdependencies of upstream, downstream, analytical, formulation and drug delivery technologies, illustrated with key biochemical, chemical, and physical chemical reaction examples. Offered: W.

PHARBE 522 Molecular Targets and Drug Classes (5) Wong Discusses select medicinal compounds, emphasizing mechanism of action, biotransformation, and structural and physical properties governing absorption, distribution, and excretion. Design of therapeutics to focus on maximizing efficacy while reducing toxicities. Compounds include classical organic small-molecules, peptides, proteins, nucleic acids, lipids, carbohydrates, and other bioactive chemical classes. Offered: Sp.
Global Health

The Department of Global Health, established in 2007, bridges the schools of Medicine and Public Health, with a mandate to harness the expertise and interdisciplinary power of all 16 UW schools and colleges. The department is the second largest at the UW in terms of funding for research and training programs. Departmental efforts include 31 centers, programs, initiatives, and the Institute for Health Metrics and Evaluation.

The mission is to close the gap between the world’s one billion people who experience relatively good health and the five billion who experience much lower levels of health, through teaching (education, training, and mentoring), research, and service programs.

The department offers an undergraduate minor, a Master of Public Health, and two PhD options: global health, and pathobiology. Four graduate certificate offerings are available for graduate students, as well as a global health pathway for UW medical students. Current and emerging focus areas include health metrics and evaluation, infectious diseases, workforce development, health system strengthening and implementation science, climate change, global trauma and violence, global medicines safety, and a strong cross-cutting focus on social justice and equity.

Undergraduate Program

The department offers the following program:

- A minor in global health

Minor

Minor Requirements (30 credits):

1. Required courses (8 credits): G H 101/GEOG 180/JSIS B 180; and G H 210 or G H 410
2. Perspectives in global health series (3 credits): G H 401; G H 402; G H 403
3. Electives (to bring total to 30 credits): Minimum of one elective course from each of the four content areas selected from a list of approved courses available from the Department of Global Health website, [globalhealth.washington.edu/academics/undergraduate-minor/requirements](http://globalhealth.washington.edu/academics/undergraduate-minor/requirements)
4. Minimum 15 credits outside the student's major
5. Minimum 15 credits completed through the UW
6. Minimum 15 upper-division credits
7. Minimum 2.0 grade in courses applied to the minor
Graduate Program

Master of Public Health

The MPH program emphasizes a social justice approach to global health with a focus on the social, economic, and political determinants of health, and the history and context of global responses to health problems. The core curriculum develops competencies in the basic tools of public health, including epidemiology, biostatistics, global health systems, environmental health, and social behavioral sciences. Courses in research methods and management are also required. A practicum provides hand-on experience with local or international agencies engaged in global health activities, and academic coursework culminates with independent scholarship leading to a research or practice thesis. The curriculum is interdisciplinary, with faculty and courses from across campus including natural and social sciences and the humanities. Case studies and applied learning are common approaches.

Admission Requirements

Baccalaureate degree by the time of matriculation; some tracks require at least two years of relevant post-college work or volunteer experience prior to matriculation. Each MPH track has its own admission requirements.

1. Graduate School online application. Deadline midnight, December 1
2. Official GRE scores for applicants who have not already earned a doctoral-level degree (e.g., MD, PhD, JD) from a U.S. institution of higher learning
3. Proof of English proficiency, if applicable
4. Unofficial transcripts from each college or university attended
5. Three recent letters of recommendation, preferably from former supervisors and professors
6. Personal statement, including background, goals, and research interests
7. Resume - maximum three pages

Degree Requirements

63 credits, for all MPH tracks

Minimum 30 credits from graduate-level, in-classroom courses; at least 18 from global health in-classroom courses.
All tracks require a foundation course, epidemiology, biostatistics, environmental health, social and behavioral sciences, research methods, a practicum, and a thesis. Beyond shared requirements, each track also has its own set of requirements. See program website.

**Doctor of Philosophy**

Program Manager Institute for Health Metrics and Evaluation 2301 5th Avenue, Suite 600, Box 358210 Seattle, WA  206-897-2870 ghpdh@uw.edu

In collaboration with the Institute for Health Metrics and Evaluation and Health Alliance International, the department offers a PhD program. Building on faculty expertise in metrics and implementation science, the program provides students innovative tools to advance global health solutions, and includes two emphasis areas:

**Metrics:** Students translate evidence into useful knowledge by learning and applying advanced quantitative methods, impact evaluation techniques, and analytic tools. Students design and develop innovative ways to tackle critical global health measurement challenges.

**Implementation Science:** Students identify and address barriers to effective implementation and scale-up of evidence-based interventions by developing and applying cutting-edge methodologies and analytical approaches.

For comprehensive information, see the PhD program website.

**Admission Requirements**

The department considers all indicators of future success, including past work, service, and research experience; level of enthusiasm and detail in letters of recommendation; previous academic records and performance on standardized tests; applicant's written statement of purpose.

**Minimum Qualifications**

1. Bachelor’s degree from an accredited college or university in the United States, or its equivalent from a foreign institution. Strong candidates have prior master-level training or significant experience working in the global health field, ideally in a low-resource setting.
2. Demonstrated commitment to the field of global health
3. Minimum 3.30 cumulative GPA in previous undergraduate- and graduate-degree work, though competitive applicants normally present a minimum 3.70 GPA
4. GRE scores greater than or equal to 120 (700) on the quantitative section
5. English proficiency: TOEFL for students who have not completed a degree in an institution where English is the primary language of instruction.
Degree Requirements

Minimum 96 credits

1. Coursework: Minimum 27 dissertation credits, 37 credits in core requirements, 16 credits in area of emphasis, and remaining credits in electives. See details about curriculum and course paths on program website.

2. Preliminary written examination

3. General examination

4. Research and dissertation

5. Final examination

Course Descriptions

G H 101 Introduction to Global Health: Disparities, Determinants, Policies, and Outcomes (5) I&S C. Faubion, S. Gloyd, J. Pfeiffer Provides an introduction to global health, including: the burden and distribution of disease and mortality; the determinants of global health disparities; the making of global health policies; and the outcomes of global health interventions. Offered: jointly with GEOG 180/JSIS B 180; S.

G H 210 Confronting Global Diseases: Introductory Biologic Principles and Context (3) NW N. Frahm, M. Parsons Provides a broad introduction to the leading causes of disability and death globally. Covers the basic biologic and scientific principles of globally prevalent human health problems, including the connections between the biology of disease and current prevention and treatment interventions used in public health. Not intended for biological science majors. Offered: Sp.

G H 220 Global Environmental Change and Public Health (3) I&S K. Ebi, J. Hess, C. Morin Humans are the primary drivers of global environmental changes that are changing the planet on the scale of geological forces. Students will be introduced to these changes and their consequences for human health and well-being, with a focus on climate change and its consequences. Offered: jointly with ENV H 220.

G H 305 Global Health and Justice (3) I&S B. Rivin Offered: jointly with LAW 305; W.

G H 306 Introduction to Collaborative Approaches and Respectful Partnerships in Global Health (5) I&S Introduces students to principles and concepts of community-based participatory research (CBPR), and other approaches that center the community and focus on respect, relationships, and mutual benefit. Emphasizes self-reflection of our own abilities to respectfully engage with communities, and prepares students to be mentees in global community partnerships. Recommended: G H 101 Offered: A.

G H 307 Introduction to Implementation Science for Global Health (5) I&S M. Mugambi, B. Weiner Introduces the concepts, theories, and methods of implementation science in global
health. Through team-based learning approach, students will acquire and use knowledge to solve problems, answer questions, and make decisions about selecting, adapting, disseminating, implementing, and scaling evidence-based interventions. Special topics include quality improvement, de-implementation, capacity building, and sustainability. Recommended: G H 101
Offered: A.

G H 345 Global Health Economics (5) I&S Introduces the application of health economics and the tools economists use to inform global health solutions in low and middle-income countries. Examines relationship between global health and development, survey of health economic evaluation concepts with focus on diseases and conditions in low and middle-income countries. Recommended: ECON 200 strongly recommended, G H 101 recommended Offered: jointly with ECON 345; A.

G H 399 Global Health Study Abroad (1-5, max. 15) I&S For participants in approved study abroad programs. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

G H 401 Core Topics in Global Health (1/2) P. Pavlinac Addresses a variety of foundational topics and central themes in global health, including the history and scope of the field, the complexities and contexts for global health problems, and the multidisciplinary nature of global health work. Credit/no-credit only. Offered: A.

G H 402 Contemporary Issues in Global Health (1/2) P. Pavlinac Explores contemporary topics in global health. Offered: W.

G H 403 Multidisciplinary Perspectives in Global Health (1/2) P. Pavlinac, D. Wade Presenters from a variety of disciplines discuss their experiences working on global health issues in resource-poor settings. Speakers illustrate how their work is influenced by communication, culture, economic and socio-political realities. Credit/no-credit only. Offered: Sp.

G H 406 International Climate Negotiations within the United Nations Framework Convention on Climate Change (1) I&S K. Ebi, T. Klinger Explores the status of the negotiations under the United Nations Framework Convention on Climate Change, including key agreements reached; the role of science; and the diverse perspectives of countries and sectors. Offered: A.

G H 410 Advanced Biologic Principles of Global Diseases (3) NW R. Coler Presents selected communicable and noncommunicable diseases of global health importance at an advanced level. Students learn about biological principles, host-pathogen interactions, and other factors that influence the burden of global health diseases. Prerequisite: either BIOL 180, G H 210, or MICROM 301. Offered: Sp.

G H 418 Understanding and Managing the Health Risks of Climate Change (3) K. Ebi, J. Hess, C. Morin The health risks of climate change are multiple and range across the public health space. Addresses current and projected health risks of climate change and the policies and
measures to manage these risks as the climate continues to change. Offered: jointly with ENV H 418; W.

**G H 419 War and Health (4) I&S** A. HAGOPIAN, E. KANTER Explores the health consequences of war (injury, infectious diseases, mental health, chronic disease, malnutrition, infrastructure) and the role of health professionals and others in preventing war (advocacy, measurement and application of epidemiology methods, promotion of social equity). Offered: jointly with HSERV 415; Sp.

**G H 446 Global Perspectives on Reproductive Health (3) I&S, DIV** A. Drake, J. Unger Provides comprehensive overview of global reproductive health, with an emphasis on current issues and challenges in resource-limited settings. Students will be engaged in topics from diverse disciplines, including public health, demography, epidemiology, policy, sociology, and medicine. Topics covered include contraception, abortion, human rights, HIV, access to services, and politics. Offered: Sp.

**G H 454 Bioengineering Solutions to Improve the Health of Women, Adolescents and Children (1) I&S, DIV** Seminar series that engages students in interdisciplinary discussions about current challenges to the health of women, children and adolescents, and how novel bioengineering approaches may be developed to address these challenges. Students are encouraged to actively participate in discussions to foster creative problem solving and collaboration between students and researchers from clinical, epidemiology, and bioengineering departments. Credit/no-credit only. Offered: jointly with BIOEN 454; A.

**G H 456 Global Mental Health (3) I&S, DIV** Rao Examines the socio-cultural and political forces that impact assessment, manifestation, and treatment of mental illnesses worldwide. Students take a critical view of diagnostic systems and examine cultural differences in presentation of mental illness. Also reviews treatment practices in low resource settings, cultural-specific communication, and stigma. Offered: Sp.

**G H 458 Global Violence and Health (3) I&S, DIV** S. Benki-Nugent Examines the socio-politico-cultural forces that give rise to violence and the impact of violence on population health. Discusses public health methods, policies, and interventions that can be used to decrease the occurrence and severity of violence in real world circumstances, including countries at all economic levels. Offered: W.

**G H 482 The Health of Populations (4) I&S, DIV** Explores what makes a population healthy or unhealthy. Examines why the United States is less healthy than all other rich countries, despite being one of the healthiest fifty years ago. Offered: jointly with HSERV 482.

**G H 490 Special Topics (1-5, max. 15)** Offered: AWSpS.

**G H 499 Undergraduate Research (1-15, max. 15)** Offered: AWSpS.

**G H 501 Core Topics in Global Health (1) P. Pavlinac** Addresses a variety of foundational topics and central themes in global health, including the history and scope of the field, the
complexities and contexts for global health problems, and the multidisciplinary nature of global health work. Offered: A.

G H 502 Contemporary Issues in Global Health (1) P. Pavlinac Explores contemporary topics in global health. Offered: W.

G H 503 Multidisciplinary Perspectives in Global Health (1) P. Pavlinac Presenters from a variety of disciplines discuss their experiences working on global health issues in resource-poor settings. Speakers illustrate how their work is influenced by communication, culture, economic, and socio-political realities. Offered: Sp.

G H 505 P-Advanced Global Health (2) Prepares health profession students for work in developing countries. Includes healthcare delivery systems, political, social, and economic determinants of health, major global health issues, and personal well-being while abroad. Lecture and seminar format with guest speakers, student presentations, and discussion. Offered: jointly with MED 560.

G H 506 International Climate Negotiations within the United Nations Framework Convention on Climate Change (1) K. Ebi, T. Klinger Explores the status of the negotiations under the United Nations Framework Convention on Climate Change, including key agreements reached; the role of science; and the diverse perspectives of countries and sectors. Offered: A.

G H 511 Problems in Global Health ([0-4]-, max. 4) Gloyd Explores social, political, economic, environmental determinants of developing countries' health; traces development of societal responses to problems. Includes: origins of primary healthcare; child survival; traditional systems; population; water; sanitation; international agencies; impact of economic policies. Case study formulating pharmaceutical policy in a developing country. Offered: A.

G H 514 Global Societal Determinants of Health (2-3) S. Bezruchka Examines societal determinants of health of nations around the globe. We look at the Americas, Africa, countries of the former Soviet Union, India/China and Western Europe. Asks why there is an increasing inequity in health outcomes today? Topics include early life, population health biology, medical care, mental health, and the environment. Offered: Sp.

G H 516 Health and Human Rights (3) B. Rivin Examines the basic concepts in the fields of human rights law and public health, and uses those concepts to examine the interdependence and tensions between the two fields. Introduction to the fields of public health and human rights law, examining the impact of health policies and programs on human rights. Offered: jointly with LAW H 540; Sp.

G H 517 International Bioethics, Social Justice, and Health Seminar (1, max. 3) Kuszler, Rivin Explores case studies of ethical dilemmas in research and medical practice and violations of international human rights norms in the design, implementation, and evaluation of health programs and policies. Bioethics and human rights law are the foundational tools for critically evaluating global health impact. Credit/no-credit only. Offered: jointly with LAW H 506; WSp.
G H 518 Understanding and Managing the Health Risks of Climate Change (3) K. Ebi, J. Hess, C. Morin The health risks of climate change are multiple and range across the public health space. Addresses current and projected health risks of climate change and the policies and measures to manage these risks as the climate continues to change. Offered: jointly with ENV H 518; W.

G H 519 War and Health (4) A. HAGOPIAN, E. KANTER Explores the health consequences of war (injury, infectious diseases, mental health, chronic disease, malnutrition, infrastructure) and the role of health professionals and others in preventing war (advocacy, measurement and application of epidemiology methods, promotion of social equity). Offered: jointly with HSERV 515; Sp.

G H 521 Leadership Development in Global Health (3) N. Campbell Focus on enhancing ability to lead in complex global health environments. Self and group assessment, case studies, and small group work. Topics include personal and professional vision, mission, and values; communication and influencing strategies; understanding strengths and weaknesses as a leader. Offered: A.

G H 522 Global Program Management and Leadership (3) N. Campbell Focuses on management and leadership skills for complex global health settings. Includes personal leadership strengths/values; management dilemmas, data-driven decisions; program planning design and evaluation; and resource management. Offered: W.

G H 523 Policy Development and Advocacy for Global Health (3) J. Lane Primarily taught through case- and problem-based learning and small group work, explores complex factors affecting global health policy and how context (e.g., ideology, culture, and history), international institutions, scientific knowledge, and stakeholder interests affect the structure of and changes to a nation's health system and its performance. Offered: Sp.

G H 531 Research and Evaluation Methods in Global Health (3-4) G. O'Malley, N. Puttkammer Provides an overview of a range of evaluation and research designs used in global health. Students learn practical methodologies to obtain, validate, and analyze information regarding health status, services, and programs. Discusses usefulness, validity, limitation of vital records, health reports, household (and cluster) surveys, and qualitative methods. Offered: jointly with EPI 539; W.

G H 532 Responsible Conduct of Research: Global and Local (3) A. Drake, C. Farquhar Prepares international and U.S. students to develop research proposals; conduct international and domestic field research; and present scholarly work. Credit/no-credit only. Offered: jointly with EPI 586; A.

G H 533 Survey Research Methods (4) A. MOKDAD Provides students with skills in questionnaire development and survey methods. Students develop a questionnaire and design a survey research proposal on a health-related or social topic. Prerequisite: either HSERV 511/HSERV 513; BOST 517/BOST 518; or EPI 512/EPI 513, which may be taken.
concurrently, or permission of instructor. Students should have a survey project in mind. Offered: jointly with CS&SS 527/HSERV 527.

G H 534 Statistical Methods for Spatial Epidemiology (3) Motivates the need for, and describes methods for the analysis of spatially indexed epidemiological data. Covers four major topics: clustering and cluster detection, disease mapping, spatial regression, and an introduction to geographical information systems. Considers both point-references and spatially aggregated data. Offered: jointly with BIOST 555/EPI 555.

G H 535 Advanced Methods for Global Health I (4) J. Babigumira, B. Weiner Introduces advanced methods for global health including implementation science theory and methods, qualitative research methods, mixed methods, and economic evaluation. Prerequisite: EPI 512 and EPI 513; BIOST 517 and BIOST 518 (or equivalent statistics courses); and G H 541. Offered: A.

G H 536 Advanced Methods for Global Health II (4) R. Lozano Students learn and use analytical tools used to understand burden of disease, health system functions and performance, health system reforms and health policy design. Familiarizes students with the quantitative methods used, recent debates in the field, and recent development in health systems and burden of disease around the world. Prerequisite: EPI 512 and EPI 513; BIOST 517 and BIOST 518 (or equivalent statistics courses) Offered: W.

G H 537 Advanced Methods for Global Health III (4) R. Reiner, B. Wagenaar Introduces advanced methods for quantitative evaluation approaches in global health. Topics include process evaluations, global health data systems, selecting appropriate study designs, cluster randomized trials/extensions of common randomized designs, and quasi-experimental designs such as difference-in-differences, interrupted time-series, and regression discontinuity. Prerequisite: EPI 512 and EPI 513; BIOST 517 and BIOST 518 (or equivalent statistics courses) Offered: jointly with BIOST 525/EPI 556; Sp.

G H 538 Advanced Qualitative Methods in Anthropology and Public Health (5) Provides students with both a theoretical foundation in qualitative approaches to research in anthropology and public health and in-depth training in qualitative data management, analysis, interpretation, and presentation. Focuses on how to frame research questions, design, appropriate research strategies that incorporate qualitative methods, and analyze data. Offered: jointly with ANTH 519/HSERV 521; Sp, even years.

G H 539 Methods, Tools, and Data in Global Health (2) Gakidou Familiarizes students with current global health issues and their analytical challenges. Introduces analytical methodologies, quantitative concepts, statistical packages applied to global health challenges, and software used in health metrics and evaluations research. (Two weeks). Credit/no-credit only. Offered: A.

G H 541 Fundamentals of Implementation Science in Global Health (4) K. Gimbel-Sherr, J. Wasserheit Provides an introduction to the emerging field of implementation research by outlining various methods that are applied to improving implementation (including applied engineering, management tools, health systems, and policy research), and using experiential case
studies from global health leaders. Addresses barriers to effective replication and scale-up in local settings. Offered: Sp.

G H 543 Global Health Pharmacy: Medicines, Practice, and Policy (2) A. Stergachis Introduces the critical role of pharmaceuticals in addressing the major diseases affecting persons in resource-limited settings, such as HIV/AIDS, malaria, and tuberculosis. Addresses the wide range of relevant issues, including burden of disease, human resource capacity, regulation, drug safety/pharmacovigilance, drug distribution, pharmacoconomics, financing, intellectual property, and drug trade policies. Offered: W.

G H 544 Maternal and Child Health in Low and Middle Income Countries (3) D. DENNO Emphasizes critical health problems of women and children in developing countries in social, economic, and cultural contexts. Practical approaches to developing MCH programs shared via lecture/discussions, exercises, and small group work. Students acquire skills in baseline assessment, setting objectives, planning and evaluating interventions, and involving communities. Offered: jointly with HSERV 544; W.

G H 545 Child Health in Low and Middle Income Countries ([0-3]-, max. 3) Denno Provides an understanding of the causes and functional effects of the most prominent child health problems. Examines trends and progress in global child health and explores potential explanations for these trends. Offered: Sp.

G H 546 Global Perspectives on Reproductive Health (3) I&S, DIV A. Drake, J. Unger Provides comprehensive overview of global reproductive health, with an emphasis on current issues and challenges in resource-limited settings. Students will be engaged in topics from diverse disciplines, including public health, demography, epidemiology, policy, sociology, and medicine. Topics covered include contraception, abortion, human rights, HIV, access to services, and politics. Offered: Sp.

G H 554 Bioengineering Solutions to Improve the Health of Women, Adolescents and Children (1/2) Seminar series that engages students in interdisciplinary discussions about current challenges to the health of women, children and adolescents, and how novel bioengineering approaches may be developed to address these challenges. Students are encouraged to actively participate in discussions to foster creative problem solving and collaboration between students and researchers from clinical, epidemiology, and bioengineering departments. Credit/no-credit only. Offered: jointly with BIOEN 554; A.

G H 555 Nutrition in Developing Countries (3) Introduces issues of nutrition in developing countries, with an emphasis on the control and prevention of undernutrition and micronutrient deficiencies. Offered: jointly with NUTR 555; Sp, odd years.

G H 556 Global Mental Health (2-3) D. Rao Examines the socio-cultural and political forces that impact assessment, manifestation, and treatment of mental illnesses worldwide. Students take a critical view of diagnostic systems and examine cultural differences in presentation of mental illness. Also reviews treatment practices in low resource settings, cultural-specific communication, and stigma. Offered: Sp.
G H 558 Global Violence and Health (2-3) S. Benki-Nugent Examines the socio-politico-cultural forces that give rise to violence and the impact of violence on population health. Discusses public health methods, policies, and interventions that can be used to decrease the occurrence and severity of violence in real world circumstances, including countries at all economic levels. Offered: W.

G H 560 Principles of STD/HIV Research (2) Graham, Winer Provides MD and PhD fellows and graduate students with a comprehensive overview of the current state of knowledge in specific areas of STD/HIV research, including study design, laboratory methods, production of instruments for data collection, and methods for data analysis. Credit/no-credit only. Offered: S.

G H 561 Tropical Medicine (1) F. Buckner, S. Cohen Intended for professional health science students interested in learning the pathophysiology, epidemiology, and clinical presentation of disease conditions that are more commonly seen in less-developed countries, resource-limited settings, or tropical climates, and how to diagnose, treat, and follow the resolution of these diseases with commonly limited resources. Credit/no-credit only. Offered: Sp.

G H 562 AIDS: A Multidisciplinary Approach (2) C. FARQUHAR Comprehensive overview of the public health, clinical, and laboratory aspects of human immunodeficiency virus (HIV) infection and disease. Topics include the pathogenesis, natural history, and management of HIV infections; the impact of HIV/AIDS on community and global healthcare; and prospects for prevention and control. Credit/no-credit only. Offered: jointly with EPI 530/MED 530.

G H 563 HIV/STI Prevention Research Methods (3) R. Heffron, A. Roxby Focuses on current research and implementation of HIV/STI prevention including biomedical, behavioral, and public health interventions. Includes analyzing strength of research evidence to support novel interventions, understanding key features of study design, and applying interventions that are most appropriate and feasible for specific settings and populations. Offered: jointly with EPI 549.

G H 565 Diseases and Issues in Global Health (2) O. Soge Provides a broad perspective on global health issues; the biology and strategies for control of diseases of global importance; the global health landscape; and factors that influence global health. Recommended: Background in cellular and molecular biology, and microbiology recommended. This course is intended for students pursuing laboratory-based research in pathogen biology. Offered: jointly with PABIO 550; A.

G H 566 Biochemistry and Genetics of Pathogens and Their Hosts (4) Provides a strong foundation in biochemistry, molecular biology, and genetics for students interested in disease. Principles illustrated through examples focusing on pathogens, and infectious and non-infectious disease. Prerequisite: undergraduate-level coursework in molecular biology or biochemistry, or permission of instructor. Instructors: L. Campbell Offered: jointly with PABIO 551; A.

G H 571 Essential of Clinical Care and Capacity Building in Low Income Countries (2) M. Blank, J. Zunt An interdisciplinary case-based forum of presentations by local and international lecturers and class discussions on realities of providing healthcare in low-income settings.
Covers issues in prevention, socioeconomic underpinnings, management of medical and surgical conditions, and sustainable strategies to build capacity. Credit/no-credit only. Offered: W.

**G H 572 Global Health Fieldwork: Preparation, Integration, Reentry (2)** S. Graham Preparatory students for community-based global health experiences, and provides them the opportunity to share, discuss, and reflect on these experiences after returning to the United States. Explores the problems and promise of current global health strategies. Prerequisite: participation in International Health Opportunities Program or similar experience. Credit/no-credit only. Offered: S.

**G H 573 Clinical Management of HIV (2-3)** H. Kim Provides in-depth case-based training on the diagnosis and clinical management of HIV and associated conditions. Includes interactive format with speakers who have experience in both resource-rich and resource-limited settings. Offered: Sp.

**G H 575 Global Health Leadership for the Clinician (3)** C. Farquhar, A. Roxby One-month intensive course for clinicians interested in careers in global health. Designed to teach the skills necessary to become future leaders in this field. Comprised of several different components, including field visits to local global health organizations, lectures, and small group case-based discussions. Credit/no-credit only. Offered: A.

**G H 576 Health in Complex Humanitarian Emergencies (2)** D. Townes Covers the principles of planning, implementing, and evaluating health programs for refugees and internally displaced persons during complex humanitarian emergencies in resource poor countries. Topics include rapid assessment; surveys; surveillance; nutrition; camp management; epidemiology of infectious diseases; water and sanitation; and vaccination campaigns during international relief operations for complex humanitarian emergencies. Credit/no-credit only. Offered: A.

**G H 580 Global Health Doctoral Seminar: Biology, Systems, and Measurement (2, max. 8)** Gakidou, Lukehart, Sherr Examines the most critical issues in global health and currently available solutions. Introduces complementary perspectives of pathobiology, metrics, and implementation science to build a multidisciplinary understanding of these issues, including effective and appropriate strategies for their control. Offered: AWSp.

**G H 590 Selected Topics in Global Health (1-5, max. 15)** Focuses on topics relevant to global health. Offered: AWSpS.

**G H 592 Program Seminars (1-6, max. 6)** Addresses specific educational needs of students within the Department of Global Health. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSp.

**G H 593 MPH Workshop (1, max. 3)** A. Kone, D. Rao Highlights include presentations from fellow students, guest lecturers from various departments and visiting activists and scholars who share their interdisciplinary, global perspectives, and expertise. Students are invited to select topics and prepare student-led sessions. Prerequisite: first-year Global Health MPH students. Offered: AWSp.
G H 595 Master's Practicum (1-6, max. 6) Supervised practice experience providing an opportunity to apply knowledge and skills in a setting of relevance to global health. Prerequisite: permission of faculty adviser. Credit/no-credit only. Offered: AWSpS.

G H 600 Independent Study or Research (*) Prerequisite: permission of instructor. Offered: AWSpS.

G H 700 Master's Thesis (*) Prerequisite: permission of instructor. Offered: AWSpS.

G H 800 Doctoral Dissertation (*) Prerequisite: permission of Graduate Program Advisor. Offered: AWSpS.
University Conjoint Courses

Course Descriptions

UCONJ 100 Introduction to Health Professions (1) Garcia Opportunities in health professions. Information on educational requirements, professional/patient interaction, licensing, registering for practice in profession, salaries, and career opportunities.

UCONJ 290 Diversity Issues in the Healthcare Environment (1-2, max. 2) I&S Introduction to the complexity of the issues surrounding culture and health, the interrelatedness of ethic and cultural characteristics and healthcare access, health and healthcare concerns of specific communities, traditional and alternative health-care practices, and community-based promotion and disease prevention programs. Credit/no-credit only.

UCONJ 411 Psychology of Aging (3) Kiyak Focuses on developing the skills necessary for critically evaluating current psychological theories of aging, research findings in this area, and the implications of findings on the aging person. Special consideration given to the effects of socioeconomic, sex, and ethnic differences in the psychology of aging. Open to upper-division undergraduates and beginning graduate students interested in the field of gerontology.

UCONJ 412 The Family in Later Life (3) Focuses on issues affecting older persons and their families. Addresses demographic influences on families; roles, rules for and function of family members; inter-generational relationships; economic, political, and social policy affecting family life; and cultural variations and supportive resources for older persons and their families.

UCONJ 413 Current Issues in Aging (3) Describes the population trends at work in the United States and other developed nations with significant societal implications for care and management of elders. Evaluates selected public policies related to aging. Gives students proficiency in using resources related to aging on the Internet. Evaluates alternative long-term care models.

UCONJ 420 Biological Safety Practices (1) Kenny General introduction to appropriate laboratory procedures used for handling potentially hazardous biological agents. Particular focus on laboratory safety and appropriate protocols that should be employed by those engaged in infectious disease and recombinant DNA research. Credit/no-credit only.

UCONJ 422 Sexually Transmitted Diseases: An Overview (2) Gardner Clinically oriented course designed to provide a knowledge base for upper-division health science students to participate effectively in community outreach programs for the prevention of sexually-transmitted diseases. Offered cooperatively by the departments of Pharmacy and Medicine.

UCONJ 440 Biological Aspects of Aging (3) Introduction to aspects of the biology of human aging and functional changes associated with normal aging and with illnesses that may be present in the elderly. Explores the relationship between changes in physical function, environment, and quality of life. Includes theoretical perspective on aging as well as the aging
process in specific physiological systems. Designed for upper-level undergraduate students with an interest in aging.

**UCONJ 442 Social and Cultural Aspects of Aging (3)** Involves faculty members from the various social science fields examining the range and variation of relationships among age-linked attitudes and cultural values related to aging; the social and economic factors that influence the elderly in contemporary society; the effects of ethnic and sex differences in sociocultural aging. Open to upper-division undergraduates and beginning graduate students interested in gerontology.

**UCONJ 500 Seminar in Interprofessional Collaboration ([1-3]-, max. 7)** Interdisciplinary teams of students and community members placed in diverse urban settings address an identified community need by developing and implementing collaborative, community-based projects. Seminars emphasize interprofessional collaborative practice, intrapersonal understanding, interpersonal group process skills, organizational savvy, community awareness, and sociocultural sensitivity. Offered through Graduate School of Public Affairs. Offered: AWSp.

**UCONJ 504 Advanced Interdisciplinary Case Studies in Global Health (3)** Gorstein, Kurth, Shell-Duncan Uses actual multidisciplinary case studies to (1) analyze quantitative parameters of diseases, (2) contrast the descriptive and analytic approaches of health sciences, anthropology, and nutritional sciences, (3) integrate diverse disciplinary perspectives into cohesive information, (4) organize class presentations, and (5) apply critical thinking in approaching complex health issues. Offered: Sp.

**UCONJ 510 Introductory Laboratory Based Biostatistics (2)** Introduces methods of data description and statistical inference for experiments. Covers principles of design and analysis of experiments; descriptive statistics; comparison of group means and proportions; linear regression; and correlation. Emphasizes examples from laboratory-based biomedical sciences, and provides demonstrations using standard statistical programs.

**UCONJ 517 Interdisciplinary Clinical Research Methods Seminar (2)** Provides an introduction to clinical/translational relational research methods, including selection of research questions, study design, measurement, data analysis, and practical aspects of conducting research in clinical settings. Prerequisite: Students from Health Sciences schools conducting research under the Multidisciplinary Predoctoral Clinical Research Training Program. Credit/no-credit only. Offered: S.

**UCONJ 520 Molecular Biophysics Research Seminar (1)** Parson A series of research seminars for faculty and students involved with the molecular biophysics program. Credit/no-credit only.

**UCONJ 524 Developmental Neurobiology (3)** Survey of contemporary issues in developmental neurobiology, including neurogenesis and differentiation; electrophysiological, morphological, and neurochemical regulation of cellular phenotype; neuronal pathways and synaptic contacts; cellular and synaptic plasticity; and behavior. Examination of molecular biological, morphological, electrophysiological, and behavioral approaches. Prerequisite:
background in neurophysiology, neuroanatomy, molecular neurobiology. Instructors: Raible, Reh Offered: Sp.

**UCONJ 525 Overview of Faculty Research in Neurobiology (1)** Reviews research topics currently being studied in neurobiology. Student preparation consists of reading pertinent articles published on each topic. Prerequisite: first-year graduate student in neurobiology. Credit/no-credit only.

**UCONJ 530 Issues in Indian Health (2)** Surveys historical and contemporary issues in Indian health. Covers Indian contributions to health, traditional Indian medicine, current disease epidemiology, development of federal Indian health policy, the Indian Health Service, tribal health programs, and consequences of major legislation on Indian health. Prerequisite: current health science student or permission of instructor.

**UCONJ 531 Introduction to Mind Body Medicine-An Experiential Elective (2)** Sessions contain a didactic component followed by an experiential component and cover a variety of self-care techniques including meditation, exercise, and nutrition. Goals are to promote personal well being, a healthy lifestyle, reduce burnout, and reduce academic difficulties. Credit/no-credit only.

**UCONJ 532 Health Sciences Common Book Seminar (1, max. 4)** R. ARNOLD Covers material related to the current health sciences common book, and provides knowledge of key barriers underserved populations face in obtaining adequate healthcare, and strategies health professions can use to effectively care for underserved individuals. Guest speakers include community leaders. Service learning course. Credit/no-credit only. Offered: W.

**UCONJ 545 Emergency Preparedness for Health Professionals (1)** Introduces the roles of health professionals in preparing for community-wide disasters. Emergency preparedness content for graduate and professional students in health sciences. First of two interdisciplinary courses focusing on "all-hazards" preparedness. Credit/no-credit only.

**UCONJ 546 Emergency Response for Health Professionals (2, max. 6)** Focuses on interdisciplinary emergency preparedness and response for graduate students in health professions. Includes system and policy issues with emphasis on clinical relevance for health professionals. Second of two interdisciplinary courses focusing on "all-hazards" preparedness. Credit/no-credit only.

**UCONJ 548 Current Issues in First Nations Behavioral Health: Mental Health and Substance Abuse (3)** Historical and intergenerational antecedents of tribal psychiatric and substance abuse disorders. Oppression, economic circumstances, and family functioning as shaping mechanisms for attachment. Implications of insufficient attachment for neurodevelopment and developmental psychopathology. Traditional vs. mental health and substance abuse assessment and treatment. Self as provider to tribal clients, communities, systems.

**UCONJ 550 Healthcare in the Underserved Community (1)** Gives graduate/professional students in health sciences an introduction to health related issues faced by underserved populations. Credit/no-credit only.
UCONJ 584 Plant Tumors (1, max. 9) Discussion of the literature of plant tumors and current research work being done in this area at the University. Offered cooperatively by the departments of Biochemistry, Biology, and Microbiology and Immunology. Prerequisite: offered only to persons actively pursuing work in this area. Instructors: Gordon Credit/no-credit only.

UCONJ 599 Selected Readings in Interdisciplinary Clinical Research (1, max. 6) Analysis and synthesis of selected readings and works in progress related to multidisciplinary and interdisciplinary clinical research. Prerequisite: UCONJ 517; permission of instructor. Instructors: Marshall, Mitchell Credit/no-credit only. Offered: AWSp.

UCONJ 624 Health Equity and Community Organizing (1) *Arnold* Equips students with tools to organize themselves and others to address social and structural injustices that perpetuate health disparities. Didactic coursework complemented with opportunities to apply skills and gain confidence through hands-on collaboration with local leaders and engagement in community-driven listening and advocacy campaigns. Credit/no-credit only. Offered: AW.
School of Law

Department Overview

Dean
Kellye Y. Testy

Associate Deans
Steve Calandrillo
Penny A. Hazelton
Mary Hotchkiss
Peter Nicolas

Assistant Dean
Naomi Sanchez

Interim Assistant Dean
Stephanie Cox

Established in 1889, the School of Law is a member of the Association of American Law Schools and is on the American Bar Association's list of approved law schools. Graduates of the School are prepared to practice law anywhere in the United States. Additional information about the School is contained in the current School of Law catalog.

Facilities and Services

The School of Law, housed in William Gates Hall since 2003, is equipped with classroom, clinical, library, lounge, and office facilities. Eleven classrooms are equipped for multi-media presentations, wireless internet connection, and assistive-listening systems.

The Marian Gould Gallagher Law Library is among the largest university law collections on the West Coast. The collection currently contains more than 450,000 bound volumes and volume equivalents of microform. In addition to the extensive main collection, it houses important materials that support the Asian, marine, sustainable international development, and tax law graduate programs and serves as a federal depository for selected United States government documents. The library is equipped with the latest in microreaders and printers in order to make full use of the growing microform collection. The library is a subscriber to LEXIS, WESTLAW, the Western Library Network, and other research databases.
Juris Doctor Program

The Juris Doctor (JD) degree is conferred upon a student who has met the residence requirements, consisting of nine quarters of at least 12 credits each, and has earned at least 135 credits satisfactory to the School of Law.

As with most law schools in the United States, the first-year courses are required and are designed to introduce students to basic legal skills, foundational subject matter, and the variety of public and private processes with which the profession is concerned. Those courses deal with contracts, torts, property, civil procedure, criminal law, constitutional law, and basic legal skills.

Except for a required course in professional responsibility, the public service requirement, and an advanced writing project requirement, courses in the second and third years are elective. Therefore, a student may choose a program designed to suit his or her interests and needs. JD candidates are required to perform 60 hours of public-service legal work during the second or third year.

Admission

New students may enter the School of Law only in autumn quarter. For first-year students, instruction begins earlier than for upper-class students. Students must have earned a baccalaureate degree from an accredited college or university prior to commencing the study of law.

All applicants are required to take the Law School Admission Test (LSAT) and to register for the Law School Data Assembly Service (LSDAS). Registration packets and test information are available at most law schools and from Law School Admission Council, Box 2000, Newtown, PA 18940-0998. www.lsac.org

No specific prelaw course is required or recommended, and the School of Law subscribes to the remarks set forth on prelaw preparation in The Official Guide to U.S. Law Schools (2000 Edition). Applications for admission to the next entering class must be postmarked no later than January 15. To be assured of consideration, an applicant must have complete credentials, including the LSDAS report, filed in the School of Law by February 1. An application fee (at this writing, $50) also is required.

Transfer Applicants

Students who have completed at least one year at a member school of the Association of American Law Schools may apply for admission with advanced standing, with credit for no more than one year of such work. A student who has completed or expects to complete at least two years of work at a member school of the Association of American Law Schools and who expects to graduate from that member school may apply to this school for admission as a non-degree candidate.
Applicants should request application forms and instructions from the admissions office in time to permit filing of all application materials by July 10.

Applications are considered only if vacancies exist. Selection is based on evidence either (1) that the candidate can produce above-average work at this law school, or (2) that the candidate will contribute to the diversity of the student body.

Students working on law degrees to be conferred by the University have priority over non-degree candidates in the selection of courses. This policy is in accordance with the general University policy on the registration of nonmatriculated students.

**Financial Aid**

Students in need of financial assistance may receive University aid, School of Law aid, federal loans, or aid from all these sources. To be considered for aid, applicants must submit the Free Application for Federal Student Aid (FAFSA) by February 28. FAFSAs are available in December at most college financial aid offices, or may be obtained by writing or calling the Office of Student Financial Aid, 105 Schmitz Hall, Box 355880, University of Washington, Seattle, WA 98195, 206-543-6101, offa@uw.edu. Applicants for admission should not wait until they have been admitted before applying for financial aid.

School of Law grants are awarded primarily on the basis of financial need, although scholarship or other factors may be considered for certain awards. Inquiries concerning School of Law aid should be addressed to Financial Aid Coordinator, School of Law, William Gates Hall, Box 353020, University of Washington, Seattle, WA 98195-3020; uwlawaid@uw.edu.

**Inquiries**

A more detailed statement on admission policy and application procedure is available from the School of Law. Requests for application materials and the University law school bulletin should be addressed to Law School Admissions, William Gates Hall, Box 353020, University of Washington, Seattle, WA 98195-4617; admissions@law.washington.edu; 206-543-4078.

**Graduate Program**

Graduate Program Coordinator
William Gates Hall, Box 353020
206-543-4937
gradlaw@uw.edu

In addition to the professional law program leading to the Juris Doctor degree, the law faculty offers graduate programs leading to the Master of Laws (LLM) in Asian and Comparative Law, the law of sustainable international development, intellectual property law and policy, and taxation. The School of Law offers the Doctor of Philosophy (PhD) degree in Asian and Comparative Law only.
Master of Laws

Admission Requirements
1. Minimum B or 3.00 GPA in the most recent two years of study.
2. U.S. applicants must have completed their first degree in law (JD or equivalent) at a school accredited by the American Bar Association.
3. International students must have a first degree in law (LLB, BLaw) or equivalent and a minimum TOEFL score of 580 or 237 (TOEFLC).

Degree Requirements, Asian and Comparative Law

36 credits, as follows:

1. Required courses: LAW B 551, LAW 600, LAW B 550; two courses in Asian and comparative law
2. Elective courses: Additional courses, chosen in consultation with adviser, to bring total credits to 36.

Degree Requirements, Intellectual Property Law and Policy

40 credits, to include:

1. Required core courses: LAW P 501, LAW P 510
2. Additional requirement for students not trained in the common law system: LAW P 503
3. At least 16 additional credits drawn from a list of approved elective courses.
4. Research project and thesis

Degree Requirements, Law of Sustainable International Development

40 credits, as follows:

1. 15 credits in Law School classes. The remaining 25 credits may be earned in any other departments of the University. Sustainable international development students are required to take courses in at least three departments other than the Law School.
2. Writing and Research Requirement: Completion of a research paper is required and is generally satisfied by LAW B 578.
3. LAW A 545

Degree Requirements, Taxation

36 credits, as follows:
1. **Required courses:** LAW T 501, LAW T 502, LAW T 503, LAW T 504, LAW T 510, LAW T 511

2. **Core electives:** Two of the following courses: LAW T 515, LAW T 516, LAW T 521, LAW T 530

3. **Electives:** Additional courses, chosen in consultation with adviser, to reach 36 credits for degree

**Doctor of Philosophy**

**Admission Requirements**

Admission to the PhD program is limited to exceptional scholar-lawyers who are fluent in English and in another language. Prospective PhD students must normally complete the LLM program before being accepted as PhD students. The School does, however, welcome applications from candidates with equivalent academic standing and a demonstrated capacity for advanced research and writing.

**Degree Requirements**

90 credits, to include:

1. An LLM degree is counted toward the credit necessary for the PhD program.
2. Doctoral thesis seminar (4 credits)
3. Other coursework (26-29 credits): Coursework varies according to student's research interest areas and is determined in consultation with Supervising Committee
4. Doctoral dissertation (27-30 credits)

**Financial Aid**

Scholarship funds for graduate students in law are quite limited. Inquiries should be made to Law School Graduate Admissions, William Gates Hall, Box 353020, University of Washington, Seattle, WA 98195; gradlaw@uw.edu; 206-543-4937.

**Inquiries**

Requests for applications and program brochures for all School of Law LLM programs except the LLM in taxation, as well as information regarding application procedures, should be addressed to Law School Graduate Admissions, William Gates Hall, Box 353020, University of Washington, Seattle, WA 98195; gradlaw@uw.edu.

Requests for applications and program brochures for the LLM in taxation should be addressed to Law School Graduate Tax Admissions, William Gates Hall, Box 353020, University of Washington, Seattle, WA 98195; gradlaw@uw.edu.
Course Descriptions

Law

LAW 100 Introduction to American Law (2-5, max. 5) I&S T. MYHRE Examines the structure of the American legal system and how laws are made. Surveys key doctrinal areas of the law learning fundamental legal concepts, and explore how the law functions and evolves over time, including legal issues and decision-making related to statutory or common law. Offered: A.

LAW 300 Introduction to Law (3-6, max. 6) I&S Understanding the legal system, its functions in the social-economic order, legal reasoning, and the world of legal education and the legal profession. Open to nonlaw students only.

LAW 305 Global Health and Justice (3) I&S B. Rivin Offered: jointly with G H 305; W.

LAW 310 Law, Science, and Technology (4) I&S

LAW 410 Problems in Professional Responsibility (4) I&S

LAW 415 Criminal Justice (3) I&S Examines pre-trial rights of persons suspected or accused of crime, primarily those rights covered by the Fourth, Fifth, Sixth, and Fourteenth Amendments of the U.S. Constitution.

LAW 416 International Contracting: Negotiation and Drafting (3) I&S Skills course designed to introduce process and problems of negotiating and drafting international agreements. Client interviewing and counseling and negotiation and drafting of a contract between parties in the United States and Japan. Open to nonlaw students only. Credit/no-credit only.

LAW 422 Copyright (3) I&S

LAW 429 Public Land Law (3) I&S

LAW 440 Legal Issues of Internet Law (3) I&S Introduces the basic legal issues raised by networked digital technologies, such as the Internet. Covers jurisdiction, speech, privacy/access, propriety rights (copyrights, domain names), emerging law, leading policy debates, as well as fundamental Internet technical skills. Offered: S.

LAW 442 Land Law and the Urban Environment (3) I&S Examination of the major legal tools available to shape the urban environment by controlling the use of land. Considers zoning, subdivision controls, urban renewal, private land-use restrictions, and the rules of nuisance law. Open to law and nonlaw students. Credit/no-credit only.

LAW 443 The Legal Process I (3/5) I&S The system of law and its functions rather than substantive law pertaining to any particular subject or discipline. Open only to nonlaw students.
LAW 444 Constitution and American Public Education (3-6, max. 6) I&S Examines the relationships between the Constitution of the United States and the American system of public education, excluding higher education, in areas of constitutional freedom and legal controls, racial desegregation, and equal educational opportunity, including equal financing of the public schools. Credit/no-credit only. Offered: jointly with EDLPS 444.

LAW 445 Major Issues in American Constitutional Law (3) I&S Significant themes in American constitutional law. Doctrine of judicial review, application of the Bill of Rights to the states, Supreme Court's recognition of fundamental rights, the Equal Protection clause, the Religion clauses, freedom of speech, and presidential powers. Open to law and nonlaw students.

LAW 447 Critical Perspectives in Law (3) I&S Examination of modern critical legal thought and critics views regarding proposed alternative forms of social ordering.

LAW 476 International Economic Relations and Trade Policy (3) I&S Consideration of international control of national trade policies and permissible transnational reach of national trade or other regulation. The General Agreement on Tariffs and Trade (GATT) and the international monetary system examined from legal and economic perspective. Examination and comparison of prescriptive jurisdiction to public international law.

LAW 477 Law, Literature, and Film ([2-4]-, max. 4) VLPA/I&S An examination of literary and cinematic portrayals of and issues important to law, lawyers, and the legal system. Considers both portrayals purporting to depict the legal system as well as works envisioning lawyers and the legal system in a "better world."

LAW 481 Land, American Culture, and the Law: Perspectives on the Use and Ownership of the Natural Environment (1-6, max. 6) I&S

LAW 489 Law and Aging (3) I&S Survey of principal areas of law of special concern to aging population, considering healthcare and healthcare decision-making, public and private income maintenance programs, taxation, guardianships, conservatorships, and other methods of protecting the property of the elderly, counseling, and professional responsibility.

LAW 600 Independent Study or Research (*-)

LAW 800 Doctoral Dissertation (*-)

Law A

LAW A 500 Introduction to Perspectives on the Law (1) Explores critical perspectives as a method of understanding common laws to provide context for black letter law. Creates a basic framework for understanding the relationship between race, class, gender, sexuality, and the law to help students deepen their ability to represent and counsel clients from diverse backgrounds and personal identities. Credit/no-credit only. Offered: W.

LAW A 501 Contracts ([2-8]-, max. 8)
LAW A 502 Civil Procedure I ([2-6]-, max. 6)

LAW A 503 Property I ([2-8]-, max. 8)

LAW A 504 Torts ([2-8]-, max. 8)

LAW A 505 Criminal Law ([2-5]-, max. 5)

LAW A 506 Legal Analysis, Research, and Writing ([1-7]-, max. 7)

LAW A 507 Constitutional Law I: Constitutional Structures of Government ([2/6]-, max. 6)

LAW A 508 Transnational Law (3) Survey of basic principles of public international law; comparative and historical overview of various legal traditions (civil law, common law, Islamic law, and mixed systems). Examines sources, subjects, and challenges of international law, and methodology of comparing foreign legal systems, providing perspective on U.S. legal system and rules. Offered: Sp.

LAW A 509 Administrative Law (3-5)

LAW A 510 Sales (3-4)

LAW A 511 Payment Systems (2/4)

LAW A 512 Secured Transactions (3-4)

LAW A 513 Creditor-Debtor Law ([2-3]-, max. 5)

LAW A 514 Publicly Held Corporations (3)

LAW A 515 Business Organizations (4-5)

LAW A 516 Legal Accounting (2-3)

LAW A 517 Securities Regulation (4) Examines the federal regulations of the offer and sale of securities and the public offering process under the Securities Act of 1933; exemptions from federal registration; the reporting obligations of public companies under the Securities Exchange Act of 1934, and the examination of the impact of the Sarbanes-Oxley Act of 2002.

LAW A 518 Restitution (3)

LAW A 519 Transmission of Wealth (3-5)

LAW A 520 Property II ([2-8]-, max. 8)

LAW A 521 Community Property (2/3)
LAW A 523 Real Estate Transactions (3/4)

LAW A 524 Law, Science, and Technology (3) P. KUSZLER Considers how the linkage between science and law has become more pivotal with advancements in technology. Topics include science in the context of criminal law, public regulation, and individual rights. Explores the power of science to promote justice and expose injustice. Offered: A.

LAW A 525 Water Law (4)

LAW A 526 Copyrights and Trademarks (5)

LAW A 527 Environmental Law (4)

LAW A 529 Public Land Law (3)

LAW A 530 Individual Income Tax ([2-6]-, max. 6)

LAW A 531 Death and Gift Taxation (2-5, max. 5)

LAW A 532 Taxation of Business Entities (5)

LAW A 534 Mergers and Acquisitions (4-6) Deals with tactics, strategy, and state and federal law relating to transactions by means of which corporations and other forms of business entity combine. Emphasizes corporate law with some treatment of federal tax and securities law issues. Prerequisite: either LAW A 515 or LAW A 567.

LAW A 535 Trademarks and Unfair Competition (2)

LAW A 536 Securities and Shareholder Litigation (2) Covers securities and shareholder litigation in its broadest sense including federal securities litigation, state securities litigation, SEC enforcement, and state law-based derivative litigation. Offered: Sp.

LAW A 537 Taxation of Corporations, Partnerships, and Limited Liability Companies (4-)

LAW A 538 Estate Planning Workshop (3-4)

LAW A 540 Land Use Planning Seminar (3)

LAW A 541 Transnational Tax (5)

LAW A 542 Land Law and the Urban Environment (3)

LAW A 543 Business Reorganization Under the Bankruptcy Code (4)

LAW A 544 Comparative and Transnational Commercial Law (1-4, max. 4) Examines the political economy of transnational commercial law. Uses select international harmonization
instruments (e.g. Cape Town Convention on International Interests in Mobile Equipment, UNCITRAL Model Law on Cross-Border Insolvency, Vienna Convention on Contracts for the International Sale of Goods) to illustrate and critique different methodological and institutional approaches.

LAW A 545 International Environmental Law (3-4)

LAW A 547 Critical Perspectives on Law Seminar ([2-4]-, max. 4) Considers law from the point of view of Continental philosophy and critical social theory. Involves close readings and intensive discussion of canonical texts from various critical traditions of thinking about law. Students also write and present papers concerning themes raised by the readings. Offered: A.

LAW A 548 Civil Rights ([2-6]-, max. 6)

LAW A 549 Advanced Legal Research (4)

LAW A 550 Constitutional Law ([2-8]-, max. 8)

LAW A 551 Global Governance Seminar (3-4) Introduces international and transnational regimes governing issues as varied as international economic inequality and instability; conflict and peace-building; humanitarian crises and intervention; and global environmental change. Explores principles of regime design and legal architecture. Evaluates the effectiveness and legitimacy of various modes of global governance.

LAW A 552 Antitrust Law and Policy ([2-5]-, max. 5)

LAW A 553 Feminist Jurisprudence (4) Explores the intersections of law and sex, gender, and sexuality with the aid of various theoretical lenses, prominently feminist legal theory. Focuses on those areas of law where notions of sex, gender, and sexuality seem conflated and confused.

LAW A 554 Labor Relations and the Law ([1-5]-, max. 5)

LAW A 556 Employment Discrimination ([2-4]-, max. 4)

LAW A 558 National Security Law Seminar ([2-6]-, max. 6) Three-quarter seminar that provides an opportunity for study and research in selected legal issues relating to national security law and its processes and institutions. Prerequisite: LAW A 507. Instructors: Allen Offered: AWSp.

LAW A 561 Law and Economics (2-4, max. 4) Examines the applications of Law and Economics to: torts, property, contract, and criminal law; intellectual property, tobacco litigation, employment law, human organ sales, and U.S. regulatory design. Offered: jointly with PUBPOL 519.

LAW A 562 Employment Law (3-5) Examines the law governing the employment relationship, including the establishment and termination of employment. Topics include employee duties, prohibited employment practices, regulation of wages, hours, and benefits of employment, workers' compensation, and occupational safety and health.

LAW A 563 Local Government Law (3)

LAW A 564 American Legal History (1-4, max. 4) Reviews the American legal history from colonial times to the civil rights era. Readings cover early constitutionalism, the republican revolution, the antebellum movement, the end of slavery, the regulatory state, and rights of women and minority groups.

LAW A 565 American Indian Law (3-4)

LAW A 566 Theories of Justice ([2-4]-, max. 4)

LAW A 567 Closely Held Business Organizations (4) Examines elements of various unincorporated business forms and closely held corporations. Reviews relevant state statutes and case law related to each form relevant to advising small business clients on the choice of business form utilized in their ventures. Not open to students who have taken LAW A 515. Offered: A.

LAW A 568 Collective Bargaining and Labor Arbitration (2-4)

LAW A 569 Investments Funds and Managers Seminar (3) Krug Explores U.S. regulation of investment managers and invest companies, including hedge funds and mutual funds. Topics draw heavily from federal securities laws, particularly the Investment Advisers Act and the Invest Company Act of 1940, and encompass regulatory developments/proposals and policy considerations underpinning investment industry regulation. Offered: Sp.

LAW A 571 International Organizations Seminar (3) Provides a critical introduction to some of the issues that are important to understanding how international organizations function today. Focuses on the role of international organizations in the modern forms of international law-making, regulation, and global governance.

LAW A 572 Criminal Justice Policy (4) Provides overview of key policy issues arising in the criminal justice system, such as mass incarceration, victim's rights movement, racial disparities, and wrongful conviction. Considers role of prosecutors and public defenders in contributing to or alleviating these problems, and how participants in the system can provide leadership in addressing them.
LAW A 574 International Law (2-4, max. 4)

LAW A 575 Human Rights History: Rights, Revolutions, Republics, 1750-1850 (4) Walsh
Comparative constitutional history of rights lawyering. Includes political trials from French Revolution in Europe through postcolonial Jacksonian American Republic. Covers basic rhetoric of early human rights discourse: on treason, seditious libel, racial equality, servitude, labor conspiracy, religious liberty, consumer protection, and codification. Offered: W.

LAW A 576 Cross-Border and International Criminal Law (3-4) Examines responses by states and international organizations to international and transnational crimes. Covers substantive and procedural international criminal law, criminal responsibility, defenses and immunities, and the prosecution and punishment of international criminals in both national and in international tribunals. Prerequisite: LAW A 505. Instructors: Allen Offered: W.

LAW A 577 Immigration Law (3/4)

LAW A 578 International Business Transactions ([1-4]-, max. 4)

LAW A 579 Child Advocacy Seminar (2-4, max. 4) Includes child abuse and neglect, parental rights termination, paternity, and an overview of other practice areas as they intersect with issues of child abuse and neglect. Focuses on Washington law and practice, covering applicable substantive and procedural law, local practice rules, and professional responsibility. Offered: A.

LAW A 580 Family Law (3-5)

LAW A 581 Washington Constitutional Law ([1-4]-, max. 4) Studies the history, structure, content, and role of state constitutions generally, and the development of Washington's constitution in particular. Examines the important distinctions between the federal constitution and state document, and the interplay between them. Covers state declarations of rights and the substantive sections of state constitutions that relate to the structure, role, and constraints. Offered: A.

LAW A 582 Bankruptcy (3-4)

LAW A 583 Insurance Law (4)

LAW A 584 American Public School Law (3) Constitutional, statutory, and common law principles common to all public education systems within the United States. Applicable law in a variety of substantive legal areas such as torts, property, contracts, administrative law, and fundamental rights. Offered: Sp.

LAW A 585 Admiralty (3-5)

LAW A 586 Advanced Family Law Seminar (2-4) Discusses family law topics previously excluded or covered only minimally including: adoption, paternity, guardianship, third-party
custody, parenting plans in the child welfare context, and family law in the intimate partner violence context. Prerequisite: LAW A 580.

LAW A 588 Survey of the American Judiciary Seminar (1) This course provides a survey of the American Judiciary. Students will learn about a variety of legal proceedings through firsthand observations. Students will compare their observations of the American Judiciary with Afghanistan's judicial system. Prerequisite: either LESPA LLM students, or permission of instructor. Credit/no-credit only.

LAW A 589 Elder Law (4)

LAW A 590 Constitutional Law: Equal Protection, Fundamental Rights, and Due Process of Law (2-5, max. 5)

LAW A 591 Constitutional Law: Freedom of Expression (4-5)

LAW A 592 Constitutional Law II ([2-8]-, max. 8) Examines individual constitutional rights, primarily involving guarantees of due process and equal protection found in the 5th and 14th Amendments. Focuses on constitutionality of laws that classify people on basis of race, sex, sexual orientation, and other bases, as well as laws that restrict abortion, contraception, sexual activity, and other individual freedoms. Prerequisite: LAW A 507.

LAW A 595 Jurisprudence and Legal Philosophy ([2-4]-, max. 4) Surveys classic jurisprudential questions in the study of the nature, norms, and justifications of legal systems. Focuses on theories of adjudication, and covers the major twentieth and twenty-first century schools of jurisprudential thought, especially American Legal Realism, Natural Law, Legal Positivism, and Critical Legal Theory.

LAW A 597 Intensive Legal Writing Workshop (2-4) Focuses on how the rhetorical situation of legal writing influences choices about grammar, syntax, sentence structure, and paragraph structure. Students learn to use structures that best serve law-trained readers' needs for clear, concise, cohesive writing, and practice critical reading skills and techniques for self- and peer-editing.

LAW A 599 Legal Research Methods (3/4) Legal tools that answer more complex legal research problems, such as federal legislative histories, sources of administrative law, specialized subject research. Federal emphasis. Builds on skills and techniques taught in LIS 591/LAW A 598. Extensive work with online resources. Offered: jointly with LIS 592.

Law B

LAW B 500 Civil Procedure II (2-4)
LAW B 503 Evidence ([2-6]-, max. 6)

LAW B 506 Conflicts of Laws ([2-6]-, max. 6)

LAW B 507 Federal Courts and the Federal System (3/4)

LAW B 508 Business, Social Responsibility, and Human Rights (2-4)  A. Ramasastry
Addresses business obligations to respect human rights. Offered: A.

LAW B 510 Problems of Professional Responsibility (2-4, max. 4)

LAW B 511 Decision Making for Lawyers: Concepts, Duties, and Skills (3) Enhances
students' legal judgment, problem-solving, and prediction skills. Analyzes the psychology of
decision making; describes the legal malpractice and disciplinary implications of deficient
decision making; identifies the frequency, costs, and predictors of adverse legal outcomes; and
demonstrate methods to improve decision making.

LAW B 512 Legislation and the Formulation of Public Policy (2-3)

LAW B 513 Advanced Evidence ([2-4]-, max. 4) Covers advanced topics in evidence law and
policy. Prerequisite: LAW B 503, which may be taken concurrently.

LAW B 514 Street Law ([1-8]-, max. 8)

LAW B 515 Criminal Procedure: Investigation (3-5)

LAW B 516 International Contracting ([2-4]-, max. 4)

LAW B 517 Juvenile Justice Seminar ([1-6]-, max. 6)

LAW B 518 Appellate Advocacy ([1-3]-, max. 3) Credit/no-credit only.

LAW B 519 Pre-Trial Practice (3-4) Offered: A.

LAW B 520 Trial Advocacy ([2-6]-, max. 6) Credit/no-credit only.

LAW B 521 Trial Advocacy II (3-, max. 6) Addresses more advanced trial advocacy issues
than are covered in LAW B 520. Includes a civil or criminal track of study and work with trial
lawyers who specialize in that area of practice on more sophisticated issues of strategy, evidence,
creative use of exhibits at trial, technology in the courtroom, and ethics. Prerequisite: LAW B
520; permission of the Director of the Trial Advocacy Program. Offered: WSp.

LAW B 522 Mediation Skills Training (1) Focuses on collaborative style of mediation.
Through a mix of theory and practice, students learn the skills, tools, and processes used by
mediators. Students observe and practice the five-steps of the mediation process, through
demonstrations and roleplaying. Individual coaches work with students to hone their skills. Credit/no-credit only. Offered: AW.

**LAW B 523 Negotiation (2-4, max. 4)** Credit/no-credit only.

**LAW B 524 Alternative Dispute Resolution Seminar (2-, max. 4)** Provides opportunities for study, research, and writing related to the legal, policy, and ethical issues in the emerging field of alternative dispute resolution (ADR). Research papers satisfy the advanced writing requirement for JD students. Prerequisite: permission of instructor if LAW B 525 already completed.

**LAW B 525 Alternative Dispute Resolution (3)** Overview of alternative dispute resolution including negotiation, mediation, arbitration, med-arb, early neutral evaluation, mini-trials, summary jury trials, and E-ADR. Critical evaluation of each process occurs through a combination of assigned readings, roleplay exercises, videotapes, guest presentations, and student-designed classes.

**LAW B 526 Mediation Clinic ([1-10]-, max. 10)** Credit/no-credit only.

**LAW B 527 Criminal Prosecution Clinic (8)** Credit/no-credit only.

**LAW B 528 Workers' Rights Clinic ([2-8]-, max. 12)** Provides clinical training in workers' rights and administrative law under the supervision of members of the Law School faculty. Students represent workers in employment law matters such as unemployment compensation benefits or wage claims. Credit/no-credit only.

**LAW B 529 Advanced Environmental Law and Practice ([1-4]-, max. 4)**

**LAW B 530 Judicial Externship (1-18, max. 18)**

**LAW B 531 Immigration Law Clinic ([1-12]-, max. 12)** Clinical training in immigration law under the supervision of members of the Law School faculty. The clinic offers a seminar component covering applicable immigration law and procedure, skills training and professional responsibility concerns. The clinic's practice component will consist of students representing clients in deportation and political asylum cases. Credit/no-credit only.

**LAW B 532 Advanced Clinic (1-4, max. 4)** Advanced clinical training under the supervision of a law school faculty member in order to complete a project or case begun by the student during a clinic, or to pursue in more depth the subject of the clinic. Prerequisite: Clinical basis for continued work. Credit/no-credit only.

**LAW B 533 Interviewing and Counseling for Lawyers (2/3)** Credit/no-credit only.

**LAW B 534 Counseling Workshop (1-, max. 3)** Provides an introduction to the culture of counseling in the legal profession. Students learn about effects of power and privilege in the United States and implications for counseling relationships. Students increase their abilities to engage in respectful practice of counseling people from all backgrounds.
LAW B 535 Legislative Externship (1-18, max. 18) Credit/no-credit only.

LAW B 536 Drafting Business Documents ([1-3]-, max. 3)

LAW B 537 Refugee Advocacy Clinic ([1-12]-, max. 12) Credit/no-credit only.

LAW B 538 Agency Externships (1-18, max. 18) Credit/no-credit only.

LAW B 539 Public Interest Law Externship ([1-18]-, max. 18) Credit/no-credit only.

LAW B 540 Japanese Law (3-4) Basic institutions and processes of the Japanese legal system. Historical development and traditional role of law, reception of Western law, and cultural and structural factors that influence the function of law and legal institutions. Offered: jointly with JSIS A 540.

LAW B 541 Chinese Law (4) Introduction to the institutions and processes of the Chinese legal system. Focuses on the contemporary system and its role in relation to political, economic, and social developments. Examines legal aspects governing foreign trade and investment in China. Offered: jointly with JSIS A 541.

LAW B 542 Comparative Korean Law (2-4) Introduction to basic institutions and processes of the Korean legal systems. Emphasis on the historical development and traditional roles of law, the reception of Western law, and cultural and structural factors that influence the function of law and legal institutions.

LAW B 544 Civil Litigation in Comparative Context ([2-4]-, max. 4) Covers international jurisdiction, service process abroad, taking evidence abroad, applicable laws and treaties, comparison of trial procedures, enforcement of foreign judgments, and use of arbitration. Uses United States and translated Japanese cases.

LAW B 545 Deposition Practice (3) Offers intensive training in the applicable law, strategy, skills, and techniques of deposition practice. Combines traditional lectures and demonstrations with the case model developed by the National Institute for Trial Advocacy. Multiple opportunities to prepare, take, and defend depositions, with substantial feedback and criticism. Prerequisite: LAW B 503 or LAW B 513; LAW B 520, either of which may be taken concurrently. Credit/no-credit only.

LAW B 546 Cross-Border Business Transactions Between China and the United States (4) Uses case study methodology to explore how United States law and Chinese economic policy and business laws are used in achieving Chinese-United States cross-border transactions. Open to law, business, and international studies students.

LAW B 547 Comparative Constitutional Law (2-5) Examines the constitutional structure of the U.S. government and the jurisprudence of U.S. constitutional courts, and compares them with the constitutional structures and jurisprudence of several foreign countries.
LAW B 548 Forensics (4) Bailey Introduces the world of expert witnesses in both criminal and civil cases, looking at the forms of scientific and technical knowledge commonly involved. Covers not only the standard and rules governing expert testimony, but also provide opportunities for hand on experience. Offered: W.

LAW B 549 Government Regulation of Business in Japan (3) Offered: jointly with JSIS D 549.

LAW B 550 American Legal Systems and Method ([1-6]-, max. 6) Provides an integrated introduction to the basic structure and principles of the U.S. public and private law systems; the sources and techniques for basic legal research; and the analytical and writing skills expected of U.S. trained lawyers.

LAW B 551 Comparative Law Seminar ([2-6]-, max. 6)

LAW B 552 Tutorial in Comparative Law ([1-4]-, max. 6)

LAW B 553 Chinese Legal Tradition (3) Offered: jointly with JSIS D 553.

LAW B 554 Research Tutorial ([1-15]-, max. 15) Introduces students to social science research methods that may be applicable to their research agenda. Focuses on reading, discussion, commentary, writing, and especially rewriting under close and targeted supervision by the professor. Offered: jointly with JSIS 595.

LAW B 555 Roman Law (3)

LAW B 556 Islamic Law (2-5) Selected topics in Islamic law that highlight major aspects of Islamic civilization. Offered: jointly with NEAR E 536.

LAW B 557 Graduate Writing Seminar ([2-6]-, max. 6) Through class instruction and individual tutoring, students select research topics, submit periodic writing assignments, and make formal presentations, culminating in the submission of a major research paper.

LAW B 558 Doctoral Thesis Seminar (2-10, max. 10) Students draft thesis abstracts, tables of contents, preliminary chapters, and present arguments orally to identify core theories and applied studies to incorporate in their work. Read a selection of published work and indicative articles drawn from the list of relevant sources for individual thesis-in-development.

LAW B 559 Comparative Law: Europe, Latin America, and East Asia (4)

LAW B 560 Criminal Justice Externship (1-18, max. 18) Credit/no-credit only.

LAW B 561 International Law of the Sea (3-4)

LAW B 562 Quantitative Methods (4) Covers logic, applications, and limits of quantitative reasoning in the law. Includes mathematics from areas such as statistics, game theory, and social-
choice theory, together with legal examples from areas such as discrimination, torts, and CLS to help (re)consider issues such as proof, deterrence, and identity politics.

LAW B 563 Marine Law and Policy Seminar ([2-6]-, max. 6) Study and research in selected legal problems relating to ocean and coastal law, marine trade and transportation, marine resources, and protection of the marine environment. Students prepare and present a research paper and critique papers prepared by other students. Prerequisite: LAW B 561, LAW B 565.

LAW B 564 Women, Poverty, and Natural Resource Management (2-3) Seminar examines the links between women, law, land/natural resources, poverty in international development. Issues covered include reasons for focusing on women or men within households rather than households as units; land/natural resource rights as critical to household food security and development; the role of law in supporting women's rights. Issues are examined through the lens of a legal practitioner in international development. Offered: A.

LAW B 565 U.S. Coastal and Ocean Law (3-5) Study of the legal framework in the United States controlling allocation and use of coastal and marine resources. Topics include coastal zone management, fisheries management, protection of marine mammals and endangered species, marine pollution, offshore oil and gas development, and marine transportation.

LAW B 566 Legal Problem Solving in the Corporate Context (3) This course will focus on the lawyer as a problem-solver in advising corporate and business clients and, in particular, resolution of legal risks at the intersection of the duties of officers and directors, corporate governance, securities regulation, internal investigations, whistleblowers, alternative means of resolving disputes, and related issues. Offered: Sp.

LAW B 567 General Externship Perspectives Seminar (2, max. 6) Credit/no-credit only.

LAW B 568 Field Seminar in Law, Rights, and Governance (3-5) K. Friedman, A. Godoy, S. Pekkanen, M. Sparke Exposes students to theoretical and policy debates about the causes and consequences of legal evolution, rule of law, and a broad range of world governance concerns. Topics include human rights, markets, commerce, climate, environment, migration, institutions, justice, order, and rule of law. Offered: jointly with JSIS 599.

LAW B 569 Development Innovations Laboratory (1-3, max. 6) J. LENG A Students work in teams on international development and human rights projects for nonprofit/nongovernmental organizations under the close supervision of faculty. The work includes legal and factual research and often fact-gathering through interviews. Students present their findings and recommendations to client organizations orally and in writing. Offered: WSp.

LAW B 570 Bio-entrepreneurship and the Law (3) Covers legal issues in bio-entrepreneurship by tracking product development through a VC-backed start-up company.

LAW B 571 PhD Colloquium (1-3, max. 3) Designed for students to engage with research agendas in the academy and to build a professional skill set for success - from writing conference
abstracts and preparing articles for publication to 'workshopping' papers and developing their dissertations. Credit/no-credit only.

**LAW B 572 Election Law (3-4)** Examines the law of elections in the United States. Major themes include the design of electoral maps; the protection of voting rights; political parties and state action; money in politics; and the administration of elections.

**LAW B 573 Supreme Court Decision Making (2-4, max. 4)** Examines Supreme Court decision making from both a theoretical and practical perspective. Surveys representative cases on the Court's current docket. Extensive preparation required of participants, who play the roles of lawyers, justices, and commentators. Emphasis on developing appellate advocacy skills.

**LAW B 575 Family Law: Selected Topics (2-3)** Covers current cutting-edge and complex areas of family law that challenge traditional definitions of "family." Examines marriage, dissolution, and parenting disputes through the lens of "nontraditional" families and families created through medical intervention. Prerequisite: LAW A 580 or permission of instructor. Instructors: Mastroianni, Price Offered: A.

**LAW B 576 Climate Justice Seminar ([1-6]-, max. 6)**

**LAW B 577 Law, Literature and Film ([2-4]-, max. 4)** An examination of literary and cinematic portrayals of, and issues important to law, lawyers, and the legal system. Considers both portrayals purporting to depict the legal system as well as works envisioning lawyers and the legal system in a "better world."

**LAW B 578 Seminar on Legal Problems of Economic Development ([1-6]-, max. 6)**

**LAW B 579 Law and Development: History and Theories (3-4)** Examines the role of law in fostering economic and social development in developing countries, emerging markets, and nations in transition. Provides a historical overview of the role of law in alleviating poverty and exposes students to key theoretical perspectives. Offered: A.

**LAW B 580 Externship Tutorial (2)** Credit/no-credit only.

**LAW B 581 Land, American Culture, and the Law: Perspectives on the Use and Ownership of the Natural Environment ([1-6]-, max. 6)**

**LAW B 582 International Development Practicum (1-8, max. 8)** Provides experience with an approved non-profit organization, business, judicial or legislative body, or intergovernmental or governmental agency on issues related to law and development and sustainable development. Students work under the guidance of experienced practitioners. Credit/no-credit only. Offered: AWSpS.

**LAW B 583 Comparative Commercial Law (1-2, max. 2)** Examines commercial law from a comparative perspective. Using documents and business transactions representative of real-world practice, it considers core commercial law topics including contracts, property,
guarantees, secured transactions, and bankruptcy and compares the handling of those topics by seven major legal systems. Offered: W.

**LAW B 584 Indigenous Governance Law ([2-6]-, max. 6)** Covers advanced topics in Indian Law. Prerequisite: LAW A 565 or permission of instructor.

**LAW B 585 Natural Resources Law ([1-4]-, max. 4)**

**LAW B 586 Global Development Law and Policy Workshop (2-, max. 4)** *R. HEDIN, A. RAMASASTRY* Students engage in hands on legal research to address current development challenges in partnership with key development organizations. Offered: WSp.

**LAW B 588 Title Leadership in Sustainable Development Colloquium (1-2, max. 2)** *A. Ramasastry* Professional development colloquium for students in Sustainable international Development graduate program. Students will meet with experts from the nonprofit sector, governmental and intergovernmental organizations and the private sector to learn about different career paths in the field of sustainability. Students will learn about key skills necessary for career placement. Offered: Sp.

**LAW B 589 Social Enterprise Law (2-3)** Social enterprise is increasingly driving commerce, corporate norms, and investment foals globally. Begins with an introduction of social enterprise, including underlying principles and legal framework, followed by in-depth analysis of governance, operational and investment considerations, both domestic and abroad Includes lectures, reading, and one student project. Offered: W.

**LAW B 590 Constitutional Law: Current and Future Issues Seminar (2)** Examines cutting edge constitutional claims currently making their way through the lower courts or that seem likely to be litigated in the near future. Prerequisite: LAW A 507 and LAW A 592.

**LAW B 591 Law and Society in Asia ([2-6]-, max. 6)**

**LAW B 593 Natural Resources Commons Property (3)** A review of the different forms of natural resources and an exploration of the desirability of managing certain resources as commons or private property. Covers a review of the successes and failures by various groups in setting policy in this area.

**LAW B 594 Public Land Law Seminar ([2-6]-, max. 6)**

**LAW B 595 International Humanitarian Law (3-5)** *Lorenz* Investigates International Humanitarian Law (sometimes called the Law of Armed Conflict), the field concerned with rules developed by civilized nations to protect victims of armed conflict, including the Geneva Conventions. Case studies include the conflict between Israel and the Palestinians, as well as developments in Afghanistan and Iraq. Offered: Sp.

**LAW B 596 International Protection of Human Rights ([2-4]-, max. 6)** Examines international treaty and customary law protecting fundamental human rights against abuse by
governments. Major international systems studied are the U.N., the Council of Europe, and the O.A.S. Readings include inter-national and American judicial opinions, treaties, and studies by human rights groups and scholars.

**LAW B 597 Journal Seminar (1-3, max. 3)** Focuses on topic selection, research, and drafting to assist students on one of the law school journals. Provides students with the opportunity to explore a topic in depth, to think critically about current law, and to consider future developments by writing a substantial note or comment. Does not satisfy the advanced writing requirement.

**LAW B 598 Advanced Research and Writing Seminar ([1-6]-, max. 6)**

**LAW B 599 Special Topics (1-12, max. 12)**

**Law C**

**LAW C 507 Constitutional Law I: Constitutional Structures of Government for International Law Graduates (3)** This course seeks to provide an understanding of the history and theories behind the Constitution, including the source of the federal government's power, the division of power between the federal and state governments, and the distribution of federal power among the legislative, executive, and judicial branches of government.

**LAW C 510 Professional Ethics for International LLM Students (1-4, max. 4) K. Boxx** Provides foreign-trained LLM students background in professional responsibility issues, including confidentiality, conflicts of interest, role of the lawyer, and understanding business issues. Designed for international students to master professional responsibility rules online prior to arrival at law school, with discussion sections while in residence. Offered: S.

**LAW C 530 For-Profit Small Firm Externship (4-6)** Field-based experience in pre-approved for-profit small law firm (10 attorneys or fewer) under supervision of authorized field supervisor. Students may not receive any monetary compensation for the work, nor may clients be billed for work performed by a student. Students must enroll concurrently in an approved companion seminar. Credit/no-credit only.

**LAW C 535 For-Profit Corporate Counsel Externship (4-6)** Field-based experience in pre-approved corporate legal department under supervision of authorized field supervisor. Students may not receive any monetary compensation for the work, nor may clients be billed for work performed by a student. Students must enroll concurrently in an approved companion seminar. Credit/no-credit only.

**Law E**

**LAW E 500 Advanced Writing Project (1-3, max. 3)** Independent research and writing project supervised by a faculty member. Projects are structured to develop skills in research, analysis, and writing. Offered: AWSpS.
LAW E 502 White Collar Crime (3-4)

LAW E 503 Analytic Writing (3)

LAW E 506 Business and Financial Literacy for Law Students (3) Introduces students to a broad range of fundamental business and financial topics. Emphasizes breadth, relevance, and promoting a basic understanding of foundational business concepts and terms; financial statements; quantitative concepts; how markets function; core business challenges; and practical, business-related challenges often faced by lawyers.

LAW E 507 Access to Justice Seminar (2) Explores the legal, ethical, and financial issues involved in providing legal services to moderate income persons. Uses a combination of lectures and interactive discussion. Credit/no-credit only.

LAW E 508 Persuasive Writing (2-4) Anderson Studies persuasion and rhetoric by practicing legal argument: working with facts, framing issues, constructing legal arguments. Studies examples of good and bad persuasive writing. Students practice written advocacy skills in a number of assignments. Students practice advocacy in the context of pre-trial motions and appeals.

LAW E 509 European Union Law (2-4) Survey of the legal origins of the European Union and the synthesis of the major European legal traditions achieved. Focus on the process of harmonizing national laws of the member states and economic integration in the area of competition law and free movement of goods and services.

LAW E 510 Banking Law (2-3) Introduces the basics of banking law and regulation. Topics include separate sections on U.S. regulation of financial services with emphasis on federal regulation of banks, and on international, cross-border, and comparative banking regulatory issues.

LAW E 511 Venture Capital Deals (4) O-Conner Focuses on the legal environment of venture capital (VC) financing of technology start-ups. Analyzes relevant statues and regulations, and the standard set of negotiated terms in typical VC deals. Students negotiate and draft VC deal documents. Offered: W.

LAW E 512 Rule of Law in a Global Context (2-4, max. 4) A. RAMASASTRY Political systems must operate according to the "rule of law" if they are to be deemed legitimate, but what does this mean? This course will explore the meaning of the rule of law, and explore the importance of the rule of law in terms of economic, socio-political and human development. Offered: A.

LAW E 513 Theories and Tools for Combatting Corruption ([1-4]-, max. 4) Corruption has been identified as an obstacle to development, and a 'cost of doing business' in many countries. Examines theories, causes and consequences of corruption, and select regimes established to combat and measure it, e.g., UNCAC, ORCD Anti-Bribery Convention, U.S. Foreign Corrupt Practices Act, and the Transparency International's Corruption Perceptions Index.
LAW E 514 The Law of Nonprofit Organizations (2-4, max. 4) Examines laws generally applicable to nonprofit corporations and legal issue relating to cooperatives, credit unions, and thrift/mutual associations. Attention given to the Washington Nonprofit Corporations Act with comparable statutes and model legislation.

LAW E 516 Criminal Procedure: Adjudication (4) Covers the formal charging, trial, and appellate stages of criminal proceedings, including grand jury proceedings, prosecutorial discretion in charging, pretrial release and detention, charging and venue joinder and severance, double jeopardy assistance of counsel, discovery, and disclosure, criminal trials appeals, and collateral post conviction remedies.

LAW E 517 Legal Information Technology (2-4) A. THOMSON, B. WILLIAMS Introduces the theory and practice of legal informatics.

LAW E 518 Torts II (3-4) Covers advanced topics in tort law, including defamation, invasion of privacy, intentional infliction of mental distress, medical malpractice, misuse of legal proceedings, misrepresentation, interference with prospective advantage, nuisance, products liability, toxic torts, trespass to chattels, conversion, and vicarious liability. Prerequisite: LAW A 504. Instructors: Wolcher Offered: Sp.

LAW E 519 Philosophy of Law (4) Explores jurisprudence as "the jurist's quest for a systematic vision that will order and illuminate the realities of the law" and legal philosophy as "the philosopher's effort to understand the legal order and its role in human life." Examines various texts, emphasizing works of one or more proponents and critics of liberalism.

LAW E 520 European Union Constitution (4) Examines the European Union constitution adopted in the Lisbon Reform Treaty: history, values, and objectives; EU institutions and finances; economies, political, and constitutional competences; citizenship and democracy; human rights and fundamental freedoms; common foreign policy; security and defense; and amending the constitution. Offered: A.

LAW E 521 Litigation Perspectives: Bench to Trench (3) Focuses on areas of trial practice, highlighting difference between state/federal practice: client communications; cost effective case management; pleadings, discovery and motion practice; Rule 11 sanctions; local rules of Western District of Washington; mysteries inside judicial chambers; managing "big" case; settlement negotiation/ alternative dispute resolution; expert witnesses; demonstrative evidence; trial preparation; and the trial itself.

LAW E 522 Advanced Constitutional Law: Sexual Orientation and Gender Identity (1-4, max. 4) Examines various constitutional provisions from a gay rights perspective. Topics include
the rights of equal protection and substantive due process, as well as the First and Ninth Amendments and the Full Faith and Credit Clause. Offered: A.

**LAW E 523 Entrepreneurial Law Clinic ([1-9]-, max. 9)** Prerequisite: LAW A 526, LAW E 547, or LAW A 546. Offered: S.

**LAW E 524 Child Advocacy Clinic ([3-12]-, max. 12)**

**LAW E 525 Poverty Law (3-4)** Overview of legal issues affecting poor people, including relevant background readings on poverty and access to justice, and selection problems such as housing and homelessness, education, employment issues of low-wage workers, income support and welfare reform, consumer law, family law, and child care. Offered: A.

**LAW E 526 Law Reform in Transition Economies Seminar ([2-4]-, max. 6)** Using interdisciplinary perspectives and case studies, this seminar probes the assumptions, methods and outcomes of commercial law reform in transition economies. Also highlights and critiques the role of international lawyers in this important, emerging area of practice.

**LAW E 527 Bankruptcy Client Representation Project ([1-4]-, max. 4)** Kuno Provides an opportunity for students to interview a client, evaluate the appropriateness of different forms on bankruptcy as a solution to their debt problems, and provide representations in obtaining the bankruptcy. Student teams are paired with pro bono attorneys under the supervision of a part-time faculty member. Credit/no-credit only. Offered: W.

**LAW E 528 Masters of Jurisprudence Practicum (1/6)** Experience with an approved non-profit organization, judicial or legislative body, or governmental agency on issues related to law and/or policy. Students work under the guidance of experienced practitioners. Both student and field supervisor provide the supervising law faculty member with a final written evaluation. Credit/no-credit only. Offered: AWSpS.

**LAW E 529 Tribal Court Public Defense Clinic (4-, max. 12)** Offers clinical training in substantive areas of law implicated in representation of Native American tribal court criminal and dependency proceedings. Open to third year students in the JD program. Offered: AWSp.

**LAW E 530 Race and Justice Clinic (3-4, max. 12)** Focuses on how lawyers can address racial disparities for youth in the juvenile justice system by advocating in multiple forums. Students participate in direct representation on clients, community education, and coalition building. Topics include the history of race in juvenile justice, past efforts to reduce disproportionate minority contact in juvenile justice, the School to Prison Pipeline, skills training, community lawyering, and systems cha

**LAW E 533 Rights in America: Equality, liberty, and Democracy (4)** Deep historical exploration of a jurisprudentially revolutionary constitutional conflict that pits courts, local government, and the U.S. Congress in passionate struggles over gay and lesbian antidiscrimination rights; freedoms of speech and religion; and African-American political equality in the nation's capital. Offered: S.
LAW E 534 Risk and Reward in Sustainable Development (3)  
*N. Denamur*  
Focuses on the intersection of green, high performing buildings and the law. Students learn to identify and understand the risks and challenges presented by high-performing buildings, and analyze frameworks and strategies to manage and overcome these challenges. Offered: jointly with R E 559; Sp.

LAW E 535 Basic Income Tax Concepts (3)  
Basic federal income tax principles, how the tax law impacts a wide variety of business and personal transactions and decisions, and what a reformed tax law might look like.

LAW E 536 Practical and Professional Responsibility Issues in the Small or Solo Law Practice (3-4)  
Credit/no-credit only.

LAW E 537 Refugee Law (2)  
Examines the processes in the United States for the admission of refugees and for the adjudication of asylum claims. Explores international refugee policy and evolving legal norms concerning asylum, temporary protection, repatriation, resettlement, and internal displacement.

LAW E 538 Transnational Civil Litigation in U.S. Courts (3-4)  
Examines the law governing private civil disputes in U.S. courts arising from transnational transactions, including: jurisdiction; forum selection and choice-of-law clauses; extraterritorial service of process, discovery, and application of U.S. law; parallel proceedings; foreign sovereign immunity; Act of State doctrine; and recognition and enforcement of foreign judgments.

LAW E 539 United States and European Union E-Commerce Law (2/3)  
Compares the different attitudes to regulation of e-commerce and the information society in the U.S. and the European Union. Topics may include: an introduction to European Union institutions, regulatory, cultural themes in the Internet; e-society and e-commerce in Europe; regulation of illegal, harmful content, and Internet Service Provider liability, etc.

LAW E 540 Transnational Litigation (3)  
*J. Haley*  
Considers transnational litigation involving civil, common, and hybrid law jurisdictions. Students learn nuances of how jurisdiction is asserted and forum determined in global transnational disputes. Offered: A.

LAW E 541 Cannabis Law Seminar (2-3)  
*S. O'Connor*  
Introduces students to federal and state laws governing medical and recreational cannabis. Guest lecturers include government officials, cannabis law practitioners, and industry leaders. Students write and present a substantial research or policy paper. Offered: A.

LAW E 542 Queer Youth Advocacy (2)  
Addresses the legal needs of lesbian, gay, bi-sexual, and transgendered youth. Topics include educational advocacy; legal consequences within the parent-child relationship, access, consent, and right to refuse physical and mental health services; and accessing services for homeless and foster youth.

LAW E 544 Privacy Law (2)  
Examines the legal doctrines of privacy and confidentiality used to protect personal information. Aims to understand how courts and legislatures seek to protect
information as new technologies and institutional practices emerge. Studies scope and implications of federal statues that attempt to establish fair information practices with respect to electronic personal information.

**LAW E 545 International Trade Law (2-4, max. 4)** Introduces the legal framework, policies, and jurisprudence of the World Trade Organization (WTO). Provides an overview of the regulation of trade in goods, services, and intellectual property that is necessary for international legal practice, and provides the policy analysis to better understand the trade dimensions of international legal disputes.

**LAW E 547 Robotics Law and Policy (2)** Explores the legal and policy aspects of near-term robotics and artificial intelligence. Relevant technologies include driverless cars, drones, medical, personal or service robots, and various expert systems. Readings draw from multiple disciplines, but focus particularly on legal or policy sources. Offered: Sp.

**LAW E 548 India Trade and Transactions Seminar (2)** A comparative commercial law course taught simultaneously to students at UW and law school in India. After learning the law and legal practice of US and India, students will negotiate agreements based on a hypothetical joint venture. Students will learn the cultural differences in the practice of law and business. Offered: AWSp.

**LAW E 549 International Investment Law and Practice (4/5)** Examines the rise of international investment law and practice, including topics such as Bilateral Investment Treaties (BITs), standards of treatment, investor-state arbitrations, and social and political controversies related to the governance of foreign direct investment (FDI) in developed and developing countries. Offered: jointly with JSIS B 549.

**LAW E 550 Complex Litigation Seminar (2-4)** Examines practical and theoretical problems associated with complex litigation, including class actions and multidistrict litigation. Prerequisite: either LAW B 500 or LAW B 507.

**LAW E 551 Law and Entrepreneurship (3/4)** Planning-oriented course uses the problem method to explore the corporate tax and securities law, general business and financial considerations related to small business formation and financing. Prerequisite: LAW A 515; LAW A 530.

**LAW E 553 Technology Law and Public Policy (2)** Survey of the domains of public policies that have been affected by the information revolution. Examines issues from Internet taxation, to personal data privacy, information warfare. Discusses the implications of the new public policies and whether it is feasible for states to enact different information policies.
LAW E 554 Technology Law and Public Policy Clinic ([2-4]-, max. 12) Clinical training in legislative and public policy advocacy under supervision of law school faculty. Examines legislative process, drafting, commentary and advocacy, appellate advocacy, and professional responsibility concerns. Supervised practice experience representing public interest with respect to law and technology. Prerequisite: LAW E 553, which may be taken concurrently. Credit/no-credit only.

LAW E 555 Legislation ([2-5]-, max. 5) Studies topics related to legislation and the legislative process. Examines the structure and operation of legislative bodies as well as the contemporary debates and laws that surround the process. Considers the theories and canons of statutory construction and interpretation. Introduces the basic techniques of statutory drafting. Offered: W.

LAW E 557 Human Rights Advocacy Seminar (2-4) Provides interdisciplinary training in international human rights advocacy. Provides background knowledge and exposure to skills needed to participate effectively in advocacy efforts, including the Interdisciplinary International Human Rights Clinic. Offered: AWSp.

LAW E 558 Voting Rights Research and the Law (3) Address two primary topics related to the Voting Rights Act of 1965, Sections 2 and 5, and their application today: 1) redistricting and minority representation; and 2) the protection or suppression of the right to vote. Also includes introductory research methods and statistical analysis.

LAW E 560 Contemporary Muslim Legal Systems Seminar (2-6, max. 6) Provides a forum for in-depth research of legal developments in nations where governments are trying to establish legal systems that ensure economic development and human rights, while at the same time ensuring that their law respects "Islamic norms." Prerequisite: LAW B 556. Instructors: Lombardi Offered: A.

LAW E 561 Critical Race Theory (2-4) Provides an overview of Critical Race Theory (CRT) and the contrasts between CRT and liberal and conservative analytical frameworks on race and the law. Examines the questions and criticisms raised about CRT, as well as the impact of the field on legal and political discourse.

LAW E 562 Legal Issues in Museums (4) Explores the legal issues faced by art and science museums. Topics include copyright/trademark law, how the First Amendment protects controversial exhibits, repatriating Native American remains and cultural artifacts, donor rights, art appraising, wartime looting, and the ongoing debate over stewardship and ownership of the world's natural and cultural resources. Offered: jointly with MUSEUM 562.
LAW E 566 Innocence Project Northwest Clinic (3-4, max. 12) Offers students clinical training investigating and litigating claims of actual innocence on behalf of prisoners serving lengthy sentences for serious crimes. Open to second- and third-year students in the JD program.

LAW E 567 Technology Transfer Law and Policy Seminar (2) O'Connor Covers the law and policy affecting university and non-profit research commercialization and technology transfer. Focuses on the Bayh-Dole Act, the laws and regulations covering data, copyrightable works, materials, tax exempt issues, employee assignments, and other matters. Offered: W.

LAW E 568 Indian Law Clinic (4-, max. 12) Supervised practice component on Indian law practice and procedure and advocacy skills. Provide legal advice, brief services, and representation to low income Indian clients under the direct supervision of a practicing attorney. Client counseling research, negotiation, and community education. Offered: AWSp.

LAW E 569 Advanced Mediation Practicum (3) Ewalt Advanced clinical practicum in mediation under the supervision of the faculty and experienced mediators. Students convene and mediate cases referred to the Mediation Clinic from government agencies and other sources. Only for students who have successfully completed the Mediation Clinic LAW B 526, or have other comparable experience. Offered: A.

LAW E 570 International Economic Relations and Comparative Trade Policy (3/4)

LAW E 571 LatCrit Theory, Praxis and Community Seminar (2) This course provides an introduction to the history of Latinas/os and the U.S. legal system and an overview of LatCrit Theory from its origins to its present focus with particular attention on contemporary legal and social issues affecting Latina/o communities.

LAW E 572 Race and the Law (3-4) Evaluates the legal regulation of race in the United States. Addresses the racial and legal history of major groups in the United States, including African-Americans, Asian-American, Latinos, Native Americans, and whites, and examines the nexus between law and the construction of race as a concept and locus of identity.

LAW E 575 Veterans Legal Aid Clinic (3, max. 9) Students provide legal aid to low income veterans on upgrading military discharges, child support, VA housing programs, correcting criminal convictions, reinstating suspended driver licenses, assistance before VA on overpayments or complex benefits issues. Specialized outreach and service provided to incarcerated veterans, veterans in treatment courts, women veterans and homeless/at-risk veterans.

LAW E 576 Persuasive Oral Communication (3) No matter whether in the office, the conference room or the courtroom, all great lawyers must be great communicators. Course is designed to help achieve more effective, dynamic and persuasive speech. Workshop setting gives opportunities for regular practice in vocal skills, physical presence, rhetorical devices and acting techniques. There will be weekly assignments to prepare, which will be presented to the class as well as required readings. Credit/no-credit only.
LAW E 578 Foundations in American Law tested on the Bar Exam (2-8, max. 8) M. Shaw
Provides LLM students an early start on bar exam preparation. Students review heavily tested areas across several bar exam subject areas while learning test taking strategy for the Essay Multistate and MPT portions of the Washington UBE, NY, or CA bar exams. Offered: WSp.

LAW E 579 International and Foreign Law Research (2-3) Overview of international law materials. Examines primary materials in the vernacular and in translations: constitutions, charters, codes, administrative rules, cases, treaties, and other international agreements. Focuses on practice tools such as directories, guides, digests, and proceedings. Prerequisite: LAW A 506 or permission of instructor.

LAW E 580 Gender Violence and the Law (3-4) Introduces substantive legal areas including: evidence and rape shield laws; protection orders; civil liability of perpetrators and third-parties, and restorative civil remedies in housing, employment, and education contexts. Looks at national trends and primarily focuses on Washington State Law.

LAW E 581 Reproductive Rights and Justice Seminar (4) Ainsworth Provides students with an in-depth study of the constitutional framework governing reproductive rights, as well as critiques of that framework from feminist theorist, those who oppose abortion and contraception, and those whose reproduction and sexuality have been historically marginalized and regulated. Studies different bases in the law for reproductive rights claims, including privacy, equality, and dignity. Offered: A.

LAW E 582 Information Policy: Domestic and Global (5) National and international information policy: public and private sector policy in terms of privacy, access, and exploitation; technology infrastructures and policies supporting the information industries. Coverage includes freedom of information privacy, copyright, telecommunications, and emerging technologies.

LAW E 583 Globalization and the Law (1-6, max. 6) Focuses on the rise of global law, intersection of national, international, and global law, and the legitimacy of global law.

LAW E 590 Incarcerated Parents Advocacy Clinic ([4-5]-, max. 9) Students advocate for incarcerated parents seeking to preserve relationships with children despite incarceration. Supervised by clinic faculty, students represent incarcerated parents in dependency and other court proceedings, working with clients and families to maintain the parent-child relationship. Students develop interviewing and counseling, negotiations, and trial preparation skills. Credit/no-credit only.

LAW E 591 Non-Profit Organizations Clinic (1-3, max. 3) Provides students with an opportunity to represent a real client in setting up a non-profit organization and applying for tax-exempt status. Students draft multiple documents such as articles of incorporation, applications for tax-exempt status, and client communications. Credit/no-credit only.

LAW E 592 Federal Appellate Advocacy (1-6, max. 6) Representation of an otherwise pro se litigant in an appeal in the Ninth Circuit. Preparation of the opening and reply brief and conduct
the oral argument. Requires substantial research, multiple drafts, and painstaking familiarity with the record. Prerequisite: permission of the instructor. Credit/no-credit only.

**LAW E 594 Regulatory Environmental Law and Policy ([1-12]-, max. 12)** Examines the applied and theoretical dimensions of environmental rule-making, with particular emphasis on the development of an administrative record. Students prepare written comments on pending rules proposed by governmental agencies. Prerequisite: either LAW A 527 or LAW B 585; LAW A 509, which may be taken concurrently. Credit/no-credit only.

**LAW E 595 Animal Law (3)** Examines substantive law and procedure, specific cases, legislation, and background societal mores that force an evolution and backlash in the level of jurisprudential and legislative comfort with new ways of seeing and speaking about animals other than humans. Offered: WSp.

**LAW E 596 Wildlife Law Seminar (3)** Anderson, Knudsen Covers the basic issues involved in the law of fish and wildlife management. Topics include the relationship between property and wildlife, federalism issues, and international regulatory regimes.

**LAW E 597 Global Warming and Justice Seminar (4)** Rodgers Explores case studies (worldwide but with an emphasis on indigenous peoples) addressing multiple legal responses to the consequences of climate change. Explores remedies under U.S. and international law. Offered: WSp.

**LAW E 598 Climate Change Law (3-4)** Rodgers Develops student understanding of the consequences of anticipated climate change across a spectrum of issues that include human health, the Earth, and its oceans. Covers the practice of agriculture, revised energy futures, legislative responses to climate change, and local, state, regional, and tribal efforts to address it. Offered: Sp.

**LAW E 599 Legislative Advocacy Clinic (2-6, max. 15)** Clinical training in legislative and public policy advocacy. Topics include the legislative process, drafting commentary, advocacy, building a legislative agenda, working with coalitions, and ethics. Direct work with non-profit and other organizations advocating in the state legislature to develop and move legislation as well as respond to proposed legislation. Prerequisite: LAW A 579. Offered: AWSp.

**Law (Health)**

**LAW H 501 Fundamentals of Health Law (4)** Topics include: healthcare reform; obligations to provide care (including EMTALA); medical decision-making law; private health insurance and managed care (including ERISA, HIPAA, and COBRA); Medicare; Medicaid and SCHIP; regulation of healthcare providers; staff privileges and hospital-physician contracts; tax exemption; antitrust, and fraud and abuse laws.

**LAW H 502 Medical Malpractice (3-4)**
LAW H 503 Medical Ethics and Jurisprudence (3-) *Dudzinski, Kuszler* Examines the relationship between bioethics and law. Reviews the basic concepts of both disciplines; their theoretical and practical connections. Analysis of principle legal cases and statutes illustrating such issues as informed consent to treatment, foregoing life support, research with human subjects, confidentiality, and allocation of health care resources. Offered: jointly with B H 535.

LAW H 504 Legal, Ethical, and Social Issues in Public Health Genetics (3) Equip the student to anticipate and assess potential legal, ethical, and social barriers complicating the incursion of new genetic advances, information, and technologies into public and private healthcare delivery efforts. Prerequisite: GENOME 361, GENOME 371, or equivalent. Offered: jointly with B H 514/PHG 512; A.

LAW H 506 International Bioethics, Social Justice, and Health Seminar (1, max. 3) *Kuszler, Rivin* Explores case studies of ethical dilemmas in research and medical practice and violations of international human rights norms in the design, implementation, and evaluation of health programs and policies. Bioethics and human rights law are the foundational tools for critically evaluating global health impact. Credit/no-credit only. Offered: jointly with G H 517; WSp.

LAW H 507 Law, Medicine, and Ethics in the Context of Pain Management (2) Reviews the problem of physicians failing to relieve pain of patients in the dying process and legal and ethical issues they face as well as cultural sources of the problem.

LAW H 508 Beginning of Life: Rights and Choices (2) Addresses the controversial legal issues engendered by our increasing control over the beginning of life. Focuses on the law, regulation, and policy implications of contraception; new reproductive and genetic technologies, including surrogate parenthood, sperm and egg donation, in-vitro fertilization, and other methods of conquering infertility; and abortion.

LAW H 509 End of Life: Rights and Choices (2) Address controversial legal issues engendered by our increasing control over the end of life. Focuses on patient autonomy issues at the end of life including withdrawal of life support, surrogate decision making, advance directives, and patient choice to hasten death with medical assistance (physician aid in dying). Offered: Sp.

LAW H 510 Topics in Law and Medicine ([1-4]-, max. 4)

LAW H 511 International Research Ethics, Law, and Policy (3) *Kuszler, Rivin* Exploration of legal requirements and ethical principles related to responsible conduct and research in a variety of different government structures, healthcare systems, and research environment. Compares and contrasts law and ethical standards applicable to research enterprises in developing countries, industrialized countries, and ethically distinct communities. Offered: jointly with B H 553; A.

LAW H 512 Public Health Law (2) Focuses on the role of law in public health administration and in the increasingly regulated healthcare industry. Provides a foundation in the relevant law for public health officers and healthcare industry administrators. Offered: jointly with HSERV 551.
LAW H 513 Legal Issues in Emerging Healthcare Technologies (4) Covers legal issues related to the cutting edge ways to deliver healthcare, including telemedicine, healthcare robots, mobile medical apps, gene sequencing, nanotechnology and personalized medicine.

LAW H 515 Global Health Law (3) Kuszler Provides an examination of the legal, economic, social, ethical, and political aspects of global health. Explores the emergence of global health law as a multilateral tool to address health disparities and improve the health of the vulnerable. Offered: A.

LAW H 516 Study Abroad: Global Health, Human Rights, and the Rights of the Child in Cambodia (10) Study abroad exploring the theoretical underpinnings and practical aspects of the rights of the child in the context of Cambodia's health system, focusing on children with disabilities. Approaches the rights of the child from legal and health services perspectives, combining methodologies of research and analysis for practical application. Offered: S.

LAW H 517 Legal Issues for Global Health Programs (2) J. Lane Examines the role of the law, legal strategy and legal research in supporting and advancing global health programs. Provides students an outline of the legal issues impacting global health programs and instruction on working with local counsel and research partners in foreign jurisdictions. Offered: W.

LAW H 518 Legal and Policy Solutions to Improve Global Health of Women, Adolescents, and Children (1-2, max. 2) J. Lenga-Long, B. Shah, J. Sylker Explores specific examples of how legal and policy frameworks can impact health inequities for women, children, and adolescents. Teaches to formulate multi-disciplinary strategies to improve health outcomes. Credit/no-credit only. Offered: W.

LAW H 520 Genetics and the Law (3) Explores and analyzes legal issues arising from genetic technologies and information. Statutes, regulations, and cases demonstrate the constitutional, contract, tort, criminal, and family law use of genetic science to determine rights, disputes, and controversies. Prerequisite: either LAW H 504/B H 514/PHG 512 or permission of instructor. Offered: jointly with PHG 523; Sp.

LAW H 521 Medicare and Medicaid Finance and Reimbursement (2-3) Gould, Williams Covers the history of Medicare and Medicaid, how they are administered, how eligibility is determined, payments are made, and financing is structured. Includes changes to both programs from the Affordable Care Act, how the federal government audits providers, and the available appeals. Offered: W.

LAW H 522 Affordable Care Act Seminar: Legal and Policy Issues in Health Reform Implementation (2) K. Merrikin, S. Thieme Sanford Delves into the Affordable Care Act, including its historical context, key provisions, policy choices, legal challenges, implementation issues and future directions. As part of the seminar, which utilizes a multi-disciplinary approach, each student analyses an ACA provision of interest.

LAW H 524 Forensic Evidence (3) Examines the application of the rules of evidence in cases that involve forensic evidence. Examines paradigmatic cases involving homicide and physical or
sexual assault, although the principles examined are applicable generally in civil and criminal cases.

**LAW H 525 Business Transactions in Healthcare (3)** Snyder Focuses on the complex business transactions involved in modern healthcare mergers. In addition to the transactional business aspects, the students also address government rules, regulations, and prohibitions that arise. Students in teams represent different sides of the transaction in this simulated experiential learning opportunity. Offered: W.

**LAW H 528 Health Law Practicum (1-6, max. 6)** Provides experience with an approved non-profit organization, judicial or legislative body, or governmental agency on issues related to health law or policy. Students work under the guidance of experienced practitioners. Both student and field supervisor provide the supervising law faculty member with a final written evaluation. Credit/no-credit only. Offered: AWSpS.

**LAW H 529 HIV and the Law: Legal and Political Developments of the AIDS Crisis (2-4, max. 4)** Price Traces thirty years of the HIV/AIDS epidemic, beginning with the discovery of the disease through the present. Focuses on many of the socio-political-legal aspects of the HIV/IDS crisis, including discrimination, quarantine, immigration, criminal law, insurance, public health, and family law issues. Offered: Sp.

**LAW H 530 Disability Law and Policy (3-4)** Considers the definition of disability as defined by statute (ADA, FRA), case law, and social perception. Focuses on education law and entitlements, access to and discrimination in employment, housing, public transportation, and healthcare.

**LAW H 531 Health Law Advocacy (2-4, max. 4)** Fox, Lenga-Long Explores select aspects of legal advocacy for vulnerable patients and surrogate decision-makers in healthcare settings. Focuses on practical, pragmatic solutions to complex health law advocacy issues, using both classroom participation and mock guardianship hearings. Offered: Sp.

**LAW H 534 Mental Health and the Law (3)** Covers medical and legal definitional issues as well as major civil and criminal law issues, including standards and procedures for involuntary commitment; consent for, and informed refusal of, treatment; de-institutionalization/community-based treatment; the insanity defense; competency to stand trial; and punishment of the mentally ill convict.

**LAW H 536 Research Ethics and Regulation (3)** Mastroianni Explores the ethical foundations, principles and concepts, and U.S. laws related to the conduct of research with human subjects. Required for graduate students in the Department of Bioethics and Humanities, School of Medicine. Offered: jointly with B H 536; W.

**LAW H 540 Health and Human Rights (3)** B. Rivin Examines the basic concepts in the fields of human rights law and public health, and uses those concepts to examine the interdependence and tensions between the two fields. Introduction to the fields of public health and human rights
law, examining the impact of health policies and programs on human rights. Offered: jointly with G H 516; Sp.

**LAW H 545 FDA Law (3)** Kuszler Surveys the scope of regulatory authority accorded to the FDA. Focuses on products used in medical care, notably pharmaceutical drugs, medical devices, and biologics. Considers food safety, regulation of cosmetics, and oversight of carcinogenic substances. Offered: Sp.

**LAW H 550 Medical Products Liability Law (3)** Focuses on product liability claims arising from defective design/development, manufacture, marketing, and distribution of medical technologies. Considers the concepts of strict liability, negligence, breach of warrant, and informed consent as well as the relative roles of state and federal law. Offered: W.

**LAW H 579 Interactive Seminar (1, max. 30)** B. Weir Seminar series on topics related to public health genetics, including current bioethical, legal, medical, biotechnology, and public policy issues. Credit/no-credit only. Offered: jointly with PHG 580; AWSp.

**LAW H 580 Competition in Health Care (3)** Examines the role competition and its opposite, regulation, play in the healthcare industry in the United States.

**LAW H 582 Healthcare Fraud and Abuse (2-3)** Considers federal and state laws that impose criminal and civil penalties on healthcare providers for activities ranging from payment for referrals, submissions of false claims, misconduct in medical research, the illegal disclosure of patient information, and the abuse and neglect of patients in long term care settings.

**LAW H 590 Advanced Research and Writing Seminar in Health Law (2-, max. 4)** Kuszler Dedicated research and writing seminar. Includes a substantial paper on a health law topic. Offered: WSp.

**LAW H 599 Health Law Tutorial (1-4, max. 4)** Focuses on a specialized area of health law. Prerequisite: limited to students in the graduate program in health law; must be approved by the program director. Offered: AWSp.

**Law (Intellectual Property)**

**LAW P 501 Intellectual Property Law Core (6-8)** Intensive study of intellectual property law core subjects: patents, copyrights, trade secrets, and trademarks. Examines fundamental principles, their underlying policies, and how the laws inter-relate. Not open to students who have taken LAW A 522, LAW A 546, LAW E 567, or LAW E 588.

**LAW P 502 Trademark and Trade Secret Law (3/4)** Knowledge of trade secret law and trademark law is particularly valuable to all intellectual property and business lawyers. Course explore issues relating to protection of trade secrets under state and federal law. Topics include philosophical bases & policies underlying trademark protection; distinctiveness requirement; protection of trade dress and product configurations; priority of usage; infringement/dilution; and the role of remedies. Offered: A.
LAW P 503 Introduction to American Legal Systems and Skills (2-3) Introduces the U.S. system of state and federal courts in the context of intellectual property. Discusses how intellectual property laws come from the common law as well as state and federal statutes and regulations. Teaches legal research, writing, case briefing, and analysis skills. Offered: A.

LAW P 504 Economic Analysis of Intellectual Property (2-3) Explores the intersection between intellectual property law and economics from both a macro and micro economic perspective; economic justification of intellectual property law; and portfolio management tools that can evaluate intellectual property protection as an investment. Prerequisite: either LAW P 501 or LAW E 567. Offered: W.

LAW P 505 International Intellectual Property Law (2-3) Focuses on international treaties as they relate to protection of trademarks and copyrights. Introduces international aspects of branches of intellectual property, including general principles of comparative and international law, and specific law related to obtaining and enforcing intellectual property rights in foreign countries. Prerequisite: either LAW A 522, LAW E 567, LAW E 588, or LAW P 501.

LAW P 507 Copyright Law (3/4) Provides overview of copyright law/policy. Learn fundamental features of copyright law, includes validity, infringement, subject matter requirements/limitations, defenses, boundaries between copyright and other IP regimes. Explore source/nature of copyright protection, justifications for such protection, whether are philosophical, economic, or constitutional. Familiar with Copyright Act/extensive case law, gain understanding of copyright policy

LAW P 508 Patent Law ([2-4]-, max. 4) This course provides an overview of United States patent law. No technical background is required. The course will analyze the origins, evolution and policy behind our patent law, and will cover topics such as the patent-ability doctrine, the novelty and "inventive step" requirements, the interpretation of patent claims, infringement theories and remedies. A primary focus of the course will be the changing Supreme Court patent law jurisprudence

LAW P 509 Antitrust and Intellectual Property Rights (2-4) Bangasser Examines in-depth application of competition law and policy to the creation and exploration of intellectual property. Offered: Sp.

LAW P 510 Advanced Research and Writing Seminar (2-, max. 4) Gomulkiewicz Instructs IP LL.M students in the research and writing skills necessary to write a major legal research paper. Offered: A.
LAW P 520 Intellectual Property Theory Seminar (3) Seminar introduces students to the history and philosophy of intellectual property theories, justifications, and critiques. Students will write and present a substantial research paper.

LAW P 522 Advanced Copyright Law (2-5) Advanced, in-depth study of copyright law and policy. Explores the boundaries of copyright protection and how copyright law relates to other intellectual property laws. Prerequisite: either LAW A 522, LAW E 567, or LAW P 501.

LAW P 525 Intellectual Property Law Seminar ([1-4]-, max. 4) Explores current controversies and important topics in intellectual property law and policy. Welcomes visiting speakers from industry, government, and the academy to discuss these cutting-edge issues.

LAW P 528 LLM Intellectual Property Law Practicum (1-4, max. 6) Experience with an approved non-profit organization, judicial or legislative body, or governmental agency on issues related to intellectual property law and policy. Students work under the guidance of experienced practitioners; both student and field supervisor provide the supervising law faculty member with a final written evaluation. Credit/no-credit only.

LAW P 535 Entertainment Law (3) A primer on the various forms of legal protection (trade secrets, copyright, trademarks, publicity law, and licensing) that form the bases for various types of entertainment. Considers key industries: books, music, movies, television, internet, and computer games. Prerequisite: LAW P 501 or permission of the instructor.

LAW P 536 Music Law and Policy (3) Covers the broad range of legal issues at play in the music ecosystem - broadly construed as the chain of composition, performance, recording, distribution, and playback. Music recording/playback devices have often been at the forefront of each stage of media technology and so the course covers not only copyright issues, but also patents, other IP, and contract issues.

LAW P 539 Law, Technology, and Development (2-3) Snyder, Winn Provides an overview of selected principles and theories of development economies, and considers the implications of technological innovation, intellectual property rights, government regulation, trade policy, and technical standards for the achievement of development objectives. Mass media coverage of current developments enriches class discussions.

LAW P 543 Intellectual Property Law in East Asia (2-3)

LAW P 545 Advanced Patent Law Seminar (3) Studies public policy and practice considerations relating to patenting research results in high technology. Examines the most up-to-date issues in legal protection of technology from the comparative law perspective. Prerequisite: either LAW A 546 or LAW P 501. Instructors: Taylor Offered: W.

LAW P 546 Advanced Trademark Law (3) Covers advanced procedural and substantive topics of trademark law including protection of trade dress, online trademark infringement, and global trademark protection including gray market issues. Students write and present a research paper.
on a topic related to trademark law and policy. Prerequisite: either LAW P 501 or LAW P 567
Instructors: Takenaka Offered: W.

LAW P 547 Legal Protection for Computer Software (3) Addresses copyright, patent, trademark, trade dress, trade secret, and contract protection for software. Also addresses how the law places boundaries around legal protection through anti-trust law and the doctrines of fair use and preemption.

LAW P 548 Litigation Strategies in Technology Protection (3) Deals with procedural and substantive legal issues in enforcement of patents. Proceeds through a litigation in the order that parties normally would. Teaches substantive legal issues in conjunction with procedural and strategic considerations. Prerequisite: either LAW A 546, LAW P 501, or LAW P 567.

LAW P 550 Patent Prosecution (4) Addresses fundamentals of patent application drafting, through a combination of lectures and assignments. Addresses all aspects of proceedings before the U.S. Patent and Trademark Office, including preparing new applications, and examiner interviews. Prerequisite: either LAW A 546, LAW P 501, or LAW P 567.

LAW P 551 Patent Prosecution and Counseling Practicum (4) T. Culbert Explores the representation of under-resourced investors in prosecuting patent applications before the United States Patent and Trademark Office. Practicing patent attorneys guide the students on the mechanics of patent prosecution. A weekly lecture will provide instruction on patent law fundamentals. Classroom time will include small group collaborative exercises.

LAW P 552 Strategic Intellectual Property Commercialization (3) Comprehensive coverage of issues related to exploitation of intellectual property rights as a business asset for new companies, or as a source of income for existing businesses. Prerequisite: either LAW A 546, LAW P 501, or LAW P 567.

LAW P 567 Survey of Intellectual Property (3-6, max. 6) Intended for both law students who are only interested in a general overview of intellectual property and non-law students who are seeding a certificate in intellectual property law and policy. Designed as an alternative to Patents, Trademark and Unfair Competition Law, and Copyrights. Prerequisite: either LAW A 522, LAW A 546, LAW E 588, or LAW P 501. Instructors: O’Connor Offered: W.

LAW P 577 Drafting Intellectual Property Licenses (3) Covers advanced drafting and negotiating licenses and other technology agreements. Credit/no-credit only.

LAW P 589 IP Innovations in Science and Technology (2-, max. 6) Takenaka Covers controversial intellectual property law and policy questions arising from evolving science, technology and e-commerce, and addresses cutting edge issues from a multidisciplinary perspective. Examines the current legal regimes and research environment and explores innovative methods for maximizing the exploitation of advanced science and technology. Offered: AWSp.
LAW P 590 Graduate Intellectual Property Law Tutorial (1-4, max. 4) Focuses on a specialized area of intellectual property law. Limited to students in the graduate program in intellectual property law and policy. Tutorial must be approved by the program director.

Law (Taxation)

LAW T 502 Federal Tax Controversies and Procedures (2-3)

LAW T 503 Problems of Timing (2-3)

LAW T 504 Income Taxation of Business and Investments (3-5) M. Hatfield Addresses the fundamental issues of the taxation of income related to businesses and investments. Topics include business deductions; capital expenditures; depreciation; below market loans; non-recourse debt; methods of accounting; gains and losses; like-kind exchanges; installment sales; passive activity losses and credits; and the at-risk rules. Offered: A.

LAW T 505 Introduction to Income Taxation (2) Addresses a number of fundamental income tax concepts, including the computation of individual tax liability, statutory exclusions, deductions, and gains. Also deals with issues related to character and timing.

LAW T 506 Tax Practice and Skills (1-4, max. 4) Orientation to core concepts of tax practice, including administrative structure and nature of tax law, nuances of statutory interpretation, and the relative authority of statutory, administrative, and judicial sources. Includes overview of print and online tools for federal tax research. Credit/no-credit only.

LAW T 507 Federal Tax Policy Seminar (2-4, max. 4) Examines the theoretical and policy considerations applied in assessing existing and proposed federal tax regimes. Topics include: the nature of the income tax as a tax on saving and consumption; consumption taxes as alternatives to taxes on income; tax policy and charitable giving; taxes and the poor; and more.

LAW T 510 Estate and Gift Taxation (3)

LAW T 511 Taxation of Partners and Partnerships ([1-4]-, max. 4)

LAW T 512 Exempt Organizations ([2-4]-, max. 4)

LAW T 513 Estate Planning (3)

LAW T 514 Drafting Estate Planning Documents (2) Includes the drafting of several documents used in contemporary estate planning practice, including wills, trusts, client letters, powers of attorney, healthcare directives, gift and estate tax returns, and opinion letters. Prerequisite: LAW T 513, which may be taken concurrently. Instructors: Adams Offered: Sp.

LAW T 515 International Taxation I (3)

LAW T 516 International Taxation II (3)
LAW T 517 Estate and Gift Taxation II (2)

LAW T 518 Taxation of S Corporations (2)

LAW T 519 Canadian-United States Tax Issues (2) Overview to various cross-border issues, including the Canadian income tax (and its GST tax), residency for Canadian tax purposes, principles relating to operation of Canadian business in the United States and profit repatriation, and U.S. investment in Canada and similar repatriation issues.

LAW T 520 Professional Regulation of Tax Lawyers (2-3) Addresses the professional regulation of tax lawyers by Congress, the IRS, state bars, and professional associations. May address legal malpractice and criminal liability issues for tax lawyers.

LAW T 521 Compensation and Benefits I (3)

LAW T 522 Compensation and Benefits II (2)

LAW T 523 International Estate Planning (2)

LAW T 524 Transfer Pricing Seminar (2) Andrade Reviews section 482 of U.S. Internal Revenue Code and the Treasury regulations thereunder with a focus on multinational corporations (MNCs) and their related party transactions that are subject to the arm's length standard. Application of U.S. transfer pricing regulations to related party transactions involving MNCs.

LAW T 525 Advising Privately-Owned Businesses (3) Explores the role of the lawyer as an adviser through case studies examining a range of structural planning issues and the practical and analytical challenges of the planning process. Emphasizes tax and business considerations, and creative planning strategies. Prerequisite: LAW A 530; LAW A 515, which may be taken concurrently.

LAW T 526 Federal Tax Clinic ([2/3]-, max. 9) Clinical training in federal tax litigation under the supervision of members of the law school faculty.

LAW T 527 Taxation of Financial Instruments (2) Examines the classification and tax consequences of various financial instruments including: fixed, variable, and contingent rate debt instruments; secondary market transactions in debt instruments, such as coupon stripping and market discount purchases; and transactions in common stock-equity derivatives, such as notional principal contracts, hedging transactions, and monetization strategies.

LAW T 528 Graduate Tax Practicum (1-6, max. 6) Field-based experience in a department-approved public or private entity, of eight hours per week minimum under the guidance of experienced practitioners. The student and practitioner produce a final report summarizing the practicum experience to the supervising faculty member, who decides whether to award academic credit. Credit/no-credit only.
LAW T 529 International Tax Practice Seminar (2-3) Kadet Utilizes case studies of real-world, multi-faceted international business transactions to develop the knowledge and skills to apply international tax principles and tools to both inbound and outbound investments. Offered: Sp.

LAW T 530 Tax Issues in Mergers and Acquisitions (2-3) Examines the federal income taxation of business entities and their owners. Limited to coverage of the fundamental concepts of corporate and partnership taxation.

LAW T 531 Advanced Transactional Tax Problems (2) Examination (through case studies) of consolidated tax returns, limits on the use of tax benefits, carryover of tax attributes, classifications of debt versus equity, and corporate penalty taxes.

LAW T 532 Taxation of Estates, Trusts, and Beneficiaries (2-3)

LAW T 533 Tax Crimes: Investigations, Prosecutions, and Penalties (2) Chiconie Focuses on elements of tax and related crimes with a view of the governmental investigative tools and powers, including IRS summonses, search warrants, and Grand Jury investigations. Covers taxpayer's rights and defenses in a criminal case; the IRS voluntary disclosure program; and the elements of civil penalties. Offered: AWSp.

LAW T 534 State and Local Taxation (2)

LAW T 536 Taxation of Trans-Pacific Transactions (2-3)

LAW T 537 Business Planning ([2-6]-, max. 6)

LAW T 538 Estate Planning for Business Interests (2-3) Business succession and estate planning issues for the owners of closely held business, including shareholder agreements, recapitalizations, family limited partnerships and limited liability companies, taxable acquisitions, split dollar agreements, redemptions to pay death taxes, electing small business trusts and more. Prerequisite: LAW T 510

LAW T 539 Matrimonial Tax (2) Covers tax aspects of married relationships and the tax impact of the dissolution of a marriage. Includes joint returns, the marriage tax penalty, innocent spouse relief from joint return liability, pre-nuptial agreements, transfer tax effects of inter-spousal transfers, alimony, child support, and marital property transfers incident to divorce.

LAW T 540 Federal Tax Research and Writing (2-4)

LAW T 541 Limited Liability Companies (2)

LAW T 542 State and Local Tax II: Advanced State Tax Concepts (2) Okimoto Covers the interplay between the federal tax and state tax systems. Covers attributional and economic nexus, unitary business principle, state combined reporting versus federal consolidated filings, expense
disallowance, adjustments to the federal tax base, fair appointment, alternative business tax, and state tax implications of mergers and acquisitions. Offered: W.

LAW T 543 Advanced Partnership Tax (2) Builds on the material covered in the basic course, Taxation of Partners and Partnership. Covers more sophisticated aspects of partnership allocations; transactions between partners and partnerships; and sale or exchange of partnership interests. Prerequisite: LAW T 511.

LAW T 544 Tax Aspects of Charitable Giving (2) Examines income, gift, and estate tax consequences of charitable gifts of cash and property. Includes: theoretical and policy bases of charitable deduction; technical requirements; effect of receipt of benefits; percentage limitations based on donee and type of property; application of carryover rules; effect of partial cash or cash equivalent consideration.

LAW T 545 International Taxation of Intellectual Property (2) Smith Overview of the tax consequences of various types of common commercial arrangements that involve the development, ownership, and use of intangible property within multinational groups. Explores tax efficient arrangements such as contract research and licensing arrangement, cost-sharing arrangement, and the use of intangible holding companies.

LAW T 546 Taxation of Real Estate Interests (2) An in-depth study and analysis of the tax consequences of acquiring, developing, operating, and disposing of interests in real property. Focuses on practical approaches to structuring sale-leaseback transactions, syndications, installment sales, and like-kind exchanges. Considers the application of the passive activity loss rules in real estate.

LAW T 547 International Taxation of Electronic Commerce (2-, max. 4) Electronic commerce is defined as the exchange of digital information in connection with the purchases and sale of goods and services. Seminar and discussion format. Explores the potential methods and approaches for the taxation of earnings associated with electronic commerce.

LAW T 548 Tax Writing (2) Designed to improve writing skills as they relate to practice of tax law. Students draft many types of tax documents. Also considers professional responsibility aspects of tax practice.

LAW T 549 International Merger and Acquisition Transactions (2) Examines the rules applicable to international merger and acquisition transactions, both tax-deferred and table, including the anti-inversion rules of 7874 and the rules under 367 for a variety for tax-deferred transaction structures. Also covers the unique considerations applicable to taxable acquisitions of foreign target companies.

LAW T 550 Global Perspectives on International Taxation (2) Concentrates on the global perspectives on international taxation with an experiential and problem-based approach to learning. Each class addresses a separate issue in international taxation from a particular jurisdiction and will focus on legal regimes, theory, and practical application. Offered: W.
School of Medicine

School Overview

Dean
Paul G. Ramsey
C314 Health Sciences

Established in 1946, the School of Medicine is the only medical school directly serving the states of Washington, Wyoming, Alaska, Montana, and Idaho (WWAMI). Located in the Warren G. Magnuson Health Sciences Center, the School operates a decentralized program of medical education (WWAMI) via a regional network of teaching affiliates.

The School's basic-science departments provide educational opportunities for students from all schools and colleges within the University. Clinical teaching programs are conducted at the University of Washington Medical Center, Harborview Medical Center, Seattle Children's hospital, Northwest Hospital & Medical Center, Valley Medical Center, and the Veterans Affairs Puget Sound Healthcare System, as well as at other clinical affiliates in Seattle and throughout the WWAMI states.

The School admits approximately 240 medical students to its first-year class and has a total enrollment of over 1000 students pursuing the Doctor of Medicine degree. The full-time faculty numbers more than 2,100 members and there are more than 4,500 clinical faculty located throughout the WWAMI region. The affiliated University residency-training network enrolls more than 1,200 house officers. Enrollment in the graduate programs in the basic sciences exceeds 600 students, and approximately 1,000 postdoctoral fellows are enrolled in advanced training programs. The School has baccalaureate and/or graduate programs in occupational therapy, physical therapy, prosthetics and orthotics, and medical technology. The School participates in training a broad spectrum of other allied health professionals. The School is also home for the Physician Assistant Training Program known as MEDEX.

WWAMI Program

The WWAMI program was initiated in 1971 as an effort to address the maldistribution and shortage of physicians in the Northwest region, provide a broader range of educational opportunities for students, and address the need for primary-care physicians oriented toward rural practice. It is an integral part of the undergraduate medical curriculum and is a fully accredited program of the School of Medicine. The WWAMI program is named for the five states (Washington, Wyoming, Alaska, Montana, and Idaho) that share resources and responsibilities in the regional educational program. Funds appropriated to the WWAMI program by the Wyoming, Alaska, Montana, and Idaho legislatures assure each state of positions for its students in the entering medical class each year.
Foundations of Science Phase Training

The UW School of Medicine is nationally recognized for its regional training program (WWAMI). In addition to providing unique clinical learning opportunities, the WWAMI program allows a small-group learning experience at the regional training sites, which many students prefer. Students from Washington (Spokane), Alaska, Montana, and Idaho complete their 18-month foundational curriculum in small learning groups in their respective home states. Wyoming students complete their first 12-month foundational curriculum in Wyoming. The state of Washington provides two sites for medical students to complete their 18-month foundations curriculum:

Seattle: uwmedicine.washington.edu/Education/Md-Program

Spokane: www.medicalsciences.wsu.edu/prospectivestudents/wwamiprograminfo.html

Small group learning experiences are available in Spokane. All Washington residents are required to rank one or more of these two sites in order of preference in their secondary application. Every effort is made to match accepted Washington students with one of their preferred sites.

More information and video testimonials from first-year Spokane medical students are available at: http://uwmedicine.washington.edu/Education/MD-Program/Admissions/

Offers of acceptance are conditional upon agreement to participate in the WWAMI program.

Patient Care Phase Training

At the conclusion of the foundations–of- science phase, students enter the portion of the curriculum that is predominantly clinical. Required, selective, and elective clerkships are described below. As part of clinical training, students complete clerkships at the UW, at its affiliated hospitals, or at community clinical units located in the five-state region. During third- and fourth-year clerkships, School of Medicine full-time and clinical faculty members provide supervised clinical training in required as well as elective clerkships throughout the WWAMI region.

Academic Programs

Bachelor of Science

A program leading to a baccalaureate degree with a major in microbiology is offered through the College of Arts and Sciences.

Bachelor of Clinical Health Sciences

A program leading to a baccalaureate degree with a major in clinical health services is offered through the MEDEX program.
Bachelor of Science in Medical Technology

A curriculum in medical laboratory science is offered by the Department of Laboratory Medicine. This program provides study in basic laboratory science that includes clinical laboratory training and is designed to prepare knowledgeable and skilled laboratory scientists for a variety of employment opportunities. Information concerning admission to the medical laboratory science program appears under Laboratory Medicine in this catalog.

Bachelor of Science in Prosthetics and Orthotics

The Department of Rehabilitation Medicine offers a Bachelor of Science degree in prosthetics and orthotics. The curriculum provides professional training in the basic sciences and the clinical application, design, and fabrication of prostheses and orthoses. Information concerning admission to the curriculum in prosthetics and orthotics may be found under Rehabilitation Medicine in this catalog.

MEDEX Northwest Physician Assistant Training

MEDEX Northwest, UW School of Medicine, is a program designed to train physician assistants. The program has been in existence since 1978 and is accredited by ARC-PA, the Accreditation Review Commission on Education for the Physician Assistant. MEDEX currently trains approximately 80 students annually in three didactic training sites (Seattle, Yakima, and Spokane). Discussions are currently underway to have a fourth training site in Anchorage, AK. Students return to their home communities in the WWAMI region (Washington, Wyoming, Alaska, Montana, Idaho) plus a variety of sites in Oregon and Nevada for their clinical year of training.

MEDEX Northwest is currently an eight-quarter program. The first four quarters consist of intense clinical and didactic instruction at one of the didactic training sites. The final four quarters are spent in clinical experiences throughout the Northwest region. At the completion of the program, students are eligible to sit for the National Certifying Examination for Physician Assistants.

Master of Occupational Therapy

The Department of Rehabilitation Medicine offers a graduate degree in occupational therapy. The curriculum provides professional training in the health sciences and in the theory and practice of occupational therapy as it impacts occupational performance across the life span and in the various arenas of practice. Occupational therapy addresses daily living skills including self-care, work, and leisure/play. Information concerning admission to the occupational therapy program appears under Rehabilitation Medicine in this catalog.

Doctor of Physical Therapy

The Department of Rehabilitation Medicine offers a graduate degree in physical therapy. The curriculum provides professional education in the basic sciences and in the clinical use of
physical therapy evaluation and management strategies in the treatment or prevention of neuromusculoskeletal dysfunction. Information concerning admission to the physical therapy program appears under Rehabilitation Medicine in this catalog.

**Master of Science and Doctor of Philosophy**

Work leading to master's and doctoral degrees is offered, in accordance with the requirements of the Graduate School, in the departments of Biochemistry, Bioengineering, Biological Structure, Immunology, Microbiology, Pathology, Pharmacology, and Physiology and Biophysics. Master's degree programs are offered by the departments of Laboratory Medicine, Medical History and Ethics, and Rehabilitation Medicine. Students may work toward these degrees concurrently with the MD degree, taking additional years beyond the typical four-year medical curriculum.

Concurrent degrees are possible in many other departments and colleges of the University. Recent graduates have pursued concurrent degrees in the basic sciences of medicine and the School of Public Health. A student who intends to work toward a graduate degree should confer with the chairperson of the department in which graduate study is to be pursued and with the Associate Dean for Academic Affairs of the School of Medicine. Specific requirements for admission to work for advanced degrees appear in the Graduate School section of this catalog. Permission to pursue advanced degrees is granted to medical students only if they are progressing normally in the medical curriculum and show evidence of being able to take on this additional work load.

**Doctor of Medicine**

Upon completion of the curriculum of the School of Medicine curriculum, the MD degree is awarded to those candidates who (1) have shown evidence of good moral character, (2) have satisfactorily completed the requirements of the curriculum, (3) have fulfilled all special requirements, and (4) have discharged all indebtedness to the University.

**Admission**

Procedures and policies described are subject to change. The most current information regarding the admission process is available from the School of Medicine Admissions Office.

**Selection Factors**

Candidates are considered comparatively on the basis of academic performance, motivation, maturity, personal integrity, and demonstrated humanitarian qualities. A knowledge of, and exposure to, the needs of individuals and society and an awareness of healthcare delivery issues are desired. Extenuating circumstances in an applicant's background are evaluated.

Applicants submit scores from the Medical College Admission Test (MCAT), taken no later than autumn of the year before matriculation. Scores cannot be more than three years old at the time of matriculation.
Under exceptional circumstances, certain course requirements may be waived for individuals who present unusual achievements and academic promise. All candidates must demonstrate substantial academic ability in their major field as well as in required science courses. They should be proficient in the use of the English language, basic mathematics, personal computing, and information technologies.

All entrants in recent years have, at a minimum, fulfilled requirements for a bachelor’s degree. No specific major is advised. A broad background in the humanities and liberal arts is encouraged.

*Pre-Medical Requirements*

Completed prior to matriculation but preferably by the time of application; undergraduate or postbaccalaureate courses completed at a college or university accredited by the appropriate regional accrediting body.

**Courses must include a minimum of:**

1. 4 semesters or 6 quarters of social science or humanities
2. 6 semesters or 9 quarters of chemistry and biology. Subject matter in these courses must include general chemistry, general biology, biochemistry, molecular genetics, and cell biology/cell physiology, although applicants are not required to take courses with these specific titles.
3. 2 semesters or 3 quarters of physics; or 1 semester or 2 quarters of physics plus 1 semester or 2 quarters of calculus or linear algebra

**Courses recommended, but not required:**

- Ethics
- Anatomy or comparative anatomy
- Human or mammalian physiology
- Embryology

**For further information, consult:**

- [UW School of Medicine Admissions website](#)
- Facebook
- Email

Under exceptional circumstances certain course requirements may be waived for individuals who present unusual achievements and academic promise.
application procedure

the uw participates in the american medical college application service (amcas). deadline for submitting an application to amcas is october 15; no waivers are granted. after receiving the application, the school of medicine asks qualified individuals to submit a $35 application fee and supplemental application materials. every attempt is made to notify applicants of final action by the end of march of the year of matriculation.

residents of the states of washington, wyoming, alaska, montana, or idaho are eligible to apply. candidates from wyoming, alaska, montana, and idaho submit residency certifications from their respective state certifying officers. proof of legal residence for washington residents also may be requested. determination of state of legal residence is not made by the school of medicine. more information about residency certification is available at:
www.uwmedicine.org/education/md-program/admissions/applicants/residence-certification

applicants with daca status who reside in a wwami (washington, wyoming, alaska, montana, idaho) state and who are legally authorized and recognized by their respective state’s residency office as a state resident for wwami educational purposes are considered.

applicants from outside this five-state region from disadvantaged backgrounds or who have demonstrated a commitment to serving underserved populations are considered. foreign applicants must also have a permanent-resident visa.

individuals with a demonstrated interest in research may apply for the md/phd program (medical scientist training program, or mstp) regardless of residency.

applicants who have failed to meet minimum standards at this or another medical (md or do) or dental school are not considered.

applicants must meet essential requirements and technical standards and complete premedical course requirements.

the deadline for submitting additional application materials is december 1. secondary materials include:

1. autobiographical statement in which the candidate describes the origin and development of his or her motivation to be a physician, with specific emphasis on steps taken to explore a career in medicine and eventual professional goals. other issues of importance to the candidate should also be included. the applicant may request that the personal comments section of the amcas application be used to fulfill this requirement.

2. three additional short essays (250 word limit each)
   a. how have your experiences prepared you to be a physician?
   b. how do you imagine your personal and professional lives intersecting 10 years from now?
c. What obstacles to your goals have you experienced and how have you dealt with them?

d. For re-applicants: From your most recent application until now, how have you strengthened your application?

3. A letter of recommendation from a premedical committee or a minimum three letters from writers who can speak to one or more of the following: academic ability, commitment to service, leadership potential, clinical or research experiences, interpersonal skills, ability to function on a team, and/or potential as a physician. The collection of letters should provide a balanced and well-rounded view of the applicant’s candidacy. The School of Medicine accepts up to three additional letters of recommendation. Letters from current employers may be advantageous. All letters are submitted via the AMCAS Letters of Evaluation/Recommendation service. Letters must be received by December 1.

4. $35 non-refundable application fee (automatically waived for those qualified for AMCAS fee waivers). Others seeking a fee waiver should submit requests directly to the School of Medicine Admissions Office.

5. Online acknowledgment of having read, understood, and being able to meet, with or without reasonable accommodation, the Essential Requirements of Medical Education at the UW School of Medicine: Admission, Retention, and Graduation Standards; and online acknowledgment of the clinical clerkship rotation policy and the UW SOM Honor Code. These are sent with the secondary application form.

6. All acceptances are contingent on a criminal background check. Falsifying information may lead to withdrawal of an acceptance.

7. More information about the application procedure is available at: www.uwmedicine.org/admissions

**Medical School Curriculum (For students entering 2015 or 2016; in effect for these two cohorts from 2015 to 2020)**

The four-year medical school curriculum consists of three phases, totaling 267 credits

- Foundations Phase – 107 credits
- Patient Care Phase – 84 credits
- Explore and Focus Phase – 76 credits

Specific requirements are as follows:

1. **Foundations Phase**

   The first 18 months of the medical-student curriculum, starting with a two-week clinical immersion that introduces the medical profession and includes instruction and supervision related to basic clinical skills, is followed by eight integrated basic science blocks. Pathology, Human Form and Function (anatomy and radiology), and
Pharmacology are threaded throughout all blocks of the Foundations Phase. In the longitudinal Foundations of Clinical Medicine (FCM) course, which spans all 18 months of the Foundations Phase, students learn under supervision to perform a detailed medical history and physical examination, develop clinical reasoning skills, and communicate and establish rapport with patients from all backgrounds. They also spend one full day every other week working with patients and other health professionals in outpatient primary care clinics.

**Foundations Phase Curriculum** (107 credits)

Most students are also able to take elective courses.

a. **Blocked Courses**
   
i. Molecular and Cellular Basis of Disease (11 credits)
   
ii. Invaders and Defenders (10 credits)
   
iii. Circulatory Systems (16 credits)
   
iv. Blood and Cancer (5 credits)
   
v. Energetics and Homeostasis (10 credits)
   
vi. Mind, Brain, and Behavior (14 credits)
   
    vii. Lifecycle (8 credits)

b. **Longitudinal Courses**
   
i. Primary Care Practicum (8 credits)
   
   ii. Foundations of Clinical Medicine (8 credits)

   c. **Scholarship Courses**
      
i. Independent Investigative Inquiry (III) (6 credits) – Conducted in one or more of the biological, behavioral, sociocultural, or epidemiological sciences basic to medicine, culminating in a scholarly product or written paper. Helps the student gain an understanding of the philosophy and methods of scientific investigation. Fosters skills of life-long learning.

   d. **Consolidation and Transition** (11 credits) – A transition period between the Foundation Phase and the Parent Care Phase. Preparation for U.S. Medical Licensing Examination (USMLE step 1), including a Foundations Capstone to review key concepts. Students complete the Independent Investigative Inquiry and the transition to clerkships.

2. **Patient Care Phase**

   Students work as junior members of medical-care teams in medical-school-affiliated hospitals, clinics, or practices located in the five-state WWAMI region. Students learn and practice clinical skills, gain clinical experience, and increase clinical problem-solving abilities.
Patient Care Curriculum (84 credits)

i. Family Medicine (12 credits)
ii. Internal Medicine (24 credits)
iii. Obstetrics/Gynecology (12 credits)
iv. Pediatrics (12 credits)
v. Psychiatry and Behavioral Sciences (12 credits)
vi. Surgery (12 credits)

3. Explore and Focus Phase

Students continue to hone clinical skills and prepare for residency. Includes four required clerkships and 20 weeks of clinical electives.

Explore and Focus Curriculum (76 credits)

i. Neurology/Neurosurgery (8 credits)
ii. Emergency Medicine (8 credits)
iii. Advanced Patient Care (16 credits)
iv. Clinical electives (40 credits)*
v. Transition to Residency (4 credits)

*Students in the Medical Scientist Training Program and the UW Pathology fellowship who enter the UWSOM prior to 2015 and who do not engage in the clinical curriculum immediately after completing pre-clinical coursework meet the clinical requirements as they exist at the time they enter, with the exception of 8 credits of clinical electives which are waived. These students enter the clinical curriculum in summer of their third year of MD coursework after completion of the PhD or UW Pathology fellowship.

Medical School Curriculum (For students entering 2017 or after)

The four-year medical school curriculum consists of three phases, totaling 287 credits.

- Foundations Phase – 120 credits
- Patient Care Phase – 86 credits
- Explore and Focus Phase – 81 credits

An Ecology of Health and Medicine course spans all three phases of the curriculum. Students gain familiarity and understanding of our healthcare system, including specifics about health policy, patient safety, social determinants of health, health equity, value-based care, population health, teamwork, medical informatics, and ethics/professionalism.
1. **Foundations Phase**

The first 18 months of the medical-student curriculum, starting with a two-week clinical immersion that introduces the medical profession and includes instruction and supervision related to basic clinical skills, is followed by eight integrated basic science blocks. Pathology, Human Form and Function (anatomy and radiology), and Pharmacology are threaded throughout all blocks of the Foundations Phase. In the longitudinal Foundations of Clinical Medicine (FCM) course, which spans all 18 months of the Foundations Phase, students learn under supervision to perform a detailed medical history and physical examination, develop clinical reasoning skills, and communicate and establish rapport with patients from all backgrounds. They also spend one full day every other week working with patients and other health professionals in outpatient primary care clinics.

**Foundations Phase Curriculum** (120 credits)

Most students are also able to take elective courses.

a. **Blocked Courses**
   i. Molecular and Cellular Basis of Disease (11 credits)
   ii. Invaders and Defenders (10 credits)
   iii. Circulatory Systems (16 credits)
   iv. Blood and Cancer and Muskuloskeletal (8 credits)
   v. Energetics and Homeostasis (10 credits)
   vi. Mind, Brain, and Behavior (14 credits)
   vii. Lifecycle (8 credits)

b. **Longitudinal Courses**
   i. Foundations of Clinical medicine (16 credits)
   ii. Ecology of Health and Medicine (4 credits)

c. **Scholarship Courses**
   i. Independent Investigative Inquiry (6 credits) – Conducted in one or more of the biological, behavioral, sociocultural, or epidemiological sciences basic to medicine, culminating in a scholarly product or written paper. Helps the student gain an understanding of the philosophy and methods of scientific investigation. Fosters skills of life-long learning.
   ii. Research Methods, including Epidemiology and Biostatistics (6 credits)

d. **Consolidation and Transition** (11 credits) – A transition period between the Foundation Phase and the Patient Care Phase. Preparation for U.S. Medical Licensing Examination (USMLE step 1), including a Foundations Capstone to
review key concepts. Students complete the Independent Investigative Inquiry and the transition to clerkships.

2. **Patient Care Phase**

   Students work as junior members of medical-care teams in medical-school-affiliated hospitals, clinics, or practices located in the five-state WWAMI region. Students learn and practice clinical skills, gain clinical experience, and increase clinical problem-solving abilities.

   **Patient Care Curriculum** (86 credits)
   
   i. Family Medicine (12 credits)
   ii. Internal Medicine (24 credits)
   iii. Obstetrics/Gynecology (12 credits)
   iv. Pediatrics (12 credits)
   v. Psychiatry and Behavioral Sciences (12 credits)
   vi. Surgery (12 credits)
   vii. Ecology of Health and Medicine (2 credits)

3. **Explore and Focus Phase**

   Students continue to hone clinical skills and prepare for residency. Includes four required clerkships and 20 weeks of clinical electives.

   **Explore and Focus Curriculum** (81 credits)
   
   i. Neurology/Neurosurgery (8 credits)
   ii. Emergency Medicine (8 credits)
   iii. Advanced Patient Care (16 credits)
   iv. Clinical electives (40 credits)*
   v. Ecology of Health and Medicine (1 credit)
   vi. Transition to Residency (8 credits)

*Students in the Medical Scientist Training Program and the UW Pathology fellowship who enter the UWSOM prior to 2015 and who do not engage in the clinical curriculum immediately after completing pre-clinical coursework meet the clinical requirements as they exist at the time they enter, with the exception of 8 credits of clinical electives which are waived. These students enter the clinical curriculum in summer of their third year of MD courses after completion of the PhD or UW Pathology fellowship.
Student Evaluation and Promotion

Students must complete all curricular, academic, and professional conduct requirements, which include meeting the Essential Requirements and Technical Standards and demonstrating attitudes and behavior appropriate to a career in medicine. Student evaluation is based on observation of the student’s behavior and conduct by the faculty and others involved in teaching as well as on papers and examinations. Every student must pass all academic requirements, all School of Medicine examinations, Steps 1 and 2 of the United States Medical Licensing Examinations, and an approved scholarly Independent Investigative Inquiry project, as well as demonstrating specific clinical skills developmental benchmarks before receiving the Doctor of Medicine degree. No exceptions are permitted. Periodic reviews of student performance are conducted by the School's Student Progress Committee. Students are informed of deficiencies and remedial requirements, if any, for these deficiencies.

A student may be dismissed from the School of Medicine if s/he does not meet the standards for graduation set by the School, to include failure to maintain an acceptable academic record, failure to follow academic directives provided by the School's committees, and/or failure to develop attitudes and behavioral patterns appropriate to a career in medicine. A pattern of documented concerns about a student’s performance and professionalism may result in the student’s being dismissed.

The Faculty Council on Academic Affairs (FCAA) reviews the School of Medicine’s and Student Progress Committee's actions, and the Dean of the School of Medicine has final approval of the committee's and council's recommendations. A review mechanism is available. Once dismissal or withdrawal from the School has occurred, the student may not petition for reinstatement, and must instead apply for readmission through the standard admission process and procedures.

Honor Societies

Alpha Omega Alpha (AOA), a national honor medical society, elects members on the basis of high scholarship and good moral character. AOA recognizes and perpetuates excellence in the medical profession, with goals to promote scholarship and research in medical school, encourage high standards and conduct, and recognize high attainment in medical science, practice, and related fields.

Gold Humanism Honor Society (GHHS), a national honor medical society, elects members on the basis of high scholarship and good moral character. GHHS recognizes individuals who are exemplars of humanistic patient care and who can serve as role models, mentors, and leaders in medicine. Goals involve promoting humanism and patient-centered care throughout the medical profession.

Grading System

The Curriculum Office implements and manages guidelines governing the grading system. The Associate Dean for Curriculum collaborates with course and clerkship directors and Foundations
and Clinical Regional Assistant Deans who oversee compliance. The Student Progress Committee reviews all fail grades and the performance of students whose evaluations include a pattern of evaluator or professional development concerns.

Final Course Grades

1. Pass/Fail: Required Foundations Phase blocks
2. Pass/Fail: Independent Investigative Inquiry (III)
3. Honors/High Pass/Pass/Fail: Required Patient Care Phase and Career Explore and Focus Phase clerkships and clinical electives (All clerkships 8 credits or longer have the option of H/HP/P/F and clerkships less than 8 credits are Pass/Fail only.)
4. Evaluator Concern: internal designation
5. Professional Development Assessment: internal designation
6. Withdrawal

If completion of an additional paper or project is required for achievement of an Honors grade in a required or elective clinical course, all requirements for the Honors grade must be completed no later than the last day of the course. Fail grades are reviewed by the Student Progress Committee.

The School of Medicine reserves the right to revise or modify the curriculum, system of evaluation, or graduation requirements.

Graduation with Honors

A degree of Doctor of Medicine with honors may be awarded to students with high achievement who have demonstrated initiative and success in clinical and scholarly pursuits related to medicine, outstanding leadership, or exceptional service commitment. Graduation with honors may be awarded for up to 15% of the graduating class. High honors may be awarded to recognize outstanding and truly exceptional performances of a few selected students, and may not be given each year. Nominations are submitted by department and College faculty, honorees are selected by the Student Progress Committee, and final recipients are approved by the Medical School Executive Committee.

The Center for Health Equity Diversity and Inclusion (CEDI)

The Center for Health Equity, Diversity, and Inclusion (CEDI) operates throughout the School of Medicine, including the WWAMI region’s teaching, patient care, and research programs. CEDI offers educational opportunities to develop expertise in patient care of vulnerable populations through its pathway programs and classes. CEDI collaborates with departments and divisions, general medical education, academic affairs, and teaching programs in the WWAMI region. Pipeline programs include outreach to underrepresented middle and high school students through the Doctor for a Day Program, the national Summer Health Professions Education Program (SHPEP), the UW Health Professions Academy (HPA), and support of five URM medical
student affinity groups. Residents, fellows, and faculty are also supported through UW Network of Underrepresented Residents and Fellows (UWNURF) and the Committee on Minority Faculty Advancement (CMFA). The Center also collaborates across campuses and with other two- and four-year colleges and universities to engage in recruiting disadvantaged and underrepresented students in the WWAMI region.

**Pathways and Classes:** CEDI manages three pathway programs that prepare medical students to provide culturally responsive care to specific populations – done through coursework and elective clerkships tied specifically to those populations. Pathway programs include: Hispanic Health Pathway, Indian Health Pathway, and LGBTQ Health Pathway. Medical students may also expand their skills working with vulnerable populations through two other programs – the Global Health Pathway and the Underserved Pathway. Some students elect more than one program concurrently. Beyond courses required for a pathway program, students may elect classes on African American Health and Healthcare Disparities and Clinical Management of the Transgender Patient (one of few such classes offered nationally).

**Summer Health Professions Education Program:** In collaboration with the UW School of Dentistry and the School of Public Health, CEDI offers a six-week summer program for freshman and sophomore college students from underrepresented and disadvantaged backgrounds with an interest in health careers. The 80 admitted students engage in clinical shadowing experiences; take enrichment classes that include biology, chemistry, physics, biostatistics, and public health; and complete a class that helps them prepare for applying to health professions schools. UW housing, stipends, and travel assistance are available.

**Health Professions Academy:** For underrepresented minority and disadvantaged UW undergraduate students interested in careers in medicine and dentistry. Offers longitudinal advising; assistance with MCAT (Medical College Admission Test) and DAT (Dental Admissions Test) preparation; and clinical shadowing, research, and networking opportunities.

**Student Groups:** CEDI manages five groups for underrepresented minorities: Asian Pacific American Medical Students Association (APAMSA), Latino Medical Students Association (LMISA), Medicine Wheel Society (MWS), Queer Medical Student Association (QMed), and Student National Medical Association (SNMA). These organizations involve students in activities including Doctor for a Day – a pipeline program that introduces health careers to underrepresented minority middle and high school students. UWSOM also manages other student organizations including Muslim Health Professionals of Greater Puget Sound (MHP), Alliance for Equal Representation in Medicine (AFERM), Health Equity Circle (HEC), and Students for an Anti-Racist UWSOM (SARU).

**Residents/Fellows and Faculty:** CEDI provides programming for underrepresented minority (URM) residents, and fellows and faculty. The UW Network for Underrepresented Residents and Fellows (UWNURF) collaborates with the Student National Medical Association (SNMA) to host Doctor for a Day events. They also plan town halls and didactic lectures, attend conferences to recruit URM students to UW sub-internships and residency programs, and host monthly networking events. The Committee on Minority Faculty Advancement (CMFA) often sponsors underrepresented speakers from other universities to speak about health disparities; works to
support junior faculty; and provides other networking opportunities. CEDI also created the African American Roundtable to discuss ways to recruit and support African American students in medicine.

**Diversity in Hiring:** A search committee toolkit based on best/effective practices in searches, selection, promotion, and retention of diverse faculty offers trainings for departments and divisions on implicit bias and hiring processes.

Inquiries and requests for additional information may be obtained from the Center for Health Equity, Diversity, and Inclusion, Box 357430, School of Medicine, University of Washington, Seattle, Washington 98195-7430; 206-685-2489, or at www.mycedi.org

**Medical Scientist Training (MD/PhD) Program**

Highly qualified candidates have a wide choice of research specializations. Participating graduate departments and interdepartmental disciplines include biochemistry, bioengineering, chemistry, environmental health, epidemiology, genetics, immunology, microbiology, molecular biotechnology, pathology, pharmacology, and physiology and biophysics. Participating programs include neuroscience, molecular and cellular biology, and molecular medicine and mechanisms of disease. Students may also conduct research at the Fred Hutchinson Cancer Research Center.

Candidates submit an application and any supplemental material requested by January 1. Consideration is given to applicants with significant research experience and/or a minimum 3.50 cumulative GPA, or minimum MCAT scores of 10 in each category.

Applicants correspond directly with the administrator of the Medical Scientist Training Program: MSTP University of Washington Health Sciences Building, Room I264 Box 357470 Seattle WA 98195-7470 206-685-0762 mstp@uw.edu www.mstp.washington.edu

**Financial Information**

**Fees and Other Charges**

All fees and extra service charges are payable in U.S. dollars, due at the time specified and subject to change without notice. See Financial Aid Budget Information for current tuition and fees at: www.uwmedicine.org/education/md-program/current-students/student-affairs/financial-aid/budget-information

**Financial Assistance**

Financial aid awards are based on need. All aid applicants must submit the Free Application for Federal Student Aid (FAFSA). The Federal Direct Stafford Loan (subsidized and unsubsidized), Perkins Loan, and Primary Care Loan are the primary sources of aid. Institutional loans are also available from the School of Medicine. Limited grant funds are available to Washington State residents who meet specific funding criteria.
Scholarships are available through the School of Medicine. A separate application for a School of Medicine scholarship is due May 31.

February 28 is the financial aid application deadline for all available aid sources. Late applicants are awarded only Stafford and unsubsidized Stafford loans.

Outside employment is discouraged while the student is enrolled in medical school.

**Enrichment Opportunities**

Students may explore working in rural or urban clinics in medically underserved communities, undertaking medical research projects, or participating in an international exchange program with a developing country. Two of the more formally structured programs include:

1. Rural/Underserved Opportunities Program (RUOP) exposes students to rural medicine and utilizes clinical training sites in all five states. During a summer month between the first and second academic years, students work with physicians in small communities and urban underserved clinics.

2. Medical Student Research Training Program offers research opportunities to UW medical students the summer between the first and second years. Student trainees receive a stipend. The project is 10 weeks, full-time, 40 hours per week. The student may not be enrolled in courses for credit during this time.

**Graduate Medical Education and Postdoctoral Training**

The UW School of Medicine offers residency and fellowship programs. Training occurs at the UW Medical Center, Harborview Medical Center, Veterans Affairs Puget Sound Health Care System, Seattle Children's hospital, and other affiliated training sites in Seattle and throughout the WWAMI region. Postdoctoral research fellowship opportunities in the basic sciences are also offered.

**Continuing Medical Education**

Offerings include short courses of one to three days, one- to two-week board-review courses, visiting professorships, preceptorships, and mini-residencies. Other offerings include lecture series at hospitals, video-tape presentations, self-directed instructional materials, and other specific courses requested by members of the medical community throughout the WWAMI region. Information is available at [www.uwcme.org](http://www.uwcme.org).

All physicians are invited to participate in continuing medical education programs offered by clinical departments, such as grand rounds and regular conference series.

The UW School of Medicine is accredited to sponsor continuing medical education for physicians. All programs sponsored by Continuing Medical Education are applicable to
physician re-licensure requirements of the Washington Board of Medical Examiners and for Category I credit of the Physician's Recognition Award of the American Medical Association. Prescribed credit for the American Academy of Family Physicians and other types of credit are included in the program offerings when appropriate.

For information concerning Continuing Medical Education programs, contact:

University of Washington School of Medicine Office of Continuing Medical Education Box 359441 4333 Brooklyn Ave NE Seattle, Washington 98195 Telephone: 206-543-1050 Email: cme@uw.edu Website: www.uwcme.org
Anesthesiology

Department Overview

BB1459 Health Sciences

The Department of Anesthesiology maintains an active program of teaching and research for both the specialist and nonspecialist. Medical students are introduced to the principles of anesthetic management and the effects of anesthetic agents on circulatory and respiratory physiology. The clinical-clerkship program provides basic training in airway management and care of the unconscious patient. A three-year residency program is available for physicians who desire specialty training in anesthesiology. In addition, advanced clinical and research training is offered in several major subspecialty areas (cardiac anesthesia, neuroanesthesia, pediatric anesthesia, obstetrical anesthesia, pain management, and regional anesthesia). Opportunities for collaborative research are available to undergraduate and graduate students. The department conducts a regular series of clinical conferences, didactic lectures, and research seminars. Questions regarding medical student clerkships may be directed to Dr. John Bramhall at 206-231-2847 or bramhall@uw.edu. Other training questions may be directed to the Residency Coordinator at 206-543-2773 or lfg@uw.edu.

Course Descriptions

ANEST 498 Undergraduate Thesis (*) Sivarajan By special arrangement. Time and credit to be arranged. Offered: AWSpS.

ANEST 499 Undergraduate Research (*) Specific research problems relating to pulmonary, cardiovascular, renal, obstetric, and central nervous system functions, and their alteration by anesthetic techniques and agents. Offered: AWSpS.

ANEST 501 P-Preceptorship in Anesthesiology (1, max. 12) An opportunity for first- and second-year medical students to gain experience with medical practice situations by observing clinical faculty members in the operating room. Prerequisite: permission of instructor. Offered: AWSpS.

ANEST 650 P-Pain Medicine Clerkship (8) Participation as part of a Pain Medicine team in evaluation and management of patients experiencing short term post injury (surgery, trauma) pain and/or long-term pain. (Four weeks, full time). Prerequisite: Third- or fourth-year student.

ANEST 654 P-Chronic Care/Pain Management - Alaska - NAPM (8) Exposures to pain management. Students are assigned to a preceptor and clinical site to concentrate their clinical activities. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.
ANEST 657 P-Chronic Care/Pain - VAPSHCS - Seattle, WA (8) Exposure to pain management. Students are assigned to a preceptor and clinical site to concentrate their clinical activities. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

ANEST 662 P-Chronic Care/Alaska - Fairbanks APCA (8) Exposure to rehabilitation, geriatrics, palliative care, and pain management through the Chronic Care website and didactics. Students focus their clinical activities on chronic pain management.

ANEST 663 Basic Anesthesia Clerkship - Cheyenne, WY (4) Introduction to the principles of airway management, ventilator support, use of local anesthetics, techniques of patient monitoring, and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation.

ANEST 665 P-Basic Anesthesia Clerkship - Anchorage (4) Introduction to the principles of airway management, ventilatory support, use of local anesthetics, techniques of patient monitoring and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation. (Two weeks, full-time). Prerequisite: third- or fourth-year student.

ANEST 667 P-Basic Anesthesia Clerkship - Billings (4) Introduction to the principles of airway management, ventilatory support, use of local anesthetics, techniques of patient monitoring, and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation. (Two weeks, full-time). Prerequisite: third- or fourth-year student.

ANEST 668 P-Basic Anesthesia Clerkship - Missoula (4) Introduction to the principles of airway management, ventilatory support, use of local anesthetics, techniques of patient monitoring and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation. (Two weeks, full-time). Prerequisite: third- or fourth-year student.

ANEST 671 P-Basic Anesthesia Clerkship - Boise (4) Introduction to the principles of airway management, ventilatory support, use of local anesthetics, techniques of patient monitoring, and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation. (Two weeks, full-time). Prerequisite: third- or fourth-year student.

ANEST 672 Basic Anesthesiology - Boise, ID VA (4) Introduction to the principles of airway management, ventilator support, use of local anesthetics, techniques of patient monitoring, and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation (Two weeks, full-time). Prerequisite: third- or fourth-year Medicine student.

ANEST 674 P-Basic Anesthesia Clerkship - Spokane (4) Introduction to the principles of airway management, ventilatory support, use of local anesthetics, techniques of patient monitoring, and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation.
puncture, and endotracheal intubation. (Two weeks, full-time). Prerequisite: third- or fourth-year student.

ANEST 677 P-Basic Anesthesia Clerkship - Swedish (4) Introduction to the principles of airway management, ventilatory support, use of local anesthetics, techniques of patient monitoring, and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation. (Two weeks, full-time). Prerequisite: third- or fourth-year student.

ANEST 678 P-Basic Anesthesia Clerkship - VA (4) Introduction to the principles of airway management, ventilatory support, use of local anesthetics, techniques of patient monitoring, and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation. (Two weeks, full-time). Prerequisite: third- or fourth-year student.

ANEST 679 P-Basic Anesthesia Clerkship - HMC (4) Introduction to the principles of airway management, ventilatory support, use of local anesthetics, techniques of patient monitoring, and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation. (Two weeks, full-time). Prerequisite: third- or fourth-year student.

ANEST 680 P-Basic Anesthesia Clerkship - UWMC (4) Introduction to the principles of airway management, ventilatory support, use of local anesthetics, techniques of patient monitoring, and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation. (Two weeks, full-time). Prerequisite: third- or fourth-year student.

ANEST 681 P-Advanced Clerkship in Anesthesiology - UWMC (8) Clerkship for students desiring greater exposure to anesthesiology as a specialty. Individual programs can be arranged in the following areas: surgical anesthesia, obstetrical anesthesia, and pain clinic. (Four weeks, full-time.) Prerequisite: Third- or fourth-year student.

ANEST 682 P-Advanced Clerkship in Anesthesia - HMC (8) Clerkship for students desiring greater exposure to anesthesiology as a specialty. Individual programs can be arranged in the following areas: surgical anesthesia, obstetrical anesthesia, and pain clinic. Prerequisite: Third- or fourth-year student.

ANEST 683 P-Advanced Clerkship in Anesthesiology - VAMC (8) Clerkship for students desiring greater exposure to anesthesiology as a specialty. Individual programs can be arranged in the following areas: surgical anesthesia, obstetrical anesthesia, and pain clinic. (Four weeks, full-time.) Prerequisite: Third- or fourth-year student.

ANEST 684 P-Advanced Clerkship in Anesthesiology - Spokane (8) Clerkship for students desiring greater exposure to anesthesiology as a specialty. Individual programs arranged in the following areas: surgical anesthesia, obstetrical anesthesia, and pain clinic. (Four weeks, full-time.) Prerequisite: third- or fourth-year medical students.
ANEST 688 Advanced Anesthesia - Cheyenne, WY (8) Clerkship for students desiring greater exposure to anesthesiology as a specialty. Individual programs can be arranged in the following areas: surgical anesthesia, obstetrical anesthesia, and pain clinic.

ANEST 695 P-Chronic Care/Pain Management - Roosevelt (8) Exposure to pain management. Students focus on one area and are assigned to a preceptor and clinical site to concentrate their clinical activities in that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

ANEST 697 P-Anesthesiology Special Electives (*, max. 24) Special clerkships, externships, or research opportunities can at times be made available at institutions other than the University of Washington. Students wishing to elect this course should obtain a special assignment form from the dean's office at least one month before advance registration. (Four to twelve weeks, full-time.). Prerequisite: permission of instructor.

ANEST 699 P-WWAMI Anesthesiology Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.
Biochemistry

Program Overview

303 Bagley

Biochemistry is the study of the living organism at the molecular level. It draws on the techniques of analytical, organic, inorganic, and physical chemistry in determining the molecular basis of vital processes.

Undergraduate Program

Adviser
303 Bagley, Box 351700
206-616-9880, 206-543-9343, 206-685-8376
advisers@chem.washington.edu

The Biochemistry Program offers the following programs of study:

- The Bachelor of Science degree with a major in biochemistry (requires 195 credits)
- The Bachelor of Arts degree with a major in biochemistry

Suggested First- and Second-Year Courses: BIOL 180, BIOL 200 (or BIOL 201, BIOL 202); CHEM 142, CHEM 152, CHEM 162 (or accelerated series CHEM 143, CHEM 153; or Honors series CHEM 145, CHEM 155, CHEM 165); CHEM 237, CHEM 238, CHEM 239, CHEM 241, CHEM 242; MATH 124, MATH 125, MATH 126; PHYS 121, PHYS 122, PHYS 123 (or PHYS 114, PHYS 115, PHYS 116 with one physics lab course strongly recommended).

Bachelor of Science

Program Admission Requirements

Application to BA and BS degree programs in biochemistry is capacity constrained. Applicants are considered in the following groups: Direct Freshman Admission, Research/Honors Admission, Early Admission, and Regular Admission. Completion of minimum requirements described below does not guarantee admission. All applicants have the right to petition and appeal the department's admission decision. Applications are considered twice each academic year and are due on the second Friday of October and the second Friday of April, with the exception of Direct Freshman Admission. The application and additional information is available at depts.washington.edu/chem/undergrad/.

Direct Freshman Admission

1. Open to freshman students formally admitted to the UW
2. Indication on the UW freshman application of biochemistry as the student’s first choice of major
3. Successful direct-admission applicants generally have received a minimum 1400 on the SAT (math and verbal sections), or minimum 30 on the ACT
4. Admission is for autumn quarter only

Research/Honors Admission

1. Students with exceptional records can apply for consideration for admission to the biochemistry major via the Honors or Research track. Students seeking admission should submit an application that includes:
   a. Cover sheet (available on the Department of Chemistry website)
   b. Unofficial transcript
   c. Statement of purpose. May include a description of interest in biochemistry, career goals, undergraduate research interests, degree interest (BA or BS), and any other information applicant believes is useful in evaluating the application.
   d. (Research track only) Written letter or recommendation from research adviser
2. Honors Track. Students participating in the chemistry Honors sequence who have completed the following courses with a minimum 3.00 cumulative GPA: CHEM 145, CHEM 155; MATH 124 and MATH 125, or MATH 134 and MATH 135
3. Research Track. Students who have performed at least 6 credits of undergraduate research (CHEM 199, CHEM 299, or higher) and who provide a strong recommendation from faculty research adviser. Chemistry undergraduate research may be considered as well.

Early Admission

1. Course requirements: CHEM 142, CHEM 152, CHEM 162 (or accelerated series CHEM 143, CHEM 153; or Honors series CHEM 145, CHEM 155, CHEM 165); BIOL 180; MATH 124, MATH 125 (or MATH 134, MATH 135)
2. Factors included in the admission decision include academic performance as measured by GPA in courses required for application, difficulty of other courses completed, frequency of incompletes or withdrawal grades, number of repeated courses, relevant work and life experience, and record of honors.
3. Successful applicants for the BS biochemistry program typically have a cumulative GPA greater than 3.20 in courses listed above under course requirements. Successful applicants for the BA biochemistry program typically have a cumulative GPA greater than 3.00 in courses listed above under course requirements.

Regular Admission

1. Course requirements: CHEM 142, CHEM 152, CHEM 162 (or accelerated series CHEM 143, CHEM 153; or Honors series CHEM 145, CHEM 155, CHEM 165); CHEM 237,
CHEM 238 (or CHEM 335, CHEM 336); BIOL 180, BIOL 200; MATH 124, MATH 125 (or MATH 134, MATH 135)

2. Factors in the admission decision include academic performance as measured by GPA in courses required for application, difficulty of other courses completed, frequency of incompletes or withdrawal grades, number of repeated courses, relevant work and life experience, and record of honors.

3. Successful applicants for the BS biochemistry program typically have over the minimum 2.5 cumulative GPA on courses listed above under course requirements, with no individual course grade lower than a 2.0. Successful applicants for the BA biochemistry program typically have a cumulative GPA greater than 2.00 in courses listed above under course requirements, with no individual grade below a 1.7.

Major Requirements

103-114 credits

1. General Chemistry: CHEM 142, CHEM 152, CHEM 162 (or accelerated series CHEM 143, CHEM 153; or Honors series CHEM 145, CHEM 155, CHEM 165)

2. Organic Chemistry: CHEM 237, CHEM 238, CHEM 239, CHEM 241, CHEM 242 (or CHEM 335, CHEM 336, CHEM 337, CHEM 336, CHEM 346, CHEM 347)

3. Physical Chemistry: CHEM 452, CHEM 453 (or CHEM 455, CHEM 456, CHEM 457)

4. Biochemistry: BIOC 426, BIOC 440 (or BIOC 450), BIOC 441 (or BIOC 451), BIOC 442

5. Biology: BIOL 180, BIOL 200

6. Mathematics: MATH 124, MATH 125, MATH 126 (or MATH 134, MATH 135, MATH 136)

7. Physics: PHYS 121, PHYS 122, PHY 123 (or PHYS 114, PHYS 115, PHYS 116), with the PHYS 121 sequence recommended

8. Genome Science: GENOME 361 or GENOME 371

9. 11 credits chosen from a current department list (available in 303 Bagley or at depts.washington.edu/chem/undergrad/degreereqs.html) of upper-division science classes including math, biology, microbiology, chemistry, and genome sciences. Up to 9 credits of approved advanced-level undergraduate research may also be applied to this requirement. Research conducted outside chemistry or biochemistry must first be approved by a biochemistry adviser.

10. Grade and Graduation Requirements: Minimum 2.0 grade and minimum cumulative 2.50 GPA required for all chemistry, biology, and biochemistry courses counted toward the major. Minimum 2.50 GPA required for the BIOC 440, BIOC 441, and BIOC 442 sequence. Minimum 2.50 cumulative GPA required for graduation.
Bachelor of Arts

Program admission requirements same as for BS degree, above.

**Major Requirements**

90-92 credits as follows:

1. *General Chemistry:* either CHEM 142, CHEM 152, CHEM 162, (or accelerated series CHEM 143, CHEM 153; or Honors series CHEM 145, CHEM 155, CHEM 165)
2. *Organic Chemistry:* either CHEM 237, CHEM 238, CHEM 239, CHEM 241, CHEM 242, or CHEM 335, CHEM 336, CHEM 337, CHEM 346, CHEM 347
3. *Biochemistry:* BIOC 405, BIOC 406
4. *Physical Chemistry:* CHEM 452, CHEM 453
5. *Biology:* BIOL 180, BIOL 200
6. *Mathematics:* either MATH 124, MATH 125, MATH 126, or MATH 134, MATH 135, MATH 136
7. *Physics (12-15 credits):* either PHYS 121, PHYS 122, PHYS 123, or PHYS 114, PHYS 115, PHYS 116
8. *Science Electives:* 9 credits to be taken from a current department list available in 303 Bagley or at depts.washington.edu/chem/undergrad/degreereqs.html. Up to 3 credits of advanced undergraduate research may count toward this requirement. Research conducted outside chemistry or biochemistry must first be approved by a biochemistry adviser.
9. *Grade and Graduation Requirements:* Minimum 1.7 grade in chemistry, biochemistry, and biology courses required for the major. Minimum 2.00 cumulative GPA required for graduation.

**Continuation Policy**

All students must make satisfactory academic progress in the major. Failure to do so results in probation, which can lead to dismissal from the major. For the complete continuation policy, contact the departmental adviser or refer to the department website.

**Student Outcomes and Opportunities**

- *Learning Objectives and Expected Outcomes:* At the conclusion of their studies, graduating biochemistry majors should possess a general working knowledge of the basic areas of biochemistry; be proficient in basic laboratory skills; have the ability to carry out strategies for solving scientific problems; have an understanding of the principles and applications of modern instrumentation, computation, experimental design, and data analysis; have had the opportunity to gain experience with a research project; have the ability to read, understand, and use scientific literature; have an awareness of the broader
implications of biochemical processes; have had the opportunity to work as part of a team to solve scientific problems; and have had an introduction to opportunities in, and requirements for, the careers available to biochemistry majors.

Students planning a career in biomedical research, the health professions, or biotechnology find the biochemistry degree to be an excellent choice. The degree is also good preparation for graduate school in any aspect of biochemical or biomedical research.

- **Instructional and Research Facilities:** Research facilities for the department are housed in the Biochemistry-Genetics Building, which provides approximately 52,000 square feet of research space, conference rooms, and a departmental library. In the immediate vicinity are the departments of Immunology, Genome Sciences, Microbiology, and Pharmacology, as well as programs in biomolecular structure, molecular medicine, neurobiology, and molecular and cellular biology, with which the department has common research interests. Laboratories are equipped with modern research equipment and are supported by external, centralized research facilities. An emphasis on biomedical research is facilitated by the location of the department within the School of Medicine.

- **Honors Options Available:** With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.

- **Research, Internships, and Service Learning:** No formal internship program. Students are encouraged to pursue national and regional internships. See adviser for more information.

- **Program Scholarships:** Resident tuition scholarships and book prizes are awarded annually by the Department of Chemistry to eligible chemistry and biochemistry majors. Applications are available during the month of March for the following academic year. See department adviser for more information.

- **Student Organizations/Associations:**
  - Alpha Chi Sigma: the UW affiliate of the national chemistry-related science organization for chemistry and biochemistry majors
  - Phi Lambda Upsilon: the UW affiliate of the national chemistry honorary society
  - The Free Radicals: a general undergraduate club for chemistry and biochemistry majors.

**Of Special Note:**

- The Bachelor of Science in biochemistry degree requires a minimum of 193 credits.
- Students are strongly encouraged to participate in undergraduate research.

## Course Descriptions

**BIOC 405 Introduction to Biochemistry (3) NW** Survey of basic principles of biochemistry and molecular biology, emphasizing broad understanding of chemical events in living systems in
terms of metabolism and structure-function relationships of biologically important molecules. Suitable for pre-majors, for students interested in careers in medicine, dentistry, pharmacy, medical technology. Prerequisite: BIOL 200; either CHEM 223, CHEM 237, or CHEM 335. Instructors: DiMaio, Hol, Hurley Offered: A.

**BIOC 406 Introduction to Biochemistry (3) NW** Survey of basic principles of biochemistry and molecular biology, emphasizing broad understanding of chemical events in living systems in terms of metabolism and structure-function relationships of biologically important molecules. Suitable for pre-majors, for students interested in careers in medicine, dentistry, pharmacy, medical technology. Prerequisite: BIOC 405. Instructors: Ailion, Brzovic Offered: W.

**BIOC 426 Basic Techniques in Biochemistry (4) NW** Introduction to basic biochemistry experiments. Acquaints students (largely biochemistry majors) with basic biochemical laboratory techniques. Prerequisite: BIOC 440, which may be taken concurrently. Instructors: Lewis, Verlinde Offered: ASp.

**BIOC 440 Biochemistry (4) NW** Biochemistry and molecular biology for undergraduate students in molecular and cellular biology, for biochemistry majors, and graduate students in other science departments. Prerequisite: minimum grade of 2.5 BIOL 200; 2.5 in either CHEM 224, CHEM 239, or CHEM 337; 2.0 in either MATH 124, MATH 134, or MATH 144. Instructors: Brockerhoff, Klevit, Kollman Offered: A.

**BIOC 441 Biochemistry (4) NW** Biochemistry and molecular biology for undergraduate students in molecular and cellular biology, for biochemistry majors, and graduate students in other science departments. Prerequisite: minimum grade of 2.2 in BIOC 440. Instructors: Hoppins, Miller, Morris, Weiner Offered: W.

**BIOC 442 Biochemistry (4) NW** Biochemistry and molecular biology for undergraduate students in molecular and cellular biology, for biochemistry majors, and graduate students in other science departments. Prerequisite: either 2.2 in BIOC 406 or 2.2 in BIOC 441, or a 2.2 in BIOC 451. Offered: Sp.

**BIOC 450 Honors Biochemistry: Visualizing Biochemical Concepts (4) NW** R. KLEVIT, A. WILLS For Biochemistry majors and molecular and cell biology majors. Core concepts in biochemistry, including protein structure, compartmentalization of reactions, thermodynamics and kinetics in a biological context, energy production, and regulation of metabolic pathways. HONORS BIOC covers the same topics as BIOC 440, but emphasizes group exercises and analysis of primary literature. Offered: A.

**BIOC 451 Honors Introduction to Biochemistry (4) D. MORRIS, A. WEINER** BIOC is the honors version of BIOC 441; it covers the same topics in metabolism and gene expression using the same textbook, but is taught as a group discussion of selected publications from the primary literature, with an emphasis on research strategy, experimental design, creative thinking, and scientific communication. Offered: W.
BIOC 499 Undergraduate Research (*, max. 35) Investigative work on enzymes, proteins, lipids, molecular biology, developmental biology, intermediary metabolism, physical biochemistry, and related fields. Credit/no-credit only. Offered: AWSpS.

BIOC 510 ISCRM Research Updates and Stem Cell Club ([0/1]-, max. 12) Ruohola-Baker, Ware Presents ongoing research at the Institute for Stem Cell and Regenerative Medicine. Includes diverse subject matter in regenerative medicine, with new, unpublished data, and opportunity to identify collaborations and contacts for discussion, and an understanding of the state of the art. Credit/no-credit only. Offered: jointly with CONJ 510.

BIOC 520 Seminar (1) J. HURLEY Seminar dealing with timely topics in the field of biochemistry. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSp.

BIOC 530 Introduction to Structural Biology (3) Graduate-level discussion of the structure, function, and chemistry of proteins, control of enzymatic reactions. Prerequisite: a comprehensive course in biochemistry and permission. Instructors: Baker, Daggett, Hol, Klevit, Merritt, Verlinde, Weiner, Zheng Offered: A.

BIOC 533 Topics In Biochemistry (1, max. 30) Provides in-depth examination of current topics in biochemistry, molecular biology, and structural biology. Designed to help participants in basic science departments become acquainted with latest ideas on selected topics. Emphasis on analysis of key concepts in the field with reference to classical papers and recent literature. Prerequisite: permission of instructor. Instructor: Miller Offered: AWSp.

BIOC 534 Topics In Molecular Biophysics (1.5, max. 30) Emphasis on methods used to study macromolecular structure and dynamics, including x-ray crystallography, NMR, optical spectroscopy, computer modeling, protein folding and ligand binding. Two topics covered each quarter; students may register for one or both. Prerequisite: permission of instructor. Offered: AWSp.

BIOC 540 Literature Review (2) D. VEESLER Emphasizes critical evaluation of original articles in the literature. For first-year graduate students in biochemistry and students of other science departments, with permission of instructor. Offered: jointly with BPSD 540; A.

BIOC 541 Literature Review (2) Chamberlain, Loeb, Palmiter Emphasizes critical evaluation of original articles in the literature. For first-year graduate students in biochemistry and students of other science departments, with permission of instructor. Offered: W.

BIOC 542 Literature Review (2) Hauscka Emphasizes critical evaluation of original articles in the literature. For first-year graduate students in biochemistry and students of other science departments, with permission of instructor. Offered: Sp.

BIOC 581 Introduction to Biochemical Research (4, max. 16) Student works with one of the research groups within the department for one quarter and then rotates to other laboratories for second and third quarters. Prerequisite: graduate standing in biochemistry or permission of instructor. Credit/no-credit only. Offered: AWSpS.
BIOC 600 Independent Study or Research (*-) Offered: AWSpS.

BIOC 700 Master's Thesis (*-) Offered: AWSpS.

BIOC 800 Doctoral Dissertation (*-) Offered: AWSpS.
Bioengineering

See the Interschool or Intercollege Programs section of this catalog.
Bioethics and Humanities

A204 Health Sciences Building

Undergraduate Program

Adviser
A204 Health Sciences Building Box 357120
206-543-5145
bhadvise@uw.edu

The Department of Bioethics and Humanities offers the following program of study:

- A minor in bioethics

Minor

Minor Requirements: 25 credits

1. Minimum 18 credits of bioethics and humanities courses
2. Electives from an approved list to reach 25 credits. If a B H course is cross-listed with another department's course, the course may be counted toward the B H-course minimum even if taken under the other department's prefix. See program website for more information on electives.
3. Minimum 2.0 grade in courses presented for the minor

Graduate Program

Graduate Program Coordinator 206-221-6548 gradprog@uw.edu

The department offers a two-year master of arts in bioethics. The program offers training in research and clinical aspects of bioethics as well as empirical and normative methods of analysis.

Students study with diverse and well-respected faculty from the University of Washington, the Treuman Katz Pediatric Bioethics Center, and the Seattle Veterans' Health Administration. The program helps prepare students to teach, publish, and conduct research that incorporates bioethics analysis.
Master of Arts

Application and Admission

Qualified candidates include:

1. Practicing clinicians, biomedical scientists, health lawyers, post-doctoral fellows, and physicians accepted into a UW clinical fellowship program or the Treuman Katz Pediatric Bioethics Fellowship program.

2. Students currently enrolled in a professional degree program at the University of Washington (i.e. Law, Nursing, or Medicine).

Candidates should possess strong writing, critical thinking, and verbal communication skills. GRE scores are not required. Application due date is March 1.

Degree Requirements

40 credits, as follows:

1. Ethical theory (10 credits)
2. Empirical research methods (6 credits)
3. Clinical ethics (6 credits)
4. Research ethics (3 credits)
5. Approved electives (6 credits)
6. Practicum (3 credits)
7. Master's project (6 credits)

Students are encouraged to take additional electives based on interest and area of specialty, with guidance from their faculty mentor(s).

Opportunities for in-depth study on a topic of interest are available through elective courses, mentored research, and practicum experiences.

Course Descriptions

B H 201 Topics in Population Bioethics (2) I&S Introduces students to bioethical questions that arise in public health, population health, and global health, situating ethical questions and challenges within a broader social context and perspective. Students interact in a small-scale learning environment with classmates and faculty and have the opportunity to learn more about the Bioethics Minor. Credit/no-credit only. Offered: Sp.
B H 311 Ethical Issues in Modern Medicine (3) I&S  N. JECKER  Case-based approach to ethical topics in medicine, such as abortion, genetic testing, physician-assisted death, and euthanasia. Emphasizes utilizing ethical principles and methods of case analysis. Offered: Sp.

B H 339 Bioethics: Secular and Jewish Perspectives (5) I&S  H. Khazzam-Horovitz  Explores legal, ethical, scientific, and Biblical-Rabbinic & contemporary religious perspectives on contemporary medical and biomedical research practices. Review of key differences between secular and Jewish approaches in interpretation, analysis and application of bioethics. The topics include: doctor-patient relationships; reproductive methods; abortion; euthanasia; and stem cell research. Offered: jointly with JEW ST 339.

B H 402 Ethical Theory (5) I&S  N. JECKER  Studies the major normative ethical theories, including both teleological and deontological approaches. Emphasizes moral philosophy during the eighteenth and nineteenth centuries, as well as contemporary commentary. Offered: jointly with PHIL 412.

B H 404 Metaethical Theory (5) I&S  N. JECKER  Studies the major metaethical theories, including both cognitivist and noncognitivist approaches. Emphasizes moral philosophy during the twentieth century, as well as contemporary commentary. Offered: jointly with PHIL 413.

B H 409 Ethics and the Social Determinants of Health (3) I&S, DIV  E. Blacksher  Examines ethical issues confronting healthcare workers caring for poor & minority populations, whose capacity for health and recovery from disease are compromised by social conditions in which they grow up, live, work, and age. Aims to broaden/reorient understandings of disease, patient autonomy, and clinician duties within contexts of structural inequalities related to socioeconomic status/race/ethnicity/gender/other salient social differences. Offered: Sp.

B H 420 Philosophical Problems in Bioethics (3) I&S  Jecker  Introduces the philosophical concepts and controversies that underlie contemporary bioethical debates. Explores issues using the literature of bioethics and philosophy, contemporary film, works of fiction, and conversations with health professionals. Students learn philosophical methods of analysis and argument, and debate different sides of ethical issues.

B H 421 History of Eugenics (5) I&S  Woiak  Examines the history of ideas, policies, and practices associated with eugenics and human genetics from the late nineteenth century to the present in American society and other national contexts. Offered: jointly with DIS ST 421.

B H 440 Philosophy of Medicine (5) I&S  N. JECKER  Familiarizes students with central issues in the philosophy of medicine. Focuses on the nature of medical knowledge, the connection between theory and observation, the meaning of medical concepts, and the relationship between theories and the world. Offered: jointly with PHIL 459.

B H 444 Ethical Implications of Emerging Biotechnology (3) S. FULLERTON  Introduces students to select biotechnology innovations and invites consideration of the ethical and policy implications surrounding their development and potential use. Offered: W.
B H 456 Social Justice and Health (5) I&S Blacksher Examines the moral grounds for the view that social inequalities in health are unjust using contemporary literature from moral philosophy and bioethics, case studies, and film. Explores basic questions integral to determinations of social injustice as well as moral constraints on the pursuit of health equity.

B H 460 Reflections on Research, Responsibility, and Society (3) I&S Explores ethical and policy issues that emerge in the conduct of basic, applied, translational, community-based, and collaborative research. Addresses the ethical debates that arise in the context of planning, implementing, and disseminating research.

B H 474 Justice in Health Care (5) VLPA/I&S N. JECKER Examination of the ethical problem of allocating scarce medical resources. Emphasizes the fundamental principles of justice that support alternative health policies. Offered: jointly with PHIL 411.

B H 497 Bioethics and Humanities Special Electives (*-, max. 30)

B H 499 Undergraduate Research (*, max. 5) Investigative work in biomedical ethics or history of the biomedical sciences.

B H 502 Ethical Theory (5) Jecker Studies the major normative ethical theories, including both teleological and deontological approaches. Emphasizes moral philosophy during the eighteenth and nineteenth centuries, as well as contemporary commentary. Offered: A.

B H 509 Ethics and the Social Determinants of Health (3) E. Blacksher Examines ethical issues confronting healthcare workers caring for poor & minority populations, whose capacity for health and recovery from disease are compromised by social conditions in which they grow up, live, work, and age. Aims to broaden/reorient understandings of disease, patient autonomy, and clinician duties within contexts of structural inequalities related to socioeconomic status/race/ethnicity/gender/other salient social differences. Offered: Sp.

B H 513 P-Ethical Responsibilities of Medical Practice (2) Dudzinski, McCormick Provides intensive and practical guidance about management of principal ethical and legal problems that arise in clinical practice: informed consent, confidentiality, decisions regarding life-support, advance directives and surrogate decision-makers, duty to care for indigent and risky patients. One week intensive course. Offered: S.

B H 514 Legal, Ethical, and Social Issues in Public Health Genetics (3) Equips the student to anticipate and assess potential legal, ethical, and social barriers complicating the incursion of new genetic advances, information, and technologies into public and private healthcare delivery efforts. Prerequisite: GENOME 361, GENOME 371, or equivalent. Offered: jointly with LAW H 504/PHG 512; A.

B H 518 Spirituality in Healthcare (2) Examination of the beliefs, values, meaning, and spirituality of health professionals for the well-being of their patients as well as for themselves. Offered: jointly with FAMED 547/SOC W 587; Sp.
B H 527 Social Science Research Methods (3)  
*D. Bowen*  
Introduces students to research methods in bioethics, ranging from qualitative to quantitative: interviews, focus groups, surveys, and experimental and observational designs. Students write research questions, match research methods to research questions, and conclude with a proposal that uses a social sciences empirical approach to address their research question. Offered: jointly with PHG 527; Sp.

B H 535 Medical Ethics and Jurisprudence (3-)  
*Dudzinski, Kuszler*  
Examines the relationship between bioethics and law. Reviews the basic concepts of both disciplines; their theoretical and practical connections. Analysis of principle legal cases and statutes illustrating such issues as informed consent to treatment, foregoing life support, research with human subjects, confidentiality, and allocation of health care resources. Offered: jointly with LAW H 503.

B H 536 Research Ethics and Regulation (3)  
*Mastroianni*  
Explores the ethical foundations, principles and concepts, and U.S. laws related to the conduct of research with human subjects. Required for graduate students in the Department of Bioethics and Humanities, School of Medicine. Offered: jointly with LAW H 536; W.

B H 539 Bioethics: Secular and Jewish Perspectives (5)  
*Khazzam-Horovitz*  
Explores legal, ethical, scientific, and Biblical-Rabbinic & contemporary religious perspectives on contemporary medical and biomedical research practices. Review of key differences between secular and Jewish approaches in interpretation, analysis and application of bioethics. The topics include: doctor-patient relationships; reproductive methods; abortion; euthanasia; and stem cell research. Offered: jointly with JEW ST 539.

B H 544 Ethical Implications of Emerging Biotechnology (3)  
*S. Fullerton*  
Introduces students to select biotechnology innovations and invites consideration of the ethical and policy implications surrounding their development and potential use. Offered: jointly with PHG 544; W.

B H 548 Methods in Clinical Ethics (3)  
Introduces the history, practice, and research methods in clinical ethics. Case-based examination of methods including principalism, casuistry, narrative methods, virtue ethics. Prerequisite: permission of instructor. Instructors: Schellenberg  Offered: A.

B H 551 Human Genomics: Science, Ethics, and Society (3)  
Explores the ethical and social implications of human molecular genetics and genomics investigation. Recent research is critically evaluated for its potential impact on scientific practice, research participation, and societal understandings. Prerequisite: LAW H 504/B H 514/ PHG 512 or permission of instructor. Instructors: Fullerton  Offered: jointly with GENOME 573; A.

B H 552 Advanced Qualitative Methods (4)  
*Starks*  
Examines and compares phenomenology, discourse analysis, and grounded theory. Reviews the history of ideas and critically reads examples of published articles to appreciate how each method frames questions and produces different analyses.
B H 553 International Research Ethics, Law, and Policy (3) Kuszler, Rivin Exploration of legal requirements and ethical principles related to responsible conduct and research in a variety of different government structures, healthcare systems, and research environment. Compares and contrasts law and ethical standards applicable to research enterprises in developing countries, industrialized countries, and ethically distinct communities. Offered: jointly with LAW H 511; A.

B H 556 Social Justice and Health (5) Blacksher Examines the moral grounds for the view that social inequalities in health are unjust, using contemporary literature from moral philosophy and bioethics, case studies, and film. Explores basic questions integral to determinations of social injustice as well as moral constraints on the pursuit of health equity.

B H 560 Genomics, Ethics, and Policy (2, max. 10) Burke, Edwards, Fullerton, Starks Explores the intersection of genomics, ethics, and policy, with a particular focus on examining the benefits of genomics for medically underserved communities. Offered: S.

B H 562 Ethical Issues in Pediatrics (3) D. Diekema, N. Jecker Provides a survey of contemporary ethical issues that arise in the clinical and research environment when children are involved, including the role of children and adolescents in decision-making, the limits of parental decision-making authority, and issues related to genetic testing, transplantation, research, and public health. Offered: A.

B H 566 Introduction to Person Centered and Interprofessional Palliative Care (1-5) A. Doorenbos Introduces fundamental concepts in narrative and person centered communication and interprofessional practice. Presents foundations for learning to apply an interdisciplinary approach to palliative care. Offered: jointly with FAMED 531/NSG 526; A.

B H 567 Advanced Topics in Person Centered and Interprofessional Palliative Care (5) A. Doorenbos Interprofessional course presenting advanced concepts in narrative and person centered communication and interprofessional practice. Requires admissions into the Palliative Care Graduate Certificate Program. Prerequisite: NSG 526 (Introduction to Person Centered and Interprofessional Palliative Care) or Permission of Instructor Offered: jointly with FAMED 532/NSG 527; W.

