<b>Website</b>	<a href="http://depts.washington.edu/micro/faculty/smith.htm">http://depts.washington.edu/micro/faculty/smith.htm</a>
<b>Box Number</b>	357735

### Nature of Organization

The primary focus of the Smith Lab is to understand the impact of the immune system on non-enveloped virus entry. We are a small lab group located in the heart of the Microbiology Department in the J wing of the Health Sciences Building.

### Duties and Responsibilities

Primary responsibilities are to wash glassware, autoclave lab supplies and lab waste, prepare chemical solutions, and pour agar plates. There are also some lab organization and ordering duties.

### Minimum Qualifications

We are looking for a highly independent individual with good time management skills who requires little supervision. Prefer a freshman through junior who can carry over into next year and who will be available during the summer. A minimum commitment of 8-10 hours a week is required.

### Educational Benefits

Student will become familiar with laboratory operations. If student performs well, they will have the opportunity for an individual research project.

### How to Apply

Please send a resume, including major or pre-major, to Dr. Jason Smith at [jgsmith2@uw.edu](mailto:jgsmith2@uw.edu).
