|---|
| Nature of Organization |
| Experimental evolution lab in the UW biology department. Non-pathogenic E. coli are main study organisms. |
| Duties and Responsibilities |
| Dish washing, making media, stocking tips, autoclave loads, and other general lab maintenance tasks. |
| Minimum Qualifications |
| Must be an undergrad student at the UW with work study funding and an interest in biology. Must be able to commit 10 hours per week. Science major and completion/concurrent enrollment in intro bio series strongly preferred. |
| Educational Benefits |
| Laboratory experience including learning basic sterile technique. |
| How to Apply |
| Please submit resume and unofficial transcript. |