B H 568 Palliative Care: Quality Metrics and System Integration (5) A. Doorenbos Prepares students to integrate team based palliative care into a larger system, introduces community engagement, and palliative care policy issues. Specific content includes building palliative care service, engaging leadership to support palliative care, and using quality metrics to leverage and support quality care. Requires admissions into the Palliative Care Graduate Certificate Program. Prerequisite: Completion of NSG 526 and NSG 527. Offered: jointly with FAMED 533/NSG 528; Sp.

B H 574 Justice for Healthcare (5) N. JECKER Examination of the ethical problem of allocating scarce medical resources. Emphasizes fundamental principles of justice that support alternative health policies. Offered: W.
**B H 590 Health Ethics: Theory (4)** Explores ethical theories and shows how they are interpreted and applied in clinical contexts. Examines deontological and teleological approaches, including utilitarianism, Kant's ethics, Aristotle's ethics, Rawls's ethics, and feminist ethics. Builds knowledge of ethical theories, skills of ethical argument, and practice using theories in case analysis. Credit/no-credit only. Offered: A.

**B H 591 Health Ethics: Law (4)** Explores legal cases, laws, statutes as well as paradigm ethics cases that inform clinical ethics consultation. Focus on ethical and legal issues that arise for ethics consultants from conception (assisted reproductive technologies) through death (withdrawing life-sustaining treatments). Addresses equity issues inherent in our polarized health care system. Credit/no-credit only. Offered: W.

**B H 592 Healthcare Ethics: Consultation Methods (4)** Explores the methodologies through which students can employ ethical theory in clinical contexts. Coursework investigates ethical approaches, such as Virtue Theory, Feminist Ethics, and Casuistry. Assignments build the skills of communication and ethical analysis used in the clinical setting, such as writing chart notes and facilitating case discussion. Offered: Sp.

**B H 595 Ethics Practicum (1-6, max. 6)** Students participate in clinical ethics rounds, case discussions, review of research protocols, or other professional activities related to bioethics. Prerequisite: permission of instructor. Credit/no-credit only.

**B H 596 Master's Research Project ([1-12]-, max. 12)** Research project culminating in a scholarly paper suitable for publication in a peer-reviewed journal. Majors only. Credit/no-credit only.

**B H 597 Special Topics in Medical Ethics (1-5, max. 15)**

**B H 600 Independent Study or Research (*-)**
Biological Structure

Department Overview

G520 Health Sciences

The department promotes an understanding of biological processes through the study and analysis of structure-function relationships. Research problems that interest members of the faculty are diverse, including cellular differentiation and development explored in a variety of biological systems, neuroscience, molecular biophysics, biomolecular structure, and quantitative biology with an emphasis on computer-graphic representations of biological structures.

The department recruits students through interdisciplinary PhD programs at the UW. Faculty are affiliated with one or more of the programs that provide training in a wide range of scientific research areas. These multidisciplinary programs include faculty from the departments of Biochemistry, Bioengineering, Biological Structure, Biology, Environmental Health, Genetics, Immunology, Microbiology, Molecular Biotechnology, Oceanography, Pathobiology, Pathology, Pharmacology, and Physiology and Biophysics, as well as research groups in the Fred Hutchinson Cancer Research Center.

The department does not offer a specific course of study leading to a master of science degree. An MS degree may be awarded, however, for students who meet the following requirements: One year of coursework (30 credits), concentrating in one or more areas that include neurobiology, cell and molecular biology, or developmental biology. Minimum 30 credits of research. Basic knowledge of statistics. One quarter of teaching as an assistant. A thesis committee approves the course of study, administers a general examination, and reviews the research proposal prior to the thesis defense.

Course Descriptions

B STR 498 Undergraduate Thesis (*, max. 30) Individual research projects under the supervision of an instructor. For senior medical students. Offered: AWSpS.

B STR 499 Undergraduate Research (*, max. 30) Individual research projects in cellular and developmental biology, experimental immunology, reproductive biology, neurobiology, molecular structure, morphometrics, computer modeling, and related fields under the supervision of an instructor. Offered: AWSpS.

B STR 510 Seminar in Anatomy (1) Scientific and historical basis of selected studies in biological structure, anatomy, and human development. Original literature used as basis for textbook descriptions. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSp.
B STR 515 Biological X-Ray Structure Analysis (3) Theory of x-ray diffraction, with emphasis on applications to biological systems. Prerequisite: permission of instructor. Instructors: Stenkamp Offered: W.

B STR 519 Current Problems in Macromolecular Structure (2, max. 10) Stenkamp Macromolecular structures related to specific areas of biological research. Emphasis on discussion of relevant research papers and use of computer graphics to visualize the molecular structures. Offered: AWSpS.

B STR 520 Structure Based Design of Drugs (3, max. 9) Hol, Verlinde Research papers illustrating protein-structure-based design of new drugs. Review of methods and extensive discussion of all known mechanisms of drug resistance. Offered: W, even years.

B STR 521 Advanced Biomacromolecular Crystallography (3, max. 9) Hol, Merritt, Stenkamp Aspects of protein crystallography ranging from crystal growth, phase determination methods, density averaging to refinement, fiber diffraction of DNA and proteins. Offered: W, odd years.

B STR 540 Special Problems in Anatomy (1-6, max. 6) Special projects in anatomy under sponsorship of faculty member. Prerequisite: graduate, medical, or dental student standing and permission of instructor. Offered: AWSpS.

B STR 555 Laboratory Rotation in Biological Structure (*, max. 5) Introduction to experimental design, research methods, and scientific thought in laboratories of faculty members. Provides hands-on experience, an entrance into the literature of the field, and opportunities for discussion with all members of the laboratory. First-year dental students only. Prerequisite: permission of instructor. Offered: AWSpS.

B STR 557 Biomolecular Structure Seminar (1, max. 9) Literature review of key research in biomolecular structure in the form of short presentations by participants followed by discussion. Critical evaluation of methods and results regarding properties and protein structure determination. Prerequisite: graduate standing in biological structure or biochemistry and permission of instructor. Instructors: Hol Credit/no-credit only. Offered: AWSp.

B STR 580 P-Anatomy Teaching Practicum (*, max. 8) Opportunity for medical student (or other professional student) to gain teaching experience in biological structure and human biology courses, including gross anatomy, histology, and neuroanatomy. May include lecture, laboratory, conference, depending on student interest, experience. Credit based on course credit in which student is assisting. Prerequisite: permission of course chairperson. Instructors: Clark Offered: AWSp.

B STR 584 Seminar in Neurogenesis (1, max. 16) Current research on process by which neurons are generated in the nervous system. Prerequisite: permission of instructor. Instructors: Bermingham-McDonogh, Dhaka Offered: AWSpS.
**B STR 590 Electron Cryo-Microscopy of Biological Macromolecules and Complexes (3)**
*Wang* Introduces high-resolution cryo-electron microscopy (cryoEM); image formation and three-dimensional reconstruction theories and available software. Includes hands-on experience using the cryoEM facility for data collection and analysis; and presentations on student projects. Offered: ASp.

**B STR 591 X-Ray and NMR Analysis of Macromolecular Structure (1, max. 9)** Current topics in research on molecular structure, usually emphasizing techniques of x-ray crystallography. Prerequisite: permission of instructor. Instructors: Hol Credit/no-credit only. Offered: A/W/SpS.

**B STR 598 Reading in Biological Structure (2)** Critical evaluation of research in biological structure, including current problems, methods, and future directions by reading and discussing research and review papers. Prerequisite: permission of instructor. Credit/no-credit only. Offered: A/W/SpS.

**B STR 600 Independent Study or Research (*/-*)** Offered: A/W/SpS.

**B STR 700 Master's Thesis (*/-*)** Offered: A/W/SpS.

**B STR 800 Doctoral Dissertation (*/-*)** Offered: A/W/SpS.
Biomedical Informatics and Medical Education

Department Overview

The department consists of two units: (1) the Division of Medical Education and Evaluation and (2) the Division of Biomedical and Health Informatics. Medical Education and Evaluation provides training, research, and service in educational areas central to medical education including faculty and course evaluation, construction and scoring of examinations, curriculum development, implementation of innovative educational methodologies such as standardized patients and web-based simulated patients, faculty development, and research consultation (http://bime.uw.edu). Biomedical and Health Informatics (BHI) consists of a research and training program that emphasizes both basic and applied aspects of informatics (http://bime.uw.edu). BHI houses a National Library of Medicine Training Grant supporting pre- and postdoctoral fellows.

The department offers courses in the theory and application of medical education and biomedical and health informatics – designed for faculty, graduate and undergraduate students, postgraduates, and fellows in the health sciences who desire further training in methods, issues, research, and technology of medical education and biomedical informatics. BIME offers research master's and doctoral degrees, as well as fellowship training, in biomedical and health informatics.

Graduate Program

Graduate Program Adviser
UW Medicine, South Lake Union, Box 358047
206-616-0369
informat@uw.edu

Master of Science

Admission Requirements

1. Baccalaureate degree from an institution within the United States or equivalent degree from a recognized college or university from outside the United States
2. Minimum 3.00 undergraduate GPA, for the last 90 graded quarter credits or 60 graded semester credits
3. Prior formal college-level coursework, verified by official transcripts, in mathematics (including statistics), computer programming (at least two quarters), and biology (or zoology), as evidenced by official transcripts
4. GRE scores unless the applicant holds an earned doctorate (such as PhD, DDS, MD, EdD, JD) from an accredited U.S. institution. GRE scores must be from testing within the past five years.

5. GRE scores for all international applicants, including holders of foreign doctorates (such as PhD, DDS, MD, EdD, JD).

6. A test of English language proficiency (usually the TOEFL) for most international applicants, unless they have an earned an undergraduate or graduate degree from an accredited U.S. institution. For the TOEFL a minimum score of 600 (paper-based), 100 Internet-based), or 250 (computer-based); scores must be from a test taken within the past two years. IELTS scores are not accepted.

Degree Requirements

60 credits, as follows:

1. Core courses: BIME 530, BIME 533, BIME 534, BIME 535, BIME 537, BIME 539, BIME 543, BIME 550, BIOST 517 (or BIOST 537 or other approved equivalent biostatistics graduate course). BIME 543 effective for autumn 2015 cohort, or later; BIOST 537 effective for autumn 2014 cohort, or later.

2. Elective courses: Approved courses related to one’s plan of study and research interests.

3. Research seminars: BIME 590 or BIME 591 (6 credits)

4. Thesis and final examination:

5. Cumulative 3.25 minimum GPA and quarterly 3.0 minimum GPA. Minimum 9 700-level thesis credits over at least two quarters. Minimum 30 credits from numerically graded courses. Only courses grades 2.7 and above count toward the degree.

Doctor of Philosophy

Admission Requirements

1. Baccalaureate degree from an institution within the United States or equivalent degree from a recognized college or university from outside the United States

2. Minimum 3.00 undergraduate GPA for the last 90 graded quarter credits or 60 graded semester credits

3. Prior college-level coursework, verified by official transcripts, in mathematics (including statistics), computer programming (at least two quarters), and biology (or zoology)

4. GRE scores, unless the applicant holds an earned doctorate (such as PhD, DDS, MD, EdD, JD) from an accredited U.S. institution. The GRE scores must be from testing within the past five years.

5. GRE scores for all international applicants, including holders of foreign doctorates (such as PhD, DDS, MD, EdD, JD)

6. A test of English language proficiency (usually the TOEFL) for most international applicants, unless they have an earned undergraduate or graduate degree from an accredited U.S. institution. For the TOEFL a minimum score of 600 (paper-based), 100
Internet-based), or 250 (computer-based). Scores must be from a test taken within the past two years. IELTS scores are not accepted.

**Degree Requirements**

90 credits

1. *Core courses:* BIME 530, BIME 533, BIME 534, BIME 535, BIME 537, BIME 539, BIME 543, BIME 550; BIOST 517 (or BIOST 537, or other approved equivalent biostatistics graduate course). BIME 543 effective for 2015 cohort, or later; BIOST 517 effective for autumn 2014, or later.

2. *Depth of knowledge courses:* Five additional approved courses in the area of specialization.

3. *Research seminars:* BIME 590 or BIME 591 (12 credits)

4. *Qualifying, general, and final examinations:* 60 credits completed prior to general examination; 27 800-level dissertation credits over at least three quarters

5. Minimum 3.0 quarterly GPA; minimum 3.25 cumulative GPA; only courses graded 2.7 and above count toward the degree; minimum 60 UW credits

**Course Descriptions**

**BIME 498 Special Topics in Biomedical and Health Informatics (1-5, max. 15)** Readings, lectures, and discussions pertaining to significant problems or issues in biomedical and health informatics.

**BIME 499 Undergraduate Research (*, max. 12)** Investigative research or directed readings in medical education and in biomedical and health informatics. Prerequisite: permission of instructor.

**BIME 520 Teaching Methods in Medical Education (2)** C. SCOTT Empirical and theoretical merits of different teaching methods as applied to medical education. Structuring and leading group discussions, using questions, organizing and delivering lectures, identifying styles of clinical supervision, providing constructive feedback, and presenting effective clinical demonstrations. Offered: Sp.

**BIME 521 Evaluation of Learning in the Health Sciences (3)** J. CARLINE Basic issues and methods for evaluation of learning: cognitive performance, psychomotor skills, and reasoning abilities in classroom, laboratory, and clinical settings. Practical applications of instruments such as multiple-choice questions, essays, oral examinations, checklists, rating scales, simulations, and patient management problems.

**BIME 522 Research in Medical Education (2)** C. SCOTT Individualized, problem-based overviews of research methods and research design pertinent to research and scholarship in medical education. Development and sequencing of research projects from conceptualization
through literature review, including proposal development, project implementation, data
management, analysis, and write-up. Assessment and critical reading of related literature
stressed. Offered: A.

**BIME 530 Introduction to Biomedical and Health Informatics (3)** *J. GENNARI* Overview of
biomedical and health informatics concepts, theories, and applications, including the historical
evolution and the current and future research directions within the context of information flow in
healthcare settings. Offered: A.

**BIME 533 Public Health and Informatics (3)** *A. TURNER* Introduction to the emerging field
of public health informatics. Covers general public health topics as well as key public health
informatics issues and applications. Evaluates a public health information system. Prerequisite:
either BIME 530 or permission of instructor. Offered: jointly with HSERV 509; W.

**BIME 534 Biology and Informatics (3)** *N. ABERNETHY* Provides an introduction to some of
the fundamental concepts in core fields of biology; the information representation and
management problems that arise from these fields; and current and potential informatics
solutions to these problems. Offered: Sp.

**BIME 535 Clinical Care and Informatics (3)** *D. MASUDA* Explores the ways in which
information technology affect healthcare delivery system design and delivery. Considers current
and future research questions and trends as well as current and future application opportunities
and challenges. Offered: A.

**BIME 537 Informatics Research and Evaluation Methods (4)** *N. ABERNETHY* Introduces the
many facets of evaluation and research for biomedical and health informatics projects. Focuses
on formal studies of the application of information technology in medicine, conducted while an
information resource is under development and after the resource is in routine service. Offered:
W.

**BIME 539 Teaching, Learning, and Communication in Biomedical and Health Informatics
(4)** *D. MASUDA* Covers learning theory and teaching/communication skills specific to
informatics practitioners and researchers. Reviews current learning theories applicable to
undergraduate and graduate education. Helps to develop and practice effective teaching
techniques. Offered: A.

**BIME 540 Critically Appraising and Applying Evidence in Healthcare (3)** *F. WOLF*
Literature appraisal skills for various articles (therapy effectiveness, diagnostic tests, literature
reviews, clinical measurement, prognosis, quality of care, decision analysis, causation/etiology,
guidelines, and economic evaluation). Appraisal of clinical information from literature,
strengths/weaknesses of data, analyses, study design/applicability to a current patient's problem.
Prerequisite: permission of instructor. Offered: jointly with HSERV 528; W.

**BIME 541 Introduction to Systematic Reviews and Meta-Analysis of Evidence (3)** *F. WOLF*
Conceptual understanding of the quantitative methods used to synthesize evidence. Methods for
pooling evidence across independent studies, pooling binary/continuous outcomes, differences
between fixed and random effects models, and guidelines for appraising published systematic reviews/meta-analyses. Prerequisite: either introductory level courses in statistics, epidemiology, or biostatistics or permission of instructor. Offered: jointly with EPI 541/HSERV 529/PHARM 529.

**BIME 543 Consumer Health Informatics (3)** This course provides an introduction to consumer health informatics (CHI) including theories of health behavior and information behavior; key concepts and terminology; and application domains. The course will cover issues such as health literacy, patient-centered communication, patient empowerment, and privacy; and application domains including personal health records, m-Health, and telehealth.

**BIME 550 Knowledge Representation and Applications (3)** *J. Gennari* Defines knowledge representations and explores how knowledge presentations and ontologies are used in the semantic web and why these issues are important for biomedical informatics application builders. Uses a research focus to explore foundational theoretical issues and choices facing application builders. Offered: W.

**BIME 554 Biomedical Information Interactions and Design (4)** Introduction to theoretical frameworks and research methodologies that underpin the study of human-information interactions and the design of biomedical information systems to support them. Emphasis on understanding informational needs and specifications that drive the design of health information systems. Offered: Sp.

**BIME 570 Health Sciences Information Needs, Resources, and Environment (3)** *S. Fuller* Characteristics of users of health sciences information; health professionals, researchers, consumers and patients; environments (academic health sciences centers, hospitals, clinics, and public libraries); evaluation of information resources in health care; types and uses of health information management systems; policy issues, professional standards, education, and certification. Offered: jointly with LIS 528; Sp.

**BIME 581 Telehealth Systems and Applications (4)** *G. Demiris* Prepares consumers, managers, and researchers of telehealth systems through guided exploration into the components of such systems. Introduces challenges and opportunities facing designers and managers of telehealth and remote healthcare delivery networks. Offered: jointly with NSG 540.

**BIME 590 Selected Topics in Biomedical and Health Informatics (1-3, max. 12)** Computers and information technology are improving and changing healthcare education, research, and clinical practice. Informatics faculty and researchers from the UW and affiliated institutions present their research findings as well as discuss their views of national developments in their respective disciplines. Prerequisite: permission of instructor. Credit/no-credit only.

**BIME 591 Biomedical and Health Informatics Research Colloquium (1, max. 12)** Provides forum for extensive interactive research discussions. Format is round table with short presentations and long facilitated discussion amongst students and core BHI faculty. Both students and faculty present. Topics primarily research focused (ongoing and proposed research.), but also journal articles, current topics of debate, and other. Credit/no-credit only.
BIME 598 Special Topics in Biomedical and Health Informatics (1-4, max. 12) Readings, lectures, and discussions pertaining to a significant biomedical and health informatics problem or an emerging issue. Topics vary.

BIME 600 Independent Study/Research ([1-10]-) Individual readings or study, including independent study in preparation for doctoral examinations, research, etc. Prerequisite: permission of instructor.

BIME 700 Master's Thesis ([1-15]-) Prerequisite: permission of instructor.

BIME 800 Doctoral Dissertation ([1-10]-)
Comparative Medicine

Department Overview

T142 Health Sciences

The department provides education and research opportunities in the use of animals in biomedical research, testing, and education. In addition, training is provided for veterinarians in the diagnosis, treatment, and prevention of the diseases of laboratory animals. Current educational programs include scheduled courses in the principles and techniques of animal experimentation (C MED 407) for biomedical graduate students, zoonotic diseases, and training in laboratory-animal medicine for veterinary medical students and veterinarians, combined with a master of science degree program in comparative medicine. Areas of current research interests include enteric disease, lymphocyte biology, biology of aging, mouse genomics, generation and characterization of transgenic animal models, somatic cell gene transfer, and animal models of gene therapy.

Graduate Programs

Graduate Program Coordinator
T136 Health Sciences, Box 351790
206-685-3261

Postdoctoral Program

Postdoctoral training in laboratory animal medicine and comparative pathology is offered to persons with a D.V.M. or equivalent degree. Training consists of coursework, clinical residency rotations, and research leading to a Master of Science degree in comparative medicine. The program also prepares participants for specialty certification by the American College of Laboratory Animal Medicine. Financial assistance is normally provided. A detailed description of the postdoctoral program is available at depts.washington.edu/compmed/.

Master of Science

The Master of Science degree in comparative medicine provides advanced training in comparative medicine to veterinarians. Admission requires acceptance into the department's postdoctoral training program. The degree option involves additional elective courses, the completion of a more-involved research project, and a thesis.

Predoctoral Program

Designed to acquaint veterinary medical students with laboratory-animal medicine as a veterinary specialty. Specific areas covered include control/treatment of the principal diseases of
common laboratory animals and their role in biomedical research. Blocks of four to eight weeks are available for fourth-year students year-round. Stipend support is normally provided.

Course Descriptions

C MED 499 Undergraduate Laboratory Research (1-6, max. 12) B. IRITANI, W. LADIGES, L. PRICE, M. RUDDELL Specific problems in comparative medicine. Credit/no-credit only. Offered: AWSpS.

C MED 512 Introduction to the Anatomical Analysis of Animal Disease (2, max. 10) J. SNYDER, P. TREUTING Use of animals in experimental study of disease; techniques of animal necropsy, characterization, interpretation of gross and microscopic lesions, correlation of lesions with altered physiological processes, differentiation between naturally occurring and experimentally induced lesions. Prerequisite: PATH 444, PATH 445, or equivalent, and permission of instructor. Enrollment limited: two students per quarter. Offered: AWSpS.

C MED 514 Comparative Pathology Conference (1, max. 6) J. SNYDER, P. TREUTING Focus on histopathology of naturally occurring and experimentally induced lesions of primates, laboratory and domestic animals, fish, wildlife, and birds. Participants discuss the lesions and the basic pathogenetic mechanisms that underline them. Prerequisite: PATH 500 or equivalent and permission of instructor. Credit/no-credit only. Offered: AWSpS.

C MED 516 Research and Literature Review Seminar (1, max. 12) C. HSU, B. IRITANI Alternates between research seminars and literature review presentations. Research seminar topics relate to basic and translational animal models. Literature review seminars involve critical evaluation of recent articles on laboratory animal medicine and other scientific or medical topics. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

C MED 518 Clinical Conference and Comparative Pathology Seminar (1, max. 12) N. REYES, P. TREUTING Alternates between clinical veterinary medicine and comparative pathology discussions. Clinical discussions include case reports of spontaneous and induced diseases. Comparative pathology discussions cover gross and histopathology of natural occurring and experimentally induced lesions in laboratory animals and wildlife. Prerequisite: either PATH 500 or equivalent and permission of instructor. Credit/no-credit only. Offered: AWSpS.

C MED 520 Biology of Laboratory Animals (1) T. BRABB, B. IRITANI, P. TREUTING Fundamentals of morphological, functional, and applied aspects of anatomy, physiology, pharmacology, biochemistry, and immunology of commonly used laboratory animal species. Discusses similarities and differences within and between species, including humans. Other topics include husbandry, genetics, behavior, and nutrition. Prerequisite: permission of instructor. Offered: A.

C MED 521 Biology of Laboratory Animals (1) T. BRABB, B. IRITANI, P. TREUTING Fundamentals of the morphological, functional, and applied aspects of anatomy, physiology, pharmacology, biochemistry, and immunology of the commonly used laboratory animal species. Similarities and differences within, and between, species, including humans are discussed. Other
topics include husbandry, genetics, behavior, and nutrition. Prerequisite: permission of instructor. Offered: W.

C MED 530 Diseases of Laboratory Animals (1-) T. BRABB, B. IRITANI, P. TREUTING
Analysis of etiology, pathogenesis, pathology, and disease processes in rodents, lagomorphs, carnivores, and nonhuman primates. Prerequisite: permission of instructor. Offered: A.

C MED 531 Diseases of Laboratory Animals (1-) T. BRABB, B. IRITANI, P. TREUTING
Analysis of etiology, pathogenesis, pathology, and disease processes in rodents, lagomorphs, carnivores, and nonhuman primates. Prerequisite: permission of instructor. Offered: W.

C MED 540 Animal Models (2) T. BRABB, C. HSU, B. IRITANI, P. TREUTING Naturally occurring and experimentally induced analogs of human diseases in animals with emphasis on diseases lacking animal models, and approaches to identifying new models. Discusses animal models of categorical disease (e.g., cancer, atherosclerosis, gerontology). Prerequisite: permission of instructor. Offered: Sp.

C MED 590 Selected Topics in Animal Medicine (1-5, max. 10) T. BRABB, L. COLBY, C. FREVERT, B. IRITANI, P. TREUTING Radiation biology, genetics, anesthesiology and experimental surgery, preventive medicine, and ethical aspects of use of animals in biomedical teaching and research. Specific topics vary from year to year, depending on expertise of the annual visiting professor. Prerequisite: permission of instructor. Offered: AWSpS.

C MED 592 Comparative Pathology for the Scientist (3) C. FREVERT Introduces the interpretation of pathological changes in animals used for biomedical research, with a focus on the mouse. Covers study design and interpretation, techniques to measure pathological changes in major organ systems, plus other topical material related to preclinical drug studies and translational research.

C MED 600 Independent Study or Research (*-) Credit/no-credit only. Offered: AWSpS.

C MED 601 Internship Rotation - Laboratory Animal Medicine (*-) Prerequisite: DVM degree. Credit/no-credit only. Offered: AWSpS.

C MED 700 Master's Thesis (*-) Credit/no-credit only. Offered: AWSpS.
Conjoint Courses

Course Descriptions

CONJ 401 Human Anatomy and Physiology (4) T. LINDER, A. MELBY Structure and function of the human body with laboratory work in gross anatomy, histology, and physiology. Primarily for pharmacy doctoral students. Others by special permission of instructors. Prerequisite: BIOL 220; either CHEM 155 or CHEM 162. Offered: A.

CONJ 402 Human Anatomy and Physiology (4) T. LINDER, A. MELBY Structure and function of the human body with laboratory work in gross anatomy, histology, and physiology. Primarily for pharmacy doctoral students. Others by special permission of instructors. Prerequisite: CONJ 401. Offered: W.

CONJ 475 Alcoholism: A Course for Medical Students and Students in the Allied Health Sciences (2) Kivlahan, Samson For medical students in the allied health sciences in any year that covers an introduction to the epidemiology, diagnostic strategies, natural history, physiologic effects, and treatment of alcohol-related disorders. Offered: Sp.

CONJ 480 Neuroscience for Rehabilitation Professionals (5) Anderson, Mulligan, Slimp Structure and function of the central nervous system, emphasizing sensorimotor systems and higher integrative functions, coupled with clinical correlations. Required for occupational therapy, physical therapy, and prosthetic/orthotic students. Others by permission.

CONJ 504 Topics of Molecular Medicine (1.5, max. 5) Focuses on an important topic in medicine and science. Lectures introduce clinical and basic science background, followed by a seminar/discussion with speakers. Prerequisite: Graduate standing and permission of instructor. Offered: jointly with MOLMED 504; Sp.

CONJ 505 P-Pain Clinic Preceptorship (1, max. 12) One morning a week for a total of 30 hours per quarter spent observing patient care in either inpatient or outpatient settings at UW Medical Center; associated readings. Prerequisite: first- or second-year medical student standing. Coordinator: Pain Center.

CONJ 510 ISCRM Research Updates and Stem Cell Club ([0/1]-, max. 12) Ruohola-Baker, Ware Presents ongoing research at the Institute for Stem Cell and Regenerative Medicine. Includes diverse subject matter in regenerative medicine, with new, unpublished data, and opportunity to identify collaborations and contacts for discussion, and an understanding of the state of the art. Credit/no-credit only. Offered: jointly with BIOC 510.
CONJ 511 Genomic Dissection (1) Clark, Horwitz, Shedure Uses state of the art technology to sequence the genome of a cadaver. Explores the structure of the genome, as well as genetic variants responsible for human individualization and disease. Credit/no-credit only. Offered: A.

CONJ 512 Scientific Speaking Seminar (1.5) Biggins, Peichel Teaches how to effectively give a scientific seminar about research. Offered: jointly with MCB 512; W.

CONJ 513 Clinical Medical and Human Genetics (4) Byers Rotations through medical genetics clinics for graduate students enrolled in the molecular medicine pathway. Students review clinical data, identify the molecular basis of genetic disorders, and assess how scientific studies have changed the assessment and natural history of these conditions. Limit of four students per quarter. Offered: jointly with MOLMED 513; AWSp.

CONJ 515 Interdisciplinary Health and Human Services Delivery in Rural Communities (1) Provides opportunities for students in health and human services to explore current trends and issues of service delivery in rural communities. Addresses demographics, economics, community structure, culture, and professional/personal issues. Field trip fee. Prerequisite: major standing in a health or human services profession. Instructors: House Credit/no-credit only. Offered: Sp.

CONJ 516 What Every Physician Should Know about Oral Health (1) Lewis, Mouradian, Slayton Didactic elective for students interested in understanding oral health and its relationship to systemic health. Special interest to students planning careers in primary care, public health, or who are likely to practice in rural or underserved communities. Includes weekly seminars and clinical demonstrations. Credit/no-credit only. Offered: Sp.

CONJ 524 Structural Basis of Signal Transduction (1.5) Focuses on the structure-function relationship of key enzymes in signal transduction (protein/lipid kinases; phosphatases etc.) and the structural consequences of protein phosphorylation. Teaches students to look into critical structural details using PC or Mac. Prerequisite: undergraduate course in biochemistry and basic cell biology, or permission of instructor. Instructors: Xu Offered: W.

CONJ 526 Introduction to Systems Biology and Quantitative Approaches to Biomedical Sciences (1.5) Aitchison Covers philosophy of systems biology, experimental design, and the linkages between discovery and hypothesis-driven science. Reviews quantitative systems biology tools for genomics, proteomics, modeling and data integration, and emerging technologies. Offered: W.

CONJ 529 Cell Migration (1.5) Cooper, Moens Explores mechanisms of cell migration in vivo and in cell culture. Discusses the cell biology of different forms of cell migration, the extracellular cues that direct migration, and how these cues are integrated by the migrating cell. Offered: jointly with MCB 529; W.

CONJ 530 Directing Stem Cells Toward Regenerative Medicine (3) An introduction to the rapidly developing field of human embryonic stem cells in regenerative medicine crossing all medical disciplines including ethics. Requires a strong background in biological sciences. Offered: Sp.
CONJ 531 Signaling Mechanisms in Excitable Cells (1.5) W. ZAGOTTA Mechanisms of cellular signaling, particularly in nerve and muscle. Electrical, chemical, and mechanical signaling in the cell that lead to processes such as electrical excitability, action potentials, and muscle contraction. Prerequisite: comprehensive undergraduate course in general biochemistry and molecular biology, or permission of instructor. Offered: A.

CONJ 532 Signal Transduction from the Cell Membrane to the Nucleus (1.5) R. GARDNER, C. HAGUE, S. ONG, J. SCOTT, D. STORM Intracellular signaling pathways leading from cell membrane receptors to nucleus. Pathways activated by seven transmembrane receptors and G-proteins, insulin/PI3 kinase, nitric oxide and WNTs and mechanisms of signal termination. Cytokine/Jak/Stat signaling and role of subcellular localization in signal transduction. Prerequisite: basic knowledge of biochemistry. Offered: A.

CONJ 533 The Dynamic Chromosome (1.5) The chromosome viewed as the ultimate organelle. How chromosomes are maintained and propagated. Epigenetic regulation of genes. Genetic, biochemical, and cytologic methods for understanding chromosome functions. Prerequisite: cell biology, biochemistry, and genetics. Instructors: Henikoff, Roth Offered: A.

CONJ 534 Selected Problems in Nervous System Development (1.5) Introduces students to current issues in developmental neurobiology. Topics include regionalization of the neuroectoderm, mechanisms of neurogenesis, axon patterning and plasticity, and cell death. Not intended to be comprehensive; examines the experimental basis for current views in the field of a few topical issues.

CONJ 537 Mechanism of Transcriptional Regulations (1.5) Tsukiyama Biochemical mechanisms of gene transcription covering a broad range of transcriptional regulation, including mechanisms of transcriptional initiation, elongation, and termination. Regulation of transcription by chromatin. Includes a special lecture regarding regulation of transcription in cell growth and differentiation. Offered: A.

CONJ 538 Genetic Instability and Cancer (1/1.5) Seminar focusing on molecular pathways that maintain genomic stability in all cells and that carry out programmed changes in genomic structure in the immune system. Special attention devoted to understanding how failure in these pathways leads to genomic instability and malignancy. Prerequisite: permission of instructor. Instructors: Maizels, Monnat

CONJ 539 Modern Approaches to Vaccines (1.5) Fuller Covers selected topics based on recent publications in viral and bacterial vaccine research. Emphasizes understanding the latest advanced and issues in vaccine discovery, mechanisms of action, and special topics in viral vaccines. Offered: Sp.

CONJ 540 Basic Science of Urologic Complications (3) Introduction to the multidisciplinary nature of the most common urologic complications ranging from prostate cancer to erectile dysfunction. Covers epidemiology, clinical and surgical treatments, current dogmas and approaches/models in basic study of underlying disease mechanisms, and a journal review of each complication. Prerequisite: biological science course.
CONJ 541 Molecular Biology of Cellular Processes (1.5) Translational control; cytoskeleton and molecular motors; protein targeting, sorting and secretion; apoptosis; regulation of cell function by extracellular matrix. Prerequisite: comprehensive undergraduate course in biochemistry and molecular biology or permission of instructor. Instructors: Bornstein Offered: Sp.

CONJ 542 Cell Biology of Development (3) C. Berg, D. Raible Molecular mechanisms of development with emphasis on cell biological processes. Prerequisite: comprehensive undergraduate courses in biology, molecular biology, or permission of instructor. Offered: A.

CONJ 544 Protein Structure, Modification and Regulation (1.5) Overview of general principles of protein structure, including forces that contribute to folding and stabilization, followed by an extended coverage of the means by which protein structure and function are modified and regulated. Examples from recent developments in protein folding, processing, and allosteric regulation. Prerequisite: introductory biochemistry and cell biology. Instructors: Stoddard, Strong

CONJ 545 Molecular Interactions and Medicine (1.5) Verlinde Forces governing molecular interactions in biology; with a focus on medicine. Principles of computer modeling techniques in use for predicting the molecular behavior of proteins, ligands, and their complexes. In computro ligand discovery; drug design, and the understanding at the atomic level of some genetic diseases. Two computer lab sessions. Offered: Sp.

CONJ 546 Survey of Technologies for Molecular Biology (1.5) Bumgarner Broad overview of modern technologies used in molecular biology with particular emphasis on DNA sequencing and gene expression. In addition to methods and applications for the technologies, examines the theoretical basis and underlying instrumentation through which these technologies are implemented. Offered: A.

CONJ 547 Molecular Evolution of Viral-Host Interactions (1.5) Katze Interactions between viruses and the cells they infect, with special emphasis on evolutionary battle that occurs between the invading virus and its host. Examines new technologies being used to molecularly dissect virus-host interactions. Offered: Sp.

CONJ 548 Modeling Proteins and Proteomes (1.5) Samudrala Hands-on experience for modeling protein structures, using the models to predict function, and applying the prediction methods to all proteins encoded by an organismal genome. Provides an overview of protein structure, how it mediates function, and its importance for understanding protein interaction networks. Technologies involved for protein structure modeling. Offered: W.

CONJ 549 Microbial Population Biology (1.5) Principles of ecology and evolution as they apply to microorganisms. Prerequisite: advanced undergraduates with permission of instructor. Instructors: Mittler Offered: Sp, even years.

CONJ 550 P-Clinical Infectious Diseases (3) Lecture series by faculty members from various departments, authorities in the field of clinically important infectious diseases. Lectures, reading
assignments, and handouts emphasize epidemiology, clinical manifestations, laboratory findings, diagnosis, treatment, and prevention. Oriented for second-year medical students. Credit/no-credit only.

**CONJ 551 Immunity (1.5) Strong** Provides an understanding of the central cellular and molecular players in the mammalian immune system at a level appropriate for the non-specializing graduate student. Selected topics include the molecular basis of B and T cell activation and effector functions and the mechanisms of innate immunity. Offered: Sp.

**CONJ 552 Metabolic Flexibility in Biology (1.5)** Small molecules and the ways that chemistry of these molecules facilitates life under changing conditions. Includes systems from microbiology to human physiology to understand aspects of cancer, aging, and animation. Explores topics including bioenergetics/metabolic flux, adaptation, and allometric scaling. Prerequisite: undergraduate organic chemistry and biochemistry.

**CONJ 554 Fundamentals of Hypnosis (1) McCann, Schneeweiss** Examines phenomena associated with hypnosis, as well as its safe use in clinical practice. Credit/no-credit only. Offered: W.

**CONJ 556 Drug Addiction: Mechanisms, Prevention, and Treatment (2) Chavkin Key** advances, insights, methods, and challenges for our understanding of drug addiction from psychological, pharmacological, psychiatric, community prevention, legal, and neurodevelopmental perspectives. Enhances familiarity with the multidisciplinary approaches required to understand addiction as a disease. Offered: A.

**CONJ 557 Microbial Evolution and Ecology (2)** Selected topics in microbial evolution including evolution of the main lines of descent, and bacterial and archaeal speciation and co-speciation, and evidence for early microbial life on Earth. Prerequisite: MICROM 412 or general microbiology background. Offered: ASp.

**CONJ 558 Fundamentals of Prokaryotic Biology (1.5) Harwood, Leigh** Basic principles in prokaryotic cell structure, genomics, and metabolism. Introduction to prokaryotic physiology, bacterial pathogenesis, and microbial ecology.

**CONJ 559 Scientific Ideas at Work (1.5) Gray, Maizels** Examines how basic biomedical research leads to discovery of new therapeutics and diagnostics for treatment of human disease. Considers disease mechanism and impact, need for a drug, preclinical studies, clinical testing and drug approval, and how technology developed in an academic laboratory is translated into a commercial product. Offered: jointly with MOLMED 559; Sp.

**CONJ 562 Advanced Topics in Bacterial Physiology (1.5)** Covers cutting edge research and concepts pertaining to the complexity of the bacterial cell with an emphasis on primary literature and discussion. Offered: Sp.

**CONJ 570 Introduction to the Clinical Management of Transgender Patients (1)** Covers the steps and protocols providers need to know to provide culturally proficient care for trans-
CONJ 571 Introduction to the Clinical Management of Patients who are Transgender (1)
Covers the steps and protocols providers need to know to provide culturally proficient care for trans identified patients. Credit/no-credit only.

CONJ 583 Molecular Targets in Cancer Therapy (1.5) Maizels, Monnat Examines how molecular targets for cancer therapies are discovered and validated. Covers disease mechanisms, need for new therapeutics, how small molecule and antibody therapeutics are identified and developed, and how preclinical studies are used to establish safety and efficacy. Offered: jointly with MOLMED 583; A.

CONJ 585 Surgical Anatomy (1-3, max. 12) Guided dissection of selected regions, supplemented by conferences. Offered conjointly by the departments of Biological Structure and Surgery. Prerequisite: permission of department. Coordinator: Department of Biological Structure. Instructors: Graney

CONJ 598 P-Chronic Care Independent Study and Remediation (*, max. 8) Designed for medical students required to complete additional study related to the required Chronic Care clerkship offered during the patient care phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: department permission. Offered: AWSpS.

CONJ 605 P-Introduction to Palliative Care - Consultation (4) Introduction to palliative care in the consultation setting. Students are integrated into palliative care teams and participate in interdisciplinary rounds, patient meetings, and symptom assessment. Special focus on communication and assisting patients with serious illness and their families to make decisions regarding care. Prerequisite: Successful completion of required Medicine and/or Family Medicine Clerkships Offered: AWSpS.

CONJ 606 P-Advanced Palliative Care - Inpatient Hospice Track (8) Intensive four week experience in palliative care in the inpatient hospice setting. Students work in interdisciplinary teams to assess and manage symptoms for patients near the end of life under appropriate supervision. Prerequisite: Required Family Medicine and/or Internal Medicine Clerkship(s) Offered: AWSpS.

CONJ 607 P-Advanced Palliative Care (8) Intensive four week experience in palliative care in inpatient and outpatient settings. Students work in interdisciplinary teams to treat and communicate with seriously ill patients and their families to make decisions regarding care. Includes exposure to hospice care. Prerequisite: Required Family Medicine and/or Internal Medicine Clerkship(s) Offered: AWSpS.

CONJ 608 P-Introduction to Palliative Care, Consult Track - ANMC (4) Introduction to palliative care in the consultation setting in Anchorage, AK. Students are integrated into palliative care teams and participate in interdisciplinary rounds, patient meetings, and symptom
assessment. Special focus on communication and assisting patients with serious illness and their families to make decisions regarding care.

CONJ 609 P-Introduction to Palliative Care, Consult Track - Bellingham, WA (4)
Introduction to palliative care in the consultation setting in Bellingham, WA. Students are integrated into palliative care teams and participate in interdisciplinary rounds, patient meetings, and symptom assessment. Special focus on communication and assisting patients with serious illness and their families to make decisions regarding care.

CONJ 610 P-Introduction to Palliative Care, Consult Track - Olympia, WA (4) Introduction to palliative care in the consultation setting in Olympia, WA. Students are integrated into palliative care teams and participate in interdisciplinary rounds, patient meetings, and symptom assessment. Special focus on communication and assisting patients with serious illness and their families to make decisions regarding care.

CONJ 611 P-Introduction to Palliative Care, Consult Track - Billings, MT (4) Introduction to palliative care in the consultation setting in Billings, MT. Students are integrated into palliative care teams and participate in interdisciplinary rounds, patient meetings, and symptom assessment. Special focus on communication and assisting patients with serious illness and their families to make decisions regarding care.

CONJ 612 P-Introduction to Palliative Care Consultation- Bozeman, MT (4) Introduction to palliative care in the consultation setting in Bozeman, MT. Students are integrated into palliative care teams and participate in interdisciplinary rounds, patient meetings, and symptom assessment. Special focus on communication and assisting patients with serious illness and their families to make decisions regarding care.

CONJ 613 P-Introduction to Palliative Care Consultation- Boise, ID (4) Introduction to palliative care in the consultation setting in Boise, ID. Students are integrated into palliative care teams and participate in interdisciplinary rounds, patient meetings, and symptom assessment. Special focus on communication and assisting patients with serious illness and their families to make decisions regarding care.

CONJ 614 P-Correction and Addiction Medicine - Gray's Harbor County, WA (4-8) Clinical elective primarily at Greys Harbor County Jail. Covers a variety of acute and chronic diseases common outpatient procedures in jail and addiction treatment settings. In-depth experience working with incarcerated and known addicted individuals. Offered: AWSpS.

CONJ 615 P-Advanced Correction and Addiction Medicine - Gray's Harbor County, WA (8) Advanced clinical elective primarily at Greys Harbor County Jail. Covers variety of acute and chronic diseases common outpatient procedures in jail and addiction treatment settings. In-depth experience working with incarcerated and known addicted individuals. Prerequisite: Required Family Medicine and/or Internal Medicine Clerkship(s) Offered: AWSpS.

CONJ 616 P-Prison/Corrections Medicine Clerkship - Washington (*, max. 16) Covers a wide variety of diseases in a variety of outpatient settings, including urgent care, a chronic care
clinic, and a long-term care facility for elderly and medically frail inmates in a men's prison setting. Also includes the option to learn common procedures including suturing, joint injections, skin biopsies, and toenail removals. Prerequisite: completion of the medicine and family medicine required clerkships. Offered: AWSpS.

CONJ 617 P-Subinternship in Neurocritical Care Medicine (8) As sub-interns on the Neurocritical Care Service, students learn about critical illness, focusing on neurosurgical critical illness. Through direct patient care responsibilities, students gain experience managing traumatic brain injury, acute spinal cord injury, acute cerebral hemorrhage, and other common critical-care issues. Offered: AWSpS.

CONJ 618 P-Sleep Medicine (4) Exposure to sleep disorders including sleep apnea, narcolepsy, hypoventilation, parasomnias and circadian rhythm disorders. Students primarily see outpatients in the UW Medicine Sleep center at Harborview with various sleep faculty. Appropriate for students interested in internal medicine, family medicine, otolaryngology, neurology, psychiatry, anesthesiology and/or a career in sleep medicine.

CONJ 619 Advanced Palliative Care (8) Intensive four week experience in palliative care in inpatient and outpatient settings. Students work in interdisciplinary teams to treat and communicate with seriously ill patients and their families to make decisions regarding care. Includes exposure to hospice care. Prerequisite: Completion of Family Medicine and/or Internal Medicine clerkship Offered: AWSpS.

CONJ 620 Opioid Use Disorder (8) An intensive experience in the clinical care of patients with opioid use disorder in both the inpatient and outpatient settings. Students will evaluate inpatients with opioid use disorder as part of the addiction medicine consult service at HMC, providing treatment recommendations and linkage to outpatient services. They will work with patients in outpatient settings including primary care-based treatment programs and opioid treatment programs Prerequisite: Successful completion of required Medicine and Psychiatry clerkships. Offered: AWSpS.

CONJ 621 Advanced Palliative Care-Spokane (8) This APC clerkship is an intensive experience in palliative care. This is an inpatient palliative care experience; under supervision of board certified palliative care physicians, students will see inpatient consultations and provide follow-up inpatient care. The palliative care team provides consults across disciplines in the hospital including pediatric acute care and adult acute care (medical, oncology, surgical and intensive care). Prerequisite: Successful completion of the third year medicine and/or family medicine clerkships Offered: AWSpS.

CONJ 622 Advanced Palliative Care-Boise, ID (8) This APC clerkship is an intensive experience in palliative care. This advanced palliative care rotation is primarily inpatient focused, with approximately 80% of the student's time spent in direct patient care in the hospital setting. Students work in interdisciplinary teams to treat and communicate with seriously ill patients and their families to make decisions regarding care. Includes exposure to hospice care. Prerequisite: Successful completion of the third year medicine and/or family medicine clerkships. Offered: AWSpS.
CONJ 625 Global Health Clinical Elective (*, max. 24) Provides a better understanding of the challenges of providing medical care in international resource-limited settings. Students spend a minimum of five weeks at a developing county medical center, with the goal of learning more about the local burden of disease and strategies for diagnosis and treatment. Prerequisite: fourth year medical students. Instructors: S. McClelland Offered: WSp.

CONJ 626 Global HIV Medicine Elective (10-20, max. 20) Chung Prepares health profession students for work in developing countries. Includes experience treating HIV-positive patients in resources-poor settings, analyzing the relationship between poverty and health, recognizing tropical diseases that are common in Sub-Saharan Africa or Southeast Asia, and understanding the epidemiology of HIV in Sub-Saharan Africa or Southeast Asia. Offered: AWSpS.

CONJ 627 Intro to End of Life Home Care (4) Prerequisite: Successful completion of Foundation Years curriculum. Offered: AWSpS.

CONJ 628 Advanced Palliative Care-Alaska (8) This APC clerkship is an intensive experience in palliative care. This is an inpatient palliative care experience; under supervision of board certified palliative care physicians, students will see inpatient consultations and provide follow-up inpatient care. The palliative care team provides consults across disciplines in the hospital including pediatric acute care and adult acute care (medical, oncology, surgical and intensive care). Prerequisite: Successful completion of the third year medicine and/or family medicine clerkship. Offered: AWSpS.

CONJ 629 Clinical Pediatric Dermatology (8) This is a full-time rotation in Pediatric Dermatology at Seattle Children's Hospital, which is a referral hospital for all of the Pacific Northwest. Pediatric disorders such as eczema are seen commonly, unusual and complicated patients are also commonplace in these clinics. Inpatient consults are also a significant portion of this rotation. This is ideal for students with an interest in pediatrics, family medicine, or medical genetics. Prerequisite: Successful completion of required medicine and pediatrics clerkships. Offered: AWSpS.

CONJ 630 P-Write Chronic Care Clerkship (8) Basic clinical clerkship for students enrolled in the WRITE Program. Prerequisite: approved by the WRITE committee.

CONJ 631 Introduction to Hospice and Palliative Home Care (4) Students will become integrated into a home care team which practices both palliative and hospice care in patient's homes. The team consists of an attending physician, nurses, social workers, and spiritual counselors. Students will participate in symptom assessment and management, discussions of goals of care and will also experience spiritual assessment and grief counseling. Prerequisite: Successful completion of Foundations curriculum. Offered: AWSpS.

CONJ 655 P-Chronic Care - Olympia (8) Exposure to rehabilitation. Students are assigned to a preceptor and clinical site to concentrate their clinical activities. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.
CONJ 656 P-Chronic Care/Palliative Care - Cheyenne, WY (8) Exposure to palliative care. Students are assigned to a preceptor and clinical site to concentrate their clinical activities. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 658 P-Chronic Care/Palliative Care - Providence Spokane (8) Exposure to rehabilitation, palliative care, and pain management. Students focus on one area and are assigned to a preceptor and clinical site to concentrate clinical activities in that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 659 P-Chronic Care/Geriatrics - Missoula VHC (8) Exposure to rehabilitation, palliative care, pain management, and geriatrics. Students focus on one area and are assigned to a preceptor and clinical site to concentrate clinical activities in that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 660 P-Chronic Care/Palliative Care - Group Health Everett (8) Exposure to rehabilitation, palliative care, and pain management. Students focus on one area and are assigned to a preceptor and clinical site to concentrate clinical activities in that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 661 P-Chronic Care/Palliative Care - Coeur d’Alene (8) Exposure to rehabilitation, palliative care, and pain management. Students focus on one area and are assigned to a preceptor and clinical site to concentrate clinical activities in that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 663 P-Chronic Care/Alaska - Providence Palliative Care (8) Exposure to the areas of rehabilitation, geriatrics, palliative care, and pain management. Includes didactic orientation of the first day, and patient case presentations during didactics on last day.

CONJ 664 P-Chronic Care/Palliative Care - Kline Galland Home (8) Exposure to rehabilitation. Students assigned to a preceptor and clinical site to concentrate their clinical activities. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 665 P-Chronic Care/Palliative Care - PHOS (8) Exposure to rehabilitation, palliative care, and pain management. Students focus on one area and are assigned to a preceptor and clinical site to concentrate clinical activities in that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 666 P-Chronic Care/Spokane - VAMC Geriatrics Unit (8) Exposure to rehabilitation, palliative care, and pain management. Students focus on one area and are assigned to a preceptor and clinical site to concentrate clinical activities in that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 667 P-Chronic Care/Palliative Care - Evergreen Hospice (8) Exposure to rehabilitation, palliative care, and pain management. Students focus on one area and are assigned
to a preceptor and clinical site to concentrate clinical activities in that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 668 P-Chronic Care/Spokane - St. Luke's Rehab, Pain Management (8) Exposure to rehabilitation, palliative care, and pain management. Students focus on one area and are assigned to a preceptor and clinical site to concentrate clinical activities in that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 669 P-Chronic Care/Spokane - Deaconess Palliative Care (8) Exposure to rehabilitation, geriatrics, palliative care, and pain management. Students are assigned to a preceptor and clinical site to concentrate clinical activities.

CONJ 670 P-Chronic Care/Billings - St. Vincent Healthcare (8) Exposure to rehabilitation, geriatrics, palliative care, and pain management. Includes didactic orientation on the first day, and patient case presentations during didactics on last day.

CONJ 671 P-Chronic Care/Boise - Saint Alphonsus Palliative Care (8) Exposure to rehabilitation, geriatrics, palliative care, and pain management. Includes didactic orientation on the first day, and patient case presentations during didactics on last day.

CONJ 672 P-Chronic Care/Boise - St. Luke's Palliative Care (8) Exposure to rehabilitation, geriatrics, palliative care, and pain management. Includes didactic orientation on the first day, and patient case presentations during didactics on last day.

CONJ 673 P-Chronic Care/Boise - VAMC (8) Exposure to rehabilitation, geriatrics, palliative care, and pain management. Students are assigned to a preceptor and clinical site to concentrate their clinical activities.

CONJ 674 P-Chronic Care/Alaska - Anchorage APCA (8) Exposure to rehabilitation, geriatrics, and pain management. Students are assigned to a preceptor and clinical site to concentrate their clinical activities.

CONJ 675 P-Chronic Care/Palliative Care - GHHH Tacoma (8) Exposure to rehabilitation, palliative care, and pain management. Students focus on one area and are assigned to a preceptor and clinical site to concentrate their clinical activities in that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 677 P-Clinical Allergy and Immunology (*, max. 12) Clinic and office experience in diagnosing and managing allergic disease. Clinical conferences, hospital rounds on clinical immunology and allergy. Student may elect a flexible program, emphasizing adult or pediatric allergy. (Four weeks, full-time). Prerequisite: MED 665 or basic clerkships in departments of Family Medicine or Pediatrics. Instructors: (Boise Veterans' Affairs Hospital), (University of Washington Medical Center)
CONJ 679 P-Chronic Care/Palliative Care - PRMC (8) Exposure to palliative care. Students are assigned to a preceptor and clinical site to concentrate their clinical studies. Includes didactic orientation on the first day and patient case presentations during didactics on last day.

CONJ 680 P-Detoxification and Rehabilitation Program for Alcoholism and Drug Abuse (*, max. 16) J. REOUX Supervised introduction to alcoholic detoxification and rehabilitation and drug abuse. Supervised clinical experience in a variety of alcoholism and drug abuse treatment programs; accompanied by a core series of lectures and discussions. For medical students only. Prerequisite: Completion of 3rd year psychiatry clerkship.

CONJ 681 P-Chronic Care/Palliative Care - Children's (8) Exposure to palliative care. Students are assigned to a preceptor and clinical site to concentrate their clinical activities. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 682 P-Chronic Care/Palliative Care - HMC (8) Exposure to palliative care. Students are assigned to a preceptor and clinical site to concentrate their clinical activities. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 683 P-Chronic Care/Palliative Care - UWMC PC Consult (8) Exposure to palliative care. Students are assigned to a preceptor and clinical site to concentrate their clinical activities. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 684 P-Chronic Care/Palliative Care - Multicare Hospice (8) Exposure to palliative care. Students are assigned to a preceptor and clinical site to concentrate their clinical activities. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 685 P-Chronic Care/Palliative Care - Providence Everett (8) Exposure to rehabilitation, palliative care, and pain management. Students focus on one area and are assigned to a preceptor and clinical site to concentrate their clinical activities in that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 686 P-Chronic Care/Rehab - Children's (8) Exposure to rehabilitation. Students focus on one area and are assigned to a preceptor and clinical site to concentrate their clinical activities in that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 687 P-Chronic Care/Rehab - HMC (8) Exposure to rehabilitation. Students focus on one area and are assigned to a preceptor and clinical site to concentrate their clinical activities in that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 688 P-Chronic Care/Rehab - VA RMS (8) Exposure to rehabilitation. Students focus on one area and are assigned to a preceptor and clinical site to concentrate their clinical activities in
that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 689 P-Chronic Care/Rehab - VA SCI (8) Exposure to rehabilitation. Students focus on one area and are assigned to a preceptor and clinical site to concentrate their clinical activities in that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 690 P-Chronic Care/Rehab - UWM C (8) Exposure to rehabilitation. Students are assigned to a preceptor and clinical site to concentrate their clinical activities. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 691 P-Clerkship in Chronic Care - Boise PMR (8) Required clerkship for fourth year medical students, concentrating on geriatrics, palliative care, and rehab medicine using lectures, group discussions, standardized patients, and case scenarios.

CONJ 692 P-Chronic Care Clerkship - Spokane, St. Luke's Rehab (8) Exposure to geriatrics. Students focus on one area and are assigned to a preceptor and clinical site to concentrate their clinical activities in that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 693 P-Chronic Care/Geriatrics - HMC (8) Exposure to geriatrics. Students focus on one area and are assigned to a preceptor and clinical site to concentrate their clinical activities in that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 694 P-Chronic Care/Geriatrics - VA (8) Exposure to geriatrics. Students focus on one area and are assigned to a preceptor and clinical site to concentrate their clinical activities in that content area. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

CONJ 696 P-WRITE Clinical Electives (*, max. 24) Clinical electives for WRITE program. Offered: AWSpS.

CONJ 697 International Exchange Clerkship (12) Hunt Participation in healthcare delivery systems in developing countries; observation of relationship of host country's traditional medicine with Western medicine. Students live in cross-cultural setting to better understand their own assumptions about healthcare and life styles. Offered: Sp.

CONJ 698 P-Foreign Medical Student Clerkship (*, max. 24) A limited number of students from foreign medical schools are accepted for individually designed clinical clerkships at available sites after all UWM C students are accommodated. Prerequisite: permission of Associate Dean for Academic Affairs, School of Medicine.

CONJ 699 P-Clinical Clerkships (*, max. 32)
Family Medicine

Department Overview

C408 Health Sciences

The department improves the health and well-being of individuals, families, and communities through leadership in education, scholarship, and clinical care. Over 800 clinical faculty members are located throughout the Washington, Wyoming, Alaska, Montana and Idaho (WWAMI) region, and approximately 40 regular faculty at the University site in Seattle.

Direct patient care is offered primarily through the clinical operations at the UW Neighborhood Clinic in Northgate and the Family Medicine Clinic at Harborview. The Medical Student Education Section develops and delivers innovative training to students who serve the evolving needs of the diverse individuals, families, and communities of the WWAMI region, with emphasis on rural and urban underserved and other vulnerable populations. The residency program offers full spectrum training of residents that allows graduates to enter a variety of practice settings, including careers with an academic or health policy focus. The UW Family Medicine Residency Network, a group of 18 family medicine residency programs located within the WWAMI region, exists to promote excellence in family medicine residency education, provide academic leadership, and respond to societal needs for family physicians. The research section’s efforts are focused primarily in four areas -- rural health, the health workforce, chronic disease, and medical education. MEDEX Northwest trains physician assistants who primarily practice in medically underserved and rural areas of WWAMI.

Course Descriptions

FAMED 499 Undergraduate Research (*, max. 35) W. PILLIPS Research activities arranged with University or community-based physicians in diverse areas relating to family medicine. Prerequisite: permission of course coordinator. Offered: AWSpS.

FAMED 501 P-Introduction to Family Medicine: Preceptorship (2, max. 12) J. CAWSE-LUCAS Medical students spend one morning per week for one or more quarters working with a practicing community family physician. Prerequisite: first- and second-year medical students, permission of course coordinator. Offered: AWSpS.

FAMED 502 P-Preclinical Continuity Preceptorship in Family Medicine (1-8, max. 12) J. CAWSE-LUCAS Introduces medical students to continuity of care in family medical settings, especially regarding what it means to be someone's doctor and what it is like to work with individuals to help them achieve optimal health for a minimum of two quarters. Prerequisite: first- and second-year medical students; permission of course coordinator. Offered: AWSpS.

FAMED 525 African American Health and Health Care Disparity (1) F. OVERSTREET Examines the most pressing health issues facing African Americans. Provides a forum to
examine the root causes of health disparity in African descendants. Explores strategies to remedy problems in public health and healthcare delivery systems. Prerequisite: current graduate health science student; permission of course coordinator. Credit/no-credit only. Offered: A.

FAMED 526 Community-Focused Urban Health: Determinants, Disparities, and Equity (1)  
*B. Brown, R. Keys, A. Kost* Determinants, disparities, and approaches to health equity for medically underserved urban communities. Credit/no-credit only. Offered: W.

FAMED 527 Community-Focused Urban Health: Inter-Professional Care of Urban Under-Resourced Patients (1)  
*B. Brown, R. Keys, A. Kost* Interprofessional approaches to improving health for medically underserved urban communities. Credit/no-credit only. Offered: A.

FAMED 530 Primary Care (1)  
*W. PHILLIPS* Introduces primary care, the foundation of medical care and cornerstone of healthcare reform. Addresses history, clinical content, practitioner workforce, delivery models, research methods, and policy issues. Explores the role of primary care in personal and population health. Includes lectures, discussions, student presentations, and practice observation. Prerequisite: permission of course coordinator. Offered: W.

FAMED 531 Introduction to Person Centered and Interprofessional Palliative Care (1-5)  
*A. Doorenbos* Introduces fundamental concepts in narrative and person centered communication and interprofessional practice. Presents foundations for learning to apply an interdisciplinary approach to palliative care. Offered: jointly with B H 566/NSG 526; A.

FAMED 532 Advanced Topics in Person Centered and Interprofessional Palliative Care (5)  
*A. Doorenbos* Interprofessional course presenting advanced concepts in narrative and person centered communication and interprofessional practice. Requires admissions into the Palliative Care Graduate Certificate Program. Prerequisite: NSG 526 (Introduction to Person Centered and Interprofessional Palliative Care) or Permission of Instructor Offered: jointly with B H 567/NSG 527; W.

FAMED 533 Palliative Care: Quality Metrics and System Integration (5)  
*A. Doorenbos* Prepares students to integrate team based palliative care into a larger system, introduces community engagement, and palliative care policy issues. Specific content includes building palliative care service, engaging leadership to support palliative care, and using quality metrics to leverage and support quality care. Requires admissions into the Palliative Care Graduate Certificate Program. Prerequisite: Completion of NSG 526 and NSG 527. Offered: jointly with B H 568/NSG 528; Sp.

FAMED 534 Primary Care Clinical Skills and Procedures Workshop (1)  
Explore and hone common diagnostic and therapeutic clinical skills/procedures. Workshops delivered by a local Family Medicine residency program. Hands-on learning in small groups. Examples: EKG, suturing, casting/splinting, OB ultrasound, osteopathic manipulation, musculoskeletal, IUD and miscarriage management.
FAMED 540 Topics in Health and Human Services in Rural Communities (1) Explores topics important to rural clinical practice. Includes rural health research, rural health policy, cultural competency, models of rural health practice, and others. Includes panel discussions, a case study, and a required field trip to a rural community. Prerequisite: permission of course coordinator. Instructors: Shin Offered: W.

FAMED 541 Targeted Rural Underserved Track: Intersession 1 (3) First of four TRUST intersessions. Students will spend a week at their TRUST Continuity Community site to gain clinical experience, address rural health topics, and discuss iii-3 and community engagement. Credit/no-credit only. Offered: A.

FAMED 542 Targeted Rural Underserved Track: Intersession 2 (3) Second of four TRUST intersessions. Students will spend a week at their TRUST Continuity Community site to gain clinical experience, address rural health topics, and discuss iii-3 and community engagement. Credit/no-credit only. Offered: W.

FAMED 543 Targeted Rural Underserved Track: Intersession 3 (4) Third of four TRUST intersessions. Students will spend four days and three nights together at a retreat center training to be leaders in their future practice communities. Students will discuss rural practice, leadership skills and other related topics. Regional clinical deans and other rural health leaders facilitate the retreat. Credit/no-credit only. Offered: Sp.

FAMED 544 Targeted Rural Underserved Track: Intersession 4 (3) Fourth of four TRUST intersessions. Students will spend a week at their TRUST Continuity Community site to gain clinical experience, address rural health topics, and discuss iii-3 and community engagement. Credit/no-credit only. Offered: A.

FAMED 547 Spirituality in Healthcare (2) Examination of the beliefs, values, meaning, and spirituality of health professionals for the well-being of their patients as well as for themselves. Offered: jointly with B H 518/SOC W 587; Sp.

FAMED 556 Spanish for Health Professionals (1) Instruction in interviewing/history taking Spanish-speaking patient. Prerequisite: Spanish fluency at intermediate level; current graduate health science student; permission of course coordinator. Credit/no-credit only. Offered: Sp.

FAMED 559 Tobacco Related Health Disparities (1/2) Integrates multiple disciplinary perspectives to address the pressing issue of disproportionate tobacco use and related diseases among marginalized populations, including those defined by socioeconomic status, race/ethnicity, and sexual orientation. Explores links between, and intervention strategies for, smoking and mental illness, social stress, acculturation processes, and genetics. Offered: jointly with HSERV 556.

FAMED 561 LGBTQ Health and Health Disparities (1) Covers the history and health status of the Lesbian, Gay, Bisexual, Transgendered, Queer, and Intersex (LGBTQ) community in the United States; effective strategies and skills for working with the LGBTQ community; designed
to help the learner understand and respond better to healthcare needs of the LGBTQ community. Prerequisite: permission of course coordinator. Offered: W.

**FAMED 598 P-Family Medicine Independent Study and Remediation (\*, max. 8)** Designed for medical students required to complete additional study related to the required Family Medicine clerkship offered during the patient care phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: department permission. Offered: AWSpS.

**FAMED 630 P-WRITE Family Medicine Clinical Clerkship (\*, max. 24)** Basic clinical clerkship for students enrolled in the WRITE Program. Prerequisite: permission of course coordinator.

**FAMED 631 P-LIC Family Medicine Clinical Clerkship - Olympia, WA (12)** Basic clinical clerkship for students enrolled in the LIC program. Prerequisite: permission of course coordinator.

**FAMED 632 P-Clinical Clerkship in Family Medicine - Bozeman (12)** Ambulatory primary care with emphasis on comprehensive, continuity, integrated care to patients of both genders and all ages in a culturally responsive manner. Student functions as clerk in community or residency site, and participates in care of assigned patients in a variety of settings: office, hospital, home, community resources. Prerequisite: third- or fourth-year medical students. Offered: AWSpS.

**FAMED 633 P-Clinical Clerkship in Family Medicine - Leavenworth (12)** For description and prerequisite, see FAMED 632. Offered: AWSpS.

**FAMED 634 P-Clinical Clerkship in Family Medicine - Sitka (12)** For description and prerequisite, see FAMED 632. Offered: AWSpS.

**FAMED 635 P-Clinical Clerkship in Family Medicine - Cheyenne (12)** For description and prerequisite, see FAMED 632. Offered: AWSpS.

**FAMED 636 P-Clinical Clerkship in Family Medicine - Wenatchee (12)** For description and prerequisite, see FAMED 632. Offered: AWSpS.

**FAMED 637 P-Clinical Clerkship in Family Medicine - Spokane GHC (12)** For description and prerequisite, see FAMED 632. Offered: AWSpS.

**FAMED 638 P-Clinical Clerkship in Family Medicine - Othello (12)** For description and prerequisite, see FAMED 632. Offered: AWSpS.

**FAMED 639 P-Clinical Clerkship in Family Medicine - Douglas WY (12)** Ambulatory primary care with emphasis on comprehensive, continuity, integrated care to patients of both genders and all ages in a culturally responsive manner. Student functions as clerk in community or residency site, and participates in care of assigned patients in a variety of settings: office, hospital, home, community resources. Offered: AWSpS.
FAMED 640 P-Clinical Clerkship in Family Medicine - Boise (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 641 P-Clinical Clerkship in Family Medicine - Spokane (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 642 P-Clinical Clerkship in Family Medicine - Madigan (12) For description and prerequisite, see FAMED 636. Offered: AWSpS.

FAMED 643 P-Clinical Clerkship in Family Medicine - Tacoma (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 644 P-Clinical Clerkship in Family Medicine - University of Washington Medical Center (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 645 P-Clinical Clerkship in Family Medicine - Group Health (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 646 P-Clinical Clerkship in Family Medicine - Swedish First Hill (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 647 P-Clinical Clerkship in Family Medicine - Swedish Cherry Hill (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 648 P-Clinical Clerkship in Family Medicine - Renton Valley (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 649 P-Clinical Clerkship in Family Medicine - Olympia (12) For description and prerequisites, see FAMED 636. Offered: AWSpS.

FAMED 650 P-Clinical Clerkship in Family Medicine - Anacortes (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 651 P-Clinical Clerkship in Family Medicine - Omak (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 653 P-Clinical Clerkship in Family Medicine - Anchorage (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 656 P-Clinical Clerkship in Family Medicine - Whitefish (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 657 P-Clinical Clerkship in Family Medicine - Pocatello (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.
FAMED 658 P-Clinical Clerkship in Family Medicine - Sea Mar Clinic (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 659 P-Clinical Clerkship in Family Medicine - Country Doctor (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 660 P-Clinical Clerkship in Family Medicine - Yakima (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 661 P-Clinical Clerkship in Family Medicine - Bremerton (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 662 P-Clinical Clerkship in Family Medicine - Buffalo (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 663 P-Clinical Clerkship in Family Medicine - Petersburg (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 664 P-Clinical Clerkship in Family Medicine - Billings (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 665 P-Clinical Clerkship in Family Medicine - Missoula (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 666 P-Clinical Clerkship in Family Medicine - Torrington (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 667 P-Clinical Clerkship in Family Medicine - Harrison - Bremerton (12) Ambulatory primary care with emphasis on comprehensive, continuity, integrated care to patients of both genders and all ages in a culturally responsive manner. Student functions as clerk in community or residency site, and participates in care of assigned patients in a variety of settings: office, hospital, home, community resources. Offered: AWSpS.

FAMED 669 P-Clinical Clerkship in Family Medicine (12) For description and prerequisite, see FAMED 632.

FAMED 670 P-Advanced Underserved Clerkship (*, max. 24) Students gain experience, knowledge, and skills needed to care for rural, specific ethnic, or underserved populations. Prerequisite: third- or fourth-year medical students, permission of course coordinator. Offered: AWSpS.

FAMED 671 P-Social and Structural Determinates of Health (8) Students increase awareness of and begin to address the social and structural determinants of health impacting underserved populations. Time divided between community engagement and advocacy activities and advanced clinical clerkship in an underserved primary care setting. Credit/no-credit only.
FAMED 672 P-Advanced Preceptorship International (*, max. 24) For medical students desiring primary care experience abroad. Special project deals with influences of social, cultural, educational, and economic forces on healthcare delivery. Prerequisite: late third- or fourth-year medical students, permission of course coordinator. Offered: AWSpS.

FAMED 673 P-Clinical Clerkship in Family Medicine - Spokane Sacred Heart (1-12, max. 12) Ambulatory primary care with emphasis on comprehensive, continuity, integrated care to patients of both genders and all ages in a culturally responsive manner. Student functions as clerk in community or residency site, and participates in care of assigned patients in a variety of settings: office, hospital, home, community resources. Prerequisite: third- or fourth-year medical students. Offered: AWSpS.

FAMED 674 P-Advanced Interviewing in Primary Care (8) L. MAUKSCH Emphasizes developing competency in patient-centered interviewing, interview organization, and time management. Introduces primary care counseling skills and methods of health behavior change. Prerequisite: permission of course faculty.

FAMED 676 P-Clinical Clerkship in Family Medicine - Libby (12) For description and prerequisites, see FAMED 632. Offered: AWSpS.

FAMED 677 P-Clinical Clerkship in Family Medicine - Grand Coulee (12) For description and prerequisites, see FAMED 632. Offered: AWSpS.

FAMED 678 P-Clinical Clerkship in Family Medicine - Port Angeles (12) For description and prerequisites, see FAMED 632. Offered: AWSpS.

FAMED 679 P-Clinical Clerkship in Family Medicine - Ferndale (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 680 P-Traditional Indian Medicine Clerkship in Primary Care Setting (*, max. 16) Broadens students' knowledge about the traditional Indian perception of health and illness, and expands their experience and skills with Traditional Indian Medicine (TIM) by interacting with a TIM practitioner, Native physician, patients and their families, and the local Native community. Prerequisite: either UCONJ 530, Indian Health Pathway declaration, or permission of course coordinator. Offered: AWSpS.

FAMED 681 P-Indian Healthcare Clerkship (*, max. 16) Examines the health disparities, health systems, and cultural/community strengths associated with American Indian/Alaska Native or other indigenous peoples. Prerequisite: either UCONJ 530, Indian Health Pathway declaration, or permission of course coordinator. Offered: AWSpS.

FAMED 682 P-Clinical Clerkship in Family Medicine - Ellensburg (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 683 P-Clinical Clerkship in Family Medicine - Lewiston (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.
FAMED 684 P-Clinical Clerkship in Family Medicine - Butte, MT (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 685 P-Clinical Clerkship in Family Medicine - Valley - Juneau, AK (12) For description and prerequisite, see FAMED 632. Offered: AWSpS.

FAMED 686 P-Clinical Clerkship in Family Medicine - Port Townsend (12) For description and prerequisite, see FAMED 632.

FAMED 687 P-Clinical Clerkship in Family Medicine - While Salmon (12) For description and prerequisite, see FAMED 632.

FAMED 688 P-Family Medicine Subinternship (*, max. 24) Students serve as interns for family medicine services associated with residency programs under the supervision of family medicine residents and attending physicians. Schedules mix inpatient and ambulatory experiences as determined by the site and the fourth-year student may have the same call as R-1 on service. Prerequisite: permission of course coordinator. Offered: AWSpS.

FAMED 689 P-Sports Medicine in Family Medicine- Spokane (4-8) Introduces medical students to treatment of sports related injuries in the non-operative, family medicine setting. Includes routine sports physicals, advanced musculoskeletal examination, and assessment of acutely injured athletes. Offered: AWSpS.

FAMED 690 One Health Clinical Elective (4-8) P. Rabinowitz "One Health" recognizes the intricate links between the health of humans, animals and the environment. This elective provides an academic conceptual framework and clinical exposure through which to explore the multitude of applications of the "One Health" paradigm in a multidisciplinary context. Students will gain experience working with interdisciplinary teams including veterinarians and physicians on species-spanning approaches to health Prerequisite: Permission of Course Instructor Offered: AWSpS.

FAMED 697 P-Family Medicine Special Electives (*, max. 24) Supplemental experience in rural/urban practice or a family medicine department in a setting not already established through the UW SOM family medicine curriculum. Prerequisite: third- or fourth-year medical students, permission of course coordinator. Offered: AWSpS.

FAMED 699 P-WWAMI Family Medicine Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of course coordinator. Offered: AWSpS.

FAMED 701 WRITE Advanced Outpatient Clerkship (8) L. Kirven This 4-week clinical outpatient experience takes place in WWAMI Rural Integrated Training Experience (WRITE) sites, where students function at the level of a beginning intern, taking primary responsibility for outpatient care, with appropriate supervision, to refine core clinical skills, expand medical knowledge, improve clinical reasoning, and work as an integral part of the clinical team.
Prerequisite: Completion of core WWAMI Rural Integrated Training Experience (WRITE). Non-WRITE students may take this course if they have completed all of their Patient Care Phase Clerkships; recommended: None Offered: WS.

**FAMED 702 Advanced Family Medicine Outpatient Clerkship (8)** *L. Kirven, T. Sairenji* This 4-week clinical outpatient experience takes place in WWAMI Family Medicine sites, where students may function at the level of a beginning intern, taking primary responsibility for outpatient care, with appropriate supervision, to refine core clinical skills, expand medical knowledge, improve clinical reasoning, and work as an integral part of the clinical team. Prerequisite: Students must have completed all of their Patient Care Phase Clerkships. Offered: AWSpS.

**FAMED 703 Advanced LGBTQ Primary Care Clerkship (8)** *T. Sairenji* This 4-week clinical outpatient clerkship addresses health disparities and the unique health concerns that face the LGBTQ community. Students learn to be effective, multi-disciplinary advocates who provide non-judgmental, effective, and compassionate medical care for LGBTQ patients. Prerequisite: FAMED 561 and UCONJ 570; recommended: UCONJ 624 Offered: AWSpS.
Genome Sciences

Department Overview

S-250 Foege Building

The department was created in 2001 with the merger of the Department of Genetics and the Department of Molecular Biotechnology.

Graduate Program

Graduate Program Coordinator
S-340 Foege Building, Box 355065
206-616-7297
gensci@uw.edu

The department offers a graduate program leading to the doctor of philosophy degree. Students are admitted only to the doctoral program.

Faculty and students study a broad range of topics, including the genetics of E. coli, yeast, C. elegans, Drosophila, and mouse; human and medical genetics; mathematical, statistical, and computer methods for analyzing genomes and theoretical and evolutionary genetics; and genome-wide studies by such approaches as sequencing, transcriptional and translational analysis, polymorphism detection, and identification of protein interactions.

The department addresses leading edge questions in biology and medicine by developing and applying genetic, genomic, and computational approaches that take advantage of genomic information now available for humans, model organisms, and a host of other species.

Doctor of Philosophy

Admission Requirements

1. Baccalaureate or advanced degree, either in a science such as biology, biochemistry, or related field, or in a computational area such as computer science or mathematics. The ideal candidate has experience in both areas. Competitive applicants have excellent GRE scores as well as extensive laboratory research experience.

2. Personal statement describing the applicant's academic and scientific background, research goals, and motivation for applying

3. Curriculum vitae

4. Unofficial copies of transcripts.

5. Unofficial copies of GRE scores (and TOEFL scores, for international applicants). Applicants who have provided official scores to the UW Graduate School need not send additional copies.
6. Three letters of reference from professors or others able to provide insight on the applicant's qualifications. Reference letters may be submitted online or by hard copy.

7. Applicants still in school will have earned additional courses not yet listed on the transcript should send a list of such courses to be taken before graduation.

**Degree Requirements**

90 credits

1. *First year*: Core courses, covering such topics as gene regulation, genomics, genetic analysis, genomic informatics, computational biology, proteomics, and population genetics, as well as literature review. Students rotate through a minimum of three laboratories before selecting a thesis laboratory at the end of the first year. Actual courses are determined in consultation with adviser.

   Electives focused on specific areas of interest. Students have the option of selecting mentors from core faculty members in the department as well as from adjunct and affiliate faculty members from several UW departments and the Fred Hutchinson Cancer Research Center.

3. *Third year*: Teaching assistant for two undergraduate courses.

4. *Final years*: Complete research and defend dissertation during fifth year.

5. During all years, students participate in the departmental Journal Club and research reports functions, and attend presentations of well-known researchers via the departmental seminar series.

**Financial Aid**

Genome Sciences provides full funding, including a competitive twelve-month salary, tuition waiver, and health insurance. Support is contingent upon satisfactory academic progress.

**Research Facilities**

The department is located in the William H. Foege Building. Students are assigned space in the laboratories of faculty members with whom they do their rotations or dissertation research. State-of-the-art research facilities are available in the department for cellular, protein, and DNA analysis. Extensive computer and library resources are available.

**Course Descriptions**

**GENOME 151 Human Genetics: The Individual and Society (4) NW** Principles of Mendelian inheritance as illustrated by human traits and diseases; chromosomes and sex
determination; distribution of genes in populations; natural selection and evolution; counseling and genetic engineering; ethical issues. For non-science majors only. Offered: Sp.

GENOME 261 Genomes and Society (4) NW Explores current technological advances in genome research and how these advances are impacting society. Topics include sequencing of the human genome, stem cell research, cloning, genetically modified foods, immunizations/public health, and genetic therapy. Appropriate for non-science majors.

GENOME 361 Fundamentals of Genetics and Genomics (3) NW Introduces fundamentals concepts in genetics and genomics including patterns of inheritance, genetic variation, and the relationship between genotype and phenotype. Cannot be taken for credit if credit received for GENOME 371. May not be repeated. Prerequisite: minimum grade of 1.5 in BIOL 200 or BIOL 240 Offered: WSpS.

GENOME 371 Introductory Genetics (5) NW Covers gene transmission, including chromosome mapping, genetic pathways; mutational analysis of biological processes emphasizing mutations affecting chromosome transmission. Introduction to genomics - cloning and sequence analysis of whole genomes. Emphasizes formal genetic mechanisms, molecular techniques. For biological sciences majors. May not be repeated. Prerequisite: Either minimum grade of 1.7 in BIOL 180 and minimum grade of 1.7 in BIOL 200, or minimum grade of 1.7 in BIOL 240. Offered: A.

GENOME 372 Genomics and Proteomics (5) NW Covers emerging fields of genomics and proteomics. Discusses key technologies and their applications to the study of human and model organism genomes.

GENOME 373 Genomic Informatics (4) NW Focuses on methods for analyzing large genetic data sets and their application to biological problems, including sequence alignment and search methods, gene prediction, phylogenetic trees, and microarray analysis.

GENOME 414 Molecular Evolution (5) NW Survey of empirical approaches to the study of molecular evolution and ecology, drawing on examples from a variety of taxa and the recent literature. Topics include DNA sequencing and systematics, fingerprinting approaches in behavioral ecology, and adaptive evolution at the molecular level. Prerequisite: BIOL 354. Offered: jointly with BIOL 414.

GENOME 453 Genetics of the Evolutionary Process (3) NW Contributions of genetics to the understanding of evolution. Processes of mutation, selection, and random genetic events as they affect the genetic architecture of natural populations and the process of speciation. Emphasis on experimental data and observation, rather than mathematical theory. Prerequisite: either GENOME 361 or GENOME 371.

GENOME 454 The Origins of Genetics (4) NW Discovery and eventual triumph of Mendelism in the early twentieth century. Concepts of heredity from ancient times to the nineteenth century. Mendel's work and its rediscovery. Evidence contributing to cornerstone of
classical genetics - the chromosome theory of heredity. Prerequisite: either GENOME 351, GENOME 371, or GENOME 372. Offered: A.

GENOME 463 Hands-On Science for Elementary School Teachers (5) Offers prospective and practicing teachers an opportunity to learn science through the hands-on teaching methods recommended for teaching science at the elementary level.

GENOME 465 Advanced Human Genetics (4) NW Explores genetic analysis of naturally occurring variation in humans; origins and consequences of mutation, as mediated by selection, migration, population structure and drift; approaches to finding human disease genes and characterizing them at the molecular level; relevance of other species to analysis of human genes. Prerequisite: either GENOME 361 or GENOME 371. Instructors: Eichler, King Offered: W.

GENOME 466 Cancer Genetics (3) NW Focuses on three types of cancer-related genetics. DNA repair, mitotic recombination, chromosome loss and imbalance, and other aspects of genomic instability. Metastatic cancer as an example of natural selection and evolution. Yeast and nematodes as models for the study of cancer genetics. Prerequisite: either GENOME 361, GENOME 371, or GENOME 372.

GENOME 475 Debates in Genetics (3) NW Utilizes the original scientific literature as the basis for discussion of a range of genetic issues that impact society. Discussions are student-led; evaluations are based both on participation in class and on a research paper. Prerequisite: BIOL 200; either BIOL 355, BIOL 401, BIOL 402, GENOME 361, or GENOME 371.

GENOME 490 Undergraduate Seminar (2, max. 6) NW Seminar for advanced undergraduate students engaged in individual research projects or those who wish to gain an understanding of genetic research by analysis of the primary literature. Assignments emphasize the rationale for research projects and the presentation and interpretation of research findings. Offered: AWSp.

GENOME 496 Peer Teaching Assistants in Genome Sciences (1-5, max. 5) Direct experience in the classroom teaching a discussion section for non-majors in genome sciences courses. Peer teaching assistants attend lectures and weekly preparation meetings and gain in-depth background on the subject material. In addition, peer TAs are given training in teaching techniques and course preparation. Prerequisite: GENOME 371. Credit/no-credit only.

GENOME 499 Undergraduate Research (*, max. 30) Credit/no-credit only. Offered: AWSpS.

GENOME 501 Introduction to Research Materials (1-10, max. 10) The student undertakes a research project in one of the research groups within the department for a quarter at a time. Prerequisite: graduate standing in the Department of Genome Sciences or permission of Graduate Program Coordinator. Credit/no-credit only. Offered: AWSpS.

GENOME 503 An Inquiry Approach to Teaching Genetics at the Introductory High School Level (2, max. 6) Provides advanced science content on topics in genetics and bioethics
that are taught in secondary biology classrooms, as well as pedagogical strategies for conveying concepts to pre-college students. Workshop participation required.

**GENOME 504 StarNet: Research Experiences for Students and Teachers (3, max. 9)**
Explores the scientific knowledge, technical skills, and pedagogical strategies related to teaching DNA sequencing and bioethics in a high school classroom. Workshop participation required.

**GENOME 505 StarNet: Teacher Research Experience (9)**
Participating teachers carry out an independent research project in a University of Washington laboratory. Teachers, scientists, and StarNet staff meet weekly for an informal research talk.

**GENOME 506 The Science Education Partnership (5, max. 15)**
Provides secondary school teachers training in molecular biology, genetics, and biotechnology, as well as resources and ongoing support designed to enhance biology instruction. Workshop participation required. Credit/no-credit only.

**GENOME 520 Seminar (1, max. 30)**
Prerequisite: graduate standing in the Department of Genome Sciences or permission of Graduate Program Coordinator. Credit/no-credit only. Offered: AWSp.

**GENOME 522 Journal Club (1, max. 30)**
Presentation and discussion of current scientific literature. For Genome Sciences graduate students only. Credit/no-credit only. Offered: AWSp.

**GENOME 523 Research Reports (1, max. 30)**
Presentation and discussion of current student research. For Genome Sciences graduate students only. Credit/no-credit only. Offered: AWSp.

**GENOME 525 Current Literature in Human Genetics (1)**
Topics from current literature in human genetics. Students and faculty each present one topic per quarter. Prerequisite: graduate or postdoctoral status. Credit/no-credit only. Offered: AWSp.

**GENOME 531 Genetics of Human Disease (3)**
Covers modern approaches to the identification of human disease genes permitted by their isolation. Reviews how functional conservation of proteins throughout eukaryotic evolution is modeled in systems such as somatic cell culture, transgenic mice, menatodes, Drosophila, and yeast. Credit/no-credit only.

**GENOME 540 Introduction to Computational Molecular Biology: Genome and Protein Sequence Analysis (4)**
Algorithmic and probabilistic methods for analysis of DNA and protein analysis. Students must be able to write computer programs for data analysis. Prior coursework in biology and probability highly desirable. Prerequisite: permission of instructor. Offered: W.

**GENOME 541 Introduction to Computational Molecular Biology: Molecular Evolution (4)**
Computational methods for studying molecular evolution. Students must be able to write computer programs for data analysis. Prior coursework in biology and probability highly desirable. Offered: Sp.
GENOME 545 Biostatistical Methods for Big Omics Data (3) This "hands-on" course introduces statistical methods for high-dimensional omics data, as well as the R programming language and the Bioconductor project as tools to extract, query, integrate, visualize, and analyze real world omics data sets. Prerequisite: BIOST 512, 514, or 517. Offered: jointly with BIOST 545/PHG 545.

GENOME 547 Scientific Writing (1.5) For graduate students principally in their second and third year. Focuses on the preparation of research manuscripts for publication. Also considers other scientific writing such as thesis proposals and fellowship and grant applications. Credit/no-credit only.

GENOME 550 Methods and Logic in Genetics (3) Critical reading and detailed discussion of genetics-related scientific research papers. Material emphasizes methodological and logical themes of importance in modern genetics, for example: origin of mutants, genetic epistasis, pulse labeling, and in vivo gene function. Prerequisite: first-year genetics graduate students only. Offered: A.

GENOME 551 Principles of Gene Regulation (1.5) A detailed examination of the mechanisms of transcription and translation as determined by experimental genetics, molecular biology, and biochemistry.

GENOME 552 Technologies for Genome Analysis (1.5) Discussion of current and newly-emerging technologies in genome analysis with regard to applications in biology and medicine and to potential advantages and limitations. Prerequisite: permission of instructor. Offered: A.

GENOME 553 Advanced Genetic Analysis (1.5) Classical genetic analysis is a powerful approach to dissect complex biological processes. Selective removal, addition, or alteration of specific proteins to identify and order genes in a pathway, define protein function, determine tissue and temporal requirements for gene function, and distinguish among competing hypotheses to explain biological phenomena.

GENOME 554 Genomic Informatics (1.5) Many complete genome sequences are known. Each of these encodes the instructions for making an entire organism, but how can we hope to decipher the code? Focuses on methods for analyzing genome sequences, ranging from large-scale organizational pattern to gene prediction and detailed local alignment methods.

GENOME 555 Protein Technology (1.5) Focuses on current and emerging technologies and approaches in protein analysis, and considers applications of these technologies in biology, biotechnology, and medicine.

GENOME 559 Introduction to Statistical and Computational Genomics (3) Rudiments of statistical and computational genomics. Emphasis on basic probability and statistics, introduction to computer programming, and relevant web databases.
GENOME 561 Molecular Population Genetics and Evolution (1.5) Surveys recent literature to gain an understanding of the basic principles of molecular population genetics and evolution as applied to analysis of genome data. Requires some computer analysis of genome data.

GENOME 562 Population Genetics (4) Mathematical and experimental approaches to the genetics of natural populations, especially as they relate to evolution. Emphasis on theoretical population genetics. Prerequisite: permission of instructor. Instructors: Felsenstein Offered: W, odd years.

GENOME 565 Advanced Human Genetics (4) Explores genetic analysis of naturally occurring variation in humans; origins and consequences of mutation, as mediated by selection, migration, population structure, and drift; approaches to finding human disease genes and characterizing them at the molecular level; relevance of other species to analysis of human genes. Prerequisite: either GENOME 361 or GENOME 371. Instructors: Eichler, King Offered: W.

GENOME 570 Phylogenetic Inference (3) Methods for inferring phylogenies (evolutionary trees) - biological assumptions, statistical foundations, and computational methods. A comprehensive introduction for graduate students in the biological sciences to phylogenetic methods using data from molecular sequences, continuous and discrete characters, and gene frequencies. Prerequisite: introductory courses in evolution and in statistics. Instructors: Felsenstein Offered: W, even years.

GENOME 573 Human Genomics: Science, Ethics, and Society (3) Explores the ethical and social implications of human molecular genetics and genomics investigation. Recent research is critically evaluated for its potential impact on scientific practice, research participation, and societal understandings. Prerequisite: LAW H 504/B H 514/PHG 512 or permission of instructor. Instructors: Fullerton Offered: jointly with B H 551; A.

GENOME 576 Genetic and Genomic Analysis of Bacteria (1.5) In-depth coverage of genetic and genomic strategies used to analyze complex biological processes in bacteria. Focuses on general approaches, with examples drawn from studies of pathogenic organisms where possible. A combination of lectures and seminar-style discussions of primary literature.

GENOME 580 Ethics in Biomedical Research and Teaching (1) Explores ethical issues in research and teaching and discusses avenues of responsible conduct. Credit/no-credit only.

GENOME 582 Seminar in Mouse Genetics (1) Braun Discussion of contemporary research in and novel methods for genetic, cell biological, and molecular analysis of mammalian development, with utilization of transgenic techniques. Credit/no-credit only.
GENOME 584 Seminar in DNA Replication (1) Brewer, Fangman Discussions of contemporary research in and novel methods for genetic, cell biological, and molecular biological analysis of budding yeast, with emphasis on the mechanisms and control of DNA replication. Credit/no-credit only. Offered: AWSp.

GENOME 585 Seminar in Bacterial Genetics (1) Discussions of contemporary research in and novel methods for genetic, cell biological, and molecular biological analysis of bacterial assembly mechanisms, with emphasis on the topogenesis of membrane proteins. Credit/no-credit only.

GENOME 586 Seminar in Mammalian Genetics (1) Sibley Discussions of contemporary research in and novel methods for genetic, cell biological, and molecular biological analysis of mammalian genetics, with emphasis on lymphoblast development. Credit/no-credit only.

GENOME 587 Seminar in Nematode Genetics (1) Thomas Discussions of contemporary research in and novel methods for genetic, cell biological, and molecular biological analysis of nematode development, with emphasis on neurogenesis and other developmental processes. Credit/no-credit only.

GENOME 590 Population Genetics Seminar (1) Weekly presentation by participants of current literature and ongoing research in evolution, molecular evolution, evolutionary genetics of natural populations, human population genetics, and quantitative genetics applied to animal and plant breeding. Prerequisite: GENOME 562 or permission of instructor. Instructors: Felsenstein Credit/no-credit only.

GENOME 599 Special Topics in Molecular Biotechnology (*, max. 12) Prerequisite: permission of instructor. Offered: AWSp.

GENOME 600 Independent Study or Research (*) Credit/no-credit only. Offered: AWSpS.

GENOME 700 Master's Thesis (*) Offered: AWSpS.

GENOME 800 Doctoral Dissertation (*) Offered: AWSpS.
Human Biology

Course Descriptions

HUBIO 500 P-Medical Practice Preceptorship at WWAMI Sites (1, max. 3) Personal experience with, and insight into, medical practice situations. Student is stationed with carefully selected clinical faculty members in their offices in accordance with the student's preference of discipline at the WWAMI sites. Registration limited to first-year medical students at WWAMI sites. Offered: AWSpS.

HUBIO 501 P-Human Biology Special Projects (*) Designed for medical students electing a special study project related to the Introduction to Clinical Medicine or other human biology courses, which are offered during the first and second years in the School of Medicine. Primarily intended for students in remedial or extended programs. Prerequisite: permission of assistant dean for curriculum. Offered: AWSpS.

HUBIO 505 P-WWAMI Preceptorship (*, max. 6) Opportunity for first-year medical students at WWAMI sites to gain personal experience with medical practice situations by being assigned to selected clinical faculty members in their offices. Offered: ASp.

HUBIO 510 P-Microscopic Anatomy: Histology (6) Bermingham-McDonogh Lectures and laboratories in microscopic anatomy designed to provide the principles and concepts of histology, to define the morphological characteristics of the cells, tissues, and organs of the human body, and to relate this information to functional processes studied in concurrent and subsequent courses. Offered: A.

HUBIO 511 P-Human Anatomy and Embryology (8/13) Clark Structural organization of human body at the macroscopic level to provide a foundation for physical examination and functional assessment of the human organism. Integrates embryological development with study of the cadaver and examination of the normal living body. Concentrates on exploration of the body cavities and the viscera they contain. Offered: A.

HUBIO 512 P-Mechanisms in Cell Physiology (5) Detwiler Physiology of the cell membrane, including ionic and electrical potential gradients; active transport, excitability, and action potentials; biophysics of sensory receptors; neuromuscular transmission; muscle energetics and contractility; spinal reflexes and central synaptic transmission; autonomic nervous system; energy metabolism and temperature regulation; epithelial transport; gastrointestinal motility and secretions. Offered: A.

HUBIO 513 P-Introduction to Clinical Medicine (3-) Issac, Maestas Instruction in communication skills and interview techniques to form the basis for the doctor-patient relationship and for the skills of communicating with patients. The patient profile is obtained. Attention to developing comfort in the physician role. Offered: A.
HUBIO 514 P-Biochemistry I-A (4-) Maizels Explores molecular biology of the genome. Examines how the genome serves as a source of information, how molecular understanding of gene function identifies new therapeutic targets and provides new therapeutic and diagnostic tools. Assumes familiarity with fundamental principles, at the level tested in the MCATs. Offered: A.

HUBIO 516 P-Systems of Human Behavior (5) Harrington Effects of behavioral factors in major management problems faced in medical practice relating to cultural background, social role, sexual identity, and belief systems. Acquisition of skills in analyzing behavior, defining objectives, and designing precise treatment strategies. Offered: A.

HUBIO 522 P-Introduction to Clinical Medicine (-4-) Isaac, Maestas Medical history is introduced and instruction in data collection is begun. Experience in conducting medical interviews with patients to obtain the medical history and patient profile. Special problems related to interviewing are addressed. Offered: W.

HUBIO 523 P-Introduction to Immunology (2) Gale Topics covered include: basic concepts such as antigens; antibodies; complement; B-and T-lymphocyte function, including interactions with each other and with accessory cells; immunological tolerance; major histocompatibility complex and role of these basic concepts in immunopathology (immunodeficiencies, hypersensitivities, autoimmunity, blood transfusion, and transplantation).

HUBIO 524 P-Biochemistry I-B (-4) Maizels Metabolism as integrated in the organs and tissue of the human body for the purpose of generating energy from food and converting small molecules to essential building block of our cells. Discusses principles of nutrition in the context of human health and disease. Assumes familiarity with fundamental principles, at the level tested in the MCATs. Offered: W.

HUBIO 530 P-Clinical Epidemiology and Evidence-Based Medicine (2) Kestenbaum Community health and disease, including assessment of disease risk and mechanisms of epidemic detection, spread, and control; interpretation of research design, data analysis, bias source; and clinical epidemiology, including evaluation and application of diagnostic tests, natural history of disease, and quantitative aids for clinical decision making. Offered: W.

HUBIO 531 P-Head, Neck, Ear, Nose, and Throat (5)

HUBIO 532 P-Nervous System (8) Dacey, Mulligan An integrated approach to the normal structure and function of the nervous system, including the eye. Presents neuropathological examples as well as clinical manifestations of neurological disease.

HUBIO 535 P-Introduction to Clinical Medicine (-4) Isaac, Maestas Adult screening physical examination is taught through the use of lecture, audiovisual aids, and small-group tutorial, where students in supervised setting practice the physical examination on one other. Further practice in the performance and recording of the patient profile and medical history. Offered: Sp.

HUBIO 540 P-Cardiovascular System (6) Feigl Interdisciplinary approach to cardiovascular medicine, including anatomy, physiology, radiology, pathology, medicine, and surgery. Function of the cardiovascular system in health and disease. Offered: A.

HUBIO 541 P-Respiratory System (4) Culver, Luks Interdisciplinary approach to the respiratory system, including anatomy of thorax and lungs, ventilation mechanics, blood-gas transport, gas exchange, acid-base balance, and the physiology and pathology of obstructive, restrictive, and pulmonary-vascular diseases. Offered: A.

HUBIO 542 P-Introduction to Clinical Medicine (4-) McDonough Advanced instruction in interview technique, history taking, and physical examination, with emphasis on detection of abnormalities. Offered: A.

HUBIO 543 P-Principles of Pharmacology I (5) McKnight Includes general principles of pharmacology and the specific pharmacology of major drugs acting on the autonomic and cardiovascular systems. Offered: A.

HUBIO 547 P- Pathology IIA (5) Patterns of cell and tissue response to injury. Mechanisms of cell injury, inflammatory process, thrombosis, normal and abnormal growth, neoplasia, clinicopathological correlation. Major pathologic changes associated with specific diseases in the different organ systems. Multidisciplinary approach to some diseases which effect more than one organ system including cardiovascular, renal, and respiratory.

HUBIO 548 P-Cases in Clinical Ethics (1) Provides exposure to key issues in clinical ethics as well as the tools for ethical reasoning and critical thinking that support the student's current and future work. Prerequisite: second-year medical students. Instructors: Edwards, Timberlake

HUBIO 550 P-Introduction to Clinical Medicine (-4-) McDonough Advanced instruction in interview technique, history taking, and physical examination, with emphasis on identification of problems and correlation of findings with pathophysiological mechanisms. Offered: W.

HUBIO 551 P-Gastro-Intestinal System (4) Silverstein Anatomy of the gastrointestinal system; physiology and pathology of digestion and hepatic function; and physical and laboratory examination. Offered: W.

HUBIO 552 P-Hematology (3) Richard Familiarizes students with the basic pathophysiologic mechanisms leading to disturbances of red cell, white cell, and platelet production, as well as abnormalities of hemostasis presenting clinical problems. Pathophysiology, rather than minute details of individual disease, is stressed. Offered: W.
HUBIO 553 P-Musculoskeletal System (4) Schmale Gross, surface, applied, and radiographic anatomy. Clinical manifestations in the musculoskeletal system and pathophysiology of trauma, aging, infection, and inflammation, as well as congenital and metabolic disorders. Dissections, physical examinations, and problem-based learning. Offered: W.

HUBIO 554 P-Genetics (2) Review of basic genetic principles and their applications in clinical medicine. Includes human chromosomal disorders; patterns of inheritance, genetic counseling, amniocentesis; pathogenesis of hereditary diseases, monogenic and multifactorial; role of genetics in common diseases; behavioral genetics; drug-gene interactions; and prevention and treatment of genetic diseases, including prenatal diagnosis and population screening. Offered: A.

HUBIO 555 P-Medicine, Health, and Society (3) Chen, Masuda Interdisciplinary introduction to health services designed for future healthcare practitioners. Examines the history, organization, and effectiveness of the U.S. healthcare system. Stresses the student's ability to adopt a broad perspective across healthcare disciplines and traditional boundaries. Offered: W.

HUBIO 556 P-Hormones and Nutrients (4) DeSantis Introduction to principles of human endocrinology, metabolism, and nutrition; the physiology and pathophysiology of endocrine systems, glucose and lipid metabolism, and fluid and salt balance; and the importance of proper nutrition in certain disease states.

HUBIO 557 P-Pathology IIB (2-) Patterns of cell and tissue response to injury. Mechanisms of cell injury, inflammatory process, thrombosis, normal and abnormal growth, neoplasia, clinicopathological correlation. Major pathologic changes associated with specific diseases in the different organ systems. Multidisciplinary approach to some diseases which effect more than one organ system including cardiovascular, renal, and respiratory.

HUBIO 558 P-Rheumatology (1) An intensive immersion course in rheumatology for second year students. Lectures and small group patient demonstrations link concepts of immunology, pathology and pharmacology with inflammatory and autoimmune disease, teach differential diagnosis of symptoms seen in rheumatic disease and use if diagnostic to demonstrate features of common childhood and adult rheumatic diseases and their management.

HUBIO 559 P-Problem Based Learning (3) Scott Teaches students to methodically solve medical problems by gathering, sorting, and interpreting data. Students learn life-long self-education and self-evaluation skills. Provides practice working as a healthcare team by including medical, nursing, and physician assistant students in each group. Offered: W.

HUBIO 562 P-Urinary System (4) Jefferson Anatomy, physiology, and pathology of the kidney, ureter, bladder, and prostate; pathophysiology and treatment of common fluid and electrolyte problems; renal pharmacology; major clinical urinary system syndromes, with current diagnostic approaches and therapy. Offered: Sp.
HUBIO 565 P-Reproduction (4) Steiner Normal development of the human reproductive system. Sexual differentiation, puberty, endocrine control of testicular and ovarian function, gamete biology, fertilization, implantation, immunology and endocrinology of pregnancy, labor and delivery, pathology of the male and female reproductive organs, contraception, prolactin and lactation, aging and infertility. Offered: Sp.

HUBIO 566 P-Pathology IIC (-3) Patterns of cell and tissue response to injury. Mechanisms of cell injury, inflammatory process, thrombosis, normal and abnormal growth, neoplasia, clinicopathological correlation. Major pathologic changes associated with specific diseases in the different organ systems. Multidisciplinary approach to some diseases which effect more than one organ system including cardiovascular, renal, and respiratory.

HUBIO 567 P-Skin System (2) Colven Gross and microscopic anatomy. Physiology, protection, temperature control, pigmentation, and photosensitivity. Pathology and genetics of skin abnormalities, including tumors. Introduction to clinical evaluation, including physical examination and illustrating examples of inflammatory, vascular, immunological (including drug hypersensitivity), and neoplastic diseases. Offered: A.

HUBIO 569 P-Mind, Brain, and Behavior (6) O. PASCUALY Defines and describes major psychiatric disorders and presents a systematic approach to differential diagnosis. Discusses conceptual development, pathogenesis, epidemiology, nomenclature, and the terminology used in psychiatry; along with physiological and biochemical mechanisms, and therapeutic and adverse effects. Offered: Sp.

HUBIO 590 P-Medical Information for Decision Making (1) Introduction to methods for: a) identifying and retrieving high quality, relevant documents for clinical decision making, b) applying rigorous criteria when reading primary research studies, reviews of primary studies, or other medical information sources that report on the effectiveness of therapeutic or preventive interventions. Prerequisite: first-year medical students. Instructors: Tarczy-Hornoch Offered: W.

HUBIO 591 P-WWAMI Non-clinical Selectives - Pullman (*, max. 30) Courses offered at WWAMI university site in Pullman designed to satisfy the non-clinical selective graduation requirements for medical students. Offered: AWSp.

HUBIO 592 P-WWAMI Non-clinical Selectives - Spokane (*, max. 30) Courses offered at WWAMI university site in Spokane designed to satisfy the non-clinical selective graduation requirements for medical students. Offered: AWSp.

HUBIO 593 P-WWAMI Non-clinical Selectives - Laramie (*, max. 30) Courses offered at WWAMI university site in Laramie, WY designed to satisfy the non-clinical selective graduation requirements for medical students. Offered: AWSp.

HUBIO 594 P-WWAMI Non-clinical Selectives - Anchorage (*, max. 30) Courses offered at WWAMI university site in Anchorage, designed to satisfy the non-clinical selective graduation requirements for medical students. Offered: AWSp.
HUBIO 595 P-Independent Investigative Inquiry, GHIP (8) S. GRAHAM With faculty mentorship, students investigate a global health issue, work on a community health project, and create an academic poster. Prerequisite: GHIP students only. Offered: S.

HUBIO 596 P- WWAMI Non-Clinical Selectives - Bozeman (*, max. 30) Courses offered at WWAMI university site in Bozeman, designed to satisfy the non-clinical selective graduation requirements for medical students. Offered: AWSp.

HUBIO 598 P-WWAMI Non-Clinical Selectives - Moscow (*, max. 30) Courses offered at WWAMI university site in Moscow, ID, designed to satisfy the non-clinical selective graduation requirement for medical students. Offered: AWSp.

HUBIO 599 P-Independent Study in Medical Science (6) Independent research with faculty sponsor and completion of paper as partial fulfillment of non-clinical selective graduation requirement. Offered: Sp.

HUBIO 600 P-Capstone Course: Preparation for Residency (2, max. 4) A combination of large group lectures and small group discussions and workshops reviewing clinical skills in history-taking and physical examinations, imaging studies, common and emergency drugs, ACLS, infectious disease control, common clinical problems, and other topics that are encountered in residency training. Offered: Sp.
Immunology

Department Overview

H564 Health Sciences

The department includes more than 30 faculty and 200 scientists, students, post-docs and staff engaged in elucidating fundamental immunological mechanisms and how these mechanisms impact human health; infectious, autoimmune, and allergic diseases; and cancer. Current focus areas include lymphocyte signaling, T and B cell development, macrophage function, antigen processing, immuno-tolerance, and the structure of antigen receptors.

Graduate Program

Graduate Program Coordinator
H564 Health Sciences, Box 357650
206-685-3955, fax 206-543-1013
immgrad@uw.edu

Master of Science

Students are not admitted to the department specifically as candidates for a master's degree. A terminal master's degree can be awarded if the faculty deems the student has made some progress in the program but not enough to be consistent with earning the PhD.

Doctor of Philosophy

Admission Requirements

Students are admitted for autumn quarter; application deadline is January 1 for U.S. citizens and November 1 for international applicants. Requirements for admission are flexible. However, most successful applicants have completed survey courses in biology, chemistry, and physics; one year of organic chemistry; and mathematics through integral calculus. Prior exposure to immunology through formal coursework, or especially through laboratory research, is desirable. A bachelor's degree is required, as is evidence of superior scholarship and above average performance on the GRE General Test. A GRE subject test is not required.

International students must take the TOEFL; 250 is the minimum acceptable score on the computer test.

Degree Requirements

90 credits
1. 18 graded credits in the first two years. First-year coursework consists of consecutive five-week-long courses taken autumn through spring quarters – two per quarter (for 1.5 to 2 graded credits each); winter quarter, first year students also take IMMUN 532 (4 graded credits), for a total of 13 or 13.5 graded credits the first year, depending on course choices. In the second year, students earn 4.5 or 5 additional graded credits by taking electives winter and/or spring quarters. As part of first- and second-year coursework, students take two five-week courses that specifically focus on cancer immunology.

2. Autumn quarter of the first year, students may take an elective and attend selected lectures of the undergraduate immunology course, IMMUN 441. Students attend the departmental seminar series, Journal Club, and research-in-progress talks beginning the first quarter and continuing throughout enrollment.

3. All elective courses must be relevant to biomedical research, and include either a final examination or required written paper for a grade. Elective classes must be at the 500 level, and receive a numerical grade.

4. Each student takes the qualifying examination during July immediately following the second year of classes. (MSTP students take qualifying examinations following the first year of graduate classes.)

5. Students who pass the qualifying examination then prepare for the General Examination, which must be taken within 15 months of the qualifying examination.

6. The dissertation must meet all format requirements.

### Course Descriptions

**IMMUN 441 Introduction to Immunology (4) NW**
General properties of immune responses; cells and tissues of immune system; lymphocyte activation and specificity; effector mechanisms; immunity to microbes; immunodeficiency and AIDS; autoimmune diseases; transplantation. Prerequisite: BIOL 220; may not be repeated. Offered: A.

**IMMUN 499 Undergraduate Research (*, max. 24)**
Investigative work on a variety of topics, including mechanisms of antigen recognition, T-cell development and differentiation, immunogenetics, lymphocyte activation, MHC gene structure and function, retrovirology, and the pathogenesis of autoimmune diseases, among others. Prerequisite: permission of instructor. Offered: AWSpS.

**IMMUN 532 Intersection of Innate and Adaptive Immunity in Disease (4)**
Examines the molecular and cellular basis of immune function. Topics include: hematopoiesis, innate immunity, antigen receptor structure, lymphocyte development, antigen presentation, effector T-cell functions, and immune-mediated diseases. Prerequisite: coursework in molecular genetics; graduate standing in immunology; other graduate students with permission of instructor. Offered: W.

**IMMUN 534 Central Issues in Immunology (3)**
Presentations by participants of topics relating to the broad study of immunology. Prerequisite: graduate standing in immunology. Offered: Sp.
IMMUN 537 Immunological Methods (1.5) Fink, Weinmann
Introduces whole animal, cellular, biochemical, and molecular techniques used in immunological research. Discusses strengths and limitations of each technique and emphasizes caveats in interpreting the resulting data. Offered: A.

IMMUN 538 Immunological Based Diseases and Treatments (2) E. BETTELLI, R. SAVAN
Addresses the mechanisms leading to the development of immunologically based diseases. In particular, covers immunological basis and treatment of infection, autoimmunity, and cancer. Offered: Sp.

IMMUN 550 Selected Topics in Immunology (1, max. 30)
Formal seminar-discussion course for advanced students focused on recent developments in the field and consisting of literature research and intensive in-depth study of important and timely topics. Prerequisite: graduate standing in immunology. Credit/no-credit only. Offered: AWSp.

IMMUN 551 Research Conference in Regulation of T Cell-Dependent B Cell Maturation (1, max. 30)
Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Clark Credit/no-credit only. Offered: AWSpS.

IMMUN 552 Research Conference in Principles of Antiviral Immunity (1, max. 30)
Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Prerequisite: immunology graduate student; permission of instructor. Instructors: Stetson Offered: AWSpS.

IMMUN 553 Research Conference in Recombination and Repair in B Cell Development (1, max. 30)
Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Maizels Credit/no-credit only. Offered: AWSpS.

IMMUN 554 Research Conference in Immunogenetic Aspects of Human Autoimmunity (1, max. 30)
Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Nepom Credit/no-credit only. Offered: AWSpS.

IMMUN 555 Research Conference in Model of Autoimmune Disease and Their Regulation (1, max. 30)
Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Goverman Credit/no-credit only. Offered: AWSpS.

IMMUN 556 Research Conference in Regulation of Autoimmunity and Allergic Inflammation (1, max. 30)
Weekly group conferences concerning ongoing graduate student and
postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Ziegler Credit/no-credit only. Offered: AWSpS.

IMMUN 557 Research Conference in the Mechanisms and Consequences of Programmed Cell Death (1, max. 30) Weekly group conferences concerning ongoing graduate student and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology or permission of instructor. Instructors: Oberst Credit/no-credit only. Offered: AWSpS.

IMMUN 558 Research Conference in Apoptosis and Autoimmunity (1, max. 30) Weekly group conferences concerning ongoing graduate student and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Elkon Credit/no-credit only. Offered: AWSpS.

IMMUN 559 Research Conference in T Cell Responses during Mycobacterium tuberculosis (1, max. 30) Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Student may register for more than one conference each quarter. Prerequisite: immunology graduate student; permission of instructor. Instructors: Urdahl Credit/no-credit only. Offered: AWSpS.

IMMUN 560 Research Conference in Progress in T Cell Research (1, max. 30) Weekly group conferences concerning ongoing graduate student and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Bevan, Fink, Goverman, Greenberg, Pepper, Stetson Credit/no-credit only. Offered: AWSpS.

IMMUN 561 Research Conference in Mechanisms of Peripheral Tolerance (1, max. 30) Weekly group conferences concerning ongoing graduate student and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Fink Credit/no-credit only. Offered: AWSpS.

IMMUN 562 Research Conference in Structural Molecular Immunology and Vaccinology (1, max. 30) Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Student may register for more than one conference each quarter. Prerequisite: immunology graduate students; permission of instructor. Instructors: Strong Credit/no-credit only. Offered: AWSpS.

IMMUN 563 Research Conference in Macrophage Biology: Signaling and Phagocytosis (1, max. 30) Weekly group conferences concerning ongoing graduate student and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Aderem Credit/no-credit only. Offered: AWSpS.

IMMUN 564 Research Conference in Cellular/Molecular Regulation of T Cell Responses (1, max. 30) Weekly group conferences concerning ongoing graduate student and postdoctoral
research in immunology. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Greenberg Credit/no-credit only. Offered: AWSpS.

**IMMUN 565 Research Conference in Innate Immune Defenses against Virus Infection (1, max. 30)**
Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology, with a major focus on understanding virus and host regulation of innate immune processes. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Gale Credit/no-credit only. Offered: AWSpS.

**IMMUN 566 Research Conference in the Studies of Lymphocyte Memory (1, max. 30)**
Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: immunology graduate student and permission of instructor. Instructors: Pepper Credit/no-credit only. Offered: AWSpS.

**IMMUN 567 Research Conference in the Role of miRNAs in Modulating the Immune System (1, max. 30)**
Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: immunology graduate student and permission of instructor. Instructors: Savan Credit/no-credit only. Offered: AWSpS.

**IMMUN 568 Research Conference in Regulation of the Inflammatory Response of Myeloid Cells (1, max. 30)**
Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology, with a major focus placed on understanding the regulation of the inflammatory response of myeloid cells. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Hamerman Credit/no-credit only. Offered: AWSpS.

**IMMUN 569 Research Conference in T cells in autoimmunity (1, max. 30)**
Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: immunology graduate student and permission of instructor. Instructors: Bettelli Credit/no-credit only. Offered: AWSpS.

**IMMUN 570 Research Conference in Mucosal Immunity (1, max. 30)**
Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: immunology graduate student and permission of instructor. Instructors: Oukka Credit/no-credit only. Offered: AWSpS.

**IMMUN 571 Research Conference in Development and Activation of B Cells (1, max. 30)**
Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Rawlings Credit/no-credit only.
IMMUN 572 Research Conference in Signal Transduction in B-Cells (1, max. 30) Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Scharenberg Credit/no-credit only.

IMMUN 573 Immunology Seminar Series (1, max. 30) Weekly discussion in which original research results are presented and discussed. Emphasis is on new and original contributions to field of immunology and related areas; occasional seminars are concerned with review of important topics. Prerequisite: graduate standing in immunology; other graduate students with firm background in immunology and permission of instructor. Credit/no-credit only.

IMMUN 574 Research Conference in Kaposi's Sarcoma-Associated Herpes Virus: Interactions with B-Cells and Endothelial Cells (1, max. 30) Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Lagunoff Credit/no-credit only.

IMMUN 575 Research Conference in Infection and Immunity (1, max. 30) Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Bevan Credit/no-credit only.

IMMUN 576 Research Conference in Innate Immune Mechanisms of Response and Regulation (1, max. 30) A. LACY-HULBERT Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than once conference each quarter. Prerequisite: graduate standing in immunology; permission of instructor. Credit/no-credit only. Offered: AWSpS.

IMMUN 577 Research Conference in Lymphocyte Homing and Function (1, max. 30) Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Campbell Credit/no-credit only. Offered: AWSpS.

IMMUN 578 Research Conference in Immunology and the Pathogenesis of Tuberculosis (1, max. 30) Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: graduate standing in immunology. Instructors: Ramakrishnan Credit/no-credit only. Offered: AWSpS.

IMMUN 579 Research Conference in Liver Immunology (1, max. 30) Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter. Prerequisite: immunology graduate student and permission of instructor. Instructors: Crispe Credit/no-credit only. Offered: AWSpS.
IMMUN 580 Research Conference in Immune Imaging and Structure-Function Biology (1, max. 30) M. GERNER Weekly group conferences concerning ongoing graduate students and postdoctoral research in Immunology. Students may register for more than one conference each quarter. Credit/no-credit only. Offered: AWSpS.

IMMUN 581 Research Conference on the Initiation of Type 2 Immune Responses by Parasitic Worms and Allergens (1) J. VON MOLTKE Weekly group conferences concerning ongoing graduate students and postdoctoral research in Immunology. Credit/no-credit only. Offered: AWSpS.

IMMUN 599 Introduction to Immunology Research (1-10, max. 40) Current problems in immunological research. Prerequisite: graduate standing in immunology. Credit/no-credit only. Offered: AWSpS.

IMMUN 600 Independent Study or Research (*) Prerequisite: graduate standing in immunology. Credit/no-credit only. Offered: AWSpS.

IMMUN 700 Master's Thesis (*) Prerequisite: graduate standing in immunology. Credit/no-credit only. Offered: AWSpS.

IMMUN 800 Doctoral Dissertation (*) Prerequisite: graduate standing in immunology. Credit/no-credit only. Offered: AWSpS.
Laboratory Medicine

Department Overview

NW 120, UW Medical Center

Medical laboratory science, offered by the Department of Laboratory Medicine, is a profession of highly knowledgeable and skilled individuals who perform clinical laboratory tests on patient samples. This is a critical part of healthcare, as the results obtained by these laboratory tests are a vital tool for physicians in their diagnosis, treatment, and prevention of disease.

Undergraduate Program

Adviser
NW 120, UW Medical Center
206-598-6131
medtech@uw.edu

The Department of Laboratory Medicine offers the following program of study:

- Bachelor of Science in Medical Laboratory Science degree

Bachelor of Science

1. **Pre-professional Phase.** During the first two years, students enroll as pre-majors in the College of Arts and Sciences, satisfying general education requirements as well as completing prerequisite courses.

2. **Professional Phase.** The professional phase begins autumn quarter of the third year and continues for seven consecutive quarters at the UW School of Medicine. Courses in the first year of the professional phase provide students an appropriate theoretical background and basic technical skills that enable them to function effectively in the clinical laboratory.

The final year is offered in the clinical laboratories of the UW Medical Center and its principal affiliates. Students in the core clinical laboratories receive on-the-bench training in chemistry, hematology, immunohematology, and microbiology.

*Suggested First- and Second-Year College Work:* Completion of University writing, reasoning, and general education requirements. Electives, not required for admission or graduation, may include: CHEM 321, MICROM 301, GENOME 351, GENOME 371, B STR 301, PHIL 115, PHIL 241, CLAS 101, CLAS 205, PATH 410, UCONJ 420. Begin taking admission requirements, shown below.
Department Admission Requirements

1. BIOL 118, BIOL 180, BIOL 200, BIOL 220; CHEM 142, CHEM 152, CHEM 162; CHEM 223, CHEM 224 (or CHEM 237, CHEM 238, CHEM 239); one of STAT 220, STAT 221/SOC 221/CS&SS 221, STAT 311, or Q SCI 381.

2. Complete all general education requirements including 10 credits of Individuals & Societies, and 10 credits of Visual, Literary, & Performing Arts, as well as all required English and writing courses.

3. Students admitted to the medical laboratory science program must be exempt from or have successfully completed any required English as a Second Language (ESL) courses no later than August 31 of the application year or admission is cancelled.

Application Procedure: See program adviser for application form. Application deadline is February 15, to begin the following autumn quarter.

Major requirements

152-155 credits as follows:

1. Courses Required for Admission (48-51 credits): See list above.

2. Didactic Courses (59 credits): IMMUN 441, MICROM 442, MICROM 443, MICROM 445, MICROM 460, MICROM 461; LAB M 418, LAB M 419, LAB M 420, LAB M 421, LAB M 426, LAB M 428, LAB M 429, LAB M 430, LAB M 434, LAB M 435

3. Clinical Rotations (50 credits): LAB M 423, LAB M 424, LAB M 425, LAB M 431, LAB M 432, LAB M 433

4. Minimum 2.0 grade in all didactic and clinical rotation courses

5. Minimum 2.00 GPA, both cumulative and in required courses

Student Outcomes and Opportunities

- Learning Objectives and Expected Outcomes: Graduates of the medical laboratory science program are expected to have in-depth knowledge of the relationships between laboratory data and pathologic processes, and how laboratory data relate to clinical medicine. They have experience with the performance and quality control of routine and specialized medical laboratory testing procedures and an understanding of the theoretical basis of these procedures. In addition, they have experience trouble-shooting and resolving typical problems in the clinical laboratory and are familiar with laboratory quality assurance, safety, governmental regulations, information systems, management, research design and practice, educational methodology, continuing education, communication, ethics, professionalism, and concepts and principles of laboratory operations.

Successful medical laboratory scientists enjoy studying the biological, chemical, and physical sciences and find personal satisfaction and intellectual reward in applying scientific methods in the diagnosis and evaluation of disease. A medical laboratory scientist may practice as a generalist, using knowledge in several of the scientific areas,
or may specialize in one scientific area in larger hospitals. Medical laboratory scientists may work in a variety of settings, including clinical laboratories in large medical centers, hospitals, and clinics. Others carry out research in industrial, public health, and medical laboratories, or teach in hospitals, colleges, and universities.

- **Instructional and Research Facilities:** The major training sites are the University of Washington Medical Center and Harborview Medical Center. Affiliate hospitals include Seattle Children's hospital, Labcorp Dynacare, Group Health Cooperative, MultiCare Health System, Northwest Hospital, Providence Everett Medical Center, Providence St. Peter Hospital, Veterans' Affairs Puget Sound Health Care System, Virginia Mason Medical Center, Evergreen Hospital Medical Center, and Highline Medical Center. The Puget Sound Blood Center is also affiliated with the University of Washington. These laboratories support patient care, and provide training and research in the major clinical divisions of chemistry, hematology, immunohematology (blood banking), and microbiology, including multiple subspecialties in these divisions. In addition, students can either receive training in a variety of clinical laboratory rotations designed to enrich their core clinical experiences or participate in research in collaborative projects supervised by faculty members in the Department of Laboratory Medicine. Enrichment rotations include subspecialty sections in chemistry, hematology, and/or microbiology; molecular diagnostics laboratories; and laboratories where multi-tasking skills are utilized.

- **Honors Options Available:** For Interdisciplinary Honors, see University Honors Program.

- **Internship Opportunities:** One or two internships per year in Japan available to graduates of the medical technology program.

- **Department Scholarships:** Several offered.

- **Student Organizations/Associations:** None currently active.

*Of Special Note:* The medical laboratory science program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences, 5600 N. River Road, Suite 720, Rosemont, IL 60018-5119, 847-939-3597, 773-714-8880, 773-714-8886 (fax), info@naacls.org, www.naancls.org. Graduates are eligible for certification by the Board of Registry of the American Society for Clinical Pathology and by the National Credentialing Agency for Laboratory Personnel, Inc.

**Graduate Program**

Graduate Program Coordinator  
NW 120, Box 357110  
206-598-2148  
hschil@uw.edu

The department offers a Master of Science in Laboratory Medicine and prepares the graduate for advanced technical and supervisory positions in clinical and research laboratories as well as in pharmaceutical and diagnostic industries.
The curriculum usually two years for full-time students, may be up to six years for part-time students. Students select one of five pathways and work with a mentor on a thesis project. In addition to 25 credits of required courses, they take courses related to their area of study. The target population is medical technology (MT/MLS) graduates with ASCP certification.

The department also offers a combined undergraduate/graduate program (CUG). Students may enter either as undergraduates or college graduate/postbaccalaureate students. The student must first be accepted into the undergraduate program shown above. Undergraduates or college graduate/postbaccalaureate students may apply simultaneously to the CUG program, or delay application until graduation. Once accepted the student completes the undergraduate program, then immediately enrolls in the Graduate School. Students receive a BS in Medical Laboratory Science at the completion of their undergraduate studies and an MS in Laboratory Medicine at the completion of their graduate studies.

**Admission Requirements**

The program accepts mostly ASCP certified medical laboratory scientists (MLS/MT). For medical laboratory scientists (MLS/MT), medical laboratory technicians (MLT), students from a four-year program, or laboratorians with significant experience in a clinical laboratory, admission requirements include:

1. Minimum 3.00 GPA in the most recent 90 graded quarter credits (60 graded semester credits)
2. Certification as a medical laboratory scientist (MLS/MT) or equivalent, or as a medical laboratory technician (MLT) or equivalent, or as a specialist in a clinical laboratory field
3. GRE Aptitude Test within the last five years
4. Foreign students submit results of the TOEFL, MLT, or IELTS to the Graduate School. Scores are good for only two years.
5. A 200-300 word statement about educational and professional objectives and reasons for taking the master of science program
6. Three letters of recommendation
7. A personal interview

For students with an undergraduate degree in a scientific field such as chemistry, microbiology, or biology, without ASCP certification, the program is highly competitive. Admission requirements include:

1. Outstanding academic achievements, including a minimum 3.20 GPA in the last 90 graded quarter credits (60 graded semester credits)
2. GRE Aptitude Test within the last five years, with excellent scores.
3. Foreign students submit results of the TOEFL or IELTS. Scores are good for only two years.
4. A 200-300 word statement about educational and professional objectives and reasons for taking the master of science program.

5. Three letters of recommendation.

6. Personal interviews with department faculty.

Application deadline is February 15 to begin the following autumn quarter. Application forms and procedures for admission to the Graduate School are available at www.grad.washington.edu/.

Degree Requirements

Minimum 36 credits, of which nine are thesis credits. Full-time medical laboratory scientists typically complete the program in two years. Students select one of five pathways, as follows:

1. Chemistry/Immunology
   a. Required: BIOST 511, LAB M 502, LAB M 510, LAB M 520, LAB M 601, LAB M 700
   b. Recommended: MICROM 441
   c. Electives relevant to thesis, chosen with advice from mentor: BIOC 426, BIOC 440, BIOC 441, BIOC 442, BIOC 540, BIOC 541, BIOC 542, BIOST 512, BIOST 513, CHEM 428, CHEM 429, CHEM 436, CONJ 546, IMMUN 532, IMMUN 533 IMMUN 534, IMMUN 535, PATH 500, PATH 502, PATH 513, PATH 515, PATH 516, PATH 517, P BIO 505, P BIO 506, P BIO 507, PHCOL 401, PHCOL 402

2. Hematology/Coagulation
   a. Required: BIOC 440, BIOC 441, BIOC 442, BIOST 511, LAB M 502, LAB M 510, LAB M 520, LAB M 601, LAB M 700
   b. Recommended: PATH 516
   c. Electives relevant to thesis chosen with advice from mentor: BIOST 512, BIOST 513, CHEM 428, CHEM 429, CONJ 546, GENOME 465, IMMUN 441, IMMUN 532, P BIO 506, PATH 500, PATH 512, PATH 514, PATH 515, PATH 516, PATH 522, PATH 560 (*, max. 10).

3. Microbiology/Virology
   a. Required: BIOST 511, LAB M 502, LAB M 510, LAB M 520, LAB M 601, LAB M 700
   b. Recommended: IMMUN 441, MICROM 442, MICROM 445, MICROM 555 (2.5)
   c. Electives relevant to thesis chosen with advice from mentor: BIOC 440, BIOC 441, BIOC 442, BIOST 512, BIOST 513, CHEM 428, CHEM 429, CONJ 547, CONJ 550, EPI 503, EPI 507, EPI 510, EPI 511 (3-4), EPI 512, IMMUN 533, MICROM 411, MICROM 431, MICROM 450, MICROM 529,
MICROM 530, MICROM 531, MICROM 553, P BIO 505, P BIO 506, PATH 512, PATH 513, PATH 515, PATH 516

4. Molecular Diagnostics/Genetics
   a. Required: BIOST 511, LAB M 502, LAB M 510, LAB M 520, LAB M 601, LAB M 700
   b. Recommended: BIOC 440 or equivalent, BIOC 441 or equivalent, BIOC 442 or equivalent, GENOME 465
   c. Electives relevant to thesis chosen with advice from mentor: BIOST 512, BIOST 513, BIOST 516, CHEM 428, CHEM 429, CONJ 546, EPI 516, EPI 517, GENOME 411, GENOME 466, GENOME 531, IMMUN 441, IMMUN 532, IMMUN 536, MICROM 450, MICROM 530, P BIO 505, P BIO 506

5. Management/Medical Informatics
   a. Required: BIOST 511, LAB M 502, LAB M 510, LAB M 520, LAB M 601, LAB M 700
   b. Electives relevant to thesis chosen with advice from mentor
      1. Business Administration: B A 470, B A 472
      2. Business Communications: B CMU 510

Course Descriptions

LAB M 201 Medical Laboratory Science (2) Explores the field of Medical Laboratory Science covering the concepts and practices of this profession. Provides an overview of Laboratory Medicine disciplines and an examination of the impact of Medical Laboratory Science on patient care. Medical Microbiology, Forensics, Hematology, Genetics, Clinical Chemistry, and Immunohematology will be discussed. Prerequisite: CHEM 152 Offered: A.

LAB M 301 Introduction to Medical Laboratory Science (4) Explores Medical Laboratory Science covering concepts and practices through lecture and laboratory practice. Provides an overview of Laboratory Medicine disciplines and an examination of the impact of Medical Laboratory Science on patient care. Medical Microbiology, Forensics, Hematology, Genetics, Clinical Chemistry, and Immunohematology will be discussed. Prerequisite: ; recommended: MLS Student Offered: A.

LAB M 302 Introduction to Medical Laboratory Science Laboratory (2) Laboratory coverage of the theories, concepts, and practices defining medical laboratory science as a profession. Instructional areas comprise the pre-analytical, analytical, and post-analytical components of laboratory services. Subjects include quality management, safety, regulatory and compliance, and overview laboratory techniques. Prerequisite: LAB M 201 and admission to the MLS major Offered: A.
LAB M 418 Introductory Clinical Chemistry (6) Bankson Introduces the fundamentals of instrumentation and methodology in the clinical chemistry laboratory. Limited to medical laboratory science students. Offered: Sp.

LAB M 419 Clinical Coagulation (4) Hansen-Suchy Lecture and laboratory coverage of the theory of the hemostatic system, to include tests used in the diagnosis/monitoring of patients with abnormal bleeding and/or thrombosis. Instrumentation as appropriate for testing included. Quality control and quality assurance discussed. Limited to medical laboratory science students. Offered: S.

LAB M 420 Laboratory Analysis of Urine and Body Fluids (3) Schiller Lecture and laboratory covering urinalysis testing procedures and associated disease entities. Analysis of other body fluids. Methods of microscopic examination by use of bright-field, phase, and polarizing microscopy. Limited to medical laboratory science students. Offered: S.

LAB M 421 Medical Microbiology (1/6, max. 6) Abbott Lecture and laboratory coverage of human infections and diagnostic procedures used for isolation, identification, and antimicrobial susceptibility testing of the microorganisms associated with disease. Limited to medical laboratory science students. Offered: S.

LAB M 424 Clinical Microbiology (*-, max. 24) G. VAN KEKERIX Techniques used in the diagnostic microbiology laboratory, including quality control, specimen evaluation, identification of pathogenic microorganisms, and antimicrobial susceptibility testing. Limited to medical laboratory science students. Offered: AWSp.

LAB M 425 Clinical Hematology (*-, max. 24) Clinical study of techniques used in the diagnostic evaluation of blood cells, including production, proliferation, survival, morphologic, and functional features. Assessment of proteins and cells important in hemostasis included. Quality control and quality assurance issues considered. Biomolecular techniques appropriate for evaluation of the hematologic and hemostatic systems discussed. Limited to medical laboratory science students. Offered: AWSp.

LAB M 426 Clinical Immunohematology ([1-7]-, max. 7) D. SABATH Lecture and laboratory covering theory of transfusion medicine and serological procedures used in the evaluation of cellular antigen systems. Principles of immunology and genetics included as appropriate for the techniques performed; screening of donor units to provide a safe product discussed. Quality control and quality assurance issues considered. Limited to medical laboratory science students. Offered: A.

LAB M 427 Selected Studies in Laboratory Medicine (*-, max. 24) H. EGGLESTON Selected clinical study in the major scientific disciplines of laboratory medicine, to include molecular
diagnostics, or pursuance of a clinical research study. Limited to medical laboratory science
students. Credit/no-credit only. Offered: AWSpS.

LAB M 428 Clinical Biochemistry for Medical Laboratory Scientists (4) D. BANKSON
Introduces medical applications and the clinically relevant aspects of biochemistry necessary for
understanding biochemical diseases. Teaches the structures and human metabolism of proteins,
carbohydrates, lipids, and nucleotides in health, along with their roles in disease processes.
Stresses normal biochemical pathways and subsequent diseases when the pathways are disrupted
or diverted. Limited to medical laboratory science students. Offered: A.

LAB M 429 Foundations of Medical Laboratory Science (5) Lecture and laboratory cover the
essential theories, concepts, and practices that define medical laboratory science as a distinctive
profession within Laboratory Medicine and which circumscribe its scope of practice.
Instructional areas comprise the pre-analytical, analytical, and post-analytical components of
contemporary medical lab services. Limited to medical laboratory science paste. Offered: A.

LAB M 430 Medical Laboratory Science: Introductory Clinical (6) Lecture and laboratory coverage of theoretical and practical aspects important in the evaluation of blood cells, to include
their production, morphology, function, and associated pathology. Instrumentation used in
testing included, as well as quality control and quality assurance issues. Limited to medical
laboratory science students. Prerequisite: LAB M 429. Offered: W.

LAB M 431 Clinical Immunohematology Rotation (7-) Practicum emphasizing application of
knowledge and skills to perform a wide variety of basic testing routinely performed in
contemporary blood laboratory and further develop discipline-specific competencies. Limited to
medical laboratory science students. Offered: AWSp.

LAB M 432 Phlebotomy Rotation (-2-) G. VAN KEKERIX Covers the theories, concepts, and
practices underlying the safe and reliable collection of blood (phlebotomy) for analysis by
medical laboratory techniques. Limited to medical laboratory science students. Offered: AWSp.

LAB M 433 Enrichment Rotation (-9) Xu Selected practical experience emphasizing
application of knowledge and skills to perform a wide variety of testing in a clinical setting and
further develop discipline-specific competency in the major scientific disciplines of laboratory
medicine, including hematology, clinical chemistry, microbiology, and immunohematology or
pursuance of a clinical research study. Limited to medical laboratory science students. Offered: AWSp.

LAB M 434 Virology Laboratory (1) Laboratory coverage of testing procedures and techniques
routinely performed in the contemporary virology lab to detect and identify viruses which cause
disease in humans and to monitor therapies used to treat human viral infections. Limited to
medical laboratory science students. Offered: Sp.

LAB M 435 Molecular Diagnostics for Medical Laboratory Science (2) C. PRITCHARD
Provides a comprehensive overview of the fundamental principles of molecular diagnostics and
explores its use in the diagnosis of disease. Topics include: nucleic acid structure and function,
genetics, DNA chemistry, nucleic acid isolation, amplification techniques, components of a molecular laboratory, and evaluation of controls to validate results obtained. Limited to medical laboratory science students. Offered: W.

LAB M 436 Molecular Diagnostics Clinical Rotation (2) M. Kim Provides technical expertise, proficient clinical judgment, and a broad cognitive understanding of current molecular diagnostic practices equivalent to that expected of a career entry-level medical laboratory scientist.
Prerequisite: LAB M 435; recommended: Be admitted to the MLS major and take all didactic lecture and lab courses required for the major, but specifically LAB M 435. Offered: AWSp.

LAB M 499 Undergraduate Research (*, max. 35) Specific project in clinical laboratory investigation. Offered: AWSpS.

LAB M 502 Laboratory Medicine Grand Rounds (1, max. 6) Shirts Grand rounds are concerned with current topics in the field of laboratory medicine. Credit/no-credit only. Offered: AWSp.

LAB M 510 Laboratory Medicine Research Conference (1, max. 6) Presentation and discussion of ongoing research and development projects by faculty, residents, fellows, and graduate students. Open to graduate students in laboratory medicine and other medical sciences.
Prerequisite: permission of instructor. Instructors: Hoffman Credit/no-credit only. Offered: AWSp.

LAB M 520 Seminar in Organization and Management in Laboratory Medicine (3) Core course for the Master of Science degree in laboratory medicine. Prerequisite: graduate student standing in Laboratory Medicine or permission of instructor. Instructors: Schiller Offered: Sp, odd years.

LAB M 521 Advanced Laboratory Hematology (1, max. 6) Lectures on diagnostic clinical hematology with emphasis on clinicopathological correlation. For laboratory medicine graduate students with special interest in diagnostic clinical hematology. Prerequisite: graduate standing and permission of instructor. Instructors: Sabath Offered: AWSp.

LAB M 522 Hematopathology Seminar (2) Wood Identification of normal lymphocyte and bone marrow subpopulations, diagnosis of leukemias, lymphomas, and benign conditions that resemble them. Emphasis on histopathology, cytochemical, immunological, and molecular markers. Clinicopathologic correlation. Offered: jointly with PATH 522; W, even years.

LAB M 590 P-Research Projects in Laboratory Medicine (*) Opportunity for laboratory experience on a research problem related to laboratory medicine. Students investigate areas of potential clinical importance. Projects selected from areas such as chemistry, coagulation, hematology, immunology, microbiology, virology, molecular diagnostics, and computer applications. Research goals established by instructor in discussion with student. Prerequisite: permission of instructor. Instructors: Tait Offered: AWSpS.
LAB M 600 Independent Study or Research (*) Prerequisite: graduate standing in laboratory medicine. Credit/no-credit only. Offered: AWSpS.

LAB M 601 Internship (3-9, max. 9) Prerequisite: graduate standing in laboratory medicine. Instructors: Schiller Credit/no-credit only. Offered: AWSpS.

LAB M 680 P-Clinical Laboratory Testing: Methods and Interpretation (*, max. 30) Wener Provides the third- and fourth-year medical student with the opportunity to evaluate clinical laboratory data in the clinical laboratory setting. One-on-one teaching using case material and actual clinical samples. Offered: AWSpS.

LAB M 685 P-Laboratory Case Studies for Clinical Diagnosis (4) Clinical case presentations and discussions aimed at test selection, disease-induced alterations, efficient algorithms, factors confounding interpretation, testing economics. (Four weeks half-time). Prerequisite: completion of required clerkships. Instructors: Nester Offered: Sp.

LAB M 699 P-WWAMI Laboratory Medicine Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

LAB M 700 Master's Thesis (*) Credit/no-credit only. Offered: AWSpS.
MEDEX

Department Overview

Suite 200, Roosevelt Commons

MEDEX Northwest, established in 1969, has the long-standing mission to train health care providers who will practice primary care in medically underserved and rural areas of the UW School of Medicine's service region (Washington, Wyoming, Alaska, Montana, Idaho -- or WWAMI). MEDEX also has a formal agreement to train students from Nevada.

Undergraduate Program

Bachelor of Clinical Health Sciences

Admission Requirements

1. Clinical Experience: two years minimum (4,000 hours minimum)

2. Human Anatomy and Physiology: Minimum 10 quarter or 6 semester credits. Preferably these courses should be completed within the past five years. Minimum 2.7 grade in each class.

3. Other Medically Related Sciences (e.g., biology, microbiology, chemistry). Minimum 5 quarter or 3 semester credits. Minimum 2.7 grade in each class.

4. English. Two college English courses at the 100 or higher level. At least one must be a composition course. Minimum 2.7 grade in each class.

Major Requirement

129 credits as follows:

MEDEX 450, MEDEX 451, MEDEX 452, MEDEX 453, MEDEX 454, MEDEX 455, MEDEX 456, MEDEX 457, MEDEX 458, MEDEX 459, MEDEX 460, MEDEX 461, MEDEX 462, MEDEX 463, MEDEX 465, MEDEX 466, MEDEX 467, MEDEX 468, MEDEX 469, MEDEX 470, MEDEX 471, MEDEX 472, MEDEX 473 MEDEX 474, MEDEX 475. These courses are taken over eight quarters, not all in numerical order. (Although MEDEX 450 and MEDEX 451 must be taken the first summer quarter of the program, they do not count toward the 180 credits required for the Bachelor of Clinical Health Services degree. The remaining 129 credits shown in this paragraph constitute the major for this degree.)
Graduate Program

Master in Clinical Health Services

Offered through MEDEX Northwest and the UW School of Medicine in Seattle and Spokane, the Master of Clinical Health Services (MCHS) for physician assistants is designed for professionals who have worked as PAs for at least two years and hold a bachelor's degree. The EMCHS helps students assume leadership roles through the development of skills and techniques needed to manage the rapidly changing world of health care.

Admission Requirements

1. Baccalaureate degree from a regionally accredited U.S. institution or equivalent foreign institution. No preference of college major
2. Minimum 2.7 grade for each class
3. Minimum two years (4,000 hours) clinical experience
4. Human anatomy and physiology (completion preferred within the last five years): 10 quarter credits, or 6 semester credits.
5. Physician Assistant-Certified (PA-C) by the National Commission on Certification of Physician Assistants (NCCPA)
6. Medically related sciences (e.g., biology, microbiology, chemistry). (15 quarter credits, or 9 semester credits).
7. Meet UW Graduate School requirements

Degree Requirements

162 credits, as follows:

1. First summer through first spring (four quarters): MEDEX 550, MEDEX 551, MEDEX 552, MEDEX 553, MEDEX 554, MEDEX 555, MEDEX 556, MEDEX 558, MEDEX 559, MEDEX 560, MEDEX 561, MEDEX 562, MEDEX 568, MEDEX 569, MEDEX 570, MEDEX 571, MEDEX 572, MEDEX 573, MEDEX 574, MEDEX 575, MEDEX 577
2. Second summer through third summer (five quarters): MEDEX 540, MEDEX 541, MEDEX 542, MEDEX 543, MEDEX 562, MEDEX 565, MEDEX 566, MEDEX 581, MEDEX 582, MEDEX 583, MEDEX 584, MEDEX 588
3. Minimum 2.7 grade in all required courses
4. Minimum 3.00 GPA
Course Descriptions

**MEDEX 401 Introduction to Paramedicine (8)** Introduces the history of paramedicine and role of the paramedic, as well as medical concepts and technical skills relevant to its practice. Prerequisite: Seattle/King County paramedic students only. Offered: A.

**MEDEX 402 Airway Management (3)** Teaches cognitive and psychomotor skills critical to basic and advanced airway management. Includes enhanced techniques of rapid sequence intubation. Prerequisite: MEDEX 401 which may be taken concurrently. Offered: A.

**MEDEX 403 Patient Assessment (4)** Teaches patient assessment and total patient care management. Provides didactic and laboratory exposure necessary to perform complete and thorough patient exams. Prerequisite: MEDEX 401 which may be taken concurrently. Offered: A.

**MEDEX 404 Medical Emergencies I (5)** Studies the pathophysiology and treatment of medical emergencies encountered in cardiopulmonary, neurovascular, endocrine, renal, and obstetric patients. Introduces the pharmacology of neurovascular and cardiopulmonary medications. Prerequisite: MEDEX 403. Offered: W.

**MEDEX 405 Trauma Emergencies (5)** Emphasizes advanced pre-hospital management of the critical trauma patient. Teaches the pathophysiology and treatment of burns and trauma to the head, chest, and abdomen. Includes advanced techniques in surgical airway. Prerequisite: MEDEX 403 which may be taken concurrently. Offered: W.

**MEDEX 406 Medical Emergencies II (3)** Studies the pathophysiology and treatment of alcoholism, environmental disorders, infections and communicable diseases, hematology, toxicology, and psychiatric emergencies. Prerequisite: MEDEX 405. Offered: Sp.

**MEDEX 407 Special Considerations for Paramedicine (4)** Emphasizes the care and treatment of pediatric, geriatric, and bariatric patients. Reviews special considerations encountered in scenarios such as multiple casualty, confined space, and extrication incidents. Prerequisite: MEDEX 406 which may be taken concurrently. Offered: Sp.

**MEDEX 408 Advanced Certifications (5)** Instruction in PEPP, PALS, ACLS, ATLS, and National Registry curricula and certifications. Prerequisite: MEDEX 407. Credit/no-credit only. Offered: S.

**MEDEX 414 Paramedic Clinical Practicum I (3)** Participation in all aspects of patient care in the HMC-ER and OR with a primary focus on patient assessment and examination, as well as proficiency in IV cannulation and airway management. Prerequisite: MEDEX 401 which may be taken concurrently; Seattle/King County paramedic students only. Credit/no-credit only. Offered: A.

**MEDEX 415 Paramedic Field Practicum I (6)** Consists of regularly scheduled ride time with Seattle Medic One in which the student is closely mentored and evaluated by Seattle Fire
Department paramedics as the student begins actively participating in patient care. Emphasizes aspects of scene management and total patient care competence. Prerequisite: MEDEX 401 which may be taken concurrently. Credit/no-credit only. Offered: A.

**MEDEX 424 Paramedic Clinical Practicum II (3)** Participation in patient care in the HMC-ER with a focus on patient assessment, examination, IV cannulation, and airway management. Emphasizes the critical care of patients in the cardiovascular intensive care unit. Prerequisite: MEDEX 414. Credit/no-credit only. Offered: W.

**MEDEX 425 Paramedic Field Practicum II (7)** Consists of regularly scheduled ride time with Seattle Medic One in which the student is closely mentored and evaluated by Seattle Fire Department paramedics as the student begins actively participating in patient care. Emphasizes scene management and total patient care competence. Prerequisite: MEDEX 415. Credit/no-credit only. Offered: W.

**MEDEX 434 Paramedic Clinical Practicum III (4)** Participation in patient care in the CHRMC-ER and OR with a focus on pediatric patient assessment, examination, and proficiency in IV cannulation and airway management. Emphasizes the care of expectant mother and newborn through rotations in the UW Labor and Delivery department. Prerequisite: MEDEX 424. Credit/no-credit only. Offered: Sp.

**MEDEX 435 Paramedic Field Practicum III (8)** Consists of regularly scheduled ride time with Seattle Medic One. The student assumes graduated responsibility for patient care and scene management while being closely evaluated by Seattle Fire Department paramedics as the student begins actively participating in patient care. Emphasizes the field care of the pediatric patient and expectant mother. Prerequisite: MEDEX 425. Credit/no-credit only. Offered: Sp.

**MEDEX 444 Paramedic Clinical Practicum IV (3)** Participation in patient care in the HMC Emergency Department, Neurology Clinic, Pulmonary Clinic, and Cardiology Clinic. Focuses on trauma management, extrication, MCI, and search/rescue. Includes observation of a minimum of three autopsies with the medical examiner. Prerequisite: MEDEX 434. Credit/no-credit only. Offered: S.

**MEDEX 445 Paramedic Field Practicum IV (11)** Consists of regularly scheduled ride time with Seattle Medic One paramedics. The student assumes all responsibilities for scene management and patient care. Evaluations determine completion of the program. Prerequisite: MEDEX 435. Credit/no-credit only. Offered: S.

**MEDEX 450 Basic Science in Clinical Medicine (6)** Review of important basic science concepts that include relevant topics for a healthcare clinician. Prerequisite: permission of the MEDEX program. Offered: WS.

**MEDEX 451 Anatomy and Physiology in Clinical Medicine (6)** Uses an organ system approach to human anatomy and physiology relevant for a healthcare clinician. Offered: AS.
MEDEX 452 Pathophysiology for Primary Care (6) Basic pathological and pathophysiological concepts of diseases commonly encountered in primary-care practice. Pathophysiology studied per organ system. Offered: A.

MEDEX 453 Basic Clinical Skills (5) Provides the student with mastery of a screening history and physical examination and thoroughness in data-collection skills. Offered: ASp.

MEDEX 454 Adult Medicine I (7) Problem-oriented approach to the diagnosis and management of common primary care conditions. Introduction to relevant laboratory and radiological procedures. Organ system approach. Offered: W.

MEDEX 456 Maternal and Child Health for the MEDEX Practitioner I (3) Designed to acquaint students with principles of prenatal care and primary-care pediatrics. Offered: W.

MEDEX 457 Behavioral Medicine I (2) Develops and demonstrates skills needed for assessment, diagnosis, and management of common emotional problems in a clinical setting. Offered: A.

MEDEX 458 Behavioral Medicine (2) Develops and demonstrates skills needed for assessment, diagnosis, and management of common emotional problems in a clinical setting. Offered: W.

MEDEX 459 Behavioral Medicine (2) Develops and demonstrates skills needed for assessment, diagnosis, and management of common emotional problems in a clinical setting. Offered: Sp.

MEDEX 460 Principles of Patient Management (3) Provides systematic approach to pharmacological therapies including drug choice, risk factor identification and administration. Includes non-pharmacological therapies and emphasizes health education and health promotion strategies. Offered: W.

MEDEX 461 Principles of Patient Management (3) Provides systematic approach to pharmacological therapies including drug choice, risk factor identification and administration. Includes non-pharmacological therapies and emphasizes health education and health promotion strategies. Offered: Sp.

MEDEX 463 Clinical Clerkships I (19) Full-time clinical clerkship spent in institution-based or specialty practice settings with the supervision of licensed health care providers. Credit/no-credit only. Offered: AWSpS.

MEDEX 465 Clinical Clerkships II (19) Continuation of clinical clerkships spent in institution-based or specialty practice settings with supervision of licensed healthcare providers. Credit/no-credit only. Offered: AWSpS.
MEDEX 466 Family Practice Clerkship for the MEDEX Practitioner I (19) Ballweg
Family practice under the supervision of physicians throughout the Pacific Northwest. Common primary-care problems. Students and preceptors are educated in the utilization and management of the physician assistant in practice. Students keep computerized records of patient encounters and complete a variety of written assignments. Credit/no-credit only. Offered: AWSpS.

MEDEX 467 Family Practice Clerkship for the MEDEX Practitioner II (19) Ballweg
Further experience in primary-care practice with emphasis on independent patient management by the student supervised by family practitioners. Credit/no-credit only. Offered: AWSpS.

MEDEX 468 Emergency Medicine I for the MEDEX Practitioner (2) Approach to the diagnosis and management of common emergency conditions for primary-care physician assistants. Organ system approach. Offered: W.

MEDEX 470 Professional Role Development (1) Explores professional role development, health access issues, licensing issues, healthcare quality, interdisciplinary relationships, diverse populations, and the healthcare environment. Offered: A.

MEDEX 471 Professional Role Development (1) Explores professional role development, health access issues, licensing issues, healthcare quality, interdisciplinary relationships, diverse populations, and the healthcare environment. Offered: W.

MEDEX 472 Professional Role Development (1) Explores professional role development, health access issues, licensing issues, healthcare quality, interdisciplinary relationships, diverse populations, and the healthcare environment. Offered: Sp.

MEDEX 473 Technical Skills (1) Introduces clinical skills and procedures through hands-on experiences. Offered: A.

MEDEX 474 Technical Skills (1) Introduces clinical skills and procedures through hands-on experiences. Offered: W.

MEDEX 475 Technical Skills (1) Introduces clinical skills and procedures through hands-on experiences. Offered: Sp.

MEDEX 499 Special Field Projects/Independent Study (1-19, max. 19) Clinical clerkships and independent study activities. Credit/no-credit only. Offered: AWSpS.

MEDEX 510 Healthcare for Rural and Medically Underserved Populations (5) Overview of the nature and severity of disparities in healthcare access and delivery to rural and urban underserved populations for practicing clinicians. Prerequisite: EMCHS students only. Offered: S.
MEDEX 511 Healthcare Administration and Public Health (5) Applies the basic principles of healthcare administration and public health to specific communities and practices. Prerequisite: EMCHS students only. Offered: S.

MEDEX 512 Academic Medicine and Specialty Practice for Practicing Clinicians (5) Overview for practicing clinicians of primary care as well as medical and surgical specialty practice within the academic medicine environment. Prerequisite: admission to the program. Offered: S.

MEDEX 513 Global Health for Practicing Clinicians (5) Overview of global health concerns and solutions including disease processes, health systems, cultural competency, and the impacts of health policies on local populations. Prerequisite: admission to the program. Offered: S.

MEDEX 521 Capstone Project I (3) Includes capstone project introduction, literature review, critical reading, research design and proposals, ethics, IRB, research writing, and results presentation. (Two weeks on the Seattle campus, six weeks online). Prerequisite: EMCHS students only. Credit/no-credit only. Offered: S.

MEDEX 522 Capstone Project II (3) Details students' choice of capstone project and preparation of a detailed proposal including the timeline for completion. Prerequisite: MEDEX 521. Credit/no-credit only. Offered: A.

MEDEX 523 Capstone Project III (3) Students work on capstone projects. Prerequisite: MEDEX 522. Credit/no-credit only. Offered: W.

MEDEX 524 Capstone Project IV (3) Continuation of work on the capstone project. Prerequisite: MEDEX 523. Credit/no-credit only. Offered: Sp.

MEDEX 525 Capstone Project V (5) Completion of the capstone project, preparation of final drafts, submission of finished project to faculty mentors, and presentation of project. Prerequisite: MEDEX 524. Credit/no-credit only. Offered: S.

MEDEX 528 Investigative Skills for Practicing Clinicians (5) Overview of the principles, research methods, and biostatistical and epidemiological techniques necessary to understand and conduct academic and clinical research. Applications critically appraise the public health and biomedical literatures drawing examples from current scientific literature and existing data. Prerequisite: admission to EMCHS program. Offered: S.

MEDEX 531 Clinical Residencies I (3) Clinical residencies spent in community-based or institution-based practice settings with the supervision of licensed healthcare providers. Prerequisite: EMCHS students only. Credit/no-credit only. Offered: AWSpS.

MEDEX 532 Clinical Residencies II (3) Clinical residencies spent in community-based or institution-based practice settings with the supervision of licensed healthcare providers. Prerequisite: EMCHS students only. Credit/no-credit only. Offered: AWSpS.
MEDEX 533 Clinical Residencies III (3) Clinical residencies spent in community-based or institution-based practice settings with the supervision of licensed healthcare providers. Prerequisite: EMCHS students only. Credit/no-credit only. Offered: AWSpS.

MEDEX 536 Health Policy for Practicing Clinicians (4) Overview of United States health policy issues including payment structures, quality, disparities, workforce and legislative impact. Prerequisite: EMCHS students only. Offered: W.

MEDEX 537 Leadership for Practicing Clinicians (4) Leadership skills for clinical practice, community, the profession, and organizations. Prerequisite: EMCHS students only. Offered: A.

MEDEX 538 The Physician Assistant Profession (4) Overview of the physician assistant profession, focusing on the history of the profession, education, economics, legal, political, and professional aspects of the physician assistant profession, current and future physician assistant roles, and hot topics. Prerequisite: EMCHS students only. Offered: Sp.

MEDEX 540 Healthcare for Rural and Underserved Populations (5) Overview of the nature and severity of disparities in healthcare access and delivery to rural and urban underserved populations. Offered: S.

MEDEX 541 Healthcare Administration and Public Health (5) Application of the basic principles of healthcare administration and public health to specific communities and practices. Offered: S.

MEDEX 542 Academic Medicine and Specialty Practice (5) Overview of primary care as well as medical and surgical specialty practice within the academic medicine environment. Offered: S.

MEDEX 543 Global Health (5) Overview of global health concerns and solutions including disease processes, health systems, cultural competency, and the impacts of health policies on local populations. Offered: S.

MEDEX 550 Basic Science in Clinical Medicine (6) Intensive review of important basic scientific concepts relevant to clinical medicine. Prerequisite: MEDEX Northwest students only. Offered: S.

MEDEX 551 Anatomy and Physiology (6) Overview and review of human anatomy and physiology by organ system. Prerequisite: MEDEX students only. Offered: S.

MEDEX 552 Pathophysiology for Primary Care (6) Examines pathological and pathophysiological concepts of diseases commonly encountered in primary-care practice. Studies pathophysiology per organ system. Offered: A.

MEDEX 553 Basic Clinical Skills (5) Provides the student with mastery of history-taking and physical examination skills, thoroughness in data collection, medical record-keeping, and verbal presentation skills. Offered: A.
MEDEX 554 Adult Medicine I (7) Problem-oriented, organ-system approach to the diagnosis and management of common primary-care conditions. Offered: W.

MEDEX 555 Adults Medicine II (7) Problem-oriented, organ-system approach to the diagnosis and management of common primary-care conditions. Offered: Sp.

MEDEX 556 Maternal Child Health I (3) Examines the principles of prenatal care and primary-care pediatrics. Offered: W.

MEDEX 557 Behavioral Medicine I (2) Helps to develop and demonstrate skills needed for assessment, diagnosis, and management of common behavioral and emotional problems in a clinical setting. Offered: A.

MEDEX 558 Behavioral Medicine II (2) Helps to develop and demonstrate skills needed for assessment, diagnosis, and management of common behavioral and emotional problems in a clinical setting. Offered: W.

MEDEX 559 Behavioral Medicine III (2) Helps to develop and demonstrate skills needed for assessment, diagnosis, and management of common behavioral and emotional problems in a clinical setting. Offered: Sp.

MEDEX 560 Principles of Patient Management I (3) Provides systematic approach to pharmacological therapies including drug choice, risk factor identification, and administration. Includes non-pharmacological therapies and emphasizes health education and health promotion. Offered: W.

MEDEX 561 Principles of Patient Management II (3) Provides systematic approach to pharmacological therapies including drug choice, risk factor identification, and administration. Includes non-pharmacological therapies and emphasizes health education and health promotion. Offered: Sp.

MEDEX 562 Maternal Child Health II (3) Emphasizes the diagnosis and treatment of common pediatric problems. Prerequisite: MEDEX 556. Offered: Sp.

MEDEX 563 Clinical Clerkships I (19) Full-time clerkships spent in institution-based or specialty practice setting with the supervision of licensed healthcare providers. Credit/no-credit only. Offered: AWSpS.

MEDEX 565 Clinical Clerkships II (19) Full-time clerkships spent in institution-based or specialty practice setting with the supervision of licensed healthcare providers. Prerequisite: MEDEX 563. Credit/no-credit only. Offered: AWSpS.

MEDEX 566 Family Practice Clerkship I (19) Family practice under the supervision of physicians throughout the Pacific Northwest. Common primary-care problems. Students and preceptors are educated in the utilization and management of the physician assistant in practice.
Students keep computerized records of encounters and complete a variety of written assignments. Credit/no-credit only. Offered: AWSpS.

**MEDEX 567 Family Practice Clerkship II (19)** Further experience in primary-care practice with an emphasis on independent patient management by the student supervised by family practitioners. Prerequisite: MEDEX 566. Credit/no-credit only. Offered: AWSpS.

**MEDEX 568 Emergency Medicine I (2)** Diagnosis and management of common emergency conditions for primary-care practitioners. Organ system approach. Offered: W.

**MEDEX 569 Emergency Medicine II (2)** Diagnosis and management of common emergency conditions for primary-care practitioners. Organ system approach. Offered: Sp.

**MEDEX 570 Professional Role Development I (1)** Explores professional role development, health access issues, licensing issues, healthcare quality, interdisciplinary relationships, diverse populations, and the healthcare environment. Offered: A.

**MEDEX 571 Professional Role Development II (1)** Explores professional role development, health access issues, licensing issues, healthcare quality, interdisciplinary relationships, diverse populations, and the healthcare environment. Offered: W.

**MEDEX 572 Professional Role Development III (1)** Explores professional role development, health access issues, licensing issues, healthcare quality, interdisciplinary relationships, diverse populations, and the healthcare environment. Offered: Sp.

**MEDEX 573 Technical Skills I (1)** Introduces clinical skills and procedures through hands-on experiences. Offered: A.

**MEDEX 574 Technical Skills II (1)** Introduces clinical skills and procedures through hands-on experiences. Offered: W.

**MEDEX 575 Technical Skills III (1)** Introduces clinical skills and procedures through hands-on experiences. Offered: Sp.

**MEDEX 580 Homelessness in Seattle (2)** Multi-disciplinary course developing knowledge and skills in the area of acute and chronic homeless health problems, understanding the history and social constructs as well as the services and disparities facing this population.

**MEDEX 588 Investigative Skills for Entry-Level Clinicians (5)** Overview of the principles, research methods, and biostatistical and epidemiological techniques necessary to understand and conduct academic and clinical research. Application appraise the public health and biomedical literatures drawing on examples from current scientific literature and existing data. Offered: S.

**MEDEX 599 Independent Study (1-19, max. 19)** Supervised clinical clerkship or independent study activities to meet specific needs. Prerequisite: permission of the MEDEX program. Credit/no-credit only. Offered: AWSpS.
Medical Science

Course Descriptions

MEDSCI 500 Research Methods (6) Community health and disease, including assessment of disease risk and mechanisms of epidemic detection, spread, and control; interpretation of research design, data analysis, bias source; and clinical epidemiology, including evaluation and application of diagnostic tests, natural history of disease, and quantitative aids for clinical decision making. Offered: AWSpS.

MEDSCI 501 P-Independent investigative Inquiry (6) Independent research with faculty sponsor and completion of paper in fulfillment of the independent investigative inquiry graduation requirement. Offered: Sp.

MEDSCI 502 Foundations of Clinical Medicine (4-) Intro to continuity of care by working with practicing physicians and coinciding with instruction in communication skills, interviewing techniques, physical examinations, documentation, and clinical reasoning. Includes hospital-based patient encounters with an introduction to the development of the physician role. Topics covered in primary and preventative care, geriatrics, rehabilitation, palliative care, behavioral health, and pain management. Offered: AWSp.

MEDSCI 503 P-Clinical Skills (2) Instruction in communication skills, interviewing techniques, physical examination, documentation, and clinical reasoning. Includes hospital-based patient encounters and developing comfort and introduction to the physician role. Pass/Fail only. Offered: AWSp.

MEDSCI 504 Foundations of Clinical Medicine (4-) Intro to continuity of care by working with practicing physicians and coinciding with instruction in communication skills, interviewing techniques, physical examinations, documentation, and clinical reasoning. Includes hospital-based patient encounters with an introduction to the development of the physician role. Topics covered in primary and preventative care, geriatrics, rehabilitation, palliative care, behavioral health, and pain management. Offered: W.

MEDSCI 506 Foundations of Clinical Medicine (4-) Intro to continuity of care by working with practicing physicians and coinciding with instruction in communication skills, interviewing techniques, physical examinations, documentation, and clinical reasoning. Includes hospital-based patient encounters with an introduction to the development of the physician role. Topics covered in primary and preventative care, geriatrics, rehabilitation, palliative care, behavioral health, and pain management. Recommended: Offered: W.

MEDSCI 508 Foundations of Clinical Medicine (4) Intro to continuity of care by working with practicing physicians and coinciding with instruction in communication skills, interviewing techniques, physical examinations, documentation, and clinical reasoning. Includes hospital-based patient encounters with an introduction to the development of the physician role. Topics
covered in primary and preventative care, geriatrics, rehabilitation, palliative care, behavioral health, and pain management. Offered: A.

MEDSCI 510 P-Molecular and Cellular Basis of Disease (11) Introduces cell physiology and cell biology; genetics and genetic diseases; and genes. Topics includes membrane physiology; sensory receptors; muscle energetics and contractibility; autonomic nervous system; tissue response to disease; pharmacodynamics and pharmacokinetics; genetic disorders; and pharmacogenetics. Incorporates relevant fundamental principles in anatomy, pathology, and pharmacology. Pass/Fail only. Detwiler, Horwitz, Merz Offered: A.

MEDSCI 511 Independent Study Molecular Cellular Basis of Disease Remediation (1-24, max. 24) Designed for medical students required to complete additional study related to the required Molecular and cellular Basis of Diseases block offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: Department Permission. Offered: AWSpS.

MEDSCI 515 Ecology of Health and Medicine- Foundations 1 (1-) A. Kost This course integrates School of Medicine thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health. Pass/Fail only. Offered: AWSp.

MEDSCI 520 P-Invaders and Defenders (10) Lynch, Pottinger, Torgerson, Voyich Covers the immune system; microbial biology; infectious diseases; inflammation and repair; and skin and connective tissue. Topics include the pathogenesis and immunity of infectious disease, immunodeficiencies, hypersensitivity, autoimmunity, and the basis of immunologic diagnostics. Includes relevant fundamental scientific principles in anatomy, pathology, and pharmacology. Pass/Fail only. Offered: A.

MEDSCI 521 Independent Study Invaders and Defenders Remediation (1-24, max. 24) Designed for medical students required to complete additional study related to the required Invaders and Defenders block offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund knowledge. Prerequisite: Department permission Offered: AWSpS.

MEDSCI 525 Ecology of Health and Medicine- Foundations 2 (-1-) This course integrates School of Medicine thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health. Pass/Fail only.

MEDSCI 530 P-Circulatory Systems (16) Interdisciplinary approach to cardiovascular, respiratory, and renal-urinary medicine, including anatomy, physiology, radiology, pathology, medicine, and surgery. Includes cardiac electrophysiology and cardiac muscle mechanics; myocardial infarction and cardiac repair; thoracic and pulmonary anatomy; ventilation
mechanics; obstructive, restrictive, and pulmonary-vascular diseases; renal function; and common kidney diseases. Pass/Fail only. Offered: W.

**MEDSCI 531 Independent Study Circulatory Remediation (1-24, max. 24)** Designed for medical students required to complete additional study related to the required Circulatory block offered during the preclinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: Department Permission Offered: AWSpS.

**MEDSCI 535 Ecology of Health and Medicine- Foundations 3 (-1)** This course applies School of Medicine thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health. Pass/Fail only. Offered: AWSp.

**MEDSCI 540 Blood, Cancer & Musculoskeletal (8)** Familiarizes students with basic pathophysiologic mechanisms leading to disturbances of red cell, white cell, and platelet production, as well as abnormalities of hemostasis presenting clinical problems. The Musculoskeletal content will focus on clinical manifestations in the musculoskeletal system and pathophysiology of trauma, aging, infection, and inflammation. Pass/Fail only. Offered: W.

**MEDSCI 541 Independent Study Blood and Cancer Remediation (1-24, max. 24)** Designed for medical students required to complete additional study related to the required Blood and cancer block offered during the preclinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: Department Permission Offered: AWSpS.

**MEDSCI 545 Ecology of Health and Medicine- Foundations 4 (1)** This course applies School of Medicine thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health. Pass/Fail only. Offered: AWSp.

**MEDSCI 550 P-Energetics and Homeostasis (10)** DeSantis, Silverstein Covers metabolism, nutrition, obesity, diabetes, gastrointestinal/liver physiology, and endocrinology. Topics include physiology and pathology of digestion and hepatic function; principles and practice of clinical nutrition; the endocrine integration of metabolism; and clinically important endocrine pathophysiology. Includes anatomy, pathology, and pharmacology of the endocrine and GI systems. Pass/Fail only. Offered: Sp.

**MEDSCI 551 Independent Study Energetics Remediation (1-24, max. 24)** Designed for medical students required to complete additional study related to the required Energetics block offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: Department Permission Offered: AWSpS.
MEDSCI 555 Ecology of Health and Medicine- Patient Care 1 (1) This Patient Care course applies School of Medicine thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health. Pass/Fail only. Offered: AWSp.

MEDSCI 560 P-Mind, Brain, and Behavior (14) Explains the foundational principles of the organization and function of the head, neck, and central nervous system with a focus on clinical application of this knowledge to systematically approach the differential diagnosis and management of major neurologic, psychiatric, and behavioral disorders. Covers current therapeutic approaches to disease including pharmacological, behavioral, surgical, and other therapies. Pass/Fail only. Offered: A.

MEDSCI 561 Independent Study Mind, Brain and Behavior Remediation (1-24, max. 24) Designed for medical students required to complete additional study related to the required Mind, Brain and Behavior block offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: Department Permission Offered: AWSpS.

MEDSCI 565 Ecology of Health and Medicine- Patient Care 2 (1) This Patient Care course applies School of Medicine thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health. Pass/Fail only. Offered: AWSp.

MEDSCI 570 P-Lifecycle (8) Covers normal and abnormal human development reproductive functions including formation and maturation of ova and sperm, menstruation, normal pregnancy, and labor and delivery. Provides information concerning infertility, family planning techniques, urinary disorders, and reproductive aging and demography of human population. Includes relevant fundamental scientific principles in pelvic anatomy, pathology, histology, imaging, and pharmacology. Offered: A.

MEDSCI 571 Independent Study Lifecycle Remediation (1-24, max. 24) Designed for medical students required to complete additional study related to the required Lifecycle block offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: Department Permission Offered: AWSpS.

MEDSCI 575 Ecology of Health and Medicine- Explore and Focus (1) This Explore & Focus Phase course provides students with a deep understanding of systems that constitute health care are fundamental to becoming a successful physician. The course encourages reflections from clinical clerkships experiences and requires the completion of a capstone project. Pass/Fail only. Offered: AWSp.

MEDSCI 580 P-Consolidation and Transition (11) Reinforces content in the UWSOM foundations phase. Learning experiences will address key content areas which need further
review identified throughout terms 1 and 2, with specific sessions developed as indicated; faculty/staff and peer educators will provide sessions for this basic science review as well as preparation for clerkships. Offered: W.

**MEDSCI 584 Independent Study Foundations of Clinical Medicine Remediation (1-24, max. 24)** Designed for medical students required to complete additional study related to the required Foundations of Clinical Medicine offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master knowledge & skills. Prerequisite: Department Permission Offered: AWSpS.

**MEDSCI 585 Independent Study Epidemiology and Biostatistics Term 1 (1-24, max. 24)** Designed for medical students required to complete additional study related to the required Epidemiology and Biostatistics Thread offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. The course title includes terms to identify which quarter the course is being offered. Prerequisite: Department Permission Offered: AWSpS.

**MEDSCI 586 Independent Study Epidemiology and Biostatistics Term 2 (1-24, max. 24)** Designed for medical students required to complete additional study related to the required Epidemiology and Biostatistics Thread offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. The course title includes terms to identify which quarter the course is being offered. Offered: AWSpS.

**MEDSCI 587 Independent Study Epidemiology and Biostatistics Term 3 (1-24, max. 24)** Designed for medical students required to complete additional study related to the required Epidemiology and Biostatistics Thread offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. The course title includes terms to identify which quarter the course is being offered. Offered: AWSpS.

**MEDSCI 588 Independent Study Human Form and Function Term 1 (1-24, max. 24)** Designed for medical students required to complete additional study related to the required Human Form & Function Thread offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. The course title includes terms to identify which quarter the course is being offered. Prerequisite: Department Permission Offered: AWSpS.

**MEDSCI 589 Independent Study Human Form and Function Term 2 (1-24, max. 24)** Designed for medical students required to complete additional study related to the required Human Form & Function Thread offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. The course title includes terms to identify which quarter the course is being offered. Prerequisite: Department Permission Offered: AWSpS.
MEDSCI 590 Independent Study Human Form and Function Term 3 (1-24, max. 24)
Designed for medical students required to complete additional study related to the required Human Form & Function Thread offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. The course title includes terms to identify which quarter the course is being offered. Prerequisite: Department Permission Offered: AWSpS.

MEDSCI 591 Independent Study Pathology Term 1 (1-24, max. 24)
Designed for medical students required to complete additional study related to the required Pathology & Histology Thread offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. The course title includes terms to identify which quarter the course is being offered. Prerequisite: Department Permission Offered: AWSpS.

MEDSCI 592 Independent Study Pathology Term 2 (1-24, max. 24)
Designed for medical students required to complete additional study related to the required Pathology & Histology Thread offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. The course title includes terms to identify which quarter the course is being offered. Prerequisite: Department Permission Offered: AWSpS.

MEDSCI 593 Independent Study Pathology Term 3 (1-24, max. 24)
Designed for medical students required to complete additional study related to the required Pathology & Histology Thread offered during the pre-clinical foundation phase of the School of Medicine curriculum. The course title includes terms to identify which quarter the course is being offered. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: Department Permission Offered: AWSpS.

MEDSCI 594 Independent Study Pharmacology Term 1 (1-24, max. 24)
Designed for medical students required to complete additional study related to the required Pharmacology Thread offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. The course title includes terms to identify which quarter the course is being offered. Offered: AWSpS.

MEDSCI 595 Independent Study Pharmacology Term 2 (1-24, max. 24)
Designed for medical students required to complete additional study related to the required Pharmacology Thread offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. The course title includes terms to identify which quarter the course is being offered. Prerequisite: Department Permission Offered: AWSpS.

MEDSCI 596 Independent Study Pharmacology Term 3 (1-24, max. 24)
Designed for medical students required to complete additional study related to the required Pharmacology Thread offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. The course
title includes terms to identify which quarter the course is being offered. Prerequisite: Department Permission Offered: AWSpS.

**MEDSCI 597 Indep Study USMLE Step 1 (1-24, max. 24)** Designed for medical students required to complete additional study related to the required USMLE Step 1 licensing examination offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. The course title includes terms to identify which quarter the course is being offered. Prerequisite: Department Permission Offered: AWSpS.

**MEDSCI 598 Indep Study USMLE Step 2 (1-24, max. 24)** Designed for medical students required to complete additional study related to the required USMLE Step 2 licensing examination offered during the pre-clinical foundation phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. The course title includes terms to identify which quarter the course is being offered. Prerequisite: Department Permission Offered: AWSpS.

**MEDSCI 599 Indep Study or Research (1-24, max. 24)** Designed for medical students who elect a special or research related to the required foundation phase pre-clinical courses. This course can also be used for a student who fails a thread remediation course. Prerequisite: Department Permission Offered: AWSpS.

**MEDSCI 602 Adolescent Health in Low-Resource Settings (1)** Highlights issues for adolescents in resource limited settings with an initial focus on what makes adolescents unique. Topic-based seminars, readings, discussions, and cases will include: adolescent development; physical and psychological trauma; nutrition; illicit activities; adolescent-focused research; adolescent-friendly health services; and reproductive and sexual health.

**MEDSCI 603 Introductory Hands-On Cardiac Ultrasound (1)** Acquire cardiac ultrasound images at three acoustic windows, identify cardiac anatomy in standard views, and recognize key pathologies: left and right ventricular dysfunction and dilatation and pericardial effusion. Following a course introduction, students will work self-paced, alone or in pairs, on a mannequin-based simulator.

**MEDSCI 604 Introduction to Chronic Pain (1)** Medical students will be paired with a pain specialist for three morning sessions in an outpatient chronic pain clinic. Students will be exposed to musculoskeletal, neuropathic, and visceral pain conditions while learning about various management options. A 1-2 page reflection on a patient or pain topic will be required. Offered: SpS.

**MEDSCI 605 From Electrons to the Emergency Department: The Cell Biology of Poisons (1)** This course will describe how various poisons (naturally occurring or following overdose) interrupt molecular pathways to produce toxicity. Concepts will be introduced in a base-based manner before describing in depth the metabolic pathway affected. Examples include electron transport chain poisons, sodium channel poisons, and free poisons (iron).
MEDSCI 606 Emergency Medicine Point-of-Care Ultrasound (1) A. ADEDEIPE, B. BACKLUND, M. VRABLIK Introduction to point-of-care ultrasound. This elective will help students become comfortable with using bedside ultrasound by teaching ultrasound machine operation, image acquisition, and providing hands-on training in both simulated and patient care settings. The elective is designed to be interactive and will incorporate classroom didactic, procedure simulation and clinical application. Offered: WSp.

MEDSCI 607 Science and Practice of Empathy and Compassion Cultivation in Medicine (1) This course will aim at helping students develop the ability to face suffering and pain with empathy, kindness, and compassion. Emphasis will be on cultivating a non-judgmental and curious attitude, self-compassion, appreciation of common humanity and acknowledging that suffering is universal to the human condition, and the practice of compassion. Offered: AS.

MEDSCI 608 Ethical Issues in Solid Organ Transplantation and Allocation (1) A. WIGHTMAN Explore the ethical issues that underlie some of the major controversies in transplantation through brief readings (including selections from the press, canonic texts, and academic articles) and case-based discussion. Students will be evaluated based on participation and a written response to a case. Offered: W.

MEDSCI 609 Ethics in emergency Medicine Workshop (1) Learn how to consider and evaluate the ethical issues surrounding various real-life, frequently encountered medical situations. Discuss various approaches to ethical reasoning and decision-making, then implement in case evaluation. Students will be encouraged to both participate in and lead discussions of each case.

MEDSCI 610 Food, Health, and the Environment (1) A multi-modal session comprised of interactive presentations, documentaries, guest speakers, and small group discussions covering major nutrition topics, such as: nutrition and effects on health, the American food industry and the environment, changing eating behaviors on individual, community, and national levels, as well as food insecurities and health disparities.

MEDSCI 611 Intersection of Genetics with Patient Care (2) Create hypothesis-driven clinical inquiry in an interactive learning environment. Employ peer-review sessions and team-based analysis of genetics case scenarios. Apply your science and clinical knowledge towards solving your patient's specific healthcare need. A team experienced clinicians and researchers will give support and feedback.

MEDSCI 612 Introduction to Humanitarian Emergencies (1) The course provides an introduction to health related issues faced by acutely displaced populations, including refugees and internally displaced persons, in developing countries, in the setting of humanitarian emergencies. Challenges in planning, implementing, and evaluating health programs for these populations will be discussed through case studies of recent humanitarian emergencies.

MEDSCI 613 Mind Body Medicine: Mind Body Skills for Medical Students (2) L. ERLANGER, C. SCOTT This seminar course will provide scientific background and foundational self-care skills for stress management through mindfulness and mutual support. Students will be
encouraged to develop self-care and related pt care philosophy statement. Includes highly interactive, short didactic sessions, practice with experiential activities, and sharing reflections with group members.

**MEDSCI 614 Theoretical and Clinical Aspects of Pain (1)** The course will introduce pain and pain neurobiology with a close look into nociceptive, neuropathic and visceral pain and treatments to pain and addiction. The course will be a combination of articles, lecture, videos of real patients with chronic pain, and discussion.

**MEDSCI 615 Community Engagement and the School of Medicine Pathways (1)** The interactive and engaging Pathways intersession will cover the following topic area: determinants of health, the built environment, health equity and advocacy, structural competency, narrative medicine and additional topics related to working effectively with underserved, vulnerable and marginalized communities. Open to all WWAMI medical students.

**MEDSCI 616 The Physician Online: Mindful Use of Digital Media (1)** A. BROWN, A. CHIPMAN, M. JACKSON, J. JAUREGUI, J. RIDDELL This course explores the use of social media in medicine by exploring online identity, interactions, consumption and creation of content, and reflection. The goal is to equip students to use digital media mindfully while leveraging it to collaborate intelligently, teach more efficiently, and learn for a lifetime.

**MEDSCI 617 Prison/Jail Health Care, Part 1 (1)** M. STERN, L. STRICK This 2-day course serves as an introduction to correctional healthcare. The instructors will provide a short overview of the US correctional system and why and how health care is delivered in jails and prisons. The class will tour a busy county jail on Day 1 and a state prison on Day 2. Offered: AW.

**MEDSCI 618 Prison/Jail Health Care, Part 2 (1)** M. STERN, L. STRICK This course will explore the unique ethical challenges of correctional medicine through case-based discussions. There will be an opportunity to better understand some of those challenges first hand through a guided visit to a prison caring for the state's most seriously mentally ill. Offered: S.

**MEDSCI 619 Refugee and Immigrant Health (1)** This is a weeklong UWSOM intersession course familiarizing students with various aspects of immigrant and refugee health care. There will be an emphasis on the social context of clinical care and the importance of effective teamwork and collaboration.

**MEDSCI 620 Rheumatology Foundations (1)** H. EMERY, K. HAYWARD, M. THAPA, T. TORGERSON This course reviews pathology, clinical presentation, initial evaluation and management of patients with musculoskeletal complaints and common rheumatologic disorders. The in-class sessions include interactive lectures, case-based small groups and a volunteer patient panel that allow students to synthesize knowledge from earlier Foundations blocks and prepare for transition into clinical clerkships. Offered: Sp.

**MEDSCI 621 Basic Skills in Emergency Resuscitation (1)** Impart the critical skills needed to evaluate and manage common emergencies that medical students will encounter during their clinical clerkships and internship.
MEDSCI 622 Topics in Global Infectious Diseases (1) This course will combine didactic sessions presented by local topic experts on global infectious diseases with interactive case-based learning. Small groups will tackle cases that explore epidemiology, diagnosis and management of significant global infections. The course will conclude with a career panel of speakers highlighting various global health career paths.

MEDSCI 623 Introduction to Toxicology: The Intersection of Natural Toxins and Human Physiology (1) This is a didactic-based course illustrating the pathophysiology of natural toxins. Toxins from multiple organ systems including central nervous system, hepatic, hematologic, immunologic, and renal toxins will be covered. Specific examples include: shellfish poisonings, plant and mushroom poisonings, and envenomations from jellyfish, snakes, scorpions, and spiders.

MEDSCI 624 Medical Students as Advocates: Practical Skills for Effective Advocacy (1) Students will develop tangible, hands on skills for moving beyond witnessing health disparities to upstream action that is rooted in effective and community-centered advocacy. Through a cycle of interactive learning, research, action and reflection, this course both explores and develops the role of medical students and future physicians as advocates. Credit/no-credit only.

MEDSCI 625 Building a Framework for Effective Service-Learning, Health Equity, and Leadership (1) This course hones student leadership skills for: cultivating strong teams, assessing community strengths and needs, building community partnerships, sustaining projects, transitioning leadership, and facilitating reflective practices rooted in an analysis of systemic inequalities and cultural humility. Students will emerge with renewed confidence and refined skills for developing or strengthening projects. Credit/no-credit only.

MEDSCI 626 Foundations of Scholarship: Discovery (1) Investigate different types of scholarship of discovery within medicine. Apply the concepts of clear goals, adequate preparation, appropriate methods, significant results, effective presentation, and reflective critique to while preparing a scholarly project. Offered: AW.

MEDSCI 627 Foundations of Scholarship: Integration (1) Investigate different types of scholarship of integration within medicine. Apply the concepts of clear goals, adequate preparation, appropriate methods, significant results, effective presentation, and reflective critique to while preparing a scholarly project. Offered: AWSp.

MEDSCI 628 Foundations of Scholarship: Engagement (1) Investigate different types of scholarship of integration within medicine. Apply the concepts of clear goals, adequate preparation, appropriate methods, significant results, effective presentation, and reflective critique to while preparing a scholarly project. Offered: AWSp.

MEDSCI 629 Foundations of Scholarship: Teaching (1) Investigate different types of scholarship of integration within medicine. Apply the concepts of clear goals, adequate preparation, appropriate methods, significant results, effective presentation, and reflective critique to while preparing a scholarly project. Offered: AWSp.
MEDSCI 630 Procedures and Advanced Skills for Clinical Practice (1) Explore common diagnostic and therapeutic clinical procedures through a hands-on approach. Experience more advanced skills needed for clinical practice in a mentored environment. Credit/no-credit only. Offered: AWSp.

MEDSCI 631 Skills and Strategies for Personal and Professional Development (1) Teach skills and strategies required to sustain lifelong personal and professional growth. Equip students with resources and strategies that will improve their studying and learning skills. Topics will include time management, stress management, adult learning and organizational skills. Guest presenters will include professionals in the fields of health and education. Offered: W.

MEDSCI 632 Clinical Global Health and Social Medicine (1) P. DRAIN Applying clinical global health and social medicine principles are critical to providing excellent medical care. In this intersession, students will learn and discuss elements of clinical global health and social medicine through interactive case-based lectures, group discussions, and independent reading. Students will be graded (pass/fail) on participation and an essay. Offered: W.
Medicine

Department Overview

RR512 University of Washington Medical Center
domchair@uw.edu

Active programs in teaching, research, and patient care are carried on at the University of Washington Medical Center, Veterans' Administration Puget Sound Health Care System (VAPSHCS), Harborview Medical Center, Pacific Medical Center, the Puget Sound Blood Center, the Northwest Kidney Center, and the Fred Hutchinson Cancer Research Center. Major affiliations for clinical teaching also exist with Providence Medical Center and Swedish Hospital Medical Center. There are many additional affiliations with community hospitals in Seattle, the state of Washington, and the WWAMI region. Medical students, interns, medical residents, and postdoctoral research fellows rotate through these various hospitals and participate in the learning experiences offered at each.

Course Descriptions

Elective Clerkships

MEDECK 601 P-Ward Medicine Subinternship - Seattle (*, max. 24) Students act in the capacity of interns on the medical wards under supervision of house staff and visiting physicians. They attend all regular medicine rounds and conferences as their schedules permit. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 602 P-Primary Care - Seattle (8/12) Four-week, full-time ambulatory care block in primary care internal medicine. Students participate in several clinics at University of Washington Roosevelt Clinic following a panel of patients in medicine, rheumatology, and virology clinics. Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 603 P-Clinical Cardiology and Electrocardiography - Seattle (8) Clerkship in clinical cardiology-combined inpatient-outpatient assignments, ECG interpretation. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 604 P-Clinical Dermatology - Seattle (8) Participation in dermatology clinics and inpatient consultations. Journal club and clinical conferences each week with entire staff. A continuing series of teaching seminars and weekly dermatopathology conferences. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 605 P-Clinical Endocrinology and Metabolism - Seattle (*, max. 12) Clerkship in clinical endocrinology and metabolism combined inpatient and outpatient assignments at selected hospitals. Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.
MEDECK 606 P-Clinical Gastroenterology - Seattle (8) Participation in consulting ward rounds, procedures, conferences, and selected clinics with full-time divisional staff, plus directed tutorial work. Students are scheduled at one of three sites: UWMC, Harborview Medical Center, and Veterans' Administration hospitals. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 607 P-Clinical Hematology/Oncology - Seattle (8) Outpatient and inpatient experience with hematologic/oncologic disorders. The elective includes teaching rounds, conferences, and evaluation of laboratory work. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 608 P-Clinical Infectious Diseases - Seattle (8) Students participate in the consulting service throughout the hospital, attend daily plate rounds, conferences, and seminars. Participate in consulting service throughout hospital to learn microbiological aspects of infectious diseases through the clinical laboratories. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 609 P-Nephrology and Fluid Balance - Seattle (8) Students see clinical nephrologic problems under close supervision, participate in nephrology and transplant rounds, see consults with renal fellow and attending, and work up patients in renal clinics, participate in seminars with clerks from all three hospitals. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 610 P-Clinical Respiratory Disease (8) Training in respiratory disease diagnosis and pulmonary therapy, with special emphasis on cardiopulmonary function testing and interpretation. Inpatient and outpatient teaching rounds, conferences, and basic science integration. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 611 Advanced Inpatient Geriatrics (8) This is a unique intensive experience in geriatric and consultative medicine. The "Medicine G" service is a special inpatient service for elderly adults at a major trauma center with active geriatrics presence (outpatient, inpatient, and post-acute); the service provides consultative care with the goal of preventing and managing complications for elderly and often frail and/or medically complex patients. Prerequisite: Successful completion of the third year medicine clerkship Offered: AWSpS.

MEDECK 612 P-Clinical HIV Care - Seattle (8) Full-time outpatient and inpatient elective in HIV care for senior medical students. Students see patients for routine care and acute medical problems that do not require hospitalization, as well as provide inpatient consults. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 613 P-Clinical Nutrition - Seattle (8) Instruction in nutritional assessment and care of both inpatients and outpatients. Students work with preceptors at a variety of hospital and clinic teaching sites, attend nutrition-related seminars, and practice interview skills on standardized patients. (Four weeks). Prerequisite: HUBIO 568; third-year required Medicine clerkship. Offered: AWSpS.
MEDECK 614 P-Oncology Subinternship (8) Students participate in the oncology service in the inpatient oncology consult service at UWMC hospital, obtaining exposure to the management of patients with cancer, oncological complications and emergencies, oncological drug mechanisms of action, side effects, and interactions. Obtain basic understanding of principles of oncology care. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 615 P-Rheumatology - Seattle (8) Full-time inpatient-outpatient clerkship in rheumatology. Includes diagnosis and treatment of rheumatic diseases, utilizing outpatient clinics and hospitalized patients at the UW Medical Center, Harborview Medical Center, or VAMC. Emphasis on concepts in pathophysiology, diagnosis, and treatment of these diseases. In addition to patient contact, reading, seminars, and preceptorial sessions are the methods of instruction. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 616 P-Advanced Dermatology Clinic - Seattle (8) Advanced clinical dermatology clerkship at various sites including HMC, UWMC, VA Seattle, and Children's Hospital. Students choose from four tracks within the rotation: dermatopathology, pediatric dermatology, dermatologic surgery, and advanced medical dermatology. (Four weeks). Prerequisite: third-year required Medicine clerkship.; MEDECK 604. Offered: AWSpS.

MEDECK 617 P-Harborview Evening Clinic - Seattle (2) A longitudinal elective for senior medical students who assume primary responsibility for a panel of medical patients in an outpatient clinic. Direct care of patients is supplemented by didactic sessions dealing with issues in ambulatory care. Students must apply to this program, and are expected to participate for the full academic year. Prerequisite: third-year required Medicine clerkship.

MEDECK 618 P-Medical Consultation - Seattle (8) Full-time outpatient and inpatient elective in peri-operative medical consultation for senior medical students. Students see patients in the medical consultation clinic, then follow them daily when they come in for surgery. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 619 P-Management of Sexually Transmitted Diseases - Seattle (2, max. 12) Instruction and clinical experience in diagnosis, treatment, management, and patient counseling of sexually transmitted diseases. Instruction in genitourinary physical examination skills; relevant laboratory techniques and management of patients with STDs. Prior to the elective, each student must review a packet of didactic materials. (Two weeks). Prerequisite: third-year required Medicine, OB/GYN, and Surgery clerkships. Offered: AWSpS.

MEDECK 620 P-Critical Care Medicine Subinternship - Seattle (8) Participating students function at the sub-intern level on the MICU service at either Harborview Medical Center, UWMC, or VAMC. Through direct patient care responsibilities, students learn about various forms of critical care illness and gain experience in the application of mechanical ventilation, arterial blood gas analysis, and palliative care medicine. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.
MEDECK 621 Advanced Outpatient Geriatrics (8) This is an advanced rotation in the care of older adults with an emphasis on age-related changes in physiology, pathophysiology, function, and quality of life. Students will prevent, diagnose and manage common geriatric syndromes; identify available health and community services for older adults to address their care needs; and identify the complexity and uncertainty of many conditions and circumstances older adults experience. Prerequisite: Successful completion of the third year medicine clerkship Offered: AWSpS.

MEDECK 622 P-Clinical Medical Genetics (8) Students see outpatients and attend a variety of outpatient clinics including subspecialty clinics in cancer genetics, connective tissue genetics, neurogenetics, Turner syndrome and dermatologic genetics, and pediatric general genetics clinics with an emphasis on dysmorphology, developmental delay, disorders of sexual differentiation, skeletal dysplasia, craniofacial anomalies, and neurogenetics. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 623 P-Clinical Wound Management (*) Opportunity for medical student to be exposed to and learn wound care management in clinical setting. At end of rotation students should be able to diagnose cause of chronic ulcer or wound, outline the approach to the management of diabetic foot ulcer, peripheral artery disease ulcer and VLU, and initiate treatments such as sharp debridement, VAC, dressing, and Unna Boot placement. (Two weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 624 Hospitalist Subinternship - Seattle, WA (8) Intensive experience in hospital medicine. The student works primarily with an attending hospitalist or nocturnist.

MEDECK 625 Cardiology Subinternship - Seattle, WA (8) Students serve as intern on the cardiology service under the supervision of senior resident and cardiology attending physicians.

MEDECK 626 P-Clinical Cardiology and Electrocardiography - Tacoma (8) Clerkship in clinical cardiology-combined inpatient-outpatient assignments, ECG interpretation. (Four weeks). Prerequisite: third-year required Medicine clerkship.

MEDECK 627 P-Clinical Endocrinology and Metabolism - Tacoma (*) max. 12 Clerkship in clinical endocrinology and metabolism. Combined inpatient and outpatient assignments at selected hospitals. (Four weeks). Prerequisite: third-year required Medicine clerkship.

MEDECK 628 P-Clinical Infectious Diseases - Tacoma (8) Students participate in the consulting service throughout the hospital, attend daily plate rounds, conferences, and seminars. Participate in consulting service throughout hospital to learn microbiological aspects of infectious diseases through the clinical laboratories. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 629 P-Clinical Respiratory Disease and Critical Care - Tacoma (8) Training in respiratory disease diagnosis and pulmonary therapy, with special emphasis on cardiopulmonary function testing and interpretation. Inpatient and outpatient teaching rounds, conferences, and
basic science integration. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

**MEDECK 630 P-Ward Medicine Subinternship - Tacoma (\*, max. 24)** Students act in the capacity of interns on the medical wards under supervision of house staff and visiting physicians. They attend all regular medicine rounds and conferences as their schedules permit. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

**MEDECK 631 P-Ward Medicine Subinternship - Spokane (8)** Students act in the capacity of interns on the medical wards under supervision of house staff and visiting physicians. They attend all regular medicine rounds and conferences as their schedules permit. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

**MEDECK 632 APC Inpatient and Outpatient Cardiology-Spokane (8)** This rotation provides opportunities in inpatient and outpatient settings. Students assume ownership of inpatients, rounding on patients, formulating treatment plans, and following them through their hospital course. Emphasis will be placed on physical examination, electrocardiogram interpretation, basics of echocardiographic imaging, and the management of patients with congestive heart failure, dysrhythmia, angina, and valvular heart disease. Prerequisite: Successful completion of required medicine clerkship. Offered: AWSpS.

**MEDECK 633 P-Clinical Cardiology and Electrocardiography - Washington (8)** Clerkship in clinical cardiology-combined inpatient-outpatient assignments, ECG interpretation. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

**MEDECK 634 P-Clinical Dermatology - Washington (8)** Participation in dermatology clinics and inpatient consultations. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

**MEDECK 636 P-Clinical Gastroenterology - Washington (8)** Participation in consulting ward rounds, procedures, conferences, and selected clinics at Sacred Heart Hospital in Spokane. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

**MEDECK 637 Clinical Infectious Diseases - Yakima, WA (8)** Students participate in the clinic and consulting service at area hospitals. Includes patients with a range of community acquired and hospital acquired infectious diseases. Students participate in antibiotic stewardship discussions and infection control meetings.

**MEDECK 638 Clinical Infectious Diseases - Spokane (8)** Students participate in the consulting service throughout the hospital, attend daily plate rounds, conferences, and seminars. Participate in consulting service throughout hospital to learn microbiological aspects of infectious diseases through the clinical laboratories. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

**MEDECK 639 P-Nephrology and Fluid Balance - Washington (8)** Students see clinical nephrologic problems under close supervision, participate in nephrology and transplant rounds,
see consults, and work up patients in renal clinics. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

**MEDECK 640 Critical Care Medicine Subinternship - Washington (8)** Participating students function at the sub-intern level on the MICU. Through direct patient care responsibilities, students learn about various forms of critical care illness and gain experience in the application of mechanical ventilation, arterial blood gas analysis, and palliative care medicine. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

**MEDECK 643 P-Clinical Cardiology and Electrocardiography - WY (8)** The student will spend time in a consultative cardiology clinic. They will see new patients independantly and present to the attending cardiologist on a daily basis. They will perform inpatient consultations and follow in patients. They will see ED patients in consultation. The student will spend time observing in the echocardiographic suite, the pacemaker clinic and the cardiac catheterization laboratory. Prerequisite: Successful completion of third year Medicine Clerkship Offered: AWSpS.

**MEDECK 644 P-Clinical Dermatology - Wyoming (8)** Participation in dermatology clinics and inpatient consultations. A continuing series of teaching seminars and weekly dermatopathology conferences. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

**MEDECK 651 P-Ward Medicine Subinternship - Alaska (*, max. 24)** Students act in the capacity of interns on the medical wards under supervision of house staff and visiting physicians. They attend all regular medicine rounds and conferences as their schedules permit. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

**MEDECK 652 P-Infectious Disease Consults - Alaska (8)** Intensive four week experience caring for patients with complex infectious diseases and immune compromise. Outpatient management of HIV-infected patients, execution of antimicrobial stewardship program, and exposure to treatment of a wide range of infectious disease pathology seen in Alaska. Prerequisite: Required internal medicine clerkship.

**MEDECK 653 P-Clinical Cardiology and Electrocardiography - Alaska (8)** Clerkship in clinical cardiology. Combined inpatient-outpatient assignments, ECG interpretation. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

**MEDECK 654 P-Clinical Dermatology - Alaska (8)** Participation in dermatology clinics and inpatient consultations. A continuing series of teaching seminars and weekly dermatopathology conferences. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

**MEDECK 657 Clinical Hematology/Oncology (8)** Work with patients with benign and malignant hematology disorders and patients with various solid tumors, with an emphasis on those with GI malignancies, breast, lung, and head/neck cancers. Procedures performed include bone marrow biopsy and aspirate and lumbar puncture with intrathecal chemotherapy. Learn
about the diagnostic workup, staging, and treatment of such cancers. Learn about therapies to treat hematologic diseases and solid tumors. Prerequisite: Successful completion of third year required medicine clerkship Offered: AWSpS.

MEDECK 658 P-Clinical Infectious Diseases Alaksa (8) Students participate in clinic and in the consulting service throughout the hospital, attend ICU, antimicrobial stewardship rounds, and seminars. Participate in consulting service throughout hospital to learn microbiological aspects of infectious diseases through the clinical laboratories. (Four weeks). Prerequisite: third-year required Medicine clerkship; fourth-year standing. Offered: AWSpS.

MEDECK 660 P-Critical Care Subinternship - Alaska (8) Participating students function at the sub-intern level on the MICU service at Alaska Native Medical Center. Through direct patient care responsibilities, students learn about various forms of critical care illness and gain experience in the application of mechanical ventilation, arterial blood gas analysis, and palliative care medicine. (Four Weeks). Prerequisite: Third-year required Medicine clerkship.

MEDECK 661 P-Ward Medicine Subinternship-Billings, MT (8) Students act in the capacity of interns on the medical wards under supervision of the house staff and visiting physicians. They attend all regular medicine rounds and conference as their schedules permit. Prerequisite: Third year required Medicine clerkship.

MEDECK 662 Advanced Rural Hospital Medicine MT (8) Rotation exposes the student to the practice of rural hospital medicine. Working with an attending, students will evaluate and manage patients in both a rural ICU unit and an Acute Care unit. Students will be exposed to a variety of complex medical conditions and assist with bedside medical procedures. Students will formulate a weekly clinical question regarding patient care, research and present the answer in the clinical context of the patient. Prerequisite: Successful completion of patient care phase of UWSOM curriculum. Offered: AWSpS.

MEDECK 664 P-Clinical Dermatology - Montana (8) Participation in dermatology clinics and inpatient consultations. A continuing series of teaching seminars and weekly dermatopathology conferences. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 665 P-Clinical Endocrinology- Bozeman (8) Clerkship in clinical endocrinology and metabolism combined inpatient and outpatient assignments at selected hospitals in Bozeman, MT. Prerequisite: Third-year required Medicine Clerkship Offered: AWSpS.

MEDECK 667 Hospitalist Medicine Subinternship-MT (8) Intensive experience in hospital medicine. The student works primarily with an attending hospitalist or nocturnist. Prerequisite: Successful completion of required medicine clerkship; recommended: Offered: AWSpS.

MEDECK 668 Critical Care Medicine, Great Falls, MT (8) Students evaluate and manage critically ill patients in a mixed medical, surgical, cardiothoracic and neuro ICU. Students act as the primary provider and work closely with the intensivist and interprofessional team. Students will encounter a patient with septic shock on vasopressors, a patient with respiratory failure on
mechanical ventilation, a post-cardiothoracic surgery patient, and a patient with a primary neurological insult. Prerequisite: Successful completion of the third year medicine clerkship. Offered: AWSpS.

MEDECK 669 P-Nephrology and Fluid Balance - Montana (8) Students see clinical nephrologic problems under close supervision, participate in nephrology and transplant rounds, see consults, and work up patients in renal clinics. (Four weeks). Prerequisite: third-year required Medicine clerkship. Credit/no-credit only. Offered: AWSpS.

MEDECK 670 P-Clinical Medicine Critical Care - Idaho Falls (8) Inpatient critical care rotation in community hospital setting at Eastern Idaho Regional Medical Center in Idaho Falls. Assist in diagnosis and management of common ICU problems and major trauma resuscitation under supervision of critical care physicians. Exposure to common ICU problems, which may include sepsis, respiratory failure, hypotension, organ failure, and gastrointestinal hemorrhage. Students work as multidisciplinary team. (Four weeks) Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 671 P-Ward Medicine Subinternship - Idaho (*, max. 24) Students act in the capacity of interns on the medical wards under supervision of house staff and visiting physicians. They attend all regular medicine rounds and conferences as their schedules permit. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 672 P-Clinical Endocrinology and Metabolism - Idaho Falls, ID (8) Clerkship in clinical endocrinology and metabolism combined inpatient and outpatient assignments at selected hospitals. Prerequisite: medicine required clerkship. Offered: AWSpS.

MEDECK 673 P-Clinical Cardiology and Electrocardiography - Idaho (8) Clerkship in clinical cardiology-combined inpatient-outpatient assignments, ECG interpretation. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 674 P-Clinical Dermatology - Idaho (8) Participation in dermatology clinics and inpatient consultations. A continuing series of teaching seminars and weekly dermatopathology conferences. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 675 P-Clinical Allergy and Immunology - Boise, ID (4) Clinical experience seeing a combination of new and recheck patients with allergy, asthma and immunology disorders for example but not limited to, seasonal allergies, allergic rashes, asthma, chronic cough, chronic sinusitis, contact dermatitis, bee sting allergy, and food allergy. Prerequisite: Medicine Clerkship and 4th year standing.

MEDECK 676 P-Critical Gastroenterology - Boise, ID (8) Clerkship in clinical gastroenterology in Boise, ID. Participation in consulting ward rounds, procedures, conferences, and selected clinics with full-time divisional staff, plus directed tutorial work.
MEDECK 677 P-Clinical Hematology/Oncology - Idaho (8) Outpatient and inpatient experience with hematologic/oncologic disorders. The elective includes teaching rounds, conferences, and evaluation of laboratory work. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 678 P-Clinical Infectious Diseases - Idaho (8) Students participate in the consulting service throughout the hospital, attend daily plate rounds, conferences, and seminars. Participate in consulting service throughout hospital to learn microbiological aspects of infectious diseases through the clinical laboratories. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 679 P-Nephrology and Fluid Balance - Idaho (8) Students see clinical nephrologic problems under close supervision, participate in nephrology and transplant rounds, see consults, and work up patients in renal clinics. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 680 P-Clinical Respiratory Disease and Critical Care Medicine - Idaho (8) Training in respiratory disease diagnosis and pulmonary therapy, with special emphasis on cardiopulmonary function testing and interpretation. Inpatient and outpatient teaching rounds, conferences, and basic science integration. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 681 P-Clinical Aspects of Aging - Idaho (8) Work with elderly patients as subintern with senior care program. Inpatient and ambulatory setting in nursing homes and patients' homes. Interdisciplinary approach. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 682 P-Critical Care Subinternship- Idaho (8) Students function at the sub-intern level on the MICU service. Through direct patient care responsibilities, students learn about various forms of critical care illness and gain experience in the application of mechanical ventilation, arterial blood gas analysis, and palliative care medicine. (Four Weeks). Prerequisite: Third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 683 P-Outpatient Clinical Cardiology Virginia Mason (8) Four-week clerkship in clinical outpatient cardiology at Virginia Mason Heart Institute. Covers ECG interpretation, stress testing, coronary angiography, stenting EP procedures, and echo cardiography. Prerequisite: third-year required Internal Medicine clerkship. Offered: AWSpS.

MEDECK 684 Subinternship in Hospital Medicine and Hematology/Oncology - Seattle, WA (8) Intensive experience in hospital medicine in which the student acts as an intern for the Medicine O service.

MEDECK 686 P-Advanced Clinical Dermatology Clinic - Idaho (8) Advanced clinical dermatology clerkship. (Four weeks). Prerequisite: third-year required Medicine clerkship; either MEDECK 604, MEDECK 634, MEDECK 644, MEDECK 664, or MEDECK 674. Offered: AWSpS.
MEDECK 690 P-General Internal Medicine - Shiprock (8) Clerkship located at the Northern Navajo Medical Center in Shiprock, New Mexico. Students are involved in all aspects of patient care, including home visits, ambulatory care, and hospital stays. (Four weeks). Prerequisite: third-year required Medicine clerkship. Offered: AWSpS.

MEDECK 691 P-Medicine Special Electives - Seattle (*, max. 24) By special arrangement for qualified students, special clerkships or externships. Prerequisite: permission of department.

MEDECK 692 P-Medicine Special Electives - Washington (*, max. 24) By special arrangement for qualified students, special clerkships or externships. Prerequisite: permission of department.

MEDECK 693 P-Medicine Special Electives - Wyoming (*, max. 24) By special arrangement for qualified students, special clerkships or externships. Prerequisite: permission of department.

MEDECK 694 P-Medicine Special Electives - Alaska (*, max. 24) By special arrangement for qualified students, special clerkships or externships. Prerequisite: permission of department.

MEDECK 695 P-Medicine Special Electives - Montana (*, max. 24) By special arrangement for qualified students, special clerkships or externships. Prerequisite: permission of department.

MEDECK 696 P-Medicine Special Electives - Idaho (*, max. 24) By special arrangement for qualified students, special clerkships or externships. Prerequisite: permission of department.

MEDECK 697 P-Medicine Special Electives - Away (*, max. 24) Special clerkship, externship, or research opportunities at times made available at institutions other than University of Washington. Faculty advise students of opportunities. Students obtain from Dean's office a special assignment form at least three months before preregistration. (Two, four, six, or twelve weeks). Prerequisite: permission of department.

MEDECK 701 P-Occupational and Environmental Medicine (8) Overview of Occupation and Environmental Medicine subspecialty. Introduction to Washington Worker's Compensation system and diagnosis and treatment of occupational injuries and illness. Students complete special projects in OEM aligning with student interest, participate in worksite visits, and attend conferences.

MEDECK 704 P-Intro to Clinical Dermatology (2 Wks) (4) Students develop a basic approach to diagnosis and management of common skin conditions. Students see patients in dermatology resident under the supervision of dermatology faculty. (2-weeks) Offered: AWSpS.

MEDECK 711 P-Introduction to Community Internal Medicine Subspecialty Practice (4) Introduction to the outpatient Medicine specialty clinics of Endocrinology, Gastroenterology (GI), and Rheumatology in the Olympia medical community. Two weeks. Offered: Sp.

MEDECK 713 P-Intro to Clinical Nutrition (2 Wks) (4) Develop a basic approach to the assessment of nutritional status and management of nutrition across a variety of disease states.
Mix of hands-on patient centered learning, interactive didactic based teaching sessions and independent learning. Exposure to inpatients and outpatients. Prerequisite: Completion of Foundation Curriculum. Offered: Sp.

**MEDECK 724 P-Interprofessional Hospital Medicine (4)** Introduction to inpatient internal medicine focusing on interprofessional hospital services. Students work as a member of Hospitalist service, managing 1-2 patients, under direction of an attending physician with afternoons dedicated to rounding with other interprofessional services.

**MEDECK 744 P-Intro to Clinical Dermatology (2 Wks) - Sheridan, WY (4)** Students develop a basic approach to diagnosis and management of common skin conditions. Students see patients in dermatology clinic while paired with a PA and attending dermatologist. Prerequisite: Completion of Foundation Curriculum. Offered: AWSpS.

**MEDECK 774 P-Intro to Clinical Dermatology (2 Wks) - Boise, ID (4)** Clinical rotation designed to help students develop a basic approach to the diagnosis and management of common skin conditions. They will see patients in dermatology clinic at Gem State, Boise, Idaho. Offered: Sp.

**Emergency Medicine**

**MED EM 501 P-Emergency Medicine Preceptorship (1, max. 12)** Provides opportunities for first- and second-year medical students to gain experience working in an emergency setting. Students shadow faculty in emergency medicine during their shifts. Includes learning about common conditions seen in the emergency department and the opportunity to work on history taking and physical exam skills. Prerequisite: permission of instructor. Credit/no-credit only.

**MED EM 550 P-Introduction to Emergency Medicine (1)** Presentation of common medical and surgical emergencies and their urgent management, especially within the framework of rapid patient assessment and stabilization. Lecture topics include chest pain and myocardial infarction, basic arrhythmia management, and burn and wound care. Credit/no-credit only.

**MED EM 598 P-Emergency Medicine Independent Study and Remediation (*, max. 8)** Designed for medical students required to complete additional study related to the required Emergency Medicine clerkship offered during the patient care phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: department permission Offered: AWSpS.

**MED EM 600 Independent Study/Research (*)** Provides medical students the opportunity to participate in research as part of their medical education. Must obtain permission through submission of a proposal to department and securing a faculty sponsor.

**MED EM 605 P-Emergency Medicine - UWMC (*, max. 16)** Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.
MED EM 606 P-Emergency Medicine - HMC/UWMC (*, max. 16) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PBSCI, PEDS; and SURG required clerkships.

MED EM 607 P-Emergency Medicine - Madigan (*, max. 16) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.

MED EM 608 P-Emergency Medicine - Swedish Cherry Hill (8) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PBSCI; PEDS; and SURG required clerkships.

MED EM 609 Emergency Medicine - Seattle Children's (8) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.

MED EM 617 P-Emergency Medicine - Olympia (8) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.

MED EM 624 P-Emergency Medicine - Shelton (*, max. 16) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.

MED EM 625 P-Emergency Medicine - Spokane (*, max. 16) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.

MED EM 626 P-Emergency Medicine - Spokane Deaconess (*, max. 16) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.

MED EM 645 P-Emergency Medicine - Boise, St. Lukes (*, max. 16) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.

MED EM 646 P-Emergency Medicine - Boise, Saint Alphonsus (*, max. 16) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.

MED EM 647 P-Emergency Medicine - Pocatello, ID (*, max. 16) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.
MED EM 648 P-Emergency Medicine - Idaho Falls, ID (*, max. 16) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.

MED EM 656 P-Emergency Medicine - Juneau, AK (8) Clerkship emphasized the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.

MED EM 657 P-Emergency Medicine - Fairbanks (*, max. 16) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.

MED EM 658 P-Emergency Medicine - Anchorage (*, max. 16) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.

MED EM 662 P-Emergency Medicine - Bozeman, MT (8) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.

MED EM 663 P-Emergency Medicine - Billings, MT (8) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.

MED EM 664 P-Emergency Medicine - Great Falls, MT (*, max. 16) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.

MED EM 668 P-Emergency Medicine - Casper (*, max. 16) Clerkship emphasizes the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.

MED EM 669 P-Emergency Medicine - Cheyenne, WY (8) Clerkship emphasized the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: MED; OB/GYN; PEDS; PBSCI; and SURG required clerkships.

MED EM 671 P-Emergency Medicine Subinternship - Cheyenne, WY (*, max. 16) Elective clerkship emphasizing the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: All 3rd year required clerkships + required 4th year EM clerkship; permission of department.

MED EM 680 P-Emergency Medicine Subinternship - Madigan (8) Elective clerkship emphasizing the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: All 3rd year required clerkships + required 4th year EM clerkship for UW students only; permission of department.
MED EM 681 P-Emergency Medicine Subinternship - HMC/UWCR (*, max. 16) Elective clerkship emphasizing the management of ambulatory emergencies, severely injured, and critically ill patients. Prerequisite: All 3rd year required clerkships + required 4th year EM clerkship; permission of department.

MED EM 683 Emergency Medicine Point-of-Care Ultrasound (4) Introduction to point-of-care ultrasound in an emergency department setting. Students become comfortable with using bedside ultrasound by teaching ultrasound machine operation, image acquisition, and providing hands-on training in both simulated and patient care settings. Incorporates classroom didactics, procedure simulation and clinical application. Offered: WSp.

MED EM 697 P-Emergency Medicine Special Electives (*, max. 24) By specific arrangement, for qualified students, special clerkship, externship, or research opportunities at times made available at institutions other than University of Washington. Faculty advise students of opportunities. Students obtain from Dean's office a special assignment form at least one month before preregistration. (Two, four, six, or twelve weeks). Prerequisite: required EM clerkship; permission of instructor at away site and department. Offered: AWSpS.

MED EM 699 P-WWAMI Emergency Medicine Special Elective (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington, within the WWAMI region. Prerequisite: permission of department and away site.

Medicine

MED 498 Undergraduate Thesis (*)

MED 499 Undergraduate Research (1-10, max. 25) Case studies, with laboratory research. Available to undergraduates and medical students. Offered: AWSpS.

MED 503 Cardiac Ultrasound (1) F. Sheehan Instruction will be given in how to 1) acquire cardiac ultrasound images at three acoustic windows, 2) identify cardiac anatomy in standard views, and 3) recognize key pathologies: left and right ventricular dysfunction and dilatation and pericardial effusion. Following a course introduction, students will work self-paced, alone or in pairs, on a mannequin-based simulator. Prerequisite: MED C standing or Undergraduate premedicine students with Senior status. Credit/no-credit only. Offered: AWSpS.

MED 505 P-Preceptorship in Medicine (1, max. 12) To provide opportunity for first- and second-year medical students to gain personal experience with medical practice situations by being stationed with carefully selected clinical faculty members in their offices. Prerequisite: permission of department. Credit/no-credit only. Offered: AWSpS.

MED 507 HIV in Latinos (1-, max. 12) Students shadow an attending physician, and participate in routine and acute visits for a primarily Spanish-speaking patient population. Includes Spanish-language health education and rapid HIV testing sessions, and encourages
attendance at a community event targeting the Latino HIV community. Prerequisite: permission of instructor; conversational Spanish proficiency or FAMED 556. Credit/no-credit only.

**MED 510 Health Issues of Sexual Minorities (1)** Introduction to the special healthcare issues and barriers confronting persons identified as bisexual, gay, lesbian, or transgendered. Includes lectures, panels, and case presentations by faculty and community experts.

**MED 515 Medicine as Culture (1)** Examines the ways that medical practice, the medical profession, and ideas about sickness and health are embedded in society and culture, as a way of contextualizing biological phenomena and medical knowledge. Credit/no-credit only.

**MED 522 Introduction to Human and Medical Genetics (3)** Provides in-depth examination of current topics in human and medical genetics with an emphasis on clinical and molecular diagnosis of genetic conditions, approaches to therapy, research, and molecular genetic technology. Credit/no-credit only. Offered: AWSp.

**MED 525 Introduction to Gerontology and Geriatric Medicine (1)** Introduces gerontology and geriatric medicine. Explores topics in geriatric medicine including: multidisciplinary care, dementia and delirium, falls, polypharmacy, urinary incontinence, fragility, and end-of-life care. Employs a combination of lectures, time spent interviewing and observing patients in hospital-based clinics, private homes, long term care and continuing retirement communities, and bedside teaching with a healthcare provider. Credit/no-credit only.

**MED 530 AIDS: A Multidisciplinary Approach (2)** C. FARQUHAR Comprehensive overview of the public health, clinical, and laboratory aspects of human immunodeficiency virus (HIV) infection and disease. Topics include the pathogenesis, natural history, and management of HIV infections; the impact of HIV/AIDS on community and global healthcare; and prospects for prevention and control. Credit/no-credit only. Offered: jointly with EPI 530/G H 562.

**MED 531 P-Human Genetics (*)** Weekly seminar dealing with a variety of topics in medical genetics given by faculty of the Division of Medical Genetics and related departments and divisions. Open to medical students with a good foundation in genetics.

**MED 533 P-Clinical Endocrinology (2)** Includes brief lectures followed by instructor-led interviews with patients to illustrate the clinical presentation, diagnosis, and treatment of the major endocrinopathies. Students gain a greater appreciation of the impact these disorders have on patients' lives. Prerequisite: second year medical students.

**MED 534 Wilderness Medicine (1)** Provides training in medical emergencies and clinical situations unique to wilderness settings where access to medical care is limited. Students gain experience in patient assessment, extrication, and the management of common wilderness situations including altitude illness, burns, trauma, diving injuries, hypo- and hyperthermia, and toxin exposures. Offered: Sp.

**MED 536 Introduction to Critical Care Medicine (1)** Uses a combination of didactics, time spent observing rounds and physicians on-call in the ICU as well as dedicated bedside teaching
by a critical care attending physician to teach about core topics in pediatric and adult critical care
medicine including shock, respiratory failure, sepsis, mechanical ventilation, and palliative care.
Offered: W.

MED 540 Preventing Healthcare Associated Infections (1) Multidisciplinary approach to
understanding, measuring, and developing policy to prevent healthcare associated infections.
Credit/no-credit only. Offered: jointly with EPI 505.

MED 546 Clinical Applications of Gene Therapy (2) Overview of the current status of gene
therapy. Discusses its role in the future practice of medicine. Lecture and literature reviews.

MED 547 Quantitative Methods in Medical Genetics (2) Computational methods of use for
medical genetics. Review of problem sets. Topics range from basic probability to linkage
analysis. Prerequisite: genetics and permission of instructor.

MED 549 Clinical Medical Genetics (1, max. 6) Review of current clinical advances in
medical genetics. Includes lectures and discussion of cases from medical genetics clinic.
Prerequisite: genetics or human genetics and permission of instructor.

MED 555 P-Mind, Body, and Pen: Writing and the Art of Becoming a Physician (1)
Provides forum for medical students to write about issues in medicine and medical education.
Focuses on writing as a process for giving voice to the conflicting demands and dilemmas of
becoming a physician. Explores personal narratives, dreams and disappointments, chronic illness
and death, empathy and revulsion, authenticity and power. Offered: W.

MED 556 Visual Thinking and Medical Diagnosis (1) Uses visual thinking strategies to look
at art and enhance diagnostic acumen. Expands observational and critical thinking skills, and
encourages open-ended discussion. Skills applied in assessing patients. Combination of slide
sessions and observation of original objects at Seattle museums. Credit/no-credit only. Offered: A.

MED 557 Hispanic Health and Healthcare Disparities (1) Acosta Covers Hispanic culture and
language, history of Hispanics in the United States, Hispanic health status issues, and effective
strategies for working across cultures and linguistic barriers. Designed to help the learner
understand and respond better to the healthcare needs of the Hispanic community.

MED 560 P-Advanced Global Health (2) Prepares health profession students for work in
developing countries. Includes healthcare delivery systems, political, social, and economic
determinants of health, major global health issues, and personal well-being while abroad. Lecture
and seminar format with guest speakers, student presentations, and discussion. Offered: jointly
with G H 505.

MED 565 P-The Healer's Art: Awakening the Heart of Medicine (1) Encourages cultivation
of human dimensions in practice of medicine while strengthening personal commitment to
medicine as a life's work. Facilitates student recognition of commonality of personal concerns
among peers and student response to the dimension of mystery in the experience of illness as well as development of the capacity for awe. Credit/no-credit only. Offered: Sp.

**MED 598 P-Medicine Independent Study and Remediation (※, max. 8)** Designed for medical students required to complete additional study related to the required Internal Medicine clerkship offered during the patient care phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: department permission. Offered: AWSpS.

**MED 599 P-Transfusion Machine (3)** Group discussions and didactic sessions cover broad category of transfusion medicine. Hands-on laboratory experience in red cell serology/compatibility, coagulation, and histocompatibility with emphasis on diagnosis and management of clinical problems. Based at Puget Sound Blood Center. Prerequisite: fourth-year medical student standing; third-year student standing with permission of instructor.

**MED 600 Independent Study or Research (※)** Prerequisite: permission of instructor. Offered: AWSpS.

**Required Clerkships**

**MEDRCK 601 P-Clinical Clerkship (※, max. 24)** Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.

**MEDRCK 610 P-Clinical Clerkship Seattle-Shelton, WA (24)** Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experiences emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time). Offered: AWSpS.

**MEDRCK 612 P-Clinical Clerkship - Seattle-Madigan (※, max. 24)** Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.

**MEDRCK 614 P-Clinical Clerkship - Seattle-Montesano (※, max. 24)** Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.
MEDRCK 615 Clinical Clerkship Seattle-Longview (24) Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. Prerequisite: Successful completion of foundation years curriculum. Offered: AWSpS.

MEDRCK 616 P-Clinical Clerkship Seattle-Olympia (*, max. 24) Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.

MEDRCK 617 P-Clinical Clerkship Seattle-Port Townsend (*, max. 24) Paauw Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.

MEDRCK 618 P-LIC Clinical Clerkship (24) Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experiences emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (38-44 week integrated clerkship, full-time). Offered: AWSpS.

MEDRCK 621 P-Clinical Clerkship - Spokane (*, max. 24) Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. Some students can schedule outpatient time in Pullman, WA. (Twelve weeks, full-time.) Offered: AWSpS.

MEDRCK 624 P-Clinical Clerkship - Seattle-Wenatchee (*, max. 24) Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.

MEDRCK 625 Clinical Clerkship Seattle - Moses Lake, WA (24) Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care.
Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time).

**MEDRCK 630 P-Write Medicine Clinical Clerkship (\*, max. 24)** Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time).

**MEDRCK 632 P-Clinical Clerkship - Seattle-Jackson (\*, max. 24)** Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.

**MEDRCK 633 P-Clinical Clerkship Seattle- Gillette (1-24, max. 24)** Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. (Twelve weeks, full-time). Offered: AWSpS.

**MEDRCK 634 P-Clinical Clerkship - Seattle-Sheridan (\*, max. 24)** Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.

**MEDRCK 635 Clinical Clerkship-Seattle-Casper-Cody (24)** Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. Prerequisite: Successful completion of Foundation years curriculum. Offered: AWSpS.

**MEDRCK 636 P-Clinical Clerkship - Seattle-Douglas (\*, max. 24)** Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.

**MEDRCK 638 P-Clinical Clerkship - Seattle-Lander (\*, max. 24)** Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care.
Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.

MEDRCK 652 P-Clinical Clerkship - Seattle- Anchorage (*, max. 24) Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.

MEDRCK 653 P-Clinical Clerkship Seattle- ANMC (1-24, max. 24) Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. (Twelve weeks, full-time). Offered: AWSpS.

MEDRCK 654 P-Clinical Clerkship - Seattle- Soldotna (*, max. 24) Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.

MEDRCK 672 P-Clinical Clerkship - Seattle- Billings (*, max. 24) Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.

MEDRCK 673 P-Clinical Clerkship Seattle-Great Falls (*, max. 24) Paauw Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time). Offered: AWSpS.

MEDRCK 674 P-Clinical Clerkship - Seattle-Dillon (*, max. 24) Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.
MEDRCK 675 P-Clinical Clerkship Boise- Billings (1-24, max. 24) Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full time) Offered: AWSpS.

MEDRCK 676 P-Clinical Clerkship - Seattle-Missoula (*, max. 24) Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.

MEDRCK 678 P-Clinical Clerkship - Seattle-Bozeman (*, max. 24) Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.

MEDRCK 691 P-Clinical Clerkship - Boise (*, max. 24) Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.

MEDRCK 693 Clinical Clerkship Seattle-Twin Falls (24) Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. Prerequisite: Successful completion of Foundation years curriculum. Offered: AWSpS.

MEDRCK 697 Clinical Clerkship Boise-Twin Falls (24) Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. Prerequisite: Successful completion of Foundation years curriculum. Offered: AWSpS.
Microbiology

Department Overview

K357A Health Sciences

Microbiology is a natural science that deals with microorganisms such as bacteria, fungi, protozoa, algae, and viruses. It is concerned with the nature and properties of these organisms, their effects on humans and the environment, and how they can be exploited to provide useful products.

Undergraduate Program

Adviser
K-357A Health Sciences, Box 357735
206-543-5824
micro@uw.edu

The Department of Microbiology offers the following programs of study:

- The Bachelor of Science degree with a major in microbiology
- A minor in microbiology

Bachelor of Science

Suggested First- and Second-Year Courses: PHYS 114, PHYS 115, or PHYS 121, PHYS 122; one of the following: MATH 112, MATH 124, Q SCI 381, or STAT 311.

MICROM 410, the first microbiology course for majors, is taken after completion of BIOL 200 and organic chemistry (CHEM 223 or CHEM 237). To graduate in four years, a student must complete introductory biology and organic chemistry before autumn quarter of the junior year.

MICROM 301, and MICROM 302, offered to non-majors, serve as introductory courses, but cannot be used to fulfill graduation requirements for a major in microbiology. MICROM 301 is a prerequisite for students applying to nursing, physical therapy, or dental school.

Department Admission Requirements

1. Minimum 75 credits applicable to graduation, with a minimum 2.00 overall cumulative GPA.
2. Completion of the following prerequisite courses with a minimum 2.50 cumulative GPA: BIOL 180; BIOL 200 (minimum 2.3 grade); BIOL 220; either CHEM 142, CHEM 152, CHEM 162; or CHEM 143 and CHEM 153; either CHEM 223, CHEM 237, or CHEM 335
**Major Requirements**

Minimum 90 credits (including microbiology courses) in the biological, physical, and mathematical sciences, as follows:

1. Minimum 2.50 cumulative GPA in courses required for admission: BIOL 180; BIOL 200 (minimum 2.3 grade), BIOL 220; either CHEM 142, CHEM 152, and CHEM 162, or CHEM 143 and CHEM 153; either CHEM 223, CHEM 237, or CHEM 335

2. **Core Courses (8 credits):** MICROM 402; MICROM 410; MICROM 496

3. **Distribution Groups and Electives (28 credits):** Minimum one course from each of the following four distribution groups; minimum two laboratory courses. Remaining credits from additional courses from the distribution groups or from an approved list of electives. See adviser for approved list
   a. *Medical Microbiology:* IMMUN 441, MICROM 442 MICROM 443, MICROM 460, or both MICROM 460 and MICROM 461
   b. *Virology:* MICROM 445 or MICROM 450
   c. *Diversity and Ecology:* MICROM 412 or MICROM 435
   d. *Genetics and Molecular Biology:* MICROM 411; or MICROM 431; and either GENOME 361 or GENOME 371

4. Either PHYS 114 and PHYS 115; or PHYS 121 and PHYS 122 (PHYS 116 or PHYS 123 recommended)

5. Either MATH 112, MATH 124, MATH 144, Q SCI 381, STAT 220, or STAT 311

6. Either BIOC 405 and BIOC 406, or BIOC 440, BIOC 441, and BIOC 442

7. All required courses taken for a numerical grade unless course is offered credit/no-credit only. Minimum 2.25 cumulative GPA; minimum 1.8 grade in all MICROM and IMMUN core and elective courses applied to the major

8. Transfer students must complete at least 20 required and elective microbiology credits through the UW.

**Continuation Policy**

All students must make satisfactory academic progress in the major. Failure to do so results in probation, which can lead to dismissal from the major. For the complete continuation policy, contact the departmental adviser or refer to the department website.

**Minor**

**Minor Requirements:** 29 credits as follows:

1. 14 credits to include BIOL 200; one of CHEM 152, CHEM 155, CHEM 162, or CHEM 165; one of CHEM 223, CHEM 237, or CHEM 355.
2. 15 credits from the following: MICROM 410; one from MICROM 302, MICROM 402, MICROM 431, or MICROM 443; and approved 400-level, graded microbiology courses to reach 29 credits. See adviser for approved list.

3. Minimum cumulative 2.00 GPA for all courses counted toward the minor

Student Outcomes and Opportunities

- **Learning Objectives and Expected Outcomes:** The department's objective is to provide a major with the best instruction possible in broad areas of microbiology so students qualify for a wide variety of positions with a terminal BS degree or qualify to pursue advanced degrees in graduate or professional schools.

Microbiology offers students an excellent education in the biology of microorganisms, namely bacteria, fungi, protozoa, and viruses. Through learning about the biology of these microorganisms and viruses, students more fully understand the pivotal position they occupy in establishing and maintaining our biosphere, their effects on human, animal, and plant life, and how the biological properties of certain microbes are exploited for certain purposes. Microorganisms are important in drinking water, wastewater and sewage treatment, production and spoilage of foods, production of antibiotics, bioremediation of toxic compounds, and genetic engineering of organisms having unique characteristics. Students gain insight into strategies used by microorganisms and viruses to cause disease and the mechanisms used by their host to defend themselves.

Graduates have found research positions in biotechnology and pharmaceutical companies, as well as in state and government positions hiring microbiologists. Students interested in a health profession or graduate program benefit from this program.

- **Instructional and Research Facilities:** Microbiology courses are taught using state-of-the-art facilities in the teaching wing of the Health Sciences building. Research labs are located in the Health Sciences, Fred Hutchinson Cancer Research Center, NW Regional Primate Research Center, and UW Rosen building.

- **Honors Options Available:** With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.

- **Research, Internships, and Service Learning:** MICROM 499, undergraduate laboratory research, is offered for credit. See adviser for details.

- **Department Scholarships:** The department offers four awards each year. More information is available at the department's website.

- **Student Organizations/Associations:** The Microphiles Club is open to all students. The club sponsors field trips to local biotech companies, speakers on topics such as research and career opportunities, graduate school, and peer teaching.
Graduate Program

Graduate Program Coordinator
K357A Health Sciences, Box 357735
206-543-2572
microadv@uw.edu

The department offers a graduate program leading to the doctor of philosophy degree. Students interested in graduate work should obtain the necessary application forms from the department.

Doctor of Philosophy

Admission Requirements

Background in any biological science discipline. Selection based on evaluation of a student's undergraduate record for indications of ability to excel in independent, creative research. The department strongly recommends that undergraduate preparation include courses in biochemistry, physics, general and organic chemistry, microbiology, molecular biology and cell biology. Prospective students are strongly advised to seek opportunities to carry out undergraduate research.

Required background courses (generally satisfied prior to entry into the graduate program):

1. Biochemistry (equivalent to BIOC 440, BIOC 441, and BIOC 442)
2. Classical and molecular genetics (equivalent to GENOME 371 or GENOME 372)
3. General microbiology (equivalent to MICROM 410)
4. Medical microbiology and basic immunology recommended for those considering research in the area of medical microbiology or virology.

Degree Requirements

90 credits minimum, as follows:

1. Conjoint (6 credits): See department website for specific courses.
2. Virology and Bacteriology (6-7 credits): See department website for specific courses.
3. Faculty Research Presentations for first-year students: MICROM 599
4. Laboratory Rotation: MICROM 500, minimum three quarters
5. Journal Club: MICROM 522, continuous enrollment
6. Seminar: MICROM 520 seminar series or attendance at Fred Hutchinson seminars, where students are also encouraged to attend the Microbiology seminars. To be taken every quarter unless a conflict with teaching exists.
7. Additional requirements:
   a. Teaching assistant in at least two laboratory courses for undergraduates (usually satisfied in the first and/or second year).
b. Minimum two formal lectures given in an undergraduate course (third or fourth year).

c. First author on multiple papers related to thesis research published or accepted for publication in refereed journals. Under some circumstances, one first-author publication satisfies this requirement.

8. General examination, dissertation, final examination

Course Descriptions

MICROM 101 Microbes and Society (5) NW Intended for liberal arts majors and students not majoring in the biological sciences. Focuses on activities of bacteria, viruses, and other microorganisms, and their influence on humans. Microbe-related topics include disease, bioterrorism, food, biotechnology, and ecology. Examines the nature of scientific inquiry, along with major biological concepts.

MICROM 301 General Microbiology (3) NW D. ANDERSON, R. BUMGARNER Acquaints students with microorganisms and their activities. Topics include microbial cell structure and function, metabolism, microbial genetics, and the role of microorganisms in disease, immunity, and other selected applied areas. Prerequisite: either CHEM 120, CHEM 140, CHEM 142, or CHEM 145. Offered: ASpS.

MICROM 302 General Microbiology Laboratory (2) NW Laboratory course primarily for students taking MICROM 301. Covers a variety of microbiological techniques, with experiments designed to illustrate major concepts of bacteriology, virology, and immunology. No auditors. Offered: ASpS.

MICROM 402 Fundamentals of General Microbiology Laboratory (3) NW Isolation of a broad range of nonpathogenic bacteria from natural sources, using selective and enrichment techniques, with microscopic, biochemical, and molecular identification. Related exercises include genetics, physiology, quantitation, and growth energetics. Prerequisite: BIOL 200. Offered: ASp.

MICROM 410 Fundamentals of General Microbiology I (3) NW Survey of the microbial world, metabolism, biosynthesis, regulation, growth, structure, and function. Required for students majoring in microbiology; recommended for students majoring in biology. Prerequisite: minimum grade of 2.3 in BIOL 200; either CHEM 223, CHEM 237, or CHEM 335. Instructors: Parsek, Traxler Offered: A.

MICROM 411 Bacterial Genetics (4) NW Molecular genetics: description of fundamental genetic processes such as mutation, repair, genetic exchange, recombination, and gene expression. Use of genetic strategies to analyze complex biological processes. Focuses on prokaryotic organisms. Prerequisite: BIOL 200; either CHEM 223, CHEM 237, or CHEM 335. Offered: W.
MICROM 412 Prokaryotic Diversity (3) NW Structure, biochemical properties, and genetics of the major groups of prokaryotes. Prerequisite: BIOL 200. Instructors: Greenberg, Leigh Offered: Sp.

MICROM 413 Special Topics in Microbiology (1, max. 3) Examines current subjects in microbiology. Credit/no-credit only.

MICROM 431 Prokaryotic Recombinant DNA Techniques (3) NW Laboratory course emphasizing concepts and techniques/methodologies in recombinant DNA research employing bacteria and their viruses. Topics and experiments/demonstrations include genomic and plasmid DNA isolation, restriction mapping, cloning, transposon mutagenesis, sequencing, and Western and Southern blotting. No auditors. Prerequisite: either BIOL 200 or MICROM 301. Offered: W.

MICROM 435 Microbial Ecology (3) NW Consideration of the various roles that microorganisms, particularly bacteria and cyanobacteria, play in environmental processes. The interrelationships among microorganisms and the effects of the physical, chemical, and biological properties of their environment are discussed and assessed. Prerequisite: BIOL 180. Instructors: Stahl

MICROM 442 Medical Bacteriology (3) NW Medically important bacterial pathogens are discussed in terms of the clinical, therapeutic, and epidemiological aspects of diseases caused by them, molecular mechanisms of pathogenesis and their identification in the clinical laboratory. Laboratory course, MICROM 443 coordinates. Prerequisite: BIOL 200. Instructors: Cookson Offered: W.

MICROM 443 Medical Bacteriology Laboratory (3) NW Required for medical technology students, microbiology majors; elective for medical students. Procedures for isolation and identification of pathogenic bacteria, testing their susceptibility to antibiotics. No auditors. Prerequisite: BIOL 200. Offered: AW.

MICROM 445 Medical Virology (3) NW Introduces medical virology emphasizing basic understanding of the pathogenesis and replication of medically important viruses including the spread, diagnosis, epidemiology, treatment, and prevention of human viral diseases. Prerequisite: either BIOL 180 or BIOL 200; Sp. Instructors: Lagunoff, Smith

MICROM 450 Molecular Biology of Viruses (3) NW Introduction to the molecular biology of viruses and virus-host relationships. Designed for advanced undergraduates and graduate students in the biological sciences. Coverage includes bacterial and animal viruses, with an emphasis on the molecular mechanisms of viral gene expression and regulation. Prerequisite: BIOL 200. Instructors: Champoux Offered: W.

MICROM 460 Medical Mycology and Parasitology (3) D. ANDERSON, M. CHANDLER, C. FISHER, S. MURPHY Examines medically important fungi and parasites in terms of the symptoms, diagnosis, epidemiology, and therapy of the diseases they cause as well as their mechanisms of pathogenesis. The laboratory course MICROM 461 complements this lecture course but is not required. Prerequisite: BIOL 200 or MICROM 301 Offered: Sp.
MICROM 461 Medical Mycology and Parasitology Laboratory (2)  
D. ANDERSON, M. CHANDLER  
Hands-on practice to identify medically important fungi and parasites, using live, preserved, and stained samples. Demonstrations along with limited procedures are used to illustrate important features used to distinguish organisms. Prerequisite: Prerequisite: MICROM 460, which may be taken concurrently. Offered: Sp.

MICROM 482 Peer Teaching Assistants in Microbiology (1-5, max. 10)  
Direct experience in teaching a microbiology laboratory class. Peer TA's attend concurrent accompanying lecture course, meet weekly to coordinate, give introductory lab remarks, supervise the execution of lab exercises, and assist in preparing/grading of quizzes/exams. Training in teaching techniques, approaches. Student evaluation provided. Prerequisite: MICROM 402; MICROM 410. Credit/no-credit only. Offered: AWSpS.

MICROM 495 Honors Undergraduate Research (*)  
Leigh  
Specific problems in microbiology or immunology. Offered: AWSpS.

MICROM 496 Undergraduate Library Research (2)  
An introduction to library research techniques and to microbiological literature. Staff assign a topic and supervise the project. Offered: AWSpS.

MICROM 499 Undergraduate Laboratory Research (*-, max. 35)  
Leigh  
Specific problems in microbiology or immunology. Credit/no-credit only. Offered: AWSpS.

MICROM 500 Introduction to Research (*)  
Max. 20  
Introduction to research areas of the faculty and the techniques employed in their investigations. Prerequisite: graduate standing in microbiology or permission of instructor. Credit/no-credit only. Offered: AWSpS.

MICROM 520 Seminar (1, max. 30)  
Fang  
Credit/no-credit only. Offered: AWSp.

MICROM 522 Current Research in Microbiology (1, max. 30)  
Weekly student and faculty seminar presentations based on the current literature. Prerequisite: graduate standing in microbiology. Instructors: Harwood, Merrikh, Parsek Credit/no-credit only. Offered: AWSp.

MICROM 526 Research of Cell Surface Problems (1, max. 30)  
Weekly research seminar and discussion of scientific literature pertaining to the process of membrane protein biogenesis. Prerequisite: permission of instructor. Instructors: Traxler Credit/no-credit only.

MICROM 529 Mechanisms of Bacterial Pathogenesis (1, max. 30)  
Student and faculty seminar presentations based on current research pertaining to mechanisms of bacterial pathogenesis at the molecular and cellular levels. Prerequisite: graduate standing in microbiology. Instructors: Fang Credit/no-credit only. Offered: AWSp.

MICROM 532 Methanogenesis Research Meeting (1, max. 30)  
Weekly seminar concerning research topics in the genetics and biochemistry of selected bacteria. Prerequisite: MICROM 410, permission of instructor. Instructors: Leigh Credit/no-credit only. Offered: AWSpS.
MICROM 533 Herpesvirus Research Meeting (1, max. 30) Weekly research seminar and discussion of scientific literature pertaining to the study of molecular virology of Kaposi’s Sarcoma-associated herpesvirus. Prerequisite: permission of instructor. Instructors: Lagunoff. Credit/no-credit only. Offered: AWSpS.

MICROM 534 Research Seminar in Salmonella Pathogenesis (1, max. 30) Fang Provides a formal group setting for discussion and evaluation of a student's research progress. Credit/no-credit only. Offered: AWSpS.

MICROM 540 Virology (3) J. Hyde, M. Lagunoff The molecular biology, transmission, and pathogenesis of human viruses will be explored. In addition to general principles of virology, lectures and paper discussions will focus on specific human pathogens including HIV, herpesviruses, ebolaviruses, alphaviruses, and adenoviruses, among others. Recommended: one year of undergraduate cellular and molecular biology. Offered: A, even years.

MICROM 553 Molecular Interactions of Bacteria with their Hosts (3) The processes bacteria employ to shape interactions with their hosts will be explored in molecular detail through selected examples in the literature. Prerequisite: One year of undergraduate cellular and molecular biology. Recommended: An introductory course in microbiology is recommended. Offered: A, odd years.

MICROM 554 Seminar in Molecular and Medical Microbiology (1, max. 15) Weekly one-hour seminar in which recent advances in molecular biology of microbial pathogenesis or the current research of the participants is presented and discussed critically. Prerequisite: permission of instructor. Instructors: Cookson Credit/no-credit only. Offered: AWSp.

MICROM 555 Advanced Clinical Microbiology (2.5) Attendance at daily plate rounds of the Division of Clinical Microbiology. Designed to increase understanding of clinical microbiological work and its application to the care of the patient. Prerequisite: MICROM 443 and permission of instructor. Instructors: Butler-Wu, Fang Credit/no-credit only. Offered: AWSp.

MICROM 560 Research and Journal Club in Retrovirology (1, max. 30) Weekly research seminar and discussion of literature in areas of retroviral replication and transformation. Prerequisite: graduate standing or permission of instructor. Instructors: Linial Offered: AWSpS.

MICROM 562 Oncogene and Retrovirus Research Seminar (1, max. 30) Weekly discussions of ongoing research related to retroviral replication, retroviral oncogeneses and pathology. Prerequisite: graduate standing or permission of instructor. Instructors: Linial, Overbaugh Offered: AWSpS.

MICROM 585 Research in Cell and Molecular Biology (1, max. 30) Weekly research seminar. Prerequisite: permission of instructor. Instructors: Champoux Credit/no-credit only. Offered: AWSpS.
MICROM 588 Research in Applied Microbiology (1, max. 30) Weekly research seminar and discussion of scientific literature pertaining to applied microbiology. Prerequisite: permission of instructor. Instructors: Lidstrom Credit/no-credit only. Offered: jointly with CHEM E 588; AWSpS.

MICROM 599 Research Presentations (2) Current research review. Credit/no-credit only.

MICROM 600 Independent Study or Research (*) Credit/no-credit only. Offered: AWSpS.

MICROM 700 Master's Thesis (*) Credit/no-credit only.

MICROM 800 Doctoral Dissertation (*) Credit/no-credit only. Offered: AWSpS.
Neurological Surgery

Department Overview

325 9th Avenue, Harborview Medical Center
askuwns@uw.edu

The department is dedicated to teaching and research in the entire spectrum of diseases of the central and peripheral nervous system. Instruction is provided for medical students and postgraduate physicians.

Medical-student instruction includes participation in the human-biology curriculum as well as in elective basic-science and clinical experiences. These are available at Harborview Medical Center, UW Medical Center, Veterans Affairs Puget Sound Health Care Center, and Seattle Children's hospital. The department also has several course offerings correlating research and clinical problems of the nervous system, including research seminars in neuro-oncology, molecular imaging, stem cell biology, and clinical and basic-science correlates of the epilepsies.

Selected medical students also may elect research experience within the department. Department research facilities are housed in the Medical Research Tower of the UW Medical Center, at Harborview Research and Training Building, and at Veterans' Affairs Puget Sound Health Care System. Investigations are under way at these institutions in many areas of molecular biology, stem cell biology, neurophysiology, brain function and epilepsy research, neuroanatomy, nanotechnology, molecular imaging, behavioral research, outcomes research (cranial and spine), trauma research, and neuro-oncology.

In addition to undergraduate instruction, a fully certified residency program in neurological surgery is available for selected postgraduate physicians. The eight-year program emphasizes preparation for a career in academic neurosurgery.

Course Descriptions

**NEUR S 498 Undergraduate Thesis (*, max. 35)** D' Ambrosio, Ellenbogen, Hevner, Horner, MacDonald, Mourad, Morrison, Ojemann, Ramirez Offered: AWSpS.

**NEUR S 499 Undergraduate Research (*, max. 35)** Investigation of special problems as an intimate member of the research team in the neurological surgery laboratories. Research to lead to a thesis, if desired. List of projects available on request. Prerequisite: permission of instructor. Instructors: D' Ambrosio, Ellenbogen, Ferreira, Hevner, Horner, MacDonald, Mourad, Morrison, Ojemann, Ramirez, Rostomily, Silber Offered: AWSpS.

**NEUR S 505 P-Preceptorship in Academic Neurosurgery (1, max. 12)** Opportunity for first- and second-year medical students to observe the research, teaching, and patient-care activities of
academic neurosurgery. Prerequisite: permission of instructor. Instructors: Chestnut, Ellenbogen, Ferreira, Hofstetter, Kim, Lee, Ojemann, Rostomily, Sekar, Silbergeld, Zhang Offered: AWSpS.

**NEUR S 655 P-Clinical Neurosurgery Clerkship- Spokane WA (1-8, max. 8)** Provides the medical student with exposure to common neurologic and neurosurgical problems such as trauma, hydrocephalus, stroke, back pain, bleeds in the head, and tumors. Satisfies the requirement of the Neurology clerkship requirement. For third- and fourth-year medical students. Offered: AWSpS.

**NEUR S 665 P-Clinical Neurosurgery Clerkship (8)** Ellenbogen, Lee Provides the medical student with exposure to common neurologic and neurosurgical problems such as trauma, hydrocephalus, stroke, back pain, bleeds in the head, and tumors. Satisfies the requirement of the Neurology clerkship requirement. For third- and fourth-year medical students.

**NEUR S 680 P-Neurological Surgery Clerkship (*, max. 8)** Student serves clinical clerkship as an intimate member of the staff, participating in inpatient and outpatient care, both preoperative and postoperative, involving neurological surgery patients. University of Washington Medical Center or a University-affiliated hospital may be selected, subject to approval of the department. (Four weeks). Prerequisite: HUBIO 563. Instructors: Ellenbogen, Lee Offered: AWSpS.

**NEUR S 697 P-Neurological Surgery Special Electives (*, max. 24)** By specific arrangement, for qualified students, special clerkship, externship, or research opportunities made available at institutions other than the University of Washington. Prospective students obtain from the dean's office a special assignment form at least one month before preregistration. Prerequisite: permission of instructor. Instructors: Ellenbogen Offered: AWSpS.

**NEUR S 699 P-WWAMI Neurological Surgery Special Electives (*, max. 24)** By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department. Instructors: Ellenbogen
Neurology

Department Overview

RR650 University of Washington Medical Center
neurolog@uw.edu

Neurology's four-year residency program (including an internship) offers training in all facets of neuroscience research. In addition, the department offers training programs in the Divisions of Neurogenetics and Pediatric Neurology and in the Epilepsy Center. A clinical-clerkship program provides basic training in neurology patient care. The department is active in teaching, research, and patient care at the UW Medical Center, Seattle Veterans' Affairs Medical Center, Harborview Medical Center, Seattle Children's hospital, and the Fred Hutchinson Cancer Research Center. Medical students, interns, neurology residents, and postdoctoral research fellows rotate through these various hospitals and participate in the learning experiences offered at each.

Course Descriptions

NEURL 495 Community Rehabilitation of the Neurologically Impaired: Internship (*, max. 5) Fraser, Clemmons Supervised work with a neurologically disabled vocational rehabilitation population within a multidisciplinary vocational rehabilitation unit. Offered: AWSpS.

NEURL 499 Undergraduate Research (*, max. 25) Provides an opportunity to gain research experience and direct participation in clinical or basic science investigation in neurological topics. Offered: AWSpS.

NEURL 505 P-Preceptorship in Neurology (1, max. 12) Provides an opportunity for first and second-year medical students to gain personal experience with neurology practice situations by being stationed with carefully selected clinical faculty members in their offices. Prerequisite: permission of instructor. Instructors: Kraus Offered: Sp.

NEURL 536 Topics in Clinical Neurology (1) Spain Lectures on epilepsy, stroke, coma, drug overdose, dementia, headache, myelopathies, infectious disease. Credit/no-credit only. Offered: S.

NEURL 555 Frontiers in Neuroimmunology (1) Current concepts and developments in neuroimmunology. Prerequisite: either NBIO 301 or IMMUN 441. Instructors: Moeller Credit/no-credit only. Offered: AWSpS.

NEURL 559 Neurobiology of Disease (3) Introduces medically important neurological and psychiatric diseases and experimental approaches to understanding the basis for diseases and their treatments. Covers stroke, epilepsy, autoimmune diseases of the CNS, neurodegenerative...
diseases, autism, psychosis, anxiety disorders, and mood disorders. Offered: jointly with NEURO 559/P BIO 559.

**NEURL 598 P-Neurology Independent Study and Radiation (1-8, max. 8)** Designed for medical students required to complete additional study related to the required Neurology clerkship offered during the patient care phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Offered: AWSpS.

**NEURL 600 P-Independent Study or Research (*)** Prerequisite: Instructor permission.

**NEURL 632 P-Introduction to Neurology - Casper, WY (8)** Provides the medical student with a general understanding of basic clinical neurology in Casper, WY. For third- or fourth-year students. Prerequisite: medicine, or family medicine, or surgery, or pediatrics. Instructors: Kraus Offered: AWSpS.

**NEURL 633 P-Introduction to Neurology - Anchorage - Alaska Neurology Clinic (8)** Provides the medical student with a general understanding of basic clinical neurology. For third- or fourth-year students. Prerequisite: medicine, or family medicine, or surgery, or pediatrics. Instructors: Kraus Offered: AWSpS.

**NEURL 634 P-Introduction to Neurology - Anchorage - ANMC (8)** Provides the medical student with a general understanding of basic clinical neurology at Alaska Native Medical Center in Anchorage, Alaska. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

**NEURL 636 P-Introduction to Neurology-Kalispell (8)** Provides the medical student with a general understanding of basic clinical neurology, at Kalispell Regional Medical Center. For third- or fourth-year students. Prerequisite: Medicine, or family medicine, or surgery, or pediatrics. Offered: AWSpS.

**NEURL 637 P-Introduction to Neurology-Missoula (8)** Provides the medical student with a general understanding of basic clinical neurology at Montana Neurobehavioral Specialist in Missoula, MT. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

**NEURL 638 P-Introduction to Neurology - Great Falls (8)** Provides the medical student with a general understanding of basic clinical neurology at Advanced Neurology Specialists in Great Falls, Montana. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

**NEURL 639 P-Introduction to Neurology - Billings Regional Neuroscience Clinic (8)** Provides the medical student with a general understanding of basic clinical neurology at Neurology Associates in Billings, Montana. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.
NEURL 640 P-Introduction to Neurology - Billings Clinic (8) Provides the medical student with a general understanding of basic clinical neurology at Billings Clinic in Billings, Montana. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

NEURL 641 P-Introduction to Neurology- Bozeman (8) Provides the medical student with a general understanding of basic clinical neurology at the office of Dr. Joshua Knappenberger in Bozeman, Montana. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

NEURL 642 P-Introduction to Neurology- St. Lukes Boise (8) Provides the medical student with a general understanding of basic clinical neurology. For third- or fourth-year students. Prerequisite: medicine, or family medicine, or surgery, or pediatrics. Instructors: Kraus Offered: AWSpS.

NEURL 643 P-Introduction to Neurology - Dr. Lyons, Boise (8) Provides the medical student with a general understanding of basic clinical neurology at the office of Dr. George Lyons in Boise, Idaho. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

NEURL 644 P-Introduction to Neurology - Idaho Falls EINA (8) Provides the medical student with a general understanding of basic clinical neurology at the office of Dr. Stephen Vincent in Idaho Falls, Idaho. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

NEURL 645 P-Introduction to Neurology - Idaho Falls Neurology (8) Provides the medical student with a general understanding of basic clinical neurology at the office of Dr. Erich Garland in Idaho Falls, Idaho. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

NEURL 647 P-Introduction to Neurology - Boise St. Alphonsus (8) Provides the medical student with a general understanding of basic clinical neurology at the office of Dr. Karin Lindholm in Boise, Idaho. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

NEURL 648 P-Introduction to Neurology - Coeur D' Alene (8) Provides the medical student with a general understanding of basic clinical neurology at the office of Dr. Michael Coats in Coeur d' Alene, Idaho. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

NEURL 649 P-Introduction to Neurology - Tacoma St. Joseph (8) Provides the medical student with a general understanding of basic clinical neurology in Tacoma, WA. For third- or fourth-year students. Prerequisite: medicine, or family medicine, or surgery, or pediatrics. Offered: AWSpS.
NEURL 650 P-Introduction to Neurology - Lacey, WA (8) Provides the medical student with a general understanding of basic clinical neurology in Lacey, WA. For third- or fourth-year students. Prerequisite: medicine, or family medicine, or surgery, or pediatrics. Offered: AWSpS.

NEURL 651 P-Introduction to Neurology - Kirkland, WA (8) Provides the medical student with a general understanding of basic clinical neurology in Kirkland, WA. For third- or fourth-year students. Prerequisite: either medicine, family medicine, surgery, or pediatrics. Offered: AWSpS.

NEURL 652 P-Introduction to Neurology - Spokane Rockwood Clinic (8) Provides the medical student with a general understanding of basic clinical neurology in Spokane, WA. For third- or fourth-year students. Prerequisite: medicine, or family medicine, or surgery, or pediatrics. Offered: AWSpS.

NEURL 653 P-Introduction to Neurology - Spokane CMA, WA (8) Provides the medical student with a general understanding of basic clinical neurology in Spokane, WA. For third- or fourth-year students. Prerequisite: either medicine, family medicine, surgery, or pediatrics.

NEURL 654 P-Introduction to Neurology - Dr. Greeley, Spokane (8) Provides the medical student with a general understanding of basic clinical neurology at the office of Dr. David Greeley in Spokane, Washington. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

NEURL 655 P-Introduction to Neurology - Spokane (8) Provides the medical student with a general understanding of basic clinical neurology in Spokane, Washington. For third- or fourth-year students. Prerequisite: medicine, or family medicine, or surgery, or pediatrics. Offered: AWSpS.

NEURL 656 P-Introduction to Neurology - Wenatchee (8) Provides the medical student with a general understanding of basic clinical neurology at Wenatchee Valley Medical Center in Wenatchee, Washington. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

NEURL 657 P-Introduction to Neurology - Yakima (8) Provides the medical student with a general understanding of basic clinical neurology at the office of Dr. Richard Sloop in Yakima, Washington. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

NEURL 658 P-Introduction to Neurology - Olympia Neurology (8) Provides the medical student with a general understanding of basic clinical neurology at Olympia Neurology in Olympia, Washington. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

NEURL 659 P-Introduction to Neurology - NW Neurology, Lakewood (8) Provides the medical student with a general understanding of basic clinical neurology at Northwest
Neurology, a Franciscan Medical Group clinic, in Lakewood, Washington. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

**NEURL 660 P-Introduction to Neurology - Madigan (8)** Provides the medical student with a general understanding of basic clinical neurology at Madigan Army Medical Center in Tacoma, Washington. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

**NEURL 661 P-Introduction to Neurology - Tacoma/Puyallup Multicare (8)** Provides the medical student with a general understanding of basic clinical neurology at Neurology and Neurosurgery Associates in Tacoma and Puyallup, Washington. Students spend time at both clinics. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

**NEURL 662 P-Introduction to Neurology - Group Health, Tacoma (8)** Provides the medical student with a general understanding of basic clinical neurology at Group Health Tacoma Medical Center in Tacoma, Washington. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

**NEURL 663 P-Introduction to Neurology - Group Health, Eastside (8)** Provides the medical student with a general understanding of basic clinical neurology at Group Health Eastside Specialty Center in Redmond, Washington. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

**NEURL 664 P-Introduction to Neurology - Burien (8)** Provides the medical student with a general understanding of basic clinical neurology at South Seattle Neurology Associates in Burien. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

**NEURL 665 P-Introduction to Neurology- UWMC (8)** Provides the medical student with a general understanding of basic clinical neurology, at UWMC. For third- or fourth-year students. Prerequisite: medicine, or family medicine, or surgery, or pediatrics. Instructors: Kraus. Offered: AWSpS.

**NEURL 666 P-Introduction to Neurology - HMC (8)** Provides the medical student with a general understanding of basic clinical neurology at Harborview Medical Center in Seattle, Washington. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

**NEURL 667 P-Introduction to Neurology - VA (8)** Provides the medical student with a general understanding of basic clinical neurology at the VA Medical Center in Seattle, Washington. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

**NEURL 668 P-Introduction to Neurology - Northwest Hospital (8)** Provides the medical student with a general understanding of basic clinical neurology at Northwest Hospital in Seattle,
Washington. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

NEURL 669 P-Introduction to Neurology - Virginia Mason (8) Provides the medical student with a general understanding of basic clinical neurology at Virginia Mason Medical Center in Seattle, Washington. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

NEURL 670 P-Introduction to Neurology - Minor and James (8) Provides the medical student with a general understanding of basic clinical neurology at Minor and James Medical in Seattle, Washington. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

NEURL 671 P-Introduction to Neurology - Swedish (8) Provides the medical student with a general understanding of basic clinical neurology at Swedish Medical Center I in Seattle, Washington. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

NEURL 672 P-Introduction to Neurology - Group Health, Seattle (8) Provides the medical student with a general understanding of basic clinical neurology at Group Health Capitol Hill Campus in Seattle, Washington. Prerequisite: completion of one required clerkship in medicine, family medicine, surgery, or pediatrics.

NEURL 673 P-Introduction to Neurology - Renton, Valley Medical Center (8) Provides the medical student with a general understanding of basic clinical neurology in Renton, WA. For third- or fourth-year students. Prerequisite: medicine, or family medicine, or surgery, or pediatrics.

NEURL 674 P-Introduction to Neurology- Bellingham (8) Provides the medical student with a general understanding of basic clinical neurology at Peace Health in Bellingham, Washington. Prerequisite: Completion of one required clerkship in medicine, family medicine, surgery or pediatrics. Offered: AAWSpS.

NEURL 681 P-Seizure Clinic Clerkship (2.5) Evaluation and follow-up of patients with seizure disorders. Limited contact with inpatients. Prerequisite: MED 665 and permission of instructor. Instructors: A. Wilensky Offered: AAWSpS.

NEURL 685 Epilepsy and Clinical Electroencephalography (4/8, max. 8) Miller Introduction into epilepsy and the use and interpretation of the electroencephalogram and other clinical studies used to assess it, under the direct supervision of several of the faculty epileptologists and clinical neurophysiologists. Offered: AAWSpS.

NEURL 686 P-Clinical Neurology (8) Swanson Clerkship including both inpatient and outpatient experiences and didactic sessions on neurological subjects. Student assigned to one of the affiliated hospitals and supervised by neurology residents and full-time staff. Offered: AAWSpS.
NEURL 687 Advanced Clerkship in Child Neurology (4, max. 8) Advanced course in neurology dealing with neurological disease in children. Supervision by child neurology residents and attending. Prerequisite: NEURL 665, third- and fourth-year medical students. (Limit: one student.) Instructors: Gospe Offered: AWSpS.

NEURL 697 Neurology Away Elective (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions outside the WWAMI region. Students obtain special assignment form from the dean's office at least one month prior to preregistration. Prerequisite. permission of department adviser. Offered: AWSpS.

NEURL 699 WWAMI Neurology Special Assignment Elective (4/8, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite. permission of adviser. Offered: AWSpS.
Obstetrics and Gynecology

Department Overview

BB667 Health Sciences Building

The department is involved with teaching, patient care, and research in the areas of normal and abnormal human reproduction: growth and development of the fetus, normal and complicated obstetrics, and surgical and medical diseases of the female reproductive system, including endocrinology, oncology, infectious disease, urogynecology, psychosocial problems, primary and preventive health care, and ethics.

Course Descriptions

OB GYN 498 Undergraduate Thesis (*, max. 30) By arrangement.

OB GYN 499 Undergraduate Research (*, max. 30)

OB GYN 505 P-OB GYN Preceptorship (1, max. 12) Provides an opportunity for first- and second-year medical students to gain direct obstetrics and gynecology experience with a variety of clinical faculty members in diverse patient-care settings. Includes opportunities to observe labor and delivery, gynecologic surgery in the operating room, ambulatory obstetrics and gynecology in clinic, and family planning.

OB GYN 550 P-Voluntary Pregnancy Termination: An Overview of Medical and Social Issues (2) Prager A flexible curriculum which allows the medical student to observe in an abortion clinic, read articles and a textbook on abortion. Can be used by medical student as elective credit.

OB GYN 551 Perinatal Care Elective (1) Provide an introduction and overview of perinatal care for first- or second-year medical students with emphasis on late third trimester, labor and delivery, and postpartum. Opportunity to observe the patient-provider relationship. Optional labor and delivery observation. Offered: AWSp.

OB GYN 579 P-Obstetric and Gynecologic Investigation (*) The investigation may cover any one of the following fields: normal and complicated pregnancy, hormone assays in obstetrics and endocrinology, obstetric and gynecologic oncology, genetics. By arrangement.

OB GYN 598 P-OB/GYN Independent Study and Remediation (*, max. 8) Designed for medical students required to complete additional study related to the required Obstetrics and Gynecology clerkship offered during the patient care phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: department permission. Offered: AWSp.
OB GYN 627 Reproductive Endocrinology and Infertility Elective (8) V. Mendiratta The rotation will provide the 4th year student clerk multidisciplinary exposure to the full spectrum of reproductive endocrinology and infertility in a variety of clinical settings including at comprehensive university-based IVF center, county hospital based clinic, cancer center and sub specialty clinic in pediatric and adolescent gynecology. Opportunity to participate on scheduled reproductive surgeries at URC, UWMC, HMC, and SMH. Prerequisite: All required patient care phase electives.

OB GYN 628 P- Gynecology Elective (4) This elective is designed to introduce 4th year medical students to first trimester abortion care and family planning through direct involvement under the supervision of family medicine and OBGYN providers. Please contact obgyn administrator for more information and permission to take this elective. Prerequisite: OBGYN required clerkship. Offered: AWSpS.

OB GYN 629 P- Introduction to Obstetrics and Gynecology- Wasilla, AK (12) Clerkship equivalent to OB GYN 649 Fairbanks, AK Offered: AWSpS.

OB GYN 630 P-WRITE Obstetrics and Gynecology Clinical Clerkship (6-12) Basic clinical clerkship for students enrolled in the WRITE Program. Prerequisite: Completion of Foundations Phase curriculum; acceptance to the WRITE program. Offered: AWSpS.

OB GYN 631 P-Introduction to Obstetrics and Gynecology, NWHMC (*, max. 12) See OB GYN 665. Offered at Northwest Hospital, Seattle, WA. (Six weeks, full-time). Prerequisite: HUBIO series, 3rd year medical students.

OB GYN 632 P-Introduction to Obstetrics and Gynecology - Bellingham (*, max. 12) See OB GYN 665.

OB GYN 633 P-Introduction to Obstetrics and Gynecology- Spokane Rockwood (12) Clerkship equivalent to OB GYN 665 offered in Spokane, WA. (Six weeks, full time) Offered: AWSpS.

OB GYN 634 P- Introduction to Obstetrics and Gynecology- Olympia LIC (1-12) Clerkship equivalent of OB GYN 665, but held in Olympia, WA Offered: AWSpS.

OB GYN 635 P-Introduction to Obstetrics and Gynecology - Great Falls, MT (1-12) Clerkship equivalent to OBGYN 665, but offered in Great Falls, MT. Offered: AWSpS.

OB GYN 636 P- Introduction to Obstetrics and Gynecology Clerkship - Butte, MT (1-12) Clerkship equivalent to OBGYN 650 on Kalispell, MT.

OB GYN 637 P- Introduction of Obstetrics and Gynecology - Hamilton, MT (1-12) Clerkship equivalent to OB GYN 665 offered in Hamilton, MT. Offered: AWSpS.

OB GYN 638 P-Gynecology Planned Parenthood- Spokane, WA (4) Clinical elective in family planning at Planned Parenthood in Spokane, WA. Exposure to contraceptive and options
counseling. Experience in evaluating patients for sexually transmitted infections and appropriate therapies. May participate in first trimester ultrasound, medical and surgical abortions. Prerequisite: Basic OB GYN clerkship. Offered: AWSpS.

**OB GYN 639 P-Introduction to Obstetrics and Gynecology, St. Alphonsus ( *, max. 12)** See OB GYN 665. Offered at St. Alphonsus, Boise, ID. (Six weeks, full-time). Prerequisite: HUBIO series, 3rd year medical students.

**OB GYN 640 P-Introduction to Obstetrics and Gynecology- Pullman/Moscow (12)** Clerkship equivalent to OB GY 668 Spokane, WA Offered: AWSpS.

**OB GYN 642 P- Gynecology Elective (4)** 4th year medical student OBGYN elective in Cody, WY. Students will be rotating in private physician office. Student's weeks will consist of a combination of clinic and doing surgeries. They will be learning how to care for women of all ages from young women - through menopause - into geriatric. Please contact OBGYN clerkship administrator for permission to take this course. Prerequisite: OBGYN required clerkship. Offered: AWSpS.

**OB GYN 643 P-Introduction to Obstetrics and Gynecology- Powell WY ( *, max. 12)** See OB GYN 665. Offered in Powell, WY. (6 weeks, full time.)

**OB GYN 644 P-Introduction to Obstetrics and Gynecology - Gillette, WY (12)** General introductory obstetrics and gynecology clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to third- and fourth-year medical students. Prerequisite: HUBIO 565.

**OB GYN 645 P-Introduction to Obstetrics and Gynecology - Sheridan, WY (12)** General introductory obstetrics and gynecology clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to third- and fourth-year medical students. Prerequisite: HUBIO 565.

**OB GYN 646 Introduction to Obstetrics and Gynecology - Rock Springs, WY (12)** Clerkship equivalent to OB GYN 665 offered in Rock Springs, WY. (Six weeks, full-time).

**OB GYN 647 Introduction to Obstetrics and Gynecology - Nampa, ID ( *, max. 12)** General introductory obstetrics and gynecology clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Offered in Nampa, ID. Open to third- and fourth-year medical students. Prerequisite: HUBIO 565. Offered: AWSpS.

**OB GYN 648 P-Introduction to Obstetrics and Gynecology- Pocatelo, ID (12)** Clerkship equivalent to OBGYN 665 but offered in Pocatelo, ID. Offered: AWSpS.

**OB GYN 649 P-Introduction to Obstetrics and Gynecology- Fairbanks, TVC (1-12)** Clerkship equivalent to OB GYN 665 offered in Fairbanks, AK. Offered: AWSpS.
OB GYN 650 P-Introduction to Obstetrics and Gynecology - Kalispell, MT (12) General introductory obstetrics and gynecology clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to third- and fourth-year medical students. Prerequisite: HUBIO 565.

OB GYN 651 P-Introduction to Obstetrics and Gynecology - Helena, MT (12) General introductory obstetrics and gynecology clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to third- and fourth-year medical students. Prerequisite: HUBIO 565.

OB GYN 653 Introduction to Obstetrics and Gynecology - Ellensburg, WA (12) Clerkship equivalent to OB GYN 665 offered in Ellensburg, WA. (Six weeks, full-time). Prerequisite: HUBIO series; 3rd Year medical students.

OB GYN 654 Introduction to Obstetrics and Gynecology - Moses Lake, WA (12) Clerkship equivalent to OB GYN 665 offered in Ellensburg, WA. (Six weeks, full time).

OB GYN 656 P-Introduction to Obstetrics and Gynecology - Wasilla (*, max. 12) Clerkship equivalent to OB GYN 665 offered in Wasilla, AK. Includes experience in several private physicians' offices. (Six weeks). Prerequisite: HUBIO series, third-year medical student status.

OB GYN 657 P-Introduction to Obstetrics and Gynecology - Lander (*, max. 12) Clerkship equivalent to OB GYN 665 offered in Lander, WY. Includes experience in several private physicians' offices. (Six weeks). Prerequisite: HUBIO series, third-year medical student status.

OB GYN 659 P-Introduction to Obstetrics and Gynecology - Cody (*, max. 12) Clerkship equivalent to OB GYN 665 offered in Cody, WY. Includes experience in several private physicians' offices. (Six weeks). Prerequisite: HUBIO series, third-year medical student status.

OB GYN 660 P-Introduction to Obstetrics and Gynecology - Billings, St. Vincent (*, max. 12) Introductory clerkship providing comprehensive medical care and counseling to female patients. Includes management and delivery of obstetrical patients, diagnosis and management of gynecologic diseases, hospital rounds, outpatient clinics, seminars, tutorial, and community healthcare agencies for women. (Six weeks. Limit: one student). Prerequisite: HUBIO 565.

OB GYN 662 P-Introduction to Obstetrics and Gynecology - Libby (*, max. 12) Clerkship equivalent to OB GYN 665 offered in Libby, Montana. Includes experience in several private physicians' offices. Prerequisite: third-year medical student after completion of HUBIO series.

OB GYN 663 P-Introduction to Obstetrics and Gynecology - Wenatchee (*, max. 12) Clerkship equivalent to OB GYN 665 offered in Wenatchee, WA. Includes experience in several
private physicians' offices. (Six weeks). Prerequisite: HUBIO series, third-year medical student status.

**OB GYN 664 P-Introduction to Obstetrics and Gynecology - GH Tacoma (*)**, max. 12
Clerkship equivalent to OB GYN 665 offered in Tacoma, WA. Includes experience in several private physicians' offices. (six weeks, full time) Prerequisite: HUBIO series; third-year medical student status.

**OB GYN 665 P-Introduction to Obstetrics and Gynecology - UH-HMC (*)**, max. 12
Introductory clerkship providing comprehensive medical care and counseling to female patients. Includes management and delivery of obstetrical patients, diagnosis and management of gynecologic diseases, hospital rounds, outpatient clinics, seminars, tutorial, and community healthcare agencies for women. Rotations occur at UWMC and Harborview Medical Center. (Six weeks. Limit: four students). Prerequisite: HUBIO 565.

**OB GYN 666 P-Introduction to Obstetrics and Gynecology - Boise (*)**, max. 12
Clerkship equivalent to 665 offered in Boise, Idaho (WWAMI). Includes experience in several private physician offices. (Six weeks. Limit: one student. Not offered summer quarter). Prerequisite: HUBIO 565.

**OB GYN 667 P-Introduction to Obstetrics and Gynecology - Madigan (*)**, max. 12
Clerkship equivalent to OB GYN 665 offered at Madigan Army Medical Center, Tacoma. (Six weeks. Limit: three students). Prerequisite: HUBIO 565.

**OB GYN 668 P-Introduction to Obstetrics and Gynecology - Spokane (12)**
Clerkship equivalent to OB GYN 665 offered in Spokane (WWAMI). Includes experience in several private physicians' offices. (Six weeks. Limit: two students). Prerequisite: HUBIO 565.

**OB GYN 669 P-Introduction to Obstetrics and Gynecology - Swedish (12)**
Clerkship equivalent to OB GYN 665 offered at Swedish Hospital Medical Center. (Six weeks. Limit: one student). Prerequisite: HUBIO 565.

**OB GYN 670 P-Introduction to Obstetrics and Gynecology - GH-Central (12)**
Clerkship equivalent to OB GYN 665 offered at the Central facility of Group Health Cooperative of Puget Sound in Seattle. Students spend time in delivery room, surgery, and clinic, and have a specific preceptor assigned. (Six weeks. Limit: two students). Prerequisite: HUBIO 565.

**OB GYN 671 P-Introduction to Obstetrics and Gynecology - Anchorage (12)**
Clerkship equivalent to OB GYN 665 offered at Anchorage, Alaska (WWAMI). Includes experience in several private physicians' offices as well as Providence Hospital. (Six weeks. Limit: four students). Prerequisite: HUBIO 565.

**OB GYN 672 P-Introduction to Obstetrics and Gynecology - GH-East (12)**
Clerkship equivalent to OB GYN 665 offered at the Eastside facility of Group Health Cooperative of Puget Sound in Redmond. Students spend time in delivery room, surgery, and clinic, and have a specific preceptor assigned. (Six weeks. Limit: one student). Prerequisite: HUBIO 565.
OB GYN 676 P-Introduction to Obstetrics and Gynecology - Missoula (12) Clerkship equivalent to OB GYN 665 offered in Missoula, Montana. Students spend time in delivery room, surgery, and clinic, and have a specific preceptor assigned. (Six weeks. Limit: one student). Prerequisite: HUBIO 565.

OB GYN 677 P-Introduction to Obstetrics and Gynecology - Rock Springs (12) Equivalent of OB GYN 665, offered in Rock Springs, Wyoming. Student rotates among outpatient clinic, labor and delivery, operating suites, and medical/surgical inpatient areas. (Limit: two students.) Offered: AS.

OB GYN 678 P-Introduction to Obstetrics and Gynecology - Billings (*, max. 12) Clerkship equivalent to OB GYN 665 offered in Spokane (WWAMI). Includes experience in several private physicians' offices. (Six weeks. Limit: one student). Prerequisite: HUBIO 565.

OB GYN 679 P-Introduction to Obstetrics and Gynecology - Cheyenne (*, max. 12) Clerkship equivalent to OB GYN 665 offered in Cheyenne, WY. Includes experience in several private physicians' offices. (Six weeks. Limit: one student). Prerequisite: HUBIO 565.

OB GYN 681 P-Gynecological Oncology Subspecialty (8) Experience in reproductive tract malignancy, chemotherapy, and radiation therapy. Student follows selected patients through primary surgery, recovery, and initial adjuvant treatment, as well as continuing treatment in both clinic and inpatient settings. (Limit: two students each four weeks). Prerequisite: basic OB GYN clerkship.

OB GYN 682 P-Antenatal High-Risk Obstetrics (8) Four weeks on high-risk antenatal obstetrics ward and clinic. Students responsible for initial workups, daily laboratory evaluations, continuing care of high-risk antepartum patients. Weekly conference with obstetrics attending; presentation of one or more topics per rotation. Excellent coordination with resident and attending staff required to maintain patient-care continuity. (Limit: two students each four weeks).

OB GYN 683 P-Gynecological Oncology Subspecialty - Boise, ID (4/8, max. 8) Experience in reproductive tract malignancy, chemotherapy, and radiation therapy. Student follows selected patients through primary surgery, recovery, and initial adjuvant treatment, as well as continuing treatment in both clinic and inpatient settings. (Two- and four-week options). Prerequisite: basic OB GYN clerkship. Offered: AWSpS.

OB GYN 685 P-Subspecialty Gynecology - UWMC (8) Specialty areas in gynecology including urogynecology, family planning, adolescent gynecology, and reproductive endocrinology and infertility. Patients in both outpatient and inpatient setting, follow patients to operating room and fully participate in their hospital care. Consult on inpatients and emergency room visits. Exposes interested students to the breadth and depth of benign gynecologic subspecialty areas. (Limit: one student/four weeks.)

OB GYN 687 P-Introduction to Obstetrics and Gynecology - Fairbanks (*, max. 12) Clerkship equivalent to OB GYN 665 offered in Fairbanks, AK. Includes experience in several private physicians' offices. (Six weeks. Limit: one student). Prerequisite: HUBIO 565.

OB GYN 689 P-Introduction to Obstetrics and Gynecology - Havre (*, max. 12) Clerkship equivalent to OB GYN 665 offered in Havre, MT. Includes experience in several private physicians' offices. (Six weeks. Limit: one student). Prerequisite: HUBIO 565.

OB GYN 690 P-Introduction to Obstetrics and Gynecology - Sandpoint (*, max. 12) Clerkship equivalent to OB GYN 665 offered in Sandpoint, ID. Includes experience in several private physicians' offices. (Six weeks. Limit: one student). Prerequisite: HUBIO 565.

OB GYN 691 P-Introduction to Obstetrics and Gynecology - Tacoma (*, max. 12) Clerkship equivalent to OB GYN 665 offered in Tacoma. Includes experience in several private physicians' offices. (Six weeks. Limit: one student). Prerequisite: HUBIO 565.

OB GYN 692 P-Introduction to Obstetrics and Gynecology - Bozeman, MT - Bozeman OB/GYN (*, max. 12) Clerkship equivalent to OB GYN 665 offered Bozeman, MT. Includes experience in several private physician offices. (Six weeks. Limit: one student). Prerequisite: HUBIO 565.

OB GYN 693 P-Introduction to Obstetrics and Gynecology - Valley Medical Center (*, max. 12) Clerkship equivalent to OB GYN 665 offered at Valley Medical Center. Includes experience in several private physicians' offices. (Six weeks. Limit one student). Prerequisite: HUBIO 565.

OB GYN 695 P-Introduction to Obstetrics and Gynecology - Tri Cities (*, max. 12) Clerkship equivalent to OB GYN 665 offered in the Tri Cities. Includes experience in several private physicians' offices. (Six weeks. Limit one student). Prerequisite: HUBIO 565.

OB GYN 697 P-Obstetrics and Gynecology Special Electives (*, max. 24) By arrangement, for qualified students, special clerkship or research opportunities are sometimes made available at other institutions. Prospective students obtain special assignment form one month before preregistration. Department evaluates student performance. Prerequisite: permission of department.

OB GYN 699 P-WWAMI Obstetrics and Gynecology Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located inside the WWAMI region. A special assignment form must be obtained one month in advance of preregistration. Prerequisite: permission of department.
Ophthalmology

Department Overview

RR801 University of Washington Medical Center

The department is responsible for education and instruction in both clinical and research programs in diseases of the eye and visual system.

Medical student education is provided through multiple electives in Seattle and the WWAMI region during the clinical years (usually third and fourth years of medical school). Successful graduates of medical school interested in ophthalmology apply to residency, which includes three years of training beginning in their PGY-2/R-2 year at affiliated hospitals. A PGY-1R-1 year is required prior to ophthalmology residency, (applied for at the same time as ophthalmology residency). After residency, optional programs for further specialized training are available for application at the UW Ophthalmology Department, to include a two-year ophthalmic/plastics and orbit fellowship, a two-year surgical retina fellowship, a one-year uveitis fellowship, a one-year pediatrics fellowship, and a one-year cornea fellowship. Patient care is provided under supervision of faculty physicians at the UW Medical Center, Harborview Medical Center, Veterans' Affairs Medical Center, and Seattle Children's hospital.

Clinical research programs relate to eye diseases. Laboratory research encompasses neurophysiology of vision, morphology of the retina and visual system, corneal wound healing, biochemistry of ocular tissues, and anatomy/physiology of the orbit. Postdoctoral training is offered in all these disciplines.

For more information on residencies and fellowships, contact the department.

Course Descriptions

**OPHTH 499 Undergraduate Research (*, max. 25) Francis** Laboratory or clinical research in morphology, biochemistry, immunology, experimental pathology, or clinical studies of the eye and visual system. Offered: AWSpS.

**OPHTH 501 P-Ophthalmology Preceptorship (1, max. 12)** Individualized experiences with one or more of the full-time faculty members of the department covering research, teaching, and patient care. Student observes activities in the clinic, hospital ward, operating room, and research laboratories. Prerequisite: first- and second-year medical student standing and permission of instructor. Instructors: Francis Offered: AWSpS.

**OPHTH 600 Independent Study or Research (*)** Prerequisite: Permission of instructor.
OPHTH 681 P-Ophthalmology Clerkship - HMC/Eye Institute (4/8, max. 12) Students gain experience in the diagnosis and treatment of common ocular disorders. Basic examination techniques, including tonometry, ophthalmoscopy, and biomicroscopy. Prerequisite: completion of human biology series. Offered: AWSpS.

OPHTH 683 P-Pediatric Ophthalmology Clerkship - Seattle Children's (4) Student examines and observes treatment of children with ocular diseases and learns to differentiate trivial from potentially blinding disorders. Furnishes programmed text in general ophthalmology. Prerequisite: completion of human biology series. Offered: WS.

OPHTH 686 P-Ophthalmology Clerkship - Kaiser Permanente (4) Diagnosis and treatment of ocular disease in outpatients. Weekly assignments to Kaiser Permanente ophthalmologist responsible for the care of walk-in and urgent patients, demonstrating findings pertinent to the future practice of primary-care physicians. Examination techniques, including tonometry, ophthalmoscopy, and biomicroscopy of eye. Prerequisite: completion of human biology series. Offered: AWSpS.

OPHTH 688 P-Ophthalmology Clerkship - Anchorage (4-8) Two or four week externship at Alaska Native Medical Center in Anchorage. Opportunity to learn and practice common eye examination techniques, including slit-lamp biomicroscopy, tonometry, and fundoscopy. Patients seen three days a week; two days spent in the operating room. Prerequisite: completion of human biology series, MED 665, and SURG 665; fourth-year medical students only. Offered: AWSpS.

OPHTH 689 P-Ophthalmology Clerkship - Spokane (4) Diagnosis and management of commonly seen eye diseases. Subspecialty clinics include cornea, retina, glaucoma, contact lenses, and strabismus. Prerequisite: completion of human biology series. Offered: AWSpS.

OPHTH 690 P-Ophthalmology Clerkship - Missoula (4) Diagnosis and management of commonly seen eye diseases. Subspecialty clinics include cornea, retina, glaucoma, contact lenses, and strabismus. Prerequisite: completion of human biology series. Offered: AWSpS.

OPHTH 691 P-Ophthalmology Clerkship - Nampa (4) Diagnosis and management of commonly seen eye diseases. Subspecialty clinics include cornea, retina, neuro-ophthalmology, glaucoma, contact lenses, and strabismus. Prerequisite: completion of human biology series. Offered: AWSpS.

OPHTH 692 P - Ophthalmology Clerkship - Bozeman (4) Diagnosis and management of commonly seen eye diseases. Subspecialty clinics include cornea, retina, glaucoma, contact lenses, and strabismus. Offered: AWSpS.
OPHTH 695 P-Ophthalmology Advanced Clerkship - HMC (4) Students gain advanced experience in the diagnosis, evaluation, and treatment of inpatient and emergency department ophthalmology consults, including emergency surgeries. Prerequisite: completion of human biology series; prior ophthalmology clerkship. Offered: AWSpS.

OPHTH 697 P-Ophthalmology Special Electives (*, max. 24) By specific arrangement, for qualified students, special clerkship, externship, or research opportunities are at times made available at institutions or clinics other than the UW. Prospective students obtain from the dean's office a special assignment form at least one month before preregistration. Prerequisite: permission of instructor. Instructors: Francis Offered: AWSpS.

OPHTH 699 P-WWAMI Ophthalmology Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department. Offered: AWSpS.
Orthopaedics

Department Overview

BB1043 University of Washington Medical Center

The department is actively involved in quality patient care, teaching, and research concerning bone and joint problems. Special areas of expertise include foot and ankle, hand and microvascular, hip and knee, arthritis, sports medicine, pediatric orthopaedics, shoulder and elbow, spine, trauma, and tumors.

In addition to providing instruction for medical students, the department provides education at the graduate, residency, and post-residency levels. Selected medical students may elect research experience in the department. A fully approved residency offers opportunities to carry out fundamental and clinical research. Residents may work toward the master of science degree by meeting the requirements of the Graduate School and the academic unit offering the degree program.

Course Descriptions

**ORTH 498 Undergraduate Thesis (\*, max. 30)** Eyre Student works directly with a preceptor in selecting a suitable area for laboratory or clinical research in the area of orthopaedics, and develops a thesis for recognition. Offered: AWSpS.

**ORTH 499 Undergraduate Research (\*, max. 90)** Eyre Investigation of pertinent musculoskeletal problems in the orthopaedic laboratories as part of the research group. Offered: AWSpS.

**ORTH 505 P-Preceptorship in Orthopaedic Surgery (1, max. 12)** Opportunity for first- and second-year medical students to gain experience with clinical faculty members in the community. Students observe general aspects of private practice from a longitudinal perspective. Prerequisite: permission of department. Offered: AWSpS.

**ORTH 585 P-Sports Medicine (2)** Lectures, patient problem presentations, and seminar discussions to explore impact of exercise and sport participation on various body systems. Includes nutritional concerns, biomechanics of certain sports injuries, and cardiovascular, pulmonary, and musculoskeletal concerns. Prerequisite: second-year medical student standing. Instructors: O’ Kane Offered: Sp.

**ORTH 643 P-General Orthopedic Clerkship - Cody, WY (8)** Provides a basic education in the fundamentals of musculoskeletal system. Heavy emphasis placed on the reconstructive alternatives in the treatment of degenerative joint diseases. Prerequisite: HUBIO series; third- and fourth-year medical students.
ORTHP 644 P-General Orthopaedic Clerkship - Jackson (*, max. 8) Provides a basic education in the fundamentals of the musculoskeletal system. Heavy emphasis is placed on the reconstructive alternatives in the treatment of degenerative joint diseases. Prerequisite: completion of HUBIO series; third- and fourth-year students. Enrollment limited to three a year. Instructors: Khoury Offered: AWSpS.

ORTHP 650 P-General Orthopaedic Clerkship - Billings (*, max. 8) Provides a basic education in the fundamentals of the musculoskeletal system. Emphasizes reconstructive alternatives in the treatment of degenerative joint diseases. Prerequisite: completion of HUBIO series; third- and fourth-year students. Enrollment limited to three a year. Instructors: Shenton Offered: AWSpS.

ORTHP 655 P-General Orthopaedic Clerkship - Boise (*, max. 8) Provides a basic education in the fundamentals of the musculoskeletal system. Emphasizes reconstructive alternative in the treatment of degenerative joint diseases. Prerequisite: completion of HUBIO series; third- and fourth-year students. Instructors: Scheffel

ORTHP 662 P-General Orthopaedic Surgery-Casper, WY (8) Provides a basic education in the fundamentals of the musculoskeletal system. Heavy emphasis is placed on the reconstructive alternatives in the treatment of degenerative joint diseases. Prerequisite: Third or fourth year medical student.

ORTHP 668 P-Pediatric Orthopaedics - Spokane (*, max. 8) Acquaints students with all aspects of musculoskeletal problems in childhood. Includes didactic conferences and seminars, and opportunities for active participation in both inpatient and outpatient care at Shriners Hospital for Children in Spokane. (Four weeks, full-time). Prerequisite: SURG 665 or HUBIO 553. Instructors: Caskey Offered: AWSpS.

ORTHP 669 P-General Orthopaedic Clerkship - Spokane (*, max. 8) Provides a basic education in the fundamentals of musculoskeletal system. Heavy emphasis placed on the reconstructive alternatives in the treatment of degenerative joint diseases. Prerequisite: HUBIO series; third- and fourth-year medical students. Instructors: Scott Offered: AWSpS.

ORTHP 675 P-Preceptorship in Orthopaedics (*, max. 4) Student spends full time with the preceptor during all his or her working day in order to gain a better understanding of the diagnosis and the management of problems of the musculoskeletal system as seen in the private orthopaedic practice. (Two weeks, full-time). Prerequisite: SURG 665 or HUBIO 553 and permission of department. Offered: AWSpS.

ORTHP 676 P-Pediatric Orthopaedics - Seattle Children's (*, max. 8) Acquaints students with all aspects of musculoskeletal problems in childhood. Didactic conferences and seminars, and opportunities for active participation in both inpatient and outpatient care at Seattle Children's Hospital, and correlative anatomy and pathology. (Four weeks, full-time). Prerequisite: SURG 665 or HUBIO 553. Instructors: Burton, Dales, Jinguji, Krengel, Lindberg, Mosca, Schmale, Steinman, White Offered: AWSpS.
ORTH P 677 P-Musculoskeletal Trauma (*, max. 8) Harborview Medical Center. Emergency room, wards, operating room, and outpatient clinics. Instruction in general and special clinics, including hand, hip, foot, and fracture, with emphasis placed on physical examination of the patient. Students take correlative anatomy and pathology. (Four weeks, full-time). Prerequisite: SURG 665, HUBIO 553. Instructors: Barei, Beingessner, Bellabarba, Bransford, Dunbar, Firoozabadi, Henley, Klewenoe, Nork, Taitsman Offered: AWSpS.

ORTH P 678 P-Musculoskeletal Oncology (8/12) In-depth experience on musculoskeletal oncology service with primary involvement in initial evaluation, staging, treatment, and postoperative follow-up of patients with various musculoskeletal malignancies. Elective involves experience in surgical, oncologic, radiologic, and pathologic principles of managing sarcomas. Prerequisite: basic orthopaedic elective or permission of instructor. Instructors: Conrad, Davidson Offered: AWSpS.

ORTH P 680 P-General Orthopaedic Clerkship - VAMC (*, max. 8) Veterans' Administration Hospital: structured to provide a basic education in the fundamentals of the musculoskeletal system. Heavy emphasis is placed on the reconstructive alternatives in the treatment of degenerative joint diseases. Prerequisite: completion of HUBIO series; third- and fourth-year students. Enrollment limited to three. Instructors: Chansky Offered: AWSpS.

ORTH P 681 P-Sports Medicine Orthopaedic Clerkship (8) Orthopaedic subspecialty clerkship at University of Washington Medical Center. Preceptor-based outpatient, inpatient, emergency, or operative orthopaedic care. Students work primarily in one subspecialty area and in one general orthopaedic clinic. For students who plan careers in orthopaedic surgery. Prerequisite: completion of HUBIO series, third- and fourth-year medical students. Instructors: Green, Larson, O' Kane, Twaddle Offered: AWSpS.

ORTH P 682 P-Outpatient Orthopaedics (8) Outpatient orthopaedic experience at University of Washington Medical Center. Emphasis on physical exam, diagnosis, radiographic evaluation, and non-operative treatment. Rotation through general orthopaedics as well as all subspecialty areas. For students who plan careers in primary care. Prerequisite: completion of HUBIO series. Instructors: Conrad, Davidson, Manner, Matsen, Wagner, Warme Offered: AWSpS.

ORTH P 684 P-Disorders of the Spine (8) Evaluation and assessment strategies of spinal disorders for patients of all ages and wide variety of clinical conditions including trauma, deformity, degenerative disorders, metabolic, and inflammatory diagnoses. Outpatient, surgical, and conference-based teaching sessions aimed at all experience levels and individualized for practitioners with interest in medical specialties, emergent care, radiology, physiatry, intervention pain management. Offered: AWSpS.

ORTH P 685 P-Adult Reconstruction: Total Joint Service (8) Manner Preceptor-based outpatient, inpatient, emergency, and operative orthopaedic care. Students work with faculty in the Total Joint Service which specializes in lower extremity adult reconstructive surgery, including: complex primary hip/knee arthroplasty; less invasive approaches to hip/knee arthroplasty; revision hip/knee arthroplasty; periacetabular and proximal femoral osteotomy; osteotomy about the knee; and hip arthroscopy. Offered: AWSpS.
ORTHP 686 P-Sports Medicine - Boise, ID (*, max. 8) * SCHMALE Orthopaedic clinical clerkship in Boise, ID. Preceptor-based outpatient, inpatient, emergency, or operative orthopaedic care focused on the treatment and rehabilitation of foot and ankle injuries. Students work primarily in one subspecialty area (foot and ankle) and in one general orthopaedic clinic. For students who plan careers in orthopaedic surgery. Prerequisite: completion of HUBIO series, third- and fourth-year medical students. Offered: AWSpS.

ORTHP 687 P-Shoulder and Elbow (8) * Matsen, Warne Preceptor-based outpatient, inpatient, emergency, and operative orthopaedic care. Work with the faculty in the Shoulder and Elbow Service, which provides comprehensive evaluation and management for a wide range of shoulder and elbow problems, including: arthritis, dislocation or instability, fractures, rotator cuff/tendon tears, joint stiffness, and unsuccessful previous surgery. Offered: AWSpS.

ORTHP 688 P-Sports Medicine - Spokane, WA (8) Orthopedic clinical clerkship in sports medicine. Students participate in care of patients with sports-related injuries. Emphasis on physical examination and determining appropriate operative interventions and rehabilitation. Offered: AWSpS.

ORTHP 697 P-Orthopaedic External Elective (*, max. 24) Special arrangements can be made for students desiring to take orthopaedic electives at other institutions. Programs generally approved include orthopaedic clerkships at other universities or at large orthopaedic institutes. Prerequisite: HUBIO 553 and permission of department. Offered: AWSpS.

ORTHP 699 P-WWAMI Orthopedics Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.
Otolaryngology – Head and Neck Surgery

Department Overview

BB1165 University of Washington Medical Center

The department provides clinical care for patients with a broad spectrum of disorders affecting the head and neck region, including the ears, nose, and throat. A major departmental effort is directed toward basic research in the areas of sensorineural hearing disorders, physiology of the larynx, and cancer treatment and rehabilitation. The department supports a number of research fellows and advanced degree candidates, and is responsible for a four-year residency program and for the training of medical students in subjects relevant to the specialty.

Course Descriptions

OTOHN 498 Undergraduate Thesis (*, max. 35) Student works directly with department faculty in selecting a suitable area for laboratory or clinical research in the area of otolaryngology, and develops a thesis for recognition. Offered: AWSpS.

OTOHN 499 Undergraduate Research (*, max. 35) Research opportunities offered under direction in the area of otolaryngology. ( Twelve weeks.) Offered: AWSpS.

OTOHN 501 P-Preceptorship in Otolaryngology - Head and Neck Surgery (1, max. 12) One morning a week for a total of 30 hours per quarter spent observing patient care in either inpatient or outpatient settings at the University of Washington Medical Center; associated readings. Prerequisite: first- or second-year medical student standing. Coordinator: OTOHNS office. Offered: AWSpS.

OTOHN 679 P-Otolaryngology - Head and Neck Surgery Clerkship - Missoula (4/8, max. 24) M. Whipple Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Students see patients in clinic, join inpatient rounds, have an opportunity to go to operating room. Prerequisite: human biology series. Offered: AWSpS.

OTOHN 680 P-Otolaryngology - Head and Neck Surgery Clerkship - UWMC (4/8, max. 24) Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, have an opportunity to go to operating room. Rotation at UWMC. Prerequisite: human biology series. Offered: AWSpS.

OTOHN 681 P-Otolaryngology - Head and Neck Surgery Clerkship - HMC (4/8, max. 24) Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join impatient
OTOHN 682 P-Otolaryngology - Head and Neck Surgery Clerkship - VA (4/8, max. 24)
Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, and have an opportunity to go to the operating room. Prerequisite: human biology series. Offered: AWSpS.

OTOHN 683 P-Otolaryngology - Head and Neck Surgery Clerkship - Madigan (*, max. 8)
Individual externship training at an outpatient clinic, where visits average twelve hundred per month, supplemented by inpatient assignments. Students may reside at the hospital during externship, using facilities of bachelor officer quarters and hospital mess. (Two or four weeks, full-time). Prerequisite: completion of human biology series. Instructors: (Madigan Army Medical Center) Offered: AWSpS.

OTOHN 684 P-Otolaryngology - Head and Neck Surgery Clerkship - Seattle Children's (4/8, max. 24) Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, have an opportunity to go to operating room. Prerequisite: human biology series. Offered: AWSpS.

OTOHN 685 P-Otolaryngology - Head and Neck Surgery Clerkship - Boise (4/8, max. 24)
Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, have an opportunity to go to operating room. Prerequisite: human biology series. Offered: AWSpS.

OTOHN 686 P-Otolaryngology - Head and Neck Surgery Clerkship - Greater Seattle Private Practice (4) Provides exposure to all aspects of patient care through a private practice setting. The student is exposed to the outpatient clinic and operating room procedures with daily directed contact with one attending faculty member. Contact administrator to arrange rotation. Prerequisite: permission of course director. Offered: AWSpS.

OTOHN 687 P-Otolaryngology - Head and Neck Surgery Clerkship - Spokane (4/8, max. 24) Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, and have an opportunity to go to the operating room. Prerequisite: human biology series. Offered: AWSpS.

OTOHN 688 P-Otolaryngology - Head and Neck Surgery Clerkship - Anchorage (4/8, max. 24) Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, and have an opportunity to go to the operating room. Prerequisite: human biology series. Offered: AWSpS.
OTOHN 689 P-Otolaryngology - Head and Neck Surgery Clerkship - Laramie (4/8, max. 24)  
*P. Johnson*  
Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, have an opportunity to go to operating room. Prerequisite: Human biology series. Offered: AWSpS.

OTOHN 697 P-Otolaryngology - Head and Neck Surgery - Away Externship (*, max. 8)  
By specific arrangement. Special clerkship, externship, or research opportunities are at times made available at institutions other than the University of Washington. Prospective students obtain a special assignment form from the dean's office at least one month before preregistration. Prerequisite: permission of clerkship director. Instructors: Fultran Offered: AWSpS.

OTOHN 699 P-Otolaryngology - Head and Neck Surgery Clerkship - WWAMI (4/8, max. 8)  
By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department. Offered: AWSpS.
Pathology

Department Overview

C516 Health Sciences

Pathology, the study of disease: its causes, mechanisms, and effects on the body, is both a basic biological science and a specialty of medicine. As a medical specialty, practiced by MDs, it includes the laboratory evaluation of organs, tissues, and fluids to assist other physicians in reaching a diagnosis. As a basic science, practiced by PhDs, pathology focuses on the experimental investigation of the molecular processes of disease, using techniques of cell and organ culture, biochemistry, molecular biology, and genetics.

The department offers graduate training in experimental pathology, with emphasis on the cellular and molecular biological basis of disease. The program trains individuals for careers as practicing scientists in biomedical research, investigating basic disease mechanisms. Emphasis is on developing skills in hypothesis generation and testing, including the design, accomplishment, and critical interpretation of experiments. Experimental pathology uses the full range of biomedical research techniques (including biochemistry, molecular biology, cell biology, animal modeling) to elucidate the mechanisms underlying human disease. Graduates usually continue research careers at biotechnology companies or universities/research institutes.

Graduate Program

Graduate Program Adviser
C516 Health Sciences, Box 357470
206-616-7551

Doctor of Philosophy

Admission Requirements

1. Copy of the Graduate School Application
2. Official transcripts
3. Official GRE scores. Subject test in biology or related area recommended.
4. Statement of purpose and research interests
5. Three or more letters of recommendation
6. Personal statement that addresses the relationship between personal background and aspirations
**Special Requirements**

Undergraduate courses in the sciences. Acceptable scores on the GRE, including advanced biology or chemistry. Some experience in a research laboratory strongly recommended. Those wishing to matriculate toward both the MD and PhD degrees must gain admission to both the Graduate School and the School of Medicine.

**Degree Requirements**

90 credits

1. *Required coursework:* PATH 500, PATH 501, PATH 507, PATH 512), PATH 513, PATH 515, PATH 516, PATH 551; BIOST 511; CONJ 538, CONJ 539

2. *Research before the general examination:* PATH 600

3. *Research after the general examination:* PATH 800

4. *Recommended courses:* CONJ 531, CONJ 532

5. *General examination*

6. *Dissertation*

7. *Final examination*

**Financial Aid**

Funding is provided from departmental and University funds, training grants, a variety of institutional fellowships, and research grants of individual faculty members.

**Research Facilities**

The department emphasizes the cellular and molecular approach to the investigation of the pathogenesis of disease in mammalian species. Special facilities exist for training in electron microscopy; cell, tissue, and organ culture; recombinant DNA techniques; histochemistry and cytochemistry; analytical biochemistry; immunology; and molecular and cell biology.

**Residency Training Program**

The department supervises a residency-training program in anatomic pathology and, jointly with the Department of Laboratory Medicine, in clinical pathology for qualified medical doctors. Subspecialty training is also available through clinical fellowships. Persons who complete the residency program are eligible for certification by the American Board of Pathology. For additional information, contact the Resident Program Director, Department of Pathology, Box 356100, or visit the residency program [website](#).

**Course Descriptions**

PATH 498 Undergraduate Thesis (*, max. 35) Elective.
PATH 499 Undergraduate Research (*, max. 35) Elective.

PATH 501 Pathology Proseminars (1, max. 9) Small group discussions and presentations by students based on critical reading of original papers, or on concurrent seminars, in many areas of experimental pathology and medicine. Topic varies by quarter. Prerequisite: permission of instructor. Offered: AWSpS.

PATH 502 Inflammation and Repair (2) Lecture-seminar; a seminar course dealing with an in-depth examination of the processes involved in inflammation and repair. Prerequisite: permission of instructor. Credit/no-credit only. Offered: even years.

PATH 507 Introduction to Pathology Research (2) Current developments and approaches to investigation of the molecular and cellular basis of disease. Members of the Pathology faculty present and discuss their own research projects. Prerequisite: permission of instructor. Credit/no-credit only. Offered: A.

PATH 510 Introduction to Pathology Methods (3) Laboratory course designed to introduce graduate students to the fundamentals of image analysis, histology, histopathology, post mortem evaluation, surgical pathology, and other methods used to investigate disease etiology, progression, and manifestation in humans and in animal models. Prerequisite: permission of instructor. Credit/no-credit only. Offered: A.

PATH 511 Topics in Experimental Pathology (1-2, max. 10) Focus on areas of research relevant to experimental pathology. Prerequisite: permission of instructor. Offered: AWSpS.

PATH 512 Molecular Basis of Disease: Death and Repair (1.5) First in a series designed to introduce students to medically important diseases and physiologic processes and experimental approaches to elucidating the cellular processes underlying these diseases. Covers basic cell/tissue processes that underlie normal homeostasis and most disease and, including apoptosis, necrosis, stem cells, inflammation, granulation tissue, tissue regeneration, repair and fibrosis.

PATH 513 Mechanisms of Neurodegeneration (1.5) Introduction to the cellular and molecular mechanisms that underlie neurodegenerative diseases, including introduction to the normal development and anatomy of the central nervous system, a review of epidemiologic, genetic, and clinical research tools used in the investigation of these diseases, and a systematic review of the major neurodegenerative diseases.

PATH 516 Molecular Basis of Human Genetic Disease (3) Introduces the underlying mechanisms in human genetic disorders, ranging from the single nucleotide, through genomic instability, and chromosomal rearrangements. Includes tissue and organ specific examples of the manner in which these disorders provide insights into human biology. Offered: Sp.

PATH 517 The Biology and Pathology of Aging (3/4) M. KAEBERLEIN Surveys the biology and pathologies of the aging phenomena in multiple species and at multiple organismal levels from whole animals to molecules. Prerequisite: coursework in biology, biochemistry, molecular biology, and genetics. Offered: Sp.
PATH 520 Experimental Pathology Seminar (1) Review of current research in various areas of experimental pathology by members of the department and visiting scientists. Credit/no-credit only. Offered: AWSp.

PATH 521 Anatomy and Autopsy (1) Students view an autopsy, and learn how autopsy can diagnose disease, determine cause of death, and improve patient care. Requirements include orientation session, autopsy, and a clinical-autopsy conference. Participants must be free at least one morning per week to attend an autopsy at UWMC. Prerequisite: UW medical students only. Instructors: Fligner Offered: WSp.

PATH 522 Hematopathology Seminar (2) Wood Identification of normal lymphocyte and bone marrow subpopulations, diagnosis of leukemias, lymphomas, and benign conditions that resemble them. Emphasis on histopathology, cytochemical, immunological, and molecular markers. Clinicopathologic correlation. Offered: jointly with LAB M 522; W, even years.

PATH 535 Innate Immunity and Immunopathology (1.5) I. CRISPE, K. SMITH Explores the relationship between the innate immune system and disease processes, using a student-led seminar format. Students analyze, present, and critique primary research literature, and use the knowledge gained to develop a sophisticated insight into the mechanisms of immunopathology. Offered: Sp.

PATH 540 Translational Research Topics (1) Horwitz First and second year students in the M.D./Ph.D. program present and discuss current papers from the biomedical literature in journal club format, and describe their own research in seminar format. Credit/no-credit only. Offered: AWSp.

PATH 544 General and Systemic Pathology ([2-3]-, max. 5) W. MAHONEY Basic pathologic processes that underlie disease, including cell alterations, genetic and developmental pathology, environmental pathology, neoplasia, immunopathology, inflammation, infection, and systemic diseases. Correlates gross, functional, and biochemical alterations. For first-year dental students and graduate students. Requires reasonable grounding in biological and chemical sciences. Prerequisite: for nondental students: permission of instructor.

PATH 550 Mechanisms of Disease (3) Conrad-Liles, Rendi Examines the mechanisms of inflammation, cell injury, death, repair, immunity, and neoplasia as well as diseases of various organ systems. Systems covered include the cardiovascular, pulmonary, gastrointestinal, neurologic, endocrine, and genitourinary/renal systems. Topics presented through lecture, primary literature, and small-group discussion. Offered: A.

PATH 551 Experimental and Molecular Pathology (2-5, max. 20) Introduction to experimental pathology. A tutorial course designed to introduce a graduate student (medical,
dental) or senior undergraduate to selected methods and problems through literature surveys and/or laboratory experience. Exploration of causes at the cellular and molecular levels in the study of disease is emphasized. Prerequisite: Pathology PhD student; permission of instructor. Credit/no-credit only. Offered: AWSp.

PATH 555 Environmental Pathology (3) Modern morphologic, cell biological, and molecular approaches to environmental disease associated with exposure/predisposition. Lectures, seminar discussion, and student presentations. Prerequisite: PATH 410 or PATH 444 or HUBIO 520. Instructors: Monnat Offered: Sp, even years.

PATH 560 Molecular Analysis of Human Disease (*, max. 10) Review and discussion of contemporary research on molecular basis of human disease. Focus on mutational mechanisms, genetic instability, AIDS, and cancer. Students participate in weekly group discussion and work with faculty to select, develop, and present discussion topic. Prerequisite: medical, graduate, or professional standing and permission of instructor. Credit/no-credit only. Offered: AWSp.

PATH 580 Mitochondria and Metabolism in the Pathogenesis of Human Disease (1.5) Hawkins, Tian Explores the fundamentals of mitochondrial biology, bioenergetics, and cellular metabolism. Includes topical lectures and literature reviews introducing students to advanced metabolic concepts within the context of human disease. Offered: A.

PATH 590 Patient-Centered Translational Research (1) Horwitz MSTP students preparing to return to clerkships are partnered with a senior MD/PhD medical student or house office, preview the medical or surgical ward team environment, select a patient-focused translation research topic based on their clinical experience, and prepare a plan for refreshing introductory clinical skills. Offered: WSp.

PATH 600 Independent Study or Research (*-) Prerequisite: Pathology PhD student. Credit/no-credit only. Offered: AWSpS.

PATH 667 P-Renal Pathology Laboratory (*, max. 6) Laboratory elective for third- and fourth-year medical students. Read current literature, review various renal biopsies and urine sediments, and read standard texts prior to a weekly topic-oriented conference. All students earn 1 credit for one-hour seminar per week. May be taken concurrently with MED 693. Prerequisite: permission of instructor.

PATH 675 P-Diagnostic Pathology Clerkship - Missoula (4, max. 24) Medical student participation in microscopic examination, laboratory specimen processing and on occasion aid surgeons, endoscopists or radiologists with immediate evaluation of specimens.

PATH 676 P-Diagnostic Pathology Clerkship - Spokane (*, max. 24) Medical student participation in dissection and study of autopsy and surgical pathology cases at Sacred Heart Medical Center in Spokane. Can be taken for either two or four weeks.
PATH 677 P-Neuropathology Clerkship - HMC (*, max. 16) Includes participation in dissection and study of neuropathology cases. Students work up cases under senior staff including dissection, microscopic examination, and literature review.

PATH 678 P-Diagnostic Pathology Clerkship - Medical Examiner's Office, Alaska (*, max. 24) Medical student participation in dissection and study of autopsy and forensic pathology cases at the Anchorage Medical Examiner's Office.

PATH 680 P-Diagnostic Pathology Clerkship - University of Washington Medical Center (*, max. 24) Medical student participation in dissection and study of autopsy and surgical pathology cases. Cases worked up under senior staff, including dissection, microscopic examination, and literature review. Attendance at pathology conferences and seminars expected. Prerequisite: third- or fourth-year medical student standing. Instructors: Swanson

PATH 681 P-Diagnostic Pathology Clerkship - Harborview Medical Center (*, max. 24)

PATH 682 P-Diagnostic Pathology Clerkship - Veterans' Administration Hospital (*, max. 24)

PATH 683 P-Diagnostic Pathology Clerkship - Medical Examiner's Office (*, max. 24) Raven

PATH 688 P-Diagnostic Pathology Clerkship - Madigan Army Medical Center (*, max. 24)

PATH 690 P-Diagnostic Pathology Clerkship - Northwest Medical Center (*, max. 24)

PATH 691 P-Diagnostic Pathology Clerkship - General Hospital of Everett (*, max. 24)

PATH 697 P-Pathology Special Electives (*, max. 24) By specific arrangement, students have clerkships, externships, or research opportunities at institutions other than the University of Washington. Prospective students obtain special assignment forms from the dean's office at least one month before advance registration. Prerequisite: permission of instructor.

PATH 699 P-WWAMI Pathology Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions, other than the University of Washington, located within the WWAMI region. Prerequisite: permission of department.

PATH 700 Master's Thesis (*)

PATH 800 Doctoral Dissertation (*)- Prerequisite: Pathology PhD student. Offered: AWSpS.
Pediatrics

Department Overview

RR314 Health Sciences

Pediatrics involves the study of physical and behavioral development of humans, in health and disease, from conception to adulthood.

Instruction is provided through conjoint courses, lectures, conferences, clerkships, and electives. Faculty members participate in teaching the basic curriculum and offer 20 electives, in addition to the general pediatrics clerkship at multiple WWAMI sites. A residency program is offered with a wide variety of electives as well as the traditional hospital-inpatient and clinic experience. Postdoctoral fellowship training is available in many subspecialty areas of pediatrics. The major teaching hospitals in Seattle are Seattle Children's hospital, University of Washington Medical Center, and Harborview Medical Center.

Course Descriptions

PEDS 498 Undergraduate Thesis (*, max. 35) For medical students. Offered: AWSpS.

PEDS 499 Undergraduate Research (*, max. 35) Participation in various clinical or basic research programs in progress, specifically: child development, developmental biology, human embryology and teratology, medical genetics, infectious diseases, neonatology, neuroembryology, cardiology, endocrinology and metabolism, immunology, respiratory disease. Offered: AWSpS.

PEDS 505 P-Preceptorship in Pediatrics (1, max. 12) To provide opportunity for first- and second-year medical students to gain personal experience with medical practice situations for pediatricians by being stationed with carefully selected clinical faculty members in their offices. Enrollment limited. Coordinator: Department of Pediatrics. Credit/no-credit only. Offered: AWSpS.

PEDS 513 Scientific Investigation in Pediatric Medicine (1) Faculty Investigators in the Department of Pediatrics will lecture on the general biology of their research area and its relevance to understanding pediatric disease and developing therapies. Given the varied nature of research represented in the Department of Pediatrics, the course will be wide-ranging and include basic science and clinical/translational approaches. Each participating investigator will give one 1-hour presentation. Offered: AWSp.

PEDS 530 P-Homeless Youth and Their Medical Care (1) Seminar and interview practice; students learn how to deal with special health problems and other related problems of "street kids" through interviews and observations. Credit/no-credit only. Offered: W.
PEDS 598 P-Pediatrics Independent Study and Remediation (*, max. 8) Designed for medical students required to complete additional study related to the required Pediatrics Clerkship offered during the patient care phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: department permission. Offered: AWSpS.

PEDS 600 Independent Study or Research (*) Facilitates and promotes mentored independent study/scholarship related to the care of children. Students participate in projects that promote individual, self-directed and creative scholarly activity with appropriate supervision, oversight, and mentorship with an emphasis on the process of scholarship.

PEDS 611 P-Country Doctor Free Teen Clinic (*, max. 24) Participation in a free clinic for out-of-home youth, either Monday or Tuesday evenings. Clinical services include general medical care, with a focus on reproductive health, STD evaluations/treatment, and the impact of a homeless lifestyle on general health. (Limit per rotation: two students.) Offered: AWSpS.

PEDS 612 Pediatric Intensive Care - HMC (8) Elective in Pediatric Intensive Care at Harborview Medical Center. Open to Explore and Focus medical students who have completed their Core Pediatrics Rotation. Students will be expected to manage patients with the supervision of the Pediatric Critical Care attending or fellow. Students will have the opportunity to manage patients with complex multisystem disease and learn key elements of acute resuscitation in the intensive care setting. Prerequisite: Explore and Focus standing, completion of Core Pediatrics Rotation. Offered: AWSpS.

PEDS 613 Pediatric Gastroenterology (8) Fourth-year medical students will see clinical pediatric gastrointestinal problems under close faculty supervision. They will participate in inpatient gastroenterology consultations, outpatient clinic evaluations for new and follow-up patients, and (observe) endoscopic and therapeutic gastrointestinal procedures. Prerequisite: Completion of Peds, IM and Surgery required clerkships. Offered: AWSpS.

PEDS 619 P-Introduction to Care of the Newborn Infant (4) 2-week clinical elective at Overlake Hospital. Students participate in the women's and baby follow-up clinic and neonatal nutrition clinic. Students attend rounds in the neonatal ICU, attend deliveries and participate as able in delivery room resuscitations. Offered: AWSpS.

PEDS 622 P-Pediatric Child Abuse and Neglect - Boise (4/8, max. 24) Exposes future clinicians to the most common issues relating to child abuse and neglect. Prerequisite: fourth-year medical students; core pediatrics rotation. (Limit: one student; by departmental permission). Offered: AWSpS.

PEDS 623 P-Pediatrics Child Abuse - Spokane, WA (4-8, max. 8) Exposes future clinicians to the most common issues relating to child abuse and neglect. (Limit: one student). Prerequisite: fourth-year medical students who have completed their core pediatrics rotation; permission of department. Offered: AWSpS.
PEDS 624 Pediatric Emergency Medicine - Spokane (8) Students manage patients with the supervision of a Pediatric Emergency Medicine attending or fellow. Includes the opportunity to manage patients with a wide spectrum of disease processes as well as learn key emergency medicine procedural skills. Prerequisite: PEDS core clerkship; by departmental permission. Offered: AWSpS.

PEDS 625 Pediatric Emergency Medicine (8) Elective in Pediatric Emergency Department at Seattle Children's Hospital. Students manage patients with the supervision of a Pediatric Emergency Medicine attending or fellow. Includes the opportunity to manage patients with a wide spectrum of disease processes as well as learn key emergency medicine procedural skills. Prerequisite: fourth-year medical students. Offered: AWSpS.

PEDS 628 P-Pediatric Allergy and Immunology - Missoula (*, max. 24) The clinic involves seeing patients with allergy asthma and immunology disorders, such as seasonal allergies, allergic rashes, asthma, chronic cough, chronic sinusitis, contact dermatitis, bee sting allergy, food allergies and more. Focus on obtaining a detailed history, physical exam and formulating a personalized management plan for patients. Training and interpretation of major procedures - allergen skin, patch and pulmonary function testing. Prerequisite: PEDS core clerkship; departmental permission Offered: AWSpS.

PEDS 629 P-Neonatal Pediatrics- Missoula, MT (1-24, max. 24) Participation in the activities in the newborn and premature divisions; ward rounds, seminars, conferences, and familiarization with certain laboratory techniques, particularly those relating to acid-base balance. Offered: AWSpS.

PEDS 630 P-WRITE Pediatrics Clinical Clerkship (*, max. 24) Basic clinical clerkship for students enrolled in the WRITE Program. Prerequisite: PEDS 665 , impatient only; acceptance in the WRITE program.

PEDS 631 P-LIC Pediatrics Clinical Clerkship (12) Basic clinical clerkship for students enrolled in the LIC program. Prerequisite: acceptance into LIC program.

PEDS 635 P-Pediatric Cardiology - Boise, ID (*, max. 24) Emphasis on physical diagnosis and electrocardiography and on clinical knowledge of diagnostic techniques and surgical possibilities for inpatients and outpatients with cardiovascular problems. Opportunity to observe catheterizations and cardiovascular operations. Weekly clinics and twice-daily inpatient rounds. (Limit per rotation: one student; by departmental permission). Offered: AWSpS.

PEDS 636 P-Pediatric Cardiology - Spokane (*, max. 24) Elective rotation with an emphasis on physical diagnosis, electrocardiography, clinical knowledge of diagnostic techniques and surgical possibilities for inpatients and outpatients with cardiovascular problems. Opportunity to observe catheterizations and cardiovascular operations. Weekly clinics and twice-daily inpatient rounds. (Limit per rotation: one student.) Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.
PEDS 637 P-Pediatric Cardiology - Anchorage (*, max. 24) Elective rotation with an emphasis on physical diagnosis, electrocardiography, clinical knowledge of diagnostic techniques and surgical possibilities for inpatients and outpatients with cardiovascular problems. Opportunity to observe catheterizations and cardiovascular operations. Weekly clinics and twice-daily inpatient rounds. (Limit per rotation: one student.) Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

PEDS 638 P-Pediatric Cardiology - Missoula (4, max. 24) Elective rotation with an emphasis on physical diagnosis, electrocardiography, clinical knowledge of diagnostic techniques and surgical possibilities for inpatients and outpatients with cardiovascular problems. Opportunity to observe catheterizations and cardiovascular operations. Weekly clinics and twice-daily inpatient rounds. (Limit per rotation: one student.) Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

PEDS 640 P-Pediatric Gastroenterology - Boise (4/8, max. 24) Elective rotation where students see clinical pediatric gastrointestinal problems, participate in inpatient gastroenterology consultations, outpatient clinic evaluations for new and follow-up patients, and (observe) endoscopic and therapeutic gastrointestinal procedures. (Limit: one student). Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

PEDS 645 Pediatric General Clerkship - Kalispell (12) General introductory pediatric clerkship. One half in hospital setting; one half in outpatient department, clinic, or private office. Open to all third and fourth year student. Offered: AWSpS.

PEDS 647 P-Pediatric General Clerkship- Lewiston, ID (12, max. 24) General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department or clinic. Open to all third- and fourth-year medical students. (Six weeks, full time) Offered: AWSpS.

PEDS 648 Pediatric General Clerkship - Everett, WA (12) General introductory pediatric clerkship. One half in hospital setting; one half in outpatient department, clinic, or private office. Open to all third- and fourth year students. (Six weeks, full-time. Limit per rotation: one student). Prerequisite: HUBIO 563. Offered: AWSpS.

PEDS 649 P-Pediatric General Clerkship - Centralia/Olympia, WA (12) General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department or clinic. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: two students). Prerequisite: HUBIO 563. Offered: AWSpS.

PEDS 650 P-Pediatric General Clerkship - Moses Lake, WA (12) General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department or clinic. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: two students). Prerequisite: HUBIO 563. Offered: AWSpS.

PEDS 651 P-Pediatric General Clerkship - Bozeman, MT (12, max. 24) General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department or clinic. Open
to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: two
students). Prerequisite: HUBIO 563. Offered: AWSpS.

PEDS 652 P-Pediatric General Clerkship - Idaho Falls, ID (*, max. 24) General introductory
pediatric clerkship. One-half in hospital setting; one-half in outpatient department or clinic. Open
to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: two
students). Prerequisite: HUBIO 563. Offered: AWSpS.

PEDS 653 P-Pediatric General Clerkship - Helena, MT (*, max. 24) General introductory
impatient and outpatient pediatric clerkship. Provides exposure to diverse settings where children
receive health services. The six-week experience takes place in Helena, MT.

PEDS 655 P-Pediatric General Clerkship - Jackson, WY (*, max. 24) General introductory
inpatient and outpatient pediatric clerkship. Takes place primarily in an active pediatric group
practice with appropriate outpatient and inpatient opportunities, including access to a community
hospital with nursery, pediatric beds, and physician-staffed emergency room. (Six weeks, full

PEDS 656 P-Pediatric General Clerkship - Wenatchee (*, max. 24) General introductory
inpatient and outpatient pediatric clerkship. Open to all third- and fourth-year medical students.
(Six weeks, full time. Limit per rotation: one student). Prerequisite: HUBIO 563. Offered:
AWSpS.

PEDS 657 P-Pediatric General Clerkship - Missoula (*, max. 24) General introductory
inpatient and outpatient pediatric clerkship. Provides exposure to diverse settings where children
receive health services. The six-week experience takes place in three active pediatric practices
with appropriate outpatient and inpatient opportunities and at Community Medical Center. (Six
weeks, full time. Limit per rotation: one or two students.) Prerequisite: HUBIO 563. Offered:
AWSpS.

PEDS 658 P-Pediatric General Clerkship - Boise (*, max. 24) General introductory inpatient
and outpatient pediatric clerkship. Provides exposure to diverse settings where children receive
health services. The six-week experience takes place in three active pediatric practices with
appropriate outpatient and inpatient opportunities and at St. Luke's Medical Center. (Six weeks,
full time. Limit per rotation: one or two students). Prerequisite: HUBIO 563. Offered: AWSp.

PEDS 659 Pediatric General Clerkship - Billings, MT (*, max. 24) General introductory inpatient
and outpatient pediatric clerkship. Exposes students to diverse settings where children receive
health services. The six-week experience takes place primarily in two active pediatric
group practices with appropriate outpatient and inpatient opportunities. (Six weeks, full time.
Limit: per rotation: one student.) Offered: AWSp.

PEDS 660 Pediatric General Clerkship - Cheyenne, WY (*, max. 24) Introductory inpatient
and outpatient pediatric clerkship that exposes students to environments in settings where
children receive medical and health services. The six-week experience takes place primarily in
an active pediatric group practice with appropriate outpatient and inpatient opportunities. (Six weeks, full time. Limit per rotation: one student). Prerequisite: HUBIO 563. Offered: AWSpS.

**PEDS 661 P-Pediatric General Clerkship - Anchorage (*, max. 24)** General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: three students). Prerequisite: HUBIO 563. Offered: AWSpS.

**PEDS 663 P-Pediatric General Clerkship - Mary Bridge (*, max. 24)** General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Location preferences are considered. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: three or four students). Prerequisite: HUBIO 563. Offered: AWSpS.

**PEDS 664 P-Pediatric General Clerkship - Pocatello, ID (*, max. 24)** General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: one student). Prerequisite: HUBIO 563. Offered: AWSpS.

**PEDS 665 P-Pediatric General Clerkship - Seattle (*, max. 24)** General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department or clinic. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: ten students). Prerequisite: HUBIO 563. Offered: AWSpS.

**PEDS 666 P-Pediatric General Clerkship - Great Falls, MT (*, max. 24)** General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: two students). Prerequisite: HUBIO 563. Offered: AWSpS.

**PEDS 667 P-Pediatric General Clerkship - Madigan (*, max. 24)** General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: two students). Prerequisite: HUBIO 563. Offered: AWSp.

**PEDS 668 P-Pediatric General Clerkship - Spokane (*, max. 24)** General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: two or three students). Prerequisite: HUBIO 563. Offered: AWSp.

**PEDS 669 P-Neonatal Pediatrics - Clerkship (*, max. 24)** Participation in the activities in the newborn and premature divisions; ward rounds, seminars, conferences, and familiarization with certain laboratory techniques, particularly those relating to acid-base balance. (Limit per rotation: one or two students). Prerequisite: PEDS and OB GYN core clerkships. Offered: AWSp.

**PEDS 670 P-Pediatric Infectious Diseases (*, max. 24)** Students see and work up clinic consultations and present in detail to attending physician. Daily rounds include problem-solving
discussions and didactic presentations in broad category of infectious diseases. Opportunity for experience in clinical research and laboratory techniques. (Limit per rotation: one student). Prerequisite: PEDS and MED core clerkships; fourth-year medical student standing. Offered: AWSpS.

**PEDS 671 Pediatric Endocrinology (\*, max. 24)** Focuses on the evaluation of the normal progression of hormone mediated processes in children and the recognition, diagnosis, and management of a variety of endocrine problems. Includes participation in clinics, inpatient endocrine rounds, and a variety of conferences at Seattle Children's Hospital. (Limit per rotation: one student.) Prerequisite: PEDS core clerkship. Offered: AWSpS.

**PEDS 672 P-Office Practice - Spokane (\*, max. 12)** Opportunity to observe and function in the private office settings of a number of clinical pediatric faculty and to accompany pediatricians as they pursue their daily activities in the community. (Limit per rotation: one student). Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

**PEDS 673 P-Office Practice (\*, max. 12)** Opportunity to observe and function in the private office settings of a number of clinical pediatric faculty and to accompany pediatricians as they pursue their daily activities in the community. (Limit per rotation: one student). Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

**PEDS 674 P-Pediatric Genetics - Spokane (\*, max. 24)** Clinical focus on evaluation and management of children with genetic disorders. Exposure to genetic counseling, the evaluation of children with hereditary structural defects, and diagnosis and management of children with inborn errors of metabolism. Emphasis on genetic mechanisms that cause human disease. (Two or four weeks. Limit per rotation: one student). Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

**PEDS 675 P-Clinical Elective in Complementary and Alternative Medicine (4/8, max. 8)** Clinical elective for students interested in a better understanding of CAM. Students arrange different clinical placements with selected CAM providers in the community: naturopathic physician, chiropractor, acupuncturist, and massage therapist. Students are expected to arrange their own schedule and must be prepared to do so at least four weeks in advance of the start of the rotation. (Limit per rotation: one or two students). Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

**PEDS 677 P-Pediatric Intensive Care (8)** Students manage patients with the supervision of the Pediatric Critical Care attending or fellow at Seattle Children's Hospital. Includes the opportunity to manage patients with complex multisystem disease and learn key elements of acute resuscitation in the intensive-care setting. (Limit per rotation: one student). Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

**PEDS 678 P-Pediatric Infectious Diseases - Boise (\*, max. 24)** Students see and work up clinic consultations and present in detail to attending physician. Daily rounds include problem-solving discussions and didactic presentations in broad category of infectious diseases. Opportunity for experience in clinical research and laboratory techniques. (Limit per rotation: one student).
Prerequisite: PEDS and MED core clerkships; third- or fourth-year medical student standing; departmental permission. Offered: AWSpS.

PEDS 679 P-Clinical Problems in Developmental Disabilities (*, max. 12) Experience in multidisciplinary evaluation and management of the handicapped child. Student performs pediatric evaluations, obtains appropriate consultations, observes additional professional assessments (e.g., psychological testing), and plans rehabilitation program. Opportunity to provide parent counseling. (Limit per rotation: one student). Prerequisite: PEDS core clerkship. Offered: AWSpS.

PEDS 681 P-Medical Genetics (*, max. 24) Clinical focus on evaluation and management of children with genetic disorders. Exposure to genetic counseling, the evaluation of children with hereditary structural defects, and diagnosis and management of children with inborn errors of metabolism. Emphasis on genetic mechanisms that cause human disease. (Limit per rotation: one student). Prerequisite: PEDS core clerkship. Offered: AWSpS.

PEDS 683 P-Pediatric Nephrology (8) Four-week elective clerkship at Seattle Children's Hospital. Students participate in nephrology and transplant rounds, consult with renal fellows and attendings, and work up patients in renal clinics. Participation in seminars; special course in fluid balance. (Limit per rotation: one student). Prerequisite: third- or fourth-year medical student; PEDS and MED core clerkships; departmental permission. Offered: AWSpS.

PEDS 684 P-Pediatric Pulmonary Medicine (8) Respiratory disorders, diagnostic techniques, and treatments unique to children in the inpatient, intensive care, and outpatient settings. Application of principles of pulmonary physiology to clinical problems. Students conduct consultations under the supervision of the attending and present a topic of choice. Inpatient rounds and clinics. (Limit per rotation: one student). Prerequisite: PEDS core clerkship, fourth-year medical student standing. Offered: AWSpS.

PEDS 685 P-Pediatric Hematology and Oncology (*, max. 24) One-on-one teaching plus four weekly didactic sessions. Specific training in techniques and interpretation of bone marrow aspirations, intravenous chemotherapy, transfusions, and laboratory techniques of hematologic evaluation. Self-learning programs available. (Two or four weeks, full-time. Limit per rotation: one student). Prerequisite: PEDS core clerkship. Offered: AWSpS.

PEDS 686 P-Pediatric Cardiology (*, max. 24) Emphasis on physical diagnosis and electrocardiography and on clinical knowledge of diagnostic techniques and surgical possibilities for inpatients and outpatients with cardiovascular problems. Opportunity to observe catheterizations and cardiovascular operations. Weekly clinics and twice-daily inpatient rounds. (Limit per rotation: one student). Prerequisite: PEDS core clerkship. Offered: AWSpS.

PEDS 687 Neonatal Pediatric Clerkship (4) Offered: AWSpS.

PEDS 688 Pediatric Rheumatology (8) Exposes students to a wide range of pediatric rheumatologic diseases and provides them with the opportunity to evaluate new patients, help work up and manage inpatients with complex multisystem disease, and learn key elements of
evaluation and treatment of childhood rheumatic diseases. Open to 4th year medical students. Prerequisite: completion of core pediatrics rotation; interest in rheumatology.

**PEDS 689 P-Advanced Rural Pediatrics - Ft. Washakie, WY (8)** Student functions at the sub-intern level to care for patients with acute pediatric illness, proved well child care, and provide follow up care to patients seen in the newborn nursery, Level II Neonatal ICU, hospitalizations, and previous clinic visits. Students interested should make arrangements well in advance of registration. Prerequisite: required clerkship in Pediatrics, Obstetrics and Gynecology, Internal Medicine, and Surgery.

**PEDS 690 P-Advanced Pediatric Clerkship - Boise (*, max. 24)** Inpatient and/or outpatient experience with responsibilities comparable to intern for patient workup, diagnosis, and care at St. Lukes Hospital. (Limit per rotation: one student). Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

**PEDS 691 P-Advanced Pediatric Clerkship - Seattle (*, max. 24)** Inpatient and/or outpatient experience with responsibilities comparable to intern for patient workup, diagnosis, and care as Seattle Children's. (Limit per rotation: three students). Prerequisite: PEDS core clerkship. Offered: AWSpS.

**PEDS 692 P-Advanced Pediatric Clerkship - Spokane (*, max. 24)** Inpatient and outpatient experience with responsibilities comparable to intern for patient workup, diagnosis, and care at Sacred Hearth Children's Hospital. (Limit per rotation: one student). Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

**PEDS 693 P-Advanced Pediatric Subinternship - Mary Bridge (*, max. 24)** Inpatient and outpatient experience with responsibilities comparable to intern for patient workup, diagnosis, and care. (Limit per rotation: one student). Prerequisite: Core Clerkship in PEDS, OB/GYN, I-Med, Surgery; departmental permission.

**PEDS 694 P-Pediatric Adolescent Medicine (8)** Elective in Adolescent Medicine at Seattle Children's Hospital. Open to 4th year medical students who have completed their Core pediatrics Rotation. Students will be expected to manage patients with the supervision of attending physicians. Students will have the opportunity to manage adolescent patients in the outpatient setting and learn key elements of subspecialty care of adolescents.

**PEDS 695 Pediatric Hematology and Oncology (4)** Offered: AWSpS.

**PEDS 696 Pediatric Endocrinology (4)** Offered: AWSpS.

**PEDS 697 P-Pediatric Special Electives (*, max. 24)** By specific arrangement, for qualified students, special clerkship externship or research opportunities at institutions other than University of Washington. The faculty can advise of possible opportunities. Obtain special assignment form from the Department of Pediatrics at least one month before preregistration. Prerequisite: permission of department and the away site. Offered: AWSpS.
**PEDS 698 Pediatric Boot Camp (4)** Focuses on what is needed on day one of internship to care for children through hands-on experience, simulation, group problem solving, role-playing, didactics, and supplemental reading material. Emphasizes the acquisition and practice of core skills. Themes include communication, procedural competency, and medical decision making pertinent to both inpatient and outpatient pediatrics. (Two weeks.) Prerequisite: fourth-year standing; departmental approval. Offered: Sp.

**PEDS 699 P-WWAMI Pediatrics Special Electives (*, max. 24)** By special arrangement for qualified students, special clerkships or externships may be within the WWAMI region. Prerequisite: permission of department and the away site. Offered: AWSpS.
Pharmacology

Department Overview

E401 Health Sciences

Pharmacology is the science that deals with the nature of interactions between drugs and biological systems, and with the applications of such interactions to the treatment of disease. Courses in this field are given for medical, dental, pharmacy, nursing, and graduate students.

Graduate Program

Graduate Program Coordinator
E-417 Health Sciences, Box 357280
206-685-9252
phcoladm@uw.edu

The Department of Pharmacology offers the Doctor of Philosophy degree.

Doctor of Philosophy

Admission Requirement

A baccalaureate degree with a major in any of the sciences, such as biochemistry, chemistry, pharmacy, physics, physiology, psychology, or zoology. Students are selected from the applicant pool based on several criteria, including academic records, recommendations, and previous research experience.

Graduation Requirements

Minimum 90 credits, to include:

1. PHCOL 510, PHCOL 511, PHCOL 512, and PHCOL 513 with a minimum 2.7 grade for each class. Enrollment in PHCOL 507 throughout graduate school; PHCOL 514 in the first, second, and third years of graduate study.

2. PHCOL 519 (laboratory rotations) for autumn, winter, and spring quarters of the first year acquainting the student with various areas of pharmacology and research under investigation within the department. During each quarter, the student carries out a research project in the laboratory of a faculty member. At the end of the quarter, the student gives a presentation on the rotation research project that is evaluated by the faculty, using the criteria of scientific content, delivery, knowledge of the subject, and organization of material. The student receives a grade and academic credit for PHCOL 519. Students entering the PhD program with an MS degree or equivalent may petition to
enroll in only one quarter of PHCOL 519 before selecting a laboratory. Rotations may occur outside the department by special permission only.

3. Four advanced 2-3 credit graded elective courses in pharmacology in addition to the PHCOL 510 through PHCOL 513 series. Nine graded credits (non-seminar) in graduate-level courses in physiology, biochemistry, molecular biology, immunology, cell biology, or other relevant areas. The courses should strengthen the foundation of the student's thesis proposal.

4. Creditable passage of the general examination consisting of a comprehensive take-home written examination on general pharmacology, taken during summer quarter of the second year, followed by preparation of a grant proposal on the thesis project, and an oral examination, given by the Supervisory Committee during the first quarter of the third year of study. The student is evaluated on the proposed dissertation research and on his or her knowledge of the major disciplines important to the research. Based on the student's performance, the committee recommends approval and candidacy for the PhD degree, further work and subsequent reexamination, or termination.

5. After successful completion of the general examination, the student devotes most of his or her time to thesis research in the third and subsequent years of study. Students are expected to finish all degree requirements and complete their thesis research within a six-year time period from matriculation.

6. The research project for the Ph.D. dissertation is chosen by the candidate and faculty sponsor and approved by the candidate's Supervisory Committee. Research must represent a worthy and fundamental contribution showing originality in concept and implementation.

When the candidate has concluded the research project and prepared a complete copy of the dissertation, the sponsor obtains approval of the Graduate School and sets a date for the final examination. The final examination is concerned principally with the subject matter of the dissertation, but may include the background and origins of the dissertation problem as well as its practical applications and extrapolations.

Financial Aid

Financial support is offered to students who maintain satisfactory academic progress. Tuition and stipends are provided by National Institutes of Health training grants, University of Washington teaching assistantships, individual research grants, and fellowships from private sources.

Course Descriptions

**PHCOL 401 General Pharmacology I (2-4, max. 4) Wang** Principles governing drug-receptor interactions, dose-response relationships, desensitization, and tolerance. Drug toxicity, allergy, mutagenesis, and carcinogenesis. Pharmacogenomics and DNA/RNA therapies. General pharmacology of drugs acting on the endocrine and vascular systems. For pharmacy students and other undergraduates. Offered: A.
PHCOL 402 General Pharmacology II (3/4) General pharmacology of drugs acting on the autonomic, cardiovascular, and central nervous systems. For Pharmacy students and other undergraduates. Prerequisite: PHCOL 401. Instructors: Storm Offered: W.

PHCOL 434 General Pharmacology (2) Grubbs Lectures concerning the action of drugs on physiological and pathological processes with special emphasis on agents of special importance in the practice of dentistry. For dental students. Offered: A.

PHCOL 435 General Pharmacology (2) Grubbs Lectures concerning the action of drugs on physiological and pathological processes with special emphasis on agents of special importance in the practice of dentistry. For dental students. Offered: W.

PHCOL 498 Undergraduate Thesis (*, max. 35) Offered: A.

PHCOL 499 Undergraduate Research (*, max. 35) Participation in departmental research projects. Offered: AWSpS.

PHCOL 507 Pharmacology Seminar (1, max. 30) Presentation of comprehensive reports on recent medical and scientific literature in fields of current importance. Research progress reports, and reports on results of completed research. Prerequisite: permission of instructor. Offered: AWSp.

PHCOL 510 Drug Discovery and Emerging Therapeutics (2) Consideration of the general principles and current approaches involved in modern drug discovery and development, with an emphasis on basic concepts in drug action, delivery, and metabolism. Discussion of novel drug discovery techniques and emerging non-standard therapeutics. Prerequisite: organic chemistry, biochemistry, and introductory anatomy and physiology. Instructors: Zheng Offered: W.

PHCOL 511 Autonomic/Cardiovascular Pharmacology (2) N. Nathanson Consideration of the pharmacology of the cardiovascular and autonomic nervous systems. Emphasizes the mechanisms of neurotransmitter, hormone, drug action at autonomic synapses, and the molecular basis for physiology and pathophysiology of the cardiovascular system. Lectures, group discussion, and analysis of recent research. Prerequisite: organic chemistry, biochemistry, and introductory anatomy and physiology. Offered: W.

PHCOL 512 Neuropharmacology (2) Bajjalieh Consideration of the neurobiological basis of drug action on the central nervous system, including mechanism of action and therapeutic use in psychiatric disorders; neurodegeneration/neuroinflammation; control of neuronal excitability and pain; and drug abuse and addiction. Lecture, group discussion, and analysis of recent research. Offered: Sp.

PHCOL 513 Endocrine Pharmacology and Chemotherapeutics (2) Consideration of the pharmacology of endocrine systems including the hypothalamic/pituitary regulatory peptides, glycoprotein hormones/growth factors, peptide and steroid hormones. Basic principles of chemotherapy of endocrine and other cancers, as well as viral and microbial diseases. Lecture,
group discussion, and analysis of recent research. Prerequisite: organic chemistry, biochemistry, and introductory anatomy and physiology. Instructors: McKnight Offered: Sp.

**PHCOL 514 Current Topics in Pharmacology (1, max. 30)** Current research related to the mechanisms of drug action presented in a seminar format. Presentations include relevant background material as well as detailed experimental results taken from current research articles. Prerequisite: permission of instructor. Instructors: Gardner Offered: AWSp.

**PHCOL 515 General Pharmacology Laboratory (*, max. 9)** Laboratory course for professional and graduate students who wish to do independent laboratory research under the direction of a specific faculty member. Prerequisite: permission of instructor. Offered: AWSp.

**PHCOL 519 Introduction to Laboratory Research in Pharmacology (4)** Storm On a rotation basis students carry out individual research projects in the laboratories of different faculty members. At the end of each quarter students make formal presentations of their work. For first-year graduate students in pharmacology. Offered: AWSpS.

**PHCOL 527 Drug Metabolism (4)** A. RETTIE, K. THUMMEL Considerations of the biochemical mechanisms for the biotransformation of drugs and foreign compounds. Includes reaction mechanisms, ultrastructural considerations, induction mechanisms, methodology, kinetics of inhibition and activation, steroid and amine metabolism. Offered: jointly with MEDCH 527; W, odd years.

**PHCOL 529 Ion Channel Pharmacology (2)** Current topics in ion channel structure, function, genetics, and pharmacology, including consideration of role in electrical signaling in cell membranes and information transfer and processing in nervous system, inherited diseases of ion channels, and sites and mechanisms of action of drugs and toxins. Prerequisite: CONJ 532 and CONJ 536 or permission of instructor. Instructors: Catterall, Tempel Offered: A, odd years.

**PHCOL 530 Neuronal Signaling Pathways (2)** Advanced consideration of the molecular events between drug or hormone binding to receptors and the resulting responses. Emphasizes roles played by signal transduction pathways in regulation of synaptic plasticity, memory formation, neuronal apoptosis, and developmental neurobiology. Prerequisite: UCONJ 532 or permission of instructor. Instructors: Beavo, Hague, Storm, Xia Offered: W, even years.

**PHCOL 531 Genetic Analysis of Signaling Systems (3)** Current topics involving signal transduction are discussed with an emphasis on genetic analysis of multicellular systems and creative experimental design. Prerequisite: 9 credits of graduate-level courses in molecular and cellular biology, biochemistry, or genetics, or permission of instructor. Instructors: McKnight, Moon Offered: Sp, odd years.

**PHCOL 534 Molecular Basis of Addictive Drug Action (2)** Advanced consideration and discussion of current literature addressing the basis of opiate, psychostimulant, and cannabinoid effects on signal transduction events, electrical activity of neurons, and drip-motivated behaviors in animal models of human drug abuse. Prerequisite: PHCOL 512 or permission of instructor. Instructors: Chavkin, Phillips, Stella Offered: A, even years.
PHCOL 535 **Transcriptional Control in Human Disease** (3) Advanced consideration and discussion of the mechanisms regulating transcription/gene expression and of aberrant transcription factors which disrupt this process found in cancer and other human diseases. Prerequisite: PHCOL 512 or permission of instructor. Instructors: Bomszytk, Wang Offered: Sp, even years.

PHCOL 550 **An Overview of Faculty Research** (1) Reviews research topics currently being studied in pharmacology. Student reads articles published on each topic. Prerequisite: first-year student standing in pharmacology. Instructors: Wang Credit/no-credit only. Offered: A.

PHCOL 560 **Regulation of Cell Function by Cyclic Nucleotide Phosphodiesterases** (1) Discussion of research strategies, methodologies, and literature relating to regulation of cyclic nucleotide levels in the cell. Emphasis on practical problem solving, data analysis, and presentation of methods important to understanding published data and designing new experiments in this area of research. Prerequisite: permission of instructor. Instructors: Beavo Credit/no-credit only. Offered: AWSpS.

PHCOL 561 **Molecular Properties of Ion Channels** (1) Discussion of research strategies, methodologies, and literature concerning the structure, function, and regulation of sodium and calcium channels and the mechanism of action of drugs on them. Emphasis on experimental problem solving, data analysis, and presentation. Prerequisite: permission of instructor. Instructors: Catterall Credit/no-credit only. Offered: AWSpS.

PHCOL 562 **Molecular Basis for Motivated Behavior** (1) Discussion of research strategies and methodologies involved in the regulation of motivated behavior by understanding signal transduction and synaptic physiology. Emphasis on practical problem solving, data analysis, and presentation methods important to modern scientific work. Prerequisite: permission of instructor. Instructors: Chavkin Credit/no-credit only. Offered: AWSpS.

PHCOL 563 **Signal Transduction Mechanisms in Neuroplasticity and Neuron Growth** (1) Discussion of research strategies, methodologies, and literature relating to signal transduction mechanisms important for neuroplasticity and regulation of neuron growth in the central nervous system. Emphasis on practical problem solving, data analysis, and presentation methods important to modern scientific work. Prerequisite: permission of instructor. Instructors: Storm Credit/no-credit only. Offered: AWSpS.

PHCOL 564 **Cellular Regulation by Protein Kinases** (1) Analysis of research problems, techniques, and emerging concepts in the study of the function of protein kinases. Emphasis on critical evaluation of research and development of presentation skills. Prerequisite: permission of instructor. Instructors: McKnight Credit/no-credit only. Offered: AWSpS.

PHCOL 565 **Intercellular Signaling in Development** (1) Molecular genetic approaches to dissecting the roles and mechanisms of intracellular signaling during development. Emphasis on vertebrate genes related to Drosophila segment polarity genes. Prerequisite: permission of instructor. Instructors: Moon Credit/no-credit only. Offered: AWSpS.
PHCOL 566 Molecular Pharmacology of Neurotransmitter and Neurokine Receptors (1)
Discussion of research strategies and methodologies in the areas of molecular neurobiology and signal transduction of muscarinic receptors, G-proteins, and neurokine receptors. Emphasis on practical problem solving, data analysis, and presentation methods important to modern scientific work. Prerequisite: permission of instructor. Instructors: Nathanson Credit/no-credit only. Offered: AWSpS.

PHCOL 567 Mechanisms of Carcinogenesis (2) Lectures/presentations of biochemical and molecular basis of carcinogenesis induced by environmental agents, including approaches to identification of carcinogens. Role of cell proliferation and cell death (apoptosis) in cancer formation and cancer treatment. Molecular mechanisms that regulate proliferation and apoptosis. Prerequisite: ENV H 516, ENV H 405, or permission of instructor. Offered: jointly with ENV H 567; A, even years.

PHCOL 569 Molecular Genetics of Potassium Channel Function (1) Discussion of research strategies, methodologies, and literature concerning the structure, function, and regulation of potassium channel genes and their role in behavior as studied in mutant mice. Emphasis on experimental problem solving, data analysis, and presentation. Prerequisite: permission of instructor. Instructors: Tempel Credit/no-credit only. Offered: AWSpS.

PHCOL 571 Molecular Mechanisms of Neurosecretion (1) Discussion of research strategies, methodologies, and literature relating to regulation of cyclic nucleotide levels in the cell. Emphasis on experimental problem solving, data analysis, and presentation. Prerequisite: permission of instructor. Instructors: Bajjalieh Credit/no-credit only.

PHCOL 572 Transcriptional Regulation of Growth Control Genes (1) Discussion of research strategies, methodologies, and literature relating to proliferative growth control, cellular differentiation, and gene expression. Emphasis on practical problem solving, data analysis, and presentation. Prerequisite: permission of instructor. Instructors: Wang Credit/no-credit only.

PHCOL 573 Signaling Systems Linked to Neuroinflammation (1) Discussion of research strategies, methodologies, and literature related to neuroinflammation, microglial cell activation, and the cannabinoid signaling pathway. Emphasis on solving practical problem, data analysis, and presentation. Prerequisite: permission of instructor. Instructors: Stella Offered: AWSpS.

PHCOL 575 Structural Biology of Ubiquitination (1) Discussion of research strategies, methodologies and literature concerning the structure, function, and regulation of ubiquitin-protein ligases and the mechanism underlying ubiquitination and ubiquitin-dependent proteolysis. Emphasis on experimental problem solving, data analysis, and presentation. Prerequisite: permission of instructor. Instructors: Zheng Credit/no-credit only. Offered: AWSpS.

PHCOL 576 Pharmacological, Molecular, and Functional Characterization of G-protein Coupled Receptors (1) Discusses research strategies, methodologies, and literature relating to the pharmacological characterization, molecular biology, and functional coupling of GPCRs.
Emphasizes practical problem solving, data analysis, and presentation. Prerequisite: permission of instructor. Instructors: Hague Credit/no-credit only. Offered: AWSpS.

**PHCOL 577 Regulatory Roles of Ubiquitin in the Nucleus (1)** Focuses on the design and implementation of research aimed at understanding the nuclear functions of the small protein modifier ubiquitin. Strongly emphasizes the understanding of current literature, experimental design and troubleshooting, data analysis, and presentation of experimental results. Prerequisite: permission of instructor. Instructors: Gardner Credit/no-credit only. Offered: AWSpS.

**PHCOL 578 A-Kinase Anchoring Proteins in Cell Signaling Research (1)** Focuses on the design and implantation of research A-Kinase anchoring proteins in cell signaling. Emphasizes understanding experimental design and troubleshooting, data analysis, and presentation of experimental results. Credit/no-credit only. Offered: AWSpS.

**PHCOL 579 Genetic Regulation of Emotional Behavior (1)** Provides background in the materials and methods used in the study of the genetic basis of learning and memory and neural circuit function achieved through discussion of current literature, data acquisition and analysis, and experimental design. Offered: AWSpS.

**PHCOL 580 Proteomics for Cellular Systems (1)** Discusses and reviews literature for proteomics and other genome-wide approaches to study cellular systems. Trains students to integrate knowledge from existing literature with ongoing laboratory research to enhance data analysis and experimental design. Offered: AWSpS.

**PHCOL 581 Mitochondrial Signaling and Metabolism (1, max. 35)** Trains graduate students on mitochondrial biology, signaling and metabolism by literature review and data analysis. Focuses on effective experimental design, scientific presentation and writing. Introduces basic and advanced laboratory techniques commonly used in mitochondrial biology. Offered: AWSpS.

**PHCOL 582 Nuclear Architecture and the Noncoding Transcriptome (1, max. 35)** Examines the biogenesis, regulation, and functional impact of mammalian nuclear architecture during differentiation and disease, emphasizing the interplay between chromatin biology and noncoding RNAs. Trains graduate students in rigorous approaches to experimental design and data analysis, novel technology design and implementation, effective scientific communication and writing, and comprehensive command of the literature. Offered: AWSpS.

**PHCOL 583 Kinase Signaling in Neurodevelopment and Disease (1, max. 35)** Explores fundamental concepts in kinase mediated signaling pathways and their regulation of neuronal structure and function during development and disease. Current genetic and proteomic approaches to investigate kinase pathways will be examined. Principles of experimental design, data interpretation and analysis will be discussed as graduate students present key findings of their individual research projects. Offered: AWSpS.

**PHCOL 600 Independent Study or Research (*-)** Pharmacology graduate students only. Credit/no-credit only. Offered: AWSpS.
**PHCOL 700 Master's Thesis (*)&** Pharmacology graduate students only. Credit/no-credit only. Offered: AWSpS.

**PHCOL 800 Doctoral Dissertation (*)&** Pharmacology graduate students only. Credit/no-credit only. Offered: AWSpS.
Physiology and Biophysics

Department Overview

G424 Health Sciences

Physiology deals with the processes, activities, and phenomena incidental to, and characteristic of, life and living organisms. Based upon physics, chemistry, and mathematics, physiology interlocks closely with the other basic medical sciences anatomy, molecular biology, immunology, biochemistry, pharmacology, pathology, and with psychology. Research in physiology is accomplished by analyzing the molecular, cellular, and integrative properties of the system under study. For this reason, physiology appeals to students with diverse backgrounds and goals. Courses in this field are given for medical, dental, pharmacy, nursing, and graduate students.

Graduate Program

Graduate Program Coordinator
G424 Health Sciences, Box 357290
206-685-0519
pbio@uw.edu

The Department of Physiology and Biophysics offers advanced instruction and training leading to both the Master of Science and Doctor of Philosophy degrees. Students aspiring only to the M.S. degree are rarely accepted. Students pursuing a PhD degree in physiology and biophysics may emphasize molecular and cellular physiology, biophysics, neurobiology, respiratory physiology, or endocrinology. Studies leading to the doctoral degree require five to six years to complete. The first year is spent acquiring a broad knowledge of physiology via a sequence of courses and laboratory rotations. After selection of a special area of study, the second year is spent taking advanced seminars in the area of specialization and developing a thesis proposal. After admission to candidacy, the latter years are spent pursuing the area in depth and completing an original research project.

Individuals with graduate degrees in physiology and biophysics often pursue careers in teaching and research in colleges and universities and in biotech industries. The department participates in interdisciplinary PhD degree programs in neurobiology and behavior and in molecular and cellular biology. The department also participates in the medical scientist training program, and the biological physics structure and design program.

Master of Science

The Master of Science degree is normally granted as part of the path of study leading to the Doctor of Philosophy degree. Students are normally admitted only to the Doctor of Philosophy degree.
Doctor of Philosophy

Admission Requirements

To apply for admission, a student must provide academic transcripts, Graduate Record Examination (GRE) scores, four letters of recommendation, and a statement of purpose. Because of the broad scope and interdisciplinary nature of the graduate program, there are no specific prerequisites for admission. However, most students have backgrounds in the physical and/or biological sciences. These include majors in biology, physics, mathematics, engineering, computer science, chemistry, and psychology. The most important requirement is a strong motivation and excitement about doing science.

Degree Requirements

90 credits minimum, as follows:

Due to the broad nature of research interests in the department and the diversity of graduate-student backgrounds, formal course requirements are kept to a minimum and are completed in the first year. Students are encouraged to shape their own graduate education, as they choose the majority of their coursework and the scientific direction for their research. Courses available include those offered by other departments, both in the Medical School and elsewhere on campus. Electives may be chosen from a list of mini-courses whose topics reflect the current interests of faculty and students. Students are required to take at least six mini courses.

Required Courses:

1. CONJ 531, CONJ 532, P BIO 532, NEUBEH 501, NEUBEH 502, P BIO 508, must be taken three times); P BIO 513, P BIO 519
2. Six departmental mini-courses, to be completed prior to the general examination, from the following: P BIO 509, P BIO 545, P BIO 550, P BIO 551, P BIO 552, P BIO 553, P BIO 554, P BIO 555, P BIO 556, P BIO 557, P BIO 559.
3. P BIO 600 (before general examination)
4. P BIO 800 (after general examination)

5. Note: P BIO 503 is highly recommended, but not required

General Examination

The general examination must be taken by the last day of autumn quarter of the third year. After passing the general examination the student is advanced to candidacy for the doctoral degree. The student then registers for P BIO 800 and continues working on thesis research.
Final Examination

The culmination of the program is the submission of a written doctoral thesis and the presentation of this work in a public lecture attended by members of the department and the University.

Research Facilities

The department is well equipped to provide instruction and research training in cellular and molecular physiology, neurobiology, membrane biophysics, respiratory physiology, muscle biophysics, endocrinology, reproduction, and physiological psychology. The facilities of the Regional Primate Research Center, adjacent to the department, are available to qualified trainees who need to use primates in their research.

Course Descriptions

P BIO 498 Undergraduate Thesis (*, max. 35) Offered: AWSpS.

P BIO 499 Undergraduate Research (*, max. 35) Offered: AWSpS.

P BIO 504 Biophysics of Nerve, Muscle, and Synapse (3) Sullivan Introduces biophysical properties of nerve and muscle cells. Topics include intrinsic electrical properties of neurons, ion channels, receptor signaling, calcium signaling, contraction of muscles, and synaptic function. Offered: jointly with NEURO 504.

P BIO 505 Human Physiology (4-) Binder Provides an introduction to the study of human physiology. Covers the physiology of excitable cells, muscle physiology, renal physiology, gastrointestinal physiology, and the physiology of the central nervous system. Offered: A.

P BIO 506 Human Physiology (-4) Provides an introduction to the study of human physiology. Covers cardiovascular physiology, respiratory physiology, acid base balance, neuroendocrinology, and reproductive physiology. Prerequisite: P BIO 505, or equivalent with permission of instructor. Instructors: Wordeman Offered: W.

P BIO 508 Introduction to Laboratory Research in Physiology (1-5, max. 15) Students participate in the performance of ongoing projects in designated research laboratories. Emphasis is on experimental design, methodology, and techniques. For first- and second-year graduate students in physiology and biophysics to provide a basis for future independent research. Offered: AWSpS.

P BIO 509 Neuroendocrinology (3) Emphasizes the cellular and molecular aspects of several topics in neuroendocrinology, including neuropeptide genes, reproduction, steroid hormone regulation of gene expression, mechanisms of hormone action, endocrine rhythms, and neural oscillations. Prerequisite: BIOL 220; BIOC 442 or permission of instructor. Instructors: Steiner Offered: jointly with NEURO 541; W, even years.
P BIO 513 Practicum in Teaching Physiology and Biophysics (4) Students undertake instructional material development, presentation of materials, and develop problem-solving techniques. Credit/no-credit only. Offered: AW.

P BIO 519 Membrane and Muscle Biophysics Seminar (1) Lectures on current research topics in cell membrane function and muscle contraction. Prerequisite: permission of instructor. Instructors: Hille Credit/no-credit only. Offered: Sp.

P BIO 520 Physiology Seminar (*) Selected topics in physiology. Prerequisite: permission of instructor.

P BIO 521 Biophysics Seminar (*) Selected topics in biophysics. Prerequisite: permission of instructor.

P BIO 522 Selected Topics in Respiratory Physiology (1-3, max. 3) Advanced seminar on selected topics, including pulmonary mechanics, gas exchange, lung fluid balance, regulation of breathing, pulmonary circulation, respiration in the neonate, liquid breathing, airway dynamics, lung structure and development, cardiopulmonary interactions, exercise physiology. Prerequisite: permission of instructor. Instructors: Hildebrandt Offered: AWSpS.

P BIO 523 Heat Transfer and Temperature Regulation (2-5, max. 5) Thermal exchange between the body surface and the environment. Heat production and distribution within the body. Properties of cutaneous and deep temperature receptors. Neural integration and homeothermy. Prerequisite: permission of instructor. Instructors: Brengelmann Credit/no-credit only.

P BIO 525 Readings in Advanced Physiology and Biophysics (*) Guided study of the experimental literature of physiology and biophysics. Essays are written and discussed with the staff. Emphasis is placed on critical analysis, accuracy of expression, bibliographical technique, and other factors of good scholarship. Prerequisite: permission of instructor. Offered: A.

P BIO 526 Readings in Advanced Physiology and Biophysics (*) Guided study of the experimental literature of physiology and biophysics. Essays are written and discussed with the staff. Emphasis is placed on critical analysis, accuracy of expression, bibliographical technique, and other factors of good scholarship. Prerequisite: permission of instructor. Offered: W.

P BIO 527 Readings in Advanced Physiology and Biophysics (*) Guided study of the experimental literature of physiology and biophysics. Essays are written and discussed with the staff. Emphasis is placed on critical analysis, accuracy of expression, bibliographical technique, and other factors of good scholarship. Prerequisite: permission of instructor. Offered: SpS.

P BIO 540 Molecular Mechanisms of Cardiac Remodeling and Heart Failure (1) The mini-course discusses recent progress on novel molecular mechanisms underlying cardiac hypertrophy, myocardial remodeling, and heart failure development. Novel methodologies in basic and translational cardiovascular research will also be discussed.
P BIO 545 Quantitative Methods in Neuroscience (3) Discusses quantitative methods applicable to the study of the nervous system. Revolves around computer exercises/discussion of journal papers. May include linear systems theory, Fourier analysis, ordinary differential equations, stochastic processes, signal detection, and information theory. Prerequisite: NEUBEH 501, NEUBEH 502, NEUBEH 503, or permission of instructor. Instructors: Rieke Offered: jointly with NEURO 545.

P BIO 548 Molecular Mechanisms of Synaptic Plasticity (2) Barria Discusses recent primary literature on the molecular mechanisms underlying structural and functional changes of dendritic spines and synapses in the mammalian brain as result of synaptic activity and experience. Offered: jointly with NEURO 548; Sp, even years.

P BIO 550 Biophysics of Calcium Signaling (1) Introduction to cellular calcium signaling including theoretical and technical issues of calcium signal detection and biological conclusions. Prerequisite: CONJ 531. Instructors: Hille, Santana Offered: jointly with NEURO 550; Sp, odd years.

P BIO 554 Motor Learning: Cellular and Network Mechanisms (1) Fetz, Perlmutter Five-week mini-course reviews the current state of research on cellular and network mechanisms of motor learning. After an introductory overview of behavioral and physiological examples of motor learning in various species and systems, students choose specific topics for discussion, using the primary literature as a source. Offered: jointly with NEURO 554.

P BIO 555 Sensory Receptors (1) Detwiler, Rieke Five-lecture mini-course examines how different kinds of sensory receptors detect and respond to different modalities of sensory stimuli. Discussion focuses on the cellular and molecular mechanisms of the underlying transduction processes and the experimental evidence that they are based on. Offered: jointly with NEURO 555.

P BIO 556 Axon Pathfinding Mechanisms (1) Bothwell Examines mechanisms governing axon growth cone behavior during embryonic development and during regeneration in the injured adult. Discusses approaches employing both invertebrate and vertebrate model systems. Offered: jointly with NEURO 556.

P BIO 557 Ion Channel Gating (1) Zagotta Compares and contrasts mechanisms of gating in ligand-gated and voltage-gated ion channels. Covers basics of ligand gating and voltage gating, kinetic schemes, inactivation and desensitization, gating currents and partial agonists, and ion channel structure. Offered: jointly with NEURO 557.

P BIO 558 Concepts and Mechanisms in Mitosis (2) Asbury, Wordeman Examines how the mitotic spindle organizes and separates duplicated chromosomes during cell division. Overview of spindle components and key mechanistic concepts. Discusses recent or classic papers from the primary literature.

P BIO 559 Neurobiology of Disease (3) Introduces medically important neurological and psychiatric diseases and experimental approaches to understanding the basis for diseases and
their treatments. Covers stroke, epilepsy, autoimmune diseases of the CNS, neurodegenerative diseases, autism, psychosis, anxiety disorders, and mood disorders. Offered: jointly with NEURL 559/NEURO 559.

**P BIO 561 From Biophysics to Neural Computation (2)** Introduces the mathematics and methods of neuronal modeling. Develops, compares, and relates dynamical systems approaches and empirical characterizations of neuronal function. Includes lectures, student-led journal paper discussions, biweekly computational workshops on neuronal modeling packages, and a computations project. Offered: jointly with NEURO 561; Sp.

**P BIO 600 Independent Study or Research (∗-)** Offered: AWSp.

**P BIO 700 Master's Thesis (∗-)** Offered: AWSpS.

**P BIO 800 Doctoral Dissertation (∗-)** Offered: AWSpS.
Psychiatry and Behavioral Sciences

Department Overview

BB1644 Health Sciences
pbsci@uw.edu

The department offers coursework, clinical training, and research opportunities for undergraduate students, medical students, graduate physicians, and graduate students in allied health programs such as psychology, social work, and psychiatric nursing.

A biobehavioral approach is emphasized, which incorporates intrapersonal, interpersonal, and sociocultural factors. Intrapersonal factors include emotion, perception, cognition, psychodynamics, neurochemistry, neuroanatomy, neurophysiology, genetics, and the developmental and aging processes. Interpersonal factors focus upon dyadic, familial, and group interactions. Sociocultural factors include the cultural, social, institutional, and community systems as well as the environment and epidemiology of health and disease.

Graduate Program

The Medical School curriculum is divided into a core (basic) curriculum and an elective curriculum. Within its core curriculum the Department of Psychiatry and Behavioral Sciences offers material covering learning theory, cognition, memory, perception, neuropharmacology, social growth and development, epidemiology of health and disease, psychopathology, psychotherapy, and neuropsychiatry and behavioral medicine, as well as training in interviewing skills and assessment techniques. Its elective program includes a variety of clinical experiences and advanced didactics and seminars designed to further the knowledge and skills developed within the basic curriculum. In addition, the department encourages research and other scholarly pursuits by students in areas of interest to them. Stipends are available for research studies.

Residency Training in Psychiatry

A four-year residency for medical school graduates and a three-year post-internship residency prepares physicians for Specialty Board Certification in Psychiatry. Clinical rotations on inpatient, outpatient, emergency, and consultation/liaison services are augmented by individual supervision and didactic lectures. With the program's integrative orientation, residents become proficient in psychotherapy, psychopharmacology, and community liaison with patients of all ages. Fellowships in child, geriatric, addiction, community, forensic and consultation-liaison psychiatry, and psychiatric neuroscience are available.

Clinical Psychology Internship Program

The one-year internship in clinical psychology, accredited by the American Psychological Association, offers advanced clinical training to candidates for the doctorate in clinical
psychology from graduate programs accredited by the American Psychological Association. Training tracks with the internship in general adult, general child, rehabilitation and health psychology, and public behavioral health and justice policy (adult and child). Advanced research skills training is also available as part of an INH-funded training grant for selected internship participants.

**Postdoctoral Fellowship Training**

Postdoctoral fellowships for advanced clinical and research training in behavioral medicine, broadly construed, are also offered.

**Course Descriptions**

**PBSCI 498 Undergraduate Thesis** (*, max. 15) Opportunity to complete work on psychiatric research projects or to pursue a specific psychiatric topic in depth, for instance, through library research. Offered: AWSpS.

**PBSCI 499 Undergraduate Research** (*, max. 15) Opportunities are available for participation in a wide variety of ongoing research in the behavioral sciences and clinical psychiatry, or for the development of an individual investigative project under the supervision of a faculty sponsor. Offered: AWSpS.

**PBSCI 505 P-Psychiatry Preceptorship** (1, max. 12) Opportunity for first- and second-year medical students to gain direct experience with clinical faculty members in psychiatry. Includes opportunities to observe different areas of psychiatry including addiction, child, geriatrics, community, crisis, and consultation. Prerequisite: permission of department. Instructors: Combs
Offered: AWSp.

**PBSCI 525 P-Psychiatry and the Law** (3) *E. GOLDENBERG, J. PIEL* Explores issues at the interface of law and psychiatry through didactic curriculum and research. Trainees develop an individualized research project with the assistance of their faculty mentors. Covers topics in civil and criminal forensic psychiatry, research ethics, research design, grantsmanship, and mental health law. Offered: Sp.

**PBSCI 546 Psychiatric Epidemiology** (3) *A. VANDER STOEP* Using epidemiological methods to study mental illness. Topics include contributions of mental illness to global disease burden; major population-based studies of mental illness; measurement of psychopathology; culture and mental illness; role of neurodevelopment, genetics, social and physical environment in etiology of mental disorders; mental health services research. Prerequisite: either EPI 511, EPI 512, HSERV 591, or permission of instructor. Credit/no-credit only. Offered: jointly with EPI 546.

**PBSCI 580 Applied Research in Behavioral Health and Justice Policy** (2) Direct experience working with community agencies to build research capacity. Emphasized child welfare, children's mental/behavioral health, and juvenile justice. Seminars cover translational research, community-based research, and communicating research to program and policy audiences. For
graduate students, psychiatric residents, and graduate psychology, psychosocial nursing, social work, and public health students. Offered: AW.

**PBSCI 598 P-Psychiatry Independent Study and Remediation (\*, max. 8)** Designed for medical students required to complete additional study related to the required Psychiatry Clerkship offered during the patient care phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: department permission. Offered: AWSpS.

**PBSCI 600 Research in Psychiatry ([1-15]-)** Independent laboratory research under the guidance and supervision of research scientists in the Psychiatry Department. Faculty permission required.

**PBSCI 630 P-WRITE Psychiatry Clinical Clerkship (\*, max. 24)** Basic clinical clerkship for students enrolled in the WRITE Program. Prerequisite: completion of basic curriculum; third- and fourth-year students; acceptance in the WRITE program.

**PBSCI 631 P-Basic Psychiatry Clerkship - Juneau, AK (12)** Basic psychiatry clerkship in Juneau, Alaska. Fulfills graduation requirements for clerkship in psychiatry.

**PBSCI 632 P-LIC Psychiatry Clinical Clerkship (1-12, max. 12)** Basic clinical clerkship for students enrolled in the LIC program. Prerequisite: acceptance into LIC program.

**PBSCI 637 P-Basic Psychiatry Clerkship - Fairfax - Kirkland, WA (12)** Basic psychiatry clerkship in Kirkland, Washington. Fulfills graduation requirements for clerkship in psychiatry.

**PBSCI 639 P-Basic Psychiatry Clerkship - Olympia (12)** Basic psychiatry clerkship at Olympia, WA. Fulfills graduation requirement for clerkship in psychiatry.

**PBSCI 640 P-Basic Psychiatry Clerkship - Pocatello (12)** Basic psychiatry clerkship at in Pocatello, ID. Fulfills graduation requirement for clerkship in psychiatry.

**PBSCI 641 P-Basic Psychiatry Clerkship - Orofino, ID (12)** Basic psychiatry clerkship in Orofino, ID. Fulfills graduation requirement for clerkship in psychiatry. Offered: AWSpS.

**PBSCI 649 P-Basic Psychiatry Clerkship-Eastern State Hospital-Spokane (12)** Basic psychiatry clerkship at Eastern State Hospital in Spokane, WA. Fulfills graduation requirement for clerkship in Psychiatry. Offered: AWSpS.

**PBSCI 655 P-Basic Psychiatry Clerkship - Cheyenne (12)** Basic psychiatry clerkship in Cheyenne, WY. Fulfills graduation requirement for clerkship in psychiatry.

**PBSCI 660 P-Basis Psychiatry Clerkship-Bozeman (12)** Basic psychiatry clerkship in Bozeman, MT. Fulfills graduation requirement for clerkship in psychiatry. Offered: AWSpS.
PBSCI 661 P-Basic Psychiatry Clerkship - Helena (12) Basic psychiatry clerkship in Helena, MT. Fulfills graduation requirement for clerkship in psychiatry.

PBSCI 662 P-Basic Psychiatry Clerkship - Missoula (12) Students work at St. Patrick Hospital with adult and adolescent inpatients and in the emergency room for emergent-care exposure. Students have outpatient experience through the adult intensive outpatient program, Pain Treatment Center, and in faculty outpatient practices. Didactics include psychopharmacology, addiction, psychosis, mood disorders, child and geriatric psychiatry. Prerequisite: completion of the HUBIO series; third and fourth year students.

PBSCI 663 P-Basic Psychiatry Clerkship - Billings (12) Students work at South Center Regional Mental Health Center and Behavioral Sciences Clinic with adult and adolescent inpatients, in the emergency room for emergent care exposure. Outpatient experience including consultations at the community mental health center, Indian reservation, and prison. Didactics include psychopharmacology, addiction, psychosis, mood disorders, child and geriatric psychiatry. A vehicle is needed by students at this site. Prerequisite: completion of the HUBIO series; third and fourth year students.

PBSCI 665 P-Basic Clinical Clerkship (*, max. 24) Inpatient clerkship in psychiatry. Students have primary responsibility under direction of attending psychiatrists and residents for diagnosis and care of patients at UW Medical Center, Harborview Medical Center, or Veterans Administration Hospital. Emergency room, crisis intervention, consultation to patients with psychiatric dysfunction. Familiarity with psychopharmacology and short-term hospitalization emphasized. (Six weeks, full-time.)

PBSCI 666 P-WWAMI Psychiatry and Behavioral Sciences Clerkship (12) Rotation aims to increase student's skills in basic psychiatry, social psychiatry, transcultural psychiatry, and community psychiatry. Orientation is around the diagnosis, treatment, and clinical management of white, Aleut, Indian, and Eskimo children and adults in outpatient, inpatient, and community settings. Third-, fourth-year medical students. (Limit: Two or three students). Prerequisite: HUBIO 563.

PBSCI 667 P-Basic Psychiatry Clerkship - Boise (12) Basic psychiatry clerkship at Veterans' Administration Medical Center in Boise, Idaho. Fulfills graduation requirement for clerkship in psychiatry.

PBSCI 668 P-Psychiatry Clerkship - Spokane (12) Students work on adult, geriatric, and adolescent inpatient psychiatric units of Sacred Heart Medical Center, following patients after transfer to partial hospitalization or outpatient clinic. Didactics include basic psychiatric diagnosis, treatment, and pharmacotherapy. (Limit: two or three students). Prerequisite: completion of HUBIO series; third and fourth-year medical students.

PBSCI 669 P-Basic Psychiatry Clerkship - Casper, Wyoming (12) Students work in the Wyoming Behavioral Institute with adult, adolescent, and child inpatients. Students have some outpatient experience and emergent care assessment experience at the Wyoming Medical Center.
Didactics and discussion include topics such as psychopharmacology, emergent care and assessment, diagnosis, and substance abuse issues.

**PBSCI 670 P-Clerkship in Consultation/Liaison Psychiatry - UWMC (\(\ast\), max. 24)**
Assessment of patients with major psychosocial problems associated with physical disease, including: problems stemming from the way the illness is perceived and experienced, liaison with other clinical disciplines on complex diagnosis and treatment of problems. (Limit: one student; two or four weeks.) Prerequisite: satisfactory completion of required psychiatry clerkship.

**PBSCI 671 P-Clerkship in Consultation/Liaison Psychiatry - HMC (\(\ast\), max. 24)** Students receive organized instruction and supervised clinical experience in the evaluation of psychiatric and/or behavioral problems in patients on medical and surgical services, and in effectively consulting with their health care providers regarding their clinical management. Includes evaluation of (non-financial) decisional competency. (Limit: two students). Prerequisite: satisfactory completion of required psychiatry clerkship.

**PBSCI 672 P-Elective Clerkship in Primary Care Psychiatry - Boise, VAMC (8/12)**
Assessment and treatment of patients with acute psychiatric problems in a primary care/rural setting. Consultation work on general medicine and surgery; assessment and dealing with outpatient psychiatric problems as they initially present. Evaluations, crisis intervention strategies, and brief therapies stressed. Prerequisite: satisfactory completion of required psychiatry clerkship (Four weeks; visiting students interested in the Boise Psych Residency Track allowed.)

**PBSCI 673 P-Outpatient Psychiatry Elective (\(\ast\), max. 24)** Offered at Harborview Outpatient Center. Students function as subinterns, conducting diagnostic interviews, initiating and managing pharmacotherapeutic treatment regimens, and providing crisis intervention, under the supervision of the full-time attending at Psychopharmacology Clinic. (Four to six weeks, full-time). Prerequisite: satisfactory completion of required psychiatry clerkship.

**PBSCI 674 P-Elective in Therapeutic Communication (4-8)** J. Carr, H. Combs Students participate in diverse, interdisciplinary clinical encounters while being supervised by advanced psychotherapists. Includes multidisciplinary chemical dependency evaluations, cognitive assessments, cognitive-behavioral training, and hypnosis. Students complete a holistic patient assessment and are introduced to the complexities of therapeutic communication and improvement methods.

**PBSCI 676 P-Inpatient Clerkship in Psychiatry - American Lake VA (8/12)** For medical students with a defined interest in psychiatry who wish to develop their knowledge and skills in the evaluation, management, and treatment of a wide range of acute and chronic psychiatric conditions requiring inpatient hospital treatment. (Four or six weeks, full-time). Prerequisite: satisfactory completion of required psychiatry clerkship. Instructors: Johnston

**PBSCI 677 P-Alcohol and Drug Treatment Clerkship - American Lake VA (8/12)** Student assists in every phase of the substance-abuse treatment, including admission interviews, patient
evaluation, problem identification, group and individual psychotherapy, assertiveness training, anger control, human sexuality, medical evaluation and treatment, couples therapy, discharge and aftercare planning. Experience primarily clinical. Prerequisite: satisfactory completion of required psychiatry clerkship. (Four or six weeks, full-time). Instructors: Lim

PBSCI 678 P-Clerkship in Psychiatric Long-Term Care and Rehabilitation (*, max. 12) Two- to six-week clerkship provides learning experiences in rehabilitation of long-term psychiatric patients with medical illness. Multidisciplinary team approach, working with homeless mentally ill. Diagnostic skills emphasized. Spectrum of diseases (cardiovascular, Huntington's, organic brain syndrome) is such that physical rehabilitation is not an emphasis. Prerequisite: HUBIO 563; satisfactory completion of required psychiatry clerkship. Instructors: Johnston

PBSCI 680 P-Clerkship in Emergency Psychiatry (*, max. 24) Emphasis on clinical evaluation, acute management, and treatment planning for individual patients. Experience in coordinating these activities with other emergency room personnel, and various hospital and community resources. Emphasis on skills useful to physicians in any specialty. Third- and fourth-year medical students only. (Four or six weeks, full-time). Prerequisite: satisfactory completion of required psychiatry clerkship. Instructors: Pasic

PBSCI 682 P-Addiction Medicine - Rock Spring WY (4) Students identify, assess, diagnose, and treat addiction disorders in inpatient and outpatient settings through hospital rounds, inpatient hospital consults, and observation of intensive outpatient groups. 2 weeks.

PBSCI 685 P-Geriatric Psychiatry Clerkship (*, max. 12) Two- to six-week elective (four weeks highly recommended). Participation in the evaluation and care of older persons with psychopathology, such as intellectual impairment and depression, in a variety of settings. Emphasis on improving clinical skills regarding diagnosis and treatment of common behavioral problems in the elderly. Prerequisite: satisfactory completion of required psychiatry clerkship, vehicle required for this rotation.

PBSCI 688 P-Subinternship in General Psychiatry (*, max. 16) Students function as interns under the supervision of house staff and attending psychiatrists. Further development of their diagnostic and therapeutic skills emphasized. Special areas of interest, such as family intervention, substance abuse, psychoses, neuropsychiatry, community psychiatry, administration, research pursued. (Four or six weeks, full-time). Prerequisite: satisfactory completion of required psychiatry clerkship; permission of instructor.

PBSCI 689 P-Subinternship in General Psychiatry - Spokane, WA (8, max. 16) Students function as interns under the supervision of house staff and attending psychiatrists. Further development of their diagnostic and therapeutic skills emphasized. Special areas of interest, such as family interventions, substance abuse, psychoses, neuropsychiatry, community psychiatry, administration, research pursued. (Four or six weeks, full time.) Prerequisite: Satisfactory completion of required psychiatry clerkship, instructor permission. Offered: AWSpS.
PBSCI 695 P-Advanced Clerkship in Child Psychiatry - CSTC (*, max. 24) Provides an opportunity to participate in evaluation and treatment of children and adolescents in Lakewood, WA. Prerequisite: satisfactory completion of required psychiatry clerkship; fourth year medical student status. 2/4/6 weeks.

PBSCI 696 P-Advanced Clerkship in Child Psychiatry (*, max. 24) Provides students an opportunity to participate in evaluation and treatment. Experiences in specialized clinics are also available. (Four or six weeks, full-time. Limit: one student). Prerequisite: satisfactory completion of required psychiatry clerkship.

PBSCI 697 P-Psychiatry Special Electives (*, max. 24) By special arrangement, clerkships, externships, and research opportunities can be taken at other institutions. Students obtain permission from Dr. Combs before contacting the dean's office one month before advance registration. Students contact affiliating institutions. Does not fulfill the requirement for a basic clerkship in psychiatry.

PBSCI 699 P-WWAMI Psychiatry and Behavioral Sciences Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.
Radiation Oncology

Department Overview

NN106 University of Washington Medical Center

Radiation oncology is the branch of clinical medicine that utilizes high-energy radiation to treat disease, usually cancer. The department consists of three divisions: clinical radiation oncology, medical radiation physics, and experimental cancer biology. Training programs are offered in all three divisions. Research programs in the department are aimed at the physical and biological mechanisms of interactions between ionizing radiations, and normal and malignant tissues, with particular emphasis on high linear energy transfer (LET) radiation effects. The department is actively involved in radiation treatment planning work, particularly in regard to intensity modulated radiation therapy (IMRT). Other programs involve the application of positron emission tomography (PET) to elucidate differences between cancers and normal tissues, and the development of specialized radiopharmaceuticals.

Course Descriptions

R ONC 499 Undergraduate Research (*, max. 51) R. Ermoian, U. Parvathaneni, M. Phillips, D. Wilbur Opportunities in clinical or laboratory investigation in radiation oncology, radiation physics, or computer-related research. Student participation in ongoing or new projects. Open to students in the biological or physical sciences.

R ONC 505 P-Radiation Oncology Preceptorship (1, max. 12) Kane, Kelly, Kim, Koh, Laramore, Liao, Patel, Rockhill, Russell Students choose either to follow an attending physician through all aspects of radiation oncology including consults, follow-up, and treatment planning; or to follow a small cohort of patients throughout their treatment course to learn about the experience of a cancer patient undergoing treatment for life-threatening disease. Credit/no-credit only.

R ONC 600 Independent Study or Research (*) Prerequisite: permission of department and faculty sponsor. Offered: AWSpS.

R ONC 694 P-Clinical Cancer Management - SCCA (*, max. 8) Participation in the clinical management of patients with cancer, emphasizing a multi-modality approach. Includes clinical assessment, planning of radiation treatment, and follow-up evaluation of patients. Special procedures include three-dimensional treatment planning, implant brachytherapy, and intraoperative radiation. Daily teaching conferences with faculty and residents. Prerequisite: medicine core clerkship or permission of instructor.

R ONC 695 P-Clinical Cancer Management - UWMC (*, max. 8) Participation in the clinical management of patients with cancer, emphasizing a multi-modality approach. Includes clinical assessment, planning of radiation treatment, and follow-up evaluation of patients. Special
procedures include three-dimensional treatment planning, implant brachytherapy, and intraoperative radiation. Daily teaching conferences with faculty and residents. Prerequisite: medicine core clerkship or permission of instructor. Instructors: Kane

**R ONC 697 P-Radiation Oncology Special Elective (*, max. 24)** By specific arrangement for qualified students, special clerkship, externship, or research opportunities are made available at institutions other than the University of Washington. Students obtain a "special assignment" form from the dean's office at least one month before advance registration. Prerequisite: permission of instructor. Instructors: Kane

**R ONC 699 P-WWAMI Radiation Oncology Special Electives (*, max. 24)** By special arrangement for qualified students, special clerkships or externships may be available at institutions located within the WWAMI region, other than the University of Washington. Prerequisite: permission of department. Instructors: Kane
Radiology

Department Overview

RR215 University of Washington Medical Center

Diagnostic radiology is that branch of clinical medicine that specializes in interpretation of various imaging modalities in order to detect, to characterize, and (with increasing frequency) to treat a wide variety of diseases. Historically, x-rays were the first energy source utilized for these purposes, and they continue to be a mainstay of this discipline. More recently, the armamentarium has grown to include ultrasound, computed tomography, magnetic resonance, and positron-emission tomography. In nuclear medicine, one of radiology's major subspecialties, radionuclides are employed for both diagnostic and therapeutic purposes. Another subspecialty is interventional radiology, wherein aspirations and biopsies, as well as therapeutic procedures such as abscess drainage, tumor embolization, and vascular stents are performed percutaneously.

The department consists of two clinical divisions: diagnostic radiology and nuclear medicine. Both are supported by technologists and faculty in radiation physics. Instruction is provided for medical students, residents, and fellows as well as for other physicians. The faculty and its teaching and research activities are represented in each hospital affiliated with the University.

Course Descriptions

RADGY 498 Undergraduate Thesis (*, max. 30) Supervised clinical and/or laboratory research in the broad field of medical imaging, culminating in a thesis. Offered: AWSpS.

RADGY 499 Undergraduate Research (*, max. 35) Opportunity to gain research experience and direct participation in either clinical or basic sciences investigation in diagnostic and/or nuclear medicine. Offered: AWSpS.

RADGY 505 P-Preceptorship in Radiology (1-, max. 24) Opportunity for medical students to gain experience with faculty in clinical and academic environments. Students observe general aspects of diagnostic radiology, interventional radiology, or nuclear medicine, including clinical problems, the different relationships in clinic between physician and patient, and research aspects of the department. Prerequisite: permission of instructor. Offered: AWSpS.

RADGY 508 Physical Aspects of Medical Imaging (4) Quantitative physical principles of medical imaging are presented for electromagnetic and sonic radiation. Methods of image formation and analysis are discussed for conventional film radiography, CT, DSA, PET, B-mode ultrasound, and Doppler ultrasound.

RADGY 580 P-Nuclear Medicine Technique, Physics, and Instrumentation (2.5) Provides familiarization with basic nuclear phenomena and with the instrumentation used in the practice
of nuclear medicine. Discussions and laboratory exercises. Practical experience in instrument operation and sample counting are provided. Prerequisite: permission of instructor. Offered: S.

RADGY 600 Independent Study or Research (*-*) Prerequisite: permission faculty sponsor. Offered: AWSpS.

RADGY 685 P-Introduction to Diagnostic Radiology - Bozeman (4/8) Overview of the subspecialty areas of diagnostic radiology and nuclear medicine. Emphasizes utilization and selection of imaging tests, radiologic anatomy, and interpretation of commonly encountered studies.

RADGY 686 P-Introduction to Diagnostic Radiology - Idaho Falls (4) Overview of the subspecialty areas of diagnostic radiology and nuclear medicine. Emphasizes utilization and selection of imaging tests, radiologic anatomy, and interpretation of commonly encountered studies.

RADGY 687 P-Introduction to Diagnostic Radiology - Casper (4) Overview of the subspecialty areas of diagnostic radiology and nuclear medicine. Emphasizes utilization and selection of imaging tests, radiologic anatomy, and interpretation of commonly encountered studies. Offered: AWSpS.

RADGY 688 P-Introduction to Diagnostic Radiology - Boise (4)

RADGY 689 P-Introduction to Diagnostic Radiology - Billings (4) Lectures, case discussions, film reading, and independent study provide an overview of the subspecialty areas of diagnostic radiology and nuclear medicine. Emphasis on utilization and selection of imaging tests, radiologic anatomy, and interpretation of commonly encountered studies. Offered: AWSpS.

RADGY 690 P-Introduction to Diagnostic Radiology - Nampa (4) Half-time clerkship in the field of medical imaging. Lectures, case discussions, film reading, and independent study provide an overview of the subspecialty areas of diagnostic radiology and nuclear medicine. Emphasis on utilization and selection of imaging tests, radiologic anatomy, and interpretation of commonly encountered studies. Offered: AWSpS.

RADGY 691 P-Introduction to Diagnostic Radiology - Alaska (4) Half-time clerkship in the field of medical imaging. Lectures, case discussions, film reading, and independent study provide an overview of the subspecialty areas of diagnostic radiology and nuclear medicine. Emphasis on utilization and selection of imaging tests, radiologic anatomy, and interpretation of commonly encountered studies. Offered: AWSpS.

RADGY 692 P-Introduction to Diagnostic Radiology - Spokane (4) Half-time clerkship in the field of medical imaging. Lectures, case discussions, film reading, and independent study provide an overview of the subspecialty areas of diagnostic radiology and nuclear medicine. Emphasis on utilization and selection of imaging tests, radiologic anatomy, and interpretation of commonly encountered studies. Offered: AWSpS.
RADGY 694 P-Advanced Radiology Clerkship (4/8)  *G. REDDY* Clerkship for third- or fourth-year medical students providing a more in depth experience in diagnostic or interventional radiology. Prerequisite: Offered: AWSpS.

RADGY 695 P-Radiology Elective Clerkship (8) Clinical rotations for third- or fourth-year medical students in one to four subspecialty areas of radiology at University of Washington and affiliated hospitals for those who have not previously completed a radiology clerkship. Offered: AWSpS.

RADGY 696 P-Nuclear Medicine Clerkship (*, max. 12) Daily participation at University of Washington Medical Center nuclear medicine clinic emphasizing technical performance, diagnostic interpretation, and clinical relevance of nuclear imaging. Daily clinical teaching conferences of the division. Four- and six-week clerkships can be preplanned in areas such as pulmonary, cardiovascular, renal, bone, computer analysis. Prerequisite: permission of instructor. Offered: AWSpS.

RADGY 697 P-Radiology Special Electives (*, max. 24) Radiologic training in a nonaffiliated institution. Permission and arrangements must be made at the time of registration through direct communication between the student and the education coordinator in Radiology. A written outline from a preceptor at the intended site required. Prerequisite: permission of radiology education coordinator. Offered: AWSpS.

RADGY 699 P-WWAMI Radiology Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.
Rehabilitation Medicine

Department Overview

BB928 Health Sciences

The Department of Rehabilitation Medicine provides education for medical students, interns, residents, and allied health students in occupational therapy, physical therapy, and prosthetics and orthotics in a comprehensive approach to rehabilitation problems. This includes special diagnostic and evaluative procedures; methods and rationale in the application of principles of occupational therapy, physical therapy, prosthetics and orthotics, and other health professions; and advanced investigation of special problems encountered in the field. In addition, the department conducts a residency training program for the specialty of physical medicine and rehabilitation.

The department offers curricula leading to the following degrees: Master of Occupational Therapy, Doctor of Physical Therapy, Master of Prosthetics and Orthotics, and a PhD in rehabilitation science.

Occupational Therapy

Head
Janet M. Powell

The profession of occupational therapy appeals to people who enjoy thinking creatively and flexibly to solve problems, and who want to help people with disabilities perform activities important in their daily lives. Occupational therapists provide services related to occupational performance (activities) in everyday life in the areas of self-care, work, education, or play and leisure. They work with people who have physical illness or injury, social or emotional difficulties, congenital or developmental problems, or who are in need of preventive strategies to enhance health and well-being; and with people in all age groups from diverse cultural and ethnic groups and socioeconomic levels.

Occupational therapists help people with impairments or limitations live as productive and as high quality of life as possible. Services focus on increasing independence, enhancing development, providing compensatory strategies, and minimizing or preventing disability. Therapists adapt activities and environments, select therapy activities meaningful to clients, and provide client, family, and caregiver education. For example, an occupational therapist may teach adaptive dressing techniques to a client who has lost use of a hand following a stroke, help a child with autism interact with peers, or modify a computer for a young adult with a spinal cord injury returning to work.

Today's occupational therapists practice in rehabilitation centers, outpatient rehabilitation clinics, schools, hospitals, mental health facilities, private practice, skilled nursing facilities, home
healthcare, and community health programs. The most common work settings for occupational therapists are school systems, hospitals, and long-term care facilities. The current and future job outlook for occupational therapists is excellent. The occupational therapy program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA) located at 4720 Montgomery Lane, Suite 200, Bethesda, MD, 20814-3449. ACOTE's telephone number, c/o AOTA, is 301-652-2682 and its web address is www.acoteonline.org. Standards comply with the U.S. Department of Education criteria for recognition of accrediting agencies. Graduates of the program are eligible to sit for the national certification examination for occupational therapists. The National Board for Certification in Occupational Therapy (NBCOT) is the certifying agency responsible for development and implementation of this examination. All states currently require state licensure in order to practice.

Master of Occupational Therapy

Admission Requirements

1. Bachelor's degree in any major and Graduate Record Examination (GRE) taken within the past five years. Seven prerequisite courses as shown below. Volunteer or work experience in at least two practice areas of occupational therapy. Admission is once a year for entry autumn quarter; applications are due November 1.

2. Specific prerequisite courses at the UW. (Students who have attended schools other than the UW must take comparable courses.)
   a. Natural Sciences: BIOL 118; B STR 301; CHEM 120; EDPSY 490
   b. Social Sciences: PSYCH 305; PSYCH 306; SOC 110 or ANTH 202

3. Requirements to Apply: Completion of five prerequisite courses, including three courses in the natural sciences; 3.00 minimum GPA in prerequisite courses with no single course graded less than 2.7. Applicants must have a cumulative college-level grade point average of at least a 3.00 (B) to be considered for admission. This includes all baccalaureate and post-baccalaureate courses. Admission is based on academic ability, communication skills, and understanding and experience in occupational therapy. Detailed program requirements and selection process information are available by consulting the program's website at rehab.washington.edu/education/degree/ot, by emailing ot@uw.edu, or by calling 206-598-5764.

Degree Requirements

Courses: To be completed in the scheduled sequence, beginning autumn quarter only, at the UW: REHAB 510, REHAB 520, REHAB 522, REHAB 533, REHAB 541, REHAB 542, REHAB 543, REHAB 544, REHAB 545, REHAB 548, REHAB 551, REHAB 564, REHAB 570, REHAB 571, REHAB 572, REHAB 574, REHAB 575, REHAB 576, REHAB 577, REHAB 578, REHAB 579, REHAB 580, REHAB 581, REHAB 582, REHAB 584, REHAB 585, REHAB 591, and REHAB 594.
GPA Requirement: cumulative 3.00 GPA in all required professional coursework to retain satisfactory standing and to graduate. Detailed scholastic requirements are available on the program's website at rehab.washington.edu/education/degree/ot/.

Continuation Policy: If at any point the OT curriculum cumulative GPA falls below 3.00, the student is placed on academic probation and must raise the GPA to 3.00 by the end of two subsequent quarters. Students unable to remove their probation status are subject to dismissal from the program. If a student receives a grade below 2.7 in a required course, continuation in the program is reviewed and determined by the Occupational Therapy Advisory and Evaluation Committee.

Fieldwork Placement: The student must satisfactorily complete all academic coursework before taking the two required Level II Fieldwork placements (REHAB 594). Both fieldwork placements must be satisfactorily completed within 24 months following completion of the academic portion of the program in order to graduate.

For more information on the Master of Occupational Therapy program, visit the department's website at rehab.washington.edu/education/degree/ot/.

Physical Therapy

Interim Head
Sarah Westcot McCoy

Physical therapy is a direct form of professional patient care that can be applied in most disciplines of medicine. The principal objective in physical therapy is to restore or improve motor function in individuals with musculoskeletal or neuromuscular conditions.

Management of problems related to motor function is only part of the work of physical therapy. Equally important is rebuilding self-confidence and creating a desire to return to a normal, active life. Other primary objectives of physical therapy are prevention of disability and pain, and training in mobility skills for those who must adapt to permanent disability.

As a consequence of the scope of the profession, physical therapists function in a variety of settings, the most familiar being the hospital. Physical therapists also plan, provide, evaluate, and direct patient care in outpatient clinics, rehabilitation centers, health maintenance organizations, developmental centers, home-health agencies, schools, extended-care facilities, voluntary health programs, industry, and private practices. The physical therapist may be found anywhere quality healthcare is needed. Increasingly, physical therapists are becoming involved in basic and clinical research, such as the academic community, either as full-time faculty members or as supervisors of clinical education, and as consultants in local, state, and federal health-planning activities.

Physical therapists function in compliance with the licensing laws and ethical principles that govern the practice of physical therapy. The steps to licensure as a physical therapist vary slightly from state to state, but all physical therapists graduate from an accredited curriculum of
physical therapy that includes a specific period of clinical training. As physical therapy relates to the majority of medical specialties, the education program is broad in scope, including an emphasis on physical and social sciences. The physical therapist evaluates the patient's problem by testing such factors as range of joint motion, muscle strength, posture and gait, pulmonary function, sensory perception, orthotic and prosthetic fit, reflexes and muscle tone, and functional skills. Intervention procedures used may include ultrasound, superficial heat and cold, electrical stimulation, massage, traction, joint mobilization, biofeedback, therapeutic exercise, and assisted ambulation training.

As with all professionals in health fields, physical therapists are responsible for subscribing to a program of continuing education. Some therapists also develop the knowledge and skills of a specialist via continuing education and concentrated practice in one area, such as sports or pediatric therapy. A formal mechanism for certifying specialists is implemented by the national professional association, the American Physical Therapy Association.

The University of Washington program in physical therapy is accredited by the American Physical Therapy Association Commission on Accreditation in Physical Therapy Education. For complete program details visit rehab.washington.edu/education/degree/pt.

**Doctor of Physical Therapy**

**Admission Requirements**

1. Enrollment is limited to 44 students each year and admission is competitive.
2. Application is restricted to those who are U.S. citizens or U.S. permanent residents by the autumn program entrance date.
3. Applicants are required to submit scores from the General Test portion of the Graduate Record Examinations (GRE).
4. Prior to the application deadline of November 1, the student must have met the following academic requirements:
   a. Minimum 3.00 GPA on all college-level courses
   b. Minimum 3.00 GPA on PT prerequisite courses
   c. Minimum 2.0 (C) grade on each PT prerequisite course
   d. Half (50%) of PT prerequisite courses completed. For a list of PT prerequisite course descriptions, see the program Website at depts.washington.edu/rehab/pt/eligibility.asp#prereq
5. Minimum requirements above must be maintained until program entrance and all prerequisite courses must be finished at that time. Applicants must complete a bachelor's degree before they start the program.
6. Most clinical internship placement sites require potential trainees to undergo a criminal history background check for crimes against vulnerable populations. To ensure that all students offered positions in the PT program have no such history and therefore are able to finish the clinical portion of the curriculum, the completion of a criminal background check process is required of applicants accepting admission.
Degree Requirements

157 credits, as follows:

1. Year One
   a. Autumn Quarter: REHAB 504, REHAB 509, REHAB 517, REHAB 521, REHAB 522, REHAB 541, REHAB 544
   b. Winter Quarter: REHAB 506, REHAB 517, REHAB 533, REHAB 542, REHAB 545, REHAB 551
   c. Spring Quarter: REHAB 507, REHAB 517, REHAB 525, REHAB 533, REHAB 536, REHAB 543, REHAB 548
   d. Summer Quarter: REHAB 500, REHAB 508, REHAB 517, REHAB 537, REHAB 538, REHAB 540

2. Year Two
   a. Autumn Quarter: REHAB 510, REHAB 511, REHAB 523, REHAB 547, REHAB 566
   b. Winter Quarter: REHAB 502, REHAB 512, REHAB 527, REHAB 529
   c. Spring Quarter: REHAB 502, REHAB 503, REHAB 531, REHAB 566, REHAB 569
   d. Summer Quarter: REHAB 505, REHAB 514, REHAB 535, REHAB 515, REHAB 567, REHAB 801

3. Year Three
   a. Autumn Quarter: REHAB 595, REHAB 801
   b. Winter Quarter: REHAB 595, REHAB 801
   c. Spring Quarter: REHAB 595, REHAB 801

Prosthetics and Orthotics

Division Director
Ann Yamane

The prosthetist-orthotist is a member of the rehabilitation healthcare team, which also includes physicians, surgeons, physical and occupational therapists, psychologists, vocational rehabilitation counselors, and other appropriate specialists. The interdisciplinary rehab team works with physically challenged individuals to increase their functional abilities, enhance their daily life, and help them to participate in activities they enjoy.

Certified Prosthetists Orthotists (CPOs) provide direct patient care and management. CPOs work in conjunction with physicians, surgeons, and therapists to evaluate the prosthetic or orthotic needs of the patient. Prostheses replace or substitute for a missing limb or part of a limb, and orthoses help with the control of motion and the support of a weakened body segment. Before
designing a specific device, the prosthetist-orthotist examines a patient to find any conditions that might affect the future success of that device. Following the evaluation, the prosthetist-orthotist obtains an impression of the affected segment along with the appropriate measurements. A technician fabricates the prosthesis or orthosis, and the prosthetist-orthotist assesses the fit and function of the device and follows up with the patient, as necessary. To evaluate the fit and function, the prosthetist-orthotist must have a detailed knowledge of anatomy and kinesiology, joint range of motion, muscle strength, human locomotion, material science, and the human-device interaction.

Graduate Program Coordinator

pando96@uw.edu

The prosthetics and orthotics division offers the following program of study:

- The Master of Prosthetics and Orthotics degree

**Master of Prosthetics and Orthotics**

**Admission Requirements**

1. Bachelor's degree in any major from a regionally accredited U.S. college or university
2. Minimum 3.00 cumulative GPA
3. Prior to the start of the program, all prerequisites must be completed, including one course each in the areas of biology* (or other life science), statistics, and chemistry*; a two-course series in the areas of (1) anatomy and physiology and (2) physics*, and two courses in psychology (to include a general psychology course as well as either a developmental or abnormal psychology course). Laboratories must be taken with courses marked with an asterisk*.
4. Minimum 3.00 cumulative prerequisite GPA. No single course graded less than 2.0. Grades lower than 2.0 are not accepted.
5. GRE general test scores. Test must be taken within the past five years.
6. Volunteer or work experience in a prosthetics-orthotics clinic is strongly encouraged
7. Admission is competitive based on scholastic achievement, written skills, references, and involvement in activities or experiences related to the health professions.
8. Admission occurs once a year for entry autumn quarter; applications are evaluated starting November 1.
9. International applicants must meet several requirements in addition to those required of U.S. applicants to be admitted to the UW Graduate School. Consult the FAQs on the UW Graduate School website for more information.

See program [website](#) for complete details on admissions requirements.
Degree Requirements

112 credits as follows:

1. Courses: To be satisfactorily completed in a specific sequence beginning autumn quarter of entry year, and only at the UW: REHAB 522, REHAB 544, REHAB 541, REHAB 504, REHAB 509, RHB PO 511, RHB PO 501, REHAB 533, REHAB 545, REHAB 542, REHAB 551, REHAB 506, RHB PO 515, REHAB 548, REHAB 543, RHB PO 512, RHB PO 581, RHB PO 541, RHB PO 502, RHB PO 521, RHB PO 522, RHB PO 523, REHAB 580, RHB PO 561, REHAB 510, RHB PO 524, RHB PO 525, RHB PO 526, RHB PO 527, RHB PO 581, RHB PO 582, RHB PO 562, RHB PO 562, RHB PO 528, RHB PO 529, RHB PO 583, RHB PO 563, RHB PO 530, RHB PO 531, RHB PO 534, RHB PO 558, RHB PO 584, RHB PO 564.

2. Grade Requirements: A student must maintain a minimum 3.00 cumulative program GPA, and receive "credit" grades in all courses graded credit/no credit only, to maintain good standing in the program and be eligible for graduation.

3. Continuation Policy: If at any point the cumulative GPA in the curriculum courses falls below 2.70, the student is placed on academic probation. In order to be removed from probation, the student must achieve a cumulative GPA of 3.00 by the end of two consecutive quarters, or within a time frame designated by the Advisory and Evaluation Committee. If a student is unable to remove his or her probation status, he or she is subject to dismissal from the program.

Post-Professional Programs

Doctor of Philosophy in Rehabilitation Science

Director
Deborah Kartin

Rehabilitation science is an interdisciplinary field that focuses on human function and disability. Basic and applied research from health sciences, social sciences, engineering, and related fields is directed toward (1) enhancing physical and psychosocial functioning, participation in life situations, and quality of life for people with disabilities; and (2) informing relevant social and healthcare policy.

The program targets students from diverse backgrounds in rehabilitation-related fields including occupational therapy, physical therapy, speech and language pathology, rehabilitation counseling, medicine, nursing, prosthetics and orthotics, and engineering.

The goal of the PhD program in rehabilitation science is to prepare future researchers, educators, and leaders in the area of rehabilitation science. Graduates contribute to the field of rehabilitation science, working in settings such as academic and research institutions, service delivery systems (e.g., hospitals, public schools), government agencies, and the private sector. These individuals
are prepared to address research, education, service delivery, and policy issues from an interdisciplinary perspective.

1. Demonstrate advanced knowledge and productivity in rehabilitation science specific to research, education, service delivery, and/or policy.
2. Demonstrate leadership in interdisciplinary collaboration for the purpose of optimizing research, education, service delivery, and/or policy.
3. Generate and extend knowledge that is innovative and rigorously tested within a focused area of rehabilitation science.

**Admission Requirements**

1. Baccalaureate degree from a college or university of recognized rank
2. Copy of current professional certification/licensure to practice (as appropriate)
3. Letters of recommendation from three persons knowledgeable about the individual's potential for doctoral-level work in rehabilitation science
4. Letter of application
5. Resume/CV
6. Official university transcripts
7. Official Graduate Record Examination (GRE) General Test Scores

**Degree Requirements**

100 credits minimum, as follows:

Core course series (21 credits): coursework and practicum experiences in teaching (minimum 5 credits), and coursework in statistics and research methods (minimum 18 credits). In addition, each student must complete three cognates (minimum 6 credits each) specific to the student's goals. The student's committee and the core faculty in the rehabilitation science doctoral program must approve the entire course of study.

General requirements: In addition to meeting all requirements of the UW Graduate School, all students are expected to meet the following general requirements.

1. Minimum 3.00 cumulative and quarterly GPA.
2. 100 credits minimum, of which 27 are dissertation credits.
3. Completion of at least one teaching practicum (3-credit minimum).
4. Satisfactory completion of a research and scientific inquiry day manuscript and presentation.
5. Satisfactory completion of general examinations.
7. Final examination.

For more information on the PhD program in rehabilitation science, visit the program's website at rehab.washington.edu/education/degree/rehabsci/.

Course Descriptions

Prosthetics and Orthotics

RHB PO 501 Prosthetics and Orthotics Skills (1) Emphasizes the development of psychomotor skills for the application of contemporary technology uses. Practice and discussion of material and design theories related to durability, weight, and ease of fabrication to encourage problem-solving skills for independent practice. Credit/no-credit only. Offered: A.

RHB PO 502 Professional and Practice Issues (1) Provides an overview of professional and practice issues in prosthetics and orthotics. Includes discussion of healthcare, policy, and systems; introduction to reimbursement, Medicare and Medicaid rules and regulations; practice management; bioethics; professional organizations; legislative issues; and medical ethics and compliance. Offered: Sp.

RHB PO 511 Upper Limb Prosthetics I (4) Covers upper limb prosthetics providing students with background knowledge of rehabilitation planning and principles of below elbow prosthetic management and prescription consideration. With direct patient contact, students assess and then formulate, implement, and evaluate a prosthetic treatment plan. Offered: A.

RHB PO 512 Upper Limb Prosthetics II (4) Integrates principles from upper limb prosthetics I, focusing on above-elbow prosthetic management. Encourages critical thinking and appropriate clinical decision-making through discussions and case study exercises that include body-powered, externally-powered, and hybrid systems. Offered: Sp.

RHB PO 515 Upper Limb Orthotics (3) Focuses on the integration of information acquired in previous foundational courses in anatomy and patient evaluation procedures with knowledge and skills of orthotic principles and theories related to upper limb orthotic interventions and patient management.

RHB PO 521 Lower Limb Prosthetics and Orthotics I: Theory and Application (5) Integrates prior core foundational knowledge (anatomy, kinesiology, medical science, gait analysis, patient evaluation procedures, and functional skills) with new knowledge of prosthetic and orthotic theory, patient evaluation, and clinical practice. Analyzes, evaluates, and synthesizes principles and theories in developing intervention plans for individuals with lower limb dysfunction or amputation. Offered: S.

RHB PO 522 Lower Limb Prosthetics I: Clinical Practice (4) Explains and applies biomechanical principles of prosthetic gait and alignment to treatment of individuals with amputations below the knee. Students develop individualized treatment plans that demonstrate analysis of client needs, application of transtibial socket design, prescription principles, and
components. Integrates knowledge of available research and protocols into the planning process. Offered: S.

**RHB PO 523 Lower Limb Orthotics I: Clinical Practice (4)** Utilizes patient evaluation skills and applies knowledge of pathology, anatomy, biomechanics, and orthotic theory and principles to evaluate and provide orthotic treatment plans for individuals with lower extremity dysfunction. Students refine professional skills and behavior and develop psychomotor and cognitive skills required for patient care. Offered: S.

**RHB PO 524 Lower Limb Prosthetics and Orthotics II: Theory and Application (5)** Integrates prior foundational knowledge acquired in RHB PO 521 with new knowledge and skills of prosthetic and orthotic theory and practice. Students actively analyze, evaluate, and synthesize principles and theories in the development of prosthetics/orthotics intervention plans for individuals with lower limb dysfunction or amputation. Prerequisite: RHB PO 521. Offered: A.

**RHB PO 525 Lower Limb Prosthetics II: Clinical Practice (3)** Includes advanced instruction in concepts and skills developed in Lower Limb Prosthetics I. Offered: A.

**RHB PO 526 Lower Limb Orthotics II: Clinical Practice (3)** Utilizes patient evaluation skills and applies knowledge of pathology, anatomy, biomechanics, and orthotic theory and principles to evaluate, develop, and provide orthotic treatment plans for individuals with lower extremity dysfunction. Students refine professional skills and behavior and develop psychomotor and cognitive skills required for patient care. Offered: A.

**RHB PO 527 Pediatric Prosthetics and Orthotics (2)** Focuses on the integration of information from previous coursework focusing on specific pediatric medical conditions and interventions. Includes discussion of pathology/pathophysiology, etiology, clinical presentation, natural history, and surgical and medical management. Discusses implications of various medical interventions and their functional considerations based on the available literature. Offered: ASp.

**RHB PO 528 Lower Limb Prosthetics III: Theory and Application (5)** Develops individualized prosthetic treatment plans based on a comprehensive knowledge of prosthetic gait, alignment, transfemoral socket design, and component principles. Develops support treatment plans by integrating knowledge of available research and treatment protocols into the decision-making process. Offered: W.

**RHB PO 529 Lower Limb Prosthetics III: Clinical Practice (6)** Advanced instruction in application of biomechanical principles of prosthetic gait and alignment to treatment of individuals with amputations above the knee. Includes obtaining histories, assessing physical function, and taking residual limb impressions and measurements to prove prosthetic care. Offered: W.

**RHB PO 530 Lower Limb Orthotics III: Theory and Application (4)** Integrates knowledge and competencies from prior courses with new knowledge of orthotics management of the lower
limb involving the knee and hip. Students acquire knowledge of components and design options for dysfunction of the hip and knee. Offered: WSp.

**RHB PO 531 Lower Limb Orthotics III: Clinical Practice (4)** Integrates prior knowledge of design principles, material science, and fabrication process; acquires knowledge of components and design options; and analyzes efficacy of orthotic treatment plans in achieving desired biomechanical goals and outcomes. Offered: WSp.

**RHB PO 532 Spinal Orthotics (5)** *Yamane* Integrates competencies gained from core foundational courses with additional theories and principles of orthotic management of spinal pathologies including scoliosis, trauma, and congenital and degenerative etiologies. Offered: Sp.

**RHB PO 533 Spinal Orthotics I (2)** Integrates prior knowledge (anatomy, physiology, patient evaluation skills) obtained in the foundational courses with knowledge and skills of orthotic theory and practice related to trauma and degenerative etiologies. Learning is achieved through lectures, discussion, and laboratory experiences. Offered: AWSp.

**RHB PO 534 Spinal Orthotics II (3)** Integrate prior knowledge of anatomy, physiology, and clinical evaluation with knowledge and skills of orthotic theory and practice related to scoliosis and kyphosis. Learning is achieved through lectures, discussion, and laboratory experiences.

**RHB PO 541 Engineering Concepts (2)** Solves problems based on principles of mechanics, strength of materials, force analyses, and fatigue that are related to prosthetic and orthotic design. Applies basic science to component failure. Discusses fiber reinforced materials, thermoforming plastics and hydraulic knee units. Offered: Sp.

**RHB PO 561 Clinical Rotation I (2)** Students actively observe patient care, perform patient histories and evaluation procedures, and develop clinical patient care psychomotor skills under the guidance and mentorship of clinical preceptors. Offered: S.

**RHB PO 562 Clinical Rotation II (1)** Students actively observe patient care, perform patient histories and evaluation procedures, and develop clinical patient care psychomotor skills under the guidance and mentorship of clinical preceptors. Offered: A.

**RHB PO 563 Clinical Rotation III (1)** Students actively participate in the provision of prosthetics and orthotics treatment services and develop clinical patient care skills under the mentorship of clinical preceptors. Offered: W.

**RHB PO 564 Clinical Rotation IV (1)** Students actively participate in the provision of prosthetics and orthotics treatment services and refine clinical patient care, decision-making, and problem-solving skills under the mentorship of clinical preceptors. Offered: Sp.

**RHB PO 581 Outcome Measures for the Prosthetics and Orthotics Clinic (2)** Examines development and use of health-related outcome measures. Focuses on the relationship between measurement constructs and patient populations as well as psychometric properties. Students select, implement, and critically evaluate patient outcome measures. Offered: Sp.
RHB PO 582 Critical Evaluation of the Prosthetics and Orthotics Literature (1) Examines and applies appropriate methods of analyzing prosthetics/orthotics literature. Offered: A.

RHB PO 583 Evidence Based Practice I (3) Focuses on the use and critical evaluation of evidence to answer clinical problems. Encourages students to become consumer of evidence by developing an understanding of how to acquire and incorporate evidence into routine clinical practice. Offered: W.

RHB PO 584 Evidence Based Practice II (3) Covers developing a treatment plan based on theory, evidence, and experience; and proposing a quantitative and qualitative assessment strategy to evaluate the developed treatment. Encourages students to become consumers of evidence to answer clinically relevant questions. Offered: Sp.

Rehabilitation Medicine

REHAB 300 Introduction to Occupational Therapy (1) Introduction to occupational therapy profession. Provides historical perspectives, theoretical foundations, and clinical case studies in various practice arenas. Credit/no-credit only.

REHAB 496 Special Topics in Rehabilitation (1-9, max. 14) Guided opportunity for in-depth study in specific areas of rehabilitation. Topics vary.

REHAB 498 Undergraduate Thesis (*, max. 15)

REHAB 499 Undergraduate Research (*, max. 15) Opportunity to design, perform, and analyze research investigation in problem areas in rehabilitation medicine. These include clinical and basic research problems in, for example, head and spinal injury, chronic disease, pain neurophysiology, electrodiagnosis, communication, and bioengineering.

REHAB 500 Clinical Clerkship in Physical Therapy (4) Robinson Observation, instruction, and supervised practice in treatment of patients in diverse clinical settings. Emphasis is given to the application of previously learned material and skills to specific clinical problems. Required for physical therapy students. Credit/no-credit only.

REHAB 502 Pediatric Physical Therapy (4-, max. 8) C. Kerfeld Provides foundational knowledge in development and an overview of pediatric physical therapy practice for children with atypical development. Presents examination, evaluation, and development of physical therapy plans of care for children with various disabilities within the frameworks of family-centered care and disablement models.

REHAB 503 Lifespan III: Geriatric Physical Therapy (3) Matsuda Theory and principles of exercise procedures used when treating the geriatric patient. Includes a discussion of age related changes in the systems essential to movement control; factors contributing to physical disability and frailty with aging; adaptation of assessment and treatment procedures to the geriatric patient. Lectures and laboratories.
REHAB 504 Procedures I: Basic Physical Examination of the Extremities (2) M. Maitland, S. Rundell Develops technical skills and theoretical foundations in the examination of patients from a neuromusculoskeletal perspective. Special emphasis on examination of the extremities, including applied anatomy, posture, screening tests, special tests, and scanning exams.

REHAB 505 Introduction to Pharmacology (2) D. MACK Pharmacological survey of drugs commonly prescribed for clients seen in a physical therapy practice setting. Presentations on basic principles. Additional data search and group reports. Overview of medical emergencies.

REHAB 506 Procedures II: Basic Physical Examination of the Spine (2) Bennett Develops technical skills and theoretical foundations in the examination of patients from a neuromusculoskeletal perspective. Emphasizes examination of the spine including applied anatomy, posture, screening tests, special tests, and scanning exams.

REHAB 507 Physical Therapy Procedures III: Modalities (3-4) T. Gilbertson Principles and practice of physical therapy clinical treatment procedures utilizing therapeutic modalities. Lecture and laboratory format.

REHAB 508 Principles of Therapeutic Exercise (5) E. MCGOUGH Theory, principles, and practice of exercise procedures used for treatment purposes in physical therapy, including motor learning, variables of motor performance, and exercise prescription. Lectures and laboratories. Simulated patient problems.

REHAB 509 Rehabilitation Procedures: Functional Skills Assessment (1) Robinson Development of clinical competence in assessment and training of basic patient functional skills, including handling techniques, transfers, and assisted ambulation.

REHAB 510 Rehabilitation Psychology (2) Patterson Focuses on understanding assimilation of disability, participation in rehabilitation, management of behavior, and maintenance of performance from both the practitioner and patient perspective. Focuses on the role of the psychologist in the rehabilitation team. Includes case study and case conference materials.

REHAB 511 Musculoskeletal IV: Clinical Management (5) Bennett Physical therapy clinical evaluation and management of patients with musculoskeletal dysfunction. Special emphasis on upper quadrant anatomy. Lecture and laboratory format.

REHAB 512 Musculoskeletal V: Clinical Management (3-4, max. 8) M. Maitland, S. Rundell Physical therapy clinical evaluation and management of patients with musculoskeletal dysfunction. Special emphasis on upper and lower extremity musculoskeletal conditions. Lecture, laboratory and simulation learning format.

REHAB 513 Special Studies in Physical Therapy (1-5, max. 15) Theory and practice in specialized areas of physical therapy. Includes organization and administration of specialized programs, advanced evaluation and treatment techniques, role of the consultant. Credit/no-credit only.
REHAB 514 Systems Review for Physical Therapists (3) Maitland Development of advanced physical assessment skills to provide students with the ability to determine if a patient's disorder is within the scope of practice for physical therapy or requires referral to another healthcare provider. Lectures and laboratory format, with an emphasis on the lab component. Credit/no-credit only.

REHAB 515 Advanced Neuromusculoskeletal Interventions in Physical Therapy (3) Bennett Advanced neuromusculoskeletal treatment techniques. Emphasis on review of manual therapy, exerciser and modality interventions in case studies across lifespan and continuum of care. Credit/no-credit only.

REHAB 516 Medical Information for Rehabilitation Counselors (3) Lectures in medical science field regarding the etiology, prognosis, and physical restoration of common disabling conditions. Case studies are used extensively, and major emphasis is placed on vocational implications of physical disability. Prerequisite: permission of instructor. Instructors: Johnson

REHAB 517 Physical Therapy Seminar (2-, max. 12) S. McCoy, K. McQuade, S. Pradhan Focuses on physical therapy topics pertaining to transcurricular and professional practice issues.

REHAB 519 P-Preceptorship in Rehab Medicine (1, max. 12) McNalley Explores the field of physical medicine and rehabilitation. Students observe a physiatrist one half day each week, and gain understanding of the management of acute injuries, chronic disease, and disabilities. Offered: AWSpS.

REHAB 520 Seminar (1-5, max. 12) Conferences, seminars, discussions of advanced physical medicine and rehabilitation topics for graduate students, residents, and postdoctoral fellows in rehabilitation medicine. Lectures, discussion, and laboratory work in selected aspects appropriate to elected area of study for applicants for master-level degree.

REHAB 521 Survey of Pathophysiology for Rehabilitation (2-3, max. 6) J. Jandreau Uses a systems approach overview of the disease process and the impact it has on the rehabilitation process. Provides a foundation for understanding how dysfunction of major systems can influence a person's ability to move. Discusses risk reduction and prevention strategies surrounding diseases. Credit/no-credit only.

REHAB 522 Physiological Topics in Rehabilitation Medicine (2) Reviews traditional physiological concepts related to the nervous, musculoskeletal, and cardiopulmonary systems as a foundation for rehabilitation practice. Includes recent advances in research and applicable case studies.

REHAB 523 Neuroscience III: Applied Neurology (4) P. Matsuda Theory and principles of advanced exercise procedures used when treating patients with neurologic pathology. Includes the application of principles of motor learning and control; facilitation and inhibition of variables affecting functional motor performance; adaptation of assessment and treatment procedures to patients with different types of neurologic impairments. Lectures and laboratories.
REHAB 525 Exercise Physiology for Rehabilitation (3) Moritz Provides systems approach to exercise physiology, including cardiovascular and musculoskeletal response to exercise training, and the impact it has on the rehabilitation process. Reviews common disease processes that effect ability and tolerance, and may benefit from rehabilitation interventions.

REHAB 527 Neuroscience IV: Special Topics in Neurologic Rehabilitation (3) Kelly Critical analysis and application of physical therapy assessment and treatment techniques to problems related to specific adult neurological disorders. Neurological disorders to be covered include stroke, spinal cord injury, traumatic brain injury, and multiple sclerosis.

REHAB 528 International Clinical Clerkship (2) Robinson Short-term clinical education experience outside the United States. Participants work in a mentored relationship as part of a multi-disciplinary rehabilitation team providing direct clinical services and consultation to patients and their care-givers. Sponsored sites selected and screened by clinical coordinator. Students may choose area of clinical focus. Credit/no-credit only.

REHAB 529 Professional and Practice Issues in Physical Therapy (2) M. Maitland Augments the student's understanding of the profession and current issues in healthcare. Includes healthcare delivery, scope of practice, professional organization, political activism, specialist certification, licensure, collaboration, therapeutic relationships, disclosure, privacy, and informed consent. Credit/no-credit only.

REHAB 530 Medical Aspects of Vocational Counseling (2-3) Introduction to vocational implications of physical and emotional disabilities. Methods, counseling techniques, therapeutic modalities, community resources used in producing vocational assistance for persons with disabilities. Prerequisite: resident standing in rehabilitation medicine or permission of instructor. Instructors: Johnson

REHAB 531 Critical Thinking Skills in Physical Therapy (3) K. MCQUADE Introduces students to structured critical thinking for discussion and analysis of selected musculoskeletal approaches. Interactive small groups explore key papers with controversial or novel assertions, or that address commonly used treatment techniques. Credit/no-credit only.

REHAB 532 Clinical Affiliation for Rehabilitation Counselors (5-6) Under preceptorship of rehabilitation counseling staff, students counsel and evaluate patients with severe physical, emotional, or social problems; administer vocational testing; obtain placement on job stations; work with community resources for vocational/educational placement; and develop activity-oriented schedules. Prerequisite: permission of instructor. Instructors: Johnson

REHAB 533 Diseases and Diagnosis in Rehabilitation (2-, max. 4) Provides an introduction to medical diagnoses and diseases having high rates of referral to rehabilitation services in order to promote comprehensive patient care.

REHAB 535 Physical Therapy Administration Issues (2) S. MCCOY In-depth discussion of administrative issues overarching physical therapy practice, including economic trends,
operational policy, budgeting, reimbursement, staffing, business structure, and entrepreneurship. Required for physical therapy students. Credit/no-credit only.

REHAB 536 Patient Evaluation and Clinical Decision Making (1-2, max. 8) Robinson General principles and practice of physical therapy patient evaluation and use of the clinical decision-making models. The application of patient management principles through examination techniques and documentation strategies. Lecture and laboratory format.

REHAB 537 Functional Mobility Skills (2) Pradhan Principles and practice of physical therapy interventions related to functional mobility skills, including transfer training, wheelchair fitting, wheelchair mobility, gait training, and caregiver training. Lecture and laboratory format.

REHAB 538 Integumentary, Edema Management, and Circulatory Screening for PT (2) Robinson Principles and practice of physical therapy evaluation and interventions related to wound care, burn care, edema management, circulatory screening, and splinting applications. Lecture and laboratory format.

REHAB 539 Communication Disorders in Rehabilitation Medicine (1) Yorkston Overview of communication disorders secondary to central and peripheral nervous system impairment. Emphasis on facilitating identification of speech/language disorders with discussion of implications for rehabilitation.

REHAB 540 Acute Care Practice in Physical Therapy (3, max. 6) J. Jandreau Provides an in-depth analysis of the role of the physical therapist in the acute care setting. Lectures frame care-based problem solving and experiential learning. Consequences of recumbent positioning and reduced activity examined using a systems-based approach. Develop entry-level knowledge for delivery of acute care PT services within a multidisciplinary team.

REHAB 541 Gross Anatomy Laboratory - Extremities (1) T. Gilbertson, B. Rollinger Uses cadavers to study the musculoskeletal, peripheral-vascular, and peripheral-nervous systems. Focuses on the extremities. Uses primarily prospected material, but provides some opportunity for independent dissection. Credit/no-credit only.

REHAB 542 Gross Anatomy Laboratory - Spine (1) T. Gilbertson, B. Rollinger Studies the musculoskeletal, peripheral-vascular, and peripheral-nervous systems from cadavers. Focuses on the spine. Uses primarily prospected material, but includes some opportunity for independent dissection. Credit/no-credit only.

REHAB 543 Rehabilitation Kinesiology Laboratory (1) T. Gilbertson, B. Rollinger Provides instruction and focus on practical experience and clinical problem solving in kinesiology by exploring and developing proficiency in a framework for observation, analysis, and description of human movement on the normal pathological spectrum. Credit/no-credit only.

REHAB 544 Functional Anatomy for Rehabilitation of the Extremities (4-) T. Gilbertson, B. Rollinger Covers the functions of the musculoskeletal system as applied by professionals in the practice of clinical rehabilitation. Focuses on anatomy and of the upper and lower extremities,
including associated peripheral-vascular and peripheral-nervous systems. Intended to enhance functional assessment and to improve diagnosis and treatment through greater understanding of underlying anatomy.

**REHAB 545 Functional Anatomy for Rehabilitation of the Spine (-3)**  
*T. Gilbertson*  
Covers functions of the musculoskeletal system as applied by professionals in the practice of clinical rehabilitation. Focuses on the anatomy of the spine, including associated vascular and nervous systems. Enhances functional assessments and the improvement of diagnosis and treatment through greater understanding of underlying anatomy.

**REHAB 546 Teaching Practicum in Rehabilitation (1-3, max. 15)**  
Integration of knowledge and skills in teaching through teaching in the classroom or presentation of a minicourse, workshop, or in-service training series. Prerequisite: permission of instructor.

**REHAB 548 Kinesiology for Rehabilitation (3)**  
*K. McQuade*  
Advanced study of joint motion and muscle function in relation to both the normal and abnormal state. Focuses on principles of kinesiology as they are applied to human movement and disability. Analyzes specific techniques and interventions employed in the field of rehabilitation medicine.

**REHAB 550 Neuropsychology in Rehabilitation (2)**  
*J. HOFFMAN*  
Examination and management of patients with brain lesions, as well as an understanding of the consequences of such conditions. Prerequisite: graduate standing in rehabilitation medicine.

**REHAB 551 Neurobiology for Rehabilitation (5)**  
*Kinney, Pradhan*  
In-depth analysis of human neuroanatomical structure and neurophysiological function as a basis for rehabilitation practice.

**REHAB 554 Perspectives in Interprofessional Practice (0/1, max. 1)**  
Distributed over seven consecutive quarters, this course integrates diverse interprofessional perspectives to prepare graduate and professional students for effective practice as collaborative team members. Offered: AWSpS.

**REHAB 555 P-Neuromuscular Electrodiagnosis (2.5)**  
Demonstration of fundamentals of electromyography and peripheral nerve stimulation followed by participation in clinical electrodiagnosis examinations. Develops awareness of knowing when such procedures are indicated for patients and interpreting results rather than developing proficiency in performing these examinations. Prerequisite: permission of instructor. Instructors: Kraft

**REHAB 556 Foundations of Rehabilitation Science (3)**  
Overview of rehabilitation science and social constructs of disability emphasizing bio-psycho-social-environmental models of the enabling-disabling process across the lifespan. Lays the philosophical and theoretical foundations for the study of rehabilitation as a science and is designed to promote interdisciplinary thinking. Prerequisite: instructor permission. Instructors: Johnson, Kartin, Yorkston

**REHAB 557 Evidence-Based Rehabilitation (3)**  
Addresses frameworks for evaluating the evidence in rehabilitation science; asking answerable questions, using advanced search
strategies; critically appraising literature; understanding the systematic review process; conducting and interpreting meta-analyses; developing evidence-based practice guidelines; communicating the evidence to stakeholders; and translating evidence into rehabilitation practice. Prerequisite: permission of instructor. Instructors: Kartin, Yorkston

REHAB 558 Rehabilitation Research Methods (3) Provides an orientation and critical analysis of current practices in disability and rehabilitation research by appraising methodologies and strategies used to investigate consequences of human function, activity performance, and social participation. Topics include introduction to qualitative and quantitative methodologies with respect to rehabilitation research. Prerequisite: permission of instructor. Instructors: Johnson, Kartin, Yorkston

REHAB 560 Defining and Measuring Outcomes in Rehabilitation Research (3) Introduces the importance, methods, and challenges of outcomes research in rehabilitation. Addresses definitions and importance of outcomes research; behaviors measurement, functional abilities, quality of life, and consumer satisfaction; outcomes measurement for diverse populations across lifespan; research outcomes design; and challenges specific to outcomes research. Prerequisite: permission of instructor. Instructors: Amtmann

REHAB 561 Epidemiological and Health Services Approaches to Rehabilitation Research (3) Introduces the application of principles and methods from the fields of epidemiology and health services to rehabilitation research. Provides an overview of epidemiological research methods applicable to rehabilitation research, health services approaches, ethics, and use of research to inform disability policy. Prerequisite: permission of instructor. Instructors: Ciol, Hoffman

REHAB 562 Neuroscience in Rehabilitation (3) Develops knowledge related to neural control of movement; movement dysfunction from neurologic pathology; and methodological approaches to investigating neural control of movement. Includes concepts in motor control; motor learning; and neural plasticity relating to movement dysfunction in people with neurologic pathology and to rehabilitation science. Prerequisite: permission of instructor. Instructors: Kelly, Yorkston

REHAB 564 Practice Skills for Occupational Therapy (1, max. 3) Provides an introduction to physical assessments and interventions with a focus on physical management of clients, management of medical and adaptive equipment, splint fabrication, and maintenance of therapist and client safety. The therapeutic skills covered serve as a foundation for more advanced technical and professional competencies in subsequent courses and fieldwork. Credit/no-credit only. Offered: AWSp.

REHAB 566 Special Topics in Rehabilitation (1-9, max. 14) Philosophy and concepts in the interdisciplinary rehabilitation of persons with major disabilities, including advanced content in the rehabilitation theory and process of selected categories.
REHAB 567 Practicum in Rehabilitation (1-12, max. 24) Specialized practicum experience in environment providing rehabilitation services. Practicum arrangements and permission by instructor.

REHAB 568 Biophysics as Applied to Physical Medicine (2) Propagation and absorption characteristics of physical forms of energy used for treatment in physical medicine. Physiologic effects basic to prescription of the physical therapy modalities. Prerequisite: resident standing in rehabilitation medicine; others by permission of instructor. Instructors: Esselman

REHAB 569 Prosthetics and Orthotics for Physical Therapists (2) Introduces the principles and designs of orthoses and prostheses, using a clinical problem-solving approach to determine functional deficits to create joint rehabilitation goals between physical therapy and prosthetics and orthotics in regards to the prosthesis and orthosis. Emphasizes team medicine and collaboration in rehabilitation.

REHAB 570 Foundations of Occupational Therapy (5) Powell An overview of the practice of occupational therapy, emphasizing the role of occupational performance in context, frames of reference, clinical reasoning, and purposeful activity. Introduces the diversity of occupational therapy practice environments through didactic and clinical experiences.

REHAB 572 Occupational Therapy Theory and Practice in Psychosocial Dysfunction I (1-7, max. 7) Fogelberg An overview of bodies of knowledge in psychosocial practice as related to occupational performance. Learning topics include major frames of reference, effects of psychosocial disorders on occupational performance (life activities), and occupational therapy evaluation and intervention skills. Lectures, reading, class discussions, role-playing, problem-based learning, and fieldwork comprise the learning experiences.

REHAB 574 Occupational Therapy Theory and Practice in Physical Disabilities I (6) Provides theoretical bases and clinical practice skills used in evaluation and intervention of occupational performance (life activities). Focus is on individuals with sensorimotor (physical) and/or cognitive impairments. Practical applications of theory occur through lecture, laboratory, and problem-based learning approaches.

REHAB 575 Occupational Therapy Theory and Practice in Physical Disabilities II (5) Powell Provides theoretical bases and clinical practice skills used in evaluation and intervention of occupational performance (life activities). Focus is on individuals with sensorimotor (physical) and/or cognitive impairments. Practical applications of theory occur through lecture, laboratory, and problem-based learning approaches.

REHAB 576 Occupational Therapy Theory and Practice in Pediatrics (1-7, max. 7) Provides knowledge and skills necessary for providing occupational therapy evaluation, intervention, and transition services focused on occupational performance (life activities) for children and teens with disabilities and their families.

REHAB 577 Occupational Therapy Theory and Practice in Geriatrics (5) Powell Occupational therapy evaluation and intervention with older adults. Covers psychology,
physiology, and socio-demographics of aging. Emphasis on interaction skills with the elderly and occupational performance (life activities). Laboratory experiences and fieldwork in the practice setting enhance didactic coursework.

REHAB 578 Occupational Therapy Domain and Process I (4) Skills in the analysis, adaptation, and sequencing of therapeutic occupations and activities to support occupational performance through the lifespan. The analysis process covers all aspects of the domain of occupational therapy including areas of occupation, client factors, performance skills, performance patterns, context, and environment.

REHAB 579 Occupational Therapy Domain and Process II (3) Introduces basic principles and skills of effective interpersonal communication in dyadic interactions and in groups. Emphasis on effective listening, interviewing, and principles and concepts of occupational therapy groups. Lectures, readings, class discussions, role playing, and in-class exercises comprise the learning experiences.

REHAB 580 Introduction to Research in Rehabilitation (3) Evaluation of rehabilitation research literature and design of research studies relevant to rehabilitation.

REHAB 581 Application of Measurement Systems (3) Jirikowic Provides basis for critically evaluating and using tests and measurements in occupational therapy evaluation. Focus on reliability, validity, norms, test development process, statistics relevant to tests and measurement, and ethical implications of testing. Critical evaluation of selected standardized test used in occupational therapy.

REHAB 582 Assistive Technology in Rehabilitation (3) T. JIRIKOWIC Overview of the field of assistive technology as it impacts occupational performance in self-care, work, and leisure activities. Covers interface devices, computer applications, environmental controls, augmentative communications, power mobility, seating and positioning systems, and sensory enhancements.

REHAB 583 Exploring Disability (1) Explores multiple aspects of disability including social, mental, physical, and financial factors. Provides skills for working with people with disabilities and exposure to a multidisciplinary team approach to overcoming healthcare barriers. Utilizes interactive didactic with patient participation and introduction to community resources for people with disabilities.

REHAB 585 Leadership and Management in Occupational Therapy (5) T. MROZ Focuses on occupational therapy leadership and management in healthcare delivery systems. Includes theoretical and professional competencies focuses on healthcare access, health policy laws, service delivery settings, reimbursement, regulation, political advocacy. Management topics include leadership, program planning, budgeting, personnel, and outcome measurement.

REHAB 588 Fieldwork II Seminar (1) Rollinger Supports a successful transition from academic work to the full-time Fieldwork II clinical experiences by reinforcing he integration and application of acquired technical and professional competencies needed for REHAB 594, Fieldwork II. Credit/no-credit only. Offered: Sp.
REHAB 591 Graduate Project (1-4, max. 10) Graduate project focuses on practice, administration, education, policy, research, or other scholarly or creative work. Required of entry-level occupational therapy students.

REHAB 592 Principles of Orthotic Use in Rehabilitation (2) Crane General principles and clinical applications of orthoses in patient management, with exposure to research issues in orthotic design.

REHAB 593 Principles of Prosthetic Use in Rehabilitation (2) Morgenroth General principles of prevention of amputation, prosthetic design, biomechanics, and clinical applications of upper and lower extremity prostheses.

REHAB 594 Clinical Fieldwork in Occupational Therapy (10, max. 30) Rollinger 12-week, full-time fieldwork, delivering occupational therapy services to clients focusing on application of meaningful occupation under direct supervision. Exposure to varied clients across the lifespan and in various settings reflective of current practice. Students must complete a minimum of two 12-week placements. Credit/no-credit only.

REHAB 595 Clinical Affiliation in Physical Therapy ([2-10]-, max. 30) Robinson Clinical practice of physical therapy techniques under supervision in community-based clinics. Credit/no-credit only.

REHAB 596 Electromyography and Clinical Neurophysiology (4) Didactic course covering electromyography and clinical neurophysiology. First part covers basic neurophysiology and second covers electromyography, nerve conduction studies, somatosensory-evoked potentials, residual- and auditory-evoked potentials, single fiber EMG, late response, quantitative analysis, and macro EMG. Prerequisite: resident standing in rehabilitation medicine; others by permission of instructor. Instructors: Kraft

REHAB 597 Electromyography and Electrodiagnosis Laboratory (1-) Elective work in clinical electromyography and other electrodiagnostic methods. Prerequisite: resident standing in rehabilitation medicine; others by permission of instructor. Instructors: Kraft Credit/no-credit only.

REHAB 598 Electromyography and Electrodiagnosis Laboratory (-1-) Elective work in clinical electromyography and other electrodiagnostic methods. Prerequisite: resident standing in rehabilitation medicine; others by permission of instructor. Instructors: Kraft Credit/no-credit only.

REHAB 599 Electromyography and Electrodiagnosis Laboratory (-1) Elective work in clinical electromyography and other electrodiagnostic methods. Prerequisite: resident standing in rehabilitation medicine; others by permission of instructor. Instructors: Kraft Credit/no-credit only.

REHAB 600 Independent Study or Research (*-) Credit/no-credit only.
REHAB 683 P-Rehabilitation medicine Clerkship- Pediatric, Boise, ID (8) Incorporates material of REHAB 685 and expands into disabling pediatric disease. School planning, family counseling, community support services included. Four week, full time clerkship permits inpatient, outpatient, and consultation experience. Recommended for students contemplating pediatrics. Prerequisite: Third year medical student standing.

REHAB 684 Rehabilitation Elective - Boise, ID (8) Students work directly with the physician, seeing a variety of patients with musculoskeletal diagnoses as outlined in the objectives for the course, as well as working as a member of a multidisciplinary rehab team. They also observe procedures such as EMGs, nerve conduction studies, and a variety of peripheral and central injections. Students participate in care of injured workers and their return to work. (Four weeks).

REHAB 685 P-Chronic Disease and Disability (4) Structured clinical experience on rehabilitation medicine services. Differences between acute and chronic medicine, identification of disability problems, and therapeutic techniques for removing disability. Hospitals are within University system, local area, and WWAMI area. Prerequisite: third-year medical student standing. Instructors: McNalley

REHAB 686 P-Rehabilitation Medicine Clerkship - Pediatrics (8/12) Incorporates material of REHAB 685 and expands into disabling pediatric disease. School planning, family counseling, community support services included. Four- or six-week package permits inpatient, outpatient, and consultation experience. Recommended for students contemplating pediatrics. Prerequisite: third-year medical student standing. Instructors: McNalley

REHAB 687 P-Rehabilitation Medicine Clerkship (8/12) Incorporates material of REHAB 685 and expands into disability problems. Four- or six-week package permits inpatient, outpatient, and consultation experience. Recommended for careers in family medicine, internal medicine, rheumatology, cardiology, neurology, geriatrics, orthopedic surgery, neurosurgery, and cardiovascular surgery. Prerequisite: third-year medical student standing. Instructors: McNalley

REHAB 688 P-Rehabilitation Medicine Elective - Seattle - VA RCS (8) S. Campea Students will provide medical and rehabilitative care to inpatients with variety of diagnoses and functional limitations including, but not limited to, stroke, amputation, multiple sclerosis and motor neuron disease. Students will also participate a variety of outpatient rehabilitation clinics. Recommended for careers in PM&R, family medicine, internal medicine, neurology, rheumatology, geriatrics, orthopedic surgery, or neurosurgery. Site is VA. Prerequisite: 3rd year medical student standing Offered: AWSpS.

REHAB 689 P-Spinal Cord Injury (8/12) Introduction to diagnosis, management, rehabilitation of patients with spinal-cord injuries. Interaction with rehabilitation team, psychiatrists, and subspecialists in urology, neurosurgery, and plastic surgery. Performance at subintern level expected. Veterans' Administration Medical Center only. Prerequisite: MED 665, SURG 665. Instructors: McNalley
REHAB 690 P-Rehabilitation Medicine Elective - Seattle - UWMC (8)  
D. Li Lue  
Four-week clerkship on inpatient PM&R management of patients with disabilities and functional impairments due to disorders such as acquired brain injury, CNS disorders, spinal cord injury, and complex medical conditions. Recommended for careers in family medicine, internal medicine, neurology, geriatrics, orthopedic surgery, neurosurgery, rheumatology, and cardiology. Site is UWMC. Prerequisite: third-year medical student standing Offered: AWSpS.

REHAB 692 P-Rehabilitation Medicine Elective - Spokane-St. Luke's (8)  
Students will provide medical and rehabilitative care to patients with variety of diagnoses and functional limitations including, but not limited to, stroke, amputation, multiple sclerosis and motor neuron disease. Recommended for careers in PM&R, family medicine, internal medicine, neurology, rheumatology, geriatrics, orthopedic surgery, or neurosurgery. Site is St. Luke's Rehabilitation in Spokane, WA. Prerequisite: 3rd year medical student standing Offered: AWSpS.

REHAB 697 P-Rehabilitation Medicine Special Elective (*, max. 24)  
Equivalent to REHAB 686, REHAB 687, or REHAB 688. Student arranges with another university, using the "special assignment form." Students qualify after review, similar experience at another university. Prerequisite: permission of instructor. Instructors: McNalley

REHAB 699 P-WWAMI Rehabilitation Medicine Special Electives (*, max. 24)  
By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

REHAB 700 Master's Thesis (*-)  
Credit/no-credit only.

REHAB 800 Doctoral Dissertation in (*-)  
Offered: AWSpS.

REHAB 801 Practice Doctorate Project/Capstone ([1-4]-, max. 12)  
Credit/no-credit only. Offered: AWSpS.
Surgery

Department Overview

BB487 University of Washington Medical Center

The Department of Surgery carries out instruction during all four years of School of Medicine attendance. The third-year six-week clerkship constitutes the core of student exposure to general surgery and is required of all students. The fourth-year emergency-room clerkship is also a required part of the curriculum. The department offers a variety of fourth-year elective clerkships in a number of the specialty aspects of the department's clinical activities, including but not limited to trauma, cardiothoracic surgery, plastic surgery, vascular surgery, transplantation, surgical critical care, pediatric surgery, and the management of burn patients.

Course Descriptions

SURG 498 Undergraduate Thesis (*, max. 35) Offered to those students who have engaged in undergraduate research in general surgery. (Full- or part-time.)

SURG 499 Undergraduate Research (*, max. 35) Provides an opportunity to participate in ongoing research projects or carry out an independent research project under supervision of Department of Surgery faculty. Practical experience in experimental design and execution is provided under direct supervision of selected faculty members. (Full- or part-time.)

SURG 505 P-Preceptorship in Surgery (1, max. 12) Opportunity for first- and second-year medical students to gain personal experience with clinical faculty members in the community. Students observe general aspects of private practice, including clinical problems seen; practice limitation; doctor-doctor, doctor-patient, and doctor-nurse relationships in the office and hospital. Prerequisite: permission of department.

SURG 598 P-Surgery Independent Study and Remediation (*, max. 8) Designed for medical students required to complete additional study related to the required Surgery clerkship offered during the patient care phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: department permission. Offered: AWSpS.

SURG 600 Independent Study or Research (*-)

SURG 602 P-Clinical Clerkship - Coeur D'Alene, ID (*, max. 24) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms.
SURG 603 P-Clinical Clerkship - Spokane VAMC (*, max. 24) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating room.

SURG 604 P-Clinical Clerkship - Bozeman, MT (*, max. 24) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms.

SURG 605 P-Clinical Clerkship - Swedish Medical Center (12) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms.

SURG 606 P-Clinical Clerkship - Anchorage, AK (12) Diagnosis and management of surgical problems. Physiological basis of surgical care, differential diagnosis and decision-making, and basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery.

SURG 630 P-WRITE Surgery Clinical Clerkship (*, max. 24) Basic clinical clerkship for students enrolled in the WRITEpProgram. Prerequisite: completion of basic curriculum; third-and fourth-year students; acceptance in the WRITE program.

SURG 631 P-LIC Surgery Clinical Clerkship (12) Basic clinical clerkship for students enrolled in LIC program. Prerequisite: Acceptance into LIC program. Offered: AWSpS.

SURG 632 P-Plastic Surgery - Spokane Plastic Surgeons (4-8) Introduces fundamental techniques and enhances knowledge of plastic surgery, wounds, trauma, burns, cancers and pediatric and adult cosmetic and reconstructive surgery. Participate in all surgery-related activities. Prerequisite: Surgery and medicine required clerkships

SURG 633 P-Clinical Clerkship - Olympia (non LIC) (1-12, max. 12) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Offered: WSpS.

SURG 638 P-Rural Surgery - Lewistown, MT (8) Learn to identify and describe the most common surgical problems presenting in the particular community to which you are assigned. Prerequisite: Surgery require clerkship Offered: AWSpS.

SURG 639 P-Rural Surgery - Polson, MT (8) Evaluate and diagnose surgical referrals; do pre-op evaluations and counseling/discussion of surgical procedures. Evaluation of post operative patients I the hospital and clinic. Assessment of acute care surgical patients in the ED and
hospital. Trauma resuscitations. Prerequisite: Surgery and Medicine required clerkships Offered: AWSpS.

SURG 640 P-Rural Surgery- Dillon, MT (8) Designed to supplement basics learned in SURG 665. Opportunity to participate in general surgery and various other subspecialties in a smaller city. Recommended for students entering primary care. Prerequisite: Surgery required clerkship and permission of department. Offered: AWSpS.

SURG 641 P-Rural Surgery- Glasgow, MT (8) Designed to supplement basics learned in SURG 665. Opportunity to participate in general surgery and various other subspecialties in a smaller city. Recommended for students entering primary care. Prerequisite: Surgery required clerkship and permission of department. Offered: AWSpS.

SURG 642 P-Rural Surgery Clerkship - Pullman, WA (8) Designed to supplement basics learned in surgery required clerkship. Excellent opportunity to participate in general surgery and various other subspecialties in a smaller city. Highly suggested for student entering primary care. Prerequisite: required surgery clerkship; medicine clerkship.

SURG 644 P-Rural Surgery Clerkship - Lewiston, ID (8) Designed to supplement basics learned in surgery required clerkship. Excellent opportunity to participate in general surgery and various other subspecialties in a smaller city. Highly suggested for student entering primary care. Prerequisite: required surgery clerkship; medicine clerkship.

SURG 646 P-Rural Surgery Clerkship - Gillette (8) Designed to supplement basics learned in surgery required clerkship. Provides an excellent opportunity to participate in general surgery and various other subspecialties in a smaller city. Recommended for students entering primary care. Prerequisite: surgery clerkship; medicine clerkship; permission of the department.

SURG 647 P-Rural Surgery Clerkship - Powell (8) Designed to supplement basics learned in SURG 665. Opportunity to participate in general surgery and various other subspecialties in a smaller city. Recommended for students entering primary care. Prerequisite: surgery required clerkship and permission of department.

SURG 648 P-Rural Surgery Clerkship - Libby (8) Designed to supplement basics learned in SURG 665. Opportunity to participate in general surgery and various other subspecialties in a smaller city. Recommended for students entering primary care. Prerequisite: surgery required clerkship and permission of department.

SURG 649 P-Rural Surgery Clerkship - Lewistown (8) Designed to supplement basics learned in SURG 665. Opportunity to participate in general surgery and various other subspecialties in a smaller city. Recommended for students entering primary care. Prerequisite: surgery required clerkship and permission of department.

SURG 650 P-Rural Surgery Clerkship - Twin Falls (8) Designed to supplement basics learned in SURG 665. Opportunity to participate in general surgery and various other subspecialties in a
smaller city. Recommended for students entering primary care. Prerequisite: surgery required clerkship and permission of department.

**SURG 651 P-Community Surgery Clerkship - Rock Springs, WY (8)** Designed to supplement basics learned in Surgery 665. Excellent opportunity to participate in general surgery and various other subspecialties in a smaller city. Encouraged for students entering primary care. Prerequisite: completed required Surgery and Medicine clerkships.

**SURG 652 P-Plastic Surgery - Spokane (8)** Introduces fundamental techniques and enhances knowledge of plastic surgery, wounds, trauma, burns, cancers, and pediatric and adult cosmetic and reconstructive surgery. Participate in all surgery-related activities. Prerequisite: surgery and medicine required clerkships.

**SURG 653 P-Pediatric Surgery - Spokane (8)** Student functions as a subintern directly assisting on the services and is an integral part of the team. Prerequisite: surgery required clerkship.

**SURG 654 P-Cardiothoracic Surgery - Spokane (4-8)** The student functions as a subintern and directly assists on the service and is an integral part of the team. Prerequisite: surgery required clerkship.

**SURG 656 P-Trauma/Acute Care Surgery - Boise (8)** The student functions as a subintern and directly assists on the service and is an integral part of the team at St. Alphonous Trauma Services. (Four weeks).

**SURG 657 P-Vascular Surgery - Spokane (4/8)** Student spends two or four weeks at the Vascular Institute in Spokane. The student functions as a subintern and directly assists on the service and is an integral part of the team.

**SURG 660 P-Ambulatory Surgery Clerkship - Group Health (4)** Rotation focuses on increasing the student's ability as a primary care physician to recognize and form an initial plan of management for common surgical problems seen in the outpatient setting. Offered: AWSpS.

**SURG 659 P-Ambulatory Surgery Clerkship - Madigan (4-8, max. 12)** Rotation focuses on increasing the student's ability as a primary care physician to recognize and form an initial plan of management for common surgical problems seen in the outpatient setting. Offered: AWSpS.

**SURG 661 P-Surgical Intensive Care Unit Sub-Internship - VA (8)** Designed to augment experience gained in SURG 665. Excellent opportunity to participate in the management of critically ill patients under the close supervision of the staff/house staff. Recommended for students entering surgery or primary care. Prerequisite: surgery required clerkship.
SURG 662 P-Community Surgery Clerkship - Longview (8) Designed to supplement basics learned in SURG 665. Excellent opportunity to participate in general, thoracic, vascular, and plastic surgery in a group practice in a smaller city. Recommended for students entering primary care. Prerequisite: surgery required clerkship and permission of department.

SURG 663 P-Subinternship in General Surgery - Virginia Mason (*, max. 16) Diagnosis, preoperative care, and postoperative care; management of surgical emergencies, the ICU patient, and outpatient follow-up of discharged patients. Students function at the intern level under close supervision of the staff and house staff. Prerequisite: surgery required clerkship.

SURG 664 P-Subinternship in General Surgery - VAMC (*, max. 16) Diagnosis, preoperative care, and postoperative care; management of surgical emergencies, the ICU patient, and outpatient follow-up of discharged patients. Students function at the intern level under close supervision of the staff and house staff. Prerequisite: surgery required clerkship.

SURG 665 P-Clinical Clerkship - UWMC (*, max. 24) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms.

SURG 666 P-Clinical Clerkship - Boise (12) Diagnosis and management of surgical problems. Physiological basis of surgical care, differential diagnosis and decision making, and basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery.

SURG 667 P-Clinical Clerkship - Spokane (12) Diagnosis and management of surgical problems. Physiological basis of surgical care, differential diagnosis and decision-making, and basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery.

SURG 668 P-Clinical Clerkship - Casper (12) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery.

SURG 669 P-Clinical Clerkship - Billings (12) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery.

SURG 670 P-Clinical Clerkship - Missoula (12) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and
outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery.

**SURG 671 P-Clinical Clerkship - Madigan (12)** Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision-making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery.

**SURG 672 P-Clinical Clerkship - HMC (*, max. 12)** Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery. Prerequisite: HUBIO 563.

**SURG 673 P-Clinical Clerkship - VA (*, max. 12)** Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery. Prerequisite: HUBIO 563.

**SURG 674 P-Clinical Clerkship - Virginia Mason (*, max. 12)** Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery. Prerequisite: HUBIO 563.

**SURG 675 P-Clinical Clerkship - Caldwell, ID (*, max. 12)** Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms.

**SURG 676 P-Pediatric Cardiothoracic Surgery (8)** Students will learn about the technical and physiological aspects of cardiopulmonary treatments. Prerequisite: Surgery required clerkship Offered: AWSpS.

**SURG 677 P-Clinical Clerkship - Sheridan, WY (*, max. 12)** Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms.

**SURG 678 P-Clinical Clerkship - Kalispell, MT (12)** Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms.
SURG 679 P-Clinical Clerkship - Wenatchee, WA (12) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms.

SURG 680 P-Clinical Clerkship - Northwest Hospital (1-12, max. 12) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Offered: AWSpS.

SURG 681 P-Peripheral Vascular Disease (4/8, max. 8) Peripheral arterial and venous problems, including methods of clinical evaluation; new diagnostic procedures; and the available methods of treatment. Patient workup, performance of diagnostic studies, and presentation of case material to the staff. Prerequisite: surgery required clerkship.

SURG 682 P-Clinical Burn Care (*, max. 12) Offered on the burn unit of Harborview Medical Center. Exposure to the care of patients with thermal injury, including management of severe metabolic and septic problems and opportunity to participate in surgical procedures. Exposure to plastic and reconstructive surgery. Prerequisite: surgery required clerkship.

SURG 683 P-Pediatric Surgery Externship (8/12) Surgical conditions peculiar to the particular age group with a preponderance of congenital and neoplastic conditions that are amenable to surgical treatment. Prerequisite: surgery required clerkship.

SURG 684 P-Pediatric Surgery Clerkship- Boise (8) Student functions as a subintern directly assisting on the services and is an integral part of the team. Held in Boise, ID. Offered: AWSpS.

SURG 685 P-Cardiothoracic Surgery Externship (*, max. 12) Serve as a subintern on the Cardiothoracic surgery service at the UWMC. Opportunity to participate in the full spectrum of perioperative care for both cardiac and thoracic surgery patients including end stage lung disease, heart failure and transplantation patients, with an emphasis on cardiopulmonary physiology and perioperative management.

SURG 686 P-Plastic Surgery Clerkship and Preceptorship (*, max. 12) Introduces fundamental techniques and enhances knowledge of plastic surgery, wounds, trauma, burns, cancers, and pediatric and adult cosmetic and reconstructive surgery. Participate in all surgery-related activities. Prerequisite: surgery and medicine required clerkships.

SURG 687 P-Transplantation Surgery Clerkship (8) Clerkship is in the University regional multi-organ transplantation center. Student participates fully in the care of all transplant patients, on twice daily multidisciplinary rounds, in pre-operative conference, and in the operating room and on the donor harvest team. Weekly didactic teaching sessions. Prerequisite: surgery and medicine required clerkships.
SURG 688 P-Subinternship in General Surgery (*, max. 12) Offered on the general surgery wards of the University-affiliated hospitals. Diagnosis, preoperative care, and postoperative care; management of surgical emergencies, the ICU patient, and outpatient follow-up of discharged patients. Students function at the intern level under close supervision of the staff and house staff. Prerequisite: surgery required clerkship.

SURG 689 P-Community Surgery Clerkship - Coeur d' Alene (8) Designed to supplement basics learned in SURG 665. Excellent opportunity to participate in general, thoracic, vascular, and plastic surgery in a group practice in a smaller city. Recommended for students entering primary care. Prerequisite: SURG 665 and permission of department.

SURG 690 P-Alaska Native Medical Center Surgery Sub-Internship (8/12) Designed to supplement basics learned in SURG 665. Excellent opportunity to participate in general, thoracic, vascular, and plastic surgery in a specialized population of patients. Recommended for students entering primary care. Prerequisite: SURG 665 and permission of department.

SURG 691 P-Surgical Intensive Care Unit Sub-Internship - HMC (8) Designed to augment experience gained in SURG 665. Excellent opportunity to participate in the management of critically ill patients under the close supervision of the staff/house staff. Recommended for students entering surgery or primary care. Prerequisite: surgery required clerkship.

SURG 692 P-Ambulatory Surgery Clerkship - Seattle Children's (4) Rotation focuses on increasing the student's ability as a primary care physician to recognize and form an initial plan of management for common surgical problems seen in the outpatient setting. Offered: AWSpS.

SURG 693 P-Rural Surgery Clerkship - Buffalo (8) Designed to supplement basics learned in SURG 665. Opportunity to participate in general surgery and various other subspecialties in a smaller city. Recommended for students entering primary care. Prerequisite: surgery required clerkship and permission of department.

SURG 694 P-Rural Surgery Clerkship - Riverton (8) Designed to supplement basics learned in SURG 665. Opportunity to participate in general surgery and various other subspecialties in a smaller city. Recommended for students entering primary care. Prerequisite: surgery required clerkship and permission of department.

SURG 695 Vascular Surgery (8/12) The student spends four weeks on the vascular surgery at Harborview Medical Center. The student functions as a subintern and directly helps the residents manage all patients on the service and is an integral part of the OR team.

SURG 696 P-Breast Surgery - Spokane (4/8) Two or four weeks at the Breast Center in Spokane. Student functions as a subintern directly assisting on the service and is an integral part of the team.

SURG 697 P-Surgery Special Electives (*, max. 24) Special clerkship, externship, or research opportunities may be available at institutions other than the University of Washington.
Prospective students obtain from the dean's office a special assignment form at least one month before preregistration. Prerequisite: surgery required clerkship and permission of department.

**SURG 698 P-Clinical Clerkship - Fairbanks** (*, max. 24) Includes the diagnosis and management of surgical problems. Focuses on the physiological basis of surgical care, differential diagnosis and decision making, and basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery.

**SURG 699 P-WWAMI Surgery Special Electives** (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions, other than the University of Washington, located within the WWAMI region. Prerequisite: permission of department.
Urology

Department Overview

BB1115 Health Sciences

Urology is the surgical discipline concerned with diseases of the urinary tract in males and females, and the genital system in the male. The science is broadly based: major areas of practical and investigative concern include congenital defects, cancer, renal diseases, reproductive biology, neuropathology, renal stone formation, and transplantation.

Clinically the field encompasses a large variety of technical skills including real-time imaging and manipulation, endoscopy, laparoscopy and robotics, and open surgery. Medical diagnosis and treatment are a large part of the discipline.

The department is actively involved in patient care, instruction, and research concerning the problems of urology. Training for medical students starts in the second year and continues through the third and fourth years. Training is also provided for residents, fellows, nurses, and applied specialists. The department is responsible for a fully approved urology residency program. Contact the Urology Clerkship Coordinator at 206-731-3205 for further information.

Course Descriptions

UROL 498 Undergraduate Thesis (*, max. 35) Provides an opportunity for medical students to write in the area of urology.

UROL 499 Undergraduate Research (*, max. 35) The student participates in current urologic research projects under supervision of full-time staff. Certain specific problems may be elected by the student. Elective for medical students.

UROL 501 P-Urology Preceptorship (1, max. 12) Individual experiences with one or more of the full-time department faculty members covering research, teaching, and patient care. Students observe activities in the clinic, hospital ward, operating room, and research laboratories. Prerequisite: first- or second-year medical student standing; permission of instructor.

UROL 675 P-Urology Preceptorship (*, max. 8) Student follows a private practice preceptor in all of his or her work. Becomes acquainted with the office management of urological problems. (Two or four weeks). Prerequisite: UROL 680, HUBIO 562.

UROL 679 P-Urology Clerkship - Boise VA (*, max. 8) Two or four week rotation. Full activities of clinical service. Emphasizes basic principles of urology. Prerequisite: HUBIO 562.
UROL 680 P-Urology Clerkship (*, max. 8) Full activities of clinical service. Basic principles of urology emphasized. (Two or four weeks). Prerequisite: HUBIO 562. Instructors: Dalkin, Grady, Krieger, Lendvay, Porter, Voelzke, Wessells, Yang

UROL 681 P-Female Urology (4) Observation of cases of lower urinary tract disorders specific to women, emphasizing behavioral management and multidisciplinary care. Ninety-five percent of cases observed are women. Not intended as the only exposure to urology for students considering urology as career choice. Prerequisite: third- or fourth-year standing and permission of instructor. Instructors: J. Miller

UROL 682 P-Urology Clerkship - Spokane (8) Full activities of clinical service. Basic principles of urology emphasized. (Two or four weeks). Prerequisite: HUBIO 562.

UROL 683 P-Urology Clerkship - Boise (*, max. 8) Full activities of clinical service. Basic principles of urology emphasized. (Two or four weeks). Prerequisite: HUBIO 562.

UROL 684 P-Urology Clerkship - Billings (*, max. 8) Two or four week rotation. Includes full activities of clinical service. Emphasizes basic principles of urology. Prerequisite: HUBIO 562.

UROL 685 P-Urology Sub-Internship (*, max. 12) Subintern is responsible for patient workups and for preoperative and postoperative care and participates in the operating room. Prerequisite: MED 665 or pediatrics basic clerkship, or permission of instructor. Instructors: Dalkin, Grady, Krieger, Lendvay, Porter, Voelzke, Wessells, Yang

UROL 690 P-Urology Specialties (*, max. 8) For those who wish further exposure to a specific aspect of urology. Students spend time with one attending at University of Washington Medical Center, Harborview Medical Center, Seattle Children's Hospital, or Veterans' Administration Hospital studying oncology, infections, infertility, stone disease, impotence, or other aspects of urology. Prerequisite: UROL 680 and permission of instructor.

UROL 697 P-Urology Special Electives (*, max. 24) Special clerkship, externship, or research opportunities may be available at institutions other than the University of Washington. Prospective students obtain from the dean's office a special assignment form at least one month before preregistration. Prerequisite: permission of instructor.

UROL 699 P-WWAMI Urology Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions, other than the University of Washington, located within the WWAMI region. Prerequisite: permission of department.
School of Nursing

School Overview

T301 Health Sciences

Dean
Azita Emami

Associate Deans
Basia Belza, Interim Associate Dean for Academic Affairs
Joie Whitney, Associate Dean for Research

Nurse professionals are members of interdisciplinary teams in clinics, hospitals, and community settings, and work with people of all ages, cultural backgrounds, and lifestyles to help them achieve the highest level of wellness possible. Nurse practitioners fill critical healthcare needs in both urban and rural settings, often for portions of the population who have not received adequate healthcare. Nurse scientists conduct important research about a variety of health problems and how best to promote health, prevent disease, and care for people who are ill. Nurses also teach in colleges and universities throughout the world.

Undergraduate Program

Adviser
T301 Health Sciences, Box 357260
206-543-8736 sonas@uw.edu

The School of Nursing offers the following programs of study:

- Bachelor of Science in Nursing degree with eligibility to take the licensure examination to become a registered nurse.

- An accelerated Bachelor of Science in Nursing option for candidates with an existing bachelor’s degree. This option provides eligibility to take the licensure examination to become a registered nurse.

- A four-quarter modification of the basic curriculum is available for the registered nurse. This BSN completion (RN to BSN) program is available at UW Bothell and UW Tacoma, and prepares graduates to go on for advanced degrees in nursing.

Bachelor of Science in Nursing

Suggested First- and Second-Year College Courses: See below, under Admission Requirements.
Admission Requirements

Admission to the nursing major occurs once a year, for autumn quarter, with an application deadline of January 15. Selection is competitive.

Application Requirements

1. Cumulative 2.00 GPA or higher
2. One of the following at time of application.
   a. Three of the total prerequisite science courses completed with a minimum 3.00 GPA
   b. Four of the total prerequisite science courses completed with a minimum 2.80 GPA

Science prerequisite courses are CHEM 120, CHEM 220, CHEM 221 (three-quarter chemistry series for UW students, two quarter sequence - one general chemistry and one organic - for non-UW applicants); BIOL 118, BIOL 119; B STR 301; MICROM 301 (plus MICROM 302 for UW students; non-UW applicants must take a separate microbiology laboratory if laboratory is not included in the general microbiology course); NUTR 300.

3. College transcript(s)
4. Personal statement: a resume outlining volunteer/paid healthcare experience, community service, and cultural awareness; and a recommendation from a healthcare provider (employer or volunteer coordinator)
5. 100 hours of health care experience in a paid or volunteer position in one setting for three months or more, completed within 12 months preceding submission of the application. The majority of applicants present health care experiences of several hundred hours for nine months or more.
6. After an initial review of all applications, some are asked to attend a proctored essay session. The proctored essay dates are published in the admissions publication. Eligible applicants are invited via email.

Entrance Requirements: Prior to beginning the nursing program in the autumn, students must meet the following requirements:

1. Minimum 90 credits to include the following:
   a. Written communication (10 credits): English composition and W-courses
   b. Problem-solving (8 credits): one QSR course, chosen from MATH 107, MATH 111, MATH 112, MATH 120, MATH 124, MATH 134, MATH 144, PHIL 115, PHIL 120, PHIL 470, or Q SCI 291. One statistics course, such as STAT 220, STAT 311, Q SCI 381, QMETH 201, or EDPSY 490
c. **Visual, Literary, & Performing Arts (VLPA) (15 credits)**

d. **Individuals & Societies (I&S) (15 credits):** to include NURS 201 or equivalent

e. **Natural World (NW) (26-33 credits):** to include CHEM 120, CHEM 220, CHEM 221 (three quarter chemistry series for UW students; two-quarter sequence - one general chemistry and one organic - for non-UW applicants); BIOL 118, BIOL 119; B STR 301; MICROM 301 (plus MICROM 302 for UW students; non-UW applicants must take a separate microbiology laboratory if laboratory not included in general microbiology course); NUTR 300

f. **Electives to complete 90 credits**

2. Minimum 2.00 cumulative GPA, and minimum 2.0 grade for each prerequisite course. Because admission is competitive, the GPA for admission is usually significantly higher.

3. All applicants must be exempted from all English language proficiency requirements at UW in order to start the program. If offered admission the applicant is required to pay for a background check to be run by a company specified by the School of Nursing.

For additional information on admission criteria, specific prerequisites, and deadlines, as well as application forms, visit the School of Nursing website, [nursing.uw.edu](http://nursing.uw.edu). To contact the School of Nursing Office of Academic Services, call 206-543-8736 or 1-800-759-NURS or email [sonas@uw.edu](mailto:sonas@uw.edu). Information sessions are offered periodically in the School of Nursing, Health Sciences Building T301, and an information session podcast is available. For a schedule of sessions or to listen to podcast, visit [nursing.uw.edu/admissions/info-sessions/](http://nursing.uw.edu/admissions/info-sessions/).

**Major Requirements**

Minimum 180 credits. Required credits in the nursing curriculum total 91; thus 89 credits must be earned through general education, nursing prerequisites, and elective courses.

91 credits as follows:

1. **Nursing Foundations (49 credits):** NURS 303, NURS 304, NURS 308, NURS 309, NURS 310, NURS 401, NURS 404, NURS 405, NURS 407, NURS 410, NURS 412, NURS 415, NURS 417, NURS 419, NURS 420

2. **Clinical Nursing (39 credits):** NCLIN 302, NCLIN 306, NCLIN 403, NCLIN 407, NCLIN 409, NCLIN 411, NCLIN 416, NCLIN 418

3. **Nursing Research and Methods (3 credits):** NMETH 403

Equivalent or higher-level coursework may be substituted with the approval of the academic adviser.
Accelerated Bachelor of Science in Nursing option

Admission Requirements

Admission occurs once a year, for summer quarter, with an application deadline in preceding autumn quarter. Selection is competitive.

Application Requirements

1. Cumulative 2.80 college-level GPA or higher.
2. At least four of the total prerequisite science courses completed with a minimum 3.0 grade in each course, and a cumulative 3.30 GPA or higher in these courses. Science prerequisite courses are CHEM 120, CHEM 220, CHEM 221 (three-quarter chemistry series for UW students; two quarter sequence -- one general chemistry and one organic -- for non-UW applicants); BIOL 118, BIOL 119; B STR 301; MICROM 301 plus MICROM 302 for UW students. (Non-UW applicants must take a separate microbiology laboratory if laboratory is not included in the general microbiology course); NUTR 300.
3. A series of personal statements; a resume outlining volunteer/paid healthcare experience, community service, and cultural awareness; and a recommendation from a healthcare provider (employer or volunteer coordinator).
4. Applicants are expected to have 100 hours of healthcare experience in a paid or volunteer position in one setting for three months or more, completed within 12 months preceding submission of the application. The majority of applicants present healthcare experiences of several hundred hours for nine months or more.
5. All applicants are asked to attend a proctored essay session.

Entrance Requirements:

Prior to beginning the nursing program in summer, students must meet the following requirements:

1. Bachelor’s degree in a non-nursing field.
2. Lifespan growth and development course -- NURS 201 or equivalent.
3. One statistics course, such as STAT 220, STAT 311, Q SCI 381, QMETH 201, or EDPSY 490.
4. Natural World courses: CHEM 120, CHEM 220, CHEM 221 (three-quarter chemistry series for UW students; two-quarter sequence - one general chemistry and one organic - for non UW applicants); BIOL 118, BIOL 119; B STR 301; MICROM 301 plus MICROM 302 for UW students. (Non UW applicants take a separate microbiology laboratory if laboratory not included in general microbiology course.); NUTR 300. Minimum 3.30 cumulative GPA in these courses.
5. Minimum 3.00 cumulative GPA, and minimum 3.0 grade for each prerequisite course.
6. Applicants must be exempt from all English language proficiency requirements at UW in order to start the program. If offered admission the applicant must pay for a background check run by a company specified by the School of Nursing.

For additional information on admission criteria, specific prerequisites, and deadlines, as well as application forms, visit the School of Nursing website, nursing.uw.edu. To contact the School of Nursing Office of Academic Services, call 206-543-8736 or 1-800-759-NURS or email sonas@uw.edu. Information sessions are offered periodically in the School of Nursing, Health Sciences Building T301, and an information session podcast is available. For a schedule of sessions or to listen to podcast, visit nursing.uw.edu/admissions/info-sessions/.

**Major Requirements**

91 credits, as follows:

1. *Nursing Foundations (49 credits)*: NURS 303, NURS 304, NURS 308, NURS 309, NURS 310, NURS 401, NURS 404, NURS 405, NURS 407, NURS 410, NURS 412, NURS 415, NURS 417, NURS 419, NURS 420

2. *Clinical Nursing (39 credits)*: NCLIN 302, NCLIN 306, NCLIN 403, NCLIN 407, NCLIN 409, NCLIN 411, NCLIN 416, NCLIN 418

3. *Nursing Research and Methods (3 credits)*: NMETH 403

Equivalent or higher-level coursework may be substituted with the approval of the academic adviser.

**Student Outcomes and Opportunities**

- *Learning Objectives and Expected Outcomes*: The School of Nursing prepares its graduates to function as generalists in professional nursing practice and to collaborate with other health-care providers. The BSN/ABSN undergraduate curriculum emphasizes theory and clinical practice to ensure critical thinking, human caring, and clinical expertise. Clinical experiences are provided in institutional and community settings for preventive and acute care. For the ten goals of the BSN degree program, visit nursing.uw.edu/admissions/bsn/curriculum/.

- *Instructional and Research Facilities*: Learning Laboratory

- *Honors Options Available*: With College Honors (Completion of Honors core curriculum and Departmental Honors). With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.

- *Research Internships and Service Learning*: Students complete eight clinical courses during the BSN program, beginning with the first quarter. Each student experiences placements in medical-surgical nursing, pediatric, family nursing, psychosocial mental health, and community-based nursing. Clinical hours per course range from six hours/week during the first quarter to 24 hours/week during the final quarter.
• **Department Scholarships:** Limited scholarships based on student need established by FAFSA. Students are invited to apply after they have been admitted to the program by completing the School of Nursing Financial Aid application.

• **Student Organizations/Associations:** Students may join the Professional Organization of Nursing Students (PONS) after admission to the program. PONS' involvement spans all aspects of the undergraduate program: recruitment, orientation, education, fund raising, and social events.

**Graduate Program**

Graduate Program Coordinator  
T301 Health Sciences, Box 357260  
206-543-8736  
sonas@uw.edu

The School of Nursing offers degrees of Master of Nursing (MN), Master of Science (MS), Doctor of Nursing Practice (DNP) and Doctor of Philosophy in nursing science (PhD). The DNP program admits RNs interested in advanced clinical practice. The PhD program prepares students for roles as scientists, scholars, and educators. Neither the MS nor the PhD program requires RN licensure for admission.

The School offers an MN degree with a focus in community health systems nursing. A thesis or scholarly project is required. A concurrent MN/MPH degree is also available.

The MS degree is in **Clinical Informatics and Patient-Centered Technologies (CIPCT).** A thesis or scholarly project is required.

The Doctor of Nursing Practice (DNP) program admits postbaccalaureate or post-graduate students for either advanced practice registered nursing or advanced systems and population systems health. The following tracks are available (subject to change; visit School of Nursing website): adult gerontology primary care nurse practitioner; community health-systems nursing; family nurse practitioner; pediatric nurse practitioner; pediatric clinical nurse specialist; neonatal clinical nurse specialist; neonatal nurse practitioner; nurse midwifery; perinatal nurse specialist; and psychiatric mental health nurse practitioner. Applicants who already have a MN degree may apply to earn a DNP degree in their same specialty.

The PhD in nursing science is a research-based degree that trains students to create knowledge that influences and alters the health of individuals, groups, and populations, using current theories of nursing science. The program also offers an optional concentration in statistics in partnership with the Center for Statistics and the Social Sciences. All PhD students must successfully defend a dissertation at the end of their program.

The School of Nursing also offers a Graduate Certificate Program in Advanced Practice Nursing (GCPAPN), with sub-tracks as follows: adult nurse practitioner; psychiatric mental health nurse practitioner; advanced practice environmental health; infant mental health; pediatric nurse practitioner; nurse midwifery; neonatal clinical nurse specialist; and neonatal nurse practitioner.
(See School’s website for updated information.) Admission criteria vary slightly based on focus of the graduate certificate. Some graduate certificate options require an RN license and a graduate degree in nursing. All options require completion of or concurrent enrollment in a graduate degree and a minimum 3.00 GPA in the last 90 quarter (60 semester) graded credits. Admission and program requirements for these certificates are the same as requirements for the umbrella degree in which the student is enrolled.

Part-time study is available for some graduate degree programs. Coursework may be started prior to formal admission to a program as a graduate nonmatriculated student (GNM), which allows students to take non-clinical courses and earn up to 12 graduate-level credits that may apply to a graduate program if the student is later admitted.

**Master of Nursing**

**Admission Requirements**

1. Baccalaureate degree from a nationally accredited nursing program with a minimum 3.00 GPA on a 4.00 scale for the last 90 graded quarter credits, - OR - Associate of Arts degree or diploma from a nationally accredited RN program, in combination with a baccalaureate degree in a field other than nursing, acceptable to the UW. RNs with non-nursing baccalaureate degrees must demonstrate competencies in community health and professional leadership equivalent to those of baccalaureate degree nursing graduates, and are required to submit nursing equivalency essays.

2. A 3-credit basic course in descriptive and inferential statistics with a minimum 2.0 grade

3. An active, unrestricted United States RN license at the time of application. Applicants without a Washington State license must obtain one prior to beginning the UW Master of Nursing program.

4. Proof of English Language Proficiency. Applicants whose native language is not English must demonstrate English language proficiency unless the applicant received a degree from an institution in an English-speaking country, or can provide official evidence that their previous degree instruction was in English. For questions about proof of English language proficiency, visit [http://nursing.uw.edu/node/310](http://nursing.uw.edu/node/310), or contact the School of Nursing.

5. Applications to both the School of Nursing and to the UW Graduate School

6. Three letters of recommendation: one academic, one clinical, and one additional recommendation of either type.

7. Admission essays relevant to the MN program objectives

8. One official transcript from each collegiate institution attended.

9. If admitted, the applicant is required to obtain criminal history/background check clearances via a service designated by the School of Nursing.

**Degree Requirements**

38-41 credits, as follows:
1. Nursing science and professional foundations (15 credits)
2. Clinical practice (6 credits)
3. Scholarly inquiry (11 credits with scholarly project or 14 credits with thesis)
4. Related coursework (6 credits)

**Master of Nursing/Master of Public Health Concurrent Degree Program (MN/MPH)**

**Admission Requirements**

See admission requirements for MN and MPH individual degrees. Students must apply separately to, and be accepted by, each School. Students already enrolled in one School may apply for admission to the other and to the concurrent degree track. Students are encouraged to complete up to one year of study in one School before entering the other.

**Degree Requirements**

See MN and MPH individual degree requirements; common requirements are as follows:

1. Minimum 18 quarter credits for the master's degree in each program courses numbered 500 and above.
2. Numerical grades in at least 18 quarter credits of coursework for each degree and all required courses taken graded.
3. Up to 12 credits taken in one School can be counted toward the other School's total credit requirements, if approved by both programs.
4. Electives for each School’s program can be fulfilled by taking required courses of the other School’s program.

One thesis is required. The 9 required thesis credits can be taken in either School, which then becomes the "home" School.

**Master of Science**

**Admission Requirements**

A baccalaureate degree in any discipline from a regionally accredited institution of higher learning with a minimum 3.00 GPA on a 4.00 scale for the last 90 graded quarter credits by date of enrollment. Applicants need not have a previous degree in nursing.

1. A 3-credit basic course in descriptive and inferential statistics with a minimum 2.0 grade. Visit the School of Nursing website for a list of approved statistics courses.
2. Proof of English Language Proficiency. For questions about proof of English language proficiency, visit [http://nursing.uw.edu/node/310](http://nursing.uw.edu/node/310), or contact the School of Nursing.
3. Three letters of recommendation, two from persons qualified to comment on the applicant's academic abilities and one from a person who can provide work-related (practice) information.
4. Applications to both the School of Nursing and to the UW Graduate School.
5. Resume describing relevant work, professional, and volunteer experiences.
6. Admission essays relevant to the MS degree program objectives.
7. An applicant, if admitted, is required to obtain criminal history/background check clearances via a service designated by the School of Nursing.
8. Students planning to take clinical nursing courses need an active, unrestricted Washington RN license. Other applicants to the Master of Science program are not required to have an active RN license or a previous degree in nursing.

**Degree Requirements**

46-49 credits, as follows:

1. Nursing science (15 credits)
2. Professional foundations (3 credits)
3. Theory development (5 credits)
4. Modes of inquiry (11 credits)
5. Scholarly project (6 credits) or thesis (9 credits)
6. Related coursework (6 credits)

**Doctor of Nursing Practice**

**Admission Requirements**

- Baccalaureate degree from a nationally accredited nursing program with a minimum 3.00 GPA on a 4.00 scale for the last 90 graded quarter credits. Applicants with a master's degree from a nationally accredited nursing program must have a minimum 3.00 GPA on a 4.00 scale for the last 90 graded credits of the master's degree. - OR - Associate of Arts degree or diploma from a nationally accredited RN program, in combination with a baccalaureate degree in a field other than nursing. RNs with non-nursing baccalaureate degrees must demonstrate competencies in community health and professional leadership equivalent to those of baccalaureate degree nursing graduates, and are required to submit nursing equivalency essays.

- If an applicant has not completed a master's degree, a 3-credit basic course in descriptive and inferential statistics with a minimum 2.0 grade, taken within five years of matriculation.

- Proof of English Language Proficiency. For questions about proof of English language proficiency, visit [http://nursing.uw.edu/node/310](http://nursing.uw.edu/node/310), or contact the School of Nursing.

- Applications to both the School of Nursing and to the UW Graduate School.

- Three letters of recommendation, one academic, one clinical, and one additional recommendation of either type. Recommendations may be submitted online through the Graduate School.

- Response to three admission questions
• Resume describing relevant work, professional, and volunteer experiences.
• BSN equivalency, if applicable
• One official transcript from each collegiate institution attended.
• All applicants to the Doctor of Nursing Practice program must have an active, unrestricted United States RN license at the time of application. Applicants who do not have a Washington State RN license must obtain one prior to beginning the program.
• If admitted, the applicant is required to obtain criminal history/background check clearances via a service designated by the School of Nursing.

**Degree Requirements**

93 credits minimum, including:

1. Advanced practice (minimum 45 credits)
2. Leadership (minimum 15 credits)
3. Practice inquiry (minimum 30 credits)

**Doctor of Philosophy**

**Admission Requirements**

• Baccalaureate degree from a college or university of recognized rank. Neither a nursing background nor RN licensure is required for admission.
• Applications to both the School of Nursing and to the UW Graduate School.
• Proof of English Language Proficiency. For questions about proof of English language proficiency, visit [http://nursing.uw.edu/node/310](http://nursing.uw.edu/node/310), or contact the School of Nursing.
• A scholarly writing sample (25 pages or less) which should analyze a current clinical problem or professional issue using appropriate references to making an argument and supporting that position
• Letters of recommendation from three persons knowledgeable about the individual's potential for a research career in nursing.
• Statement of goals and research interests in response to specific questions listed on the application
• If admitted, the applicant is required to obtain criminal history/background check clearances via a service designated by the School of Nursing.

**Degree Requirements**

93 credits minimum, as follows:

1. *Theory and Domain of Knowledge (minimum 41 credits)*: Grounding in science and nursing science fundamental to examination of more specific issues in the relationship of human health and nursing.
2. **Scholarly Inquiry (minimum 52 credits):** Means of developing knowledge. Exposure to variety of approaches with encouragement to develop advanced skills in at least one methodology. Includes 27 dissertation credits.

**Financial Aid**

A limited number of nurse traineeships are available for pre-master's study. Other financial aid is available on a limited basis. Teaching assistantships and research assistantships are available to a limited number of students. Priority for these appointments is given to pre-doctoral students.

**Additional Information**

For additional information on current graduate program content, admission criteria, deadlines, as well as application forms, visit the School of Nursing website at [http://nursing.uw.edu](http://nursing.uw.edu). To contact the Office of Academic Services, School of Nursing, call 206-543-8736 or 1-800-759-NURS or email sonas@uw.edu. Information sessions are offered periodically in the School of Nursing, Health Sciences Building T310, and an information session podcast is available.

**Course Descriptions**

**Infant and Early Childhood Mental Health**

**IECMH 537 Development and Psychopathology: Parents and Infants (3) Spieker** Provides an overview of typical social and emotional development and psychopathology in children ages three and younger. Demonstrates attachment relationships with parents and family to infant's development and psychopathology. Core course of Infant Mental Health Certificate program. Recommended: IECMH 548 Offered: A.

**IECMH 548 Frameworks in Infant an Early Childhood Mental Health (3)** Review infant mental health (IMH) and early development from a developmental interdisciplinary perspective. Pays special attention to brain development, sensory integration, early communication, and emotion regulation. Offered: A.

**IECMH 555 Relationship Based Mental Health Assessment of Young Children (3)** Focuses on multi-disciplinary, diagnostic mental health observation and assessment of infants, toddlers, and preschoolers within the context of their primary relationships. Recommended: IECMH 548 Offered: Sp.

**IECMH 569 Reflective Practice And Consultation (2) C. Dillon, S. Spieker** Focuses on reflective practice, consultation and supervision, distinct and core features of practice across disciplines providing infant mental health services to young children and families. Recommended: IECMH 548 Offered: S.
Nursing (NSG)

NSG 432 Infants and Children: Risk and Resilience (5) I&S C. Dillon, M. Hirschstein, S. Spieker Provides a survey of infant and early childhood development, including prenatal and neonatal factors, and social/societal influences, using an infant mental health framework. Emphasizes how risk and protective factors can impact social-emotional, physical, and cognitive growth. Includes research-based principles and approaches to supporting families, teachers, and caregivers of young children. Offered: SpS.

NSG 505 Applied Occupational Health and Safety (3) Application of occupational safety and health principles. Student teams perform evaluations, assess production methods/processes and exposures, health and safety procedures and programs, and develop engineering and administrative controls. Students perform on a consulting project with a local company including budgeting, project reporting, and presentation. Offered: jointly with ENV H 559/IND E 567; Sp, even years.

NSG 506 Occupational Safety Management (4) Explores industrial organization and methods of integrating safety and industrial hygiene programs with industrial operations. Investigates philosophic issues related to industrial safety and health such as responsibility for safety, dependency on safe practice, and hierarchy of prevention. Contains numerous case problems and student involvement opportunities. Offered: jointly with ENV H 560; Sp.

NSG 507 Technical Aspects of Occupational Safety (3) Reviews federal OSHA (Occupational Safety and Health Administration) and state WISHA (Washington Industrial Safety and Health Act) standards. Explores the impact of these regulations on industry, particularly construction. Upon completion of the course, student receive an OSHA 510 30-hour Construction Safety and Health certificate. Offered: jointly with ENV H 562; W.

NSG 508 Introduction to Ergonomics (3) Basic principles of ergonomics in work environment applied to problems of worker and management. Topics include measurement of physical work capacity, problems of fatigue and heat stress, applied biomechanics, worker-machine interactions and communication, design of displays and controls. Prerequisite: basic human physiology or permission of instructor. Offered: jointly with ENV H 566/IND E 566; W.

NSG 511 Prevention Issues in Community Health (3) An interdisciplinary overview of community health prevention approaches focusing on the social determinants of health and health disparity reduction among vulnerable populations. Analysis of community and population preventive strategies across the life course. Roles of advanced community health nurses as prevention leaders and consumers of prevention information are emphasized. Offered: Sp.

NSG 512 Prevention Critique in Community Health (3) Critical examination of community health prevention programs that build community health capacity and show promise in facilitating long-term health equity among vulnerable populations. Focuses on the leading health disparities among U.S. racial and ethnic people of color, and how to be a critical program consumer, adopter, and adapter. Offered: A.
NSG 513 Psychopharmacology for Children and Adolescents (1) Tyson, Walsh
Reviews pertinent issues in prescribing psychoactive medications to children and adolescents. Emphasizes empirical neuroendocrine bases, and nursing management relevant to these interventions. Examines legal and ethical issues pertaining to prescribing for children and adolescents. Credit/no-credit only. Offered: S.

NSG 516 Physiological Aspects of Aging (3) B. Cochrane
Focuses on biological theories of aging, major physiological and pathophysiological changes that occur in human body systems with aging. Also addresses health considerations and individual adaptations based on current research. Offered: A.

NSG 526 Introduction to Person Centered and Interprofessional Palliative Care (1-5) A. Doorenbos
Introduces fundamental concepts in narrative and person centered communication and interprofessional practice. Presents foundations for learning to apply an interdisciplinary approach to palliative care. Offered: jointly with B H 566/FAMED 531; A.

NSG 527 Advanced Topics in Person Centered and Interprofessional Palliative Care (5) A. Doorenbos
Interprofessional course presenting advanced concepts in narrative and person centered communication and interprofessional practice. Requires admissions into the Palliative Care Graduate Certificate Program. Prerequisite: NSG 526 (Introduction to Person Centered and Interprofessional Palliative Care) or Permission of Instructor Offered: jointly with B H 567/FAMED 532; W.

NSG 528 Palliative Care: Quality Metrics and System Integration (5) A. Doorenbos
Prepares students to integrate team based palliative care into a larger system, introduces community engagement, and palliative care policy issues. Specific content includes building palliative care service, engaging leadership to support palliative care, and using quality metrics to leverage and support quality care. Requires admissions into the Palliative Care Graduate Certificate Program. Prerequisite: Completion of NSG 526 and NSG 527. Offered: jointly with B H 568/FAMED 533; Sp.

NSG 530 Leadership, Communication, and Professional Identity (3)
Analyzes professional identity, transition to new roles and responsibilities, leadership approaches, and interprofessional teamwork skills needed to provide effective, efficient and patient/community-centered care. Covers advanced, multi-modal communication strategies specific to professional role certification, conflict resolution, professional communication, inter-professional teamwork and leadership using interactive, skills-based learning. Offered: A.

NSG 537 Development and Psychopathology: Parents and Infants (3) Spieker
Provides an overview of typical social and emotional development and psychopathology in children ages three and younger. Demonstrates attachment relationships with parents and family to infant's development and psychopathology. Core course of Infant Mental Health Certificate Program. Offered: W.

NSG 539 Management of Common Newborn Conditions (1-2, max. 2)
Focuses on evidence-based clinical-decision making and management of common newborn health conditions.
Emphasizes concepts of health promotion and patient/family centered care. Provides a theoretical and conceptual foundation for clinical decision-making and critical appraisal of data to determine diagnosis and comprehensive, cost-effective plan of care. Prerequisite: NCLIN 502 or equivalent, or permission of instructor.

**NSG 540 Telehealth Systems and Applications (4)**

G. DEMIRIS Prepares consumers, managers, and researchers of telehealth systems through guided exploration into the components of such systems. Introduces challenges and opportunities facing designers and managers of telehealth and remote healthcare delivery networks. Offered: jointly with BIME 581.

**NSG 548 Basic Arrhythmia, Conduction Disturbance, and 12-Lead Electrocardiography Interpretation (2)**

Covers the theory and practice of basic arrhythmia, conduction disturbance, and 12-lead electrocardiography (ECG) interpretation, as well as selected pharmacologic and electrical management. Content is appropriate for primary care, and provides foundation for advanced interpretation for students in acute/critical care.

**NSG 549 Complex Arrhythmia, Conduction Disturbance, and 12-Lead Electrocardiography Interpretation (2)**

Covers the theory and practice of complex arrhythmia, conduction disturbance, and 12-lead electrocardiography (ECG) interpretation, as well as selected pharmacologic and electrical management. Appropriate for acute/critical care. Prerequisite: NSG 548, or satisfactory pretest of basic ECG interpretation.

**NSG 550 Seminar on Professional Issues in Nursing Education (3)**

Seminar on role and related professional issues in nursing education. Prerequisite: either NSG 545, B NURS 513, or T NURS 513; either NSG 546, B NURS 511, or T NURS 511. Offered: jointly with B NURS 550/T NURS 550.

**NSG 551 Health Politics and Policy (3)**

Critically analyzes the politics of health policy in the United States. Examines leadership and advocacy in influencing politics and policy to address and influence health outcomes. Offered: W.

**NSG 552 Social Determinants of Health and Health Equity (3)**

Examines fundamental concepts, emerging theory, research, and intervention strategies regarding the influence and putative mechanisms of environment and societal factors on health at population, community, and individual levels. Emphasizes an interdisciplinary, multi-level socio-ecological perspective on health and illness with consideration of principles of equity and justice in societal contexts. Offered: W.

**NSG 553 Foundations of Health Systems and Health Economics (3)**

Examines health systems and care delivery in the context of principles of business, finance, and economics. Concepts applied in the design of cost and care effectiveness system-level health improvements. Prerequisite: either NMETH 536, which may be taken concurrently, or permission of instructor. Offered: Sp.

**NSG 554 Occupational Health Nursing: Practice Issues (3)**

Examination of current, emerging occupational health and safety topics affecting worker populations. Includes discussion of
workforce groups, work environments, and socio-political contexts; introduces prevalent health matters resulting from occupational exposures; applies theoretical concepts to the prevention of work-related injuries and illnesses; and identifies issues affecting advanced professional practice and leadership roles.

**NSG 555 Perspectives on Implementing Research in Advanced Nursing Practice (3)**  
*Boutain, Landis* Provides an overview of contemporary multidisciplinary perspectives, models and research approaches for advanced practice nursing. Focuses on understanding and applying science to practice, and practice to science. Emphasizes ethical practice, scientific responsibility, research curiosity and use. Offered: A.

**NSG 556 Program Planning and Health Systems and Multicultural Communities (4)**  
*C. Strickland, J. Tsai* Explores culture as it related to the program planning process, methods, theories, attitudes, and skills in health promotion and disease prevention through community engagement. Offered: W.

**NSG 557 Physiology and Pathophysiology Across the Life Span (4)** Analyzes disordered physiologic responses in individuals within the context of lifespan physiology. Examines pathophysiologic principles and responses, using case studies as exemplars for selected concepts, and the relationship between physiologic and pathophysiologic principles and the evidence basis for current practice. Offered: A.

**NSG 558 Occupational Health Nursing: Advanced Practice and Leadership in Program Development (3)** Examination of advanced professional practice and leadership in the context of occupational health and safety programs. Focuses on assessment, development, implementation, and evaluation of programs involving workplace health surveillance, case management, workers' compensation, and health promotion in consideration of political, economic, legal, ethical issues, and application of current research.

**NSG 560 Pediatric Case Studies (2)** Focuses on integration and application of pediatric history-taking, diagnostic reasoning, behavioral and developmental assessment, health promotion, and management of common pediatric conditions in case-based scenarios. Prerequisite: NCLIN 502; NURS 518; NURS 529, any of which may be taken concurrently, or permission of instructor. Credit/no-credit only. Offered: W.

**NSG 561 Community Health Systems for Equity (3)** Defines, evaluates, and synthesizes how community health systems promote health equity. Emphasizes how various systems, such as care, public health, governmental, tribal, family, and social-kin, nonprofit, faith-based, and business, inhibit or promote communal health. Highlights advanced practice, practice inquiry, and leadership implications. Offered: A.

**NSG 562 Management of Adults I (2-3)** Focuses on evidence-based clinical-decision making and management of common adult health problems, emphasizing episodic and acute concerns. Emphasizes concepts of health promotion and patient/family focuses care. Provides a theoretical and conceptual foundation for clinical decision-making and critical appraisal of data to determine diagnosis and comprehensive, cost-effective plan of care.
NSG 563 Management of Adults II (3) Focuses on evidence-based clinical-decision making and management of common adult health problems, emphasizing episodic and acute concerns. Emphasizes concepts of health promotion and patient/family focuses care. Provides a theoretical and conceptual foundation for clinical decision-making and critical appraisal of data to determine diagnosis and comprehensive, cost-effective plan of care. Offered: Sp.

NSG 564 Management of the Adult III (3) Focuses on evidence-based patient-centered care of older adults with multiple chronic conditions across the continuum from outpatient to acutely or critically ill, including prevention and management of geriatric syndromes. Explores strategies for optimal transition across care settings and across the health continuum.

NSG 565 Primary Care Management Across the Lifespan (1) Clinical application of theories of health promotion and chronic disease management in complex patients across lifespan, utilizing evidence-based approaches to health promotion, assessment, differential diagnosis and disease management. Emphasizes clinical decision-making, considering the chronic care model, coordination of care, poly-drug therapy, and information systems. Prerequisite: NCLIN 518, which must be taken concurrently; permission of instructor. Credit/no-credit only. Offered: A.

NSG 566 Pediatric Pharmacology (1-2, max. 2) Focuses on clinical application of pharmacologic management in pediatric acute and chronic illnesses. Emphasizes pediatric pharmacotherapeutics including selection of therapeutic agents, indications, efficacy, therapeutic and adverse effects, monitoring parameters, and dosing principles. Includes didactic as well as case-based learning strategies. Offered: Sp.

NSG 567 Advanced Pharmacotherapeutics in Complex Case Management (1) Uses a case-based method to examine an evidence-based approach to pharmacotherapeutic management of complex chronic conditions across the lifespan. Incorporates examination of both pharmacologic factors and patient-related factors, such as age, socioeconomic status, and behavioral aspects that support the selection of commonly used drugs for patients of all ages across multiple settings. Prerequisite: PHARM 514; permission of instructor. Offered: A.

NSG 568 Infant Observation (1-, max. 4) C. Dillon, S. Spieker Includes observing an infant and parent in the first year of life and reflecting on observations. GCPAPN-IMH core course. Four quarter sequence begins each Autumn. Offered: AWSpS.

Nursing (NURS)

NURS 201 Growth and Development through the Life Span (5-6) I&S Focuses on human growth and development throughout the life span. Emphasizes influence of growth and development theory and research on achievement of health and health promotional efforts directed toward persons of various ages and life styles. Optional service learning component. Open to nonmajors. Offered: AWS.

NURS 204 Learning Wellness: Healthy Ways to Respond to Stressful Student Life (3) Examines the intimate connections of body, mind, spirit, as well as how stress challenges personal health. Provides overview of methods that respond to stress in health-producing ways,
including time management, making healthy choices, and practicing wellness. Discusses evidence for each method and provides experiential components. Credit/no-credit only.

**NURS 205 Nursing as a Career in Contemporary Society (1)** Introduces an accurate description of nursing career, educational requirements and rationale, including advanced degree career possibilities. Explores breadth of nursing roles in promoting health to individuals, groups, and populations. Links historical development with contemporary practice. Explores factors that promote student and professional success in nursing. Credit/no-credit only.

**NURS 210 Science, Evidence and Health: Mastering Health Information and Personal Health Technologies (3) NW** Provides foundations for becoming skilled consumers of health information and health technologies. Using current topics in health, students will learn to navigate the available health information, understand its quality, become familiar with personal health technologies, and link information learned to their health and the health of their communities.

**NURS 301 General Anatomy (4) NW** Introduces the student to general human anatomy, examining both cellular and gross anatomy. The relationship between structure and function is a central focus of course content. Offered: Sp.

**NURS 303 Foundations of Professional Nursing (2-3)** Exploration of the profession of nursing, including past and present work of nurses, the experience of being ill and seeking healthcare, and the U.S. healthcare system.

**NURS 304 Human Responses I (3)** Examines normal and pathophysiological responses to states of health and illness. Examines internal and external defense systems, balance and regulation of body systems, and integration of these concepts in the assessment and management of patient problems. Offered: A.

**NURS 308 Human Responses II (3)** Examines normal and pathophysiological responses to states of health and illness. Examines internal and external defense systems, balance and regulation of body systems, and integration of these concepts in the assessment and management of patient problems. Offered: W.

**NURS 309 Pharmacotherapeutics in Nursing Practice I (2-3)** Emphasizes the principles of pharmacology, drug therapy, pharmacologic-therapeutic classes of drugs, clinically important prototype drugs, and drug information resources. Nursing issues related to drug administration are also discussed. First of a two-quarter sequence. Offered: A.

**NURS 310 Pharmacotherapeutics in Nursing Practice II (-[2-3])** Emphasizes the principles of pharmacology, drug therapy, pharmacologic-therapeutic classes of drugs, clinically important prototype drugs, and drug information resources. Nursing issues related to drug administration are also discussed. Second of a two-quarter sequence. Offered: W.

**NURS 401 Care in Illness I (5)** Introduces major concepts relevant to the experience of acute and chronic illness, including physiological, pathophysiological, behavioral and experimental
human responses, assessment of functional health status and interdisciplinary therapeutics in common alteration across the lifespan. First of a two-quarter sequence. Offered: W.

**NURS 404 Gerontological Nursing (2)** Focuses on concepts and issues relevant to the nursing care of older adults across the care continuum. Major course themes include nursing assessment of the older adult, health promotion, patient safety, geriatric syndromes, gerontechnology and influence of payer systems on care for older adults. Prerequisite: NURS 310.

**NURS 405 Care in Illness II (5)** Continuation of NURS 401, further examining selected psychopathologic and pathophysiologic alterations in health of individuals in context of families across life span. Emphasizes assessing functioning in psychosocial, cultural, person-environment relationships, and healthcare resources to plan nursing strategies for acutely/chronically ill individuals of all ages.

**NURS 407 Culture, Diversity, and Nursing Practice (3)** Analyzes the impact of cultural, social, and global factors on the health of multicultural and diverse groups at the individual, population, and systems levels. Students gain knowledge and skills to effectively respond to the healthcare needs of multicultural societies through non-discriminatory and culturally appropriate nursing care practice. Offered: Sp.

**NURS 410 Legal and Ethical Issues in Clinical Practice (3)** Identification of ethical and legal issues and the ensuing dilemmas relevant to the profession of nursing and nurses as health professionals and citizens. Selected problems and dilemmas affecting nurses, nursing, and the delivery of healthcare analyzed using specific moral-ethical perspectives. Offered: AW.

**NURS 412 Healthcare Systems (3)** Introduction to analysis of healthcare systems with emphasis on political economy of health, access and utilization, disparities in health, public and private health insurance and reimbursement issues. Comparison of U.S. and other national healthcare systems. Offered: Sp.

**NURS 415 Nursing of Families: Childbearing and Childrearing (5)** Applies family concepts to nursing of childbearing and childrearing families. Focuses on family as context for care of individuals. Emphasizes use of physiological, psychological, developmental, cultural, and environmental theories for health promotion, disease prevention, and nursing therapeutics. Offered: AW.

**NURS 417 Psychosocial Nursing in Health and Illness (3)** Examines psychosocial disorders/issues of life transitions from integrated perspective of biological, social sciences, nursing, and humanities. Emphasizes utilizing psychosocial nursing and interpersonal therapeutics for assessment, intervention, health promotion with individuals/families/groups at risk for experiencing psychosocial disorders. Prerequisite: NCLIN 418, which may be taken concurrently. Offered: AW.

**NURS 419 Transition to Professional Practice (3)** Focuses on critical examination, synthesis, and evaluation of professional nursing care. Emphasizes mastery, synthesis, and application of
theory, research, and practice in relation to nursing management, leadership, and nursing care of individual clients or groups of clients and populations. Offered: SpS.

**NURS 420 Promoting Community and Public Health (3) DIV** Covers community and public health nursing theory focusing on populations. Includes a synthesis of theory, research, and practice in relation to community/public health, informed by a social justice framework, social determinants of health, community partnerships, and culturally appropriate population-based community/public health nursing. Corequisite: NCLIN 409.

**NURS 425 Health Equity (3)** This course focuses on understanding and addressing health inequities. Theoretical frameworks and the root causes for health disparity will be reviewed. Health inequities found among marginalized groups will be discussed. This course will also explore approaches, strategies, and tools that can be used to address health inequity.

**NURS 431 Child Health (2)** Focuses on the core processes of growth and development from infancy to adolescence, highlighting the family as the context for care of individuals. Emphasizes use of physiological, psychological, developmental, cultural, and environmental theories for health promotion, disease prevention, and nursing therapeutics.

**NURS 445 Topics in Nursing (1-10, max. 10)** Guided survey and discussion of current literature on major topics in physiological nursing. Seminar/lecture with analysis and discussion of selected topics and readings. May have clinical component. Implications for nursing practice and healthcare emphasized.

**NURS 452 Care Coordination and Case Management (3)** Focuses on concepts of case management and care coordination across the care continuum. Major course themes include patient/family education, caregiver support, assess goals of care, discharge planning, care transitions, care/case management models, and the use of appropriate technology to support these goals. Prerequisite: NURS 412

**NURS 499 Special Electives (1-4, max. 15)** Seminars on selected nursing issues of clinical problems, with independent study option, under supervision of nursing faculty. Credit/no-credit only. Offered: AWSpS.

**NURS 500 Child Management II: Chronic Conditions (3) Kieckhefer, Magyary** Focuses on approaches to caring for children and adolescents with chronic physical, neurobiological, developmental, or psychosocial conditions. Emphasizes evidence-based, culturally-competent, family-centered, interdisciplinary, and comprehensive assessment, referral, management, and care-coordination strategies. Offered: S.

**NURS 501 Child Mental Health Assessment and Interventions (3)** Developmentally based assessment and therapeutic approaches relevant for children with psychosocial health problems. Consideration to matching therapeutic approaches with specific nature of symptomatology and other child, family, cultural, and environmental characteristics, including social and educational systems. Individual and group evaluation research emphasized.
NURS 505 Selected Topics in Psychosocial and Community Health Nursing (2-10, max. 10)  
In-depth exploration of the major theoretical issues in psychosocial nursing. Seminar with analysis and discussion of selected topics and readings and implications for research and healthcare.

NURS 507 Older Adult Mental Health Assessment and Intervention (2)  
Examines the dynamics of mental health research and practice in normal, optimal, and pathological aging. Focuses on psychosocial and environmental influences on mental health of older adults. Topics include: models of aging, cognitive impairment, depression, severe mental illness, and successful strategies to enhance mental health in older adults.

NURS 509 Issues in Violence and Aggression for Health Professionals (3)  
Focuses on research and theory of violent/aggressive behavior. Perspectives of victim, offender, family, community, society examined. Focus is recognition of violence against women. Designed to challenge students to clarify beliefs, values related to topics such as rape, homicide, domestic violence. Prerequisite: graduate nursing student or permission of instructor.

NURS 514 Physiologic Adaptations in Women and Children: Physiologic Adaptations During Pregnancy and Postpartum (1-3, max. 6)  
Blackburn Analyzes the physiologic adaptations in the maternal-fetal-neonatal unit, fetal development, and developmental adaptations in children from infancy to adolescence. Implications of normal and altered physiologic functions for nursing practice and examination of the basis for selected nursing intervention strategies.

NURS 515 Common Adolescent Health Problems (2-3)  
Focuses on assessment, clinical decision making, and management of common adolescent problems. Concepts and theories of health promotion, adolescent development, and intervention strategies are explored to provide a broad framework for caring for adolescents in primary settings.

NURS 517 Pediatric Pulmonary Anatomy, Physiology, and Pathophysiology: Clinical Applications (2)  
Content includes normal pediatric lung development infancy through adolescence and explores evidence for diagnosis, management, and follow up of commonly encountered respiratory problems. Emphasizes coordination of care with multiple disciplines when diagnosing and treating children with special health care pulmonary needs and family centered care and professional leadership role. Prerequisite: permission of instructor. Offered: Sp.

NURS 518 Child Management I: Acute Conditions (3)  
Focuses on use of clinical decision making framework to develop theoretically and empirically sound individualized management plans for the young child, with physical and behavioral symptoms of common pediatric illness, in the primary care setting. Prerequisite: PNP or FNP specialty, or permission of instructor.

NURS 520 Evaluation of Clinical Performance in Nursing (3)  
For graduate students preparing for faculty or staff development positions in nursing. Theory and principles of evaluation. Instruments to appraise clinical nursing performance developed as part of course requirements. Prerequisite: graduate standing or permission of instructor.
NURS 524 Conceptual Foundations for Care Systems Management (3) Critical analysis of nature and theoretical bases of care systems management practice. Concepts of nursing and organization science foundations to person-provider transaction management and leadership in context of economic, political, and social environments and health outcomes. Prerequisite: graduate standing.

NURS 525 Managing Clinical Effectiveness Within Care Systems (3) Optimizing person-provider clinical therapeutic transactions at multiple levels of care systems, complexity, and population aggregation. Emphasis on designing, managing and evaluating clinical effectiveness and efficiency within care systems.

NURS 526 Managing Organizational Effectiveness Within Care Systems (3) Analysis of management strategies for attaining effective and efficient organizational structures and processes within healthcare systems. Prerequisite: NURS 524 or permission of instructor.

NURS 527 Managing Effective Access and Utilization Within Care Systems (3-4) In-depth inquiry into healthcare access and resource utilization patterns among diverse populations, with emphasis on management strategies for establishing effective population-system fit. Additional credit for exploring access and utilization patterns within specific populations.

NURS 529 Childhood Common Developmental and Behavior Issues (2) Focus on common developmental and behavioral issues presented by children and their families in primary care setting. Emphasis on the developmental, family, and cultural aspects of assessment and management of the common issues.

NURS 534 Aging and Health in Contemporary Society (3) Explores demographic, cultural, psychological, theoretical, political, and ethical context of aging and health in contemporary society. Content is based on empirical data and policy statements on aging. Analyzes healthcare delivery at an individual, community, and systems level to support optimal functioning across the health continuum for older adults. Offered: Sp.

NURS 535 Pharmacotherapeutics for Acute/Critical Illness (3) Analysis of issues that impact the assessment, prescription, and evaluation of pharmacotherapeutic regimens for patients with acute/critical illness or injury. Current evidence together with pharmacotherapeutic principles are considered within the clinical context as the basis for decision-making in acute/critical care clinical practice. Prerequisite: PHARM 514 or equivalent Offered: Sp.

NURS 537 Symptom Management in Cancer Care and Serious Illness (3) Focuses on assessment, integration of research findings into clinical decision-making, diagnostic reasoning, and management of common symptoms experienced by adult patients with cancer and/or serious illness. Explores individual and family responses to serious illness and malignant processes. Emphasizes concepts of prevention, tailored patient/family education, management and evaluation strategies. Offered: Sp.

NURS 539 Management of Patients with Acute/Critical Illness and Injury (3-4), max. 7 Systematic inquiry into pathophysiology and management of the acute/critically ill or injured
across the lifespan. Emphasizes evidence-based assessment, management and evaluation strategies including therapeutics and use of technology to support care. Highlights multidisciplinary approach to management.

NURS 540 Special Topics in Biobehavioral Nursing and Health Systems (1-6, max. 12) Guided seminar that focuses on selected biobehavioral and health system topics.

NURS 541 Women's Healthcare: Diagnosis and Management (1-3, max. 3) Examines advanced practice women's healthcare issues including unique health issues for women, health maintenance, contraceptive care, diagnosis, and treatment of women's health problems across the lifespan. Prerequisite: permission of instructor.

NURS 542 Theoretical Foundations of Advanced Practice Nursing: Childbearing I (1-4, max. 4) Analyzes and applies concepts of advanced practice nursing/nurse-midwifery care, specific to the normal childbearing woman, during preconception, antepartum, intrapartum, and postpartum. Examines primary care management of pregnant client within the context of the individual, family, socio-cultural environment, and healthcare system.

NURS 543 Theoretical Foundations of Advanced Practice Nursing: Childbearing II (3) Analyzes and applies concepts of advanced practice nursing/nurse-midwifery care, specific to at-risk childbearing woman, during preconception, antepartum, intrapartum, and postpartum. Examines primary care management of at-risk pregnant client within the context of the individual, family, socio-cultural environment, and healthcare system.

NURS 546 Interpersonal Therapeutics in Advanced Psychatric Mental Health Nursing: Current Perspectives (3) Selected theories in relation to psychosocial development and adaptation across life span for individuals, families, and small groups and as explanatory models of major psychosocial disabilities. General and psychosocial nursing models evaluated for heuristic value for research and practice. Prerequisite: graduate standing or permission of instructor.

NURS 547 Neuroscience Basis of Advanced Practice Psychiatric/Mental Health (3) Analysis of biological processes influencing psychosocial behavior in response to internal and external stimuli. Research and theory of neuroendocrine mechanisms in psychosocial disabilities. Analysis of nursing management and evaluation of biopsychosocial modalities used in modification of behavior. Prerequisite: graduate standing in nursing or permission of instructor.

NURS 548 Frameworks in Infant Mental Health (3) Spieler Review infant mental health (IMH) and early development from a developmental interdisciplinary perspective. Pays special attention to brain development, sensory integration, early communication, and emotion regulation. Offered: A.

NURS 549 Assessment in Psychosocial Nursing (3) Conceptual and clinical approaches to advanced-level data collection and diagnostic reasoning in psychiatric/psychosocial disorders. Synthesizes knowledge from psychosocial nursing and multiple allied fields to enhance learners'
cognizance of principles for establishing accurate and comprehensive data bases and sound multifaceted diagnostic formulations. Emphasizes DSM diagnostic scheme.

**NURS 552 Wellness, Health Promotion, and Disease Prevention (3)** Covers theoretical perspectives and evidence for wellness, health promotion, disease prevention, and risk reduction through the lifespan for advanced practice nursing. Examines issues impacting individual, family, population, and community health related to context and culture. Includes strategies for health promotion and behavior change at individual, family, population, and community levels. Offered: A.

**NURS 554 Management of Psychiatric Disorders: Adult and Adolescent (3)** Focuses on advanced nursing management strategies for psychiatric disorders and primary mental health conditions. Emphasizes the synthesis and integration of scientific evidence to formulate psychiatric diagnoses, and select appropriate interventions for individuals, families, and communities. Measures outcomes through practice inquiry at both system and policy levels. Prerequisite: NURS 549.

**NURS 555 Relationship Based Mental Health Assessment of Infant and Toddlers (3)** Focuses on multi-disciplinary, diagnostic mental health assessments of infants and toddlers within the context of their primary relationships. Core course of Infant Mental Health Certificate Program. Prerequisite: permission of instructor. Instructors: Dillon Offered: Sp.

**NURS 556 Addictions and Substance Abuse: Biopsychosocial Perspectives (3)** Psychosocial and pathophysiological aspects of substance use examined for their effects on individuals and families throughout life span. Theories and empirical findings serve as basis for evaluating preventive and therapeutic nursing approaches to substance use disorders, including those related to target populations. Prerequisite: basic course in biological sciences.

**NURS 557 Health, Culture, and Community (3)** Chrisman A multidisciplinary approach to the development of leadership in personal and organizational cultural competence in community-based participatory research. Emphasizes understanding collaborative assessment, planning, and evaluation of health promotion and disease prevention programs to address the social determinants of health at the population level. Offered: jointly with HSERV 576; W.

**NURS 560 Dynamics of Community Health Practice (3)** Analysis of principles of community health as applied to the delivery of clinical services in order to improve public health, reduce disparities, provide leadership in delivery of care, and synthesize one's clinical role with public health. Examines environmental, social, cultural, and behavioral determinants of health. Includes family, aggregates, and populations. Offered: jointly with HSERV 508.

**NURS 561 Selected Topics in Comparative Nursing Care Systems (2/3, max. 10)** In-depth examination of the literature pertinent to major theoretical issues in cross-cultural nursing and healthcare systems. Seminar with analysis and discussion of selected topics and readings. Implications for research and healthcare stressed.
NURS 562 Clinically Applied Anthropology (3) Anthropology as it relates to interdisciplinary delivery of culturally relevant healthcare. Cultural variation in illness beliefs and behavior, types of healing practices, illness prevention, social support networks. Prerequisite: graduate standing, permission of instructor. Offered: jointly with ANTH 562.

NURS 564 Biological Intervention in Advanced Practice Psychiatric/Mental Health Nursing (3-4) Biological and pharmacological interventions pertinent to practice of psychosocial nursing, including psychopharmacology, electroconvulsive therapy, and phototherapy. Emphasis on empirical neuroendocrine bases and then nursing management issues pertaining to these interventions. Legal and ethical issues pertaining to advanced practice and putative neurological mechanism are examined. Prerequisite: NURS 547 or permission of instructor.

NURS 566 Work Stress and Health (3) Delineates our understanding of the relationship between work-related stressors and worker health. Theoretical models of job-stress are considered and methodological issues examined. Uses social justice framework to explore worker stress and health disparities in immigrants and other disadvantaged populations. Offered: Sp.

NURS 569 Observation and Assessment of Relationships (2) C. Dillon, S. Spieker Recognizing patterns of behavior in interactions between young children and their caregivers. Assessment of relationships in the early years. Students learn to incorporate an attachment theory approach and observation tools from research into the work of their own discipline or field. Offered: Sp.

NURS 573 Foundational Seminar in Advanced Practice Nursing (1) Explores specific advanced practice nursing roles and populations within the healthcare system. Links historical development and analysis of health care trends with contemporary specialty practice. Exploration of current issues and trends in the specialty. Credit/No Credit only. Prerequisite: Credit/no-credit only.

NURS 576 Assessment and Collaboration with Communities and Systems (3) Examines, critiques, and applies theory in assessing communities, populations, and systems cross-culturally. Focuses on advanced practice, executive leadership/policy, and practice inquiry; broad definition of community includes organizations. Emphasizes team work in assessment implementation, i.e., survey, interview, focus groups, observation/participant observation to advance understanding of social determinants of health.

NURS 579 Transcultural Nursing Practices (3) Seminars examine four decades of nursing practice literature and other disciplines related to appropriate and competent care of diverse and multicultural populations. Concepts and methods from anthropology and other behavior sciences are considered in relationship with current health practice guidelines. Graduate standing or instructor permission.

NURS 580 Current Issues in Occupational and Environmental Medicine (2, max. 12) Interdisciplinary seminar on current and emerging topics in the practice of environmental and occupational health. Faculty- and student-led presentations with an interdisciplinary focus,
including occupational hygiene, nursing, and medical issues. Prerequisite: environmental health
graduate student, occupational health nursing student, or permission of instructor. Offered:
jointly with ENV H 596; AWSp.

NURS 581 Global Health Nursing (2-3) Reviews global health topics and the complex local
and global conditions that affect the health and illness of individuals, communities, and
populations. Emphasizes the multi-faceted roles of health care providers. Offered: A.

NURS 582 Culture, Society, and Genomics (3) B. MCGRATH Examines social and cultural
issues of human genome sequencing and control of genetic expression. Attitudes and behaviors
toward health, illness, and disability are studied using historical, contemporary, and cross-
cultural case study material. Offered: jointly with ANTH 574/PHG 521; Sp.

NURS 583 Emotions and Mental Health: From Adversity to Adaptation (3-4) Betrus,
Elmore Provides an understanding of nature and function of emotions as well as relationship of
emotion to mental health/illness. Emphasizes adversity arising from individual and community
sources and its impact on emotional health. Addresses implications for interpersonal and social
policy interventions.

NURS 584 Critical and Interdisciplinary Approach to Health Policy (3) Advanced seminar
to critically analyze various public health policies from a social justice framework.

NURS 587 Role Transition Seminar (2) Emphasizes the transition to doctoral study and
eventual post-graduate roles. Includes information to clarify expectations and skills to facilitate
success: various forms of scholarly and interpersonal communication, principles of scholarly
collaboration, giving and receiving critiques, development of a program of study, and other
topics developed by participants. Prerequisite: Enrolled in PhD program in Nursing Science.
Credit/no-credit only.

NURS 588 Philosophical Basis of Nursing Inquiry (3) Overview and critical analysis of
historical and contemporary views of knowledge development and of science, with particular
emphasis on the ways these views influence approaches to nursing inquiry. Emphasis on
analyzing the underlying epistemological and ontological assumptions and implications of
diverse approaches to knowledge generation in nursing.

NURS 589 Theoretical Perspectives in Nursing (3) Critical analysis of theory development,
including evaluation of relationships among theories, evidence, and explanation. Diverse
approaches used to appraise historical and contemporary milestones in the development and
evaluation of nursing knowledge. Emphasis on process and implications of theory development
for nursing research, practice, education, and systems. Prerequisite: NURS 588. Offered: W.

NURS 590 Ecology of Human Health (5) Provides conceptual foundation for the study of
human health ecology within nursing science. Frameworks for understanding human health as an
outcome of individual, family, and group interactions and transactions with environments are
applied. Provides the basis for evaluation and developing therapeutic approaches to improve
health.
NURS 592 The Science of Therapeutics: Theoretical Foundations (4) Addresses the state of the science of nursing therapeutics. Students examine the practices of nursing to promote, maintain, and restore human health from an ecological perspective. Therapeutics considered from the perspectives of the individual, family, and community systems. Prerequisite: NURS 590 or equivalent with permission of instructor.

NURS 595 Synthesis of Nursing Science (3) Advanced seminar for critical analysis, integration, and synthesis of material for a research proposal. Focus includes discussion of research integrity and ethics, including scientific conduct, risk management related to scientific misconduct and negligence. Prerequisite: NURS 587; NURS 588; NURS 589; NURS 590; NURS 592; NMETH 579; NMETH 580; and NMETH 591; any of which may be taken concurrently. Credit/no-credit only.

NURS 597 Health in the Context of Culture (5-6, max. 24) Provides basic overview of health and healthcare challenges and opportunities in other countries. Examines socio-cultural, environmental, economic, political, and ecological factors that influence, health, health promotion, illness, disability, and death. Address responses to health issues both within and outside the health sector. May include study abroad.

NURS 599 Selected Readings in Nursing Science (1-3, max. 18) Analysis of synthesis of selected readings with faculty mentor. Prerequisite: permission of instructor. Credit/no-credit only.

Nursing Clinical

NCLIN 301 Practicum: Health Assessment and Foundational Skills for Nursing Practice (6) Focuses on foundational nursing skills including health assessment, interviewing and communication, as well as psychomotor skills and critical thinking in the context of nursing care to individuals across the lifespan. Person-centered care and patient safety and are emphasized through use of simulation.

NCLIN 302 Practicum: Health Assessment (1-5, max. 5) Lecture and lab emphasize nursing skills in communication, interviewing, functional and physical health assessment. Includes: basic communication skills, beginning physical and psychosocial assessment of the individual across the lifespan, and family assessment. Offered: AS.

NCLIN 306 Practicum: Basic Skills of Nursing Practice (4) Practicum in communication, interviewing, health assessment, identification of threats to health in clinical settings. Explores risk, vulnerability identification, communication, physical/psychosocial assessment of individuals across lifespan, nursing care planning, documentation, psychomotor skills development. Prerequisite: NCLIN 302, which may be taken concurrently. Credit/no-credit only.

NCLIN 403 Practicum: Pediatric Nursing (4) Provides supervised acute/chronic illness nursing care to pediatrics clients. Emphasizes beginning skills in systematic health and developmental assessment, including person/environment fit, basic competency in selected
nursing therapies, and developing role as care agent for pediatrics clients and their families. Prerequisite: NURS 401, may be taken concurrently. Credit/no-credit only. Offered: WSp.

**NCLIN 407 Practicum: Nursing Care of Ill Adults (5)** Provides supervised nursing care to ill adults and their families. Emphasizes systematic assessment, including person/environment fit, developing competency in selected nursing therapies, and developing a role as a professional nurse. Prerequisite: NURS 401, which may be taken concurrently. Credit/no-credit only.

**NCLIN 409 Partnerships in Community Health (4)** Analysis, application, and evaluation of community partnership process for health. Analysis of nursing role in community/public health, including community building, collaboration, policy. Development and formulation of community interventions to maintain/promote biopsychosocial health, and to promote health/prevention of injury and disease. Credit/no-credit only.

**NCLIN 411 Transition to Clinical Practice (9)** Focuses on critical examination, synthesis, and evaluation of professional nursing care with individual clients or groups reflecting diverse settings, ages, and ethnic communities. Emphasizes mastering theoretical concepts, applying research findings, improving skill competency, and developing clinical leadership capabilities. Credit/no-credit only.

**NCLIN 416 Practicum: Nursing of Families: Childbearing and Childrearing (4)** Provides the opportunity for supervised nursing of childbearing and childrearing families and individuals. Emphasizes expanding nursing process skills, especially health promotion, with individuals and families during childbearing and childrearing. Prerequisite: NURS 415, which may be taken concurrently. Credit/no-credit only. Offered: AW.

**NCLIN 418 Practicum: Psychosocial Nursing (4)** Provides supervised psychosocial nursing care to individuals/families/groups/communities with threats to or alterations in psychosocial health. Emphasizes increasing skill in systematic assessment, developing competency in selected psychosocial nursing interventions, and evaluation of treatment outcomes. Prerequisite: NURS 417, which may be taken concurrently. Credit/no-credit only. Offered: AW.

**NCLIN 422 Practicum: Ambulatory Care (3)** Provides opportunity for simulated and supervised nursing of individuals in a variety of ambulatory care settings. Discussion of organization of ambulatory care within the health care system and role of professional nursing. Emphasizes concepts of episodic care, triage, health promotion and education, interdisciplinary communication, care coordination, and resource and environmental management.

**NCLIN 475 Foundations of Interprofessional Practice (1)** Team-based training in healthcare team functioning for professional nursing students. Students work and co-learn with other health sciences students in applying knowledge of evidence-based practice, quality improvement principles, and informatics to patient-centered care situations. The course will provide careful attention to development of intra- and interprofessional roles and professional identity. Credit/no-credit only. Offered: AWSp.
NCLIN 490 Special Laboratory Elective (1-4, max. 4) Provides supervised laboratory experience to enhance and document clinical skills and decision making. Prerequisite: permission of instructor. Credit/no-credit only.

NCLIN 499 Clinical Practicum Elective (1-5) Provides opportunities to develop nursing skills in the care of individuals, groups, communities, or care-systems. Individually arranged with faculty member for application of theory and principles to direct care, consultation, education, or care coordinator roles. Prerequisite: NCLIN 302; NCLIN 306; NCLIN 402; NCLIN 406.

NCLIN 500 Comprehensive Health Assessment (3) Uses didactic and experimental learning to develop evidence-informed advanced assessment skills including systematic collection, organization, interpretation, and communication of data reflecting the health status of adolescents/adults/older adults. Emphasizes a holistic analysis of developmental, familial, physiological, psychosocial, occupational, environmental, functional, nutritional, and cultural aspects of health. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWS.

NCLIN 501 Diagnostic Health Assessment (1-5, max. 5) Examines evidence-informed clinical decision-making in the advanced assessment of symptoms experienced by adolescents/adults/older adults. Uses didactic and experimental learning in the systematic collection, integration, analysis, interpretation, and communication of focuses on subjective and objective data, including formulation of diagnostic hypotheses. Prerequisite: NCLIN 500, which may be taken concurrently. Credit/no-credit only. Offered: AWS.

NCLIN 502 Pediatric Diagnostic Health Assessment (1-4, max. 4) Uses didactic and experimental learning to develop evidence-informed advanced assessment skills including systematic collection, organization, interpretation, integration, and communication of data reflecting health status of children from birth to adolescence. Emphasizes holistic analysis of developmental, familial, physiological, psychosocial, environmental, functional, nutritional, and cultural aspects of health. Prerequisite: permission of instructor. Credit/no-credit only. Offered: A.

NCLIN 503 Advanced Fieldwork Community Health Nursing (2-6, max. 12) Guided experience in delineating nursing roles in community settings. Development of a philosophy of community health nursing. Application of core concepts pertaining to health, ethics, care, and community. A minimum of four hours of guided experience weekly. Prerequisite: graduate standing and permission of instructor.

NCLIN 505 Diagnostic Management and Decision Making (2-5) P. CHRISTIANSON Examines diagnostics pertinent to adult and geriatric illnesses from individual and population perspectives in the context of evidence, risk/benefits, equity, cost, access and care quality. Case analyses integrate health assessment and differential diagnoses into selection of appropriate tests. Includes didactic and laboratory/simulation components. Prerequisite: NCLIN 501 or equivalent. Offered: W.
NCLIN 508 Seminar in Group Treatment (1) Seminar on the theoretical basis for working with various treatment groups. Analysis of selected approaches to group treatment. Analysis of leader responsibilities and functions in the development of therapeutic group experiences.

NCLIN 510 Group Work with High-Risk Youth (3-6, max. 6) Theory and application course in group counseling for high-risk youth. Central theme is group leader effectiveness in helping young people increase school performance, decrease drug involvement, and increase emotional well-being. Open to graduate students in nursing, education, and related human services professions.

NCLIN 512 Advanced Practicum in Family and Child Nursing I (2-12, max. 35) Clinical seminar and practicum provide opportunities to develop advanced nursing practice competencies in the care of women, families, children, and/or adolescents. Focuses on the application of theory and principles when providing direct patient care, patient education, and the collaboration of care with individuals and/or groups. Credit/no-credit only.

NCLIN 514 Seminar in Home Care for Chronic Illness (3) Home-care services as component of community health nursing. Understanding effects of direct nursing functions on care of chronically ill persons and their families. Selected field study experiences in community health settings. Prerequisite: NURS 563, graduate standing, and permission of instructor.

NCLIN 516 Advanced Clinical Practicum I (4-5) Clinical practicum and seminar providing opportunities to develop advanced nursing practice competencies with targeted populations. Focuses on the application of theory and principles when providing care, education, and collaboration with individuals and groups. Credit/no-credit only. Offered: Sp.

NCLIN 517 Advanced Clinical Practicum II (5-7) Clinical practicum and seminar providing opportunities to develop advanced nursing practice competencies with targeted populations. Focuses on the application of theory and principles when providing care, education, and collaboration with individuals, groups, and systems. Credit/no-credit only. Offered: S.

NCLIN 518 Advanced Clinical Practicum III (5-7) Clinical practicum and seminar providing opportunities to develop advanced nursing practice competencies with targeted populations. Focuses on the application of theory and principles when providing care, education, and collaboration with individuals, groups, and systems. Credit/no-credit only. Offered: A.

NCLIN 519 Newborn Assessment for Advanced Practice (1) Credit/no-credit only.

NCLIN 520 Clinical Reasoning and Assessment Across the Lifespan (2) Provides the framework to begin evidence-informed clinical decision-making in the advanced assessment of patients across the lifespan. Includes didactic and experiential learning in systematic collection, integration, analysis, interpretation, and communication of focused subjective and objective data, including formulation of diagnostic hypotheses. Emphasizes a holistic approach. Credit/no-credit only. Offered: A.
NCLIN 521 Diagnostic Decision Making and Clinical Skills Laboratory (2) Designed to enhance student's knowledge, performance, and interpretation of various diagnostic tests and clinical procedures in multiple settings. Includes skills across the age span. Skill demonstration and validation occur in the lab classroom. Co-requisite: NCLIN 516; permission of instructor. Credit/no-credit only.

NCLIN 532 Advanced Practice in Community Health Systems Nursing: Overview (3) Seminar and practicum focusing on evidence-based approaches to community health systems nursing, integration and application of theories, and content related to social determinants of health and social justice. Emphasizes the development of advanced practice, leadership, and practice inquiry competence. Credit/no-credit only. Offered: A.

NCLIN 533 Advanced Practice in Community Health Systems Nursing: Culture (3) Seminar and practicum focusing on evidence-based approaches to community health systems nursing, integration and application of theories, and content related to cultural issues affecting the health of individuals, populations, and communities. Emphasizes the development of advanced practice, leadership, and practice inquiry competence. Credit/no-credit only. Offered: W.

NCLIN 534 Advanced Practice in Community Health Systems Nursing: Assessment (3) Seminar and practicum focusing on evidence-based approaches to community health-systems nursing. Includes integration and application of theories and content related to the assessment and appraisal of communities and populations. Emphasizes the development of advanced practice, leadership, and practice inquiry competence. Credit/no-credit only. Offered: Sp.

NCLIN 535 Advanced Practice in Community Health Systems Nursing: Policy (4) Seminar and practicum focusing on evidence-based approaches to community health-systems nursing. Includes integration and application of theories and content related to health-related organizational and public policy that promotes health equity. Emphasizes the development of advanced practice, leadership, and practice inquiry competence. Credit/no-credit only. Offered: A.

NCLIN 536 Advanced Practice in Community Health Systems Nursing: Health Systems (4) Seminar and practicum focusing on evidence-based approaches to community health-systems nursing. Includes integration and application of theories and content related to systems-level models of practice to service delivery among communities and populations. Emphasizes the development of advanced practice, leadership, and practice inquiry competence. Credit/no-credit only. Offered: W.

NCLIN 540 Infant Mental Health Practice: Parent Child Relationships and Intervention ([3-6], max. 18) Focuses on reflective practice, relationship-based consultation, and therapeutic interventions with infants/toddlers and caregivers. Students complete required clinical practicum at assigned community sites for three quarters. Prerequisite: admission to Infant Mental Health certificate program. Credit/no-credit only. Offered: AWSp.
NCLIN 541 Advanced Practice Specialist Clinical Practicum (1-10, max. 10) Apply, synthesize, evaluate, and communicate knowledge about a specific domain of advanced medical/surgical or forensics nursing practice. Emphasis is on specialization and role development. Prerequisite: permission of instructor. Credit/no-credit only.

NCLIN 542 Advanced Practice Specialist Clinical Practicum II (1-10, max. 10) Apply, synthesize, evaluate, and communicate knowledge about a specific domain of advanced medical/surgical or forensics nursing practice. Fieldwork emphasizes greater depth/complexity/independence in specialization and role development. Seminars emphasize critical analysis of role-related issues. Capstone experience for clinical practicum. Prerequisite: NCLIN 541. Credit/no-credit only.

NCLIN 543 Advanced Practice Specialist Clinical Practicum III (1-10, max. 10) Apply, synthesize, evaluate, and communicate knowledge about a specific domain of advanced medical/surgical or forensics nursing practice. Role development within specialty context. Emphasis is on critical analysis of leadership-related issues. For students in final clinical, serves as capstone. Prerequisite: NCLIN 542. Credit/no-credit only.

NCLIN 544 Advanced Practice Specialist Clinical Practicum IV (1-10, max. 20) Apply, synthesize, evaluate, and communicate knowledge about a specific domain of advanced medical/surgical or forensics nursing practice. Fieldwork serves as capstone experience. Seminar emphasis is on consultation and collaboration. Prerequisite: NCLIN 543. Credit/no-credit only.

NCLIN 549 Nurse Practitioner Clinical Practicum I: Adults/Older Adults (1-10, max. 10) Clinical fieldwork and seminar in advanced nursing practice with individual/groups. Students practice under clinical preceptor supervision. Focuses on data collection/critical thinking related to health status and threats to health, incorporating knowledge from the biological, behavioral, and social sciences. Prerequisite: permission of instructor, or NCLIN 501 or equivalent. Credit/no-credit only.

NCLIN 550 Nurse Practitioner Clinical Practicum II: Adults/Older Adults (1-10, max. 10) Clinical fieldwork and seminar in advanced practice nursing. Builds on NCLIN 549, emphasizing critical thinking related to the differential diagnosis/management of health problems and human responses. Students practice under clinical preceptor supervision. Addresses selected role issues in advanced practice nursing. Prerequisite: NCLIN 549 or permission of instructor. Credit/no-credit only.

NCLIN 551 Advanced Practice Nursing Clinical Practicum III: Adults/Older Adults (1-10, max. 10) Clinical fieldwork and seminar in advanced practice nursing. Builds on NCLIN 550, emphasizing the integration and application of previous learning in the care of people with multiple health problems. Students practice under preceptor supervision. Addresses selected role issues in advanced practice nursing. Prerequisite: NCLIN 550 or permission of instructor. Credit/no-credit only.

NCLIN 552 Nurse Practitioner Clinical Practicum IV: Adults/Older Adults (1-10, max. 10) Intensive clinical experience in which students integrate previous learning to assume
responsibility for care of older adults and/or adults with multiple health problems. Students practice as an advanced practice nurse supervised by a preceptor, assuming increasing responsibility for planning/implementing therapies and for documenting/evaluating outcomes. Prerequisite: NCLIN 551. Credit/no-credit only.

**NCLIN 562 Professional Interpersonal Styles of Communication with Families to Enhance Health Outcomes (3)** Complex communication processes evaluated and applied to the family as unit of interaction within interdisciplinary context. Empirical based communication practices analyzed considering family variables adherence, satisfaction, health outcomes, and cost effectiveness. Engagement in experiential learning through challenging clinical scenarios. Emphasizes cultural competencies. Prerequisite: DNP nursing student or permission of instructor. Credit/no-credit only.

**NCLIN 567 Advanced Practice Clinical Practicum (2-6, max. 22)** Practicum used to expand, deepen, or enrich advanced practice skills relevant to area of specialty preparation. Uses clinical activities to reflect an integration of advanced practice, leadership, and practice inquiry. Emphasizes self-directed learning, in-depth clinical skill building and decision-making, continuity of care, and interprofessional collaboration. Prerequisite: permission of instructor. Credit/no-credit only.

**NCLIN 599 Independent Study Clinical Practicum (1-12, max. 25)** Clinical practicum to develop advanced-practice nursing skills in care of individuals, groups, communities, or care systems. Individually arranged with faculty member for application of theory and principles to direct care, consultation, education, or care coordinator roles. Prerequisite: matriculated MN, DNP students, or post-master's student, and permission of academic adviser and instructor. Credit/no-credit only. Offered: AWSpS.

**NCLIN 798 Tripartite Immersion Practicum (1-5)-, max. 5)** Practicum to synthesize and expand knowledge and skills in application of tripartite role of advanced practice, inquiry, and leadership. Analysis of practice issues including reflective practice, collaboration, health systems, technology, ethics, and policy. Prerequisite: permission of instructor and Supervisory Committee. Credit/no-credit only.

**NCLIN 801 Advanced Clinical Practicum Immersion (7-9)** Immersion clinical practicum and seminar providing opportunities to integrate advanced nursing practice competencies, leadership, professional role, and collaboration with targeted populations. Focuses on the application of theory and principles when providing care, education, and collaboration with individuals, groups, and systems. Offered: A.

**Nursing Methods**

**NMETH 403 Introduction to Research in Nursing (3)** Organization of the structure of nursing knowledge through research. Concepts and processes of research utilized in the investigation of nursing science.
NMETH 416 Methods for Research and Inquiry in Nursing I (2) Explores the generation of new knowledge and evidence base for nursing practice in health and illness. Focuses on appraising literature and methods for generating evidence. Offered: A.

NMETH 417 Methods for Research and Inquiry in Nursing II (2) Explores the generation of new knowledge and evidence base for nursing practice in health and illness. Focuses on searching evidence, appraising evidence, and classifying different types/levels of evidence. Offered: W.

NMETH 418 Methods for Research and Inquiry in Nursing III (2) Explores the generation of new knowledge and evidence base for nursing practice in health and illness. Focuses on identifying gaps in the literature/evidence, and formulating a plan to conduct research. Offered: Sp.

NMETH 419 Application of Methods for Research and Inquiry in Nursing (2) Apply methods for contributing to evidence relevant to nursing. In small groups identify, implement, and disseminate a plan for generating, evaluating, synthesizing, or translating evidence around health, healthcare, and/or nursing practice. Offered: Sp.

NMETH 450 Informatics, Patient Safety, and Quality Improvement (4) Explores concepts of the patient safety, quality and cost-effectiveness of health care, root cause analysis, and use of information technologies that promote quality and safety. Culminates in the design, implementation and evaluation of a small test of change with presentation of findings. Prerequisite: NMETH 403 or ABSN status; recommended: NMETH 403 ABSN status

NMETH 499 Undergraduate Research (1-5, max. 12) Supervised individual scholarly inquiry on a specific nursing problem. Credit/no-credit only.

NMETH 520 Scholarly Inquiry for Nursing Practice (5) Analyzes conceptual, theoretical, ethical, and empirical knowledge as a basis for posing nursing research questions, identifying research designs, selecting sampling and data collection strategies, and proposing analytic methods to answer a research question, and evaluate completed research for its scientific adequacy and applicability to practice. Offered: AWSpS.

NMETH 522 Data Management for Research Professionals (4) Surveys industrial strength data management, using techniques applicable to multi-center, longitudinal research trials with survey instruments. Involves challenges research professionals face as they graduate from a student project to a study with hundreds of cases, variables, multiple survey instruments and a staggered, repeated sampling protocol. Credit/no-credit only.

NMETH 523 Project Management and System Analysis for Health Informatics (3) Masuda Overview of information technology project management principles as contained within the Project Management Body of Knowledge (PMBOK) and the Systems Development Life Cycle within formal Systems Analysis. Offered: A.

NMETH 524 Healthcare Information Systems and the Electronic Health Records (3) Masuda, Murphy Overview and analysis of healthcare informatics issues, including patient
safety and Information Technology (IT), infrastructure, clinical systems, definitions and functions of EHR systems, IT leadership in healthcare organizations, informatics change management, including key user roles evaluating EHR and workflow changes. Offered: W.

**NMETH 526 Patient-Centered Interactive Health Communication Technologies (3)**
Overview of current and emerging consumer-centric eHealth tools and technologies. Researchers and practitioners from multiple disciplines present theories, concepts, and principles from health, information, cognition, and human-factors sciences as they relate to the development and use of these tools and technologies.

**NMETH 527 Introduction to Health Informatics and Systems Thinking (3) Masuda, Oyler**
Examines how informatics aids in the transformation of healthcare delivery and how to most effectively use the theories and best practices in informatics toward building and deploying informatics solutions. Offered: A.

**NMETH 528 Computing Concepts: From Theory to Application (3) Johnson**
Survey of conceptual and applied computing concepts. Conceptual topics include a global survey of hard/software, networking, information systems analysis/design, and programming. The applied component emphasizes desktop system management skills and the creative use of spreadsheets to enhance personal productivity. Offered: W.

**NMETH 529 Database Concepts and Applications in Clinical Informatics (3)**

**NMETH 530 Proposal and Project Development (3/5)**
Focuses on the application of methods of inquiry to develop a scholarly proposal through faculty-guided small group discussion and individual composition. Students select project option to complete the conceptual phase and most activities to fulfill their plan. Offered: AWSpS.

**NMETH 533 Appraisal and Translation of Evidence for Practice (5)**
Designed to enhance use of methods to critically appraise literature, design, and implement processes to evaluate outcomes of practice, and promote patient-centered care. Applies relevant findings to improve practice, develop guidelines, and use information technology and research methods. Includes dissemination of findings. Prerequisite: either NMETH 535 or permission of instructor. Offered: Sp.

**NMETH 535 Nursing Inquiry to Support Evidence-Based Practice (4)**
Works to understand and apply conceptual, ethical, and practical aspects of quantitative and qualitative research methods by design, sampling, data collection, measurement, and analysis, as a basis for evaluating and generating evidence for nursing practice. Develops skills in data management and statistical analysis to utilize in practice-based inquiry. Prerequisite: either NGS 555 or permission of instructor. Offered: W.
NMETH 536 Methods of Program Evaluation and Quality Improvement (4) Teaches principles and practice of program evaluation and quality assurance. Emphasizes current practices in designing, managing, evaluating, and disseminating findings for use in a variety of healthcare contexts. Includes content on use of informatics to improve healthcare delivery effectiveness, efficiency, and safety. Prerequisite: either NMETH 535, which may be taken concurrently, or permission of instructor. Instructors: Jarrett, Walsh Offered: Sp.

NMETH 570 Seminar in Clinical Research in Nursing (3) Philosophy, problems of design; use of criterion measures in terms of patient care.

NMETH 575 Methodological Issues in Family Research (3) Emphasizes research with the family as unit of analysis. Examines patterns of family functioning in relation to responses to heal situations. Reviews family units from generational and intergenerational perspectives. Critiques methods assessing dyadic and triadic relationships and therapeutic interventions on family outcomes. Prerequisite: permission of instructor.

NMETH 579 Research Design and Methods in Nursing Science (4) Focuses on elements of rigorous research designs and methods commonly used in nursing science; including descriptive, explanatory, predictive, and experimental and quasi-experimental designs, concepts of validity and reliability, and integration of design with analytical approaches for clinical research.

NMETH 580 Methodological Perspectives in Nursing Inquiry (3) Allows students to translate philosophical and theoretical perspectives into research methodologies. Foci include the relationship of theoretical perspectives to methodologies; the methodological issues among and between varying schools of thought such as interpretive/postmodern, critical/feminist, and contemporary empiricist; and how the methodologies influence choices of research design and methods. Prerequisite: NURS 588 or permission of instructor.

NMETH 581 Observational Research Methods (2-6, max. 6) Examines observational methods for conducting verbal and nonverbal behavioral research. Emphasizes critical analysis and rigor in research question formulation, measurement decisions, coding scheme development, data collection, and analysis and interpretation of data. In-depth application of observational method optional. Prerequisite: graduate standing and basic research methods course or permission of instructor. Offered: W.

NMETH 584 Methods: Physiologic Measures (4) Exploration of the measurement of physiologic functioning in human and animal models. Examples include biochemical and biophysical measure. Students develop beginning skills with one physiologic measure. Prerequisite: physiology and chemistry and permission of instructor.

NMETH 590 Special Topics in Nursing Research (2-5, max. 9) Examination of a specific research method, with evaluation of appropriateness, efficiency, rigor of measurement, and potential for inference for nursing research. Prerequisite: minimum of 5 credits of basic nursing research methodology at graduate level and permission of instructor.
NMETH 591 The Science of Therapeutics: Design and Outcomes (4) Synthesizes advanced strategies to evaluate the short- and long-term outcomes of clinical therapeutics with special emphasis on feasibility, pilot studies, and randomized control trials. Includes analysis of completed studies as well as the design of a randomized control trial of a clinical therapeutic. Prerequisite: NMETH 579, NURS 592, or permission of instructor.

NMETH 592 Clinical Outcome Research II (2-4, max. 4) Application and evaluation of philosophical, methodological, and analytical concepts and issues examined in NMETH 591. Two modules are offered: a) case study and small-n studies and b) large-n studies. Students demonstrate application of decision-making process involved in development of clinical outcome study. Prerequisite: permission of instructor.

NMETH 598 Special Projects ([1-12]-, max. 12) Fulfills the requirements of the non-thesis option for Master's students in nursing. Projects involve scholarly inquiry with in-depth focused analysis, culminating in a written product/report for dissemination. Prerequisite: NMETH 520 or permission of instructor. Credit/no-credit only.

NMETH 600 Independent Study or Research (*) Credit/no-credit only.

NMETH 700 Master's Thesis (*) Credit/no-credit only.

NMETH 800 Doctoral Dissertation (*) Prerequisite: permission of Supervisory Committee chairperson or Graduate Program Coordinator. Credit/no-credit only.

NMETH 801 Practice Doctorate Project (3-, max. 6) Addresses a clinical or systems problem using an evidence-based, practice relevant approach. Students engage in self-reflection, collaborative partnership building, and use of leadership strategies. Analyzes implications of project for future practice and practice inquiry activities. Culminates in written and oral reports for dissemination. Recommended: Student in final year of program Credit/no-credit only. Offered: AW.
School of Pharmacy

School Overview

Dean
Sean D. Sullivan

Associate Deans
Nanci L. Murphy
Stanley S. Weber

Established in 1894, the UW School of Pharmacy is proud of its strong commitment to excellence and the recognition given to its faculty, students, and graduates for their outstanding educational, research, and service activities. The School's Dean's Office and three departments - Medicinal Chemistry, Pharmaceutics, and Pharmacy - are located in the H-Wing of the Health Sciences Building and the South Campus Center. The School is a member of the American Association of Colleges of Pharmacy and its programs are accredited by the Accreditation Council on Pharmacy Education.

Doctor of Pharmacy Program

The School of Pharmacy offers a four-year program leading to the Doctor of Pharmacy (PharmD) degree. The curriculum of the PharmD program is designed to provide students the scientific background and clinical skills necessary to take the North American Pharmacist Licensure Examination (NAPLEX) and the Multistate Pharmacy Jurisprudence Examination (MPJE) to enter professional practice.

Limited class enrollment allows for individualized attention from instructors while students still enjoy the benefits of attending a large university. Instructional methods emphasize the critical thinking, problem-solving, and clinical skills necessary to provide rational drug therapy, reduce medication-related problems, promote healthy lifestyles and disease prevention, optimize health outcomes, enhance patient adherence, and render care in a changing health-care system. The School fosters a commitment to life-long learning and provides an environment where students develop the knowledge, attitudes, and skills consistent with the profession's high standards.

Admission

Admission is for autumn quarter only. Applicants who are current UW students or who are considered admissible to UW are not assured admission. Admission is competitive, based on a number of factors including cumulative and prerequisite GPAs, PCAT scores, written communication skills as demonstrated in application essays, interview results, and review of all application materials. Competitiveness varies from year to year, depending on size and strength of the applicant pool.
Because of limits on enrollment, the School cannot admit all qualified applicants. On average, over 600 students apply each year for 100 generally available positions. Admission is contingent upon satisfactory completion of all prerequisites, eligibility to obtain a Washington State Pharmacy Intern Certificate, and satisfactory results on the Criminal Background Check and Conviction/Criminal History Information Form. Accepted students are required to meet the University and health sciences immunization requirements.

After a preliminary assessment of the applicant pool, based on completeness of the application, review of all application materials, prerequisite and cumulative GPA thresholds and PCAT score thresholds, the most qualified applicants are invited for an interview in Seattle with members of the PharmD Admissions Committee. Residents from states participating in the Western Interstate Commission for Higher Education (WICHE) Pharmacy Student Exchange Program (Alaska and Nevada) are encouraged to apply. Applicants who meet or exceed GPA and PCAT minimum thresholds are not guaranteed an interview. Offers of interview are dependent on the size and competitiveness of the applicant pool during each annual admission cycle.

Further information on admission requirements, application procedures, and program content is available from the School of Pharmacy Office of Academic and Student Programs or at sop.washington.edu/school-of-pharmacy/pharmd-admissions/applications-to-pharmd-program.html.

**Graduate Programs**

Graduate Program Coordinator  
H375 Health Sciences, Box 357630  
206-616-1383

The Department of Pharmacy offers graduate study leading to a PhD degree in pharmaceutical outcomes research and policy. Emphasis of this program is on the health and cost outcomes of pharmaceuticals and pharmaceutical services and policies. Graduate training in this program prepares students for career opportunities in teaching and research in universities, safety and economic evaluation of products in the pharmaceutical industry, policy analysis of governmental agencies, and drug use management within healthcare delivery and financing organizations.

Also offered is a track in the PharmD/MS program in pharmaceutical outcomes research and policy, which provides an opportunity for one-to-two students currently completing their PharmD training at the UW to enter the graduate program in their fourth year of training. The program requires completion of 64 credit hours, a written thesis, and a quarter of practicum in a managed care, government, industry, or other appropriate setting. At the end of this training, students may elect to receive a master’s degree, or continue on toward a PhD degree.

The UW’s biomedical regulatory affairs Master of Science program, offered by the UW School of Pharmacy in partnership with UW Educational Outreach, addresses a growing need for well-trained professionals in the regulatory field. The degree serves those who wish to advance their careers in the medical products industry or those entering the field from related areas.
Deadline for application for the PhD and the PharmD/MS programs is December 31. Applicants are notified of acceptance or rejection by March 30. Refer to the application deadline for the biomedical regulatory affairs master-of-science program posted at: www.biomedreg.uw.edu/admissions/deadlines.asp.

Application materials and additional information are available in the Department of Pharmacy or at program websites listed below:

sop.washington.edu/porpp/graduate-program/phd-program27.html.

sop.washington.edu/porpp/graduate-program/concurrent-pharmdms-degree-in-pharmaceutical-outcomes-research-a-policy.html.

www.biomedreg.uw.edu.

**Residency and Fellowship Programs**

The Department of Pharmacy offers several postdoctoral fellowships in pharmacotherapeutics and pharmaceutical outcomes, and advanced community residency programs, primarily intended for PharmD graduates. Additional information is available on the department’s website: sop.washington.edu/pharmacy/about/fellowship-a-residency-opportunities.html.

**Clinical and Affiliate Faculty**

In addition to the School of Pharmacy’s full- and part-time faculty listed above, a large number of practicing pharmacists contribute to the School’s academic programs. Over 500 pharmacists throughout the Pacific Northwest are members of the clinical and affiliate faculty, representing a variety of pharmacy practice settings such as community, hospital, nursing home, government, and industry. Information on the names, addresses and practice settings of these faculty members is available from the Office of Professional Pharmacy Education.
Medicinal Chemistry

Department Overview

The department offers the doctor of philosophy degree, which includes didactic and research-based learning.

Students acquire the skills necessary to develop quantitative and qualitative methodologies necessary for the study of biochemical processes that occur at the cellular and subcellular levels. These include elucidation of biochemical transformations and interactions using techniques such as protein engineering, and a broad array of supportive spectroscopic techniques including mass spectrometry and NMR.

One major area of research is the role of biotransformation processes in toxification and detoxification of drugs and environmental contaminants. A second area is the determination of protein and small ligand structure and function using NMR, mass spectroscopy, and other biophysical techniques. Issues of biomedical importance include elucidation of mechanisms of drug-induced cell toxicity, drug-drug and drug-herbal interactions, identification of enzyme attributes that dictate substrate specificity and catalytic mechanism, pharmacogenetics, proteomics, and mechanisms of viral assembly.

Doctor of Philosophy

Admission Requirements

Students with undergraduate degrees in pharmacy or in the biological or physical sciences are accepted.

Degree Requirements

Minimum 90 credits

Proficiency in organic, medicinal and physical chemistry; pharmacology, biochemistry, and molecular biology. Most coursework is completed in the first two years. Two quarters of teaching experience required. The program is flexible and easily adaptable to meet individual interests and needs.
In the first year, students rotate through the laboratories of at least two faculty members. At the end of the first year, the student chooses a faculty sponsor and a dissertation research project.

1. **First year:** CHEM 530, CHEM 531, CHEM 532; MEDCH 501, MEDCH 502, MEDCH 503; MEDCH 520 (1 credit each quarter); MEDCH 582 (1 credit each quarter); MEDCH 600

2. **Second year:** BIOC 530; MEDCH 527 MEDCH 541; PHCOL 510, PHCOL 511; MEDCH 520 (1 credit each quarter); MEDCH 582 (1 credit each quarter); MEDCH 600

3. **Third year:** MEDCH 520 (1 credit each quarter); MEDCH 582 (1 credit each quarter); MEDCH 600 (7 credits each quarter)

4. **Fourth year:** MEDCH 800

**Financial Aid**

Financial support in the form of research assistantships and fellowships may be available to students in good standing throughout their graduate careers. Availability of financial support varies from year to year, and prospective applicants should contact the Graduate Program Coordinator for additional information.

**Course Descriptions**

**MEDCH 400 Fundamental Concepts in Medicinal Chemistry (3)** Principles of physical organic chemistry; chemical bonding, stereochemistry, acids/bases, and reaction mechanisms relevant to processes such as drug distribution, specificity, and metabolism. Prerequisite: either CHEM 239 or CHEM 337. Instructors: Nelson Offered: A.

**MEDCH 495 Special Studies in Medicinal Chemistry (*, max. 6)** Opportunity to expand the breadth and depth of understanding in specific areas. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

**MEDCH 499 Independent Study/Research (*, max. 24)** Research problems in medicinal chemistry. Prerequisite: cumulative GPA of 2.50 and permission of instructor. Offered: AWSpS.

**MEDCH 520 Seminar (1, max. 30)** A. NATH Graduate students attend seminars and make one formal presentation per year while in residence; maximum of three presentations. Credit/no-credit only. Offered: jointly with PCEUT 520.

**MEDCH 521 Advanced Medicinal Chemistry (3)** Application of integrated data from the physical and biological sciences to problems of chemotherapy, including transport of drugs to site of action, biotransformation of drugs, interaction of drugs with enzyme systems, and recent advances in drug design. Prerequisite: CHEM 457, CHEM 531, and BIOC 442, or permission of instructor. Instructors: Atkins, Nelson Offered: Sp.

**MEDCH 527 Drug Metabolism (4)** A. RETTIE, K. THUMMEL Considerations of the biochemical mechanisms for the biotransformation of drugs and foreign compounds. Includes
reaction mechanisms, ultrastructural considerations, induction mechanisms, methodology, kinetics of inhibition and activation, steroid and amine metabolism. Offered: jointly with PHCOL 527; W, odd years.

**MEDCH 528 Biophysical Enzymology and Biopharmaceuticals (2)** Atkins, Catalano Covers in-depth treatment of chemical catalysis and transition state theory as related to enzyme mechanisms; thermodynamics and kinetics of protein-ligand interactions, protein-protein-interactions and protein-lipid interactions, and methods for their study. Discusses therapeutically relevant examples, including viruses, therapeutic antibodies, and drug targets. Offered: W, even years.

**MEDCH 529 Advanced Medicinal Chemistry (4)** Atkins, Kunze, Nelson, Rettie, Totah Covers the fundamental aspects of contemporary medicinal chemistry. Discusses the chemical characteristics of drugs and drug targets, pharmaceutical properties of drugs, drug metabolism, toxicology, and pharmacogenetics. Focuses on various drug classes; their biochemistry, pharmacology, mechanism of action, and toxicology. Offered: W.

**MEDCH 530 Integrated Pharmacology (1)** Atkins, Beavo, Rettie Students present and discuss primary literature that integrates aspects of medicinal chemistry and pharmacokinetics with the physiology, pharmacology, and genetics of therapeutic drug targets. Examples of targets discussed include ion channels and enzymes relevant to cardiovascular disease, and neurodegenerative disease. Credit/no-credit only. Offered: Sp.

**MEDCH 531 Laboratory Methods in Protein Therapeutics (3)** Hands-on experience with laboratory methods and data analysis used to characterize biophysical properties of therapeutic antibodies. Students measure functional protein interactions and stability of constructs currently used for anti-body-based therapeutics. Background lectures from industry and government scientists highlight the role of these analyses in development of protein-based therapeutics.

**MEDCH 535 Diagnostic Medicinal Chemistry (3)** Catalano, Kunze Examination of clinical diagnostic tests with regard to the chemical or biochemical rationale of the testing method, interpretation of test results, and major factors influencing test values with special emphasis on the effects of medications. Clinical laboratory data from patients considered in light of these factors. Offered: W.

**MEDCH 541 Biological Mass Spectrometry (3)** Covers the basics of modern ionization methods and mass analyzers; small molecule structure assignment, quantitative assay development by LC-MS and metabolomics; quantitative discovery-based proteomics and validation methods; and peptide sequence determination, post-translational modification mapping, and protein structure determination methods. Prerequisite: permission of instructor. Instructors: Whittington Offered: Sp.

**MEDCH 551 Flavin and Heme-Containing Monooxygenases (1)** Discussion of research strategies and methodologies concerning the structure, function, and polymorphic expression of human monooxygenases, especially the cytochrome P450s and flavin-containing monooxygenases. Emphasis placed on experimental problem solving, data analysis, and
MEDCH 552 Medicinal Chemistry Aspects of Drug Action and Drug Metabolism (1)
Discussion of research strategies, methodologies, and literature concerning the mechanisms of
drug action and drug metabolism, particularly as these apply to opiate drugs and beta blockers.
Emphases placed on problem solving, data analysis, and presentation. Prerequisite: permission of
instructor. Instructors: Rettie Credit/no-credit only. Offered: AWSpS.

MEDCH 553 Structure and Function of Macromolecular Protein Assemblies (1)
Discussion of research strategies, methods, and current literature concerning macromolecular self-assembly
processes and protein-protein interactions as they relate to biological specificity. Emphasis on
experimental approaches used in current literature. Prerequisite: permission of instructor.
Instructors: Atkins Credit/no-credit only. Offered: AWSpS.

MEDCH 554 Biophysical and Structural Virology (1) Lee Discusses current topics in virus
research and literature. Weekly sessions led by all participating members of the research group.
Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

MEDCH 555 Biophysics and Pharmacology of Dynamic Proteins (1) Discusses current topics
in protein dynamics, focusing on intrinsically disordered proteins and drug-metabolizing
enzymes. Weekly sessions led by all participating members of the research group. Prerequisite:
permission of instructor. Instructors: Nath Credit/no-credit only. Offered: AWSpS.

MEDCH 556 Clinical and Mechanistic Aspects of Drug Metabolism (1) Discussion of
research methodologies and new approaches to elucidatate chemical mechanisms and
enzymology of reactions catalyzed by cytochrome P-450. Emphasis on clinical applications and
predicting in vivo drug behavior and toxicity. Prerequisite: permission of instructor. Instructors:
Totah Credit/no-credit only. Offered: AWSpS.

MEDCH 557 Antibody-Antigen Interactions (1, max. 10) M. Guttman Discussion of research
strategies, methods, and current literature in characterizing the structures of antibody-antigen
interactions with an emphasis on carbohydrate interactions. Weekly sessions are led by all
participating members of the research group. Prerequisite: Permission of instructor. Credit/no-
credit only. Offered: AWSpS.

MEDCH 558 Human Cytochrome P-450 Biochemistry (1) Presentation and discussion of
research strategies and methodologies related to current problems in human drug metabolism by
cytochrome P-450 enzymes. Emphasis on hypothesis testing and experimental problem solving
in the areas of enzyme kinetics and mechanism. Prerequisite: permission of instructor.
Instructors: Kunze Credit/no-credit only. Offered: AWSpS.

MEDCH 559 Biosynthesis, Metabolism, and Analysis of Lipids (1) L. Xu Covers recent
advanced on oxidative metabolism of lipids, lipid biosynthesis, and application of advanced mass
spectrometry to the analysis of lipids and oxidized lipids. Weekly sessions led by all
participating members of the research group. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

**MEDCH 561 Immunizing and Antimicrobial Agents (4)** Black, Lee, Totah
Mechanisms of action, spectrum of coverage, resistance patterns, toxicity, and therapeutic applications of antibiotics, antifungals, and antivirals. Also covering chemical and biologic properties of agents used to prevent or treat infectious diseases, including diagnostic, prophylactic, and therapeutic uses of immunizing agents. Prerequisite: MICROM 301, MICROM 302, MEDCH 570, or equivalent, PharmD major, or permission of instructor. Offered: Sp.

**MEDCH 562 Medicinal Chemistry (3)** W. Atkins, K. Kunze, D. Porubek, A. Rettie
Study of the various classes of medicinal compounds with particular emphasis on biological activity, mechanism of action, biotransformation, and the structural and physical properties governing absorption, distribution, and excretion. Prerequisite: MEDCH 400 or satisfactory completion of qualifying exam. Offered: A.

**MEDCH 563 Medicinal Chemistry (3)** Study of the various classes of medicinal compounds with particular emphasis on biological activity, mechanism of action, biotransformation, and the structural and physical properties governing absorption, distribution, and excretion. Prerequisite: MEDCH 400 or satisfactory completion of qualifying exam. Instructors: Nelson, Rettie Offered: W.

**MEDCH 564 Medicinal Chemistry (3)** Study of the various classes of medicinal compounds with particular emphasis on biological activity, mechanism of action, biotransformation, and the structural and physical properties governing absorption, distribution, and excretion. Prerequisite: MEDCH 400 or satisfactory completion of qualifying exam. Instructors: Atkins, Nelson Offered: Sp.

**MEDCH 570 Medicinal Biochemistry (4)** Catalano, Kunze
Covers advanced topics in medical biochemistry directly related to understanding disease and drug therapy in pharmacy practice. Areas of study include enzymes of drug metabolism, metabolic control of disease states, signal transduction, virology, coagulation and complement cascades, cellular transport, and DNA replication/transcription. Offered: W.

**MEDCH 582 Topics in Medicinal Chemistry (1, max. 30)** Discussion of pertinent articles from current literature. Credit/no-credit only. Offered: AWSp.

**MEDCH 599 Cumulative Exams for Medicinal Chemistry (1)** Quarterly cumulative examinations for graduate students. Credit/no-credit only. Offered: AWSp.

**MEDCH 600 Independent Study or Research (*)** Credit/no-credit only. Offered: AWSpS.

**MEDCH 700 Master's Thesis (*)** Credit/no-credit only. Offered: AWSpS.

**MEDCH 800 Doctoral Dissertation (*)** Credit/no-credit only. Offered: AWSpS.
Pharmaceutics

Department Overview

The Department of Pharmaceutics offers a program of study leading to the Doctor of Philosophy degree.

Program Description

The doctoral degree program in pharmaceutics trains research scholars in the fundamental aspects of drug delivery, drug disposition, and drug action in animals and man. Drug disposition includes the facets of drug absorption, distribution, and elimination. Pharmacokinetics is the study of the time course of these processes and the time course of pharmacological effects. Drug delivery includes targeting of drugs and modulation of xenobiotic and drug transporters to tissues or specific cell types to improve their therapeutic effect. For further information, visit: sop.washington.edu/pharmaceutics/about/what-is-pharmaceutics.html.

Typically graduates interact with clinicians, medicinal chemists, biochemists, pharmacologists, analytical chemists, and physiologists. This is possible because their training is highly interdisciplinary at the didactic and research levels.

A wide range of career paths is available to graduates. Opportunities include research in the pharmaceutical industry; research in hospitals, institutes, and foundations; teaching and research in academic institutions; and positions with government regulatory agencies.

Graduate Program

Graduate Program Coordinator
H272 Health Sciences, Box 357610
206-543-9434
pceut@uw.edu

Doctor of Philosophy

Admission Requirements

1. One copy of official transcripts in a sealed envelope from each college attended
2. Official GRE score report
3. All foreign students must take the TOEFL and TSE test and send in the official score report
4. Statement of personal goals describing applicant's background, academic interests, and career objectives
5. A resume; or curriculum vitae listing educational and employment history
6. Three letters of recommendation from persons in a position to evaluate the applicant's potential for graduate school.

**Degree Requirements**

Minimum 90 credits of coursework, to include:

1. *Credits and Scholarship:* Minimum 41 credits of coursework, exclusive of thesis and non-thesis research. 3.00 GPA in all numerically graded courses numbered 400 and 500. Minimum passing grade in any given course is 2.7, except required pharmaceutics courses (PCEUT 501, PCEUT 502, PCEUT 503, PCEUT 506) in which a passing grade is 3.0. Credits earned for a master's degree may apply towards the doctoral degree.

2. *Teaching Experience:* Minimum two quarters of teaching assistant experience. Students are not asked to assist more than one class an academic quarter (less than 12 contact hours/week). Most students complete this requirement during the first three years in the program.

3. *Examinations and Progress Evaluation:* A series of preliminary, cumulative (written) examinations; a general examination (oral) for advancement to PhD candidacy; a final examination (defense of the thesis). See Appendix A, "Progression Steps in Relation to the Doctoral Degree," for an overview. Appendix B describes the cumulative examination, which precedes the general exam. Appendix C provides details about formation of a doctoral Supervisory Committee and its role in the general exam and thesis defense. Appendix D provides details about the structure and conduct of the general exam.

4. *Master's Degree Bypass:* Students who qualify for continuation to the PhD degree may be allowed to bypass the M.S. degree. See Appendix A for petition procedure.

5. *Seminars:* All students must present a minimum of two and a maximum of four seminars while in the doctoral program (PCEUT 520). In addition, a presentation of papers from current literature is required twice a year, starting at the beginning of the second year until defense of the thesis (PCEUT 583). See Appendix E, "Training in Oral Communication through Seminars and Journal Club" for additional details.

6. *Didactic:* Coursework for the doctoral program is divided into four components: (a) prerequisites which define the level of entry into the program; (b) a required core program which is analogous to the major; (c) elective courses, which are not required but are encouraged; (d) seminars and literature review.

   a. Prerequisites:

   - MATH 124
   - MEDCH 400

   Applicants with a PharmD degree should have fulfilled the medicinal chemistry requirement. MEDCH 400 can be taken in autumn quarter of the first year. Candidates are accepted on condition that any deficiencies in course requirements are rectified by the end of the first academic year.
b. Core Program:

- PCEUT 506
- PCEUT 501
- PCEUT 502
- PCEUT 503
- PCEUT 510, PHCOL 511, PHCOL 512, PHCOL 513
- BIOST 511
- BIOST 512
- HCDE 509
- PCEUT 600, PCEUT 800

Students entering with previous graduate-level coursework in the required areas may have some of the above courses waived. In addition, all students must attend the following training sessions, preferably during the first academic year: chemical safety, biological safety, and bioethics training. Radiation safety and animal care may also be required, if relevant to the student's thesis research.

c. Directed Electives:

Electives are not required. However, students are encouraged to take elective courses that might benefit their thesis project and career goals. Courses that might be of interest can be found in the disciplines of biotransformation/biochemistry, biologics/drug delivery, pharmacology/cell biology, and physiological modeling/biostatistics.

d. Seminars and Literature Review:

- PCEUT 520 (1 credit/quarter; 3 quarters/year until graduation)

Beginning the second year, students make one presentation each year, with a maximum of four presentations. A general topic seminar is presented in the second year; research presentations in subsequent years.

- PCEUT 583 (1 credit/quarter; 3 quarters/year until graduation)

Beginning the second year, students make two presentations each year until graduation. Journal club presentation is waived in the quarter during which the student is scheduled to make a PCEUT 520 seminar presentation.

7. Research:

- PCEUT 600, PCEUT 800
Students complete three research laboratory rotations (PCEUT 600), one per quarter, starting autumn quarter of their first year. A student may opt to complete a rotation in summer quarter, before the initiation of classes. This involves an early appointment in the department and, thus, decisions must be made at the time they accept the offer to enroll. Matching of available labs with each incoming student is facilitated by the first year graduate adviser. Student preferences are given due consideration.

Students must choose a thesis adviser by the end of spring quarter in their first academic year (See Appendix A for additional details).

Students must begin research in the lab of their adviser by summer quarter at the end of their first academic year (PCEUT 600). Most students may find that after-class and off-hours are the best and most productive time for laboratory research (See Appendix A1b for additional details).

After successful completion of the master’s bypass requirements (see Appendix A for details), students sign up for PCEUT 800, until the defense of their thesis.

8. **Cumulative Examination**

Students begin taking cumulative exams in autumn quarter of their second academic year, and continue taking them at every offering until completion of pass requirements or until they take the maximum of eight exams. A total of eight exams are offered, two each in autumn, winter, spring, and summer quarters. For each exam, there are two questions. Students must pass four of eight exams to complete the cumulative requirement. Students who do not achieve this goal are given the option of completing requirements for a terminal master's degree or withdrawal from the program.

**Financial Aid**

All students in the program receive financial support in the form of research assistantships, Public Health Service predoctoral training fellowships, and other fellowships such as the William E. Bradley Graduate Fellowship or those from the American Foundation for Pharmaceutical Education or from several pharmaceutical companies.

**Course Descriptions**

PCEUT 499 Undergraduate Research (1-6, max. 12) Research problems in drug disposition, drug targeting, and drug development. Prerequisite: cumulative GPA of 2.50 and permission of instructor.

PCEUT 501 Advanced Pharmacokinetics I (4) *Y. LIN, B. PRASAD, J. UNADKAT* Drug absorption, distribution, excretion, metabolism, and pharmacological effects in mammalian systems. Compartmental and physiologically-based pharmacokinetic models as well as non-compartmental approaches examined. Drug disposition studied in a physiologically realistic context taking nonlinear events into account. Aimed at development of innovative methods for
data analysis and evaluation in biological systems. Prerequisite: either PCEUT 506 or permission of instructor. Offered: even years.

**PCEUT 502 Pharmacokinetics of Drug Metabolism (4)** Advanced study of drug metabolism pharmacokinetics. Topics emphasize linear and nonlinear metabolic clearance kinetics, drug-drug interaction mechanisms and kinetics, metabolite kinetics, in vitro-in vivo predictions, pharmacogenetics and other sources of inter-individual variability. Prerequisite: PCEUT 506 or permission of instructor. Instructors: Isoherranen, Thummel Offered: odd years.

**PCEUT 503 Drug Transport and Delivery (5)** Provides advance knowledge of the physico-chemical and biological concepts underlying in vivo transport and delivery of drugs. Prerequisite: PCEUT 506. Instructors: Ho, Hu, Mao, Shen, Unadkat, Wang

**PCEUT 505 Concepts in Pharmaceutical Sciences I (2)** R. HO Provides the student with foundational knowledge of drug properties and interaction with physiology upon administration in vivo, and an understanding of pharmaceutical formulation which is a key disciplinary area within the pharmaceutical sciences and its application to small molecules and protein-based therapeutics. Offered: A.

**PCEUT 506 Concepts in Pharmaceutical Sciences II (4)** Y. LIN Covers the fundamentals of pharmacokinetics. Includes lectures and laboratory exercises on the key concepts in pharmacokinetics, including compartmental kinetics, clearance, clinical pharmacokinetics, and an introduction to pharmacokinetic software. Prerequisite: PCEUT 505; PCEUT 532, which may be taken concurrently, or permission of instructor. Offered: W.

**PCEUT 510 Drug Interactions (3)** Covers common pharmacokinetic mechanisms underlying clinically important interactions between drugs, and patient- and drug-related factors that predispose a patient to adverse drug effects. Includes case-based discussion of approaches to identification, clinical evaluation, and clinical management of drug-drug interaction risk. Prerequisite: PHARM 558; PHARM 559; PHARM 560; PHARM 561; PHARM 563; PHARM 564, and PHARM 565. Instructors: Lin and Horn.

**PCEUT 513 Basic Concepts in Pharmacogenetics and Toxicogenomics (3)** K. THUMMEL Addresses current technologies for DNA sequencing, genotyping, RNA and epigenetic analysis and basic concepts of pharmacogenetics and toxicogenomics. Emphasis placed on applications of genomic technologies to the understanding of "gene-environment interactions" that cause variability in drug treatment responses, as well as diseases of public health importance, including cancer, chronic neurological diseases, and adverse drug reactions. Offered: jointly with ENV H 513/PHG 513; W.

**PCEUT 520 Seminar (1, max. 30)** A. NATH Graduate students attend seminars and make one formal presentation per year while in residence; maximum of three presentations. Credit/no-credit only. Offered: jointly with MEDCH 520.

**PCEUT 531 Pharmaceutical Formulation: Principles and Dosage Forms (4)** Lee, Mao, Shen Physiochemical principles involved in formulating stable dosage forms suitable for human
administration. Hands-on laboratory experience with formulating extemporaneous preparations routinely encountered in community and hospital pharmacies. Routes of drug administration.

**PCEUT 532 Clinical Pharmacokinetics (4)** Covers basic principles of pharmacokinetics and their application to the clinical setting, including: single-dose intravenous and oral kinetics, multiple dosing, nonlinear pharmacokinetics, metabolite kinetics, pharmacogenetics, and the role of disease in drug clearance and dose requirements, and kinetics of drug-drug interactions. Prerequisite: PCEUT 531. Instructors: Anderson, Isoherranen, Unadkat, Wang

**PCEUT 533 Biopharmaceutics, Drug Delivery and Therapeutic Response (3)** R. HO, S. HU, K. THUMMEL Provides basic principles of biopharmaceutics, drug delivery and therapeutic response, and their application to traditional and biotherapeutics, including oral and non-oral routes of drug administration. Discussion include fundamental principles related to assessment of bioavailability, bioequivalence, and genetic basis for drugs. Offered: Sp.

**PCEUT 570 Advanced Research Topics (1, max. 15)** Combines a discussion of the practical aspects and experimental techniques used to address the questions relating to drug disposition with comprehensive theoretical treatment of pharmacokinetic principles. Prerequisite: permission of the instructor. Credit/no-credit only.

**PCEUT 583 Topics in Pharmaceutics (1, max. 30)** N. KLATT, K. THUMMEL Discussion of pertinent articles from current literature and recent laboratory results. Credit/no-credit only.

**PCEUT 584 Pharmacokinetic Discussion Group (2)** Lin Student initiated discussions of pharmaceutics concepts in relation to current literature. Preparatory to departmental cumulative examinations. Credit/no-credit only.

**PCEUT 586 Biotechnology and Biopharmaceutics (2-3)** Ho, Hu, Kelly, Thummel Current topics in pharmaceuticals and biotechnology focusing on transforming small molecules, proteins, and genes into therapeutic products. Includes new drug therapies, drug design, pharmacogenomics, molecular modeling, high throughput screen, production and stability considerations, and delivery systems of protein and gene therapeutics in relation to pharmacokinetic and therapeutic responses.

**PCEUT 587 Introduction to Biopharmaceutical Product Development (3)** Provides a framework of the drug development process and its regulation. Prerequisite: ENV H 405 or ENV H 514, ENV H 515, and ENV H 516, or PCEUT 501, PCEUT 502, and PCEUT 503; or equivalent, or instructor permission. Offered: jointly with ENV H 587; A, even years.

**PCEUT 598 Independent Research (**, max. 24)** Basic and clinical research problems in drug disposition and effect. Prerequisite: minimum grade of 2.50 GPA and permission of instructor.

**PCEUT 599 Cumulative Exams for Pharmaceutics (1-, max. 3)** Isoherranen Quarterly cumulative examinations for graduate students.

**PCEUT 600 Independent Study or Research (**-**)** Credit/no-credit only.
PCEUT 700 Master's Thesis (*) Credit/no-credit only.

PCEUT 800 Doctoral Dissertation (*) Credit/no-credit only.
Pharmacy

Graduate Program

Graduate Program Coordinator
H375 Health Sciences, Box 357630
206-616-1383

The Department of Pharmacy offers graduate study leading to a PhD degree in pharmaceutical outcomes research and policy. Emphasis of this program is on the health and cost outcomes of pharmaceuticals and pharmaceutical services and policies. Graduate training in this program prepares students for career opportunities in teaching and research in universities, safety and economic evaluation of products in the pharmaceutical industry, policy analysis of governmental agencies, and drug use management within healthcare delivery and financing organizations.

Also offered is a track in the PharmD/MS program in pharmaceutical outcomes research and policy, which provides an opportunity for one-to-two students currently completing their PharmD training at the UW to enter the graduate program in their fourth year of training. The program requires completion of 64 credit hours, a written thesis, and a quarter of practicum in a managed care, government, industry, or other appropriate setting. At the end of this training, students may elect to receive a master's degree, or continue on toward a PhD degree.

The UW's biomedical regulatory affairs Master of Science program, offered by the UW School of Pharmacy in partnership with UW Educational Outreach, addresses a growing need for well-trained professionals in the regulatory field. The degree serves those who wish to advance their careers in the medical products industry or those entering the field from related areas.

Deadline for application for the PhD and the PharmD/MS programs is December 31. Applicants are notified of acceptance or rejection by March 30. Refer to the application deadline for the biomedical regulatory affairs master-of-science program posted at: www.biomedreg.uw.edu/admissions/deadlines.asp.

Application materials and additional information are available in the Department of Pharmacy or at program websites listed below:

sop.washington.edu/porpp/graduate-program/phd-program27.html.

sop.washington.edu/porpp/graduate-program/concurrent-pharmdms-degree-in-pharmaceutical-outcomes-research-a-policy.html.

www.biomedreg.uw.edu.
Residency and Fellowship Programs

The Department of Pharmacy offers several postdoctoral fellowships in pharmacotherapeutics and pharmaceutical outcomes, and advanced community residency programs, primarily intended for PharmD graduates. Additional information is available on the department's website: sop.washington.edu/pharmacy/about/fellowship-a-residency-opportunities.html.

Clinical and Affiliate Faculty

In addition to the School of Pharmacy's full- and part-time faculty listed above, a large number of practicing pharmacists contribute to the School's academic programs. Over 500 pharmacists throughout the Pacific Northwest are members of the clinical and affiliate faculty, representing a variety of pharmacy practice settings such as community, hospital, nursing home, government, and industry. Information on the names, addresses and practice settings of these faculty members is available from the Office of Professional Pharmacy Education.

Professional Program

Doctor of Pharmacy

A four-year professional program leading to the Doctor of Pharmacy (PharmD) degree, the curriculum is designed to provide students the scientific background and clinical skills necessary to render pharmaceutical care in various healthcare settings. Individuals who wish to practice pharmacy in the United States must earn a Doctor of Pharmacy (PharmD) degree from an accredited college or school of pharmacy, complete required internship hours, pass licensing examinations, and meet other state-specific licensing requirements.

Admission Requirements

Consideration for admission to the professional program requires a minimum three years of pre-pharmacy training. An applicant who is admissible to the University is not assured admission to the School of Pharmacy. Admission is competitive, based on a number of factors. Academic preparedness, motivation, oral and written communication skills, critical-thinking ability, and decision-making skills are among the criteria used to determine a candidate's aptitude for the program. Following a preliminary assessment of the applicant pool, the most qualified applicants are selected for an interview in Seattle. A writing assessment is also conducted at that time. Further details on admission requirements, application procedures, and program content are available from the School's Office of Academic and Student Programs or its website.

1. Applicants to the UW School of Pharmacy PharmD program must both complete an online PharmCAS Application and submit a supplemental application to the UW School of Pharmacy, Office of Academic and Student Programs. Potential applicants should consult the School of Pharmacy website, sop.washington.edu/school-of-pharmacy/pharmd-admissions/applications-to-pharmd-program.html for additional admission requirements and the most current information regarding the PharmD program.
2. Please refer to the School's website for current entry-level Doctor of Pharmacy program information at sop.washington.edu/students/.

3. Pharmacy College Admission Test (PCAT) must be taken within two years of application. The UW School of Pharmacy accepts no other admission test (e.g., MCAT, GRE) in place of the PCAT.

4. Applicants who have completed all prerequisite (pre-pharmacy) coursework prior to application and those who have earned a prior bachelor's degree or higher are given preference in the process of screening for offer of interview. The admissions committee has established minimum cumulative and prerequisite (pre-pharmacy) GPA thresholds and PCAT scores for screening for offer of interview. Applicants who meet or exceed these minimums are not guaranteed an interview. Offers of interview are dependent on the size and competitiveness of the applicant pool.

5. Interview is required as part of the UW School's PharmD admission process. After a preliminary assessment of the applicant pool, the most-qualified applicants are invited for an interview in Seattle with members of the PharmD admissions committee. Admission preference is given to residents of Washington State and residents from states participating in the Western Interstate Commission for Higher Education (WICHE).

6. It is important for applicants to research carefully the pharmacy profession and the attributes, skills, and abilities essential for pharmacists in the provision of care. Although relevant experience is not required, applicants are strongly encouraged to gain pharmacy experience, either as a volunteer or employee.

7. Non-U.S. Citizens: Applicants who hold "Permanent Resident" or "Refugee/Asylee" visa status and international students with F-1 Visa status are eligible to apply. F-1 Visa students must take the TOEFL within two years of application. Please refer to the School's website for more information at sop.washington.edu/school-of-pharmacy/pharmd-admissions/international-applicants-eligibility-to-apply.html.

8. International Transcripts: All transcripts for coursework completed at foreign colleges or universities must be translated and evaluated course-by-course by one of the following certified agencies: the Education Credential Evaluators, World Education Services, Inc, or Educational-Perspectives.

**Degree Requirements**

Current degree requirements for entering classes are reflected in the graduating class of 2015 and later. (Graduating classes of 2014 and earlier have different course sequences as a result of this revision.) Below are the current degree requirements:

1. **Year 1 (47 core, 5 elective credits):** CONJ 401, CONJ 402, CONJ 403; MEDCH 561, MEDCH 570; PCEUT 531, PCEUT 532, PCEUT 533; PHARM 500; PHARM 558; PHARM 584, PHARM 585, PHARM 586; PHARMP 511, PHARMP 512; 5 elective credits; MEDCH 400 is required for students who do not pass the MEDCH qualifying exam, which if taken, can be credited as a professional elective.
2. **Year 2 (46 core, 5 elective credits):** MEDCH 562, MEDCH 563, MEDCH 564; PHCOL 401, PHCOL 402; PHARM 509; PHARM 537; PHARM 539; PHARM 543, PHARM 543; PHARM 559; PHARM 563; PHARM 592, PHARM 593, PHARM 594; PHARMP 513, PHARMP 514; PHARMP 531; 5 elective credits

3. **Year 3 (33 core, 18 elective credits):** PCEUT 510 (3); PHARM 541; PHARM 560; PHARM 561, PHARM 562; PHARM 564, PHARM 565; PHARMP 532, PHARMP 533, PHARM 541; 18 elective credits

4. **Year 4:** Nine required clinical rotations (6 credits each) for a total of 54 credits

**PharmD/PhD Concurrent Program**

PharmD/PhD Program Coordinator  
H272 Health Sciences, Box 357610  
206-543-0819

The accelerated dual-degree program is intended for outstanding students committed to earning the PharmD degree and a PhD degree in either Pharmaceutics or Medicinal Chemistry. Students are equipped to enter academic careers that require competence in clinical practice, teaching, and research. They will possess the breadth and depth of knowledge necessary to work with colleagues across multiple disciplines essential to performing integrated and translational medical and pharmaceutical research. Many of our trainees have worked in research and developed an interest in public health and pharmaceutical sciences through that experience.

Students admitted to the concurrent degree program are able to complete the requirements for both degrees in about eight academic years, rather than the nine years normally required to receive both degrees.

Admission to the PharmD/PhD program is based on the recommendation of the admission committees of the professional degree program, the graduate program, and the PharmD/PhD program. For additional admission criteria, see respective programs.

**Admission Requirements**

Applicants must complete admission requirements of both the PharmD and PhD programs. Consideration for the PharmD/PhD program is contingent upon completion of a PharmD application, Graduate School application, and PharmD/PhD application (available online at: sop.washington.edu/school-of-pharmacy/degree-programs/concurrent-degree-opportunities.html).

1. PharmD program application is composed of (a) verified completion of all application materials by the deadline as stated on the school website, (b) PCAT scores, (c) prerequisite and cumulative GPA, (d) ability to complete prerequisite courses by the end of spring term prior to School of Pharmacy matriculation. For details, see PharmD admission requirements.

2. Graduate School application for medicinal chemistry or pharmaceutics includes (a) undergraduate degree in chemistry, biochemistry, pharmacy, biology, or a closely related
field, (b) statement of purpose, (c) GRE scores, (d) prior research experience, (e) three letters of recommendation. Graduate School application deadline as stated on the school website.

3. In addition, applicants are required to submit information requested in the PharmD/PhD concurrent program application checklist, available on the above stated website.

Financial Aid

Financial support in the form of research assistantships, teaching assistantships, and fellowships may be available to prospective and continuing students. Availability of financial aid is limited, typically to the first and second academic year. Prospective students should contact the Graduate Program Coordinator for more information on financial support.

Course Descriptions

Pharmacy

PHARM 301 Medications and Health: It's Not All About Drugs (3) NW/I&S Dawson, Odegard, Weber Covers personal health promotion, treatment of illness, and health care. Explores several medication-related topics, provides insight on drug development and efficacy, and serves as introduction to students contemplating careers in health sciences, especially in pharmacy. Credit/no-credit only.

PHARM 499 Undergraduate Research (1-6, max. 24) Research problems in clinical pharmacy or pharmaceutical sciences, including preclinical and/or clinical drug development and effectiveness research, and participate in departmental research projects. Prerequisite: permission of instructor. Offered: AWSpS.

PHARM 500 Profession of Pharmacy (1) Introduces the new student to the profession of pharmacy. Provides both an historical and a modern context that assists student pharmacists begin to participate in the profession. Provides an overview of career opportunities. Prerequisite: professional PharmD class 1 student. Instructors: Kedzierski, Weber Credit/no-credit only. Offered: A.

PHARM 501 Alternative and Complementary Medicines (2) Anderson Studies popular alternative and complementary medicines used in the United States. Focuses on herbal products with some coverage of other non-nutritional dietary supplements. Open to professional and graduate students in the Schools of Pharmacy, Nursing, Medicine, Dentistry, and Public Health, or by permission of instructor. Credit/no-credit only. Offered: AW.

PHARM 503 Senior Care Introductory Pharmacy Practice Experience (2) Under faculty supervision, provides clinical services for senior patients in various settings. Includes reviewing charts, interviewing patients, collaborating with other health care providers, and making recommendations on medication therapies to providers and patients. All students participate in an orientation/seminar workshop and in a weekly (for five weeks) clinical pearls workshop.
Prerequisite: either successful completion of the first five quarters of the PharmD curriculum or permission of instructor. Instructors: Murphy, Plein Credit/no-credit only. Offered: Sp.

PHARM 509 Principles of Evidence Based Medicine III: Critical Evaluation of Published Evidence (1) T. O’SULLIVAN Provides a critical evaluation of medical literature. Prerequisite: permission of School of Pharmacy.

PHARM 510 Contemporary Concepts in Clinical Nutrition Support (1) Addresses current topics and concepts in clinical nutrition support. Topics include assessment and management of patients requiring specialized nutrition support, enteral nutrition, and parental nutrition. Recommended: biochemistry, anatomy and physiology, or permission of instructor. Offered: A.

PHARM 513 Medical Devices for Home Healthcare (3) D. DOWNING Study of medical devices commonly provided by pharmacists to their patients, including their selection and adaptation for specific patient needs. Lectures include display and demonstration of actual devices.

PHARM 514 Pharmacotherapeutics for Advanced Nursing Practice (3) Hertig Application of principles of pharmacology as foundation for clinical decision making by advanced practice nurses for individuals and populations. Incorporates pharmacotherapy into advanced nursing therapeutics by addressing pharmacokinetics, pharmacodynamics, pharmacogenetics as well as patient-related factors that support selection of commonly used drugs. Selected drugs within categories are compared/contrasted.

PHARM 515 Pharmacotherapeutics for Acute/Critical Illness (3) Analysis of issues that impact the assessment, prescription, and evaluation of pharmacotherapeutic regimens for patients with acute/critical illness or injury. Current evidence together with pharmacotherapeutic principles are considered within the clinical context as the basis for decision-making in acute/critical care clinical practice. Prerequisite: either PHARM 514 or equivalent. Offered: Sp.

PHARM 516 Introduction to Biomedical Regulatory Affairs (3) Hazlet Surveys government oversight of drugs, devices, and biotechnology derived products; laws and regulations that apply to development, testing, and production; and responsibilities of a regulatory affairs specialist in the regulatory setting.

PHARM 517 Product Development and Manufacturing Systems (3) Hazlet Surveys government oversight of drugs, devices, and biotechnology derived products; laws and regulations that apply to development, testing, and production.

PHARM 518 Product Testing, Evaluation, and Post-Market Issues (3) Hazlet Medical product post-marketing requirements; reporting and enforcement actions; inspections (internal and by regulators) preparation, conduct, and follow-up actions; surveillance and studies, reimbursement, and economics.

PHARM 519 Pharmacotherapeutics for Infectious Disease and Infection (2) Black, Simpson Analysis of pharmacotherapeutics to control infection and manage infectious disease through
seminar discussion of cases, critical analysis of a pharmacotherapeutic regimen, and development of references to enhance students' clinical expertise. Emphasis on principles of anti-infective therapy, problem solving clinical cases with complex medication regimes, and identifying judicious pharmacotherapeutic plans.

**PHARM 520 Introduction to Pharmacoeconomics and Outcomes Research (2)** *Veenstra* Provides an introduction to economic evaluation and outcomes research related to pharmaceuticals and other healthcare technologies. Covers the methods of cost-effectiveness analysis and quality of life evaluation, and their use in real-world decision-making.

**PHARM 521 Pharmacy Teaching Practicum (1-3, max. 6)** *R. Allen, D. Downing, A. Ellsworth, T. Hazlet* Allows students the opportunity to apply learning about education in a mentored experiences. Students serve as assistant instructors in existing pharmacy courses or engage in other approved educational experiences. Prerequisite: PHARM 586, instructors permission. Credit/no-credit only. Offered: AWSp.

**PHARM 525 Advanced Compounding Skills (1)** Prepares the student to create unique, patient-specific pharmaceutical dosage forms used in contemporary pharmacy practice. Includes pre-readings and assignments, a didactic session and a laboratory session, and is offered over a weekend. Prerequisite: PCEUT 531. Instructors: Lawhorn, Needham Credit/no-credit only.

**PHARM 526 Bayesian Biostatistics (3)** Introduction to Bayesian methods for data analysis; Bayesian reasoning, prior elicitation, inference and decision making, and computation applied to biomedical research. Prerequisite: any course in statistics at the 400-level or higher or instructor's permission. Offered: jointly with BIOST 526/EPI 540; Sp.

**PHARM 529 Introduction to Systematic Reviews and Meta-Analysis of Evidence (3)** *F. Wolf* Conceptual understanding of the quantitative methods used to synthesize evidence. Methods for pooling evidence across independent studies, pooling binary/continuous outcomes, differences between fixed and random effects models, and guidelines for appraising published systematic reviews/meta-analyses. Prerequisite: either introductory level courses in statistics, epidemiology, or biostatistics or permission of instructor. Offered: jointly with BIME 541/EPI 541/HSERV 529.

**PHARM 532 Methods in Pharmaceutical Policy Analysis (4)** *Garrison, Hazlet* Introduction to the tools used in and the framework and dominant contexts for pharmaceuticals policy development and analysis. Methods reviewed in a series of sessions presenting a specific method and case analyses involving pharmaceuticals development. Project and in-class presentation required.

**PHARM 533 Pharmacoepidemiology (3)** Overview of pharmacoepidemiology including drug development and approval; application of epidemiologic methods to study drug safety and effectiveness; exploration of the interplay between research and public policy; introduction to resources for information about drugs; introduction to pharmacology principles pertinent to pharmacoepidemiology. Prerequisite: Health Sciences graduate student; either EPI 511 or both EPI 512 and EPI 513. Offered: jointly with EPI 533.
PHARM 534 Economic Evaluation in Health and Medicine (3) J. Babigumira, L. Steuten
Methods and techniques for evaluating costs and cost-effectiveness of health, medical, and pharmaceutical interventions. Emphasis on economic evaluation, decision analysis, and modeling techniques for resource allocation and decision making. Applications to technology assessment, health policy, clinical practice, and resource allocation. Prerequisite: permission of instructor. Offered: jointly with HSERV 583.

PHARM 535 Assessing Outcomes in Health and Medicine (3) Concepts and methods for developing and using patient-reported outcomes in health and medicine. Emphasis on patient self-reported health status and quality of life. Qualitative research and psychometric methods applied to health outcomes assessment and all applications. Prerequisite: permission of instructor. Instructors: Devine, Edwards Offered: jointly with HSERV 584; W.

PHARM 536 Advanced Methods in Economic and Outcomes Evaluation in Health and Medicine (3) Covers advanced methods and techniques for evaluating costs, outcomes, and cost-effectiveness of health, medical, and pharmaceutical interventions. Topics include: network meta-analysis, Markov modeling, probabilistic sensitivity analysis, value of information analysis, utility mapping, conjoint analysis, and budget impact analysis. Prerequisite: either PHARM 534 and PHARM 535 or permission of instructor. Instructors: Carlson Offered: Sp.

PHARM 537 Chemical Dependency Concepts (2) Kedzierski Examines the development of therapeutic frame for working with patients with addictions. Includes the genesis of addiction harm reduction strategies, legal and ethical considerations, medication management in the substance-abusing population, impaired pharmacist rehabilitation, detection and dealing with substance abuse issues in pharmacy practice, community resources. Course offered to professional PharmD, class 2. Credit/no-credit only. Offered: A.

PHARM 538 Chemical Dependency Issues in Practice (3) Emphasis on drug classes, pharmacologic management of abstinence and withdrawal, drug testing, drug use in pregnancy, treatment options and recovery, codependency and legal and ethical considerations. Prerequisite: PHARM 537. Instructors: Kedzierski Credit/no-credit only. Offered: W.

PHARM 539 Principles of Professional Practice Management (3) Downing, Somani Emphasizes the major issues and barriers of providing pharmaceutical care in institutional and community pharmacies. Topics include evaluating workflow and facility design, complying with legal and safety standards, managing drug distribution services, payment for pharmacist services, human resource management and marketing pharmaceutical care services.

PHARM 541 Pharmacy, Healthcare, and Society (3) Sullivan Introduction to health services and pharmacy practice designed for future healthcare practitioners. Examines the history, organization, and effectiveness of the U.S. healthcare system. Stresses the student's ability to adopt a broad perspective across healthcare disciplines and traditional boundaries.

PHARM 542 Managed Care Pharmacy: Principles and Practice (3) Fullerton, Penna Surveys the activities, tactics, and strategies used by managed care to deliver pharmacy services to their members. Includes: formulary development, clinical improvement programs, quality
improvement measures, regulatory activities, contracting with pharmaceutical manufacturers, network management, financial issues, sales and marketing, and provider relations. class 2, 3, and 4 PharmD students.

**PHARM 543 Pharmacy Laws and Ethics ([2-3]-, max. 5)** Hazlet Studies the laws governing the practice of pharmacy, approaches to legal, and ethical dilemmas in the delivery of pharmaceutical care, and methods of statutory and regulatory reform.

**PHARM 544 Survey of Pharmacy Laws (1)** Hazlet Prepare, discuss, and present responses to assigned questions developed by faculty regarding laws governing pharmacy practice in the course of reviewing for the Multistate Pharmacy Jurisprudence Examination. Class meets for two consecutive Saturdays in February and March. Email and web access required. Open to fourth-year PharmD students; non-matriculated students by permission only. Credit/no-credit only.

**PHARM 549 Pharmacotherapeutics for Older Adults (3-4)** Applies pharmacologic knowledge to the assessment, individualized selection of therapy, and monitoring of treatment in older adults with multiple comorbidities; and age-related changes in pharmacokinetics and pharmacodynamics with emphasis on problem solving, using case examples. Prerequisite: either PHARM 561; PHARM 565 or permission of the School of Pharmacy. Instructors: Murphy Offered: Sp.

**PHARM 550 Seminar in Geriatrics ([0-1]-, max. 1)** L. MIKE Students facilitate a discussion with students/faculty about the management of an older adult with complex medication regimen. In addition, students critically review and appraise primary literature relevant to contemporary issues related to geriatric pharmacotherapy. Prerequisite: PHARM 549; permission of the instructor. Credit/no-credit only. Offered: AWSpS.

**PHARM 552 Practice-Based Leadership and Project Development (2)** J. Arnold, N. Murphy Strengthen skills necessary to develop, implement, and evaluate innovated programs that improve health, healthcare delivery, and the patient experience. In addition to actively participating in class discussions and group work, students are responsible for submitting weekly assignments, a final reflection paper, and a project proposal. Credit/no-credit only. Offered: W.

**PHARM 557 Pharmacotherapeutics II (3)** Discusses the integration of and applies epidemiology, pathophysiology, clinical diagnostics, and drug-related knowledge toward the management of common diseases. Emphasizes problem-solving through the use of case examples. Prerequisite: permission of school. Offered: Sp.

**PHARM 559 Pharmacotherapeutics III (4)** Discusses the integration of and applies epidemiology, pathophysiology, clinical diagnostics, and drug-related knowledge towards the
management of common disease. Emphasizes problem-solving through the use of case examples. Prerequisite: permission of School of Pharmacy. Offered: Sp.

PHARM 560 Pharmacotherapeutics IV (6) Discusses the integration of and applies epidemiology, pathophysiology, clinical diagnostics, and drug-related knowledge towards the management of common disease. Emphasizes problem-solving through the use of case examples. Prerequisite: permission of School of Pharmacy. Offered: A.

PHARM 561 Pharmacotherapeutics V (7) Discusses the integration of and applies epidemiology, pathophysiology, clinical diagnostics, and drug-related knowledge towards the management of common disease. Emphasizes problem-solving through the use of case examples. Prerequisite: permission of School of Pharmacy. Offered: W.

PHARM 562 Pharmacotherapeutics VI (6) Discusses the integration of and applies epidemiology, pathophysiology, clinical diagnostics, and drug-related knowledge towards the management of common disease. Emphasizes problem-solving through the use of case examples. Prerequisite: permission of School of Pharmacy. Offered: Sp.

PHARM 563 Applied Pharmacotherapeutics I (2) L. Mike Develops a foundation of skills that enables a pharmacist to practice collaborative patient-specific care. Prerequisite: permission of School of Pharmacy. Offered: Sp.

PHARM 564 Applied Pharmacotherapeutics II (2) L. Mike Develops a foundation of skills that enables a pharmacist to practice collaborative patient-specific care. Prerequisite: permission of School of Pharmacy. Offered: A.

PHARM 565 Applied Pharmacotherapeutics III (2) L. MIKE Develops a foundation of skills that enables a pharmacist to practice collaborative patient-specific care. Prerequisite: permission of School of Pharmacy. Offered: W.

PHARM 566 Applied Pharmacokinetics (2) Pharmacokinetics of specific drugs. Influence of age, weight, sex, and disease states on patient-specific dosage regimens emphasized. Advanced kinetic concepts are discussed and put into applied context. Prerequisite: PCEUT 532. Instructors: Bauer

PHARM 567 Cancer Pharmacotherapeutics (2) Pharmacotherapy of cancer, covering supportive care therapeutics (antibiotics, antiemetics, analgesics,) to the antineoplastic agents. The pathophysiology, staging, and treatment of different cancers is discussed. Specialists from the different oncology practice areas serve as guest lecturers. Prerequisite: either PHARM 561; PHARM 565, or permission of the School of Pharmacy. Instructors: Gibson, Kwok, McQuary, Vincent. Offered: Sp.

PHARM 568 Health Economics (3) Applies microeconomics principles and models to understand the nature of healthcare markets and systems. Includes a wide range of health sector activities and policy issues studied by applying rigorous economic analytical tools coupled with
review of key econometric and empirical analysis. Prerequisite: introductory coursework in microeconomic principles and basic statistics. Instructors: Garrison Offered: W.

**PHARM 569 Fluid and Electrolytes and Parenteral Nutrition (2)** *Chan* Focuses on the principles of fluid electrolyte and nutritional management in patients requiring parenteral nutrition (PN) and infusion therapy. Topics include acid-base balance, macro- and micro-nutrient requirements, nutritional assessment, complications of PN and compounding and compatibility of PN solutions. Discusses consideration in special populations (e.g., ICU). Prerequisite: Prerequisite: either PHARM 561; PHARM 565, or permission of the School of Pharmacy.

**PHARM 570 Critical Care Pharmacotherapeutics (2)** Overviews pharmacotherapeutic topics for patients in the critical care setting. Discusses principles in hemodynamic monitoring, respiratory management, concepts in pathophysiology related to critical illnesses, and other timely topics reflecting current clinical practice. Prerequisite: third-year PharmD student, or approval of instructor. Instructors: Mike

**PHARM 571 Current Topics in Acute Care Pharmacotherapy (1)** Increases understanding and stimulates discussion in current topics related to acute care pharmacotherapy. Reviews the management of patients in the acute care setting through current cases presented by instructors. May be taken alone or concurrently with PHARM 570. Prerequisite: either PHARM 561; PHARM 565, or permission of the School of Pharmacy. Instructors: Chan

**PHARM 572 Pharmacist Advocacy I: Legislative and Grassroots Affairs (1, max. 3)** Increases student awareness and knowledge of local, state, and national healthcare issues that affect pharmacists and their patients. Prepares pharmacy students to knowledgeably represent their school, profession, and their patients during individual and organized-group pharmacy legislative and other advocacy activities. Credit/no-credit only. Offered: A.

**PHARM 573 Pharmacist Advocacy II: Legislative and Grassroots Affairs (1, max. 3)** *Downing* Prepares pharmacy students to knowledgeably represent their school, profession, and their patients during individual and organized-group pharmacy legislative and other advocacy activities. Students actively participate in off-campus legislative and advocacy activities while the Washington State legislature is in session. Credit/no-credit only. Offered: W.

**PHARM 579 Current Topics in Pharmacy (1, max. 3)** *Black, Murphy* Provides a forum for discussing late-breaking topics that impact current and future pharmacy research and practice. Credit/no-credit only. Offered: AW.

**PHARM 581 Global Health Pharmacy: Medicines, Practice, and Policy (2)** *A. Stergachis* Introduces the critical role of pharmaceutical in addressing major diseases (such as HIV/AIDS, malaria, tuberculosis) affecting persons in resource-limited settings. Addresses the wide range of relevant issues, including burden of disease, human resource capacity, regulation, drug safety/pharmacovigilance, drug distribution, pharmacoconomics, financing, intellectual property, and drug trade policies. Prerequisite: satisfactory completion of the 1-credit lecture/discussion component.
PHARM 582 Special Topics in Global Health Pharmacy and Medical Products ([1-3]-, max. 6) Babigumira, Garrison Provides in-depth instruction on selected special topics relating to the use, access to, and impact of pharmaceuticals, vaccines, and diagnostics/medical devices in global health. Credit/no-credit only.

PHARM 584 Pharmacy Practice I - Introduction to Community Pharmacy Practice I (3) R. ALLEN, J. BACCI, K. DAWSON Introduction to development and practice of skills in drug information resources; prescription processing and problem solving; pharmaceutical calculations and compounding; patient information and counseling on over-the-counter and compounded medications. Offered: A.

PHARM 585 Pharmacy Practice II (3) R. ALLEN, J. BACCI, K. DAWSON Continued development and practice of skills in drug information resources; prescription problem solving; pharmaceutical calculations; and patient information and counseling. Emphasizes use of commonly prescribed prescription medication as well as patient-specific characteristics that impact their care. Prerequisite: PHARM 584. Offered: W.

PHARM 586 Pharmacy Practice III: Applications of Public Health Practice (3) R. ALLEN, J. BACCI, K. DAWSON Develops skills that enable public health screening and health promotion in community-based settings: administration of vaccines to adults and adolescents; practical application of community-based health screenings, counseling, and referral; and teaching self-monitoring techniques to patients. Emphasizes communication with members of special populations. Prerequisite: PHARM 585. Offered: Sp.

PHARM 587 Diabetes Prevention (2) Provides students with knowledge/skills to serve as Diabetes Prevention lifestyle coaches. The knowledge/skills developed can be applied to promote health/wellness in the community. Prerequisite: PHARM 563. Instructors: Danielson, McKennon, Odegard Credit/no-credit only. Offered: A.

PHARM 588 Diabetes Care (2) Further develops foundations in the principles of diabetes management and provides practice in application of diabetes-care principles. Develops knowledge and ability to assess, manage, educate, and monitor patients with diabetes. Prerequisite: either PHARM 560; PHARM 564, or permission of the School of Pharmacy. Instructors: Danielson, Odegard Credit/no-credit only.

PHARM 591 Community Collaborations in Healthcare Practicum (2, max. 8) Collaboration with representatives from the Salvation Army Adult Rehabilitation Center and other community sites to improve health literacy and health outcomes of men and women beneficiaries (residents) in addiction treatment and recovery. Prerequisite: permission of instructor. Instructors: Kedzierski Credit/no-credit only. Offered: ASp.

PHARM 592 Pharmacy Practice IV: Design and Analysis of Medical Studies (3) Introduces the basic biostatistical concepts used in the medical literature, and the various study designs. Develops students' skills in critically evaluating the medical literature, with the goal of applying these skills to clinical practice. Prerequisite: PHARM 584; PHARM 585; PHARM 586. Instructors: Devine Offered: A.
PHARM 593 Pharmacy Practice V: Institutional Pharmacy Practice (3) Somani Includes discussion and skill development related to contemporary institutional pharmacy practice. Focuses on health information technology, the quality improvement process, MUE and cost management, medication order processing, counseling and medication reconciliation, interpersonal teamwork, and patient-oriented services. Students create and present mock proposals for new guidelines and practice protocols. Prerequisite: PHARM 592. Offered: W.

PHARM 594 Pharmacy Practice VI: Medication Quality and Safety (2) Introduces topics related to medication safety and quality improvement. Describes the role of information technology and the importance of organizational leadership and teamwork in improving safety. Introduces topics of collaborative drug therapy management and managed care pharmacy practice. Prerequisite: PHARM 593. Offered: Sp.

PHARM 595 Special Studies in Pharmacy (1-6, max. 24) Special studies of professional topics in pharmacy. An opportunity to expand the breadth and depth of understanding in specific pharmaceutical areas. Students may undertake independent study under the individual direction of a faculty member.

PHARM 596 Seminars in Pediatric Pharmacotherapy (2) Explores therapeutic topics pertinent to the pediatric population. Emphasizes ambulatory pediatrics. Prerequisite: third-year PharmD student or permission of instructor. Instructors: Harvey Credit/no-credit only. Offered: W.

PHARM 597 Graduate Seminar (1, max. 24) Interactive discussion of topical issues, methods, or analytic techniques. Topics vary. Prerequisite: graduate program student. Credit/no-credit only.

PHARM 599 Independent Study/Research (1-6, max. 24) Applied pharmaceutical research problems. Credit/no-credit only.

PHARM 600 Independent Study or Research (*-) Credit/no-credit only.

PHARM 700 Master's Thesis (*-) Credit/no-credit only.

PHARM 800 Doctoral Dissertation (*-) Credit/no-credit only.

Pharmacy Practice

PHARMP 511 Introductory Pharmacy Practice Experience in Community Pharmacy I (1) Introduces student to community pharmacy practice. Students process prescriptions, begin to manage drug therapy, communicate with patients, and provide public health activities in the patient care setting. Seminars allow for orientation, discussion/reflection, and progress assessment. Orientes students to community practice, fulfills requirements for entering patient care, and sets expectations for the course series. First in a series of four. Prerequisite: PHARM 584. Credit/no-credit only. Offered: W.
PHARMP 512 Introductory Pharmacy Practice Experience in Community Pharmacy II (1)
Introduces student to community pharmacy practice. Students process prescriptions, begin to manage drug therapy, communicate with patients, and provide public health activities in the patient care setting. Emphasizes legal requirements for practice, fulfills requirements for entering patient care, and exposes student to leaders in community pharmacy practice. Second in a series of four. Prerequisite: PHARMP 511. Credit/no-credit only. Offered: Sp.

PHARMP 513 Introductory Pharmacy Practice Experience in Community Pharmacy III (1)
Introduces student to community pharmacy practice. Students process prescriptions, begin to manage drug therapy, communicate with patients, and provide public health activities in the patient care setting. Seminars allow for orientation, discussion/reflection, and progress assessment. Emphasizes patient safety, involvement in health/wellness screening, and exposes students to leaders in community pharmacy. Third in a series of four. Prerequisite: PHARMP 512. Credit/no-credit only. Offered: A.

PHARMP 514 Introductory Pharmacy Practice Experience in Community Pharmacy IV (1)
Introduces student to community pharmacy practice. Students process prescriptions, begin to manage drug therapy, communicate with patients, and provide public health activities in the patient care setting. Seminars allow for orientation, discussion/reflection, and progress assessment. Emphasizes reflection on and documentations of professional competency. Fourth in a series of four. Prerequisite: PHARMP 513. Credit/no-credit only. Offered: W.

PHARMP 521 Foundations of Interprofessional Practice I ([0-1]-, max. 1) J. DANIELSON
Team-based training and experiential immersion in healthcare team functioning for PY2 pharmacy students. Work with medical, nursing, physician assistant, social work, dental and dietetics students in patient care situations to apply evidence-based practice and quality improvement principles. Focuses on development of intra- and inter-professional roles and professional identity. Credit/no-credit only.

PHARMP 522 Foundations of Interprofessional Practice II ([0-1]-, max. 1) J. DANIELSON, P. ODEGARD
Team-based training and experiential immersion in healthcare team functioning for PY3 pharmacy students. Work with medical, nursing, physician assistant, social work, dental, and dietetic students in patient care situations to apply evidence-based practice and quality improvement principles. Focuses on development of intra and interprofessional roles and professional identity. Credit/no-credit only. Offered: AWSp.

PHARMP 531 Introductory Pharmacy Practice Experience in Institutional Pharmacy I (1)
Introduces institutional pharmacy practice. The role of pharmacists in the inpatient settings, participation in product distribution, provision of drug information, and exposure to quality assurance activities in hospitals. Orient students to institutional practice, exposes student to leaders in hospital practice, and introduces expectations for quality assurance activities. First in a series of three. Prerequisite: PHARMP 514. Credit/no-credit only. Offered: AWSpS.

PHARMP 532 Introductory Pharmacy Practice Experience in Institutional Pharmacy II (1)
Introduces institutional pharmacy practice. Students learn about the role of pharmacists in the inpatient settings, participate in product distribution, provide drug information, and gain
exposure to quality assurance activities in hospitals. Quality assurance in hospital practice, reflects on medication reconciliation, and orients students to subsequent IPPE coursework. Second in a series of three. Prerequisite: PHARMP 531. Credit/no-credit only. Offered: AWSpS.

PHARMP 533 Introductory Pharmacy Practice Experience in Institutional Pharmacy III (1) J. DANIELSON Introduces students to institutional pharmacy practice. Students learn about the role of pharmacists in the inpatient setting, participate in product distribution, provide drug information, and gain exposure to quality assurance activities in hospitals. Seminars allow for orientation, discussion, and progress assessment. Third in a three-part series. Prerequisite: PHARMP 532. Credit/no-credit only. Offered: AWSpS.

PHARMP 541 Introductory Pharmacy Practice Experience in Clinical Skills (1) Students interview and assess a patient in the practice setting, present the patient case and an oral seminar in a small group setting, and complete other requirements for beginning advanced pharmacy practice experience. Prerequisite: PHARMP 533. Instructors: O'Sullivan Credit/no-credit only. Offered: Sp.

PHARMP 571 Advanced Pharmacy Practice Experience in Inpatient/Acute Care General Medicine (6, max. 36) O'Sullivan Advanced pharmacy practice experience focusing on providing patient-centered care to patients in a general medicine care setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Credit/no-credit only. Offered: AWSpS.

PHARMP 572 Advanced Pharmacy Practice Experience in Hospital or Health-System Pharmacy (6, max. 36) O'Sullivan Advanced pharmacy practice experience focusing on providing patient-centered care to patients in an acute care or other inpatient setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Credit/no-credit only. Offered: AWSpS.

PHARMP 573 Advanced Pharmacy Practice Experience in Ambulatory Care (6, max. 36) O'Sullivan Advanced pharmacy practice experience focusing on providing patient-centered care to patients in a clinic-based setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and provide drug information to professionals and patients. Credit/no-credit only. Offered: AWSpS.

PHARMP 574 Advanced Pharmacy Practice Experience in Community Pharmacy (6, max. 36) O'Sullivan Advanced pharmacy practice experience focusing on providing patient-centered care to patients in a community-based setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Credit/no-credit only. Offered: AWSpS.
PHARMP 575 Advanced Pharmacy Practice Experience in Patient Care (6, max. 30)  
O'Sullivan Advanced pharmacy practice experience focusing on providing patient-centered care to patients in a non-required setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Credit/no-credit only. Offered: AWSpS.

PHARMP 576 Advanced Pharmacy Practice Experience in Non-Patient Care (6, max. 24)  
O'Sullivan Advanced pharmacy practice experience focusing on providing pharmacy services in a variety of non-patient care settings. Credit/no-credit only. Offered: AWSpS.

PHARMP 577 Advanced Pharmacy Practice Experience in Senior Care (6, max. 12)  
O'Sullivan Advanced pharmacy practice experience focusing on providing patient-centered care to patients in a senior or geriatric care setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Offered: AWSpS.

PHARMP 578 Advanced Pharmacy Practice Experience Elective (1-6, max. 12)  
O'Sullivan Advanced pharmacy practice experience in patient or non-patient care settings. Credit/no-credit only. Offered: AWSpS.

PHARMP 580 Preparation for Global Health Experience in Low-resource Countries (3)  
Prepares students to safely and fully engage in clinical healthcare experiences in low-resource countries. Helps students understand common barriers to healthcare access and to appreciate the communicable and non-communicable health issues that individuals and communities experience in these countries. Credit/no-credit only. Offered: Sp.

PHARMP 581 Advanced Pharmacy Practice Experience in Inpatient/Acute Care General Medicine (9, max. 36)  
O'Sullivan Six week advanced pharmacy practice experience focusing on providing patient-centered care to patients in a general medicine care setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Offered: AWSpS.

PHARMP 582 Advanced Pharmacy Practice Experience in Hospital or Health-System Pharmacy (9, max. 36)  
O'Sullivan Six week advanced pharmacy practice experience focusing on providing patient-centered care to patients in an acute care or other inpatient setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Offered: AWSpS.

PHARMP 583 Advanced Pharmacy Practice Experience in Ambulatory Care (9, max. 36)  
O'Sullivan Six week advanced pharmacy practice experience focusing on providing patient-centered care in a clinic-based setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication
histories, monitoring patient progress, and providing drug information to professionals and patients. Offered: AWSpS.

**PHARMP 584 Advanced Pharmacy Practice Experience in Community Pharmacy (9, max. 36)**  
*O'Sullivan* Six week advanced pharmacy practice experience focusing on providing patient-centered care to patients in community-based setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Offered: AWSpS.

**PHARMP 585 Advanced Pharmacy Practice Experience in Patient Care (9, max. 27)**  
*O'Sullivan* Six week advanced pharmacy practice experience focusing on providing patient-centered care to patients in a non-required setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Offered: AWSpS.

**PHARMP 586 Advanced Pharmacy Practice Experience in Non-Patient Care Settings (9, max. 18)**  
*O'Sullivan* Six week advanced pharmacy practice experience focusing on providing pharmacy services in a variety of non-patient care settings. Offered: AWSpS.

**PHARMP 587 Advanced Pharmacy Practice Experience in Senior Care (9, max. 18)**  
*O'Sullivan* Six week advanced pharmacy practice experience focusing on providing patient-centered care to patients in a senior or geriatric care setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Offered: AWSpS.

**Pharmacy Regulatory Affairs**

**PHRMRA 524 Introduction to Clinical Trials (3)**  
*Hammond, Hayashi, Jonlin* Introduces the major concepts under which clinical trials are designed to run. Focuses on the phases of clinical trials, the role of the Food and Drug Administration, Institutional Review Boards, the Code of Federal Regulations and ethical principles. Addresses study design and statistical concepts. Offered: A.

**PHRMRA 525 Implementation and Conduct of Clinical Trials (3)**  
*Hammond, Hayashi, Jonlin* Outlines the work of carrying out a clinical trial including the complex work of study initiation, issues of site and data managements, preparation of the final report and study close out, as well as the details that control the study conduct. Offered: W.

**PHRMRA 526 Project Management and the Business of Clinical Trials (3)**  
*Hammond, Hayashi, Jonlin* Addresses the business dimension of clinical trials, including the principles of project management, planning, analysis, contingency and follow-up within the context of clinical trials that involve a large number of tasks and people responsible for parts of the overall study. Offered: Sp.
PHRMRA 527 International Regulatory Affairs (3) Develops an understanding of international differences in the regulation of design, manufacture, and post-marketing surveillance of medical products relative to U.S. Food and Drug Administration requirements. Prerequisite: PHARM 504. Instructors: Hammond Offered: A.

PHRMRA 528 Medical Risk Analysis and Management (3) Karp Examines the principles and application of risk management methods in the design, manufacture, and marketing of medical products. Offered: A.

PHRMRA 536 Skills for the Regulatory Affairs Professional (2) Rose Covers essential skills in regulatory affairs and includes an overview of local medical products companies. Offered: A.

PHRMRA 545 Statistical Topics for Biomedical Regulatory Affairs Professionals (3) Applies statistical techniques to meet medical product regulatory commitments including biosimilars, product comparability, design and continued process verification. Prerequisite: Introductory statistics. Offered: W.

PHRMRA 546 Technical Writing for the Medical Products Industries (3) Teal Presents up-to-date information and strategies for effective technical communication within the medical product industries. Addresses the appropriate and correct use of the English language, information design, and the use of computer technology in producing professional documents. Emphasizes communicating technical information to a variety of stakeholders. Offered: A.

PHRMRA 547 Advanced Topics in Medical Products Regulation (2, max. 6) Feagin Addresses essential topics in medical products regulation. Employs a combination of lecture presentations, case studies, and participants' small group discussion to achieve practical outcomes for regulatory professionals. Offered: W.

PHRMRA 548 Biomedical Regulatory Affairs Practicum ([1-9]-, max. 9) Feagin Provides a practical experience to ensure that participants are able to shepherd new medical products (drug, device, biologic) through regulatory, clinical, and quality assurance aspects. Includes a project and final report. Offered: AWSpS.

PHRMRA 550 Advanced Technical Writing for Biomedical Regulatory Affairs (2) Further examines communications with attention to best written practices. Provides an intensive review of common editing and advanced strategies for crafting highly reliable and effective documentation. Prerequisite: PHRMRA 546 or permission of instructor. Instructors: Teal Credit/no-credit only. Offered: Sp.

PHRMRA 554 Advanced Medical Products Regulation I (2) Hammond Provides an in-depth exploration of regulatory issues primarily related to non-clinical and clinical aspects of medical product development. Offered: W.

PHRMRA 555 Advanced Medical Products Regulation II (2) Feagin Provides an in-depth exploration of regulatory issues primarily related to manufacturing, post-marketing concerns, and FDA interactions. Offered: W.
PHRMRA 560 Short Course in Multinational Biomedical Regulatory Affairs (2, max. 30)

Hazlet Presents three medical products registration countries or groupings (for instance, European Union, World Health Organization). Locale based on program impact, unique features, or recent or controversial regulatory issues.

PHRMRA 595 Special Topics in Regulation (1-6, max. 24) Offered: AWSpS.
Daniel J. Evans School of Public Policy and Governance

School Overview

Dean
Sandra O. Archibald
208E Parrington Hall

Associate Deans
Leigh Anderson
Joaquin Herranz
Robert Plotnick

The Daniel J. Evans School of Public Policy and Governance is a graduate professional school providing education and research for current and future leaders in pursuing challenging public-service careers in government, nonprofit, or private-sector organizations. To address the educational needs and professional interests of individuals at different stages of their careers, the school offers the Master of Public Administration (MPA), the Executive Master of Public Administration (Executive MPA), Peace Corps Master's International (PCMI), and the PhD in Public Policy and Management.

Master's-level programs enable students to acquire the policy analysis techniques, management knowledge, problem-solving skills, and political acumen required for effective leadership across sector boundaries and in regional, national, and international policy. MPA graduates hold leadership positions such as mayors and city managers; local and regional government administrators; foreign service officers; senior military and public safety positions; assistants to elected officials; analysts with budget offices, legislative staff units, and city councils; directors of social service agencies; leaders and managers of nonprofit organizations; and administrators of arts organizations. In addition, a number of alumni are employed in private sector positions involving substantial contact with public agencies.

The PhD program focuses on research that prepares students with a strong interdisciplinary perspective and a solid foundation of theory and methodology in policy analysis and management. The PhD program prepares students for successful careers as faculty in university programs in public policy and management, and in research positions in the public and nonprofit sectors.

Master of Public Administration

Evans School MPA Program

Evans School MPA is designed for present and future leaders of the public, private, and nonprofit sectors, emphasizing broad-based public policy analysis and management knowledge. Degree requirements for the program are flexible and can be tailored for students who are early in their careers, as well as those who have additional years of progressively responsible work experience. While most students enroll full-time and generally take two years to complete their degree, flexible evening and part-time options are also available.

Degree Requirements

72 credits, with a minimum 60 credits from within the Evans School, as follows:

1. Core Curriculum (36 credits):
   a. Managing Politics and the Policy Process (PB AF 511)
   b. Managing Organizational Performance (PB AF 512)
   c. Public Policy Analysis (PB AF 513)
   d. Microeconomics (PB AF 516, PB AF 517)
   e. Public Budgeting and Financial Management (PB AF 522)
   f. Program Evaluation (PB AF 526)
   g. Quantitative Analysis (PB AF 527, PB AF 528)
2. Concentrated study in a field of specialization, three courses minimum (12 credits)
3. Public affairs electives, two-course minimum (8 credits)
4. An internship (minimum 400 non-credit work hours)
5. 8-credit degree project (PB AF 608) or Public Service Clinics (PB AF 606, PB AF 607)

For full program details, visit evans.washington.edu/courses-degrees/mpa/

Executive MPA Program

The Executive MPA program is a cohort-based, modular program designed to meet the needs of senior-level managers and executives with 10 or more years of progressively responsible, professional experience (typically directors, senior managers in or near leadership positions, and
high-level technical staff). Students must successfully complete 45 credits of coursework within a specially designed curriculum combining one intensive week, several weekend modules and numerous online assignments. Intensive learning emphasizes a variety of critical concepts in executive leadership, including: performance management and accountability; change management; communication skills; ethics and leadership; executive decision making; human resource management; strategic financial management; and strategic leadership. Emphasis is on decision making, practical application, and integration of learning with experience. The program relies on a cohort model, so entering students must begin their studies with a seven-day residential retreat. Students complete the program in approximately 18 months.

**Degree Requirements**

45 credits, as follows:

1. One "Foundation Week" in Strategic Leadership and Performance Challenges: PA EX 501
2. Twelve three-day weekend core modules in Executive Decision Making (PA EX 502), Strategic Financial Management (PA EX 503, PA EX 505), Executive Economics (PA EX 504), Mission Integrity (PA EX 506), Values and Personal Integrity (PA EX 507), Leading for Human Development (PA EX 508), Leading Across Boundaries (PA EX 509), Negotiation and Mediation (PA EX 510), and Strategic Communication (PA EX 511), Strategic Policy Making (PA EX 512), and Leading for a Legacy (PA EX 513)
3. Online assignments
4. Degree project not required

**Peace Corps Master's International**

Peace Corps Master's International (PCMI) students must successfully complete 51 credits of coursework along with two years of Peace Corps service in international nongovernmental organization development and a degree project. PCMI students generally complete all core courses in three quarters prior to leaving for Peace Corps service; upon returning to UW, students complete their coursework and a final degree project in one or two quarters. While on assignment overseas, students remain in touch with their faculty adviser and a returned volunteer from the Evans School. PCMI students generally create a plan of study focused on international nongovernmental management or other international management and policy issues, such as environmental or health policy. Students complete the program in approximately three to three-and-a-half years.

**Degree Requirements**

51 credits, as follows:
1. **Core curriculum:**
   
a. Managing Politics and the Policy Process (PB AF 511)
   
b. Managing Organizational Performance (PB AF 512)
   
c. Public Policy Analysis (PB AF 513)
   
d. Microeconomics (PB AF 516, PB AF 517)
   
e. Public Budgeting and Financial Management (PB AF 522)
   
f. Program Evaluation (PB AF 526 or PB AF 536)
   
g. Quantitative Analysis (PB AF 527, PB AF 528)

2. Electives (including 9 credits of restricted electives: 3 credits each in economics, analysis, and values) (17 credits)

3. Two years of Peace Corps service

4. 6-credit degree project related to Peace Corps fieldwork

For full program details, visit [evans.washington.edu/courses-degrees/mpa/peace-corps](evans.washington.edu/courses-degrees/mpa/peace-corps).

**Doctor of Philosophy**

The PhD in public policy and management is a research program that prepares its graduates for careers as faculty in university programs in public policy and management, and for research positions in the public and non-profit sectors. The interdisciplinary curriculum draws broadly on theoretical and methodological foundations in policy analysis and management. Substantive policy areas reflect such diverse faculty research agendas as education and social policy, environmental policy, international development, nonprofit management, and urban policy.

This highly competitive and selective program admits three to five excellent applicants each year, and provides funding and mentoring to help them succeed. The program aims to be one of the top programs in the field of public policy and management, serving not only the Pacific Northwest, but the national and the global market for scholars in this field.

**Degree Requirements**

90 credits, as follows:

Two years, or six full-time academic quarters, of coursework and examinations, research, and the writing of a dissertation beyond the two years.

The first-year core curriculum prepares doctoral students to undertake independent scholarship in public policy and management: Research Design (PPM 502), Institutional Perspectives on Management and Leadership (PPM 504), Microeconomics (PPM 506), Public Policy Processes (PPM 508), Policy Analysis and Evaluation (PPM 510), Quantitative Methods Sequence (SOC 505 and SOC 506 or ECON 580 and ECON 581), and a qualifying examination.
Second year doctoral students increase their analytic and methodological skills. Requirements include Data Analysis Practicum (PPM 512) at least one qualitative methods and one additional quantitative methods course, proposed by the student and approved by the PhD Program Coordinator. Students are encouraged to consider obtaining a statistics certificate from CSSS. At least three courses in a substantive policy field or in management studies are required.

Beyond the second year, requirements include: a general examination/dissertation proposal (advancing to candidacy), preparation of a dissertation of original research, and a final examination (dissertation defense).

Students are expected to complete the degree in four to five years, depending on the individual student. Prior coursework in calculus is expected before matriculation.

For full program details, visit: evans.washington.edu/courses-degrees/phd

**Concurrent Degree Programs**

The Evans School offers the MPA degree concurrently with the following five programs: Master of Urban Planning (MUP), Master of Arts in International Studies (MAIS), Master of Public Health (MPH), Master of Science in Forest Resources (MS), Juris Doctor (JD). Concurrent degree applicants must apply through, and be accepted into, both programs. Admission criteria are those of each individual program.

**Admission Requirements**

Admission to the Evans School is highly competitive and selective, and is based primarily on the applicant's demonstrated ability to complete the graduate program while sustaining a high level of achievement. The School's Admissions Committee reviews previous undergraduate or graduate (if applicable) coursework, grades and GRE test scores, and gives considerable weight to professional experience, previous academic awards or scholarships, volunteer work, letters of recommendation, and the applicant's writing skills as demonstrated in a personal essay. The School admits students annually for autumn quarter.

**General Requirements**

Applicants must hold a baccalaureate degree from an accredited college or university in the United States, or its equivalent from a foreign institution, and have achieved a minimum 3.0 GPA in the last 90-quarter (or 60 semester) credits of undergraduate work.

Graduate Record Examination (GRE) general test scores are required for admission to all programs except the Executive Master of Public Administration. TOEFL scores are required for international students only.

Visit evans.washington.edu/courses-degrees/mpa/concurrent for specific requirements of each program.
Application Deadlines

Because of class-size limitations in the competitive programs, applicants are encouraged to submit applications as early as possible.

Application materials to the MPA program and to the Peace Corps Master's International program must be received online and postmarked by January 15 for priority consideration. Applications received after this date are accepted for review on a space available basis until March 1.

Application materials for the Executive MPA degree program must be received online and postmarked by May 1. Applications received after this date are accepted for review on a space-available basis until July 1.

Application materials for the PhD program in public policy and management must be submitted and postmarked by February 1. Applications postmarked after February 1st are not reviewed.

Applicants to all programs must also apply to the UW Graduate School by the specific program deadlines above.

Financial Aid

For further information, visit: evans.washington.edu/prospective-students/financial-aid.

Evans School Fellowships

The Evans School offers several fellowships to entering students each year from the School's endowed fellowship funds. These typically consist of $4000-$5000 stipends awarded primarily on the basis of academic achievement and/or excellence in public service. Applicants interested in school fellowships must submit the Evans School Financial Aid Form with their Evans School application.

- **Daniel J. Evans Endowment for Excellence in Public Service**: Fellowships support students aspiring to excellence in public service.
- **Nancy Bell Evans Endowment for Excellence in Nonprofit Service**: Fellowships support students who aspire to excellence in nonprofit service and philanthropy.
- **Jon Brock Endowed Fellowship**: Supports outstanding master's students studying conflict resolution and management in public and nonprofit sectors.
- **Elaine Chang Endowed Fellowship**: Provides support to outstanding students pursuing studies in international peace and development.
- **Brewster C. Denny Endowed Fellowship**: Supports students committed to excellence in public service.
- **Robert J. and Micki E. Flowers Endowed Fellowship**: Provides support to outstanding students from diverse backgrounds pursuing careers in public and nonprofit service.
- **Margaret T. Gordon Endowed Fellowship**: Supports outstanding Evans School students.
- **Henry M. Jackson Endowed Fellowship**: Supports students pursuing careers in environmental policy and natural resources management.
- **Morton Kroll Endowed Fellowship**: Provides support to top students pursuing arts management internships.
- **Robert J. Lavoie Fellowship**: Provides funds to outstanding students preparing to work in public service.
- **Governor Gary Locke Endowed Fellowship**: Supports Asian/Pacific Islander students pursuing studies in public service and politics.
- **Hubert G. Locke Endowed Fellowship**: Provides support for students pursuing internships in nonprofit organizations devoted to social justice issues.
- **George A. Shipman Endowed Fellowship**: Supports outstanding students pursuing careers in public service.
- **Evans School Alumni Endowed Fellowship**: Supports recruiting of outstanding students.
- **Home Street Bank Fellowship**: Supports an outstanding graduate student pursuing a career in public affairs.
- **Scottish Rite Scholarship Foundation of Washington PCMI Fellowship**: Provides a stipend to an entering student accepted to the Peace Corps Master's International degree program.
- **William Shelton Fellowships**: Funded by the Scottish Rite Scholarship Foundation of Washington to promote better government through education.

**Assistantships**

The Evans School offers many research, teaching, and staff assistantship positions each year. Typically 10 to 20 hours per week, these positions include a monthly stipend, benefits, paid tuition, and health insurance. Hiring is competitive. Most announcements are posted in the spring, or as positions become available, on the Evans School Intranet.

Research assistantships are open to first- and second-year MPA students and to PhD students. First-year MPA students are eligible to apply upon acceptance. Students typically work on grant-funded studies, special conferences, and public policy colloquia series sponsored by the school's research centers. Research assistants are exposed to a wide range of policy issues, including regional growth management, international trade, state and federal entitlement programs, health-and-human-services delivery, and education reform. In addition, some research fellowships are offered each year to highly qualified applicants during the admission process. These fellowships guarantee a paid research assistantship for the first year of study and tuition support.

Teaching and staff assistantships are reserved for second year students and PhD students. Teaching assistants are hired for most core courses. Staff assistantships include such positions as coordinators for international programs, peer advisers, public service clinic/career services coordinators, and computer lab managers.
**Work-Study Status**

When hiring for hourly positions, the school often gives preference to students possessing work-study status. Work-study positions have included research assistance for faculty and grants, and staff support for the school's centers. Work-study status is one of several forms of aid granted by the University of Washington Financial Aid Office.

**Facilities**

**Research Facilities**

The school promotes the application of research to real-world policy contexts and its integration with the teaching enterprise. In addition to supporting the independent research of faculty members, the school houses several research and policy centers focusing on regional development, family and child welfare, poverty alleviation, nonprofit management and leadership, international development, consensus building and conflict resolution, and education reform.

These centers shape students' educational experiences by offering research assistantships, special events, career networking, degree-project advising, teaching, and guest lecturing in classes taught by center faculty. The availability of research assistantships is based on current projects.

**Human Services Policy Center (HSPC)**

The center pairs applied analytic research, preventive approaches, and promotion of comprehensive policies to improve the lives of children, families, and communities, especially those who are disadvantaged. Public communications and strategic partnerships ensure that the HSPC's research affects policy. Core programs include educating and caring for young children; communicating about policies for children and families; and profiling child well being (Washington Kids Count).

**Marc Lindenberg Center for Humanitarian Action, International Development, and Global Citizenship**

The Lindenberg Center prepares students and faculty for life and work in a global society through partnerships that expand teaching, research, and service opportunities in humanitarian action, international development, and global citizenship. The center's programs enable students to understand connections between poverty, hunger, health, and human security, and equip them with the skills and knowledge to create a better, more humane world. In partnership with international organizations, the center conducts research and multi-disciplinary academic training programs that prepare students for work in emergency and humanitarian relief and international development. The center also promotes responsible global citizenship through exchanges with developing countries, internationalization of curriculum, and collaboration with K-12 schools to change the way students see the world and think about global issues.

Nancy Bell Evans Center on Nonprofit Leadership and Philanthropy

The center enhances the understanding and vitality of the nonprofit sector through research, education, and community engagement. The center conducts research of importance to scholars, policy-makers, and practitioners. It also strives to connect scholars doing research with practitioners in the field. A special research focus is the changing service and policy roles of nonprofit organizations, particularly in the context of devolution, privatization, and globalization. The center serves as the hub of nonprofit studies across the UW campus and, in conjunction with the Cascade Center for Public Service, provides growth and learning opportunities for senior-level nonprofit professionals in the Pacific Northwest.

The William D. Ruckelshaus Center

The William D. Ruckelshaus Center, formerly known as the Policy Consensus Center, is a joint venture between the UW and WSU. The center draws together representatives from a wide network of agencies, advocacy groups, businesses, agribusiness, tribal governments, university researchers, and others to find long-term solutions to policy conflicts in Washington State, enhancing the region's capacity for effective, sustainable policy making and problem solving. Policy areas range from natural resources and economic development to labor issues in the business community and elsewhere. The center's activities focus on four major areas: providing an objective forum for conflict resolution or policy enhancement; building capacities through assessment, training, and consulting to broaden stakeholders' perspectives and improve collaboration; researching and disseminating best practices in conflict resolution and policy problem solving; and closing the gap between science and policy.

West Coast Poverty Center

This center serves as a regional hub for research, education, and policy analysis on the causes and consequences of poverty in the west coast states. At the UW, the center is a collaborative venture of the Evans School, the School of Social Work, and the College of Arts and Sciences, and is the newest of three regional poverty centers funded by the U.S. Department of Health and Human Services. The center fosters opportunities for cross-disciplinary exchanges and collaboration among poverty researchers and practitioners. It supports research on a broad range of poverty-related topics, such as labor market changes and consequences for economic security and social well-being; new patterns of work and family life, including transformations in family formation, employment, and care-giving arrangements for parents and children; and demographic trends and implications for poverty and public policy. Key activities include awarding grants to established and emerging poverty scholars and doctoral students; hosting seminars and research conferences on poverty and public policy; conducting outreach, dissemination, and dialogue with policymakers and practitioners; and mentoring the next generation of poverty scholars and practitioners.
Executive Training, Civic Engagement, and Outreach

Cascade Center for Public Service and Leadership

The Cascade Center, a public and nonprofit leadership training unit, provides executive and mid-level public and nonprofit sector leaders professional development opportunities to strengthen their management skills. A diverse complement of two-day, three-day, and five-day management courses, as well as a two-week executive program, helps meet a wide range of management training needs in the Northwest and the United States.

Cascade Center courses are offered at the UW campus in Seattle. With prior permission, traditional and mid-career MPA students may apply for a maximum of 12 elective credits to be waived from their degree requirements upon completion of Cascade courses, with approval from their adviser. Executive MPA students may apply for up to nine elective credits to be waived from their degree program, with approval from their adviser. Cascade courses are not graded and participants do not earn academic credits. Rather, the Evans School may accept completed Cascade coursework in lieu of required elective credit hours.

Civic Engagement

An important convener of public policy deliberations in the Puget Sound region, the Evans School provides a neutral forum in which leading scholars and practitioners can talk about practical solutions to emerging policy issues. Groups wanting a university partner in public events often turn to the Evans School. Through strategic alliances, the school attracts many people to engage in dialogue with faculty, students, and the greater policy community. Public lectures, conference, symposia, and panel discussions help students enrich their policy studies beyond the classroom. These include the Daniel J. Evans Lessons in Leadership Seminars, the Dael L. Wolfe Memorial Lecture in Science and Public Policy, the Betty Jane Narver Lecture on Women in Public Policy, the Civic Engagement for the Twenty-First Century Seminar Series, the Forum at the Evans School, and the quarterly Dean's Forum.

In addition, through service on commissions, organizational boards, and other means, Evans School professors and students actively assist governments, NGOs, nonprofits, community organizations, and companies to improve society in the United States and abroad. Whether through public service clinics or internships, trainings, or volunteer service projects, students can actively engage their knowledge in serving the public good.

Electronic Hallway

The Electronic Hallway, hallway.evans.washington.edu, is an internationally recognized, online resource for public affairs teaching and curriculum development. It supports the Evans School teaching mission and distributes cases and skill exercises to educators in public policy and
Course Descriptions

Public Affairs Executive MPA

PA EX 502 Executive Decision Making (3) Examines multiple ways in which analysis can support good decision making by leaders. Examines the normal heuristics managers and leaders use and looks at the role of data analysis, modeling, and expert judgment in management and leadership.

PA EX 503 Strategic Financial Management I (4) Introduction to state and local public finance and nonprofit financial management and analysis; political context and economic forces causing fundamental shift in resources and types of financing for public service; fundamental concepts of financial statements, their nature, and use in the public and nonprofit sectors.

PA EX 504 Executive Economics (3) Explores basic principles of economics needed by executives to become critical consumers of economic analysis, recognizing when and how it is pertinent to decision-making.

PA EX 505 Strategic Financial Management II (4) Focuses on strategic financial management; alternative forms of organizational financial structure; analytic skills and managerial applications of financial accounting and budgeting, techniques of financial analysis, performance budgeting, and debt management; strategic finance linked to contracting, multiple forms of privatization, social enterprise, and managing multiple revenue streams.

PA EX 506 Improving Organizational Performance (3) Integrates organizational mission with the culture using effective communications, outcomes assessments, and other tools for a citizen-oriented approach that relies on modern marketing methods.

PA EX 507 Values and Integrity (3) Provides a personal and value context from which to use the framework and methods to sustain a personal and institutional mission. Examines ranges of intelligence and learning styles to create a foundation of self understanding for leadership strength and integrity.

PA EX 508 Managing People (3) Focuses on how to build a humane and fair workplace consistent with the laws that govern modern employment. Examines critical moments of building a strong culture through evaluation, promoting, firing, discrimination, work force succession, and intergenerational leadership.

PA EX 509 Leading Across Boundaries (3) Examines the modern challenges of leading across complex networks of institutions and stakeholders, examining institutional, national, sectoral, and cultural boundaries. Examines these challenges in the context of globalization and the emergence of multi-sectoral and multi-cultural networks of governance.
PA EX 510 Negotiation and Mediation (4) Explores a theoretical framework for negotiations with an equal emphasis on developing negotiation skills through role-plays. Focuses on techniques and nuances of negotiation that are most useful for a manager working in a complex, dynamic environment with multiple stakeholders.

PA EX 511 Strategic Communication (3) Focuses on effective communication, highlighting the advocacy and motivation facet of leadership. In order to understand elements of persuasive communication, emphasizes concepts of negotiation analysis; power and dependence, perceptions of conflict, and finding mutual gains.

PA EX 512 Strategic Policy-Making (3) Examines how managers can expertly function at the intersection of politics, policy, and the wishes of the public.

PA EX 513 Leading for a Legacy (3) Explores the nature of human culture and values and how they relate to human legacy by impacting the quality of humans in an organization and how legacy grows from the values of the trusteeship and stewardship.

Public Policy

PUBPOL 201 Introduction to Public Policy and Governance (5) I&S Provides an introduction to policy analysis, governance, and public service. Students learn how individuals organize for common purposes, and design, implement, analyze, and evaluate policy. Students examine how policy decisions emerge and how the values of public, nonprofit, and private sector leaders and institutions affect decisions and implementation.

PUBPOL 301 Truth, Evidence, and Public Policy Analytics (5) I&S, QSR Sound public policy and governance decisions rely on having evidence to support conclusions, as well as having an understanding of the extent of certainty regarding the available evidence. Students will learn qualitative, statistical, experimental, and mixed methods to evaluate: the origins of policy; the management, implementation, and administration of public programs; and the intended and unintended impacts of public policies. Prerequisite: PUBPOL 201; and one of the following: STAT 220, STAT 221/CS&SS 221/SOC 221, or STAT 311.

PUBPOL 313 Evidence-Based Policy Implementation (5) I&S Explores the multidimensional challenge of turning policy and program intentions into valued results on the ground. Understanding why implementation can fall short of expectation requires an understanding of how public/nonprofit organizations work; including their mission, resources, collaborators, and results measurement. Examines the role that evidence can play in service of democratic governance and policy effectiveness. Recommended: PUBPOL 201

PUBPOL 355 Special Topics in Nonprofits (3-4, max. 12) Covers various topics regarding nonprofit essentials.

PUBPOL 403 Professional Leadership (4) Cultivates practical skills required to lead within various organizational contexts: managerial strategies for public, nonprofit, and business organizations are developed through case studies and guest speakers. Focuses on analytical and
ethical approaches to problem solving and the communication skills needed for effective leadership in any career.

**PUBPOL 499 Topics in Public Policy (3-5, max. 6) I&S** Examines selected issues of importance in all areas of public policy. Focus on in-depth analysis of vital public policy issues and the integration of economic, political, and administrative perspectives on them. Offered: jointly with POL S 404.

**PUBPOL 501 Legislative Relations (4)** Studies role of legislative bodies in American public policy making. Builds on case studies and focuses on tactics, constraints, and options involved in working within a legislative process to achieve public policy goals.

**PUBPOL 502 Strategy for Public Leaders (4)** Explores the design and execution of strategy in public life. Covers concepts and practical tools for making strategy, including situational assessment, strategy design, implementation, and reassessment and revision.

**PUBPOL 503 Executive Leadership (4)** Cultivate the practical skills required to lead within various operational contexts. Managerial strategies for addressing problems in public, not-for-profit and business organizations will be examined through case studies, general readings, class-exercises, presentations by practitioners, and self-reflection. Throughout this course, students will practice the core skills required for their success as future leaders.

**PUBPOL 504 Leadership Ethics in the Public Interest (3/4)** Addresses the moral challenges facing leaders in the public and nonprofit sectors. Examines the values and virtues important to sustained ethical leadership as well as strategies to build strong institutional cultures and support ethical practices in institutions.

**PUBPOL 505 The Law of Public Administration (3)** Legal framework of public administrative action in the United States, emphasizing constitutional requirements; operation of the administrative process; management of personnel, funds, and contracts; and judicial review of administrative activity.

**PUBPOL 506 Ethics and Public Policy (3/4)** Teaches students to identify moral issues in public life. Special focus on the integration of moral concerns into public discussion in a manner which contributes to good policy and does not polarize issues. Discusses moral and political theory by focusing on contemporary cases and issues.

**PUBPOL 507 Mediation and Negotiation (4)** Possibilities offered by mediation and negotiation methods using a mixture of cases, readings, discussions, lectures, and guest speakers. Use of negotiation and mediation techniques to resolve disputes and disagreements over public-policy issues.

**PUBPOL 509 Managing People in Public and Nonprofit Agencies (4)** Explore the fundamentals of managing people with a specific emphasis on managing people in nonprofit and public agencies. Covers theoretical and practical aspects of management such as: learning how to motivate a team for results; understanding key aspects of human resource law and practice;
exploring how lean management can be utilized in nonprofit and government agencies; managing a diverse workforce, and managing in a union environment.

**PUBPOL 510 Foundations of American Democracy (4)** Examines the fundamental values such as equality, liberty, dignity, freedom, and autonomy that individuals justify and shape American political culture and institutions. Focuses upon the philosophical and religious foundations of these values and examines the relations among them as well as how they influence American political culture, institutions, and conflict.

**PUBPOL 511 Managing Politics and the Policy Process (4)** Examines broad aspects of organizational life and orients students to key internal and external challenges and opportunities of managing public and nonprofit organizations. Main topics include organizational mission, values, communication, culture, organizational environment and the policy process.

**PUBPOL 512 Managing Organizational Performance (4)** Addresses questions of organizational design, personnel, and operations management to equip students with skills to perform effectively in mission-driven organizations. Core topics include organizational design, inter-organizational networks, human resources and staff management, improving service delivery and production flows, measuring and managing for performance, and ethical leadership. Prerequisite: permission of instructor; recommended: PUBPOL 511

**PUBPOL 513 Public Policy Analysis (4)** Equips students to rigorously assess policy responses to public problems, through defining problems, devising alternative solutions, clarifying stakes in choices, predicting impacts of choices. Skills developed by working on specific policy problems. Assumes familiarity with statistics, microeconomic theory, and institutions and processes of American government. Prerequisite: permission of instructor; recommended: PUBPOL 516, PUBPOL 517

**PUBPOL 514 Psychology for Policy Analysis (4)** Examines basic concepts in social psychology, judgment and decision making, and behavioral economics. Explores how these concepts can be applied to the design, implementation, and evaluation of successful policy.

**PUBPOL 515 Decision Making for Public Managers (3)** Considers decision making from normative, prescriptive, and descriptive perspectives. Emphasizes individual decision making, with some discussion of organizational decision practice. Focuses on decision analysis; presents tools for structuring decisions; and considers the role of analysis as a basis for negotiation.

**PUBPOL 516 Economics for Policy Analysis and Management I (4)** Examines the use of microeconomics in policy analysis. Includes a review of supply, demand, and how government actions (e.g., taxes, subsidies) affects economic efficiency in a competitive market. Develops a deeper understanding of consumer choice as a function of preferences and constraints - the building blocks of demand - and examine how changes in constraints or opportunities via public policy affects choices. Recommended: elementary economics

**PUBPOL 517 Economics for Policy Analysis and Management II (4)** Serves to deepen student understanding of microeconomic theory with a focus on understanding the economic
PUBPOL 518 Applied Cost Benefit Analysis (4) Explores the use of benefit-cost techniques for analyzing policy, regulatory, and public investment decisions. Topics to include discounting, estimating demand in primary and secondary markets, risk and uncertainty, and nonmarket valuation. This widely-used applied economics tool will be mastered through lecture, applied problem-solving and a benefit-cost analysis project. Prerequisite: PUBPOL 516 and 517, or permission of instructor.

PUBPOL 519 Law and Economics (2-4, max. 4) Examines the applications of Law and Economics to: torts, property, contract, and criminal law; intellectual property, tobacco litigation, employment law, human organ sales, and U.S. regulatory design. Offered: jointly with LAW A 561.

PUBPOL 520 Intergovernmental Relations (4) Comparative study of the issues involved in implementing government programs across multiple jurisdictions. Issues of accountability, feasibility, politics, and constitutional limits are examined by focusing upon various methods used to implement programs across federal, state, regional, and international jurisdictions.

PUBPOL 521 Managing Grants and Contracts (4) Public organizations are increasingly reliant on partners and contractors for the delivery of public services, using a variety of means to engage these partners, including grants and contracts. This course explores how to best design, manage, and evaluate contracts/grants to improve performance, including the process through which contracts and grants are managed, and how to effectively evaluate performance to inform future partnerships.

PUBPOL 523 Advanced Budgeting in the Public Sector (4) Covers more advanced topics in governmental budgeting. Provides an overview of the functions, expenditures, and revenues of federal, state, and local governments. Recommended: PUBPOL 522, or instructor permission.

PUBPOL 524 Public Sector Financing (4) Covers financial management in public agencies, with the primary focus on state and local government. Prerequisite: PUBPOL 522, or instructor permission.

PUBPOL 525 Qualitative Field Methods and Analysis (4) Provides a review of qualitative field research methods, exposure to writing from the field, and opportunities to try practicing fieldwork. Emphasizes study design, case selection, interviewing techniques, survey design, and field notes. Addresses coding, analysis, writing, and presenting findings.
PUBPOL 526 Program Evaluation (4) Introduction to the theory, practice, and politics of program and policy evaluation. Covers the major types of evaluation, including theory of change, implementation and process evaluation, and impact evaluation, as well as quantitative and qualitative data collection techniques, the ethics of evaluation, and engaging stakeholders in evaluation.

PUBPOL 527 Quantitative Analysis I (4) Two-quarter sequence explores how to formulate research questions, gain experience with conducting research, and learn how to assess which statistical tools or research methods are appropriate to answer different types of policy or management questions. Covers probability, descriptive statistics, hypothesis testing, and confidence intervals.

PUBPOL 528 Quantitative Analysis II (4) Second quarter of a two-quarter sequence aimed at helping students become informed users and critical consumers of research and statistical analysis. Combines material on research design and causal inference methods with tools for multivariate analysis. The multivariate analysis methods include correlation and an introduction to multivariate regression. Prerequisite: permission of instructor; recommended: PUBPOL 527

PUBPOL 529 Advanced Quantitative Methods for Policy Analysis (4) Teaches students more advanced quantitative methods applied to program evaluation and policy analysis. Students develop ability to do independent research by developing skills in assessing data qualities, research design, and appropriate application of a variety of quantitative methods. Prerequisite: permission of instructor; recommended: PUBPOL 527, PUBPOL 528

PUBPOL 531 Development Management and Governance (4) Addresses the connections linking governance systems, the management and implementation of public policies, and policy and program outcomes, with focus on capacities and strategies of a broad array of actors engaged in international development. Covers management challenges faced by government bureaucracies and civil society actors, the changing landscape of development assistance, public sector reforms, and human rights in development context.

PUBPOL 532 International Development Capstone (2) Provides students the opportunity to interact with professionals in the field during panel discussions. Students produce a short summative paper as a final project. Students will have completed the preceding International Development Certificate Program (IDCP) core courses: PUBPOL 531 and PUBPOL 533.

PUBPOL 533 Economics of International Development (4) Economics of International Development critically examines the validity and reliability of most common economic development indicators of poverty, growth and inequality, and provides an overview of, and basic literacy around, international macroeconomic topics including debt, aid, trade and financial markets.

PUBPOL 534 Food and Agricultural Policy in Developing Countries (4) Provides an understanding of the role of agriculture in economic development. Examines frontier policy issues in developing countries related to food security and agricultural production. The emphasis
is on developing a nuanced understanding of contemporary food and agricultural policy issues, with a firm grounding in theory and history.

**PUBPOL 535 American Foreign Policy (4)** Examines how the U.S. foreign policy process works, emphasizing formation, content, and implementation of post-Cold War U.S. foreign and national security policy, with emphasis on current foreign and national security policy.

**PUBPOL 536 Diagnosing and Reforming Corrupt Systems (4)** Corruption - one of the greatest obstacles to social, economic, and political development around the world - has become a focal point for efforts to improve public sector performance. This course explores strategies for the prevention and mitigation of corruption across a range of contexts and takes an action-oriented approach, drawing lessons from corruption cases and focusing on what approaches might be undertaken under different circumstances.

**PUBPOL 537 Topics in International Affairs (3-5, max. 12)** Examines selected topics of interest and import in foreign policy and international affairs or development. Focuses on an in-depth analysis of policy issues considering economic, institutional, and political dimensions.

**PUBPOL 538 International Organizations and Ocean Management (3)** Survey of the manner in which international regimes and organizations attempt to manage and regulate the uses of the ocean. Primary emphasis is on the analysis of the effectiveness of regimes and of processes that support or constrain these organizations. Prerequisite: SMEA 500 or permission of instructor. Offered: jointly with SMEA 507.

**PUBPOL 539 Values in International Development (4)** Examines and clarifies international development values, including underlying theories of justice on which they seem to be built, the ways in which they are justified to stakeholders, the general public, and impacts they have upon people, especially the poorest and most vulnerable.

**PUBPOL 541 The Role of Nongovernmental Organizations in International Development (4)** Explores issues faced by nongovernmental organizations (NGOs) working in developing and transition countries, including perspectives from international and indigenous NGOs and community-based organizations. Topics covered include relationships between NGOs and the state, the market, intended beneficiaries, and funder relationships. Key issues discussed include the challenges of funding, participation, advocacy humanitarianism, and social change.

**PUBPOL 547 Water Resource Economics (4)** Explores the economics of water resources, including static and dynamic efficiency for consumers and producers and other topics concerned with water quality. Explores effects of climate change on water resources, and economic approaches to mitigate these effects.

**PUBPOL 550 Managing Nonprofit and Philanthropic Organizations (4)** Focuses on the roles and practices of nonprofit and philanthropic organizations. Provides an overview of topics relevant to nonprofit and social sector organizations, including theoretical foundations, legal forms, governance and leadership, cross-sector relationships, revenue streams and fundraising, and policy advocacy.
PUBPOL 551 Measuring Social Impact: Advanced Program Design and Evaluation (4)
Topics covered include applying theory of change and design thinking to evaluation; formative and process evaluation; qualitative and participatory approaches; new approaches in quasi-experimental and experimental methods, and evaluating advocacy and collective impact. Prerequisite: instructor permission; recommended: PUBPOL 526

PUBPOL 552 Philanthropy and Society (4) Provides students a holistic background of the philanthropic sector. Begins with an in-depth analysis of history and context and ends with a discussion of current strategies and approaches to giving by foundations. Builds in sequence: history, context, sub-sectors, accountability, and results.

PUBPOL 553 Nonprofit Financial Management (4) Provides an understanding of the financial framework on nonprofit organizations. Focuses on the financial principles of management of nonprofits, with an emphasis on financial reporting, strategic financial planning, managerial decision-making and budgeting.

PUBPOL 554 Nonprofit Organizations and Public Policy (3) Examines the changing role of nonprofit organizations in American society. Selected policy topics include privatization, for-profit/nonprofit competition, public-private partnerships, tax policy, and new sources of revenues.

PUBPOL 555 Topics in Nonprofit Management, Philanthropy, and Social Enterprise (3-5, max. 12) Covers a range of topics applied to nonprofit, philanthropic, and social enterprise organizations.

PUBPOL 556 Public-Private Partnerships (4) Provides a comprehensive overview and examination of partnerships and their implications for public policy and nonprofit and public management. Examines the diverse array of partnerships in the UW and abroad and the management challenges involved in the development and implementation of different partnership strategies.

PUBPOL 557 Management and Public Capital Markets (4) Covers the institutions and dynamics of the public capital market; how the structure of that market shapes managers' choices about how to design, sell, and manage debt obligations; and the analytical tools managers and investors use to evaluate those choices and their potential consequences.

PUBPOL 558 Collaboration and Management Across Sectors (4) Organizations from different sectors (public, business, nonprofit) increasingly work together to achieve unique, collaborative outcomes. Managing cross-sector relationships presents dynamic process and governance challenges that go well beyond the difficulties of managing within an organization. Explores the opportunities and risks involved in working across organizational boundaries.

PUBPOL 559 Quadruple Bottom Line Performance (4) Examines the Quadruple Bottom Line as a conceptual framework and emerging set of tools for a more comprehensive and balanced accounting of organizational and institutional behavior and outcomes related to economic efficiency, social equity, environmental sustainability, and creative cultural vitality.
PUBPOL 560 Inequality, Governance, and Policy in the Metropolitan Region (3/4) Explores national/local urban policy concerning the major problems confronting cities and metropolitan regions today. Economic globalization, income inequality, and metropolitan decentralization shape the urban agenda, the context for urban policy, and the analytic focus of the course. A project allows the exploration of strategies for intervention. Offered: jointly with URBDP 560.

PUBPOL 561 Urban Economics and Public Policy (4) Examines the rationale for and consequences of public intervention in urban land, housing, and transportation markets through land use regulations such as zoning and growth management, infrastructure investments, and fiscal policies to manage urban development and traffic. Prerequisite: successful completion of an introductory microeconomics course or permission of the instructor. Offered: jointly with URBDP 561.

PUBPOL 562 Immigration Policy (4) Builds foundational knowledge of American immigration policy, providing students with the conceptual and analytical tools required to critically evaluate any and all arguments made in current policy debates, and to move toward making unique and original contributions to those debates.

PUBPOL 563 Intergroup Relations and Public Policy (4) Explores how social psychological research on intergroup relations is pertinent to various aspects of public policy. Includes historical and current perspectives. Examines how the literature describes how individuals perceive, judge, and feel about individuals from various social groups. The groups discussed ranges from minimal groups to classic social groups.

PUBPOL 564 Housing and Social Policy (4) Provides an overview of the field of housing policy and its interrelationships with social problems in the United States. Explores various dimensions of housing problems with an emphasis on housing affordability and examines the primary policy tools used to respond to housing problems.

PUBPOL 565 Topics in Urban Affairs (3-5, max. 12) Examines various topics of public importance in urban policy. Integrates the political, managerial, economic, and technical dimensions of these issues.

PUBPOL 566 Community Economic Development (4) Explores the relationship between local community economic development, environmental sustainability, cultural vitality, and trend in regional and national economics, with specific focus on how to make community and economic investments that yield development outcomes that contribute to economic, equitable, environmental, and cultural vitality.

PUBPOL 567 Community Engagement and Urban Governance (4) Investigates interactions between citizen participation and efforts to measure and improve policy and program performance in large cities. Develops analytic frameworks and practical strategies for sustaining and enhancing participation and performance.

PUBPOL 568 Social Justice and Public Policy (3/4) Examines the values of social justice that motivate action in the public arena; thinks about how those values create concerns and solutions;
and explores issues of equity and liberty, of balancing the rights of the individual, the common good, and redistribution.

**PUBPOL 569 Race and Public Policy (3-4)** Analyzes the way in which the persistent problem of race is expressed in the formation and implementation of social and public policy.

**PUBPOL 570 Foundations of Social Policy (3)** Examines major institutions and programs in social policy including: income maintenance, social services, education, and healthcare. Focuses on American social policy with some attention to comparative welfare state development. Includes extensive discussion of different policy strategies to address social policy problems.

**PUBPOL 571 Education, The Workforce, and Public Policy (4)** Examination of policy issues involving education, training, the economy, and the development of the nation's human resources. Relationship between education, training, and work, and among the various levels of the education system, underutilized workers, race and gender issues, and the role of education and training in economic development. Offered: jointly with EDLPS 563.

**PUBPOL 572 Race and Equity in Policy and Governance (2, max. 4)** An introduction for understanding race and equity in policy and governance. Power, privilege, and disadvantage are distributed based on race, skin color, and ethnicity. Develop the ability to identify and critique racist or racialized policies and management practices; examine your own experience of race, privilege, and oppression; and learn to use tools for increasing racial equity and inclusion in public, nonprofit, and private sectors. Credit/no-credit only.

**PUBPOL 573 Topics in Education and Social Policy (3-5, max. 12)** Examines various issues of public importance in the areas of education and social policy. Focuses on in-depth analysis of relevant issues and the integration of the economic, administrative, and political dimensions of these issues.

**PUBPOL 574 Economics of Race and Inequality in the United States (3/4)** Covers the history of racial inequality over the past century, theories of the causes, wage determination and discrimination in employment and pay, inequalities in education and human capital development, and residential segregation and its consequences. Discusses the effectiveness and limitations of policy response to racial inequality.

**PUBPOL 576 Poverty and Anti-Poverty in the United States (4)** Examines the nature and extent of poverty in the United States, its causes and consequences, and the antipoverty effects of public policies.

**PUBPOL 577 Economics of Health Policy (4)** Uses an economic perspective to examine a variety of issues related to the provision of medical care in the United States. Topics include medical care demand, the role of health insurance, the health and financial consequences of being without insurances, health care spending, and the Affordable Care Act. Prerequisite: instructor permission; recommended: PUBPOL 517
PUBPOL 578 Asset Building for Low Income Families (4) Explores assets and finances for low income families primarily in the United States. Identifies programs and policies targeted toward asset building and looks at evidence of their efficacy. Uses a multi-disciplinary perspective to examine the economic, social, and political contexts for these policies.

PUBPOL 582 Communicating Climate Change (4) Surveys climate change communications and their role in achieving climate change policy goals. Assesses the ethics and science of climate change communication. Explores theories and frameworks to evaluate and improve climate change communications. Examines the role of climate change communication as a policy tool.

PUBPOL 583 Science, Technology, and Public Policy (4) Examines the relationship between the advancement of technical knowledge, the pace of technological change, and public policies designed to induce or respond to these development. Issues of policy formulation, administrative design, and future trends; applications include biotechnology, energy, information technology, global warming, robotics, national security, homeland security, and space exploration.

PUBPOL 585 Topics in Science, Technology, and Public Policy (3-5, max. 12) Examines relationship between advancement of technical knowledge and pace of technological change, and public policies to induce or respond to these trends. Generic issues of government research, development, and personnel training programs are addressed. Applications of policy issues involving biomedical, communications, energy, environmental, transportation, and weapons technologies.

PUBPOL 587 Native Nations, Native Lands, Native Waters (4) Examines the ways that Native Nations in the US function as self-governing sovereigns and the ways that Native Nations govern their lands and waters. Considers how Native Nations interact with other governments and the consequences of those interactions.

PUBPOL 589 Risk Assessment for Environmental Health Hazards (4) Examines context, methodologies, data, uncertainties, and institutional arrangements for risk assessment. Qualitative and quantitative approaches to identification, characterization, and control of environmental hazards to health emphasized through didactic and case studies. Offered: jointly with CEWA 560/ENV H 577; A.

PUBPOL 590 Environmental Policy Processes (4) Presents background to establish the need for environmental policy. Explores in a comparative manner, examining both successes and failures, various strategies that have been used or proposed to protect the environment. Explores different policy tools for environmental protection, including command-and-control regulation, market-based incentives, third-party certifications, and collaborative partnerships.
PUBPOL 592 Resource Policy and Administration (4) Study based on understanding of the actors, arenas, issues, and policy communities that form the context for policy development and implementation. Exploration of approaches to policy inquiry. Consideration of implications for both policy and management. Students develop a study design for course project. Offered: jointly with SEFS 571.

PUBPOL 593 Climate Change and Energy Policy (4) Energy policy formulation and implementation with emphasis on post-1973 developments. Energy conservation programs; changing roles of oil, coal, gas, nuclear, and solar energy; institutional, environmental, and equity considerations; government research and development programs.

PUBPOL 594 Economic Approaches to Environmental Management (4) Examines the economic tools relevant to natural resource and environmental management. Tools are developed in the context of a series of resource problems, with an eye towards building intuition useful for addressing complex policy problems that do not fit neatly into textbook examples. Prerequisite: PUBPOL 516; PUBPOL 517; PUBPOL 527; PUBPOL 528

PUBPOL 595 Topics in Environmental Policy and Management (3-5, max. 12) Examines various topics of public importance in environmental policy and management. Integrates the political, managerial, and economic dimensions of these issues.

PUBPOL 596 Environmental Risks and Values (4) Explores a range of sources of risk to human health and the environment, and the values that color communication, perception, and decision making about risk. This topic lies at the core of an ongoing conversation between communities, governments, scientists, the media, and others. Topics include energy, climate, water supply, emerging technology, and environmental justice.

PUBPOL 597 Environmental Decision Analysis (4) Examines how science contributes to decisions that involve the natural environment; how science and scientists help frame debates and decisions; how scientific findings are incorporated into decision-making processes; how scientists and non-scientists deal with uncertainty about scientific questions.

PUBPOL 598 Administrative and Policy Skills Workshop (1-3, max. 6) Teaches practical administrative, leadership, and analytic skills commonly required of managers and analysts in the public and nonprofit sectors. The workshops emphasize hands-on problem resolution, simulations, and actual practice. Credit/no-credit only.

PUBPOL 599 Special Topics (1-6, max. 15) Study and analysis of special topics in public affairs. Topics vary each quarter depending on curricular needs and interests of students and faculty.

PUBPOL 600 Independent Study or Research (*) Evans School MPA students only. By arrangement with instructor. See current Time Schedule for link to application. Refer to Evans School MPA Student Handbook for details.
PUBPOL 605 Degree Project ([1-8]-, max. 8) Evans School MPA students only. By arrangement with instructor. See current Time Schedule for link to application. Refer to Evans School MPA Student Handbook for details.

PUBPOL 608 Capstone Project Seminar ([4-8]-, max. 8) Meets the capstone project requirements as part of the Evans School MPA curriculum. Students work in a supportive seminar environment facilitated by peers and faculty to complete team-based capstone degree projects.

Public Policy and Management

PPM 500 Proseminar in Public Policy and Management (1) Engages students with faculty to discuss research in public policy and management. Provides an effective means to become familiar with research agendas and opportunities in this field, and other aspects of socialization into the academic process, including teaching, grant writing, and publishing. Credit/no-credit only.

PPM 502 Research Design (4) Provides a rigorous foundation for interdisciplinary research design. Introduces iconic types of theory (predictive, interpretive, and explanatory) and the philosophical foundations underlying these. Reviews a range of methodological approaches to research: experimental and quasi-experimental, ethnographic, comparative case-study, statistical, meta-analytic, simulations, and triangulation.

PPM 504 Perspectives on Institutions (4) Prepares doctoral students for careers in research and teaching public policy, management, and leadership by introducing foundational scholarship on the major institutional forces that influence the policy process. Examines key critiques as well as integration and application of the perspectives to public policy and management challenges.

PPM 506 Advanced Microeconomics for Policy Analysis (4) Introduction to advanced economic theory. Covers core models in consumer theory, producer theory, and public economics. Topics include: consumer choice, the theory of the firm, choice under uncertainty, neoclassical and behavioral models of inter-temporal choice, basic game theory, externalities, public goods, and an introduction to welfare economics. Recommended: multivariate calculus; intermediate microeconomic theory.

PPM 508 Public Policy Processes (4) Political science frameworks, approaches, and theories concerning development and implementation of public policies within American and other democratic political systems. Governmental behaviors and processes, including rational, political, and bureaucratic models of governmental decision making; agenda-building processes; and the role of institutions in constraining and enabling policy change.

PPM 510 Public Policy Analysis (4) Reviews public policy analysis and evaluation building on prior study of microeconomics, policy processes, research design, and statistics. Covers theoretical and interdisciplinary frameworks and applications of empirical methods to policy problems and solutions, and considers regularities in incidence, and effects of the use of alternative policy tools.
PPM 512 Data Analysis Practicum (4) Develops the methodological capacity to undertake independent research. Includes reading, critiquing, and replicating portions of selected empirical papers from a range of scholarly areas. Provides opportunities to deal with issues of research design, data limitations, measurement, model specification, and interpretation.

PPM 514 Organizations, Management, and Theory (4) Explores key theories of organizations and management employing perspectives from sociology, political science, economics, and public management. Theories are applied in the context of private, nonprofit, and public sector organizations. The course builds on the required course PPM 504 Institutional Perspectives. Recommended: PPM 504

PPM 599 Topics in Public Policy and Management (1-6, max. 16) Examines various research topics of importance in public policy and management.

PPM 600 Independent Study or Research (*) Evans School PhD students only. By arrangement with instructor. See current Time Schedule for link to application. Refer to Evans School PhD Student Handbook for details.

PPM 603 Teaching Mentorship (2, max. 50) Evans School PhD students only. By arrangement with instructor. See current Time Schedule for link to application. Refer to Evans School PhD Student Handbook for details. Credit/no-credit only.

PPM 800 Doctoral Dissertation (*) Evans School PhD students only. See current Time Schedule for link to application. By arrangement with doctoral dissertation supervisor. Refer to Evans School PhD Student Handbook for details.
School of Public Health

School Overview

Interim Dean
Joel Kaufman
F350 Health Sciences

The UW School of Public Health prepares innovative and diverse public health leaders and scientists; provides research to advance public health science and policies; and offers service to promote health and well-being.

The School has five departments: Biostatistics, Environmental and Occupational Health Sciences, Epidemiology, Global Health, and Health Services -- plus interdisciplinary programs that include health services administration, maternal and child health, nutritional sciences, pathobiology, and public health genetics.

The School offers the following degrees: Master of Public Health (MPH); Master of Science (MS); Master of Health Administration (MHA); Doctor of Philosophy (PhD); and bachelor's degrees in public health, environmental health (also a minor), and health informatics and health information management (HIHIM).

Concurrent degree programs with Anthropology, Dentistry, Foster School of Business, International Studies, Law, Medicine, Molecular and Cellular Biology, Nursing, Public Administration, and Social Work are also available.

Graduate certificate programs are offered in basic or advanced clinical research methods (Epidemiology), emergency preparedness and response (Health Services), global health (Global Health), health management (Health Services), health policy (Health Services), HIV and STIs (Global Health), maternal and child health (Health Services), public health practice (Health Services Executive MPH program), public health genetics (Public Health Genetics), and statistical genetics (Biostatistics).

For more information, see the school's academic catalog at sph.washington.edu/publications/catalog.asp or visit the homepage at sph.washington.edu.

Undergraduate Program

Adviser
F-332 Health Sciences, Box 357230
206-221-4561
phmajor@uw.edu
The School of Public Health offers a Bachelor of Science or a Bachelor of Arts with a major in public health.

The Department of Environmental and Occupational Health Sciences offers a minor and a Bachelor of Science with a major in environmental health. The Department of Health Services offers a Bachelor of Science in Health Informatics and Health Information Management degree, as well as a baccalaureate certificate, through the UW Evening Degree Program. A minor in global health is offered by the Department of Global Health. A minor in nutritional sciences is offered by the Nutritional Sciences Program.

General Education

The School of Public Health general education requirements, which apply to all degree programs mentioned above, are as follows:

**Basic Skills**

1. English Composition (C) – 5 credits
2. Additional Writing (W) – 10 credits
3. Quantitative and Symbolic Reasoning (QSR) – One course (minimum 4 credits)

**Areas of Knowledge**

1. Visual, Literary, & Performing Arts (VLPA) – 10 credits*
2. Individuals & Societies (I&S) – 10 credits
3. Natural World (NW) – 20 credits
4. Additional Areas of Knowledge – 25 credits

*Although School of Public Health students are not required to study a foreign language, they are encouraged to do so by substituting first-year language courses for the VLPA requirement. Completion through the third quarter is required for VLPA credit.

Suggested First- and Second-Year Courses: anthropology, political science, psychology, sociology; distribution of general education and Areas of Knowledge courses as well as coursework that develops critical and analytical thinking, communication skills, and an understanding of public health.

Admission Requirements

1. Admission is capacity-constrained. Completing the prerequisites and submitting an application guarantees consideration but not admission.
2. Admission is twice a year, for autumn and winter quarters. Applications, due the first Friday of spring for autumn admission and the third Friday of autumn for winter admission, are available from the public health major website at sph.washington.edu/uph. Transfer students must also apply for admission to the UW. For the admission process, see admit.washington.edu.
3. Evaluation of applications is based on overall academic record, grades in major relevant coursework, selection of and preparation for appropriate BA or BS path, ability to make satisfactory progress toward the degree, and understanding of and potential fit with the major as demonstrated in the personal statement.

4. Applicants are strongly encouraged to attend an information session before submitting an application.

5. Transfer students may use any transferable equivalent course(s) for prerequisite coursework. Consult the UW Equivalency Guide or a UW adviser to verify transferability of coursework.

**Early Admission**

Students apply to the early admission option during spring of their first year for entry in autumn of their second year or during autumn of their second year for entry in winter of their second year.

Applicants must complete the following by the application deadline:

1. Minimum 30 college credits
2. Minimum 3.00 cumulative GPA
3. Minimum 2.0 in English composition (5 credits)
4. Minimum 3.0 grade in one introductory public health course from the following: ENV H 111, ENV H 205, EPI 201, EPI 220, G H 101, HSERV 100, NUTR 200, PHG 200 (HSERV 100 required for BA Education and Promotion Option; NUTR 200 required for BS Nutritional Sciences Option)
5. Minimum 3.0 grade in one introductory science from the following: BIOL 118, BIOL 180, CHEM 120, CHEM 142, CHEM 145, or MICROM 301/MICROM 302

**Upper Division Admission**

Upper division admission is typical for most students either at the UW or transferring from other institutions.

Applicants must complete the following by the application deadline:

1. Minimum 60 college credits
2. Minimum 2.50 cumulative GPA
3. Minimum 2.0 in English composition (5 credits)
4. Minimum 2.5 grade in one introductory public health course from the following: ENV H 111, ENV H 205, EPI 201, EPI 220, G H 101, HSERV 100, NUTR 200, PHG 200, or one 5-credit course from anthropology (ANTH only), geography (GEOG), political science (POL S), psychology (PSYCH), or sociology (SOC)
5. For BA path students, minimum 2.5 grade in one introductory science from the following: BIOL 118, BIOL 180, CHEM 120, CHEM 142, CHEM 145, or MICROM 301/MICROM 302

6. For BS path students, minimum 2.5 grades in at least two courses of a year-long sequence in introductory science, with laboratories, or mathematics, chosen from biology (BIOL 180, BIOL 200, BIOL 220); chemistry (CHEM 142, CHEM 152, CHEM 162); organic chemistry (CHEM 237, CHEM 238, CHEM 239; CHEM 241, CHEM 242); physics (PHYS 114/PHYS 117, PHYS 115/PHYS 118, PHYS 116/PHYS 119, or PHYS 121, PHYS 122, PHYS 123); or mathematics (MATH 124, MATH 125, MATH 126)

Bachelor of Arts Major Requirements

109-110 credits

1. Integrated Core (20 credits): minimum 2.00 cumulative GPA with no grade below 1.7 in SPH 380, SPH 381, SPH 480, SPH 481

2. Public Health Foundation (8-9 credits): statistics (4-5 credits) from BIOST 310 (preferred), Q METH 201, STAT 220, STAT 221, STAT 311, or Q SCI 381; epidemiology (4 credits), EPI 320

3. Diversity Seminar (1 credit): SPH 489

4. Social and Behavioral Sciences Breadth (25 credits): one 5-credit course from each of the following departments: Anthropology (ANTH only), Geography (GEOG), Political Science (POL S), Psychology (PSYCH), and Sociology (SOC); minimum 20 credits at the 200 level or above

5. Natural Science (10 credits): 5 credits from BIOL 118, BIOL 180, MICROM 301/MICROM 302; 5 credits from CHEM 120, CHEM 142, CHEM 145

6. Bachelor of Arts (BA) Selectives (20 credits): Courses identified to address competency areas in advocacy, community dynamics, communication, economics, education, ethics, health promotion, law, policy, social justice, and writing. See website or adviser for approved list. Any course not on the list must be approved by the public health adviser.

7. Public Health Electives (20 credits): 300- and 400-level courses to build competency areas in public health. See website or adviser for approved list. Any course not on the list must be approved by the public health adviser.

8. Public Health Capstone (5 credits): minimum 2.0 grade in each of SPH 491 and SPH 492 (minimum 2.0 grade)

9. Minimum 2.00 cumulative GPA for courses applied to the major

In addition to the major requirements shown above, students must complete the general education requirements for the School of Public Health.

Bachelor of Arts Major Requirements (Education and Promotion Option)

109-110 credits
1. HSERV 100 – Required for admission. (Counts toward the 20-credit selectives requirement shown in 7, below.)

2. Integrated Core (20 credits): minimum 2.00 cumulative GPA with no grade below 1.7 in SPH 380, SPH 381, SPH 480, SPH 481

3. Public Health Foundation (8-9 credits): statistics (4-5 credits) from BIOST 310 (preferred), Q METH 201, STAT 220, STAT 221, STAT 311, or Q SCI 381; epidemiology (4 credits), EPI 320

4. Diversity Seminar (1 credit): SPH 489

5. Social and Behavioral Sciences Breadth (25 credits): one 5-credit course from each of the following departments: Anthropology (ANTH only), Geography (GEOG), Political Science (POL S), Psychology (PSYCH), and Sociology (SOC); minimum 20 credits at the 200 level or above

6. Natural Science (10 credits): 5 credits from BIOL 118, BIOL 180, MICROM 301/MICROM 302; 5 credits from CHEM 120, CHEM 142, CHEM 145

7. Bachelor of Arts (BA) Selectives (20 credits): Courses identified to address competency areas in advocacy, community dynamics, communication, economics, education, ethics, health promotion, law, policy, social justice, and writing, including HSERV 100, HSERV 204. See website or adviser for approved list. Any course not on the list must be approved by the public health adviser.

8. Public Health Electives (20 credits): 300- and 400-level courses to build competency areas in public health, including HSERV 344, HSERV 345, HSERV 346, and SPH 495 PH internship. See website or adviser for approved list. Any course not on the list must be approved by the public health adviser.

9. Public Health Capstone (5 credits): minimum 2.0 grade in each of SPH 491 and SPH 492

10. Minimum 2.00 cumulative GPA for courses applied to the major.

In addition to the major requirements shown above, students must complete the general education requirements for the School of Public Health.

Bachelor of Science Major Requirements

119-130 credits

1. Integrated Core (20 credits): minimum 2.00 cumulative GPA with no grade below 1.7 in SPH 380, SPH 381, SPH 480, SPH 481

2. Public Health Foundation (8-9 credits): statistics (4-5 credits) from BIOST 310 (preferred), Q METH 201, STAT 220, STAT 221, STAT 311, or Q SCI 381; epidemiology (4 credits), EPI 320

3. Diversity Seminar (1 credit): SPH 489

4. Social and Behavioral Sciences Breadth (25 credits): one 5-credit course from each of the following departments: Anthropology (ANTH only), Geography (GEOG), Political
Science (POL S), Psychology (PSYCH), and Sociology (SOC); minimum 20 credits at the 200 level or above

5. **Natural Science (10 credits):** 5 credits from BIOL 118, BIOL 180, MICROM 301/MICROM 302; 5 credits from CHEM 120, CHEM 142, CHEM 145

6. **Bachelor of Science (BS) Selectives (40 credits):** Students taking BIOL 180 and CHEM 142 may count these two courses toward both the Natural Science and the BS Selectives: Two year-long sequences of introductory science, with laboratories: biology (BIOL 180, BIOL 200, BIOL 220); chemistry (CHEM 142, CHEM 152, CHEM 162); remaining credits chosen from biochemistry (BIOC 405, BIOC 406), organic chemistry (CHEM 237, CHEM 238, CHEM 239, CHEM 241 CHEM 242, or CHEM 223, CHEM 224); physics (PHYS 114/PHYS 117, PHYS 115/PHYS 118, PHYS 116/PHYS 119, or PHYS 121, PHYS 122, PHYS 123); or mathematics (MATH 124, MATH 125, MATH 126)

7. **Public Health Electives (20 credits):** 300- and 400-level courses to build competency areas in public health. See website or adviser for approved list. Any course not on the list must be approved by the public health adviser.

8. **Public Health Capstone (5 credits):** Minimum 2.0 grade in SPH 491 and SPH 492

9. Minimum 2.00 cumulative GPA for courses applied to the major

In addition to the major requirements shown above, students must complete the general education requirements for the school of Public Health.

**Bachelor of Science Major Requirements (Nutritional Sciences Option)**

119-130 credits

1. **NUTR 200:** Required for admission, but not counted toward the minimum 119-130 major credits required

2. **Integrated Core (20 credits):** minimum 2.00 cumulative GPA with no grade below 1.7 in SPH 380, SPH 381, SPH 480, SPH 481

3. **Public Health Foundation (8-9 credits):** statistics (4-5 credits) from BIOST 310 (preferred), Q METH 201, STAT 220, STAT 221, STAT 311, or Q SCI 381; epidemiology (4 credits), EPI 320

4. **Diversity Seminar (1 credit):** SPH 489

5. **Social and Behavioral Sciences Breadth (25 credits):** one 5-credit course from each of the following departments: Anthropology (ANTH only), Geography (GEOG), Political Science (POL S), Psychology (PSYCH), and Sociology (SOC); minimum 20 credits at the 200 level or above

6. **Natural Science (10 credits):** 5 credits from BIOL 118, BIOL 180, MICROM 301/MICROM 302; 5 credits from CHEM 120, CHEM 142, CHEM 145

7. **Bachelor of Science (BS) Selectives (40 credits):** Students taking BIOL 180 and CHEM 142 may count these two courses toward both the Natural Science and the BS Selectives: Two year-long sequences of introductory science with laboratories: biology (BIOL 180,
BIOL 200, BIOL 220 and chemistry (CHEM 142, CHEM 152, CHEM 162). Remaining credits chosen from biochemistry (BIOC 405, BIOC 406); organic chemistry (CHEM 237, CHEM 238, CHEM 239, CHEM 241, CHEM 242, or CHEM 223, CHEM 224)

8. *Public Health Electives (20 credits):* At least 9 credits from NUTR 310, NUTR 405, NUTR 406, NUTR 411, NUTR 420 or NUTR 446; balance of 15 credits from NUTR 302, NUTR 303, NUTR 400 (max. 2), NUTR 412 or NUTR 465; and remaining 5 credits, if necessary, of 300- and 400-level courses from approved list

9. *Public Health Capstone (5 credits):* Minimum 2.0 grade in SPH 491 and SPH 492

10. Minimum 2.00 cumulative GPA for courses applied to the major

In addition to the major requirements shown above, students must complete the general education requirements for the School of Public Health.

**Continuation Policy**

All students must make satisfactory academic progress in the major. Failure to do so results in probation, which can lead to dismissal from the major. For the complete continuation policy, contact the departmental adviser or refer to the department website.

**Student Outcomes and Opportunities**

- *Learning Objectives and Expected Outcomes:* Public Health is a school-wide liberal arts major, leading to a Bachelor of Arts or Bachelor of Science, which uses public health questions, concepts, and tools to teach critical thinking skills. Students learn to ask questions, challenge assumptions, and explore answers to promote the health and well-being of communities, locally, nationally, and globally. By integrating the diverse areas of public health, students are introduced to the determinants of health, emerging diseases, access to health care and modes of health-care delivery, the geography of health, and the effects of environment on health and disease. The major provides undergraduates with competencies in health, ethics and social justice, social science, natural science, policy and politics, and environment with particular emphasis on collaboration, communication, and critical thinking across these domains. An undergraduate degree in public health provides a grounding in science, values, passion, and commitment which is valuable for a range of career and educational options across multiple disciplines.

- *Instructional and Research Facilities:* The School of Public Health has five departments - Biostatistics, Environmental and Occupational Health Sciences, Epidemiology, Global Health, and Health Services -- as well as interdisciplinary programs such as the Public Health major, Maternal and Child Health, Nutritional Sciences, Pathobiology, and Public Health Genetics. The School has over 30 research centers, including Institute for Public Health Genetics, Northwest Center for Public Health Practice, Center for Public Health Nutrition, Institute for Health Metrics and Evaluation, and the Health Promotion Research Center. Administration and teaching are primarily in the Magnuson Health Sciences Center.
• **Honors Options Available:** With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.

• **Research, Internships, and Service Learning:** Majors are encouraged to engage in experiential learning. See adviser for details.

• **Department Scholarships:** See adviser for details.

• **Student Organizations/Associations:** Undergraduate Student Public Health Association (USPHA). Public Health Dawgs (PhDs).

### Graduate Program

The School of Public Health (SPH) offers graduate programs leading to the degrees of Master of Public Health (MPH), Master of Health Administration (MHA), Master of Science (MS), and Doctor of Philosophy (PhD). Admission requirements are described in the sections for each department.

**Master of Public Health Degree:** The MPH provides broad training in public health and is offered in all SPH departments. Students choose from areas including biostatistics; community-oriented public health practice; environmental and occupational health; epidemiology; Executive MPH program; health metrics and evaluation; health services; health systems and policy; global health (in Epidemiology or Global Health); leadership, policy, and management; maternal and child health (in Epidemiology or Health Services); nutritional sciences (with optional dietetics training); occupational and environmental medicine; public health genetics; or Peace Corps Master’s International. The Executive MPH, a three-year, part-time program, allows mid-career public health professionals to pursue the degree in community practice, environmental health, global health, health education, or maternal and child health while continuing their employment.

**Master of Health Administration Degree:** The MHA is offered either as a full-time, in-residence program or a part-time executive program that prepares students for careers in management, planning, and policy analysis. The curriculum integrates the knowledge, skills, and experience that encompass health services management, planning, and policy analysis. Students develop skills that enable them to better understand and manage change; analyze information and make decisions; and manage organizations and the people in them. The Executive MHA program, is a part-time program for mid-career health services professionals (including physicians and other experienced clinicians), who wish to continue their employment while pursuing the degree.

**Master of Science and Doctor of Philosophy Degrees:** The MS and PhD programs in the departments of Biostatistics, Environmental and Occupational Health Sciences, Epidemiology, and Health Services prepare students for academic or research careers. The MS and PhD in the Nutritional Sciences and the Pathobiology programs, and the PhD program in the Institute for Public Health Genetics are administered in the School of Public Health.

The MS programs in biostatistics, environmental health (general, occupational and environmental exposure sciences, and toxicology tracks), epidemiology (general, global, or clinical research tracks), health services (healthcare and population health), nutrition (with
optional dietetics training), pathobiology, and genetic epidemiology offer focused research training in specific disciplines. Graduates often assume positions as senior technical staff in laboratories or other organizations and as research project coordinators, or pursue further graduate training. In the PhD program more courses emphasize the concepts underlying methodological approaches rather than the ability to independently design a major research program.

The PhD programs in biostatistics (general or statistical genetics tracks), environmental and occupational health sciences (environmental and occupational hygiene and toxicology tracks), epidemiology, health services, nutritional sciences (with optional dietetics training), pathobiology, and public health genetics, train future academicians as highly qualified independent investigators and teachers, and as well-trained practitioners.

**Concurrent Degree Programs:** Enrollment in a concurrent degree program permits a student to proceed towards sequential completion of both degrees in a shortened period of time. Some options available are not formal concurrent programs, but the degrees listed can be pursued in parallel with the Global Health MPH. Most concurrent degrees begin with successful application to the other school, followed by an application to the MPH during the first year.

The SPH has concurrent degree programs with the Foster School of Business (MHA/MBA) and the Daniel J. Evans School of Public Affairs (MHA/MPA, MPH/MPA, MS/MPA). The School also offers concurrent degree programs with the Henry M. Jackson School of International Studies (MPH/MAIS), the Law School (MHA/JD, MPH/JD), Molecular and Cellular Biology (PhD/MS), and Anthropology (MPH/PhD). Concurrent degrees with other health sciences schools include Dentistry (MPH/MSD), Medicine (MHA/MD, MPH/MD, PhD/MD), Nursing (MPH/MN), and Social Work (MPH/MSW).

**Residency Programs:** SPH offers a residency in occupational and environmental medicine (MPH). Physicians may apply to any of the school's other graduate programs.

**Certificate and Graduate Certificate Programs:** Programs include basic or advanced clinical research methods (Epidemiology); emergency preparedness and response (Health Services); global health (Global Health); global health of women, adolescents, and children (Global Health); global injury and violence prevention (Global Health); health economics and outcomes research (with the School of Pharmacy); health management (Health Services); health policy (Health Services); HIV and STIs (Global Health); maternal and child health (Health Services); public health practice (Health Services Executive MPH program); public health genetics (Public Health Genetics) and statistical genetics (Biostatistics).

**Course Descriptions**

**SPH 380 History and Practice of Public Health (5)** *S. Mackenzie, S. Pak-Gorstein* Provides a historical overview of public health as a framework to understand organization of contemporary public health and key issues faced today. Offered: AW.
SPH 381 Science and Public Health (5)  M. Baker, D. Lehman, J. Lingappa  Provide an overview and introduction to the ways different scientific disciplines are used to address public health goals. Prerequisite: minimum grade of 1.7 in SPH 380; either BIOL 118, BIOL 180, CHEM 120, CHEM 142, CHEM 145, or both MICROM 301 and MICROM 302. Offered: WSp.

SPH 480 Research Methods in Public Health (5)  S. Glick, J. Slyker  Applies concepts and research methods to real public health problems. Prerequisite: EPI 320; minimum grade of 1.7 in SPH 381. Offered: AW.

SPH 481 Ethics, Social Justice, and Policy in Public Health (5)  S. Benki-Nugent, S. Farquhar  Integration of prior learning and consideration of public health decision from an ethics and justice perspective. Prerequisite: minimum grade of 1.7 in SPH 480. Offered: WSp.

SPH 489 Undoing Racism in Public Health (1)  DIV  Introduction to and exploration of institutional and structural racism in a public health context. Credit/no-credit only. Offered: AWSp.

SPH 490 Selected Topics in Public Health (1-5, max. 15)  In depth study of current public health topics. Offered: AWSpS.

SPH 491 Public Health Capstone I (2-)  Part one of integrative experience bringing together students' knowledge and skills acquired in the public health major. Prerequisite: SPH 380, SPH 381, or SPH 480. SPH 480 may be taken concurrently.

SPH 492 Public Health Capstone II (-3)  Part two of integrative experience bringing together students' knowledge and skills acquired in the public health major. Prerequisite: SPH 491.

SPH 493 Public Health Capstone (5)  Students complete a final self-directed paper on public health topic of interest integrating the knowledge and skills acquired during their time in the public health major. Offered: AWSpS.

SPH 494 Honors Seminar in Public Health (1, max. 5)  D. HINCHEY  Skill-building, discussion-based seminar designed to challenge ability to analyze issues in public health using topics raised in current media. Credit/no-credit only. Offered: AWSp.

SPH 495 Public Health Internship (1-5, max. 15)  D. HINCHEY  Internship in public health related area. Credit/no-credit only. Offered: AWSp.

SPH 497 Public Health Special Electives (1-5, max. 15)  Independent study of a current public health topic. Offered: AWSpS.

SPH 499 Undergraduate Research (1-5, max. 15)  Individual research on a specific topic in public health. Offered: AWSpS.

SPH 589 Undoing Racism in Public Health (1)  Introduction to and exploration of institutional and structural racism in a public health context. Credit/no-credit only. Offered: AWSp.
SPH 590 Selected Topics in Public Health (1-5, max. 15) In depth study of current public health topics.
Biostatistics

Department Overview

The department is a center for development and application of statistical methodology across the health sciences, and has collaborative partnerships with Fred Hutchinson Cancer Research Center, Seattle Children’s hospital Research Institute, Group Health Cooperative, and the Veterans’ Administration. To complement research, the department recently established the Center for Biomedical Statistics to provide consulting and collaborative services.

Graduate Program

Graduate Program Coordinator
H655 Health Sciences, Box 357232
206-543-1044
bioadmit@uw.edu

The department offers master of science, master of public health, and doctor of philosophy degrees in quantitative methods applied to the medical and biological sciences. As technological advances generate huge quantities of information, biostatistical tools and concepts are critical for the analysis of these data. Techniques and viewpoints of mathematics and statistics, traditionally peripheral to biology and medicine, are now woven into the life sciences, thereby providing new opportunities in research and teaching.

The biostatistics graduate program equips students to develop and apply the quantitative techniques of mathematics, statistics, and computing appropriate to medicine, biology, and other health-science disciplines.

The department produces graduates at all levels. Students are recruited from programs in mathematics, statistics, and biology and are selected on the basis of quantitative ability.

Master of Public Health

Combines broad training in public health with specific training in biostatistics. Includes core courses in biostatistics, environmental health, epidemiology, health services, and social and behavioral sciences. Successful candidates complete a public health practicum and write a research-based master's thesis. For individuals who anticipate careers as data analysts in public health research or practice and for individuals who plan doctoral work in public health or biomedical field, but who want more methodological training than those PhD programs offer.

Admission Requirements

Doctoral-level degree in another field (e.g., MD, PhD, JD) or currently working on such a doctoral degree. Candidates are not awarded the biostatistics-pathway MPH until they are
awarded their doctoral degree. All other prerequisites and required materials are the same for MS, MPH, and PhD applicants.

**Degree Requirements**

63 credits

1. **Biostatistics Core Courses:** BIOST 514, BIOST 515; BIOST 524; BIOST 536, BIOST 537; BIOST 580; BIOST 590. BIOST 514, BIOST 515, BIOST 524, BIOST 536, and BIOST 537 – all taken for a numerical grade, with a minimum 3.0 grade in each course.

2. **Non-biostatistics Core Courses:** EPI 512, EPI 513; HSERV 510, HSERV 511; ENV H 511; G H 515. All non-biostatistics core courses taken for a numerical grade, with a minimum 2.7 grade in each non-biostatistics core course and a minimum 3.00 cumulative GPA.

3. **Biostatistics Elective Courses:** 6 credits of any approved biostatistics MS elective, or STAT 512 or STAT 513

4. **Biostatistics MPH Practicum:** BIOST 595 (3). Three credits in an organization or agency that provides planning or services relevant to public health.

5. **Master’s Thesis:** 9 credits of BIOST 700.

See [department website](#) for further information on degree requirements.

**Master of Science**

Offers advanced training in biostatistics. Includes coursework in biostatistics, statistics, and one or more biomedical fields. Successful candidates pass a master's theory examination and write a research-based master's thesis. For individuals who anticipate a career as a data analyst in public health or biomedical research or practice and for individuals who plan doctoral work in a public health or biomedical field, but want more methodological training than those PhD programs offer.

**Admission Requirements**

1. 30 or more quarter credits in mathematics and statistics, to include two years of calculus (including multivariate calculus), one course in linear algebra, and one course in probability theory.

2. Students may apply from an undergraduate major in mathematics, statistics, or a biological field, or are occasionally admitted with backgrounds in other fields.

Potential MS students may enter the graduate program in biostatistics from an undergraduate major in mathematics, statistics, or a biological field. Students are occasionally admitted with backgrounds in other fields; however, all applicants must have 30 or more quarter credits in mathematics and statistics to include two years of calculus (including multivariate calculus), one course in linear algebra, and one course in probability theory.
Degree Requirements

63 credits

1. **Required Courses:** BIOST 514, BIOST 515, BIOST 536, BIOST 537, BIOST 580, BIOST 590, STAT 512, STAT 513. Minimum 3.0 grade in each required course (except BIOST 580 and BIOST 590). Required courses may be waived based on prior coursework; the minimum 3.0 grade requirement may be waived when subsequent performance on a relevant qualifying examination is excellent.

2. **Elective Credits:** 12 elective credits, including minimum 6 credits with a methodology emphasis, and 6 credits with a biology or public health emphasis (See department for elective-credit lists.)

3. **Examinations:** Students who enroll in STAT 512 and STAT 513 must take the MS theory examination the following summer, and if failed, must pass it the following year.

4. **Master's Thesis:** BIOST 700 (18 credits). Waived for students who have passed all PhD qualifying examinations at a level appropriate for PhD students. If BIOST 700, BIOST 536, and BIOST 537 are waived, the student must take and pass all required coursework for the PhD degree, including BIOST 533, BIOST 570, STAT 581, STAT 582, STAT 583 and, depending on the pathway, BIOST 571 and BIOST 572, or BIOST 550, BIOST 551, and BIOST 552.

See [department website](#) for further information on degree requirements.

Doctor of Philosophy

Includes coursework in biostatistics, statistics, and one or more public health or biomedical fields. Successful candidates must pass PhD applied and theory examinations, complete a biology project, and write a dissertation that reports the results of new biostatistical research undertaken by the candidate.

Admission Requirements

1. 30 or more quarter credits in mathematics and statistics, to include two years of calculus (including multivariate calculus), one course in linear algebra, and one course in probability theory.

2. Students apply from programs in mathematics, statistics, or a biological field, or are occasionally admitted with backgrounds in other fields.

Degree Requirements

Minimum 103 credits
Standard Pathway

1. **Required Courses:** BIOST 514; BIOST 515; BIOST 533; BIOST 570; BIOST 571; BIOST 572; BIOST 580, BIOST 590, BIOST 800; MATH 576, or equivalent; STAT 512, STAT 513; STAT 581, STAT 582, STAT 583

2. Minimum 3.0 grade in each required course (except BIOST 580, BIOST 590, or BIOST 800). A placement examination may be taken to waive STAT 512 and STAT 513. Required courses may be waived based on prior coursework; minimum 3.0 grade may be waived when subsequent performance on a relevant qualifying examination is excellent.

3. **Electives (15 credits):** Minimum 6 credits with a methodology emphasis and 9 credits with a biology or public health emphasis. Minimum 2.7 grade for elective courses. See department for elective-credit lists.

4. **Examinations:** A PhD student who enrolls in STAT 512 and STAT 513 takes the MS theory examination the following summer; the PhD statistical theory examination within two years following first-time completion of STAT 581, STAT 582, STAT 583; the PhD applied examination within two years of first-time completion of BIOST 570; and general and final examinations.

5. **Teaching Assistant:** Serve as a TA for at least one quarter.

Statistical Genetics Pathway

1. **Prerequisites:** GENOME 371 (or equivalent); GENOME 372, GENOME 453, or GENOME 465 (or equivalent)

2. **Required Courses:** BIOST 514, BIOST 515, BIOST 533, BIOST 550, BIOST 551, BIOST 552, BIOST 570, BIOST 581, BIOST 590, BIOST 800; STAT 512, STAT 513, STAT 581, STAT 582, STAT 583; MATH 576 (or equivalent); GENOME 540 or GENOME 541; GENOME 562

3. Minimum 3.0 grade in each required course (except BIOST 581, BIOST 590, or BIOST 800). A placement examination may be taken to waive STAT 512 and STAT 513. Required courses may be waived based on prior coursework; minimum 3.0 grade in selected courses may be waived when subsequent performance on a relevant qualifying examination is excellent.

4. **Elective Credits:** at least 4 credits of elective courses with a methodology emphasis. Minimum 2.7 grade. See department for elective course list

5. **Examinations:** A PhD student who enrolls in STAT 512 and STAT 513 takes the MS theory examination the following summer; the PhD statistical theory examination within two years following first-time completion of STAT 581, STAT 582, STAT 583; the PhD applied examination within two years of first-time completion of BIOST 570; and general and final examinations.

6. **Teaching Assistant:** Serve as a TA for at least one quarter.

See the [department website](#) for further information on degree requirements.
Course Descriptions

BIOST 111 Lectures in Applied Statistics (1) NW 
Weekly lectures illustrating the importance of statisticians in a variety of fields, including medicine and the biological, physical, and social sciences. Credit/no-credit only. Offered: jointly with STAT 111; Sp.

BIOST 290 Introduction to Biomedical Research: Study Design and Interpretation (3) NW 
Introduces biostatistical concepts necessary for the interpretation, evaluation, and communication of biomedical research. Includes biomedical study design, randomization, graphical data displays, control bias, variability, confounding, interaction, and ethics of human experimentation. Students participate in group and individual projects, group discussions, and oral presentations.

BIOST 302 Forensic Genetics (3) I&S/NW, QSR B. WEIR 
Introduces the field of forensic genetics through discussion of genetic and statistical issues emerging since the introduction of DNA profiling. Students develop the skills to interpret the evidence of matching genetic profiles; to perform calculations relevant for parentage determination; the identification of remains; and to consider the implications of familial searching of DNA databases. Prerequisite: either BIOST 310, STAT 220, STAT 221/CS&SS 221/SOC 221, STAT 311, Q SCI 381, or Q METH 201. Offered: jointly with PHG 302; W.

BIOST 310 Biostatistics for the Health Sciences (4) QSR Hughes 
Introduction to statistical methods for students planning on majoring in health sciences. Uses case studies and examples from popular and scientific literature to introduce topics such as data description, study design, screening, estimation hypothesis testing, categorical data analysis, and regression. Emphasizes concepts and interpretation rather than computation or theory. Offered: AWSp.

BIOST 311 Regression Methods in the Health Sciences (4) QSR 
Introduces regression methods for analysis of continuous, binary, and time-to-event (survival) data. Covers linear regression; logistic regression; and proportional hazards regression, all at an introductory level. Makes use of examples drawn from the biomedical and health sciences literature. Prerequisite: BIOST 310.

BIOST 405 Introduction to Health Data Analytics (3) 
Covers the process of and tools used in evaluating data using analytical and logical reasoning to examine each component of the health data. Offered: jointly with HIHIM 405.

BIOST 406 Research Design and Statistics for HIHIM (3) 
Explores healthcare and research statistics. Addresses hospital statistics, used to calculate usage levels of healthcare resources and outcomes of clinical operations, and research statistics, used to summarize and describe significant characteristics of a data set, and to make inferences about a population based on data collected from a sample. In addition, principles of research are described, including the Institutional Review Board process. Offered: jointly with HIHIM 425/STAT 406.

BIOST 425 Introduction to Nonparametric Statistics (3) NW 
Overview of nonparametric methods, such as rank tests, goodness of fit tests, 2 x 2 tables, nonparametric estimation. Useful
for students with only a statistical methods course background. Prerequisite: STAT 390/MATH 390. Offered: jointly with STAT 425.

BIOST 499 Undergraduate Research (1-10, max. 30) Supervised reading programs; library and field research; special projects.

BIOST 502 Introduction to Statistics in Health Sciences (4) Description and examples of common concepts in biostatistics. Probability, point and confidence interval estimation, hypothesis testing including two-sample and paired t and chi-square tests, introduction to simple linear regression. Emphasizes applications in health sciences. Offered: W.

BIOST 503 Application of Statistics to Health Sciences ([0-3]-, max. 3) Standard statistical techniques presented with examples drawn from the health sciences literature. Critical interpretation of research results, and introduction to the computer for data processing and statistical analysis. Prerequisite: BIOST 502 or equivalent. Offered: Sp.

BIOST 508 Biostatistical Reasoning for the Health Sciences (4) Provides a broad overview of biostatistical methods. Students are introduced to the data summaries and presentation, statistical inference (including hypothesis testing, p-values, and confidence intervals), sample size calculation, and modeling approaches such as linear regression analysis. Includes hands-on data analysis. Prerequisite: EPI 511 or instructor's permission. Offered: W.

BIOST 509 Introduction to R for Data Analysis in the Health Sciences (2) Introduction to R for data analysis. Covers installing R; scripts; reading in data and writing output; using help files; using functions; writing functions; graphics; R packages; data manipulation; loops; permutation tests; bootstrapping; and fitting models. Prerequisite: upper-division course in statistics or permission of instructor.

BIOST 510 Biostatistics in Dentistry (3) Introduction to concepts and methods of descriptive and inferential statistics with applications in dentistry emphasized. Topics include comparison of means and proportions, hypothesis testing, confidence intervals, non-parametric methods, linear regression, and correlation. Prerequisite: enrollment in School of Dentistry or permission of instructor. Instructors: Spiekerman Offered: jointly with OHS 568; S.

BIOST 511 Medical Biometry I (4) Presents the principles and methods of data description and elementary parametric and nonparametric statistical analysis. Examples from the biomedical literature, and real data sets are analyzed by the students after a brief introduction to the use of standard statistical computer packages. Statistical techniques covered include description of samples, comparison of two sample means and proportions, simple linear regression and correlation. Offered: A.

BIOST 512 Medical Biometry II (4) Multiple regression, analysis of covariance, and an introduction to one-way and two-way analyses of variance: including assumptions, transformations, outlier detection, dummy variables, and variable selection procedures. Examples drawn from the biomedical literature with computer assignments using standard
statistical computer packages. Prerequisite: either BIOST 511 or BIOST 517, or equivalent. Offered: W.

BIOST 513 Medical Biometry III (4) Analysis of categorical data including two sample methods, sets of 2 x 2 tables, R x C tables, and logistic regression. Classification and discrimination techniques. Survival analysis including product limit estimates and the Cox proportional hazards model. Prerequisite: BIOST 512 or permission of instructor. Offered: Sp.

BIOST 514 Biostatistics I (4) Presentation of principles and methods of data description; graphics; point, confidence interval estimation; hypothesis testing; relative risk; odds ratio; Mantel-Haenszel; chi-square test. Examples drawn from biomedical literature; real-data sets analyzed using statistical computer packages. Prerequisite: biostatistics majors or permission of instructor. Offered: A.

BIOST 515 Biostatistics II (4) Introduction to linear models; multiple regression, correlation; residual analysis; dummy variables; analysis of covariance; one-, two-way analysis of variance; randomized blocks; fixed, random effects (repeated measure, factorial designs); multiple comparisons. Real biomedical data sets analyzed. Prerequisite: BIOST 514, biostatistics major, or permission of instructor. Offered: W.

BIOST 516 Statistical Methods in Genetic Epidemiology (3) Theory and application of statistical techniques used in genetic epidemiology. Includes discussion of association studies, linkages and segregation analyses. Examples stressed with reference to assumptions and limitations. Prerequisite: either BIOST 513 or BIOST 518; PHG 511/EPI 517; or permission of instructor. Offered: jointly with EPI 535/PHG 519.

BIOST 517 Applied Biostatistics I (4) Introduction to the analysis of biomedical data. Descriptive and inferential statistical analysis for discrete, continuous, and right-censored random variables. Analytic methods based on elementary parametric and non-parametric models for one sample; two sample (independent and paired), stratified sample, and simple regression problems. Offered: A.

BIOST 518 Applied Biostatistics II (4) Multiple regression for continuous, discrete, and right-censored response variables, including dummy variables, transformations, and interactions. Introduction to regression with correlated outcome data. Model and case diagnostics. Computer assignments using real data and standard statistical computer packages. Prerequisite: BIOST 517 or permission of instructor. Offered: W.

BIOST 519 Advanced Epidemiologic Methods I (3) B. Guthrie First in a series of 2 courses. Increases knowledge of epidemiological principles by introducing methodological approaches to handling common problems in epidemiologic research that extend beyond the scope of traditional methods. Prerequisite: EPI 514; and either BIOST 513, or BIOST 518. Offered: jointly with EPI 515.

BIOST 520 Advanced Epidemiologic Methods II (4) B. GUTHRIE Second of a series of 2 courses whose objective is to deepen students' knowledge of epidemiological principles by
introducing methodological approaches to handling common problems in epidemiologic research that extend beyond the scope of traditional methods. Prerequisite: EPI 515. Offered: jointly with EPI 516.

BIOST 522 Statistical Inference for Biometry I (4) This is the first in a two-course sequence that introduces the theory of statistical inference that provides foundations to common biostatistical methods. Topics of the sequence include basic concepts of probability, parametric distributions, exact and asymptotic sampling distribution of statistics, maximum likelihood estimation, unbiased estimating equations, theory of hypothesis testing and Bayesian inference. Prerequisite: either STAT 395, STAT 421, STAT 423, STAT 504 or BIOST 514 (can be taken concurrently) Offered: A.

BIOST 523 Statistical Inference for Biometry II (4) This is the second in a two-course sequence that introduces the theory of statistical inference that provides foundations to common biostatistical methods. Topics of the sequence include basic concepts of probability, parametric distributions, exact and asymptotic sampling distribution of statistics, maximum likelihood estimation, unbiased estimating equations, theory of hypothesis testing and Bayesian inference. Prerequisite: BIOST 522 or permission of instructor Offered: W.

BIOST 524 Design of Medical Studies (3) Design of medical studies, with emphasis on randomized controlled clinical trials. Bias elimination, controls, treatment assignment and randomization, precision, replication, power and sample size calculations, stratification, and ethics. Suitable for graduate students in biostatistics and for research-oriented graduate students in other scientific fields. Prerequisite: BIOST 511 or equivalent, and one of BIOST 513, BIOST 518, STAT 421, STAT 423, STAT 512, or EPI 512; or permission of instructor. Offered: jointly with STAT 524; Sp.

BIOST 525 Advanced Methods for Global Health III (4) R. Reiner, B. Wagenaar Introduces advanced methods for quantitative evaluation approaches in global health. Topics include process evaluations, global health data systems, selecting appropriate study designs, cluster randomized trials/extensions of common randomized designs, and quasi-experimental designs such as difference-in-differences, interrupted time-series, and regression discontinuity. Prerequisite: EPI 512 and EPI 513; BIOST 517 and BIOST 518 (or equivalent statistics courses) Offered: jointly with EPI 556/G H 537; Sp.

BIOST 526 Bayesian Biostatistics (3) Introduction to Bayesian methods for data analysis; Bayesian reasoning, prior elicitation, inference and decision making, and computation applied to biomedical research. Prerequisite: any course in statistics at the 400-level or higher or instructor's permission. Offered: jointly with EPI 540/PHARM 526; Sp.

BIOST 527 Nonparametric Regression and Classification (3) Covers techniques for smoothing and classification including spline models, kernel methods, generalized additive models, and the averaging of multiple models. Describes measures of predictive performance, along with methods for balancing bias and variance. Prerequisite: either STAT 502 and STAT 504 or BIOST 514 and BIOST 515. Instructors: Minin, Raftery, Richardson, Wakefield Offered: jointly with STAT 527; Sp.
BIOST 529 Sample Survey Techniques (3) Design and implementation of selection and estimation procedures. Emphasis on human populations. Simple, stratified, and cluster sampling; multistage and two-phase procedures; optimal allocation of resources; estimation theory; replicated designs; variance estimation; national samples and census materials. Prerequisite: either STAT 421, STAT 423, STAT 504, QMETH 500, BIOST 511, or BIOST 517, or equivalent; or permission of instructor. Offered: jointly with CS&SS 529/STAT 529.

BIOST 531 Statistical Methods for Analysis with Missing Data (3) Chan Covers statistical methods for the analysis of missing data, including likelihood-based, weighted GEE, multiple imputation, and Bayesian approaches. Uses computational tools such as EM algorithm and Gibbs' sampler. Covers both ignorable and non-ignorable missing-data mechanisms as well as cross-sectional and longitudinal study designs. Primarily uses data arising from epidemiologic studies. Offered: jointly with EPI 531.

BIOST 532 Research Ethics in the Data Sciences (2) E. Sheppard Exposes students to ethical issues in the conduct of biomedical research, particularly the computation, interpretation, and communication of statistics. Provides the knowledge and resources needed to practice statistics ethically in this domain. Helps students formulate justified responses to ethical challenges, and nurtures a sense of professional responsibility to take action. Credit/no-credit only. Offered: Sp, even years.

BIOST 533 Theory of Linear Models (3) Examines model structure; least squares estimation; Gauss-Markov theorem; central limit theorems for linear regression; weighted and generalized least squares; fixed and random effects; analysis of variance; blocking and stratification; and applications in experimental design. Prerequisite: STAT 421 or STAT 423 or BIOST 515; and STAT 513; and a course in matrix algebra. Offered: jointly with STAT 533; Sp.

BIOST 534 Statistical Computing (3) Introduction to scientific computing. Includes programming tools, modern programming methodologies, (modularization, object oriented design), design of data structures and algorithms, numerical computing and graphics. Uses C++ for several substantial scientific programming projects. Prerequisite: experience with programming in a high level language. Offered: jointly with STAT 534; Sp.

BIOST 536 Categorical Data Analysis in Epidemiology (4) Summary of univariate categorical data analysis; introduction to multivariate analysis of categorical epidemiologic and health sciences data using multiplicative models. Experience at interpretation; familiarity with available software programs gained by analysis of bona fide data and critiques of published analyses appearing in literature. Prerequisite: BIOST 515; EPI 513 and either BIOST 513 or BIOST 518; or permission of instructor. Offered: jointly with EPI 536; A.

BIOST 537 Survival Data Analysis in Epidemiology (4) Introduction to multivariate analysis of survival data using multiplicative models. Application to epidemiologic and health sciences studies. Familiarity with interpretation and available software programs gained by analysis of bona fide sets of data and critiques of published analyses appearing in the literature. Prerequisite: BIOST 536 or EPI 536. Offered: jointly with EPI 537; W.
BIOST 540 Longitudinal and Multilevel Data Analysis (3) Introduction to regression modeling of longitudinal and clustered data from epidemiology and health sciences. Interpretation and familiarity with software gained by analysis of data and critiques of published analyses. Prerequisite: either BIOST 513, BIOST 515, BIOST 518, BIOST 536, or permission of instructor. Offered: Sp.

BIOST 544 Introduction to Biomedical Data Science (4) Provides an introduction to biomedical data science with an emphasis on statistical perspectives, inducing the process of collecting, organizing, and integrating information toward extracting knowledge from data in public health, biology, and medicine. Prerequisite: either BIOST 511 or equivalent; either BIOST 509 or equivalent; or permission of instructor.

BIOST 545 Biostatistical Methods for Big Omics Data (3) This "hands-on" course introduces statistical methods for high-dimensional omics data, as well as the R programming language and the Bioconductor project as tools to extract, query, integrate, visualize, and analyze real world omics data sets. Prerequisite: BIOST 512, 514, or 517. Offered: jointly with GENOME 545/PHG 545.

BIOST 546 Machine Learning for Biomedical and Public Health Big Data (3) Provides an introduction to statistical learning for biomedical and public health data. Intended for graduate students in SPH/SOM. Prerequisite: BIOST 511 or BIOST 512 and familiarity with R. Offered: Sp.

BIOST 551 Statistical Genetics II: Quantitative Traits (3) Statistical basis for describing variation in quantitative traits. Decomposition of trait variation into components representing genes, environment and gene-environment interaction. Methods of mapping and characterizing quantitative trait loci. Prerequisite: STAT/BIOST 550; STAT 423 or BIOST 515; or permission of instructor. Offered: jointly with STAT 551; A.

BIOST 552 Statistical Genetics III: Design and Analysis (3) Overview of probability models, inheritance models, penetrance. Association and linkage. The lod score method. Affected sib method. Fitting complex inheritance models. Design mapping studies; multipoint, disequilibrium, and fine-scale mapping. Ascertainment. Prerequisite: STAT/BIOST 551; GENOME 371; or permission of instructor. Offered: jointly with STAT 552; W.

BIOST 555 Statistical Methods for Spatial Epidemiology (3) Motivates the need for, and describes methods for the analysis of spatially indexed epidemiological data. Covers four major topics: clustering and cluster detection, disease mapping, spatial regression, and an introduction to geographical information systems. Considers both point-references and spatially aggregated data. Offered: jointly with EPI 555/G H 534.
BIOST 556 Introduction to Statistics and Probability (5) Overview of probability; conditional probability and independence; Bayes Theorem; discrete and continuous random variables including jointly distributed; key distributions including the normal and its spin offs; properties of expectation and variance; conditional expectation; covariance and correlation; Central Limit Theorem; law of large numbers; Parameter Estimation. Offered: jointly with DATA 556/STAT 556; A.

BIOST 557 Applied Statistics and Experimental Design (5) Inferential statistical methods for discrete and continuous random variables including tests for difference in means and proportions; linear and logistic regression; causation versus correlation; confounding; resampling methods; study design. Prerequisite: STAT/BIOST/DATA 556 or instructor's permission. Offered: jointly with DATA 557/STAT 557; W.

BIOST 558 Statistical Machine Learning for Data Scientists (5) Bias-variance trade-off; training versus test error; overfitting; cross-validation; subset selection methods; regularized approaches for linear/logistic regression: ridge and lasso; non-parametric regression: trees, bagging, random forests; local regression and splines; generalized additive models; support vector machines; k-means and hierarchical clustering; principal components analysis. Prerequisite: STAT/BIOST/DATA 557, or permission of instructor. Offered: jointly with DATA 558/STAT 558; Sp.

BIOST 561 Computational Skills for Biostatistics I (1) Provides an introduction to statistical computing with R. Emphasizes good programming techniques useful in statistical analysis. Prerequisite: biostatistics and statistics graduate student. Credit/no-credit only. Offered: A.

BIOST 562 Computational Skills for Biostatistics II (1) Provides an introduction to statistical computing with R. Emphasizes good programming techniques useful in statistical analysis. Prerequisite: either BIOST 561 or permission of instructor. Credit/no-credit only. Offered: W.

BIOST 563 Computing and Research (2) Provides an introduction to statistical computing with R. Emphasizes good programming techniques useful in statistical analysis. Prerequisite: either BIOST 562 or permission of instructor. Credit/no-credit only. Offered: S.

BIOST 565 Statistical Evaluation of Biomarkers (3) Covers evaluation of biomarkers for diagnosis; decision-theoretic assessment tools; measures of the incremental value of a new biomarker; evaluation of risk prediction models; evaluation of biomarkers for prognosis or for guiding therapy; statistical learning for developing a diagnostic/prognostic score; and clinical trial designs for biomarker guided decisions. Prerequisite: BIOST 515; either BIOST 518 or both BIOST 512 and BIOST 513; or equivalent.

BIOST 570 Advanced Regression Methods for Independent Data (3) Covers linear models, generalized linear and non-linear regression, and models. Includes interpretation of parameters, including collapsibility and non-collapsibility, estimating equations; likelihood; sandwich estimations; the bootstrap; Bayesian inference: prior specification, hypothesis testing, and computation; comparison of approaches; and diagnostics. Prerequisite: STAT 512 and STAT
513; BIOST/STAT 533 or STAT 421/STAT 502 and STAT 423/STAT 504; a course in matrix algebra. Offered: jointly with STAT 570; A.

**BIOST 571 Advanced Regression Methods for Dependent Data (3)** Covers longitudinal data models, generalized linear and non-linear mixed models; marginal versus conditional models; generalized estimating equations, likelihood-based inference, REML, BLUP, and computation of integrals; Bayesian inference: Markov chain Monte Carlo; covariance models, including models for split plot designs; comparison of approaches; and diagnostics. Prerequisite: BIOST570/STAT 570. Offered: jointly with STAT 571; W.

**BIOST 572 Advanced Regression Methods: Project (3)** Student presentations and discussion on selected methodological research articles focusing on regression modeling. Prerequisite: STAT 571. Offered: jointly with STAT 572; Sp.

**BIOST 576 Statistical Methods for Survival Data (3)** Statistical methods for censored survival data arising from follow-up studies on human or animal populations. Parametric and nonparametric methods, Kaplan-Meier survival curve estimator, comparison of survival curves, log-rank test, regression models including the Cox proportional hazards model, competing risks. Prerequisite: STAT 581 and either BIOST 515, STAT 473, or equivalent. Offered: jointly with STAT 576.

**BIOST 578 Special Topics in Advanced Biostatistics (*, max. 30)** Advanced-level topics in biostatistics offered by regular and visiting faculty. Prerequisite: permission of instructor. Offered: jointly with STAT 578; AWSpS.

**BIOST 579 Data Analysis and Reporting (2, max. 8)** Analysis of real data to answer scientific questions. Common data-analytic problems. Sensible approaches to complex data. Graphical and tabular presentation of results. Writing reports for scientific journals, research collaborators, consulting clients. Graduate standing in statistics or biostatistics. Offered: jointly with STAT 579; SpS.

**BIOST 580 Seminar in Biostatistics (*, max. 30)** Presentation and discussion of special topics and research results in biostatistics. Speakers include resident faculty, visiting scientists, and advanced graduate students. Offered: AWSp.

**BIOST 581 Statistical Genetics Seminar (1, max. 30)** Presentations and discussion of special topics and research results in statistical genetics. Students, postdocs, and faculty present their work and papers from the literature. Credit/no-credit only. Offered: AWSp.

**BIOST 582 Student Seminar (1, max. 30)** Student seminar series for collaboration, exchange of ideas, and exposure to different stages of performing independent research. Encourages both students and faculty to give presentations including RA work, extended class projects, master's theses, dissertation progress, data analysis, practice talks, and journal articles. Credit/no-credit only. Offered: AWSp.
BIOST 588 Special Topics in Biostatistical Practice (1-10, max. 30) Selected topics in biostatistical practice.

BIOST 590 Biostatistical Consulting (3, max. 6) Training in consulting on the biostatistical aspect of research problems arising in the biomedical field. Students, under the supervision of a faculty member, participate in discussions with investigators leading to the design and/or the analysis of a quantitative investigation of a problem. With experience, independent associations of student and research worker are encouraged, with subsequent review by faculty of resulting design and analysis. Prerequisite: permission of instructor. Offered: AWSpS.

BIOST 595 Biostatistics Master's Practicum (1-12, max. 12) Supervised practice experience providing students an opportunity to learn how biostatistics is applied in a public health setting and in the formation of public health policy. Prerequisite: BIOST 514; BIOST 515; BIOST 536; BIOST 537.

BIOST 598 Techniques of Statistical Consulting (1) Seminar series covering technical and non-technical aspects of statistical consulting, including skills for effective communication with clients, report writing, statistical tips and rules of thumb, issues in survey sampling, and issues in working as a statistical consultant in academic, industrial, and private-practice settings. Prerequisite: entry code. Offered: jointly with STAT 598; ASp.

BIOST 600 Independent Study or Research (*) Offered: AWSpS.

BIOST 700 Master's Thesis (*) Offered: AWSpS.

BIOST 800 Doctoral Dissertation (*) Offered: AWSpS.
Environmental and Occupational Health Sciences

Department Overview

F461 Health Sciences

Environmental health focuses on identifying, evaluating, and controlling environmental conditions that may have an adverse impact on human health. Examples of problem areas requiring environmental health expertise are assuring adequate quality and quantity of food and drinking water, safe treatment and disposal of domestic and industrial waste materials, limiting or reducing air and noise pollution, limiting occupational exposure to hazardous substances and unsafe conditions, assuring safe and healthful housing, controlling the spread of insect- and rodent-borne illness, proper selection and use of pesticides, and understanding the effects of global changes in climate and the atmosphere on human health.

Undergraduate Program

Adviser
F461D Health Sciences, Box 357234
206-543-4207
ehug@uw.edu

The department offers the following programs of study:

- The Bachelor of Science degree with a major in environmental health
- A minor in environmental health

Bachelor of Science

*Suggested First- and Second-Year College Courses:* chemistry, organic chemistry, biology, calculus, statistics, English composition

Department Admission Requirements

1. Minimum requirements major. First- and second-year students complete early admission prerequisites (shown below). Third-year students complete upper-division admission prerequisites (shown below). Prospective students apply the quarter they plan to complete prerequisites for entry the following quarter.

2. Students are admitted all quarters. Applications, due the second Friday of each quarter, may be downloaded from the Environmental Health website at: deohs.washington.edu/undergraduate. Applicants who meet stated requirements are admitted in time to register the following quarter as majors.

3. Students should meet with an adviser before applying.
4. Transfer students may use transferable equivalent course(s) for prerequisite coursework.

Early Admission Prerequisites

1. Minimum cumulative 3.00 GPA, with a minimum 2.0 grade in each individual course below
2. 5 credits English composition
3. CHEM 142, CHEM 152
4. MATH 124 or Q SCI 291

Upper-Division Admission Prerequisites

1. Minimum cumulative 2.50 GPA, with a minimum 2.0 grade in each individual course below
2. 5 credits English composition
3. MATH 124 or Q SCI 291
4. BIOL 180, BIOL 200, BIOL 220
5. One of the following general and organic chemistry sequences
   a. CHEM 142, CHEM 152, CHEM 162, CHEM 237, CHEM 238, CHEM 241
   b. CHEM 142, CHEM 152, CHEM 223, CHEM 224, CHEM 241
   c. CHEM 142, CHEM 152, CHEM 220

Degree Requirements

180 credits

General Education Requirements

See School of Public Health requirements

Major Requirements

119-132 credits

1. Environmental Health Supporting Science (49-61 credits):
   a. Either MATH 124 or Q SCI 291 (5 credits)
   b. Either BIOST 310 (recommended), STAT 220, STAT 311, or Q SCI 381 (4-5 credits)
   c. BIOL 180, BIOL 200, BIOL 220 (15 credits)
d. One of the following general and organic chemistry sequences
   i. CHEM 142, CHEM 152, CHEM 162, CHEM 237, CHEM 238, CHEM 241 (26 credits)
   ii. CHEM 142, CHEM 152, CHEM 223, CHEM 224, CHEM 241 (21 credits)
   iii. CHEM 142, CHEM 152, CHEM 220 (15 credits)

e. PHYS 114/PHYS 117, PHYS 115/PHYS 118 (10 credits)

2. Environmental Health Core (minimum 37 credits): ENV H 311, ENV H 320, ENV H 405, ENV H 432, ENV H 433, ENV H 472, ENV H 473, ENV H 480, ENV H 482 (2 credits minimum), EPI 320, MICROM 301, MICROM 302

4. 21 additional credits of approved electives. See adviser for approved list.

5. Minimum 2.0 grade in each course required for the major

**Minor**

**Minor Requirements:**

1. Core (3 credits): either ENV H 111 or ENV H 311.

2. Approved Selectives (9 credits): three courses chosen from ENV H 431, ENV H 440, ENV H 445, ENV H 448, ENV H 451, ENV H 453, ENV H 472

3. Minimum 15 credits of approved ENV H electives

4. Minimum 14 credits in upper-division courses

**Student Outcomes and Opportunities**

- **Learning Objectives and Expected Outcomes:** In the Bachelor of Science program in environmental health, students learn to utilize tools of scientific inquiry to identify, prevent, and control environmental factors that can damage human health. As part of their training, students are introduced to basic principles of risk assessment, microbiology, epidemiology, sampling, and toxicology, and can choose to focus in one of three interest areas: biomedical sciences, health and environmental science, and environmental public health practice.

- **Instructional and Research Facilities:** The department houses thirteen centers and institutes and twenty labs.

- **Honors Options Available:** With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.

- **Research, Internships, and Service Learning:** The department operates an internship program in cooperation with government agencies and private employers throughout the state. Each student intern works under the supervision of an experienced employee, with
guidance from a faculty member. Internship placements are available throughout the year for variable amounts of academic credit.

- **Department Scholarships:** None offered.
- **Student Organizations/Associations:** UW Student Environmental Health Association

## Graduate Program

Graduate Program Coordinator  
F461 Health Sciences, Box 357234  
206-543-3199

The department offers three graduate degrees: Master of Science, Master of Public Health, and Doctor of Philosophy. Areas of emphasis are environmental and occupational hygiene (PhD), occupational and environmental exposure sciences (MS), environmental toxicology (PhD/MS), environmental health (MS), and occupational and environmental medicine or environmental and occupational health (MPH).

*The PhD in environmental and occupational hygiene option* focuses on assessment of exposures, health effects, and control strategies in community and work environments. The program emphasizes expertise in exposure assessment to evaluate human health risks from chemical, physical, and biological agents. Research opportunities include: laboratory and field investigations of environmental exposures and health outcomes; air, soil and water pollution monitoring; ambient, indoor, and personal exposure modeling; evaluation of biomechanical stress factors and organization of the work environment; development of new instruments, biomarkers, and novel methods for assessing human exposures; and evaluation of effective control strategies for the prevention or reduction of illness and injury.

*The MPH in environmental and occupational health* provides recognition, assessment, and control of environmental and occupational hazards, the impact of these hazards on health and society, and approaches to regulations, enforcement, and policy development. It emphasizes development of skills essential to science-based public health practice. In addition to coursework, students complete a field practicum and research in any of the department's research facilities or in a field setting.

*The MPH in occupational and environmental medicine,* for individuals with an earned doctorate, provides training in the public health sciences with a focus on occupational and environmental health. The program provides didactic instruction and participation in field studies. Research efforts focus on understanding, preventing, and managing environmental and occupational disease, injury, and disability. Physicians also have the option of applying for a concurrent fellowship or residency in occupational and environmental medicine.

*The concurrent MPH/MPA or MS/MPA degree programs with the Daniel J. Evans School of Public Affairs* educate students who bring substantive public health knowledge and a strong policy and management orientation to their professional careers. Several courses satisfy degree
requirements in both programs, students are able to earn the two degrees in a shorter period of time than if the degrees were taken separately. Applicants must apply to both programs.

**Master of Public Health, Environmental and Occupational Health**

Focuses on recognition, assessment, and control of environmental and occupational hazards; impact of these hazards on public health and society; and approaches to regulations, enforcement, and policy development. Nurses with a BN can opt for a special emphasis MPH track to train in delivery of health and safety services to worker populations and communities.

**Admission Requirements**

1. Bachelor’s degree in science or engineering, with coursework in biology, chemistry, calculus, and physics. Applicants with non-science majors are considered if prerequisite courses have been completed.
2. Strong grades and GRE scores
3. Statement of personal goals
4. Letters of reference
5. International applicants submit TOEFL scores - minimum 580 (237 computer)

**Degree Requirements**

63 credits

1. **Core Requirements:** EPI 511 (or EPI 512, EPI 513), BIOST 511 (or BIOST 517). MPH/MPA students are also required to take BIOST 512 (or BIOST 518), HSERV 510, and HSERV 511.
2. **Required Courses:** ENV H 505 (or ENV H 514, ENV H 515, and ENV H 516), ENV H 453 (or ENV H 553 or ENV H 551), ENV H 570, ENV H 577 (or ENV H 572 or ENV H 543), ENV H 446 (or ENV H 490, or ENV H 541, or ENV H 545, or ENV H 552, or ENV H 548). Courses in environmental health not chosen can be taken as electives to satisfy course requirements. Students have a choice of either completing a thesis (ENV H 700) or a project (ENV H 598B).
3. **Electives (varies by track)**
   a. **Thesis Track:** At least two additional 400- or 500-level departmental courses (minimum 6 credits) required to fulfill elective requirements.
   b. **Project Track:** Students who take 6-8 credits of ENV H 598A must take 3 additional 400- or 500-level classes. Students who take 9 or more ENV H 598A credits must take two additional 400- or 500-level elective credits.
4. **Practicum:** ENV H 599 (at least 120 hours)
Master of Public Health, Occupational and Environmental Medicine

Admission Requirements

1. Doctoral degree (MD, DO, or equivalent) with prior coursework in physics, chemistry, calculus, and biology.
2. Concurrent UW residency applicants must offer graduation from a Class A medical school (U.S., Canada, or equivalent) and completion of one year of approved internship. Three years in primary care specialty also encouraged.

Gives physicians a better understanding of the clinical and scientific principles in environmental and occupational health. Training focuses on epidemiology, occupational and environmental hygiene, biostatistics, health services, and environmental toxicology. A concurrent residency/fellowship program is available.

Degree Requirements

64 credits

Master of Science, Environmental Health

Students identify sources of contamination in air, water, food, and soil, and on surfaces; how contamination is spread; strategies to prevent or control effects on human health or environmental quality; and the means of communicating risk information to the public and health professionals.

Admission Requirements

1. Bachelor’s degree in science or engineering with coursework in biology, chemistry, calculus, and physics. Applicants with non-science majors are considered if prerequisite courses have been completed.
2. Strong grades and GRE scores
3. Statement of personal goals
4. Letters of reference
5. International applicants submit TOEFL scores - minimum 580 (237 computer)

Degree Requirements

64 credits

1. Core Courses: ENV H 580, ENV H 581, ENV H 583, ENV H 700, BIOST 511 (or BIOST 517 or higher), EPI 511
2. Required Courses: ENV H 505, ENV H 453, ENV H 541, ENV H 543 (or ENV H 577), ENV H 552, ENV H 594, ENV H 445 (or ENV H 446), ENV H 548, ENV H 545
3. **Representative Electives:** 9 graded elective credits, approved by the student's academic adviser.

**Master of Science, Occupational and Environmental Exposure Sciences**

Students learn to quantify and manage human exposures to chemicals, air pollutants, aerosols, and physical agents found in a wide variety of community and occupational settings. Program emphasizes rigorous academic training, internships, career guidance, and practical skills needed for graduates to establish long-term careers as environmental health and safety professionals. A flexible curriculum offers options for either a thesis or professional portfolio alternative.

**Admission Requirements**

1. Bachelor’s degree in science or engineering with coursework in biology, chemistry, calculus, and physics. Applicants with non-science majors are considered if prerequisite courses have been completed.
2. Strong grades and GRE scores
3. Statement of personal goals
4. Letters of reference
5. International applicants submit TOEFL scores - minimum 580 (237 computer)

**Degree Requirements**

63 credits

1. **Core Courses:** ENV H 580, ENV H 581, ENV H 583, ENV H 700 (or appropriate section of ENV H 598, and ENV H 559, and appropriate section of ENV H 599) BIOST 512 (or BIOST 518, or higher), EPI 511. Higher level biostatistics and epidemiology courses can be substituted for BIOST 511 or BIOST 517, and for EPI 511. Students completing a project are required to take only BIOST 511 and are not required to take ENV H 583, but are required to complete an internship (ENV H 599).
2. **Required Courses:** ENV H 551, ENV H 553, ENV H 557
3. **Learning Emphasis Required Courses:**
   - *Occupational Hygiene:* ENV H 505, ENV H 555, ENV H 557, ENV H 560, ENV H 570
   - *Ergonomics and Human Factors:* ENV H 537, ENV H 549, ENV H 560, ENV H 566, ENV H 596
   - *Exposure Biomarkers:* ENV H 505, ENV H 506, ENV H 554, ENV H 570, P BIO 506
4. **Electives:** Electives to complete 63-credit degree requirement
Master of Science, Environmental Toxicology

Focuses on understanding the mechanisms of action of environmental chemicals and their effects on human health and in the environment. Research areas include chemical effects on organ systems (neurological, hepatic, renal, cardiovascular, reproductive, and respiratory) and also developmental toxicology, environmental carcinogenesis, and dietary chemoprotection. Also offers a strong focus on human risk assessment as well as in toxicological issues that cross ecological and human health disciplines.

Admission Requirements

1. Bachelor’s degree in science or engineering with coursework in biology, chemistry, calculus, and physics. Applicants with non-science majors are considered if prerequisite courses have been completed.
2. Strong grades and GRE scores
3. Statement of personal goals
4. Letters of reference
5. International students submit TOEFL scores – minimum 580 (237 computer)

Degree Requirements

63 credits

1. Core Courses: ENV H 580, ENV H 581, EHV H 583, ENV H 700, BIOST 511 (or BIOST 517, or higher), EPI 511.

2. Required Courses: ENV H 514, ENV H 515, ENV H 516, ENV H 552, ENV H 577; BIOC 405, BIOC 406 (or BIOC 440, BIOC 441, BIOC 442); ENV H course in industrial hygiene or occupational medicine.

3. Representative Electives: Toxicology students who take the two-quarter biochemistry series (BIOC 405, BIOC 406) must have an additional 9 graded elective credits. Students who choose the three-quarter biochemistry series (BIOC 440, BIOC 441, BIOC 442) must have an additional 3 graded elective credits. Electives must be approved by the student's academic adviser. Electives may include ENV H 511, ENV H 512, ENV H 531, ENV H 532, ENV H 533, ENV H 550, ENV H 553, ENV H 555, ENV H 567, ENV H 570, ENV H 584, ENV H 591, BIOL 411, BIOST 521, C MED 407, C MED 590, MICROM 441, MICROM 442, MICROM 518, PATH 444, PATH 544, PATH 555, P BIO 500-level courses, P BIO 505, P BIO 506, P BIO 507, PHCOL 401, PHCOL 402.

Doctor of Philosophy, Environmental and Occupational Hygiene

Students learn to identify, evaluate, and manage health risks found in a wide variety of community and occupational settings, obtaining advanced research training in exposure assessment and control methods.
Admission Requirements

1. Bachelor’s degree in science or engineering with coursework in biology, chemistry, calculus, and physics.
2. Master’s degree in related field recommended
3. Honors-level GPA
4. Statement of personal goals
5. Letters of reference
6. High GRE scores
7. International applicants submit TOEFL scores – minimum 580 (237 computer)

Degree Requirements

Minimum 92 credits

1. Core Sciences (11-12 credits): Sequence of three courses in one area, as approved by adviser. Typical core choices are biochemistry, chemistry, engineering, applied mathematics, epidemiology, microbiology, or physiology.
2. Biostatistics (3 credits): BIOST 512 (or BIOST 518 or higher)
3. Epidemiology (4 credits): EPI 511 (or higher)
4. Environmental and Occupational Health Seminar (6 credits): ENV H 580
5. Dissertation (27 credits): ENV H 800
6. Laboratory Rotations (6-9 credits): ENV H 595
7. Required courses:
   a. Industrial Hygiene (6 credits): ENV H 553 and ENV H 555
   b. Toxicology (3 credits): ENV H 405 (or more advanced)
   c. Environmental Chemistry (3 credits): ENV H 552
   d. Occupational and Environmental Epidemiology (3 credits): ENV H 570
   e. Electives (20 credits): 10 elective credits are unspecified and 10 must be in courses taught by occupational and exposure sciences or environmental health program faculty.

Doctor of Philosophy, Environmental Toxicology

Focuses on understanding the mechanisms of the action of environmental chemicals and their effects on human health and in the environment. Research areas include chemical effects on organ systems (neurological, hepatic, renal, cardiovascular, reproductive, and respiratory) as well as developmental toxicology, environmental carcinogenesis, and dietary chemoprotection. The program also offers a strong focus on human risk assessment and toxicological issues that cross ecological and human health disciplines.
Admission Requirements

1. Bachelor’s degree in science or engineering with coursework in biology, chemistry, calculus, and physics.
2. Master’s degree in related field recommended
3. Honors-level GPA
4. Statement of personal goals
5. Letters of reference
6. High GRE scores
7. International applicants submit TOEFL scores – minimum 580 (237 computer)

Degree Requirements

104 credits

1. Core Sciences (11-12 credits): Sequence of three courses in biochemistry.
2. Biostatistics (3 credits): BIOST 512 (or BIOST518 or higher)
3. Epidemiology (4 credits): EPI 511 (or higher)
4. Environmental and Occupational Health Seminar (6 credits): ENV H 580
5. Dissertation (27 credits): ENV H 800
6. Laboratory Rotations (6-9 credits): ENV H 595
7. Required courses:
   a. Toxicology (9 credits): ENV H 514, ENV H 515, ENV H 516
   b. Toxicology Seminar (9 credits): Of the 9 credits (minimum) of current topics courses, at least six credits must be in ENV H 591. The other credits can be chosen among other current topics courses offered by the Department of Environmental Health or other departments, with approval of student's advisory committee.
   c. Advanced Toxicology: 6 credits from approved list
   d. Physiology: 3 credits from approved list
8. Electives (20 credits): Of the minimum four required electives, two must be departmental courses and two may be taken outside the department. The two departmental courses must be from two different non-toxicology programs. All elective credits must be approved by the student’s advisory committee.

Financial Aid

Support is available for many students in the form of traineeships or research assistantships, which include tuition.
Research Facilities

Specialized laboratories exist for research in industrial hygiene chemistry, optical remote sensing of chemicals, industrial ventilation, ergonomics, trace organics and heavy metals, environmental microbiology, electron microscopy, controlled exposure to environmental agents, and toxicology (including toxicogenomics and analytical cytology). Field research is facilitated through an extensive consultation-service program conducted by the department for labor and industry in Washington State.

Course Descriptions

ENV H 105 Toxic Tales: Building Skills for Academic Success through the Study of Poisons (2) T. MAR Designed to help first-year undergraduate students develop the study skills necessary for success through an exploration of the environmental health sciences and toxicology. Through a series of lectures, readings, case studies, group discussions, and student presentations, students are introduced to, master, and demonstrate a variety of learning strategies. Offered: Sp.

ENV H 111 Exploring Environment and Health Connections (3) I&S/NW Introduction to environmental health concepts. Examines current events to illustrate and better appreciate the relationship between environment and health and to explore whether an environmental condition is or is not an important threat to health. Emphasizes the roles of environmental scientists and related professionals. Offered: AW.

ENV H 205 Environmental Health in Media (3) I&S Explores how the perspective of filmmakers and documentaries can influence the public’s interpretation of environmental health issues, and examines the science and cultural norms that support both sides of the argument. Offered: Sp.

ENV H 220 Global Environmental Change and Public Health (3) I&S K. Ebi, J. Hess, C. Morin Humans are the primary drivers of global environmental changes that are changing the planet on the scale of geological forces. Students will be introduced to these changes and their consequences for human health and well-being, with a focus on climate change and its consequences. Offered: jointly with G H 220.

ENV H 305 Environmental Poisons and Public Health (3) I&S/NW Introduces concepts and tools that help students think critically about how environmental toxicants can impact human health. Covers basic principles and core concepts from toxicology, epidemiology, exposure assessment, risk assessment and risk management through a case-based approach that focuses on a selection of representative toxicants of current public health relevance. Offered: A.

ENV H 306 Health and Sustainability (3) I&S/NW, DIV H. Frumkin Focuses on the intersection of human health and environmental sustainability. Introduces core concepts of sustainability (for health sciences students) and public health (for environmental studies students) and explores the intersections of health and sustainability in specific domains including energy, transportation, the built environment, food systems, and chemicals. Emphasizes a
systems thinking approach to formulating solutions. Prerequisite: any of the following: BIOL 118, BIOL 180, CHEM 120, CHEM 142, or CHEM 145. Offered: Sp.

ENV H 310 Green Chemicals, Green Products, Green Processes: Crafting a Less Toxic World (3) I&S/NW D. KALMAN Presents green chemistry in the context of social impact and public health. Focuses on the relationship between the science and application of chemistry, and the conditions of life that affect everyone's health, particularly in the developed world. Prerequisite: CHEM 142 or CHEM 120; recommended: either CHEM 220 or CHEM 237; either one ENV H or SPH course.

ENV H 311 Introduction to Environmental Health (3) I&S/NW Relationship of people to their environment, how it affects their physical well-being and what they can do to influence the quality of the environment and to enhance the protection of their health. Emphasis on environmental factors involved in transmission of communicable diseases and hazards due to exposure to chemical and physical materials in our environment. Offered: ASp.

ENV H 320 Introduction to Technical Communication in Environmental Health (5) Written and oral communication for environmental health professionals. Principles of effective writing for technical articles, proposals, and reports with attention to structure, clarity, style, and language usage. Students learn to translate complex technical information for broader audiences. Offered: W.

ENV H 405 Toxic Chemicals and Human Health (3) Examines the basic principles of toxicology and the effects of chemicals on human health. Includes mechanisms; dose/response relationships; toxicity testing, disposition in the body; modifiers of response; chemicals and cancer; birth defects; exposures in the home, workplace, and environment; and risk assessment and government regulation. Prerequisite: minimum grade of 2.0 in BIOL 220; and a minimum grade of 2.0 in either CHEM 220, CHEM 224, CHEM 238, or CHEM 336. Offered: Sp.

ENV H 406 Disasters and Public Health (3) I&S/NW Introduces students to the public health and environmental health consequences of common domestic disasters, and the role of public health agencies and practitioners. Students will describe and evaluate the public health community's role in preparing for and responding to disasters through case studies, discussions, debates, course lectures and readings. Offered: A.

ENV H 409 Microbiome and Environmental Health (3) NW Introduces the current science of microbiome impacts on environmental public health. Defines human, animal, and environmental microbiomes, describes the methods used to characterize these microbiomes, and discusses the impact of microbiomes on the health of human and animal populations. Factors that have been suggested to modulate microbial populations, host-microbe interactions, and the dynamics of microbiome populations are also examined. Offered: Sp.

ENV H 417 Case Studies in Children's Environmental Health Disparities (3) DIV Introduces students to the ways in which children are disproportionately affected by environmental health hazards. Through a series of engaging case studies, student learn the core
scientific concepts of children's environmental health while exploring the social, cultural, regulatory, political, and economic factors that lead to children's health disparities. Offered: Sp.

ENV H 418 Understanding and Managing the Health Risks of Climate Change (3) K. Ebi, J. Hess, C. Morin The health risks of climate change are multiple and range across the public health space. Addresses current and projected health risks of climate change and the policies and measures to manage these risks as the climate continues to change. Offered: jointly with G H 418; W.

ENV H 431 Environmental and Occupational Sampling and Analysis I (3) NW Laboratory and lecture on sampling. Field and laboratory analysis of chemical and physical agents found in the occupational and ambient environments. Prerequisite: CHEM 162; PHYS 114; and ENV H 311, may be taken concurrently. Offered: A.

ENV H 432 Chemical Sampling and Analysis (5) NW Laboratory and lecture on chemical sampling and analysis. Field and laboratory analysis of chemical and physical agents found in the occupational and ambient environments. Prerequisite: CHEM 162 Offered: Sp.

ENV H 433 Microbiological Sampling and Analysis (5) NW Laboratory and lecture on microbiological sampling and analysis. Field and laboratory analysis of microbiological agents found in the occupational and ambient environments (water, food and air). Prerequisite: MICROM 301; MICROM 302. Offered: W.

ENV H 439 One Health: Human and Animal Health in a Changing Environment (3) I&S/NW P. Rabinowitz Case based exploration of the One Health concept, connecting human, animal, and environmental health. Topics include emerging zoonotic infectious diseases transmitted between humans and animals, animals as sentinels of environmental hazards, the human-animal bond, and the comparison of spontaneous diseases between human and animals. Includes two optional field trips. Prerequisite: BIOL 180. Offered: Sp.

ENV H 440 Water, Wastewater, and Health (3) Review of water supply, water quality, and water/wastewater treatment as they relate to human health. Includes water law and regulations, source water protection, basic treatment technologies for water and waste, chemical and microbial contaminants, and recreational water. Offered: A.

ENV H 441 Food Protection (3) Study of identification and characteristics of chemicals and biological agents implicated in foodborne disease outbreaks and conditions or circumstances by which food contamination occurs. Examination of food protection activities conducted by local and state government at the retail level. Prerequisite: either CHEM 120, CHEM 142, MICROM 301, or MICROM 410. Offered: W.

ENV H 442 Zoonotic Diseases and Their Control (3) Examines the transmission and control of zoonotic and vector-borne diseases of public health importance in the United States and globally. Pays attention to identification, surveillance, and control methods. Prerequisite: minimum grade of 2.0 in BIOL 220. Offered: W.
ENV H 443 Housing and Health (3) I&S/NW  C. TRESER Explores healthy and safe homes as a crucial element in public health. Review of federal, state and local approaches to housing-related programs under the banner of healthy homes. Students completing this course will understand the relationship between housing and human health and well-being. Offered: A.

ENV H 444 Antibiotic Resistant Bacteria/Genes Impact on the Environment and Public Health (4) M. ROBERTS Explores how the global use and abuse of antibiotics has profound consequences on the health of humans, animals, and the environment. Addresses issues of antibiotic resistant bacteria and genes through an interdisciplinary "One Health" approach that integrates human, animal, and environmental health. Prerequisite: either EPI 320, BIOL 220, or MICROM 301. Offered: A.

ENV H 445 Solid Waste Management (3) Examination of the public health, environmental, economic, and materials conservation aspects of solid wastes management; amounts and sources of solid wastes, waste reduction and recycling, methods of storage, transportation and disposal, integrated waste management, identification of present problems and future needs. Offered: Sp.

ENV H 446 Hazardous Waste and Public Health (3) Characterization of hazardous wastes and introduction to pertinent federal and state regulations. Discussion of exposure pathways and description of management options at pre-generation, pre-release, and post-release stages. Emphasis on public health significance. Supplemented with case studies. Prerequisite: CHEM 152 or CHEM 220; and MATH 124 or Q SCI 291. Offered: W.

ENV H 447 Environmental Change and Infectious Disease (3) G. CANGELOSI Uses multidisciplinary approach to address the impacts of environmental change (including climate change) on infectious disease. Concepts include categories of environmental change; infectious disease emergence/re-emergence; environmental aspects of infectious disease exposure, acquisition, and progression; pathogen growth/survival in the environment; historical and societal perspectives; surveillance; and strategies for control. Offered: Sp.

ENV H 448 Community Air Pollution (3) Offers a comprehensive overview of community air pollution including: air pollution sources, chemistry, and meteorology; human health and environmental effects; global warming; air quality standards, monitoring, control, and management; indoor air; and local air quality management. Offered: Sp.

ENV H 451 Ecology of Environmentally Transmitted Microbiological Hazards (3) Focuses on the transmission of infectious microorganisms by air, food, water, and other environmental media. Provides an introduction to environmentally transmitted pathogens, and discusses factors affecting their environmental fate, transport, and persistence. Offered: A.

ENV H 452 Detection and Control of Environmentally Transmitted Microbiological Hazards (3) Focuses on the detection and control of infectious microorganisms in air, food, water, and other environmental media. Provides a discussion on sample collection, processing, and detection for infectious microorganisms. Provides coverage of engineered controls and disinfection/decontamination processes for infectious microorganisms. Offered: W.
ENV H 453 Industrial Hygiene (3) Introduction to the principles and scientific foundation of industrial hygiene. Examines the anticipation, recognition, evaluation, and control of workplace hazards to health and safety. Focuses on the first three functions, but includes some consideration of control methods. Prerequisite: BIOL 200; either CHEM 220, CHEM 224, or CHEM 238; either PHYS 115 or PHYS 122. Offered: A.

ENV H 460 Occupational Safety Management (3) Explores industrial organization and methods of integrating safety and industrial hygiene programs with industrial operations. Investigates issues related to industrial safety and health such as responsibility for safety, dependency on safe practice, and hierarchy of prevention. Offered: Sp.

ENV H 461 Air-Pollution Control (4) Fundamental concepts of air pollution control including emission sources, atmospheric dispersion, ambient concentrations, and emission standards, with emphasis on processes and equipment for controlling emissions. Offered: jointly with CEE 490; ASp.

ENV H 462 Technical Aspects of Occupational Safety (3) Reviews federal OSHA (Occupational Safety and Health Administration) and state WISHA (Washington Industrial Safety and Health Act) standards. Explores the impact of these regulations on industry, particularly construction. Upon completion of the course, students receive an OSHA 510 30-hour Construction Safety and Health certification. Offered: W.

ENV H 465 Geographic Information Systems (GIS) in Public Health (3) NW/I&S Applications of Geographic Information Systems (GIS) in public health. Practical experience using the principles, methods, and techniques of spatial analysis to solve practical public health problems within a variety of sub-disciplines, focusing on environmental health, but also exploring infectious diseases, health services and community health. Spatial data representation and management, visualization of spatial data, and exploratory analyses. Offered: A.

ENV H 472 Environmental Risk and Society (3) I&S Examines scientific determinations of environmental risks and explores how such determinations are evaluated by affected communities and society. Employs risk analysis to integrate technical knowledge in hazard identification and exposure assessment to provide a more rational basis for environmental policies. Role of public participation in risk-based decision making discussed. Offered: A.

ENV H 473 Environmental Health Policy and Practice (4) I&S Explores how environmental health problems are controlled in the United States. Examines both the policies and practices of environmental health. Looks at how various government programs are established, organized, and operated to prevent or control hazards in the community. Also examines the legal and regulatory framework. Offered: Sp.

ENV H 480 Undergraduate Seminar (1, max. 6) Covers career exploration and planning within the environmental health major through presentation of current environmental and occupational health issues. Offered: A.
ENV H 482 Environmental Health Internship (2-15, max. 15) Assignment to an environmental health or environmental protection agency for supervised observation and experience in environmental health technology, program planning, and utilization of community resources. Prerequisite: minimum grade of 2.5 in ENV H 311. Credit/no-credit only. Offered: AWSpS.

ENV H 490 Selected Topics in Environmental Health (1-6, max. 20) In-depth study of a current environmental health topic. Offered: Sp.

ENV H 497 Environmental Health Special Electives (*, max. 35) Offered: Sp.

ENV H 499 Undergraduate Research (*, max. 35) Individual research on a specific topic in environmental health upon which specific conclusions, judgments, or evaluation can be made or upon which facts can be presented. Offered: AWSpS.

ENV H 501 Foundations of Environmental Health (4) W. DANIELL Provides an overview of environmental and occupational health, examining representative hazards and environmental media, with local and global examples. Students apply systems thinking and contextual evaluation to evaluate social context, population vulnerability, and cumulative implications for health. Students also explore evidence-based opportunities and barriers to achieve health-favorable change, sustainability, and equity. Offered: A.

ENV H 505 Fundamentals of Environmental and Occupational Toxicology (4) Basic principles governing the behavior and effects of toxic chemicals on biological systems. Focuses on human health impacts of chemicals in the context of public health. Designed for non-toxicology majors. Prerequisite: 2 quarters of biology; 2 quarters of chemistry, or permission of instructor. Offered: Sp.

ENV H 506 Disasters and Public Health (3) I&S/NW Introduces students to the public health and environmental health consequences of common domestic disasters, and the role of public health agencies and practitioners. Students will describe and evaluate the public health community's role in preparing for and responding to disasters through case studies, discussions, debates, course lectures and readings. Offered: A.

ENV H 509 Microbiome and Environmental Health (3) Introduces the current science of microbiome impacts on environmental public health. Defines human, animal, and environmental microbiomes, describes the methods used to characterize these microbiomes, and discusses the impact of microbiomes on the health of human and animal populations. Factors that have been suggested to modulate microbial populations, host-microbe interactions, and the dynamics of microbiome populations are also examined. Offered: Sp.

ENV H 510 Global Environmental and Occupational Health (4) Provides an overview of environmental and occupational health, with major focus on developing countries. Examines a variety of environmental hazards and influential factors, interactions with human health and well-being, and relevance to public health. Considers workplace, community, home, regional, and global problems. Offered: W.
ENV H 511 Environmental and Occupational Health (4-) J. HESS Provides a graduate-level overview of the multidisciplinary field of environmental and occupational health. Environmental, occupational, and nutritional problems in different settings (e. g. the workplace, community, and home) and at varying scaled (local, regional, and global) are considered, with special emphasis on considerations related to food systems and nutrition. Offered: Sp.

ENV H 513 Basic Concepts in Pharmacogenetics and Toxicogenomics (3) K. THUMMEL Addresses current technologies for DNA sequencing, genotyping, RNA and epigenetic analysis and basic concepts of pharmacogenetics and toxicogenomics. Emphasis placed on applications of genomic technologies to the understanding of "gene-environment interactions" that cause variability in drug treatment responses, as well as diseases of public health importance, including cancer, chronic neurological diseases, and adverse drug reactions. Offered: jointly with PCEUT 513/PHG 513; W.

ENV H 514 Fundamentals of Toxicology (3) Covers major fundamentals and core areas of toxicology, including dose response, absorption, distribution, metabolism, and excretion of toxicants, toxicity testing, interpretation of toxicological data; and biochemical, cellular, and physiological mechanisms by which chemicals produce toxic responses. Also explores mechanisms and fate of chemical interaction with biological systems. Prerequisite: BIOL 212, BIOC 405, or permission of instructor. Offered: A.

ENV H 515 Organ System Toxicology (3) T. KAVANAGH Focuses on organ system toxicology. Emphasizes the pathophysiology of toxicant-induced organ injury, including adaptive responses to toxicant exposure, inflammation, and tissue repair pathways. Prerequisite: ENV H 514 or permission of instructor. Offered: W.

ENV H 516 Toxic Agents: Effects and Mechanisms (3) Focuses on the toxic effects and the underlying mechanisms of the principal classes of toxicants: pesticides, metals, solvents, air pollutants, persistent organic pollutants, radiation, as well as on food safety and occupational/clinical/eco toxicology. Prerequisite: ENV H 515 or permission of instructor. Offered: Sp.

ENV H 517 Children's Environmental Health (3) Discussion of environmental health issues as they pertain to children's health. Topics include historical perspective of public health research and policies directed at protecting children's health and emerging scientific and public health issues such as the risks and benefits of seafood consumption during pregnancy; use of pesticides on food and in the home; air pollution and childhood asthma, and childhood injuries and the built environment. Offered: Sp.

ENV H 518 Understanding and Managing the Health Risks of Climate Change (3) K. Ebi, J. Hess, C. Morin The health risks of climate change are multiple and range across the public health space. Addresses current and projected health risks of climate change and the policies and measures to manage these risks as the climate continues to change. Offered: jointly with GH 518; W.
ENV H 520 Advanced Technical Communication in Public Health (3) Covers written and oral communication for environmental health and public health professionals, with particular emphasis on three main areas: conveying information more effectively to technical audiences, translating that information for general audiences in the public arena, and crafting effective commentary relating to topics of professional interest.

ENV H 530 Research Proposal Preparation for Biological Sciences (3) Provides first-hand experience for doctoral students in the biological sciences on proposal writing and the review process. Focuses on hypothesis-driven, laboratory bench-work based research following the NIH pre-doctoral fellowship format, and aims to prepare students for their pre-doctoral fellowship submissions and general qualifying exams. Offered: A.

ENV H 531 Neurotoxicology (3) Advanced discussions of the principles and methodological approaches to neurotoxicology (including behavioral toxicology), classes of neurotoxic agents, types and mechanisms of neurotoxic effects, as well as the role of neurotoxicology in toxicology and public health. Prerequisite: ENV H 514, ENV H 515, ENV H 516 or ENV H 405 or permission of instructor. Offered: W, even years.

ENV H 532 Reproductive and Developmental Toxicology (3) Investigates chemicals that can induce adverse reproductive and developmental outcomes. Discussion topics include identification and characterization of specific classes of toxic agents, mechanisms of action of these agents at the molecular and cellular level, and risk assessment and regulatory issues. Prerequisite: ENV H 514 and ENV H 515 or ENV H 405 or permission of instructor. Offered: W, odd years.

ENV H 533 Molecular Toxicology (3) Advanced discussion of molecular mechanisms whereby chemical and biological agents produce their harmful effects on biological tissues. Topics include the role of xenobiotic biotransformation enzyme expression in chemical susceptibility, toxicogenomics, chemical-induced oxidative stress, alternative models, species differences, and dietary anti-carcinogens. Prerequisite: prior coursework in toxicology and biochemistry, or permission of instructor. Offered: Sp, odd years.

ENV H 534 Biochemical Toxicology of the Puget Sound (3) Advanced discussion of effects of pollutants on aquatic organisms at the molecular, biochemical, and physiological levels, and in the context of Puget Sound case studies. Topics include assessing toxicant-induced cell injury in aquatic organisms, biotransformation and detoxification pathways, toxicogenomics, assessing chemical diseases in fish, biomarkers, and zebrafish models. Prerequisite: prior coursework in toxicology and biochemistry or permission of instructor. Offered: W, even years.

ENV H 536 Health Impact Assessment (2) Examines the use of Health Impact Assessment as a public health tool for informing decision-makers about the potential health impacts of proposed projects and policies. Students learn the steps for conducting HIAs, review case studies, and conduct an HIA of a current local proposed project. Offered: jointly with URBDP 536.

ENV H 537 Introduction to Manufacturing Systems (3) A. BANERJEE, J. HEIM Description of manufacturing systems. Includes discussion of current trends in manufacturing, especially
lean principles. Introduces process flow analysis, manufacturing organizations including job-shop, assembly lines, and group technology, manufacturing inventory philosophies (just-in-time, MRP, OPT), work environment, and work simplification. Offered: jointly with IND E 537; A.

**ENV H 538 Public Health and the Built Environment (2)** Examines how the design of communities and land use and transportation decision have positive and adverse effects on health. Considers built environment impacts on physical activity, obesity, air quality, injuries, mental health, social capital, and environmental justice; and explores interventions to promote healthy community design. Offered: jointly with URBDP 538.

**ENV H 539 One Health: Human and Animal Health in a Changing Environment (3)** P. RABINOWITZ Case based exploration of the One Health concept, connecting human, animal, and environmental health. Topics include emerging zoonotic infectious diseases transmitted between humans and animals, animals as sentinels of environmental hazards, the human-animal bond, and the comparison of spontaneous diseases between human and animals. Includes two optional field trips. Offered: Sp.

**ENV H 540 Food Safety and Health (3)** Presentation of emerging issues in food safety, sustainable agriculture, and biotechnology. Examines both domestic and global pressures on the food supply. Examines international policies that promote regional solutions for a safe food supply and access to nutritious foods. Offered: jointly with NUTR 545; W.

**ENV H 541 Ecology of Environmentally Transmitted Microbial Hazards (3)** Focuses on the transmission of infectious microorganisms by air, food, water, and other environmental media. Provides an introduction to environmentally transmitted pathogens, and discusses factors affecting their environmental fate, transport, and persistence. Offered: A.

**ENV H 542 Detection and Control of Environmentally Transmitted Microbial Hazards (3)** Focuses on the detection and control of infectious microorganisms in air, food, water, and other environmental media. Provides a discussion on sample collection, processing, and diction for infectious microorganisms. Provides coverage of engineered controls and disinfection/decontamination processes for infectious organisms. Offered: W.

**ENV H 543 Quantitative Microbial Risk Assessment (3)** Focuses on the principles of quantitative risk assessment as applied to infectious microorganisms. Covers hazard identification, exposure assessment, health effects assessment, risk characterization, and risk communication. Offered: Sp, even years.

**ENV H 544 Antibiotic Resistant Bacteria/Genes Impact on the Environment and Public Health (4)** M. ROBERTS Explores how the global use and abuse of antibiotics has profound consequences on the health of humans, animals, and the environment. Addresses issues of antibiotic resistant bacteria and genes through an interdisciplinary "One Health" approach that integrates human, animal, and environmental health. Prerequisite: either EPI 320, BIOL 220, or MICROM 301. Offered: A.
ENV H 545 Water, Wastewater, and Health (4) Review of water supply, water quality, and water/wastewater treatment as they relate to human health. Includes water law and regulations, source water protection, basic treatment technologies for water and waste, chemical and microbial contaminants, and recreational water. Offered: A.

ENV H 547 Environmental Change and Infectious Disease (3) G. CANGELOSI Uses multidisciplinary approach to address the impacts of environmental change (including climate change) on infectious disease. Concepts include categories of environmental change; infectious disease emergence/re-emergence; environmental aspects of infectious disease exposure, acquisition, and progression; pathogen growth/survival in the environment; historical and societal perspectives; surveillance; and strategies for control. Offered: Sp.

ENV H 548 Community Air Pollution (3) Offers a comprehensive overview of community air pollution including: air pollution sources, chemistry, and meteorology; human health and environmental effects; global warming; air quality standards, monitoring, control, and management; indoor air; and local air quality management. Prerequisite: SPH graduate student or permission. Offered: Sp.

ENV H 549 Human Factors in Engineering Design (3) L. BOYLE Engineering considerations of the abilities and limitations of the human aspect in the design of operational systems and components. Functional, psychological, physiological, and environmental considerations. Covers traditional human factors material with a project-based focus/emphasis. Offered: jointly with IND E 549; Sp.

ENV H 550 Occupational and Environmental Disease (3/4) J. SPECTOR A case-based introduction to occupational and environmental diseases, focusing on disease epidemiology, pathophysiology, diagnostic testing basics, and aspects of population management such as disease surveillance, policy development, and health protection programs. A four credit option offered to clinically-oriented students additionally covers diagnostic test interpretation, differential diagnosis, and clinical management. Offered: Sp.

ENV H 551 Human Exposure to Environmental Contaminants (4) Exposure science plays a critical role in risk assessment, epidemiology, and health interventions. This course introduces techniques such as pathway analysis, fate and transport modeling, statistical exposure estimation, exposure biomarkers, and energetics used to characterize chemical, biological and physical hazards in both occupational and community environments. Prerequisite: CHEM 162; MATH 124. Offered: A.

ENV H 552 Environmental Chemistry of Pollution (4) Chemical and physical processes determining distribution and fate of chemical hazards, detection of low levels of hazardous compounds, and environmental evaluation and prediction. Fundamental chemical concepts and
measurable properties of individual compounds to interpret and relate measurements. Prerequisite: admission to graduate program or permission of instructor. Offered: W.

ENV H 553 Environmental Exposure Monitoring Methods (4) Provides an in-depth understanding of current monitoring methods for occupational, residential, and community exposures to hazardous chemical agents. Examines the technical basis for sampling strategies and sampling and analytical methods for chemicals in air, water, food, and soil, and for biological markers of exposure and effect in humans and other biota. Prerequisite: ENV H 453 or permission of instructor. Offered: W.

ENV H 554 Biological Monitoring for Chemical Exposure (2) Advanced seminar on biological monitoring for assessment of chemical exposure and health risks from environmental agents. Considers applications and interpretation of results from analysis of biological specimens taken from persons exposed to chemicals in the workplace and the general environment. Prerequisite: ENV H 551 or permission of instructor. Credit/no-credit only. Offered: Sp, odd years.

ENV H 555 Instrumental Methods for Industrial Hygiene Measurement: Laboratory (3) Utilizes typical instrumental techniques and analytical methods for the evaluation of potential occupational exposures. Prerequisite: ENV H 453 and ENV H 553 or permission of instructor. Offered: Sp.

ENV H 556 Quantitative Occupational Exposure Analysis (3) Exploration of industrial hygiene data to understand nature of airborne exposures in the occupational environment, and their interpretation for human health. Focus on reading and discussion of primary exposure assessment literature and statistical analysis of real dataset. Prerequisite: one quarter of statistics or biostatistics and basic industrial hygiene. Offered: W, odd years.

ENV H 557 Exposure Controls (3/4) Presents engineering concepts for selecting exposure controls for chemical, physical, and biological agents. Topics include regulatory mandates, hazard rating strategies, protective clothing, respiratory protection, chemical safety management, building ventilation, local exhaust ventilation, chemical and biohazards controls, airflow measurements, and ventilation troubleshooting. Offered: W.

ENV H 559 Applied Occupational Health and Safety (3) Application of occupational safety and health principles. Student teams perform evaluations, assess production methods/processes and exposures, health and safety procedures and programs, and develop engineering and administrative controls. Students perform on a consulting project with a local company including budgeting, project reporting, and presentation. Offered: jointly with IND E 567/NSG 505; Sp, even years.

ENV H 560 Occupational Safety Management (4) Explores industrial organization and methods of integrating safety and industrial hygiene programs with industrial operations. Investigates philosophic issues related to industrial safety and health such as responsibility for safety, dependency on safe practice, and hierarchy of prevention. Contains numerous case problems and student involvement opportunities. Offered: jointly with NSG 506; Sp.
ENV H 562 Technical Aspects of Occupational Safety (3) Reviews federal OSHA (Occupational Safety and Health Administration) and state WISHA (Washington Industrial Safety and Health Act) standards. Explores the impact of these regulations on industry, particularly construction. Upon completion of the course, students receive an OSHA 510 30-hour Construction Safety and Health certificate. Offered: jointly with NSG 507; W.

ENV H 564 Recognition of Health and Safety Problems in Industry (2) Develops skills in occupational health and safety hazard recognition in a variety of important Northwest industries. Focuses on process understanding and hazard recognition skills during walk-through inspections of several local facilities, stressing a multidisciplinary approach. Offered: jointly with IND E 564; A.

ENV H 565 Geographic Information Systems (GIS) in Public Health (3) Applications of Geographic Information Systems (GIS) in public health. Practical experience using the principles, methods, and techniques of spatial analysis to solve practical public health problems within a variety of sub-disciplines, focusing on environmental health, but also exploring infectious diseases, health services and community health. Spatial data representation and management, visualization of spatial data, and exploratory analyses. Offered: A.

ENV H 566 Introduction to Ergonomics (3) Basic principles of ergonomics in work environment applied to problems of worker and management. Topics include measurement of physical work capacity, problems of fatigue and heat stress, applied biomechanics, worker-machine interactions and communication, design of displays and controls. Prerequisite: basic human physiology or permission of instructor. Offered: jointly with IND E 566/NSG 508; W.

ENV H 567 Mechanisms of Carcinogenesis (2) Lectures/presentations of biochemical and molecular basis of carcinogenesis induced by environmental agents, including approaches to identification of carcinogens. Role of cell proliferation and cell death (apoptosis) in cancer formation and cancer treatment. Molecular mechanisms that regulate proliferation and apoptosis. Prerequisite: ENV H 516, ENV H 405, or permission of instructor. Offered: jointly with PHCOL 567; A, even years.

ENV H 569 Occupational Biomechanics (4) Lectures and laboratories address human occupational biomechanical and physiological limits and measurement, analysis, and modeling techniques that are used by ergonomists for design of safe, healthful, and productive physical work. Prerequisite: ENV H 566 or permission of instructor. Offered: jointly with IND E 569; Sp, even years.

ENV H 570 Occupational and Environmental Epidemiology (3) Research in occupational and environmental determinants of disease. Defining exposed populations, characterizing exposure levels, estimating disease risks relative to exposure. Cohort, case-control, cross-sectional designs for various health outcomes. Applications to exposure standard setting and risk assessment. Prerequisite: EPI 511 or EPI 512, EPI 513 or permission of instructor. Offered: jointly with EPI 570.
ENV H 571 Neuroepidemiology and Environmental Risk Factors (3) W. KUKULL Focuses on neurologic diseases and etiology. Presentation of descriptive epidemiology, clinical features, and risk factors, including stroke, Parkinson's disease, Alzheimer's disease, multiple sclerosis, and other disorders. Discussion of NIH grantsmanship. Guest experts present some topics. Psychiatric disorders e.g. schizophrenia, autism spectrum disorders, and depression will not be discussed. Offered: jointly with EPI 571.

ENV H 572 Environmental Risk and Society (3) Examines environmental health risk assessments and explores how such assessments are viewed by affected communities. Reviews scientific risk assessment methods, risk perception, risk communication, and public participation processes. Examines the influence of advocacy and special-interest publications on risk assessment debates. Offered: A.

ENV H 574 Probabilistic Exposure Analysis (3) Examination of probabilistic (in contrast to deterministic) approaches to prediction of human exposure to environmental contaminants including explicit separation of population variability from uncertainty due to ignorance. Discussion of data needs, pitfalls, policy ramifications, and current state of development and regulatory acceptance. Examples from real world. Student project required. Offered: Sp, odd years.

ENV H 576 Clinical Occupational Medicine (2) For clinicians in training, comprehensive overview of occupational disease principles, occupational history-taking, and the provider's role in workers' compensation. Epidemiologic evidence and pathophysiologic basis for occupational diseases reviewed, emphasizing organ system approach to diagnosis and management. Prerequisite: occupational medicine or preventive medicine residents/fellows, nursing students, or permission of instructor. Offered: S.

ENV H 577 Risk Assessment for Environmental Health Hazards (4) Examines context, methodologies, data, uncertainties, and institutional arrangements for risk assessment. Qualitative and quantitative approaches to identification, characterization, and control of environmental hazards to health emphasized through didactic and case studies. Offered: jointly with CEWA 560/PUBPOL 589; A.

ENV H 580 Environmental and Occupational Health Sciences Seminar (1, max. 21) Presentation of current environmental and occupational health research and issues. Credit/no-credit only. Offered: AWSp.

ENV H 581 Environmental Health Reading (1) Critical reading of selected basic and applied research publications on environmental health problems and programs.
ENV H 583 Thesis Research Proposal Preparation (1) Includes reviewing components of research proposals and practicing writing and developing effective aims, hypotheses, background materials, and analytic strategies for writing theses and presenting at scientific meetings. Offered: Sp.

ENV H 584 Occupational and Environmental Health: Policy and Politics (3) Provides an understanding of the policy process and policy issues in occupational and environmental health and safety, including exploring the relationships between science, values, and politics in the process of setting public policy. Offered: Sp.

ENV H 586 Current Issues in Occupational Health at the Human Animal Interface (2, max. 8) Problem-based seminar about the occupational health issues faced by workers with animal contact, including animal agriculture workers, veterinary workers, wildlife workers, and laboratory animal workers. Anchoring course for trainees in the Occupational Health at the Human Animal Interface (OHHAI) training grant. Offered: ASp.

ENV H 587 Introduction to Biopharmaceutical Product Development (3) Provides a framework of the drug development process and its regulation. Prerequisite: ENV H 405 or ENV H 514, ENV H 515, and ENV H 516, or PCEUT 501, PCEUT 502, and PCEUT 503; or equivalent, or instructor permission. Offered: jointly with PCEUT 587; A, even years.

ENV H 590 Selected Topics (1-6, max. 20) In-depth study of a current environmental health topic.

ENV H 591 Current Topics in Toxicology (2, max. 12) T. KAVANAGH, Z. XIA Provides in-depth examination of current topics in environmental and occupational toxicology taken from journal articles and seminars. Consists of presentations led by outside speakers, students, post-doctoral fellows, and faculty. Students expected to participate actively in discussion. Assigned weekly readings given according to the schedule of seminar speakers and topics.

ENV H 592 Current topics in Occupational Health Sciences (1/3) Weekly discussion of current research on a broad range of topics relevant to occupational and environmental health including exposure assessment, occupational epidemiology, occupational hygiene, and control of environmental hazards. Presentations and discussion sessions designed to help students organize and prepare a critical analysis of research findings. Credit/no-credit only. Offered: A.

ENV H 593 Current Topics in Risk Assessment (1, max. 6) Examines current topics in risk assessment and risk communication with a focus on issues in environmental health. Consists of presentations led by students, postdoctoral fellows, and faculty. Students expected to participate actively in discussion. Credit/no-credit only. Offered: AWSp.

ENV H 594 Current Topics in Environmental Health (1, max. 2) Critical review and discussion of current scientific literature of particular relevance to the Environmental Health program. Primary presentations rotate among faculty and students. Credit/no-credit only. Offered: W.
ENV H 595 Research Rotation (3, max. 9) Research laboratory rotation for pre-doctoral graduate students. Students commit at least 10 hours per week to a laboratory research project aimed at introducing the student to current methods of laboratory research, and to familiarize the student with specific faculty research interests. Prerequisite: graduate standing and permission of program director.

ENV H 596 Current Issues in Occupational and Environmental Medicine (2, max. 12) Interdisciplinary seminar on current and emerging topics in the practice of environmental and occupational health. Faculty- and student-led presentations with an interdisciplinary focus, including occupational hygiene, nursing, and medical issues. Prerequisite: environmental health graduate student, occupational health nursing student, or permission of instructor. Offered: jointly with NURS 580; AWSp.

ENV H 597 Case Studies in Environmental and Occupational Health (1, max. 12) Discusses clinical cases, recent journal articles, and global environmental health scenarios relevant to the clinical practice of environmental and occupational health. Explores collaborative management of environmental and occupational health-related illnesses and navigation of complex environmental health scenarios through real-world cases and critical analysis of published literature. Offered: AWSp.

ENV H 598 Degree Program Project/Portfolio ([1-9]-, max. 18) Supervised project work on a topic related to student's concentration in graduate study that results in a project paper. Offered: AWSpS.

ENV H 599 Field Studies (2-6, max. 6) Assignment to an environmental research or service program to develop field research and evaluation skills. Credit/no-credit only. Offered: AWSpS.

ENV H 600 Independent Study or Research (*) Prerequisite: permission of departmental adviser. Offered: AWSpS.

ENV H 700 Master's Thesis (*) Prerequisite: permission of departmental adviser. Offered: AWSpS.

ENV H 800 Doctoral Dissertation (*) Prerequisite: permission of departmental adviser. Credit/no-credit only. Offered: AWSpS.
The Department of Epidemiology offers the following three graduate degrees: Doctor of Philosophy, Master of Science, and Master of Public Health, for individuals intending to become academicians, highly qualified research specialists, or well-trained public health practitioners, respectively. The department also offers a number of degree tracks within the master’s degree programs, as well as several graduate certificates.

**Admission Requirements for All Degrees**

Admission to all graduate programs is highly competitive and is based on the following:

1. Background in epidemiology or other health-related fields (such as medicine, health or biological sciences, mathematics, quantitative social sciences), including prior areas of study and work experience, especially quantitative public health research
2. Undergraduate and graduate grades (if applicable)
3. GRE scores (exceptions are often made for master's degree applicants with a prior PhD, MD, DO, DDS, DVM, or equivalent health-related degree from a U.S. university; MD/MPH applicants at UW; and MD/PhD applicants funded by the Medical Scientist Training Program at UW. No exceptions to GRE requirement are made for PhD program applicants.).
4. TOEFL or IELTS score from international applicants, unless bachelor's degree taught entirely in English
5. Applicant interests that are aligned with those of Department of Epidemiology faculty. (It is not expected that applicants locate a faculty mentor in advance.)
6. Compelling motivation for pursuing training in epidemiology as demonstrated through a well-written goal statement
7. Letters of reference

The Master of Public Health (MPH) degree in epidemiology requires coursework in health services and environmental health, in addition to epidemiology and biostatistics, as well as a thesis and a practicum as preparation for a career in public health practice or as a prelude to the PhD program. Three tracks are available: the general track, which is selected by most students and allows specialization via the choice of electives and thesis topic; the global health track.
(GH); and the maternal and child health track (MCH). The global health track requires approximately two years of prior health science work experience in a developing country, although some of the two years may be health-related work with immigrant or underserved groups in the United States. (The epidemiology global health track is not the same as the MPH general track through the Global Health Department in that it focuses on epidemiology and biostatistics rather than on health services-oriented training, but it does incorporate some of the same classes.) Applicants without the requisite experience may apply to both the Epidemiology general track and the global health graduate certificate (listed below) which combined offer equivalent training. The MCH track expects prior U.S. MCH experience for admission. Applicants without this experience may apply to both the general track and the MCH graduate certificate (listed below) which combined offer the similar training.

Formal concurrent degree programs involving the epidemiology MPH include the following: Doctor of Medicine (MD), Doctor of Philosophy (PhD) in Anthropology, Master of Arts in International Studies (MAIS), and Master of Public Affairs (MPA). A master’s or doctorate from another department at the UW may be combined with the MPH with the approval of both programs.

The Master of Science (MS) degree in epidemiology requires concentration on courses and research in epidemiology and biostatistics as preparation for a research specialization or as a prelude to the PhD program. It also requires electives from the School of Public Health. Two tracks are available, the general track, which allows specialization via the choice of electives and thesis topic and the clinical research track (CR). The MS CR is intended chiefly for professionals who have already completed clinical training, and who plan to conduct research with patients in healthcare settings as a significant part of their future careers.

A formal concurrent degree program combines the epidemiology general track MS with the PhD in molecular and cellular biology. A master’s or doctorate from another department at the UW may be combined with the MS with the approval of both programs.

Applicants interested in an MS in genetic epidemiology, administered by the Institute for Public Health Genetics (a School of Public Health program that is not part of the Department of Epidemiology), should visit http://depts.washington.edu/phgen/programs/msge.html.

The Doctor of Philosophy is designed to produce academics who are highly qualified as independent investigators, teachers, and practitioners. The requirements for the PhD degree in epidemiology differ from the MS program requirements primarily in the scope and complexity of research for the dissertation. Coursework includes a core series in epidemiology and biostatistics, as well as epidemiology electives and other electives from the School of Public Health.

**Admission Requirements Specific to the PhD**

1. Master's degree in epidemiology or other health-related field, including mathematics and quantitative social sciences.
   
a. A prior doctorate without a health-related master’s degree is not acceptable.
b. An applicant with a doctorate only and no master’s degree should apply to the MS or MPH first.

c. All courses and credits from the MS or MPH in epidemiology at the UW count directly toward the PhD in epidemiology.

2. GRE from all applicants, including those who hold a U.S. doctorate, except MSTP MD students at UW.

The Epidemiology Department and other School of Public Health departments offer several graduate certificate programs open to any qualified graduate student at the University (sph.washington.edu/prospective/edprograms.asp#cert). Some certificate programs are open to Graduate Non-Matriculated students, if indicated on the certificate websites. Following is a partial listing of certificate programs:

- **Advanced Clinical Research Methods**: [depts.washington.edu/epidem/Certificates/acrc.shtml](depts.washington.edu/epidem/Certificates/acrc.shtml) (May not be combined with an epidemiology PhD degree at UW)
- **Basic Clinical Research Methods**: [depts.washington.edu/epidem/Certificates/bcrc.shtml](depts.washington.edu/epidem/Certificates/bcrc.shtml) (May not be combined with an epidemiology PhD degree at UW)
- **Global Health Graduate Certificates**: [globalhealth.washington.edu/academics/certificates-and-fellowships](globalhealth.washington.edu/academics/certificates-and-fellowships)
  - **General Global Health**
  - **Global Health of Women, Adolescents, and Children**
  - **Global Injury and Violence**
  - **HIV and Sexually Transmitted Infections**
- **Maternal and Child Health**: [depts.washington.edu/mchprog/certificate/](depts.washington.edu/mchprog/certificate/)

**Master of Public Health**

**Degree Requirements**

Minimum 63 credits, as follows:

1. 45 to 49 class credits

2. **Core Courses**: 33 graded credits, including EPI 512, EPI 513, EPI 514, BIOST 511, BIOST 512, BIOST 513, either ENV H 510 or ENV H 511, HSERV 510, HSERV 511. BIOST 517-BIOST 518 may be substituted for BIOST 511, BIOST 512, BIOST 513

3. EPI 510, a prerequisite for EPI 514, is required for students without substantial SAS and Stata programming experience
4. **Electives:** 6 credits of EPI course electives of 2 or more credits each (See acceptable electives in the on the courses webpage at [depts.washington.edu/epidem/courses/](depts.washington.edu/epidem/courses/))

5. 3 to 6 credits (120 to 240 hours) in a field-based practicum (EPI 595)

6. 9 to 18 thesis (EPI 700) credits

7. Students may enroll in additional elective courses in epidemiology and other courses with substantial public health content with departmental approval, and for independent study (EPI 600) to bring the total to 63 credits. Public health-related 400-level courses taken as a graduate student at the UW may count toward total credits with departmental approval. Coursework without substantial public health content, and at the 300-level or below, does not count toward the degree.

**MPH Specialized Program Options:** The MPH degree offers specialized tracks as listed below. They have additional course, practicum and thesis requirements detailed on the program websites.

- **Global Health Track:** Requires additional coursework specific to international health. More information about this track is at [depts.washington.edu/epidem/program/globalhealth.shtml](depts.washington.edu/epidem/program/globalhealth.shtml).

- **Maternal and Child Health Track:** Requires additional coursework related to maternal and child health in the U.S. More information about this track is at [depts.washington.edu/mchprog/academic/](depts.washington.edu/mchprog/academic/).

**Master of Science**

**Degree Requirements**

60 credits, to include:

- 36 to 40 class credits

- **Core Courses:** 24 graded credits, including EPI 512, EPI 513, EPI 514, BIOST 511, BIOST 512, BIOST 513. BIOST 517-BIOST 518 may be substituted for BIOST 511, BIOST 512, BIOST 513.

- EPI 510, a prerequisite for EPI 514, is required for students without substantial SAS and Stata programming experience.

- **Electives:** 6 credits of EPI course electives of 2 or more credits each. (See acceptable electives on the courses webpage at [depts.washington.edu/epidem/courses](depts.washington.edu/epidem/courses))

- **School of Public Health Electives:** Two additional 500-level courses (2 or more credits each) in any department of the School of Public Health (including Epidemiology) or other UW courses with significant public-health content. (See acceptable electives in the appropriate degree requirements checklist at [depts.washington.edu/epidem/CurrentStudents](depts.washington.edu/epidem/CurrentStudents))

- 9 to 18 thesis credits (EPI 700)
Students may enroll in additional elective courses in epidemiology and other relevant departments, and for independent study (EPI 600) to bring the total to 60 credits. Public health-related 400-level coursework taken as a graduate student at the UW may count toward total credits with departmental approval. Coursework unrelated to public health and at the 300-level or below does not count toward the degree.

**MS Specialized Program Options:**

- **MS Clinical Research Track:** Requires specific coursework in place of most of the electives for the MS General Track. For specific requirements, visit the program website at depts.washington.edu/epidem/program/cr.shtml.

**Doctor of Philosophy**

The curriculum includes courses on epidemiologic methods, and biostatistics. Electives in substantive disease and exposure areas, as well as research methods, are required. Requisite general electives from the School of Public Health are also part of the curriculum.

**Degree Requirements**

Minimum 90 total credits:

1. Minimum reduced to 60 credits for students with a prior relevant master's degree (All course requirements must be satisfied even if more than 60 credits are needed to do so.)
2. 54 to 66 class credits
3. **Core Courses:** 32 graded credits including EPI 512, EPI 513, EPI 514, EPI 515, EPI 536 EPI 537, BIOST 517, BIOST 518. BIOST 511, BIOST 512, BIOST 513 may be substituted for BIOST 517-BIOST 518.
4. EPI 510, a prerequisite for EPI 514, is required for students without substantial SAS or Stata programming experience.
5. **Required Non-graded Courses:** EPI 528 (3), two quarters of EPI 584, EPI 588
6. Minimum three required epidemiology electives (minimum 2 credits each). (See acceptable electives in the appropriate degree checklist at depts.washington.edu/epidem/CurrentStudents/.)
7. Three additional electives (minimum 2 credits each) from any department of the School of Public Health, including Epidemiology, or other UW courses with significant public health content
8. Students are encouraged to take EPI 583 (1) each quarter of the first year and EPI 591 (1) each quarter after the first year.
9. **Dissertation:** 27 credits of EPI 800
10. The student's supervisory committee may require additional courses, including English language courses, to ensure that the student has adequate training in the area of epidemiology he or she is pursuing.
11. Additional epidemiology courses and EPI 800 credits, independent study (EPI 600), and courses with substantial public health content offered by other departments or schools (with permission), may be applied to the total PhD credits. Public health-related, 400-level coursework taken as a graduate student at the UW may count toward total credits with departmental approval. Coursework unrelated to public health, and at the 300-level or below does not count toward the degree.

Financial Aid

Research assistantships (RA) for work on various projects provide salary and tuition waivers for students working 20 hours a week. Although funding is not guaranteed with admission, many new PhD and a few master’s students find a research assistantship by the start of their first autumn quarter. Most doctoral students have found an RA by their second or third quarter in the program, and many master’s students do so by their second year, when they have more of the skills that faculty supervisors need. Research training stipends with partial tuition support are available on a limited basis, especially for more advanced doctoral students. Teaching assistantships are available competitively for second-year and higher-level students. More information is at http://depts.washington.edu/epidem/funding/index.shtml.

Research Facilities

University facilities include an excellent library system and access to computers. Many varied opportunities for field research and practica are provided in Seattle and elsewhere in the state and nation, at institutions such as Seattle Children's hospital, Fred Hutchinson Cancer Research Center, Group Health Research Institute, Harborview Medical Center, the Center for AIDS and STD, Public Health: Seattle-King County, Washington State Department of Health, VA Puget Sound Healthcare Systems, and many other local health institutions. Cooperating organizations focusing on global health also are available in Seattle and internationally. Additional, but not exhaustive, lists of cooperating agencies are at depts.washington.edu/epidem/research/Other_Institutions.shtml. A partial list of agencies and funding related to international health are listed at http://globalhealth.washington.edu/ghrc/funding-and-fieldwork.

Course Descriptions

EPI 201 Outbreak Investigation and Response (5) I&S/NW, QSR J. BASEMAN Provides an introduction to infectious disease outbreaks of both domestic and global significance. Students learn about outbreak detection, investigation and response activities and methodologies through a combination of lecture, case studies, homework, and popular media. Offered: Sp.

EPI 220 Sexually Transmitted Infections: Causes and Consequences (5) I&S/NW, QSR L. MANHART Examines the causes and consequences of sexually transmitted infections (STI). Discusses strategies to prevent STI with a focus on sexual and reproductive health. Explores new advances in STI epidemiology, treatment, and public health control. Offered: A.
EPI 221 Maternal and Child Health-a Population Health Approach (5) NW D. Enquobahrie
Provides a public health perspective of maternal and child health. Includes information on indicators of maternal, infant, and child health; risk factors for pregnancy complications, infant and child morbidity and mortality; and impact of maternal and child health on life course disease risk. Offered: A.

EPI 320 Introduction to Epidemiology (4) NW For the undergraduate student wishing to devote only one quarter to a course in epidemiologic methods. Description of ways in which variation in disease occurrence is documented and how that variation is studied to understand causes of disease. Prerequisite: either BIOST 310, QMETH 201, Q SCI 381, STAT 220, STAT/CS&SS/SOC 221, or STAT 311, any of which may be taken concurrently. Offered: WSp.

EPI 360 Exploring the HIV/AIDS Pandemic (5) I&S/NW, QSR J. BALKUS, S. HAWES Presents a comprehensive overview of the historical, public health, clinical, and biological aspects of HIV infection. Covers impact of AIDS on community and global health care and prospects for prevention and control. Offered: W.

EPI 499 Undergraduate Research (*) Offered: AWSpS.

EPI 505 Preventing Healthcare Associated Infections (1) Multidisciplinary approach to understanding, measuring, and developing policy to prevent healthcare associated infections. Credit/no-credit only. Offered: jointly with MED 540.

EPI 506 Surveillance Systems and Decision Making in Public Health (2) This course will introduce students to public health surveillance systems and decision-making based on surveillance data. A range of surveillance system types will be covered (e.g. foodborne illness, newborn screening, lead, emerging infectious diseases). Credit/no-credit only.

EPI 510 Epidemiologic Data Analysis (3) J. DELANEY, R. WINER Intended for students planning to take EPI 514. Introduces concepts and programming skills necessary to analyze data sets for case-control and cohort studies. Provides students hands-on experience in using epidemiologic data sets for stratified analyses with SAS and Stata. Prerequisite: EPI 511 or EPI 512. Credit/no-credit only. Offered: W.

EPI 511 Introduction to Epidemiology (4) Epidemiologic methods for non-epidemiology majors. F ocses on research designs and methods to describe distribution and determinants of disease and health events in populations; uses quantitative and biomedical information to infer whether causal relationships exist between potential causes and disease in populations. Offered: A.
EPI 512 Epidemiologic Methods I (4)  A. PHIPPS, A. ROWHANI-RAHBAR, N. WEISS
Considers principles and methods of epidemiology. Covers measures of disease frequency, descriptive epidemiology, overview of study designs, measures of excess risk, causal inference, screening, measurement error, misclassification, effect modification, and confounding. First in a two course sequence. Prerequisite: BIOST 511, which may be taken concurrently, or equivalent. Offered: A.

EPI 513 Epidemiologic Methods II (4)  A. PHIPPS, A. ROWHANI-RAHBAR, N. WEISS
Considers how epidemiologic studies may be designed to maximize etiologic inference. Covers infectious disease epidemiologic studies, randomized controlled trials, cohort studies, case-control studies, cross-sectional studies, ecological and multilevel studies, and selected topics such as meta-analysis. Second in a two course sequence. Prerequisite: EPI 512. Offered: W.

EPI 514 Application of Epidemiologic Methods (5)  S. HAWES, A. LITTMAN
Practical experience in analysis of data. Students analyze data sets currently on file using contemporary epidemiologic methods as taught in EPI 512 and EPI 513. Prerequisite: EPI 510 or experience in statistical programming; EPI 512, EPI 513, and epidemiology major. Offered: Sp.

EPI 515 Advanced Epidemiologic Methods I (3)  B. Guthrie
First in a series of 2 courses. Increases knowledge of epidemiological principles by introducing methodological approaches to handling common problems in epidemiologic research that extend beyond the scope of traditional methods. Prerequisite: EPI 514; and either BIOST 513, or BIOST 518. Offered: jointly with BIOST 519.

EPI 516 Advanced Epidemiologic Methods II (4)  B. GUTHRIE
Second of a series of 2 courses whose objective is to deepen students' knowledge of epidemiological principles by introducing methodological approaches to handling common problems in epidemiologic research that extend beyond the scope of traditional methods. Prerequisite: EPI 515. Offered: jointly with BIOST 520.

EPI 517 Genetic Epidemiology (3)  B. WEIR
Research methods for evaluating genetic influences on disease and risk factors and genetic-environmental interactions. Study designs and statistical methods include twin studies, family studies, population-based association studies, segregation analysis, and linkage analysis. Prerequisite: EPI 511, BIOST 511, and GENOME 371, or equivalent. Offered: jointly with PHG 511.

EPI 519 Research Methods and Current Topics in Cardiovascular Epidemiology (3)
Overview of epidemiologic research methods applied to current topics in cardiovascular and cardiometabolic health and disease in human populations. Covers pathophysiology; molecular, clinical, behavioral, and social risk factors; burden and disparities across and within populations nationally and globally; and public health interventions. Prerequisite: EPI 511 or EPI 512; BIOST 508, BIOST 511 or BIOST 517; or permission Credit/no-credit only.

EPI 520 Epidemiology of Infectious Diseases (3)  C. Khosropour
Infectious diseases from a public health perspective. Topics include analytic methods, study design, outbreak investigations, surveillance, vaccine evaluations, global eradication, screening, modeling, and
infectious causes of chronic diseases. Homework and discussion based on current examples from the published literature. Prerequisite: EPI 511, EPI 512, or permission of instructor.

**EPI 521 Epidemiology of Maternal and Child Health Problems ([3-4]-)**  
*D. ENQUOBAHRIE*  
Contributions to understanding and prevention of major maternal and child health problems, including pregnancy outcome, infant and child morbidity and mortality, maternal morbidity and mortality, abnormal child growth and development, and early-life factors in adult health problems. Prerequisite: graduate, medical, or dental school standing and EPI 511 or EPI 512 or permission of instructor. Offered: jointly with HSERV 542.

**EPI 522 Reproductive Epidemiology (3)**  
Focuses on female reproductive system conditions and diseases, non-birth pregnancy outcomes, and impact of pregnancy on later health. Presentation of current epidemiologic knowledge and discussion of methodologic issues on topics including the menstrual cycle; contraception; infertility; spontaneous and induced abortion; and uterine and ovarian disease. Prerequisite: either EPI 511, both EPI 512 and EPI 513, or permission of instructor.

**EPI 524 Cancer: Epidemiology and Biology (3)**  
*M. MADELEINE*  
Explores the epidemiology of major cancers (infection-related, breast, prostate, lung, colon, melanoma), with an emphasis on milestones in cancer mechanisms (such as tumor viruses, cell cycle, DNA repair, and metastasis). Integrates knowledge from different fields of cancer research, with guest lectures from experts in epidemiology and cancer biology. Prerequisite: either EPI 511 or EPI 512; either undergraduate biology coursework or instructor permission.

**EPI 527 Vaccines (3)**  
*A. WALD*  
Overview of issues in vaccine development, clinical trials, implementation of vaccination programs, and the role of vaccines in the control of infectious diseases. Emphasizes current issues and real-world challenges in the vaccine field and features critical reading of the literature.

**EPI 529 Emerging Infections of International Public Health Importance (3-)**  
Focuses on the nexus between emerging infections and increasing globalization of the world due to the mobility of people and goods. Examines emergent events through risk factors and associated macro changes implicated in their genesis. Reviews microbial evolutionary strategies and factors of emergence. Prerequisite: graduate standing. Offered: jointly with HSERV 536.

**EPI 530 AIDS: A Multidisciplinary Approach (2)**  
*C. FARQUHAR*  
Comprehensive overview of the public health, clinical, and laboratory aspects of human immunodeficiency virus (HIV) infection and disease. Topics include the pathogenesis, natural history, and management of HIV infections; the impact of HIV/AIDS on community and global healthcare; and prospects for prevention and control. Credit/no-credit only. Offered: jointly with G H 562/MED 530.

**EPI 531 Statistical Methods for Analysis with Missing Data (3)**  
*Chan*  
Covers statistical methods for the analysis of missing data, including likelihood-based, weighted GEE, multiple imputation, and Bayesian approaches. Uses computational tools such as EM algorithm and Gibbs' sampler. Covers both ignorable and non-ignorable missing-data mechanisms as well as
cross-sectional and longitudinal study designs. Primarily uses data arising from epidemiologic studies. Offered: jointly with BIOST 531.

EPI 532 Epidemiology of Infectious Diseases in Resource-Limited Countries (3) A review of major infectious disease problems of the developing world, including AIDS, malaria, tuberculosis, measles, and diarrhea, with an emphasis on public health control strategies.

EPI 533 Pharmacoepidemiology (3) Overview of pharmacoepidemiology including drug development and approval; application of epidemiologic methods to study drug safety and effectiveness; exploration of the interplay between research and public policy; introduction to resources for information about drugs; introduction to pharmacology principles pertinent to pharmacoepidemiology. Prerequisite: Health Sciences graduate student; either EPI 511 or both EPI 512 and EPI 513. Offered: jointly with PHARM 533.

EPI 535 Statistical Methods in Genetic Epidemiology (3) Theory and application of statistical techniques used in genetic epidemiology. Includes discussion of association studies, linkages and segregation analyses. Examples stressed with reference to assumptions and limitations. Prerequisite: either BIOST 513 or BIOST 518; PHG 511/EPI 517; or permission of instructor. Offered: jointly with BIOST 516/PHG 519.

EPI 536 Categorical Data Analysis in Epidemiology (4) Summary of univariate categorical data analysis; introduction to multivariate analysis of categorical epidemiologic and health sciences data using multiplicative models. Experience at interpretation; familiarity with available software programs gained by analysis of bona fide data and critiques of published analyses appearing in literature. Prerequisite: BIOST 515; EPI 513 and either BIOST 513 or BIOST 518; or permission of instructor. Offered: jointly with BIOST 536; A.

EPI 537 Survival Data Analysis in Epidemiology (4) Introduction to multivariate analysis of survival data using multiplicative models. Application to epidemiologic and health sciences studies. Familiarity with interpretation and available software computer programs gained by analysis of bona fide sets of data and critiques of published analyses appearing in the literature. Prerequisite: BIOST 536 or EPI 536. Offered: jointly with BIOST 537; W.

EPI 538 Nutritional Epidemiology (3) Application of epidemiological methods to studies of diet, nutrition, and chronic disease. A discussion of current issues and controversies enables students to design studies and read the literature in nutritional epidemiology. Prerequisite: EPI 511 or EPI 512 or instructor permission. Offered: jointly with NUTR 538.

EPI 539 Research and Evaluation Methods in Global Health (3-4) G. O'Malley, N. Puttkammer Provides an overview of a range of evaluation and research designs used in global health. Students learn practical methodologies to obtain, validate, and analyze information regarding health status, services, and programs. Discusses usefulness, validity, limitation of vital records, health reports, household (and cluster) surveys, and qualitative methods. Offered: jointly with G H 531; W.
EPI 540 **Bayesian Biostatistics (3)** Introduction to Bayesian methods for data analysis; Bayesian reasoning, prior elicitation, inference and decision making, and computation applied to biomedical research. Prerequisite: any course in statistics at the 400-level or higher or instructor's permission. Offered: jointly with BIOST 526/PHARM 526; Sp.

EPI 541 **Introduction to Systematic Reviews and Meta-Analysis of Evidence (3)** *F. Wolf* Conceptual understanding of the quantitative methods used to synthesize evidence. Methods for pooling evidence across independent studies, pooling binary/continuous outcomes, differences between fixed and random effects models, and guidelines for appraising published systematic reviews/meta-analyses. Prerequisite: either introductory level courses in statistics, epidemiology, or biostatistics or permission of instructor. Offered: jointly with BIME 541/HSERV 529/PHARM 529.

EPI 542 **Clinical Epidemiology (2)** *Weiss* Principles and methods involved in studying the outcome of illness. Prerequisite: EPI 511, or EPI 512 and EPI 513.

EPI 546 **Psychiatric Epidemiology (3)** *A. Vander Stoep* Using epidemiological methods to study mental illness. Topics include contributions of mental illness to global disease burden; major population-based studies of mental illness; measurement of psychopathology; culture and mental illness; role of neurodevelopment, genetics, social and physical environment in etiology of mental disorders; mental health services research. Prerequisite: either EPI 511, EPI 512, HSERV 591, or permission of instructor. Credit/no-credit only. Offered: jointly with PBSCI 546.

EPI 547 **Social Determinants of Population Health and Health Disparities (3)** Explores the elements and actions of a population health approach, including conceptualizing the determinants of health, synthesizing knowledge about major social determinants, and applying knowledge to improve population health and reduce health disparities. Enrollment priority for Health Services PhD students. Prerequisite: HSERV 511, permission of instructor. Offered: jointly with HSERV 514.

EPI 548 **Research Methods for Social and Contextual Determinants of Health (3)** *A. Hajat* Explores study-design, measurement, analytic, and interpretation issues applicable to research on social and contextual determinants of health and health disparities. This lecture/seminar course is offered to graduate students with knowledge of epidemiologic and biostatistical principles who are interested in understanding complex relationships between social/contextual factors and health. Prerequisite: EPI 511 or EPI 512/513; and BIOST 511/512/513 or BIOST 517/518. Credit/no-credit only. Offered: jointly with HSERV 548; W.

EPI 549 **HIV/STI Prevention Research Methods (3)** *R. Heffron, A. Roxby* Focuses on current research and implementation of HIV/STI prevention including biomedical, behavioral, and public health interventions. Includes analyzing strength of research evidence to support novel interventions, understanding key features of study design, and applying interventions that are most appropriate and feasible for specific settings and populations. Offered: jointly with GH 563.

EPI 554 **Introduction to Epidemic Modeling for Infectious Diseases (3)** *R. Barnabas* Covers the basic tools for building and analyzing mathematical models of infectious disease
epidemics. Model types include deterministic and stochastic models, compartmental and individual-based models. Laboratory provides hands-on model building experience in Excel, Stella, and R.

**EPI 555 Statistical Methods for Spatial Epidemiology (3)** Motivates the need for, and describes methods for the analysis of spatially indexed epidemiological data. Covers four major topics: clustering and cluster detection, disease mapping, spatial regression, and an introduction to geographical information systems. Considers both point-references and spatially aggregated data. Offered: jointly with BIOST 555/G H 534.

**EPI 556 Advanced Methods for Global Health III (4) R. Reiner, B. Wagenaar** Introduces advanced methods for quantitative evaluation approaches in global health. Topics include process evaluations, global health data systems, selecting appropriate study designs, cluster randomized trials/extensions of common randomized designs, and quasi-experimental designs such as difference-in-differences, interrupted time-series, and regression discontinuity. Prerequisite: EPI 512 and EPI 513; BIOST 517 and BIOST 518 (or equivalent statistics courses). Offered: jointly with BIOST 525/G H 537; Sp.

**EPI 570 Occupational and Environmental Epidemiology (3)** Research in occupational and environmental determinants of disease. Defining exposed populations, characterizing exposure levels, estimating disease risks relative to exposure. Cohort, case-control, cross-sectional designs for various health outcomes. Applications to exposure standard setting and risk assessment. Prerequisite: EPI 511 or EPI 512, EPI 513 or permission of instructor. Offered: jointly with ENV H 570.

**EPI 571 Neuroepidemiology and Environmental Risk Factors (3) W. Kukull** Focuses on neurologic diseases and etiology. Presentation of descriptive epidemiology, clinical features, and risk factors, including stroke, Parkinson's disease, Alzheimer's disease, multiple sclerosis, and other disorders. Discussion of NIH grantsmanship. Guest experts present some topics. Psychiatric disorders e.g. schizophrenia, autism spectrum disorders, and depression will not be discussed. Offered: jointly with ENV H 571.

**EPI 582 Design and Analytic Strategies to Enhance the Validity of Epidemiologic Studies (2)** Weiss Discusses the issues that led to specific methodologic developments during the past 30 years, along with a characterization of these developments and the consequences of their application. Prerequisite: EPI 512; EPI 513. Credit/no-credit only.

**EPI 583 Epidemiology Seminar (1, max. 12)** Presentation of current epidemiologic research and application of epidemiologic research in the practice of public health. Offered: AWSp.
EPI 584 Doctoral Dissertation Seminar (1, max. 2) A. FITZPATRICK, N. WEISS Forum for Epidemiology doctoral students to obtain information for doctoral research, including: project ideas; forming a committee; developing a proposal; conducting the project; and presenting results. Prerequisite: EPI 512 and EPI 513, admission to the PhD program, successful completion of the preliminary examination, or second-year status. Credit/no-credit only.

EPI 585 Injury and Violence: A Public Health Approach (3) Focuses on broad concepts including a conceptual model, surveillance, research methods, control and prevention of injuries. Topics include unintentional injuries from motor vehicle crashes, falls, drowning, sports injuries and intentional injuries from youth violence, intimate partner violence, homicide and suicide.

EPI 586 Responsible Conduct of Research: Global and Local (3) A. Drake, C. Farquhar Prepares international and U.S. students to develop research proposals; conduct international and domestic field research; and present scholarly work. Credit/no-credit only. Offered: jointly with G H 532; A.

EPI 588 Preparing, Writing, and Critiquing Scientific Research Proposals (2-3) A. FITZPATRICK, L. KESSLER Experience in preparing, organizing, and writing research proposals, following NIH and AHRQ guidelines. Includes weekly assignments and didactic exercises, leading to final research proposal. All students participate in mock study section to review and critique proposals. Prerequisite: second-year graduate student (PhD recommended), or PhD or MD in health-related field. Credit/no-credit only. Offered: jointly with HSERV 578.

EPI 590 Selected Topics in Epidemiology or International Health (1-6, max. 6) Tutorials arranged for a small number of students for in-depth examination of an area of epidemiology or international health, usually of current nature. Seminar format. Prerequisite: EPI 511. Also a special summer format presenting introductory material. May be offered with ENV H 590 and/or HSERV 590. For more information and permission, consult department program adviser.

EPI 591 Current Literature in Epidemiology (1, max. 15) Articles pertaining to epidemiology and related subjects selected from the current literature to be distributed and read by all participants. Faculty members and enrolled students alternate being responsible for conducting sessions and choosing articles to read. Prerequisite: EPI 513. Credit/no-credit only. Offered: AWSp.

EPI 592 Program Seminars (1-6, max. 16) Graduate seminars organized to address specific educational needs of students in various specialized programs within the Department of Epidemiology (i.e., Maternal and Child Health). Prerequisite: permission of instructor.

EPI 593 Cancer Prevention Research Laboratory (3, max. 24) Research experience for pre- and post-doctoral students working on cancer prevention projects at the Fred Hutchinson Cancer Research Center. Credit/no-credit only. Offered: AWSpS.

EPI 594 Field Epidemiology: Student Epidemic Action Leaders Team (1-2, max. 8) J. BASEMAN Introduces applied epidemiology in public health practice, specifically in areas of
outbreak investigation, public health preparedness and response. Includes fieldwork opportunities. Offered: AWSpS.

**EPI 595 Epidemiology Master's Practicum (1-6, max. 6)** Supervised practice experience providing students an opportunity to learn how epidemiology is applied in a public health setting and in the formulation and application of public health policy. Prerequisite: EPI 512 and BIOST 511 or equivalent and permission of instructor. Credit/no-credit only. Offered: AWSpS.

**EPI 600 Independent Study or Research (**) Prerequisite: permission of independent study supervisor. Credit/no-credit only. Offered: AWSpS.

**EPI 700 Master's Thesis (**) Prerequisite: permission of thesis chair. Credit/no-credit only. Offered: AWSpS.

**EPI 800 Doctoral Dissertation (**) Prerequisite: permission of dissertation chair. Credit/no-credit only. Offered: AWSpS.
Health Services

Department Overview

H664 Magnuson Health Sciences Center, Box 357600

The mission of the Department of Health Services is to work with partners in public health and healthcare to prepare leaders, design solutions, and conduct innovative research that translates into practice and policy. The department offers rigorous academic preparation that integrates learning, service, and research opportunities, emphasizing practical experience and student-faculty collaboration. Through this approach, students master competencies needed for success.

The department offers rigorous academic preparation that integrates learning, service, and research opportunities, emphasizing practical experience and student-faculty collaboration. Through this approach, students master competencies needed for success.

Bachelor's and master's degrees are available in public health, health services administration, health information management, and health services research. Additionally, doctorate and postdoctoral opportunities are available in health services research.

Undergraduate Program

Adviser
UW Tower, Box 359455
206-543-8810
hihim@uw.edu depts.washington.edu/hihim

Health Informatics and Health Information Management (HIHIM) offers both a Bachelor of Science degree and a postbaccalaureate certificate. Both the degree and certificate program require 65 credits, which may be completed in either one or two academic years.

Bachelor of Science

Suggested First- and Second-Year College Courses: Human anatomy and physiology (laboratory course); statistics; medical terminology; English composition; technical writing; interpersonal communication; public speaking; and distribution of general education and Areas of Knowledge courses

Admission Requirements

Admission is competitive. Admission is for summer quarter.
Early Admission

1. Application for early admission submitted between November and February 15
2. All courses required for admission must be completed at the time of application:
   a. Statistics
   b. Human anatomy and physiology (laboratory preferred)
   c. Medical terminology: Available at various community colleges. (UW students who take CLAS 205 must contact the HIHIM Department for completion information.)
3. Minimum 90 transfer or UW credits completed at time of application
4. Transfer applicants apply to UW Admissions for summer quarter and also submit the HIHIM application to the HIHIM Department.
5. Current UW students submit the HIHM application to the HIHIM Department.
6. Returning UW students (one or more quarters of non-enrollment) submit the returning student application to the UW Registrar's Office and the HIHIM application to the HIHIM Department.
7. Acceptance to the one-year schedule is competitive.
   a. Minimum 115 earned UW or transferable credits
   b. Basic skills and Areas of Knowledge completed by the start of summer quarter
8. Grades
   a. Minimum cumulative 2.50 overall GPA
   b. Minimum cumulative 2.50 GPA in courses required for admission
   c. Minimum 2.0 grade in each course required for admission

Regular Admission

1. Application for regular admission submitted mid-January to April 15
2. Priority given to applicants with all courses completed at time of application:
   a. Statistics
   b. Human anatomy and physiology (laboratory preferred)
   c. Medical terminology: Available at various community colleges. (UW students who take CLAS 205 must contact the HIHIM Department for completion information.)
3. Minimum 90 transfer or UW credits completed at time of application
4. Transfer applicants apply to UW Admissions for summer quarter and also submit the HIHIM application to the HIHIM Department.
5. Current UW students submit the HIHM application to the HIHIM Department.
6. Returning UW students (one or more quarters of non-enrollment) submit the returning student application to the UW Registrar's Office and the HIHIM application to the HIHIM Department.

7. Acceptance to the one-year schedule is competitive.
   a. Minimum 115 earned UW or transferable credits
   b. Basic skills and Areas of Knowledge completed by the start of summer quarter

8. Grades
   a. Minimum cumulative 2.50 overall GPA
   b. Minimum cumulative 2.50 GPA in courses required for admission
   c. Minimum 2.0 grade in each course required for admission

**Major Requirements**

65 credits

1. HIHIM 407, HIHIM 408, HIHIM 409, HIHIM 410, HIHIM 412, HIHIM 413, HIHIM 420, HIHIM 421, HIHIM 450, HIHIM 454, HIHIM 455, HIHIM 460, HIHIM 462, HIHIM 470, HIHIM 480

2. Minimum 2.0 cumulative and minimum 2.0 grade in all courses applied to the major

In addition to major requirements shown above, students complete the general education requirements for the School of Public Health.

For additional information on application and program completion requirements, visit the [Health Informatics and Health Information Management program website](#).

**Continuation Policy**

All students must make satisfactory academic progress in the major. Failure to do so results in probation, which can lead to dismissal from the major. For the complete continuation policy, contact the departmental adviser or refer to the department website.

**Postbaccalaureate Certificate**

**Admission Requirements**

Admission is competitive. Admission is for summer quarter.

**Early Admission**

1. Baccalaureate degree from an accredited college or university with a minimum 2.50 cumulative GPA.

2. Application submitted between November and February 15
3. Courses, as indicated below, completed at the time of application
   a. Human anatomy and physiology (laboratory course)
   b. Statistics (any discipline)
   c. Medical terminology

   Requisite professional knowledge and skills pertaining to human anatomy and physiology; basic computer applications such as spreadsheets, data bases, word processing, or introductory programming; principles of management; statistics (any discipline); and medical terminology may be considered on a case-by-case basis.

4. Grades
   a. Minimum overall 2.50 cumulative GPA
   b. Minimum 2.0 grade in each course required for admission
   c. Minimum 2.50 cumulative GPA in courses required for admission

Regular Admission
1. Baccalaureate degree from an accredited college or university with a minimum 2.50 cumulative GPA.
2. Application submitted mid-January to April 15
3. Courses required for admission. (Priority given to applicants with all courses completed at the time of time of application.)
   a. Human anatomy and physiology (laboratory course)
   b. Statistics (any discipline)
   c. Medical terminology

   Requisite professional knowledge and skills pertaining to human anatomy and physiology; basic computer applications such as spreadsheets, data bases, word processing, or introductory programming; principles of management; statistics (any discipline); and medical terminology may be considered on a case-by-case basis.

4. Grades
   a. Minimum overall 2.50 cumulative GPA
   b. Minimum 2.0 grade in each course required for admission
   c. Minimum 2.50 cumulative GPA in courses required for admission

Certificate Requirements
65 credits
1. HIHIM 407, HIHIM 408, HIHIM 409, HIHIM 410, HIHIM 412, HIHIM 413, HIHIM 420, HIHIM 421, HIHIM 450, HIHIM 454, HIHIM 455, HIHIM 460, HIHIM 462, HIHIM 470, HIHIM 480
2. Minimum 2.0 cumulative and minimum 2.0 grade in all courses applied to the certificate

For additional information, visit the Health Informatics and Health Information Management website.

Student Outcomes and Opportunities

- **Learning Objectives and Expected Outcomes:** The bachelor's degree program is designed to prepare individuals for careers in the management and use of healthcare information, and prepares students for the Registered Health Information Administrator (RHIA) national certifying examination of the American Health Information Management Association. The program gives students the tools to work in a wide variety of healthcare positions upon graduation, including health information management, health informatics with emphasis on electronic health records, healthcare quality improvement, decision support analysis, research, health insurance, and consulting. Graduates pass a national credential examination, with a majority working within the health information management field.

- **Instructional and Research Facilities:** None

- **Honors Options Available:** None

- **Research, Internships, and Service Learning:** Students complete two internships, one of which is the capstone project.

- **Department Scholarships:** None

- **Student Organizations/Associations:** Students are invited to join the health information management professional association at reduced rates.

Graduate Program

Graduate Program Coordinator
206-616-2926
hservmph@uw.edu

The Department of Health Services offers a two-year graduate program in health services leading to the Master of Public Health or Master of Science degree. The MPH degree prepares future health practitioners, managers, and researchers to conduct the unfinished work of improving the well being of communities in the United States and throughout the world. Graduates take jobs in health system management, health program design and evaluation, health promotion, public health practice, and policy analysis. Among other options, the department offers an MPH in community-oriented public health practice (COPHP). This program uses problem-based learning methods, and integrates classroom instruction and experiential fieldwork to prepare students to work in community and public health practice settings. Students may also pursue any of the MPH specialty options. The department also offers a three-year extended degree program in
community health management, leading to the MPH degree for employed professionals working fulltime.

The department also maintains primary responsibility for the graduate program in Health Services Administration (an interdisciplinary degree-granting program of the Graduate School described in the Interdisciplinary Graduate Degree Programs section of this catalog). In addition, an executive version of the traditional MHA degree, designed for mid-career healthcare professionals, is offered. The MHA degree provides full academic preparation for careers in management and policy positions in health systems, hospitals, medical groups, health plans, and other types of healthcare organizations.

The department, in conjunction with UW Professional and Continuing Education, offers a fee-based master's degree in Health Informatics and Health Information Management.

The department offers a PhD in health services and participates in the training of doctoral fellows.

**Master of Public Health**

For current listings of MPH options and their requirements, see the [MPH program website](#).

**Admission Requirements**

1. One set of official transcripts from all institutions of higher learning
2. Official scores from the general Graduate Record Examination (GRE) (required for applicants who have not already earned a doctoral-level degree from a U.S. institution of higher learning)
3. Test of English as a Foreign Language (TOEFL) scores, if applicable.
4. Written statement, including a description of the applicant's professional background, career goals, and educational objectives
5. Three recent letters of recommendation, preferably from former supervisors and teachers.
6. An in-person or telephone interview with a Health Services faculty person is highly recommended. Complete application details can be viewed at [depts.washington.edu/hservmph/admission](#).

**Degree Requirements**

63 credits for each program (specialty option) listed below. For detailed requirements, see [depts.washington.edu/hservmph](#).

**Community-Oriented Public Health Practice Program**

63 credits, to include:

1. Problem-based learning (PBL) core curriculum - 36 credits
2. Integrated fieldwork - 6 credits (first year)
3. Seminars - 6 credits
4. Capstone project - 9 credits (second year)
5. Electives - 6 credits from School of Public Health and Community Medicine and other schools/colleges at the UW, as appropriate

**Health Systems and Policy**

63 credits, to include:

1. At least 30 credits from graduate-level courses, of which at least 18 credits are from Health Services courses.
2. 3 credits - practicum
3. Thesis or capstone project: 9 credits

**Maternal and Child Health**

63 credits, to include:

1. At least 30 credits from graduate-level courses, of which at least 18 credits are from Health Services courses.
2. Practicum: 3 credits
3. Thesis: 9 credits

**Social and Behavioral Sciences**

63 credits, to include:

1. At least 30 credits from graduate-level-in-classroom courses of which at least 18 credits are from Health Services courses.
2. Practicum: 3 credits
3. Thesis: 9 credits

**Master of Health Administration**

See UW General Catalog listing at [www.washington.edu/students/gencat/academic/health_services_administration.html](http://www.washington.edu/students/gencat/academic/health_services_administration.html).

**Master of Science**

**Admission Requirements**

For current information, see the [MS program website](http://www.washington.edu/students/gencat/academic/health_services_administration.html).
1. One set of official transcripts from all institutions of higher learning
2. Official scores from the general Graduate Record Examination (GRE) (required for applicants who have not already earned a doctoral-level degree from a U.S. institution of higher learning)
3. Test of English as a Foreign Language (TOEFL) scores, if applicable
4. Written statement, including a description of the applicant's professional background, career goals, and educational objectives
5. Three recent letters of recommendation, preferably from former supervisors and teachers
6. An in-person or telephone interview with a Health Services faculty person is highly recommended

**Degree Requirements**

Minimum 63 credits, to include:

1. At least 30 credits from graduate-level courses, of which at least 18 are from Health Services courses
2. Participation in a program research seminarEither HSERV 587, HSMGMT 513, or HSMGMT 514
3. Thesis: 9 credits

**Master in Health Informatics and Health Information Management**

The Master of Health Informatics and Health Information Management (MHIHIM) program prepares individuals for leadership in health informatics and technology, enterprise information management, and health administration. The curriculum pairs advanced health informatics and health information management courses with master of health administration courses.

The program trains professionals from the fields of health information management, health administration, business, information technology, and healthcare, to strategically lead, develop, and direct health information initiatives and systems. Graduates are prepared to take on senior management roles in this rapidly growing segment of the industry. The program prepares graduates for work in diverse healthcare delivery systems, such as hospitals, clinics, consulting and vendor organizations, and government agencies.

The MHIHIM program develops professionals who understand and assess the delivery system landscape and the growing role of enterprise information governance, technology drivers, and changing requirements for sharing health and patient information through exchange practices.

The curriculum enables students to build and enhance current strengths and acquire new skills. Students study comprehensive management strategies and apply practical methods in planning, analyzing, and manipulating health data to meet institutional needs and resource management. Students address data and technology management policies and tools. They learn to market, design, sponsor, and apply problem solving techniques to complex situations. In addition,
students expand their collaboration and communication skills to participate in, and lead, high level leadership teams. Team-based learning, capstone projects, and involvement from healthcare community leaders, are all program hallmarks.

MHIIHIM classes convene in Bellevue, Washington, for a three-day period (Thursday through Saturday) once each month for 21 months. Additionally once each week faculty lead students in a web-based session, ideal for practicing professionals who plan to continue their careers while gaining a graduate degree.

The program operates under a fee-based structure and is administered in collaboration with UW Professional & Continuing Education. Complete application details can be viewed at http://www.health-informatics.uw.edu/admissions/application-details/.

Financial Aid

Students are eligible for federal financial aid, as well as most other types of financial support that are not funded by state tuition revenues. When exploring financial aid options, students should emphasize they are applying for a fee-based program. Financial aid questions should be directed to the UW Office of Student Financial Aid 206-543-6101, osfa@uw.edu.

Doctor of Philosophy

For the most current information, visit the PhD program website.

Admission Requirements

Admission priority is given to applicants who have graduated from a master's program with high academic standing. Applicants who have a bachelor's, master's, or professional degree in a field related to health services are given preferential review. Students with only a bachelor's degree are occasionally admitted. Applicants with relevant research experience and publications are the most competitive.

Students admitted to the program generally have GRE scores in or above the 75th percentile.

International applicants must submit the results of the Test of English as a Foreign Language (TOEFL), unless they meet UW criteria for waiving the requirement. Scores must show high English language proficiency. A minimum score of 580 (paper based) or 237 (computer based) on the TOEFL is required to be considered for admission to the UW.

Degree Requirements

100 credits minimum, as follows:

1. Required core competencies (35 credits): HSERV 512, HSERV 513, HSERV 514, HSERV 523, HSERV 524, HSERV 525; one of the following: HSMGMT 514, HSERV
587, or ECON 500; HSERV 522; BΙΟΣΤ 517, BΙΟΣΤ 518, or BΙΟΣΤ 511, BΙΟΣΤ 512, BΙΟΣΤ 513, or BΙΟΣΤ 514, BΙΟΣΤ 515; EΠΙ 512, EΠΙ 513

2. **Area of emphasis:** Five courses or 15 credits in an area of emphasis. Suggested areas of emphasis: economics or finance; health behavior and health promotion; occupational health; cancer prevention and control; evaluation sciences; population health - the social determinants; global health; maternal and child health; sociology/demography; bioinformatics. For a customized area of emphasis, specific courses taken are selected by the student and the adviser, based on the student's past coursework, experience, proposed dissertation topic, and future career goals.

3. Doctoral courses in advanced theory and methods in health services: 50 credits, including a minimum of 30 dissertation credits

4. Written preliminary examination

5. Written and oral general examinations

6. Dissertation

7. Dissertation defense (final examination)

**Financial Aid**

Every attempt is made to ensure that students admitted are not prevented from pursuing graduate studies because of inadequate finances. Some fellowships, assistantships, scholarships, and loans are available each year.

**Research Facilities**

In addition to using University facilities, the program has extensive links with community healthcare delivery systems and agencies for research and training.

**Executive MPH**

Graduate Program Coordinator  
H674 Health Sciences, Box 357660  
206-685-7580

For current information, see the [Extended MPH program website](#).

The Executive MPH degree program is a part-time, partial distance learning program delivered through a combination of intensive four-week summer sessions on the University campus, directed independent study, and four intensive weekend seminars during the academic year. The program is designed for mid-career public and community health professionals with three or more years of experience related to public health. The program provides knowledge and skills required at mid- and upper-level practice and management positions for health professionals. In addition to the core courses in health services, epidemiology, biostatistics, and environmental health, the prescribed coursework includes a broad exposure to the health-care system plus specific management training in budgets, finance, personnel management, economics,
organization theory, and program planning and evaluation. Pathways are available in health education, maternal and child health, public health practice, and oral health.

The Executive MPH degree program provides training in developing skills in the scientific base of public health, analytic methods, management and communication, and policy and advocacy, as well as training in cross-cutting issues. Graduates apply their skills directly to their careers.

**Admission Requirements**

1. Current employment in a public health-related agency preferred
2. Minimum three years experience in community, public, or environmental health-related field
3. Baccalaureate degree from an accredited college or university
4. Minimum 3.00 GPA in the last graded 90 quarter/60 semester hours
5. Graduate Record Examination (GRE) scores, taken within 6 years. (Applicants with MD, DO, or PhD degrees from an accredited U.S. college or university may waive the GRE requirement.)

**Degree Requirements**

63 credits minimum, as follows:

1. **Year 1 Required Courses:** BIOST 502, EPI 511, HSERV 501, HSERV 516, HSERV 520, HSMGMT 560
2. **Year 2 Required Courses:** BIOST 503, ENV H 511, HSERV 504, HSERV 522, HSMGMT 514, HSMGMT 563
3. **Year 3 Required Courses:** HSMGMT 566 (3), HSMGMT 572 (3)
4. **Thesis or Project Option:** HSERV 700 (master's thesis) or HSERV 598 (project); EPI 600/ENV H 600
5. **Practicum (required):** focus based on pathway choice
6. **Elective or Pathway Credits (required):** pathway courses may be spread out over two years. Electives may be taken at any time.

**Course Descriptions**

**Health Informatics and Health Information Management**

**HIHIM 400 Health Care Language for Health Informatics and Information Management** (3) Designed for HIHIM majors to compile a working vocabulary in health care and to explain clinical documentation. Strengthens student competence to read/write/comprehend and speak the language used by health providers/administrators. Employs a variety of tools (reading, writing, listening exercises; electronic health record documents/case studies; mini-lectures on body
systems). Practices written and verbal communication to achieve proficiency. Prerequisite: BIOL 118 and BIOL 119 Offered: A.

**HIHIM 405 Introduction to Health Data Analytics (3)** Covers the process of and tools used in evaluating data using analytical and logical reasoning to examine each component of the health data. Offered: jointly with BIOST 405.

**HIHIM 407 Foundations for Healthcare Vocabularies (3)** Focuses on health concepts, documentation, healthcare taxonomies, and clinical vocabularies, terminologies, classifications, and nomenclatures required for health data analysis, clinical coding, and clinical systems associated with the electronic health record.

**HIHIM 408 Management Concepts with HIM Applications (4)** Covers management principles from a health information management perspective and core management functions of planning, organizing, staffing, delegating, leading, and controlling; theories of management, both traditional and contemporary; leadership concepts in HIM; change management; human resource management; employment law; performance management, and HIM organizational structure.

**HIHIM 409 Disease Concepts for Managers (4)** Develops a methodology for understanding and communicating dimensions of disease states as all health state that a person might experience. Presents clear, effective ways to describe the diversity of health conditions and focuses on disease from a health information systems perspective.

**HIHIM 410 Foundations in Health Information Management (4)** Focuses on the basic of health information through study of the creation and maintenance of health records, access to and retention of health information, accreditation, licensure and professional standards in acute care hospitals and alternate care facilities.

**HIHIM 411 Health Data Management (3)** Addresses the governance and management of healthcare data through exploration of data assets and linking the assets to standards and quality.

**HIHIM 412 Healthcare Coding (5)** Covers healthcare coding principles for International Classification of Diseases (ICD) and Current Procedural Terminology (CPT) code sets used in diagnosis and procedure code assignments for research and reimbursement by healthcare providers in all settings. Prerequisite: HIHIM 409.

**HIHIM 413 Revenue Cycle Management (3)** Covers the revenue cycle management of health information administration.

**HIHIM 414 ICD, Clinical Documentation and Revenue Management (3)** In depth study of ICD code sets for diagnosis and procedure coding, clinical documentation to support ICD code assignment, and reimbursement methodologies which use the ICD code set to determine payment models.

**HIHIM 415 CPT/HCPCS, Clinical Documentation and Revenue Management (5)** In depth study of CPT/HCPCS code sets for procedure coding, clinical documentation to support
CPT/HCPCS code assignment, and reimbursement methodologies which use the CPT/HCPCS code sets to determine payment models.

HIHIM 420 Healthcare Computer Systems and Electronic Health Records (5) Current health information systems and the role of health informatics; technology infrastructure and health informatics standards, electronic health records, definitions, functions, issues, and barriers; hospitals, ambulatory care, home health and long-term care and computer applications. Prerequisite: HIHIM 410; HIHIM 411.

HIHIM 421 Health Information Systems Analysis (5) Examines lifestyle systems development process and tools, project management and team coordination, analysis of health information systems, and user requirements. Prerequisite: HIHIM 420.

HIHIM 425 Research Design and Statistics for HIHIM (3) Explores healthcare and research statistics. Addresses hospital statistics, used to calculate usage levels of healthcare resources and outcomes of clinical operations, and research statistics, used to summarize and describe significant characteristics of a data set, and to make inferences about a population based on data collected from a sample. In addition, principles of research are described, including the Institutional Review Board process. Offered: jointly with BIOST 406/STAT 406.

HIHIM 450 Healthcare Delivery and Policy (3) Addresses the organization of healthcare services across the spectrum of healthcare delivery systems - both governmental (federal, state, local) and private. Financing of healthcare services and related policy issues are explored.

HIHIM 455 Professionalism and Leadership (4) Professional development, leadership assessment and ethics, interpersonal skills and effective communication, and human resource management requirements.

HIHIM 456 Quality Assurance and Research in Healthcare (5) Quality improvement, risk management, and utilization management in healthcare; design and analysis of quality improvement systems, including use of data systems in quality assurance and research; health data retrieval, analysis and presentation, and review of relevant healthcare informatics research. Prerequisite: statistics; medical terminology.

HIHIM 460 Professional Pathways (3) Explores the development of management skills and competencies, and a seminar through site experience in healthcare facilities with campus and clinical faculty. Prerequisite: HIHIM 410

HIHIM 461 Professional Development and Networking (2) Addresses the professional portfolio and mentoring, and preparation for the national credentialing examination for Registered Health information Administrator (RHIA).
HIHIM 462 Capstone Project (5) Explores applied management using a formal capstone project in a healthcare setting. Prerequisite: HIHIM 460.

HIHIM 470 Legal Concepts for Health Fields (3) Examines principles of law as applied to the health field, with reference to health information management.

HIHIM 480 HIM Operations and Project Management (5) Provides the tools and experiences useful for health informatics and information management professionals in the daily functions and activities of a HIM department, and in the controlling the activities of a health care project.

HIHIM 490 Special Topics (1-5, max. 15)

HIHIM 499 Independent Study (1-5, max. 5)

HIHIM 508 Health Information Management systems and Leadership (3) Provides a high level framework of health informatics and health information management practice. Covers practice related systems with emphasis on enterprise information governance, patient record organization, content and structure, and associated enterprise business functions and processes to provide foundation for understanding the practice. Offered: A.

HIHIM 509 Introduction to Health Informatics (3) Healthcare is one of today's most information-intense industries. Yet healthcare delivery organizations have been slow to adopt advanced health information technology (HIT). It is imperative that future health care leaders have a deep understanding of and belief in HIT spanning the spectrum of health delivery systems.

HIHIM 510 Enterprise Systems and Electronic Health Records (3) Covers industry drivers, development, compliance framework, and certification of electronic health record systems status and operations addressed through strategic decision making and leadership: data movement among enterprise clinical, business, administrative systems to legal health record; and barrier and benefit assessment within major institutional culture and technology initiative changes. Offered: A.

HIHIM 520 Law, Policy, and Ethics in Health Information (3) Explores the laws, policies, and issues involved in oversight and management of health data and health information systems. Defines the legal health record and the requirements, role, and uses. Covers the legal and ethical framework, issues and concepts, and the role of e-discovery on the emerging health data environment. Offered: W.

HIHIM 535 Clinical Vocabularies and Terminologies (3) Covers clinical terminologies, classifications, and mapping, which provides information on taxonomies and metadata, information objects, and classification theory in organizing information in an electronic system. Includes current initiatives in terminologies and data mapping in electronic health record systems. Offered: S.

HIHIM 540 Consumer Health Informatics (3) Covers community and consumer health informatics associated with health services provides; electronic health records that address internal and external standards; accreditation and regulatory requirements needed to provide quality care; and health information exchange from policy to implementation. Offered: A.

HIHIM 550 Health Care Information Governance (3) Covers the conceptualization, design, and management of data initiatives and knowledge needed by the healthcare enterprise. Reviews data integrity principles and guidelines to determine methodology for evaluation development and management of internal and external information requirements. Offered: W.

HIHIM 552 Healthcare Business Intelligence (3) Examines business and enterprise data used to inform enterprise healthcare business intelligence and decision making to underpin and meet strategic and operational business goals and objectives. Performance metrics, business data analytics, data mining, predictive modeling, business process modeling, data visualization and other tools used to enable healthcare program and product performance assessment are featured. Offered: A.

HIHIM 555 EHR/HI Systems Operations and Improvement (3) Addresses leadership and management of an organization's health information assets that are required as the nation transitions to interoperable health information systems. Offered: A.

HIHIM 556 Healthcare Quality and Technology (3) Explores the current healthcare environment related to healthcare safety issues. Examines an overview of major health and safety challenges and responses; focusing on the impact of the issues in improving health and safety in healthcare and information resources needed. Offered: Sp.

HIHIM 560 Special Topics in Health Informatics (3) Presents problem solving opportunities on health industry information issues, strategies and unmet challenges. Topics reflect the current state, progress, and future expectations faced by healthcare and health information managers.

HIHIM 598 Project Management (3) Focuses on applying leadership readiness at the enterprise level; informatics and information governance challenges; research and project management resources; communication management strategies; and the impact of technology from management oversight to health services delivery. Offers an opportunity to practice a key
role of leadership: transforming organizational culture by effective implementation of change. Offered: W.

**HIHIM 599 Capstone Project (3)** Provides a practice-based problem solving experience that draws on health informatics and information management; health industry knowledge; leadership and management strategies; and applies project management skills to design, plan, and implement a management project in healthcare and healthcare related organizations. Offered: S.

**Health Services**

**HSERV 100 Personal and Public Health (3) I&S** Provides an overview of the key components of health and wellness. Presents a balance between individual responsibility and social determinants of public health, emphasizing a holistic preventative model. Incorporates self-assessment and considers the impact of personal, family, social, cultural, and environmental factors on health.

**HSERV 204 Communicating about Health: Current Issues and Perspectives (3)** Provides an overview of health communication topics and perspectives for students who are interested in pursuing careers in the health industry and those with a research interest in health communication such as caregivers, health care administrators, marketing and public relations professionals, media planners, public health promoters, and educators, researchers and others. Offered: WSp.

**HSERV 230 Sleep and Population Health (3) NW/I&S M. Garrison** Examines the role of sleep in population health, including risk factors and short and long-term consequences for inadequate sleep. Expands understanding of sleep science and how sleep can function as not only an outcome, but also as a predictor, mediator, confounder, and effect modifier of health outcomes and disparities. Also explores established and emerging sleep interventions and their potential to improve population health outcomes. Offered: W.

**HSERV 290 Special Topics (1-6, max. 12) I&S** Explores current or evolving areas of interest in public health.

**HSERV 343 Health Behavior and Health Promotion (5)** Introduction to health behavior change and health promotion. The course will cover theoretical foundations of health behavior and health promotion, as well as how to apply theory and evidence in health promotion practice. It will also introduce strategies for implementing and evaluating health promotion programs. Offered: A.

**HSERV 344 Public Health and Health Systems Management (5)** Introduces public health and health systems management concepts. Students learn key tenets of high-performing public health and healthcare organizations, and environments in which these organizations operate. Examines a variety of health system models, including governmental public health, healthcare delivery systems, accountable communities of health and other collaborative models. Offered: W.
HSERV 345 Community Health Assessment (5) Introduces role of assessment in planning for community health improvement through health promotion activities. Considers determinants of health; methods to find, collect, and analyze quantitative and qualitative data; interpret findings to describe the health resources, risks, and outcomes; role of assessment in identifying health disparities and patterns of health inequities. Offered: Sp.

HSERV 346 Using Economics to Solve Today's Healthcare Problems (4) I&S Health economics is a growing field and an important aspect of public policy. Introduces health economics and the tools economists use to analyze current issues in health care. Furthers the understanding of economics and how it is used in current debates. Prerequisite: ECON 200. Offered: jointly with ECON 346; A.

HSERV 415 War and Health (4) I&S A. HAGOPIAN, E. KANTER Explores the health consequences of war (injury, infectious diseases, mental health, chronic disease, malnutrition, infrastructure) and the role of health professionals and others in preventing war (advocacy, measurement and application of epidemiology methods, promotion of social equity). Offered: jointly with G H 419; Sp.

HSERV 475 Perspectives in Medical Anthropology (5) I&S Introduction to medical anthropology. Explores the relationships among culture, society, and medicine. Examples from Western medicine as well as from other medical systems, incorporating both interpretive and critical approaches. Offered: jointly with ANTH 475.

HSERV 476 Introduction to Applied Ethnographic Methods in Public Health (4) Introduces practical methods of gathering ethnographic data. Students investigate a local culture, including such diverse groups as graffiti artists and dumpster divers.

HSERV 482 The Health of Populations (4) I&S, DIV Explores what makes a population healthy or unhealthy. Examines why the United States is less healthy than all other rich countries, despite being one of the healthiest fifty years ago. Offered: jointly with G H 482.

HSERV 488 Dark Empire: Race, Health, and British Society - Abroad (5) I&S, DIV Explores factors responsible for the well-being and health of black and other racial/ethnic minorities in Britain. Addresses: the National Health Service; ethnic diaspora, anti-immigration laws; urban riots; inequality, and the rise of Muslim fundamentalism and Islamophobia. Conducted in Britain.

HSERV 490 Advanced Topics (1-6, max. 12) I&S Explores current or evolving public health problems. Offered: W.
HSERV 499 Independent Study in Health Services (1-12, max. 12) Individual library or field study project selected in consultation with a faculty adviser.

HSERV 504 Health Promotion and Behavior Change Communication ([1-3]-, max. 3) Overview of the theory and practice of designing, producing, and evaluating public health communication campaigns, including the use of mass media. Develops greater capacity for critical judgment about the use of communication strategies for achieving public health goals.

HSERV 507 Health Communication and Marketing for Health Promotion: Theory and Practice (3) Discusses health communication theories and applications at the individual level (persuasion), interpersonal level (motivational interviewing), and population level (mass media). Examines marketing principles for health promotion. Develops a health communication campaign for clients. Investigates adaptation frameworks of communication campaign cutting across cultures.

HSERV 508 Dynamics of Community Health Practice (3) Analysis of principles of community health as applied to the delivery of clinical services in order to improve public health, reduce disparities, provide leadership in delivery of care, and synthesize one's clinical role with public health. Examines environmental, social, cultural, and behavioral determinants of health. Includes family, aggregates, and populations. Offered: jointly with NURS 560.

HSERV 509 Public Health and Informatics (3) A. TURNER Introduction to the emerging field of public health informatics. Covers general public health topics as well as key public health informatics issues and applications. Evaluates a public health information system. Prerequisite: either BIME 530 or permission of instructor. Offered: jointly with BIME 533; W.

HSERV 510 Social and Behavioral Sciences in Health Program Planning and Implementation (3) Provides an overview of three core areas in the social and behavioral sciences of public health practice and research: social determinants of individual and population health, health promotion and disease prevention, and cultural competency and community collaboration. Offered: A.

HSERV 511 Introduction to Health Services and Public Health (3-4) History, organization, and effectiveness of U.S. healthcare and public health systems. Determinants of health, need, and utilization. Public and private financing. Supply and provision of personal and public health services. Managed care. Government and private sector roles. Prerequisite: graduate standing or permission of instructor.

HSERV 512 Health Systems and Policy (3) Students review and examine selected topics from literature. Includes need and access to care; theory and effects of health insurance; private and public insurance programs; managed care; costs/expenditures; availability and organization of health resources; and quality assessment and improvement. Enrollment priority for Health Services PhD students. Prerequisite: HSERV 511.
HSERV 513 Health Policy Research (3) Extends students' understanding of the nature of health policy and health policy development in the context of a market-based economy. Enrollment priority for Health Services PhD students. Prerequisite: HSERV 511, permission of instructor.

HSERV 514 Social Determinants of Population Health and Health Disparities (3) Explores the elements and actions of a population health approach, including conceptualizing the determinants of health, synthesizing knowledge about major social determinants, and applying knowledge to improve population health and reduce health disparities. Enrollment priority for Health Services PhD students. Prerequisite: HSERV 511, permission of instructor. Offered: jointly with EPI 547.

HSERV 515 War and Health (4) A. HAGOPIAN, E. KANTER Explores the health consequences of war (injury, infectious diseases, mental health, chronic disease, malnutrition, infrastructure) and the role of health professionals and others in preventing war (advocacy, measurement and application of epidemiology methods, promotion of social equity). Offered: jointly with G H 519; Sp.

HSERV 516 Introduction to Health Services ([3-4]-) Provides overview of healthcare system, exposes students to current issues and developments affecting organization and delivery of health services, helps students develop ability to frame and analyze questions and issues related to health services. Prerequisite: registration in Extended MPH degree program.

HSERV 517 Qualitative Research Methods: An Introduction (3) Introduction to research skills to discern how and why humans behave relative to their health. Emphasizes planning, design, evaluation, using qualitative research procedures. Students gain an understanding of qualitative research techniques by articulating a phenomenon of interest, identifying a target population, employing proper data collection strategies, and rigorous verifying results. Offered: S.

HSERV 518 Social and Ethical Issues (2-4, max. 4) Presents introduction to ethical issues in public health policy and practice. Additional one credit option focuses on health administration/managed care. Coursework designed to train students in basic skills of ethical analysis and increase competency in recognizing, researching, and analyzing issues arising in public health and health services delivery.

HSERV 519 Study Design and Causal Inference (1) Increases depth of knowledge about causal inference in impact evaluation. Applies the elements of causal inference to impact study design and statistical analysis, including the concept of statistical conclusion validity, internal validity, construct validity, and external validity. Credit/no-credit only. Offered: A.

HSERV 520 Methods in Applied Community Research ([0-4]-, max. 4) Skills/knowledge necessary to conduct orderly investigation of specific problems in preparation for MPH thesis or project. Includes problem identification, posing research questions, literature review, consideration of theoretical/practical context, choosing study design, data collection, protection of human subjects, and recognizing potential errors. Prerequisite: registration in Extended MPH degree program. Credit/no-credit only.
HSERV 521 Advanced Qualitative Methods in Anthropology and Public Health (5)
Provides students with both a theoretical foundation in qualitative approaches to research in
anthropology and public health and in-depth training in qualitative data management, analysis, interpretation, and presentation. Focuses on how to frame research questions, design, appropriate research strategies that incorporate qualitative methods, and analyze data. Offered: jointly with ANTH 519/G H 538; Sp, even years.

HSERV 522 Health Program Evaluation ([1-5]-, max. 5) Politics, theory, methods of evaluation, from simple health programs to evaluation of large-scale interventions. Emphasizes experimental and quasi-experimental designs to estimate program impacts, as well as evaluation of program implementation. Case studies drawn from health field illustrate various types of evaluations. Prerequisite: background in introductory statistics.

HSERV 523 Advanced Health Services Research Methods I: Large Public Databases; Big Data (4-5) Introduces the new big data of health services research, health claims, and survey databases. Discusses the promises and pitfalls of the data and models for analyzing the correlates of health care costs and utilization. Prerequisite: either HSERV 511, BIOST 511/BIOST 512/BIOST 513, BIOST 517/BIOST 518, or EPI 511/EPI 512, and permission of instructor.

HSERV 524 Advanced Health Services Research Methods II: Hierarchical and Incomplete Data (4-5) Introduces advanced biostatistical techniques for analyzing incomplete data in population health research. Examines a wide range of topics including: missing data and potential outcome framework for causal inference, propensity score and multiple imputation, multilevel random effect linear and logistic models, and empirical Bayes prediction Prerequisite: either HSERV 523 or permission of instructor.

HSERV 525 Advanced Health Services Research Methods III: Casual Inference Using Observational Data ([4-5]-) Focuses on reviewing statistical methods developed for "micro" (individual-level) data on behavior (choices or exposures) and outcomes in order to make casual inference about the role of a choice or an exposure on outcomes. Prerequisite: either HSERV 523, BIOST 511, BIOST 512, BIOST 513, or permission of instructor.

HSERV 527 Survey Research Methods (4) A. MOKDAD Provides students with skills in questionnaire development and survey methods. Students develop a questionnaire and design a survey research proposal on a health-related or social topic. Prerequisite: either HSERV 511/HSERV 513; BIOST 517/BIOST 518; or EPI 512/EPI 513, which may be taken concurrently, or permission of instructor. Students should have a survey project in mind. Offered: jointly with CS&SS 527/G H 533.

HSERV 528 Critically Appraising and Applying Evidence in Healthcare (3) F. WOLF Literature appraisal skills for various articles (therapy effectiveness, diagnostic tests, literature reviews, clinical measurement, prognosis, quality of care, decision analysis, causation/etiology, guidelines, and economic evaluation). Appraisal of clinical information from literature, strengths/weaknesses of data, analyses, study design/applicability to a current patient's problem. Prerequisite: permission of instructor. Offered: jointly with BIME 540; W.
HSERV 529 Introduction to Systematic Reviews and Meta-Analysis of Evidence (3) F.
WOLF Conceptual understanding of the quantitative methods used to synthesize evidence. Methods for pooling evidence across independent studies, pooling binary/continuous outcomes, differences between fixed and random effects models, and guidelines for appraising published systematic reviews/meta-analyses. Prerequisite: either introductory level courses in statistics, epidemiology, or biostatistics or permission of instructor. Offered: jointly with BIME 541/EPI 541/PHARM 529.

HSERV 531 COPHP Population Health and Community Development (6) Population Health considers social and other factors that determine health. The course challenges dominate views of health. We compare health in the United States with other countries. In Community Development, we learn asset-based community engagement. Students work directly with community members, advocates, and service organizations to address health issues. Offered: A.

HSERV 533 COPHP Quantitative Methods (6) Acquaints students with methods of epidemiology and biostatistics used in conceptualizing, collecting, analyzing, and interpreting quantitative data on health outcomes and risk factors with quantitative methods for evaluating programs or treatments that address health concerns in populations. Expands skills in communicating quantitative aspects of public health, using writing, tables, and graphs. Offered: W.

HSERV 534 COPHP Health Behavior and Health Promotion and Environmental Health (6) Environmental Health reviews scientific principles utilized in environmental public health and examines the occurrence of diseases resulting from environmental and occupational exposures. Health Behavior and Promotion reviews theory and practice of planning and evaluating public health promotion problems and applying sound judgment when deciding about identification, audience segmentation, and intervention selection. Offered: Sp.

HSERV 536 Emerging Infections of International Public Health Importance (3-) Focuses on the nexus between emerging infections and increasing globalization of the world due to the mobility of people and goods. Examines emergent events through risk factors and associated macro changes implicated in their genesis. Reviews microbial evolutionary strategies and factors of emergence. Prerequisite: graduate standing. Offered: jointly with EPI 529.

HSERV 537 COPHP Health Policy (6) Covers concepts and analytic tools for health policy analysis, development, and advocacy, while exploring factors affecting public health policy, including science and community values. Student write a policy statement for an advocacy organization, teach a lay audience about an issue, and arrive at policy conclusions based on quantitative data.

HSERV 538 COPHP Evaluation Design and Community Organizing (6) Covers concepts and approaches for program evaluation in public health. Uses one case, including a final assignment requiring students to work as a team to design an evaluation. Organizing synthesizes accumulated skills and knowledge a public health professional uses to work with communities to advance public health. Integrates a broad array of skills to consolidate perspectives of the many players that interact in dynamic community settings. Offered: W.
HSERV 540 COPHP Management and Leadership (6) Explores the principles of leadership and management within the context of public health organizations. Explores the distinction between management and leadership and examines the management functions of planning, organizing, directing, and controlling the use of human and financial resources to accomplish the goals of the organization.

HSERV 541 Topics in Maternal and Child Health I (3-) Provides an overview of the historical and legislative basis for the major MCH health and social service policies and programs. Uses the life-course perspective to examine the social determinants of health and development of women, children, and adolescents. Pays special attention to racial inequities on the health of families.

HSERV 542 Epidemiology of Maternal and Child Health Problems ([3-4]-) D. ENQUOBAHRIE Contributions to understanding and prevention of major maternal and child health problems, including pregnancy outcome, infant and child morbidity and mortality, maternal morbidity and mortality, abnormal child growth and development, and early-life factors in adult health problems. Prerequisite: graduate, medical, or dental school standing and EPI 511 or EPI 512 or permission of instructor. Offered: jointly with EPI 521.

HSERV 544 Maternal and Child Health in Low and Middle Income Countries (3) D. DENNO Emphasizes critical health problems of women and children in developing countries in social, economic, and cultural contexts. Practical approaches to developing MCH programs shared via lecture/discussions, exercises, and small group work. Students acquire skills in baseline assessment, setting objectives, planning and evaluating interventions, and involving communities. Offered: jointly with G H 544; W.

HSERV 548 Research Methods for Social and Contextual Determinants of Health (3) A. Hajat Explores study-design, measurement, analytic, and interpretation issues applicable to research on social and contextual determinants of health and health disparities. This lecture/seminar course is offered to graduate students with knowledge of epidemiologic and biostatistical principles who are interested in understanding complex relationships between social/contextual factors and health. Prerequisite: EPI 511 or EPI 512/513; and BIOST 511/512/513 or BIOST 517/518. Credit/no-credit only. Offered: jointly with EPI 548; W.

HSERV 551 Public Health Law (2) Focuses on the role of law in public health administration and in the increasingly regulated healthcare industry. Provides a foundation in the relevant law for public health officers and healthcare industry administrators. Offered: jointly with LAW H 512.

HSERV 552 Health Policy Development (3-) Uses primarily case- and problem-based learning and small-group projects to focus on factors that influence public policy development concerning health services in the U.S., with some global health content. Examines the roles of science and stakeholder interests in the structure of and changes to a nation's health system. Offered: A.

HSERV 555 Health Disparities (2) Focuses on health disparities and health inequity in the United States. Course will cover both theoretical and empirical approaches to understanding
patterns of health across social groups, with a focus on designing research and public health programs to addressing health disparities. Offered: W.

**HSERV 556 Tobacco Related Health Disparities (1/2)** Integrates multiple disciplinary perspectives to address the pressing issue of disproportionate tobacco use and related diseases among marginalized populations, including those defined by socioeconomic status, race/ethnicity, and sexual orientation. Explores links between, and intervention strategies for, smoking and mental illness, social stress, acculturation processes, and genetics. Offered: jointly with FAMED 559.

**HSERV 558 Tobacco and Public Health: Prevention, Treatment, Policy, and Social Change (1-3, max. 3)** Integrates multiple disciplinary perspectives to provide a comprehensive overview of the history, health effects, policy, prevention, and treatment of tobacco use. Utilizes readings, stimulates discussions, and hosts renowned experts to provide students with the foundation to understand and address the local, national, and global epidemic of tobacco use.

**HSERV 559 Public Policy and the Public's Health ([0-3]-, max. 3)** Watts Explores the factors that affect health policy and the interaction of policy, markets, and the legal system through public health examples. Examines how science and community values intertwine in policy development, and how context influences the structure of and changes to a nation's health system.

**HSERV 560 Adult Learning: Theory and Practice (3)** Designed to help students apply Popular Education theory and practice to preparation, presentation, and evaluation of health education. Students design, teach, and evaluate four separate teaching sessions (one between each seminar) using theory and principles of Popular Education learned to date. Prerequisite: graduate standing or permission of instructor.

**HSERV 561 Introduction to Health Promotion Planning and Evaluation ([0-3]-, max. 3)** Links practice to theory between the planning, implementation, and evaluation of health promotion intervention and behavior change theory. Uses PRECEDE/PROCEED planning model by Green and Kreuter as framework.

**HSERV 568 Health Economics (3)** Applies microeconomics principles and models to understand the nature of health care markets and systems. Includes a wide range of health sector activities and policy issues by applying rigorous economic analytical tools coupled with review of key econometric and empirical analysis. Prerequisite: introductory coursework in microeconomic principles and basic statistics. Offered: W.

**HSERV 571 Cultural Competency for Public Health Practice ([1-4]-, max. 4)** Application of cultural competency to clinical practice, healthcare management, and health services research when working with culturally diverse populations. Methodological orientation is qualitative, historical, and ethnographic. Lecture, narratives, discussions, guest presentations, film, video. Interdisciplinary perspective appropriate for graduate students in public health, health administration, nursing, social work, and anthropology.
**HSERV 572 Planning, Advocacy and Leadership Skills (4)** An opportunity to master basic concepts, analytic tools, and skills for health program and policy planning, advocacy, evaluation and leadership skills under close mentor-ship of faculty and teaching staff in an interdisciplinary and applied setting. Engages MPH and other graduate students with real-world public health problems, partners with local community health organizations, builds skills and competencies in a number of topics and processes. Offered: Sp.

**HSERV 575 Cancer Prevention and Control (3)** Provides an overview of research in cancer prevention and control for students training for a career in this field. Students identify major areas of prevention and control research, conduct an analysis of data in cancer prevention and control, and learn to prepare a research project grant. Prerequisite: permission of instructor.

**HSERV 576 Health, Culture, and Community (3)** Chrisman A multidisciplinary approach to the development of leadership in personal and organizational cultural competence in community-based participatory research. Emphasizes understanding collaborative assessment, planning, and evaluation of health promotion and disease prevention programs to address the social determinants of health at the population level. Offered: jointly with NURS 557; W.

**HSERV 577 Health Behavior and Preventative Medicine ([2/4]-, max. 4)** Focuses on psychosocial and cultural factors related to health, preventive health behavior, illness perception, and behavior; theoretical basis for prevention; the interaction of consumers and providers in the delivery of healthcare services; and clinic and community based applications.

**HSERV 578 Preparing, Writing, and Critiquing Scientific Research Proposals (2-3)** A. Fitzpatrick, L. Kessler Experience in preparing, organizing, and writing research proposals, following NIH and AHRQ guidelines. Includes weekly assignments and didactic exercises, leading to final research proposal. All students participate in mock study section to review and critique proposals. Prerequisite: second-year graduate student (PhD recommended), or PhD or MD in health-related field. Credit/no-credit only. Offered: jointly with EPI 588.

**HSERV 579 Structural Racism and Public Health (1)** Introduces the concept of institutional racism and ways structural racism undermines public health. Discusses history of racism and intersections between structural racism and other systems of oppression. Explores relationship to racism and ways internalized racism acts as a barrier to health equity. Considers public health practitioners’ role in addressing racism. Credit/no-credit only. Offered: jointly with PHI 579; AWSp.

**HSERV 580 Foundations of Health Behavior and Social Determinants of Health (2)** Provides an overview of core areas of health behavior and social determinates of health, including: social determinants of health; population health and health disparities; community engagement; and working effectively in diverse communities. Offered: A.

**HSERV 581 Strategies of Health Promotion (4)** Assessment of health promotion planning, implementation, and evaluation strategies for their strengths, weaknesses, and effectiveness. Students critique strategies to modify behavioral factors that influence lifestyles of individuals,
including decisions influencing their reciprocal relationship with environmental factors affecting the health of individuals, organizations, and communities. Prerequisite: HSERV 511.

**HSERV 583 Economic Evaluation in Health and Medicine (3)** *J. Babigumira, L. Steuten*
Methods and techniques for evaluating costs and cost-effectiveness of health, medical, and pharmaceutical interventions. Emphasis on economic evaluation, decision analysis, and modeling techniques for resource allocation and decision making. Applications to technology assessment, health policy, clinical practice, and resource allocation. Prerequisite: permission of instructor. Offered: jointly with PHARM 534.

**HSERV 584 Assessing Outcomes in Health and Medicine (3)** Concepts and methods for developing and using patient-reported outcomes in health and medicine. Emphasis on patient self-reported health status and quality of life. Qualitative research and psychometric methods applied to health outcomes assessment and all applications. Prerequisite: permission of instructor. Instructors: Devine, Edwards Offered: jointly with PHARM 535; W.

**HSERV 585 Seminar in Medical Geography (5, max. 10)** *Mayer* Intensive research seminar dealing with new and promising research themes in medical geography and public health. Offered: jointly with GEOG 581.

**HSERV 586 Medical Geography (3)** Geography of disease, consideration in health systems planning. Analysis of distributions, diffusion models, migration studies. Application of distance, optimal location models to health systems planning; emergency medical services; distribution of health professionals; cultural variations in health behavior. Prerequisite: familiarity with social science research; health-related issues. Instructors: Mayer Offered: jointly with GEOG 580.

**HSERV 587 Health Policy Economics (3)** Applies economic theory to selected topics in healthcare, including information, risk and insurance, industry organization, government regulation, and public health issues. Emphasizes policy implications of these applications. Offered: jointly with ECON 547.

**HSERV 589 Community Based Participatory Research and Health (3)** Begins with a research topic of importance to the community with the aim of combining knowledge and action for social change. Provides an understanding of principles and strategies, and appreciate of its advantages and limitations, and skills for participating effectively.

**HSERV 590 Selected Topics in Health Services (**-, max. 30)** Explores current or evolving public health problems. Prerequisite: permission of instructor.

**HSERV 591 Community Oriented Public Health Practice (1-6, max. 42)** Seven-quarter integrated sequence covers public health aspects of community assessment, biostatistics, epidemiology, health promotion/disease prevention, behavior change, environmental health, community development, policy development and analysis, and program planning and management. It is taught in a problem-based format. Prerequisite: enrollment in the COPHP program.
HSERV 592 Program Seminars (1-6, max. 20) Graduate seminars organized to address specific educational needs of students in various fellowships, residencies, and other specialized programs within the Department of Health Sciences (i.e., maternal and child health, international health, preventive medicine, social and behavioral sciences). Prerequisite: permission of instructor.

HSERV 595 Practicum/Field Work in Community Medicine ([1-12]-, max. 12) Experience in variable time blocks in community health activities in agencies delivering and planning health services. Sites include neighborhood clinics, health planning bodies, medical practice settings, public health agencies, special problem clinics and facilities, environmental programs and services. Prerequisite: master's student in health services and permission of instructor.

HSERV 598 Extended Degree Program Project Option (*, max. 9) Supervised project work on a selected topic related to student's concentration in graduate study. Includes survey of literature, development of approach, and written paper on conclusions. Prerequisite: registration in extended MPH degree program and satisfactory completion of the first summer's coursework.

HSERV 599 Capstone Project (*)- Applies and extends the public health skills learned to other settings, develops new skills, expands a professional network, and provides specialized knowledge that can be used to advance the student's future career and effectiveness in public health.

HSERV 600 Independent Study or Research (*)- Prerequisite: permission of instructor.

HSERV 700 Master's Thesis (*)- Prerequisite: permission of instructor.

HSERV 800 Doctoral Dissertation (*)- Health Services Management

HSMGMT 500 Risk and Insurance Seminar (3) Presents the principles and practices of health insurance and risk. Emphasizes healthcare financing arrangements in the United States, including both private and government-sponsored (public) programs. Discusses comparisons with other developed countries.

HSMGMT 501 Epidemiology/Critical Evidence Appraisal (2-4, max. 4) Basic knowledge about methods used in epidemiology and their application to critical appraisal of clinical, epidemiological, and health administration literature for evidence-based management of healthcare organizations, improvement of delivery of health services, and for creating health policies.

HSMGMT 503 Population Health Management (2) Provides health administration students with an introduction to managing the health of defined populations. Examples include: the population within the catchment area of a hospital, the members of a health maintenance organization, the persons served by an accountable care organization, and the population employed in a workplace.
HSMGMT 505 Managing Healthcare Organizations (2-4) Introduces healthcare organizations and organizational management concepts. Develops a broad perspective by integrating conceptual, strategic, and systemic frameworks using four knowledge themes; the management role, organizational theory, management economics, and theory and practice of systemic organizational change within overall strategic management and systemic contexts.

HSMGMT 506 Introduction to Clinical Care (2) Introduces the world of clinical care. Discovers through readings, discussion, and direct experience, the people and processes of clinical care and how they relate to healthcare administration.

HSMGMT 507 Group Dynamics and Team Leadership ([1-4]-, max. 4) Focuses on theories and observations of team behaviors and techniques with emphasis on the individual as a team member; introduces team management/leadership models, theories, and skills. Students develop self-awareness, knowledge, and skills associated with building interpersonal relationships. Credit/no-credit only.

HSMGMT 510 Organizational Behavior (3-4) Application of organizational behavior theory to explore the factors that affect behavior, performance, and job satisfaction of people working in organizations. Provides a body of knowledge and skills needed to successfully manage and lead healthcare organizations. Focuses on "best practices" for managing individuals, teams, and organizations.

HSMGMT 513 Seminar in Healthcare Finance (3-4) Focuses on case studies and modern theory in managerial finance relevant to health services. Students prepare group presentations and individual case study analyses of health services finance problems. Builds on accounting and finance principles.

HSMGMT 514 Health Economics (3/4) Uses economic concepts and tools to examine range of issues pertaining to healthcare, delivery of healthcare services. Includes demand analysis, production of health services, expenditure growth, markets for hospital and physician services, externalities. Emphasis on using economics to examine issues and solve problems. Prior economics courses not required.

HSMGMT 515 Advanced Economics - Decision Analysis ([1-3]-, max. 3) Develops skills to become informed consumers of economic evaluations of health programs. Develops skills necessary to conduct economic analyses of public health and health service programs.

HSMGMT 518 Ethical Issues in Health Services (2-3) Presents an introduction to ethical issues that arise in management of health services organizations. Covers clinical and organizational ethics.

HSMGMT 523 Informatics in Healthcare Management (3) Medical informatics concerns the representation, organization, and manipulation of biomedical information and knowledge. Exposes students to a high-level understanding of informatics and its healthcare applications. Discussion of successes and failures in implementing information technology focuses on gaining leadership and management knowledge that embraces informatics.
HSMGMT 531 Systems Modeling Frameworks for Healthcare (3) Focuses on methodologies to support strategic decision making in a systems context, considering the material, patients, providers, information, and resource dependencies of most healthcare organizations. Includes optimization models and basic alternative evaluation methods for the applications of capacity planning, policy investigation, and design and planning decisions. Offered: W.

HSMGMT 532 Quantitative Methods for Health Systems Design and Analysis (3) Focuses on the method and application of operations research in health systems design and analysis. Covers a variety of topics in healthcare management and decision making. Healthcare decision making touches areas in resource allocation, scheduling, staffing, capacity planning, cost-effectiveness analysis, and assessment of medical technologies. Offered: W.

HSMGMT 545 Capstone Integrative Seminar ([1-4]-, max. 4) Designed to assist students in the transition from theory to practice. Emphasis on sharpening analytical and intuitive leadership practices through the use of interactive case studies, team building exercises, and field projects. Prerequisite: second-year MHA students.

HSMGMT 550 Medical Practice Quality Measurement and Management (3) Provides an overview of healthcare industry themes regarding cost, access, and quality. Concentrates on definition, measurement, and improvement of quality. Shows how quality measurements and specifications; the concept of value, guidelines, and pathway; and the evidence-based medicine movement interconnect. Utilizes examples of cutting edge programs to apply and promote improvement.

HSMGMT 552 Health Administration and Business Law (4) Studies numerous interrelated legal topics pertinent to healthcare organizations, typically including contracts, medical malpractice, legal and ethical obligations to provide healthcare, privileging, medical decision-making, tax-exemption, antitrust, fraud, and health information management. Encourages discussion of how the law supports or hinders current efforts to improve healthcare delivery systems.

HSMGMT 553 Healthcare Marketing Strategy (2) Provides an understanding of wholesale and retail markets in the healthcare sector. Examines market research and the application of marketing strategies and tactics to support an organization's core strategies. Applies the concepts of market segmentation, targeting, and positioning to decisions about design, distribution, pricing, and promotion of health services.

HSMGMT 554 Entrepreneurship (2) Focuses on developing students' resourcefulness, know how, and decision support skills needed to critically identify, evaluate, and develop new healthcare ventures. Topics include anatomy of startup ventures; new venture creation and innovation, business plan development and assessment, financing, marketing, and growth strategies; and corporate venturing.

HSMGMT 560 Management Practice in Healthcare and Public Health Organizations (1–4, max. 4) Introduction to leadership and management, focusing on effective strategies for creating a productive work environment. Organizational structure and strategy introduced. Case studies
and other problem-solving methods, using health services applications, are utilized in order to apply theoretical material. Prerequisite: graduate student.

**HSMGMT 562 Strategic Management of Healthcare Organizations (3-5)** Management of goals, strategy, and structure in healthcare organizations. Design of external relationships and internal structures, strategy-formulation, decision-making, and change. Integration of professional, social, and organizational values. Theory, student and practitioner experience, and case studies used to enhance repertoire of management approaches and skills. Prerequisite: HSERV 511 and HSMGMT 560 or equivalent.

**HSMGMT 563 Personnel Management for Health Professionals ([1-3]-, max. 3)** Designed for midcareer health services professionals developing strategies and skills in human resource management. Focuses on policy and practice issues important to handling day-to-day personnel problems—selection, promotion, performance appraisal, discipline, grievances. Prerequisite: registration in Extended MPH degree program or permission of instructor; non-business majors.

**HSMGMT 566 Decision Support Models for Health Services (3)** Management science and approaches developed as applied to problems in public health. Emphasizes conceptual understanding of processes/application of systematic and rational approach to managerial problem solving, including cost-benefit, cost effectiveness analysis. Prerequisite: BIOST 502 and BIOST 503, or BIOST 511; registration in Extended MPH degree program; non-business majors.

**HSMGMT 567 Clinical Systems Management (3)** Introduces the management of clinical systems and their underlying cultures. Focuses on quality improvement, change management, governance, and clinical leadership development of physician-administrator partnerships in complex medical care settings.

**HSMGMT 568 Quality Process Management (3-4)** Provides a thorough understanding of the main concepts of operations management with a focus on total quality management techniques, along with key integrative frameworks that provide the foundation for successful applications of these approaches, as applied to healthcare organizations.

**HSMGMT 570 Quantitative Methods (3-4)** Concentrates on fundamental concepts of statistics and their application to healthcare management. Approaches statistics from two different perspectives that benefit leaders in healthcare: that of biostatistics and evidence based medicine, and that of management statistics for process improvement.

**HSMGMT 571 Healthcare Financial Management (3)** Focuses on the tools and analytic frameworks that healthcare managers use to make prospective forward-looking decisions. Problems worked in-class and assigned as homework to ensure that participants develop competencies and confidence in applying the analytic tools and frameworks. Prerequisite: HSERV 511 and ACCTG 500 or ACCTG 501 or permission of instructor. Offered: W.

**HSMGMT 572 Financial Management for Health Professionals (3)** Intensive review of basic accounting principles/terminology and an introduction to financial management/managerial accounting, including budgeting for managerial control, planning, cost accounting, financing
health programs. Managerial accounting, program costing, rate setting, budget preparation. Prerequisite: BIOST 502 and BIOST 503, or BIOST 511; registration in Extended MPH degree program or permission of instructor; non-business majors.

**HSMGMT 574 Financial Management I (3-4)** Prepares clinical professionals for participating intelligently in, and contributing to, financial decisions of healthcare organizations. Learn the language and fundamental concepts of accounting and finance, and become comfortable with what is required in formal financial analysis.

**HSMGMT 576 Capital Planning (2)** Emphasizes preparing clinical executives for managerial and leadership in healthcare organizations. Key concepts include capital cycle, creditworthiness, financial planning, cost of capital, capital structure, and capital allocation.

**HSMGMT 577 Environment of Care (2)** Addresses the basic issues of the "environment of care." Explores the physical environments in which care is provided to patients, JCAHO standards provide the core structure. Uses real world experiences and examples.

**HSMGMT 578 Project Management (2/3)** Introduces need for, concepts of, and tools and techniques used in contemporary project management. Builds upon prior courses and experience in leadership, management, planning, and team development. Focuses on difference between management of ongoing operations and of projects, and the need for a disciplined approach when planning and executing projects. Offered: W.

**HSMGMT 579 Accounting for Health Service Managers (3)** Emphasis on preparing graduate students for management and leadership roles in their healthcare organizations. Covers financial accounting including the accounting equation, journal entries, and processes of accounting.

**HSMGMT 590 Select Topics (1-6, max. 12)** By arrangement, students and faculty members develop a program of reading and conference appropriate to the selected topic. Topic chosen is within the special competence of the participating faculty member, in the area of health services management.

**HSMGMT 592 Health Management Program Seminar (1-6, max. 6)**
Reserve Officer Training Corps Programs

Aerospace Studies

Department Overview

104 Clark Hall

The Air Force Reserve Officer Training Corps program (AFROTC) at the UW produces leaders ready to lead in any environment. AFROTC molds students by exposing them to a rigorous training program that grooms each student from a role of followership into a future leader.

Undergraduate Program

Detachment 910
114 Clark Hall, Box 353830
206-543-2360
afrotc@uw.edu

General Program Requirements

All aerospace studies courses are available to cadets exclusively. Additionally any students may join the AFROTC program as cadets and enroll in the 100- and 200-level general military courses so long as they meet the minimum entrance requirements. Aerospace Studies 100- and 200-level courses count as credit toward graduation. The general military courses are prerequisites to entry into the professional officer courses (300-and 400-level courses) and seeking a commission in the Air Force is on a controlled, selective basis. Contact the Recruiting Flight Commander in the Department of Aerospace studies (AFROTC) for more information.

Commissioning Requirements

Students must successfully complete the AFROTC program and receive an academic degree from the University. Upon program and degree completion, cadets are offered commissions as second lieutenants in the Air Force.

General Military Courses

The 100- and 200-level courses for AFROTC cadets consist of one classroom hour, two hours of leadership laboratory, and two hours of physical fitness per week during the freshman and sophomore years. Uniforms and textbooks are provided. Students may enter the freshman class at the start of autumn, winter, or spring quarter. Sophomore students may enter at the start of
autumn or winter quarter and take the freshman- and sophomore-level courses concurrently. A four-week field-training course, normally taken during the summer between the sophomore and junior years, is required for entry into the professional officer courses. Students receive pay and travel costs for field training.

Except for sophomore cadets on AFROTC scholarship, students incur no active-duty service commitment by taking general military courses and may drop the courses at any time within the limits of University course-drop policies.

Professional Officer Courses

Cadets selected for enrollment in professional officer courses are enlisted in the Air Force Reserve and receive a tax-free monthly subsistence stipend. They are furnished texts and uniforms. Junior- and senior-level classes consist of three hours of academic classes, two hours of leadership-laboratory and two hours of physical fitness per week.

Financial Assistance

The Air Force offers many types of scholarships to college students. AFROTC scholarships pay tuition, certain fees, and textbook reimbursement. In addition, scholarship winners receive a monthly subsistence allowance. Cadets are eligible for one of these scholarships and should contact the Recruiting Flight Commander in the Department of Aerospace Studies (AFROTC), 206-543-2360 or at afrotc@uw.edu.

Minor

Minor Requirements:

29 credits, to include the following:

1. 24 credits of air and space studies coursework
2. 5 credits in a foreign language beyond the first-year level
3. Minimum 18 upper-division credits in air and space studies coursework
4. Minimum 24 credits in residence through the UW
5. Minimum 2.5 grade in each course presented for the minor.

Course Descriptions

A S 101 Foundations of the United States Air Force I (1) Focuses on the basic characteristics of air doctrine; U.S. Air Force mission and organization; functions of United States strategic offensive and defensive, general-purpose, and aerospace support forces; officership/professionalism and an introduction to communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Offered: A.
A S 102 Foundations in the United States Air Force II (1) Focuses on the basic characteristics of air doctrine; U.S. Air Force mission and organization; functions of United States strategic offensive and defensive, general-purpose, and aerospace support forces; officership/professionalism and an introduction to communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Offered: W.

A S 103 Foundations in the United States Air Force III (1) Focuses on the basic characteristics of air doctrine; U.S. Air Force mission and organization; functions of United States strategic offensive and defensive, general-purpose, and aerospace support forces; officership/professionalism and an introduction to communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Offered: Sp.

A S 211 The Evolution of Air and Space Power I (1) Factors contributing to the development of air power from its beginnings to the present, and the evolution of air power concepts and doctrine. History of air power employment in military and nonmilitary operations in support of national objectives. Assessment of communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Prerequisite: either A S 101, A S 102, or A S 103, any of which may be taken concurrently. Offered: A.

A S 212 The Evolution of Air and Space Power II (1) Factors contributing to the development of air power from its beginnings to the present, and the evolution of air power concepts and doctrine. History of air power employment in military and nonmilitary operations in support of national objectives. Assessment of communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Prerequisite: either A S 101, A S 102, or A S 103, any of which may be taken concurrently. Offered: W.

A S 213 The Evolution of Air and Space Power III (1) Factors contributing to the development of air power from its beginnings to the present, and the evolution of air power concepts and doctrine. History of air power employment in military and nonmilitary operations in support of national objectives. Assessment of communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Prerequisite: either A S 101, A S 102, or A S 103, any of which may be taken concurrently. Offered: Sp.

A S 250 Aerospace Studies Leadership Laboratory (0-1, max. 10) Evaluates the challenges of team leadership in complex contemporary environments. Students apply critical thinking skills using scenarios that emulate real-life Air Force issues and environments. Evaluates Air Force leadership attributes, skills, and activities. Focuses on advanced leadership development. Corequisite: any A S course. Credit/no-credit only. Offered: AWSp.

A S 331 Aerospace Studies 300 (3) Emphasis on basic leadership and management fundamentals, professional knowledge, and communicative skills required of an Air Force officer. Case studies used to examine leadership and management situations. An additional leadership laboratory (mandatory for cadets but not special students) provides leadership experiences, giving students the opportunity to apply learned principles. Prerequisite: A S 213. Offered: A.
A S 332 Aerospace Studies 300 (3) Emphasis on basic leadership and management fundamentals, professional knowledge, and communicative skills required of an Air Force officer. Case studies used to examine leadership and management situations. An additional leadership laboratory (mandatory for cadets but not special students) provides leadership experiences, giving students the opportunity to apply learned principles. Prerequisite: A S 213. Offered: W.

A S 333 Aerospace Studies 300 (3) Emphasis on basic leadership and management fundamentals, professional knowledge, and communicative skills required of an Air Force officer. Case studies used to examine leadership and management situations. An additional leadership laboratory (mandatory for cadets but not special students) provides leadership experiences, giving students the opportunity to apply learned principles. Prerequisite: A S 213. Offered: Sp.

A S 431 Aerospace Studies 400 (3) I&S Needs for national security, evolution of American defense strategy, policy, and organization; methods for managing conflict, alliances and regional security to preserve American interests. Arms control, terrorism, and current military issues; refinement of communicative skills. A one-hour leadership laboratory is also required for cadets, but not special students. Prerequisite: A S 333. Offered: A.

A S 432 Aerospace Studies 400 (3) I&S Needs for national security, evolution of American defense strategy, policy, and organization; methods for managing conflict, alliances and regional security to preserve American interests. Arms control, terrorism, and current military issues; refinement of communicative skills. A one-hour leadership laboratory is also required for cadets, but not special students. Prerequisite: A S 333. Offered: W.

A S 433 Aerospace Studies 400 (3) I&S Needs for national security, evolution of American defense strategy, policy, and organization; methods for managing conflict, alliances and regional security to preserve American interests. Arms control, terrorism, and current military issues; refinement of communicative skills. A one-hour leadership laboratory is also required for cadets, but not special students. Prerequisite: A S 333. Offered: Sp.
Military Science

Department Overview

104 Clark Hall

The ROTC program provides students an opportunity to learn and practice the art of leading people. Recognizing there is a great difference between cognition and volition, the program is structured to give the student practical experience in leading and managing resources.

The Army ROTC (AROTC) program enables the student to learn about the military profession and the role it plays in our democratic system of government. Courses enable such knowledge to be acquired on campus without serving in the military forces.

Army ROTC electives enrich the student's course of study. Such courses also open up an additional career option, enabling the student to earn a commission and to serve in the Army as an officer, or in the Reserves or National Guard while pursuing a civilian career. Officers serve in a wide variety of career paths, including infantry, human resources, aviation, intelligence, automation, and hospital administration.

Army ROTC provides the student membership in a close-knit fraternal organization.

ROTC programs on college campuses ensure that the influences of higher education are transferred into the military services - a mandatory requirement in a democracy.

A minor in military science and leadership is available to any student at the UW. Requirements are shown below.

For information on the programs described below, contact the following:

Enrollment and Scholarship Officer 105 Clark, Box 353820 206-543-9010

Traditional Four-Year Program

Open to freshman and sophomore men and women. Academic studies include courses in military history, principles of leadership, techniques of instruction, management and staff procedures, logistics, physical conditioning, and military law. Extracurricular activities include such options as Ranger Company, color guard, training exercises, field trips, and related activities. A non-scholarship student incurs no obligation of any kind during the first two years of the four-year AROTC program.

Placement credit toward completion of AROTC courses may be given for prior ROTC or military training. Veterans routinely receive full credit for the first two years of AROTC and may enter the advanced course when they are academic juniors. All military textbooks and uniform items are furnished without charge. Students in the advanced course receive tax-free monthly
subsistence of $350 per month as an academic junior and $400 per month as an academic senior. In the advanced course, cadets are required to participate in the leadership-development program, which is a practicum of skills and principles taught during the previous two years. Between their junior and senior years, cadets attend a five-week summer camp during which they receive varied and challenging training and for which they are paid both for the time at camp and for travel expenses to and from the camp location. Upon entering the advanced course, students agree to complete the program, accept a commission upon graduation, and serve a minimum of four years if scholarship (three years if non-scholarship) and be on active-duty commitment. If the cadet chooses to go into the Reserves or National Guard, then he or she serves a minimum of eight years.

Four-Year Scholarship Program

Application to this program should be made while the student is still in high school. Selection of students is made on a nationwide competitive basis. This program may lead to a commission in the Active Army, the Army Reserve, or the Army National Guard. All tuition, a flat rate for books and laboratory expenses, and uniform items, plus monthly tax-free stipends, are provided by the Army. The program requires four years of academic study on campus, as well as a five-week advanced camp training period between the junior and senior years, for which the cadet is paid for both time and travel expense to and from the camp location. Academic studies are identical to those of the traditional four-year program. The student must sign a contract wherein the student agrees to complete this program, along with a chosen academic program, to accept a commission, and to serve on active duty or in the reserve forces after commissioning.

Three-Year Scholarship Program

Open to qualified students already on campus. The scholarship provides financial assistance during the remaining years of the student's enrollment. Each scholarship pays for tuition and a flat rate for books and laboratory expenses and provides tax-free monthly stipends of $350 for academic juniors and $400 for academic seniors. All other advantages and obligations are the same as those of the four-year scholarship program.

Two-Year or Lateral Entry Program

Open to qualified undergraduate and graduate students who have at least two years remaining in school and who have completed at least 81 credits. Students may qualify for entrance into the advanced course under this program in two ways.

1. They may participate as qualified veterans who receive placement credit for the first two years of AROTC. Veterans are also eligible to compete for two- and three-year scholarships while receiving their educational benefits. Members of the Reserves and National Guard may also be eligible to participate in AROTC and receive their commission upon graduation.

2. Requires attendance at the Leader's Trainers course for five weeks at Fort Knox, Kentucky. Completion of this training also qualifies students for direct entry into the advanced course. While at camp, students receive pay plus travel expenses to and from
the camp location, and they may compete for two-year scholarships, provided scholarships are available.

Undergraduate Program

Enrollment and Scholarship Officer
105 Clark, Box 353820
206-543-9010

The Army ROTC program offers a minor in military science and leadership.

Minor

Minor requirements

27 credits, to include the following:

1. M SCI 401, M SCI 402, M SCI 403 (9 credits)
2. Additional military science coursework (18 credits)
3. Minimum 18 credits of military science completed at the upper-division level
4. Minimum 18 credits of military science completed in residence through the UW
5. Minimum 2.5 grade in each course presented for the minor

Course Descriptions

M SCI 101 Military Science and Leadership Development (3) Introduction to challenges and competences critical for effective leadership. Examines how critical thinking, goal setting, time management, and stress relate to leadership. Develops knowledge and comprehension of leadership dimensions. Lessons include history and mission of the Army and leadership, personal development, values and ethics, and tactics and techniques discussions. Offered: A.

M SCI 102 Military Science and Introduction to Tactical Leadership (3) Overviews leadership fundamentals of problem solving, listening skills, briefings, providing feedback, and effective writing. Explores dimensions of leadership values, attributes, skills, and actions in the context of practical, hands-on, and interactive exercises. Introduction of effective oral communication. Develops skills in map reading, land navigation, and tactical maneuvering at team levels. Offered: W.

M SCI 103 Military Science and Introduction to Applied Basic Leadership (3) Final introductory series on leadership. Applies leadership fundamentals emphasizing attributes, skills, and actions. Students assess capabilities simultaneously, considering their personal leadership. Lessons apply leadership to military tasks of map reading, navigation, and tactics. Offered: Sp.

M SCI 110 Military Science Leadership Laboratory (0.5, max. 3) Evaluates the challenges of leading teams in complex contemporary environments. Students apply critical thinking skills
using challenging scenarios related to small unit operations. Provides feedback on the 16 Army leadership attributes, skills, and actions. Focuses on leadership development. Credits do not count toward graduation. Credit/no-credit only. Offered: AWSp.

M SCI 201 Military Science and Innovative Team Leadership (3) Explores dimensions of innovative tactical leadership strategies and styles. Practices personal motivation and team building through planning, preparing, and executing group exercises. Develops knowledge of leadership values and attributes through an understanding of Army leadership examples. Lessons include leadership, personal development, values and ethics, officership, and tactics and techniques. Offered: A.

M SCI 202 Military Science and Foundations of Tactical Leadership (3) Explores creative and innovative tactical leadership strategies and styles by examining team dynamics and leadership theories. Examines challenges of leading teams in complex contemporary environments. Practical exercises focus on dimensions of terrain analysis, patrolling, operation orders, and cultural awareness. Lessons include fundamentals of leadership, personal development, and tactics and techniques. Offered: W.

M SCI 203 Military Science and Transformational Leadership (3) Continues study of the theoretical basis of Army leadership and framework and dynamics of transformational leadership in the context of military operations. Develops greater self-awareness by assessing leadership styles and practices oral and written communication skills. Enables progress to applied and advanced tactical leadership study. Offered: Sp.

M SCI 301 Military Science and Tactical Leadership (3) Studies, practices, and evaluates adaptive leadership skills. Develops self-awareness and critical thinking skills using challenging scenarios related to small unit operations. Analyzes and evaluates leadership values, attributes, skills, and actions. Lessons focuses on leadership, land navigation, oral and written presentations, tactics, and physical fitness. Prerequisite: M SCI 101; M SCI 102; M SCI 103; M SCI 201; M SCI 202; M SCI 203; may not be repeated if received grade of 2.0 or higher. Offered: A.

M SCI 302 Military Science and Applied Leadership (3) Continues adaptive approach to leadership applying situations necessary to build skills required in complex scenarios. Develops proficiency in evaluating, decision-making, persuading, and motivating peers through practical exercises. Students evaluate individual leadership values, attributes, skills, and actions, and receive specific feedback on their leadership abilities based on written and oral presentations. Prerequisite: M SCI 101; M SCI 102; M SCI 103; M SCI 201; M SCI 202; M SCI 203; may not be repeated if received grade of 2.0 or higher. Offered: W.

M SCI 303 Military Science and Advanced Tactical Leadership (3) Finalizes M SCI 301 and M SCI 302 leadership skills that are necessary to successfully lead others while solving complex problems. Explores, evaluates, and develops decision-making skills required in contemporary environments. Reviews critical aspects of combat, specifically stability and support operations. Provides specific leadership feedback and prepares for advanced leadership and management.
Prerequisite: M SCI 101; M SCI 102; M SCI 103; M SCI 201; M SCI 202; M SCI 203; may not be repeated if received grade of 2.0 or higher. Offered: AWSp.

M SCI 305 Practicum—Techniques of Military Instructions (1-3, max. 3) Analysis, review of techniques used in military training and instructions. Students plan, rehearse, deliver, provide written critique on block of military instruction from the Military Qualification Skills Manual. Prerequisite: M SCI 101; M SCI 102; M SCI 103; M SCI 201; M SCI 202; M SCI 203; may not be repeated if received grade of 2.0 or higher.

M SCI 310 Military Science Advanced Leadership Laboratory (1, max. 6) Evaluates the challenges of leading teams in complex contemporary environments. Students apply critical thinking skills using challenging scenarios related to small unit operations. Provides feedback on the 16 Army leadership attributes, skills, and actions. Focuses on advanced leadership development. Prerequisite: M SCI 110. Offered: AWSp.

M SCI 401 Military Science and Developmental Leadership (3) I&S Develops proficiency in planning, executing, and assessing complex problems, functioning as a staff member, and providing leadership-performance feedback. Explores situational opportunities assessing values, risk, and ethical decisions. Performance measured by abilities to give and receive systematic, specified feedback on 16 leadership attributes, skills, and actions focusing on advanced leadership development. Prerequisite: M SCI 301; M SCI 302. Offered: A.

M SCI 402 Military Science IV: Advanced (3) I&S Explores dynamics of leading in complex situations of contemporary environments. Examines differences in customs and courtesies, military law, principles of war, and rules of engagement. Lessons review aspects of interacting with nongovernmental organizations, civilians, and host nation support with case studies examining complex ethical and practical demands of leadership. Prerequisite: M SCI 301; M SCI 302; M SCI 303; may not be repeated if received grade of 2.0 or higher. Offered: W.

M SCI 403 Military Science and Advanced Leadership (3) I&S Completes fundamental learning of advanced leadership attributes, skills, and actions that effectively prepare students for careers in military or civilian leadership. Examines Army modularity, unit organization, joint operations, and the role of junior leaders. Focuses on case studies, situational exercises, student presentations, and battlefield analysis to develop insights on leadership. Prerequisite: M SCI 301; M SCI 302; M SCI 303; may not be repeated if received grade of 2.0 or higher. Offered: Sp.
Naval Science

Department Overview

Naval Science offers University students an opportunity to engage in study that leads to a commission in the U.S. Navy or Marine Corps while working toward a baccalaureate degree. The Naval Reserve Officer Training Corps (NROTC) unit functions in conjunction with Naval Science. An NROTC student may select an academic major within certain limitations (e.g., some programs that normally lead to immediate graduate education, such as architecture, are not consistent with the mission of the NROTC program).

In addition to their University curricula, NROTC students take naval science courses in history and customs, naval engineering/weapons systems, navigation, naval operations, and leadership/management. In addition, each student must attend one naval science laboratory session and one physical training session per week. During the summer, students may have a four-to-six-week training cruise to put into practice their earlier classroom training.

Two NROTC programs are offered, as outlined below. In addition, any University student may take a naval science course without enrolling in the NROTC program, or may complete a minor in naval science, requirements for which are shown below.

Navy-Marine Scholarship Program

Each year students are accepted for scholarship status in the four-year, three-year alternate, and two-year NROTC scholarship programs. Eligibility for the three- and four-year programs is based upon nationwide competition and selection by a central selection committee. Application must be made by December 1 of the academic year preceding appointment as a midshipman. Those selected are provided educational benefits, including subsidy by the Navy of all tuition, fees, and uniforms. In addition, there is a textbook stipend each quarter and a monthly subsistence pay which ranges between $250 and $400.

For the two-year scholarship program, applications from current sophomores, or juniors enrolled in five-year programs of study, must be received by March. Those chosen by a central selection committee attend a six-week course of instruction at the Naval Science Institute (NSI) at Newport, Rhode Island, during the summer prior to their junior year. Successful completion of NSI instruction qualifies these students for enrollment in the advanced courses in the NROTC program. All scholarship students are appointed as midshipmen, USNR-R, and upon graduation are commissioned as officers in the Navy or Marine Corps Reserve, after which they serve on active duty for a minimum of four years.
Navy-Marine College Program

Each year, men and women are accepted for four- and two-year non-scholarship college programs. Applications for the two-year program are accepted from current sophomores in community colleges or four-year colleges and must be received prior to March of their sophomore year (or third year, if in a five-year program).

Those students selected for the two-year program attend a six-week course of instruction at the Naval Science Institute (NSI) at Newport, Rhode Island, during the summer prior to their junior year. Successful completion of NSI instruction qualifies students for enrollment in the advanced course in the NROTC program. Students in the NROTC college program pay their own college expenses but receive monthly subsistence pay during their junior and senior years. The Navy furnishes all uniforms and textbooks used in naval science courses.

All college-program students are eligible for a scholarship after completing one academic term, with scholarship awards based on academic grades and participation within the midshipman battalion. The two-year college-program students also may win a scholarship for superior performance at NSI. Upon graduation, college-program students are commissioned in the Navy Reserve or Marine Corps Reserve and serve on active duty for three years.

Undergraduate Program

Adviser 202 Clark, Box 353840 206-543-0170 nrotc@uw.edu

Minor

Minor requirements

25 credits, to include the following:

1. N SCI 201; N SCI 402 (6 credits)
2. Additional naval science coursework (19 credits)
3. Minimum 12 naval science credits completed at the upper-division level
4. Minimum 12 naval science credits completed in residence through the UW
5. Minimum 2.5 grade in each course presented for the minor

Course Descriptions

N SCI 101 The Naval Service (3) General introduction to the U.S. Navy and Marine Corps, with emphasis on organization, missions, roles, tasks, assets, and operations. Offered: A.

N SCI 102 History of U.S. Sea Power I (3) I&S A study of the U.S. Navy and Marine Corps as they fit into the history of the United States, from the American Revolution to the outbreak of World War II. Prerequisite: N SCI 101. Offered: W.
N SCI 103 History of U.S. Sea Power II (3) I&S A study of the U.S. Navy and Marine Corps as they fit into the history of the United States, from World War II to the present day. Prerequisite: N SCI 102. Offered: Sp.

N SCI 110 Naval Science Laboratory (*, max. 12) Evaluates the challenges of leading teams in complex contemporary environments. Topics vary. Required each quarter for NROTC students. Credit/no-credit only. Offered: AWSp.

N SCI 201 Naval Leadership and Management (3) I&S Introduction of the theory and techniques of naval leadership based on principles of behavioral science pertinent to understanding individual and group behavior of adults. Introduces the management process and the relationship of management functions to leadership. Stresses acceptance of a traditional deep sense of moral responsibility on the part of the aspiring leader. Prerequisite: minimum 2.0 grade in N SCI 101. Offered: A.

N SCI 202 Navigation I (3) NW The science and practice of maritime coastal navigation, including visual fixing, dead reckoning, and piloting methods. Computation of tides and currents and nautical rules of the road. Prerequisite: N SCI 101. Offered: W.

N SCI 301 Naval Ship Systems I (3) Study of fundamental principles of energy transfer and thermodynamics. An introduction to nuclear propulsion, gas turbines, and auxiliary power systems. Offered: A.

N SCI 302 Naval Ship Systems II (3) Study of ship characteristics, ship design, hydrodynamic forces, stability, damage control, and shipboard electrical systems. Includes introduction to engineering documentation, electrical safety, preventative maintenance, and personnel qualifications. Prerequisite: N SCI 301. Offered: W.

N SCI 321 Evolution of Warfare (3) I&S Focuses on how and why warfare has changed. Explores how warfare technology has evolved over time. Topics include military theory, fourth generation warfare, and Marine Corps doctrine. Designed for future Marine Corps Officers, but open to all students. Offered: A.

N SCI 323 USMC Leadership and Administration of Justice I (3) Concepts, objectives, characteristic qualities, and practical techniques of leadership as exercised by the Marine Corps officer. Emphasizes leadership and management role of the junior officer in the Fleet Marine
Forces. Intensive physical activities and outdoor projects to test an individual's physical and mental endurance. Prerequisite: N SCI 110; N SCI 421. Offered: Sp.

**N SCI 401 Naval Operations (3)** Introduction to naval operations, the employment of naval forces, naval tactics, formulation of operations plans and orders, employment of detection equipment, and meteorology. Prerequisite: N SCI 101. Offered: A.

**N SCI 402 Naval Leadership and Ethics (3) I&S** Study of leadership and ethics within a military context using applicable case studies. Examines the Law of Armed Conflict and Code of Conduct; the importance of integrity, moral courage, and ethical behavior to effective leadership; and the interrelationship between authority, responsibility, and accountability. Offered: W.

**N SCI 403 Naval Organization and Management (3)** Study of organization, systems, and techniques employed in the Navy for management of its human, material, and financial resources. Some work relates to the administration of discipline in the Navy under the Uniform Code of Military Justice. Emphasis on the leadership and management role of the junior officer in the fleet. Prerequisite: minimum 2.0 grade in N SCI 402. Offered: Sp.

**N SCI 421 Amphibious Warfare (3) I&S** Provides basic knowledge of evolution of amphibious warfare from premodern era to present. Strategic, operational, and tactical considerations in planning specific operations and amphibious landings. Prerequisite: either N SCI 321 or minimum two POL S or JSIS courses. Offered: A, even years.
School of Social Work

School Overview

Dean
Edwina Uehara

210 Social Work/Speech and Hearing Sciences

The School of Social Work offers two professional programs, one at the undergraduate level and one at the graduate level, as well as a PhD program. The Bachelor of Arts in Social Welfare (BASW) program prepares students for entry-level generalist practice. The graduate professional program prepares students for advanced practice within a field of concentration; students earn a Master of Social Work degree. Both the BASW and MSW programs are accredited by the Council on Social Work Education. The School also offers a Doctor of Philosophy degree in social welfare that prepares students for careers in research and education. Consistent with University policy, no credit is granted on the basis of life experience or previous employment. All three programs are housed in the Social Work/Speech and Hearing Sciences Building, 4101 Fifteenth Avenue Northeast, Seattle, WA 98105-6299.

In addition, the School offers two concurrent degree programs – one with the School of Public Health leading to the MSW and MPH degrees, and a second with the Evans School of Public Affairs, leading to MSW and MPA degrees.

Undergraduate Program

Adviser
23D Social Work, Box 354900
206-543-8617
sswadmis@uw.edu

The School of Social Work offers the following program of study

- The Bachelor of Arts degree with a major in social welfare

The program includes upper-division courses in social welfare, with prerequisites in human biology, economics, psychology, statistics, and sociology. Social welfare courses include content on social welfare history, policy and services, human behavior and the social environment, social welfare research, and cultural diversity. These academic courses prepare students for the senior year three-quarter practicum experience, which involves a total of 480 hours of direct social services under the supervision of a practicum instructor approved by the School.
Bachelor of Arts Program

Suggested First- and Second-Year College Courses: SOC WF 101, SOC WF 200; SOC WF 201; prerequisites in psychology, sociology, economics/political science, and human biology (see below); also, courses in American ethnic studies, sociology, psychology, and gender, women, and sexuality studies.

Department Admission Requirements

Pathways for admission to the social welfare major:

A. Approximately 36 juniors are admitted each year. Admission, which is for autumn quarter only, is competitive and completion of requirements listed below does not guarantee acceptance. April 1 is the application deadline. To be considered for admission, applicants must meet the following criteria by the time they begin classes in the social welfare program:
   1. Minimum 65 credits completed
   2. Five prerequisite courses, four of which must be completed prior to beginning the program in autumn (minimum 2.0 grade required in each). Courses in the areas of psychology, sociology, economics/political science, and human biology must be completed before beginning the required SOC WF courses. An introductory statistics class may be taken as late as spring quarter of the junior year, but is a required prerequisite of senior-year courses and is recommended prior to admission. See for list of acceptable courses and more information.
   3. A minimum 2.00 cumulative GPA
   4. Have some paid or volunteer social service experience
   5. Completed application, admission essay, resume, and copies of college transcripts

B. Approximately eight freshmen and sophomores are admitted through early admission. Applicants may apply either in spring quarter of their freshman year or autumn quarter of their sophomore year. Application deadlines are April 15 and October 31. Applicants must meet the following criteria:
   1. Minimum 30 credits completed
   2. Completion of or enrollment in at least one of five prerequisite courses, three more of which must be completed prior to beginning the program degree requirements in autumn of the junior year (minimum 2.0 grade required in each). Courses in psychology, sociology, economics/political science, and human biology must all be completed prior to beginning required SOC WF courses. An introductory statistics class may be taken as late as spring quarter of the junior year, but is a required prerequisite of senior-year courses and is recommended prior to admission. See School website for list of acceptable courses and more information.
   3. Minimum 3.00 cumulative GPA
4. Fifty community service/student leadership hours in college and high school
5. Completed application, admission essay, resume, personal disclosure statement, and official copies of all college transcripts
6. One letter of recommendation
7. Preference given to students who have completed a social welfare premajor offering (see School website for more information)

A group interview with the program director and faculty/staff is scheduled after completed applications are submitted.

Application forms and a detailed description of the social welfare major are available at the School's website, socialwork.uw.edu/. A student may discuss the program in person by contacting the Director of Admissions, 206-543-5676, sswadmis@uw.edu. Students accepted to the major complete a change-of-college form and transfer their academic file to the School's Student Services Office. Students not accepted may contact the Director of Admissions to discuss alternatives to the social welfare major, or the appeal process.

**Major Requirements**

67 credits as follows:

1. Core Courses (2.0 minimum grade required in each course): SOC WF 200; SOC WF 310; SOC WF 311; SOC WF 312; SOC WF 315; SOC WF 320; SOC WF 390; SOC WF 402; SOC WF 404; SOC WF 405; SOC WF 410, SOC WF 415; SOC WF 460 or SOC WF 442 or SOC WF 443; SOC WF 465; and SOC WF 435
2. 2.00 cumulative UW GPA
3. 2.50 cumulative GPA in SOC WF required courses

**Continuation Policy**

All students must make satisfactory academic progress in the major and meet outlined standards of professional behavior. Failure to do so may result in probation or referral to the student review committee, either of which could lead to dismissal from the major. For the complete continuation policy, contact the departmental adviser or refer to the department website.

**Student Outcomes and Opportunities**

- *Learning Objectives and Expected Outcomes:* The BASW program produces beginning-level social work practitioners and is accredited by the Council on Social Work Education. Students become generalist social work professionals able to work with individuals, families, groups, communities, and organizations in enhancing the health, well being, and empowerment of disadvantaged communities across the lifespan. Graduates may pursue social work practice jobs, or graduate education in social work, or a range of other fields (e.g., law, medicine, public policy, international development). Students receive an interdisciplinary liberal arts education, drawing on a range of social science courses which prepare them to promote human welfare and deal with complex
social problems. Students are involved in both academic coursework (gaining intellectual knowledge and critical thinking skills) and a field placement experience ("lived" or "on the ground" experience).

The following outcomes define the BASW program:

1. Preparation of entry-level baccalaureate social workers for generalist practice in a multicultural context.

2. Education and training of generalist social workers who are informed, engaged, and responsive practitioners, able to understand and take action in enhancing human welfare and in promoting social and economic justice.

3. Education of students within the context of an interdisciplinary liberal arts education, to foster a comparative and critical examination of social welfare and social work through the study of its history, policies, research, and practice interventions.

4. Preparation for graduate education.

- In addition, the School of Social Work houses a number of centers and projects. For more information on these research activities, visit socialwork.uw.edu/research/research-centers.

- **Honors Options Available:** With College Honors (Completion of Honors Core Curriculum and Departmental Honors). With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.

- **Research, Internships, and Service Learning:** Contact the adviser for information.

- **Department Scholarships:** A limited number of financial-aid opportunities are available to students. Applicants are urged to apply for assistance through the Office of Student Financial Aid by February 15. Completion of the Free Application for Federal Student Aid (FAFSA) is required for consideration for any departmental funding. Inquiries may be directed to the chair of the scholarship committee, School of Social Work.

- **Student Organizations/Associations:** Organization of Student Social Workers (OSSW)

---

**Graduate Program**

Graduate Program Coordinator  
Box 354900  
206-543-8617  
sswadmis@uw.edu

**Master of Social Work**

The School of Social Work offers a Master of Social Work degree with three options: a two-year full-time program; a one-year advanced-standing program for qualified students with a degree in social work/social welfare from a Council on Social Work Education accredited undergraduate program; and a three-year part-time extended degree program.
All program options prepare students for advanced professional practice with a culturally diverse range of at-risk populations in publicly funded social services. The curriculum encompasses two distinct but interconnected areas: the beginning content or professional foundation, and opportunities for advanced content in areas of policy, services, and methods.

The professional foundation provides instruction in the basic knowledge and skills required for effective, generalist social work practice, as well as socialization to the profession, its value orientation, ethics, and history.

The advanced curriculum provides in-depth knowledge and skills needed for advanced practice in the social work profession. The advanced curriculum is being revised. Check the School's website, socialwork.uw.edu for current information.

**Admission Requirements**

Formal admission to the Graduate School as well as to the School of Social Work. Bachelor's degree, strong academic background, and social-service experience. Official transcripts from all colleges and universities attended, references, application forms, résumé, and an admission essay to be considered for autumn-quarter entry. January 15 is the closing date for receipt of applications and materials. Admission is competitive and selection is based on a review of the applicant's submitted materials. Current application materials can be obtained from the School's Admissions Office website at socialwork.uw.edu/admissions/.

**Degree Requirements**

Minimum 46 credits (advanced standing program); 75 credits (day and extended degree programs), as follows:

1. Completion of required professional foundation and advanced curriculum credits and demonstrated competence in both academic and field practicum work.

2. **Human Biology Requirements:** BIOL 100, BIOL 101-, BIOL 118, BIOL 161, NUTR 300, or GENOME 261 (or equivalent), or SSW Continuing Education course "Human Biology" taken within 10 years of admission to the MSW program. Students must complete the requirement prior to beginning the advanced curriculum (including practicum). Credit may not be applied to the MSW degree. Courses in nutrition, psychobiology of women, and biology of aging also fulfill this requirement.

3. **Basic Statistics Requirement:** An introductory course in statistics (any discipline) is a prerequisite for SOC W 505/SOC W 506.

4. **Professional Foundation Courses Required for the Day and Extended Degree Program:** SOC W 500, SOC W 501, SOC W 504, SOC W 505, SOC W 506, SOC W 510, SOC W 511, SOC W 512, SOC W 513, SOC W 523, 3 credits of electives, SOC W 524. All foundation courses must be completed before beginning the advanced curriculum.

5. **Advanced Curriculum for the MSW Day Program:** Specialization in an advanced methods area or field of practice. Current areas of concentration include policy and administrative practice; health and mental health practice; community-centered
integrative practice; practice with children, youth, and families; and multigenerational practice. Students enter the second year with an individualized learning plan (developed by winter quarter of their foundation year) that sets out a coherent program of advanced study. Identified in the learning plan is a policy/services course, an advanced methods area, an advanced field practicum, and proposed choices for methods and elective courses that support the student's overall area of concentration.

Programs of study vary slightly by concentration, but a typical program of study includes:

a. One policy/services course (3 credits), consistent with the student's second year specialization
b. Two advanced methods (6 credits) in the student's primary method area or across methods with the approval of the faculty adviser and practicum coordinator
c. Elective course offerings (9 credits) to include courses related to the policy/services areas, and advanced HBSE and theory courses, with the primary focus on development of knowledge and skills in intervention. One elective course from outside the School. Elective courses range from 1 to 3 credits.
d. Advanced practicum (SOC W 525, 18 credits) aligns with the student's policy/services course and with the student's primary intervention method area.

6. Advanced Curriculum for the MSW Extended Degree Program: Students select one of two specializations within the Interpersonal/Direct Social Work Practice concentration: Integrative Health-Mental Health Advanced Practice, or Multigenerational Practice with Children, Families, and Elders. Advanced curriculum consists of policy/services course, a two-quarter advanced practice methods sequence, SOC W 571, 6 credits of electives, and a 720-hour advanced practicum.

7. MSW Electives: Courses may be selected from curriculum offerings related to particular fields of practice, intervention theories, intervention modalities, social problems, populations, and research methods. Students may take advanced methods courses in areas other than the student's primary methods area and relevant courses in other graduate programs and professional schools of the University. Three credits of external coursework may be included.

Financial Aid

A limited number of financial-aid opportunities are available. Applicants to the MSW program are urged to apply for assistance through the Office of Student Financial Aid by February 15. Completion of the Free Application for Federal Student Aid (FAFSA) is required for consideration for any departmental funding. Departmental funding is limited and typically requires a department-specific application be submitted by April 1. Inquiries may be directed to the Admissions Office, School of Social Work. Information on available tuition awards may also be reviewed on the Social Work admissions website, socialwork.uw.edu/admissions.
Master of Social Work/Master of Public Health Concurrent Degrees

Concurrent degrees prepare professionals who function at the interface of both fields in practice, research, planning, administration, and policy development. Students develop (1) competence in social work practice in community health; (2) understanding of the organization and functioning of the health and social service delivery systems; and (3) basic analytical skills necessary to conduct research and to perform competently in a variety of public health social work roles. Students also have an opportunity for in-depth study of particular issues related to their special interests and career goals.

Application

Students who matriculate into the full time program in either Social Work or Public Health are eligible. Students admitted to Social Work with advanced standing should apply for both programs simultaneously. Students in the part-time evening degree program in either Social Work or Public Health are not eligible for the program.

1. Students must apply to and be accepted by both schools.
2. Students are strongly encouraged to complete up to one year of studies in Social Work before entering the Public Health program. Applications for entry are due in both schools by January 15. Typically students apply to Social Work in January and enter the MSW program in September. They then apply to Public Health the following January and begin the MPH program the next September. Staggered entry permits students to complete all requirements of both degrees within three years.

Degree Requirements

115-125 credits (depending on number of electives taken)

1. Two separate sets of at least 36 credits each
2. At least 18 numerically graded credits for each degree in courses numbered 500 through 599. All required courses in the MPH program must be taken for a grade.
3. Up to 12 credits taken in one school may be counted toward the other school's total credit requirements, if approved by both programs. Electives for each department can be fulfilled by taking the required courses of the other department.
4. The MPH requires a thesis.

Doctor of Philosophy

The PhD program in social welfare prepares students to contribute to the advancement of knowledge and practice in the field of social welfare and the profession of social work for the promotion of social justice. Students acquire both the substantive and methodological competence to contribute theoretical formulations and empirical research that inform effective social work practice and advance scholarship in social welfare.
After the first year of required courses, each student's program of study is individually designed and focuses on well-defined substantive and interventional areas of research relevant to the field of social welfare. In the basic core of required courses, which includes teaching and research practice, students have an opportunity to pursue their particular interests with faculty members in the School of Social Work and in other schools and departments.

During the first two years, students define and develop the specialized areas that are the focus of their general examination and, typically, their subsequent dissertation research. Selected areas must have clear significance for the development of practice, programs, or policies in social work and social welfare.

The general examination for advancement to candidacy generally occurs at the end of the second year or during the third year. After advancement to candidacy, students devote themselves full time to completion of their dissertation research. The last step before the degree is the final examination, defense of the dissertation. Students are strongly encouraged to remain in residence at the University until the dissertation is accepted. The PhD program takes approximately four years, although academic excellence in learning and performance is always the first criterion for degree progress.

**Admission Requirements**

Admission is highly selective and students are admitted for autumn-quarter entry only. Applicants must have a master's degree in social work or a closely related field.

The Council on Social Work Education requires that faculty who teach practice courses in accredited programs have two years of supervised practice experience. Thus, obtaining such experience is highly important for those who seek academic positions following graduation.

Applicants selected for admission are those whose scholastic achievements, previous experience, and aptitude for social welfare research, scholarship, and teaching indicate the greatest promise for achieving the objectives of the program. In addition, an effort is made to maintain a balanced student group reflecting the range of concerns in social welfare and of faculty resources. The deadline for receipt of admission material is December 15. For more information, call 206-685-1680, or email phdmhpr@uw.edu.

**Degree Requirements**

90 credits minimum, to include:

- **Required Courses:** Must include content on diverse populations, including the disadvantaged and oppressed. Includes content on people of color, women, gay men and lesbians, and persons with disabilities. Specific type or nature of the content (e.g., readings, exemplars, exercises) and how it is introduced and integrated likely differs across courses. In all cases, content on diversity must be in accord with course objectives and be visibly present in the course syllabus.
All required coursework (with the exception of 800-level tutorials) must be completed before or during the quarter in which the oral section of the general examination takes place.

Courses required must be taken on a graded basis unless offered credit/no-credit only (i.e., they cannot be taken on a satisfactory/not-satisfactory basis).

1. Introduction to Advanced Research Methods and Design. Two quarters during first year.

2. Fundamentals of Statistics. Two quarters during first year through other departments (primarily Sociology or Biostatistics).

4. Social Welfare Policy. Two quarters during first year (contemporary policy and international and global policy).

5. Research Practicum. Two quarters; to be completed by the end of second year (credit/no-credit only).

6. Teaching Practicum. One quarter; to be taken after successful completion of first year (credit/no-credit only).

7. Career Planning Seminar. One-credit seminar offered quarterly (credit/no-credit only). Focus is on professional development issues and skills with emphasis on academic and research careers.

8. Teaching Preparation. One quarter in the second year.

9. Minimum two (3+ credit) courses in advanced graduate research methods (typically 500-level courses offered in other departments) relevant to the student's anticipated research in a substantive or interventive area. Coursework beyond the minimum is encouraged.

10. Minimum two (3+ credit) graduate social science theory courses (500 level or above), designed to provide strong theoretical foundations. Students often use these courses to develop a "minor" in one of the social sciences. Offered in the College of Arts and Sciences or one of the professional schools, they are related to the substantive or interventive content of the student's program. Coursework beyond the minimum is encouraged for greater depth of interdisciplinary theoretical training.

11. Dissertation Tutorials (SOC WL 800). Taken after the student has successfully completed the oral general examination and has been advanced to candidacy for the PhD. Students must complete a total of 27 credits over at least three quarters to satisfy the Graduate School requirement.

- Elective Courses in the School of Social Work

1. Qualitative Methods in Social Work Research. One or two quarters, offered alternate years.

2. Analytical Perspectives on Social Welfare Policy. One quarter, offered annually.
3. Advanced Topics in Data Analysis. One quarter, offered annually, covering advanced quantitative methods.

4. Social Movements and Participatory Action Research Methods. One quarter, offered alternate years.

5. Psychosocial Scale Construction and Measurement. One quarter, offered alternate years.

6. Interdisciplinary Prevention Science: Children and Adolescents. Overview of developmental perspective examining factors that promote or inhibit health development at different stages and during transitions (focus on birth through age 21), 3-credit course (credit/no-credit only).

- Additional Course Expectations: Students may take tutorials (SOC WL 600) with faculty members while completing advanced coursework and writing the integrative paper (prior to the oral general examination). These tutorials should include one or more written products.

Students are also encouraged to take additional courses that bear on their substantive areas of interest. Courses may be taken in any department or school of the University but should ordinarily be at the 500 level or above.

- Prevention Research Training Program Courses: (Trainee requirements in addition to all PhD program courses)
  1. Seminar in Prevention Science. One-credit seminars taken autumn, winter, and spring quarters each year of the traineeship. Credit/no-credit only.
  2. Promoting Well-Being among At-Risk Groups: Interdisciplinary Guidance for Health Promotion/Prevention Research. One quarter, 3 credits, introduction to prevention research.
  3. Two additional graduate level (500+) courses, one social science theory and one research methods, related to the prevention research area of study.

Financial Aid

The School of Social Work ensures that all students have some means of financial support during the nine-month school year for the first three years in the program and is frequently able to continue support beyond this point. In each of the first three years, the PhD program director assists students in obtaining funding from the School, other UW sources, or external federal and private granting agencies. Each year, awards of stipends, fellowships, and research and teaching assistantships are made on the basis of resources available and match with areas of student interest. An award of a particular stipend or assistantship in one academic year does not carry a commitment for that same award in another year because both the grant situation and the applicant pool change. Advanced teaching and research positions are available on a competitive basis. Students are encouraged to begin their efforts to secure dissertation research support early.
and to stay in communication with the PhD program directors and associate deans, who oversee assistantship assignments in consultation with the School administration.

Course Descriptions

Social Welfare (BASW)

SOC WF 101 Social Work in Action: Bridging the Gap From Science to Service (5) I&S
Explores current social work practice and research applied to major societal problems. Lectures and discussions by leading faculty introduce students to the evidence-based perspective underlying program planning and practice innovation. Topics include: juvenile delinquency, child maltreatment, domestic violence, foster care reform, mental health, school violence, substance abuse, and poverty. Offered: A.

SOC WF 120 International Responses to Human Needs: Social Welfare Policies and Services (5)
Focuses on major global social services such as poverty, immigration, and health that are reshaping social welfare policies and services throughout the world. Provides a comparative overview of social welfare policies and programs in the United States and selected other countries.

SOC WF 200 Introduction to Social Welfare Practice (5) I&S
Introduction to the field of social work, including the theoretical concepts and institutional framework that guide practice. Overview of social work profession and social welfare system within which it operates. Lectures supplemented by exercises, films, guest lectures, and class discussions. Offered: A.

SOC WF 201 Advances in Prevention Science: Bridging the Gap from Science to Service (5) I&S
Investigates the potential for preventing major social problems (child abuse and neglect, alcohol misuse, and interpersonal violence). Critically examines the state of prevention science, includes dialogue about ways to enhance the exchange of ideas between research and practice communities, and explores implications for social policy.

SOC WF 215 Intergroup Dialogues (3) DIV
Explores issues of social identities, differences, and inequalities to build understanding, skills, and values for bringing about greater social justice using dialogic communication.

SOC WF 250 Writing for Social Welfare (1-2, max. 2)
Offers an engaging space for social welfare students to develop, practice, and strengthen college-level writing using exercises, discussion, and lecture. Covers summarizing and responding, critical thinking and argument, APA style and academic honesty, as well as language and the writing process. Review of punctuation and mechanics, grammar, and sentence style. Credit/no-credit only.

SOC WF 297 Study Abroad in Social Work (1-15, max. 15)
For participants in a UW study abroad program. Specific content varies and must be individually evaluated.

SOC WF 310 Social Welfare Practice I (5)
Provides an introduction to the roles, tasks, and functions of the social welfare practitioner and to theories and methods of intervention; a
conceptual framework for social work practice with individuals, families, and small groups; and an opportunity to develop skills in problem assessment, intervention, termination, and evaluation. Offered: A.

**SOC WF 311 Social Welfare Practice II (5)** Provides an introduction to the roles, tasks, and functions of the social welfare practitioner and to theories and methods of intervention; a conceptual framework for social work practice with individuals, families, and small groups; and an opportunity to develop skills in problem assessment, intervention, termination, and evaluation. Prerequisite: SOC WF 310. Offered: W.

**SOC WF 312 Social Welfare Practice III (5)** Focus on macro systems in a diverse society using the generalist perspective. The implications of system resources and configurations for meeting human needs are considered. The role and function of generalist social workers to understand and advocate for system development and change is emphasized. Prerequisite: SOC WF 311. Offered: Sp.

**SOC WF 315 Community Service Learning (1-5, max. 6)** Opportunity for students to apply social work theory to practice, to advocate for social justice, and to be involved in community service. Students learn by connecting classroom theory and community-based experience through the completion of community-based projects in social work-type agencies. Majors only.

**SOC WF 320 Social Welfare Policy (5) I&S** Emphasizes policy and program development in social welfare with emphasis on the context, making, and unmaking of social policy. Covers policy formulation as well as current and emerging policies in social welfare. Prerequisite: SOC WF 200. Offered: WSp.

**SOC WF 390 Introduction to Social Welfare Research (5)** Introduction to logic of the scientific method as applied to social work and social welfare practice, to the design and conduct of a research study, and to data collection and summarization. Skill development in critical consumption of social welfare research. Prerequisite: either STAT 220 or QMETH 201. Offered: A.

**SOC WF 402 Human Behavior and Social Environment I (5) I&S** Focuses on understanding human development across the lifespan. Integrates biological, psychological, structural, environmental, political, global, and socio-cultural perspectives. Explores the relationship between the person and the environment including families, groups, organizations, communities, and institutions.

**SOC WF 404 Cultural Diversity and Justice (5) I&S, DIV** History and culture of disadvantaged and oppressed groups served by social welfare generalist practitioners. Offered: Sp.

**SOC WF 405 Fieldwork Seminar (1-4, max. 9)** Integrates social work practicum experiences with prior and concurrent coursework in social sciences, social work, and research. Includes discussion of class presentations and simulations or practice situations that combine knowledge
and skill utilization. Student logs provide a basis for individual goal identification and achievement. Required of social welfare seniors. Offered: AWSp.

**SOC WF 410 Evidence-Based Practices in Social Welfare (3)** Focuses on interface between social work research and practice, with attention to origins and defining features of evidence-based practice (EBP) and approaches to intervention consistent with EBP framework. Integrates content on research and practice priorities, and provides students with knowledge and skills to promote use of theory-driven, empirically-supported interventions.

**SOC WF 415 Beginning Field Instruction (1-12, max. 12)** Students are placed in selected social service agencies and accept beginning social service assignments under the supervision of competent agency personnel. Credit/no-credit only. Offered: AWSp.

**SOC WF 435 Skills for Social Welfare Practice (1)** Builds on first-year generalist practice content. Provides skill building in one or two areas of social work practice relevant to many practice settings. Topic chosen by students and faculty. Credit/no-credit only.

**SOC WF 442 Building Competencies for Intergroup Dialogue Facilitation (5) VLPA/I&S, DIV** Focuses on both knowledge and skills development for peer facilitators. Topics include philosophy and principles of dialogic education and dialogic communication; intergroup communication; social identity development; principles of working with conflict; group dynamics, observation, and facilitation; team building among co-facilitators; and creating a support system among instructors and facilitators.

**SOC WF 443 Facilitating Intergroup Dialogue (5) VLPA/I&S, DIV** Practicum seminar providing instruction, consultation, and supervision of peer group facilitators. Focuses on comparison of facilitation experiences and consultations, trouble-shooting with other facilitators, co-facilitator team building, and planning for dialogues. Exploration of specific, current intergroup issues, such as affirmative action and immigration. Continuation of team-building work begun in SOC WF 442.

**SOC WF 445 Special Topics in Social Work Practice Methods (3, max. 6)** Examines roles, skills, and methods in designated areas of social work practice. Content builds on foundation practice methods.

**SOC WF 450 Integrative Seminar: Poverty Analysis (5)** Critical analysis of poverty both in the United States and from a global perspective. Analytical and descriptive focus on measurement, processes of production and perpetuation, and theoretical perspectives that lead to different social and economic policy responses.

**SOC WF 460 Chemical Dependency: Assessment and Treatment (3)** Provides students the knowledge and basic skills needed to recognize and understand the dynamics of chemical dependency in the lives of individuals. Students learn how to assess the presence of this disorder and what the issues are in referring individuals to treatment.
**SOC WF 465 Social Welfare Capstone Seminar (1)** Students demonstrate and reflect on mastery of core competencies and respective practice behaviors foundational to generalist practice. Studies analyze and synthesize data from their experiences in the BASW program and integrate this understanding with their new identity as a professional social worker. Credit/no-credit only.

**SOC WF 490 Independent Research in Social Welfare (1-15, max. 15)** Individual work with faculty member to assist with current research project(s). Students trained and supervised in some or all of the following research tasks: literature review, data analysis, record-keeping, interviewing, report writing, data entry and coding, data collection, and other tasks commonly found in research problems in social welfare. Credit/no-credit only.

**SOC WF 491 Honors Seminar (1, max. 3)** Three quarter seminar for students admitted into the BASW Honors Program. Guides students through stages of research conceptualization and proposal writing, IRB application, data collection and analysis, and dissemination. Includes feedback and discussion with instructor and peers. Credit/no-credit only.

**SOC WF 492 Honors Thesis I (3-)** Part one of a two quarter series for BASW Honors students writing their honors thesis. Students carry out an individual project of their choosing under the guidance of a faculty member. Focuses on data collection, management, and preliminary analysis.

**SOC WF 493 Honors Thesis II (-3)** Part two of a two quarter series for BASW Honors students writing their honors thesis. Students carry out an individual project of their choosing under the guidance of a faculty member. Focuses on data analysis, research writing, and presentation of results.

**SOC WF 495 Special Topics in Generalist Social Welfare (1-5, max. 15)** Readings, lectures, and discussions pertaining to significant topics of special and current interest to social workers.

**SOC WF 497 Advanced Study Abroad in Social Work (1-15, max. 15)** For participants in a UW study abroad program. Specific content varies and must be individually evaluated.

**SOC WF 499 Independent Study in Social Welfare (1-15, max. 15)** Independent reading or independent study. Includes written paper. Not open to graduate or non-matriculated students.

**Social Welfare**

**SOC WL 515 Community Service Practicum (3, max. 6)** Development of skills on working in partnership with community institutions in the role of researcher or scholarly collaborator, through ongoing reflection and consultation with a faculty member. Uses a learning contract to focus specific activities. Credit/no-credit only. Offered: AWSpS.

**SOC WL 552 Seminar in Contemporary Social Welfare Policy (3)** Critical review of contemporary American income maintenance and related social welfare policies, and the economic, political, and social factors that affect their development, implementation, and
effectiveness. Evaluation of their effects on poverty, income inequality, and related social outcomes, including international comparisons. Assessment of proposals for reform. Closely linked to SOC WL 553.

**SOC WL 553 Policy Implementation and Organizations (3)** Examines divers organization theories relevance to policy implementation, translational research, and practice interventions within health and human service settings. Emphasizes multilevel models and integrative frameworks that take into account individual, group, and organizational factors, recognizing outcomes as embedded phenomenon nested within organization, community, and societal contexts. Offered: Sp.

**SOC WL 554 Analytical Perspectives on Social Welfare Policy (3)** Broad overview of the social welfare policy process, including epistemological issues, content on social problem construction and definition, policy agendas and case study methodology. Introduction to analytical tools and concepts needed to take a proactive role in policy development, advocacy, implementation, and policy research.

**SOC WL 556 West Coast Poverty Center Seminar Series (1, max. 15)** Presents cutting-edge research on poverty, inequality, and public policy. Offered: AWSp.

**SOC WL 559 Preparing to Teach: Instructional Theory and Practice (3)** Teaching conceptualized as professional practice. Focuses on integration of theory, research and educational strategies, techniques, and skills into students' practice as educators. Classroom discussions and activities promote reflection, exploration, critical analysis, and experimentation.

**SOC WL 577 Promoting Well-Being among At-Risk Groups through Prevention Research (3)** Interdisciplinary overview of major concepts and methods in health promotion and prevention research, with emphasis on at-risk populations. Attentive to health disparities, collaboration with diverse communities and biobehavioral advances in addition to application of theory and prevention-science framework. Encourages interdisciplinary participation and supporting students in articulating their research perspectives.

**SOC WL 578 Seminar in Special Topics for Prevention Research (1, max. 30)** Interdisciplinary overview of major concepts in promotion of mental health and prevention of mental distress with prevention science as framework. Provides conceptual foundations for advanced study in specialized aspects of mental health prevention research. Credit/no-credit only.

**SOC WL 579 Interdisciplinary Approaches to Prevention Science: Children and Adolescents (3)** Overview of theory, research, and practice in prevention science. Developmental perspective examining factors that promote or inhibit health development at different stages and during transitions (focus on birth through age 21). Designed for
interdisciplinary dialogue, and includes guest faculty from around the University who are specialists in course topics. Credit/no-credit only.

**SOC WL 580 Quantitative Research Methods and Design (3)** Logic, terminology, and methods of quantitative social science approaches to correlational, experimental, quasi-experimental, survey, and program evaluation research. Components of the research process (problem definition, concept explication, ethical evaluating, and designing defensible quantitative research studies).

**SOC WL 581 Qualitative Research Methods and Design (3)** Theoretical and methodological foundations of a range of qualitative methods relevant to social welfare and social science research. Fundamentals of qualitative research design and implementation, including framing research questions, sampling, data collection, analytical methods, and quality criteria. Focus on ethics, cultural sensitivity, and community-based research with vulnerable populations.

**SOC WL 582 Research Practicum (3-)** Development of specific methodological skills in social welfare research through participation in an ongoing research project. Learning contract used to target specific research competencies. Credit/no-credit only. Offered: ASpS.

**SOC WL 583 Research Practicum (-3)** Development of specific methodological skills in social welfare research through participation in an ongoing research project. Learning contract used to target specific research competencies. Credit/no-credit only. Offered: ASpS.

**SOC WL 584 Teaching Practicum (3)** Supervised teaching of a required course or teaching as a co-instructor with a faculty member. Learning contract used to target specific teaching competencies, e.g., assessing and evaluating student outcomes, identifying class session goals and objectives, tailoring instruction methods to diverse learning styles. Credit/no-credit only. Offered: AWSpS.

**SOC WL 585 Qualitative Methods in Social Work Research I (3)** The first in a two-quarter sequence offering intensive experience in the theory and application of qualitative and ethnographic research methods. Prepares students for conducting qualitative studies and for combining qualitative and quantitative research methods. Focuses on applications especially relevant to social welfare.

**SOC WL 586 Qualitative Methods in Social Work Research II (3)** The second in a two-quarter sequence offering intensive experience in the theory and application of qualitative and ethnographic research methods. Prepares students for conducting qualitative studies and for combining qualitative and quantitative research methods. Focuses on applications especially relevant to social welfare.

**SOC WL 589 Multivariate Data Analysis for the Social Sciences (4, max. 8)** E. EROSHEVA Multivariate analysis aims to summarize and describe patterns among multiple observed characteristics. Explores theoretical introduction and practical skills to carry out multivariate analysis methods such as cluster analysis, principal components, factor analysis, and latent class analysis. Prerequisite: SOC 504, SOC 505, or SOC 506. Offered: jointly with CS&SS 589; A.
SOC WL 590 Topics in Advanced Research Methods (3) Special topics in social and behavioral research design for advanced graduate students. Topics vary and focus on community-based research methods and measurement construction for culturally diverse populations. Prerequisite: doctoral student in social welfare or related discipline; advanced master's level students by permission of instructor.

SOC WL 591 Seminar on Topics in Social Welfare (1-5, max. 15)

SOC WL 592 Applied Longitudinal Data Analysis For Social Sciences (4) E. Erosheva
Addresses statistical methodology for using longitudinal data to answer research questions about changes over time including exploratory analysis tools, and random coefficient, growth curve, multilevel and hierarchical models, and their extensions. Prerequisite: Successful completion of SOC 504, SOC 505, and SOC 506; and a solid knowledge of linear regression. Offered: jointly with CS&SS 592; A, odd years.

SOC WL 594 The Embodiment of Risk, Health Disparities, and Stress Mechanisms (3)
Interdisciplinary course focused on multi-level exposure to and impacts of stress, integrating social determinants and life course development perspectives. An overview of theory and research integrating biological and psychosocial processes with emphasis on vulnerable populations and disparities. Encourages interdisciplinary engagement and supporting students in articulating their research perspectives. Offered: A.

SOC WL 598 Theory and Metatheory in Social Research (3) Explores the nature and role of theory in social research, theoretical and metatheoretical foundations of major social science research paradigms, and interdisciplinary perspectives on the socially constructed nature of theory and definitions of social "problems." Encourages critical, collaborative reflection on the role of theory in contemporary interdisciplinary research environments.

SOC WL 599 Theory Development for Social Research (3) Assists students in applying theory in building an original conceptual model. Emphasizes critical and integrative thinking derived from a social justice framework. Encourages students to examine the ideological, political, methodological, and ethical principles shaping theories, models, and concepts in contemporary social science and social welfare research. Open to interdisciplinary students with instructor permission. Prerequisite: admission to social welfare PhD program or permission of instructor.

SOC WL 600 Independent Study or Research (*-) Prerequisite: approval of a well-specified plan by the instructor and program director. Includes a written product. Credit/no-credit only. Offered: AWSpS.

SOC WL 800 Doctoral Dissertation (*-) Offered: AWSpS.

Social Work (MSW)

SOC W 500 Intellectual and Historical Foundations of Professional Social Work Practice (3) Intellectual, historical, and ethical foundations of the social work profession. Engagement
with crucial aspects of the profession's history; contemporary issues, problematics, and directions; and key concepts and theoretical frameworks. Students develop personal, professional, and intellectual foundations for practicing social work built on the central values of plurality and social justice.

**SOC W 501 Poverty and Inequality (3)** Analysis of poverty and inequality in United States. Analytic and descriptive focus on measurement, processes of production and perpetuation, and public policy responses. Examines causes of poverty, the role of policy, and socioeconomic dimensions of stratification, including race, ethnicity, class, gender, immigration status, disability, age, sexual orientation, and family structure.

**SOC W 504 Social Work for Social Justice: Developing a Personal-Professional Stance (1-4, max. 4)** Focuses on personal and professional development toward social work practice for social justice. Employs critically self-reflective, experiential, and dialogic learning processes to engage students to explore personal meaning systems and narratives in the context of professional values of social justice, multiculturalism, empowerment, and globalization. Credit/no-credit only.

**SOC W 505 Foundations of Social Welfare Research (3)** Overview of research process/methods in social work, with focus on consuming and performing practice-related research and evaluating one's own practice. Emphasis on critical understanding of empirical literature, development of useful and appropriate questions about social work practice, and strategies and techniques for doing research and applying findings to practice. Offered: Sp.

**SOC W 506 Social Welfare Research and Evaluation (3)** Second of a two-quarter research sequence. Introduces a range of methods for informing evidenced-based social work practice. Emphasizes critical appraisal of the literature, development of research questions, and strategies and techniques for conducting practice-relevant research, including data collection and analysis. Prerequisite: minimum 2.5 grade in SOC W 505.

**SOC W 507 Advanced Standing Social Welfare Research and Evaluation (5)** Introduces a range of methods for informing evidence-based social work practice. Emphasizes critical appraisal of the literature, development of research questions, and strategies and technique for conducting practice-relevant research, including data collection and analysis. Prerequisite: advanced standing students.

**SOC W 510 Micro/Meso Social Work Practice 1: Individuals (3)** Foundation course in direct social work practice with individuals. Introduces knowledge and skills needed for effective and accountable person-centered and participant-directed practice. Students gain skills for engagement, relationship building, interviewing, assessment and collaborative intervention planning with individuals through an intersectional lens.

**SOC W 511 Practice II: Intermediate Direct Service Practice (3)** Foundation knowledge and skills for direct practice with individuals, families, and groups. Course assists students toward mastery in assessment, development of treatment plans based on theory and assessment information, goalsetting skills, and selection of appropriate interventions. Offered: AW.
SOC W 512 Practice III: Organizational Practice (3) Provides frame of reference and skills for community-based social work practice. Theories of social change are examined with examples drawn from community organizing and policy advocacy. Offered: W.

SOC W 513 Practice IV: Community Change Practice (3) Focuses on ways in which management activities contribute to service effectiveness for clients and quality of conditions for staff. Various managerial roles, functions, and skills examined. Impact of agency structure, culture, and mission on staff, clients, and organizational outcomes discussed with emphasis on ways social work managers influence change. Offered: Sp.

SOC W 516 Research Base for Prevention Science (3) Introduces the transdisciplinary field of prevention science; enhances understanding of the developmental epidemiology of risk, protection and outcome and how prevention interventions are conceptualized and evaluated; critiques research on preventive interventions and practice; and outlines the role of prevention science in advancing health and well-being over the life course.

SOC W 517 Promoting Individual, Family, School, and Community Risk Prevention (3) Covers existing evidence-based practices in prevention science that have demonstrated effects on reducing risks and promoting positive development in youth. Emphasizes practice skills, topic include promotion of healthy development in childhood/adolescence; prevention of child abuse and neglect, early pregnancy, violence and delinquency, substance abuse, school misbehavior, and mental health disorders.

SOC W 518 Macro Practice in Health and Prevention (3) Students engage in the translation of research, advocacy, and the sustainability and dissemination of prevention initiates and programs. Includes skill development in policy analysis, community organizing, and media/legislative advocacy. Covers current issues in prevention, the policy context surrounding them, and skills to propel prevention forward as a priority in or society.

SOC W 519 Policy/Services: Health/Mental Health (3) Investigates how social and economic inequality in America is established, manifested, and maintained. Also examines interventions that purportedly address inequality. Provides analytic tools to help with critical thinking about competing views of inequality and the interventions that address it.

SOC W 520 Policy/Services: Multigenerational (3) Investigates how social and economic inequality in America is established, manifested, and maintained. Also examines interventions that purportedly address inequality. Provides analytic tools to help with critical thinking about competing views of inequality and the interventions that address it.

SOC W 521 Child and Family Inequalities: Policy/Services Platform (3) Advanced study of policy and services relevant to practice with children, adolescents, and families. Applies social justice framework to understanding policy context and organization of services responses to child and family inequalities, especially for historically oppressed and marginalized populations. Examines social construction of policies in historical, political, and comparative context.
SOC W 522 Advanced Standing Preparation for Advanced Professional Practice (1-8, max. 8) Prepares advanced standing students to enter graduate-level, concentration-specific practicum settings. Builds upon content and skills acquired through generalist undergraduate (micro, mezzo, macro practice levels) social work education and focuses on preparation for successful advanced professional practice at all levels. Covers critical issues related to practicum. Includes first 40 practicum hours.

SOC W 524 Foundation Practicum (0-10, max. 14) Agency-based practicum with emphasis on development of knowledge, perspectives, and skills needed for practice with individuals, families, groups, organizations, and communities. Prerequisite: social work major. Credit/no-credit only. Offered: AWSpS.

SOC W 525 Advanced Practicum (1-10, max. 24) Agency-based advanced practicum. Prerequisite: completion of foundation courses and practicum. Credit/no-credit only. Offered: AWSpS.

SOC W 526 Multigenerational Policy-Services Platform: A Feminist, Multicultural Lens (3) Builds social workers' competencies to analyze, critique, and advocate for policies and processes that support growing numbers of multigenerational families. Presents a feminist, multicultural, and multigenerational perspective to analyze how historical and current service structures, policies, and regulations support or undermine families across the lifespan.

SOC W 527 Global and Local Inequalities: Critical Analyses of the Processes and Policies of Globalization (3) Discussion of the health of the planet, economic and cultural globalization, the enduring legacies of imperialism and colonialism in this global era, and their local impacts. Foci include international agreements, UN conventions, immigration, and refugee policies.

SOC W 528 Healthcare Inequalities: Policy/Services Platform (3) Examines the organization, policies, and services of U.S. healthcare system from a social justice framework. Topics include the U.S. healthcare system's historical development, differential access to health and healthcare, healthcare system reform, and the analysis of healthcare policy from contrasting ideological perspectives.

SOC W 529 Mental Health Inequalities: Policy/Services Platform (3) Mental health policy trends and organization of services at national, state, and local levels reflected in legislative, regulatory, and institutional policies. Provides historical perspective on the development of U.S. mental health policies and services. Discusses specific areas of intersystem linkages in terms of equitable access and empowerment.

SOC W 530 Advanced Practice with Diverse Children and Families (3) Builds on foundation frameworks and competencies to develop specialized knowledge and skills for working with vulnerable children and families. An ecological framework informs family- and community-centered assessment and intervention that is empowering, culturally responsive, and clinically relevant. Foci include resilience, violence, attachment, loss, substance abuse, and disability.
SOC W 531 Advanced Practice with Diverse Children and Families: Focus on Child Mental Health (3) Develops specialized knowledge and skills for practice with children with mental health concerns and their families. Emphasis on child and family mental health assessment and interventions that are culturally relevant, collaborative, and strength-promoting. Topics include culture and mental health, system of care, psychotropic medication, ADHD, and depression.

SOC W 532 Advanced Practice with Diverse Children and Families: Focus on Child Welfare (3) Develops advanced knowledge and skills for culturally relevant child welfare practice across a range of settings including child protection, foster care, and adoption. Topics include family dynamics around child maltreatment; trauma and its impact on children; separation, loss, and identity development; and self-care in child welfare practice.

SOC W 533 Advanced Practice with Diverse Children, Youth, and Families: Community Settings (3) Focuses on the critical role of neighborhoods and communities as settings for child and family social work intervention. Provides the theoretical, empirical, and practical foundations for engaging with, implementing, and designing effective programs and services with and for children, youth, and families in diverse community settings.

SOC W 534 Praxis of Intergroup Dialogue (3) Students design, plan, implement, and evaluate intergroup dialogue sessions as peer facilitators. Students facilitate intergroup dialogue in conjunction with SOC W 504. Focuses on intensive in-vivo instruction, consultation, and supervision of facilitators.

SOC W 535 Special Topics in Interpersonal/Direct Practice (2-3, max. 9) Examines current substantive topics in direct/interpersonal practice.

SOC W 536 Social Movements and Organizing: People, Power, and Praxis (3) Focuses on social, economic, and political problems from an organizer's perspective, and strategies, tactics, and skills necessary to engage in organizing activities. Emphasizes principles common to community, electoral, union, and issue organizing. Addresses why people organize, how organizing works, and what it takes to be a good organizer.

SOC W 537 Empowerment Practice with Refugees (3) Empowerment practice with refugees and immigrants across a transnational continuum of forced migration, including flight, internal displacement, asylum seeking, repatriation, and resettlement. Instruction includes classroom activities, workshops with local service providers, and agency-based projects. Addresses implications for strengths-based social services, policy, and practice skills.

SOC W 538 Critical Empowerment Practice with Multi-ethnic Communities (3) Principles of empowering practice, critical analyses of models of multiculturalism and paradigms of knowledge and practice proven problematic in our increasingly diverse society. Assists students in developing empowering practice values, knowledge, and skills for work in multi-ethnic communities.
SOC W 539 Breaking Down the Wall and Shifting the Paradigm: Engaged Practice with Latinas and Latinos (3) Provides advanced knowledge and skills for practice with diverse Latinx populations through 1) examination of structural and cultural factors, and 2) understanding of Latinx practice models to promote the well-being of Latinx communities at multiple levels and in local and global contexts in culturally responsive ways.

SOC W 540 Advanced Social Work Practice in Health Settings I (3) Teaches theory and strengths-based practice within interprofessional health care settings from bio-psychosocial, family systems, multi-cultural, contextual, and lifespan perspectives. Advances skills in conducting assessments and interventions to support individuals and families experiencing pain and loss associated with trauma and acute or chronic illness.

SOC W 541 Advanced Social Work Practice in Health Settings II (3) Teaches health care theory and practice skills relevant to working with adults and children in a variety of health care settings, using biopsychosocial, contextual, multicultural, interdisciplinary, and lifespan perspectives. Advances skills in adherence assessment, ethical decision-making, discharge planning, cross-cultural and cross-professional practice, and counseling regarding life-threatening illness.

SOC W 542 Recovery-Oriented Social Work Practice in Community Mental Health (3) Emphasizes recovery-oriented practice with adults with severe and persistent mental illness and persons with co-occurring mental illness and substance disorders. Trains for generalist social work practice in most community mental health settings: community mental health centers, psychiatric hospitals, residential programs, jails, homeless shelters, on-the-streets, client's homes, etc.

SOC W 543 Social Work Practice in Community Mental Health II (3) Focuses on social work practice with persons with severe mental illness. Emphasizes recovery, supported housing, supported employment, integrated treatment of co-occurring disorders. Covers practice with diverse populations: multicultural, developmentally disabled, geriatric, and gay/lesbian. Examines partnering with family members and working with Social Security. Complements SOC W 542, but may be taken free-standing.

SOC W 544 Clinical Social Work with Individuals I: Theory and Practice (3) First quarter of a two-quarter sequence on the theory and practice of clinical social work. Focuses on key concepts underlying direct practice. Topics include the therapeutic relationship, therapeutic listening, the ground rules, transference, counter transference, psychological defenses, resistance, phases of treatment, transference, countertransference, and vicarious trauma.

SOC W 545 Clinical Social Work With Individuals II: Theory and Practice (3) Second of a two-quarter sequence on the theory and practice of clinical social work. Focuses on the use of interpretation, obstacles to treatment, intervention techniques, case formulations that link assessment and intervention, monitoring client progress, and on selected theories of therapy.

SOC W 546 Addressing Trauma and Recovery in Multi-Generational Advanced Practice (3) Multigenerational perspective on clinical interventions for various traumas: childhood sexual
abuse, battering at any age, chemically dependent parents, elders with abusive adult children, and a range of losses throughout the lifespan. Recovery process explicated in terms of family strengths across the generations and through state-of-the art techniques for healing trauma.

**SOC W 547 Multigenerational Integrative Seminar (1-3, max. 3)** Designed to foster the integration of classroom learning and field education. Taken concurrently with advanced practicum, provides support for addressing challenges in professional settings, development of leadership skills, and preparing for future work in the field of multigenerational practice. Credit/no-credit only.

**SOC W 548 Advanced Practice I: Multigenerational (3)** First quarter of a two-quarter sequence. Emphasizes preparation of practitioners with capacity to move flexibly among a variety of professional roles, including the provision of direct services, program planning, supervision, and community practice. Emphasizes contextual assessment from micro to macro levels.

**SOC W 549 Advanced Practice II: Multigenerational (3)** Second quarter of a two-quarter sequence. Highlights program planning, supervision, and intervention across all levels of practice.

**SOC W 550 Strategic Program Management and Change Leadership in Human Services (3)** Examines tools and techniques required for leadership, program planning, implementation, and program change. Topics include strategic planning, logic modeling, agency-bound relations, work-group facilitation, and diversity-promoting management. Lecture, discussion, and exercises. Required for SSW administration concentrators; open to others with permission of instructor.

**SOC W 551 Human Resource Management in the Human Services (3)** Theories and techniques for 1) designing human services workplaces that support employees' performance and well-being, and 2) managing diverse, satisfied, and high-performing human service staffs. Topics include job quality analyses; job descriptions; employee interviewing, supervision and performance evaluation; models of negotiation and conflict resolution; and strategies for working with volunteers.

**SOC W 552 Financial Management of Human Services Programs (3)** Covers key financial management components of human service programs, including development and use of business plans, budgets, and financial statements. Helps students to demonstrate an understanding of financial management through budget preparation, financial statement analysis, new project cost projections, audits, and presentations using computer-based spreadsheets and presentation software.

**SOC W 554 People, Place, Equity (3)** Introduces empirical, theoretical, and applied knowledge on place as a key dimension of social work practice. Examines how people-place relationships differentially affect social opportunities such as health and wellness, employment, and housing. Provides intellectual and practical foundations for incorporating spatial analyses and collaborative place-making interventions in practice.
SOC W 555 Global Perspectives in Social Work Practice (3) Focuses on contemporary social issues of global importance: poverty; HIV/AIDS; population growth; gender inequality; and war, conflict, and displacement, with specific focus on these issues in the global south. Examines sociocultural, economic, and political processes that shape these issues, and entwined perspective of human rights and development.

SOC W 556 Family Healing: A Cross-Generational Approach (3) Lustbader Explores how to respond to multi-generational dynamics within the entire extended family and examines how bow difficulties and strengths are passed from one generation to another. Emphasizes cultural differences as well as issues pertaining to the impact of chemical dependency, mental illness, and disability across generations.

SOC W 557 Caring for Persons with Life-Limiting Illness: A Lifespan Approach (3) Focuses on multi-systemic social work practice with seriously ill people with a life-limiting condition. Examines how families care for a critically ill love one, and the differences that occur when the seriously ill person is a child, adolescent, a mid-aged adult, or an elder at the end of life.

SOC W 558 Gender, Gender Identity, and Sexuality (3) Anti-oppression focus on social work practice with lesbian, gay, bisexual, transgender, two-spirit, intersexed, and queer communities. Emphasizes cultural, social, and political context within which such practice occurs as well as an examination of the diversity and heterogeneity within these communities. Enhances students' micro and macro practice skills.

SOC W 559 Child Development (3) Provides students with a basic understanding of child development theory and research as well as specific knowledge about the development of children from infancy through adolescence. Emphasizes developmental approach to assessment and intervention with children and families. Particular emphasis paced on developmentally-based child welfare practice.

SOC W 560 Policy Processes, Institutions, and Influences (3) Focuses on the process and institutions through which social policies are developed, adopted, and implemented, with special attention to the implications of these processes for social justice. Develops practice skills in analyzing and influencing the policy process, including social problem definition, policy design, policy adaptation, and policy implementation.

SOC W 561 Concepts and Methods of Policy Analysis (3) Engages students in the concepts and applied practice of policy analysis and evaluation. Prepares students to address two generic policy questions: Given an identified problem, what policy or program should be selected? Given a particular policy or program, how do we evaluate effectiveness? Particular attention paid to social justice implications.

SOC W 562 Advanced Practice I: Health/Mental Health (3) First quarter of a two-quarter sequence. Emphasizes preparation of practitioners with capacity to move flexibly among a variety of professional roles, including the provision of direct services, program planning,
supervision, and community practice. Emphasizes contextual assessment from micro to macro levels.

**SOC W 563 Advanced Practice II: Health/Mental Health (3)** Second quarter of a two-quarter sequence. Highlights program planning, supervision, and intervention across all levels of practice.

**SOC W 565 Special Topics in Policy Practice (2-3)** Examination of current substantive topics in policy practice. Content varies according to recent developments in the field and the interests of the instructor.

**SOC W 569 Community-Centered Integrative Practice (3)** This interactive student-centered course shifts the paradigm from the binary of macro vs micro and elevates the importance of relationships, connectivity, and allyship as acts of love, justice and resistance. Provides advanced skill building in assessing and maximizing community strengths, empowering practices and coalition building.

**SOC W 570 Anti-racist Organizing for Social and Economic Change (3)** Applies an institutional analysis of racism and white privilege to the strategies of community organizing by communities of color and indigenous peoples. Examines anti-racist organizational transformation, intersectionality of oppressions and privileges, white allies in anti-racist struggles, and the role of social workers in maintaining and combating institutional racism.

**SOC W 571 Assessment of Mental Disorders (3)** Provides basic knowledge and skills to assess mental disorders and improve critical thinking concerning assessment and diagnosis. Emphasizes the Diagnostic and Statistical Manual of Mental Disorders (DSM-IV) for its system of symptom description and classification. Examines challenges of methodological implications of mental health assessment across race, gender, and ethnicity.

**SOC W 572 Understanding Addiction, Pharmacology of Drugs, and Treatment Methods (3)** Provides students with the knowledge and basic skills to recognize and understand the dynamics of chemical dependency in the lives of individuals, how to assess the presence of this disorder, and what the issues are in referring individuals to treatment for this disorder.

**SOC W 573 Child Welfare and Permanency Planning (3)** Focuses on social work interventions within the public child welfare system for children who have been abused and neglected. Includes practice models to ensure safety and permanency for children, federal and state mandates for permanency, cultural determinants, juvenile court dependency system, and research findings pertaining to permanency planning outcomes.

**SOC W 574 Collaborative Community-Based Program Evaluation (3)** Focuses on carrying out a formative and process evaluation of a community program in conjunction with program staff and clients. In addition to learning about program theory, measurement construction, study design, and data analysis, students develop consultative and presentation skills needed in utilization-focused evaluation.
SOC W 575 Domestic Violence Policy and Intervention (3, max. 6) Examines policy, theory, research, and intervention in field of intimate partner violence with emphasis on historical, cultural, and political contexts. Advanced study of structural contributors, policy parameters, and service delivery and cross-systems necessary to effective practice and leadership in the field locally, nationally, and globally.

SOC W 576 Contexts of Disability and Anti-Ableist Practice (3) Engages several areas of social work practice where knowledge about disability as an element of human diversity is needed. Examines disability's recent socio-political history, models of disability, disability rights and disability justice frameworks. Emphasizes how policies and their implications for practice affect peoples' daily lives and facilitates critical personal reflection.

SOC W 577 Maintaining Quality Social Work Practice: Ethics, Self-care, and Risk Management (2-3) Develops models for managing ethical and legal obligations to clients and others; managing risk; and maintaining ethical, responsible, and self-sustaining practice over a professional career. Examines competing ethical frameworks and material on essential values underlying ethical principles and the basis for ethical and legal regulation of practice.

SOC W 578 Evidence-Based Practice in Child Mental Health (3) Critically examines the program components and empirical research base of selected child mental health treatment program models designed to serve children and youth who present with severe emotional or behavioral disorders. Focuses on treatment models that reflect a "systems care philosophy" and which offer alternatives to traditional services.

SOC W 579 Faith Matters and Mental Health Practice: Conflict vs Integration (3) Examines the complex interrelation between faith matters and the practice of mental health professions, including approaches to definitions and assessments.

SOC W 580 Grant Writing and Fund Development (3) Prepares students to participate and provide leadership in grant writing and fundraising for community-based human services. Opportunity to practice skills required for developing a successful grant proposal and planning a successful fundraising program. Identify, cultivate, and develop sources of funding. Students assist in writing a complete grant proposal as final project.

SOC W 581 Historical Trauma and Healing (3) Provides specialized knowledge and skills for practice with communities experiencing historical trauma. Covers emerging theories of historical trauma, impact of historical trauma on families and communities, and culturally relevant interventions to promote healing. Builds upon the concepts of empowerment practice and indigenous models of social work.

SOC W 582 Interpersonal Violence and Trauma (3) Examines trauma theory, nature of interpersonal violence, psychodynamic concepts, cognitive behavioral theory, treatment of victims and offenders. Psychological trauma, abuse-specific psychotherapy, multidisciplinary and cognitive behavioral interventions with victims and offenders, effects of interpersonal violence, and counter-transference reactions. Includes lecture, discussion, case presentations, and presentations by community experts.
SOC W 583 Multicultural and Multigenerational Approaches to Healing Grief and Loss (3)
Uses critical analysis to expand Western symptom-oriented grief and loss theory to include multicultural approaches, exploring new constructionist models of meaning-making, narrative biography, and cultural tradition through case studies. Assessment and intervention exercises include journaling, art, and ritual, allowing students to explore how their own grief affects practice.

SOC W 584 Multicultural Mental Health Practice (3)
Advanced-practice course that builds upon foundation content in HUB, micro- and macro-practice/HBSE sequences, policy, diversity, and research. Grapples with complex mental health service design and delivery issues often informed by ethnocentric paradigms of knowledge and practice that have proven problematic in their general application in our increasingly diverse society.

SOC W 585 Advanced Group Work (3)
Overview of group work and major theorist in the field. Examines differential applicability of methods across diverse populations. Emphasis on developing powers of observation of group process (as opposed to content) and on ability to intervene at the group level (as opposed to individual level). Prerequisite: Group work experience.

SOC W 586 Policy Advocacy (1-3, max. 3)
Focuses on involvement in the policy-making process. Students design projects to influence public policy in local, state, and federal levels. Readings based on policy materials (proposed and final laws, regulations, budgets, advocacy documents). Credit/no-credit only.

SOC W 587 Spirituality in Healthcare (2)
Examination of the beliefs, values, meaning, and spirituality of health professionals for the well-being of their patients as well as for themselves. Offered: jointly with B H 518/FAMED 547; Sp.

SOC W 588 Social Work in Schools (3)
Meets professional standards for Washington State Educational Staff Associate certification. Explores social work role within organizational and legal contexts of school systems. Addresses evidence-informed and multi-level social work practice relative to national, state and local trends in education. Examines school reform, truancy, homelessness, diversity, violence, student support and special education.

SOC W 589 Social Work Practice with Families (3)
Philosophical, theoretical, and practice issues relevant to family-centered social work. Presents family systems theory and a generalized model of engagement, assessment, and treatment. Clinical applications with particular client populations and their presenting problems, such as couples, family crisis, child behavioral problems, and affective disorders.

SOC W 590 Social Work Supervision and Consultation (3)
Provides knowledge and skills involved in the role of social worker as supervisor and team leader; supervision as a leadership function, power and authority, professional boundaries, staff recruitment, selection, performance evaluation, and addressing staff-related performance problems.
SOC W 591 Social Work Practice in Long-Term Care Across the Lifespan (3) Applies a multigenerational framework to introduce values, skills, and knowledge necessary for social work practice in long-term care settings across all age groups. Meets at a nearby continuing care community and provides regular opportunities to interact with persons requiring long-term care, their families, and formal caregivers.

SOC W 593 Social Work Practice with Chemically Dependent Adults: Understanding Assessment, Evaluation, and Counseling (3) Teaches skills in four contexts: (1) incorporating questions concerning alcohol/drug use in an assessment of new clients, (2) conducting a comprehensive alcohol/drug assessment when a problem has been identified, (3) offering a brief motivational enhancement intervention to ambivalent clients, and (4) delivering cognitive-behavioral counseling focusing on overcoming dependence.

SOC W 594 Gender and Inequalities in the Global Context (3) Examines issues of gender, globalization, and inequality through a gender lens. Topics include global movements of capital (the global factory) and labor (migration, trafficking, etc.), disruption/creation of family forms and gender roles (domestic violence), social welfare, private/public polices, international frames (human rights), resistance, and response.

SOC W 595 Co-Occurring Addiction and Mental Health Disorders (3) Provides students with the knowledge and skills to understand the dynamics of co-occurring addiction and mental health disorders (COD) in the lives of individuals. Students learn how to assess the presence of COD and what the issues are in referring individuals to treatment or providing them treatment for COD.

SOC W 597 Graduate Study Abroad in Social Work (1-15, max. 15) For graduate students in a UW study abroad program. Specific content varies and must be individually evaluated.

SOC W 598 Integrative Seminar (1-5, max. 12) Integrates specialized knowledge in social work settings. Offered: AWSp.

SOC W 599 Independent Study in Social Work (1-10, max. 10) Prerequisite: approval of a well-specified plan by an instructor and program director, including learning objectives and activities. Credit/no-credit only.

SOC W 600 Independent Study or Research (1-10, max. 10) An independent research project. Prerequisite: approval of a well-specified plan by an instructor and program director, including learning objectives and activities included on the SOC W 600 form.

SOC W 700 Master's Thesis (*)
Undergraduate Interdisciplinary Programs

Arctic Studies

Undergraduate Program

Minor

503 Thomson, Box 353650
206-221-6374

Minor Requirements:

Minimum 28 credits

1. Foundation Coursework (9 credits): ARCTIC 200; OCEAN 235; ARCTIC 401
2. Integrative Experience (3 credits): ARCTIC 400
3. Electives (minimum 16 credits): see adviser for approved list
4. Minimum two courses from the approved social sciences list
5. Minimum two courses from the approved sciences list
6. Minimum one course with North-Star designation; may be combined with social science or science elective offering
7. Minimum 2.00 cumulative GPA for courses applied to the minor
8. Minimum 15 credits taken from outside student’s major requirements
9. Minimum 15 credits 300- and 400-level coursework
10. Minimum 15 credits completed in residence through the UW

Course Descriptions

ARCTIC 101 Elementary Inuktitut: Inuit Language (3) S. MALLON Fundamentals of oral and written modern Inuktitut, the Inuit language, including an introduction to the elements of Inuit culture. Offered: AS.

ARCTIC 102 Elementary Inuktitut (Inuit Language) (3) S. MALLON Continues the process of laying the groundwork for communicative work in Inuktitut, begun in ARCTIC 101. Offered: W.
ARCTIC 103 Elementary Inuktitut (Inuit Language) (3) S. Mallon Continues the process of laying the groundwork for communicative work in Inuktitut, begun in ARCTIC 101 and ARCTIC 102 Prerequisite: ARCTIC 102 Offered: Sp.

ARCTIC 200 Indigenous Diplomacies and International Relations in the Arctic (3) I&S Fabbi Provides an overview of current issues and geopolitics in the Arctic including those of the eight Arctic nation-states, six Permanent Participants (indigenous organizations) on the Arctic Council, and other non-Arctic nation-state interests. Offered: A.

ARCTIC 201 Intermediate Inuktitut (Inuit Language) (3) VLPA S. Mallon First course in the second-year Inuktitut language sequence. Prerequisite: ARCTIC 103 Offered: A.

ARCTIC 202 Intermediate Inuktitut (Inuit Language) (3) VLPA S. Mallon Second course in the second-year Inuktitut language sequence. Prerequisite: ARCTIC 201 Offered: W.

ARCTIC 203 Intermediate Inuktitut (Inuit Language) (3) VLPA S. Mallon Third course in the second-year Inuktitut language sequence. Prerequisite: ARCTIC 202 Offered: Sp.

ARCTIC 301 Advanced Inuktitut (Inuit Language) (3) VLPA S. Mallon First course in the third-year Inuktitut language sequence. Prerequisite: ARCTIC 203 Offered: A.

ARCTIC 302 Advanced Inuktitut (Inuit Language) (3) VLPA S. Mallon Second course in the third-year Inuktitut language sequence. Prerequisite: ARCTIC 301 Offered: W.

ARCTIC 303 Advanced Inuktitut (Inuit Language) (3) VLPA S. Mallon Third course in the third-year Inuktitut language sequence. Prerequisite: ARCTIC 302 Offered: Sp.

ARCTIC 387 Study Abroad: Arctic Studies (1-5, max. 15) Relates Arctic geopolitics, indigenous internationalism, the arts, and/or natural sciences to the regions and peoples of the circumpolar world. Equivalency for upper division Arctic minor of Jackson School course work taken on UW study abroad or direct exchange. Specific content varies and is evaluated on an individual basis.

ARCTIC 391 Climate Change - An International Perspective: Science, Art, and Activism (5) I&S/VLPA R. Pavia Explores climate change science in the context of geographic, social, and political constraints, considering the role of art, activism, and Arctic indigenous peoples in communicating impacts and mitigation. Students gain knowledge in key atmospheric and ocean science principles along with the role of science in society Offered: jointly with JSIS B 391; Sp.

ARCTIC 400 Integrating Policy and Science in Arctic Studies (3) I&S/NW Gallucci, Hellmann Introduces Arctic resources and access from physical, biological, and political perspectives, focusing on the latter. Emphasizes political alliances among nation states as well as initiatives by indigenous peoples that involve mutual needs for access to Arctic resources for mining, transport, and food. Offered: Sp.
ARCTIC 401 Current Issues Concerning the Arctic Region (3, max. 9) I&S Addresses current issues impacting the Arctic region from the perspective of visiting scientists, social scientists, practitioners, and Arctic indigenous leaders. Credit/no-credit only. Offered: Sp.

ARCTIC 498 Special Topics in Arctic Studies (1-5, max. 10) Content varies by instructor.
Climate Science

Program Overview

The minor in Climate Science is offered jointly with the Department of Atmospheric Sciences, the Department of Earth and Space Sciences, and the School of Oceanography.

Undergraduate Program

Adviser
339A Ocean Sciences Building, Box 355351
206-543-6521
uwpcc@uw.edu

Minor

Minor Requirements: 25 credits, to include:

1. One of ESS 201, ATM S 211, or ATM S 321 (3-5 credits)
2. One of OCEAN 452/FISH 452, AMATH 301, Q SCI 381, or CSE 160 (3-5 credits)
3. Integrated Capstone Experience: ATM S 475/ESS 475/OCEAN 475 (3 credits)
4. Science Electives: At least one course each from ATM S, ESS, and OCEAN (minimum 12 credits). See adviser for list of approved courses.
5. Application Elective: One approved social science, policy, or energy course to reach 25 credits. See adviser for list of approved courses.
6. Minimum 2.00 cumulative GPA in courses applied to the minor
7. Minimum 15 credits taken through the UW
8. Minimum 18 credits outside student's major
9. Minimum 15 upper division credits
10. Students are encouraged to take MATH 124, MATH 125, MATH 126, PHYS 121, PHYS 122, and PHYS 123, or see adviser to complete requirements for the minor.
Education, Learning, and Society

Undergraduate Program

elsminor@uw.edu

Minor

The minor in education, learning, and society, jointly sponsored by the College of Education and the College of Arts and Sciences, provides a strong background in how human beings learn, and how society, environment, and culture shape learning.

Minor Requirements:

31 credits, to include:

1. Learning and Development: one from PSYCH 206 (prerequisite, PSYCH 101), PSYCH 306, NURS 201, EDPSY 302, EDPSY 406 (5 credits)
2. Schooling and Society: one from AES 340, CHID 210, EDUC 305, EDUC 310, SOC 292 (5 credits).
3. Field Experience: any combination of EDUC 260, EDUC 360, EDUC 361, EDUC 369, GEN ST 346, and GEN ST 470 (with ELS adviser approval, student may substitute one of the following: GEN ST 350, ECFS 303, ECFS 304, ECFS 305, ECFS 454, ECFS 455, ECFS 456, EDC&I 499, EDPSY 499, EDSPE 499, CHID 497, or other related courses) (5 credits).
4. EDUC 299 (1 credit).
5. Electives: 15 credits from an approved list. For list, see adviser or College website.
6. Up to 15 credits of the minor may overlap with a student's major and up to 5 credits may overlap with another minor.

Undergraduate students from outside the College of Education may take courses offered to help them explore the field of education and prepare for graduate study. Fieldwork courses in local schools or social service agencies give students opportunities to make informed career and academic choices. Students may also complete prerequisites for graduate programs. Further, requirements to meet endorsement (subject) guidelines for secondary teaching may be completed by undergraduates.
Ethics

Overview

The Ethics program is an interdisciplinary minor sponsored by the Philosophy department.

Minor

Minor Requirements: 27 credits, to include:

1. Three courses from an approved list in which normative thinking and conceptual analysis of values and frameworks are central; at least one at the 300 level or above. See list at www.phil.washington.edu/POV/List_A_Courses.html
2. Two courses from an approved list in which values-laden issues are central; at least one at the 300 level or above. See list at www.phil.washington.edu/POV/List_B_Courses.html
3. VALUES 495 (2-credit capstone).
4. Minimum 15 credits outside the student's major.
5. Minimum 15 credits completed through the UW.
6. Minimum 2.00 GPA in courses used for the minor.
Honors

Program Overview

211 Mary Gates Hall
uwhonors@uw.edu

The four-year University Honors Program features an interdisciplinary Honors core curriculum with a focus on experiential learning and reflection, Honors academic advising, foreign study programs and exchanges, and opportunities for independent study. It provides an academic community and educational opportunities to those students who are willing to take academic risks, think across disciplinary boundaries, and engage in experiential learning (e.g., research, leadership, community and/or international engagement).

To be considered for admission to the University Honors Program at entrance, students must apply to the Honors Program when they submit their Application for Undergraduate Admission to the University. “Selection is based on a student’s demonstrated engagement with interdisciplinary learning, high school record, essay responses, a letter of recommendation, and fit for the program.” Students also may seek admission based on academic performance during spring quarter of their freshman year at the University via the late admission process.

Students who are accepted into the University Honors Program in their freshman year and complete the Honors Core Curriculum alone graduate “With Interdisciplinary Honors.” When students complete both the Core Curriculum and the Departmental Honors requirements in their chosen major, they graduate “With College Honors in Name of Major.” Students who do not participate in or complete the Honors Core Curriculum but are admitted into and complete the Honors Program in their chosen major will receive a degree “With Honors in Name of Major.” By special arrangement it may be possible for students to complete a degree “With College Honors” in departments, schools, or programs that do not offer a formal Departmental Honors option as well as Departmental Honors by itself.

Core Curriculum

47 credits as follows:

1. HONORS 100 (1 credit)

2. One Honors-prefix social science course (HONORS 23x) (I&S; 5 credits). This requirement cannot be completed by courses with multiple Areas of Knowledge designations.

3. One Honors-prefix arts/humanities course (HONORS 21x/HONORS 24x) (VLPA; 5 credits). This requirement cannot be completed by courses with multiple Areas of Knowledge designations.
4. One Honors-prefix science course (HONORS 22x) (NW; 5 credits). This requirement
cannot be completed by courses with multiple Areas of Knowledge designations.

5. One Honors-prefix interdisciplinary course (HONORS 205, HONORS 345, HONORS
38x, or HONORS 391, HONORS 392, HONORS 393, HONORS 394) (NW; 5 credits).
This requirement cannot be completed by courses with multiple Areas of Knowledge
designations.

6. Combination of any five additional 4- or 5-credit HONORS courses. May be HONORS-
prefix or non-HONORS-prefix courses. (VLPA, I&S, NW)

7. HONORS 496 (1 credit)

8. Courses applying towards Departmental Honors may not be applied toward the
HONORS core curriculum.

9. Students may fulfill no more than 15 credits of HONORS core requirements by
completing HONORS 499 (independent study), graduate-level courses, or ad hoc projects
in non-HONORS courses or by way of a non-HONORS study abroad program. These
credits may fulfill only a student’s additional five HONORS courses requirement; they
may not count towards HONORS-prefix social science, arts/humanities, science, or
interdisciplinary requirements.

10. Minimum cumulative 3.30 GPA in all courses completed through the UW.

**Departmental Honors**

Students may apply to Departmental Honors in their major(s) after they have been admitted to
the major, typically in their junior year. Each department at the UW has a unique set of
Departmental Honors requirements. For links to specific information about each department, see
the Honors Program website.

**Course Descriptions**

**HONORS 100 Introduction to Honors Education (1)** Introduces students to the essential
features of the Honors Program, including interdisciplinary thinking, experiential learning, and
the Honors portfolio. For University Honors Program students only.

**HONORS 205 What We Know and How We Know It (5) C** Helps students to develop
methods of researching and gaining knowledge through critical reading of texts, dialogue,
reflective writing, and visiting faculty lecturers from different disciplines. For University Honors
Program students only. Cannot be taken for credit if credit received for HONORS 345.

**HONORS 210 Humanities for Honors Students I (5, max. 15) VLPA E** Evolution of an idea or
a discipline central to the humanities. Content varies from year to year. For University Honors
Program students only. Offered: A.

**HONORS 211 Humanities for Honors Students II (5, max. 15) VLPA E** Evolution of an idea or
a discipline central to the humanities. Content varies from year to year. For University Honors
Program students only. Offered: W.
HONORS 212 Humanities for Honors Students III (5, max. 15) VLPA Evolution of an idea or a discipline central to the humanities. Content varies from year to year. For University Honors Program students only. Offered: Sp.

HONORS 213 Honors Foreign Study I - Humanities (2-5, max. 15) VLPA Coursework drawn from interdisciplinary groups in the arts and humanities. Specific content varies and must be individually evaluated. For University Honors Program students participating in a UW study abroad program only. Offered: AWSpS.

HONORS 220 Science for Honors Students I (5, max. 15) NW Evolution of an idea or concept central to the natural sciences. Content varies from year to year. For University Honors Program students only. Offered: A.

HONORS 221 Science for Honors Students II (5, max. 15) NW Evolution of an idea or concept central to the natural sciences. Content varies from year to year. For University Honors Program students only. Offered: W.

HONORS 222 Science for Honors Students III (5, max. 15) NW Evolution of an idea or concept central to the natural sciences. Content varies from year to year. For University Honors Program students only. Offered: Sp.

HONORS 223 Honors Foreign Study II - Natural Science (2-5, max. 15) NW Coursework drawn from interdisciplinary groups in the natural sciences. Specific content varies and must be individually evaluated. For University Honors Program students participating in a UW study abroad program only. Offered: AWSpS.

HONORS 230 Social Science for Honors Students I (5, max. 15) I&S Development of an idea, concept, or institution central to the social sciences. Content varies from year to year. For University Honors Program students only. Offered: A.

HONORS 231 Social Science for Honors Students II (5, max. 15) I&S Development of an idea, concept, or institution central to the social sciences. Content varies from year to year. For University Honors Program students only. Offered: W.

HONORS 232 Social Science for Honors Students III (5, max. 15) I&S Development of an idea, concept, or institution central to the social sciences. Content varies from year to year. For University Honors Program students only. Offered: Sp.

HONORS 233 Honors Foreign Study III - Social Science (2-5, max. 15) I&S Coursework drawn from interdisciplinary groups in the social sciences. Specific content varies and must be individually evaluated. For University Honors Program students participating in a UW study abroad program only. Offered: AWSpS.

HONORS 240 Fine Arts for Honors Students I (5, max. 15) VLPA Evolution of an art form, an idea, or a discipline central to the fine arts. Content varies from year to year. For University Honors Program students only.
HONORS 241 Fine Arts for Honors Students II (5, max. 15) VLPA Evolution of an art form, an idea, or a discipline central to the fine arts. Content varies from year to year. For University Honors Program students only.

HONORS 242 Fine Arts for Honors Students III (5, max. 15) VLPA Evolution of an art form, an idea, or a discipline central to the fine arts. Content varies from year to year. For University Honors Program students only.

HONORS 345 Interdisciplinary Writing Seminar (5, max. 15) C Investigates emerging topics of interest in the arts and sciences and frames the investigation of subject matter through writing and dialogic inquiry within a particular field. Students discuss, revise, and reflect upon their work through peer review, in-class writing activities, and editorial feedback. For University Honors Program students only. Cannot be taken for credit if credit received for HONORS 205.

HONORS 350 Honors Seminar (2, max. 20) Discussion of selected topics in a variety of subject-matter fields. Topics and reading material vary from year to year. For University Honors Program students only. Credit/no-credit only.

HONORS 381 Honors Foreign Study IV (2-5, max. 15) VLPA/I&S/NW Develops ideas, concepts, or institutions that cut across the arts, humanities, social sciences, and natural sciences. Specific content varies and must be individually evaluated. For University Honors Program students participating in a UW study abroad program only. Offered: AWSpS.

HONORS 382 Honors Foreign Study V (2-5, max. 15) I&S/NW Develops ideas, concepts, or institutions that cut across the social sciences and natural sciences. Specific content varies and must be individually evaluated. For University Honors Program students participating in a UW study abroad program only. Offered: AWSpS.

HONORS 383 Honors Foreign Study VI (2-5, max. 15) VLPA/NW Develops ideas, concepts, or institutions that cut across the arts, humanities, and natural sciences. Specific content varies and must be individually evaluated. For University Honors Program students participating in a UW study abroad program only. Offered: AWSpS.

HONORS 384 Honors Foreign Study VII (2-5, max. 15) VLPA/I&S Develops ideas, concepts, or institutions that cut across the arts, humanities, and social sciences. Specific content varies and must be individually evaluated. For University Honors Program students participating in a UW study abroad program only. Offered: AWSpS.

HONORS 391 Honors Interdisciplinary Study I (5, max. 15) VLPA/I&S/NW Develops ideas, concepts, or institutions that cut across the arts, humanities, social sciences, and natural sciences. For University Honors Program students only.

HONORS 392 Honors Interdisciplinary Study II (5, max. 15) I&S/NW Develops ideas, concepts, or institutions that cut across the social sciences and natural sciences. For University Honors Program students only.
**HONORS 393 Honors Interdisciplinary Study III (5, max. 15) VLPA/NW** Develops ideas, concepts, or institutions that cut across the arts, humanities, and natural sciences. For University Honors Program students only.

**HONORS 394 Honors Interdisciplinary Study IV (5, max. 15) VLPA/I&S** Develops ideas, concepts, or institutions that cut across the arts, humanities, and social sciences. For University Honors Program students only.

**HONORS 396 Interdisciplinary Special Topics-Natural Science (1-5, max. 10) NW** Special courses drawn from interdisciplinary groups in the natural sciences. Content varies. For University Honors Program students only.

**HONORS 397 Interdisciplinary Special Topics-Social Science (1-5, max. 10) I&S** Special courses drawn from interdisciplinary groups in the social sciences. Content varies. For University Honors Program students only.

**HONORS 398 Interdisciplinary Special Topics-Humanities (1-5, max. 10) VLPA S** Special courses drawn from interdisciplinary groups in the humanities. Content varies. For University Honors Program students only.

**HONORS 496 Integration of the Honors Core Curriculum (1)** Allows students completing the Interdisciplinary Honors Program to reflect on and present to peers the intersection between their Interdisciplinary Honors core courses and experiential learning projects. For University Honors Program students only. Offered: WSp.

**HONORS 499 Honors Independent Study or Research (1-5, max. 10)** Faculty supervised Honors independent study or research for students in areas extending beyond their major departments or along lines not otherwise accommodated by existing Honors courses. For University Honors Program students only.
Paleobiology

Program Overview

The minor in paleobiology, sponsored by the Department of Biology, provides students a solid foundation in the evolution and ecology of life in deep geologic time. In addition to classwork in paleontology, geobiology, astrobiology, and paleoanthropology, the minor provides opportunities for fieldwork and independent research.

Undergraduate Program

Adviser
318 Hitchcock Hall, Box 355320
206-543-9120
bioladv@uw.edu

Minor
Paleobiology

Minor Requirements: Minimum 30 credits

1. BIOL 354
2. Electives: Two from the paleobiology core content area and one from each of the three other content areas, selected from approved courses available on the paleobiology website.
3. BIOL 483
4. Integrative experience in paleobiology: Minimum 3 credits from one of BIOL 475 or BIOL 499, ESS 499 or BIO A 499, at the discretion of the instructor
5. Remaining credits from any of the above or BIO A 369, BIO A 491, or an approved elective
6. Minimum 2.00 cumulative GPA for courses presented for the minor
7. Minimum 18 credits from outside the student's major.
8. Minimum 15 credits completed through the UW.
Faculty

Entries include appointment to the Graduate School faculty (indicated by *); year of appointment to the University; graduate or professional degree(s), date(s) and institution(s). Faculty are listed only under their primary appointing department.

College of Arts and Sciences

American Ethnic Studies

Professors
FLORES, LAURO H * 1980; Doctorate, University of California-San Diego, 1980

GAMBOA, ERASMO * 1976; Master's, University of Washington-Seattle Campus, 1973; Doctorate, University of Washington-Seattle Campus, 1984

Associate Professors
BONUS, ENRIQUE C. * 1998; Master's, California State University-Fresno, 1990; Doctorate, University of California-San Diego, 1997
RETMAN, SONNET H. * 2002; Doctorate, University of California-Los Angeles, 1997
SALAS, ELIZABETH, 1987; Master's, California State University-Los Angeles, 1977; Doctorate, University of California-Los Angeles, 1987

Assistant Professors
HUH, JANG WOOK, 2017
LEVY, LATASHA, 2016; Master's, Cornell University, 2006; Doctorate, Northwestern University, 2013
MENDEZ, ALINA RAMIREZ, 2018
NGUYEN, LINH T, 2017
PINEDO-TURNOVSKY, CAROLYN * 2009; Master's, New York University, 2003; Doctorate, New York University, 2006
PITTMAN, LASHAWNDA, 2013; Master's, University of Connecticut, 2000; Doctorate, Northwestern University, 2010

Lecturers
ATIENZA, RICHARD, 2006; Master's, Centro Escolar University Manila Mendiola, 2005; Master's, Not Provided, 2008

SO, CONNIE C., 1983; Master's, Princeton University, 1989; Doctorate, University of California-Berkeley, 2000

WAITA, JACQUELINE N., 2010; Master's, Seattle Pacific University, 2000
American Indian Studies

Professors
HART, DANIEL * 1999; Master's, Temple University, 1984

TEUTON, CHRISTOPHER * 2014; Master's, University of Wisconsin-Madison, 1995; Doctorate, University of Wisconsin-Madison, 2003

Associate Professors
COTE, CHARLOTTE , 2001; Master's, University of California-Berkeley, 1996; Doctorate, University of California-Berkeley, 2002
FRYBERG, STEPHANIE A * 2013; Master's, Stanford University, 1999; Doctorate, Stanford University, 2002
MILLION, DIAN L. * 2002; Master's, University of California-Berkeley, 1998; Doctorate, University of California-Berkeley, 2004

Lecturers
FERNANDES, ROGER , 1984
HOHN, TAMi , 2018

Anthropology

Professors
ANAGNOST, ANN S * 1990; Master's, University of Michigan-Ann Arbor, 1977; Doctorate, University of Michigan-Ann Arbor, 1985

BILANIUK, LAADA M * 1997; Master's, University of Michigan-Ann Arbor, 1991; Doctorate, University of Michigan-Ann Arbor, 1998

DUNCAN, BETTINA SHELL * 1995; Master's, University of Wisconsin Colleges, 1988; Doctorate, Pennsylvania State University-College of Medicine, 1994

FITZHUGH, J.BEN * 1997; Master's, University of Michigan-Ann Arbor, 1992; Doctorate, University of Michigan-Ann Arbor, 1996

GOODREAU, STEVEN M. * 2001; Master's, Pennsylvania State University-College of Medicine, 1998; Doctorate, Pennsylvania State University-College of Medicine, 2001

GRAYSON, DONALD K * 1975; Master's, University of Oregon, 1969; Doctorate, University of Oregon, 1973

KRAMER, PATRICIA * 1993; Doctorate, University of Washington-Seattle Campus, 1998

LAPE, PETER V * 2000; Master's, San Francisco State University, 1995; Doctorate, Brown University, 2000

LOWE, CELIA A * 1999; Master's, Yale University, 1996; Doctorate, Yale University, 2000

PENA, DEVON G * 1999; Master's, The University of Texas, 1978; Doctorate, The University of Texas, 1983
STEIN, JULIE K * 1980; Master's, University of Minnesota-Duluth, 1976; Doctorate, University of Minnesota-Duluth, 1980

TAYLOR, JANELLE S * 1999; Master's, University of Chicago, 1990; Doctorate, University of Chicago, 1999

Associate Professors
AMRUTE, SAREETA BIPIN * 2008; Master's, University of Chicago, 2001; Doctorate, University of Chicago, 2007
CHAPMAN, RACHEL R * 2004; Master's, Yale University, 1988; Master's, University of California-Los Angeles, 1991; Doctorate, University of California-Los Angeles, 1998
DENNISON, JEAN M * 2015; Master's, University of Florida, 2004; Doctorate, University of Florida, 2008
EISENBERG, DANIEL T A * 2012; Doctorate, Northwestern University, 2012
FEATHERS, JAMES K * 1983; Master's, University of Washington-Seattle Campus, 1985; Doctorate, University of Washington-Seattle Campus, 1990
HAAKANSON, SVEN D * 2013; Master's, Harvard University, 1996; Doctorate, Harvard University, 2000
HOFFMAN, DANIEL J * 2004; Master's, Duke University, 2001; Medical Doctorate, Duke University, 2004
HOLMAN, DARRYL J. * 1999; Master's, University of Wisconsin Colleges, 1990; Doctorate, Pennsylvania State University-College of Medicine, 1996
LLOBERA, MARCOS * 2004; Master's, University of Leicester, 1993; Doctorate, University of Oxford, 1999
MARWICK, BENJAMIN * 2008; Master's, University of Western Australia, 2002; Doctorate, Australian National University, 2008

Assistant Professors
GONZALEZ, SARA L * 2013; Master's, University of California-Berkeley, 2006; Doctorate, University of California-Berkeley, 2011
GOVINDRAJAN, RADHIKA * 2015; Master's, Jawaharlal Nehru University, 2006; Doctorate, Yale University, 2013
GRANT, JENNA M * 2015; Master's, University of Iowa, 2006; Doctorate, University of Iowa, 2013
JONES-ENGEL, LISA E * 2002; Master's, New York University, 1993; Doctorate, University of New Mexico-Main Campus, 2002
MARTIN, MELANIE A., 2017; Master's, University of California-Santa Barbara, 2011; Doctorate, University of California-Santa Barbara, 2015

Senior Lecturer
BARKER, HOLLY M * 2004; Master's, American University, 1993; Doctorate, American University, 2000

Lecturers
BYLER, DARREN T, 2011; Master's, Columbia University, 2009; Doctorate, University of Washington-Seattle Campus, 2018
CLARK, HEATHER, 2017; Master's, University of Washington-Seattle Campus, 2007; Doctorate, University of Washington-Seattle Campus, 2010
DUNCAN, ANDREA E., 2002; Master's, University of Washington-Seattle Campus, 2006; Doctorate, University of Washington-Seattle Campus, 2010
ESPINOZA, DAMARYS, 2018; Master's, University of Washington-Seattle Campus, 2009; Doctorate, University of Washington-Seattle Campus, 2014

HILL, ALEXANDER KIRKLAND, 2015; Master's, Pennsylvania State University-College of Medicine, 2011; Doctorate, Pennsylvania State University-College of Medicine, 2014

JOHNSON, JESSICA A, 2003; Master's, University of Washington-Seattle Campus, 2006; Doctorate, University of Washington-Seattle Campus, 2010

VAN EIJK, MARIEKE SIMONE, 2014; Master's, University of Amsterdam, 2005; Doctorate, University of Amsterdam, 2012

Applied Mathematics

Professors

DECONINCK, BERNARD * 1999; Master's, University of Colorado at Boulder, 1995; Doctorate, University of Colorado at Boulder, 1998

GREENBAUM, ANNE * 1997; Master's, University of California-Berkeley, 1978; Doctorate, University of California-Berkeley, 1981

KUTZ, JOSE NATHAN * 1997; Doctorate, Northwestern University, 1994

LEVEQUE, RANDALL J * 1985; Doctorate, Stanford University, 1982

MOOLGAVKAR, SURESH H. * 1984; Medical Doctorate, Mumbai University, 1966; Doctorate, Johns Hopkins University, 1973

QIAN, HONG * 1997; Doctorate, Washington State University, 1989

SHEA-BROWN, ERIC T. * 2007; Master's, Princeton University, 2001; Doctorate, Princeton University, 2004

TUNG, KA KIT * 1988; Master's, California Institute of Technology, 1972; Doctorate, Harvard University, 1977

Associate Professors

HETMANIUK, ULRICH L. * 2008; Doctorate, University of Colorado at Boulder, 2002; Master's, University of Colorado at Boulder, 2002

KOT, MARK * 1989; Master's, University of Arizona, 1984; Master's, University of Arizona, 1987; Doctorate, University of Arizona, 1987

LEUNG, SIU-TANG * 2016; Doctorate, Princeton University, 2008

LUEBECK, GEORG * 2013; Doctorate, University of Washington-Seattle Campus, 1986

TODOROV, EMANUIL V * 2009

Assistant Professors

ARAVKIN, ALEKSANDR Y. * 1998; Master's, University of Washington-Seattle Campus, 2009; Doctorate, University of Washington-Seattle Campus, 2010
BOZIC, IVANA * 2017; Master's, University of Belgrade, 2007; Doctorate, Harvard University, 2012
LORIG, MATTHEW J. * 2014; Doctorate, University of California-Santa Barbara, 2011
SHLIZERMAN, ELI * 2009; Master's, Weizmann Institute of Science, 2005; Doctorate, Weizmann Institute of Science, 2009

QUINN, THOMAS R. * 1993; Doctorate, Princeton University, 1986

Associate Professor
JURIC, MARIO * 2014; Doctorate, Princeton University, 2006

Assistant Professors
BARNES, RORY K * 1998; Master's, University of Washington-Seattle Campus, 1999; Doctorate, University of Washington-Seattle Campus, 2004
BELLM, ERIC C * 2017; Master's, University of California-Berkeley, 2007; Doctorate, University of California-Berkeley, 2011
LEVESQUE, EMILY M * 2015; Master's, University of Hawaii, 2008; Doctorate, University of Hawaii, 2010
MCQUINN, MATTHEW J * 2012; Master's, Harvard University, 2006; Doctorate, Harvard University, 2009
SWINBANK, JOHN DANIEL, 2017
TUTTLE, SARAH E * 2016; Master's, Columbia University, 2006; Master's, Columbia University, 2007; Doctorate, Columbia University, 2010
WERK, JESSICA K. * 2016; Doctorate, University of Michigan-Ann Arbor, 2010
WILLIAMS, BENJAMIN F * 1997; Master's, University of Washington-Seattle Campus, 1998; Doctorate, University of Washington-Seattle Campus, 2002

Senior Lecturer
LAWS, CHRISTOPHER S, 1998; Master's, University of Washington-Seattle Campus, 2001; Doctorate, University of Washington-Seattle Campus, 2004
Biology

Professors

AMEMIYA, CHRIS T * 2008; Doctorate, The University of Texas, 1987
AMMIRATI, JOSEPH * 1979; Master's, San Francisco State University, 1967; Doctorate, University of Michigan-Ann Arbor, 1972
BALIGA, NITIN * 2005; Master's, Not Provided, 1994; Doctorate, University of Massachusetts, 2000
BENDICH, ARNOLD J * 1982; Doctorate, University of Washington-Seattle Campus, 1969
BERGSTROM, CARL T * 2001; Doctorate, Stanford University, 1998
BLISS, LAWRENCE C, 1982; Master's, Kent State University, 1953; Doctorate, Duke University, 1956
BOERSMA, P DEE * 1974; Doctorate, Ohio State University Agricultural Technical Institute, 1974
BOSMA, MARTHA * 1987; Doctorate, University of California-Los Angeles, 1986
BRADSHAW, HARVEY D * 1984; Doctorate, Louisiana State University, 1984
CARRINGTON, EMILY * 2005; Doctorate, Stanford University, 1992
CATTOLICO, ROSE A. * 1982; Master's, Temple University, 1966; Doctorate, Stony Brook University, 1973
CLELAND, ROBERT E, 1982; Doctorate, California Institute of Technology, 1957
CLONEY, RICHARD A, 1954; Master's, Humboldt State University, 1954; Doctorate, University of Washington-Seattle Campus, 1959
DANIEL, THOMAS L. * 1984; Master's, University of Wisconsin Colleges, 1978; Doctorate, Duke University, 1982
DE LA IGLESIA, HORACIO O. * 2003; Doctorate, University of Massachusetts, 1997
DEL MORAL, ROGER * 1968; Master's, University of California-Santa Barbara, 1966; Doctorate, University of California-Santa Barbara, 1968
DETHIER, MEGAN N * 1983; Doctorate, University of Washington-Seattle Campus, 1981
EBREY, THOMAS * 1997; Doctorate, University of Chicago, 1968
HALL, BENJAMIN D * 1982; Master's, Harvard University, 1956; Doctorate, Harvard University, 1959
HALPERIN, WALTER, 1982; Master's, Southern Connecticut State University, 1961; Doctorate, University of Connecticut, 1965
HASKINS, EDWARD F, 1982; Master's, University of Minnesota-Duluth, 1962; Doctorate, University of Minnesota-Duluth, 1965
HILLE RIS LAMBERS, JANNEKE * 2006; Doctorate, Duke University, 2001
HILLE, MERRILL * 1976; Doctorate, Rockefeller University, 1965
HUEY, RAYMOND B * 1977; Master's, The University of Texas, 1969; Doctorate, Harvard University, 1975
IMAIZUMI, TAKATO * 2008; Master's, Tokyo Metropolitan University, 1998; Doctorate, Tokyo Metropolitan University, 2001
KENAGY, GEORGE JAMES * 1982; Doctorate, University of California-Los Angeles, 1972
KERR, BENJAMIN B * 2005; Doctorate, Stanford University, 2002
KLiCKA, JOHN T * 2012; Master's, The University of Texas, 1994; Doctorate, University of Minnesota-Duluth, 1999
KOHN, ALAN J, 1961; Doctorate, Yale University, 1957
LAIRD, CHARLES D, 1982
LEOPOLD, ESTELLA B, 1982; Master's, University of California-Berkeley, 1950; Doctorate, Yale University, 1955
MOENS, CECILIA B * 1998; Doctorate, University of Toronto, 1993
MOODY, WILLIAM J * 1982; Doctorate, Stanford University, 1977
MOORE, SUE ELLEN * 2001; Master's, San Diego State University, 1979; Doctorate, Scripps College, 1997
NEMHAUSER, JENNIFER L * 2006; Doctorate, University of California-Berkeley, 2000
OLMSTEAD, RICHARD G. * 1982; Doctorate, University of Washington-Seattle Campus, 1988
ORIANS, GORDON H , 1982; Doctorate, University of California-Berkeley, 1960
PALKA, JOHN M * 1982; Doctorate, University of California-Los Angeles, 1965
PARICHY, DAVID M * 2005; Doctorate, University of California-Davis, 1997
PEICHEL, CATHERINE L. * 2003; Doctorate, Princeton University, 1998
PERKEL, DAVID J * 2000; Doctorate, University of California-San Francisco, 1992
RIDDIFORD, LYNN M * 1982; Doctorate, Cornell University, 1961
ROHWER, SIEVERT A * 1982; Master's, University of Kansas, 1970; Doctorate, University of Kansas, 1971
RUESINK, JENNIFER * 1990; Master's, University of Cambridge, 1991; Doctorate, University of Washington-Seattle Campus, 1996
SEBENS, KENNETH * 2005; Doctorate, University of Washington-Seattle Campus, 1977
SIDOR, CHRISTIAN A * 2005; Master's, University of Chicago, 1997; Doctorate, University of Chicago, 2000
STRATHMANN, RICHARD R * 1982; Master's, University of Washington-Seattle Campus, 1966; Doctorate, University of Washington-Seattle Campus, 1970
STROMBERG, CAROLINE A. * 2007; Master's, Lund University, 1997; Doctorate, University of California-Berkeley, 2003
SUMMERS, ADAM P. * 1995; Master's, New York University, 1992; Doctorate, University of Massachusetts, 1999
SWALLA, BILLIE J. * 1999; Master's, University of Iowa, 1983; Doctorate, University of Iowa, 1988
TORII, KEIKO * 1999; Master's, University of Tsukuba, 1989; Doctorate, University of Tsukuba, 1993
TRUMAN, JAMES W * 1982; Master's, Harvard University, 1969; Doctorate, Harvard University, 1970
TSUKADA, MATSUO , 1969; Master's, Osaka City University, 1958; Doctorate, Osaka City University, 1961
VAN VOLKENBURGH, ELIZABETH * 1982; Doctorate, University of Washington-Seattle Campus, 1980
WAALAND, J ROBERT * 1982; Doctorate, University of California-Berkeley, 1969
WAKIMOTO, BARBARA T * 1984; Doctorate, Indiana University-Bloomington, 1981
WARD, PETER D * 1984; Master's, University of Washington-Seattle Campus, 1973; Doctorate, McMaster University, 1976
WASSER, SAMUEL K. * 1982; Master's, University of Wisconsin Colleges, 1976; Doctorate, University of Washington-Seattle Campus, 1981
WILLOWS, ARTHUR O , 1982; Doctorate, University of Oregon, 1967
WINGFIELD, JOHN C , 1985

Associate Professors

BAKKEN, AIMEE , 1982; Doctorate, University of Iowa, 1970
BUCKLEY, LAUREN * 2013; Doctorate, Stanford University, 2005
COOPER, MARK S * 1990; Doctorate, University of California-Berkeley, 1985
DISTILIO, VERONICA SANDRA * 2003; Doctorate, University of Massachusetts, 1998
LEACHE, ADAM D. * 2010; Master's, San Diego State University, 2000; Doctorate, University of California-Berkeley, 2008
PARKHURST, SUSAN M. * 1994; Doctorate, Johns Hopkins University, 1985
PARRISH, JAY Z * 2010; Doctorate, University of Colorado at Boulder, 2002
PRIESS, JAMES R. * 1993; Doctorate, University of Colorado at Boulder, 1983
RIFFELL, JEFFREY A * 2010; Doctorate, University of California-Los Angeles, 2004
RODRIGUEZ, RUSSELL * 1995; Doctorate, Oregon State University, 1983
SANTANA MATA, SHARLENE E. * 2012; Doctorate, University of Massachusetts, 2010
SHOU, WENYING * 2008; Doctorate, California Institute of Technology, 2001
WILSON, GREGORY * 2007; Doctorate, University of California-Berkeley, 2004

Assistant Professors
BRUNTON, BINGNI W * 2012; Doctorate, Princeton University, 2012
CABERNARD, CLEMENS C * 2015; Master's, Universität Basel, 2000; Doctorate, Universität Basel, 2004
RASMUSSEN, JEFFREY P, 2018; Doctorate, University of Washington-Seattle Campus, 2011

Senior Lecturers
BUCHWITZ, BRIAN JOSEPH, 1997; Doctorate, University of Washington-Seattle Campus, 2004
DOHERTY, JENNIFER HELEN, 2014; Doctorate, University of Pennsylvania, 2009
HERRON, JON, 1987; Doctorate, University of Washington-Seattle Campus, 1996
NICOTRI, MARY E, 1982; Doctorate, University of Washington-Seattle Campus, 1974
O'CONNOR, EILEEN, 1982; Master's, University of Washington-Seattle Campus, 1976
PETESEN, KAREN E, 1990; Master's, University of Phoenix-New Mexico Campus, 1977; Doctorate, University of Phoenix-New Mexico Campus, 1983
SCHIVELL, AMANDA E, 1994; Doctorate, University of Washington-Seattle Campus, 2000

Lecturers
CROWE, ALISON J, 2000; Doctorate, Stony Brook University, 1993
DRAPER, MOON, 2014; Doctorate, The University of Texas, 2005
FREEMAN, SCOTT RIDER * 1985; Doctorate, University of Washington-Seattle Campus, 1990
LIEPKALNS, JUSTINE, 2016; Master's, Tufts University, 2005; Doctorate, Emory University, 2012
MARTIN-MORRIS, LINDA E, 1994; Doctorate, Brandeis University, 1991
SELF, CASEY J, 2007; Master's, University of Florida, 2007; Doctorate, University of Washington-Seattle Campus, 2015
WAALAND, KATHRYN SUSAN D, 1982; Doctorate, University of California-Berkeley, 1969
WENDEROTH, MARY PAT * 1988; Doctorate, Rush University, 1987

Chemistry
Professors
ANDERSEN, NIELS * 1968; Doctorate, Northwestern University, 1967
CAMPBELL, CHARLES T * 1989; Doctorate, The University of Texas, 1979
CHIU, DANIEL T. * 2000; Doctorate, Stanford University, 1998
DAVIDSON, ERNEST, 2002; Doctorate, Indiana University-Bloomington, 1961
DROBNY, GARY P * 1981; Doctorate, University of California-Berkeley, 1981
GAMELIN, DANIEL R. * 2000; Doctorate, Stanford University, 1997
GELB, MICHAEL H. * 1985; Doctorate, Yale University, 1982
GINGER JR, DAVID S. * 2003; Doctorate, University of Cambridge, 2001
GOLDBERG, KAREN * 1995; Doctorate, University of California-Berkeley, 1988; Doctorate, University of California-Berkeley, 1988
HEINEKEY, DENNIS M * 1991; Doctorate, University of Alberta, 1982
HOPKINS, PAUL B * 1982; Doctorate, Harvard University, 1982
KELLER, SARAH L. * 2000; Doctorate, Princeton University, 1995
KOVACS, JULIA A. * 1988; Doctorate, Harvard University, 1986
LI, XIAOSONG * 2005; Doctorate, Wayne State University, 2003
MALLY, DUSTIN JAMES * 2006; Doctorate, University of California-Berkeley, 2002
MC COY, ANNE BOWEN * 2015; Doctorate, University of Wisconsin Colleges, 1992
RATHOD, PRADIPSINH K. * 2001; Doctorate, Oregon Health and Science University, 1982
REID, PHILIP J. * 1995; Doctorate, University of California-Berkeley, 1992
ROBINSON, BRUCE H * 1980; Doctorate, Vanderbilt University, 1975
SASAKI, TOMIKAZU * 1989; Master's, Kyoto University, 1981; Doctorate, Kyoto University, 1985
SYNOVEC, ROBERT E. * 1986; Doctorate, Iowa State University, 1986
TURECEK, FRANTIŠEK * 1990; Doctorate, Charles University, 1977
VARANI, GABRIELE * 2001; Doctorate, Università degli Studi di Milano, 1987
XANTHEAS, SOTIRIS * 2016
ZHANG, BO * 2008; Master's, Peking University, 2002; Doctorate, University of Utah, 2006

Associate Professors
BOYDSTON, ANDREW JACKSON * 2010; Master's, University of Oregon, 2002; Master's, University of Oregon, 2002; Doctorate, The University of Texas at Austin, 2007
CHATTERJEE, CHAMPAK * 2010
KHALIL, MUNIRA * 2006; Doctorate, Massachusetts Institute of Technology, 2004
LALIC, GOJKO * 2008; Doctorate, Harvard University, 2004
MASIELLO, DAVID * 2004; Doctorate, University of Florida, 2004
MICHAEL, FORREST * 2004; Master's, Harvard University, 1998; Doctorate, Harvard University, 2001
SIMON, JULIAN A. * 1996; Master's, Columbia University, 1984; Master's, Columbia University, 1986

Assistant Professors
BERTHIER, ERWIN, 1900; Master's, University of Canterbury, 2006; Doctorate, University of Wisconsin-Madison, 2010
BUSH, MATTHEW FRANCIS * 2011; Doctorate, University of California-Berkeley, 2008
COSSAIRT, BRANDI MICHELLE * 2012; Doctorate, Massachusetts Institute of Technology, 2010
FU, DAN * 2015; Doctorate, Princeton University, 2009
MAIBAUM, LUTZ GERRIT * 2011
NELSON, ALSHAKIM * 2015; Doctorate, University of California-Los Angeles, 2004
SCHLENKER, CODY W * 2011; Doctorate, University of Southern California, 2010
THERBAGE, ASHLEIGH * 2015; Doctorate, University of Cambridge, 2011
VAUGHAN, JOSHUA CHARLES * 2013; Doctorate, Massachusetts Institute of Technology, 2005
VELIAN, ALEXANDRA * 1900; Doctorate, Massachusetts Institute of Technology, 2014
ZALATAN, JESSE GEORGE * 2014; Doctorate, Stanford University, 2008

Senior Lecturers
CARROLL, ANDREA D., 1998; Master's, University of Washington-Seattle Campus, 2001; Doctorate, University of Washington-Seattle Campus, 2003
CRAIG, COLLEEN, 2001; Master's, University of Washington-Seattle Campus, 2004; Doctorate, University of Washington-Seattle Campus, 2006

Lecturers
GOLDMAN, LAWRENCE MICHAEL, 2014; Doctorate, University of Wales Institute Cardiff, 2010
LEIPZIG, BENJAMIN KEITH, 2010; Doctorate, University of Washington-Seattle Campus, 2017
ROBINSON, SAMANTHA JO, 2018; Doctorate, University of Washington-Seattle Campus, 2014
WIEGAND, DEBORAH H, 1990; Doctorate, Northern Illinois University, 1990

Classics
Professors
BLONDELL, RUBY * 1985; Master's, University of Oxford, 1981; Doctorate, University of California-Berkeley, 1984
CLAUSS, JAMES J * 1984; Master's, Fordham University, 1976; Doctorate, University of California-Berkeley, 1983
CONNORS, CATHERINE M. * 1990; Master's, University of Michigan-Ann Arbor, 1986; Doctorate, University of Michigan-Ann Arbor, 1989
GOWING, ALAIN M. * 1988; Master's, Bryn Mawr College, 1981; Doctorate, Bryn Mawr College, 1988
HINDS, STEPHEN E * 1992; Master's, University of Dublin Trinity College, 1983; Doctorate, St John's College, 1985

Associate Professors
HOLLMANN, ALEXANDER J * 2001; Master's, University of Colorado at Boulder, 1990; Doctorate, Harvard University, 1998
KAMEN, DEBORAH E * 2007; Master's, University of Oxford, 1999; Master's, University of California-Berkeley, 2000; Doctorate, University of California-Berkeley, 2005
LEVANIOUK, OLGA * 2001; Master's, University of Colorado, 1994; Doctorate, Harvard University, 2000
STROUP, SARAH C * 1992; Master's, University of California-Berkeley, 1994; Doctorate, University of California-Berkeley, 2000
TOPPER, KATHRYN R * 2008; Doctorate, Harvard University, 2007

Assistant Professor
LEVIN-RICHARDSON, SARAH * 2009; Master's, Stanford University, 2006; Doctorate, Stanford University, 2009

Communication
Professors
BALDASTY, GERALD J * 1974; Master's, University of Wisconsin-Madison, 1974; Doctorate, University of Washington-Seattle Campus, 1978
CECCARELLI, LEAH M. * 1996; Master's, Northwestern University, 1992; Doctorate, Northwestern University, 1995
DOMKE, DAVID S. * 1998; Master's, California State University-Fullerton, 1992; Doctorate, University of Minnesota-Duluth, 1996
FOOT, KIRSTEN A * 2001; Master's, Wheaton College, 1990; Doctorate, University of California-San Diego, 1999

MANUSOV, VALERIE L * 1993; Master's, Michigan State University, 1984; Doctorate, University of Southern California, 1989

MOY, PATRICIA * 1998; Master's, Cornell University, 1993; Doctorate, University of Washington-Seattle Campus, 1998

PARKS, MALCOLM R , 1978; Master's, Michigan State University, 1975; Doctorate, Michigan State University, 1976

RIVENBURGH, NANCY * 1990; Master's, Boston University, 1982; Doctorate, University of Washington-Seattle Campus, 1991

RUSSELL, ADRIENNE MARIE * 2017

SIMPSON, ROGER A , 1982; Master's, University of Wisconsin Colleges, 1961; Doctorate, University of Washington-Seattle Campus, 1973

UNDERWOOD, DOUGLAS M * 1987; Master's, Ohio State University Agricultural Technical Institute, 1974

Associate Professors

BOWES, JOHN E , 1974; Master's, Syracuse University, 1965; Doctorate, Michigan State University, 1971

FEARN-BANKS, KATHLEEN A. * 1990; Master's, University of California-Los Angeles, 1965

HAROLD, CHRISTINE L * 2007; Master's, Pennsylvania State University-College of Medicine, 1999; Doctorate, Pennsylvania State University-College of Medicine, 2003

JOSEPH, RALINA L * 2005; Master's, University of California-San Diego, 2001; Doctorate, University of California-San Diego, 2005

KIELBOWICZ, RICHARD B * 1984; Master's, University of Minnesota-Duluth, 1978; Doctorate, University of Minnesota-Duluth, 1984

NEFF, GINA S * 2005

NISHIME, LEILANI * 2008; Master's, University of Michigan-Ann Arbor, 1991; Doctorate, University of Michigan-Ann Arbor, 1997

Assistant Professors

CROWLEY, JOHN P. * 2008; Master's, San Diego State University, 2006; Doctorate, University of Washington-Seattle Campus, 2012

GONZALEZ, CARMEN * 2015; Master's, University of Southern California, 2009; Doctorate, University of Southern California, 2013

HILL, BENJAMIN C * 2013; Master's, Massachusetts Institute of Technology, 2007; Doctorate, Massachusetts Institute of Technology, 2013

POWERS, MATTHEW J * 2013; Master's, Simon Fraser University, 2005; Doctorate, New York University, 2013

SCHARP, KRISTINA , 2018

Senior Lecturers

CROFTS, ANITA , 1996; Master's, University of Washington-Seattle Campus, 2002

YASIN, EKIN , 2013; Master's, New York University, 2006; Master's, Columbia University, 2008; Doctorate, New York University, 2016

Lecturers

COOK, CALEY K , 2013; Master's, University of Southern California, 2007

University of Washington General Catalog 2018-2020
Page 2386
COUTU, LISA * 1990; Master's, University of Washington-Seattle Campus, 1992; Doctorate, University of Washington-Seattle Campus, 1996
MCGARRITY, MATTHEW K * 2004; Master's, Indiana University-Bloomington, 2000; Doctorate, Indiana University-Bloomington, 2004
OTANEZ, ANDREA K., 2013; Master's, University of Utah, 1990
SPRATT, MARGARET, 1998

Comparative Literature, Cinema, and Media

Professors
AMES, ERIC C. * 1991; Master's, University of Washington-Seattle Campus, 1993; Doctorate, University of California-Berkeley, 2000
BORCH-JACOBSEN, MIKKEL * 1986
BRAESTER, YOMI * 2000; Master's, Hebrew University of Jerusalem, 1991; Master's, Yale University, 1992; Doctorate, Yale University, 1998
HANDWERK, GARY J * 1984; Doctorate, Brown University, 1984

Associate Professors
BEAN, JENNIFER M * 1998; Doctorate, The University of Texas, 1998
MAHADEVAN, SUDHIR * 2008; Master's, New York University, 2000; Doctorate, New York University, 2009
TWEEDIE, JAMES * 2004; Master's, University of Iowa, 1999; Doctorate, University of Iowa, 2002

Assistant Professors
GROENING, STEPHEN F * 2014; Master's, Claremont Graduate University, 2001; Doctorate, University of Minnesota-Duluth, 2008
JESTY, JUSTIN C * 2011; Doctorate, University of Chicago, 2010; Master's, University of Chicago, 2010

Dance

Professors
MCMAINS, JULIET * 2006; Doctorate, University of California-Riverside, 2003
WILEY, HANNAH * 1983; Master's, New York University, 1981

Associate Professors
COUPE, JAMES, 2004; Master's, University of Salford, 2000; Doctorate, University of Washington-Seattle Campus, 2007
SALK, JENNIFER * 2002; Master's, Ohio State University Agricultural Technical Institute, 1994

Assistant Professors
ALEXANDER, ALETHEA SADIE, 2016
LINCOLN, RACHAEL, 2013; Master's, University of California-Los Angeles, 2009
PSARRA, AFRODITI * 2016; Master's, Universidad Autónoma de Madrid, 2008; Doctorate, Universidad Autónoma de Madrid, 2014

Lecturer
HAIM, MARK, 2002
Drama

Professors
BOND, TIMOTHY J * 1982; Master's, University of Washington-Seattle Campus, 1983
CLAY, JACK D, 1986; Master's, Northwestern University, 1956
COLE, CATHERINE M * 2016; Doctorate, Northwestern University, 1996
CURTIS-NEWTON, VALERIE * 1993; Master's, University of Washington-Seattle Campus, 1996
JENKINS, MARK F * 1989
JOHNSON, DAVID ODAI * 1998; Master's, University of Utah, 1990; Doctorate, The University of Texas, 1994
KORF, GEOFFREY L * 2002; Master's, Yale University, 1991
LYNCH, THOMAS * 2005; Master's, Yale University, 1979
POSTLEWAIT, THOMAS E * 2007; Doctorate, University of Minnesota-Duluth, 1976

Associate Professors
FRACE, JEFFREY H * 2008; Master's, Columbia University, 1997
MAGELSSEN, SCOTT * 2013; Master's, University of Minnesota-Duluth, 1999; Doctorate, University of Minnesota-Duluth, 2002
TROUT, DEBORAH L * 1994; Master's, Yale University, 1994

Assistant Professor
MIHAYLOVA, STEFKA G * 2011; Master's, Technical University of Sofia, 2000; Master's, Central European University, 2001; Doctorate, Northwestern University, 2008

Senior Lecturers
BRAUN, NATHAN A, 2016; Master's, New York University, 1988
CONNORS, BRIDGET * 2016; Master's, California Institute of the Arts, 1989
HAFSO, SCOTT, 1992; Master's, University of Washington-Seattle Campus, 1995; Master's, University of Washington-Seattle Campus, 1999
JONES, ZANE * 2012; Master's, University of Southern California, 1994

Lecturers
ALM, GEOFFREY E, 1998
MADDEN, CATHERINE M * 1987; Master's, Washington State University, 1977

Senior Artist-in-Residence
HARTMAN, KAREN, 2014; Master's, Yale University, 1997

Economics

Professors
BAJARI, PATRICK L * 2012; Doctorate, University of Minnesota-Duluth, 1997
EICHER, THEO S * 1994; Master's, Columbia University, 1991; Master's, Columbia University, 1993; Doctorate, Columbia University, 1994
FAN, YANQIN * 2013; Master's, University of Western Ontario, 1987; Doctorate, University of Western Ontario, 1990

GHIRONI, FABIO P * 2013; Doctorate, University of California-Berkeley, 1999

HALVORSEN, ROBERT F * 1972; Master's, Harvard University, 1965; Master's, Harvard University, 1968; Doctorate, Harvard University, 1973

KHALIL, FAHAD A. * 1991; Master's, Virginia Polytechnic Institute and State University, 1988; Doctorate, Virginia Polytechnic Institute and State University, 1991

KIM, CHANG JIN * 1985; Doctorate, University of Washington-Seattle Campus, 1989

LAWARREE, JACQUES P. * 1990; Master's, Université de Liège, 1984; Doctorate, University of California-Berkeley, 1990

THORNTON, JUDITH A * 1961; Master's, Briarcliffe College, 1958; Doctorate, Briarcliffe College, 1960

TURNOVSKY, STEPHEN J * 1987; Master's, Victoria University of Wellington, 1963; Doctorate, Harvard University, 1968

WEN, QUAN * 2013; Master's, University of Western Ontario, 1988; Doctorate, University of Western Ontario, 1991

WONG, KAR-YIU * 1985; Master's, Chinese University of Hong Kong, 1979; Master's, Columbia University, 1981; Doctorate, Columbia University, 1983

ZIVOT, ERIC W * 1993; Doctorate, Yale University, 1992

Associate Professors

BROCK, PHILIP L * 1991; Doctorate, Stanford University, 1982

CHEN, YU-CHIN * 2003; Master's, Harvard University, 1996; Doctorate, Harvard University, 2002

ROSE, ELAINA * 1993; Master's, University of Pennsylvania, 1987; Doctorate, University of Pennsylvania, 1993

Assistant Professors

DILLON, BRIAN M * 2013; Master's, University of Cambridge, 2005; Master's, Cornell University, 2009; Doctorate, Cornell University, 2011

EUN, DONG JAE * 2016; Doctorate, Massachusetts Institute of Technology, 2017

GRIFFITH, MICHAEL ALAN * 2017; Master's, University of Michigan-Ann Arbor, 2013

HEATH, RACHEL M * 2011; Master's, Yale University, 2007; Master's, Yale University, 2008; Doctorate, Yale University, 2012

TAKAHASHI, YUYA * 2018; Doctorate, University of Wisconsin-Madison, 2010

TAN, XU * 2013; Master's, Stanford University, 2011; Doctorate, Stanford University, 2013

TAO, JING * 2015; Master's, Peking University, 2009; Master's, University of Wisconsin-Madison, 2011

Lecturers

ELLIS, GREGORY M * 1988; Doctorate, University of California-Berkeley, 1992

KNOX, MELISSA A * 2009; Doctorate, University of California-Berkeley, 2008

O'DEA, DENNIS C * 2012; Master's, University of Illinois at Urbana-Champaign, 2007; Doctorate, University of Illinois at Urbana-Champaign, 2010

SALEHI-ESFAHANI, HAIDEH * 1990; Doctorate, University of Pennsylvania, 1985

TURNOVSKY, MICHELLE H L * 1987; Doctorate, Australian National University, 1978
English

Professors

ABRAMS, ROBERT * 1979; Doctorate, Indiana University-Bloomington, 1973
ALLEN, CAROLYN * 1972; Master's, Claremont Graduate University, 1966; Doctorate, University of Minnesota-Duluth, 1972
ALLEN, CHADWICK * 2015; Master's, Washington State University, 1990; Doctorate, University of Arizona, 1997
BAWARSHE, ANIS * 1999; Master's, University of Kansas, 1995; Doctorate, University of Kansas, 1999
BIERDS, LINDA L * 1983; Master's, University of Washington-Seattle Campus, 1971
BOSWORTH, DAVID L * 1984
CHERNIAVSKY, EVA * 2005; Doctorate, University of California-Berkeley, 1990
CHRISMAN, LAURA H * 2005; Doctorate, University of Oxford, 1992
FOSTER, RONALD THOMAS * 2005; Master's, The University of Texas, 1984; Doctorate, University of Wisconsin Colleges, 1990
GUERRA, JUAN C * 1990; Master's, University of Illinois at Urbana-Champaign, 1983; Doctorate, University of Illinois at Urbana-Champaign, 1992
KAPLAN, SYDNEY J * 1971; Master's, University of California-Los Angeles, 1966; Doctorate, University of California-Los Angeles, 1971
KAUP, MONIKA * 2000; Doctorate, Ruhr Universität Bochum, 1991
KENNEY, RICHARD L * 1987
MODIANO, RAIMONDA * 1978
REED, BRIAN * 2000; Doctorate, Stanford University, 2000
REMLEY, PAUL G * 1988; Master's, University of Cambridge, 1985; Master's, Columbia University, 1987; Doctorate, Columbia University, 1990
SEARLE, LEROY F * 1977; Master's, University of Iowa, 1968; Doctorate, University of Iowa, 1970
SHIELDS, DAVID * 1988; Master's, University of Iowa, 1980
SHIELDS, JULIET D * 2008; Master's, University of Pennsylvania, 1999; Doctorate, University of Pennsylvania, 2004
SILBERSTEIN, SANDRA V * 1982; Master's, University of Michigan-Ann Arbor, 1971; Doctorate, University of Michigan-Ann Arbor, 1982
SONENBERG, MAYA * 1993; Master's, Brown University, 1984
STATEN, HENRY J * 1998; Doctorate, The University of Texas, 1978
STREITBERGER, WILLIAM R * 1973; Master's, University of Illinois at Urbana-Champaign, 1971; Doctorate, University of Illinois at Urbana-Champaign, 1973
STYGALL, GAIL * 1990; Doctorate, Indiana University-Bloomington, 1989
WONG, SHAWN H * 1984; Master's, San Francisco State University, 1974
WOODWARD, KATHLEEN * 2000; Doctorate, University of California-San Diego, 1976

Associate Professors

BURSTEIN, JESSICA L * 1998; Master's, University of Chicago, 1990; Doctorate, University of Chicago, 1998
BUTWIN, JOSEPH M * 1978; Master's, Harvard University, 1966; Doctorate, Harvard University, 1971
CROUSE, DAVID J * 2016; Master's, University of Alaska Fairbanks, 1994
FELD, ANDREW E * 2006; Master's, University of Houston, 1998
GRIFFITH, JOHN W * 1968; Doctorate, University of Oregon, 1969
HARKINS, GILLIAN H * 2002; Doctorate, University of California-Berkeley, 2002
IBRAHIM, HABIBA * 2006; Doctorate, New York University, 2005
KNIGHT, JEFFREY T * 2011; Master's, University of Cambridge, 2007; Doctorate, Northwestern University, 2009
LAPORTE, CHARLES P * 2005; Master's, Virginia University of Lynchburg, 1997; Doctorate, University of Michigan-Ann Arbor, 2004
MOORE, COLETTE V * 2005; Doctorate, University of Michigan-Ann Arbor, 2004
MOTHA, MARY N * 2008; Master's, University of Maryland-University College, 1995; Doctorate, University of Maryland-University College, 2004
PATTERSON, MARK R * 1981; Doctorate, Princeton University, 1981
RAI, CANDICE S * 2008; Master's, University of Illinois at Urbana-Champaign, 2001; Doctorate, University of Illinois at Urbana-Champaign, 2008
SANDHU, PRITI * 2010
SIMPSON, CAROLINE CHUNG * 1994; Master's, University of Houston, 1989; Doctorate, The University of Texas, 1994
TAYLOR, JESSE OAK * 2013; Master's, University of Wisconsin-Madison, 2005; Doctorate, University of Wisconsin-Madison, 2010
TRIPLETT, PIMONE E * 2006; Master's, University of Iowa, 1990
WEBSTER, JOHN M * 1972; Master's, University of California-Berkeley, 1969; Doctorate, University of California-Berkeley, 1974
WEINBAUM, ALYS E * 1998; Master's, University of Sussex, 1990; Master's, Columbia University, 1992; Doctorate, Columbia University, 1998

Assistant Professors
BOU AYASH, NANCY * 2013; Master's, American University of Beirut, 2006; Doctorate, University of Louisville, 2013
BUCKROYD, PETER , 2014; Master's, McMaster University, 1970; Doctorate, McMaster University, 1973; Doctorate, McMaster University, 1974
CHANNEY, EVE CHRISTINE , 1991; Master's, University of Washington-Seattle Campus, 1993; Doctorate, University of Washington-Seattle Campus, 1998
CLARE, STEPHANIE * 2016; Master's, University of Oxford, 2003; Master's, University of Victoria, 2005
NORAKO, LEILA K * 2016; Master's, University of Rochester, 2009; Doctorate, University of Rochester, 2012
PARIS, RACHEL * 2018; Master's, University of Arizona, 2003

Senior Lecturers
LAUFENBERG, HENRY J , 2003; Master's, University of Washington-Seattle Campus, 1994; Master's, San Francisco State University, 1996; Doctorate, University of California-Riverside, 2001
LIU, MICHELLE S , 2001; Master's, Yale University, 1996; Doctorate, Yale University, 2003
MATTHEWS, CARRIE R , 2008; Master's, University of North Carolina, 2001; Doctorate, University of North Carolina, 2007
MCCUE, FRANCES A , 1986; Master's, University of Washington-Seattle Campus, 1988; Master's, Columbia University, 1996; Doctorate, Columbia University, 2001
O'NEILL, JOHN , 1985; Master's, University of Washington-Seattle Campus, 1986
POPOV, NIKOLAI B , 1983
TARANATH, ANUPAMA , 2000; Doctorate, University of California-San Diego, 2002
WACKER, NORMAN J., 1982; Master's, University of Washington-Seattle Campus, 1976; Doctorate, University of Washington-Seattle Campus, 1986

**Lecturers**

BABBIE, RAYMOND TYLER, 2012
CALLOW, MEGAN, 2015; Master's, St John's College, 2006; Doctorate, University of Maryland-University College, 2015
DANIEL, JAMES RUSHING, 2017
GEORGE, E. LAURIE * 1991; Master's, University of Oregon, 1980; Doctorate, University of Oregon, 1984
GILLIS-BRIDGES, KIMBERLEE, 1989; Master's, University of Washington-Seattle Campus, 1990
JACCARD, ERIK B., 2008
LIGHT, CAROL, 1992
SIMMONS-ONEILL, ELIZABETH, 1983; Master's, University of Washington-Seattle Campus, 1982; Doctorate, University of Washington-Seattle Campus, 1988
VAN HOUDT, JENNIFER, 2011; Doctorate, University of Washington-Seattle Campus, 2018

**French and Italian Studies**

**Professor**

DELCOURT, DENYSE * 1990; Master's, Canadian University College, 1980; Doctorate, Canadian University College, 1987

**Associate Professors**

GAYLARD, SUSAN L * 2005; Master's, University of California-Berkeley, 1999; Doctorate, University of California-Berkeley, 2004
MACKENZIE, LOUISA * 2001; Master's, University of California-Berkeley, 1997; Doctorate, University of California-Berkeley, 2001
SBRAGIA, ALBERT J * 1989; Master's, University of California-Berkeley, 1983; Doctorate, University of California-Berkeley, 1988
TURNOVSKY, GEOFFREY * 2006; Master's, Columbia University, 1995; Doctorate, Columbia University, 2001
WATTS, RICHARD HENRY * 2009; Master's, Yale University, 1993; Master's, Yale University, 1994; Doctorate, Yale University, 1998

**Assistant Professor**

SMITH, MAYA A * 2013; Master's, New York University, 2005; Doctorate, University of California-Berkeley, 2013

**Senior Lecturers**

LEPORACE, GIUSEPPE, 1987; Master's, University of Washington-Seattle Campus, 1989
MAZZOLA, CLAUDIO, 1982; Doctorate, University of Washington-Seattle Campus, 1986
VILAVELLA, HELENE, 1984; Master's, American University of Paris, 1983; Master's, University of Washington-Seattle Campus, 1986; Doctorate, University of Washington-Seattle Campus, 1996

**Lecturers**

BURGESS, HAILEY, 2013
CAMPAGNA, GABRIELLE, 2018
GIACHETTI, LORENZO, 2015; Master's, Stanford University, 2010; Doctorate, Stanford University, 2015
MEYER, HEDWIGE M, 1988; Master's, University of Washington-Seattle Campus, 1992
RONZANI, MICHELA, 2018
SHAW, AIMIE MAUREEN, 2010
SZTAJNKRYCER, CHRISTINA, 2009; Master's, University of Washington-Seattle Campus, 2011; Doctorate, University of Washington-Seattle Campus, 2016

Gender, Women, and Sexuality Studies

Professors
RAMAMURTHY, PRITI * 1997; Master's, Institute of Integrated Management and Technology, 1978; Master's, Syracuse University, 1982; Doctorate, Syracuse University, 1995
YEE, SHIRLEY J. * 1988; Master's, Ohio State University Agricultural Technical Institute, 1983; Doctorate, Ohio State University Agricultural Technical Institute, 1987

Associate Professors
CUMMINGS, KATHERINE * 1985; Master's, Montclair State University, 1979; Doctorate, University of Wisconsin-Madison, 1985
HABELL-PALLAN, MICHELLE * 1998; Master's, University of California-San Diego, 1993; Master's, University of California-San Diego, 1994; Doctorate, University of California-Santa Cruz, 1997
KEATING, CHRISTINE * 1995; Master's, George Washington University, 1993; Master's, University of Washington-Seattle Campus, 1997; Doctorate, University of Washington-Seattle Campus, 2002
REDDY, CHANDAN C. * 2001; Master's, Columbia University, 1995; Master's, Columbia University, 1999; Doctorate, Columbia University, 2004
ROSS, LUANA K * 1999; Master's, Portland State University, 1981; Doctorate, University of Oregon, 1992
SWARR, AMANDA L * 2005; Master's, University of Minnesota-Duluth, 1998; Doctorate, University of Minnesota-Duluth, 2003
WELLAND, SASHA * 2004; Master's, University of California-Santa Cruz, 1998; Doctorate, University of California-Santa Cruz, 2005

Assistant Professors
ADEYEMI, ADEKEMI * 2016; Master's, Northwestern University, 2012; Doctorate, Northwestern University, 2016
CARDENAS, MICHA, 2015; Master's, European Graduate School, 2008; Master's, University of California-San Diego, 2009; Doctorate, University of Southern California, 2015
JUDD, BETTINA A * 2016; Master's, University of Maryland-University College, 2007; Doctorate, University of Maryland-University College, 2014

Lecturers
ANDRESEN, THIRD, 1997
LEE, REGINA Y * 2014; Master's, University of Alberta, 2007; Doctorate, University of California-Riverside, 2013
NOVOTNY, PATRICIA S * 1996
Geography

Professors
BROWN, MICHAEL P. * 1997; Master's, University of British Columbia, 1990; Doctorate, University of British Columbia, 1994
CHAN, KAM WING * 1991; Master's, University of Hong Kong, 1983; Doctorate, University of Toronto, 1988
ELLIS, JOHN MARK * 1999; Master's, Indiana University-Bloomington, 1984; Doctorate, Indiana University-Bloomington, 1988
ELWOOD-FAUSTINO, SARAH A. * 2006; Master's, University of Minnesota-Duluth, 1996; Doctorate, University of Minnesota-Duluth, 2000
ENGLAND, KIM VL * 1999; Master's, Ohio State University Agricultural Technical Institute, 1984; Doctorate, Ohio State University Agricultural Technical Institute, 1988
HERBERT, STEVEN K * 2000; Master's, University of Minnesota-Duluth, 1987; Doctorate, University of California-Los Angeles, 1995
JAROSZ, LUCY A. * 1990; Master's, University of Wisconsin Colleges, 1979; Doctorate, University of California-Berkeley, 1990
LAWSON, VICTORIA A. * 1986; Master's, Ohio State University Agricultural Technical Institute, 1982; Doctorate, Ohio State University Agricultural Technical Institute, 1986
MAYER, JONATHAN D * 1977; Master's, University of Michigan-Ann Arbor, 1975; Doctorate, University of Michigan-Ann Arbor, 1977
NYERGES, TIMOTHY L. * 1985; Master's, Ohio State University Agricultural Technical Institute, 1976; Doctorate, Ohio State University Agricultural Technical Institute, 1980

Associate Professor
WITHERS, SUZANNE D * 1997; Master's, Queen's University, 1988; Doctorate, University of California-Los Angeles, 1992

Assistant Professors
ANDERSON, CHRISTIAN * 2012; Master's, Goshen College, 2004; Doctorate, New York University, 2012
BERGMANN, LUKE R * 2011; Master's, University of Minnesota-Duluth, 2006; Doctorate, University of Minnesota-Duluth, 2012
BIERMANN, CHRISTINE P * 2014; Master's, The University of Tennessee, 2009; Doctorate, Ohio State University Agricultural Technical Institute, 2014
RICKER, BRITTA * 2014; Master's, McGill University, 2010; Doctorate, Simon Fraser University, 2014
YBARRA, MEGAN * 2014; Doctorate, University of California-Berkeley, 2010

Lecturers
STRONG, MICHAEL E , 2017
THAKAR, VAISHNAVI , 2018

Germanics

Professors
GRAY, RICHARD T * 1991; Master's, University of Cincinnati-Clermont College, 1976; Doctorate, Virginia University of Lynchburg, 1981
PRUTTI, BRIGITTE * 1991; Doctorate, Technische Universität Graz, 1988; Doctorate, University of California-Irvine, 1991

WILKE, SABINE * 1988

**Associate Professors**

BLOCK, RICHARD * 2004; Master's, University of Washington-Seattle Campus, 1979; Doctorate, Northwestern University, 1998

BRANDL, KLAUS K * 1991; Master's, The University of Texas, 1987; Doctorate, The University of Texas, 1991

**Assistant Professors**

GROVES, JASON * 2015; Master's, Johns Hopkins University, 2006; Doctorate, Yale University, 2012

OEHME, ANNEGRET * 2016; Master's, Freie Universität Berlin, 2011; Doctorate, Duke University, 2016

WIGGINS, ELLWOOD * 2012; Master's, St John's College, 2003; Master's, Johns Hopkins University, 2006; Doctorate, Yale University, 2011

**Lecturers**

TERRASI, SHAYNA K , 2014; Master's, San Francisco State University, 2004; Doctorate, University of California-Los Angeles, 2011

**History**

**Professors**

BAILKIN, JORDANNA * 2001; Master's, Stanford University, 1994; Doctorate, Stanford University, 1998

BARLOW, TANI E. * 1994; Master's, University of California-Davis, 1979; Doctorate, University of California-Davis, 1985

BEHLMER, GEORGE K * 1979; Master's, Stanford University, 1972; Doctorate, Stanford University, 1977

EBREY, PATRICIA B * 1997; Master's, Columbia University, 1970; Doctorate, Columbia University, 1975

FELAK, JAMES R * 1983; Master's, Indiana University-Bloomington, 1985; Doctorate, Indiana University-Bloomington, 1989

FINDLAY, JOHN M * 1983; Master's, University of California-Berkeley, 1978; Doctorate, University of California-Berkeley, 1982

GLENN, SUSAN A * 1993; Master's, University of California-San Diego, 1975; Doctorate, University of California-Berkeley, 1983

GREGORY, JAMES N * 1993; Master's, University of California-Santa Barbara, 1977; Doctorate, University of California-Berkeley, 1983

JONAS, RAYMOND A * 1985; Master's, University of California-Davis, 1980; Doctorate, University of California-Berkeley, 1985

O'MARA, MARGARET PUGH * 2007; Doctorate, University of Pennsylvania, 2002; Master's, University of Pennsylvania, 2002

RAFAEL, VICENTE L. * 2003; Master's, Cornell University, 1982; Doctorate, Cornell University, 1984

RORABAUGH, WILLIAM J * 1976; Master's, University of California-Berkeley, 1970; Doctorate, University of California-Berkeley, 1976

SCHMIDT, BENJAMIN * 1996; Master's, Harvard University, 1988; Doctorate, Harvard University, 1994

SEARS, LAURIE J * 1989; Master's, University of Arizona, 1977; Doctorate, University of Wisconsin-Madison, 1986
STACEY, ROBERT C. * 1988; Master's, Yale University, 1978; Master's, Yale University, 1979; Doctorate, Yale University, 1983
STACEY, ROBIN C * 1988; Master's, Yale University, 1979; Master's, University of Oxford, 1982; Master's, Yale University, 1983; Doctorate, Yale University, 1986
THOMAS, LYNN M. * 1997; Master's, Johns Hopkins University, 1989; Master's, Northwestern University, 1993; Doctorate, University of Michigan-Ann Arbor, 1997
YOUNG, GLENNYS J. * 1992; Master's, University of California-Berkeley, 1983; Doctorate, University of California-Berkeley, 1989

Associate Professors
CAMPBELL, ELENA * 2007; Master's, European University, 1996; Doctorate, University of Russian Academy of Education, 1999
DHAVAN, PURNIMA * 2005; Master's, Virginia University of Lynchburg, 1998; Doctorate, Virginia University of Lynchburg, 2003
HEVLY, BRUCE W * 1989; Doctorate, Johns Hopkins University, 1987
JUNG, MOON-HO * 2001; Master's, Cornell University, 1995; Doctorate, Cornell University, 2000
NASH, LINDA L * 1993; Master's, University of California-Berkeley, 1989; Doctorate, University of Washington-Seattle Campus, 2000
O'NEIL, MARY R * 1982; Master's, Stanford University, 1971; Doctorate, Stanford University, 1982
REID, JOSHUA L * 2015; Master's, University of California-Davis, 2005; Doctorate, University of California-Davis, 2009
RODRIGUEZ SILVA, ILEANA M * 2004; Master's, University of Wisconsin-Madison, 1997; Doctorate, University of Wisconsin-Madison, 2004
SMALLWOOD, STEPHANIE E * 2006; Doctorate, Duke University, 1999
THURTLE, PHILLIP S * 1998; Master's, Stanford University, 1994; Doctorate, Stanford University, 1999
WALKER, JOEL T * 1997; Master's, Princeton University, 1994; Doctorate, Princeton University, 1998
WARREN, ADAM W * 2004; Master's, University of California-San Diego, 2000; Doctorate, University of California-San Diego, 2004
WERRETT, SIMON R E * 2002; Master's, University of Cambridge, 1996; Doctorate, University of Cambridge, 2000

Assistant Professors
BET-SHILIMON, ARBELLA H * 2006; Master's, University of Michigan-Ann Arbor, 2006; Master's, Harvard University, 2008; Doctorate, Harvard University, 2012
MARHOEFER, LAURA T * 2016; Doctorate, Rutgers University-Camden, 2008
MOSCA, MATTHEW W * 2015; Master's, Harvard University, 2002; Doctorate, Harvard University, 2008

Senior Lecturer
URBANSKI, CHARITY L , 2008; Master's, University of California-Berkeley, 1999; Doctorate, University of California-Berkeley, 2007

Lecturers
BRESNAHAN, DAVID P , 2018
GREEN, MIRA , 2006; Master's, University of Utah, 2006; Doctorate, University of Washington-Seattle Campus, 2015
MCNALLY, DEBORAH COLLEEN , 2005
OSBORN, JULIE ANNETTE RIGG , 2007
ROY, ALYSON, 2008; Doctorate, University of Washington-Seattle Campus, 2016

International Studies

Professors
ANCHORDOGUY, MARIE C * 1989; Master’s, University of California-Berkeley, 1982; Doctorate, University of California-Berkeley, 1986
BACHMAN, DAVID M * 1991; Master’s, Stanford University, 1977; Doctorate, Stanford University, 1984
BALAAM, DAVID NORMAN, 2011; Master’s, California State University-Chico, 1973; Doctorate, University of California-Santa Barbara, 1978
BARZILAI, GAD * 2005; Master’s, Bar Ilan University, 1982; Doctorate, Hebrew University of Jerusalem, 1988
CHIROT, DANIEL * 1974; Doctorate, Columbia University, 1973
CURRAN, SARA R * 1994; Master’s, North Carolina A and T State University, 1990; Doctorate, University of North Carolina, 1994
DONG, YUE * 1996; Master’s, China University of Mining and Technology at Beijing, 1989; Master’s, University of Oregon, 1991; Doctorate, University of California-San Diego, 1996
GODOY, ANGELINA SNODGRASS * 2002; Master’s, University of California-Berkeley, 1997; Doctorate, University of California-Berkeley, 2001
HA, YONG-CHOOL * 2003; Master’s, Kent State University, 1978; Doctorate, University of California-Berkeley, 1985
HOLMES-EBER, PAULA, 1998; Master’s, Northwestern University, 1984; Doctorate, Northwestern University, 1992
KASABA, RESAT * 1985; Master’s, New York University, 1979; Doctorate, New York University, 1986
LAVELY, WILLIAM R. * 1985; Master’s, University of California-Berkeley, 1977; Doctorate, University of Michigan-Ann Arbor, 1982

METZLER, MARK * 2017
MIGDAL, JOEL S * 1980; Master’s, Harvard University, 1968; Doctorate, Harvard University, 1972
NOVETZKE, CHRISTIAN L. * 2007; Master’s, Harvard University, 1996; Doctorate, Columbia University, 2002
PEKKANEN, ROBERT J * 2004; Master’s, Harvard University, 1992; Doctorate, Harvard University, 2002
PEKKANEN, SAADIA * 2004; Master’s, Columbia University, 1988; Doctorate, Harvard University, 1996
PIANKO, NOAM * 2004; Doctorate, Yale University, 2004
SORENSEN, CLARK W * 1989; Master’s, University of Washington-Seattle Campus, 1974; Doctorate, University of Washington-Seattle Campus, 1981
SPARKE, MATTHEW * 1995; Master’s, University of British Columbia, 1991; Doctorate, University of British Columbia, 1996
UNDEM, HALVOR A, 2011; Master’s, University of North Dakota, 1977; Doctorate, Air Force Institute of Technology-Graduate School of Engineering and Management, 1985
WALL, PHILLIP, 2010; Master’s, University of Washington-Seattle Campus, 1975; Master’s, University of Washington-Seattle Campus, 1978
WARREN, JONATHAN W * 1996; Master's, University of California-Berkeley, 1990; Doctorate, University of California-Berkeley, 1997
WELLMAN, JAMES K. * 1997; Master's, Princeton Theological Seminary, 1984; Doctorate, University of Chicago, 1995
WILLIAMS, MICHAEL A * 1976; Master's, Miami University-Oxford, 1970; Doctorate, Harvard University, 1977
YANG, ANAND A * 2002; Doctorate, Virginia University of Lynchburg, 1976

Associate Professors
CALLAHAN, MARY P * 1999; Master's, University of London, 1984; Master's, Cornell University, 1991; Doctorate, Cornell University, 1996
FRIEDMAN, KATHIE * 1987; Master's, New York University, 1979; Doctorate, New York University, 1990
GARCIA, MARIA E * 2008; Master's, Brown University, 1996; Doctorate, Brown University, 2001
GIEBEL, CHRISTOPH * 1998; Master's, Cornell University, 1991; Doctorate, Cornell University, 1996
HALPERIN, LIORA R. * 1900; Master's, University of California-Los Angeles, 2007; Doctorate, University of California-Los Angeles, 2011
JONES, CHRISTOPHER D * 1984; Master's, Harvard University, 1969; Doctorate, Harvard University, 1975
KALE, SUNILA S. * 2007; Doctorate, The University of Texas, 2007
LANG, SABINE * 2002; Master's, Freie Universität Berlin, 1985; Doctorate, Freie Universität Berlin, 1997
LUCERO, JOSE A * 2008; Master's, Princeton University, 1997; Doctorate, Princeton University, 2002
NAAR, DEVIN E * 2011; Master's, Stanford University, 2010; Doctorate, Stanford University, 2011
NAM, HWASOOK BERGQUIST * 1993; Master's, Seoul National University, 1989; Doctorate, University of Washington-Seattle Campus, 2003
PORTER, DEBORAH * 2002; Doctorate, Princeton University, 1989
RADNITZ, SCOTT B. * 2007; Doctorate, Massachusetts Institute of Technology, 2006
ROBINSON, CABEIRI DEBERGH * 2003; Master's, Cornell University, 1999; Doctorate, Cornell University, 2005
WILLIAMS, NATHALIE E * 2012; Doctorate, University of Michigan-Ann Arbor, 2009

Assistant Professors
AHUVIA, MIKA * 2014; Master's, University of Michigan-Ann Arbor, 2008; Doctorate, Princeton University, 2014
BESSNER, DANIEL M * 2014; Master's, Duke University, 2010; Doctorate, Duke University, 2013
FREIJE, VANESSA GRACE * 2014; Master's, Duke University, 2011; Doctorate, Duke University, 2015
LIN, JAMES YUSHANG * 2017
SENDEROVICH, ALEKSANDR * 1900
YANG, ZHUQING * 2017

Senior Lecturer
TOKUNO, KYOKO , 2001; Master's, University of California-Berkeley, 1983; Doctorate, University of California-Berkeley, 1994

Lecturer
LARUE, DEAN , 2017
Law, Societies, and Justice

Professor
BECKETT, KATHERINE A * 2000; Master's, University of California-Los Angeles, 1989; Doctorate, University of California-Los Angeles, 1994

Associate Professor
OSANLOO, ARZOO * 2002; Doctorate, American University, 1993; Doctorate, Stanford University, 2002

Assistant Professor
MEYERS, STEPHEN * 2015; Master's, Harvard University, 2002; Master's, University of Massachusetts, 2007; Doctorate, University of California-San Diego, 2014

Lecturers
EVANS, HEATHER , 2005
FROST, ANN C , 2005; Doctorate, University of Washington-Seattle Campus, 2000; Master's, University of Washington-Seattle Campus, 2009
WOIAK, JOANNE D , 2001; Master's, University of Toronto, 1990; Doctorate, University of Toronto, 1998

Linguistics

Professors
BENDER, EMILY R. MENON * 2003; Master's, Stanford University, 1997; Doctorate, Stanford University, 2000
CITKO, BARBARA * 2005; Doctorate, Stony Brook University, 2000
HARGUS, SHARON * 1985; Master's, University of California-Los Angeles, 1981; Doctorate, University of California-Los Angeles, 1985
HERSCENSOHN, JULIA R * 1985; Master's, University of California-Santa Barbara, 1970; Doctorate, University of Washington-Seattle Campus, 1976
OGIHARA, TOSHIYUKI * 1991; Master's, Sophia University, 1983; Doctorate, The University of Texas, 1989
WRIGHT, RICHARD A. * 1998; Master's, University of California-Los Angeles, 1993; Doctorate, University of California-Los Angeles, 1996
XIA, FEI * 2005; Master's, University of Pennsylvania, 1997; Doctorate, University of Pennsylvania, 2001

Associate Professors
ALDRIDGE, EDITH * 2007; Master's, Sophia University, 1992; Doctorate, Cornell University, 2004
EVANS, BETSY E * 2007; Master's, Kent State University, 1992; Doctorate, Michigan State University, 2001
LEVOW, GINA-ANNE * 2010; Master's, Massachusetts Institute of Technology, 1993; Doctorate, Massachusetts Institute of Technology, 1998
WASSINK, ALICIA BECKFORD * 1998; Doctorate, University of Michigan-Ann Arbor, 1999

Assistant Professors
BEGUS, GASPER , 2018; Master's, Harvard University, 2016; Doctorate, Harvard University, 2018
GEORGI, RYAN ALDEN , 2017
LEWIS, WILLIAM D * 2005; Master's, University of Arizona, 1999; Doctorate, University of Arizona, 2002
Senior Lecturers
FORSHAY, LANCE, 2007; Master's, Southwestern Christian University, 1998
MCGARRITY, LAURA WILBUR, 2004; Master's, Indiana University-Bloomington, 1999; Doctorate, Indiana University-Bloomington, 2003

Lecturers
COOPER, MICHAEL, 2015
WINTER, KRISTI G, 2010; Master's, Gallaudet University, 2008

Mathematics
Professors
BILLEY, SARA * 2002; Master's, University of California-San Diego, 1991; Doctorate, University of California-San Diego, 1994
BUBE, KENNETH P * 1986; Master's, Stanford University, 1976; Doctorate, Stanford University, 1978
BURDZY, KRZYSZTOF * 1988; Doctorate, University of California-Berkeley, 1984
BURKE, JAMES V. * 1985; Doctorate, University of Illinois at Urbana-Champaign, 1983
CHEN, ZHEN-QING * 1998; Master's, East China Normal University, 1987; Doctorate, Washington University in St Louis, 1992
COLLINGWOOD, DAVID * 1987; Doctorate, University of Utah, 1983
DEVINATZ, ETHAN S * 1991; Doctorate, Massachusetts Institute of Technology, 1985
DUCHAMP, THOMAS E * 1982; Master's, University of Illinois at Urbana-Champaign, 1969; Doctorate, University of Illinois at Urbana-Champaign, 1976
DUMITRIU, IOANA * 2006; Doctorate, Massachusetts Institute of Technology, 2003
GRAHAM, C. ROBIN * 1984; Master's, Rice University, 1976; Doctorate, Princeton University, 1981
GREENBERG, RALPH * 1978; Doctorate, Princeton University, 1970
HOFFMAN, CHRISTOPHER * 1999; Master's, Stanford University, 1994; Doctorate, Stanford University, 1996
IRVING, RONALD S * 1981; Doctorate, Massachusetts Institute of Technology, 1977
KOBLITZ, NEAL I * 1979; Doctorate, Princeton University, 1974
KOVACS, SANDOR J * 2000; Doctorate, University of Utah, 1995
LEE, JOHN M * 1986; Doctorate, Massachusetts Institute of Technology, 1982
LIEBLICH, MAX * 2009; Doctorate, Massachusetts Institute of Technology, 2004
MARSHALL, DONALD EDDY * 1976; Master's, University of California-Los Angeles, 1972; Doctorate, University of California-Los Angeles, 1976
MCGOVERN, WILLIAM M * 1990; Doctorate, Massachusetts Institute of Technology, 1987
MORROW, JAMES ALLEN * 1969; Doctorate, Stanford University, 1967
NOVIK, ISABELLA * 2001; Master's, Hebrew University of Jerusalem, 1996; Doctorate, Hebrew University of Jerusalem, 1999
PALMIERI, JOHN * 1999; Doctorate, Massachusetts Institute of Technology, 1991
PEVTSOVA, JULIA * 2005; Doctorate, Northwestern University, 2002
POLLACK, DANIEL * 1996; Master's, University of Pennsylvania, 1986; Doctorate, Stanford University, 1991
ROHDE, STEFFEN * 1998; Doctorate, Technische Universität Berlin, 1989
SMITH, HART F * 1991; Doctorate, Princeton University, 1989
SMITH, SHOLTO PAUL * 1986; Master's, University of London, 1978; Doctorate, University of Leeds, 1981
STEIN, WILLIAM A * 2006; Doctorate, University of California-Berkeley, 2000
SYLVESTER, JOHN * 1987; Master's, New York University, 1977; Doctorate, New York University, 1980
THOMAS, REKHA R. * 2000; Master's, Cornell University, 1992; Doctorate, Cornell University, 1994
TORO, TATIANA * 1996; Master's, Stanford University, 1989; Doctorate, Stanford University, 1992
TUNCER, SELIM * 1982; Master's, University of Warwick, 1979; Doctorate, University of Warwick, 1982
UHLMANN, GUNTHER A. * 1984
YUAN, YU * 2001; Master's, National Taipei University, 1993; Doctorate, University of Minnesota-Duluth, 1998
ZHANG, JIAN JAMES * 1994; Master's, Fudan University, 1985; Doctorate, Massachusetts Institute of Technology, 1991

Associate Professors
ALPER, JAROD D * 2016; Doctorate, Stanford University, 2008
ARMS, JUDITH M * 1980; Master's, University of California-Berkeley, 1974; Doctorate, University of California-Berkeley, 1977
ATHREYA, JAYADEV S * 2015; Master's, University of Chicago, 2001; Doctorate, University of Chicago, 2006
HOLROYD, ALEXANDER * 2012; Master's, University of Cambridge, 1999; Doctorate, University of Cambridge, 2000
PAL, SOUMIK * 2008; Master's, Indian Statistical Institute, 2002; Doctorate, Columbia University, 2006
VIRAY, BIANCA * 2014; Doctorate, University of California-Berkeley, 2010

Assistant Professors
BEARDSLEY, JONATHAN S , 2016
BECKER-KAHN, SPENCER THOMAS , 2017
BORTZ, SIMON , 2018
DRUSVYATSKIY, DMITRIY * 2014; Master's, Cornell University, 2010; Doctorate, Cornell University, 2013
FORMAN, NOAH MILLS , 2016
GOECKNER, BENNET BELL , 2018
KLEE, STEVEN R. * 2005; Master's, University of Washington-Seattle Campus, 2009; Doctorate, University of Washington-Seattle Campus, 2010
LEE, DAMI , 2018
LEE, HEATHER MING , 2017
PODDER, MOUMANTI , 2018
ROTHVOS, THOMAS * 2013; Doctorate, École Polytechnique Fédérale de Lausanne, 2009
TURCHET, AMOS , 2016
VON HAELING BRAUNE, LUCAS , 2017
WILSON, BOBBY L.E. , 2018
WON, ROBERT JEFFREY , 2018
XU, LIPING , 2017

Senior Lecturers
CONROY, MATTHEW , 2001; Master's, University of Massachusetts-Lowell, 1990; Doctorate, University of Colorado at Boulder, 1997
NICHIFOR, ALEXANDRA , 1997; Master's, Syracuse University, 1997
PERKINS, PATRICK , 1982; Doctorate, University of Washington-Seattle Campus, 1988

University of Washington General Catalog 2018-2020
Page 2401
Lecturers
BEKYEL, EBRU , 2005; Doctorate, Brown University, 2002
DOS REIS, FANNY , 2013
HEELD, ANDREA M , 2014
LOVELESS, ANDREW , 2005; Master's, Washington State University, 2004; Doctorate, Washington State University, 2005
NAEHRI G, NATALIE , 2013
OSTROFF, JONAH K , 2013; Doctorate, Brandeis University, 2013
PEZZOLI, ELENA , 2000
TAGGART, JENNIFER , 2001; Master's, University of Colorado at Boulder, 1993; Doctorate, University of Colorado at Boulder, 1997

Music
Professors
BERNARD, JONATHAN W * 1987; Master's, Yale University, 1973; Master's, Yale University, 1975; Doctorate, Yale University, 1977
BOZARTH, GEORGE S * 1982; Master's, Princeton University, 1973; Doctorate, Princeton University, 1978
CAMPBELL, PATRICIA S * 1989; Master's, University of Akron Wayne College, 1975; Doctorate, Kent State University, 1981
DURAND, JOEL-FRANCOIS * 1991; Master's, Musikhochschule Freiburg, 1984; Doctorate, Stony Brook University, 1988
KARPEN, RICHARD S. * 1989; Master's, Stanford University, 1986; Doctorate, Stanford University, 1989
MORLOT, LUDOVIC * 2012; Doctorate, Royal Academy of Music, 2000
MORRISON, STEVEN J * 1997; Master's, University of Wisconsin-Madison, 1988; Doctorate, Louisiana State University, 1995
PAMPIN, JUAN C. * 1999; Doctorate, Stanford University, 2000
PATTERSON, RONALD G * 1999
SALZMAN, TIMOTHY O * 1987
SEALES, MARC A * 1987
SHEPPARD, CRAIG * 1993; Master's, The Juilliard School, 1971
TERRY, CAROLE R * 1979; Master's, University of Rochester, 1973; Doctorate, Stanford University, 1977
VU, CUONG * 2007
WATRAS, M MELIA * 2004; Master's, Indiana University-Bloomington, 1995

Associate Professors
BOERS, GEOFFREY PAUL * 1996; Master's, Portland State University, 1985; Doctorate, University of Arizona, 1987
DUDLEY, SHANNON K * 1996; Master's, University of California-Berkeley, 1988; Doctorate, University of California-Berkeley, 1997
HARPER, THOMAS * 1998; Master's, University of Arkansas, 1976
HODGE, HUCK J * 2008; Master's, Columbia University, 2004; Doctorate, Columbia University, 2008
RUMPH, STEPHEN C * 2002; Master's, University of California-Berkeley, 1992; Doctorate, University of California-Berkeley, 1997
SHIN, DONNA YOUNG * 2007; Master's, The New England Conservatory of Music, 1999
SUNARDI, CHRISTINA * 2007; Master's, University of California-Berkeley, 2003; Doctorate, University of California-Berkeley, 2007
TARICANI, JOANN * 1980; Master's, University of Pennsylvania, 1977; Doctorate, University of Pennsylvania, 1986
WYERS, GISELLE E * 2006; Master's, Westminster College, 1996; Doctorate, University of Arizona, 2000

Assistant Professor
DEUEL, THOMAS , 2011; Doctorate, Harvard University, 2004; Medical Doctorate, Harvard University, 2006

Lecturers
RADKE, FREDERICK , 2011
RADKE, VIRGINIA , 2011

Senior Artist-in-Residence
RAHBEE, DAVID * 2013; Master's, The New England Conservatory of Music, 2000; Doctorate, Canadian University College, 2012

Artists-in-Residence

LIEBERMAN, BARRY , 1991; Bachelor's, Cleveland Institute of Music, 1971
LULICH, BENJAMIN , 2016; Bachelor's, Cleveland Institute of Music, 2005
PARTINGTON, MICHAEL , 2007; Bachelor's, University of Washington-Seattle Campus, 1999
RAGAN, KARI * 2004; Master's, Indiana University-Bloomington, 1991; Doctorate, University of Washington-Seattle Campus, 2005
SIEDENTOP, CYNDIA , 2014; Bachelor's, The Evergreen State College, 1976
SINIBALDI, GREGORY M , 2001; Master's, University of Washington-Seattle Campus, 2014
VALDES, CRISTINA, 2014; Master's, Stony Brook University, 1995; Doctorate, Stony Brook University, 2002

WHITING, BONNIE * 2016; Master's, University of Cincinnati-Clermont College, 2009; Doctorate, University of California-San Diego, 2012

Near Eastern Languages and Civilization

Professors
DEYOU NG, TERRI LYNN * 1991; Master's, American University in Cairo, 1981; Doctorate, University of California-Berkeley, 1988
NOEGEL, SCOTT B. * 1995; Master's, Cornell University, 1993; Doctorate, Cornell University, 1994
SOKOLOFF, NAOMI B * 1985; Master's, Princeton University, 1979; Doctorate, Princeton University, 1980

Associate Professors
ELKHAF AIFI, HUSSEIN M. * 2004; Master's, University of Utah, 1977; Doctorate, University of Utah, 1985
KURU, SELIM SIRRI * 1900; Master's, Bogazici University, 1993; Doctorate, Harvard University, 2000

Assistant Professors
MAHM OOD, HAMZA * 2013; Master's, Cornell University, 2011; Doctorate, Cornell University, 2014
SELOVER, STEPHANIE * 2014; Master's, University of Chicago, 2008; Doctorate, University of Chicago, 2015

Senior Lecturer
MARTIN, GARY D. * 2001; Master's, University of Washington-Seattle Campus, 2003; Doctorate, University of Washington-Seattle Campus, 2007

Lecturers
BENSON, SUSAN, 2005; Master's, University of Utah, 1983
KHAZZAM-HOROVITZ, HADAR, 2006; Master's, University of Washington-Seattle Campus, 2007; Doctorate, University of Washington-Seattle Campus, 2012
SHAMS, SHAHRZAD, 2009; Master's, California State University-Fullerton, 1985
YUCEL, MELIKE, 2012; Master's, Cukurova University, 2008; Master's, Portland State University, 2011; Doctorate, Seattle Pacific University, 2015

Philosophy

Professors
BLAKE, MICHAEL I * 2005; Doctorate, Stanford University, 1998
GARDINER, STEPHEN M. * 2004; Master's, University of Colorado at Boulder, 1993; Doctorate, Cornell University, 1999
MOORE, RONALD M, 1982
ROBERTS, JEAN VALERIE * 1991; Master's, University of Pittsburgh-Bradford, 1978; Doctorate, University of Pittsburgh-Bradford, 1982
ROSENTHAL, MICHAEL * 2002; Doctorate, University of Chicago, 1996; Master's, University of Chicago, 1996
TALBOTT, WILLIAM J. * 1989; Doctorate, Harvard University, 1976
WOODY, ANDREA I. * 1997; Doctorate, University of Pittsburgh-Bradford, 1996; Doctorate, University of Pittsburgh-Bradford, 1997

Associate Professors

GOERING, SARA L. * 2003; Master's, University of Colorado Denver, 1994; Doctorate, University of Colorado Denver, 1998
LEE, CAROLE J * 2008; Doctorate, University of Michigan-Ann Arbor, 2006
LONE, JANA MOHR * 1992; Doctorate, George Washington University, 1985; Master's, University of Washington-Seattle Campus, 1990; Doctorate, University of Washington-Seattle Campus, 1996
MANCHAK, JOHN * 2009; Doctorate, University of California-Irvine, 2009
MARSHALL, COLIN ROBERT * 2013; Master's, New York University, 2007; Doctorate, New York University, 2010
SMITH, ANGELA * 1999; Doctorate, Harvard University, 1999
WELLER, CASS J * 1990; Master's, University of Pittsburgh-Bradford, 1981; Doctorate, University of Pittsburgh-Bradford, 1983

Assistant Professors

FEINTZEIG, BENJAMIN H * 2016; Master's, University of California-Irvine, 2014; Doctorate, University of California-Irvine, 2016
FOURIE, CARINA * 2015; Master's, University of Johannesburg, 2001; Doctorate, University College London, 2006
KLEIN, ERAN , 2012; Doctorate, Georgetown University, 2002; Medical Doctorate, Georgetown University, 2004
MAYO-WILSON, CONOR * 2014; Master's, Carnegie Mellon University, 2009; Doctorate, Carnegie Mellon University, 2012

Lecturer

SCHNEE, IAN PAUL , 2015; Doctorate, University of California-Berkeley, 2010

Physics

Professors

ANDREEV, ANTON * 2004; Master's, Johns Hopkins University, 1993; Doctorate, Massachusetts Institute of Technology, 1996
BARRETT, BRUCE R * 2000; Master's, Stanford University, 1964; Doctorate, Stanford University, 1967
BEANE, SILAS R * 1999; Doctorate, The University of Texas, 1994
BOWLES, THOMAS J * 1995; Doctorate, Princeton University, 1978
BULGAC, AUREL * 1993; Doctorate, Leningrad State University AS Pushkin, 1977
BURNETT, THOMPSON H * 1979
CLEVELAND, BRUCE T * 2001
COBDEN, DAVID * 2001; Master's, University of Saint Andrews, 1987; Doctorate, University of Cambridge, 1992
DEN NIJS, MARCEL P * 1981; Doctorate, Radboud University Nijmegen, 1979
DOE, PETER J. * 1994; Master's, Durham University, 1974; Doctorate, Durham University, 1977
ELLIS, STEPHEN D., 1982
FRIEDMAN, WILLIAM A * 2004; Doctorate, Massachusetts Institute of Technology, 1966
GARCIA, ALEJANDRO * 1985; Doctorate, University of Washington-Seattle Campus, 1991
GOUSSIOU, ANNA * 2007; Doctorate, University of Wisconsin-Madison, 1995
GUNDLACH, JENS * 1984; Doctorate, University of Washington-Seattle Campus, 1990
HECKEL, BLAYNE * 1983; Master's, Harvard University, 1978; Doctorate, Harvard University, 1981
HERON, PAULA * 1995; Master's, University of Ottawa, 1992; Doctorate, University of Western Ontario, 1995
HERTZOG, DAVID * 2008; Master's, College of William and Mary, 1979; Doctorate, College of William and Mary, 1983
KAMMEL, PETER * 2010
KAPLAN, DAVID B. * 1994; Doctorate, Harvard University, 1985
KARCH, ANDREAS * 2002; Master's, The University of Texas, 1996; Doctorate, Humboldt Universität zu Berlin, 1998
LUBATTI, HENRY J * 1969; Master's, University of Illinois at Urbana-Champaign, 1963; Doctorate, University of California-Berkeley, 1966
MCDERMOTT, LILLIAN C * 1971; Master's, Columbia University, 1956; Doctorate, Columbia University, 1959
MCLERRAN, LARRY D * 1982; Doctorate, University of Washington-Seattle Campus, 1975
MILLER, GERALD * 1975; Master's, Massachusetts Institute of Technology, 1968; Doctorate, Massachusetts Institute of Technology, 1972
NELSON, ANN E * 1994; Master's, Harvard University, 1981; Doctorate, Harvard University, 1984
OLMSTEAD, MARJORIE A * 1991; Master's, University of California-Berkeley, 1982; Doctorate, University of California-Berkeley, 1985
REDDY, SANJAY K. * 1998; Master's, Indian Institute of Technology Delhi, 1993; Doctorate, Stony Brook University, 1998
ROSENBERG, LESLIE * 2005; Master's, San Francisco State University, 1980; Doctorate, Stanford University, 1985
ROTHBERG, JOSEPH E * 1900; Master's, Columbia University, 1958; Doctorate, Columbia University, 1963
SAVAGE, MARTIN J. * 1996; Master's, University of Auckland, 1985; Doctorate, California Institute of Technology, 1990
SCHICK, MICHAEL * 1982; Master's, Stanford University, 1964; Doctorate, Stanford University, 1967
SEIDLER, GERALD T. * 1996; Master's, University of Chicago, 1991; Doctorate, University of Chicago, 1993
SHAFFER, PETER S. * 1985; Doctorate, University of Washington-Seattle Campus, 1993
SHARPE, STEPHEN R. * 1986; Doctorate, University of California-Berkeley, 1983
SORENSEN, LARRY B * 1983; Master's, University of Illinois at Urbana-Champaign, 1974; Doctorate, University of Illinois at Urbana-Champaign, 1979
SPIVAK, BORIS * 1991
WATTS, GORDON T. * 1999; Doctorate, University of Rochester, 1995
WETTLAUFER, JOHN S * 1987; Doctorate, University of Washington-Seattle Campus, 1991
YAFFE, LAURENCE G * 1988; Master's, Princeton University, 1977; Doctorate, Princeton University, 1980
Associate Professors
BLINOV, BORIS B. * 2005
ENOMOTO, SANSHIRO * 2009; Master's, Tohoku University, 1999; Doctorate, Tohoku University, 2005
FU, KAI-MEI * 2010
GUPTA, SUBHADEEP * 2003; Doctorate, Massachusetts Institute of Technology, 2003
MORALES, MIGUEL * 2008; Doctorate, University of California-Santa Cruz, 2002
WIGGINS, PAUL A * 2010; Doctorate, California Institute of Technology, 2005
XU, XIAODONG * 2010; Doctorate, University of Michigan-Ann Arbor, 2008

Assistant Professors
CHAVARRIA, ALVARO EUGENIO * 2017; Doctorate, Princeton University, 2012
CHU, JIUN-HAW * 2015; Doctorate, Stanford University, 2012
FIDKOWSKI, LUKASZ MICHAL * 2017; Doctorate, Stanford University, 2001
HSU, SHIH-CHIEH * 2012; Master's, National Taiwan University, 2001; Doctorate, University of California-San Diego, 2008
KAS, JOSH J. , 1999; Doctorate, University of Washington-Seattle Campus, 2009
MONAHAN, CHRISTOPHER JOHN , 2017; Master's, University of Edinburgh, 2007; Doctorate, University of Cambridge, 2012
NOURMOHAMMAD, ARMITA * 2017
PARNO, DIANA M S * 2011; Master's, Carnegie Mellon University, 2006; Doctorate, Carnegie Mellon University, 2011
RYBKA, GRAY * 2007; Doctorate, Massachusetts Institute of Technology, 2007
SCHAARSCHMIDT, JANÄ , 2016; Doctorate, Technische Universität Dresden, 2010
VENKATESWARA, KRISHNA RAJ , 2010; Doctorate, University of Maryland-University College, 2010
WHITE, SUZANNE M * 1984; Master's, Rutgers University-Camden, 2013; Doctorate, Rutgers University-Camden, 2014

Senior Lecturer
PENGERA, DAVID B. * 1986; Master's, University of Washington-Seattle Campus, 1988; Doctorate, University of Washington-Seattle Campus, 1991

Lecturers
AL-BINNI, USAMA A , 2016
MESSINA, DONNA L , 1994
PEDIGO, ROBERT D. , 1995; Master's, Stanford University, 1972; Doctorate, The University of Texas, 1977
SMITH, DAVID P , 2009; Doctorate, University College Dublin National University of Ireland, 2009
TOLICH, KAZUMI , 2008; Master's, Stanford University, 2006; Doctorate, Stanford University, 2008
TOLICH, NIKOLAI * 2007; Master's, University of Auckland, 1999; Doctorate, Stanford University, 2005

Political Science
Professors
BENNETT, WALTER LANCE * 1974; Master's, Yale University, 1973; Doctorate, Yale University, 1974
CAPORASO, JAMES A * 1988; Master's, Villanova University, 1965; Doctorate, University of Pennsylvania, 1968
CICHOWSKI, RACHEL A  * 2001; Master's, University of California-Irvine, 1997; Doctorate, University of California-Irvine, 2001
GILL, ANTHONY J  * 1994; Master's, University of California-Los Angeles, 1989; Doctorate, University of California-Los Angeles, 1994
GOLDBERG, ELLIS  * 1985; Master's, University of California-Berkeley, 1970; Doctorate, University of California-Berkeley, 1983
KIER, ELIZABETH L  * 1998; Master's, Columbia University, 1985; Doctorate, Cornell University, 1992
LOVELL, GEORGE I  * 2001; Master's, University of North Carolina, 1990; Doctorate, University of Michigan-Ann Arbor, 1997
MAJESKI, STEPHEN J  * 1984; Master's, University of New Hampshire, 1975; Doctorate, Indiana University-Bloomington, 1981
MAYERFELD, JASON  * 1991; Master's, Princeton University, 1988; Doctorate, Princeton University, 1992
MC CANN, MICHAEL W  * 1982; Master's, University of California-Berkeley, 1976; Doctorate, University of California-Berkeley, 1983
MERCER, JONATHAN L  * 1996; Master's, Columbia University, 1987; Doctorate, Columbia University, 1993
PARKER, CHRISTOPHER S  * 2006; Master's, University of Chicago, 1996; Doctorate, University of Chicago, 2001
PRAKASH, ASEEM  * 2002; Master's, Institute of Integrated Management and Technology, 1988; Doctorate, Indiana University-Bloomington, 1997
SMITH, MARK A  * 1997; Doctorate, University of Minnesota-Duluth, 1997
WILKERSON, JOHN D  * 1990; Master's, University of Arizona, 1986; Master's, University of Rochester, 1989; Doctorate, University of Rochester, 1991

Associate Professors
ADOLPH, CHRISTOPHER A  * 2004; Master's, Harvard University, 2000; Doctorate, Harvard University, 2005
DI STEFANO, CHRISTINE  * 1985; Doctorate, University of Massachusetts, 1984; Master's, University of Massachusetts, 1984
FRANCIS, MEGAN M  * 2014; Master's, Princeton University, 2005; Doctorate, Princeton University, 2008
LITFIN, KAREN T  * 1991; Master's, University of Maryland-University College, 1978; Doctorate, University of California-Los Angeles, 1992
MENALDO, VICTOR A  * 2009; Master's, Claremont Graduate University, 2003; Doctorate, Stanford University, 2009
THORPE, REBECCA U  * 2010; Doctorate, University of Maryland-University College, 2009
TURNER III, JACK  * 2007; Master's, University of Cambridge, 2001; Doctorate, Princeton University, 2006
WALLACE, GEOFFREY P  * 2016; Master's, University of Toronto, 2002; Master's, Cornell University, 2006; Doctorate, Cornell University, 2010
WALLACE, SOPHIA J  * 2016; Master's, Cornell University, 2007; Doctorate, Cornell University, 2010
WHITING, SUSAN H  * 1994; Doctorate, University of Michigan-Ann Arbor, 1995

Assistant Professors
AINSLEY, CAITLIN T  * 2016; Doctorate, Emory University, 2016; Master's, Emory University, 2016
GADE, EMILY KALAΗ , 2011
LONG IV, JAMES D  * 2012; Master's, University of London, 2004; Doctorate, University of California-San Diego, 2012
Psychology

Professors

BASSOK, MARIA, 1997; Master's, Hebrew University of Jerusalem, 1978; Doctorate, Hebrew University of Jerusalem, 1984

BEECHER, MICHAEL D * 1978; Master's, Boston University, 1965; Doctorate, Boston University, 1970

BOYNTON, GEOFFREY M * 2006; Master's, University of California-Santa Barbara, 1989; Doctorate, University of California-Santa Barbara, 1994

BRENOWITZ, ELIOT A. * 1987; Doctorate, Cornell University, 1982

BUCK, STEVEN L * 1979; Master's, University of California-San Diego, 1974; Doctorate, University of California-San Diego, 1976

CAUCE, ANA MARI * 1986; Master's, Yale University, 1979; Doctorate, Yale University, 1984

COVEY, ELLEN * 1996; Master's, University of Houston, 1976; Doctorate, Duke University, 1980

DIAZ, JAIME * 1978; Master's, University of California-Los Angeles, 1972; Doctorate, University of California-Los Angeles, 1975

FINE, IONE * 2007; Master's, University of Rochester, 1996; Doctorate, University of Rochester, 1999

FOSTER, ROBIN L., 1982; Doctorate, University of Washington-Seattle Campus, 1992

GEORGE, WILLIAM H * 1982; Doctorate, University of Washington-Seattle Campus, 1982

GREENWALD, ANTHONY G. * 1986; Master's, Harvard University, 1961; Doctorate, Harvard University, 1963

GURALNICK, MICHAEL J * 1986; Master's, Lehigh University, 1964; Doctorate, Lehigh University, 1967

KAHN, PETER H. * 2000; Master's, University of California-Berkeley, 1984; Doctorate, University of California-Berkeley, 1988

KAISER, CHERYL R * 2006; Master's, University of Vermont, 1999; Doctorate, University of Vermont, 2001

KATZ, LYNN FAINSILBER * 1986; Master's, The New School, 1981; Doctorate, University of Illinois at Urbana-Champaign, 1990

KIM, JEANSOK J * 2003; Master's, University of California-Los Angeles, 1989; Doctorate, University of California-Los Angeles, 1991

KOHLenberg, Robert J. * 1968; Master's, University of Wisconsin Colleges, 1963; Doctorate, University of California-Los Angeles, 1968

KYES, RANDALL C. * 1993; Master's, Bucknell University, 1985; Doctorate, University of Georgia, 1989

LENGUA, LILIANA J * 1993; Doctorate, Arizona State University, 1994

LINEHAN, MARSHA M * 1977; Master's, American University, 1970; Doctorate, American University, 1971

LOFTUS, GEOFFREY R., 1972; Doctorate, Stanford University, 1971

MELTZOFF, ANDREW N * 1977; Doctorate, University of Oxford, 1976

MIZUMORI, SHERI J * 2000; Master's, University of California-Berkeley, 1983; Doctorate, University of California-Berkeley, 1985

MURRAY, SCOTT O. * 2005; Master's, University of Hawaii, 1997; Doctorate, University of California-Davis, 2002

OSTERHOUT, LEE E * 1991; Master's, Tufts University, 1987; Doctorate, Tufts University, 1990

PALMER, JOHN C. * 1984; Doctorate, University of Michigan-Ann Arbor, 1984
SHODA, YUICHI * 1996; Doctorate, Columbia University, 1990
SIMONI, JANE M * 2001; Master's, University of California-Los Angeles, 1988; Doctorate, University of California-Los Angeles, 1990
SISNEROS, JOSEPH A. * 2003; Master's, California State University-Long Beach, 1989; Doctorate, Florida Institute of Technology, 1999
SMITH, RONALD E * 1973; Master's, Southern Illinois University, 1964; Doctorate, Southern Illinois University, 1968
SMOLL, FRANK L * 1976; Master's, University of Wisconsin Colleges, 1966; Doctorate, University of Wisconsin Colleges, 1970
SOMMERVILLE, JESSICA A * 2002; Master's, University of Chicago, 2000; Doctorate, University of Chicago, 2002
STONE, WENDY L * 2009; Master's, University of Miami, 1978; Doctorate, University of Miami, 1981
ZOELLNER, LORI A * 2000; Master's, University of California-Los Angeles, 1992; Doctorate, University of California-Los Angeles, 1997

Associate Professors
BRICKER, JONATHAN B. * 1997; Master's, University of Washington-Seattle Campus, 1999; Doctorate, University of Washington-Seattle Campus, 2003
BROWN, JONATHON D * 1989; Doctorate, University of California-Los Angeles, 1986
CHERYAN, SAPNA * 2007; Doctorate, Stanford University, 2007
DORSEY, SHANNON * 2007; Doctorate, University of Georgia, 2003; Master's, University of Georgia, 2003
FLAHERTY, BRIAN P * 2005; Master's, Pennsylvania State University-College of Medicine, 1997; Doctorate, Pennsylvania State University-College of Medicine, 2003
HA, RENEE L. * 1992; Doctorate, University of Washington-Seattle Campus, 1999
JOSLYN, SUSAN L * 1988; Master's, University of Washington-Seattle Campus, 1994; Doctorate, University of Washington-Seattle Campus, 1995
KANTER, JONATHAN W * 1995; Master's, Humboldt State University, 1996; Doctorate, University of Washington-Seattle Campus, 2002
KENNEY, NANCY J * 1976; Master's, Virginia University of Lynchburg, 1972; Doctorate, Virginia University of Lynchburg, 1974
KING, KEVIN M * 2007; Master's, Arizona State University, 2002; Doctorate, Arizona State University, 2007
MCLAUGHLIN, KATIE A * 2012; Master's, Pennsylvania State University-College of Medicine, 2004; Master's, Yale University, 2006; Doctorate, Yale University, 2008
MIYAMOTO, JOHN M * 1984; Master's, University of Michigan-Ann Arbor, 1978; Doctorate, University of Michigan-Ann Arbor, 1985
OLSON, KRISTINA R * 2012; Master's, Harvard University, 2005; Doctorate, Harvard University, 2008
PRAT, CHANTEL * 2010; Master's, University of California-Davis, 2001; Doctorate, University of California-Davis, 2004
REPACHOLI, BETTY M * 2001; Master's, University of Western Australia, 1986; Doctorate, University of California-Berkeley, 1996
ROSE, RICHARD M , 1982; Master's, University of Pennsylvania, 1961; Doctorate, University of Pennsylvania, 1964
Assistant Professors
GIRE, DAVID HENRY * 2014; Doctorate, University of Colorado Denver, 2009
LEU, JANXIN * 2006; Master's, Stanford University, 1997; Doctorate, University of Michigan-Ann Arbor, 2004
SNYDER-MACKLER, NOAH * 2016; Master's, University of Pennsylvania, 2008; Doctorate, University of Pennsylvania, 2012
STOCCO, ANDREA * 2010; Doctorate, Università degli Studi di Trieste, 2005

Senior Lecturer
PASSER, MICHAEL W * 1977; Master's, University of California-Los Angeles, 1972; Doctorate, University of California-Los Angeles, 1977

Lecturers
BENJAMIN, G. ANDREW H. , 1984; Master's, University of Arizona, 1982; Doctorate, University of Arizona, 1984
CULLIGAN, ANN E. , 1999; Doctorate, University of Washington-Seattle Campus, 2006
FAGAN, COREY N. * 1989; Master's, University of Massachusetts, 1982; Doctorate, University of Massachusetts, 1988
LITTLE, LAURA M. * 1997; Doctorate, The University of Texas, 1981; Master's, University of Phoenix-New Mexico Campus, 1993
MCNICHOLS, NICOLE K , 2004
TUROWSKI, TABITHA KIRKLAND , 2016; Master's, Ohio State University-Main Campus, 2010; Doctorate, Ohio State University-Main Campus, 2015

Scandinavian Studies
Professors
INGEBRITSEN, CHRISTINE * 1992; Master's, Columbia University, 1986; Doctorate, Cornell University, 1993
LEIREN, TERJE I * 1977; Master's, California State University, 1970; Doctorate, University of North Texas, 1978
NESTINGEN, ANDREW * 1997; Master's, University of Washington-Seattle Campus, 1999; Doctorate, University of Washington-Seattle Campus, 2001
STECHER, MARIANNE T * 1986; Master's, University of Washington-Seattle Campus, 1981; Doctorate, University of California-Berkeley, 1990

Associate Professors
SEHMSDORF, HENNING K , 1982; Master's, University of Chicago, 1964; Doctorate, University of Chicago, 1968
SMIDCHENS, GUNTIS I. * 1993; Master's, Indiana University-Bloomington, 1988; Doctorate, Indiana University-Bloomington, 1996

Assistant Professors
DOXTATER, AMANDA * 2017
GUNN, OLIVIA N * 2014; Master's, New York University, 2003; Master's, University of California-Irvine, 2007; Doctorate, University of California-Irvine, 2012
Senior Lecturer
DUBOIS, IA G , 1982; Master's, University of California-Los Angeles, 1981; Doctorate, University of Washington-Seattle Campus, 1991

Lecturers
CARLSON-RAINER, ELISE A , 2013
POYER, LAUREN , 2018; Master's, San Francisco Art Institute, 2007

Slavic Languages and Literatures

Professors
CRNKOVIC, GORDANA * 1993; Master's, Stanford University, 1991; Doctorate, Stanford University, 1993
DIMENT, GALYA * 1989; Doctorate, University of California-Berkeley, 1987
DZIWIREK, KATARZYNA A. * 1993; Master's, University of Lodz, 1985; Master's, University of California-San Diego, 1987; Doctorate, University of California-San Diego, 1991

Associate Professors
ALANIZ, JOSE * 2003; Doctorate, University of California-Berkeley, 2003
HENRY, BARBARA J * 2003; Master's, University of London, 1990; Doctorate, University of Oxford, 1997
WEST, JAMES D * 1972; Master's, University of Cambridge, 1969; Doctorate, University of Cambridge, 1970

Senior Lecturers
POLACK, ZOYA M , 1973; Master's, University of Washington-Seattle Campus, 1975
ZAITSEVA, VALENTINA A , 2005; Doctorate, Harvard University, 1992

Lecturers
ABRAMOVA, SVETLANA , 2017; Master's, Pushkin State University of Russian Language, 1997; Doctorate, Moscow State Pedagogical University, 2007
BELIC, BOJAN * 2005; Master's, University of Illinois at Urbana-Champaign, 2000; Doctorate, Ohio State University Agricultural Technical Institute, 2005
CHILDS, MARY , 2000

Sociology

Professors
CROWDER, KYLE * 1988; Doctorate, New York University, 1997
CRUTCHFIELD, ROBERT D , 1982
HARRIS, ALEXES * 1995; Master's, University of California-Los Angeles, 1999; Doctorate, University of California-Los Angeles, 2002
HECHTER, MICHAEL N. * 1982; Doctorate, Columbia University, 1972
HERTING, JERALD R. * 1982; Master's, Stony Brook University, 1977; Doctorate, University of Washington-Seattle Campus, 1987
HIRSCHMAN, CHARLES * 1987; Master's, University of Wisconsin-Madison, 1969; Doctorate, University of Wisconsin-Madison, 1972
KISER, EDGAR VANCE * 1988; Master's, University of Arizona, 1980; Doctorate, University of Arizona, 1987
LEE, HEDWIG E * 2009; Master's, University of North Carolina, 2005; Doctorate, University of North Carolina, 2009
MATSUEDA, ROSS L * 1998; Master's, University of California-Santa Barbara, 1980; Doctorate, University of California-Santa Barbara, 1984
MORRIS, WANDA MARTINA * 2000; Master's, University of Chicago, 1986; Doctorate, University of Chicago, 1989
PFAFF, STEVEN J * 1999; Master's, University of North Carolina, 1994; Master's, University of North Carolina, 1995; Doctorate, New York University, 1999
SCHWARTZ, PEPPER J * 1972; Master's, Washington State University, 1968; Master's, Yale University, 1970; Doctorate, Yale University, 1974
STOVEL, KATHERINE W. * 1997; Master's, University of North Carolina, 1994; Doctorate, University of North Carolina, 1999
VAN DEN BERGHE, PIERRE, 1965; Master's, Stanford University, 1953; Master's, Harvard University, 1959; Doctorate, Harvard University, 1960

Associate Professors
BRINES, JULIE E * 1993; Master's, Harvard University, 1985; Doctorate, Harvard University, 1990
BURT, CALLIE * 2015; Master's, University of Georgia, 2004; Doctorate, University of Georgia, 2009
ROSENFELD, JAKE H * 2007; Master's, Princeton University, 2004; Doctorate, Princeton University, 2007

Assistant Professor
CATRON, PETER, 2018

Senior Lecturer
PITCHFORD, SUSAN * 1987; Master's, University of Washington-Seattle Campus, 1990; Doctorate, University of Washington-Seattle Campus, 1994

Lecturer
JAHANBAKHSH MASHHADI, AFRA, 2017

Spanish and Portuguese Studies

Professors
GEIST, ANTHONY L * 1987; Master's, University of California-Berkeley, 1969; Doctorate, University of California-Berkeley, 1978
O'HARA, EDGAR * 1989; Master's, Catholic University of America, 1985; Doctorate, The University of Texas, 1989
RAFTERY, ANA M * 2012; Master's, Universidad Autónoma de Madrid, 1986; Doctorate, University of California-Berkeley, 1991
ZAGONA, KAREN T * 1987; Doctorate, University of Washington-Seattle Campus, 1982

Associate Professors
FERNANDEZ DOBAO, ANA M. * 2007; Master's, Universidade de Santiago de Compostela, 1999; Doctorate, Universidade de Santiago de Compostela, 2005
GILBERT, DONALD W. * 2002; Master's, University of California-Berkeley, 1991; Doctorate, University of California-Berkeley, 1997
MERCER, LEIGH K * 2005; Master's, The University of Texas, 1998; Doctorate, Boston University, 2004

Assistant Professor
ROBLES RIVERA, JOSE F * 2016; Master's, Universidad de Chile, 2009; Master's, El Colegio de México (Colmex), 2011; Doctorate, El Colegio de México (Colmex), 2012

Senior Lecturer
RANEDA CUERTERO, MARIA I. , 1997; Master's, University of Wisconsin-Madison, 1994

Lecturers
BODDEN, RODNEY V , 1985; Master's, University of Toronto, 1961; Doctorate, University of Wisconsin-Madison, 1969
BRADLEY, SABRINA SPANNAGEL , 2006; Master's, The University of Montana, 1995
FOX, JOAN H. , 1982
GILLMAN, MARIA , 1900; Master's, Oregon State University, 1986
GONZALEZ-CASANOVA, JORGE , 1988; Master's, University of Wisconsin Colleges, 1986
JAFFEE, SAMUEL J , 2013; Master's, Washington State University, 2006; Doctorate, University of California-Irvine, 2013
MEDIAVILLA, MARIA , 2006; Master's, Universidad de Valladolid, 1994; Master's, Universidad Autónoma de Madrid, 2000
RUEDA MESA, ANTONIO , 2016; Master's, University of Illinois at Urbana-Champaign, 2005; Master's, Tulane University of Louisiana, 2009; Doctorate, Tulane University of Louisiana, 2012
VIANA DA SILVA, EDUARDO , 2015; Master's, Brigham Young University, 2005; Doctorate, University of California-Santa Barbara, 2014

Speech and Hearing Sciences

Professors
ARENBERG, JULIE G * 2005; Doctorate, University of Michigan-Ann Arbor, 2001; Master's, San Francisco State University, 2003
COGGINS, TRUMAN E * 1982; Master's, University of Redlands, 1971; Doctorate, University of Wisconsin-Madison, 1976
EADIE, TANYA L * 2003; Master's, University of Western Ontario, 1999; Doctorate, University of Western Ontario, 2003
ESTES, ANNETTE M * 1991; Master's, University of Washington-Seattle Campus, 1994; Doctorate, University of Washington-Seattle Campus, 1998
KENDALL, DIANE L. * 2008; Master's, California State University-Fullerton, 1989; Doctorate, University of Pittsburgh-Bradford, 1999
KUHL, PATRICIA K * 1976; Master's, University of Minnesota-Duluth, 1971; Doctorate, University of Minnesota-Duluth, 1973
PRINS, DAVID , 1982; Master's, University of Michigan-Ann Arbor, 1957; Doctorate, University of Michigan-Ann Arbor, 1961
TREMBLAY, KELLY L * 1998; Master's, Dalhousie University, 1987; Doctorate, Northwestern University, 1998
WERNER, LYNN A. * 1986; Master's, Loyola University Chicago, 1978; Doctorate, American University, 1980; Master's, American University, 1980; Doctorate, Loyola University Chicago, 1980
WILSON, WESLEY, 1982; Master’s, University of Redlands, 1961; Doctorate, University of Washington-Seattle Campus, 1969

Associate Professors
LEE, ADRIAN K * 2010; Doctorate, Massachusetts Institute of Technology, 2007
MAX, LUDO * 2009; Master’s, Catholic University of Leuven, 1992; Doctorate, Kent State University, 2000
SPENCER, KRISTIE * 1999; Master's, University of Pittsburgh-Bradford, 1992; Doctorate, University of Washington-Seattle Campus, 2003

Assistant Professors
BROWN, ANDREW * 2018
KOVER, SARA T * 2014; Master's, University of Wisconsin-Madison, 2007; Doctorate, University of Wisconsin-Madison, 2012
LOCKE, JILL J * 2015; Doctorate, University of California-Los Angeles, 2010
PACE, AMY E * 2015; Doctorate, University of California-San Diego, 2013
POMPON, REBECCA * 2008; Master's, Seattle University, 1997; Master's, Seattle University, 1997; Doctorate, University of Washington-Seattle Campus, 2013
SILKES, JOANN P. * 2004; Master’s, University of Wisconsin Colleges, 1990; Doctorate, University of Washington-Seattle Campus, 2009
WINN, MATTHEW B * 2015; Doctorate, University of Maryland-University College, 2010; Doctorate, University of Maryland-University College, 2011
YEATMAN, JASON * 2014; Doctorate, Stanford University, 2014

Senior Lecturers
BURNS, MICHAEL I * 2008; Master's, California State University-Fresno, 2000; Doctorate, University of Washington-Seattle Campus, 2013
DOWDEN, PATRICIA A, 1982; Master’s, University of Washington-Seattle Campus, 1980; Doctorate, University of Washington-Seattle Campus, 1992
DUNLAP, JULIE A., 1992; Master’s, University of Washington-Seattle Campus, 1995
HARNEY, MARTHA L., 1983; Master's, University of Washington-Seattle Campus, 1984
ILlich, LISA L., 2006; Master’s, The University of Montana, 1992
LEONARDO, JULIE D., 2006; Master’s, University of Washington-Seattle Campus, 2002
NEVDAHL, MARTIN, 1983; Master’s, University of Washington-Seattle Campus, 1984

Lecturers
ALARCON, NANCY B., 1988; Master's, University of Wisconsin-Madison, 1981
ANDERSON, SUSAN J., 2007; Master’s, University of Northern Colorado, 1989
CALDWELL, MEGAN, 2002; Master’s, University of Washington-Seattle Campus, 2006
DANIELS, JACQUELINE L., 2013; Master’s, University of Kansas, 2005
HUCKABAY, KRISTIINA K., 2006; Master’s, Western Washington University, 1997; Doctorate, A T Still University of Health Sciences, 2010
KAPSNER-SMITH, MARA R., 2010; Master’s, University of Washington-Seattle Campus, 2009
KOKALY, MELISSA A., 1994; Master’s, University of Washington-Seattle Campus, 1997
KRINGS, KATHERINE, 2001; Master's, University of Washington-Seattle Campus, 2003
LEIGHTON, KELSEY, 2012; Master’s, University of Washington-Seattle Campus, 2004
MILLER, CHRISTI W. * 2007; Master's, The University of Texas, 2001; Doctorate, University of Washington-Seattle Campus, 2013
SNOW, LAURA A. , 1995
THORNE, JOHN C * 2003; Master's, New Mexico State University-Grants, 1989; Master's, University of Phoenix-New Mexico Campus, 1997; Doctorate, University of Washington-Seattle Campus, 2010

Statistics

Professors
BRUCE, ANDREW G * 1990
DRTON, MATHIAS * 2001
EROSHEVA, ELENA A. * 2002; Master's, Utah State University, 1998; Doctorate, Carnegie Mellon University, 2002
GNEITING, TILMANN J. * 1997; Doctorate, Universität Bayreuth, 1997
GOTTARDO, RAPHAEL * 2002; Master's, Portland State University, 2001; Doctorate, University of Washington-Seattle Campus, 2005
GUTTORP, PETER * 1980; Master's, University of California-Berkeley, 1976; Doctorate, University of California-Berkeley, 1980
HOFF, PETER D * 2000; Master's, University of Wisconsin Colleges, 1994; Doctorate, University of Wisconsin Colleges, 2000
MEEK, CHRISTOPHER * 2010; Master's, Carnegie Mellon University, 1994; Doctorate, Carnegie Mellon University, 1996
MEILA-PREDOVICIU, MARINA * 2000; Doctorate, Massachusetts Institute of Technology, 1999
PERLMAN, MICHAEL D * 1979; Master's, Stanford University, 1965; Doctorate, Stanford University, 1967
RAFTERY, ADRIAN ELMES * 1985; Master's, University of Dublin Trinity College, 1977; Doctorate, Collège de France, 1980
RICHARDSON, THOMAS S. * 1996; Master's, Carnegie Mellon University, 1995; Doctorate, Carnegie Mellon University, 1996
RUDAS, TAMAS * 2004; Doctorate, Eotvos Lorand University (University of Budapest), 1985
SCHOLZ, FRIEDRICH-WILHE LM * 1982
SHORACK, GALEN * 1982; Master's, University of Oregon, 1962; Doctorate, Stanford University, 1965
STUETZLE, WERNER * 1984
WAKEFIELD, JONATHAN C * 1999; Doctorate, University of Nottingham, 1992
WELLNER, JON A * 1983; Doctorate, University of Washington-Seattle Campus, 1975

Associate Professors
DOBRA, ADRIAN * 2006; Master's, University of Bucharest, 1996; Doctorate, Carnegie Mellon University, 2001
MATSSEN, FREDERICK * 2015; Doctorate, Harvard University, 2006
MCCORMICK, TYLER HARRIS * 2011; Master's, Columbia University, 2008; Master's, University of Connecticut, 2008; Master's, Columbia University, 2010; Doctorate, Columbia University, 2011
MININ, VOLODYMYR * 2007; Master's, University of Idaho, 2002; Master's, University of California-Los Angeles, 2004; Doctorate, University of California-Los Angeles, 2007
STEEL, ELIZABETH * 1990; Master's, University of Washington-Seattle Campus, 1993; Master's, University of Washington-Seattle Campus, 1996; Doctorate, University of Washington-Seattle Campus, 1999
WITTEN, DANIELA * 2010; Master's, Stanford University, 2006; Doctorate, Stanford University, 2010

Assistant Professors
CHEN, YEN-CHI * 2016; Master's, Carnegie Mellon University, 2013; Doctorate, Carnegie Mellon University, 2016
HAN, FANG * 2016; Master's, University of Minnesota-Duluth, 2010; Doctorate, Johns Hopkins University, 2015
HARCHAOUI, ZAID * 2016; Master's, Collège de France, 2004; Doctorate, Collège de France, 2008
LEDERER, JOHANNES * 2015; Master's, Universität Zürich, 2009; Doctorate, Universität Zürich, 2012
LUEDTKE, ALEX , 2018
NARAYANAN, HARIHARAN * 2012; Master's, University of Illinois at Chicago, 2006; Doctorate, University of Illinois at Chicago, 2009

Lecturers
CALOGERO, MARK V , 1984
CARDOSO, TAMRE , 1989; Master's, California State University-Long Beach, 1985; Doctorate, University of Washington-Seattle Campus, 2004
GROVE, RANJINI , 2011
MORITA, JUNE G * 1983; Master's, University of California-Berkeley, 1978; Doctorate, University of California-Berkeley, 1984
SHAFFER, MICHELE L , 2013; Master's, Pennsylvania State University-College of Medicine, 1999; Doctorate, Pennsylvania State University-College of Medicine, 2002
SVERDLOV, SERGE , 2011; Master's, University of Washington-Seattle Campus, 2011; Doctorate, University of Washington-Seattle Campus, 2014

College of Built Environments

Architecture

Professors
BADANES, STEVEN P * 1988; Master's, Princeton University, 1971
MILLER, DAVID E * 1985; Master's, University of Illinois at Urbana-Champaign, 1972
OCHSNER, JEFFREY K * 1987; Master's, Rice University, 1976
OSHIMA, KEN T * 2005; Master's, University of California-Berkeley, 1993; Master's, Columbia University, 1998; Doctorate, Columbia University, 2003
PRAKASH, VIKRAMADITYA * 1996; Master's, Cornell University, 1989; Doctorate, Cornell University, 1994

University of Washington General Catalog 2018-2020

Assistant Professors

ANDERSON, ALEX THOMAS * 1998; Master's, University of Pennsylvania, 1990; Master's, University of Pennsylvania, 1995; Doctorate, University of Pennsylvania, 1997

BORYS, ANN MARIE * 2006; Master's, Syracuse University, 1988; Doctorate, University of Pennsylvania, 1998

COHAN, PETER SCOTT * 1982; Master's, Northern Illinois University, 1977; Master's, University of Washington-Seattle Campus, 1984

CORSER, ROBERT J * 2008; Master's, Virginia University of Lynchburg, 1993; Master's, Harvard University, 2003

GRIGGS, JAMES KIMO SAFFORD * 2008; Master's, Yale University, 1984

HEERWAGEN, DEAN REESE * 1975; Master's, Massachusetts Institute of Technology, 1967; Master's, Massachusetts Institute of Technology, 1971

HUBER, NICOLE * 2005; Master's, Universität der Künste Berlin, 2001

HUPPERT, ANN C * 2008; Master's, Virginia University of Lynchburg, 1992; Doctorate, Virginia University of Lynchburg, 2001

HUTCHISON, ROBERT * 1995; Master's, University of Washington-Seattle Campus, 1996

IAROCCI, LOUISA M * 2004; Master's, Washington State University, 1992; Master's, Washington State University, 1994; Doctorate, Boston University, 2003

INANICI, MEHLIKA * 2005; Master's, Middle East Technical University, 1995; Master's, University of Michigan-Ann Arbor, 2002; Doctorate, University of Michigan-Ann Arbor, 2004

JOHNSON, BRIAN ROBERT * 1978; Master's, University of Washington-Seattle Campus, 1981

JONES, SUSAN H. * 1991; Master's, Harvard University, 1988

MCLAREN, BRIAN * 2001; Master's, Columbia University, 1986; Doctorate, Massachusetts Institute of Technology, 2001

MEEK, CHRISTOPHER * 2001; Master's, University of Washington-Seattle Campus, 2002

MERLINO, KATHRYN ROGERS * 1999; Master's, Virginia University of Lynchburg, 1999

MINAH, GALEN F * 1970; Master's, University of Pennsylvania, 1968

MOHLER, RICHARD ERNEST J * 1986; Master's, University of Pennsylvania, 1984

PENA, ROBERT BERNARD * 2007; Master's, University of California-Berkeley, 1987

PROKSCH, GUNDULA * 2008; Master's, Cornell University, 2000

SIMONEN, KATHRINA L * 2009; Master's, University of California-Berkeley, 1991; Master's, University of California-Berkeley, 1992

Senior Lecturer

NICHOLLS, JAMES KEITH * 1995; Bachelor's, University of British Columbia, 1986

Lecturers

DEE, JENNIFER , 1982; Master's, University of Washington-Seattle Campus, 1984

STETTLER, DANIEL D , 2004
Construction Management

Professors
BENDER, WILLIAM J * 2014; Master's, Oregon State University, 1989; Doctorate, University of Maryland-University College, 2000
DOSSICK, CARRIE S * 2005; Master's, Columbia University, 1998; Doctorate, Columbia University, 2001
KIM, YONG-WOO * 2007; Master's, University of California-Berkeley, 1999; Doctorate, University of California-Berkeley, 2002
SCHAUFELBERGER, JOHN E. * 1994; Master's, University of Illinois at Urbana-Champaign, 1970; Doctorate, University of Illinois at Urbana-Champaign, 1971

Associate Professors
ABDEL AZIZ, AHMED * 2002; Master's, Zagazig University, 1992; Doctorate, University of British Columbia, 2000
LIN, KEN-YU * 2008; Master's, National Taiwan University, 1999; Doctorate, University of Illinois at Urbana-Champaign, 2005
MIGLIACCIO, GIOVANNI C * 2010; Master's, Politecnico di Bari, 2000; Doctorate, The University of Texas, 2007
NEMATI, KAMRAN M. * 1998; Master's, University of California-Irvine, 1982; Master's, University of California-Berkeley, 1985; Master's, University of California-Berkeley, 1989; Doctorate, University of California-Berkeley, 1994

Assistant Professor
LEE, HYUN WOO * 2015; Master's, University of California-Berkeley, 2004; Doctorate, University of California-Berkeley, 2012

Senior Lecturer
HOLM, ARNOLD L, 1993; Master's, University of Washington-Seattle Campus, 2005

Lecturer
SHAIMAN, JAMES L, 2005

Landscape Architecture

Professors
BUCHANAN, ROBERT T, 1982; Master's, Harvard University, 1956
HOU, JEFFREY * 2001; Master's, University of Pennsylvania, 1993; Master's, University of California-Berkeley, 1994; Doctorate, University of California-Berkeley, 2001
ROTTLE, NANCY D * 2001; Master's, University of Oregon, 1987
WAY, THAISA * 2007; Master's, University of Virginia-Main Campus, 1991; Doctorate, Cornell University, 2005
WINTERBOTTOM, DANIEL M. * 1993; Master's, Harvard University, 1988

Associate Professors
HELAND-MITTELETTE, LAURE, 2015; Master's, Universitat Autònoma de Barcelona, 1993; Master's, Université Paris XI Sud, 1994; Doctorate, Institut National Polytechnique Lorraine, 2008; Doctorate, Polytech Tours, 2008
JOHNSON, JULIE M * 1995; Master's, Massachusetts Institute of Technology, 1988
MANZO, LYNNE C * 2001; Master's, New York University, 1988; Doctorate, New York University, 1994
ROBERTSON, IAIN M * 1982; Master's, University of Pennsylvania, 1975
SPENCER, BENJAMIN R * 2008; Master's, Virginia University of Lynchburg, 2004
YOCOM, KENNETH P * 2000; Master's, University of Washington-Seattle Campus, 2002; Doctorate, University of Washington-Seattle Campus, 2007

Lecturers
ESTES II, WILLIAM T , 2016
PARK, KRISTINA M , 2018
RUPIC, MATE , 2018

Real Estate
Professors
DERMISI, SOFIA * 2014; Doctorate, Harvard University, 2002
STEVENSON, SIMON A W * 2016; Master's, University of Stirling, 1993; Doctorate, University College Dublin National University of Ireland, 1997

Assistant Professors
ACOLIN, ARTHUR ACOCA * 2017; Master's, London School of Economics and Political Science, 2011; Doctorate, University of Southern California, 2017
COLBURN, GREGG THEODORE * 2017; Master's, Northwestern University, 2003; Master's, University of Minnesota-Twin Cities, 2014
WALTER, REBECCA JO * 2017; Master's, Florida Atlantic University, 2008; Doctorate, Florida Atlantic University, 2012

Lecturer
OLIVER, HANS PIKE , 2016; Master's, University of California-Los Angeles, 1974

Urban Design and Planning
Professors
ALBERTI, MARINA * 1996; Doctorate, Massachusetts Institute of Technology, 1992
MUGERAUER, ROBERT * 2000; Doctorate, The University of Texas, 1973
PURCELL, MARK H. * 1999; Master's, University of California-Los Angeles, 1995; Doctorate, University of California-Los Angeles, 1998
SHEN, QING * 2009; Master's, University of British Columbia, 1986; Doctorate, University of California-Berkeley, 1993
WAGNER, FREDRICK W * 1900; Master's, University of Washington-Seattle Campus, 1970; Doctorate, University of Washington-Seattle Campus, 1974

Associate Professors
ABRAMSON, DANIEL B * 2001; Master's, Massachusetts Institute of Technology, 1992; Doctorate, Tsinghua University, 1998
BAE, CHRISTINE * 1996; Master's, New York University, 1986; Doctorate, University of Southern California, 1994
BORN, BRANDEN M * 2003; Master's, University of Wisconsin-Madison, 1998; Doctorate, University of Wisconsin-Madison, 2003
CHALANA, MANISH * 2004; Master's, School of Planning and Architecture, 1995; Master's, Pennsylvania State University-College of Medicine, 1999; Doctorate, University of Colorado, 2005
HURVITZ, PHILIP M. * 1992; Master's, University of Washington-Seattle Campus, 1994; Doctorate, University of Washington-Seattle Campus, 2010
WHITTINGTON, JANICE M * 2005; Master's, California Polytechnic State University-San Luis Obispo, 1993; Doctorate, University of California-Berkeley, 2008

**Assistant Professors**

BERNEY, RACHEL E. * 1992; Master's, University of California-Berkeley, 2002; Doctorate, University of California-Berkeley, 2008
GROVER, HIMANSHU * 2014; Master's, The University of Texas, 2006; Doctorate, The University of Texas, 2010

**Senior Lecturers**

CAMPBELL, CHRISTOPHER D * 1988; Master's, University of California-Los Angeles, 1994; Doctorate, University of California-Los Angeles, 2002
FREITAG, ROBERT C , 1999

**Lecturers**

BLUM, EDWARD D , 2011; Master's, University of Washington-Seattle Campus, 1976
CURRY, MARTY , 2004; Master's, University of Washington-Seattle Campus, 1973
HARRIS, GREGORY KEITH , 2009

KAMARA, AVRAHAM * 1984; Master's, Hebrew University of Jerusalem, 1978; Master's, Columbia University, 1981; Doctorate, Columbia University, 1986
KARPOFF, JONATHAN M * 1983; Master's, University of California-Los Angeles, 1980; Doctorate, University of California-Los Angeles, 1982
MALATESTA, PAUL H * 1980; Master's, University of Rochester, 1976; Doctorate, University of Rochester, 1982
PARSONS, CHRISTOPHER ALAN , 2018; Doctorate, The University of Texas at Austin, 2008
SIEGEL, STEPHAN * 2005; Master's, Columbia University, 2002; Doctorate, Columbia University, 2006

Associate Professors
DEWENTER, KATHRYN L , 1992; Master's, Stanford University, 1985; Master's, Stanford University, 1985; Doctorate, University of Chicago, 1993
KOSKI, JENNIFER LYNCH * 1991; Master's, Harvard University, 1987; Doctorate, Stanford University, 1991
RICE, EDWARD M * 1979; Master's, University of Rochester, 1973; Doctorate, University of California-Los Angeles, 1978
WESTERFIELD, MARK M * 2012; Doctorate, Massachusetts Institute of Technology, 2004

Assistant Professors
HRDLICKA, CHRISTOPHER M , 2010; Master's, Washington State University, 2005; Doctorate, University of Chicago, 2010
SCHULZ, FLORIAN , 2014; Master's, London Business School, 2008; Doctorate, University of California-Los Angeles, 2014
SONG, YANG , 2018; Master's, Stanford University, 2013; Doctorate, Stanford University, 2018
STERN, LEA H , 2016; Master's, Canadian University College, 2009; Doctorate, Syracuse University, 2017
ZENG, YAO , 2016; Master's, Peking University , 2010; Master's, Harvard University, 2013; Doctorate, Harvard University, 2016

Senior Lecturers
GLASSMAN, DEBRA A , 1989; Master's, University of Wisconsin Colleges, 1979; Doctorate, University of Wisconsin-Madison, 1980
LEON DIMAS, ALEXIS , 2016
SESLEN, TRACEY , 2012; Doctorate, Massachusetts Institute of Technology, 2003
YOUNG, LANCE A , 1995; Master's, University of Washington-Seattle Campus, 1997; Master's, University of Rochester, 1999; Doctorate, University of Rochester, 2005

Lecturers
MALOY, FRANCES , 1987; Master's, Southern Illinois University, 1985; Doctorate, University of Washington-Seattle Campus, 1999
MARIN, MONICA , 2013; Master's, Augusta State University, 2004; Doctorate, University of South Carolina-Columbia, 2008

Information Systems and Operations Management

Professors
DEY, DEBABRATA * 1997; Master's, Syracuse University, 1989; Master's, University of Rochester, 1992; Doctorate, University of Rochester, 1994
KLASTORIN, THEODORE * 1974; Doctorate, The University of Texas, 1973
MOINZADEH, KAMRAN * 1984; Master's, Stanford University, 1982; Doctorate, Stanford University, 1985
SIEGEL, ANDREW F * 1982; Master's, Stanford University, 1975; Doctorate, Stanford University, 1977
TAN, YONG * 1987; Master's, University of Washington-Seattle Campus, 1988; Doctorate, University of Washington-Seattle Campus, 1993
ZHOU, YONGPIN * 2000; Master's, Johns Hopkins University, 1995; Master's, University of Pennsylvania, 1997; Doctorate, University of Pennsylvania, 2000

Associate Professors
FAN, MING * 2002; Master's, University of Akron Wayne College, 1991; Doctorate, The University of Texas, 1999
HILLIER, MARK S. * 1993; Master's, Stanford University, 1991; Doctorate, Stanford University, 1994
JAIN, APURVA * 1999; Master's, National Institute of Technology, 1989; Doctorate, Purdue University-Main Campus, 1999
MAMANI, HAMED * 2008; Doctorate, Massachusetts Institute of Technology, 2008

Assistant Professors
ANANTHAKRISHNAN, UTTARA MADURAI , 2018; Doctorate, Carnegie Mellon University, 2018
CHEN, SHI * 2013; Master's, Tsinghua University , 2008; Doctorate, Stanford University, 2013
HUANG, SHAN , 2018; Doctorate, Massachusetts Institute of Technology, 2018
HWANG, HYEUNJUNG , 2015; Master's, Yonsei University, 2002; Master's, University of California-Los Angeles, 2008; Doctorate, Carnegie Mellon University, 2015
IRAVANI, FOAD * 2012; Master's, University of Toronto, 2007; Doctorate, University of California-Los Angeles, 2012
LEE, STEPHANIE , 2017; Doctorate, Stanford University, 2017
NAGESWARAN, LEELA , 2018; Doctorate, Carnegie Mellon University, 2018
SHUNKO, MARIA * 2015; Master's, Carnegie Mellon University, 2007; Doctorate, Carnegie Mellon University, 2011
WANG, YINGFEI , 2017; Doctorate, Princeton University, 2017

Senior Lecturers
OU, SHAOSONG , 2007; Master's, University of Illinois at Urbana-Champaign, 1999; Doctorate, University of Southern California, 2006
PARAMESWARAN, MANOJ , 2010; Master's, All India Institute of Medical Sciences, 1994; Doctorate, The University of Texas, 1999
RACHAMADUGU, RAM-MOHAN , 2016; Master's, Institute of Integrated Management and Technology, 1972; Master's, Carnegie Mellon University, 1980; Doctorate, Carnegie Mellon University, 1982
SIRICHAKWAL, ISSARIYA , 2006; Master's, University of Washington-Seattle Campus, 2007; Master's, University of Washington-Seattle Campus, 2012; Doctorate, University of Washington-Seattle Campus, 2013

Management and Organization

Professors
AVOLIO, BRUCE * 2008; Master's, University of Akron Wayne College, 1978; Doctorate, University of Akron Wayne College, 1981
BOEKER, WARREN * 1998; Doctorate, University of California-Berkeley, 1987
CHEN, XIAO-PING * 1999; Master's, Hangzhou College of Professional Technology, 1988; Master's, University of Illinois at Urbana-Champaign, 1992; Doctorate, University of Illinois at Urbana-Champaign, 1998
HILL, CHARLES WILLIAM L * 1988; Doctorate, University of Manchester, 1983
KOTHA, SURESH * 1996; Master's, Rensselaer Polytechnic Institute, 1982; Master's, Rensselaer Polytechnic Institute, 1983; Master's, Rensselaer Polytechnic Institute, 1986; Doctorate, Rensselaer Polytechnic Institute, 1988
LEE, THOMAS W * 1983; Master's, Bowling Green State University-Firelands, 1977; Doctorate, University of Oregon, 1984
NEWELL, WILLIAM T, 1982; Master's, University of Denver, 1955; Doctorate, The University of Texas, 1962
REYNOLDS, SCOTT J. * 2002; Master's, Brigham Young University, 1995; Doctorate, University of Minnesota-Duluth, 2002
STEENSMA, HARVEY K. * 2000; Master's, Washington State University, 1988; Doctorate, Indiana University-Bloomington, 1996

Associate Professors
BARNES, CHRISTOPHER * 2013; Master's, Webster University, 2003; Doctorate, Michigan State University, 2009
BIGLEY, GREGORY * 2000; Master's, University of California-Irvine, 1991; Doctorate, University of California-Irvine, 1995
FEHR, RYAN * 2010
HALLEN, BENJAMIN L * 2014; Master's, Virginia University of Lynchburg, 2002; Doctorate, Stanford University, 2007
JOHNSON, MICHAEL D. * 2006; Master's, University of Phoenix, 1999; Doctorate, Michigan State University, 2006
PAHNKE, EMILY * 2010; Master's, Brigham Young University, 2000; Doctorate, Stanford University, 2010
SIRMON, DAVID G. * 2012; Master's, The University of Montana, 1997; Doctorate, Arizona State University, 2004
UMPHRESS, ELIZABETH * 2011; Doctorate, Tulane University of Louisiana, 2003

Assistant Professors
GUPTA, ABHINAV * 2015; Doctorate, Pennsylvania State University-College of Medicine, 2015
OLSON, DANIEL M. , 2016; Doctorate, Harvard University, 2004; Doctorate, University of Maryland-University College, 2016
SCHABRAM, KIRA * 2016; Master's, Concordia University, 2010; Doctorate, University of British Columbia, 2016
SEONG, SORAH , 2018; Master's, London Business School, 2011; Doctorate, INSEAD Business School, 2018
TAN, DAVID * 2013; Doctorate, Emory University, 2009
WEE, XUN MING ELIJAH , 2017; Doctorate, University of Maryland-College Park, 2017
ZHANG, CRYSTAL FARH * 2015; Doctorate, University of Maryland-University College, 2012
ZUZUL, TIONA WHITE , 2017; Master's, London School of Economics and Political Science, 2006; Doctorate, Harvard University, 2014
Lecturers
DOOLEY, EMER , 1995; Master's, University of Limerick, 1986; Master's, University of Washington-Seattle Campus, 1992; Doctorate, University of Washington-Seattle Campus, 2000
DRAKE, DWIGHT JULIAN * 2004; Doctorate, University of Washington-Seattle Campus, 1973
EMMONS, KIMBERLEY P. , 2018
FONG, CHRISTINA T. * 2003; Master's, Stanford University, 2000; Doctorate, Stanford University, 2003
HAGEN-LUKENS, DEBORAH , 2017
HUWE, RUTH A , 1990; Master's, San Diego State University, 1990; Doctorate, University of Washington-Seattle Campus, 1995
MADUNIC, MARKO , 2018
MCPHERSON, RICHARD S. , 2005; Master's, University of Denver, 1997
SHOBERT, BENJAMIN , 2017
TRASK, VALERIE M. , 2017

Marketing and International Business

Professors
AGRAWAL, NIDHI * 2011; Master's, Indian Institute of Technology Madras, 1999; Doctorate, New York University, 2006
FOREHAND, MARK ROBECK * 1997; Doctorate, Stanford University, 1997
JAIN, SHAILENDRA P * 2008; Master's, Institute of Integrated Management and Technology, 1984; Master's, New York University, 1992; Doctorate, New York University, 1995
MIZIK, NATALIE * 1996; Doctorate, University of Washington-Seattle Campus, 2002
PALMATIER, ROBERT W * 2007; Master's, Georgia Institute of Technology-Main Campus, 1984; Master's, Georgia Institute of Technology-Main Campus, 1989; Doctorate, University of Missouri, 2004
SCHLOSSER, ANN E. * 2000; Master's, University of Illinois at Urbana-Champaign, 1995; Doctorate, University of Illinois at Urbana-Champaign, 1997

Associate Professors
RUTZ, OLIVER * 2011; Master's, University of California-Los Angeles, 2003; Doctorate, University of California-Los Angeles, 2007
SHULMAN, JEFFREY D * 2006; Doctorate, Northwestern University, 2006
YOGANARASIMHAN, HEMA , 2014; Master's, Yale University, 2006; Master's, Yale University, 2008; Doctorate, Yale University, 2009

Assistant Professors
DUNN, LEA H , 2014; Doctorate, University of British Columbia, 2014
MUMMALANENI, NARASIMHA , 2016; Master's, Northwestern University, 2012; Doctorate, Northwestern University, 2016
SAYEDI ROSH KHAR, SEYED AMIN , 2014; Master's, Carnegie Mellon University, 2009; Doctorate, Carnegie Mellon University, 2012
VALSESIA, FRANCESCA , 2018; Doctorate, University of Southern California, 2018; Master's, London School of Economics and Political Science,
WALLACE, SCOTT GORDON , 2018; Doctorate, Duke University, 2018
ZHANG, ZAOZAO * 2010; Master's, Columbia University, 2007; Doctorate, Columbia University, 2011
Senior Lecturers
BEARD, OLETA, 1982; Master's, University of Washington-Seattle Campus, 1980
RHODES, JOHN H., 1998
STEARNES, ELIZABETH P, 1995; Master's, New York University, 1978

Lecturers
BAILEY, KAREN, 2018
ERICKSON, BARRY J., 2017; Master's, Seattle University, 2008; Master's, Seattle University, 2008
MARTHEWS, MARTHA N., 1992; Master's, University of Central Florida, 1986; Doctorate, University of North Carolina at Chapel Hill, 1994
TURNER, DANIEL J. * 1999; Master's, Washington University in St Louis, 1993; Doctorate, Northwestern University, 2001
WHELAN, JOHN F., 1985; Master's, Yale University, 1977

School of Dentistry

Professors
BEIRNE, OWEN ROSS * 1985; Medical Doctorate, Harvard University, 1972; Doctorate, University of California-San Francisco, 1976
BERG, JOEL H. * 2000; Medical Doctorate, University of Iowa, 1983; Master's, University of Iowa, 1985
BOLLEN, ANNE-MARIE * 1990; Medical Doctorate, Université Libre de Bruxelles, 1984; Master's, University of Michigan-Ann Arbor, 1986; Doctorate, University of Michigan-Ann Arbor, 1990
CAMERON, CHERYL A., 1979; Master's, University of Kentucky, 1978; Doctorate, University of Washington-Seattle Campus, 1986; Doctorate, Seattle University, 1994
CHAN, DANIEL C. N. * 2008; Master's, University of Iowa, 1984; Medical Doctorate, University of Iowa, 1988
CHEN, SSU-KUANG * 1988; Master's, University of Washington-Seattle Campus, 1989; Doctorate, University of Washington-Seattle Campus, 1993
CHUNG, KWOK-HUNG * 2005; Master's, Northwestern University, 1985; Doctorate, Northwestern University, 1987
CHUNG, WHASUN O. * 1994; Master's, Maranatha Baptist Bible College, 1989; Doctorate, University of Washington-Seattle Campus, 1999
COHENCA, NESTOR * 2005
COLDWELL, SUSAN E. * 1994; Master's, University of Pennsylvania, 1990; Doctorate, University of Pennsylvania, 1994
DARVEAU, RICHARD P. * 1989; Master's, Northern Illinois University, 1977; Doctorate, Washington State University, 1981
DODSON, THOMAS B., 2013; Master's, Harvard University, 1984; Medical Doctorate, Harvard University, 1984
DRANGSHOLT, MARK T. * 1983; Medical Doctorate, University of Washington-Seattle Campus, 1984; Master's, University of Washington-Seattle Campus, 1992; Doctorate, University of Washington-Seattle Campus, 2004
GORDON, SARA CHRISTINE , 2003; Medical Doctorate, Dalhousie University, 1985; Master's, University of Western Ontario, 1996
HERRING, SUSAN W. * 1990; Doctorate, University of Chicago, 1971
HUANG, GREG J. * 1987; Medical Doctorate, University of Florida, 1987; Master's, University of Washington-Seattle Campus, 1989
HUJOEL, PHILIPPE P * 1989; Master's, University of Washington-Seattle Campus, 1986; Doctorate, University of Washington-Seattle Campus, 1993
JOHNSON, JAMES D * 2003; Master's, Northwestern University, 1985
JOHNSON, ROBERT H , 1982; Medical Doctorate, McGill University, 1962; Master's, Indiana University-Bloomington, 1964
KRONSTROM, MATS HENRIK * 2006; Doctorate, Malmo University, 1999
LE RESCHE, LINDA A * 1983; Doctorate, Johns Hopkins University, 1977
LEROUX, BRIAN * 1991; Master's, University of British Columbia, 1985; Doctorate, University of British Columbia, 1989
LIU, ZIJUN * 1997; Master's, The Fourth Military Medical University , 1986; Doctorate, Osaka University, 1991
MARTIN, MICHAEL D. * 1986; Medical Doctorate, University of Kentucky, 1979; Master's, University of Washington-Seattle Campus, 1989; Doctorate, University of Washington-Seattle Campus, 1993; Master's, University of Washington-Seattle Campus, 1994
ODA, DOLPHINE * 1985; Master's, University of Manitoba, 1980
PERSSON, GOSTA RUTGER * 1985; Doctorate, Lund University, 1978
RAIGRODSKI, ARIEL J * 2004; Medical Doctorate, Hebrew University of Jerusalem, 1991; Master's, Louisiana State University, 1999
RAMSAY, DOUGLAS S * 1983; Medical Doctorate, University of Pennsylvania, 1983; Doctorate, University of Washington-Seattle Campus, 1988; Master's, University of Washington-Seattle Campus, 1990
RUBENSTEIN, JEFFREY E. * 1989; Medical Doctorate, Tufts University, 1975; Master's, The University of Texas Health Science Center at Houston, 1980
SCHUBERT, MARK M * 1974; Master's, University of Washington-Seattle Campus, 1981
SHEPPERD, BARBARA L * 1981
SIPOLO, ALFRED J , 1983; Doctorate, University of Washington-Seattle Campus, 1991; Doctorate, University of Latvia, 2001
SORENSEN, JOHN ALAN * 2012; Medical Doctorate, Tufts University, 1980; Doctorate, University of Copenhagen, 1997
TURPIN, DAVID L * 1970; Medical Doctorate, University of Iowa, 1962; Master's, University of Washington-Seattle Campus, 1966
WATAHA, JOHN C. , 2007; Medical Doctorate, Oregon Health and Science University, 1982; Doctorate, University of Michigan-Ann Arbor, 1992

Associate Professors
AW, TAR , 1995; Medical Doctorate, Northwestern University, 1990; Master's, University of Michigan-Ann Arbor, 1995
BAYIRLI, BURCU * 2012; Master's, University of Michigan-Ann Arbor, 1996; Doctorate, University of Michigan-Ann Arbor, 2006
CHI, DONALD L * 2002; Medical Doctorate, University of Washington-Seattle Campus, 2006; Doctorate, University of Iowa, 2009
DIXON, DOUGLAS * 2000; Medical Doctorate, University of Pittsburgh-Bradford, 1993; Master's, University of Washington-Seattle Campus, 2001; Doctorate, University of Washington-Seattle Campus, 2005
DOGAN, SAMI * 2000; Doctorate, Universität Hannover, 1997
EGBERT, MARK A , 1982; Medical Doctorate, University of Washington-Seattle Campus, 1981
FLAKE, NATASHA M. * 2006; Doctorate, University of Maryland-University College, 2005; Medical Doctorate, University of Maryland-University College, 2005
GREENLEE, GEOFFREY M * 1999; Medical Doctorate, University of Michigan-Ann Arbor, 1998; Master's, University of Washington-Seattle Campus, 2000; Master's, University of Washington-Seattle Campus, 2009
HOWARD, JAMES A , 1983; Medical Doctorate, University of Washington-Seattle Campus, 1976
KELLY, JOSEPH P. * 2003; Master's, University of Washington-Seattle Campus, 2006
KIM, AMY SUNG-OK * 2010; Medical Doctorate, University of Michigan-Ann Arbor, 2001
LEPE, XAVIER * 1993; Medical Doctorate, Universidad de Guadalajara, 1980; Master's, Loyola University Chicago, 1987
MANCL, LLOYD A. * 1986; Master's, University of Washington-Seattle Campus, 1988; Doctorate, University of Washington-Seattle Campus, 1992
MCLEAN, JEFFREY S * 2014; Master's, University of Guelph, 2000; Doctorate, University of Southern California, 2013
NELSON, TRAVIS M. * 2007; Medical Doctorate, Loma Linda University, 2007; Master's, University of Washington-Seattle Campus, 2010
PARANJPE, AVINA * 2009; Master's, University of California-Los Angeles, 2004; Doctorate, University of California-Los Angeles, 2007
POPOWICS, TRACY * 1997; Doctorate, Brown University, 1997
PRESLAND, RICHARD B * 1989; Master's, University of Otago, 1982; Doctorate, University of Adelaide, 1987
RAMOS JR, SERVANDO * 2016; Medical Doctorate, The University of Texas Health Science Center at Houston, 1985
ROBERTS, FRANK A. * 1996; Medical Doctorate, The University of Tennessee, 1990; Doctorate, University of Alabama, 1996
SADR, ALIREZA , 2015; Medical Doctorate, Shahid Beheshti University, 2002; Doctorate, Tokyo Medical and Dental University, 2008
SEMINARIO, ANA LUCIA * 2007; Master's, Universidad Peruana Cayetano Heredia, 2002; Doctorate, Charles University, 2006
SILVA, JOANA CUNHA CRUZ * 2004; Master's, Universidade Federal do Rio de Janeiro (UFRJ), 2002; Doctorate, Universidade Federal do Rio de Janeiro (UFRJ), 2006
WANG, I-CHUNG * 2002; Master's, University of Alabama, 1992; Master's, University of Alabama, 1995
XU, ZHENG * 2014; Medical Doctorate, Peking University , 1999; Doctorate, University of Connecticut, 2006
ZHANG, HAI * 2004; Doctorate, University of Connecticut, 2002
Assistant Professors

BURKE, ANDREA B, 2016; Medical Doctorate, Harvard University, 2007; Medical Doctorate, Harvard University, 2010
CANNAVA, JAMES, 2009; Medical Doctorate, Oregon Health and Science University, 2006; Master's, University of Washington-Seattle Campus, 2012
CHEN, YEN-WEI * 2008; Master's, University of Washington-Seattle Campus, 2008
CHREPA, VARVARA, 2015; Medical Doctorate, American University of Athens, 2009; Master's, The University of Texas at San Antonio, 2014
COATS, STEPHEN R, 2001
DOOMES, ASHLAND S, 2015; Medical Doctorate, Augusta State University, 2012
GARCIA, ELIZABETH, 2016; Medical Doctorate, University of Alabama at Birmingham, 1994
GARCIA, MARIELLA * 2008
HEATON, LISA J * 2005; Master's, University of Kentucky, 2002; Doctorate, University of Kentucky, 2004
JAIN, SUMITA, 2007
KAPADIA, HITESH * 2010; Medical Doctorate, The University of Texas Health Science Center at Houston, 2000; Doctorate, The University of Texas Health Science Center at Houston, 2006

KOTSAKIS, GEORGIOS * 2015; Medical Doctorate, American University of Athens, 2009; Master's, University of Minnesota-Duluth, 2015
LEE, PEGGY PEI-FUN * 1985; Master's, University of Washington-Seattle Campus, 1987; Doctorate, University of Washington-Seattle Campus, 1993
PALMER, ELIZABETH * 2014; Master's, University of Southern Nevada, 2001; Medical Doctorate, Oregon Health and Science University, 2008
VELAN, ELIZABETH KUBICEK * 2004; Medical Doctorate, Oregon Health and Science University, 2004; Master's, University of Washington-Seattle Campus, 2008

Senior Lecturers

ANDERSON, J MARTIN, 1981; Medical Doctorate, University of Washington-Seattle Campus, 1965
PHILLIPS, SANDRA L., 1982; Master's, University of Washington-Seattle Campus, 1985
RAFFERTY, KATHERINE L., 1997; Master's, New York University, 1991; Doctorate, Johns Hopkins University, 1996

Lecturers

CHIGURUPATI, KAVITA, 2000; Master's, University of Washington-Seattle Campus, 2001
CHRISTENSEN, ROLF M, 1998; Medical Doctorate, University of Washington-Seattle Campus, 1980
JEFFREY, SUSANNE KOLARE, 2005; Doctorate, Karolinska Institute, 1990
MARASHI, AHMAD A., 2000; Medical Doctorate, University of Washington-Seattle Campus, 2001
NEWMAN, JAMES E. JR., 2004; Medical Doctorate, West Virginia University, 1977
SPEED-MCINTYRE, POLLENE, 2004; Master's, University of Washington-Seattle Campus, 1976; Medical Doctorate, University of Washington-Seattle Campus, 1980
STEWART, DOROTHY J, 2007; Medical Doctorate, University of Washington-Seattle Campus, 1982
SUNDARAVARADAN, VASUDHA, 2017; Doctorate, University of Arizona, TOWNSEND, JOHN D, 1977; Medical Doctorate, McGill University, 1967; Master's, University of Washington-Seattle Campus, 1973
College of Education

Professors

BANG, MEGAN * 2011; Doctorate, Northwestern University, 2009
BANKS, JAMES A * 1969; Master's, Michigan State University, 1967; Doctorate, Michigan State University, 1969
BEADIE, NANCY ELIZABETH * 1993; Master's, Syracuse University, 1987; Doctorate, Syracuse University, 1989
BELL, PHILIP L * 1998; Master's, University of California-Berkeley, 1996; Doctorate, University of California-Berkeley, 1998
BROWN, SHARAN E * 1983; Master's, Seattle University, 1979; Doctorate, University of Puget Sound, 1984
CRAIG, ANTHONY * 2018
DAVIS, CAROL * 1998; Master's, University of Houston, 1989; Doctorate, University of Houston, 1992
GAY, GENEVA * 1989; Master's, University of Akron Wayne College, 1969; Doctorate, The University of Texas, 1972
HERRENKOHL, LESLIE R. * 1996; Master's, Clark University, 1991; Doctorate, Clark University, 1995
HERTZOG, NANCY * 2010; Master's, University of Connecticut, 1981; Doctorate, University of Illinois at Urbana-Champaign, 1995
HONIG, MEREDITH I. * 2006; Doctorate, Stanford University, 2001
KAZEMI, ELHAM * 1999; Master's, University of California-Los Angeles, 1997; Doctorate, University of California-Los Angeles, 1999
KERDEMAN, DEBORAH * 1990; Master's, Hebrew College, 1981; Master's, University of Southern California, 1981; Master's, Stanford University, 1988; Doctorate, Stanford University, 1991
LOWENBRAUN, SHEILA, 1982; Master's, Columbia University, 1962; Doctorate, Columbia University, 1969
MAZZA, JAMES J. * 1996; Master's, University of Wisconsin-Madison, 1990; Doctorate, University of Wisconsin-Madison, 1993
MCCUTCHEON, DEBORAH ELAINE * 1986; Master's, University of Pittsburgh-Bradford, 1978; Doctorate, University of Pittsburgh-Bradford, 1985
NERAD, MARESI * 2001; Doctorate, University of California-Berkeley, 1988
NOLEN, SUSAN B. * 1990; Master's, Lewis and Clark Community College, 1976; Doctorate, Purdue University-Main Campus, 1986
PARKER, WALTER C * 1985; Master's, University of Colorado Denver, 1978; Doctorate, University of Washington-Seattle Campus, 1982
PECK, CHARLES A * 2003; Master's, Sonoma State University, 1976; Doctorate, University of California-Santa Barbara, 1984
SCHWARTZ, ILENE SHARON * 1991; Master's, University of Kansas, 1986; Doctorate, University of Kansas, 1989
TAYLOR, EDWARD * 1985; Master's, Gonzaga University, 1983; Doctorate, University of Washington-Seattle Campus, 1994
THOMPSON, MARIE D, 1979; Master's, University of Washington-Seattle Campus, 1968; Doctorate, University of Washington-Seattle Campus, 1970
TUAN, MIA, 1900; Master's, University of California-Los Angeles, 1992; Doctorate, University of California-Los Angeles, 1996
VALENCIA, SHEILA DENISE W * 1987; Master's, New York University, 1976; Doctorate, University of Colorado at Boulder, 1978
WILLIAMSON-LOTT, JOY ANN * 2007; Master's, University of Illinois at Urbana-Champaign, 1995; Doctorate, University of Illinois at Urbana-Champaign, 1998
WINDSCHITL, MARK A * 1996; Master's, Iowa State University, 1993; Doctorate, Iowa State University, 1995
ZEICHNER, KENNETH, 2009; Master's, Syracuse University, 1970; Doctorate, Syracuse University, 1976

Associate Professors
COOK, CLAYTON * 2010; Master's, University of California-Riverside, 2005; Doctorate, University of California-Riverside, 2008
DABACH, DAFNEY BLANCA * 2010
ELFERS, ANN M. * 1995; Master's, University of Belgrade, 1993; Doctorate, University of Washington-Seattle Campus, 2000
FREY, KARIN S. * 1983; Doctorate, University of Washington-Seattle Campus, 1978
HOFFMAN, JENNIFER L * 1989; Master's, Seattle University, 1998; Doctorate, University of Washington-Seattle Campus, 2006
HUDSON, ROXANNE * 2006; Master's, Western Washington University, 1994; Doctorate, University of Florida, 2002
ISHIMARU, ANN * 2012; Master's, Stanford University, 1994; Master's, Harvard University, 2008; Doctorate, Harvard University, 2011
JACKSON, KARA * 2013; Master's, University of Pennsylvania, 2005; Doctorate, University of Pennsylvania, 2010
JEGATHEESAN, BRINDA I * 2006; Master's, University of Hawaii, 2000; Doctorate, University of Illinois at Urbana-Champaign, 2005
JONES, JANINE * 2002; Master's, University of Southern California, 1994; Doctorate, The University of Texas, 1999
JOSEPH, GAIL * 1987; Master's, Western Washington University, 1995; Doctorate, University of Washington-Seattle Campus, 2001
LI, MIN * 2001; Master's, Beijing Normal University, 1997; Doctorate, Stanford University, 2002
LOTT, JOE * 2007; Master's, Louisiana State University, 2000; Doctorate, Louisiana State University, 2005
MISSALL, KRISTEN * 2015; Master's, University of Minnesota-Duluth, 1999; Doctorate, University of Minnesota-Duluth, 2002
PARIS, DJANGO * 2018; Doctorate, Stanford University, 2008
SANDERS, ELIZABETH * 2004
THOMPSON, JESSICA J * 1992; Master's, University of Washington-Seattle Campus, 2001; Doctorate, University of Washington-Seattle Campus, 2006
VARHGESE, MANKA M * 2000; Master's, University of Pennsylvania, 1994; Doctorate, University of Pennsylvania, 2000
WEST, ELIZABETH A. * 1998; Master's, University of Washington-Seattle Campus, 1994; Doctorate, University of Washington-Seattle Campus, 2003

Assistant Professors
BENEKE, MARGARET R * 2017
DAVIS, KATHARINE E. * 2012; Master's, Harvard University, 2002; Master's, Harvard University, 2009; Doctorate, Harvard University, 2011
FETTIG, ANGEL * 2017
KAUERZ, KRISTIE * 2011; Master's, American University, 1995; Doctorate, Columbia University, 2009
LEWIS, KATHERINE * 2012; Master's, University of Dublin Trinity College, 2003; Master's, University of California-Berkeley, 2007; Doctorate, University of California-Berkeley, 2011
MACHADO, EMILY * 2018; Master's, American University, 2011
MEEKER, KATHLEEN * 2013; Master's, Ohio State University Agricultural Technical Institute, 2003; Doctorate, Vanderbilt University, 2010
OH, SOOJIN * 2015; Master's, University of Pennsylvania, 2004; Master's, Harvard University, 2010; Doctorate, Harvard University, 2015
RIGBY, JESSICA * 2014; Master's, Stanford University, 2006; Doctorate, University of California-Berkeley, 2012
ROBERTS, CARLY * 2015; Master's, University of Alaska Southeast, 2010; Doctorate, University of Wisconsin-Madison, 2013
SUN, MIN * 2014; Master's, Beijing Normal University, 2006; Doctorate, Michigan State University, 2011
TAYLOR, KATHERINE * 2015; Doctorate, Vanderbilt University, 2013
WANG, CHUN * 2018

Senior Lecturers
BEAM-CONROY, TEDDI, 2016
BEITLERS, ANNE, 1994; Master's, University of Washington-Seattle Campus, 1999; Doctorate, New York University, 2014
BRENNAN, CAROLYN, 2008; Doctorate, University of Washington-Seattle Campus, 2013
CHEN, JONDOU, 2014; Master's, Harvard University, 2005; Master's, Columbia University, 2010; Doctorate, Columbia University, 2013
CLEVENGER-BRIGHT, MARY, 2004; Master's, Iowa State University, 1981; Doctorate, University of Washington-Seattle Campus, 2009
DIETRICH, LYNN, 2015; Master's, University of Maryland-University College, 1995; Doctorate, University of Maryland-University College, 2000
HALVERSON, THOMAS J * 1992; Master's, Western Washington University, 1990; Doctorate, University of Washington-Seattle Campus, 1996
KELLEY-PETERSEN, MEGAN M, 2005; Doctorate, University of Washington-Seattle Campus, 2010
LOPEZ, SARA L. * 2000; Master's, University of Washington-Seattle Campus, 2003
MASSEY, DIXIE DICK, 1900
NEWMAN, JODI, 1999; Master's, University of Washington-Seattle Campus, 2001; Doctorate, University of Washington-Seattle Campus, 2010
O'DOHERTY, ANN * 2012; Master's, The University of Texas, 1992; Doctorate, The University of Texas, 2007
POWELL, SELMA, 2014; Master's, University of South Florida, 1999; Doctorate, University of Central Florida, 2012
ROSENBERG, NANCY E * 2003; Master's, Stanford University, 1987
SPAULDING, SCOTT * 2009; Master's, West Virginia University, 1997; Doctorate, West Virginia University, 2001

Lecturers
BAGLEY, SYLVIA , 2012; Master's, University of California-Los Angeles, 2004; Doctorate, University of California-Los Angeles, 2007
KING, STEPHANIE , 2002

College of Engineering

Aeronautics and Astronautics

Professors
BRAGG, MICHAEL B * 2013; Master's, University of Illinois at Urbana-Champaign, 1977; Doctorate, Ohio State University Agricultural Technical Institute, 1981
BREIDENTHAL, ROBERT E * 1980; Master's, California Institute of Technology, 1974; Doctorate, California Institute of Technology, 1978
HERMANSON, JAMES C. * 1986; Master's, California Institute of Technology, 1980; Doctorate, California Institute of Technology, 1985
HILL, KRISTI MORGANSEN * 2002; Master's, Harvard University, 1996; Doctorate, Harvard University, 1999
JARBOE, THOMAS R. * 1989; Doctorate, University of California-Berkeley, 1974
KUROSAKA, MITSURU * 1987; Master's, University of Tokyo, 1961; Doctorate, California Institute of Technology, 1968
LIVNE, ELI * 1990; Master's, Technion Israel Institute of Technology, 1982; Doctorate, University of California-Los Angeles, 1990
MESBAHI, MEHRAN * 2002; Master's, University of Southern California, 1991; Master's, University of Southern California, 1995; Doctorate, University of Southern California, 1996
RILEY, JAMES J * 1983; Doctorate, Johns Hopkins University, 1971
SHUMLAK, URI * 1994; Doctorate, University of California-Berkeley, 1992
WAAS, MODERAGE ANTHONY * 2014; Master's, California Institute of Technology, 1983; Doctorate, California Institute of Technology, 1988

Associate Professors
ACIKMESE, BEHCET * 2015; Master's, Indiana University-Purdue University-Indianapolis, 1996; Doctorate, Purdue University-Main Campus, 2002
ALMOSNINO, DAN , 2017
DABIRI, DANA * 2002; Master's, University of California-Berkeley, 1987; Doctorate, University of California-San Diego, 1992
DOUGHERTY, ROBERT PATRICK , 2010; Master's, Iowa State University, 1982; Doctorate, Iowa State University, 1986
FERRANTE, ANTONINO * 2008; Doctorate, University of California-Irvine, 2004
KNOWLEN, CARL * 1983; Master's, University of Washington-Seattle Campus, 1985; Doctorate, University of Washington-Seattle Campus, 1991
MOR, MARAT, 2003; Doctorate, Technion Israel Institute of Technology, 2003
MURPHY, SUSAN E., 2008; Master's, City University of Seattle, 2003
WOLLSCHLAGER, JEFFREY A, 2016

Assistant Professors
GOLINGO, RAYMOND P. * 1989; Master's, University of Washington-Seattle Campus, 1998; Doctorate, University of Washington-Seattle Campus, 2003
LITTLE, JUSTIN M, 2015
LUM, CHRISTOPHER W. M. * 2001; Master's, University of Washington-Seattle Campus, 2005; Doctorate, University of Washington-Seattle Campus, 2009
SALVIATO, MARCO * 2015; Master's, Università degli Studi di Padova, 2009; Doctorate, Università degli Studi di Padova, 2012
WILLIAMS, OWEN JAMES * 2016; Master's, Princeton University, 2009; Doctorate, Princeton University, 2014
YANG, JINKYU * 2013; Master's, Stanford University, 2001; Doctorate, Stanford University, 2005

Chemical Engineering

Professors
BANEYX, FRANCOIS * 1992
BERG, JOHN C * 1964; Doctorate, University of California-Berkeley, 1964
CASTNER, DAVID G. * 1986; Doctorate, University of California-Berkeley, 1979
HILLHOUSE, HUGH * 1995; Master's, University of Washington-Seattle Campus, 1996; Master's, University of Massachusetts, 1999; Doctorate, University of Massachusetts, 2000
JENEKHE, SAMSON A * 2000; Master's, University of Minnesota-Duluth, 1980; Master's, University of Minnesota-Duluth, 1981; Doctorate, University of Minnesota-Duluth, 1985
JIANG, SHAOYI * 1999; Master's, Nanjing University of Technology, 1988; Doctorate, Cornell University, 1993
LIDSTROM, MARY E. * 1982; Master's, University of Wisconsin-Madison, 1975; Doctorate, University of Wisconsin-Madison, 1977
OVERNEY, RENE M * 1996; Master's, Universität Basel, 1989; Doctorate, Universität Basel, 1992
SCHWARTZ, DANIEL T. * 1991; Master's, University of California-Davis, 1985; Doctorate, University of California-Davis, 1989
STUVE, ERIC M * 1985; Master's, Stanford University, 1979; Doctorate, Stanford University, 1983
SUBRAMANIAN, VENKAT * 2014; Doctorate, University of South Carolina-Columbia, 2001
YU, QIUMING * 2000; Master's, Nanjing University, 1989; Doctorate, Cornell University, 1995

Associate Professors
ADLER, STUART B. * 2001; Master's, University of California-Berkeley, 1989; Doctorate, University of California-Berkeley, 1993
BECK, DAVID * 2000; Doctorate, University of Washington-Seattle Campus, 2006
HOLT, BRADLEY R * 1984; Doctorate, University of Wisconsin Colleges, 1984
PFAENDTNER, WALTER JAMES * 2009; Doctorate, Northwestern University, 2007
POZZO, LILO D. * 2007; Doctorate, Carnegie Mellon University, 2006; Master's, Carnegie Mellon University, 2006

Assistant Professors
CAROTHERS, JAMES * 2012; Doctorate, Harvard University, 2005
DEFOREST, COLE ALEXANDER * 2013; Doctorate, University of Colorado at Boulder, 2011
HOLMBERG, VINCENT * 2015; Master's, The University of Texas, 2010; Doctorate, The University of Texas, 2011
NANCE, ELIZABETH * 2015; Doctorate, Johns Hopkins University, 2012
WANG, LIGUO * 2011; Doctorate, Cornell University, 2003

Lecturers
KIM, ANTHONY YOUNG * 1987; Master's, University of California-Davis, 1993; Doctorate, University of Washington-Seattle Campus, 2002
MURBACH, MATTHEW, 2013

Civil and Environmental Engineering

Professors
ARDUINO, PEDRO * 1997; Master's, American University of Puerto Rico, 1992; Doctorate, Georgia Institute of Technology-Main Campus, 1996
BENJAMIN, MARK M * 1982; Master's, Stanford University, 1973; Doctorate, Stanford University, 1979
BRETT, MICHAEL T * 1997; Master's, University of Maine, 1985; Doctorate, Uppsala University, 1990
CHEN, QIUZI * 2009; Master's, New Jersey Institute of Technology, 1995; Doctorate, University of California-Davis, 2001
EBERHARD, MARC O * 1989; Master's, University of Illinois at Urbana-Champaign, 1986; Doctorate, University of Illinois at Urbana-Champaign, 1989
EVANS, ROGER J, 1982; Master's, Brown University, 1959; Doctorate, University of California-Berkeley, 1965
GOODCHILD, ANNE V. * 2005; Master's, University of California-Berkeley, 2002; Doctorate, University of California-Berkeley, 2005
HORNER-DEVINE, ALEXANDER * 2004; Master's, Stanford University, 1998; Doctorate, Stanford University, 2003
HOSSAIN, FAISAL * 2014; Master's, National University of Singapore, 1999; Doctorate, University of Connecticut, 2004
KORSHIN, GREGORY * 1991; Doctorate, Mendeleev University of Chemical Technology of Russia, 1983
KRAMER, STEVEN * 1984; Master's, University of California-Berkeley, 1979; Doctorate, University of California-Berkeley, 1984
LARSON, TIMOTHY * 1970; Master's, University of Washington-Seattle Campus, 1972; Doctorate, University of Washington-Seattle Campus, 1976
LEHMANN, DAWN E * 1998; Master's, University of California-Berkeley, 1992; Doctorate, University of California-Berkeley, 1998
LOWES, LAURA N * 1989; Doctorate, University of California-Berkeley, 1999; Master's, University of California-Berkeley, 1999
LUNDQUIST, JESSICA D * 2006; Master's, University of California-San Diego, 2000; Doctorate, University of California-San Diego, 2004
MAHONEY, JOE PAUL * 1978; Master's, The University of Texas, 1970; Doctorate, The University of Texas, 1979
MARSHALL, JULIAN * 2015; Master's, University of California-Berkeley, 2002; Doctorate, University of California-Berkeley, 2005
MILLER, GREGORY * 1983; Master's, Northwestern University, 1981; Doctorate, Northwestern University, 1984
NIJSSEN, BART * 1994; Doctorate, University of Washington-Seattle Campus, 2000
REED, DOROTHY * 1983; Master's, Princeton University, 1977; Doctorate, Princeton University, 1980
ROEDER, CHARLES W * 1977; Master's, University of Illinois at Urbana-Champaign, 1971; Doctorate, University of California-Berkeley, 1977
RUTHERFORD, G. SCOTT, 1981; Master's, Washington State University, 1968; Doctorate, Northwestern University, 1974
STAHL, DAVID A * 2000; Master's, University of Illinois at Urbana-Champaign, 1975; Doctorate, University of Illinois at Urbana-Champaign, 1978
STANTON, JOHN * 1978; Master's, Cornell University, 1975; Doctorate, University of California-Berkeley, 1978
STENSEL, H. DAVID * 1900; Master's, Cornell University, 1968; Doctorate, Cornell University, 1971
WANG, YINHAI * 1998; Master's, Tsinghua University, 1991; Doctorate, University of Tokyo, 1998
WARTMAN, JOSEPH * 2010; Master's, University of California-Berkeley, 1996; Master's, University of California-Berkeley, 1999
YEARSLEY, JOHN R., 1984; Master's, University of Washington-Seattle Campus, 1966; Master's, Massachusetts Institute of Technology, 1968

Associate Professors
BAN, XUEGANG * 2016; Master's, Tsinghua University, 2000; Master's, University of Wisconsin-Madison, 2003; Doctorate, University of Wisconsin-Madison, 2005
BERMAN, JEFFREY WILLIAM * 2006; Master's, New York University, 2003; Doctorate, New York University, 2006
DODD, MICHAEL * 2009; Master's, Georgia Institute of Technology-Main Campus, 2003; Doctorate, Swiss Federal Institute of Technology ETH Zürich, 2008
ISTANBULLUOGLU, ERKAN * 2009; Master's, Uludag University, 1998; Doctorate, Utah State University, 2003
MACKENZIE-HELNWEIN, PETER * 2003
MCCORMACK, EDWARD D * 1982; Master's, University of Washington-Seattle Campus, 1985; Doctorate, University of Washington-Seattle Campus, 1997
MUENCH, STEPHEN T * 1990; Master's, University of Washington-Seattle Campus, 1998; Doctorate, University of Washington-Seattle Campus, 2004
STULL, DANIEL G, 1987; Master's, University of Washington-Seattle Campus, 1989

Assistant Professors
AHMED, KAMAL M., 1993; Master's, Cairo University, 1988; Doctorate, University of Washington-Seattle Campus, 1999
CALVI, PAOLO * 2015; Master's, Università degli Studi di Pavia, 2010; Doctorate, University of Toronto, 2014
GOMEZ, MICHAEL GREGORY * 2017; Master's, University of California-Davis, 2013; Doctorate, University of California-Davis, 2017
KAMINSKY, JESSICA A * 2014; Doctorate, University of Colorado at Boulder, 2013
KIM, AMY AHIM * 2014; Master's, Illinois Institute of Technology, 2008; Doctorate, The University of Texas, 2014
MACKENZIE, DONALD W * 2013; Master's, Massachusetts Institute of Technology, 2009; Doctorate, Massachusetts Institute of Technology, 2013
MAURER, BRETT W * 2017; Master's, Syracuse University, 2011; Doctorate, Virginia Polytechnic Institute and State University, 2016
MOTLEY, MICHAEL * 2012; Master's, Virginia Polytechnic Institute and State University, 2004; Master's, Princeton University, 2010; Doctorate, Princeton University, 2011
NIRNIMESH KUMAR, UNKNOWN * 2016; Master's, University of South Carolina-Columbia, 2010; Doctorate, University of South Carolina-Columbia, 2013
SHEAN, DAVID E , 2011; Master's, Brown University, 2006; Doctorate, University of Washington-Seattle Campus, 2016
WIEBE, RICHARD * 2014; Master's, University of Waterloo, 2009; Doctorate, Duke University, 2012
WINKLER, MARIKAROLINA H * 2015; Master's, Universität Duisburg Essen, 2006; Doctorate, Delft University of Technology, 2012

Computer Science and Engineering

Professors
ANDERSON, RICHARD J. * 1986; Doctorate, Stanford University, 1985
ANDERSON, THOMAS E. * 1987; Master's, University of Washington-Seattle Campus, 1990; Doctorate, University of Washington-Seattle Campus, 1991
BALAZINSKA, MAGDALENA * 2005; Master's, École Polytechnique de Montréal, 1999; Doctorate, Massachusetts Institute of Technology, 2005
BEAME, PAUL W. * 1987; Master's, University of Toronto, 1982; Doctorate, University of Toronto, 1987
BERNSTEIN, PHILIP ALAN * 1996; Master's, University of Toronto, 1972; Doctorate, University of Toronto, 1975
BODIK, RASTISLAV * 2015; Doctorate, University of Pittsburgh-Bradford, 1999
BURGER, DOUGLAS CHRISTOPHE * 2008; Master's, University of Wisconsin-Madison, 1993; Doctorate, University of Wisconsin-Madison, 1998
CEZE, LUIS HENRIQUE DE BAR * 2007; Master's, Universidade de São Paulo (USP), 2002; Doctorate, University of Illinois at Urbana-Champaign, 2007
COHEN, MICHAEL F * 1998; Master's, Cornell University, 1985; Doctorate, University of Utah, 1992
CURLESS, BRIAN L. * 1997; Master's, Stanford University, 1991; Doctorate, Stanford University, 1997
DOMINGOS, PEDRO MORAIS DEL * 1999; Master's, University of California-Irvine, 1994; Doctorate, University of California-Irvine, 1997
ERNST, MICHAEL D * 1996; Master's, Massachusetts Institute of Technology, 1992; Master's, University of Washington-Seattle Campus, 1997; Doctorate, University of Washington-Seattle Campus, 2000
ETZIONI, OREN * 1991; Master's, Carnegie Mellon University, 1988; Doctorate, Carnegie Mellon University, 1991
FOGARTY, JAMES A * 2006; Master's, Carnegie Mellon University, 2005; Doctorate, Carnegie Mellon University, 2006
FOX, DIETER * 2000; Master's, Rheinische Friedrich Wilhelms Universität Bonn, 1993; Doctorate, Rheinische Friedrich Wilhelms Universität Bonn, 1998
GOLDE, HELLMUT, 1982; Doctorate, Stanford University, 1959
GROSSMAN, DANIEL JOSEPH * 2003; Master's, Cornell University, 2001; Doctorate, Cornell University, 2003
KAHAN, SIMON HERSH, 1986; Master's, University of California-Berkeley, 1985; Doctorate, University of Washington-Seattle Campus, 1991
KARLIN, ANNA R.* 1994; Doctorate, Stanford University, 1987
KHULLER, SAMIR * 2011; Master's, Cornell University, 1989; Doctorate, Cornell University, 1990
KOHNO, TADAYOSHI * 2006; Master's, University of California-San Diego, 2004; Doctorate, University of California-San Diego, 2006
KRISHNAMURTHY, ARVIND * 2005; Master's, University of California-Berkeley, 1994; Doctorate, University of California-Berkeley, 1999
LANDAY, JAMES ANTHONY * 2003; Master's, Carnegie Mellon University, 1993; Doctorate, Carnegie Mellon University, 1996
LAZOWSKA, EDWARD D * 1977; Master's, University of Toronto, 1974; Doctorate, University of Toronto, 1977
LEE, JAMES RUSSELL * 2006; Doctorate, University of California-Berkeley, 2005
LEVY, HENRY M * 1983; Master's, University of Washington-Seattle Campus, 1981
MANKOFF, JENNIFER CAROLYN * 2017; Doctorate, Georgia Institute of Technology-Main Campus, 2001
MORRIS, MEREDITH JUNE * 2008; Master's, Stanford University, 2003; Doctorate, Stanford University, 2006
PATEL, SHWETAK NARAN * 2008; Doctorate, Georgia Institute of Technology-Main Campus, 2008
POPOVIC, ZORAN * 1999; Master's, Carnegie Mellon University, 1993; Doctorate, Carnegie Mellon University, 1999
RAO, RAJESH P.N. * 2000; Master's, University of Rochester, 1994; Doctorate, University of Rochester, 1998
RUZZO, WALTER L * 1977; Doctorate, University of California-Berkeley, 1978
SALESIN, DAVID HENRY * 1992; Doctorate, Stanford University, 1991
SEITZ, STEVEN M * 2000; Doctorate, University of Wisconsin-Madison, 1997
SHAPIRO, LINDA G. * 1986; Master's, University of Iowa, 1972; Doctorate, University of Iowa, 1974
SMITH, JOSHUA R. * 2005; Master's, Massachusetts Institute of Technology, 1995; Master's, University of Cambridge, 1997; Doctorate, Massachusetts Institute of Technology, 1999
SUCIU, DAN * 2000; Master's, University of Bucharest, 1991; Doctorate, University of Pennsylvania, 1995
TAN, DESNEY SWEE-LEONG * 2007; Doctorate, Carnegie Mellon University, 2004
TANIMOTO, STEVEN L * 1977; Master's, Princeton University, 1973; Master's, Princeton University, 1974; Doctorate, Princeton University, 1975
TOMPA, MARTIN * 1982; Master's, University of Toronto, 1975; Doctorate, University of Toronto, 1978
WELD, DANIEL SABEY * 1988; Master's, Massachusetts Institute of Technology, 1984; Doctorate, Massachusetts Institute of Technology, 1988
YOUNG, PAUL R, 1983; Doctorate, Massachusetts Institute of Technology, 1963
ZAHORJAN, JOHN * 1980; Master's, University of Toronto, 1976; Doctorate, University of Toronto, 1980

Associate Professors

CHOI, YEJIN * 2014; Master's, Cornell University, 2009; Doctorate, Cornell University, 2010
FARHADI, ALI * 2012
FOX, EMILY * 2012; Master's, Massachusetts Institute of Technology, 2005; Doctorate, Massachusetts Institute of Technology, 2009
FROEHLICH, JON E * 2017
GOLLAKOTA, SHYAMNATH V * 2012; Master's, Massachusetts Institute of Technology, 2008; Doctorate, Massachusetts Institute of Technology, 2013
GUESTRIN, CARLOS E * 2012; Master's, Stanford University, 2000; Doctorate, Stanford University, 2003
HEER, JEFFREY M * 2013; Master's, University of California-Berkeley, 2004; Doctorate, University of California-Berkeley, 2008
KAKADE, SHAM * 2015; Doctorate, University College London, 2003
LEE, SU-IN * 2009; Doctorate, Stanford University, 2010
OSKIN, MARK H. * 2001; Master's, University of California-Davis, 2000; Doctorate, University of California-Davis, 2001
PARikh, TAPAN S * 1997; Master's, University of Washington-Seattle Campus, 1999; Doctorate, University of Washington-Seattle Campus, 2007
RAO, ANUP * 2010; Doctorate, The University of Texas, 2007
SMITH, NOAH A * 2014; Master's, Johns Hopkins University, 2004; Doctorate, Johns Hopkins University, 2006
SRINIVASA, SIDDHARTHA * 2017; Doctorate, Carnegie Mellon University, 2005
TAYLOR, MICHAEL BEDFORD * 2017; Master's, Massachusetts Institute of Technology, 1999; Doctorate, Massachusetts Institute of Technology, 2007
ZETTLEMOYER, LUKE S * 2010; Master's, Massachusetts Institute of Technology, 2003; Doctorate, Massachusetts Institute of Technology, 2009

Assistant Professors
AGARWAL, SAMEER * 2006; Doctorate, University of California-San Diego, 2006
ALAGHI, ARMIN, 2015; Master's, University of Tehran, 2009; Doctorate, University of Michigan-Ann Arbor, 2015
BO, LIE FENG * 2010; Doctorate, Xidian University, 2007
CAKMAK, MAYA * 2013; Master's, Middle East Technical University, 2007; Doctorate, Georgia Institute of Technology-Main Campus, 2012
CHEUNG, ALVIN K * 2014; Master's, Stanford University, 2004; Doctorate, Massachusetts Institute of Technology, 2015
HAJISHIRZI, HANNANEH * 2012; Doctorate, University of Illinois at Urbana-Champaign, 2011; Master's, University of Illinois at Urbana-Champaign, 2011
HARROW, ARAM WETTROTH * 2010; Doctorate, Massachusetts Institute of Technology, 2005
HEIMERL, KURTIS L. * 2002; Master's, University of California-Berkeley, 2009; Doctorate, University of California-Berkeley, 2013
JAMIESON, KEVIN G * 2017; Master's, Columbia University in the City of New York, 2010; Doctorate, University of Wisconsin-Madison, 2015
JUST, RENE, 2018; Doctorate, Universität Ulm, 2013
KEMELMAHER, IRENA * 2009; Master's, Weizmann Institute of Science, 2004; Doctorate, Weizmann Institute of Science, 2009
LEE, YIN TAT, 2017; Doctorate, Massachusetts Institute of Technology, 2016
LEVINE, SERGEY V * 2011; Master's, Stanford University, 2009; Doctorate, Stanford University, 2014
MUNSON, SEAN A * 2010; Doctorate, University of Michigan-Ann Arbor, 2012
OVEIS GHARAN, SHAYAN * 2015; Doctorate, Stanford University, 2013  
PHILIPOSE, MATTHAI * 1994; Master's, University of Washington-Seattle Campus, 1995; Doctorate, University of Washington-Seattle Campus, 2005  
PORTS, DANIEL ROBERT KENNE * 2012; Master's, Massachusetts Institute of Technology, 2007; Doctorate, Massachusetts Institute of Technology, 2012  
REINECKE, KATHARINA * 2015; Master's, Universität Koblenz Landau, 2006; Doctorate, Universität Zürich, 2010  
ROESNER, FRANZISKA * 2009; Master's, University of Washington-Seattle Campus, 2011; Doctorate, University of Washington-Seattle Campus, 2014  
SCHULZ, ADRIANA , 2018  
TATLOCK, ZACHARY L * 2013; Doctorate, University of California-San Diego, 2013  
TORLAK, EMINA * 2014; Master's, Massachusetts Institute of Technology, 2004; Doctorate, Massachusetts Institute of Technology, 2009  
WANG, XI * 2014; Master's, Tsinghua University , 2008; Doctorate, Massachusetts Institute of Technology, 2014  
WANG, YULIANG * 2016; Doctorate, University of Illinois at Urbana-Champaign, 2013; Master's, University of Illinois at Urbana-Champaign, 2013

Senior Lecturers  
ANDERSON, RUTH ELIZABETH , 1991; Master's, University of Washington-Seattle Campus, 1994; Doctorate, University of Washington-Seattle Campus, 2006  
HEMINGWAY, BRUCE RAY , 2002  
MONES, BARBARA , 1999; Master's, Rhode Island School of Design, 1979  
PERKINS, JOHN H. JR. , 1998; Master's, Cornell University, 1982

Lecturers  
BRICKER, LAUREN J , 2017; Master's, University of Washington-Seattle Campus, 1993; Doctorate, University of Washington-Seattle Campus, 1998  
BURKE, NATALIE , 2017  
FRIEDMAN, MARK BRIAN , 2018  
FUNG, ZORAH LEA , 2011; Master's, University of Washington-Seattle Campus, 2015  
HSIA, JUSTIN EZEKIEL , 2016; Master's, University of California-Berkeley, 2011; Doctorate, University of California-Berkeley, 2015  
HULTEN, GEOFF J. , 2018  
HUNT, DAVID G , 2000  
MAAS, RYAN W. , 2006  
MARTIN BRUALLA, RICARDO , 2018  
REGES, STUART THOMAS , 2004; Master's, Stanford University, 1982  
SANKAR, ADITYA , 2009  
SCHAFTER, HUNTER A , 2014  
ZATLOUKAL, KEVIN , 1997
Electrical Engineering

Professors

AMIRPARVIZ, BABAK * 2003; Master's, University of Michigan-Ann Arbor, 1997; Master's, University of Michigan-Ann Arbor, 2001; Doctorate, University of Michigan-Ann Arbor, 2001
ANANTRAM, MANJERI * 2008; Master's, Pune University, 1989; Doctorate, Purdue University-Main Campus, 1995
ATAL, BISHNU * 2002; Doctorate, American Institute, 1968
ATLAS, LES EUGENE * 1983; Master's, Stanford University, 1978; Doctorate, Stanford University, 1984
BERNARD, GARY D * 1989; Master's, University of Washington-Seattle Campus, 1960; Doctorate, University of Washington-Seattle Campus, 1965
BILMES, JEFFREY A * 1999; Master's, Massachusetts Institute of Technology, 1993; Doctorate, University of California-Berkeley, 1999
BOHRINGER, KARL F. * 1998; Doctorate, Cornell University, 1997
BUSHNELL, LINDA GRACE * 2000; Master's, University of Connecticut, 1987; Master's, University of California-Berkeley, 1989; Doctorate, University of California-Berkeley, 1994
CHIZECK, HOWARD JAY * 1998; Master's, Case Western Reserve University, 1976; Doctorate, Massachusetts Institute of Technology, 1982
DANIELS, PATRICIA D * 1982; Doctorate, University of California-Berkeley, 1973
DARLING, ROBERT B * 1985; Master's, Georgia Institute of Technology-Main Campus, 1982; Doctorate, Georgia Institute of Technology-Main Campus, 1985
DENG, LI * 2000; Master's, University of Wisconsin Colleges, 1984; Doctorate, University of Wisconsin Colleges, 1986
DING, KUNG-HAU * 1982; Master's, University of Washington-Seattle Campus, 1983; Master's, University of Washington-Seattle Campus, 1985; Doctorate, University of Washington-Seattle Campus, 1989
DUNHAM, SCOTT T. * 1999; Master's, Stanford University, 1980; Doctorate, Stanford University, 1985
EHRENBERG, JOHN E * 1982; Master's, Massachusetts Institute of Technology, 1968; Doctorate, University of Washington-Seattle Campus, 1973
EL-SHARKAWI, MOHAMED A * 1982; Master's, University of British Columbia, 1977; Doctorate, University of British Columbia, 1980
FALK, ROBERT AARON * 1995; Master's, University of Washington-Seattle Campus, 1974; Doctorate, University of Washington-Seattle Campus, 1979
GOLDSTEIN, EVAN * 2004; Master's, Columbia University, 1977; Master's, Columbia University, 1981; Master's, Columbia University, 1986; Doctorate, Columbia University, 1989
GOODSON, ANTHONY P * 1993; Master's, University of Washington-Seattle Campus, 1994; Doctorate, University of Washington-Seattle Campus, 1998
HANNAFORD, BLAKE * 1989; Master's, University of California-Berkeley, 1982; Doctorate, University of California-Berkeley, 1985
HASSAN, AMER * 2012; Master's, University of Kansas, 1984; Doctorate, University of Michigan-Ann Arbor, 1988
HAUCK, SCOTT * 1990; Master's, University of Washington-Seattle Campus, 1992; Doctorate, University of Washington-Seattle Campus, 1995
HE, XIAODONG * 2012; Master's, University of Science and Technology of China, 1999; Doctorate, University of Missouri-Columbia, 2003
HENDERSON, THOMAS R * 2002; Doctorate, University of California-Berkeley, 1999
HUANG, XUEDONG * 1997; Master's, Tsinghua University, 1984; Doctorate, University of Edinburgh, 1989
HWANG, JENQ-NENG * 1989; Master's, National Taiwan University, 1983; Doctorate, University of Southern California, 1988
KIRCHHOFF, KATRIN * 1999; Doctorate, Universität Bielefeld, 1999
KIRSCHEK, DANIEL SADI * 2011; Doctorate, University of Wisconsin-Madison, 1985
KLAVINS, ERIC * 2003; Master's, University of Michigan-Ann Arbor, 1998; Doctorate, University of Michigan-Ann Arbor, 2001
KUGA, YASUO * 1982; Master's, University of Washington-Seattle Campus, 1979; Doctorate, University of Washington-Seattle Campus, 1983
LI, MIKE P * 2010; Master's, University of Alabama, 1987; Master's, University of Alabama, 1991; Doctorate, University of Alabama, 1991
LIN, LIH-YUAN * 2003; Doctorate, University of California-Los Angeles, 1996; Master's, University of California-Los Angeles, 1996
LIU, HUI * 1998; Master's, Portland State University, 1992; Doctorate, The University of Texas, 1995
LIU, ZICHENG * 2012; Master's, University of Science and Technology of China, 1989; Doctorate, Princeton University, 1996
MALVAR, HENRIQUE S * 2000; Master's, Universidade Federal do Rio de Janeiro (UFRJ), 1979; Doctorate, Massachusetts Institute of Technology, 1986
MAMISHEV, ALEXANDER V * 1999; Master's, The University of Texas, 1994; Doctorate, Massachusetts Institute of Technology, 1999
NELSON, BRIAN A. * 1987; Master's, University of Wisconsin Colleges, 1983; Doctorate, University of Wisconsin-Madison, 1987
OSTENDORF, MARI * 1999; Master's, Stanford University, 1981; Doctorate, Stanford University, 1985
POOVENDRAN, RAADHAKRISHNAN * 2000; Master's, University of Michigan-Ann Arbor, 1991; Doctorate, University of Maryland-University College, 1999
RISKIN, EVE A * 1990; Master's, Stanford University, 1984; Master's, Stanford University, 1986; Doctorate, Stanford University, 1990
RITCEY, JAMES A * 1985; Master's, Syracuse University, 1980; Doctorate, University of California-San Diego, 1985
ROY, SUMIT * 1998; Master's, University of California-Santa Barbara, 1985; Doctorate, University of California-Santa Barbara, 1988
SAHR, JOHN D. * 1991; Doctorate, Cornell University, 1990
SHI, CHUAN-JIN RICHARD * 1998; Master's, Fudan University, 1988; Master's, University of Waterloo, 1991; Doctorate, University of Waterloo, 1994
SOMA, MANI * 1982; Master's, Stanford University, 1977; Doctorate, Stanford University, 1980
SUN, MING-TING * 1996; Master's, The University of Texas at Arlington, 1981; Doctorate, University of California-Los Angeles, 1985
VENKATA, SUBRAHMANYAM S * 1982; Master's, Indian Institute of Technology Delhi, 1966; Doctorate, University of South Carolina-Columbia, 1971
WILSON, DENISE M * 1999; Master's, Georgia Institute of Technology-Main Campus, 1989; Doctorate, Georgia Institute of Technology-Main Campus, 1995
WU, FENG * 2008; Master's, Harbin Institute of Technology, 1996; Doctorate, Harbin Institute of Technology, 1999
ZURK, LISA , 2018

Associate Professors
BRAUNISCH, HENNING * 2009; Master's, Michigan State University, 1995; Master's, Universität Hannover, 1996; Doctorate, Massachusetts Institute of Technology, 2001
CHRISTIE, RICHARD DUNSTAN * 1989; Master's, Rensselaer Polytechnic Institute, 1974; Doctorate, Carnegie Mellon University, 1989
FAZEL SARJOUI, MARYAM * 2007; Master's, Stanford University, 1997; Doctorate, Stanford University, 2002
FERIS, ROGERIO SCHMIDT * 2008; Master's, Universidade de São Paulo (USP), 2001; Doctorate, University of California-Santa Barbara, 2006
GIRI, JAY * 1990; Master's, Stony Brook University, 1971; Doctorate, Clark University, 1977
LIGER, MATTHIEU * 2011; Doctorate, California Institute of Technology, 2006
LIND, FRANK D * 1990; Doctorate, University of Washington-Seattle Campus, 1999
MIGUEL, AGNIESZKA C * 1997; Master's, Florida Atlantic University, 1996; Doctorate, University of Washington-Seattle Campus, 2001
NIKITIN, PAVEL * 2002; Master's, Utah State University, 1998; Doctorate, Carnegie Mellon University, 2002
REYNOLDS, MATTHEW STEPHEN * 2013; Master's, Massachusetts Institute of Technology, 1999; Doctorate, Massachusetts Institute of Technology, 2003
ROSEN, JACOB * 1997; Master's, Tel Aviv University, 1993; Doctorate, Tel Aviv University, 1997
RUDSELL, JACQUES CHRISTOPHE * 2009; Master's, University of California-Berkeley, 1994; Doctorate, University of California-Berkeley, 2000
SEELIG, GEORG * 2009
SHMULEVICH, ILYA * 2006; Master's, Purdue University-Main Campus, 1993; Doctorate, Purdue University-Main Campus, 1997
VENEMA, STEVEN C * 1991; Master's, University of Washington-Seattle Campus, 1994; Doctorate, University of Washington-Seattle Campus, 1999
WANG, XUDONG * 2008; Doctorate, Shanghai Jiao Tong University , 1997; Doctorate, Georgia Institute of Technology-Main Campus, 2003

Assistant Professors
ALOMAIR, BASEL SALEH * 2005; Master's, University of Wisconsin Colleges, 2003; Doctorate, University of Washington-Seattle Campus, 2011
BURDEN, SAMUEL A. * 2004; Doctorate, University of California-Berkeley, 2014
COOPER, EMILY * 2011; Doctorate, Massachusetts Institute of Technology, 2003
FARQUHARSON, GORDON * 2009; Master's, University of Cape Town, 1999; Doctorate, University of Massachusetts, 2005
GOPE, DIPANJAN * 2000; Master's, University of Washington-Seattle Campus, 2003; Doctorate, University of Washington-Seattle Campus, 2005
GRAY, ANDREW A * 2010; Master's, Johns Hopkins University, 1997; Doctorate, University of Southern California, 2000
JOHNSON, BRIAN * 2017
KANNAN, SREERAM * 2014; Master's, All India Institute of Medical Sciences, 2008; Doctorate, University of Illinois at Urbana-Champaign, 2012
LOUIE, HENRY * 2004; Master's, University of Illinois at Urbana-Champaign, 2004; Doctorate, University of Washington-Seattle Campus, 2008
MAJUMDAR, ARKA * 2013; Master's, Stanford University, 2009; Doctorate, Stanford University, 2012
ORSBORN, AMY , 2016; Doctorate, University of California-Berkeley, 2013
ORTEGA VAZQUEZ, MIGUEL A , 2012; Master's, Universidad Autónoma de Nuevo León, 2001; Doctorate, University of Manchester, 2006
RATLIFF, LILLIAN JANE * 2015; Master's, University of Southern Nevada, 2010; Doctorate, University of California-Berkeley, 2015
SATHE, VISVESH * 2013; Master's, University of Michigan-Ann Arbor, 2003; Doctorate, University of Michigan-Ann Arbor, 2007
WEISS, DIRK NICOLAS * 2007
ZHANG, BAosen * 2015; Doctorate, University of California-Berkeley, 2013

Senior Lecturer
CHEN, TAI-CHANG , 1991; Master's, University of Washington-Seattle Campus, 1993; Doctorate, University of Washington-Seattle Campus, 1997

Lecturers
HUSSEIN, RANIA * 2012
PECKOL, JAMES * 1984; Master's, University of Washington-Seattle Campus, 1975; Doctorate, University of Washington-Seattle Campus, 1985
SLOSS, ANDREW N , 2005

Human-Centered Design and Engineering

Professors
ARAGON, CECILIA * 2010; Master's, University of California-Berkeley, 1987; Doctorate, University of California-Berkeley, 2004
ATMAN, CYNTHIA J. * 1998; Master's, Ohio State University Agricultural Technical Institute, 1983; Doctorate, Carnegie Mellon University, 1990
HASELKORN, MARK P * 1985; Master's, University of Michigan-Ann Arbor, 1973; Doctorate, University of Michigan-Ann Arbor, 1977
KOLKO, BETH E * 2000; Master's, The University of Texas, 1991; Doctorate, The University of Texas, 1994
MCDONALD, DAVID W * 2002; Master's, California State University, 1992; Master's, University of California-Irvine, 1995; Doctorate, University of California-Irvine, 2000

Associate Professors
SPYRIDAKIS, JAN * 1982; Master's, University of Washington-Seattle Campus, 1972; Doctorate, University of Washington-Seattle Campus, 1986
TURNS, JENNIFER A. * 1999; Master's, Virginia University of Lynchburg, 1990; Doctorate, Georgia Institute of Technology-Main Campus, 1999
ZACHRY, MARK R * 2006; Master's, Arizona State University, 1992; Doctorate, Iowa State University, 1998
HSIEH, GARY * 2013; Doctorate, Carnegie Mellon University, 2010
KIENTZ, JULIE A * 2008; Doctorate, Georgia Institute of Technology-Main Campus, 2008
LEE, CHARLOTTE P * 2008; Master's, San Jose State University, 1997; Doctorate, University of California-Los Angeles, 2004
RIBES, DAVID * 2015; Master's, McGill University, 2000; Doctorate, University of California-San Diego, 2006

Assistant Professors
FINDLATER, LEAH K * 2017; Master's, University of British Columbia, 2004; Doctorate, University of British Columbia, 2009
HANAFI, ZAKIYA , 1991; Master's, University of British Columbia, 1987; Doctorate, Stanford University, 1991; Doctorate, Stanford University, 1991
MAINWARING, SCOTT D. , 2018; Doctorate, Stanford University, 1994
PEEK, NADYA M * 2018; Master's, Massachusetts Institute of Technology, 2010; Doctorate, Massachusetts Institute of Technology, 2016
ROSNER, DANIELA K * 2013; Master's, University of Chicago, 2006; Doctorate, University of California-Berkeley, 2008
STARBIRD, CATHARINE E * 2012; Doctorate, University of Colorado at Boulder, 2012

Senior Lecturers
CRAFT, BROCK R * 2015; Master's, DePaul University, 2001; Doctorate, University College London, 2007
DAVIDSON, ANDREW H. , 2006; Master's, University of Pennsylvania, 1982
SANOCKI, ELIZABETH , 1988; Doctorate, University of Washington-Seattle Campus, 1994
WAGNER, LINDA E * 2013; Master's, Illinois Institute of Technology, 1998

Lecturers
ALTMAN, MICHAEL , 2015; Bachelor's, Northeastern University, 2009
BAUER, JARED S , 2009
BEACH, LINDSAY B , 2017
BRUNDRETT, ALEXANDER , 2018
ELRIF, PAUL M , 2017
FOX, TYLER STEVEN * 1998; Master's, University of Auckland, 2004; Doctorate, Simon Fraser University, 2015
HALL, CHAD , 2018
HENDRICKS, DIANNE G. , 2013; Doctorate, Duke University, 2010; Doctorate, Duke University, 2010
HILLMAN, SERENA , 2018
IRANI, XERXES , 2018
KIM, DANIELLA , 1999
MANNHEIMER, NATHAN R , 2017
MEHLMAN, GABRIELLE , 2018
MORGAN, JONATHAN , 2017; Doctorate, University of Washington-Seattle Campus, 2013; Doctorate, University of Washington-Seattle Campus, 2013
NEELY, TAMARA L , 2018
SPENCE, JEANINE , 2018
SPYRIDAKIS, IRINI K , 2007
ZUBEREC, SARAH E , 2014
Industrial and Systems Engineering

Professors
BOYLE, LINDA T. * 1992; Master's, University of Washington-Seattle Campus, 1994; Doctorate, University of Washington-Seattle Campus, 1998
FURNESS, THOMAS A * 1989; Doctorate, University of Southampton, 1981
GHATE, ARCHIS VIJAY * 2006; Master's, Stanford University, 2003; Doctorate, University of Michigan-Ann Arbor, 2006
ZABINSKY, ZELDA * 1985; Master's, University of Michigan-Ann Arbor, 1984; Doctorate, University of Michigan-Ann Arbor, 1985

Associate Professors
KUCUKYAVUZ, SIMGE * 2016; Master's, University of California-Berkeley, 2000; Doctorate, University of California-Berkeley, 2004
MASTRANGELO, CHRISTINA M. * 2002; Master's, Arizona State University, 1990; Doctorate, Arizona State University, 1993

Assistant Professors
BANERJEE, ASHIS G * 2015; Master's, University of Maryland-University College, 2006; Doctorate, University of Maryland-University College, 2009
CHOE, YOUNGJUN * 2016; Doctorate, University of Michigan-Ann Arbor, 2016; Master's, University of Michigan-Ann Arbor, 2016
HUANG, SHUAI * 2014; Doctorate, Arizona State University, 2012
KIM, JI-EUN * 2017; Doctorate, Pennsylvania State University-Main Campus, 2017
LIU, SHAN * 2013; Master's, Massachusetts Institute of Technology, 2008; Doctorate, Stanford University, 2013
RAJIVAN, PRASHANTH, 2018; Doctorate, Arizona State University, 2014

Lecturers
CLAPP III, EDMUND DONALD, 2015; Master's, University of Washington-Seattle Campus, 1988
MANTEY, KRISTINE D, 2009; Master's, Seattle University, 2002
MONTGOMERY, STEPHEN W, 2009; Master's, Purdue University-Main Campus, 1996; Doctorate, Purdue University-Main Campus, 1996; Master's, University of Washington-Seattle Campus, 2008

Materials Science and Engineering

Professors
CAO, GUOZHONG * 1996; Master's, University of Science and Technology of China, 1985; Doctorate, Eindhoven University of Technology, 1991
DAS, K BHAGWAN, 1982; Master's, Osmania University, 1956; Master's, Purdue University-Main Campus, 1961
DE YOREO, JAMES J. * 2013; Doctorate, Cornell University, 1985
HINDS, BRUCE JACKSON III * 2014; Master's, Northwestern University, 1992; Doctorate, Northwestern University, 1996
KRISHNAN, KANNAN * 2001; Master's, Stony Brook University, 1980; Doctorate, University of California-Berkeley, 1984
LUSCOMBE, CHRISTINE K. * 2006; Master's, University of Cambridge, 2003; Doctorate, University of Cambridge, 2005
OHUCHI, FUMIO * 1992; Master's, Sophia University, 1974; Doctorate, University of Florida, 1981
SARIKAYA, MEHMET * 1984; Master's, University of California-Berkeley, 1979; Doctorate, University of California-Berkeley, 1982
YANG, JIHUI * 2011; Master's, University of Oregon, 1991; Master's, Wayne State University, 1993; Doctorate, University of Michigan-Ann Arbor, 2000
ZHANG, MIQIN * 1999; Master's, University of Victoria, 1994; Doctorate, University of California-Berkeley, 1999

Associate Professors
AROLA, DWAYNE D * 1991; Master's, University of Washington-Seattle Campus, 1991; Doctorate, University of Washington-Seattle Campus, 1996
BRUSH, LUCIEN N * 1990; Master's, Carnegie Mellon University, 1984; Doctorate, Carnegie Mellon University, 1988
MACKENZIE, JOHN DEVIN * 2015; Master's, University of Florida, 1997; Doctorate, University of Florida, 1998
PAUZAUSKIE, PETER JOHN * 2010
ROLANDI, MARCO * 2008; Doctorate, Stanford University, 2005
TAMERLER-BEHAR, CANDAN * 2002; Doctorate, Bogazici University, 1997

Lecturers
COOK, DANIEL PAUL , 2017
HUANG, YUE , 2017

Mechanical Engineering

Professors
COOPER, JOYCE S. * 1998; Master's, Duke University, 1992; Doctorate, Duke University, 1996
DEPEW, CREIGHTON A , 1982; Master's, University of California-Berkeley, 1957; Doctorate, University of California-Berkeley, 1960
DEVASIA, SANTOSH * 2000; Master's, University of California-Santa Barbara, 1990; Doctorate, University of California-Santa Barbara, 1993
EMERY, ASHLEY F * 1961; Master's, University of California-Berkeley, 1958; Doctorate, University of California-Berkeley, 1961
FABIEN, BRIAN C. * 1993; Master's, Columbia University, 1983; Master's, Columbia University, 1990; Doctorate, Columbia University, 1990
FIREY, JOSEPH C , 1980; Master's, University of Wisconsin Colleges, 1941
GANTER, MARK * 1986; Master's, University of Wisconsin Colleges, 1981; Doctorate, University of Wisconsin-Madison, 1985
GAO, DAYONG * 2004; Doctorate, Concordia College, 1991
GARBINI, JOSEPH * 1979; Master's, University of Washington-Seattle Campus, 1973; Doctorate, University of Washington-Seattle Campus, 1977
HOMSY, GEORGE MITCHEL * 2013; Master's, University of Illinois at Urbana-Champaign, 1967; Doctorate, University of Illinois at Urbana-Champaign, 1969
KRAMLICH, JOHN C. * 1991; Master's, Washington State University, 1975; Doctorate, Washington State University, 1980
KUMAR, VIPIN * 1988; Master's, University of Rhode Island, 1972; Master's, University of Rhode Island, 1974; Doctorate, Massachusetts Institute of Technology, 1988
LI, JIANGYU * 2006; Master's, University of Colorado at Boulder, 1996; Master's, University of Colorado at Boulder, 1998; Doctorate, University of Colorado at Boulder, 1998
MALTE, PHILIP C * 1979; Master's, University of Michigan-Ann Arbor, 1966; Doctorate, University of Michigan-Ann Arbor, 1971
MAMIDALA, RAMULU * 1978; Master's, Indian Institute of Technology Delhi, 1976; Doctorate, University of Washington-Seattle Campus, 1982
POSNER, JONATHAN D * 2011; Master's, Not Provided, 1997; Master's, University of California-Irvine, 1998; Doctorate, University of California-Irvine, 2001
REINHALL, PER G * 1982; Master's, California Institute of Technology, 1978; Doctorate, California Institute of Technology, 1982
SEIBEL, ERIC J. * 1988; Master’s, University of California-Berkeley, 1984; Doctorate, University of Washington-Seattle Campus, 1996
SHEN, I-YEU * 1993; Master's, National Taiwan University, 1986; Doctorate, University of California-Berkeley, 1991
STORTI, DUANE W * 1983; Master's, Cornell University, 1981; Doctorate, Cornell University, 1983
TAGGART, RAYMOND , 1982; Doctorate, Queens University, 1956
TAYA, MINORU * 1986; Master's, Northwestern University, 1973; Doctorate, Northwestern University, 1977

**Associate Professors**
ALISEDA, ALBERTO * 2006; Master's, University of California-San Diego, 2000; Doctorate, University of California-San Diego, 2004
BERG, MARTIN C * 1986; Master's, University of Washington-Seattle Campus, 1978; Doctorate, Stanford University, 1986
CHUNG, JAEHYUN * 2005; Master's, Sungkyunkwan University, 1997; Doctorate, Northwestern University, 2004
COBB, CORIE * 2016; Master's, Stanford University, 2004; Doctorate, University of California-Berkeley, 2008
KIELING, WILLIAM C , 1956; Master's, University of Washington-Seattle Campus, 1959
KLUTE, GLENN K. * 1985; Master's, Pennsylvania State University-College of Medicine, 1990; Doctorate, University of Washington-Seattle Campus, 1999
LIU, JONATHAN * 2014; Master's, Stanford University, 2000; Doctorate, Stanford University, 2005
MESCHER, ANN M * 1996; Master's, Ohio State University Agricultural Technical Institute, 1992; Doctorate, Ohio State University Agricultural Technical Institute, 1995
POLAGYE, BRIAN L * 2002; Master's, University of Washington-Seattle Campus, 2005; Doctorate, University of Washington-Seattle Campus, 2009
SHUMAN, TEODORA RUTAR * 1992; Master's, University of Washington-Seattle Campus, 1994; Doctorate, University of Washington-Seattle Campus, 2000
SNIadecki, NATHAN JOHN * 2007; Doctorate, University of Maryland-University College, 2003; Master's, University of Maryland-University College, 2003
VERESS, ALEXANDER * 2006; Master's, Ohio State University Agricultural Technical Institute, 1995; Doctorate, Ohio State University Agricultural Technical Institute, 2000
WANG, JUNLAN * 2008; Master's, Huazhong University of Science and Technology, 1997; Doctorate, University of Illinois at Urbana-Champaign, 2002

Assistant Professors
AARABI, SHAHRAM , 2007; Medical Doctorate, New York University, 2007; Master's, New York University, 2007; Master's, Harvard University, 2010; Master's, Harvard University, 2010
AUBIN, PATRICK M. * 2004; Master's, University of Washington-Seattle Campus, 2006; Doctorate, University of Washington-Seattle Campus, 2010
BOECHLER, NICHOLAS S. * 2012; Master's, California Institute of Technology, 2008; Master's, California Institute of Technology, 2008
BRUNTON, STEVEN L. * 2012; Doctorate, Princeton University, 2012
FULLER, SAWYER BUCKMINSTER * 2015; Master's, Massachusetts Institute of Technology, 2004; Doctorate, California Institute of Technology, 2011
MAEDA, KAZUKI , 2018; Master's, California Institute of Technology, 2014; Doctorate, California Institute of Technology, 2018
MEZA, LUCAS R. , 2018; Master's, California Institute of Technology, 2013; Doctorate, California Institute of Technology, 2016
MUNDON, TIMOTHY ROY * 2015; Master's, University of Southern California, 1981; Doctorate, University of Southern California, 1984
NOVOSSELOV, IGOR * 1999; Master's, University of Washington-Seattle Campus, 2002; Doctorate, University of Washington-Seattle Campus, 2006
ROMBOKAS, ERIC SCOTT * 2005; Master's, Rice University, 2001; Doctorate, University of Washington-Seattle Campus, 2012
STEELE, KATHERINE M. * 2012; Master's, Stanford University, 2009; Doctorate, Stanford University, 2012
ZHANG, JANE , 2018; Master's, Boston University, 2008; Doctorate, Boston University, 2011

Senior Lecturer
JONES, JULIA H , 1983; Master's, University of Washington-Seattle Campus, 1991

College of the Environment

Aquatic and Fishery Sciences
Professors
ANDERSON, JAMES J * 1969; Doctorate, University of Washington-Seattle Campus, 1977
BEAUCHAMP, DAVID A. * 1982; Master's, University of Washington-Seattle Campus, 1982; Doctorate, University of Washington-Seattle Campus, 1987
ESSINGTON, TIMOTHY E. * 2003; Master's, University of Minnesota-Duluth, 1995; Doctorate, University of Wisconsin-Madison, 1999
FRIEDMAN, CAROLYN * 1984; Doctorate, University of California-Davis, 1990
GALLUCCI, VINCENT * 1900; Master's, New York University, 1966; Doctorate, North Carolina A and T State University, 1971
HAUSER, LORENZ * 2002; Master's, University of Wales, 1990; Doctorate, University of Wales, 1996
HILBORN, RAY * 1987; Doctorate, University of British Columbia, 1974
HORNE, JOHN K. * 1999; Master's, Dalhousie University, 1988; Doctorate, Memorial University of Newfoundland, 1995
HUNT, GEORGE L * 2004; Doctorate, Harvard University, 1971
MATTHEWS, STEPHEN B, 1972; Master's, University of California-Berkeley, 1962; Doctorate, University of Washington-Seattle Campus, 1967
NAISH, KERRY-ANN * 2000; Master's, Rhodes University, 1990; Doctorate, University of Wales, 1993
OLDEN, JULIAN D. * 2006; Master's, University of Toronto, 2000; Doctorate, Colorado State University, 2004
PARRISH, JULIA * 1990; Doctorate, Duke University, 1988
PUNT, ANDRE * 1992; Master's, University of Cape Town, 1988; Doctorate, University of Cape Town, 1991
QUINN, THOMAS P. * 1986; Master's, University of Washington-Seattle Campus, 1978; Doctorate, University of Washington-Seattle Campus, 1981
SCHINDLER, DANIEL E. * 1997; Master's, University of Wisconsin-Madison, 1992; Doctorate, University of Wisconsin-Madison, 1995
SEEB, JAMES * 2007; Master's, University of Washington-Seattle Campus, 1982; Doctorate, University of Washington-Seattle Campus, 1987
SEEB, LISA * 2007; Master's, The University of Montana, 1977; Doctorate, University of Washington-Seattle Campus, 1986
SKALSKI, JOHN RAYMOND * 1987; Master's, Oregon State University, 1976; Master's, Cornell University, 1978; Doctorate, Cornell University, 1985
YOUNG, GRAHAM * 2004; Doctorate, University of Sheffield, 1980

Associate Professors
ANDERSON, CHRISTOPHER M. * 2012; Doctorate, California Institute of Technology, 2001
BRANCH, TREVOR * 2000; Master's, University of Cape Town, 1998; Doctorate, University of Washington-Seattle Campus, 2004
PAULEY, GILBERT B., 1983; Master's, University of Washington-Seattle Campus, 1965; Doctorate, University of California-Irvine, 1971
ROBERTS, STEVEN * 2006; Doctorate, University of Notre Dame, 2002
VANBLARICOM, GLENN R. * 1993; Doctorate, University of California-San Diego, 1978

Assistant Professors
BERDAHL, ANDREW, 2017
HOLTGRIEVE, GORDON W. * 2003; Master's, Stanford University, 2001; Doctorate, University of Washington-Seattle Campus, 2009
PADILLA GAMINO, JACQUELINE * 2016; Master's, California State University-Northridge, 2005; Doctorate, University of Hawaii, 2011
TORNABENE, LUKE M. * 2016; Master's, Texas A and M University-Corpus Christi, 2010; Doctorate, Texas A and M University-Corpus Christi, 2014
WOOD, CHELSEA L. * 2016; Doctorate, Stanford University, 2013
Atmospheric Sciences

Professors
ACKERMAN, THOMAS P * 2002; Master's, University of Washington-Seattle Campus, 1971; Doctorate, University of Washington-Seattle Campus, 1976
BATTISTI, DAVID S * 1983; Master's, University of Washington-Seattle Campus, 1981; Doctorate, University of Washington-Seattle Campus, 1988
BITZ, CECILIA * 1988; Master's, University of Washington-Seattle Campus, 1990; Doctorate, University of Washington-Seattle Campus, 1997
BRETHERTON, CHRISTOPHER S * 1984; Doctorate, Massachusetts Institute of Technology, 1984
CHEN, SHUYI * 1900
DURRAN, DALE R * 1987; Master's, University of California-Berkeley, 1975; Doctorate, Massachusetts Institute of Technology, 1981
FU, QIANG * 2000; Master's, Peking University, 1985; Doctorate, University of Utah, 1991
HAKIM, GREGORY J * 1999; Master's, SUNY at Albany, 1993; Doctorate, SUNY at Albany, 1997
HARTMANN, DENNIS L * 1977; Master's, Princeton University, 1973; Doctorate, Princeton University, 1975
JAEGLE, LYATT * 2000; Doctorate, California Institute of Technology, 1996
MASS, CLIFFORD F * 1981; Doctorate, University of Washington-Seattle Campus, 1978
OVERLAND, JAMES E * 1983; Master's, University of Washington-Seattle Campus, 1971; Doctorate, New York University, 1973
THORNTON, JOEL A. * 2004; Doctorate, University of California-Berkeley, 2002
WOOD, ROBERT * 2001; Doctorate, University of Manchester, 1997

Associate Professors
FRIERSON, DARGAN M * 2007; Master's, Princeton University, 2002; Doctorate, Princeton University, 2005
MARCHAND, ROGER T * 2007; Master's, Virginia Polytechnic Institute and State University, 1993; Doctorate, Virginia Polytechnic Institute and State University, 1997
SUSS, BECKY ALEXANDER * 2004; Doctorate, University of California-San Diego, 2002

Assistant Professors
KIM, DAEHYUN * 2014; Doctorate, Seoul National University, 2010
SWANN, ABIGAIL * 2012; Master's, Columbia University, 2005; Doctorate, University of California-Berkeley, 2010

Earth and Space Sciences

Professors
ATWATER, BRIAN F * 1986; Master's, Stanford University, 1974; Doctorate, University of Delaware, 1980
BERGANTZ, GEORGE W * 1988; Master's, Georgia Institute of Technology-Main Campus, 1985; Doctorate, Johns Hopkins University, 1988
BODIN, PAUL A * 2006; Master's, Humboldt State University, 1981; Doctorate, University of Colorado at Boulder, 1992
BOOTH, DEREK B * 1982; Master's, Stanford University, 1980; Doctorate, University of Washington-Seattle Campus, 1984
BROWN, J MICHAEL * 1984; Master's, University of Washington-Seattle Campus, 1978; Doctorate, University of Minnesota-Duluth, 1980
BUICK, ROGER * 2001; Doctorate, University of Western Australia, 1986
CATLING, DAVID C. * 2001; Doctorate, University of Oxford, 1994
CONWAY, HOWARD B * 1987; Doctorate, University of Canterbury, 1986
CREAGER, KENNETH C * 1986; Doctorate, University of California-San Diego, 1984
GOMBERG, JOAN * 2006; Doctorate, University of California-San Diego, 1986
GONZALEZ, FRANK IGNACIO * 2005; Doctorate, University of Hawaii, 1974
GREENE, MOTT T * 1984; Master's, University of Washington-Seattle Campus, 1974; Doctorate, University of Washington-Seattle Campus, 1978
HALLET, BERNARD * 1980; Doctorate, University of California-Los Angeles, 1975
HOLZWORTH, ROBERT * 1982; Master's, University of California-Berkeley, 1974; Doctorate, University of California-Berkeley, 1977
HOUSTON, HEIDI B * 2006; Master's, University of Wisconsin-Madison, 1980; Doctorate, California Institute of Technology, 1987
LANCASTER, NICHOLAS, 2015; Master's, University of Cambridge, 1975; Doctorate, University of Cambridge, 1977
MONTGOMERY, DAVID R * 1991; Doctorate, University of California-Berkeley, 1991
NELSON, BRUCE K. * 1986; Master's, University of Kansas, 1980; Doctorate, University of California-Los Angeles, 1985
OWEN, LEWIS ANDREW, 2015; Doctorate, University of Leicester, 1988
RICHARDS, MARK ALAN, 2018
ROE, GERARD H * 1999; Doctorate, Massachusetts Institute of Technology, 1999
SACK, RICHARD O * 1993; Master's, Harvard University, 1975; Doctorate, Harvard University, 1979
SCHREIBER, B. CHARLOTTE * 2005; Master's, Rutgers University-Camden, 1966; Doctorate, Rensselaer Polytechnic Institute, 1974
STEIG, ERIC J * 1989; Master's, University of Washington-Seattle Campus, 1992; Doctorate, University of Washington-Seattle Campus, 1996
TOBIN, HAROLD JAMES * 2018
VIDALE, JOHN E * 2006; Doctorate, California Institute of Technology, 1986; Doctorate, California Institute of Technology, 1987
WADDINGTON, EDWIN D * 1984; Master's, University of Alberta, 1973; Doctorate, University of British Columbia, 1981
WINGLEE, ROBERT M * 1991; Doctorate, University of Sydney, 1984

Associate Professors
ABRAMSON, EVAN H. * 1988; Doctorate, Massachusetts Institute of Technology, 1985
BANDFIELD, JOSHUA LOUIS * 2017
CRIDER, JULIET G * 1991; Master's, University of Washington-Seattle Campus, 1993; Doctorate, Stanford University, 1998
GORMAN-LEWIS, DREW J * 2008; Doctorate, University of Notre Dame, 2006
HARNETT, ERIKA * 1995; Master's, University of Washington-Seattle Campus, 1998; Doctorate, University of Washington-Seattle Campus, 2003
HUNTINGTON, KATHARINE W * 2008; Doctorate, Massachusetts Institute of Technology, 2006
MCCARTHY, MICHAEL P * 1978; Master's, Western Washington University, 1980; Doctorate, University of Washington-Seattle Campus, 1988
NESBITT, ELIZABETH A. * 1993; Doctorate, University of California-Berkeley, 1982
SCHMIDT, DAVID A * 2012; Doctorate, University of California-Berkeley, 2002
SLETEN, RONALD S * 1983; Master's, University of Washington-Seattle Campus, 1987; Doctorate, University of Washington-Seattle Campus, 1995
STONE, JOHN O.H. * 1998; Doctorate, University of Cambridge, 1986
TENG, FANGZHEN * 2012; Doctorate, University of Maryland-University College, 2005

Assistant Professors
CHRISTIANSON, KNUT * 2014; Doctorate, Pennsylvania State University-College of Medicine, 2012
DUVALL, ALISON R * 2012; Master's, University of California-Santa Barbara, 2003; Doctorate, University of Michigan-Ann Arbor, 2011
FUDGE, TYLER JEFFREY * 2007; Master's, University of Wyoming, 2005; Master's, University of Minnesota-Duluth, 2007; Doctorate, University of Washington-Seattle Campus, 2013
KOUTNIK, MICHELLE R * 2002; Doctorate, University of Washington-Seattle Campus, 2009
LICHT, ALEXIS GERMAIN A * 2015; Master's, École des Mines de Paris, 2009; Master's, École Polytechnique (France), 2009; Doctorate, Université de Poitiers, 2013
MORIARTY, ERIN W * 2014; Master's, Yale University, 2011; Doctorate, Yale University, 2014
SHERROD, BRIAN L * 1995; Master's, University of Pittsburgh-Bradford, 1989; Doctorate, University of Washington-Seattle Campus, 1998
TONER, JONATHAN DANIEL * 2006; Doctorate, University of Washington-Seattle Campus, 2012
ZIEMBA, TIMOTHY M * 1998; Master's, University of Washington-Seattle Campus, 1997; Doctorate, University of Washington-Seattle Campus, 2003

Senior Lecturers
COLLINS, BRIAN D * 1983; Master's, University of Washington-Seattle Campus, 1984; Doctorate, University of Washington-Seattle Campus, 2009
TROOST, KATHY G. * 1996; Master's, University of Washington-Seattle Campus, 1999; Doctorate, University of Washington-Seattle Campus, 2012
WALTERS, STEVEN, 2006; Master's, Purdue University-Main Campus, 1994; Doctorate, University of Maryland-University College, 2002

Lecturer
SWANSON, TERRY W * 1988; Master's, University of California-Davis, 1989; Doctorate, University of Washington-Seattle Campus, 1994

Environmental and Forest Sciences

Professors
ALLAN, G GRAHAM * 1966; Doctorate, University of Glasgow, 1956; Doctorate, University of Strathclyde, 1971
AUBRY, KEITH B * 1983; Master's, Yale University, 1977; Doctorate, University of Washington-Seattle Campus, 1983
BORMANN, BERNARD * 1984; Master's, University of Washington-Seattle Campus, 1978; Doctorate, Oregon State University, 1981
BROWN, DANIEL G , 2018; Master's, University of North Carolina at Chapel Hill, 1989; Doctorate, University of North Carolina at Chapel Hill, 1992
BROWN, SALLY L. * 1998; Master's, University of Maryland-University College, 1993; Doctorate, University of Maryland-University College, 1996
DOTY, SHARON L * 1989; Doctorate, University of Washington-Seattle Campus, 1995
EASTIN, IVAN * 1987; Master's, Michigan Technological University, 1985; Master's, University of Washington-Seattle Campus, 1989; Doctorate, University of Washington-Seattle Campus, 1992
FRANKLIN, JERRY F * 1986; Master's, Oregon State University, 1961; Master's, Oregon State University, 1961; Doctorate, Washington State University, 1966
FRIDLEY, JAMES * 1982; Master's, Michigan State University, 1980; Doctorate, University of Washington-Seattle Campus, 1984
GRAUMLICH, LISA J * 2010; Master's, University of Wisconsin Colleges, 1978; Doctorate, University of Washington-Seattle Campus, 1985
GUSTAFSON, RICHARD ROY * 1986; Doctorate, University of Washington-Seattle Campus, 1982
HALPERN, CHARLES * 1991; Doctorate, Oregon State University, 1987
HARRISON, ROBERT B. * 1987; Master's, University of New Hampshire, 1981; Doctorate, Auburn University-Montgomery, 1985
LAWLER, JOSHUA J * 2007; Master's, Utah State University, 1997; Doctorate, Utah State University, 2000
LEVIN, PHILLIP SCOTT * 2016; Doctorate, University of New Hampshire, 1993
MARZLUFF, JOHN M. * 1997; Master's, Northern Arizona University, 1983; Doctorate, Northern Arizona University, 1987
PETERSON, DAVID L * 1989; Master's, University of Illinois at Urbana-Champaign, 1977; Doctorate, University of Illinois at Urbana-Champaign, 1980
RYAN, CLARE * 1984; Master's, University of Michigan-Ann Arbor, 1990; Doctorate, University of Michigan-Ann Arbor, 1996
SILLETT, STEPHEN CHARLES * 2014; Master's, University of Florida, 1991; Doctorate, Oregon State University, 1995
SPRUGEL, DOUGLAS GEORGE , 1984; Doctorate, Yale University, 1974; Master's, Yale University, 1974
VOGT, KRISTINA * 1982; Master's, New Mexico State University-Grants, 1974; Doctorate, New Mexico State University-Grants, 1976

Associate Professors
ALVARADO-CELESTIN, ERNESTO * 1988; Master's, Universidad Autónoma de Yucatán (UADY), 1986; Doctorate, University of Washington-Seattle Campus, 1992
ANTOS, JOSEPH * 1992; Master's, The University of Montana, 1977; Doctorate, Oregon State University, 1984
ASA, STANLEY TANYI * 2009; Doctorate, University of Minnesota-Duluth, 2006
BAKKER, JONATHAN * 2006; Master's, University of Saskatchewan, 1996; Doctorate, Northern Arizona University, 2005
BURA, RENATA * 2006; Master's, University of Toronto, 2000; Doctorate, University of British Columbia, 2004
CHALKER-SCOTT, LINDA * 1997; Master's, Oregon State University, 1981; Doctorate, Oregon State University, 1988
CONVERSE, SARAH J * 2017; Master's, University of Nebraska-Lincoln, 1999; Doctorate, Colorado State University, 2005
ETTL, GREGORY J * 1988; Master's, University of Washington-Seattle Campus, 1989; Doctorate, University of Washington-Seattle Campus, 1995
GOUGH, HEIDI LOIS * 2004; Master's, Northwestern University, 1998; Doctorate, Northwestern University, 2004
KIM, SOO-HYUNG * 2006; Master's, Seoul National University, 1994; Doctorate, University of California-Davis, 2001
LAUVER, CHRIS L * 2009; Master's, Washington State University, 1983; Doctorate, Colorado State University, 1986
MOSKAL, LUDMILA M. * 2006; Master's, University of Calgary, 2000; Doctorate, University of Kansas, 2005
PAUN, DOROTHY * 1993; Master's, Catholic University of Leuven, 1984; Doctorate, University of Oregon, 1993
RABOTYAGOV, SERGEY S. * 2007; Master's, Iowa State University, 2002; Doctorate, Iowa State University, 2007
TOBIN, PATRICK C * 2014; Master's, Pennsylvania State University-College of Medicine, 1997; Doctorate, Pennsylvania State University-College of Medicine, 2002
TOTH, SANDOR F. * 2007; Master's, Shinsyu University, 2002; Doctorate, Pennsylvania State University-College of Medicine, 2005
TURNBLOM, ERIC * 1994; Master's, University of British Columbia, 1986; Doctorate, University of Minnesota-Duluth, 1994
VOGT, DANIEL * 1982; Master's, New Mexico State University-Grants, 1976; Doctorate, University of Washington-Seattle Campus, 1987
WHEELER, KENT WILLIAM * 2017
WIRSING, AARON * 1996; Master's, University of Idaho, 2001; Doctorate, Simon Fraser University, 2005

Assistant Professors

ANDERSEN, HANS * 1995; Master's, University of Washington-Seattle Campus, 1997; Doctorate, University of Washington-Seattle Campus, 2003
BRATMAN, GREGORY NELSON * 2017; Master's, University of California-Santa Barbara, 2008; Doctorate, Stanford University, 2016
BUTMAN, DAVID E * 2014; Master's, Yale University, 2006; Master's, Yale University, 2009
COMBS, JULIE * 1998; Master's, University of Washington-Seattle Campus, 2005; Doctorate, University of Washington-Seattle Campus, 2011
DICHIA, ANTHONY BRUNO * 2015; Doctorate, École Centrale Paris, 2012
GANGULY, INDRONEIL * 2002; Doctorate, University of Washington-Seattle Campus, 2008
GARDNER, BETH ANN * 2016; Master's, Cornell University, 2002; Doctorate, Cornell University, 2006
HARVEY, BRIAN J * 2016; Master's, San Francisco State University, 2010; Doctorate, University of Wisconsin-Madison, 2015
JOHNSON, BRITTANY * 2018; Master's, University of Nevada-Reno, 2010; Doctorate, University of Nevada-Reno, 2014
KANE, VAN R * 2004; Doctorate, University of Washington-Seattle Campus, 2010
MCCLINTOCK, BRETT * 2017; Master's, Colorado State University, 2004; Doctorate, Colorado State University, 2008
MCKENZIE, DONALD * 1992; Master's, University of California-Los Angeles, 1979; Master's, University of Washington-Seattle Campus, 1994; Doctorate, University of Washington-Seattle Campus, 1998
NEUMANN, REBECCA B * 2010; Doctorate, Massachusetts Institute of Technology, 2009
PACHECO DE RESENDE, FERNAN * 2011; Master's, Universidade Estadual de Campinas (Unicamp), 2003; Master's, University of Michigan-Ann Arbor, 2008; Doctorate, University of Michigan-Ann Arbor, 2009
PRUGH, LAURA RYANNE * 2015; Doctorate, University of British Columbia, 2005
ROCHEFORT, REGINA M * 1991; Master's, Yale University, 1978; Doctorate, University of Washington-Seattle Campus, 1995
TORGersen, CHRISTIAN E. * 2006; Master's, Oregon State University, 1996; Doctorate, Oregon State University, 2002

Marine and Environmental Affairs

Professors
ALLISON, EDWARD HUGH * 2013; Doctorate, University of Liverpool, 1993
CHRISTIE, PATRICK JOHN * 1999; Master's, University of Michigan-Ann Arbor, 1993; Doctorate, University of Michigan-Ann Arbor, 1999
DOLSAK, NIVES * 2002; Doctorate, Indiana University-Bloomington, 2000
KLINGER, TERRIE * 1993; Master's, University of British Columbia, 1984; Doctorate, University of California-San Diego, 1988
MILLER, MARC * 1979; Master's, University of California-San Diego, 1972; Doctorate, University of California-Irvine, 1974

Associate Professors
COPPING, ANDREA * 1982; Master's, University of Washington-Seattle Campus, 1977; Doctorate, University of Washington-Seattle Campus, 1982
FLUHARTY, DAVID L * 1983; Master's, University of Washington-Seattle Campus, 1972; Doctorate, University of Michigan-Ann Arbor, 1977

Assistant Professors
JARDINE, SUNNY L * 2016; Master's, University of San Francisco, 2008; Doctorate, University of California-Davis, 2013
KELLY, RYAN P * 2013; Master's, Columbia University, 2003; Master's, Columbia University, 2005; Doctorate, Columbia University, 2006; Doctorate, University of California-Berkeley, 2011
WOELFLE-HAZARD, CLEO ASTER * 2016; Master's, University of California-Berkeley, 2012; Doctorate, University of California-Berkeley, 2015

Lecturers
BILLO, TIMOTHY , 2001; Doctorate, University of Washington-Seattle Campus, 2011
HAZARD, JULY VINE OSKAR , 2017
STRAUS, KRISTINA M , 2003; Doctorate, University of Washington-Seattle Campus, 2010
WENG, YEN-CHU , 2013
WHEAT, ELIZABETH E , 2004; Master's, New York University, 2001; Doctorate, University of Washington-Seattle Campus, 2011

Oceanography

Professors
ARMBRUST, E. VIRGINIA * 1995; Doctorate, Massachusetts Institute of Technology, 1990
BAROSS, JOHN A * 1984; Master's, San Francisco State University, 1966; Doctorate, University of Washington-Seattle Campus, 1973
CANNON, GLENN A * 1983; Master's, Johns Hopkins University, 1965; Doctorate, Johns Hopkins University, 1969
CRONIN, MEGHAN * 1998; Doctorate, University of Rhode Island, 1993
DELANEY, JOHN R. * 1977; Master's, Virginia University of Lynchburg, 1967; Doctorate, University of Arizona, 1977
DEMING, JODY W * 1988; Doctorate, University of Maryland-University College, 1981
ERIKSEN, CHARLES C * 1986; Doctorate, Massachusetts Institute of Technology, 1977
FEELY, RICHARD A * 1983; Master's, The University of Texas, 1971; Doctorate, The University of Texas, 1974
GRUNBAUM, DANIEL * 1991; Master's, University of Washington-Seattle Campus, 1987; Doctorate, Cornell University, 1991
HARRISON, DON EDMUNDS * 1985; Master's, Harvard University, 1973; Doctorate, Harvard University, 1977
HICKEY, BARBARA M * 1982; Master's, University of California-San Diego, 1969; Doctorate, University of California-San Diego, 1975
INGALLS, ANITRA E. * 2003; Master's, Stony Brook University, 1998; Doctorate, Stony Brook University, 2002
JOHNSON, GREGORY C * 1990; Doctorate, Massachusetts Institute of Technology, 1990
JOHNSON, HARLAN PAUL * 1976; Master's, Southern Illinois University, 1966; Doctorate, University of Washington-Seattle Campus, 1972
KELLEY, DEBORAH S. * 1983; Master's, University of Washington-Seattle Campus, 1987; Doctorate, Dalhousie University, 1990
KESSLER, WILLIAM S * 1983; Doctorate, University of Washington-Seattle Campus, 1989
LESSARD, EVELYN J. * 1989; Master's, University of Rhode Island, 1979; Doctorate, University of Rhode Island, 1984
LILLEY, MARVIN D. * 1984; Master's, University of Arkansas, 1970; Doctorate, Oregon State University, 1983
MACCREADY, PARKER * 1986; Master's, California Institute of Technology, 1986; Doctorate, University of Washington-Seattle Campus, 1991
MC PHADEN, MICHAEL J * 1982; Doctorate, Scripps College, 1980
MURRAY, JAMES W * 1982; Doctorate, Massachusetts Institute of Technology, 1973
NITTROUER, CHARLES * 1998; Master's, University of Washington-Seattle Campus, 1974; Doctorate, University of Washington-Seattle Campus, 1978
NOWELL, ARTHUR R.M. * 1978; Master's, University of British Columbia, 1971; Doctorate, University of British Columbia, 1975
OGSTON, ANDREA S * 1990; Master's, University of Washington-Seattle Campus, 1993; Doctorate, University of Washington-Seattle Campus, 1997
QUAY, PAUL D * 1977; Master's, Columbia University, 1975; Doctorate, Columbia University, 1977
RICHEY, JEFFREY E * 1973; Master's, University of North Carolina, 1970; Doctorate, University of California-Davis, 1973
RISER, STEPHEN C * 1981; Master's, Massachusetts Institute of Technology, 1974; Doctorate, University of Rhode Island, 1980
ROCAP, GABRIELLE L * 2001; Doctorate, Massachusetts Institute of Technology, 2000
SABINE, CHRISTOPHER L. * 1999; Doctorate, University of Hawaii, 1992
SACHS, JULIAN P. * 2006; Doctorate, Massachusetts Institute of Technology, 1997
THOMPSON, LUANNE * 1990; Master's, Harvard University, 1986; Doctorate, Hope College, 1990
WILCOCK, WILLIAM S D * 1993; Master's, Imperial College, 1986; Doctorate, Massachusetts Institute of Technology, 1992

Associate Professors
BULLISTER, JOHN L * 1991; Master's, The University of Texas, 1980; Doctorate, University of California-San Diego, 1984
CRUSIUS, JOHN FREDERICK * 2010; Master's, Columbia University, 1987; Master's, Columbia University, 1991; Doctorate, Columbia University, 1992
DEUTSCH, CURTIS A. * 2003; Doctorate, Princeton University, 2003
HAUTALA, SUSAN L * 1985; Doctorate, University of Washington-Seattle Campus, 1992
KEISTER, JULIE E * 1996; Master's, University of Maryland-University College, 1996; Doctorate, Oregon State University, 2008
MATHIS, JEREMY TROY * 2013; Doctorate, University of Miami, 2007
MORRIS, ROBERT * 2007; Doctorate, Oregon State University, 2004
SOLOMON, EVAN A * 2009; Doctorate, Scripps College, 2007
WARNER, MARK J * 1989; Doctorate, University of California-San Diego, 1988

Assistant Professors
ALIN, SIMONE * 2003; Doctorate, University of Arizona, 2001
ARMOUR, KYLE C. * 2004; Master's, University of Washington-Seattle Campus, 2007; Doctorate, University of Washington-Seattle Campus, 2012
BANAS, NEIL S. * 1998; Master's, University of Colorado at Boulder, 1998; Master's, University of Washington-Seattle Campus, 2001; Doctorate, University of Washington-Seattle Campus, 2005
BUNDY, RANDELLE MAY * 2016; Master's, University of California-San Diego, 2010; Doctorate, University of California-San Diego, 2014
GAGNON, ALEXANDER C. * 2012; Doctorate, California Institute of Technology, 2010
GRAY, ALISON R. * 2006; Master's, University of Washington-Seattle Campus, 2009; Master's, University of Washington-Seattle Campus, 2010
LAUER, JOHN WESLEY * 2009; Master's, University of California-Berkeley, 1998; Doctorate, University of Minnesota-Duluth, 2006
ROLAND SAENGER, EMILY C. * 2014; Doctorate, Massachusetts Institute of Technology, 2011
YOUNG, JODI N * 2016; Doctorate, University of Oxford, 2011

Senior Lecturer
NUWER, MIKELLE, 1997; Master's, University of Washington-Seattle Campus, 2004; Doctorate, University of Washington-Seattle Campus, 2008

Lecturer
LOGSDON, MILES G. * 1987; Master's, Southeastern Oklahoma State University, 1978; Doctorate, University of Washington-Seattle Campus, 1997
The Information School

Professors
BRUCE, HARRY * 1998; Master's, Australian School of Business University of New South Wales, 1993; Doctorate, University of New South Wales, 1996
CZERWINSKI, MARY P * 1998; Master's, Ball State University, 1983; Doctorate, Indiana University-Bloomington, 1988
DEY, ANIND KUMAR * 2018; Master's, Georgia Institute of Technology-Main Campus, 1995; Doctorate, Georgia Institute of Technology-Main Campus, 2000
DUMAIS, SUSAN * 2002; Doctorate, Indiana University-Bloomington, 1979
DURANTI, LUCIANA * 2011; Master's, Università Europea di Roma, 1975
FISHER, KAREN E * 1999; Master's, University of Western Ontario, 1991; Doctorate, University of Western Ontario, 1997
FRIEDMAN, BATYA * 1999; Doctorate, University of California-Berkeley, 1988
GRUDIN, JONATHAN T * 1999; Master's, Purdue University-Main Campus, 1973; Master's, University of California-San Diego, 1979
HAPEL, ROLF WERNER , 2018; Master's, Aarhus University, 2014
LEVY, DAVID M * 2000; Master's, Stanford University, 1974; Doctorate, Stanford University, 1979
MARTIN, MICHELLE H * 2016; Master's, Northern Illinois University, 1991; Doctorate, Illinois State University, 1997
MOORE, ADAM DANIEL * 2003; Master's, Ohio State University Agricultural Technical Institute, 1993; Doctorate, Ohio State University Agricultural Technical Institute, 1997
OH, SAM GYUN * 1994; Master's, Villanova University, 1983; Doctorate, Syracuse University, 1995
PALMER, CAROLE L * 2014; Master's, Vanderbilt University, 1986; Doctorate, University of Illinois at Urbana-Champaign, 1996
PRATT, WANDA * 2002; Master's, The University of Texas, 1991; Doctorate, Stanford University, 1999
SCHOLL, HANS JOACHIM * 2002; Doctorate, New York University, 2002
WOBBOCK, JACOB O * 2006; Master's, Stanford University, 2000; Doctorate, Carnegie Mellon University, 2006

Associate Professors
ANNABI, HALA P * 2004; Master's, Le Moyne College, 1999; Doctorate, Syracuse University, 2005
CUTRELL, EDWARD BRYAN * 2011; Master's, University of Oregon, 1994; Doctorate, University of Oregon, 1999
GOMEZ, RICARDO J * 2007; Doctorate, Cornell University, 1997
HENDRY, DAVID * 2002; Master's, University of Guelph, 1989; Doctorate, Robert Gordon University, 1996
HOWE, WILLIAM GREGORY * 2009; Doctorate, Portland State University, 2007
JANES, JOSEPH W * 1998; Master's, Syracuse University, 1983; Doctorate, Syracuse University, 1989
JOHNSON, RONALD A. , 1986; Master's, University of Southern California, 1975
KO, ANDREW J * 2008; Doctorate, Carnegie Mellon University, 2008
LEE, JIN HA * 2009; Master's, University of Illinois at Urbana-Champaign, 2002; Doctorate, University of Illinois at Urbana-Champaign, 2008
NAHON, KARINE * 2004; Master's, Tel Aviv University, 2000; Doctorate, Tel Aviv University, 2001
TEEVAN, JAIME * 2016; Master's, Massachusetts Institute of Technology, 2001; Doctorate, Massachusetts Institute of Technology, 2007
TENNIS, JOSEPH T. * 2001; Master's, Indiana University-Bloomington, 1999; Doctorate, University of Washington-Seattle Campus, 2005

Assistant Professors
ALAWADHI, SUHA * 2011; Master's, Kuwait University, 2000; Doctorate, Loughborough University, 2007
ALTHOUSE, BENJAMIN M * 2007; Master's, Johns Hopkins University, 2010; Doctorate, Johns Hopkins University, 2013
BELARDE-LEWIS, MIRANDA H. * 2017; Master's, University of Washington-Seattle Campus, 2007; Master's, University of Washington-Seattle Campus, 2011; Doctorate, University of Washington-Seattle Campus, 2013
BLUMENSTOCK, JOSHUA E * 2012; Master's, University of California-Berkeley, 2010; Doctorate, University of California-Berkeley, 2012
CARTER, MICHELLE SUZANNE * 2014; Master's, Anglia Ruskin University, 2003; Master's, Georgia State University, 2008; Doctorate, Clemson University, 2012
DAHYA, NEGIN * 2014; Master's, York University, 2008; Doctorate, York University, 2014
FINN, MEGAN * 2014; Master's, University of California-Berkeley, 2005; Doctorate, University of California-Berkeley, 2012
HINKER, ALEXIS * 2012; Master's, Stanford University, 2012; Doctorate, University of Washington-Seattle Campus, 2017
HUFFMANN, ANNA LAUREN * 1900; Master's, University of Wisconsin-Milwaukee, 2009; Doctorate, University of Wisconsin-Milwaukee, 2014
LEFTHAND-BEGAY, CLARITA * 2005; Master's, University of Washington-Seattle Campus, 2008; Doctorate, University of Washington-Seattle Campus, 2014
Snyder, JAIME * 2014; Master's, Stanford University, 1997; Doctorate, Syracuse University, 2012
SPIRO, EMMA STUART * 2013; Master's, University of California-Irvine, 2011; Doctorate, University of California-Irvine, 2013
WEBER, NICHOLAS M * 2015; Master's, University of Illinois at Urbana-Champaign, 2010; Doctorate, University of Illinois at Urbana-Champaign, 2015
WEST, JEVIN D * 2005; Master's, Utah State University, 2004; Doctorate, University of Washington-Seattle Campus, 2010
YIP, JASON * 2015; Master's, University of Pennsylvania, 2002; Doctorate, University of Maryland-University College, 2014

Senior Lecturers
Barker, SCOTT F . 1999; Master's, Syracuse University, 1987
HILL, TRENT G. * 2000; Master's, Duke University, 1988; Doctorate, Duke University, 1994
HOTCHKISS, MARY A * 1989; Master's, Catholic University of America, 1978; Doctorate, Washington State University, 1983
LARSON, ROBERT E . 1983; Master's, University of Washington-Seattle Campus, 1984
LUKE, JESSICA * 2012; Master's, University of Toronto, 1998; Doctorate, University of Maryland-University College, 2009
MCGANN, SEAN * 2015; Master's, Ohio Christian University, 1994; Doctorate, Case Western Reserve University, 2004
ROSS, JOEL * 2015; Master's, University of California-Irvine, 2009; Doctorate, University of California-Irvine, 2013
SAXTON, MATTHEW * 2000; Master's, University of California-Los Angeles, 1994; Doctorate, University of California-Los Angeles, 2000
WILLIAMS, HELENE C., 1995; Master's, Purdue University-Main Campus, 1987; Master's, Indiana University-Bloomington, 1989

Lecturers
BERTOZZI-VILLA, AMELIA, 2013; Master's, University of Washington-Seattle Campus, 2016; Master's, University of Washington-Seattle Campus,
BOIKO, ROBERT B., 2000; Master's, University of Utah, 1985
BROOK, FREEDA, 2017; Master's, University of Washington-Seattle Campus, 2012; Master's, University of Washington-Seattle Campus, 2012
CHAN, JOHN, 2018
DOANE, MICHAEL, 2008; Master's, San Francisco State University, 1985; Master's, University of Washington-Seattle Campus, 2005
DUSHKES, LAURA, 1986; Master's, University of Washington-Seattle Campus, 1988; Master's, University of Washington-Seattle Campus, 2002
EISENBERG, ADAM, 1990; Juris Doctor, University of Washington-Seattle Campus, 1992
ENSMINGER, ALYCIA, 2017; Master's, University of Pittsburgh-Pittsburgh Campus, 2010; Master's, University of Pittsburgh-Pittsburgh Campus, 2010
FITZ-GERALD, KERRY L., 2018
FLEMING, KEVIN M., 2017
FREEMAN, MICHAEL, 2010; Master's, University of Washington-Seattle Campus, 2013
FRIMER, DANIEL DAVID, 2018; Master's, University of Washington-Seattle Campus, 2018
GERDING, STEPHANIE, 2017
HAY, GREGORY THOMAS, 2008; Master's, University of Washington-Seattle Campus, 2007
HUNT, CHANCE, 1991; Master's, University of Washington-Seattle Campus, 1992; Master's, University of Washington-Seattle Campus,
KETCHLEY, SARAH, 2015
LUNG, JANNIE, 2018
MABBOTT, MARY CASS, 2017; Master's, University of Washington-Seattle Campus, 2017
MILLS, JARED L., 2017; Master's, Drexel University, 2008
MORGAN, JENNIFER, 2013; Master's, Indiana University-Bloomington, 1995; Master's, Indiana University-Bloomington,
MORRISON, ANDREA M., 2013; Master's, Indiana University-Bloomington, 1984; Master's, Indiana University-Bloomington, 1991
NASCIMENTO, RONALDO, 2015; Master's, University of Washington-Seattle Campus, 2005; Master's, University of Washington-Seattle Campus, 2009
NICKLAS, ROBERT, 2003; Master's, University of Pittsburgh-Pittsburgh Campus, 1977
SCHILDKRAUT, LAURA B., 1996; Master's, New York University, 1988
SEARLE, MARGARET A., 2009; Master's, University of Iowa, 1968
STONE, MISHA, 2017; Master's, University of Washington-Seattle Campus, 2002
STURMAN, RICHARD O., 2017
SWAMINATHAN, GANDHINATH, 2018
Interschool or Intercollege Programs

Bioengineering

Professors
BLACK, ROY, 2012; Doctorate, Harvard University, 1974; Doctorate, University of Wisconsin-Madison, 1982
BRYERS, JAMES D * 2004; Master's, University of Idaho, 1976; Doctorate, Rice University, 1980
DAGGETT, VALERIE D. * 1993; Doctorate, University of California-San Francisco, 1990
FOLCH, ALBERT * 2000; Doctorate, Universitat de Barcelona, 1994
GAO, XIAOHU * 2005; Doctorate, Indiana University-Bloomington, 2004
GIACHELLI, CECILIA * 1982; Doctorate, University of Washington-Seattle Campus, 1987
HEATH, JAMES * 2018
O’DONNELL, MATTHEW * 2006; Doctorate, University of Notre Dame, 1976
POLLACK, GERALD H * 1968; Doctorate, University of Pennsylvania, 1968
PUN, SUZIE H * 2003; Master's, California Institute of Technology, 1998; Doctorate, California Institute of Technology, 2000
RATNER, BUDDY D * 1972; Doctorate, American Institute, 1972
REGNIER, MICHAEL * 1995; Master's, Portland State University, 1983; Doctorate, University of Southern California, 1991
SANDERS, JOAN ELIZABETH * 1985; Master's, Northwestern University, 1985; Doctorate, University of Washington-Seattle Campus, 1991
STAYTON, PATRICK * 1992; Doctorate, University of Illinois at Urbana-Champaign, 1989; Master's, University of Illinois at Urbana-Champaign, 1989
THOMAS, WENDY * 1998; Doctorate, University of Washington-Seattle Campus, 2003; Master's, University of Washington-Seattle Campus, 2003
WANG, RUIKANG * 2010; Master's, Tianjin University of Commerce China, 1990; Doctorate, University of Glasgow, 1995
YAGER, PAUL * 1987; Doctorate, University of Oregon, 1980

Associate Professors
AVERKIOU, MICHALAKIS A * 1994; Master's, The University of Texas, 1989; Doctorate, The University of Texas, 1994
CHUDLER, ERIC H * 1982; Master's, University of Washington-Seattle Campus, 1983; Doctorate, University of Washington-Seattle Campus, 1985
GAMBLE, LARA J. * 1991; Doctorate, University of Washington-Seattle Campus, 1996
KIM, DEOK-HO * 2011
LAI, JR-IUAN * 2005; Master's, American Institute, 2003; Doctorate, American Institute, 2004
LUTZ, BARRY R. * 1998; Doctorate, University of Washington-Seattle Campus, 2003
PRICE, NATHAN * 1999; Doctorate, University of California-San Diego, 2005
RATNER, DANIEL M. * 1993; Doctorate, Massachusetts Institute of Technology, 2004
SAURO, HERBERT M * 2007; Master's, University of York, 1982; Doctorate, University of Oxford, 1986
SCATENA, MARTA * 1996; Doctorate, Università degli Studi di Padova, 1992
SHERMAN, LAWRENCE * 2009; Medical Doctorate, University of Washington-Seattle Campus, 1979
SPEER, YANFENG * 2000; Master's, Huazhong University of Science and Technology, 1990; Doctorate, University of Helsinki*, 1999
VICINI, PAOLO * 1996
WOODROW, KIM A. * 2009; Master's, Stanford University, 2001; Doctorate, Stanford University, 2006
ZHENG, YING * 2011; Doctorate, University of Michigan-Ann Arbor, 2008

Assistant Professors

BAKER, DANIEL R. , 1995; Master's, University of Michigan-Ann Arbor, 1986; Doctorate, University of Utah, 1993
BERNDT, ANDRE , 2016; Master's, Humboldt Universität zu Berlin, 2007; Doctorate, Humboldt Universität zu Berlin, 2011
INTERLANDI, GIANLUCA * 2007; Doctorate, Universität Zürich, 2006
KUEH, HAO YUAN * 2016; Doctorate, Harvard University, 2008
OVERBECK, JOHN R. * 1989; Master's, University of Michigan-Ann Arbor, 1974; Master's, University of Washington-Seattle Campus, 1991; Medical Doctorate, University of Washington-Seattle Campus, 1995
STEVENS, KELLY R. * 2003; Doctorate, University of Washington-Seattle Campus, 2008
WONG, ROBERTA J , 2010; Medical Doctorate, University of California-San Francisco, 1983
YAZDAN-SHAHMORAD, AZADEH * 2016; Doctorate, University of Michigan-Ann Arbor, 2011; Doctorate, University of Michigan-Ann Arbor, 2011

Senior Lecturers

NEILS, CHRISTOPHER * 2001; Master's, The University of Texas, 1998; Doctorate, The University of Texas, 2000
TAYLOR AMOS, ALYSSA , 2010

Lecturers

BAILEY, SORAYA , 2018
HUANG, SHICHU , 2014

Global Health

Professors

BAETEN, JARED * 1995; Doctorate, University of Washington-Seattle Campus, 2001; Medical Doctorate, University of Washington-Seattle Campus, 2003
BERTOZZI, STEFANO * 2009; Doctorate, Massachusetts Institute of Technology, 1991; Medical Doctorate, University of California-San Diego, 1991
CAMPBELL, LEE ANN * 1985; Master's, Pennsylvania State University-College of Medicine, 1979; Doctorate, Pennsylvania State University-College of Medicine, 1982
CELUM, CONNIE L. * 1987; Medical Doctorate, University of California-San Francisco, 1984; Doctorate, University of Washington-Seattle Campus, 1989
COLER, RHEA N. * 1994; Master's, London School of Hygiene and Tropical Medicine, 1990; Doctorate, University of Washington-Seattle Campus, 1998
DOWNER, ANN E. * 1989; Master's, University of Washington-Seattle Campus, 1984; Doctorate, Seattle University, 1996
EBI, KRISTIE L * 2014; Master's, Massachusetts Institute of Technology, 1976; Master's, University of Michigan-Ann Arbor, 1983; Doctorate, University of Michigan-Ann Arbor, 1985
ELIAS, CHRISTOPHER J. * 1988; Medical Doctorate, Creighton University, 1983; Master's, University of Washington-Seattle Campus, 1990
EZZATI, MAJID * 1900; Master's, McGill University, 1995; Doctorate, Princeton University, 2000
FARQUHAR, CAREY * 1994; Medical Doctorate, Harvard University, 1994; Master's, University of Washington-Seattle Campus, 2001
GAKIDOU, EMMANUELA * 2007; Master's, Harvard University, 1997; Doctorate, Harvard University, 2001
GLOYD, STEPHEN S. * 1985; Medical Doctorate, University of Chicago, 1973; Master's, Harvard University, 1983
HALLETT, TIMOTHY, 2013; Master's, Imperial College, 2004; Doctorate, Imperial College, 2007
HAY, SIMON I * 2015; Doctorate, University of Oxford, 1996; Master's, University of Oxford, 2000
HOLMES, KING K. * 1967; Medical Doctorate, Cornell University, 1963; Doctorate, University of Hawaii, 1967
JOHN STEWART, GRACE C. * 1992; Medical Doctorate, University of Michigan-Ann Arbor, 1987; Master's, University of Washington-Seattle Campus, 1995; Doctorate, University of Washington-Seattle Campus, 2000
KAPPE, STEFAN H. I. * 2004; Doctorate, University of Notre Dame, 1998
KIMERLING, MICHAEL E * 2008; Medical Doctorate, University of Alabama at Birmingham, 1986; Master's, University of Alabama at Birmingham, 1995
KURATH, GAEL * 1994; Master's, Oregon State University, 1980; Doctorate, Oregon State University, 1985
KURTH, ANN E. * 1998; Master's, Columbia University, 1987; Master's, Yale University, 1990
LAMPE, PAUL D * 1996; Doctorate, University of Minnesota-Duluth, 1984
LIM, STEPHEN SZE-PING * 2007; Doctorate, Monash University, 2005
LINGAPPA, JAIRAM R. * 1991; Doctorate, Harvard University, 1987; Medical Doctorate, University of California-San Francisco, 1991
LINGAPPA, JAISRI * 1999; Doctorate, Harvard University, 1985; Medical Doctorate, University of Massachusetts, 1987
LOZANO, RAFAEL * 2008
MOKDAD, ALI H. * 2008; Doctorate, Emory University, 1997
MURRAY, CHRISTOPHER J * 2007; Doctorate, University of Oxford, 1987; Medical Doctorate, Harvard University, 1991
NAGHAVI, MOHSEN * 2007; Doctorate, University of Tehran, 1996
PARISH, TANYA * 2007; Doctorate, Institute for System Level Integration, 1993
PARSONS, MARYLYN * 1981; Doctorate, Stanford University, 1979
PFIEFFER, JAMES T. * 2004; Master's, University of California-Los Angeles, 1989; Master's, University of California-Los Angeles, 1997; Doctorate, University of California-Los Angeles, 1997
REED, STEVEN G. * 1993; Doctorate, The University of Montana, 1979
SEPULVEDA, JAIME * 2009; Master's, Harvard University, 1980; Master's, Harvard University, 1981; Doctorate, Harvard University, 1985
SHERMAN, DAVID R. * 1998; Doctorate, Vanderbilt University, 1987
SMALL, PETER * 2003; Medical Doctorate, University of Florida, 1985
SMITH, DAVID L. * 2015; Master's, Brigham Young University, 1993; Master's, Princeton University, 1995; Doctorate, Princeton University, 1998
SMITH, JOSEPH * 2003; Doctorate, Washington State University, 1994
SODORA, DONALD L * 2008; Doctorate, University of Pennsylvania, 1990
STAMATATOS, LEONIDAS * 2001; Master's, American University of Paris, 1983; Doctorate, McGill University, 1988
STUART, KENNETH DANIEL * 1985; Master's, Wesleyan University, 1965; Doctorate, University of Iowa, 1969
VOLLSET, STEIN EMIL , 1900; Master's, University of California-Los Angeles, 1982; Doctorate, University of California-Los Angeles, 1989
VOS, ERIC THEO * 2013; Master's, London School of Hygiene and Tropical Medicine, 1994; Doctorate, Erasmus University of Rotterdam, 2006
WALSON, JUDD L. * 2004; Master's, Tufts University, 2000; Medical Doctorate, Tufts University, 2000
WASSERHEIT, JUDITH N. * 1982; Medical Doctorate, Harvard University, 1978; Master's, Johns Hopkins University, 1989
WEAVER, MARCIA R * 1984; Master's, University of Chicago, 1981; Doctorate, University of Chicago, 1986
ALARCON, JORGE , 1994; Medical Doctorate, Universidad Nacional Mayor de San Marcos, 1974; Master's, University of Washington-Seattle Campus, 1998
WEINER, BRYAN * 2016; Master's, University of Michigan-Ann Arbor, 1992; Doctorate, University of Michigan-Ann Arbor, 1994
WIKTOR, STEFAN , 2017; Medical Doctorate, Pennsylvania State University-Main Campus, 1980; Master's, Johns Hopkins University, 1987

Associate Professors
BARNABAS, RUANNE V. * 2009; Master's, University of Oxford, 2000; Doctorate, University of Oxford, 2005
BECKER, STEPHEN L. * 2009; Medical Doctorate, New York University, 1976
CHUNG, MICHAEL H. * 2001; Master's, Harvard University, 1998; Medical Doctorate, University of Chicago, 1998
FLAXMAN, ABRAHAM DAVID * 2007; Doctorate, Carnegie Mellon University, 2006
FRAHM, NICOLE * 2008
FRIESEN, JENNIFER LUND * 2006; Doctorate, Yale University, 2006
GIMBEL-SHERR, KENNETH * 1999; Master's, University of Washington-Seattle Campus, 2000; Doctorate, University of Washington-Seattle Campus, 2009
GORSTEIN, JONATHAN L. * 2003; Doctorate, University of Michigan-Ann Arbor, 1994
GRUNDNER, CHRISTOPH * 1900; Master's, Humboldt Universität zu Berlin, 1999; Doctorate, University of Professional Education Heidelberg, 2003
HANSEN, JOHN D. * 2004; Doctorate, Oregon State University, 1996
HEFFRON, RENEE * 2008; Master's, Tulane University of Louisiana, 2004; Doctorate, University of Washington-Seattle Campus, 2012
HERNANDEZ PRADO, BERNARDO * 2011; Master's, University of London, 1991; Doctorate, Harvard University, 1998

SUNDER, RANI A, 2015; Medical Doctorate, Not Provided, 1999
SUNSHINE, JACOB EUGENE, 2006; Master's, University of Washington-Seattle Campus, 2011; Medical Doctorate, University of Washington-Seattle Campus, 2012
THAM, SEE WAN, 2009
TOGASHI, KEI, 2010
TSOI, VEDA, 2011; Medical Doctorate, University of Utah, 2011
VAN CLEVE, WILLIAM C., 2006; Medical Doctorate, University of Chicago, 2006; Master's, University of Washington-Seattle Campus, 2011
WU, JIANG, 2015; Medical Doctorate, Jilin University, 1997
ZAKAREVICIUS, ZILVINAS, 2016; Medical Doctorate, University of Vilnius, 1988

Biochemistry

Professors

AITCHISON, JOHN * 2004; Doctorate, McMaster University, 1992
BAKER, DAVID * 1993; Doctorate, University of California-Berkeley, 1989
BIGGINS, SUSAN * 2000; Doctorate, Princeton University, 1995
BROCKERHOFF, SUSAN E. * 1987; Doctorate, University of Washington-Seattle Campus, 1993
COOPER, JONATHAN A * 1987; Master's, University of Cambridge, 1973; Doctorate, University of Warwick, 1976
DAVIS, TRISHA NELL * 1987; Doctorate, Yale University, 1983
EISENMAN, ROBERT M * 1982; Doctorate, University of Chicago, 1971
HAHN, STEVEN M * 1994; Doctorate, Brandeis University, 1984
HURLEY, JAMES BRYANT * 1985; Doctorate, University of Illinois at Urbana-Champaign, 1979
KENNEDY, BRIAN K. * 2001; Doctorate, Massachusetts Institute of Technology, 1996
KIMELMAN, DAVID * 1989; Doctorate, Harvard University, 1985
KLEVIT, RACHEL E * 1983; Doctorate, University of Oxford, 1981
PALMITER, RICHARD D * 1982; Doctorate, Stanford University, 1969
ROTH, MARK * 1994; Doctorate, University of Colorado at Boulder, 1988
RUOHOLA-BAKER, HANNELE * 1993; Master's, University of Helsinki*, 1984; Doctorate, University of Helsinki*, 1989
STODDARD, BARRY L * 1994; Doctorate, Massachusetts Institute of Technology, 1990
TSUKIYAMA, TOSHIHO * 1999; Master's, Obihiro University of Agriculture and Veterinary Medicine, 1987; Medical Doctorate, Obihiro University of Agriculture and Veterinary Medicine, 1987
WEINER, ALAN * 2000; Doctorate, Harvard University, 1973

Associate Professors

AILION, MICHAEL * 1994; Doctorate, University of Washington-Seattle Campus, 2000
BRZOVIC, PETER S * 1993; Doctorate, University of California-Riverside, 1991
DIMAIO, FRANK * 2007; Doctorate, University of Wisconsin-Madison, 2007
FAN, ERKANG * 1996; Doctorate, University of Pittsburgh-Bradford, 1993
GONEN, TAMIR * 2005; Doctorate, University of Auckland, 2002
MERRITT, ETHAN ALLEN * 1989; Master's, Stanford University, 1975; Doctorate, University of Wisconsin Colleges, 1980
MERZ, ALEXEY * 2004; Doctorate, Oregon Health and Science University, 2000
MILLER, DANA L * 2010; Doctorate, Johns Hopkins University, 2003
VERLINDE, CHRISTOPHE * 1992

Assistant Professors
GU, LIANGCAI * 2015; Master's, Tsinghua University, 2002; Doctorate, University of Michigan-Ann Arbor, 2008
HATCH, EMILY * 2016
HOPPINS, SUZANNE * 2013; Doctorate, University of Alberta, 2005
KING, NEIL * 2010; Doctorate, University of California-Los Angeles, 2010
KOLLMAN, JUSTIN M * 2014; Doctorate, University of California-San Diego, 2005
KWON, YOUNG * 2015; Master's, Yonsei University, 1999; Doctorate, Johns Hopkins University, 2008
RAJAN, AKHILA * 2017
VEESLER, DAVID J * 2014; Master's, Université Aix-Marseille 3 Paul Cézanne, 2006; Doctorate, Université Aix-Marseille 3 Paul Cézanne, 2010
WILLS, ANDREA * 2015; Doctorate, University of California-Berkeley, 2009

Bioethics and Humanities

Professors
BOWEN, DEBORAH J * 1987; Doctorate, American University of Health Sciences, 1986
DOORENBOS, ARDITH * 2006; Master's, Madonna University, 2000; Doctorate, Wayne State University, 2002
DUDZINSKI, DENISE M * 2001; Master's, Vanderbilt University, 1993; Doctorate, Vanderbilt University, 2001
EDWARDS, KELLY ALISON * 1993; Master's, University of Washington-Seattle Campus, 1995; Doctorate, University of Washington-Seattle Campus, 2000
JECKER, NANCY A.S. * 1982; Master's, Stanford University, 1982; Master's, University of Washington-Seattle Campus, 1984; Doctorate, University of Washington-Seattle Campus, 1986
JONSEN, ALBERT R. , 1987; Master's, Gonzaga University, 1956; Master's, Santa Clara University, 1963; Doctorate, Yale University, 1967

Associate Professors
BLACKSHER, ERIKA A * 2010; Master's, Virginia University of Lynchburg, 1996; Doctorate, Virginia University of Lynchburg, 2007
FULLERTON, STEPHANIE MALIA * 2005; Doctorate, University of Oxford, 1995
HARRISON, DAVID A , 2007; Doctorate, University of California-Davis, 1999; Medical Doctorate, University of California-Davis, 2003
OPEL, DOUGLAS J. , 2002; Medical Doctorate, University of Chicago, 2002; Master's, University of Washington-Seattle Campus, 2009
STARKS, HELENE * 1989; Master's, University of California-Berkeley, 1989; Doctorate, University of Washington-Seattle Campus, 2004
Assistant Professor
CAMPELIA, GEORGINA D * 2016; Master's, CUNY Graduate School and University Center, 2013; Doctorate, CUNY Graduate School and University Center, 2016

Biological Structure

Professors
BERMINGHAM-MCDONOGH, OLIVIA * 1996; Doctorate, University of California-Los Angeles, 1987
BRINKLEY III, JAMES F. * 1988; Medical Doctorate, University of Washington-Seattle Campus, 1974; Doctorate, Stanford University, 1984
CLARK, JOHN I * 1982; Doctorate, University of Washington-Seattle Campus, 1974
DACEY, DENNIS M. * 1986; Doctorate, University of Chicago, 1983
FARR, ANDREW G * 1982; Doctorate, University of Chicago, 1975
RAIBLE, DAVID W. * 1995; Doctorate, University of Pennsylvania, 1989
REH, THOMAS A. * 1989; Doctorate, University of Wisconsin Colleges, 1981
REUVENI, ZIPORA * 1979; Master's, Weizmann Institute of Science, 1975; Doctorate, University of Windsor, 1979
ROBINSON, FARREL R. * 1986; Doctorate, Brown University, 1982
STENKAMP, RONALD E * 1978; Master's, University of Washington-Seattle Campus, 1971; Doctorate, University of Washington-Seattle Campus, 1975
WONG, RACHEL O * 2006; Doctorate, Australian National University, 1986
XU, WENQING * 1999; Master's, University of Science and Technology of China, 1988; Doctorate, Massachusetts Institute of Technology, 1995

Associate Professors
BAIR, WYETH DANIEL * 2011; Doctorate, California Institute of Technology, 1996
DHAKA, AJAY K * 2009; Doctorate, University of California-Los Angeles, 2001
PASUPATHY, ANITHA * 2006; Master's, McGill University, 1994; Doctorate, Johns Hopkins University, 2001

Assistant Professors
HARRIS, JULIE A. * 2000; Doctorate, University of Washington-Seattle Campus, 2006
SINGHVI, AAKANKSHA * 2018

Senior Lecturer
PITTACK, CATRIN , 1989; Doctorate, University of Washington-Seattle Campus, 1995

Lecturers
GALLAHER, ZACHARY , 2016; Doctorate, Washington State University, 2012
MULLIGAN, KATHLEEN A. , 1987; Doctorate, University of New South Wales, 1985

Comparative Medicine

Professors
BRABB, THEA L. * 1992; Medical Doctorate, University of Illinois at Urbana-Champaign, 1985; Doctorate, University of Washington-Seattle Campus, 1999
FREVERT, CHARLES W * 1995; Doctorate, Harvard University, 1994
IRITANI, BRIAN M * 1983; Medical Doctorate, Washington State University, 1988; Doctorate, University of Washington-Seattle Campus, 1997
KNOWLES, DONALD P * 2005; Medical Doctorate, University of Illinois at Urbana-Champaign, 1982; Doctorate, Washington State University, 1988
LADIGES, WARREN C. * 1982; Master's, Washington State University, 1978
WARE, CAROL B. * 1995; Doctorate, University College Dublin National University of Ireland, 1986

Associate Professors
COLBY, LESLEY A * 2012; Medical Doctorate, Virginia Polytechnic Institute and State University, 1996; Master's, Virginia Polytechnic Institute and State University, 1997
HAJJAR, ADELINE M * 1987; Medical Doctorate, University of Illinois at Urbana-Champaign, 1988; Doctorate, University of Washington-Seattle Campus, 1995
RUDDELL, MARGARET ALANNA * 2010; Doctorate, Case Western Reserve University, 1983
TREUTING, PIPER * 1996; Master's, University of Washington-Seattle Campus, 2000
WAGGIE, KIMBERLY S. , 1997; Medical Doctorate, Iowa State University, 1980; Doctorate, University of Missouri, 1984; Master's, University of Missouri, 1984
WASHINGTON, IDA M * 2006; Master's, Duke University, 1982; Medical Doctorate, North Carolina A and T State University, 1987; Doctorate, University of North Carolina, 1991

Assistant Professors
HSU, CHARLIE C * 2012; Medical Doctorate, University of Pennsylvania, 2002; Doctorate, University of Missouri-Columbia, 2007
IWATA, TERRI N , 2013; Doctorate, Cornell University, 2012; Medical Doctorate, Cornell University, 2013
MATHIEU, JULIE M L , 2007
MEEKER, STACEY M , 2009
PAIK, JISUN * 1994; Master's, University of Michigan-Ann Arbor, 1994; Doctorate, University of Washington-Seattle Campus, 2000
SNYDER, JESSICA M * 2011; Medical Doctorate, University of Maryland-University College, 2001; Master's, University of Washington-Seattle Campus, 2014

Senior Lecturer
SANDERS, GEORGE E. * 1997; Medical Doctorate, Louisiana State University, 1997; Master's, University of Washington-Seattle Campus, 2001

Lecturers
DOWLING, SUSAN C. , 1986; Medical Doctorate, Washington State University, 1986
PETTAN-BREWER, CHRISTINA * 2002; Medical Doctorate, Universidade Federal de Viçosa (UFV), 1988; Master's, University of California-Davis, 1993
REYES, NICHOLAS L * 2010; Medical Doctorate, Western University of Health Sciences, 2011; Master's, University of Washington-Seattle Campus, 2014

Emergency Medicine

Professors
CUMMINS, RICHARD , 1981; Medical Doctorate, Case Western Reserve University, 1972
EISENBERG, MICKEY , 1978; Medical Doctorate, Case Western Reserve University, 1971; Doctorate, University of Washington-Seattle Campus, 1978
SAYRE, MICHAEL RICHARD , 2012; Medical Doctorate, University of Cincinnati-Clermont College, 1984
STERN, SUSAN A, 2009; Medical Doctorate, Case Western Reserve University, 1987
TOWNES, DAVID A. * 2001; Medical Doctorate, University of Massachusetts, 1993; Master's, University of Illinois at Urbana-Champaign, 1998

Associate Professors
ADEDIPE, ADEYINKA, 2008; Medical Doctorate, University of Chicago, 2001
DUBER, HERBERT CHAD, 2011; Master's, Harvard University, 2005; Medical Doctorate, New York University, 2005
GALLAHUE, FIONA E, 2008; Medical Doctorate, Washington State University, 1997
GATEWOOD, MEDLEY, 2005; Medical Doctorate, University of Chicago, 2001
HESS, JEREMY JOHNSON * 2015; Master's, Emory University, 2002; Medical Doctorate, Emory University, 2003
ILGEN, JONATHAN SETH, 2010; Medical Doctorate, University of Southern California, 2004; Master's, Oregon Health and Science University, 2010
JOBE, KATHLEEN A., 1986; Medical Doctorate, University of Colorado Denver, 1986
MITCHELL, STEVEN H., 1984; Medical Doctorate, University of Washington-Seattle Campus, 2002
SHAH, SACHITA P., 2004; Medical Doctorate, University of Washington-Seattle Campus, 2004
SHANDRO, JAMIE RAE, 2006; Medical Doctorate, University of Washington-Seattle Campus, 2002; Master's, Harvard University, 2003
STROTE, JARED, 2002; Master's, Duke University, 1994; Medical Doctorate, Harvard University, 1999
WHITE, NATHAN J * 2010; Medical Doctorate, Wayne State University, 2003; Master's, Virginia Commonwealth University, 2010

Assistant Professors
BACKLUND, BRANDON H., 1992; Medical Doctorate, University of Iowa, 2000
BADULAK, JENELLE H., 2016
BROWN, ALISHA E. C., 2011; Medical Doctorate, Georgetown University, 2011
CHIPMAN, ANNE, 2014; Master's, University of California-Berkeley, 2008; Medical Doctorate, University of California-San Francisco, 2010
FRANZEN, DOUGLAS, 2013; Medical Doctorate, University of Michigan-Ann Arbor, 2001; Master's, Virginia Commonwealth University, 2008
HALL, MICHAEL K., 2015; Medical Doctorate, Yeshiva University, 2009; Master's, Yale University, 2015
HENNING, DANIEL, 2014; Medical Doctorate, University of Pittsburgh-Bradford, 2009; Master's, Harvard University, 2014
JAUREGUI, JOSHUA, 2013; Medical Doctorate, Loma Linda University, 2009
JOHNSON, NICHOLAS J., 2014; Medical Doctorate, University of California-San Francisco, 2010
KWOK, HEEMUN, 2011; Medical Doctorate, University of California-San Francisco, 1999; Master's, University of California-Los Angeles, 2011
MCCOY, ANDREW M., 2014; Master's, Case Western Reserve University, 2011; Medical Doctorate, Case Western Reserve University, 2011
MORRIS, STEPHEN C., 2000; Medical Doctorate, University of Washington-Seattle Campus, 2005; Master's, Harvard University, 2011
ROSENMAN, ELIZABETH, 2011; Medical Doctorate, University of Michigan-Ann Arbor, 2008
SABBATINI, AMBER, 2014; Master's, University of Southern California, 2005; Medical Doctorate, Loma Linda University, 2009
ST. JOHN, ALEXANDER E., 2013; Medical Doctorate, University of Arizona, 2010; Master's, University of Washington-Seattle Campus, 2015
UTARNACHITT, RICHARD B., 2008; Master's, Wayne State University, 2001; Medical Doctorate, Wayne State University, 2004
VALENTO, BETTY CHEN, 2013; Medical Doctorate, University of Connecticut, 2007
VALENTO, MATTHEW J., 2012; Medical Doctorate, New York University, 2005
VRABLIK, MARIE, 2014; Medical Doctorate, University of Missouri-St Louis, 2009; Master's, Indiana University-Purdue University-Indianapolis, 2014
VRABLIK, MICHAEL, 2014; Medical Doctorate, A T Still University of Health Sciences, 2008
WATASE, TAKETO, 2012; Master's, Oregon Health and Science University, 2012
WHITESIDE, LAUREN K, 2012; Medical Doctorate, University of Illinois at Chicago, 2006; Master's, University of Michigan-Ann Arbor, 2012

Family Medicine

Professors

BALDWIN, LAURA M. * 1984; Medical Doctorate, University of Southern California, 1980; Master's, University of Washington-Seattle Campus, 1986
BENNETT, IAN M., 2015; Medical Doctorate, Jefferson College, 1998; Doctorate, Thomas Jefferson University, 1998
CHEN, FREDERICK, 1996; Master's, University of California-Berkeley, 1995; Medical Doctorate, University of California-San Francisco, 1996
DREZNER, JONATHAN, 1999; Medical Doctorate, University of California-Los Angeles, 1996
FITZPATRICK, ANNETTE L. * 1988; Master's, Southern Illinois University, 1981; Doctorate, University of Washington-Seattle Campus, 1999
HARMON, KIMBERLY G., 1988; Medical Doctorate, Indiana University-Bloomington, 1993
JAMES, PAUL A., 2017; Medical Doctorate, University of North Carolina, 1984
MAESTAS, RAMONCITA R., 1986; Medical Doctorate, University of Washington-Seattle Campus, 1983
MARCHAND, LUCILLE R., 2014; Medical Doctorate, University of California-San Francisco, 1987
O'KANE, JOHN, 1993; Medical Doctorate, University of Vermont, 1993
PARCHMAN, MICHAEL * 2012; Medical Doctorate, University of Texas Southwestern Medical Center at Dallas, 1982; Master's, The University of Texas Health Science Center at Houston, 2001
PAUWELS, JUDITH, 1995; Master's, University of Wisconsin Colleges, 1978; Medical Doctorate, University of Wisconsin Colleges, 1983
STEvens, NANCY G * 1982; Medical Doctorate, University of Washington-Seattle Campus, 1979; Master's, University of Washington-Seattle Campus, 1982
THOMPSON, MATTHEW J * 1999; Medical Doctorate, University of Glasgow, 1989; Master's, University of Washington-Seattle Campus, 2001; Doctorate, University of Oxford, 2007

Associate Professors

CAWSE-LUCAS, JEANNE M., 2010; Medical Doctorate, University of Massachusetts, 2006
COLE, ALLISON M., 2010; Medical Doctorate, University of Iowa, 2002
EVANS, DAVID V., 2012; Medical Doctorate, University of Pittsburgh-Bradford, 1993
FAUSTO, JAMES, 2015; Medical Doctorate, Rutgers University-Newark, 2006
FROGNER, BIANCA K * 2014; Doctorate, Johns Hopkins University, 2008
GODFREY, EMILY M,  2012; Medical Doctorate, Medical College of Wisconsin, 1997; Master's, University of Rochester, 2003
HUNTINGTON, JANE,  1991; Medical Doctorate, University of Washington-Seattle Campus, 1994
KEEN, MISBAH,  2006; Master's, Oregon Health and Science University, 2008; Master's, Johns Hopkins University, 2009
KOST, AMANDA,  2005; Medical Doctorate, New York University, 2005; Master's, University of Washington-Seattle Campus, 2016
OLIVER, LYNN M.,  1983; Medical Doctorate, University of Washington-Seattle Campus, 1983
PENTIN, PAMELA L.,  2007; Doctorate, Villanova University, 1986; Medical Doctorate, Jefferson College, 1996
RAETZ, JAQUELINE,  2001; Medical Doctorate, Duke University, 2001
RAO, ASHWIN L.,  2012; Master's, Indiana University-Purdue University-Indianapolis, 2003; Medical Doctorate, Indiana University-Bloomington, 2007
SANFORD, CHRISTOPHER A * 2000; Medical Doctorate, University of California-San Diego, 1985; Master's, Harvard University, 2005
SHIH, GRACE,  2013; Medical Doctorate, University of Florida, 2003; Master's, University of California-San Francisco, 2010
WICK, KEREN * 1990; Master's, University of Leeds, 1991; Doctorate, University of Leeds, 1996

Assistant Professors
AL ACHKAR, MORHAF,  2017; Master's, Indiana University-Purdue University-Indianapolis, 2015
BENDER, MELISSA A,  2012; Master's, Indiana University-Purdue University-Indianapolis, 2003; Medical Doctorate, Indiana University-Bloomington, 2007
BESTER, VANESSA S,  2012; Master's, University of Florida, 2003
COLLINS, KIMBERLY,  2008; Medical Doctorate, Harvard University, 2008
EVANS, DANIEL R,  2016; Master's, Arizona State University, 2006; Doctorate, University of Kentucky, 2014
KARDONSKY, KIMBERLY JAY,  2015; Medical Doctorate, Medical College of Wisconsin, 2004
KOZAK-GILROY, LEILA E,  2002; Master's, Universidad Caeece, 1988; Doctorate, Saybrook Graduate School and Research Center, 2007
PELTO, HENRY FRANCIS III,  2009; Medical Doctorate, University of Missouri-St Louis, 2009
SAIRENJI, TOMOKO,  2015; Medical Doctorate, Okayama University, 2007; Master's, University of Pittsburgh-Bradford, 2015
SCOTT, TERRY B,  1983; Master's, University of Washington-Seattle Campus, 2011
SIEBERT, DAVID,  2013; Medical Doctorate, University of Chicago, 2013
WILSON, MEGAN LOHR,  2010; Medical Doctorate, Virginia University of Lynchburg, 2010
ZHANG, YING,  2011; Medical Doctorate, East Carolina University, 2011

Senior Lecturers
DAVIS, ARDIS,  1982; Master's, University of Washington-Seattle Campus, 1979
HAHN, PATRICIA L,  2013; Master's, Whitworth University, 1995
HALPERIN, ABIGAIL CAROL * 1990; Medical Doctorate, Yeshiva University, 1983
NAIDU, AMEE S.,  2007; Master's, Midwestern University, 1999
QUIGLEY, TIMOTHY F.,  2010; Master's, University of Kansas, 1999
ROSS, VALERIE R,  1982; Master's, Seattle Pacific University, 1994
VADER, KIRA S,  2005; Master's, Fuller Theological Seminary in California, 1999; Master's, Duke University, 2002
Lecturers

ALVITRE, JOHN JEFFREY, 2014; Bachelor's, University of Nebraska at Omaha, 2003
BERNARD, KARI S, 2014; Master's, University of Arizona, 2004
ERICKSON, JENNIFER M, 2016
GIANOLA, FRED J., 1987
GRIMM, PATRICK J, 2016; Master's, University of Nebraska Medical Center, 1998
HAVERKAMP, KENNETH, 1996
HAWKINS, MARC A., 2013; Master's, University of Nebraska at Omaha, 2000
HOOK, TARA R, 2018
HUYNH, CONSTANCE D, 1999; Master's, University of Washington-Seattle Campus, 2012
JAIN, ANUJ, 2014; Master's, Western Washington University, 1997
KEMPE, CHRISTINE, 2013; Master's, Brigham Young University, 2001
LINDO, EDWIN G, 2016
MAHER, JONATHAN C., 2000; Bachelor's, University of Washington-Seattle Campus, 2000
MCINTYRE, SUSAN R, 2010; Master's, Eastern Washington University, 1982; Master's, Eastern Washington University, 1988
PIERCE, BRIAN D, 2018
RILEY, JOHN O., 2002; Master's, University of Wisconsin Colleges, 1982
ROBERTSON, DALE, 1994; Master's, University of Washington-Seattle Campus, 2014
SERPINAS, SARAH L, 2014
SIEGEL, MALINDA S, 2007; Doctorate, University of Baltimore, 1989
SMITH, DONALD J, 2014
SMITH, MICHAEL B, 2014; Master's, University of Nebraska at Omaha, 1997; Medical Doctorate, A T Still University of Health Sciences, 2012
STEWART, BETTY L, 1985; Bachelor's, University of Washington-Seattle Campus, 1998
THETFORD, LOIS C, 1994
WACHTEL, DIANNA L, 2007; Master's, A T Still University of Health Sciences, 2008
WHIPPLE, KATHERINE J, 2016; Medical Doctorate, University of Minnesota-Duluth, 1998

Genome Sciences

Professors

BERG, CELESTE A * 1990; Master's, Yale University, 1981; Doctorate, Yale University, 1986
BRENT, ROGER * 2010; Doctorate, Harvard University, 1982
BREWER, BONITA J * 1982; Doctorate, University of Washington-Seattle Campus, 1979
BRUCE, JAMES * 2008; Doctorate, University of Florida, 1992
EICHLER, EVAN E * 2004; Doctorate, Baylor University, 1995
FELSENSTEIN, JOSEPH * 1968; Doctorate, University of Chicago, 1968
FIELDS, STANLEY * 1995; Master's, University of Cambridge, 1978; Doctorate, University of Cambridge, 1981
GOTTSCHLING, DANIEL E * 1984; Master's, University of Colorado, 1980; Doctorate, University of Colorado, 1984
GREEN, PHILIP * 1994; Doctorate, University of California-Berkeley, 1976
HARTWELL, LEANDER H * 1968; Doctorate, Massachusetts Institute of Technology, 1964
HAWRYLYCZ, MICHAEL J * 2014; Master's, Wesleyan University, 1984; Doctorate, Massachusetts Institute of Technology, 1994
HENIKOFF, STEVEN * 1982; Doctorate, Harvard University, 1977
KUHNER, MARY K * 1991; Doctorate, University of California-Berkeley, 1991
MACCOSS, MICHAEL * 2003; Doctorate, University of Vermont, 2001
MANOIL, COLIN C. * 1986; Doctorate, Stanford University, 1979
NICKERSON, DEBORAH A * 1992; Doctorate, The University of Tennessee, 1978
NOBLE, WILLIAM S * 2002; Master's, University of California-San Diego, 1996; Doctorate, University of California-San Diego, 1998
PALLANCK, LEO J. * 1997; Master's, Yeshiva University, 1989; Doctorate, Yeshiva University, 1992
RAGHURAMAN, MOSUR * 1990; Master's, University of Madras, 1982; Doctorate, University of Colorado, 1990
SHENDURE, JAY A * 2007; Doctorate, Harvard University, 2005; Medical Doctorate, Harvard University, 2007
SMITH, GERALD R * 1983; Doctorate, Massachusetts Institute of Technology, 1970
STAMATOYANNOPOULOS, JOHN A * 2005; Medical Doctorate, University of Washington-Seattle Campus, 1995
SWANSON, WILLIE J * 2002; Doctorate, University of California-San Diego, 1998
THOMAS, JAMES H * 1988; Doctorate, Massachusetts Institute of Technology, 1985
TRASK, BARBARA J , 1992; Doctorate, Leiden University, 1985
WATERSTON, ROBERT H * 2002; Doctorate, University of Chicago, 1972; Medical Doctorate, University of Chicago, 1972

Associate Professors
BLOOM, JESSE D * 2011; Master's, University of Cambridge, 2002; Doctorate, California Institute of Technology, 2007
BORENSTEIN, ELHANAN A * 2009; Doctorate, Tel Aviv University, 2007
BRADLEY, PHILIP H. * 2001; Doctorate, Massachusetts Institute of Technology, 2001
BRADLEY, ROBERT K * 2011; Doctorate, University of California-Berkeley, 2008
BREEDEN, LINDA * 1994; Doctorate, University of Colorado at Boulder, 1981
DUNHAM, MAITREYA J * 2008; Doctorate, Stanford University, 2003
FOWLER, DOUGLAS M * 2007; Doctorate, Scripps College, 2007
MALIK, HARMIT S * 2004; Master's, University of Rochester, 1999
PADDISON, PATRICK J * 2013; Doctorate, Spring Arbor University, 2004
QUEITSCH, CHRISTINE H * 2007; Doctorate, University of Chicago, 2001
VILLEN, JUDIT * 2010; Master's, Universitat de Barcelona, 1999; Doctorate, Universitat de Barcelona, 2003

Assistant Professors
BELIVEAU, BRIAN JOSEPH * 2018
BERGER, ALICE * 2016
DUDLEY, AIMEE M * 2008; Doctorate, Harvard University, 1999
HARRIS, KELLEY * 2018
KUGEL, SITA * 2017
MACPHERSON, DAVID * 2015; Doctorate, Massachusetts Institute of Technology, 2005
STARITA, LEA M * 2006; Doctorate, Harvard University, 2005
SUBRAMANIAM, ARVIND * 2016; Master's, University of Chicago, 2007; Doctorate, University of Chicago, 2008
TRAPNELL, BRUCE C * 2014; Doctorate, University of Maryland-University College, 2010

Lecturers
CHEONG, KA YAN , 2011; Doctorate, Johns Hopkins University, 2010
MUNN, MAUREEN M. , 1993; Doctorate, University of California-San Francisco, 1986

Immunology
Professors
ADEREM, ALAN A. * 1996; Doctorate, University of Cape Town, 1979
BEVAN, MICHAEL , 1990
CAMPBELL, DANIEL * 2004; Doctorate, University of California-Berkeley, 1998
FINK, PAMELA J. * 1990; Doctorate, Massachusetts Institute of Technology, 1981
GALE, MICHAEL J * 1983; Doctorate, University of Washington-Seattle Campus, 1994
GOVERMAN, JOAN M * 1992; Doctorate, University of California-Los Angeles, 1981
MAIZELS, NANCY * 2000; Doctorate, Harvard University, 1974
STRONG, ROLAND K * 1994; Doctorate, Harvard University, 1990
ZIEGLER, STEVEN F. * 1984; Doctorate, University of California-Los Angeles, 1984

Associate Professors
BETTELLI, ESTELLE * 2009; Master's, Université Denis Diderot Paris VII, 1996; Doctorate, Université Denis Diderot Paris VII, 2001
HAMERMAN, JESSICA A. * 1994; Doctorate, University of Washington-Seattle Campus, 2001
LACY-HULBERT, ADAM * 2014; Doctorate, University of Cambridge, 1995
OBERST, ANDREW A * 2012; Doctorate, Università degli Studi di Roma Tor Vergata, 2005; Doctorate, Université Paris 6 Pierre and Marie Curie, 2005
PEPPER, MARION * 2011; Doctorate, University of Pennsylvania, 2006
SAVAN, RAM * 2011; Master's, Punjab Agricultural University, 2001; Doctorate, Kagoshima University, 2004
STETSON, DANIEL B * 2008; Doctorate, University of California-San Francisco, 2002
URDAHL, KEVIN B. * 1995; Doctorate, University of Minnesota-Duluth, 1993; Medical Doctorate, University of Minnesota-Duluth, 1995

Assistant Professors
DUDAKOV, JARROD ANDREW * 2017
GERNER, MICHAEL Y * 2015; Doctorate, University of Minnesota-Duluth, 2009
RONGVAUX, ANTHONY * 2017
VON MOLTKE, JAKOB * 2016; Master's, Columbia University, 2007; Doctorate, University of California-Berkeley, 2012

Laboratory Medicine
Professors
CHOU, DAVID * 1998; Medical Doctorate, University of Pittsburgh-Bradford, 1974; Master's, University of Minnesota-Duluth, 1979
CLARRIDGE, JILL E. * 2002; Master's, University of Michigan-Ann Arbor, 1962; Doctorate, Purdue University-Main Campus, 1973
COOKSON, BRAD T * 1991; Doctorate, Washington State University, 1991; Medical Doctorate, Washington State University, 1991
COOMBS, ROBERT W * 1985; Medical Doctorate, Dalhousie University, 1981
COREY, LAWRENCE * 1977; Medical Doctorate, University of Michigan-Ann Arbor, 1971
FANG, FERRIC C. * 2001; Medical Doctorate, Harvard University, 1983
FINE, JAMES * 1977; Medical Doctorate, University of Minnesota-Duluth, 1972; Master's, University of Minnesota-Duluth, 1977
Hess, John R * 2012; Medical Doctorate, University of Washington-Seattle Campus, 1972; Master's, University of Hawaii, 1979
HOOFNAGLE, ANDREW N * 2004; Doctorate, University of Colorado at Boulder, 2002; Medical Doctorate, University of Colorado Denver, 2004
JEROME, KEITH R * 1993; Doctorate, Duke University, 1992; Medical Doctorate, Duke University, 1993
MAGARET, AMALIA SOPHIA * 1997; Master's, Western Michigan University, 1997; Doctorate, University of Washington-Seattle Campus, 2001
POLYAK, STEPHEN J. * 1993; Doctorate, McMaster University, 1993
RUTLEDGE, JOE C * 1989; Medical Doctorate, Vanderbilt University, 1976
STEPHENS, KAREN G. * 1900; Master's, Indiana University-Bloomington, 1978; Doctorate, Indiana University-Bloomington, 1982
WENER, MARK H * 1980; Medical Doctorate, Washington University in St Louis, 1974
WOOD, BRENT L. * 1990; Doctorate, Loma Linda University, 1988; Medical Doctorate, Loma Linda University, 1990
ZIMRING, JAMES * 2013; Doctorate, Emory University, 1999; Medical Doctorate, Emory University, 1999

Associate Professors
BAIRD, GEOFFREY S * 2003; Doctorate, University of California-San Diego, 2001; Medical Doctorate, University of California-San Diego, 2003
BANKSON, DANIEL DUKE * 1993; Master's, Massachusetts Institute of Technology, 1981; Doctorate, Massachusetts Institute of Technology, 1985
CHERIAN, SINDHU * 2005; Medical Doctorate, Emory University, 2000
DE ROSA, STEPHEN C. * 2004; Medical Doctorate, Stanford University, 1990
DELANEY, COLLENE J , 1982; Master's, University of Illinois at Urbana-Champaign, 1967; Doctorate, University of Illinois at Urbana-Champaign, 1972
DELANEY, MEGHAN * 2009; Doctorate, University of New England, 2004; Medical Doctorate, University of New England, 2004
EDLEFSSEN, KERSTIN * 1998; Medical Doctorate, University of Washington-Seattle Campus, 2002
FROMM, JONATHAN R * 1998; Doctorate, University of Iowa, 1997; Medical Doctorate, University of Iowa, 1997
HOFFMAN, NOAH G * 2005; Doctorate, University of North Carolina, 2003; Medical Doctorate, University of North Carolina, 2005
LIBBY, STEPHEN JAMES * 2003; Master's, Iowa State University, 1983; Doctorate, Iowa State University, 1987
LOCKWOOD, CHRISTINA M * 2014; Doctorate, University of Wisconsin-Madison, 2007
MORISHIMA, CHIHIRO * 1991; Medical Doctorate, Washington State University, 1988

University of Washington General Catalog 2018-2020

MURPHY, SEAN C * 2008; Doctorate, Northwestern University, 2006; Medical Doctorate, Northwestern University, 2008
NESTER, THERESA * 2001; Medical Doctorate, University of Rochester, 1994
OPHEIM, KENT E * 1977; Doctorate, Cornell University, 1972
PRITCHARD, COLIN C. * 1996; Doctorate, University of Washington-Seattle Campus, 2005; Medical Doctorate, University of Washington-Seattle Campus, 2007
QIN, XUAN * 2005; Doctorate, New York University, 1990
SABATH, DANIEL E. * 1989; Doctorate, University of Pennsylvania, 1989; Medical Doctorate, University of Pennsylvania, 1989
SHIRTS, BRIAN H * 2012; Doctorate, University of Pittsburgh-Bradford, 2006; Medical Doctorate, University of Pittsburgh-Bradford, 2008
SOMA, LORINDA A * 2012; Medical Doctorate, University of Minnesota-Duluth, 1998
TSUCHIYA, KAREN D. * 1990; Medical Doctorate, University of Michigan-Ann Arbor, 1990
WU, DAVID * 2008; Doctorate, Massachusetts Institute of Technology, 2001; Medical Doctorate, Harvard University, 2003
ZHU, JIA * 2003; Doctorate, University of Science and Technology of China, 1994
ZHU, TUOFU * 1997; Doctorate, Peking Union Medical College, 1990

Assistant Professors
BOURASSA, LORI A. * 1900; Doctorate, Tufts University, 2009; Master's, Harvard University, 2011
BRYAN, ANDREW BEVAN BRODY, 2013; Doctorate, University of Michigan-Ann Arbor, 2013; Medical Doctorate, University of Michigan-Ann Arbor, 2013
CHEN, XUEYAN * 2011; Doctorate, Tufts University, 2003
FINK, SUSAN L * 1999; Doctorate, University of Washington-Seattle Campus, 2007; Medical Doctorate, University of Washington-Seattle Campus, 2009
GLYNN, EMILY H., 2004; Medical Doctorate, University of Washington-Seattle Campus, 2011
GRENINGER, ALEX, 2015
HUQ SAIFFEE, NABIHA P. * 1900; Doctorate, University of Washington-Seattle Campus, 2013; Medical Doctorate, University of Washington-Seattle Campus, 2013
KONNICK, ERIC Q * 2010; Master's, University of Utah, 2006; Medical Doctorate, University of Utah, 2010
MATHIAS, PATRICK C * 2012; Master's, University of Illinois at Urbana-Champaign, 2006; Doctorate, University of Illinois at Urbana-Champaign, 2010
PAGANO, MONICA BEATRIZ * 2009
PAULSON, VERA, 2018; Doctorate, University of Texas Southwestern Medical Center at Dallas, 2012; Medical Doctorate, University of Texas Southwestern Medical Center at Dallas, 2012
PAULSON, VERA, 2018; Doctorate, University of Texas Southwestern Medical Center at Dallas, 2012
SALIPANTE, STEPHEN * 2003; Doctorate, University of Washington-Seattle Campus, 2009; Medical Doctorate, University of Washington-Seattle Campus, 2011
TSANG, HAMILTON * 2017; Medical Doctorate, University of Southern California, 2012
TSANG, HAMILTON * 2017
ZHOU, YI, 2013

Lecturer
LOUZON, MAX JOSEPH, 2011
Medical Education and Biomedical Informatics

Professors
CARLINE, JAN D. * 1977; Master’s, University of Washington-Seattle Campus, 1976; Doctorate, University of Washington-Seattle Campus, 1979
COHEN, TREVOR A. , 2018
HECKERMAN, DAVID * 2006; Master’s, Stanford University, 1983; Doctorate, Stanford University, 1990
HORVITZ, ERIC J. * 1995; Doctorate, Stanford University, 1991; Medical Doctorate, Stanford University, 1994
MOONEY, SEAN D * 2015; Doctorate, University of California-San Francisco, 2001
MYLER, PETER J. * 1993; Doctorate, University of Queensland, 1982
ROBINS, LYNNE S * 1999; Doctorate, University of Michigan-Ann Arbor, 1990
SCHAAD, DOUGLAS C. * 1975; Master’s, University of Washington-Seattle Campus, 1974; Doctorate, University of Washington-Seattle Campus, 1986
TARCZY-HORNOCH, PETER * 1992; Medical Doctorate, Stanford University, 1989
WILCOX, ADAM B * 2016; Master’s, Columbia University, 1997; Master’s, Columbia University, 1998; Doctorate, Columbia University, 2000

Associate Professors
ABERNETHY, NEIL F * 2008; Doctorate, Stanford University, 2005
CROSSLIN, DAVID R. * 2009; Master’s, North Carolina A and T State University, 1998; Doctorate, Duke University, 2009
GENNARI, JOHN H * 2002; Master’s, University of Wisconsin Colleges, 1985; Doctorate, University of California-Irvine, 1990
HARTZLER, ANDREA L. * 2017
LUO, GANG * 2016; Doctorate, University of Wisconsin-Madison, 2004
YETISGEN, MELIHA * 2002; Master’s, Middle East Technical University, 2000; Doctorate, University of Washington-Seattle Campus, 2007

Assistant Professors
CHEN, ANNIE T * 2015; Master’s, University of North Carolina at Chapel Hill, 2010; Doctorate, University of North Carolina at Chapel Hill, 2015
KORNGIEBEL, DIANE M * 2008; Master’s, University of Wales Institute Cardiff, 1998; Master’s, Durham University, 1999; Doctorate, University of Oxford, 2005
NAGASAWA, PAMELA * 2000; Master’s, University of Washington-Seattle Campus, 2002; Doctorate, University of Washington-Seattle Campus, 2010
NSOESIE, ELAINE O * 2015; Master’s, Virginia Polytechnic Institute and State University, 2008; Doctorate, Virginia Polytechnic Institute and State University, 2012

Lecturer
MASUDA, DAVID * 1997; Medical Doctorate, University of North Dakota, 1980; Master’s, University of Wisconsin-Madison, 1996
Medicine

Professors

ABKOWITZ, JANIS L * 1980; Medical Doctorate, Harvard University, 1977
AITKEN, MOIRA L. , 1982; Medical Doctorate, University of Edinburgh, 1978
ALTEMEIER, WILLIAM A. * 1992; Medical Doctorate, Vanderbilt University, 1992

Lecturer
RATNAKUMAR, KAJAN , 2017

Microbiology

Professors
CHAMPOUX, JAMES J * 1972; Doctorate, Stanford University, 1970
EMERMAN, MICHAEL * 1994; Doctorate, University of Wisconsin Colleges, 1986
FULLER, DEBORAH * 2010; Doctorate, University of Wisconsin-Madison, 2001
GALLOWAY, DENISE A * 1982; Doctorate, New York University, 1976
GREENBERG, E. PETER * 2005; Master's, University of Iowa, 1972; Doctorate, Harvard University, 1977
HARWOOD, CAROLINE * 2005; Master's, Boston University, 1976; Doctorate, University of Massachusetts, 1982
LAGUNOFF, MICHAEL * 2001; Doctorate, University of Chicago, 1995
MULLINS, JAMES I * 1994; Doctorate, University of Minnesota-Duluth, 1978
OVERBAUGH, JULIE MAUREEN * 1988; Doctorate, University of Colorado, 1983
PARSEK, MATTHEW R * 2006; Doctorate, University of Illinois at Urbana-Champaign, 1995
SALAMA, NINA * 2001; Doctorate, Stanford University, 1995
SINGH, PRADEEP , 2005; Medical Doctorate, Northwestern University, 1989
SOKOURENKO, EVGUENI V. * 1999; Doctorate, Not Provided, 1989
Associate Professors
BUMGARNER, ROGER E. * 1992; Master's, Eastern Illinois University, 1983; Doctorate, University of Arizona, 1988
MERRIKH, HOURA * 2011; Master's, Brandeis University, 2006; Doctorate, Brandeis University, 2009
MITTLER, JOHN E. * 1999; Doctorate, University of California-Irvine, 1992
MOUGOUS, JOSEPH D * 2007; Doctorate, University of California-Berkeley, 2004
SMITH, JASON G * 2010; Doctorate, Harvard University, 2004
WOODWARD, JOSHUA J * 2011; Doctorate, University of California-Berkeley, 2009

Assistant Professors
HYDE, JENNIFER * 2017; Doctorate, University of Queensland, 2011
RENIERE, MICHELLE L * 2016; Doctorate, Vanderbilt University, 2010

Senior Lecturers
ANDERSON, DENISE G , 1982; Master's, University of Washington-Seattle Campus, 1985; Master's, University of Washington-Seattle Campus, 1987
CHANDLER, MARK S , 1998; Master's, University of Washington-Seattle Campus, 1979; Doctorate, University of Illinois at Urbana-Champaign, 1998
GRAY, KENDALL M , 2000; Doctorate, University of Southern California, 1989

Lecturers
BEINS, ALMIRA S , 2004; Doctorate, Medical College of Wisconsin, 2003
MEMMER, RAMONA , 1982; Master's, University of Washington-Seattle Campus, 1957

Neurological Surgery
Professors
BROWD, SAMUEL , 2007; Doctorate, University of Florida, 2000; Medical Doctorate, University of Florida, 2000
CHESNUT, RANDALL M * 2004; Medical Doctorate, University of Washington-Seattle Campus, 1984
D'AMBROSIO, RAIMONDO * 1995; Doctorate, Università degli Studi di Milano, 1995
ELLENBOGEN, RICHARD G . , 1997; Medical Doctorate, Brown University, 1983
GEYER, JEFFREY R. , 1984; Medical Doctorate, Wayne State University, 1977
HOLLAND, ERIC C ., 2013; Doctorate, University of Chicago, 1985; Medical Doctorate, Stanford University, 1990
KIM, LOUIS J. , 2007; Medical Doctorate, Columbia University, 1999
MORRISON, RICHARD S * 1994; Doctorate, University of California-Los Angeles, 1982
OJEMANN, JEFFREY G * 1984; Master's, Washington State University, 1992; Medical Doctorate, Washington State University, 1992
RAMIREZ, JAN M * 2008
SEKHAR, LALIGAM N ., 2004
SILBERGELD, DANIEL L , 1984; Medical Doctorate, University of Cincinnati-Clermont College, 1984
TEMKIN, NANCY R * 1977; Master's, University of Connecticut, 1971; Doctorate, New York University, 1976
ZHANG, FANGYI , 2003
Associate Professors
CRANE, COURTNEY , 2012; Doctorate, Virginia University of Lynchburg, 2005
FERREIRA, MANUEL , 2009; Doctorate, Georgetown University, 2002; Medical Doctorate, Georgetown University, 2002
GELFENBEYN, MIKHAIL , 2002; Doctorate, Moscow State Technical University, 1991
HOFSTETTER, CHRISTOPH P , 2014; Doctorate, Karolinska Institute, 2005
LEE, AMY , 2011; Medical Doctorate, The University of Texas at San Antonio, 2003
MACDONALD, CHRISTINE L , 2013; Master's, Washington State University, 2005; Doctorate, Washington State University, 2007

Assistant Professors
CHOWDHARY, MICHELLE C , 2008; Medical Doctorate, Rush University, 2008
HAUPTMAN, JASON SCOTT , 2017
KO, ANDREW L * 2005; Medical Doctorate, University of Illinois at Chicago, 2005
LEVITT, MICHAEL , 2007; Medical Doctorate, Loyola University Chicago, 2007
PATEL, ANOOP P , 2016; Medical Doctorate, Harvard University, 2009
RAVANPAY, ALI C. , 2000; Doctorate, University of Washington-Seattle Campus, 2007; Medical Doctorate, University of Washington-Seattle Campus, 2009
SAIGAL, RAJIV , 2016; Master's, Aalborg University, 2002; Doctorate, Harvard University, 2009

Neurology
Professors
AMLIE-LEFOND, CATHERINE M. , 2011; Medical Doctorate, University of California-Los Angeles, 1989
CHAMBERLAIN, JEFFREY S * 1982; Doctorate, University of Washington-Seattle Campus, 1985
GARDEN, GWENN A. * 1987; Doctorate, University of Washington-Seattle Campus, 1994; Medical Doctorate, University of Washington-Seattle Campus, 1994
HOLMES, MARK D. , 1987; Medical Doctorate, Ohio State University Agricultural Technical Institute, 1977
LONGSTRETH, WILLIAM T. * 1981; Medical Doctorate, University of Pennsylvania, 1975; Master's, University of Washington-Seattle Campus, 1982
MARRA, CHRISTINA M. , 1984; Master's, Oregon State University, 1979; Medical Doctorate, University of Oregon, 1984
MILLER, JOHN W. , 1999; Doctorate, University of Illinois at Urbana-Champaign, 1981
NOVOTNY, EDWARD J , 2009; Medical Doctorate, University of Missouri-St Louis, 1979
POOLOS, NICHOLAS P * 2001; Doctorate, Stanford University, 1991; Medical Doctorate, Stanford University, 1991
RANSOM, BRUCE ROBERT * 1995; Doctorate, Washington State University, 1972; Medical Doctorate, Washington State University, 1972
SAMIL, ALI , 1998; Medical Doctorate, McGill University, 1989
SANETO, RUSSELL P , 2001; Master's, San Diego State University, 1975; Doctorate, The University of Texas, 1981
SPAIN, WILLIAM * 1981; Medical Doctorate, Columbia University, 1977

TRUE, LAWRENCE DASHIELL * 1990; Medical Doctorate, Tulane University of Louisiana, 1971

VASIOUKHIN, VALERI * 2002; Doctorate, National University of Science and Technology MISIS (Moscow Institute of Steel and Alloys), 1992

WIGHT, THOMAS * 1982; Master's, University of New Hampshire, 1968; Doctorate, University of New Hampshire, 1972

XU, HAODONG , 2017; Master's, Soochow University, 1990; Doctorate, Soochow University, 1993

YEH, MENG-CHE , 2002; Doctorate, University of Pennsylvania, 1997

ZHANG, JING * 2002; Master's, Second Military Medical University, 1987; Doctorate, Duke University, 1995

Associate Professors

BIELAS, JASON H * 2003; Doctorate, York University, 2003

DUTCH, GAIL H , 2008; Medical Doctorate, University of Chicago, 1993

DINTZIS, SUZANNE M , 2008; Doctorate, Stanford University, 1993; Medical Doctorate, Stanford University, 1993

DORSCHNER, MICHAEL O , 1998; Doctorate, University of Wisconsin-Milwaukee, 1998

FINN, LAURA S , 1998; Medical Doctorate, Pennsylvania State University-College of Medicine, 1989

GUI, XIANYONG , 2018; Medical Doctorate, Peking Union Medical College, 1994

GUI, XIANYONG , 2018

HERR, ALAN J * 1992; Doctorate, University of Utah, 2000

HUANG, ERIC , 2018; Doctorate, University of Virginia-Main Campus, 2000; Medical Doctorate, Albany Medical College, 2005

HUANG, ERIC , 2017; Medical Doctorate, Albany Medical College, 2005; Medical Doctorate, Albany Medical College, 2005

KEENE, CHRISTOPHER D * 2005; Doctorate, University of Minnesota-Duluth, 2003; Medical Doctorate, University of Minnesota-Duluth, 2005

LIU, YAJUAN , 1995

LOEB, KEITH , 1983; Doctorate, Medical College of Wisconsin, 1994; Medical Doctorate, Medical College of Wisconsin, 1995

MAHONEY, WILLIAM * 2004; Doctorate, University of Maryland-University College, 2004

MYERSON, DAVID * 1985; Doctorate, Yeshiva University, 1979; Medical Doctorate, Yeshiva University, 1979

NAJAFIAN, BEHZAD , 2010

PATTERSON, KATHLEEN , 1992; Medical Doctorate, University of Iowa, 1976
RE A, SHANE LESLIE, 2017
RENDI, MARA HESTER * 2009; Doctorate, Dartmouth College, 2004; Medical Doctorate, Dartmouth College, 2009
SCHWARZE, ULRIZE, 1993
TRETIAKOVA, MARIA S, 2012; Doctorate, Saint Petersburg State Medical Academy, 1997
ZAFAR, NADEEM, 2018

Assistant Professors
AKILESH, SHREERAM * 2012; Doctorate, Washington State University, 2009; Medical Doctorate, Washington State University, 2009
BERLETCH, JOEL B, 2007; Doctorate, University of Alabama, 2007
CAMPBELL, JEAN S * 1990; Doctorate, University of Wisconsin-Madison, 1990
CHANG, OLIVER H, 2010; Medical Doctorate, University of Illinois at Chicago, 2010
CHEN, ELEANOR Y * 1995; Doctorate, University of Minnesota-Duluth, 2006; Medical Doctorate, University of Minnesota-Duluth, 2006
CININO, PATRICK J., 2001; Doctorate, University of Washington-Seattle Campus, 2009; Medical Doctorate, University of Washington-Seattle Campus, 2011
DARVAS, MARTIN C, 2008; Doctorate, Rheinische Friedrich Wilhelms Universität Bonn, 2007
DAVI S, JENNIFER M * 2015; Master's, San Diego State University, 2001; Doctorate, University of Michigan-Ann Arbor, 2007
GONZALEZ-CUYAR, LUIS F., 2009; Medical Doctorate, American University of Puerto Rico, 2005
HYUN, TERESA, 2012; Doctorate, University of Michigan-Ann Arbor, 2007; Medical Doctorate, University of Michigan-Ann Arbor, 2007
JALIKIS, FLORENCIA G., 2008; Medical Doctorate, Universidad del Salvador Buenos Aires, 2001
KENNEDY, SCOTT * 2008; Doctorate, University of North Carolina at Chapel Hill, 2007
KILGORE, MARK R., 2002; Medical Doctorate, Jefferson College, 2010
KOCH, LISA KRISTINE, 2011; Doctorate, University of Minnesota-Duluth, 2009; Medical Doctorate, University of Minnesota-Duluth, 2011
MANTILLA ARANGO, JOSE G., 2016
MARSHALL, DESIREE A., 2010; Medical Doctorate, Texas Tech University, 2010
MENDENHALL, ALEXANDER R * 2016; Master's, The University of Texas, 2002; Doctorate, University of North Texas, 2008
RICCIOTTI, ROBERT, 2014; Medical Doctorate, University of Arizona, 2010
RISQUES, ROSA ANA * 2003; Doctorate, Universitat Autònoma de Barcelona, 2001
SOONG, THING RINDA, 2018; Doctorate, Johns Hopkins University, 2015; Doctorate, Johns Hopkins University, 2015
SOONG, THING RINDA, 2018; Medical Doctorate, Johns Hopkins University, 2011; Medical Doctorate, Johns Hopkins University, 2011; Doctorate, Johns Hopkins University, 2015; Doctorate, Johns Hopkins University, 2015
TSUCHIDA, HIROSHI, 2015; Master's, Kyoto University, 2001; Doctorate, University of Tokyo, 2009
YEUNG, CECILIA C S., 2011; Medical Doctorate, University of Pennsylvania, 2005
YOUNG, JESSICA E * 2003; Master's, Sonoma State University, 2002; Doctorate, University of Washington-Seattle Campus, 2009

Lecturer
TSUCHIDA, AKIKO, 2013
**Pediatrics**

**Professors**

ADAM, MARGARET P., 2009; Master's, Stanford University, 1993; Medical Doctorate, Stanford University, 1998

BADEN, HARRIS P., 1992; Medical Doctorate, The University of Texas Medical Branch, 1989

BAKER, KEVIN, 2009; Medical Doctorate, University of Nebraska at Omaha, 1988; Master's, University of Minnesota-Duluth, 2002

BAMSHAD, MICHAEL J * 2005; Medical Doctorate, University of Missouri, 1989; Master's, University of Kansas, 1991

Batra, MANEESH, 2000; Medical Doctorate, Stanford University, 2000; Master's, University of Washington-Seattle Campus, 2006

BEIER, DAVID R, 2012; Medical Doctorate, University of Washington-Seattle Campus, 1984; Doctorate, University of Washington-Seattle Campus, 1985

WREDE, JOANNA E, 2008; Medical Doctorate, Stanford University, 2008
WRIGHT, DAVENE R, 2012; Doctorate, Harvard University, 2012
ZHAO, YONGDONG, 2013

Pharmacology

Professors
BAJJALIEH, SANDRA M. * 1995; Master's, University of Illinois at Urbana-Champaign, 1983; Doctorate, University of Wisconsin-Madison, 1989
BEAVO, JOSEPH A * 1977; Doctorate, Vanderbilt University, 1970
CATTERALL, WILLIAM A * 1977; Doctorate, Johns Hopkins University, 1972
CHAVKIN, CHARLES * 1984; Doctorate, Stanford University, 1982
MCKNIGHT, G. STANLEY * 1979; Doctorate, Stanford University, 1976
MOON, RANDALL T * 1985; Doctorate, University of Washington-Seattle Campus, 1982
NATHANSON, NEIL * 1979; Doctorate, Brandeis University, 1975
SCOTT, JOHN D * 2008; Doctorate, University of Aberdeen, 1983
SLATTERY, JOHN T * 1982; Doctorate, New York University, 1978
STELLA, NEPHI * 1999
STORM, DANIEL R * 1978; Master's, University of Washington-Seattle Campus, 1967; Doctorate, University of California-Berkeley, 1971
ZHENG, NING * 2002; Doctorate, University of Texas Southwestern Medical Center at Dallas, 1997

Associate Professors
GARDNER, RICHARD G. * 2006; Doctorate, University of California-San Diego, 2000
HAGUE, CHRIS * 2005; Doctorate, Creighton University, 2002
ONG, SHAO-EN * 2010; Doctorate, University of Southern Denmark, 2004
WANG, EDITH H. * 1996; Master's, Columbia University, 1987; Master's, Columbia University, 1988;
Doctorate, Columbia University, 1991

Assistant Professors
GHAJAR, CYRUS M. * 2018
LAND, BENJAMIN * 2003; Doctorate, University of Washington-Seattle Campus, 2009
SANCAK, YASEMIN S. * 2017; Doctorate, Massachusetts Institute of Technology, 2010
SHECHNER, DAVID MICHAEL * 2017
YADAV, SMITA * 2017
YANG, LINGHAI, 2006; Doctorate, University of Science and Technology of China, 2007

Physiology and Biophysics

Professors
ASBURY, CHARLES L * 1993; Master's, Tulane University of Louisiana, 1993; Doctorate, University of
Washington-Seattle Campus, 1999
BINDER, MARC D * 1978; Master's, University of Southern California, 1972; Doctorate, University of
Southern California, 1974
BOTHWELL, MARK ALLEN * 1985; Doctorate, University of California-Berkeley, 1975
BUCK, LINDA B * 2003; Doctorate, The University of Texas, 1980
BUFFALO, ELIZABETH A * 2013; Master's, University of California-San Diego, 1995; Doctorate, University
of California-San Diego, 1999
CARLSON, STEVEN S. * 1985; Doctorate, University of California-Berkeley, 1975
COOK, DANIEL L * 1978; Master's, University of Washington-Seattle Campus, 1970; Medical Doctorate,
University of Washington-Seattle Campus, 1977; Doctorate, University of Washington-Seattle Campus,
1979
DETWILER, PETER B * 1977; Doctorate, Georgetown University, 1970
FAIRHALL, ADRIENNE L * 2003; Master's, Weizmann Institute of Science, 1993; Doctorate, Weizmann
Institute of Science, 1997
FETZ, EBERHARD * 1975; Doctorate, Massachusetts Institute of Technology, 1966
FROEHNER, STANLEY C * 2000; Doctorate, California Institute of Technology, 1973
GORDON, SHARONA E. * 1993; Doctorate, Brown University, 1993
HILDEBRANDT, JACOB * 1966; Master's, University of British Columbia, 1960; Doctorate, University of
Washington-Seattle Campus, 1966
HILLE, BERTIL * 1968; Doctorate, Rockefeller University, 1967
RIEKE, FREDERICK MARTIN * 1997; Doctorate, University of California-Berkeley, 1991
SANTANA, LUIS F * 2001; Master's, University of Hawaii, 1992; Doctorate, University of Maryland-
University College, 1996
WORDEMAN, LINDA * 1994; Doctorate, University of California-Berkeley, 1988
ZAGOTTA, WILLIAM N. * 1993; Doctorate, Stanford University, 1989

Associate Professors
ADAMS, MARVIN * 2000; Doctorate, Colorado State University, 1991
BARRIA-ROMAN, ANDRES * 2005
HORWITZ, GREGORY * 2007; Master's, Stanford University, 1997; Doctorate, Stanford University, 1999
LIU, QINGHANG * 2011; Master's, Shanghai Medical University, 1997; Doctorate, The University of Tennessee, 2004
MORITZ, CHET T * 1998; Doctorate, University of California-Berkeley, 2003
PERLMUTTER, STEVE I * 1991
SULLIVAN, JANE M * 2002; Doctorate, University of Utah, 1990

Assistant Professors

JENSEN, JILL B , 2003; Doctorate, University of Washington-Seattle Campus, 2008
MURPHY, GABRIEL J * 2004
OLSEN, SHAWN R * 2014; Doctorate, Harvard University, 2009
STOLL, STEFAN * 2011; Master's, Not Provided, 2001; Doctorate, Swiss Federal Institute of Technology ETH Zürich, 2003
TUTHILL, JOHN C * 2016; Doctorate, University of Chicago, 2012
WATERS, DAVID J * 2013; Doctorate, University of London, 1997

Senior Lecturers

LINDER, THOMAS M , 1982; Doctorate, University of Washington-Seattle Campus, 1971
MELBY, ANNA , 1996; Master's, University of California-San Diego, 1987; Doctorate, University of Oregon, 1995

Psychiatry and Behavioral Sciences

Professors

AREAN, PATRICIA A , 2015; Master's, Adelphi University, 1986; Doctorate, Fairleigh Dickinson University, 1991
BEN-ZEEV, DROR Y , 2017; Doctorate, Illinois Institute of Technology, 2008
BERNIER, RAPHAEL * 2001; Master's, University of Wisconsin-Madison, 1996; Master's, University of Washington-Seattle Campus, 2004; Doctorate, University of Washington-Seattle Campus, 2007
BOWDEN, DOUGLAS M , 1969; Medical Doctorate, Stanford University, 1965
BRUNS, ERIC , 2005; Doctorate, University of Vermont, 1997
COLLINS, PAMELA Y , 2018
COMTOIS, KATHERINE ANN , 1985; Master's, University of Maryland-University College, 1990; Doctorate, University of Maryland-University College, 1992
COWLEY, DEBORAH S , 1982; Medical Doctorate, University of Pennsylvania, 1980
DONOVAN, DENNIS * 1981; Master's, Western Washington University, 1972; Doctorate, University of Washington-Seattle Campus, 1980
DUNN, CHRISTOPHER W. , 1993; Master's, University of Florida, 1990; Doctorate, University of Florida, 1994
FANN, JESSE R * 1990; Medical Doctorate, Northwestern University, 1989; Master's, University of Washington-Seattle Campus, 1995
FELKER, BRADFORD , 1997; Medical Doctorate, Virginia University of Lynchburg, 1987
FORTNEY, JOHN C * 2014; Doctorate, University of Iowa, 1992
GRANT, THERESE M. , 1984; Master's, University of Oregon, 1982; Doctorate, University of Washington-Seattle Campus, 1999
HILT, ROBERT J , 2006; Medical Doctorate, University of Rochester, 1996
KAYSEN, DEBRA, 2002; Master's, University of Missouri, 1997; Doctorate, University of Missouri, 2003
LARIMER, MARY E * 1987; Master's, University of Washington-Seattle Campus, 1990; Doctorate, University of Washington-Seattle Campus, 1992
LATTEMANN, DIANNE * 1982; Master's, American University, 1977; Doctorate, University of California-San Francisco, 1981
MC CANN, BARBARA S., 1986; Master's, Rutgers University-Camden, 1982; Doctorate, Rutgers University-Camden, 1984
MC CAULEY, ELIZABETH * 1979; Doctorate, New York University, 1973
MC CLELLAN, JON M., 1984
MCFall, MILES E, 1982; Master's, The University of Montana, 1979; Doctorate, The University of Montana, 1981
MYERS, KATHLEEN M, 1982; Master's, University of Hawaii, 1972; Master's, University of Hawaii, 1979; Medical Doctorate, University of Hawaii, 1979
NEUMAIER, JOHN F. * 1983; Doctorate, University of Washington-Seattle Campus, 1989; Medical Doctorate, University of Washington-Seattle Campus, 1990
PASIC, JAGODA, 1997; Master's, University of Sarajevo, 1983; Doctorate, King's College London, 1990
PESKIND, ELAINE R., 1986; Master's, Washington State University, 1978; Medical Doctorate, University of Washington-Seattle Campus, 1986
PHILLIPS, PAUL EDWARD MACKENZIE * 2004; Doctorate, University of London, 1999
RASKIND, MURRAY, 1970; Medical Doctorate, Columbia University, 1968
RAUE, PATRICK, 2017; Master's, Stony Brook University, 1992; Doctorate, Stony Brook University, 1995
RIES, RICHARD K., 1975; Medical Doctorate, Northwestern University, 1975
ROY-BYRNE, PETER, 1986; Medical Doctorate, Tufts University, 1978
SAXON, ANDREW J., 1982; Medical Doctorate, Tufts University, 1977
SIMPSON, TRACY L., 1997; Master's, University of Phoenix-New Mexico Campus, 1993; Doctorate, University of Phoenix-New Mexico Campus, 1999
SOWDEN, MARK B., 1986; Medical Doctorate, University of Washington-Seattle Campus, 1990
SPELTZ, MATTHEW L., 1981; Master's, Western Washington University, 1975; Doctorate, University of Missouri, 1980
STEIN, MARK A., 2013; Master's, Southern Illinois University, 1978; Doctorate, Southern Illinois University, 1982
SULLIVAN, MARK D. * 1985; Doctorate, Vanderbilt University, 1982; Master's, Vanderbilt University, 1982
SYRJALA, KAREN L., 1985; Doctorate, Boston University, 1983; Master's, Boston University, 1983
THIELKE, STEPHEN, 1990; Master's, University of Washington-Seattle Campus, 1994; Medical Doctorate, University of Washington-Seattle Campus, 2001; Master's, University of Washington-Seattle Campus, 2008
TRUPIN, ERIC W., 1973; Master's, University of Wyoming, 1973; Doctorate, University of Wyoming, 1974
TSUANG, DEBBY W., 1992; Medical Doctorate, University of Iowa, 1988; Master's, University of Iowa, 1992
TURNER, ERIC E * 2009; Medical Doctorate, University of Washington-Seattle Campus, 1986; Doctorate, University of Washington-Seattle Campus, 1987
TURNER, JUDITH A , 1980; Master's, University of California-Los Angeles, 1975; Doctorate, University of California-Los Angeles, 1979

Associate Professors

ANDRE, JALAL B., 2011; Medical Doctorate, Drexel University, 2004
BHUTTA, SADAF, 2013; Medical Doctorate, King Edward Medical University, 1996
BOLUS, DAVID N., 2018; Medical Doctorate, University of Alabama at Birmingham, 1985
BREWER, DAVID K., 1978; Medical Doctorate, Harvard University, 1972
CUEVAS, CARLOS, 2001
DALLEY, ROBERTA W., 1987; Medical Doctorate, University of Utah, 1982
FERGUSON, MARK R., 2004; Medical Doctorate, University of Michigan-Ann Arbor, 2003
FINK, JAMES R., 2005; Medical Doctorate, University of California-Los Angeles, 1998
GROSS, JOEL A., 2000; Master's, University of California-San Diego, 1985; Medical Doctorate, University of California-Davis, 1990
HA, ALICE S., 2009; Master's, University of Pennsylvania, 2003; Medical Doctorate, University of Pennsylvania, 2003
ISHAK, GISELE ELIAS, 2005
IVER, RAMESH S., 2002; Medical Doctorate, New York University, 2005
KAMPS, SHAWN ELIZABETH, 2002; Medical Doctorate, Eastern Virginia Medical School, 2001
KICSKA, GREGORY A., 2009; Doctorate, Yeshiva University, 2003; Medical Doctorate, Yeshiva University, 2003
KLEINHANS, NATALIA M., 2005; Doctorate, San Diego State University, 2005
KOGUT, MATTHEW J., 2004; Medical Doctorate, Ohio State University Agricultural Technical Institute, 2004
KOLOKYTHAS, ORPHEUS, 2002
KWAN, SHARON W, 2011; Medical Doctorate, Stanford University, 2005
LEE, JANIE M, 2013; Medical Doctorate, University of Pennsylvania, 1998; Master's, Harvard University, 2005
LEE, JEAN H, 2004; Master's, Korea University, 2001; Doctorate, Korea University, 2004
Li, TAO, 2012; Doctorate, Southern Medical University (First Military Medical University), 1992
LINNAU, KEN F., 2000
MARCINEK, DAVID J * 2000; Doctorate, Stanford University, 2000
MARGLIN, STEPHEN I, 1980; Medical Doctorate, Yale University, 1968
MEDVERD, JONATHAN R., 1995; Medical Doctorate, New York University, 1995
MONSKY, WAYNE L., 2012; Master's, Georgetown University, 1988; Medical Doctorate, Georgetown University, 1995; Doctorate, Georgetown University, 1995
MOSSA-BASHA, MAHMUD, 2012; Medical Doctorate, University of Toledo, 2005
MULCAHY, HYOJEONG, 2007; Master's, University of Ulsan, 1997
OTTO, RANDOLPH K, 2007; Medical Doctorate, University of Michigan-Ann Arbor, 1985
PHILLIPS, GRACE SIAN, 2002; Medical Doctorate, Johns Hopkins University, 1997
RAHBAR, HABIBOLLAH, 2005; Medical Doctorate, University of Michigan-Ann Arbor, 2005
RELYEA-CHEW, ANNEMARIE, 2004; Master's, University of Florida, 1985; Doctorate, Syracuse University, 1989
ROBINSON, JEFFREY D., 1998; Medical Doctorate, University of Minnesota-Duluth, 1985
ROSENBAUM, DAVID M, 1983; Medical Doctorate, Yeshiva University, 1977
SHEEL, JOHN, 2012; Doctorate, University of California-San Diego, 2005; Medical Doctorate, University of California-San Diego, 2006
SHRIKI, JABI E, 2014
STANESCU, ARTA LUANA, 2006; Medical Doctorate, Carol Davila University of Medicine and Pharmacy, 1994
SWANSON, JONATHAN, 2004; Medical Doctorate, University of Pennsylvania, 2003
TAKASUGI, JULIE E., 1988; Medical Doctorate, University of California-Los Angeles, 1982
THAPA, MAHESH, 2001; Medical Doctorate, University of Southern California, 2000
VAIDYA, SANDEEP, 2004
WANG, CAROLYN L, 2009; Medical Doctorate, University of Texas Southwestern Medical Center at Dallas, 2003

Assistant Professors
ALLISON, STEPHEN K, 1997; Medical Doctorate, University of Southern California, 2007
BASTAWROUS, SARAH, 2009; Medical Doctorate, University of Chicago, 2003
BEHNAIA, FATEMEH, 2006
BRUNNQUELL, CHRISTINA L., 2018; Master's, University of Wisconsin-Madison, 2014; Doctorate, University of Wisconsin-Madison, 2016
CROSS, NATHAN, 2011; Master's, Case Western Reserve University, 2010; Medical Doctorate, Case Western Reserve University, 2010
HOFF, MICHAEL N, 2013; Master's, University of British Columbia, 2006; Doctorate, University of British Columbia, 2012
INGRAHAM, CHRISTOPHER R., 2006; Medical Doctorate, New York University, 2006
JAHANIAN, HESAMODDIN, 2017; Master's, University of Tehran, 2003; Doctorate, University of Michigan-Ann Arbor, 2012
JOHNSON, GUY, 1999; Medical Doctorate, University of Washington-Seattle Campus, 2002; Medical Doctorate, New York Medical College, 2007
KHALATBARI, HEDIEH, 2012
KOO, KEVIN S, 2017; Medical Doctorate, University of California-Los Angeles, 2008
LAM, DIANA LAP YING, 2010; Medical Doctorate, University of California-Davis, 2009
LOWRY, KATHRYN P, 2017; Medical Doctorate, Harvard University, 2011
MADHYASTHA, TARA M * 2007; Master's, University of Illinois at Urbana-Champaign, 1992; Doctorate, University of Illinois at Urbana-Champaign, 1997
MATESAN, MANUELA CRISTINA, 2007; Doctorate, University of Medicine and Pharmacy Victor Babes Timisoara, 2005
MAXIMIN, SURESH T, 2013; Medical Doctorate, Northeastern Ohio Universities Colleges of Medicine and Pharmacy, 1988
MENASHE, SARAH J, 2012; Medical Doctorate, Jefferson College, 2007
MILETO, ACHILLE, 2016
MONROE, ERIC JAMES, 2010; Medical Doctorate, Washington State University, 2009
NGO, ANH-VU HUYNH, 2000
O’MALLEY, RYAN B., 2013; Medical Doctorate, Wake Forest University, 2007
OTJEN, JEFFREY P., 2005; Medical Doctorate, Baylor University, 2005
PEREZ, FRANCISCO A., 1998; Doctorate, University of Washington-Seattle Campus, 2005; Medical Doctorate, University of Washington-Seattle Campus, 2007
PIETRINI, SEAN DAVID, 2017; Medical Doctorate, University of Minnesota-Twin Cities, 2012
RANE, SWATI DI, 2015; Master's, The University of Texas, 2005; Doctorate, Georgia Institute of Technology-Main Campus, 2009
RIPLEY, BETH ANN, 2015; Doctorate, University of California-San Diego, 2010; Medical Doctorate, University of California-San Diego, 2010
SANDSTROM, CLAIRE K., 2007; Medical Doctorate, Duke University, 2006
SHIN, DAVID SUNWOONG, 2011; Medical Doctorate, Stanford University, 2010
SHIVARAM, GIRIDHAR M., 2008; Master's, Harvard University, 2001; Medical Doctorate, Stanford University, 2007
SOLOFF, ERICK, 2017
TANG, ELIZABETH, 2014; Medical Doctorate, Albert Einstein College of Medicine, 2009
WRIGHT, JASON NEAL NIXON, 2007; Medical Doctorate, Chicago State University, 2006

Lecturer
WEAVER, KURT E. * 2006; Master's, Boston University, 2001; Doctorate, Oregon Health and Science University, 2006

Rehabilitation Medicine

Professors
AMTMANN, DAGMAR * 1991; Master's, University of Economics and Managemen, 1982; Master's, University of Washington-Seattle Campus, 1995; Doctorate, University of Washington-Seattle Campus, 2002
APKON, SUSAN D, 2009; Medical Doctorate, University of Vermont, 1994
BOMBARDIER, CHARLES H. * 1989; Master's, Washington State University, 1984; Doctorate, Washington State University, 1987
CIOL, MARCIA A. * 1985; Master's, Universidade Estadual de Campinas (Unicamp), 1982; Master's, University of Washington-Seattle Campus, 1987; Doctorate, University of Washington-Seattle Campus, 1991
CZERNIECKI, JOSEPH M * 1982; Medical Doctorate, University of British Columbia, 1981; Master's, University of Washington-Seattle Campus, 1985
DIKMEN, SUREYYA S * 1974; Master's, University of Michigan-Ann Arbor, 1967; Doctorate, University of Washington-Seattle Campus, 1973
EHDE, DAWN M * 1991; Master's, University of North Dakota, 1989; Doctorate, University of North Dakota, 1992
ESSELMAN, PETER C. * 1986; Master's, University of Washington-Seattle Campus, 1979; Medical Doctorate, University of Washington-Seattle Campus, 1986
FRASER, ROBERT T * 1976; Master's, University of Southern California, 1972; Doctorate, University of Wisconsin Colleges, 1976
GOLDSTEIN, BARRY * 1987; Doctorate, University of California-Los Angeles, 1981; Medical Doctorate, University of California-Los Angeles, 1986
HAFNER, BRIAN * 1996; Doctorate, University of Washington-Seattle Campus, 2003
HALAR, EUGEN M , 1982
HAMMOND, MARGARET C , 1983; Medical Doctorate, Medical College of Wisconsin, 1978
HASELKORN, JODIE K. * 1985; Medical Doctorate, Louisiana State University, 1985; Master's, University of Michigan-Ann Arbor, 1985
HAYS, ROSS M. * 1983; Medical Doctorate, University of Washington-Seattle Campus, 1978
HOFFMAN, JEANNE MARIE * 1999; Master's, Arizona State University, 1995; Doctorate, Arizona State University, 2000
JENSEN, MARK PHILIP * 1987; Master's, Arizona State University, 1984; Doctorate, Arizona State University, 1989
JOHNSON, KURT LEWIS * 1990; Master's, University of Washington-Seattle Campus, 1979; Doctorate, University of Wisconsin Colleges, 1984
KARTIN, DEBORAH * 1984; Master's, University of Washington-Seattle Campus, 1988; Doctorate, University of Washington-Seattle Campus, 1996
KRABAK, BRIAN J * 2007; Medical Doctorate, University at Buffalo, 1993
LITTLE, JAMES WENDELL * 1984; Doctorate, University of Chicago, 1976; Medical Doctorate, University of Chicago, 1977
MASSAGLI, TERESA L. * 1985; Medical Doctorate, Yale University, 1982
MCCOY, SARAH WESTCOTT * 1984; Master's, University of Washington-Seattle Campus, 1979; Doctorate, University of Washington-Seattle Campus, 1993
PATTERSON, DAVID R. * 1984; Doctorate, Florida State University, 1982
TURNER, AARON P. * 1995; Master's, University of Washington-Seattle Campus, 1997; Doctorate, University of Washington-Seattle Campus, 2001

Associate Professors
AL SCHULER, KEVIN N , 2010; Master's, Eastern Michigan University, 2006; Doctorate, Eastern Michigan University, 2010
BAYLOR, CAROLYN RAE * 1987; Master's, University of Washington-Seattle Campus, 1993; Doctorate, University of Washington-Seattle Campus, 2007
BURNS, STEPHEN P. * 1992; Medical Doctorate, Brown University, 1992
CRANE, DEBORAH ANN , 2005; Master's, Tulane University of Louisiana, 2005; Medical Doctorate, Tulane University of Louisiana, 2005
FOGELBERG, DONALD J * 2010; Doctorate, University of Southern California, 2008
FRIEDLY, JANNA L. * 2001; Medical Doctorate, Oregon Health and Science University, 2001
HAKIMI, KEVIN N. , 2000; Medical Doctorate, Wayne State University, 2000
HARNISS, MARK * 1998; Master's, Utah State University, 1990; Doctorate, University of Oregon, 1996
HECKMAN, JEFFREY T , 2012; Medical Doctorate, University of New England, 2006
HOLDEFER, ROBERT N , 2009; Doctorate, Southern Illinois University, 1985; Master's, Southern Illinois University, 1985
JIRIKOWIC, TRACY L. * 1993; Master's, University of Washington-Seattle Campus, 1995; Doctorate, University of Washington-Seattle Campus, 2003
KELLY, VALERIE E * 2003; Master's, Washington State University, 1999; Doctorate, Washington State University, 2003
KINNEY, GREGORY A. * 1997
MACK, DAVID L * 2012; Master's, Indiana University-Bloomington, 1993; Doctorate, Indiana University-Bloomington, 2005
MAITLAND, MURRAY E * 2006; Master's, University of British Columbia, 1989; Doctorate, University of Calgary, 1996
MCGOUGH, ELLEN L. * 1990; Master's, University of Washington-Seattle Campus, 2003; Doctorate, University of Washington-Seattle Campus, 2009
MCQUADE, KEVIN J * 1982; Master's, University of Washington-Seattle Campus, 1986; Doctorate, University of Iowa, 1995
MOLTON, IVAN * 2005; Master's, University of Colorado at Colorado Springs, 2001; Doctorate, University of Miami, 2006
MORGENROTH, DAVID C , 2004; Medical Doctorate, SUNY, 2003
ODDERSON, IB R. * 1985; Doctorate, Indiana University-Bloomington, 1979; Medical Doctorate, Vanderbilt University, 1985
POWELL, JANET M. * 1998; Master's, University of Washington-Seattle Campus, 1998; Doctorate, University of Washington-Seattle Campus, 2001
PRADHN, SUJATA * 2008; Master's, Mumbai University, 2000; Master's, University of Pittsburgh-Bradford, 2002; Doctorate, University of Pittsburgh-Bradford, 2007
RODRIQUEZ, ARTHUR A. , 1999; Medical Doctorate, University of Wisconsin-Madison, 1972; Master's, University of Minnesota-Duluth, 1978
SURI, PRADEEP , 2003; Medical Doctorate, University of Michigan-Ann Arbor, 2002; Master's, Harvard University, 2011
SVIRCEV, JELENA N , 2005; Medical Doctorate, University of Wisconsin Colleges, 2001
WIECHMAN, SHELLEY A * 1994; Master's, University of Arizona, 1994; Doctorate, University of Washington-Seattle Campus, 2000
WILLIAMS, RHONDA M. * 1998; Master's, Arizona State University, 1995; Doctorate, Arizona State University, 1999
Assistant Professors

ASANZA, JUAN L, 2014; Medical Doctorate, University of Cincinnati-Clermont College, 2002
BUNNELL, AARON ELIJAH, 2008; Medical Doctorate, University of California-San Francisco, 2008
CAMPEA, SCOTT J, 2013; Medical Doctorate, University of Pennsylvania, 2003
DASHER, NICKOLAS A, 2017
FELDNER, HEATHER, 2016; Master's, Marquette University, 2000; Doctorate, University of Illinois at Chicago, 2016
FUENTES, MOLLY M, 2008; Medical Doctorate, University of Michigan-Ann Arbor, 2008; Master's, University of Washington-Seattle Campus, 2016
JONES, MARGARET W, 2011
JUNN, CHERRY C, 2014; Medical Doctorate, Boston University, 2010
LAM, NY-YING, 2015; Medical Doctorate, Emory University, 2011
LEE, DANBI, 2018
MARTINEZ, VICENTE, 2008; Doctorate, University of Michigan-Ann Arbor, 2008

KAO, DENNIS SHUN JEN, 1997; Medical Doctorate, The University of Texas Medical Branch, 2003
SOUSA, JANELL DUBBINS, 2004; Medical Doctorate, University of Washington-Seattle Campus, 2009
MONTENOVO, MARTIN IGNACIO, 2004
MANNEL, SAMUEL P, 2005; Medical Doctorate, University of Massachusetts, 2005; Master's,
University of Washington-Seattle Campus, 2009
O'CONNELL, KATHLEEN M., 2015
MARQUARDT, DEBORAH LANE, 2002
CHOW, WARREN, 2017
SHIN, SUSANNA, 2014; Medical Doctorate, Eastern Virginia Medical School, 2002
BERNIER, GRETA VALENTINE, 2008; Medical Doctorate, University of Washington-Seattle Campus, 2008
CHEN-MEEKIN, JUDY Y, 2017; Medical Doctorate, Loyola University Chicago, 2007
FLANAGAN, MEGHAN R., 2010
KIM, TERESA, 2017
KLING, CATHERINE ELIZABETH, 2016; Medical Doctorate, Vanderbilt University, 2009; Master's,
University of Washington-Seattle Campus, 2014
SMITH, CAITLIN A., 2000
SUSARLA, SRINIVAS M, 2016; Master's, Harvard University, 2007; Medical Doctorate, Harvard University, 2007; Medical Doctorate, Harvard University, 2010
WILLIAMS, ESTELL JAMIELA , 2009
ZERN, NICOLE KANSIER , 2010; Medical Doctorate, Emory University, 2010

Urology

Professors
BRANNEN, GEORGE , 1982; Medical Doctorate, Northwestern University, 1969
BURNS, MARK W , 1982; Medical Doctorate, University of Washington-Seattle Campus, 1979
DALKIN, BRUCE L , 2008; Medical Doctorate, Northwestern University, 1985
ELLIS, WILLIAM J. , 1991; Medical Doctorate, Johns Hopkins University, 1985
JOYNER, BYRON DAVID , 1999; Medical Doctorate, Harvard University, 1988
KRIEGER, JOHN N , 1982; Medical Doctorate, Cornell University, 1974
LENDVAY, THOMAS S * 2004; Medical Doctorate, Temple University, 1999
LIN, DANIEL W. , 1994; Medical Doctorate, Vanderbilt University, 1994
MERGUERIAN, PAUL , 2011; Master's, Dartmouth College, 2009
MITCHELL, MICHAEL , 1989; Medical Doctorate, Harvard University, 1969
SWEET, ROBERT , 1997; Medical Doctorate, University of Minnesota-Duluth, 1997
WESSELLS, HUNTER , 2000; Medical Doctorate, Georgetown University, 1988
XIN, LI , 2018
YANG, CLAIRE C , 1993; Medical Doctorate, Vanderbilt University, 1988

Associate Professors
DASH, ATREYA , 2013; Medical Doctorate, University of Vermont, 1998
GORE, JOHN L , 2009; Medical Doctorate, Baylor University, 2001; Master's, University of California-Los Angeles, 2009
HARPER, JONATHAN D , 2009; Medical Doctorate, University of Central Oklahoma, 2003
KIERAN, KATHLEEN , 2015; Master's, Tufts University, 1998; Medical Doctorate, Boston University, 2002
MILLER, JANE L. , 1985; Medical Doctorate, University of Central Oklahoma, 1985
PORTER, MICHAEL , 1997; Medical Doctorate, University of Iowa, 1997; Master's, University of Washington-Seattle Campus, 2001
SHNORHAVORIAN, MARGARETT , 2005; Master's, University of California-Berkeley, 1999; Medical Doctorate, University of California-San Diego, 2000
SORENSEN, MATHEW D. , 2004; Medical Doctorate, University of Colorado Denver, 2004; Master's, University of Washington-Seattle Campus, 2008
SUTHERLAND, SUZETTE E , 2013; Master's, Rasmussen College-St Cloud, 1990; Medical Doctorate, Case Western Reserve University, 1997
WALSH, THOMAS JAMES , 2000; Medical Doctorate, Northwestern University, 2000; Master's, University of Washington-Seattle Campus, 2004
WRIGHT, JONATHAN , 1998; Medical Doctorate, University of Washington-Seattle Campus, 2001; Master's, University of Washington-Seattle Campus, 2005

Assistant Professors
AHN, JENNIFER , 2015; Medical Doctorate, University of Maryland Eastern Shore, 2009
HAGEDORN, JUDITH C , 2014; Master's, Johns Hopkins University, 2004; Medical Doctorate, Stanford University, 2008
OSTROWSKI, KEVIN , 2015; Medical Doctorate, University of Missouri-St Louis, 2009
PSUTKA, SARAH , 2018; Medical Doctorate, Harvard University, 2007; Medical Doctorate, Harvard University, 2007; Master's, Mayo Graduate School, 2015
PSUTKA, SARAH , 2018; Medical Doctorate, Harvard University, 2007; Medical Doctorate, Harvard University, 2007; Master's, Mayo Graduate School, 2015; Master's, Mayo Graduate School, 2015
SCHADE, GEORGE R , 2013; Medical Doctorate, University of Chicago, 2007

Senior Lecturer
MULLER, CHARLES HOLBROOK , 1980; Master's, University of Colorado at Boulder, 1972; Doctorate, University of California-Berkeley, 1976

School of Nursing

Professors
BEKEMEIER, ELIZABETH R. * 1984; Master's, Johns Hopkins University, 1994; Master's, Johns Hopkins University, 1994; Doctorate, University of Washington-Seattle Campus, 2007
BELZA, BASIA * 1991; Master's, Virginia University of Lynchburg, 1982; Doctorate, University of California-San Francisco, 1991
BRIDGES, ELIZABETH * 2004; Master's, University of Washington-Seattle Campus, 1991; Doctorate, University of Washington-Seattle Campus, 1998
BROWN, MARIE ANNETTE * 1982; Master's, University of Washington-Seattle Campus, 1973; Doctorate, University of Washington-Seattle Campus, 1983
BURKE, LORA , 2018
BURR, ROBERT L * 1982; Master's, University of Washington-Seattle Campus, 1978; Doctorate, University of Washington-Seattle Campus, 1986
CHRISMAN, NOEL , 1973; Doctorate, University of California-Berkeley, 1966; Master's, University of California-Berkeley, 1967
COCHRANE, BARBARA B. * 1985; Master's, University of Washington-Seattle Campus, 1986; Doctorate, University of Washington-Seattle Campus, 1992
DEMIRIS, GEORGE * 2006; Master's, University of Professional Education Heidelberg, 1994; Doctorate, University of Minnesota-Twin Cities, 2000
DOUGHERTY, CYNTHIA M. * 1985; Master's, University of Iowa, 1983; Doctorate, University of Washington-Seattle Campus, 1990
EMAMI, AZITA * 2013; Doctorate, Karolinska Institute, 2000
ENSIGN, B. JOSEPHINE * 1994; Master's, Edward Via Virginia College of Osteopathic Medicine, 1986; Master's, Johns Hopkins University, 1992
HEITKEMPER, MARGARET M * 1981; Master's, University of Washington-Seattle Campus, 1975; Doctorate, University of Illinois at Urbana-Champaign, 1981
HOUCK, GAIL M , 2014; Master's, Oregon Health and Science University, 1977; Doctorate, University of Washington-Seattle Campus, 1987
KASPRZYK, DANUTA M. * 1984; Master's, University of Illinois at Urbana-Champaign, 1981; Doctorate, University of Washington-Seattle Campus, 1983
LEWIS, FRANCES M * 1978; Master's, University of Washington-Seattle Campus, 1968; Master's, Stanford University, 1973; Master's, Stanford University, 1974; Doctorate, Stanford University, 1977
PRICE, CYNTHIA * 1999; Master's, Lesley University, 1990; Doctorate, University of Washington-Seattle Campus, 2004
SADAK, TATIANA I * 2008
TAKAMIYA, KRISTINE * 2013; Master's, Columbia University, 2001; Medical Doctorate, Columbia University, 2007
TSAI, JENNY HSIN-CHUN * 1992; Master's, University of Washington-Seattle Campus, 1994; Doctorate, University of Washington-Seattle Campus, 2001
WALSH, ELAINE M. * 1994; Master's, University of California-Los Angeles, 1991; Doctorate, University of Washington-Seattle Campus, 1999
WARD, TERESA M. * 2006; Master's, Drexel University, 2000; Doctorate, University of California-San Francisco, 2006
WEBER, JAMES , 2017; Medical Doctorate, Columbia University in the City of New York,
WILLGERODT, MAYUMI * 2001; Master's, University of Illinois at Urbana-Champaign, 1995; Doctorate, University of Illinois at Urbana-Champaign, 1999
WOLPIN, SETH * 2004; Master's, Oregon State University, 1999; Doctorate, Oregon State University, 2004

Assistant Professors
BARRINGTON, WENDY * 2007; Master's, University of Phoenix-New Mexico Campus, 2005; Doctorate, University of Washington-Seattle Campus, 2012
BLAKENEY, ERIN LINDSEY * 2009; Master's, New York University, 2009; Doctorate, University of Washington-Seattle Campus, 2014
BYUN, EEESEUNG * 2016; Master's, University of Pennsylvania, 2006; Doctorate, University of Pennsylvania, 2013
DELA ROSE, TERESA A. , 1983; Master's, University of Washington-Seattle Campus, 1984; Doctorate, Seattle University, 1993
DRAYE, MARY A * 1982; Master's, University of Michigan-Ann Arbor, 1968
EVANS-AGNEW, ROBIN A * 1994; Master's, University of Washington-Seattle Campus, 1998; Doctorate, University of Washington-Seattle Campus, 2011
GIMBEL-SHERR, SARAH ODELL * 2005; Master's, School for International Training, 1996; Master's, University of Washington-Seattle Campus, 2006
HOOGEN, CAROLE L * 1989
HOWELLS, AMY J. * 2015; Master's, The University of Texas Health Science Center at Houston, 2005; Doctorate, The University of Texas Health Science Center at Houston, 2014
IRIBARREN, SARAH * 2016; Doctorate, University of Utah, 2013
KANTROWITZ-GORDON, IRA * 1993; Master's, University of Washington-Seattle Campus, 1998; Doctorate, Washington State University, 2013
KOHLER, PAMELA K. * 2004; Master's, University of Washington-Seattle Campus, 2006; Doctorate, University of Washington-Seattle Campus, 2012
LARSON, MARGARET L , 1982; Master's, University of Washington-Seattle Campus, 1967
MATTHERWS, SARAH W. * 1992; Master's, University of Washington-Seattle Campus, 1993; Medical Doctorate, University of Washington-Seattle Campus, 2009
MILLER, BENJAMIN , 2017; Doctorate, Washington State University, 2013
O'CONNOR, MARY R * 2009; Doctorate, University of Washington-Seattle Campus, 2013
SONNEY, JENNIFER TEDDER * 2005; Master's, University of Washington-Seattle Campus, 2006; Doctorate, University of Arizona, 2015
TANG, HSIN-YI * 1998; Master's, University of Washington-Seattle Campus, 1998; Doctorate, University of Washington-Seattle Campus, 2004
ZASLAVSKY, OLEG * 2008; Master's, Tel Aviv University, 2007; Doctorate, University of Washington-Seattle Campus, 2012

Senior Lecturers
CHRISTIANSON, PHYLLIS L. * 1988; Master's, University of Washington-Seattle Campus, 1990
JOHNSON, GAIL C. * 1983; Master's, University of Washington-Seattle Campus, 1987; Medical Doctorate, University of Washington-Seattle Campus, 2009

Lecturers
BANASIK, JACQUELYN , 2018; Master's, University of Washington-Seattle Campus, 1983; Doctorate, Washington State University, 1991
CARROLL, MAURA , 2018
CHILDRESS, KRISTEN M * 2010; Master's, University of Washington-Seattle Campus, 2003; Medical Doctorate, University of Washington-Seattle Campus, 2009
CHURCHILL, SHERVIN S , 2008; Master's, University of Miami, 1996; Doctorate, University of Washington-Seattle Campus, 2013
COX, PAULA P. * 1995; Master's, University of Washington-Seattle Campus, 2005; Doctorate, University of Washington-Seattle Campus, 2013
FISCHER, DEIDRE , 2018
GALLAGHER, ELIZABETH , 2018

HUYNH, DOQUYEN LE , 2018
LEE, MEE KYUNG , 2012
MARKS, JESSIE NOEL , 2018
MCKITTRICK, KELLY S , 2009; Master’s, New York University, 1994; Master’s, University of Washington-Seattle Campus, 2011
MORIARTY, ERIN C , 2013; Master's, Sacred Heart University, 2006
RYCHWALSKI, WENDY L , 2018
SKELEY, KATHRYN R. , 2016
SPINGOLA, ALYSSA B , 2018
STANLEY, KATHRYN H. , 2018
WILCOX, MARY M.E. , 2018

School of Pharmacy
Medicinal Chemistry

Professors
ATKINS, WILLIAM M. * 1991; Master's, Harvard University, 1982; Doctorate, University of Illinois at Urbana-Champaign, 1988
NELSON, WENDEL * 1965; Doctorate, University of Kansas, 1965
RETTIE, ALLAN E. * 1984; Doctorate, Newcastle University, 1983

Associate Professors
KUNZE, KENT * 1989; Doctorate, University of California-San Francisco, 1981
LEE, KELLY K. * 2009; Doctorate, Johns Hopkins University, 2001
TOTAH, RHEEM A. * 2002; Master's, University of Kansas, 2000; Doctorate, University of Kansas, 2002

Assistant Professors
GUTTMAN, MIKLOS * 2010; Doctorate, University of California-San Diego, 2009
NATH, ABHINAV * 2003; Doctorate, University of Washington-Seattle Campus, 2008
XU, LIBIN * 2014; Doctorate, University of Illinois at Chicago, 2007

Pharmaceutics

Professors
HO, RODNEY J.Y. * 1990; Master's, The University of Tennessee, 1985; Doctorate, The University of Tennessee, 1987
HU, SHIU-LOK * 1988; Doctorate, University of Wisconsin-Madison, 1978
ISOHERRANEN, NINA * 2003; Master's, University of Helsinki*, 1998; Doctorate, Hebrew University of Jerusalem, 2003
RAGUENEAU-MAJLESSI, ISABELLE * 1999
THUMMEL, KENNETH E. * 1982; Doctorate, University of Washington-Seattle Campus, 1987
UNADKAT, JASHVANT D * 1985; Doctorate, University of Manchester, 1982
WANG, JOANNE * 2000; Master's, University of Illinois at Urbana-Champaign, 1993; Doctorate, University of California-San Francisco, 1998

Associate Professors
COLLINS, CAROL J * 2003; Master's, Ohio State University Agricultural Technical Institute, 1985; Medical Doctorate, Ohio State University Agricultural Technical Institute, 1991
KELLY, EDWARD J * 1991; Master's, University of California-Riverside, 1986; Doctorate, University of Washington-Seattle Campus, 1996
LIN, YVONNE S. * 1997; Doctorate, University of Washington-Seattle Campus, 2002
MAO, QINGCHENG * 2002; Master's, East China Normal University , 1988; Doctorate, Universität Bern, 1995

Assistant Professor
PRASAD, BHAGWAT * 2011; Master's, National Institute of Pharmaceutical Education and Research, 2006; Doctorate, National Institute of Pharmaceutical Education and Research, 2011
Pharmacy

Professors
ANDERSON, GAIL * 1981; Master's, University of Washington-Seattle Campus, 1981; Doctorate, University of Washington-Seattle Campus, 1987
BASU, ANIRBAN * 2010; Master's, University of Toledo, 1997; Master's, University of North Carolina, 1999; Doctorate, University of Chicago, 2004
BAUER, LARRY * 1980; Medical Doctorate, University of Kentucky, 1980
BLACK, DOUGLAS J , 1981; Medical Doctorate, University of Washington-Seattle Campus, 1983
CHAN, LINGTAK-NEANDER * 1994; Medical Doctorate, University of Washington-Seattle Campus, 1996
DEVINE, EMILY E. * 1999; Master's, University of California-San Francisco, 1999; Doctorate, University of Washington-Seattle Campus, 2008
DOWNING, DONALD F * 1982
ELLSWORTH, ALLAN J , 1981; Medical Doctorate, Philadelphia University, 1977
GRAY, SHELBY L. * 1995; Master's, University of Washington-Seattle Campus, 2001
HEBERT, MARY F * 1996
HORN, JOHN * 1978; Medical Doctorate, University of Cincinnati-Clermont College, 1977
ODEGARD, PEGGY SOULE * 1986; Medical Doctorate, University of Washington-Seattle Campus, 1990
STERGACHIS, ANDREAS S * 1982; Master's, University of Minnesota-Duluth, 1976; Doctorate, University of Minnesota-Duluth, 1979
SULLIVAN, SEAN * 1992; Master's, The University of Texas, 1984; Doctorate, University of California-Berkeley, 1992
VEENSTRA, DAVID * 1997; Doctorate, University of California-San Francisco, 1996; Medical Doctorate, University of California-San Francisco, 1996
WHITE, HAROLD STEVE * 2016; Master's, Idaho State University, 1979; Doctorate, University of Utah, 1984

Associate Professors
CARLSON, JOSHUA J. * 2003; Master's, University of Washington-Seattle Campus, 2004; Doctorate, University of Washington-Seattle Campus, 2007
DANIELSON, JENNIFER M , 2007; Master's, Drake University, 1993; Medical Doctorate, University of Colorado Denver, 2009
DODGE, ALLENE M. , 2012; Bachelor's, University of Washington-Seattle Campus, 1981
HAZLET, THOMAS K. * 1996; Medical Doctorate, University of California-San Francisco, 1977; Doctorate, University of California-Berkeley, 1991
ROSE, LYNN M , 1985; Doctorate, Switzerland University of Business and International Studies Geneva, 1981
WEBER, STANLEY S. , 1996; Medical Doctorate, University of Cincinnati-Clermont College, 1975

Assistant Professors
BACCI, JENNIFER LYNN * 2015; Medical Doctorate, University of Pittsburgh-Bradford, 2011
BANSAL, AASTHA A * 2006; Master’s, University of Washington-Seattle Campus, 2008; Doctorate, University of Washington-Seattle Campus, 2011
GRANGER, TRACIE L , 2014
HANSEN, RYAN * 2004; Medical Doctorate, University of Washington-Seattle Campus, 2003; Doctorate, University of Washington-Seattle Campus, 2012
JOHNSON, ERIC S * 1992; Master's, University of Washington-Seattle Campus, 1994; Doctorate, University of Washington-Seattle Campus, 1999
MARCUM, ZACHARY * 2015; Master's, University of Pittsburgh-Bradford, 2011; Doctorate, University of Pittsburgh-Bradford, 2014
O'SULLIVAN, TERESA , 1985; Medical Doctorate, University of Minnesota-Duluth, 1990
REEDER, DAVID C. , 1997; Medical Doctorate, University of Washington-Seattle Campus, 2003
TEAL, KAREN K. , 1995; Master's, University of Massachusetts, 1994; Doctorate, University of Massachusetts, 2000
WERTH, BRIAN * 2013; Medical Doctorate, University of Phoenix-New Mexico Campus, 2010
YEUNG, CATHERINE * 1995; Doctorate, University of Washington-Seattle Campus, 2005

Senior Lecturers
FEAGIN, JEAN E. * 1993; Doctorate, Stanford University, 1982
HAMMOND, DAVID T , 2005
KARP, FLOYD B , 2002; Master's, University of Washington-Seattle Campus, 2002; Doctorate, University of Washington-Seattle Campus, 2008

Lecturers
GRAHAM, DAINA L. , 2005; Master's, University of Oregon, 1977
HAYASHI, ERIC F , 2003; Master's, University of Pennsylvania, 1992
KARWAKI, TANYA E , 1985; Master's, University of California-Davis, 1990; Juris Doctor, University of Washington-Seattle Campus, 1996

Daniel J. Evans School of Public Policy and Governance

Professors
ALLARD, SCOTT W * 2014; Doctorate, University of Michigan-Ann Arbor, 1999
ANDERSON, C. LEIGH * 1984; Master's, University of Washington-Seattle Campus, 1987; Doctorate, University of Washington-Seattle Campus, 1989
ARCHIBALD, SANDRA O * 1900; Master's, University of California-Berkeley, 1971; Doctorate, University of California-Davis, 1984
BOSTROM, ANN * 2007; Master's, Western Washington University, 1986; Doctorate, Carnegie Mellon University, 1990
CULLEN, ALISON * 1995; Master's, Harvard University, 1989; Doctorate, Harvard University, 1992
GUGERTY, MARY KAY * 2001; Master's, Harvard University, 1993; Doctorate, Harvard University, 2001
KLAWITTER, MARIEKA * 1990; Master's, University of Michigan-Ann Arbor, 1983; Master's, University of Wisconsin Colleges, 1986; Doctorate, University of Wisconsin Colleges, 1992
LAYTON, DAVID F * 1990; Master's, University of Washington-Seattle Campus, 1993; Doctorate, University of Washington-Seattle Campus, 1995
LONG, MARK C * 2004; Master's, University of Michigan-Ann Arbor, 1996; Master's, University of Michigan-Ann Arbor, 1998; Doctorate, University of Michigan-Ann Arbor, 2002
MARLOWE, JUSTIN * 2009; Master's, Northern Michigan University, 2001; Master's, University of Wisconsin-Milwaukee, 2002; Doctorate, University of Wisconsin-Milwaukee, 2004
MCCURDY, HOWARD E , 1995; Master's, University of Washington-Seattle Campus, 1965; Doctorate, Cornell University, 1969
THOMAS, CRAIG W. * 2006; Master's, University of California-Berkeley, 1988; Doctorate, University of California-Berkeley, 1997
VIGDOR, JACOB L * 2014; Doctorate, Harvard University, 1999
ZUMETA, WILLIAM M * 1985; Master's, University of California-Berkeley, 1973; Doctorate, University of California-Berkeley, 1978

Associate Professors
EVANS, LAURA E * 2004; Master's, University of Michigan-Ann Arbor, 1996; Doctorate, University of Michigan-Ann Arbor, 2005
FRITZEN, SCOTT A * 2015; Master's, Princeton University, 1996; Doctorate, Princeton University, 2000
HALL, CRYSTAL C * 2008; Doctorate, Princeton University, 2008
HERRANZ JR, JOAQUIN * 2004; Master's, University of California-Berkeley, 1989; Doctorate, Massachusetts Institute of Technology, 2004
HILL, HEATHER D * 2014; Master's, University of Michigan-Ann Arbor, 1999; Doctorate, Northwestern University, 2007

INOUE, LURDES * 2002; Master's, Universidade de São Paulo (USP), 1995; Master's, Duke University, 1998; Doctorate, Duke University, 1999

KOOPERBERG, CHARLES L * 1991; Doctorate, University of California-Berkeley, 1991

KRONMAL, RICHARD A * 1964; Doctorate, University of California-Los Angeles, 1964

LE BLANC, MICHAEL * 1987; Master's, University of Waterloo, 1984; Doctorate, University of Washington-Seattle Campus, 1989

LUMLEY, THOMAS S. * 1995; Master's, University of Oxford, 1994; Doctorate, University of Washington-Seattle Campus, 1998

MAY, SUSANNE * 2008; Doctorate, University of Massachusetts, 2000

MCCLELLAND, ROBYN L. * 1994; Master's, McGill University, 1994; Doctorate, University of Washington-Seattle Campus, 2000

MCKNIGHT, BARBARA * 1981; Master's, University of Wisconsin-Madison, 1979; Doctorate, University of Wisconsin-Madison, 1981

NELSON, JENNIFER L. * 1994; Master's, University of Washington-Seattle Campus, 1996; Doctorate, University of Washington-Seattle Campus, 1999
PEPE, MARGARET * 1982; Master's, University of Washington-Seattle Campus, 1984; Doctorate, University of Washington-Seattle Campus, 1986
PETERSON, ARTHUR , 2016
PRENTICE, ROSS L * 1974; Master's, University of Toronto, 1968; Doctorate, University of Toronto, 1970
RICE, KENNETH M. * 2004; Doctorate, University of Cambridge, 2002
RICHARDSON, BARBRA * 1993; Master's, University of California-Los Angeles, 1989; Doctorate, University of California-Los Angeles, 1993
SELF, STEVEN G , 1984; Master's, California State University-Long Beach, 1977; Doctorate, University of Washington-Seattle Campus, 1981
THOMPSON, MARY LOU * 1982; Doctorate, Universität Göttingen, 1979
WANG, CHING-YUN * 1993; Master's, National Taiwan University, 1985; Doctorate, The University of Texas, 1993
WEIR, BRUCE SPENCER * 2005; Doctorate, North Carolina A and T State University, 1968
ZHENG, YINGYE * 1997; Master's, Washington State University, 1996; Master's, University of Washington-Seattle Campus, 1999; Doctorate, University of Washington-Seattle Campus, 2002

Associate Professors
BRUMBACK, LYNDIA C. * 2001; Master's, University of Wisconsin-Madison, 1996; Doctorate, University of Wisconsin-Madison, 2001
CHAN, KWUN CHUEN GARY * 2008; Doctorate, Johns Hopkins University, 2008
DAI, YU * 2002; Master's, University of Pittsburgh-Bradford, 2000; Master's, University of Minnesota-Duluth, 2002; Doctorate, University of Washington-Seattle Campus, 2007
DI, CHONGZHI * 2010; Doctorate, Johns Hopkins University, 2009
EMOND, MARY JANE * 1987; Master's, University of Washington-Seattle Campus, 1989; Doctorate, University of Washington-Seattle Campus, 1993
FONG, YOUYI * 2004; Master's, Indiana University-Bloomington, 1999; Doctorate, Indiana University-Bloomington, 2000
HOLTE, SARAH E. * 1993; Master's, University of Oregon, 1987; Doctorate, University of Oregon, 1990
HUANG, YING * 2001; Master's, Iowa State University, 1999; Master's, Iowa State University, 2000; Doctorate, University of Washington-Seattle Campus, 2007
JANES, HOLLY E. * 2000; Master's, University of Massachusetts, 2000; Doctorate, University of Washington-Seattle Campus, 2005
KERR, KATHLEEN F. * 2001; Master's, University of Southern California, 1994; Master's, University of Southern California, 1998; Doctorate, University of Southern California, 1999
OTHUS, MEGAN * 2011; Master's, Harvard University, 2006; Doctorate, Harvard University, 2009
POLISSAR, NAYAK LINCOLN * 1980; Master's, Princeton University, 1968; Doctorate, Princeton University, 1974
SHOJAIE, ALI * 2010; Master's, Amirkabir University of Technology, 2001; Master's, Michigan State University, 2005; Doctorate, University of Michigan-Ann Arbor, 2010; Master's, University of Michigan-Ann Arbor, 2010
SHORTREED, SUSAN * 2001; Master's, University of Washington-Seattle Campus, 2004; Doctorate, University of Washington-Seattle Campus, 2006
SUN, WEI * 2017
SZPIRO, ADAM A. * 2006; Doctorate, Brown University, 1999
THORNTON, TIMOTHY * 2009; Doctorate, University of Chicago, 2005
WU, MICHAEL * 2015; Master's, Harvard University, 2006; Doctorate, Harvard University, 2009

Assistant Professors
BOBB, JENNIFER * 2017
CARONE, MARCO * 2013; Doctorate, Johns Hopkins University, 2010
COLEY, REBECCA YATES * 2018
EDLEFSEN, PAUL * 2012; Master's, Harvard University, 2005; Doctorate, Harvard University, 2009
SADINLE GARCIA-RIUZ, MAURICIO * 2017
SIMON, NOAH * 2013; Doctorate, Stanford University, 2013
WILLIS, AMY DONALDSON * 1900
ZHAO, YINGQI * 2017

Environmental and Occupational Health Sciences

Professors
BURBACHER, THOMAS M * 1974; Doctorate, University of Washington-Seattle Campus, 1983
CANGELOSI, GERARD A. * 1985; Doctorate, University of California-Davis, 1983
COSTA, LUCIO GUIDO * 1983
DANNENBERG, ANDREW * 2009; Medical Doctorate, Stanford University, 1979; Master's, Johns Hopkins University, 1983
DE CASTRO, ARNOLD BRIAN * 2006; Master's, Johns Hopkins University, 1998; Doctorate, Johns Hopkins University, 2003
EATON, DAVID L * 1979; Doctorate, University of Kansas, 1978
FAUSTMAN, ELAINE M. * 1981
FENSKE, RICHARD A. * 1990; Master's, Columbia University, 1972; Master's, University of California-Berkeley, 1976; Master's, University of California-Berkeley, 1978; Doctorate, University of California-Berkeley, 1984
FRANKLIN, GARY M. * 1988; Medical Doctorate, George Washington University, 1969; Master's, University of California-Berkeley, 1982
FRUMKIN, HOWARD * 2010; Master's, Harvard University, 1982; Medical Doctorate, University of Pennsylvania, 1982; Doctorate, Harvard University, 1993
GALLAGHER, EVAN P * 1991; Master's, Duke University, 1986; Doctorate, Duke University, 1991
GARLAND, JOHN, 2009; Master's, University of Minnesota-Duluth, 1972; Doctorate, Oregon State University, 1990
GODWIN, HILARY ARNOLD, 2018
JOHNSON, PETER W * 2001; Doctorate, University of California-Berkeley, 1998; Master's, University of California-Berkeley, 1998
KALMAN, DAVID A * 1978; Doctorate, University of Washington-Seattle Campus, 1978
KAUFMAN, JOEL D. * 1988; Medical Doctorate, University of Michigan-Ann Arbor, 1986; Master's, University of Washington-Seattle Campus, 1990
KAVANAGH, TERRANCE J * 1985; Master's, Michigan State University, 1980; Doctorate, Michigan State University, 1985
MESCHKE, JOHN SCOTT * 2002; Doctorate, University of Kansas, 1993; Master's, Indiana University-Bloomington, 1996
PAPPAIOANOU, MARGUERITE, 2016; Medical Doctorate, Michigan State University, 1972; Doctorate, University of California-Davis, 1982
RABINOWITZ, PETER * 1987; Medical Doctorate, University of Washington-Seattle Campus, 1982; Master's, Yale University, 1995
ROBERTS, MARILYN C * 1981; Master's, University of Washington-Seattle Campus, 1977; Doctorate, University of Washington-Seattle Campus, 1978
ROSENFELD, MICHAEL E. * 1982; Master's, University of Vermont, 1978; Doctorate, University of Wisconsin-Madison, 1981
SEIXAS, NOAH S. * 1992; Master's, Harvard University, 1982; Doctorate, University of Michigan-Ann Arbor, 1990
SHEPPARD, ELIZABETH A. * 1989; Master's, Johns Hopkins University, 1985; Doctorate, University of Washington-Seattle Campus, 1992
SIMPSON, CHRISTOPHER DAVID * 2000; Master's, University of Waikato, 1992; Doctorate, University of British Columbia, 1997
VAN BELLE, GERALD, 1982; Master's, University of Toronto, 1964; Doctorate, University of Toronto, 1967
VEDAL, SVERRE * 2004; Medical Doctorate, University of Colorado at Boulder, 1976; Master's, Harvard University, 1983
XIA, ZHENGUI * 1987; Master's, Wuhan University, 1985; Doctorate, University of Washington-Seattle Campus, 1991
YOST, MICHAEL G. * 1993; Master's, University of California-Berkeley, 1984; Doctorate, University of California-Berkeley, 1989

Associate Professors
DOOLITTLE, THEUS LEE, 1982; Master's, University of California-Los Angeles, 1955; Doctorate, University of Southern California, 1963
OTTEN, JENNIFER * 2012; Master's, Tufts University, 1998; Doctorate, University of Vermont, 2009
RIEDERER, ANNE, 2014; Master's, Georgetown University, 1991; Master's, Harvard University, 2000
SETO, EDMUND * 2013; Master's, University of California-Berkeley, 1995; Doctorate, University of California-Berkeley, 2000
SPECTOR, JUNE * 2009; Medical Doctorate, Yale University, 2005; Master's, Johns Hopkins University, 2009

Assistant Professors
BRECKWICH, VICTORIA * 2012; Master's, University of California-Los Angeles, 1993; Master's, University of California-Los Angeles, 1994; Doctorate, University of California-Berkeley, 2005
CUI, YUE * 2014; Doctorate, University of Kansas, 2010
NKYEKYER, ESI WUSIWA, 2010; Medical Doctorate, Yale University, 2010
ONSTAD, GRETCHEN D * 1993; Doctorate, University of North Carolina, 2003
SACK, CORALYNN, 2013

Senior Lecturers
COHEN, MARTIN * 1997; Master's, Harvard University, 1985; Doctorate, Harvard University, 1990
FREEMAN, STANLEY H., 1978; Master's, New York University, 1958
GLEASON, RICHARD, 1997; Master's, University of Washington-Seattle Campus, 1980
Lecturers

AVERILL, MICHELLE M. * 2000; Doctorate, University of Washington-Seattle Campus, 2007
BUSCH ISAKSEN, TANIA M * 2003; Master's, University of Washington-Seattle Campus, 2000; Doctorate, University of Washington-Seattle Campus, 2014
EASTERBERG, CHARLES D, 1982; Master's, University of Minnesota-Duluth, 1969
ERRETT, NICOLE A * 2016; Master's, Johns Hopkins University, 2011; Doctorate, Johns Hopkins University, 2014
SIPOS RANDOR, YONA, 2018

Epidemiology

Professors

ASTLEY, SUSAN J. * 1980; Master's, Oregon State University, 1979; Doctorate, University of Washington-Seattle Campus, 1990
BASEMAN, JANET G. * 1999; Master's, The University of Texas Health Science Center at Houston, 1999; Doctorate, University of Washington-Seattle Campus, 2005
BERESFORD, SHIRLEY A. * 1987; Master's, University of Sussex, 1971; Master's, University of Cambridge, 1973; Doctorate, King's College London, 1981
BOUDREAU, DENISE M. * 1998; Master's, University of Rhode Island, 1996; Doctorate, University of Washington-Seattle Campus, 2002
BUIST, DIANA SM * 1995; Master's, Yale University, 1995; Doctorate, University of Washington-Seattle Campus, 1999
CHEN, CHU * 1984; Master's, Ohio State University Agricultural Technical Institute, 1971; Doctorate, University of Washington-Seattle Campus, 1982
DALING, JANET R, 1982; Master's, University of Washington-Seattle Campus, 1973; Doctorate, University of Washington-Seattle Campus, 1977
